

HOW MOTHER WAS OBTAINED AMAZING PLOT TO MURDER MRS. BROWN PRISONER OF \$1600 BAIL

Evidence Taken at the Preliminary Hearing at Collingwood of William Brown, Charged With Conspiring to Kill—Defence Calls No Witnesses and Asks for a Dismissal.

Collingwood, Oct. 7.—(From our special reporter.)—Old men crowded and women wept in the shrouded courtroom today when the amazing plot to murder an aged woman was slowly unfolded in all its shocking details. It was the preliminary hearing of William Brown, charged with conspiring to kill his mother that he might secure her life insurance. Magistrate John Nettleton presided, Crown Attorney J. R. Cotter prosecuted, John Birnie, K.C., and W. T. Allan defended, while P. H. Chief Justice and Provincial Detective Greer were present as the sleuths who worked up the case.

At the conclusion of the investigation Magistrate Nettleton announced that he would render his decision tomorrow. The prisoner was released on \$1600 bonds, signed by Robert Wright and William Best. The penalty is 14 years imprisonment.

Crowded to Suffocation.
The case was not submitted until late in the evening. The stuffy little courtroom was suffocating. Men, women and children stood in the aisles, on top of benches and the town urching peeped in thru the transoms of the high doors, all eager to catch every syllable of the sickening story. And right well the curious of the town were repaid, for it was the dullest murder ever devalued by the morbid frequenters of a Criminal Court. Mrs. Brown was over the throne, and a sea of threatening faces confronted the miserable looking prisoner as witnesses recited his proposition to slay the woman who gave him life. The frowning populace became even more morose when Mrs. James Brown, the frail old lady whose life was endangered, tottered into the box, confronted her trembling son and told the hideous story of the efforts to accomplish her death.

Climax of a Rural Drama.
It was the climax of a rural drama in life as startling as any fragment of the playwright's imagination, in which the characters are the people of Collingwood. Whether overwhelmed by the conflicting emotions which the wretched story of the intended matricide provoked, or melted by the pathetic picture of a mother accusing her son, Brown buried his face in a handkerchief and sobbed. The aged woman, as if oblivious of the presence of the onlookers, character of her feet, related the details with stoicism. Apparently the mother suffered little pain from the unnatural position in which she was placed, conducting herself in a manner that indicated that she had long since passed the period where she felt the pangs of a son's cruelty or a child's neglect.

The Chief Witness.
The complaint charged conspiracy to murder Mrs. Brown, Sept. 1. John Rose was the chief witness, the others merely tending to corroborate his story—and such a story. The tall figure of the perspiring, white-haired old man in the witness-box, telling the details, showing conclusively that at the best he was Brown's accomplice, left such an unfavorable impression upon the crowd that, as he stepped from the box, he was met with dark looks. Sometimes he appeared rational and again almost idiotic.

Did it ever occur to you that you ought to be tarred and feathered for your despicable part in this affair? inquired Mr. Birnie of Rose as he closed a meretricious cross-examination. Rose did not hear him; if he did, he did not reply. The old man shamelessly asserted that he pretended to accept the commission to murder Mrs. Brown that he might write a book. He was entitled to all the money he could get, for he was saving the mother from her son.

At the conclusion of the Crown's case the defence announced no evidence would be offered and asked for a dismissal because the complaint charged conspiracy and the law did not require a conspiracy unless more than one person was involved. The Crown then requested permission to amend the complaint, but permission was refused. During the trial the clashes between the lawyers were keen and quick. Mitchell, the President of the United States for them to return to work and investigate afterwards, and will the mine operators be able to carry out their promise to produce enough coal to relieve the situation if given the protection of the full military power of the State?

After a most careful inquiry among district officers present, and the rank and file of mine workers, it was found that sentiment is strongly against accepting the President's proposition in its present form. As to the other feature of the situation as it exists to-night, opinion is divided, and will remain so until the real test comes. The President's message to Mr. Mitchell became known here this afternoon, and it was earnestly discussed by the striking miners and citizens generally. It is positively known to those who are close to the officers of the union that President Mitchell and his district presidents have all along been opposed to the men returning to work without some concessions, but whether they are still so inclined with the President appealing to them cannot be officially stated. It is reasonably certain, however, that they are still opposed to such action.

