SPECIAL BROUWER CALLED TO CABINET BERNERD THE RAILWAY COMMISSION

Ottawa, Jan. 7.—(Special.)—Important results attended the meeting of the cabinet to-day. Every Minister with the exception of Sir Frederick Borden was present. Unanimous assent was given to the election this year was given, to a difference of opinion regarding the best date will necessitate another cabinet meeting to-morrow to fix it definitely. The majority opinion favors a day in the last week of February, but that may be changed to-morrow when the matter comes up.

MATTER TO BE SETTLED TO-DAY

Ottawa, Jan. 7.—(Special.)—Important results attended the meeting of the cabinet to-day. Every Minister with the exception of Sir Frederick Borden was present. Unanimous assent was given to the election this year was given, to a difference of opinion regarding the best date will necessitate another cabinet meeting to-morrow to fix it definitely. The majority opinion favors a day in the last week of February, but that may be changed to-morrow when the matter comes up.

Russia's Reply Not Enough War Cloud Looming Large

N.W. Demands Made That It Is Impossible to Entertain.

London, Jan. 8.—(Special cablegram from Tokyo, printed to-day, agree in believing Russia's reply unsatisfactory. It appears that the note which has been still undelivered, as Baron Rosen, the Russian Minister, has not yet received from the Japanese Foreign Minister, visited the Russian Legation at Tokyo, is still drawn from the fact that no ministerial conference at Tokyo is fixed for to-day.

UNITED TRADES COUNCILS HOLD INAUGURAL MEETING

98 "Locals" Represented in New Body and Mutual Constitution Will Be Drafted.

Fifteen thousand organized labor men of Toronto are now affiliated and governed by one grand body. The inauguration of the United Trades Councils was consummated at a meeting in St. George's Hall last night, at which delegates from the various councils in the city were present. President Simpson of the Toronto District Council presided, about two hundred delegates being present.

CHAMBERLAIN MAY WIN FIRST TIME, SAYS FOSTER

Entertains National Club With Personal Experience in Imperial Preference Campaign.

Imperial preference, the demand of Canada for treaty-making power were reciprocity with the United States were the theme of Hon. Geo. E. Foster's discussion before the National Club last night. In a word, he declared that his experience in the United Kingdom was that Mr. Chamberlain's policy had stirred the people of Great Britain as they have never been awakened before; that it is impossible for a democracy to have treaty-making power, and that it is better for Canada to break away from the idea of reciprocity and confine her trade relations with England, whose markets she will always find open on friendly terms. This was the substance of Mr. Foster's address, accompanied by many interesting anecdotes of his campaign for Chamberlainism, recently concluded.

FREEZE OUT SALE

TO-MORROW MORNING AT 8 O'CLOCK SHARP

We start our Semi-Annual Clearing Sale. We have named this one our "Freeze Out Sale," not so much to be odd as with the determination of "freezing out" every winter garment in our store at and below zero prices. Please bear in mind that the word ZERO means cost and BELOW ZERO will mean below cost. We mean to make this sale the largest in our history, and if money-saving prices will do it we are bound to win.

Here Are the Freeze-Out Values:

- \$7.00 Men's Tweed Suits, \$3.69**
50 Men's Dark Tweed Suits, with neat stripe, sizes 36 to 44, regular 7.00 suits, Freeze-out Price **3.69**

Our great Freeze-out Sale will last for three weeks. We expect to sell a lot of goods. We should, because the prices are more than right. We haven't enough room in this one ad to tell you of all the snags—but from day to day will give you bargain news that is good news for you. Orders by mail filled as soon as received. Be on hand early, because when WE make a sale it's no bluff, and you can rely upon finding the goods just as we state they will be.

All Gents' Furnishings at Zero Prices, Many Lines Below.

OAK HALL Toronto's Best Clothiers, 115 King St. East. J. Coombes, Mgr.

Large Corundum Corundum Mill, Nearing Completion

Ontario Now Becomes Chief Source of Abrasive Supply and Great Things Are Expected.

Mr. G. A. Overstrom, a prominent Swedish mining engineer, is at the King Edward, having come to Toronto from Vancouver, British Columbia, where he has been supervising the erection of the large mill that the Canada Corundum Company has erected at that place. Mr. Overstrom states that this mill, which is virtually completed, and which will be in operation in about two weeks, is larger than any one concentrating mill in British Columbia, or, indeed, in Canada. Its initial capacity will be 340 tons per day. He states that in ordinary concentrating mills 70 per cent concentration is sufficient, but with corundum it must be got about 88 per cent, pure, and this necessitates a mill almost twice the size of what would otherwise be necessary. The mill has been built on the unit system, and its capacity can readily be increased to four or six hundred tons, with very small expenditure. The capacity of the crushers already installed is much over this amount. The ore is blasted out in large masses and is usually fed to three crushers that reduce it to about an inch in diameter. From these crushers it travels to six sets of crushing rolls that reduce it until it is fine enough to concentrate. These rolls were especially designed by Mr. Overstrom and Mr. G. F. Hartley, the superintendent of the Canada Corundum Company, and are the most striking feature of the mill. Mr. Overstrom says they are the heaviest and most powerful ever built in America, and they have several features for which patents have been applied for. Their weight exceeds that of the crushing rolls of the best Montana mill of Montana by several tons. These rolls, like most of the other machinery, are already in position, and some idea of their power can be gained when one is told that a stick of hardwood that was laid on through them came out almost like a sheet of paper. From the rolls the ore goes to sets of revolving screens that reduce it to rows of concentrating tables. There are twenty-eight of these, and they have a capacity of from 10 to 15 tons each. They separate the corundum from the rock by means of the difference in specific gravity. After the corundum has been separated it is carried into bins, where it is allowed to drain. The concentrating process is a wet one, and thousands of gallons of water will be constantly pumped all through the mill. After having drained, the corundum is carried by a conveyer to a grader building, known as the grader building. Here it is dried, carefully sized and put into 100 pound bags, ready for shipment. The daily output of the mill will be worth from \$2000 to \$3000. A railway runs all the way on the Canada Atlantic Railway. The mill is built upon the hillside. The ore is carried up by a conveyer at the top and gradually works its way down by gravity until it comes out as a finished product. Mr. Overstrom says that the Craig Mine is not properly speaking a mine at all, but a quarry, or rather a series of quarries. The last blast he witnessed blew down probably between 400 and 450 tons. He says it is somewhat remarkable that there should be such a large amount of ore exposed to view, but that has been a deposit of magnetite iron ore in the north of Finland that probably equaled it in size. Overstrom has seen some very small, but they are several small deposits on the Madawaska River below the Palmer Rapids, which the company now has a couple of gangs of men doing some development work. Some of the ore is almost transparent enough to be used as a gem. Some of the crystals are of red color, but they are quite opaque, and he thinks there is a little corundum in the deposit below the Palmer Rapids and no doubt there are likely to be found there.

