AYLESWORTH SAYS IN PAROUS A THIEF

Condemns Popular Ratification of Whitney Government Policy Toward the Florence Mining Co.

OTTAWA, March 1.—(Special.)—"I only trust that the day will never come when they may see reason to regret from personal experience that they (the voters of Ontario) did not condemn at the polls, as it ought to have been, this manifest encroachment upon the rights of property and the right to resort to courts," said Mr. Aylesworth, in concluding a speech this afternoon on a motion of A. H. Clark (Essex) for papers in connection with the request of the Florence Mining Co. for disallowance of the act respecting Cobalt and Kerr Lakes, passed by the Ontario Legislature in 1907.

Mr. Clark declared the act to be a clear violation of the eighth commandment, inasmuch as it not only confiscated private property, but prevented the Florence Mining Co., the prior claimants, from following up their case in the courts. The Florence Mining Co. had appealed in vain to both the lieutenant-governor and the governor in council at Ottawa to disallow the act, while Justice Riddell had decided that even to the extent of confiscation of private rights, the legislature was acting within its competence.

The proposition to refer the matter to appeal to decide whether the property was open for expropriation was refused. Then the act of 1907 was upheld, by which the Florence Mining Co. believe took from them property worth over a million dollars, without compensation. The company would take the case, if necessary, to the foot of the throne. Independent opinion in the country would be such that the private council upheld the action of the Ontario Legislature. Mr. Aylesworth should be taken to provide a remedy even to the extent of an amendment to the B. N. A. Act.

Legislation Will Be Paid. M. Wilson of Laval pointed out that in the rivers and streams bill case the imperial privy council upheld the power of the provincial legislature in all matters of property and civil rights. The remedy, he said, lay with the legislature of Ontario. If their claim was just, justice would be done.

Mr. Boyce (Algoma) held that Mr. Clark took a mistaken view. In order to preserve to the public domain, supposed to be rich in minerals, the Ontario Government, by putting the Ontario property up to public tender, had obtained for these resources, in 1906, not for a handful of grafters, but for the people of Ontario. The legislation referred to had been examined and interferred with by justice and not interferred with.

John Haggart pointed out that, even admitting the facts to be as stated by Mr. Clark, in all matters of property and civil rights the province was the supreme power.

Mr. Aylesworth explained that there would not only be the application for disallowance to which Mr. Clark had referred, but an application for disallowance by John Drenth, in connection with the recovery in July, 1905. These claims had not been attempted to pass upon. Successors of Green, the Florence Mining Company, had sufficient faith in their claim to fight it in the courts. It was from the standpoint of an adviser of his excellency that the minister of justice viewed the application for disallowance. If this identical question had arisen before 1896, this application for disallowance would have succeeded. He would agree, indeed, with Mr. Haggart, that the purpose of giving the federal government the power of disallowance was that it might be exercised in preventing private citizens from being wrongfully stripped of their property by provincial legislation.

Up to 1893 there were the distinct statements of successive ministers of justice, that even if provincial legislation interfered with the rights of property that action should not be interferred with. Every legislature ought to be supreme. This was even of greater importance to the Province of Ontario as a whole than even the disallowance of private rights or ownership. Mr. Aylesworth's view was that the legislature should be given full and absolute rights of property within the province, by the repeal of the Habeas Corpus Act. That was the true spirit of the constitution.

The doctrine of provincial rights which had always been the peculiar properties of the political party of which he is a member had of late years found strong supporters even in the ranks of political opponents. But he welcomed these accessions to the ranks of the Reform party, and acting on these principles, he had advised his colleagues that this power of disallowance should not be exercised, even to the act which was sought to be disallowed went the length of taking his farm without any compensation to him.

Alberta Cons. Enter Contest To Bad Start

Haven't Got Copies of New Election and Redistribution Acts, The Libs. Are Provided

OTTAWA, March 1.—(Special.)—Alberta Conservatives claim that they have been placed at a serious disadvantage by reason of the sudden calling of the provincial elections. The legislature was prorogued last Thursday and dissolution followed on Friday, nominations being fixed for March 15. It is stated that the new Alberta Election Act has not been printed, and the government supporters are supplied with copies of it.

It is also said that the Redistribution Act has not been printed, and the Conservative candidates are unable to learn the new boundaries of the places at which nomination meetings are to be held.

NEW YORK FINANCES

Special Committee Reports—Advocates Supply Purchase Bureau.

NEW YORK, March 1.—The Cassidy-Merritt committee, appointed to investigate the finances of New York City, has submitted its report, together with the testimony taken, to the legislature. The report says that the city should be required by law to establish a bureau for the purchase of supplies, a bureau of uniform accounting, and a bureau of real estate.

It also recommends that the constitution should be amended so as to provide improved methods for condemnation of real property. The report places the present contract liabilities and land liabilities of the city at approximately \$57,900,000, which will not fully accrue for a period of three to five years. As the city bonds are being sold at a rate of \$100,000,000 a year, the immediate necessity for subway extension can be cared for by the expenditure of \$50,000,000 a year.

CONTROL OF STREETS

Montreal Municipalities Will Protest to Government.

MONTREAL, March 1.—(Special.)—A meeting of mayors and representatives of municipalities on and in the neighborhood of the Island of Montreal will hold to-day to take united action with a view to protecting the interests of the municipalities and the public against the encroachments of private companies. W. D. Lighthall, secretary of the Association of Canadian Municipalities, said the municipalities should stand united in a protest to the government against the rights to control their own streets being over-ridden by any charter granted to private companies by parliament or the legislature, and this was endorsed by the whole company present.

PENNSYLVANIA RY. REPORT

Big Decreases in Earnings Are Shown for the Past Year.

PHILADELPHIA, March 1.—The annual report of the Pennsylvania Railroad Co. for the year 1908, made public to-night, shows a decrease in gross earnings compared with the preceding year of \$2,467,291, and a decrease in net earnings of \$7,438,297, due to industrial depression. The volume of freight tonnage decreased over 18 per cent, while the mileage and the gross earnings therefrom show a falling off of about 21 per cent. Passenger traffic shows a reduction of about 10 per cent, and a decrease of over 7 per cent, in revenue. The average rate received from the transportation of passengers was less than two cents per mile.

RESTRAIN SALE OF ARMS

E. N. Lewis Introduces a Preventive Bill in the Commons.

OTTAWA, March 1.—(Special.)—E. N. Lewis introduced a bill in the house to-day to amend the criminal code respecting offensive weapons and capital offenses. An immigrant landing in Canada was almost sure to see displays of knives and revolvers in pawn shop windows, which encouraged him to regard weapons as necessary. The bill would permit the sale of weapons only by license. All capital sentences he would have executed at the nearest penitentiary, instead of in the county jail. Hangings, under existing conditions, really constituted incentives to crime.

