FOUR CONTESTS OF TEN INNINGS

Two Shut-outs Also in Major Leagues.

Johnny Wilson and Bryan Downey in 12 Round Bout Tonight—Pugilistic Kings Who Would Regain Lost Thrones.

New York, July 27—Four ten inning battles and two shut-outs contests were fought in the six major games yesterday.

Kelly's 15th home run of the season gave the New York Giants their first victory in 12 round bouts.

The Cleveland world's champions were having difficulty in hitting Pennock in the eighth inning for a tie, made eight hits for six runs in the ninth.

A homer by King, of the Philadelphia Nationals, enabled the Quakers to tie the St. Louis in the ninth inning.

Grimes of the Brooklyn Nationals and Zachary of the Washington Americans pitched shutouts against the Chicago Cubs to five hits, outpitching Alexander.

Chicago's seven hits were scattered while the Senators bunched a pass with two of the five hits made off Faber.

Bout Tonight. Cleveland, July 27—Johnny Wilson of Boston, middleweight champion, and Bryan Downey of Cleveland, will meet here tonight in a 12-round no-decision bout.

Jack Welch of Boston, will be referee. Eddie Wagner, Philadelphia, will referee. C. W. Delaney of Cleveland, in a 10-round no-decision semi-final.

Would Regain Titles. New York, July 27—Former kings of pugilism who have been planning returns to their thrones have taken heart since Pete Herman of New Orleans punched Joe Lynch into an abject mood and became again ruler of the bantams.

On the other hand, many great champions who lost their titles made valiant but vain efforts to win them back. Most notable among these were Terry McGovern, who failed to dethrone Young Corbett, and Jim Corbett, who bowed to Jim Jeffries.

Herman's performance, however, has tended to renew hope in the thoughts of many. Freddie Welch, whose lightweight title passed to Benny Leonard, is said to be planning a comeback campaign and is in training at his New Jersey home.

Mike Gibbons of St. Paul, dreams that he soon will wear the middleweight crown. He next Monday night and if he wins will challenge Johnny Wilson for the title. Big Jess Willard had set out word that if given the chance he will train hard to send Dempsey back to the minors.

Princeton, N. J., July 27—The English and American athletes who will compete in the international collegiate meet between Oxford and Cambridge and Princeton and Cornell, at Traverse Island on Thursday, have virtually completed their training and spent today in reading and light exercise.

British Turf. London, July 27—(Canadian Associated Press)—The Goodwood plate was run at Goodwood today and was won by Arravate, 4 to 1, Charlieville, even, was second and Plint Jack, 100 to 6, was third. Seven horses ran.

Loss at Burton Station is Estimated at \$35,000 to \$40,000. The Duke Street Stars and the Shamrock diamonds played a tie game on the Crown street diamond last evening, the score ending 13 to 13. A feature of the game was a home-run by Stone of the Stars.

Frederickton, N. B., July 27—Lumber was destroyed by fire last night with an estimated loss of between \$35,000 and \$40,000. It consisted of approximately one million feet of pine deals and had been cut and manufactured by the E. C. Atkinson Lumber Company. It was said today that the loss was practically, if not fully covered by insurance.

MISSING PROFESSOR; ONE IS DEAD

Body of Professor at Bottom of Crevice, Wife was Living.

Banff, Alberta, July 27—Lying in a very difficult position for recovery at the bottom of a deep crevice the body of Dr. W. Stone, president of the Purdue University, Indiana, who together with his wife had been missing since July 16, was found on Sunday by a search party.

According to a very brief letter from guides of the search party, the findings followed the discovery of the body of a seventeen foot crevice. Her husband's body was a great distance below. She will recover, it is understood.

STRIKE SPREADS ON WATER FRONT

The whole waterfront is tied up today by a strike called by the local branch of the International Longshoremen's Association in sympathy with the seamen's union, the members of which are now on strike.

At a meeting this morning the longshoremen decided to stand by the seamen until their dispute with the lumber shippers was adjusted.

Five schooners loading lumber and two boats loading sugar are affected. The schooners include the Mount Whitney, consigned to J. T. Knight & Co., and the Harry A. McLean, consigned to Nagle & Wigmore, both being loaded by George McKeown.

The coal steamers will not be affected, so J. J. Donovan, president of the longshoremen, said today. Another meeting of the union will be held this afternoon.

CHANGE HIGH SCHOOL PLAN IN ONTARIO

Toronto, July 27—The Ontario minister of education is preparing to introduce, at the beginning of the coming school year, changes in the high school system suggested in the interim report of a committee appointed a year ago.

Under the scheme now proposed, pupils will be credited with one or more subjects as they pass tests upon them, the pass standing being set at fifty per cent. It will be left to the principal to decide how many papers each class shall prepare.

The new plans lay down as constants for all pupils of the first and second years, English literature and composition, Canadian history and civics (one year), algebra and geometry each for one year, and physiology, a study of physical laws, for one year.

The other subjects are elective, the minimum being two and the maximum five. Thus, at most, in a lower school (third and fourth years) the constant is English only and at least four elective subjects, at most seven. The full advice of the elective studies will accrue to the pupils who finish their schooling at the secondary stage.

LIGHTNING TEARS SLATS FROM BED; MAN UNINJURED

Halifax, N. S., July 27—The slats of the bed occupied by S. Beverley, of Ferguson's Cove were removed from under Mr. Beverley early this morning by lightning, leaving him lying uninjured, but shaken up, on the floor. Several other places in the suburbs were struck by lightning.

LOCAL BASEBALL

The Sussex team will play the Y. M. C. L. on the East End grounds at seven o'clock this evening. The Y. M. C. L. defeated Sussex, 16 to 4, about two weeks ago at Sussex, but the Kings county boys have improved a good deal since then, and a fast game may be expected.

PICNIC TODAY

Members of the Sunday school of St. Columba's Presbyterian church left Fairville this morning on the 9.25 train for Grand Bay to attend their annual picnic there. Refreshments and meals will be served on the grounds and the committee in charge has a well-planned programme of games and amusements to carry out. The picnicers will return to Fairville on the 9.15 train this evening.

MYSTERY CAR CASE IN COURT

Daniel Coughlan, Owner of Car Burned at Red Head, Gives Evidence.

Developments came to light this morning in the case in which George Percy Fawcett was charged with the theft of a storage battery and an automobile tire valued at \$600. Daniel Coughlan was the complainant. This is the case in which two "mystery" automobiles were concerned. One of the cars was burnt on the Red Head road one evening and the other car was found wrecked in an excavation at the foot of Waterloo street this morning.

Daniel Coughlan said he had owned an automobile and that it had taken him some time to get it back. He had an Overland car model 85. He had not removed any of the parts himself but was notified that some had been removed. A storage battery and tire were not destroyed. He had told Detective Power that he had seen the car in the garage.

Mr. Wilson for the defense held that he had no special way of identifying the battery but he knew it was his. His brother was with him at the time. He had lost two wheels, the steering gear and some tools. He had been told that the police had located these at Ritchie's garage.

He had heard that Ritchie had sold the car to a Mr. Savage and had come from the Great Eastern Garage. The witness did not know the parts got into the garage car. He valued the car at \$104 for any parts of the car. He had been told that the car in Waterloo street was the same as the one he had seen at Ritchie's garage.

Mr. Wilson said he had told the information to the police and that he had seen other parts missing and knew they were in the Great Eastern Garage. He had not laid information on the car. He had been told that Ritchie had sold the car to a Mr. Savage and had come from the Great Eastern Garage.

M. B. PHONE CO. SEEKS INCREASE OF CAPITAL STOCK

Application to Utilities Commission Status \$390,000.

Hearing is Fixed for August 17—St. Stephen and Calais Companies Given Permission to Increase Rates.

Orders granting two public utilities permission to increase rates were issued this morning by the New Brunswick Public Utilities Commission in session here.

The board also heard the application of the New Brunswick Telephone Co. for permission to issue \$390,000 additional capital stock.

Judgment was delivered in the matter of the application of the Citizens Gas Co. of St. Stephen for an increase in rates. The board ordered that the present charge of \$2.40 per 100 feet be increased to \$3.20, and the minimum charge be increased from fifty cents to \$1, increase to date from July 1.

In the matter of the application of the Calais Water and Power Co. for a new schedule of rates for water supply, which was opposed by both the Town of Milltown and the Canadian Cottons, Ltd., the commission ordered that the flat rate to individual users remain as at present; that the flat rate on hydrants be increased to \$100 and the charges on the metered service be as follows: First 1,000 cubic feet, thirty-five cents; second thousand, twenty-five cents; third thousand, fifteen cents; fourth thousand, ten cents; fifth thousand, five cents; sixth thousand, five cents; seventh thousand, five cents; eighth thousand, five cents; ninth thousand, five cents; tenth thousand, five cents.

Regarding the application of the Canadian Cottons, Ltd., for an interpretation of the law regarding aluminum charge, the board ordered that the minimum charge for the supply of water be \$24,000 and head office in Moncton. The combined readings of the several meters by the company and not on charge separately.

J. B. M. Baxter, K. C., presented an application from the New Brunswick Telephone Co. for permission to issue additional capital stock to the amount of \$390,000 in 89,000 shares at \$10 each. An order was made fixing August 17 as the date for hearing.

An order was made granting the Kingston Peninsula Telephone Co. permission to issue \$775 capital stock. Sworn evidence was given in this matter by James E. McShane, assistant state attorney, who questioned Miss Spurgin and her mother upon their arrival here.

Miss Spurgin said, according to the state authorities, that the information was given to her by her mother, following a conference with her father, during which he made them good-bye and then told her, at St. David, a few miles from Quebec, that last year he had obtained eighty-three loads of hay from his farm and this year in the same area only seventeen loads. Due to our advice farmers will keep their dairy cattle and sheep on the farm as long as possible, but it is hoped that the federal government will consent to grant a reduction in the freight rates to meet the requirements, as the department of agriculture received offers from the western provinces to send hay here if needed at a very reasonable price.

The search for Spurgin has developed two new clues, one leading to Ourey, Cal., where he is said to have had mining interests, and the other to the neighborhood of Mobile, Ala., where it is said he had many friends.

The partnership of Joseph Roderick of Hampton and Fred L. Roderick of St. John as Roderick and Sons in St. John has been dissolved by mutual consent. Fred Roderick will continue the business under the firm name.

By supplementary letters patent the capital stock of the Colwell Fuel Company, Limited, is increased to \$71,000. Adolphus O. Fowles and William C. Courtney of Moncton have formed a partnership as Fowles and Courtney to take over the business conducted by Adolphus O. Fowles at 800 Main street Moncton, as distributors of batteries ignition.

Canada's Front Door

St. John harbor is our most cherished possession. It is too valuable and highly prized to be turned over to the mercies of the harbor commission act.

Let us keep it till Canada realizes its importance in the growth of the Dominion and a true nationalization plan is presented.

PARISHES SHOULD ALSO HAVE VOICE

Coun. O'Brien Raises a New Point Regarding Harbor Commission Act.

Councillor John O'Brien raises an interesting point in connection with the harbor commission act. He showed to the Times today a map on which the area under the act is accurately marked out and pointed out that the parishes of Lancaster and Simonds are both interested in the proposed transfer of property, but neither of them has a voice in deciding for or against the harbor commission act.

