SERIOUS RIOT IN ASSYRIA COLONY

Mrs. Thomas May Die As Result of Injuries

RECEIVED IN FIGHT

Quarrel Among Assyrians Led to Pitched Battle—Four Participants Are Badly Hurt Seven Arrests Made by Police.

As a result of an altercation between Fred Isaacs and Tom Simons, a serious riot occurred in the Assyria colony in the vicinity of Brunswick and Erin streets early this morning.

Shortly after six o'clock Fred Isaacs left his home to go to his store in Brunswick street when he was attacked by Tom Simons, who struck him on the head with a heavy club, splitting open his scalp. The riot attracted passers by and the belligerents were soon surrounded by a surging, howling mob, among whom were a large number of Assyrians, some of whom attempted to quell the disturbance. Sticks and stones flew in all directions and, four Assyrians are now badly hurt. The police were summoned and seven arrests were made. Two of the prisoners are suffering from severe scalp wounds and a third who is now at the public hospital is afflicted with a broken arm and will probably be laid up for a week. The injured were cared for by Dr. Thomas Loney.

All seven prisoners were in court this morning and the majority pleaded not guilty. They were remanded for three days, but his honor announced that preliminary hearing may begin this afternoon.

The trouble is said to have arisen out of petty business jealousy between Fred Isaacs and Tom Simons. From present information, most of it from the police, the fight was one of the most desperate that has ever occurred in the Assyria colony. Hardly had Isaacs and Simons started to quarrel when they interfered and within a very few minutes the row became general and over two hundred people were mixed up in the melee.

Present information is to the effect that Fred Isaacs and Tom Simons had been drinking on Saturday and Simons was lying in wait for Isaacs on the morning of the riot. Isaacs left his home shortly after six o'clock when Simons attacked him and almost before he had time to defend himself, dealt him a staggering blow with a heavy club, and then the fight began in earnest.

A crowd assembled and Anthony Isaacs, Fred's brother, had just come out of the house, when one of the bystanders said to him, "your brother is being killed over there." Anthony rushed into the fray in an attempt to save his brother, when he also received a heavy blow from a cudgel, which sent him reeling, and on examination it was found that his scalp was badly bruised and cut.

John Sullivan, another Assyrian, made an attempt to stop the fight, and somebody struck him with a heavy stick, breaking his left forearm.

THE PRINTERS' CONVENTION WAS OPENED THIS MORNING

Big Gathering of Typos at Hot Springs—Reports Deal With Work of Year

HOT SPRINGS, Ark., Aug. 12.—The thirty-third convention of the International Typographical Union was called to order this morning in the dining room of the Eastman hotel, which has been temporarily converted into a convention hall. Addresses of welcome were made by the mayor of the city, the officers of the local union and others, and were responded to by President James M. Lynch. The reports of officers were then presented to the convention. About 1,500 delegates and visitors are in attendance. The report of President Lynch covers the progress made by the International Typographical Union for the period elapsed since the Colorado Springs convention, and also outlines new policies and touches upon those that have become a part of the work and history of the organization. Among other things an aggressive campaign for the union label is recommended. The campaign for an eight-hour day, which has been vigorously prosecuted by the International Typographical Union for nearly two years, is touched upon extensively, and it is shown that this movement has been attended with a very large measure of success, about 45,000 members of union now working not more than eight hours per day. In the president's report the proposi-

THE NEW MOTOR CARS FOR I. C. R.

The Second of the Rhodes, Curry Cars Will Be Out On Thursday—Coal Responsible for Poor Showing at St. John

MONCTON, Aug. 12.—(Special)—The second Rhodes & Curry motor car will be out about Thursday for trips, and the Austrian car is expected to be out by the last of the week. Both cars are now in the I. C. R. shops. The I. C. R. management attribute the unsatisfactory trip of the motor car at St. John to the fact that Scotch anthracite coal was used as fuel for an experiment. Soft coal had always been used previously and had given good satisfaction, but hard coal was given a test. The management expects the car to give satisfactory service as soon as its tests are concluded at St. John.

RICHARD MANSFIELD IS REPORTED NOT SO WELL

SARANAC LAKE, N. Y., Aug. 12.—Dr. J. L. Lemieux, of Montreal, a specialist in nervous diseases, has again been attending Richard Mansfield, the actor. While the family declares there is no change in the condition of the patient, the indications are that Mr. Mansfield is not as well as when he first came to the Adirondacks two weeks ago. He no longer goes on his daily drive. At first, unfavorable weather conditions were advanced as the reason, but the weather is now perfect.

SHRUBB WON IN HOLLOW STYLE

American Champion Was Easy for English Runner in Games in New York.