In reply to Mr. Monk the minister of agriculture stated that Dr. J. G. Rutland had tendered his resignation as veterinary director-general, but had withdrawn it. A question by Mr. Foster elicited the information that subscriptions to the Quebec Battlefields Fund amounted to \$460,880. Towards the ten-centenary fund the Dominion Government subscribed \$300,000, sales of tickets for pageants yielded \$32,280, refunds, etc., \$3557; total \$658,838. There was spent on the celebrations \$1,688,000; out of the battlefields funds, \$34,450 only have been spent, leaving \$438,426 in the fund.

SUDDEN DEATH.

PERTH, March 1.—Mr. A. Montgomery, driver of a car dealer of this town, died suddenly to-day near McDonald's Corners. The cause of his death is supposed to be heart failure. He was 79 years of age, and was one of the best horse and cattle judges in this section.

FOR REDUCED PHONE RATES

Haughton Lennox Opens up a Discussion and Finally Divides the House.

OTTAWA, March 1.—(Special.)—That it is the duty of the government to initiate measures to remove long existing abuses in regard to the telephone service of the people of Canada and secure a rate at least as moderate as in countries where a national telephone service is maintained, was urged by Haughton Lennox, who moved to-night a resolution along these lines.

The report of Francis Daggar, who had investigated the question, and the opinion of Sir Wm. Mulock, amply bore out the statement that Canadians were paying 100 per cent. more for telephone service than any other people in the world, he said. While not arguing for government ownership he maintained that the government should do something to relieve the people from the heavy burden they were bearing. Since he had given notice of his intention of bringing up this matter, the government had got busy and the telephone companies had been asked to submit their tariffs to the railway commission.

After 11 months of government ownership and operation of telephones, the Manitoba Government had a surplus of \$38,000 after 148 miles long distance had been added and 2188 new stations established. In European countries government telephones had shown a handsome surplus. A. K. MacLean (Lunenburg), denied that the people of the three western provinces where the government owned and operated the telephone service were paying less for telephones than those of the other provinces. He claimed the national telephone service in Europe was as a rule miserably bad and the rates there could not fairly be compared with rates in Canada. Instead of a surplus it could be easily shown that there had been a deficit while the rates in Alberta were not lower than in the County of Simcoe.

He moved at midnight, expressing approval of the government placing telephones under the control of the railway board.

Mr. Armstrong criticized the manner in which independent lines were transferred by the Bell Co. in the matter of connections. W. D. Lighthall, supporting the amendment, made comparison to show that telephone service was cheaper in New Brunswick, where the lines were privately owned, than in Manitoba under government ownership.

Mr. Burrell (Yale-Cariboo) asked for comparison with rates of telephone service operated by the Dominion Government. "There are none," replied Mr. Carvell. "O yes there are," Mr. Burrell corrected. "Well, just two spots, one on the Labrador coast and one somewhere in the Yukon."

Mr. Burrell observed that the hon. member was not prepared to stay in his constituency. At this Mr. Carvell, vexed, angrily exclaimed, "Don't talk nonsense." Mr. Carvell said he had a good deal more to say and moved the adjournment of the debate. Mr. Lennox moved he would divide the house on the motion. Sir Wilfrid Laurier protested that there would be abundant opportunity to resume the discussion, but Mr. Lennox insisted on dividing the house, and the members were called, resulting in the motion of Mr. Carvell being carried for 100 yeas to 90 nays.

HOLLAND NEARLY GOT OUT

Lawyer Served Writ of Habeas Corpus, But Missed a Point.

The release of Christopher Holland from the Philadelphia jail, where he is held on more than a dozen charges of uttering forgeries on Toronto banks, was narrowly averted Saturday afternoon. Holland had been held under the jurisdiction of the city police court since his arrest, and was transferred to the federal courts under an extradition warrant sworn to by the resident British consul. The waiving of the nominal charges by the city sheriff and the police judge was secured Saturday noon, and Holland formally placed in the custody of the federal authorities. When he was being transferred back to the jail, 10 minutes after the transfer of custody, Holland's counsel, who is the leader of the criminal bar of the Quaker City, served upon the city authorities a writ of habeas corpus returnable yesterday. This was, however, inoperative against the new charge laid.

All haste is being made to forward the final warrants to Detective Mackie lest any further attempt be made to release Holland from custody. It is determined that the Philadelphia police to have Holland out of the country, that even should he evade extradition it is likely that he would be deported to Canada as an undesirable.

Insurance on Great Lakes.

NEW YORK, March 1.—A special London despatch to The World says: W. A. Prime, insurance broker of New York, died suddenly in Port Arthur, Ontario, of a heart ailment, while on a tour of inspection of the great lakes valued at upwards of ten million dollars, for the purpose of settling with the big insurance agencies of Great Britain on the subject of rates on load lines.

PORT ARTHUR, March 1.—(Special.)—Fears of an ice famine in Port Arthur next summer are dispelled. Thunder Bay is frozen over and the crop now being taken is 18 inches thick, half the usual thickness.

NO RESPECT FOR OLD AGE

The Senate: Here, Stop That!

EAST INDEPENDENTS HAVE FIRST "SMOKER"

Joe Russell Has Found Members of Parliament Who Don't Vote as Freely as They Talk.

"No man would make a mistake if he took his cue from W. F. Maclean," is what Aid. Foster stated last night at the smoker of the Independent Conservative party of East Toronto at Victoria Hall. "He has done more than the two parties put together, and I am a great sympathizer of his, and The World and The Telegram are the most independent newspapers in Canada, and no amount of money will buy them."

Joseph Russell, M.P., thanked those present for the good gift they gave him on the 26th of October last. "I have been treated pretty well at Ottawa, and was well received as a new member. I have met a great number of men down there who claim to be independent, but when it comes to a vote I have noticed they always line up with their party."

"W. F. Maclean is right on a good many things," continued Mr. Russell, "and especially in opposing the right of the C.P.R. to issue more of its stock."

He believed the senate as at present constituted was useless, and that if the vote had been taken on Wednesday last the upper house would have been abolished.

H. E. Joslin, referring to the association, said the organization had been formed as a result of the many breaking away from the rule of the party, and it had now come to stay, having for its purpose the election of good honest representatives.

"The party at Ottawa," said J. H. Duthie, "is afraid of the independent party at Toronto because it is getting too strong."

"We don't believe," said George Gilmore, past president of East Toronto Association, "that public ownership is feasible in all points, but where it is we think it is the duty of the government to give us public ownership."

MOTORMEN SUSPENDED

And Other Car Men Think the "Spotter" Lied.

Employees at the Yorkville car barns are aroused over the suspension of four motormen. It is claimed that a "spotter" waited at Avenue-road and Bernard-avenue on the night of Feb. 23 and reported that the motormen had disregarded the signals of would-be passengers waiting at the corner.