Coun. O'Brien points out that with the power of expropriation the harbor commission would have under the act it could take anybody's property along the river shore from Green Head to the parish of Simonds.

The councillor therefore contends that this is a matter for these two parishes as well as the city to decide upon, and that under the act they are not permitted to vote one way or the other. He remarks further that if Hon. Mr. Baxter is solector for the city he is also the elected representative of the parishes and should guard their interests in this matter. Mr. O'Brien expresses the view that the people of these parishes ought to be consulted before any act embracing part of their territory and affecting their interests is adopted.

SAYS FATHER ADMITTED BANK THEFT

Minister of Agriculture Reports to Chicago—Says He Declared They Would Never See Him Again.

Chicago, July 27.—"Vivian Spurgin, daughter of Warren C. Spurgin, missing president of the closed Michigan Avenue Trust Company, who, with her mother, returned to Chicago from Detroit, where they fled following Spurgin's disappearance, has admitted that she had taken \$800,000 of the bank's money before he fled, so it was announced today by James E. McShane, assistant state attorney, and Ben Newmark, chief investigator for the state's attorney's office, who questioned Miss Spurgin and her mother upon their arrival here.

Miss Spurgin said, according to the state authorities, that the information was given to her by her mother, following a conference with her father, during which he made them good-bye and then told her, at St. David, a few miles from Quebec, that last year he had obtained eighty-three loads of hay from his farm and this year in the same area only seventeen loads. ANOTHER BLOW AT HOME SEEKER

Charge of \$2 by Toronto Real Estate Firm for Allowing Prospective Tenant to See Place.

Toronto, July 27—That some landlords are asking prospective tenants \$2 for the "privilege" of looking at houses and apartments prior to renting them, is a complaint contained in a letter received by a local newspaper.

The indignant correspondent asks: "What the next ingenuity of profiteering will be?" He mentions the specific case of one real estate dealer.

LEGISLATURE FOR EACH PROVINCE

London Sketch Hints at This Irish Plan.

Central National Parliament Included—Daily Mail Has Reports of Closer Understanding Between North and South.

London, July 27—The possibility that four legislatures may be established in Ireland, one each in the provinces of Ulster, Munster, Connaught and Leinster, under a central national parliament, is hinted at this morning by Sketch, which says—

"It need not be assumed, as is done in some quarters, that under unification there could be only two governing authorities under a federal Irish parliament. It has been almost overlooked that there are four great provinces in Ireland, each with an historical individuality.

In relation to the Sketcher's information, which, incidentally, reiterates some early reports, the statement is made, somewhat disconnectedly, that subject to a satisfactory solution of the Irish unification problem, Eamon de Valera has intimated that he will not enter into relations with foreign powers except to the same extent as these privileges are enjoyed by the self-governing dominions of the British Empire.

While the Sketcher learns that real progress is being made in the Irish negotiations, other reports, evidently influenced by utterances contained in the Irish Bulletin on last Monday, indicates doubts regarding the discussions in Dublin regarding a settlement and suggest that the question of unification is a provoking one.

The Daily Mail, however, mentions "reports of a closer understanding between the north and the south," which it says diminished the doubts respecting the ability of the rival Irish leaders to meet and contrive a ground for common action.

This newspaper adds:—"It is understood that some Sinn Fein leaders agree to the government's terms, and it is anticipated that an agreement of general acceptance will be reached. In any case, Mr. De Valera is expected to return to England soon, and the time he continues in harmonious touch with all concerned in Ireland."

SAYS QUEBEC CROP BUT HALF

Minister of Agriculture Reports to Chicago—Says He Declared They Would Never See Him Again.

Quebec, July 27—"I still believe that there is a decrease of at least fifty per cent in the crop of the year," said Hon. J. E. Caron, minister of agriculture, on his return after an automobile trip on the south shore, where he inspected the crop.

"Not only hay, but cereals are greatly damaged by the drought. The only portion which seems to have been saved is the lower part, situated near the river, but on the heights it is almost entirely yellow. I covered more than 200 miles and my earlier impressions have been fully verified. The potatoes look well and vegetables should be an average crop."

found the farmers more optimistic than I thought, however," Mr. Caron added, and they are courageously taking means to meet the situation. One report from Quebec, that last year he had obtained eighty-three loads of hay from his farm and this year in the same area only seventeen loads. Due to our advice farmers will keep their dairy cattle and sheep on the farm as long as possible, but it is hoped that the federal government will consent to grant a reduction in the freight rates to meet the requirements, as the department of agriculture received offers from the western provinces to send hay here if needed at a very reasonable price.

FIGHT AGAINST U. S. TARIFF BILL DEVELOPING

Washington, July 27—(Canadian Press)—Signs of insurgency against the extremely high tariff rates of the house tariff bill are developing in the senate. A speech by Senator Knute Nelson of Minnesota, veteran Republican, warning his colleagues that this is a critical time for the United States is regarded as highly significant. Lines are forming in the senate for a bitter fight against many features of the bill.

Reports that Canadian trade with the United States will be heavily curtailed and that Canada may make tariff reprisals are a potent cause of the opposition to the bill.

THEFT CHARGED. John Martin was charged this morning with the theft of a suit of clothes and an overcoat from Thomas Hunt. The value was placed at \$50. He pleaded not guilty. Hunt went on the stand and swore that he was a seafaring man and that upon leaving the city on June 4 the accused had helped him to pack his trunk and put it away in a closet. When he returned to the city recently he said he discovered that the articles mentioned had been taken from his trunk in his boarding house in Union street. The accused was remanded.

WOULD NOT DISMISS. George Douglas was before the police magistrate this morning for a continued hearing of the case in which he was accused of calling a man named Clarke bad names on the evening of the last labor parade, and it was said he had also offered to take the complainant in an alley and fight him for 25 cents, which offer was declined. E. J. Henneberry, appearing for Douglas, asked for a dismissal of the case. Clarke went on the stand and said all he wanted was an apology and a promise that he would be left alone by Douglas in future. The magistrate refused to dismiss the case and it was postponed until next Wednesday at 10 o'clock.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

SEE IT TODAY, YOUR LAST OPPORTUNITY. To miss seeing the present Opera House programme, is missing one of the biggest entertainments ever offered the theatre-going public of St. John.

The feature picture "The Road to Ambition" featuring Conway Tearle is worthy of being ranked as one of the big productions of the year.

Tomorrow there will be a complete change of programme. The Jack Roof Company will present "Military Days" with a complete change of scenery and costumes.

And the greatest comedien of the screen Roscoe (Fatty) Arbuckle will be seen in "Traveling Salesman."

A five reel comedy with a laugh in every foot of film. There will also be another episode of "The Purple Riders." Don't forget there will be a big amateur contest Friday night. Three big cash prizes to be awarded the lucky contestants.

LAST DAY FOR THE FIGHT PICTURES

This is the final day for showing the Dempsey-Carpenter championship bout pictures at Imperial Theatre. Thousands have seen them already, and are perfectly satisfied with the authenticity and completeness of them—in fact the movie "best" people have been enjoying it better than any of the ring-side seats at \$50.

There will be shows at 2 p. m., 8:45, 7, and 8:45. Three reel Harold Lloyd comedy extra. Tomorrow a complete change of bill and return to the usual 10c. and 25c. night admission, 10c. and 15c. matinee. Billie Burke is to be the star in "The Frisky Mrs. Johnston."

FRENCH JOURNALS REFUSE TO SUSPEND ONE DAY A WEEK

Writers and Other Workers Discouraged When Fight for Day Off Fails—Now Ask Legal Holiday.

London, July 27.—(By Mail)—The Syndicate of French Journalists, including all kinds of French newspaper workers, is disappointed that, in spite of much discussion of the subject, their efforts to obtain a paperless day once a week seem as far from success as ever, according to a Reuter dispatch to The Westminster.

The syndicate has now voiced its wishes in a resolution demanding that a law should be enacted in France compelling newspapers to cease publication for twenty-four clear hours every week. The reason given for the necessity for a weekly day of rest are numerous, the chief being that it is impossible to post copies to arrange for the stamps. It is pointed out that newspaper men do specialized work, and that news cannot be written the political notes, nor can the sporting editor write the leading articles.

Moreover, in the provinces the staff is generally insufficient for it to be possible to arrange a weekly holiday even in this way.

Journalists writing for several newspapers would inevitably find that the days allotted them by their various papers did not coincide. Also, even where holidays in turn have been arranged, it has been found that editors and reporters are inevitably at the mercy of events, and have to forego their weekly rest should it fall on a day when the news situation required their presence on duty.

Newspaper porters, and newspaper vendors have no weekly holiday under any circumstances. It is further pointed out that it can hardly be objected that a day without newspapers would limit French expression to the detriment of the country, as Italy, Spain and America, and, to a certain extent, Great Britain, have instituted a newspaperless day without experiencing any harmful results.

Losses men paid by the line or the article would be met by a modification of the scale of pay for such work. Finally, it is urged that it is impossible to leave such a reform to private initiative, as those who introduced it would be liable to be subjected to severe losses.

DEATHS DUE TO HEAT IN NEW YORK

New York, July 27.—Oppressive heat and violent storm which broke over the city a little before midnight were held responsible yesterday for one drowning, one death by prostration and two suicides. The thermometer rose to 89 degrees soon after 4 p. m. and fell eleven degrees during the storm, which lasted for nearly two hours, to the accompaniment of a violent electrical display. The humidity hovered about forty-five during the hottest period of the day.

IRISH SITUATION.

Dublin, July 27.—Eamon De Valera and his colleagues had not yet found a basis for the proposed conference with the British government on the Irish question in London, but are continuing to search for a common ground.

Information in Athens indicates that the resistance of the Turkish Nationalists in Asia Minor is completely broken.

WAR ON BEDBUGS AND COCKROACHES

Toronto Medical Health Officer Tells How to Combat Insect Army.

Toronto, July 27.—The long hot spell has been the cause for the increase in more modern language, the humble but wily bedbug, and while lacadaidical citizens have been sitting around trying to keep cool, these night riders, or ramblers, have laid siege to part of the city. Cockroaches have also been very prolific this summer. Dr. Hastings, M. B. O., always on the job when a menace arises, has drawn up a plan of attack and has sent out a call for volunteers to advance against the enemies that invade the homes of the people of the department has suggested the battle song of freedom in which appears the lines:

"There is a bug among those bugs, his name it is Big Ben. On his top jaw he has five teeth, and on his lower, ten."

The doctor says the hydro-cyanic gas attack would rout the "roaches," but as this is highly poisonous to the attackers, he urges the safer method of burning sulphur, two pounds to each room, and to burn it in a tin can before him. Scouting danger he scampers to a safe position behind the ramparts in the streets of cupboards and bathrooms.

One way to get him is to shoot sodium-fluoride powder into the stronghold with a dust gun.

IRISH SITUATION. Dublin, July 27.—Eamon De Valera and his colleagues had not yet found a basis for the proposed conference with the British government on the Irish question in London, but are continuing to search for a common ground.

NORTHCLIFFE IS STRONG FOR THE SPORT NEWS. New York, July 27.—Lord Northcliffe, British publisher, who has been on the links practically every day while he has been in this city on his way to the Far East, is an ardent believer in sport news. "Give us a lot of sport news," he told editors at an all day reception to fellow newspapermen. "It should be plentifully interchanged between nations. It helps to create good fellowship. If we obtain cheaper cable tolls undoubtedly we will have more international sports news broadcast."