NEW YORK, Aug. 12.—According to the World, today, Alfred Shrubb, the English professional runner, proved yesterday that he was entitled to the championship of the world. At the Cavan man's games at the Celtic park, he beat Frank Kanaly, of Boston, the American champion, in a 3 mile race in hollow style. The time was 14.46 2/3. The farther they went the more Shrubb increased his lead. He covered the first half mile in 2:06 2/3, which was the fastest mile ever run in a long distance race. It beat the mark of Herr Mahler's Connors by two-fifths of a second. Shrubb covered the mile in 4:31, two miles in 9:42 and finished in the fast time of 14:46 2/3.

SOME FINE GOOSEBERRIES

The Times has received from Mr. and Mrs. J. S. Climo a box of the mammoth English gooseberries which Mr. Climo has cultivated from the seed in his garden on Mount Pleasant. This paper has before referred to Mr. Climo's success with these berries, which are of a very large size, of good flavor, and yield heavily. His patience in waiting for the fruit has been amply rewarded, and his example should be followed by others. Small fruits of various kinds could be cultivated on a much larger scale in this province, especially in the vicinity of the town.

KILLED IN A WINDSTORM

CRAIL, S. B., Aug. 12.—(Special)—Geo. Shaffer, a homesteader of the Mountain Lake district died yesterday of injuries received in a severe wind storm which passed over the district. He evidently was in the house when the storm broke as the house was completely destroyed and carried to a hundred yards. Shaffer was found lying under the ruins of his house having lain there for an hour and a half. He never regained consciousness. The houses of E. Smith and Arthur Mann were shattered to atoms.

THE TELEGRAPHER'S STRIKE

NEW YORK, Aug. 12.—The prospects of a strike of the 3,000 local telegraph operators are diminishing, as a result of the belief expressed today by officers of the local union that the efforts of United States Labor Commissioner Neill, in Chicago, to adjust the difference between the telegraph companies and their employees, would be successful. The union officers say that a strike will be called on Friday unless it is evident that the conference in Chicago will result in favorable concessions to the union.

SEOU, Aug. 12.—The Korean supreme court has passed sentence upon the members of the "Hague Deputation." Yi Sang Soh has been condemned to be hanged and Yi Wi Chow and Yi Chun have been sentenced to imprisonment for life.

NEW SOURCE OF REVENUE.

FATAL ACCIDENT AT JACQUET RIVER

Gilbert Dempsey Shot Himself While Cleaning Gun

DIED SOON AFTER

Moncton Boys Bound on Excursion Were Given Up for Lost by Anxious Parents—Former New Brunswicker Dies in Calgary.

MONCTON, Aug. 12.—(Special)—A report from Jacquet River gives meagre details of a fatal shooting accident which occurred at that place yesterday afternoon. A young man named Gilbert Dempsey, while handling a rifle, was shot through the leg and died shortly after receiving the wound. It appears that the bullet first entered the unfortunate young man's leg and passed up through his body, coming out his back. There are no particulars to hand as to just how the distressing accident occurred, but it is supposed Dempsey was cleaning or examining the gun when it was accidentally discharged. He was at home at the time and his mother, who was near by, seems unable to account for the sad catastrophe. The young man survived but a short time after the shooting.

Burton McLean, formerly a G. N. W. telegraph operator at Campbellton, died at Calgary yesterday morning while undergoing an operation for appendicitis. The deceased was about 22 years of age, and was a son of Robert McLean of the light ship in Miramichi Bay. He formerly worked in the C. P. R. office at Fredericton and had been in the city for some time.

Three young boys, aged ten years, were the cause of considerable commotion about the city last night, and gave their friends a very anxious time by leaving home during the afternoon and staying away until midnight. The boys had been to Sunday school and had been very good, but a little later disappeared. Nothing was thought of until supper time arrived, when their parents became anxious as to their whereabouts. Dark came and still there were no tidings of the boys. Naturally their parents became very anxious about their children, and search was made at every place it was thought they might be found. Finally the police were notified and then the search took wider range. It was feared some mishap had befallen the little chaps and the wharves and other places were searched for some trace of them.

The absence of the boys became such a serious matter that the father of one of them, who is in Hillboro, was notified by their appearance. It appears from their story they proposed taking a trip to the city and to the coast. They spent the evening about the I. C. R. transfer shed and intended to take the 3:30 train to St. John. One of the little fellows had a bank which contained about \$1.79 and with this he proposed to take his friends on an excursion trip. One of the boys weakened before the night was half over and as he determined to seek the shelter of his home his young companions decided to do likewise.