Some of the men say they didn't see any such passengers left and are worried lest they become the victims of false reports.

Honored Novelist Dies.

LONDON, March 1.—A brilliant company gathered to-night at a banquet at the invitation of the Authors' Club to celebrate the birthday of the birth of Edgar Allan Poe. Sir Arthur Conan Doyle presided, and was supported by Ambassador Reid and Mrs. Humphrey Ward, many leading British authors, and a large number of American residents of London. Among the guests was Captain Poe, the oldest surviving member of the Poe family.

BANK'S CASHIER IS GONE WITH WOMAN AND \$5000

Saskatoon Employee of the Northern Crown, Formerly of London, Ont., Suddenly Left Town.

SASKATOON, Sask., March 1.—(Special.)—Considerable astonishment was aroused locally when it was stated this morning that Frank Lee, teller in the Northern Crown Bank here, is missing along with some \$5000 in cash. Lee was a young fellow and well-liked and no one suspected anything wrong. About ten days ago he got leave to visit his mother in the east, who was reported to be dying, and left hurriedly. It is now rumored that along with Lee, a woman from the red light district went on the same train.

Inspector Wile of Winnipeg and Local Manager R. R. Morgan will say nothing other than that they look to the bonding company to make good the shortage in his accounts.

In addition to being teller, Lee was also acting accountant, and it would be an easy matter for him to "cook" the books to cover up any shortage.

It is supposed Lee has gone south. Lee came from near London, Ont., a couple of years ago, and had previously held positions in the banks at Ratwell, Man., and at Nokomis, Sask. The loss is fully guaranteed to the bank by the Imperial Guarantee and Accident Company.

Dr. Fred Winnett's jury last night found that James Ross had come to his death in the Watts Mill by accident. For a time, the jury were divided as to whether negligence by employees had been shown.

KILLED ON RAILWAY TRACK

Unknown Man Victim of Train Near Agincourt.

An unknown man, 75 years of age, and roughly dressed, was struck by an eastbound C.P.R. freight train, immediately west of Agincourt, fourteen miles from Toronto, at 3.30 yesterday afternoon. The man was picked up unconscious, but still alive, and placed on a train coming into the city; he died on the way. Dr. Crawford met the train at North Toronto. The body was taken to the morgue, where Coroner Singer will open an inquest at 4 o'clock. The old man seemed not to hear the train, which overtook him in a heavy snowstorm.

He was 5 feet 6 inches tall, weighed about 120 pounds, and had on a suit of dark clothes and a sweater. He was clean shaven and his hair was white. The front teeth were gone on the lower and upper jaws. He had in his pockets the names of the city relief officer and a Salvation Army captain.

Sifton Will Be Asked.

WINNIPEG, March 1.—The legislative committee appointed to investigate the charges as to the Manitoba lists at the last election have decided to ask Hon. Clifford Sifton to appear to give evidence. As the Ottawa house is in session he cannot be summoned. The Liberals still refuse to take any part in the enquiry.

DEFENCE BUY WITNESS FROM STATE'S COUNSEL

Peculiar Transaction Takes Place in Court During the Carmack Murder Trial.

NASHVILLE, Tenn., March 1.—A spectacle of counsel on one side only selling a witness to the opposition but haggling over the terms, was one of the incidents that occurred to-day in the trial of Col. D. B. Cooper, Robin Cooper and John D. Sharp for the slaying of former Senator E. W. Carmack. The subject of the commercial transaction was Dr. McPheters Glasgow, who had been employed by the prosecution to go to Columbia and perform an autopsy on Senator Carmack's body.

He reported his findings to the prosecutors. He was subpoenaed by the state, but was not used. The defense learned of the autopsy and summoned Dr. Glasgow to look her up.

Dr. Glasgow told counsel for the defense that his services as an expert had been retained by the state and that he would not discuss the case except with the attorney-general, who finally made the proposition, that if the defense would pay the costs of the autopsy, including Dr. Glasgow's fee, the state would waive its rights.

Judge Hart said the defense wanted to see the goods before they bought, and they offered to confer with Dr. Glasgow, and if they decided to use him as a witness, to reimburse the state. The prosecutors refused this offer.

NEW VERSION OF SHOOTING

Miss Kinrade Again Interviewed by Detectives—In Condition of Hysteria—Says She Was Shot At.

HAMILTON, March 1.—(Special.)—Miss Florence Kinrade was this morning interrogated by Provincial Detective Miller and City Detectives Bleakley and Coulter.

The detectives will interview Miss Florence Kinrade again to-morrow morning. They say in spite of reports to the contrary, that she appeared to be quite calm and collected during their interview this morning, the laboring under a strain, until they were coming away when she went into hysterics again.

The fact that she has told the four different stories has proved baffling to them. To-day she said that when she jumped out of the side window, the man grabbed her and pulled her back into the house again. The police say that there were no indications of a struggle having taken place at the window, and they can find no trace of the bullets she says were fired after her when she jumped out of the window and when she rushed from the house to give the alarm.

Not a Tramp. She said to-day that when she saw upstairs she heard shots fired, that she ran downstairs past the man and got out of a side window, the man firing several shots after her.

She also said that when she came back into the house she grappled with him, and that when she ran out of the front door to give an alarm he fired several more shots after her.

She said that the murderer was not a tramp, as he was too well dressed. She could not be sure whether she would know him again.

The autopsy has confirmed the fact that seven shots were fired into the body of the murdered girl.

A Desail From the Police. The police deny that they found a blood-stained scarf in the back yard as they were inspecting the premises after the shooting. They found a rag from an apron lying in the bushes, but say that it has no blood stain on it, and they attach no significance to it.

Interest is now being centred on the inquest, which is due for a speedy night. It is not certain that Miss Kinrade will be able to present to testify, according to her father's opinion to-night. It is anticipated, however, that there will be some surprising information from the medical men who made the post-mortem examination.

Meanwhile, everybody has a theory of his own. One prominent military man will, it is shown, and he also suggests that if a strong man, well used to firearms, else the bullets would not all have found their billet, and in such a case, it is a certain number of shots were fired while the woman was prostrate.

When Was Shooting Done? Another man who has been following the case closely holds to the theory that the shooting was done by someone who knew the family and the house; that Miss Florence realized that her sister was in danger and ran upstairs to tell her to look herself in some room; that Miss Ethel, in fear, hurried down the backstairs to escape, only to be met by her assailant. He also suggests that the shooting was done some time before Miss Florence notified the neighbors, but that this delay was due to the fact that she likely had some shots in her interval. This theory is supported, in a way, in the statement that the coroner on arrival noted that the dead girl's hand was cold, as the death had taken place some time before; while it would also account for the fact that no man was noticed to leave the house just previous to Miss Kinrade's giving the alarm. Many other theories and stories are in circulation.