GREAT INCREASE IN DIVORCE IN ENGLAND. London, July 27.—Suits for divorce in 1919 increased 355 per cent over 1913, the year before the war. Compared with 1918, the increase is 114 per cent. There were 5,768 cases in 1919. To a great extent this growth in the business of the divorce courts is attributed to a judicial report to the facilities for instituting proceedings provided since 1914 for the benefit of the poor people, who brought 2,241 of the 5,763 suits.

U. S. DEMANDS RELEASE OF PRISONERS IN RUSSIA. Riga, July 27.—An official demand by Secretary of State Hughes for the release of the U. S. prisoners in Russia was handed by Count Albert to Leonin Starke, Bolshevik minister, here last night.

SHORTAGE RUMOR DECLARED UNTRUE. Chicago, July 27.—Rumors of a shortage of from \$40,000 to \$50,000 in the old organization of the Chicago Opera Company due to alleged lax methods in its office management were denied today by Redmond Stephens, attorney for the opera company. The rumors were attributed to the discharge of a \$75 a week box office manager of the company on the theory that some one was working in collusion with New York and Chicago ticket "scalpers."

J. L. NARRAWAY LOST HIS LIFE IN WILDERNESS. Ottawa, July 27.—Death by drowning in the wilderness, two days' journey by canoe, was the fate of James E. Narraway, twenty-one, youngest son of Mr. and Mrs. J. E. Naraway, according to information received in the city late last night. The drowning occurred last night place at Horseshoe Lake, Manitoba, 100 miles north of Lac Du Binnet, where the young man was aiding in the surveying of the Ontario-Manitoba boundary line.

IN WALL STREET. New York, July 27.—(10:30)—Acute weakness in United Drug shares which opened at a further loss of 8 1/2 points and soon extended its decline to 7 1/2 points, was the striking feature of the early dealing in today's stock market. Among the most popular issues advanced predominated. U. S. Steel gained a substantial fraction and Baldwin, American Woolen and United Retail Stores were firm. Bethlehem, Studebaker and Central Leather were inclined to ease. Foreign exchange was little altered, save for a sharp break in the Italian note.

NOON REPORT. United Drug increased its loss to 8 1/2 points, before supporting orders brought about a feeble rally. Pressure was directed against Central Leather common and preferred, Sears Roebuck, General Electric, United Fruit, Famous Players, American Sugar and American Tobacco, in which losses ranged from 1 to 2 1/2 points. Popular steels and equipments were firm. High grade oils held their ground, but some of the cheaper domestic issues eased. Rails were speculative, trilling gains and losses. Call money opened at 5 per cent, the lowest initial rate of the week.

SALE TODAY AT FREDERICTON. A lease of ungranted land and forested adjoining on the southerly side of the Courtenay Bay breakwater, and comprising some 238 acres, was sold to Allan G. McAvity, of St. John, by public auction in the Crowland office, Fredericton, at noon today. There was no competition. Mr. McAvity getting the lease at the upset price of \$50 a year rental for twenty years. Before the sale a letter of ejection which had been sent to the crown lands department by solicitors for the Provincial Chemical Fertilizer Co., was read.

**THROUGH RAIL SERVICE ATLANTIC TO PACIFIC**

Canadian National Railways Furnish Direct Connections With Famous "Continental Limited" Out of Montreal.

The finest train service to the Pacific coast is afforded by the Canadian National-Grand Trunk "Continental Limited" now leaving at 9 p. m. daily from Bonaventure station, Montreal.

The route of this finely equipped all steel train to the coast is via Ottawa, North Bay, Cochrane and via the Transcontinental to Winnipeg and by Grand Trunk Pacific to Saskatoon and Edmonton and via Canadian National Railways to Vancouver—the finest scenic routes through the Rockies and over the smoothest roadbed.

From maritime province points there is connection by Ocean Limited with the Continental Limited daily, and by the Maritime Express daily except Sunday.

The Maritime arriving in Montreal at 7.40 affords the most direct connection, but passengers by the Ocean Limited will have the advantage of a day spent in Montreal.

The Maritime arriving at Levis at 1.50 p. m. affords connection with train No. 11 leaving Quebec daily for Cochrane at 9 p. m. This train makes connection at Cochrane with the Continental Limited, so it will be seen there is really a choice of two distinct routes.

There is also the through service to the Pacific coast by train leaving Toronto to daily at 10.50 p. m. via Sudbury, Port Arthur, Fort William and Winnipeg. Connection for this is made by the Grand Trunk International Limited to Toronto.

Particulars of these splendid rail services to the west will be explained by all C. N. R. ticket agents, and folders and illustrated matter may be obtained by application to any of the city ticket offices or by writing the general passenger department, Moncton, N. B.

## McCONNELL & FERGUSON OPEN VANCOUVER OFFICE

Progressive Advertising Agency Now Has Coast to Coast Offices.

The growth of east and west trade in Canada has synchronized largely with the growth of the volume and quality of advertising by eastern manufacturers in the western centres.

That national trade, to be really valuable as a factor in building the nation, should be reciprocal as between east and west is an axiom in Canada. McConnell & Ferguson, Limited, a national organization for the development of markets by advertising, are putting this principle into practice by extending the scope of their organization to the Pacific coast.

After a six weeks' survey of western conditions, J. E. McConnell, president of the company, recently opened a branch of his company in Vancouver.

Hilberto Winnipeg has been the farthest western point of any of the national agencies, but Mr. McConnell came to the conclusion that a branch of their organization in Vancouver could assist very materially in extending the markets of eastern manufacturers and, at the same time, aid in developing eastern markets for B. C. products, such as fish, canned goods, fruit, lumber etc., which British Columbia is in a position to produce in enormous quantities. The east needs the trade of British Columbia, the riches per capita of all the provinces, and British Columbia needs the markets of the east.

W. H. Carewell, a man of ripe experience both in eastern and western Canada, has been placed in the charge of the Vancouver office. Mr. Carewell was for many years associated with newspapers in Toronto and Montreal, and has been in the advertising business in Vancouver for thirteen years.

McConnell & Ferguson now have offices in London, Toronto, Montreal, Winnipeg and Vancouver.

Four miraculous cures were reported at St. Anne de Beaupre yesterday afternoon, when thousands of pilgrims assembled to honor the feast of St. Anne. There were more than 400 cripples present.

The first miracle was reported shortly after the first mass yesterday morning, the subject being Miss Kelly of Holyoke, Mass., who had been a hopeless paralytic for the past five years.

The Evening Times and Star

ST. JOHN, N. B., JULY 27, 1921.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

LAST NIGHT'S MEETING

The Times has asserted that the harbor commission act does not provide for the expenditure of one dollar by the federal government in improving St. John harbor.

At last night's meeting Mr. Elkin, M. P., admitted that the Times is right. The Times has asserted that under the harbor commission act the government does not guarantee payment of the city's harbor bonds amounting to \$1,042,117.55.

At last night's meeting Hon. Mr. Baxter admitted that the Times is right. But both Mr. Elkin and Mr. Baxter appeared to discover that the Times had some sinister motive in telling the truth.

But both Mr. Elkin and Mr. Baxter appeared to discover that the Times had some sinister motive in telling the truth. Would they have a more kindly regard for this humble journal if it concealed the truth about the harbor commission act?

Mr. Baxter in particular was much concerned that a man could sit behind a desk and have his views and opinions expressed in print when perhaps nobody knew him, and there was no chance to get him on a platform for exhibition purposes and for cross-examination.

So far as the Times is concerned, it can shed no tears of sympathy for Mr. Baxter in this regard. As he never wrote or dictated anything for a newspaper without immediately hiring a scribe, it is, however, entitled to his grievance against the anonymous scribbles of the Times and Telegraph, and we may let it go at that.

But that does not change a sentence or a word in the harbor commission act, which neither guarantees payment of the city's harbor debt nor pledges the government to spend another dollar in harbor development at St. John.

And that is why the speakers in support of the commission act have been compelled to shift their ground. They tell us now that the act can be changed. They say we are not asked to vote on the harbor commission act, but on the principle of harbor commission; and when we have done so a miracle will be wrought by the city council and city solicitor, and an act of parliament changed offhand without so much as saying to parliament "by your leave."

Why not change it now—before the people vote? And why try to befoul the people into thinking they are not asked to vote on the harbor commission act? It is the harbor commission act and not the principle of commission that has been before the city council since 1919.

It is the act that has been discussed, and finally submitted to the people. Why not be honest about it? Are they ashamed of the act? And why try to make anybody believe the act can be changed after the people have voted to accept it?

The mayor says that if the agreement based on the terms of the act is not all right, he will refuse to sign it. How can he refuse? A writ of mandamus would compel him to execute the declared will of the people; and if they vote on Monday for the commission act, the agreement must be made and signed in accordance with the terms of the act. And those terms are admittedly unfair and unjust. The time to make the changes is before the act is accepted.

It did not take Mr. McLellan long to expose the fallacies in the arguments presented last evening by the advocates of the commission act. He had only to refer to the act itself. He was saved much trouble by the frank admissions made for the first time that the act needs to be changed. The assurance that it can be changed sounds strangely from the lips of men who could not get it made right in the first place, and whose efforts since have brought no result.

But even if we assumed that the city council could get changes made, why trust that body to do the thing right if we cannot trust them any longer to administer the harbor? Mr. Baxter made much of the idea of continuous control to the city's business? Is it applied to the country's business?

The thing to do on Monday is to bury the harbor commission act and say that what we have held until nationalization of the port is guaranteed.

The Globe says the fisheries do not figure in the harbor account at City Hall. Does that wipe out the fisheries? Is it a dream that the fisheries yielded over \$700,000 in the last nine years? And what will happen to the fisheries under the harbor commission act? Does the Globe know?

THE UNARTFUL DODGER

The Globe last night asserted that it was not the commission act but the principle of harbor commission the people are asked to vote upon. It also asserted that to vote in the negative would be to vote against any form of commission control of the harbor.

This can only be regarded as a dodge to catch votes. It is the harbor commission act, and not the principle of harbor commission that is on trial. The city council refused to accept or reject the act, and passed it on to the people. That is why a plebiscite is being taken. What does the preamble to the act say? Read it for yourself, as follows:

"And whereas the city has agreed to make a transfer of the said rights, powers, titles and interest aforesaid to his majesty under the conditions hereinafter set out."

That is to say, the city is bound by the act, and neither the city council nor the government can vary its terms. It is an act of parliament. The city council is not asking the people what they think about the principle of harbor commission. It has referred to them the harbor commission act. Is it fair to attempt to mislead the people on this point? And if the Globe attempts thus to mislead the people, what credence can be placed in any assertion or argument it puts forward?

But is the Globe afraid to defend the act? Why should it say the people are not asked to endorse the act? Is it so hard on an act that its advocates feel they must persuade the people they are voting for something else?

There is quite too much of the artful dodger business about this whole scheme. The people should resent it at the polls on Monday.