LORD SEFTON HAS RESIGNED

LONDON, Aug. 12.—Lord Sefton, who was appointed minister of the house when Sir Henry Campbell-Bannerman framed his ministry, has resigned, as a protest against the land legislation inaugurated by the Liberals. In officially announcing his retirement his lordship says it was due to "not being in accord with the extreme measures of the government." This is the first defection from the Campbell-Bannerman ministry.

WALL STREET

NEW YORK, Aug. 12.—Speculation was weak at the opening of the stock market today and prices crumbled away rapidly. Sensational losses were registered in all of the important stocks during the first ten minutes. There was a break of 5 points in N. P., 3 3/4 in Can. Pac., 3 5/8 in U. P., 1 1/4 in B & O, Amal. Copper and Colo Fuel, 1 3/4, 2 1/2 in Erie. First and Brooklyn Trane, 2 1/4 in Reading and Atchison, 2 in Sou. Pac., D & H. and Smelting and considerably over a point for all other stocks. The market became feverish and unsettled, some stocks rallying strongly in supporting orders and others declining still further.

drive along that side of the street without being upset. There has been some talk of having the street graded so that it could use it, but nothing has been done, and the boys think it a pity that no use is made of so fine a site for the chutes. The suggestion that tourists should be taken along that side of the street in carriages and upset, to add a thrill and perhaps a broken bone to their delightful experience in visiting the reversing falls is also under consideration,

KILLED BY LIGHTNING

One Man Killed and Much Damage Done During Worst Storm in History of Fort William.

FORT WILLIAM, Ont., Aug. 12.—(Special)—The culmination of two days' heavy rain came on Saturday when from two o'clock in the afternoon until four o'clock the next morning this district was swept by the worst storm of years. As a result one man is dead, two others are in a critical condition, the spire of the Roman Catholic church is torn to pieces, the large new warehouse of the John King Company is injured and a dwelling house on Wiley avenue is partly unroofed. The dead man is Mat Fissal, a Finlander. With two companions, Fissal was on his way home on Saturday night when the bolt of lightning killed him instantly. His two companions were thrown to the ground and when found were still unconscious. One of them remained in this condition for several hours. The telephone and electric lights were put out of business and the injury to the telephone system is very heavy.

ALMOST A TRAGEDY

Gasoline Launch Took Fire on Lake Ontario and Six Occupants Had Narrow Escape.

TORONTO, Aug. 12.—(Special)—Six persons, two women and four men, had a narrow escape from death late on Saturday in the lake just opposite Scarborough Beach. The party were in a G. O. Beardmore's gasoline launch and when about 25 feet from the end of the pier, some of the woodwork around the engine caught fire. Seats from the launch reached the party. The yacht was in comparatively shallow water, so that two men, who waded out, then dove under the hull and the hull was filled full of water, the vessel being scuttled. The boat was valued at \$2,200. The cause of the fire is unknown.

PLAYGROUNDS FOR CHILDREN

(New York Post) At a university settlement meeting in Manchester, England, Mrs. Humphrey Ward spoke on the "Needs of City Children for Play." It is important that places should be set apart where they can amuse themselves during their leisure hours; otherwise they spend their time in the streets, and quickly fall into vice and crime. Such places are the more needed because the homes of many children are so unfit. "They go, perhaps, into the midst of drunken fights, where they may be knocked about, and they cling to the play-centre." Mrs. Ward dwelt also upon the necessity of directing the play of the young, in which she said New York set an excellent example. Yet many of the English towns are better organized for carrying out this good work. In some there are not only play-centres, but industrial schools in which the children are amused and learn how to gain a livelihood. In this city, the opening of the public school buildings for play during the summer vacation has been a great boon, especially to those who live far from any park or open square. The school houses are cooler and cleaner than the street, and the morals of the children can be tended to better when they are gathered in one place. Yet, after all, it is a barren substitute for the real count-

ARAB FANATICS MAKING TROUBLE

Heavy Fighting Reported in Region Around Casablanca

By Arab Horsemen—French and Spanish Allies Vigorously Engaged by Tribesmen, Who are Repulsed With Heavy Losses.

TANGIER, Aug. 12.—There is a persistent rumor here which comes from Moorish sources and can not be confirmed that the Sultan has left Fez for Rabat and, travelling by forced marches, has arrived at Casablanca. There is still much uncertainty as to the progress that has been made in the negotiations for the release of Sir Harry Maclean. There are rumors that a hitch has occurred in the negotiations. Letters received here from Fez state that the Sultan upon hearing of the intentions of the French and Spanish forces to occupy Casablanca, became seriously alarmed, and said that such a step would lead to a revolution through Morocco and endanger the lives of all Europeans.