Four years ago, what is the village of Crazeport was built. It now has a population of about 100 people, and is built up by electric lights. In years to come ore could be cheaply brought by rail to the village, and the village would be a good one. Overstrom says that Ontario will soon have a commanding position in the production of abrasives as she has in the production of nickel.

MISSING HEIRSS FOUND.
Mobile, Ala., Jan. 7.—Ethel Rovelle, the alleged heiress to a fortune of \$8,000,000, is in this city. She says that she came here from Meridian, Miss., two weeks ago, and that she has been in hiding ever since. She says that she left Meridian, where she was visiting her uncle, J. M. Husky, of her own accord, and has not been in Birmingham or New Orleans since the left Meridian. She is undetected.

SEALS FOR LAKE SUPERIOR.
Marquette, Mich., Jan. 7.—Senen Maloyff, a Russian sealer, is trying to organize a company to stock Lake Superior with fur-bearing seals. He has been making an examination of the coast and says that the Apostle Islands, Isle Royale and the rocky shores of the lake would be ideal breeding grounds for the seal. He figures that 10 males and 10 females would increase in 20 years, and that there should be large profits in the business. He believes that governmental regulations could be imposed thru agreement with Canada.

MOUTHFUL OF PEARLS.
Baldwin, Mich., Jan. 7.—C. Henderson, a real estate dealer, made a most interesting while dining on oysters. He placed an order in his mouth, which was entirely forgotten. On examination he had ever tasted contain 140 pearls, varying in size from 1/16 to 1/2 inch. He says that he had been eating oysters for many years, but had never realized several hundred dollars from them.

World Not So Large, After All.
Cookstown Advocate: The awful catastrophe in the Ironstone Theatre, Chicago, that seemed to us to have happened so far away, touched some of us more nearly than we thought. In the list of victims, a name of mine, Alexander McWilliams, Cousland, and nephew of Mrs. James McLeod, of Bradford. Mr. Kieley will be remembered by many of our citizens, as he was a teacher in the Normal School, and was a resident in St. Louis, Mo., but was on a visit to friends in Chicago.

TO CURE A COLD IN ONE DAY.
Lestive Bronchitis Tablets. All druggists refund the money if it fails to cure. W. W. Gove's signature is on each box.

Trust Funds To Loan

The Corporation has a constant supply of Trust Funds to loan at lowest current rates of interest on mortgages of real estate.

Correspondence and personal interviews are invited.

The Toronto General Trusts Corporation
60 YONGE ST. TORONTO.

WILL HAVE AN ARCHIVE.

W.C.H.S. Decide to Adopt Here Lord Rosebery's Suggestions.

The Women's Canadian Historical Society held its regular meeting yesterday afternoon, Lady Edgar presiding. About sixty members were in attendance. It was announced by Lady Edgar that \$3000 had been collected to date for the erection of a Queen Victoria memorial hall, and the speaker requested that general suggestions be offered concerning ways and means of supplementing the fund, expressing her belief that \$1000 could be raised yearly toward the desired object.

A paper read by Miss Fitzgibbon, "Early Travelling in Ontario," dealt with the experiences of the pioneers in the exploration of the province. Letters from Sir Wilfrid Laurier, R. W. Miles and Prof. Mavor, acknowledging the receipt of the society's annual report, were read; also a communication from the Belleville Historical Society, expressive of its appreciation of the topographical sketch of Belleville included in the report.

It was announced that Mrs. James Bain, who thru illness was unable yesterday to attend the "Publications Relating to Canada," as had been arranged, will do so at the society's next meeting.

The engagement of offices in the Union Building, Toronto-street, by Miss Fitzgibbon, to be used as an archive for the documents, books and papers belonging to the society, met with general approval.

COUNTRESS HADN'T ANSWERED YET,
But Police Are Quite Certain of Miss Stuart's Identity.

There was no surprise yesterday in the case of Archibald Edward Stuart, who isjourning with Governor Van Zant, over the Don, as a vagrant. That the man looked up as Stuart and the person who married the Countess of Russell under the name of Archibald Stuart De Modena are one and the same the police believe to be a remarkable fact pointed out by Mr. Kelle's that of the 2000 children who have been taken in charge, many of them coming from the lowest surroundings, not one can be found in any prison or penitentiary. Another noticeable feature is that the percentage of deaths among these children is remarkably low for the year out of the total number.

PEOPLE'S CAFE FOR JUNCTION.
Requests Have Been Made and One Will Be Located There.