Offer \$1000 Reward. Mr. Kinrade has decided to offer the reward of \$1000 for the detection of the murderer. Mrs. Kinrade knows that her daughter came to her death, but has been told that it was the result of an accident.

Mr. Kinrade talks of taking his family away from the scene of the tragedy for a time. Miss Kinrade will not, however, be allowed to leave the city, as she is required as a material witness. The constables who have been out looking for suspicious tramps returned without making any arrests. They claim that they found the surrounding country overrun by armed hoboes.

THIS WEEK AT THE THEATRES

At the Alexandra. "Brown of Harvard," presented at the Royal Alexandra last night, is a rollicking play descriptive of life in a university that stands second to none in the United States. Brown has been born with a silver spoon in his mouth, and shares to the full in all that is going on in his college. But with all his fondness for the sun and his love for the sunlight and the open air he is generous to the backbone and has that better quality which makes him unwilling to be trumpeted about as the reloader of fellow students' necessities. This commendable trait leads him into compromising situations, causes a temporary separation with the girl he loves, and is in love with him, leads up to several strong situations, but in the end leaves him in the possession of all that he holds dear. Among the under-graduates he helps the "brother of his sweat-shirt," a man who has fallen into the power of the villain of the play and has furthered his misdeeds by being a benefactor by forgiving a cheque and making it out in the name of the girl who is devoted to him. Her brother is among those whom the hero has aided, but even in the utmost emergency the early spring revels nothing. Then he roars the Harvard crew to victory, and in the end all is straightened out and the curtain falls on the peevishly happy ending. The play is lively and entertaining, and evidently pleased the large audience who evidently found it thoroughly enjoyable and were so lavish in their marks of appreciation that the hero had to respond in a few happy sentences. The cast is a large one and well selected. James Young as Tom Brown sustained most of the interest and provided himself a thoroughly competent actor with ample artistic resources. He was well supported by those who played his class mates, who carried a large natural supply of enthusiasm into their presentations. Miss Catherine Calvert acted with charm and richness in the part of Evelyn Kenyon, and the other feminine roles were admirably filled. "Brown of Harvard" should be popular in Toronto, judging from the appreciation bestowed last night. It will be given during the week with the usual Thursday and Saturday matinees. At the Grand. Two large audiences taxed the seating capacity of the Grand yesterday to see those popular comedians, Ward and Vokes. In a brand new musical concoction entitled "The Promoters," the pair have two parts and in a splendid vehicle for the displaying of the mirth-provoking proclivities of these stars of the farce world. "The Promoters" is one prolonged laugh-producer, with Percy and Harold as Lord Knows and Count Up, the leading characters. In the latter, Altho a musical farce, it has a plot, if that's what can be termed, but it is so thoroughly imbued in music, funny sayings and a galaxy of pretty and gorgeous costumes, that it is forgotten until just before the last curtain. Too much cannot be said of the musical numbers, of the lowest and best assortment of new and clever ones, and the soloists and choruses sang them in a manner that was awarded a tumult of applause. Lucy Daly, who is as popular as Percy and Harold, is very much in the cast. She is capital as Sherlock Holmes, the female detective, but the audience liked her better in her sonnet and in a swell, she captured the house when she sang "The Only One I Love Is" assisted by a bevy of pretty girls. Miss Daly always has a most attractive costume, and when she appeared in it singing "Symphonic Sue" she made the bit of the night. Encores were so profuse that the original "Sue" had to be substituted and she had to resort to a number of local topics, which went well. "A Trip to Vaudeville" and "If My Heart Could Only Speak," by Sandy Chapman, were the most popular. "To-morrow," by Miss Frances Avery. Not a few were quick to recognize in Louis La Vine, the celebrated baritone. He sings "To the One We Love Best of All," and it is one of the treats of the performance. The other musical numbers cannot fail to please. Low Kelly handles the difficult role of Prof. Dope with ease, and his now jokes precipitate hilarity. A beautiful feature is the group of sheath gown girls in the second act. The "Ladies' Best of All," numbering 13, distinctly separated from the chorus, appear in the first act and in a specialty. The ladies play a number of high-class selections and are certainly capable instrumentalists. With Ward and Vokes and a great show the Grand should have a record week. At the Princess. "The Girls of Gottenberg," while it has undergone some of the "adaptation" which the aptest theatrical promoters on this side of the Atlantic consider necessary to prepare an English musical comedy for American consumption, has not been spoiled in the process, and the production is given at the Princess Theatre last night was genuinely enjoyed by a large audience. The humor is more refined and less than a day's transfer from the native New York melange of comedy and music and it is less "smart" and flippant. Many in the audience found it quite refreshing, and would be glad to welcome further importations of the kind. The title conveys the idea of a setting on the land of military and the foaming stein, and so it proves to be. Dashing Hussars and dragons supply the stage pictures and there is no lack of dainty frauleins. The virtues of the wholesome are extolled as frequently by the characteristically laughable. The break into song. The story has to do with mistaken identity. Prince Otto, who is an army officer, wishes to have his regiment, the Blue Hussars, transferred to the front, that he may have opportunity of forming an acquaintance with his cousin Elsa, to whom he was betrothed as a child, but who has since been seen. Military orders have been issued detailing another regiment, the Red Dragons, to Gottenberg. With the consent of the king, Prince Otto, Modelkopf, who assumes the role of an envoy of the Kaiser, matters are so manipulated that his object is attained. To further his complicated aims, Modelkopf, who changes identities with Mitzel, the daughter of an innkeeper. Here there is abundant foundation for comedy. The bulk of the fun-making falls upon the capable shoulders of James Blakely, who with his gifts of tone and expression and power of grimace makes the character of the innkeeper, Mitzel, well supported by Lionel Macklin, Otto, Sarony Lambert as Kannebler, the innkeeper, and others. Mary Naudain as Elsa has a pleasing personality and Almee Angeles as Mitzel is a pleasant and made a good impression by her singing, especially the tuneful "Under Two Flags," and "The Girl I Left Behind Me," and will