They offered to build it within six weeks, as the requirements call for, but their figure for the work was about \$200 above the price quoted on the other side.

CHAPTER VIII. THE TWO PORTRAITS.

Charity, as we are often told, may begin at home, but "charity," and in this case the plural implies much more than a mere increase in numbers, undoubtedly require transplanting to a wider field and a more stimulating soil, if they are to flourish at all.

Therefore, though the Dundas Cottage Hospital and District Nursing Association were acknowledged far and near as the most beneficent and successful institution, its committee, like most others which depended on voluntary contributions only, would have been over-extended in squaring its accounts had it not been for the yearly garden party, at the inevitable sale of work thrown in, at Stormont.

When, therefore, the Heathshire Herald declared that "the mysterious affliction which had befallen our much-respected member, Sir David Stormont, had cast quite a gloom over the country," that phrase was by no means so figurative as it usually is. Dundas trembled for its annual gala day. The hospital committee, in despair, and to add to its difficulties, the Rutledgeys or Miss Vi, rather, had, and all its resources, an offer which it was equally difficult to accept or refuse.

Both suggestions had originated from Lady Stormont, and she had been surprised and a good deal hurt that her husband had been so slow to respond. He was never ungenerous in money matters, and there had already been some talk between them of giving the new building as Isabel's majority or on her wedding, but why wait till other internal organs were the more earnestly as Sir David seemed to have no definite reason against it.

drawn her hand, and her glance wavered as if she were seeking escape from even the few moments of talk which constituted the occasion. CHOKED TO DEATH

Male Inmate of Fredericton Aims House Choked by Piece of Meat.

Fredericton, N. B., Aug. 11.—William Mitchell, a clerical man, who has been an inmate of the almshouse for the past year, met a tragic death at noon today. While sitting at the table eating his dinner, a piece of meat lodged in his throat and all efforts to dislodge it proved fruitless and he died before medical attendance could be procured. He was about sixty years of age and was well known about the city, where he worked as a laborer for a number of years.

A severe electrical storm, accompanied by heavy rain, passed over the city this afternoon. Although lasting less than half an hour it did considerable damage. A dwelling house on York street, just beyond the shoe factory, occupied by Mrs. West, a widow, was struck and almost demolished. One end of the building was torn out and the plaster was knocked from the walls of several rooms on the lower floor. The occupants were very much alarmed but fortunately nobody was injured. The firemen were called to the scene but their services were not needed. The storm put the alarm out of order but repairs were soon made.

Silas Staples, a well known shoemaker, dropped dead in Sussey's store on King street yesterday afternoon. He was stooping down to lace his shoe and expired suddenly. Heart failure was the cause of his death. Deceased was sixty years of age and is mourned by a widow and family of four sons and two daughters. His death is the first break in a family of fourteen. Otis Staples, a millionaire, residing in British Columbia, is a brother.

HINTS FOR PANCAKE MAKING.

A good way to prepare the pan for pancakes, fritters and such things, is to put the butter in a clean cloth, and rub the little bundles all over the pan. The heat melting the butter, will let just enough through the cloth to butter evenly and prevent waste. For the pancakes themselves, there is an increasing use of Blended Flour, which, good cooks agree, is without an equal for making light, tasty, pancakes. It can be had from any good mill, and is a scientific blend of Ontario fall wheat and Manitoba spring wheat. Freed, as it is from waste matter, this Blended Flour is richer in flavor and food value than either of the wheats could give alone. It contains just the proportion of those elements in flour which prevent the food becoming soggy and indigestible.

The blending of flour is an old trick, taught good housekeepers by their mothers and grandmothers. It is convenient to have this by-no-means-easy task shifted from our burdened shoulders onto the broader, sturdier ones of the dustless millers of to-day. And they should certainly do the blending more accurately, with all the modern machinery, than could be accomplished by the most painstaking work at home. Careful housekeepers are using Blended Flour for bread and pastry, too.

THE STEEL--COAL CASE

An All Day Session of the Famous Trial Was Held on Saturday.

Sydney, N. S., Aug. 11.—The Steel-Coal trial resumed yesterday forenoon. It was thought at first that no session would be held in the afternoon, but the judge said he was anxious to have the case proceed as rapidly as possible and for that purpose he would sit after lunch. Hiram Donkin was on the stand for a short time after lunch but nothing important was brought out. Arthur McCallum, formerly a chemist in the employ of the steel company but who at the present time is in the service of the coal company, swore that he had made one analysis of coal from No. 6 and found that it contained 6.13 per cent sulphur and 11 per cent ash. The proportion of organic sulphur was about one-third of the total. He also said that the stone and shale contained but very little sulphur and when asked the exact amount stated it was one per cent. Coal from No. 6 was used under the boilers at that place and was found to have given satisfaction. Witness said ash in coke would not interfere with its strength but upon cross-examination he modified that statement by the remark that he could not speak from experience, but only from what he had heard.