The Globe wants to know, and says "thinking men" want to know, how anybody dare oppose the harbor commission act and spend money to hire a hall to discuss the act with the citizens. Well, if the city council had hired halls and discussed the matter it might not have been necessary for others to fill the gap. But does the Globe say it is improper for the citizens or any other body to discuss the act in public a matter that is of interest to the city? Is that view shared by the Board of Trade officials who have not yet called a full meeting of the board to discuss the act? In the words of the popular song, "We grow a little wiser every day." Hereafter it will be the duty of the citizens to sit at the feet of the oracle oracles in Prince William street and register their solemn decrees. Of course that will relieve people of the task of thinking for themselves, and the oracles would have a whale of a time. The world would be safe for autocracy.

Dreadful events are pending. Wharves are getting ready to slide into the harbor and other wharves are about to go up in smoke. We have been living in a fool's paradise. Unless we gold-brick the country and unload on our worthless harbor property as quickly as possible, we may as well get ready to move to some other clime. Is this true? No, dear reader, it is not true. It is a nightmare which haunts persons who try to read into the harbor commission act what is not there. It will disappear after next Monday.

The citizens who listened to the sad wail of the advocates of harbor commission last night could not help contrasting their mental attitude with that of the strong men who never gave up until they had compelled recognition of St. John as a national port. A funeral atmosphere pervaded the meeting until Mr. McLellan brought back a ray of hope.

Go to St. Vincent's auditorium tonight and hear the discussion on the harbor commission act.

QUEBEC FAILS TO GET THE GRAIN RATE REDUCED

Ottawa, July 27.—(Canadian Press).—An application by the Quebec Board of Trade and the Quebec harbor commissioners that the export railway rates on grain from Georgian Bay ports to Quebec be placed on the same basis as to Montreal has been dismissed by the railway commission judgment, written by Hon. F. B. Carvell, states: "I fail to see how this board would be justified in forcing the railway companies to carry this grain 103 miles beyond Montreal absolutely free."

LEADER OF THE TURKS SEEKS INTERVENTION

London, July 27.—Mustapha Kemal Pasha, head of the Turkish Nationalist government, has sent a telegram to Constantinople asking that the central government intervene with the Allies in an effort to obtain a cessation of Greek-Turkish hostilities, according to dispatches from Constantinople to the Exchange Telegraph Co.

MOONLIGHT AND KANAWHA

When it's starlight on Kanawha After summer days are done, And the moon drifts in the water Like a freighted galloon;

When the bridge lights glance and glimmer Far away against the town— Shining pathways on the water That my dreams go marching down;

While the river swirls and eddies By the side of our canoe With a lulling, liquid lapping That is like the voice of you— Then I turn to you and listen While you thrum a soft guitar And your voice runs, "ole moi," On the night winds stealing far.

There are hills beside Kanawha, There are dark hills mirrored too In the water; from the hollows Little winds blow out; but you— You are singing in the darkness Sole moi; and I see, and I see, Only great eyes burning deeply, And I think they shine for me.

And the silent river eddies Into little flecks of foam; And it's moonlight on Kanawha, And the shadowed hills of home. —Garnet Laidlaw Relewe.

NURSES' HOME IS THROWN OPEN TO THE PUBLIC TODAY

Many Visitors Inspect Hand-some New Building.

Members of Hospital Aid Receive Guests and Conduct Them Through home—Details of Construction and Layout—List of Donors.

For the first time since its completion the new nurses' home at the General Public Hospital was thrown open to the public this afternoon. Mrs. E. Atherton Smith, president of the hospital aid, was in charge of the reception committee and she and her associates were kept busy ushering interested visitors through the building during the afternoon. Many people visited the new building and there were many expressions of delight at the thoroughness and taste with which the home was laid out and furnished.

The building is of brick on a concrete foundation. Above the basement of rough cut stone the first story is faced with Indian limestone, and Indiana limestone is used in facing the three upper stories. A broad flight of steps leads to the veranda. On the right side of the veranda, at regular intervals, and rough cut stone above and below the windows is the finishing touch. The stately arches of concrete form the ground.

Throughout the building the walls are of untinted white. The floors are of hardwood and have rich pile rugs. Leadings from central porches lead to entrance hall and directly opposite is the formal reception room.

The suite of the matron and the superintendent of nurses are on opposite sides of the corridor, and consist of sitting room, bedroom, bathroom, and dressing room. There is a cupboard for brooms, and a dumb-waiter with the kitchenette. On the other side is a small cloak room. The big sitting room is a small cloak room. The big sitting room is a small cloak room.

Shut off from the main building by glass doors are the matron and superintendent of nurses' offices, each at each end of the building and on each floor.

The automatic elevator is found beside the memorial reception room. Beside it on the first floor are glass doors which shut off the western side of the corridor where there are bedrooms and bath rooms. The memorial bedrooms have been placed on the first and second floors.

The bath room has two separate baths, a shower bath and four hand basins, and the toilets are in a room beside the bath rooms.

In the basement there is the lecture hall which is a memorial to Nursing Sister Anna Stammers and furnished by the Alumnae of the General Public Hospital. On the south side is a kitchenette furnished by Emerson & Fisher.

There are also in the basement a supply room for the linen when it comes from the laundry, a housekeeper's storage cupboard, a large and airy laundry with set tubs and electric equipment, a Kelly heater, which gives instant hot water to all parts of the building; the power room for the mechanism of the automatic elevator, a big open storage room, and a trunk room with three tiers of pigeon holes.

The western end of the basement has a smaller class room, and on the other side of the corridor is the demonstration room, where two hospital beds, a child's cot, two bureaus, and two small tables, besides the row of a dozen chairs for the pupils. From the demonstration room an underground tunnel leads to the power house and to the basement in the former nurses' home.

The second floor. The second floor of the new home has bedrooms and bathrooms similar to those on the western side of the first floor. It has also the sewing room, the library, and the dietitian's suite. On each floor of the building is a small linen cupboard to hold the stock supply of extra linen for that floor. The library faces the driveway and has a short flight of three wide steps giving entrance to the upper balcony above the veranda. The library was furnished by the Catholic ladies in memory of the Catholic boys who fell in the war. On its walls are the photographs of the former superintendents of nurses in the hospital. Miss Mitchell, the matron's photograph, is to be hung in the library also.

The sewing room across the corridor has comfortable working chairs, sewing machine, table and the necessary accessories. The only special room on the third floor is the big kitchenette which has been furnished by four life members as a memorial to their relatives and friends. It has a complete equipment of dishes, oil stove, and utensils similar to those of the kitchenette in the basement, but it has not quite so large a stove. It has all of the built-in conveniences of the basement kitchenette.

opened on March 29, 1920, and the total cost of the building was about \$190,000. F. Neil Brodie was the architect; B. Mosney & Sons, the general contractors, and the sub-contractors were as follows: S. A. Williams, carpenter; J. H. Pullen, painter and glazier; J. H. Doody, heating and plumbing; the Vaughan Electric Company, electric wiring and fittings, and James McLeod, sheet metal work. The furniture throughout was provided by the Hospital Aid and its friends—the general public. The total cost was in the vicinity of \$17,000. All of the furniture was bought from St. John firms and is excellent in quality and charming in appearance.

The Rooms. The names of those who furnished special rooms in the nurses' home are as follows: Undergraduates nurses sitting room, by Dr. W. W. White. Graduate nurses sitting room, by Dr. G. Crosby, Dr. P. Stanford, Percy B. Evans, Mrs. A. Armstrong, in memory of her son, Walter W. Armstrong; Mrs. B. K. Kinnear, in memory of her daughter, Edith, and a friend in memory of Miss Hildebrand Lister.

Kitchenette ground floor, Emerson & Fisher, Bedrooms were furnished as follows: Mr. Moran, Percy Thomson, Mr. and Mrs. M. Mackay, Mrs. Vassie, Mr. and Mrs. Fraser Gregory, Loyalist Chapter, C. O. E., DeMolay Chapter, I. O. O. F., Royal Standard Chapter, I. O. O. F., Joseph Allison in memory of his wife, W. H. Thorne & Co., Laidlaw Relewe & Sons, Ltd., Mrs. H. C. Rankin, Mr. and Mrs. D. C. Clarke and family, Mrs. L. G. Crosby, C. P. Stanford, Percy B. Evans, Messrs. F. Neil Brodie and William Brodie, as a memorial to their mother, Mrs. Brodie, B. Mosney & Sons, Stammers, Dr. J. S. Bentley, Stone church, Sir John Eaton, James F. Robertson, The Misses Murray, Mr. and Mrs. Fred Taylor, Hon. J. B. N. Baxter, as a memorial to his grandmother, George Hilyard, as a memorial to his father, Henry Hilyard, former commissioner of the General Public Hospital, Hon. J. E. and Mrs. Wilson, The Misses MacLaren, Mrs. Schofield and Mrs. Harrison, as a memorial to their father, Dr. Inches, The McClary Manufacturing Co., John Russell, St. Luke's church, Duke of Rothesay Chapter, I. O. O. F., Dr. Thomas Walker, as a memorial to his son, Dr. F. D. Walker, Brunswick Chapter, I. O. O. F., The Warwick family, as memorials to Mr. and Mrs. O. H. Warwick, their parents, James Gregory, Mrs. F. D. Walker, Brunswick Chapter, I. O. O. F., The St. John Women's Council, H. P. Hayward, Mrs. Stammers, as a memorial to Nursing Sister Anna Stammers, the final arrangements were made to have photographs of the building taken and moving pictures of the opening.

All the bills, including large amounts for the furniture items, were ordered to be paid. Suggestions were made for the disposal of any surplus funds, among them being the purchase of corner runners for the corridors and reading lamps for each room.

Invitations to attend the dance this evening were extended to the Hospital Aid and in the name of the nurses' alumnae. The reception committee for this afternoon is composed of Mrs. E. Atherton Smith, Mrs. William Pugsley, Mrs. A. C. Skilton, Miss Addy, Mrs. E. D. Smith, Mrs. J. A. Mulcahy and Mrs. Morris. The denominational vice-presidents, the officers and the convokers of standing committees were appointed as the reception committee from six until eight o'clock.

LUCAS QUILTS HYDRO BOARD

Farmer Government Now to Have Majority Control of Commission.

Toronto, July 27.—Hon. I. B. Lucas, member of the provincial hydro-electric commission, placed his resignation in the hands of Hon. E. C. Drury, prime minister, last night and will cease to be a member of the board with effect from Monday. He joined the commission while attorney-general in the Hebert government, and has given valuable service.

The Mail and Empire says that for some time Mr. Lucas has been slated to go, but it was not until yesterday that he made the way clear for the farmer government to appoint another in his place. The government has now succeeded in gaining majority control of the commission.

M. P. SPRINGS A SURPRISE; SAYS HE WILL RETIRE

Essex, Ont., July 27.—Dr. J. W. Brien, M. P. for South Essex, will retire from political life when the federal government goes to the people, so he told a meeting of supporters of the Melgreen advertisement here yesterday afternoon. The meeting was to discuss steps toward the re-organization of the constituency in the interests of the National Liberal and Conservative party, but closed without any definite steps being taken. The announcement was a surprise.

## BRITAIN DOES NOT WANT HELIGOLAND

More Embarrassment Than Advantage Under Modern War Conditions.