The passing of the local option bill has caused residents of the Junction to the inconveniences that will accrue from the elimination of the bar-room. In the way of toilet inconveniences that will be removed, as well as the facilities afforded for meeting together for chat and social intercourse. Secretary Tombs of the People's Cafe is in receipt of various requisitions from Junctionites asking that one or more cafes be established there, and Mr. Tombs it is learned that a suitable site is being looked for.

Atlas Loan Argument.
The Atlas Loan Co. case was adjourned yesterday till next Thursday. J. B. Davidson, counsel for the bank, telegraphed that he was ill in bed. Judge Hodgins will hear the case on Jan. 14, as is now arranged. Valued made to purchase securities which were not within the company's powers were void. Arguments as to the liabilities of contributors, either orally or in writing, must be presented no later than Wednesday, Jan. 13, at 11 a.m., and the Master will not be further argument after that date, but will proceed to give his decision. The three lenders for securities received will be referred to the liquidators.

Recommended Mercy for a Grifter.
New York, Jan. 7.—After deliberating 45 minutes today a jury found former Congressman Edward J. Drives guilty of accepting money, while a member of Congress, from a contract between a private contractor and the government. The jury recommended mercy. The extreme penalty was not recommended.

Robert H. Mantell, one of the greatest dramatic actors, will come to Toronto. His latest work, "The Light of Other Days," a strong semi-historical drama, emotional and laugh-provoking, is planned to be the most sentimental school play, and all through there is a strong heart interest.

Miss Virginia East, the star of "Sergeant Kitz," arrived in Toronto last night. The New York train was delayed, and she did not reach the theatre until after 10 o'clock—too late to go on. She will appear in the role of Sergeant Kitz tonight, however, and at the remaining performances. The little comedienne is in the best of health.

Next week a pretty and pleasing extravaganza will be put on at the Star Theatre under the title of "The Moonlight Mad." The show, it is claimed, will prove a decided novelty. In the vaudeville houses for many reasons, one being that the entire cast is in two acts, with a "turning story" running all thru. From the title of the extravaganza it is evident that the plot is full of bright, catch music.

ATTENTION

Should be paid to the typewriting sent out of one's office. The only typewriter which gives a constant, perfect alignment is the visible writing **Underwood** "It's a perfect machine." **United Typewriter Co. LIMITED.** 79 West Adelaide Street, TORONTO. Sole Agents.

CARE OF DEPENDENT CHILDREN.

Gratifying Report of the 27 Children's Aid Societies in Province. The Department of Neglected and Dependent Children of the Province has prepared its twelfth annual report. It presents a highly gratifying state of affairs. There are 27 children's aid societies actively at work, in addition to a number of committees in rural sections. During the past year, homes were found for 220 children from infancy up to 19 years, and 1400 children were placed in foster homes. A remarkable fact pointed out by Mr. Kelle's is that of the 2000 children who have been taken in charge, many of them coming from the lowest surroundings, not one can be found in any prison or penitentiary. Another noticeable feature is that the percentage of deaths among these children is remarkably low for the year out of the total number.

Hotel Chamberlin

Old Point Comfort, Va. The situation, as well as the appointments of this famous hotel, is so perfectly conducive to recreation and service of unsurpassed excellence.

HAMPTON ROADS

Missed Trust Funds.

Freehold, N. J., Jan. 7.—A. C. Twining, president, and D. C. Cornell, treasurer, of the defunct Monmouth Trust Company of Asbury Park, who were convicted of misusing funds of the William Mills estate, of which the trust company was executor, were today sentenced by Judge Hestley to three years each at hard labor in State prison. The men were admitted to bail.

He Was Lucky.

Temiscaming Gazette: A. Geloska came very nearly being out \$100 in bills, besides some cheques, Thursday evening. He was skating on the Waibe with the money in his pocket and accidentally walked it out when taking his hands out of his pockets. He did not discover his loss for some time, when a search was instituted and the money found.

Painted a Winnipeg Justice.

Winnipeg Free Press: The portrait of Chief Justice Duffin, by J. W. L. Forster of Toronto, has been hung in the Assize Court room at the court house. Mr. Forster was in Winnipeg during the summer, when His Lordship gave him the sittings. The portrait is a full life size.

A CRISIS IN THE WORLD'S HISTORY.

That there are some powerful influences at work to prevent an outbreak of hostilities between Japan and Russia is most likely. The chilled nations of Europe, to speak merely of their material interests, have reason to be alarmed at the fearful calamity to which a war in the Far East might be merely introductory. On the part of Russia the war would be fought with French money, and the possibility of immense losses that would follow the impairment of these securities cannot be regarded as a trifling consideration by the French government. Even if not moved thereby by humane considerations, the statement of France would be impelled to bring the heaviest pressure to bear on their Russian ally on political and economical grounds.

While it might not be impossible, nor even difficult, to localize a war between Russia and Japan, it neither of the belligerents should become otherwise involved, the latter eventually is not so remote as to be negligible. Complications of a more or less serious character are certain to arise in the Near East at the close of this winter. The Macedonian question is sure to be reopened in some form, and if Bulgaria and other Balkan States should perceive in Russia's preoccupation elsewhere their opportunity to play high politics on their own account the long deferred Turkish problem would assume a critical aspect. The compromise between Russia and Austria, which regard themselves as "Eastern Powers," is bound to be broken up, and the Ottoman Empire in Europe should come in sight. A disagreement between these two powers would make the obligation of France to assist her ally fall due; Russia would be confronted simultaneously by two enemies even tho' on entirely unrelated grounds of dispute. And if France should attempt to force the Austrian Emperor could call upon the other members of the Triple Alliance.