He Did Things

He was a cynic, and when a young man with the country sunburn on his cheek and a dress suit case in his hand boarded the car at the depot the other said: "You've had your two weeks off." "Yes." "You've been out in the country." "Yes." "You've stopped at some farm house at seven dollars a week." "So I did." "And you slept on a straw bed and were bitten by mosquitoes all night." "Positive fact, sir." "And the fresh milk was sour and the butter rancid." "Tasted that way to me."

MONEY MARKET IS THE FACTOR

The West Will Soon Require All the Help Possible from the East.

(Montreal Witness, Friday) The money market continues to be a factor of the greatest importance in the financial situation, and now that the crop requirements on this continent are imminent, it will be all the more acute.

Until yesterday, the local stock market affected an indifference towards the steady decline in Wall Street, but as stocks were offered on the big market in greater volume within the past twenty-four hours, the local holdings were seen to come out in abundance, and the leading issues were marked down from large fractions to a couple of points.

PRESERVE THE SALMON. A gentleman who is familiar with conditions along the Kennebecasis valley between Hampton and Sussex urges the Times to advocate a better system of fishery protection on that stream.

A CLEAN NEWSPAPER. "I say a word wherever I can in our district to extend your influence. You are conducting a clean newspaper. These kindly words, spoken last week by an out-of-town subscriber to the Times, are the more appreciated because the defects of a newspaper are much more likely to be discussed than any good qualities it may possess."

UNDER WHICH FLAG. The press of Canada is taking note of Earl Grey's remarks at Halifax, in the course of which he emphasized the thought of a general imperial responsibility for the upbuilding of the navy.

THE PEOPLE RESPONSIBLE. Whose is the fault in this province and in the Dominion generally political honors are conferred upon place-hunters and men who do not command the respect and confidence of the best people?

CHILDREN
WOULD YOU HAVE A BANK ACCOUNT?
 THEY SAVE YOUR POCKET PENNIES

When a boy or girl reaches the age to go to college how seldom has he or she the necessary means to do so. Yet, if boys and girls would save a part of their spending money—their "pocket pennies"—during all the years they are going through public school they would find that on leaving high school the path would shine clear to the college door, for in the bank to their own credit, would be a neat sum almost sufficient to pay for books and tuition, and perhaps, go a long way on the weekly loan as I please. But some children will say: "Oh, I never spend a cent that isn't quite necessary to be spent. Besides, papa and mamma allow me a small sum weekly to do as I please with. Other children spend freely their pocket money, why should not I?" etc.

Now, the children, bless them! are not really to blame. The fault lies with their too indulgent parents—more particularly the mothers; and the children, still of the thoughtless age, do anything that adds to their pleasure without questioning the wisdom of it.

But as the majority of the families are in very moderate circumstances and the father has his hands full with meeting the daily needs it behooves the mothers to inculcate ideas of economy in the minds of their little ones instead of humoring them in needless, small extravagances so commonly noticed as a fault belonging to American children.

It is a fact that nearly all school children in large towns and cities—children from homes where the fathers can scarcely keep their heads above water, so to speak—spend regularly from 10 to 20 cents a day on trash such as candy, ice-cream soda and indigestible noon luncheons which they would be much better off without. And it is this constant, useless expenditure that robs the boys and girls of the educational advantages they will long for later on, for in the homes of people of moderate circumstances the boys and often the girls, too, are forced to seek employment as soon as they have finished high school and sometimes before, for they have wasted on trifles—WASTED—money enough to have taken a son of the houses through college and given the daughter a musical or artistic education.

But perhaps the children will say: "We cannot stint ourselves of the things we must keep up appearances and spend the same amount of money our neighbors' sons and daughters spend. Otherwise we'll be ridiculed and called inhabitants of those shabby tenements."

Now, pride is a splendid thing to have—pride of character, ability, accomplishment and economy; but when it takes on the form of vain show and vulgar pretense, it should be frowned upon by the public.

The sensible boy or girl who has, say a dollar a week for spending money, will lay away just half of it—put it in a savings bank where it will draw interest. Suppose a boy who is putting away 50 cents a week when he is 10 years old, to be used as "College money" when he is through high school and suppose he is ready for college when 18 years old. For eight years he has saved \$36 a year, and you will readily count up what eight times that amount would be, drawing interest all the time. A neat sum, isn't it? And how much better to have it all in a nice big "lumpy" than to have thrown it away on ice-cream sodas, gum, candy, digestible confections and whatnot, for now it meets a very urgent need—the need of a finished education.