Next Have Concessions.
An officer of the union now in the city, who does not care to be quoted, is of the opinion that the miners are not ready to return to work without a single concession, especially when the miners see victory almost at hand. The hard coal diggers of Pennsylvania have gone into the fight to win and they would not be doing justice to themselves or to the great body of organized workers throughout the country, and other persons who have been and are financially assisting in the present struggle if they returned to work without such concessions.

Words of praise for him. However, they feel that after sacrificing every thing for the last five months they consider unfair for anyone to ask them to return to work without a single concession, especially when the miners see victory almost at hand. The hard coal diggers of Pennsylvania have gone into the fight to win and they would not be doing justice to themselves or to the great body of organized workers throughout the country, and other persons who have been and are financially assisting in the present struggle if they returned to work without such concessions.

Tremendous Interest Manifested in the Effect the Presence of 10,000 Troops Will Have on the Production of Coal—It is Up to the Operators to Mine Coal, But They Wait to Discover What the State Proposes to Do.

Wilkes-Barre, Pa., Oct. 7.—The two principal features of the anthracite coal strike which claimed public attention in the coal fields to-day were: Will the miners yield to the desire of the President of the United States for them to return to work and investigate afterwards, and will the mine operators be able to carry out their promise to produce enough coal to relieve the situation if given the protection of the full military power of the State?

After a most careful inquiry among district officers present, and the rank and file of mine workers, it was found that sentiment is strongly against accepting the President's proposition in its present form. WASHINGTON, Oct. 7.—The following statement was made public at the White House this afternoon: "On Monday, Oct. 6, Hon. Carroll D. Wright, Commissioner of Labor, went to Philadelphia and gave to Mr. John Mitchell the following from the President: "If Mr. Mitchell will secure the immediate return to work of the miners in the anthracite regions the President will at once appoint a commission to investigate thoroughly into all the matters at issue between the operators and miners, and will do all within his power to obtain a settlement of those questions in accordance with the report of the commission." "Mr. Mitchell has taken this matter under consideration, but the President has not yet been advised of any decision."

Mayor Howland Prepares a Petition to Be Sent to Ottawa to Ward Off Danger.

NO MENTION OF CIVIC GAS PLANT

Canadian Government Should Take Measures to Acquire Portion of the Coal Mines.

There is a general awakening at the City Hall in regard to the seriousness of the fuel situation, and the Mayor and aldermen are beginning to realize that dire distress is threatened in this city unless something is done at once preparatory to relieving the conditions which are now anxiously anticipated when Jack Frost comes upon us for his annual visit. Some opinions are to the effect that the aldermen displaying the energy are contemplating the coming elections, but nevertheless it is thought it would be far better to elect them all than have the fuel famine which is already a great hardship to citizens in human circumstances, and may result in a panic in a couple of months unless the famous advice of ex-Mayor Kennedy to "act promptly" is followed out by the people's representatives.

Diagnose It This Afternoon.
The matter will be discussed by the Board of Control this afternoon, and the members of the special committee appointed at the instance of Ald. Sheppard a couple of weeks ago will exchange ideas with the controllers. The special committee is composed of Ald. Sheppard, chairman; the Mayor, Ald. Fleming, Lamb, Hubbard, Woods and Lynd. They were appointed to confer with the Board of Trade and consider what steps can be taken to guarantee that there will be no shuttling in fuel to Toronto as possible thru want of fuel this winter.

The Mayor has prepared a petition to the Governor-General, which will doubtless be endorsed by the meeting and circulated and as soon as possible it will be forwarded. His Worship, as President of the Union of Canadian Municipalities, will ask that he be authorized to send a printed copy to all the municipalities at the earliest possible date, and that they be asked to send it in the name of their particular municipality to His Excellency.