The ultimate developments of a war in the Far East, moreover, cannot be foreseen. It might inaugurate the inauguration of a nation of China; in fact, the suppression of the Chinese as a nation would be as essential to the security of Russia's position as the defeat of Japan. On the other hand, the Chinese, if Japan should be successful the spectre of the "Yellow Peril" might be called from the vast deep in order to furnish a pretext for another such joint venture. The Chinese, after the Shimonoseki war, were either the partition of China or a joint intervention hostile to Japan would provoke an immeasurably greater quarrel than the one now impending. In the background, however, are the divisions of the European cabinet to pacificatory action, and characterize the present as one of the momentous crises in human history. The debarring feature of the difficulty of reaching a settlement between Russia and the United States, if a settlement of the immediate grounds of difference should be effected by the eleventh hour, the result would be merely a precarious truce. The fundamental causes of disagreement would remain.

JUSTICE AS WELL AS GYMNASIUMS.

How One of "the Force" Explains Causes for Dissatisfaction Said to Exist in Police Department.

The announcement that the physical exercises would commence in the Y. M. C. A. "gym" next Tuesday was not received with much grace by the police force. Nearly all the members are strongly opposed to doing gymnastics. The great objection, they claim, is that the time spent in going to and from the gymnasium, and the time exercising interfere with their sleeping hours, especially if they have a case in the police court which requires their presence. The police, however, realize that the powers that be are in favor of these exercises, and that the only thing they can do at present is to grin and bear it and take their medicine. In doing gymnastics, however, is not the major cause of the discontent and growing dissatisfaction among the police. The real cause is the fact that the police force is overpaid. The police force is overpaid, and the police force is overpaid. The police force is overpaid, and the police force is overpaid.

CANADA'S MORMON POPULATION PROSPEROUS AND GOOD CITIZENS

Colony in Manitoba Most Successful in World and Results Have Been Encouraging.

It will surprise many to hear that the Mormons are enthusiastic observers of Christmas and all its customs. Elder John H. Archibald of Cardston, Alberta, who is residing at 205 East Queen street for the winter, and with Elder Richard H. Stone of Grass Creek, Utah, is engaged on a mission for the Church of the Latter Day Saints, assured the World yesterday that such was the fact. "Yes, we observe Christmas, and believe in celebrating it in the heartiest fashion. Christmas is held among the Mormon people as a sacred day. We follow the gospel teachings in regard to the birth of Christ, and our singing parties use the ordinary Christmas hymns. The Sunday Schools give prizes at Christmas time to the children, and we make no difference in regard to what sect they belong to. For the general public we usually have a Christmas Tree or a Fish Pond. Flaming pudding and the other seasonal things are as popular with us as with other people. Every year at Christmas time we give a dance to the children, and this is one of our favorite gatherings."

Mr. Archibald is a native of Cash Valley, Utah, but came to Canada with others from that district, and now an exceedingly well contented Canadian. "The government invited us over," he said, "and having examined the law, when we refused to accept the \$250 per capita allowance, the government devoted the amount to building roads with a good bridge over the St. Mary's River below Cardston. I have become a Canadian citizen in the past year, and I like the country and law. The Mormon colony is more successful than the Mexican and is the most successful in the world."

Believe in Education.
"We celebrate the King's birthday and other holidays. On Dominion Day we invite prominent Canadians to address us. Our celebrations of Dominion Day drew such crowds from Macleod and Lethbridge, none were held in those places. There are eight villages in the Alberta settlement, extending over a district of 75 miles. We adopt the village system for convenience in the world."

MAKE PEACE WITH YOUR STOMACH
You are Certain to Lose if You Attempt the Use of Force and Violence.

You cannot force your stomach to do work that it is unable and unwilling to do. It has been tried time and time again with always the same result. The stomach is a good and faithful servant; but when pushed beyond its limit it rebels. Some stomachs will stand much more abuse than others, but every stomach has its limit and when that limit is reached it is a very dangerous and unwise proceeding to attempt to force it into doing further work. The stable and reason to be followed is to employ a substitute to carry on the work of digestion and give the stomach an opportunity to recuperate and regain its lost strength.

Stuart's Dyspepsia Tablets are the only perfect substitute to take up and carry on the work of the tired, worn-out stomachs. They are natural and easy in their work and cause no disturbance in the digestive organs. They contain all of the essential elements that make up the gastric juice and other digestive fluids and will digest any food, that a strong, healthy stomach will, and do it in the same time and in the same way. They work independently of surrounding conditions and the fact that the stomach is weak or diseased does not influence them at all in their useful and effective work. They will digest food just as well in a glass or bottle as they will in a stomach, you can see that for yourself by putting one of them into a jar with water and some water to enable it to work.

Stuart's Dyspepsia Tablets, by thus relieving the stomach of its work, enable that organ to rest and recuperate and regain its health and strength, and the process is perfectly natural and plain. Nature will heal the stomach, just as she heals a wound or a broken limb, if she is not interfered with and is permitted to do her work in her own way. All interference is prevented by Stuart's Dyspepsia Tablets, which are for sale by druggists everywhere at 50 cents per box and if you are afflicted with dyspepsia, one box will make you feel fifty times better. You will forget you have a stomach and enjoy life and forgetfulness. No druggist would be so shortsighted as to try to get along without Stuart's Dyspepsia Tablets, which they are so popular and are so well known for the good they have done and the happiness they have afforded, that any druggist caught without them would lose the confidence of his customers and be regarded as below the standard. His business would suffer as a result and his patrons would go to other stores and buy the other drugs there, as well as their Stuart's Dyspepsia Tablets.

BOARD OF CONTROL WOTE STILL UNDERGO SCRUTINY

Application for an Order to Be Made To-Day Before Judge Winchester.