be favorably compared with either of these. The production is a most attractive one, and the music is excellent. The chorus is large, well-gowned and vocally adequate. Altogether, "The Girls of Gottenberg" is an entirely creditable production. At the Majestic. The offering at the Majestic this week is a military melodrama by Charles E. Blaney, and he has given what everybody said was impossible, namely, a long and a bad man. The piece is laid in North Dakota, at Fort Lookout, and the story tells of an uprising of the Sioux Indians. In the latter, "Under Two Flags," or "The Girl I Left Behind Me," and will be favorably compared with either of these. The production is a most attractive one, and the music is excellent. The chorus is large, well-gowned and vocally adequate. Altogether, "The Girls of Gottenberg" is an entirely creditable production. At the Gayety. "The Dainty Duchess" at the Gayety has a real live snake as a member of the cast. It is a beauty and is used by "La Cleopatra," one of the dancers. His snakeship is about four feet long, and is used by "La Cleopatra," one of the dancers. His snakeship is about four feet long, and is used by "La Cleopatra," one of the dancers. Marie Hall. Only a fair-sized audience heard Marie Hall last night in an interesting violin program. The ground floor seats of Massey Hall were practically filled, but the galleries were somewhat "shy" in numbers. Yet the audience made up for the lack of quantity by enthusiastic appreciation of the virtuoso and her colleagues, Miss Louise Blanche, pianist, and Harold Blaney, baritone. Possibly Miss Hall was not quite up to her usual "form," but this was due to the fact that she was suffering from a severe cold, and could hardly restrain herself on the stage from coughing, certainly a rather embarrassing predicament. Miss Hall opened her program with a brilliant, technically perfect concerto in G minor, a composition which, perhaps, is more melodious than Mendelssohn's, but not quite so difficult. Her playing was somewhat "shy" in technique. Altho her bowing was a bit scratchy in the first few measures of the first movement, there was conspicuous clarity of tone throughout the movement, particularly in the rapid scale passages. In the other two movements her tone was sonorous and vibrant, and she played the "Andante" movement with brilliancy and "virility," as quite became a favorite pupil of Joachim. Her playing was excellent, and she responded to the applause of the audience. Her next essay was an exceedingly tender and beautiful valse (cradle-song) by the Scandinavian composer, and she rendered it with a most delicate and twilight dreaminess, which Miss Hall rendered with the utmost delicacy of art. This was followed by a Salsarelli by the "Meditation," which she played with a most delicate touch. The Mayor at Ottawa. Ottawa, March 1.—(Special.)—Mayor Oliver, Controller Ward, F. S. Spencer, chairman of the committee, and Hon. L. H. Broderick this afternoon requested that certain lands on the western shore of the harbor be granted for the purposes of the city. Mr. Broderick replied that in all probability the request would be granted. Mr. Paterson promised to give consideration to the request of the mayor and Mr. Ward, that the \$1800 duty on the city's filtration plant be remitted. The deed for the Garrison Common will be sent at once. Mr. Pugsley promised to have a report made on this request for permission to put in slips at each side of the main eastern approach in case it should be decided to establish a ferry service to that point. ST. PHILIP'S CHURCH. Committee Appointed to Nominate Successor to Ven. Archdeacon. A well attended meeting of the congregation was held at St. Philip's Anglican Church last night. W. Burton, rector's warden, presided. Committees were appointed to take suitable action in recognition of the election of their rector as Bishop of Toronto. Another committee will select names for presentation to the bishop after his recognition, from which he will be requested to appoint a successor to the rectorship. Charles Evans-Lewis, people's warden, said that the congregation had no name whatever in view at present. Railway Bills in Legislature. The Canada Central Railway is asking the legislature for an extension of time to complete its road, as does also the Stratford & St. Joseph Radial Line. Incorporation is being sought by the Lake Superior & Long Lake Railway & Transportation Co. The interior line is to run a line from a point near the C.P.R., close to the mouth of the Black River, in the Thunder Bay district, north to a point on the national transcontinental. The solicitor for the applicants is R. A. Pringle, Cornwall. After the Doctors. BROCKVILLE, March 1.—For neglect in the payment of the annual fee of \$2 to the Ontario Medical Council Detective Rose, prosecuting officer for the council, is bringing many doctors through this section to time. A Portland physician, who was in arrears since 1889, toed the mark. He acknowledged the debt, consented to pay his dues forthwith and settled for the costs of the court. Hearst Beats Haskell. GUTHRIE, Okla., March 1.—Scott McRaynolds of Brooklyn, N. Y., representative of William R. Hearst, today won in the supreme court a complete victory over Gov. C. N. Haskell in his suit to compel the governor to return certain papers seized at the instance of the governor. Mr. T. A. E. World (Margaret Rose) will hold her first reception since her marriage at 212 Hallock-street, on Thursday, March 4, afternoon and evening. Mrs. Francis World will receive with Mrs. World, and thereafter they will receive on the first Thursday in each month. His 12th Operation. Fred Lee, information clerk at the Union Depot, is back at his post, just having recovered from his 12th operation. The last operation was a delicate one and it was performed by Drs. Everything She Ate SEEMED A BURDEN TO CARRY. HAD STOMACH TROUBLE FOUR YEARS. When your food has not been properly digested, your body has not received the benefit it should. The exertions of the gastric juice have been confined entirely to removing the unassimilated undigested portions of food which they cannot properly digest as speedily as possible from the body, thereby only giving the blood a small percentage of nourishment with which to feed the bowels. Burdock Blood Bitters regulates the bowels, promotes perfect digestion, makes pure blood, tones the stomach, and thus restores perfect health and strength to the debilitated system. Mrs. D. A. Franco, Roseland, B.C., writes: "I was suffering from stomach trouble of the worst kind for about four years. Everything I ate seemed a burden to carry. I always arose in the morning with a sickening and feverish taste in my mouth and was also troubled with swellings in my hands and feet, which my physician said was due to the disordered state of my stomach. I tried everything that was perfectly cured, but also consulted two or three physicians, but could find no relief until one of my neighbors told me of a wonderful cure by Burdock Blood Bitters. I used altogether ten bottles and am now perfectly cured. I wish to recommend B.B.B. to anyone who has so unfortunate as I was. For sale by all dealers.