London, July 27.—Official circles here deny all knowledge of reports in the German press that the British admiral has been trying to recover Heligoland. During the war it was no secret that the admiralty were very glad that that island was no longer British territory. It may have been a valuable outpost in the archaic days of naval warfare, but in these times of submarines, torpedoes and aircraft it would have been far more of an embarrassment than an advantage. England would never have fortified it as Germany did, and it was indeed steadily crumbling away before the attacks of the sea until the Germans spent immense sums in building seawalls. Consequently, if it had still been under the British flag in 1914, it could only have been held at a cost out of all proportion to its value, or it must have been abandoned to the Germans, with a consequent heavy loss of prestige to the British navy. Under the Treaty of Versailles, its fortifications have been dismantled and its heavy guns removed, and it has, in British opinion, been thus rendered innocuous for any warlike purpose.

as partners, signalled their entry into the club by winning the two first prizes. Consolation prizes were won by Mrs. Jackson and Mr. Sibley. After the games, refreshments were served and a musical programme was enjoyed. A vote of thanks was tendered the host and hostess, and after Auld Lang Syne the members departed well pleased with the evening's entertainment.

### BARNARDO EMIGRATION

500 Children Sent to Dominions Since War.

London, July 26.—(By Mail).—On Founder's Day at the Barnardo's Village Home, Barkinside, the Duke of Somerset welcomed the new honorary director, Rear-Admiral Sir H. H. Stilleman, and stated that as a memorial to the late director, Mr. William Barker, the Stepney Home was to be removed in the autumn into delightful surroundings in Hertfordshire. Sir H. H. Stilleman mentioned that the emigration of boys and girls to Canada, which was suspended during the German submarine campaign, had been resumed and that large numbers of children had been sent out to join the 23,000 already in the Dominions.

**SCHOOLS AND SCHOOL BOOKS.**  
To the Editor of The Times:—  
Sir,—I am a long, long way from being an educationalist, but lately I have been very much interested in reading some articles describing the faults of our present educational system, and while I have no intention of claiming any right to direct, I do feel like making use of that common privilege—the right to complain.  
President Stanley of the Alberta Educational Association, says that the school system must be suited to the needs, instead of subordinating the needs of a system.  
Without any further reference to superior Canada, I will say that it is truly discouraging to know that the High School graduates of the United States give the proper chance in commercial and industrial activity.  
An English woman once said to me that she was greatly surprised at the little the Canadian High School graduates knew about grammar, and that she doubted if there were any who could write correctly a letter of ten paragraphs. When told of the high girl graduates, she said that the English woman had said and asked her if she thought that she could write such a letter. The question seemed very embarrassing. "I must confess," she said, after some hesitation, "that I would not promise to do so."  
What I had to study on composition was far too little to make me remember or know anything worth while about it.  
The bright hours of childhood, spent inside the walls of a school room and all the bright hours of childhood, spent by hard study, who can agree that our school system is all that it should be when it does not give our high school graduates enough knowledge of their own language to write a letter correctly? The great majority cannot do so. Universities nor even grammar schools, and why should their precious time be spent in studying a lot of old history and other worthless subjects, instead of the things that would be of service to them? In grandfathers' time great care was taken in teaching the art of good writing, but nowadays this worthy practice is greatly neglected, and I do not think that it is too much to say that the writing in some of the high grades is disgraceful. Nothing can better illustrate my meaning than the advertisement which reads: "Answer in your own handwriting."  
I have heard many pupils attribute the cause of their poor writing to being hurried and never having the time nor practice that is required to write well. This may be more proof of the things that are worth doing well being neglected for the things that are not worth doing at all.  
Another part of our school system that, in my opinion, is not all it should be, is that under which the books are manufactured and sold. If we cannot have free school books, we should at least have them for what they cost. The government should control the manufacture and sale of all the books to be used in the schools in a way that no private enterer could profit thereby.  
Under such control we could have better bound books and all the reading material for the primary classes made of the service that would be appreciated.  
During the last year the manufacture of the sold for double their former price. The price of other school books have been doubled, and when first I found the new price pasted over the old, I wondered if the book had been printed before 1914, and I thought of the Indian who doubled the price on his basket of berries to an old customer, and when the woman complained by saying that the basket was

MORE HOT SHOT FIRED LAST NIGHT AT HARBOR COMMISSION

Advocates of the Bad Bargain Showed Sudden Change of Front at Public Meeting Last Evening.

Mayor Schofield Pledged Himself Not to Sign the Transfer of the Harbor if the Deal Will Increase Taxes—City Solicitor Made Significant Admissions—Government Not Liable for the \$1,342,717 of Harbor Debentures—H. R. McLellan Again Riddled Opponents' Claims That the Contract Can be Varied After Plebiscite—S. E. Elkin, M. P., and ex-Mayor Hayes Also Heard.

The Scamen's Institute was well filled with electors last evening when arguments for and against harbor commission under the proposed act were set forth by various speakers.

Mr. Hayes, when called on, said that there was not much further to be said on the act but on the principle of harbor commission, and secondly that if the people should ratify the bargain contained in the act, the mayor and commissioners could subsequently change the conditions which the citizens had ratified and give St. John the justice and the protection which the act itself does not give them.

It was a highly interesting meeting. The only speaker against the act was Mr. McLellan, and it was significant that he received as much, if not more, applause than those who spoke in favor of the bargain and attempted to explain away its dangerous features.

The meeting was called by Mayor Schofield, who acted as chairman. Mr. T. Hayes, M. P., who was mayor at the time the act was passed, explained the causes leading up to harbor commission; Stanley E. Elkin, M. P., gave his interpretation of the act and spoke in favor of it, as did Dr. J. R. M. Baxter, K. C., M. P., while H. R. McLellan strongly attacked the act and showed how the city would lose by the bargain.

Discussion invited. The mayor opened the meeting, saying that he was anxious to bring out both sides of the question and wanted all the discussion possible. He repeated the position that the city council took with regard to the question. The council had

over the matter. This was the first case under harbor commission where the government would pay out money for money already spent. In a brief the speaker had sent to Mr. Ballantyne it had been stipulated that the city should retain the \$500,000 sinking fund and interest. He said that the city was really getting \$2,300,000.

He showed that the city taxpayers would benefit to the extent of \$93,250 annually by saving 4 1/2 per cent interest on \$1,500,000 and receiving 5 per cent on the \$500,000. He said that \$500,000 must be added to put the wharves in shape.

The act on which they were asked to vote was only a basis for the final agreement between the government and the city and they were not voting for the act as it was. It would be impossible to pass an act containing all the details they could be put in the agreement.

If the city had a bad bargain at \$2,300,000 why was it that only \$190,000 of insurance was being carried? He asked.

The city had to have faith in the government and the whole business was founded on faith. Harbor commission in every port had been an improvement. The government was not going to invest \$2,000,000 and then spend some more that was actually needed of it. He thought it would be for the betterment of the city and harbor generally to sell the harbor and have C. N. R. money in Halifax.

Speaking of Halifax he said that more public money had been spent in St. John than there. The money spent in Halifax had been C. N. R. money and many of the terminals would have to be abandoned. Harbor commission made for unified control and the government hesitated to spend money on others who would be the beneficiaries.

In the past they had enjoyed a great deal of public work in St. John. In the next twenty or thirty years there would be very little money spent by any government except that was actually needed. The country was staggering under a heavy load. If the people thought that the public works expenditures of the past were going to be continued in the future they were making a great mistake.

Mr. Wigmore and himself thought that the city wanted harbor commission and they got the best act they could. If they had known there was anything wrong they might have had it changed. He said that the Telegraph and Times had a responsibility in connection with harbor commission that they would do well to consider.

The speaker said that they would vote for a principle on Monday. If they said they did not want harbor commission they would not remain on the government would probably repeal it.

Hon. Dr. Baxter was next called on. He thought there should be more people present. He attacked those who wrote editorials and the papers people took them for the gospel. The editors should be brought out and questioned as to their motive.

After an experience of thirty years in civic affairs he would vote for commission. The speaker traced the construction of the city wharves and told of flaws in their construction that were liable to cause the city large expenditures to repair at any time. He told of the first development at Sand Point and the first trip of the "Lake Superior." It marked a tide of commerce which had never receded, he said, and secured by the citizens doing something.

In regard to the price Dr. Baxter said that the government might have offered to take the burden of the harbor off the city and not given anything. If the government gave \$2,000,000 for the harbor they could not take the latter away. Commission would increase labor at the port as well as railroad labor and also the prestige of the city.

In speaking of the act the doctor admitted that in the failure of the government to pay the interest the harbor would revert to the city. With this clause, he said, practically all difficulty would disappear.

Even if the vote were favorable the city council was not obliged to go on with the transfer. The suggested clause could be inserted.

He said there was no legal or technical difference of which the citizens need be afraid as all could be surmounted. If the government refused to conform to the agreement they would then know the government was trying to put something over on the city.

He said that there was a want of continuity in civic administration. He spoke of the difference in the two ad-

ministrations and thought there would be an immense advantage in commission. In conclusion he advised the community to think deeply and look for the motive behind the scenes in regard to newspaper articles.

H. R. McLellan. The next speaker was H. R. McLellan, who contradicted the statement of Mr. Elkin that the city would be relieved of \$93,000 of taxes and said that taxes would be increased by \$51,000. He defied any chartered accountant to disprove this.

Referring to a local newspaper he said that it was carrying on a campaign of deception. He asked on what authority the statement was made that it would cost \$500,000 to repair the wharves. He also asked if there was anything in the act that would permit of fishing.

Speaking of an editorial in the Globe, he said it practically admitted that the act is not what the Globe had been pretending it to be. The Globe admitted that the act did not relieve the city from responsibility in connection with the \$1,342,717.05 of debentures and asked the mayor and city solicitor to see to it.

The act very clearly provides all the conditions under which wharves shall be operated and the terms are specifically expressed, said Mr. McLellan.

If it was a question whether you were in favor of harbor commission or not it might be easily settled, but that is not the question, irrespective of any style of ballot, or any attempt to say, that if the act is not right it can be made so.

The question is whether you approve of harbor commission under the present act, he claimed.

The Globe said that St. John was not asked to accept the act, but the agreement to be founded on the act. What could be more contradictory than that? Any transfer must conform to the act and there is no second choice.

Neither the governor and council, the mayor and city solicitor or the harbor commission can change the act without the assent of the parliament of Canada. The Globe was practically admitting that the act should be disapproved of, it says: "Free to refuse assent to any such measure, free if not convinced of the good faith of the government, to refuse to conclude any agreement."

Why anticipate the government's good faith when the government cannot alter the act? Are you going to parliament asking it to change the act on the ground that you don't know what you were doing?

In asking that "the mayor give assurance that the city will be relieved of the interest and sinking fund on the \$1,342,717.05" admits that the act does not provide any such relief.

How can the mayor and city solicitor change the statutes? If the government intends to pay two millions of dollars for the harbor and harbor property why not make it say so?

Is Government Liable? Is the government liable for the \$1,342,717.05 of bonds because they accepted the title? No, because section 11 of the act clearly provides that when the government is liable for \$657,282.55 of debentures to be issued by the corporation to the city in case the corporation cannot pay.

Secondly, because the latter part of section 11 expressly provides that the liability of the corporation of the liability in respect of the \$1,342,717.05 and the issue to the city of \$657,282.55 of debentures shall be deemed to be payment in full for the harbor, harbor property, rights, rents and privileges to be provided to his majesty's navy, can be clearer than that? asked Mr. McLellan.