Frank Bennett announced last night that he would apply to-day before Judge Winchester for an order to prevent a writ of habeas corpus from being issued in favor of the late municipal election. The order will be made returnable on Monday next, and the writ will be made returnable on Monday next, and the writ will be made returnable on Monday next.

COUGHS, COLDS AND CATARRH

Sudden changes of temperature, exposure to drafts, cold feet, etc., cause coughs and colds, which often develop into BRONCHITIS, PNEUMONIA, ASTHMA, CONSUMPTION and CATARRH TROUBLES.

Break up these troubles by taking that great specific for coughs, colds and catarrh—a powerful expectorant and reconstituent—

MARVAL

Read letter from the celebrated Grand Opera Singer EMMA CALVE:

My dear Monsieur Marival: "I followed the advice to cure my cold; I took hot grogs with your delicious wine and it enabled me to sing 'Armen' last evening. With my sincerest thanks, EMMA CALVE."

TRY SOOTHING EXQUISITE EFFECTIVE VIN MARIAN

Mix a water glass one-third Vin Marival and two-thirds boiling water (with or without sugar) add cloves and cinnamon.

EMMA CALVE.

POLICE AND GYMNASIUM.

Editor World: As an experienced gymnast interested in the progress of the Royal Military Gymnasium at Aldershot, in my experience I have always found that compulsory attendance for the police force, is in every way injurious to the body and mind, for it is a waste of time and energy, and the police force is overpaid. The police force is overpaid, and the police force is overpaid.

BOARD OF CONTROL WOTE STILL UNDERGO SCRUTINY

Application for an Order to Be Made To-Day Before Judge Winchester.

Frank Bennett announced last night that he would apply to-day before Judge Winchester for an order to prevent a writ of habeas corpus from being issued in favor of the late municipal election. The order will be made returnable on Monday next, and the writ will be made returnable on Monday next.

OPPOSE ANNEXATION

Boston Herald: E. P. Morris, Attorney-General and a member of the cabinet of Newfoundland, is in Boston, on the way to Washington, and while to a Herald reporter yesterday he denied positively that he was going on official business, it was learned on good authority that his mission is to represent his government at an important conference in relation to the New Brunswick treaty and other matters of vital interest to the people of Newfoundland.

GAUGHT OLD.

"The first day of winter," writes Mr. Kate Scher, of 70 St. Paul Avenue, Milwaukee, Wis., "I caught a cold. I had a headache, my nose was sore and I was coughing. I bought a bottle of Dr. Pierce's Golden Medical Discovery and I was very much surprised to find that it was so short and I was much improved. After taking four bottles I was cured and I never felt better in my life. I recommend it to all who are troubled as I was."

WILL MAKE AFFIDAVIT.

"I was sick for about three months, had chills, fever, and coughed a great deal," writes Mr. J. H. Brown, of 100 St. Paul Avenue, Newfoundland, and I am glad to say that I am now well and strong. I bought a bottle of Dr. Pierce's Golden Medical Discovery and I was very much surprised to find that it was so short and I was much improved. After taking four bottles I was cured and I never felt better in my life. I recommend it to all who are troubled as I was."

DEAFNESS CURED

MR. J. FITZGERALD, 6 Irving-avenue, City, says: "I had cured deafness for a number of years, but shortly after Marvell's new method of treatment my hearing became more acute, and I can now hear quite distinctly."

ANOTHER OF THE SAME

MRS. KEMP, residing at Alexander-avenue, Toronto Junction, says: "I have used Marvell's new method of treatment with wonderful success. Specialists told me I was incurable, but after using Marvell's new method of treatment, my hearing became more acute, and I can now hear quite distinctly."

ANOTHER REMARKABLE CASE

MR. FRED TAYLOR, 88 Alexander-street, City, "I had used everything I could procure, but shortly after Marvell's new method of treatment my hearing became more acute, and I can now hear quite distinctly."

HAWKING AND SPITTING CURED

MRS. J. HEARN, 86 O'Hara-avenue, says: "I was incessantly hawking and spitting, and my head always ached. After using Marvell's new method of treatment, my hawking and spitting stopped, and my head aches no more."

LETTERS FROM OUTSIDE

MR. ARCHIBALD MAXWELL, a well-known farmer at Drayton, Ont. (near Guelph), writes: "Your remedy is saving me a big doctor's bill. I went to Toronto to consult a doctor, but he said I was incurable. I bought a bottle of Marvell's new method of treatment, and I was very much surprised to find that it was so short and I was much improved. After taking four bottles I was cured and I never felt better in my life. I recommend it to all who are troubled as I was."

MR. J. H. BROWN, 100 St. Paul Avenue, Newfoundland, writes: "I was sick for about three months, had chills, fever, and coughed a great deal. I bought a bottle of Dr. Pierce's Golden Medical Discovery and I was very much surprised to find that it was so short and I was much improved. After taking four bottles I was cured and I never felt better in my life. I recommend it to all who are troubled as I was."

FREE TESTS FRIDAY AND SATURDAY

Today and to-morrow will remain for those having any symptoms of Catarrh to call and test the new treatment. Marvell has had some very severe tests of his new method of treatment, and he is now offering a special discount on all tests. The tests are sure to follow to those who call the remedy. Marvell's new method of treatment is the best in the world. It is the best in the world. It is the best in the world.

MISSIONARY METHODS.

Editor World: Kindly allow me space in your valuable columns for these few remarks as the Indians of Rama Reserve and all charitable giving people. For the past three years the missionary of Rama Reserve has been constantly writing letters of a begging character to the members of the Rama Reserve. The idea that our Rama Indians are almost destitute and in hard circumstances is entirely untrue. They are not destitute and in hard circumstances. They are not destitute and in hard circumstances. They are not destitute and in hard circumstances.