At the Star. Charles J. Burkhardt's return to Toronto in his inimitable pro-Jewish role, and his "funny side," was marked by two good attendances at the Star yesterday. There are many remarkably good choruses, choruses and dances by clever characters, but a little too much of the "burlesque" style. The "burlesque" style, however, are quite free of objectionable dialogue. David Rose, in Italian impersonations, gets a most sympathetic response with his song, "Wally, one big-a-business man." The olio is unusually snappy, introducing Charles Ledegar, an agile burlesque highwire performer; Charlie Burkhardt, in a one-act playlet, "The Italian"; and also a sympathetic "skit"; Pio Zellar, song popularizer, and Jos. Shaw and Tom Robinson in nautical and terrestrial repartee.

FAVORITES FARE BADLY AT EMERYVILLE TRACK

Redleaf Wins at 1 and Nappa Nick at 8 to 1—The Summary.

OAKLAND, Cal., March 1.—Favorites fared badly at Emeryville to-day, there being several surprises. One of the outsiders to land was Red Leaf, quoted as high as 13 to 1. Okente ruled favorite for the race, while Dainty Belle, Henry O. and Remember came in for strong support. Dainty Belle set the pace, but Red Leaf closed fast as the stretch was reached and won handily.

FIRST RACE—Purse, 6 furlongs: 1. Apto Oro, 13 (Lee), 3 to 1. 2. Moorish King, 13 (Lee), 3 to 1. 3. Andy Ginter, 10 (Mentry), 15 to 1. Time 1:14 1/2. Ace of Diamonds, Alliance, Harry Rogers, No Rule, Angelface, Hampton Beauty, Crab, The Earl and Schmozer also ran.

SECOND RACE—Purse, 3/4 furlongs: 1. Madeline L., 104 (Tappin), 30 to 1. 2. Efin Beau, 112 (Lee), 7 to 5. 3. Aracee, 104 (Walsh), 4 to 1. King, Jack Denneries, Tuberoso, Amida Jones, Harry Grothe and Cameo also ran.

THIRD RACE—Purse, 1 mile 20 yards: 1. Woolen, 109 (Sullivan), 9 to 2. 2. Chief Kee also ran.

FOURTH RACE—Purse, 1/4 mile: 1. Red Leaf, 107 (Soville), 10 to 1. 2. Dainty Belle, 102 (Tappin), 5 to 1. 3. Okente, 97 (Butler), 16 to 5. Time 1:29 3/4. Bon Homme, Fancy, Hoyle, Charles Dolan, Stroke and Tommy Abear also ran.

FIFTH RACE—Futurity course, selling: 1. Little Siss, 90 (Tappin), 11 to 5. 2. The Mist, 110 (Rising), 7 to 1. 3. May Amella, 105 (Archibald), 2 to 1. Time 1:12. Hereafter, Cadichon, Anna May, Woodlander and Sainster also ran.

SIXTH RACE—Futurity course, selling: 1. Little Siss, 90 (Tappin), 11 to 5. 2. The Mist, 110 (Rising), 7 to 1. 3. May Amella, 105 (Archibald), 2 to 1. Time 1:12. Hereafter, Cadichon, Anna May, Woodlander and Sainster also ran.

SEVENTH RACE—Purse, 1 mile: 1. John Carroll, 116 (Shilling), 9 to 2. 2. Aracee, 104 (Walsh), 4 to 1. 3. Cloyne, 102 (Rice), 20 to 1. Time 1:38 2/5. Tony Bonero, Edwin T. Fryer, St. Harlo, Green Seal, Ethel Day also ran.

JAMIESON'S FINAL SWEEP-OUT Now for a Week of the Most Desperate Price Tearing and Slaughteration

It will be our strenuous endeavor to vacate the premises this coming Saturday night, and we realize what a gigantic task that will be. However we're going to try, and try hard, and that means nothing will be allowed to stand in our way. Doesn't matter what goods are worth, nor what they cost. The consideration time for money gain or cash loss has passed, now it's only a case of GET OUT and to get out as quickly as possible. So we've simply riddled the price tickets, increased our force, put ginger into the whole outfit to one end---fast and furious selling.

Men and Women of Toronto Read This Sensational News

We're going to sacrifice our big stock of woolens. Fully \$10,000.00 of high-class cloths to be cleared in the next few days. Great opportunity for ladies and men to buy SUIT LENGTHS; grand chance for discriminating men to procure suit or overcoat lengths, and for custom tailors or manufacturing clothiers. All these cloths were bought direct from the best mills of Scotland and England, and every yard has been LONDON shrunk, which means they've shrunk all they ever will.

We've set aside one whole floor for the display and sale of these cloths, and

COMMENCING TUESDAY MORNING at 9 o'Clock we will start the greatest sale ever known in Toronto in piece goods. SUIT LENGTHS FOR MEN---SUIT LENGTHS FOR WOMEN---and the prices will be marked at less money than the goods cost the manufacturer to produce.

Come quick. Take the elevator direct to the third floor---buy enough of these matchless materials to keep you in suits for years.

WIND-UP CLEARANCE OF MEN'S WEAR

Clean up of Men's Stylish Hats; lines including the regular \$2.25 and \$2.50 lines. Take anyone that suits you for \$1.00. Hats marked at less than \$2.00 half price. Entire stock of FANCY VESTS, many priced up to \$5.00, take your choice for \$1.00. Round up of Men's Collars, including the "Arrow," Austrian and Domestic makes, clearing at 5c each or 50c dozen.

Table with 2 columns: MEN'S SUITS Second Floor and MEN'S OVERCOATS Main Floor. Lists prices for suits (7.50 to 15.00) and overcoats (7.50 to 10.00).

No Mail Orders. No Goods Delivered. EVERYBODY COME EVERY DAY.

Jack Sheehan

29 Colborne St., Toronto, Ont.

Think well before you buy your wire to-day, boys, and remember the name of Jack Sheehan is a guarantee of square treatment, and wire from the racetrack is on file each day at Toronto office.

Saturday's one horse: Rialto, 7-1, Won and the Sheehanites are not through cashing yet. If you want to get the big money, follow Jack Sheehan.

Yesterday's one horse: B. Homme, Lost. You have just got to take the losers with the winners, boys, but week after week I show my superiority over all other folks by slipping horses over that the newspapers never give a chance.

Compound Interest is the way we will get it all back on to-day's horse, and take the tip from me, I know something extra for other folks by slipping horses over that the newspapers never give a chance.

Yesterday Adrinche, scratched. All clients who received this wire will get to-day's good thing free.

We Have Word on one that runs to-day which has been specially saved for this race, and will have to fall down to lose.

Don't Miss This One as it is the best thing we have had for some time, and WILL WIN.

Terms: \$5 weekly; \$1 daily. Wired anywhere at 12 noon.

Jack Atkins

Our good thing yesterday was ETHON, 3-5, WON. As the contender was scratched, it shortened his price, but to-day we have one which looks like it's an awful good thing. It's water on his wheel to step off a mile around 1:38. This is one the wise clique is sending after the currency, so beat it while your shoes are good.

Write and see Jack's agent. On Wednesday there will start a horse that is fit and ready to get to-day. The only way he can bluff it off is by awful bad racing luck. What they're going to do with this one around the country it's not fair to tell. This one is where you can bet the check rack. Step down to the office and poke five bucks for the rest of the week and you will be pretty fat Saturday night.

Office, No. 1 Adelaide E., Room 1. Over Baxter's Cigar Store. Out-of-town clients will be wired 12 o'clock daily.

BILL CAFFERY

Room 35, James Bldg., 75 Yonge. If you want real genuine inside information, direct from the racetrack, see Bill Caffery.

Yesterday's HORSE LOST Here I am, boys, right out and up above board advertising my loser, just the same as if it was a winner. Is that plain-enough? Just had a little hard luck.

5 OR 8 TO 1 is the price expected, according to information already at hand. This is really and truly one of the best things of the winter racing, and will win sure. Under no circumstances fail to get in to-day.