I feel that there is much more to be said on this subject—hints to be given to the parents as well as to the children regarding the savings of "those indigestible cant pennies, nickles and dimes," but space forbids. However, I am quite sure this idea of saving whenever you can, instead of spending whenever you can (for it is the tendency of money to slip from one's fingers), will take root in your minds, and every boy or girl who reads this will begin laying aside a part of his or her allowance each week, and at the end of a year—two years or five years—they will be fully rewarded for any little sacrifices they may have made in the way of self-denial.

The writer knows one little girl, (only 18 years old now) who last year took a nice trip to California and old Mexico. When asked how she could afford it—her family was in moderate circumstances—she replied: "My pin money for five years did it. Instead of spending it on cheap jewelry, fads and fancies, bon-bons and nastiness, as my girl friends spent their money, I put it carefully away, promising myself a nice trip about the Continent. And I can assure you I have not regretted the experiment."

An inquest has been ordered and a jury has viewed the bodies.

The explosion wrecked the M. C. R. station, Lang Ritchie's Flaming Mills, J. McDougall's carriage works, and S. Green's warehouse. It also damaged the Methodist church. Rents were torn in many buildings on Talbot street, and there is scarcely a whole pane of glass in any building on the street.

PEOPLE OF NOTE
Leo Vogel
 Hon. Leo E. Vogel, the Swiss minister to the United States is one of the best known and liked members of the foreign colony at Washington. Splendidly educated, Herr Vogel has come up steadily through the political ranks which centre around Bern, the Swiss capital. He is noted for his liberal tendencies in politics and is much trusted by President Muller of the lay mountain republic. It was Herr Vogel who formally extended to the United States the invitation to send a delegation to Geneva during June last when the International Red Cross Society met in that city on June 14, 15 and 16.

A FLOATING ELEVATOR
 Report That the C. P. R. Will Use One on West Side Next Winter.

The difficulty of conveying grain to the steamer that will use the new Clarke wharf next winter will likely be overcome by the use of a floating elevator which will be brought down from Montreal for that purpose. The proposal, it is understood, is now under consideration by the C. P. R.

In Montreal harbor these elevators are in general use but will be a distinct novelty at the winter port. It is proposed to remove the top hamper from a floating elevator and bring it to St. John in tow of the powerful C. P. R. tug Cruiser late in the fall. It could then be fitted up in readiness for the season's business.

Several barges would have to be used in conjunction with the elevator, the grain being put in them from the big elevator, and then pumped out by the floating machine.

NEW COMET IS NOW PLAINLY VISIBLE
 (Montreal Star)

For the first time in many years, a bona-fide, full-sized-comet is scurrying across the heavens in full view of all Montrealers who care to look at it. What is more, another one is on the way to our section of the heavens, and, while of less mundane interest, will be even more carefully inspected by Canadian astronomers.

The comet at present visible, and plainly visible, even to the naked eye, lies a little to the northwest of a line between the Zeta star in the well-known constellation, Taurus, and the Alpha star in Orion.

Its tail is several degrees in length, and even the nucleus in the head is visible without a glass, although a pair of opera or field binoculars are a great help in looking at it.

Officially its location is given as near Star 126, Flamsteed's number, about 5 h. 46m. right ascension, and 15 degrees north declination.

At the Dominion Observatory in Ottawa the observers are busily engaged in photographing it. The comet has been identified as the "Daniel's Comet" (1907 Alpha), which was discovered in June.

The comet will continue to grow brighter for some little time. The best hour to observe it is in the early morning, about three o'clock, when its position is due east, and the elevation is about 20 or 25 degrees above the horizon.

THE FIREMEN'S TOURNAMENT

Expected That There Will be a Large Number of Representatives From Outside.

The arrangements for the firemen's tournament Sept. 2 and 3 are progressing wonderfully well. It is altogether likely that the success of the event will be greater than even the most sanguine anticipated.

From the number of acceptances received it is certain that the largest number of firemen ever brought together in eastern Canada will attend the event. The contests for the prizes offered will likely be very keen, as it is known that some of the teams entered have already had four weeks' hard training with three weeks yet to elapse before the tournament.

The following departments have sent in definite word of the number of men they will send: Halifax, twenty-five men and hose cart; Charlottetown, thirty men with probably a brass band; Chatham and Sussex, thirty men; Moncton, twenty-five or thirty men with brass band; Lunenburg (Me.), forty men with fire engine; Fredericton will send a large delegation of firemen with brass band, horse and cart; the Gibson and Maryville contingents will come with the Fredericton men.