ELIHU

In this festive season of the year The World desires to retract any harsh remarks that it may have made about Lord Alverstone...

It is a serious matter with the rank and file, this clearing everything from the main line that the Flyer may not suffer a minute's delay...

reality added nothing to the policy disclosed in the memorandum. But further consideration had convinced the Duke that the citadel of free trade was no longer sacred...

It was this feeling of alarm over possible delay of the Grand Trunk Flyer that was a substantial element in the disaster of Wednesday...

Such was the combination that Lord Alverstone, Mr. Aylesworth and Sir Louis Jette, to say nothing of the counsel for Canada, were up against the man who is now there...

United States, Canada, Root... Jette... Alverstone...

We have referred to Lord Alverstone in this fractional manner, dividing him into equal parts and putting one on each side, out of deference to the feelings of his friends...

Other matters which concern the editor's intellect cannot continue driving the drill thru all the strata of facts and contradictions until it strikes the bed-rock of truth...

Root is oblivious to the flight of time. Others may want their luncheon or dinner. No matter. Root's "compassion" ed-it-ial intellect continues driving the drill thru all the strata of facts...

It is simply a quotient of the logical operations of his brain. And we wonder that against this man we could not hold a strip of territory on the Pacific and a couple of islands. Let us be thankful that we still have the Hamilton mountain and Hanlan's Point.

THE TRAVELING LOCAL TRAFFIC. The demoralization of the branch line service of the Grand Trunk is the legitimate sequel of the company's persistent efforts to sacrifice all interests along its lines that do not contribute to the thru traffic.

It will be remembered that after the Premier had prepared and circulated within the cabinet his famous memorandum embodying his retaliatory policy, the Duke continued a member of the government. Mr. Balfour's Sheffield speech, the instrumental cause of the Duke's dramatic resignation...

pot when one of these two great firm brains are about to arrive or depart. From the despatcher's rooms to the poorest paid section man around the premises there is suppressed excitement and high tension until the Limited gets away. The man that delays the Limited by a minute must answer to the higher authorities of the company. An error that delays the fast train a minute calls down upon the head of the luckless employe more serious consequences than delaying a local an hour. It is nothing if the Allandale local with its crowd of passengers is held up in the yards for half an hour, but if the International Limited with its transcontinental passengers is subjected to such delay "somebody's suspenders are cut," in the parlance of the railroad men. It is not an unusual sight at Harrisburg to see two or three long freight trains scudding for the side track, a local passenger or two dragging crowded coaches, crowded coaches being rushed into a long switch and yard engines discontinuing their shunting of cars while the section gang hurries into the station.

To the casual observer it means nothing. Ask one of the trainmen what the unusual agitation means. "Oh, gettin' the main line clear for the Flyer."

It is a serious matter with the rank and file, this clearing everything from the main line that the Flyer may not suffer a minute's delay. But when a local is approaching it is different. The freight men take their time, the switch engine may be taking water on the main line and other obstructions may be in sight, but there is ample time to get them out of the way.

"Oh, flag 14 'til we get this switchin' done," is not an uncommon remark to hear from the crews of the freight train. The same men would turn pale at the mere suggestion of being forced to flag the Flyer, because of the failure to clear the main line in time.

Every local passenger train conductor getting an order from the despatcher to make a station is harassed with the imperative injunction, "make that meeting point if you can, but DON'T DELAY THE FLYER."

Thus, from Windsor to Montreal the Canadian public is confronted with this mysterious agency that promotes the thru train and delays the local. The Canadians on the Harrisburg local may wait in the yards, in the station, on the side track and at a water tank, or what not, but the crews are not called up for explanations as to reasons why, but let the Flyer be a minute late and reams of paper are consumed in explanations. This is the unpardonable sin in the sight of the crews.

It was this feeling of alarm over possible delay of the Grand Trunk Flyer that was a substantial element in the disaster of Wednesday...

Such was the combination that Lord Alverstone, Mr. Aylesworth and Sir Louis Jette, to say nothing of the counsel for Canada, were up against the man who is now there...

United States, Canada, Root... Jette... Alverstone...

We have referred to Lord Alverstone in this fractional manner, dividing him into equal parts and putting one on each side, out of deference to the feelings of his friends...

Other matters which concern the editor's intellect cannot continue driving the drill thru all the strata of facts and contradictions until it strikes the bed-rock of truth...

Root is oblivious to the flight of time. Others may want their luncheon or dinner. No matter. Root's "compassion" ed-it-ial intellect continues driving the drill thru all the strata of facts...

It is simply a quotient of the logical operations of his brain. And we wonder that against this man we could not hold a strip of territory on the Pacific and a couple of islands. Let us be thankful that we still have the Hamilton mountain and Hanlan's Point.

THE TRAVELING LOCAL TRAFFIC. The demoralization of the branch line service of the Grand Trunk is the legitimate sequel of the company's persistent efforts to sacrifice all interests along its lines that do not contribute to the thru traffic.

It will be remembered that after the Premier had prepared and circulated within the cabinet his famous memorandum embodying his retaliatory policy, the Duke continued a member of the government. Mr. Balfour's Sheffield speech, the instrumental cause of the Duke's dramatic resignation...

Store Opens Daily at 8 A.M. THE T. EATON CO. LIMITED at 5 P.M. Store Closes Daily

Saturday Will Be Ready-to-Wear Day

On Saturday you get the benefit of months of preparation by our own factories as well as opportune buying from the most reliable manufacturers of the world. Consider your comfort and be here at 8 o'clock.