Out-of-town clients wired 11 a.m. Terms: \$1 daily, \$5 weekly.

THE PRICE ON THIS "KILLING"

COBALT---Mining Markets Are Showing More Resiliency--GOWGANDA

MINING MARKETS ARE FIRMER UNDER LEAD OF TEMISKAMING

Cobalts Open Weak With Greater Buoyancy and Advances Are Well Held Against Sales.

World Office, Monday Evening, March 1.

With the beginning of the week, there was an increase in the demand for mining securities, and prices in several of the more active issues today responded readily to this demand. Temiskaming was the most active and buoyant issue during the day, with an advance of \$1.51, as compared with Saturday's low price of \$1.40.

The movement in this stock had an influence on the whole market, as was evidenced by the improvement in the prices of many of the other issues dealt with. There was in excellent demand the whole day, buying power, chiefly for this stock coming from New York.

Advances in a little profit taking, however, caused a slight reaction, but the market on the whole closed with a good undertone. The movement in this stock was not of particular advantage to the market, but the ore shipments for the week showed evidence that the record of the camp is being kept up, and this served in a measure to sustain confidence. The strength in other markets was also a helpful factor in the dealings in the mining securities.

MACHINERY GOES IN

Plant for Two Gowganda Mines on the Way.

Machinery is now on the rails bound for Gowganda. Yesterday a 40 H. P. engine for the Reese-Doble mine at Gowganda was delivered by the G. T. R. to the C. N. R. for forwarding to Selkirk.

Parts of the Bartlett plant are already in transit up the T. and N. O. The consignment will be divided between the two camps operating thru to the new camp.

70 TONS PROVISIONS FOR O'KELLEY MINES, LTD.

This Company Proposes to Work Their Properties With All Vigor—Will Have Ten Teams.

The O'Kelley Mines, Limited, of Gowganda propose to work their properties with all vigor in order to cover definite indications of what are thought to be valuable leads.

On Saturday this company shipped two carloads of provisions via the T. and N. O. Railways to Charlton; one carload of dynamite of 20 tons; one carload of steel, comprising hand drills, steam drills and other mining apparatus.

Two teams of horses were shipped from Toronto by this same company, and these two teams, along with eight teams that will be bought in Charlton, will be used to haul the mining equipment and provisions to the mines from the railway.

It is the intention of the company to keep two of these teams at work at the mines all summer, clearing ground, handling the ore and hoisting ore, for it is impossible to get heavy machinery on the property for some months.

Warren Bros., 25 East Front-street, were the wholesale grocers who came up the 70 tons of provisions for the O'Kelley Mines, Limited.

ERIE GETTING RESULTS

Prediction That Mine Would Make Good Being Verified.

COBALT, March 1.—Visitors from the south to the district around Cobalt are more numerous than ever, and it is probable that the frequent appearance here of a number of brokers and mining men will soon result in some properties assuming a good deal more prominence than they have previously shown. Yesterday among those who were in town were P. Culver of the Silver Queen, James A. Gormally, Frank Loring, M. E. and J. H. Jewell, and a number of others. The Erie property seemed to be the objective point of the most of the visitors, and it is said that recent operations have caused a much higher valuation to be placed on the property than ever before in its history. Little has been given out about the progress of work at the Erie mine the past few months, but it appears that the mine manager has been satisfied with the outlook all along, and has continued development steadily, and that quite recently his prediction has been proven. Those who inspected the property yesterday found several veins on the 70-foot level of No. 2 shaft converging. The point of contact has not as yet been reached, but the expert opinion favors the existence of a rich ore body. The directors and large shareholders who inspected the property expressed themselves as being more than satisfied at the very encouraging conditions found, and as a result the Erie is likely to come more and more into the public eye. The progress of the work has been greatly facilitated by some new buildings and some additions to the plant, and Superintendent Chisholm will increase his working force during the coming week. The Erie has always been regarded here as a property that would sooner or later make good, and those who believed in the property are now recalling their prediction regarding the mine.

Share Canada's Mineral Wealth

EVERY man, woman and child in Ontario is entitled to share in the great mineral wealth of Cobalt, Gowganda and the famous silver fields situate in Northern Ontario, but under former conditions only a few participated in the fortunes made. These are the millionaires and multi-millionaires of to-day, who, when Cobalt properties were in their prospective stage, became owners or joint-owners in these valuable properties and directed the expenditure of their own money. Their riches have been made by developing valuable prospects into shipping mines. This is the manner in which you should be operating, you should acquire a claim—develop it—and if it proves up to the standard of a shipper, your fortune is made. The properties of Gowganda, Elk City and the other newer districts give promise of becoming equally as valuable as the mines of Cobalt, and those who exercise the same caution and judgment in operating in this field will receive the same rich rewards as the millionaire operators of to-day in the Cobalt camp.

We have acquired several first-class properties in the great silver belt and are prepared to place you in the same position as some of the earlier operators in Coleman Township. Some of these properties have shipping ore in sight, others show cobalt bloom and nicolite, while still others have just enough showing on them to make bona fide discovery.

A few of these properties are as follows:

- MAPLE MOUNTAIN DISTRICT—A 40-acre claim in diabase and gabbro, showing six mineral veins, four of which show native silver on the surface and one in shaft.
- NO. I.—Four claims west of Obuskong Lake; good calcite veins and apatite leads; adjoining claim has silver; no development work, but splendidly situated. First buyer gets these opportunities at \$3000.
- NO. II.—Directly east of Spawning Lake; three claims, all in diabase; discoveries made; silver discovered close to these properties; one of the best cheap groups in the district. Price, \$2000.
- NO. III.—Two directly south of Beaver Lake; all diabase and keowatin. These claims are directly south of Bartlett. Calcite veins.
- Three between N.W. and N.E. arms at south end of peninsula. Native silver adjoins all of these claims. Owners' statement says that one shot will bring silver from one of these veins. They are for sale at the very low figure. \$11,000 will buy the five claims.
- NO. IV.—Shining Tree Lake. Claims in this new district. Terms very reasonable. Owner will retain interest. Development money will secure control at low figure.
- NO. V.—Five diabase claims adjoining well-known claims west of Obuskong Lake. Cheap to cash buyer; \$250 each.
- NO. VI.—Silver Lake. A property in this proven district which will be a shipper among the first. A rare chance for the capitalist who wants a mine. Can be examined and will bear out all representations.
- Many other first-class locations for the quick buyer.
- Today we early sold a group of claims, and before night had two other offers. First comers get best offerings.

WALL ST. SAID TO BE BOOMING FOR TAFT'S INAUGURATION

New York Stocks Rally But Are Lacking in Vim Hard Work to Bull Domestic Securities.