Besides these, acceptances have come from Yarmouth, which town will send thirty men with apparatus; Bridgetown, Liverpool, Windsor and Shelburne. The men from the latter town will bring the famous engine presented to the place by His Majesty George III. Milltown (N. B.), St. Stephen, Calais, Truro, Amherst and Glace Bay will also be represented by large contingents.

Harry Ervin, the secretary of the executive committee, on Saturday received a letter from W. S. Mason, chief of the Bangor fire department, stating that at a meeting of the firemen of that city on the 7th inst. twenty pledged themselves to come, besides which the chief stated there will be representatives from Brewer, Orono, Oldtown and Milford departments. He concluded that from the present outlook the fire laddies would leave Bangor fifty strong, accompanied by a fire and drum corps. An acceptance has also been received from Brunswick (Me.), and it is understood that arrangements for a special train from Bangor for the whole party are being made. In all the secretary is in correspondence with sixty-eight fire departments, all of which are very enthusiastic over the matter.

The tickets for Thursday's concert are being sold very rapidly. One company disposed of 300 the evening they received them.

Chief Kerr with thirty or thirty-five firemen and salvage corps men will leave for Moncton in a private car attached to the 7 o'clock train tomorrow morning to take part in the tournament there. These men are from the city and Fairville.

COL. OGILVIE PROMOTED
 Ottawa, Aug. 11—(Special)—A militia garron announces that Col. G. H. Ogilvie, of the Royal Canadian Artillery, has been named as district staff adjutant for the maritime provinces in place of S. P. Laybourn. Capt. H. R. V. DeBury, of the Royal Military College, is granted the brevet rank of major.

INSPECTED THE 62nd
 Col. Vidal, inspector general of the militia forces of Canada, on Saturday inspected the 62nd Regiment St. John Fusiliers. He afterwards addressed the men, complimenting them on their neat, soldierly appearance and the excellent manner in which their movements were executed. On Saturday evening the inspecting officer was entertained at dinner in the Union Club by the officers of the regiment.

EXPLOSION WAS FATAL

Three Men Dead and Many Hurt by Dynamite Explosion in Ontario.

Windsor, Ont., Aug. 11—Three men are dead, the Michigan Central station and several other buildings, in Essex are wrecked, and all buildings on Talbot street, the main street of Essex, were more or less damaged by an explosion of a car of dynamite in front of the station. The dynamite was intended for use in blasting at the mouth of Detroit river. The car of dynamite was to go on the Stab line at Essex to Amherst.

And thousands of boys and girls can accomplish the same thing if they determine to do so.

A BRAVE RESCUE

James Carberry Saved Mildred Callaghan from Drowning in Courtenay Bay Yesterday.

But for the gallantry of James Carberry little Mildred Callaghan, twelve years old, would have met a watery grave yesterday in Courtenay Bay.

With two other girls, slightly older than herself, little Mildred was playing on the beach with a boat belonging to the York Cotton Mill. Jumping in and out, the children were in high glee, when suddenly the craft went adrift while Mildred was in it alone, and her frightened companions saw her carried away on the ebbing tide. Thoroughly alarmed, they started calling loudly for help. Meanwhile the child herself, either in an effort to regain the shore or from fright, fell over the side into deep water. Instantly she clutched at the boat as it was drifting by her, and hung on to the gunwale with all her tiny strength.

She called loudly for help and young Carberry near by plunged into the water, and just as she was sinking, grasped the little one and soon both were safe on the beach. Except for a wetting and fright, the child is none the worse for her experience.

Carberry, who is a son of Frank Carberry, of Clarence street, was warmly congratulated on his bravery.

Seneca Wins from Adele American Boat Faster in Light Airs—Finish Though Dripping Match—Adele Better of Start.

Rochester, N. Y., Aug. 10.—Rochester Yacht Club's defender Seneca this afternoon defeated the Royal Canadian Yacht Club's challenger Adele in the first of the series of races for the Canada Cup.

Today's race for the Canada Cup was made possible by the courtesy of the Canadian yachtsmen in overlooking the violation of the agreement by the Rochester Yacht Club in not filing plans of the defender and in waiving their forfeiture demand.

At 1:15 Seneca began gaining on the challenger and at 1:30 there was only a ribbon's width of water apparently between the Seneca's prow and the stern of the Canadian challenger.

At 2 o'clock the defender had a lead of a mile and when Seneca reached the first stakeboat she was nearly seven minutes in the lead.