THE T. EATON CO. LIMITED 190 YONGE ST., TORONTO

Above is but a Partial List. Visit the Store.

which deals with the number of cars to be put in operation. It was a shortsighted policy that required the Street Railway Company to discard 60 cars at a fixed date without providing at the same time that these cars should be promptly replaced by up-to-date cars. The citizens, not the Street Railway Company, suffer by reason of the laying off of 60 cars. The overcrowding will be worse than it ever was. Not a penny will be lost to the revenues of the Street Railway Company.

The difficulty of enforcing the Street Railway agreement is an old, old story. We have seen the facility of litigation, chiefly because litigation was not carried to a point that would show the agreement to be a reality or a sham. The proceedings that led up to the judicial order compelling the company to discard 60 condemned cars at a certain date were conducted with commendable spirit. But why were they not carried further, so that not only the class of cars, but the number of cars to be operated by the Street Railway Company, might be covered by the judicial decision? The city has shown its power to enforce the provisions of the agreement that require the company to operate cars approved by the City Engineer. If it is not possible to compel the company to operate as many cars as the City Engineer may demand? The Street Railway Company scored a distinct triumph when it concluded an arrangement under which it consented to discard 60 old cars without placing itself under legal obligation to replace these old cars with new ones.

CANADIAN AND AMERICAN CANALS The Ontario Odell of New York proposes to spend on the Erie Canal a sum larger than the total expenditure on all the Canadian canals before and since Confederation. A higher tribute could hardly be paid to the value of our canal system. The State of New York has management facilities for carrying grain from Buffalo to New York by rail, yet the Erie Canal, a mere ditch in depth, is a formidable competitor of the railways, and it is now proposed to spend a very large sum improving it. The day will come when the resources of Canada will justify such improvements in waterway transportation as will enable an ocean steamer to go clean thru to the west end of Lake Superior, and we do not think that the expenditure will then be regarded as extravagant.

The czar's dream of peace is getting dangerously near to the nightmare stage. There can be no doubt that the present intention of Japan is to make her a power in the Pacific. The weather that Toronto has been having for the past four or five days might appropriately be labelled No. 1 hard.

Japan will not allow foreigners to enlist in her army. This is fastidious discrimination that never scarred the conduct of the American Republic. "A sense of duty" keeps Hon. G. W. Ross at his post in Queen's Park, and the same illustrious cause has him to disfranchise North Renfrew for a year and a half.

His Honor the Lieutenant-Governor will not fail to remind the legislature in his inaugural speech that "this is the first time in the history of the province that a million dollar corporation, with plants in New York, Baltimore, Chicago, Cleveland, St. Paul and Detroit, has been organized in Ontario." The liabilities are \$347,274 and assets \$36,250.

What makes you despondent? Has the stomach gone wrong? Have the nerves centred grown tired and jittery? Are you threatened with nervous prostration? South American Nerveine is nature's corrector, makes the stomach right, gives a world of nerve force, keeps the circulation perfect. A regular constitution builder for run-down people. One lady writes: "I owe my life to it."

Child's Neck Broken. Picketing, Jan. 7.—Fossil, the two-year-old son of Ada and Henry Wilson, of this village, fell from a chair this morning and broke his neck and died immediately.

JUST HAVE IMMIGRATION TO SUPPLY FEMALE HELP

C.M.A. Present Figures Showing Demand for Labor, Especially for Women Workers.

Secretary Young of the Canadian Manufacturers' Association has submitted to the report of the Parliamentary Committee, a session of which was held on Wednesday, in a statement which he considers a sufficient refutation of the charges made in certain quarters that the labor market of Canada is in a glutted condition.

Ontario Men. Boys Females 310 612 1,469 Quebec 312 69 643 New Brunswick 131 63 63 Nova Scotia 250 4 4 Manitoba 80 4 4 British Columbia 100 4 4 Total 1,763 885 2,198

Mr. Young adds: "This indicates that while the needs of the manufacturing industry in the closing month of 1903 were not as great as in the early part of the year, there is still a call for labor in certain branches of the Canadian industry. Speaking generally, skilled mechanics are required, the need for laborers having been supplied largely by the surplus of labor accruing from the cessation of navigation, building and other branches of trade."

Where to Look for Work. Ontario Men. Boys Females 310 612 1,469 Quebec 312 69 643 New Brunswick 131 63 63 Nova Scotia 250 4 4 Manitoba 80 4 4 British Columbia 100 4 4 Total 1,763 885 2,198

Mr. Young adds: "This indicates that while the needs of the manufacturing industry in the closing month of 1903 were not as great as in the early part of the year, there is still a call for labor in certain branches of the Canadian industry. Speaking generally, skilled mechanics are required, the need for laborers having been supplied largely by the surplus of labor accruing from the cessation of navigation, building and other branches of trade."

Considerable capital has been made by labor unions out of the fact that during the month of December last an advertised meeting held in Toronto brought together about five hundred unemployed men. It is doubtful if in a city so large as Toronto, employing in its factories alone more than 44,000 hands a meeting of this kind would not be as largely attended at almost any season of the year.

The recent needs, so far as male help is concerned, are being met in some measure by the entrance into Canada of a number of workmen from the United States. If in the coming spring the industries of the Great Republic show no signs of depression, it is quite probable that the demand for men in Canada may be even as great as it was a year ago. The C. M. A. has no desire to flood the country with surplus labor, but rather to ascertain the actual needs of its members and bring them in touch with reputable sources of supply.

There seems to be a growing demand for female help in many Canadian factories—a need which it seems absolutely impossible to supply without the aid of wise and careful immigration.

TAKE POST-GRAD. COURSE AT HOME And Build Up a Better Patriotic. Says Chancellor Burwash.

Imperial Federation was the subject of an address by Chancellor Burwash at the Empire Club's luncheon yesterday.