World Office.
Monday Evening, March 1.
Transactions at the Toronto Stock Exchange to-day were only of a normal character. Prices generally for the speculative securities were slightly higher, but there was an entire absence of buoyancy in the market and business lagged throughout both boards.

With an improvement in the New York market and lessened offerings of domestic securities, prices advanced only moderately, and it is still apparent that supplies of stock are plentiful on the exchange.

The most important factor in the market to-day, insiders are, as usual, willing to lend support, providing they see an outside following. The concern is only a moderate extent, and many sales were made purely as tests of the market's absorptive power. Considerable strength in the New York market, the Toronto stock market showed a poor response. This was due entirely to the apathy of local traders, who feel that it is an uphill proposition to take the market on a speculative basis.

There is no necessity to individualize the various transactions, which were too small to be really classed as a sector market.

Investment stocks have retained a steadiness, owing to the limited amount of offerings, but the new paying interest in this department is about as limited as the selling.

Wall Street Pointers.
Enquiries for steel more numerous since general cut in prices.
Southern cotton mills have taken more raw material so far this season than for three years.
Open copper market stimulating better enquiry for the metal.
No cut likely in tin plate.

CHICAGO: Western traffic managers report that there have been no sensational gains in any line of commodities in the gradual improvement which they are making in certain commodities. This is principally merchandising which is going on at prices better than in any other line in the trade consider that the copper situation is materially improved.

Special Improvement seems likely in the stock market this week. The industrial stocks having completed their adjustment, conflicting cross currents may be witnessed. Profits on at least part of holdings should be ignored on the presented on recessions. The general list appears to be temporarily sold out.

The Taft boom seems only the moderate recovery the market is entitled to. Underlying conditions are unfavorable. The copper situation will be solved by a deal for 25,000 tons. Copper is producing at a record rate and consumption is at a minimum. Quadrupling present rate of consumption would not equal supply. Closing of mines and reduced dividends seem certain later on. Steel manufacturing will provide only poverty profits for a prolonged period. Struggle for business means lower instead of higher freight rates, with transcontinental as well as Atlantic roads involved. Tariff revision will be a long fought battle to draw, with the whole market still in the air, or it will provide radical cuts.

Wage readjustment prospects involve further curtailment of public buying power and unsettlement of confidence in important securities. Anything approaching crop failures would be disastrous. The market may hold for a time, but for the long pull we are bearish and on bulges would sell for good profits Reading, St. Paul, New York Central and Erie—Town Topics.

C. I. Hudson & Co. wired Beatty & Glassco, 14 West King-street, as follows:
While stocks eased off in the last half hour, changes for the day, as a rule, represented good advances, particularly in the metal group. The setback was a normal one. After some further reaction, we think stocks which sell highest. Positionment of the Heppburn commodity decision for another week gives a chance to welcome the new president with a good stock market, this

LACKS SPECULATIVE SNAP.
World Office.
Monday Evening, March 1.
Absence of immediate offerings and a strong New York market favored higher prices at the Toronto exchange. There was, however, one thing lacking, and that was speculative "snap." Local traders are not enthusiastic as to the immediate future of the market, and this is responsible for the small amount of present operations. To-day's bidding up was believed to be at the dictation of those more anxious to sell than to buy stocks. Manipulation was more responsible for the transactions to-day than actual ordinary and public dealings. A rising market depends upon a greater public interest, and this at the moment is not very promising.

SUCCESS IS THE GOOD NOW

There Were Over 100 Babies Entered for the Borden's Baby Contest—Everybody is Getting Interested Now.

There is no untoward circumstance now to prevent the Borden's Baby Contest being a magnificent photographic exhibit of "tiny tot" beauty in point of numbers.

Success is on the banner and the banner is in its place. The first few days it was slow going—photographs came in by ones to the Baby Contest editor, but to-day it is not an uncommon occurrence to receive from 50 to 100 a day, at first confined almost entirely to Toronto, now spread to other towns and cities, and provinces, till it is the habit of the editor to answer and send to it than interest and friendly rivalry of good parents, for photographers wherever interested at all are heart and soul in the contest, and the taking of "babies' pictures" is the most ticklish of undertakings in the photographer's art.

—is being pursued with an earnestness and a desire to beat the best that the meaning reputation for many a studio for baby picture taking that's the envy of the trade.

You may think your baby the dearest thing that ever drew the breath of life, but you may think, too, that in a contest with thousands of others it would stand little chance of winning prizes—do the little one up in its best, take it to one or other of the photographers who are taking pictures free for the Borden's Baby Contest, and leave it to him. The camera can do wonders, and you know the eight or ten good judges do the prize giving from photographs.

The conditions are simple. Any baby 3 years old and under is eligible.

Have a cabinet photo taken; cut an inside label off a can of Borden's Eagle Brand Condensed Milk; cut the coupon out of this paper (you will find it in the Woman's Page), fill in carefully, attach them both to the photo and mail deliver in person to the Baby Contest Editor of The Toronto Sunday World.

A request—if your baby is a Borden's Eagle Brand Condensed Milk baby.

Contest closes March 27.

CONTRAST ATTRACTION TO SIN.

Concluding series of addresses on social problems at Parkdale Presbyterian Church on Sunday night, Rev. A. Logan Goggin said that Christ composed the Sermon on the Mount, which would be no social problems by means of the counter-attraction of His love, which found its highest expression at Calvary.

The sermon on the Mount, Story writers write Mrs. Wensley of Halifax, "I lost myself in a sort of self pity because health seemed so shattered, and with the mental distress that grew with my bodily weakness I was a burden to myself and a greater burden to my family."

"I could not sleep—I could not rest—was ready to cry on the least occasion, yet I was plump and fat. Can you imagine a more distressing condition than weakness of body and mind?" writes Mrs. Wensley of Halifax, "I lost myself in a sort of self pity because health seemed so shattered, and with the mental distress that grew with my bodily weakness I was a burden to myself and a greater burden to my family."

Men's Raincoats Ready

WE can show you the new raincoats any time. Better get one to-morrow. A winter overcoat is no garment for March rain storms. Come in and see them.

Here's a coat at \$6.95 that we think is priced about low enough for anybody.

Made from an imported English covert cloth, a light weight material, with a smooth finish that does not absorb the moisture; being thoroughly proofed, it makes an excellent rain or shine coat; the most useful garment a man can possess; cut loose and roomy; full 50 inches long; single-breasted Chesterfield style. Sizes 36 to 44. Our special price Wednesday, \$6.95.

A New Range of Neglige Shirts at \$1.00

MOST Men think a Dollar about the right price to pay for a Shirt, and we always try to procure Dollar Shirts a little better this time than the last, so that our standard is advancing all the time.

The new line for spring 1909 is in. We are confident that you will appreciate the care we have expended in the selection of patterns and the discrimination of qualities.

They suggest Shirts selling usually at 25c to a half dollar higher than they do.