It is simply illustrated—someone purchases a property from you and you accept the title for same, and because of any accepting the liability for the note, the title has passed, and if the note is not paid, the property remains in the possession of the purchaser. The fact that the promisor assumes the liability is sufficient.

When the city takes over the obligation of the corporation that ends it. If the corporation fails to pay the act makes it plain that the government does not assume any liability for any portion of the \$1,342,717.05.

What does the government do in regard to the liability it assumes, that is in guaranteeing the interest and sinking fund on the \$657,282.55—it makes it a first mortgage by inserting it in the order of payment immediately after—

(a) the payment of all expenses incurred in the collection of the said revenue and other necessary charges.

(b) the defraying of the expenses attendant on keeping the wharves and other works vested in the corporation in a thorough state of repair.

(c) the payment of interest due on the debentures issued by the corporation to the city under the authority of this act.

(d) the payment of interest due on all money hereafter borrowed under this act.

(e) providing a sinking fund for payment of all money borrowed or the liability for the payment of which is assumed by the corporation.

(f) the cost of operating docks and wharves and otherwise carrying out the objects of the act.

The government appears to have carefully inserted in the order of payments a requirement for taking care of its liability.

have no difficulty in paying the five per cent interest on this loan. It is my view that the various harbor commissioners ought to provide a sinking fund so that when these debentures fall due the harbor commissioners may themselves be able to take them up out of the revenues collected. At present these debentures have to be taken up by the federal government when they fall due. I hope to make these advances real loans to the various harbor boards so that they shall not only pay the interest on them but also meet the debentures when they fall due; and to that end I am taking steps to provide for a sinking fund at the various ports.

June 25, 1919, on same subject: "The harbor commissioners also have authority to levy wharfage dues on in and outboard freight. They have not been exercising that authority but I have given them instructions to do so because it is necessary for the harbor commissioners to raise their revenue in order to meet the five per cent interest on the monies that we are now asking parliament to vote and the expenditure on capital that will take place from year to year."

Also "their estimated revenue levying the wharfage dues that I have just referred to and also collecting due from water lots and other sources would total \$880,480. This would enable them quite easily to defray all the expenditures of the harbor, provide for five per cent interest on loans and also set aside a sinking fund to redeem these twenty-five year debentures as they mature."

Does this look like the government having such good faith in their harbor commissioners and the ports as to relieve them from such liabilities as they incur? What About Rates?

What about any such arrangements as the Montreal harbor commission provides for "and the corporation may levy from all vessels entering the harbor through the harbor for the purpose of discharging or loading there, except canal craft trading between Montreal and places above Montreal, the same rates as may be levied in the harbor and under the same regulations and penalties."

Does this provide for the local market gardeners, etc. and for those such as would be situated as the people along the River St. John, inasmuch as there would be no rates for the producer or consumer to pay on local farm produce, etc.?

What about the Board of Trade council constituting the Board of Trade to harbor commission, without knowing anything about the act?

Speaking of an editorial in the Globe, last evening, Mr. McLellan said that no one was paying one nickel of expense for the opposition was putting up. He said that he was paying the bills himself for the rentals of the halls and he resented the statement of the Globe that he was being paid.

In conclusion he invited those present to attend the meeting in the Cliff street auditorium this evening when he would give facts and figures in regard to the act. He would also show that the act was taking in 680 acres more than the harbor proper. He said that if it was found to be true that the act would increase the taxes by \$51,000 annually he would not sign the agreement in the event of the plebiscite passing. If they voted against commission it would take several years to frame a new act and get it passed and the city would have to go on and pay for improvement for the harbor. In conclusion the mayor asked all those who wished to speak at another meeting to send him their names and he would arrange for another meeting. The meeting was brought to a close with the singing of the national anthem.

**RECOMMENDATIONS FOR PROTECTION OF THE WATER SUPPLY**

At the regular weekly meeting of the common council, held yesterday afternoon, the contract for the construction of the retaining wall in Main street was awarded to H. O. Clark. A communication from the Board of Health, making various recommendations in regard to the city's water supply, was received and several other matters were considered. Mayor Schofield presided and all the commissioners were present.

A petition from the residents of Lansdowne avenue, asking that the gutters of that street be constructed of concrete instead of asphalt, was received and referred to the commissioner of public works.

A communication from J. S. Gibbon and Company, Limited, asking for a reduction in taxes, was received and referred to the mayor.

**Board of Health Recommendations.**

A letter from the Board of Health was received containing several recommendations in regard to the prevention of pollution of the water supply of the city. The board advocated the prohibition of boating, fishing and bathing, as already in force.

In regard to Lake Latimer, it recommended the purchase of lands bordering on the lake, the raising of the end of the intake and a duplication of the connection between this lake and the others so that when one was being cleaned the other could be used.

For Lake Robertson, it recommended the fencing off of the shore to prevent cattle from entering the lake, diverting the roadway away from the lake and the oiling of the road to prevent dirt blowing into the lake.

Referring to Loch Lomond, the board recommended the removal of the Ben Lomond House, the covering of the sluice-way, the fencing off of the shore, the buying of additional land, and the establishment of a patrol.

The board also advocated the prevention of the building of any camps, mills or other buildings near the lake. The communication said that, with these precautions taken, the establishment of a chlorination plant probably would not be necessary, but if it was found to be necessary it should be built.

In regard to the west side water supply, the board was in favor of the prohibition of boating, fishing etc., as already in force, and the fencing off of the shore. It said that there would be no need of chlorination at this source.

After a short discussion, the matter was referred to the commissioner of water and sewerage for a report.

Mr. Thornton said that there ought to be some method of regulating the traffic of the "jitneys" and moved that Robert Harris, who is at present collector of licenses, be authorized to act as inspector of taxis. The motion was carried.

**On motion the council adjourned.**

**BISHOP DEDICATES KENT CO. CHURCH**

Moncton, July 26.—The Roman Catholic church at St. Anne, Kent county, was dedicated today with solemn ceremonies. His Lordship Bishop LeBlanc, of St. John, officiated. Following the dedication a solemn high mass was sung. The church was recently remodelled. Rev. R. B. Fraser, of Sussex, and many other priests were present.

**THREE DROWNINGS.**

Vincent Mullins of the marine department, Sydney, has received a letter from Quebec, saying that the two men drowned from the steamer T. J. Drummond were Sam Cahill of Sydney and Peter Young of North Sydney. The men went ashore to make some purchases and in coming back missed the rope which was thrown to them and the boat overturned. Cahill hung to the ship's side, and Young jumped on his back, with the result that both fell into the water.

The many friends of Lionel Narraway, son of Mr. and Mrs. J. R. Narraway of Ottawa, will be shocked to learn of his death by drowning. He was out with a survey party in Ontario. He spent part of last summer in St. John. Mrs. J. R. Narraway, his mother, who has been visiting in the city, left last evening for Ottawa, called home by the sad news.

**PUBLIC NOTICE**

In view of the unfavorable reports by the Department of Public Health on the City Water Supply. The Purity Bottling Works, Limited, wish to inform the general public that the water used in the manufacture of "Purity Drinks" is drawn from the famous Artesian Well at Oland's Brewery. Several independent analyses show this water absolutely free from bacteria, and especially suitable for the manufacture of carbonated beverages.

Having been advised by experts that filtering would not absolutely purify the city water, we decided to go to the expense of pumping from this noted well.

**HUGO STINNES HAS BRAIN CONCUSSION**

German Capitalist Injured When His Automobile was Overturned.

Berlin, July 27.—Hugo Stinnes, the German capitalist, suffered concussion of the brain and a severe cut in the forehead when an automobile in which he was motoring in the vicinity of Wiesbaden, Prussia, was overturned. Stinnes was accompanied by his daughter and granddaughter, both of whom were injured. He was taken to Wiesbaden, where he received treatment, and is reported to be resting easily.

Hugo Stinnes is the best known industrialist of Germany. The owner of several newspapers, shipping lines and great industrial plants, he is said to control capital totalling eight billion marks. During the Allied conference with representatives of Germany at Spa in July, 1920, on coal deliveries to the Allies, Stinnes adopted such a defiant attitude that he was rebuked by the Allied delegates. When he returned to Germany after an agreement had been reached, however, he declared it was the duty of every German to help meet the terms of the agreement. Recently Stinnes was reported to have acquired large concessions in Soviet Russia and to have begun an industrial invasion of several other countries.

**TUXIS BOYS RETURN.**

The "Tuxis boys" camp at Chipman broke up on Monday evening after twelve days under canvas. The camp was held jointly by the New Brunswick Boys' Work Council and the Y. M. C. A. The mornings were devoted to study groups, and the afternoons were given over to recreation. A feature of the summer table was the reading of the camp paper, "Camp Mosquito," by Samuel Beatty of Fredericton, the editor. A double-header of baseball was played every evening.

Elections to the Hall of Fame were the feature of the closing night, the results being: Most popular boy, J. Wilson; biggest eater, A. Rogers; best camper, Jarvis Wilson; best-natured boy, Maynard Harrison; fattest boy, Don McKenzie; best-looking boy, Don P. Smith; favorite game, baseball; popular eater, pie.

**General Strike Starts in Italy.**

(Canadian Press Despatch.) Rome, July 26.—A general strike proclaimed by the extremist parties here as a protest against the recent outbreaks at Grosseto and Montecatini, in which numerous communists and fascists were killed, was begun this evening. The authorities are taking vigorous precautions to maintain order.

**COMMUNITY WORK BY THE W. C. T. U.**

The president, Mrs. David Hipwell, was in the chair for the W. C. T. U. meeting yesterday and there was a large attendance of members. Mrs. Berglund, the corresponding secretary, read a letter from Mrs. Phillips, the provincial president, regarding the work among lumbermen. Mrs. R. D. Christie reported that she had visited Miss E. Barnes in hospital and taken flowers from the W. C. T. U. Mrs. Hennigar reported that Mrs. Woodburn, who was one of the oldest members of the branch had recently been able to get out in a wheelchair. Mrs. Woodburn, who is more than eighty years of age, has been confined to her home for many months. Mrs. Hope Thompson gave an interesting account of her hospital work and spoke particularly of the appreciation of the four lumbermen who are patients in the hospital. Several individual members reported that their community work was being carried on satisfactorily and follow-up cases reported told of much good being done. The report of the amount of money in the missionary fund was given by Mrs. Hennigar and various aims were forwarded as they had previously been voted.

**MORNING NEWS OVER THE WIRES**

Prof. Glazide, who will occupy the second chair in forestry at the U. N. B., has arrived in Fredericton for a short visit. He will then go to Boston, returning to Fredericton in September.

A telegram has been received by relatives in Eastport announcing the death of Bert Lawson, who was killed on a railway train in Prince Edward Island.

At a meeting of the unemployed in Halifax yesterday a resolution was passed demanding work of the necessities of life. The resolution will be presented to Mayor Parker, members of the provincial government and any members of the federal government who happen to be in the city.

Warrants have been issued for the arrest of Grant and Whyte, members of a firm of stock brokers in Vancouver and Victoria. The charge is one of theft. The firm has made an assignment to an authorized trustee in bankruptcy.