The City's Petition.
The petition reads as follows: To His Excellency the Governor-General of Canada in Council: The humble petition of the Mayor and Corporation of the City of Toronto, and of the undersigned citizens, thereof, humbly sheweth: That the people of this municipality are in a state of dire distress during the coming winter on account of the high prices demanded for fuel. That it is believed that this is not due to any deficiency in the available supply of bituminous coal, but on account of the sources of such supply being concentrated in the hands of a small number of owners, who are instead of exacting an unnecessarily high price for their product. That it appears, therefore, to your petitioners that the time has come

RODNEY MURDER CASE.
Evidence Taken Leaves No Doubt That King Will Be Committed.
Rodney, Oct. 7.—Today, before Police Magistrate Glenn of Rodney, the preliminary investigation of Charles King, for the murder of William Freeman, was commenced. Crown Attorney Deane prosecuted, and W. L. McLaughlin defending the prisoner. It will be remembered that, at that time, King stated that Willie Freeman had shot himself, but later, James W. Murray secured a confession from King. To-day, the evidence went to show that the gun was not in the hands of Willie Freeman when the shooting occurred. The nature of the wound, the shot having entered in the boy's head, and the absence of powder marks, corroborated King's confession. The case was adjourned for tomorrow afternoon. That King will be committed, there remains no doubt.

FINE.
Meteorological Office, Toronto, Oct. 7, 1902. A few showers have occurred in Ontario and Quebec, but the weather in Canada generally has been fine and in the Territories and Manitoba quite warm. Minimum and maximum temperatures: Dawson, 26-36; Victoria, 48-58; Calgary, 36-48; Medicine Hat, 32-72; Qu'Appelle, 38-72; Winnipeg, 30-64; Harry Ross, 44-52; Toronto, 44-60; Ottawa, 46-80; Montreal, 46-64; Quebec, 42-62; Halifax, 56-72.

Probabilities.
Lakes and Georgian Bay—North-west to southwest winds; sea; not much change in temperature. Ontario and Upper St. Lawrence—Moderate to fresh northwest to west winds; fair and comparatively dry; a little cooler. Lower St. Lawrence and Gulf—Fresh southwest to northwest winds; a few showers, but mostly fair and a little cooler. Maritime—Moderate to fresh south to west winds; partly fair, with some showers. Lake Superior and Manitoba—Fine; not much change in temperature.

NO NECESSITY FOR RUSHING SOLDIERS TO THE COAL MINES

BUT THIS AFTERNOON 9000 NEW TROOPS WILL BE ON GUARD

Governor Stone Denies That He Ordered Out the Entire State Militia on the Request of President Roosevelt—Unions Will Hold Mass Meetings to Express Their Feelings.

Philadelphia, Oct. 7.—The officers of the State National Guard, having decided that the situation in the coal region was not so serious as to necessitate rushing the soldiers from their various local headquarters, no effort was made to move them to-day. Governor Stone's order for the entire militia of the State to be sent to the anthracite region, however, will be carried out to-morrow. To-day was spent at the various armories in preparing for the departure, and official orders were issued, designating the time each regiment should leave and also assigning the locality to which the different commands shall proceed. Therefore, by to-morrow afternoon the 9000 Guardsmen of the State, including those that have been on duty in the region for several weeks will have arrived in the anthracite region ready to give protection to the workmen and their families to mine property and to miners who desire to work.

RAILWAY CHARGES ON CORDWOOD

This is a very good time for the public to find out why it is that Ontario which is a land of plenty so far as cordwood is concerned, is not able to burn more wood than she does and is, as a matter of fact, dependent for fuel on the coal beds of Pennsylvania and other States in the Republic adjoining.

HOW MOTHER WAS TO DIE

Continued From Page 1. his remarkable story as a hero. He met Brown while working as an insurance solicitor, appeared to accept a proposition to murder his mother, coolly discussed with him whether she should be thrown into the lake or poisoned, and then took the aged woman to Toronto as if in pursuance of the agreement of which he had made the most of the money from the life insurance policy.

Joseph Rose Testifies. Joseph Rose of Collingwood, nephew of the Toronto insurance agent, was the first witness. He is the engineer of the water works, where the prisoner was employed. He had seen his uncle and Brown in conversation about five weeks ago at the works.

Letter Book Copied. The following is the letter Book copied for Rose, Sept. 23, 1902. Dear Sir, I have been thinking of you very much since you left me in Collingwood first of week. I want to remind you that what you promised to do for me was to get me a letter from your mother.