At the outset he alluded to the present element in education and deplored the pernicious effect it sometimes wielded in the implanting of a national conceit. The patriotism which indicates noble aspiration was salutary and wholesome.

He deplored the tendency in Canada to take their post-graduate courses in Germany or the United States, which often led to their turning imbued with the ideals of that country. Young men should be educated into a sense of the responsibility that was theirs in being members of the race and of the empire.

At the conclusion of the address it was moved that at the next meeting motion be put to amend the by-laws of the club so as to permit of branch clubs being formed in other places.

THE ASBESTOS CURTAIN. Editor World: After what has been brought out in the press reports concerning this device, I do not think the foregoing public have the protection they are entitled to, and for which this curtain was brought into use; and it has occurred to me that the responsibility and control of such curtain in every theatre should be in the hands of one person appointed by the management of each theatre and located in the auditorium side of the curtain in some accessible position in full view of the public, and the perfect working of the curtain so arranged that no interference can take place except thru the medium of such an officer in charge.

Central Canada Loan and Savings Company. A prosperous year is shown by the report of the Central Canada Loan and Savings Company, published in this issue. The capital stock of the company is now \$1,250,000, and the net profits, above management and interest on borrowed money, have been 12.25 per cent. This has permitted the payment of the usual six per cent. dividend, with a bonus of one per cent. paid for the first time in 1902, and the addition of \$75,000 to the reserve fund. This exceptionally good showing is all the more remarkable on account of the unfavorable condition of the financial world during the past year. The long and persistent depression in listed securities affected the price of all such securities to a greater or less extent. That the Central Canada has been able to record a successful year is a tribute to its careful management, and also to the stable character of the government, municipal and corporation bonds which it handles. The retrospect of twenty years' business given in the report is an interesting study of financial growth.

Delaware, O., Jan. 7.—When the young men attending the Ohio Wesleyan University returned from their holiday vacation, they were required to sign a pledge to abstain from the use of tobacco during the coming term. They were permitted to return to their studies. Many accepted the condition. But many are undecided and some have reneged their parents for advice.

Preparing to Fight Pests. Washington, Jan. 7.—The house was in session but twelve minutes today, when the speaker, Mr. Clegg, announced that he had secured the consent that one hour be devoted to the opening of tomorrow's session to the consideration of the bill amending the act appropriating \$500,000 for the eradication of the foot and mouth disease and the act to make \$250,000 available to fight the Mexican boll weevil.

Don't Reopen Panama Question. Washington, Jan. 7.—Gen. Rafael Heyz, the Colombian special envoy, has received the answer of the Washington government to the note charging the United States with violation of the treaty of 1846. The answer is an emphatic refusal to reopen the Panama question.

St. Lawrence Hall. Most centrally located hotel in Montreal. Rates \$2.50 per day.

Sausages are said to be equal in nutritive value to three times their weight in fresh meat. If this is so, Michie's Limerick Sausages are a valuable food, because they are all that a Good Sausage should be or can be.

Michie & Co., 7 King St. West. Gallagher & Co., ALL KINDS OF FISH IN SEASON. ALL KINDS OF GAME IN SEASON. New and Foreign Fruits. New California Vegetables of all kinds. Nuts of all kinds. See our ad of Tuesday next.

GALLAGHER & CO., King St. East. Investment and Insurance. Both are found in five per cent. Gold Bond Policies. NATIONAL LIFE Assurance Company.

KILLED BY DYNAMITE. Thawed Out Explosive Blow House to Pieces Near Cornwall. Cornwall, Jan. 7.—A terrible accident took place on the Post road, a few miles from here, this morning, and resulted in the instant death of a young man named Ernest Proom, son of Noah Proom, and the serious wounding of his wife. The accident was caused by the explosion of a large quantity of dynamite, which blew Mr. Proom's residence into matchwood.

Mr. Proom was badly mangled, a leg and an arm being blown off and his head and body terribly lacerated, and he had a miraculous escape, but was badly cut at the neck. He was taken to the hospital in a private ambulance, but he died in the hospital on Monday. He was a fine young man, about 22 years of age, and was married only a year ago. It is not likely that an inquest will be held.

Farm Laborer Near Chatham Takes His Own Life. Chatham, Jan. 7.—John Duner, a farm laborer, was found last night at Fort's cold storage house, about a mile out of the city, with his throat cut from ear to ear. A razor was clutched in one of his hands, and all the surroundings pointed to suicide. "For the sake of my family," he had written in a small room, an annex of the cold-storage place, the ghastly discovery was made by neighbors after his death. It is believed that the act of self-destruction was committed on Tuesday, as he had not been seen for a day or so. It is not known whether he has any relatives alive. No reason appears for taking his life, unless it was a result of health, of which he complained lately. An inquest has been ordered.

SOUTH AFRICA OVER-POPULATED. New York, Jan. 7.—Sir Percy Selous, the British Consul-General, gave out the following report on the government of Cape Colony, owing to the present condition of trade in the colony and the fact that the government discourages the further immigration of persons without ample means or prospect of immediate employment.

Devoishire Will Return. London, Jan. 7.—The impending return of the Duke of Devoishire (who last year resigned the office of Lord Privy Seal) is announced by The Pall Mall Gazette, which understands that the Duke and Lord Rosebery have agreed to "bury the political hatchet" and amalgamate their interests. Devoishire says he knows nothing of the report.

Tobacco is a Noxious Weed. Delaware, O., Jan. 7.—When the young men attending the Ohio Wesleyan University returned from their holiday vacation, they were required to sign a pledge to abstain from the use of tobacco during the coming term. They were permitted to return to their studies. Many accepted the condition. But many are undecided and some have reneged their parents for advice.
