late Mr. Molson's property after the tire two years ago.

The desolation and distress is immens. Besides the loss sustained by the proprietors and the assurance companies, it is supposed that upwards of a hundred families are deprived of their dwellings at the setting in of winter, and have lost all that they had saved by industry for their support. The number of houses dcstroyed is about fifty.

Longitude at Sea .-- The Progress a journal at Arras, states, that a person residing at Fanquembergue has after studying for thirty years, discovered the longitude at sea, and formed an instrument which constantiy points out and rectifies the ship's course, indicating the longitude and latitude in the chart.