H. F. Worne of Bridgetown has announced that he will place on the Bay of Fundy on the route between St. John and Digby an auxiliary schooner on a regular schedule. It is reported that a company is being formed in Digby to put the steamer Centreville on the same route.

Rome, July 26.—The pope has appointed Bishop Michael J. Curley, of St. Augustine, Archbishop of Baltimore.

middle of August. If that is done, the tax bill will go to the senate and be referred to the finance committee before the tariff bill is reported out of the finance committee. At this point the advocates of early tax revision will try to give the tax bill right of way ahead of tariff. If the senate takes up the tariff bill in August or early September ahead of tariff, it is likely to be October 1 or perhaps the middle of October before the tax bill is passed. This would so delay the tariff bill that it is entirely conceivable it might not be finished in the extra session and might have to wait for its completion until the regular session of congress next winter. Needless to say, United States interests that want duties are going to oppose such delay strongly, but the chances of forcing the tax bill to the front and the tariff bill temporarily to the rear in the senate are growing every day.

**CATTLE QUESTION BEFORE COUNCIL OF AGRICULTURE** Toronto, July 27.—The Canadian Council of Agriculture, in session here, decided to protest to the British government against the embargo against Canadian cattle. The attitude of the council is that if the British authorities must place an embargo against Canadian stock, they should do it in some other way than by suggesting that the shipments are not suitable for the British market. In the same connection the question of ocean freight rates will be taken up by the federal department of trade and commerce. The ocean rates on cattle, it was said, were proportionately higher upon live stock than upon grain and other farm produce.

#### CUT DOWN U. S. ARMY BY JULY 31

Washington, July 27.—Reduction of the U. S. Army to peace time strength of 150,000 men will be accomplished by July 31, in accordance with the decision of congress, when it refused to appropriate funds for pay of a greater force after October 1. There will be a general redistribution of troops, practical abandonment of seven of the great war time army cantonments, placement of many organizations on the inactive list and skeletonizing of others into materially reduced strength.

#### RENTS SHARPLY DECLINE FOR CHICAGO APARTMENTS

Hamilton, July 27.—Rents are declining sharply in Chicago, and more than 7,000 apartments were vacant there this week, stated M. Ellsworth Smith, who attended an international convention of realty men in that city. Not many months ago apartments were at a premium, and most any rent that was asked for was gladly paid by the frantic tenants. The general depression, however, has resulted in many families "doubling up," and the apartments are vacant in large numbers, Mr. Smith said.

#### Estate Sale

I am instructed by the executor of the estate of the late Senator Dever to sell by private sale on Tuesday, Wednesday and Thursday, 26, 27, 28 July, from 2.30 to 5 p.m., contents of house consisting of old mahogany dining tables, Aleigh bed, sofas, chairs, wardrobes, etc. Rosewood piano, piano player with records; mirrors, walnut arm chairs, dining room chairs, glass, china, carpets, rugs, pictures, draperies, kitchen range, centre tables and general assortment of other household furniture. J. FRED EMERY, 193 Union Street. Phone M. 3554.

**U. S. STEEL REPORT**  
Earnings for Quarter \$21,892,  
016, Smallest Since 1915—  
Chairman's Statement.

New York, July 27—The U. S. Steel  
Corporation reported yesterday that its  
earnings for the quarter ended June 30  
were \$21,892,016, the smallest of any  
quarter since March 1915, just prior to  
the war boom, when they fell to \$12-  
457,809. Regular dividends of 13-1/4  
per cent on the common were declared,  
but to meet the requirements of the  
common dividend, on which only 35  
cents was earned, it was necessary to  
draw from the corporation's huge uti-  
lized surplus.

Analysis of the corporation's monthly  
business shows earnings of \$7,336,645  
in April and \$7,931,649 in May and  
\$6,624,722 in June.  
Net income of the corporation for  
the second quarter amounted to \$13-  
226,509, against \$28,658,259 in the pre-  
ceding period. This item would have

shown more drastic reduction but for  
the fact that charges and allowances  
for depreciation were much smaller than  
in the first quarter of the year.  
A statement issued by Chairman Gary  
said: "The business results of the cor-  
poration for the last quarter, which were  
not exactly determined until today, are  
not surprising to anyone familiar with  
general conditions. While business in  
many lines, including iron and steel, is  
still dull and hesitating the outlook is  
not discouraging or doubtful. Sentiment  
has been for some time and still is grow-  
ing better. The financial aspect of this  
country and other countries has been  
improving and to most of us at least  
looks bright. We need not shout in  
triumph but we are compelled to feel  
depondent. Therefore full recovery is longer  
delayed."

**SWIMMER'S FOOT  
TOUCHES DEAD BODY**  
Boy Had Been Drowned Un-  
noticed by Scores About  
Him.

Montreal, July 27—While bathing,  
Thomas Hood, of Verdun, felt a body  
touching his feet under the water. He  
told his companions and one of them  
dived and brought up the body of T.  
Dural, ten years old, of Decourcielles  
street, who had been drowned without  
any of the scores around being aware of  
the tragedy.

**ONTARIO JUDGE DEAD**  
Cobourg, Ont., July 27—George Mor-  
ris Roger, junior judge of the county  
of Northumberland and Durham, died  
here yesterday. He was born in Peter-  
boro, called to the bar in 1875 and  
practised in Peterboro, of which city he  
was mayor for two years. He was also  
president of the Peterboro Law Associa-  
tion. He was appointed to the bench  
in May, 1909.

**REAL ESTATE REAL ESTATE**  
**OWN YOUR HOME!**

The secret of Owning Your Home is to convert your  
thoughts and desires in this respect into ACTION. The first  
step is to buy a lot. It is the vital step. Once you buy a lot  
the rest comes easily because action is the secret. Hundreds of  
people have proved this true by buying a freehold lot on our  
easy terms. Your particular problem has been worked out  
successfully many times by other people. Today they own  
their homes and in doing so have solved half of life's worries.  
You are just as capable of doing the same thing.

**The First Step Towards Owning a Home is  
Buying a Lot.**

invitations to hold the coming world  
congress on armaments and the Far  
Eastern question at Niagara Falls. The  
A. B. C. conference to settle differences  
between the U. S. and Mexico was held  
at Niagara Falls, Ont., several years ago.

**TORONTO BOY IS  
KILLED BY AUTO;  
TWO INJURED**  
Toronto, July 27—One little boy was  
killed and two other boys injured in  
automobile accidents here last night. In  
all three accidents the drivers of the cars  
were not held responsible by the police.  
Clifford Shaw, aged 6, was the boy  
killed. He was knocked down by a car,  
the wheels of which passed over his  
body.

**APPLE CROP**  
Best Reports from N. B. and  
P. E. Island.  
Ottawa, July 27—(Canadian Press).  
The apple crop throughout the do-  
minion, though seriously affected by re-  
cent frosts, is still likely to average  
better than last year.  
The best reports, according to the  
department of Agriculture, come from  
New Brunswick and P. E. I., where there  
is a heavy set for all varieties. Baldwins  
and King's are the best in Nova Scotia,  
but in other varieties there has been a  
heavy drop. Quebec anticipates a crop  
something larger than that of last year.  
In Ontario about eighty per cent. of that  
of 1920 is expected.  
British Columbia expects a crop some  
ten per cent. better than last year's.

**Mr. Balfour Points Out Curious and Unexpected Result of War.**

London, July 6. — (By Mail). — Mr. Balfour presided at the annual meeting of the London Library, St. James' square.

In moving the adoption of the annual report, which showed a membership of 4,130, Mr. Balfour said that was the eightieth anniversary of the library's existence. One curious and unexpected result of the war had been greatly to increase the number of those who had joined the library. The net increase in their membership had been 1,000, and the number of books called for, especially in the London district, bore its full proportion to that augmentation of membership. More and more it was evident that those who wanted easy access to all that was best in the literature of the world, in the narrower sense, were increasing in number. The means by which their wants might be satisfied.

Mr. Balfour announced the completion of a great store-room, which would accommodate 200,000 volumes, and said that there was a deficit of £4,000 on this undertaking, for which he made an appeal to members.

Mr. Edmund Gosse, alluding to the question of book prices and the letters from librarians in *The Times*, said the fact was that really sound and valuable books of a more abstruse and authoritative character were not merely becoming rare, but extinct. He was assured by the Master of Trinity that they regarded it as likely that the Pitt Press at Cambridge, celebrated all over the world for scientific publications, would be obliged to stop producing altogether. Therefore it was quite possible that in the near future the London Library might become a place where people, no longer able to buy books, could come and refer to them.

The report was adopted, and Mr. A. C. Bradley, Mrs. D. G. Hogarth, Mr. Walter Leaf, Mr. Bruce Richmond, Mr.

**FOR NEEDY CONSUMPTIVES.**

Brockville, July 27.—In the campaign of the emergency million dollar fund on behalf of the needy consumptives cared for by the National Sanitarium Association, and to rebuild Muskoka Hospital for Consumptives, destroyed by fire last November, Brockville will endeavor to raise \$5,000. An influential committee of citizens has undertaken to call upon the people of the town to secure their contributions. A. C. Hardy, who, in conjunction with Mrs. Hardy, in the first fifteen years, has donated more than \$50,000 to the cause, is chairman of the Ontario district from Ganunguque to the eastern limits of the province, and reports received by him point to a successful campaign in this area. The district headquarters mail has been heavy with letters commending the cause and offering the co-operation of leading men in every community.

Hart, Mich., July 27.—A petition to President Harding asking that the railroads of the country be turned over to Henry Ford, the automobile manufacturer, for operation, signed by 400 fruit growers of Oceana county, was mailed to Washington today.

The fruit growers, who allege in the petition that present freight rates are taking most of the profits on their crops, pointed out that Mr. Ford recently reduced freight rates on his railroad, the Detroit, Toledo and Ironton.

**ST. ROSE'S PICNIC**

The grounds of St. Rose's church, Fairville, was gaily decorated with flags and bunting yesterday for the annual church picnic. The affair was a success in every particular. The various booths were liberally patronized and upwards of 1,000 persons were present. The City Cornet Band was in attendance. The ladies of the A. O. H. auxiliary of St. Rose's served supper on the grounds and the men of the A. O. H. were in charge of the amusements. Mrs. F. X. Morris was in charge of the supper tables and was ably assisted by the ladies of the parish. The other convenors were: Ice cream, Miss Mary O'Brien, Miss Hennessy and Miss Geary; refreshments, Miss Mary Ryan, Miss Murphy and Miss Love; James B. SECOND BROTHER IS VICTIM IN 12TH RUM FEUD MURDER

Restaurant Owner Shot in a Crowded Street by Well-Dressed Youth—A Rough Neck's Revenge.

New York, July 27.—A feud, which the police believe had its origin in a quarrel a year ago among bootleggers quarters, added another murder to its list on Saturday when an unidentified youth, well dressed and wearing a cap, shot and killed Silvio Melchiorre, 34 years of age, of 226 East 119th street, as he was standing in front of his restaurant at Elizabeth and Kenmare streets.

Ernesto Melchiorre, brother of the victim, was found dead at Cony Island six weeks ago, with his head almost severed from his body. Detectives are working on the theory that the brothers were slain by members of the same gang.