The turn was made Seneca at 2:35 and Adele at 2:42.38. On the second leg with the wind behind them the racers made the pace a fast one for the second stake and Seneca turned it within the hour at 3:34.38.

HOW TO SWIM

Valuable Instruction for Readers of The Times

PHYSICAL DETERIORATION AND CURE

The nation's most valuable asset is its children, that they should have every possible opportunity of growing up sound, strong and healthy is of the most vital importance to our country.

I believe that that end would be the careful systematic teaching of swimming as a part of the scheme of National Education in all public elementary schools, and would urge upon the young of both sexes in the beneficent spirit of self-reliance, as given in all art of swimming.

While the municipalities throughout the kingdom are vying with each other in the provision of baths, the population as a whole are not making such full use of the opportunities afforded them as would be the case were they systematically taught swimming in their youth.

Yesterday's thunder and lightning storm according to reports received made things lively around this vicinity and St. George.

On the other side of the barn and about fifteen feet away stood another barn, its farther side within two feet of the Boyd Hotel. This also caught and it was only by the strenuous exertions of the bucket brigade that the hotel itself escaped.

COMPLAINS OF DELAY

The Editor of the Times: The world is coming to an end just as soon as the sun has time to absorb it. The sun should get a move on if it wants to get ahead of St. John city in paying the sum due to the land owners for the Loch Lomond water extension. But I suppose the recorder must do something for his money and they make him put up a fight against the man who earns his living by the sweat of his brow, the honest farmer. Talk about the czar of Russia, as the small boy says, he ain't in it with the council of St. John.

Dr. Pugsley acting for McArthur & McVey, appeared and was heard with reference to their claims for extras on No. 2 section. The feeling of the aldermen seemed to be, however, that they should hold to the contract and if a clear receipt can be obtained they will pay the portion due according to the terms of the contract, otherwise no action will be taken.

HAD LONG SEARCH FOR MISSING WIFE

Halfax Man Finds Missing Spouse and Companion Working in St. John.

After two months' tramping, James Francis Abriel, of Halifax, arrived here Saturday, and after a day's incessant searching succeeded in finding his wife and the man whom he charged with the destruction of his home life.

Abriel, before marrying his present wife, was a widower, with three children, and since their marriage, twenty-four years ago, seventeen children have been born to them.

On December 10, 1883, he married Phoebe Jane Mackay, who was in her teens. He was only eight years older, but was a widower, as already stated, with three children. Last April his wife left him, and when Mr. Abriel located his man he reported the matter at police headquarters.

The bride will be attired in a costume of white silk crepe de Chine over silk with pale orange blossoms, and will carry an anemone bouquet, the gift of her aunt, Mrs. M. A. Morgan, and a shower bouquet of cream roses.

The bridesmaid will be Miss Donalda Gasloingway, of Halifax, and she will wear pale blue chiffon tulle, trimmed with duchesse lace and a hat with Prince of Wales plume of corresponding shade. Her bouquet will be of pink roses.

The groomsmen will be Dr. D. J. Mullin, brother of the groom.

The wedding gifts were both numerous and costly. The groom's gift to the bride was a gold bracelet set with amethysts and pearls; to the bridesmaid a pearl set ring; to the groomsmen, gold cuff links. The ushers will receive gold pins from the bride.

The gift to the bride from her father, was a cheque of generous proportions.

On their return home the newly wedded couple will reside in St. John.

SERIOUS RIOT IN ASSYRIAN COLONY

(Continued from Page 1)

Sadie Thomas, who has figured before in the public eye, was another victim. Seeing the excitement she got mixed up in the melee, only to receive a stunning blow from a flying missile, inflicting an ugly star-shaped gash above the right eye which penetrated to the bone. Her condition is regarded as very serious and about midday it was rumored that she was dead.

Dr. Lunney had his hands full from early morning until 10 o'clock in caring for the injured.

Sullivan was hustled from the central police station to the hospital, and Fred and Anthony Isaacs are in jail. Dr. Lunney says that Fred Isaacs would not allow him to stitch up the wound in his head, and plaster was applied for the present.

The call for the police came at 6.30 this morning. It was reported that two women in the Assyrian colony were bleeding to death. Sergt. Campbell and Patrolmen Scott and McCollum visited the home of Mrs. Thomas and found her in the condition already described. The arrests followed.

Those whose names appear on the arrest book at police headquarters are: John Sullivan, aged 25; Raymond Simons, aged 14; John A. Sutherland, F. A. Scriven, Nelson Conrad, James Halliday, Ewan Morrison and W. M. Goudge. Besides the following grand lodge officers will go from Mystic: Deputy Grand Master, W. S. Rogers; Grand Treasurer, F. A.