Detectives said that since trouble began among the bootleggers twelve men had been murdered here. They described the murders as the "roughneck" elimination of the gang who swore to avenge themselves on leaders who cheated them out of their whiskey commissions.

Last winter the police thought the feud had been settled, but on a Sunday night in the early spring gunshots shot and wounded several men and women who were crowded with men and women who had quit work in nearby factories for their half holiday, detectives were able to obtain meagre descriptions of the slayers.

From stories told by several children at play within five feet of Melchiorre when he was slain, it was evident that the murder had been carefully planned and that the slayers had waited around the Elizabeth street side of the restaurant until their victim could be lured into the street.

Talks to Ice Wagon Driver. Detectives said, however, that Melchiorre unconsciously made a target of himself in advance of the time fixed by the slayers, for a few minutes before the shooting began he walked out to the Elizabeth street side of the restaurant to talk to the driver of an ice wagon.

The driver was taking the ice from his wagon, and Melchiorre was noting the weight of the cakes on a small piece of paper, when one of two youths, standing in the doorway of a tenement across the street, excitedly pointed to him. Then one of the men walked over to Melchiorre, and engaged him in conversation.

Melchiorre made no reply at first, and eventually waved the man aside. Then the man raised his voice, and said something that caused Melchiorre to turn and make a heated reply. Both men then began to wave their hands and speak at the same time, but it was noticed that the stranger, who wore a cap, was intent on keeping Melchiorre facing Kenmare street, a direction opposite to that from which the slayer approached.

In the meantime Melchiorre returned to recording the weight of the ice, and as he stooped over to examine the

**LOCAL NEWS**  
**AWAY TO BOSTON.**  
The steamer Governor Dingley sailed for Boston at nine o'clock this morning. She had 250 passengers on board.

**BURIED TODAY.**  
The funeral of Mrs. Edith Breen was held this afternoon from St. Paul's church to Fernhill. Rev. Canon Kubring conducted service.

**AT THE HOSPITAL.**  
It was reported from the hospital this afternoon that Stirling Stackhouse, who had his foot injured yesterday morning, was improving and resting comfortably.

**MEMORIAL OF SON.**  
Mrs. Priscilla Leggett, of 20 Simonds street, has received the Mother's Cross in honor of her gallant son, Private John Leggett, of the 24th Battalion, lost when crossing from France to England on the hospital ship Angella on November 17, 1918.

**DEATH OF ANDREW D. GAULT.**  
The many friends of Andrew D. Gault will regret to learn of his death, which occurred at his residence, South Bay, on Tuesday evening, July 26. He was the second son of the late James Gault who will be remembered by the older residents of South Bay. He was a member of the Carleton Presbyterian church, but because of ill health had not been regular in attendance. He is survived by his wife, who was Miss Sarah E. Henderson of Grand Bay. The funeral will take place at his late residence Thursday afternoon at 2:30 o'clock.

**LAWN PARTY.**  
The Ladies' Aid of Victoria Street Baptist Church held a very successful lawn party on the grounds of Mrs. R. M. McLaughlin, 194 Millidge avenue, yesterday. The convokers were Mrs. R. Robertson and Mrs. Culbert; tea, cream and candy, Mrs. MacDonald and Mrs. Fawcett; guessing contest, Miss Ethel White and Miss McLaughlin. The proceeds, which amounted to \$70, will be devoted to missions.

**A PROPERTY CASE.**  
In Chancery this morning hearing was begun in the case of Johnson and Dyer vs. Pritchard, an action arising from the matter of an alleged property sale. The amount at issue is \$10,000 and \$12,000. It is contended that the plaintiffs bought the property through W. E. A. Lawton for \$11,000, and that afterwards the defendant claimed the agreement was for \$12,000. The action is brought to test the validity of the agreement. S. A. M. Skinner appeared for the plaintiffs and B. L. Gerow for the defendant.

**FORMERLY OF THIS CITY.**  
Mrs. T. W. McNichol of Swampscott, Mass., who is a guest at the home of M. E. Agar, Leinster street, has received intelligence of the death of her brother, John Healy, which occurred on Monday night in Swampscott. Mr. Healy moved to the Massachusetts town about five years ago. He had been a resident of Johnville in this province since the family removed there after the great fire of '77. He was a widower and leaves three sons and one daughter of Johnville—Joseph and William of Swampscott, also Gertrude of the present family address. The sisters are Mrs. McNichol at present on vacation here; Mrs. Charles Berry of Pittston, Pa., and a brother, Philip Healy of Swampscott. Mr. Healy was a man of sterling integrity and was much respected in his old New Brunswick home—St. John and Johnville—as well as in the home of his more recent adoption. Mrs. McNichol received word of her brother's demise too late to return home for the obsequies.

**TONIGHT'S MEETING**  
The discussion of the harbor commission act will be resumed at eight o'clock tonight at St. Vincent's auditorium, which has a large seating capacity. J. R. McLellan has engaged the hall, but will give the first three-quarters of an hour to a speaker or speakers who support the harbor commission act. Thus both sides of the case will be presented. There should be a full house, as this question is vital to the future of St. John.

**JULY BRIDES**  
Doyle-Gillis.  
A very pretty wedding was celebrated this morning in St. Vincent's church, Fairville, when Very Rev. Dean Charles Collins united in marriage Miss Mary Vera Gillis, daughter of Mr. and Mrs. Daniel Gillis of Fairville, and Herbert Doyle of Quebec. The bride, who was given away by her father, was charmingly gowned in a fawn colored traveling suit of tulle with navy tulle and carried a white prayer book. She was attended by her sister, Miss Lillian Gillis, who wore a gown of navy tulle with hat to match. The groom was supported by Frank Gillis, cousin of the bride. Following the ceremony, the bridal party drove to the home of the bride's parents, where a dainty wedding breakfast was served. The bride received many beautiful presents, among them cut glass and silver. The groom's present to the bride was a substantial check; to the bridesmaid, a pendant; and to the best man, a pair of cuff links. Mr. and Mrs. Doyle will leave this evening for Quebec, where they will reside.  
Kinsman-McKay.  
A very pretty wedding of much interest took place in St. Paul's Valley church at 4:45 o'clock this afternoon, when Rev. Canon G. A. Kubring united in marriage Miss Hazel May, only daughter of Mr. and Mrs. James Owens McKay of 28 Wright street, and Harold William Kinsman of this city. The bride, who was given away by her father, wore a suit of ivory tulle with touches of silver, and hat of georgette and lace, and carried a shower bouquet of Opelia roses and sea anemones. The bridesmaid, Miss Jean Arnold, cousin of the bride, wore a gown of pale pink charmeuse with hat to match, and carried a bouquet of pink and mauve sweet peas. John E. McKay, brother of the bride, supported the groom, while J. Harold and William H. McKay, also brothers of the bride, acted as ushers. Miss Edith Mearney presided at the organ. The church was prettily decorated with snapdragons and water lilies by girl friends of the bride. The bride and groom will leave on the Montreal train on a honeymoon trip to Canadian and American cities, and on their return will reside at 28 Wright street. Many beautiful presents were received as a token of the esteem in which the bride and groom are held.

**TRACKMASTER ON STAND TODAY**  
More Evidence in Matter of Alleged Intimidation in Brussels Street.  
The cases in which John Short and John Mabee were charged with intimidation of employees of the St. B. Power Co. were resumed this morning. Robert Chambers, track master for the company, gave evidence and the cases were postponed until Monday afternoon at 2:30. W. M. Ryan appeared for Short and asked some questions in the interests of Mabee, and H. H. McLean, Jr., appeared for the power company.  
Chambers said he had been relaying rails in Douglas avenue and Brussels street and that on Monday, July 18, he was with a crew in Brussels street. He had seen Short and Mabee on that afternoon between two and three o'clock. He said he had heard Mabee make some remark about getting shoes and picks and digging up the rails. Mabee was one of a crowd of forty or fifty persons. He had seen Short down toward the lower end of the street, but did not hear him say anything. To the magistrate he said his men were working near Brunswick street and that he had heard jeering. He came up to where they were and the jeering stopped. He then moved his men down opposite Hanover street.  
To Mr. Ryan Chambers said he thought Short had been in the employ of the company about twenty-five years and that he had never given any trouble. He knew that Mabee had worked for the company and said that he had worked under him. He (witness) had nothing to say against Short. He said he was in the guard room at the police station yesterday while the case was going on and that he had a conversation with Short yesterday.  
Mr. Ryan—"Didn't you tell Short yesterday that if he would come back to work you would have a talk with Mr. Thomson and see if you could have the case withdrawn?"  
Mr. McLeod objected to this question and was upheld by the magistrate.  
Mr. Ryan described arresting a man and putting him in jail and then withdrawing the case as "Russian methods." Chambers admitted having gone to the police station yesterday and said that he had seen Mersereau, the complainant, who gave evidence yesterday, in the guard room in the morning. He swore that at the time of the trouble he did not know that Mersereau was going to lay information against the two accused. Previous to the strike, he said, there had been no ill-feeling between Mabee and himself. He had nothing to say against Short, but that he was in the crowd and would not say that he was acting in a disorderly manner. He had seen Mersereau in the crowd on the day in question. Mersereau had not been working for him that day. So far as he knew there was no information laid against Mersereau for being in the crowd on that day. He had not gone to the guard room with Mersereau yesterday though they were both there.  
The magistrate raised the amount of Mabee's deposit for his appearance from \$50 to \$100, the same as Short's.

**EAGERLY AWAIT NEWS OF BELVEA**  
Local Oarsmen Well Looked After in Montreal en Route to Racing Waters.  
Tomorrow and Saturday Hilton Belyea will defend St. John's rowing prestige at the Canadian championships, St. Catharines, Ont. An enthusiastic group of Belyea's admirers will be there to see him row. Around town the keenest interest exists as to the Carleton man's showing against the doughty oarsmen of Montreal and other lake ports—possibly harbor nuts to crack than the American rowers of Belyea's last conquest.  
While en route to St. Catharines from St. John Hilton, Bob and Harry—the three burly Belyeas—were entertained at Montreal to auto tour and complete relaxation through the advance preparations of Thomas Nagle of St. John.  
The racing shells were also looked after by Mr. Nagle's friends and transferred carefully to the Toronto train, for fact the St. John colony in Upper Canada is watching our Hilton and our Bobbie just as eagerly and hopefully as Winter Port citizens themselves.

C. P. R. MEN HAVE A "GET TOGETHER" AT MCADAM JCT.  
A "get together" meeting was held at McAdam yesterday afternoon by the officials of the New Brunswick district of the C. P. R. at which eighty-four of the officials and employees of the district were present, together with officials from Montreal. J. D. Woodman, general superintendent of the C. P. R., occupied the chair. Among those who spoke were George Jackson, general auditor of claims; E. L. Lamer, assistant freight traffic manager; C. B. Lawson, assistant passenger traffic manager; A. B. Calder, assistant to the president of the C. P. R.; Mr. Nutter, agent at Fredericton Junction; O. F. Deakin, agent at St. Stephen; W. S. Elliot, district freight agent; N. B. Shribsay, district passenger agent; Locomotive Engineer Adair and brakeman Mersereau.  
The meeting was held so that the officials and employees of the district might become better acquainted with one another. R. E. Lamer, assistant traffic manager, who was in the city today to look over conditions here, found everything satisfactory.
