TWO YEARS FOR HENRY T. WALSH.
South African Soldier Sentenced for Theft.
He Defended Himself and Cried the Judge—Another Charge Against Him Was Not Pressed.

(Special to the Star.)
HALIFAX, N. B., July 15.—In the Kings County court today Henry T. Walsh, the prisoner sent up for trial by Magistrate MacIntosh, of Sussex, on a charge of stealing a watch and chain on July 1st, the property of David H. McNutt, proprietor of the Central Hotel, Sussex, was brought before his honor, Judge Wedderburn, and elected to be tried under the speedy trial act.
On being arraigned he pleaded not guilty and conducted his own defence. A new charge was brought against him for stealing on July 2nd, one revolver, one knife, and two pairs of golf stockings, the property of Stanley Lawton, proprietor of Heath Hall, Hampton. The witness in the first case were David H. McNutt, William McLeod, Sergeant James W. Campbell, Samuel Webber and David Kominer. The accused cross-examined the witnesses, but failed to elicit anything to his advantage. He made no defence, and produced no witnesses, but appealed to the court for leniency on the grounds of his services to king and country in South Africa as well as the militia of Canada. He tried to awaken sympathy by stating that his sister was the wife of a banker in South Africa and that he had a wife and child in New York, to whom he was going when arrested.
Judge Wedderburn, in pronouncing judgment, said the case had been clearly proved against him by a strong statement of facts. He was sorry that the honor and honesty which he claimed to have carried into the camp of Mars in South Africa, was not taken by him into the camp at Sussex. As to his wife and child—if his statement is true, he (the judge) felt for them, for it is such as they who suffer by the misdeeds of those who should love and protect them. He proposed to act leniently and sentenced him to the penitentiary for two years, with hard labor, expressing the hope that he would come out reformed to live an upright and honorable life. The second charge would not be pressed at the present time.
The prisoner thanked the judge in sarcastic tones and indulged in a little display of bravado, after which his honor ordered his removal to gaol. Court then adjourned.

FIELDING DOESN'T FAVOR
MAILS LANDING AT SYDNEY.
(Special to the Star.)
OTTAWA, Ont., July 15.—This morning McKenzie, of Cape Breton, made a strong presentation of the superiority of North Sydney over all other points as a landing spot of British mails for Montreal and the west, as established by the recent preliminary test of the Virginia's run. Chiefly he held that the new idea would give the maritime provinces the British mails from one to three days quicker than they now come via New York.
Fielding said the great success of the experiment was the wonderful run over the I. C. R. from Sydney to Montreal, but he pointed out this saving only applied to boats running south of Cape Race, and was not possible in the season when mail steamers have to run via the Straits of Belle Isle.

J. J. HILL DENIES QUEER REPORT.
NEW YORK, July 15.—That the Vancouver, Victoria and Eastern, the new road which the Great Northern interests intend to build in British Columbia is to be made part of a new trans-continental line through Canada, as was recently reported, has been emphatically denied by James J. Hill in an interview published by the Times.
"Such a suggestion is nonsense," said the capitalist, "there is no plan. A large part of the territory in British Columbia and in Northern Washington is practically identical in character and distinguished in no way one part from the other, except by the drawing of an imaginary line. The new road will cross and re-cross the frontier, following the streams that run through the territory. It will furnish means of transportation to a rich, low grade ore country."

SUICIDE AT SYDNEY.
HALIFAX, July 15.—An employee of the Dominion Iron and Steel Company, Edward Robinson, threw himself before a train at Sydney this morning. The train passed over his body killing him instantly. The reason for this suicide is not known.

REFORMERS WOULD DEPOSE THE CZAR.
Popular Movement on Foot to Give the Crown to the Infant Czarevitch—Peace Negotiations.

AND CZAREVITCH.

ST. PETERSBURG, July 15.—12:05 p. m.—A sensational rumor current here today is that a large party of the Zemstovists and Doukists at Moscow are in favor of the proclamation of the deposition of Emperor Nicholas and the establishment of a regency for the Grand Duke Alexia Nikolaevitch (the infant son of the emperor and heir to the throne) under four grand dukes.
It is alleged that for this reason the meeting of the all-Russian Zemstovist and Doukist congress which was to take place tomorrow at Moscow has been prohibited.
ST. PETERSBURG, July 15.—(Noon)—M. Witte had a final interview with Emperor Nicholas at Peterhof today. Foreign Minister Count Lamsdorff was present showing the complete harmony of view between M. Witte and the foreign minister. M. Witte leaves St. Petersburg for Paris tomorrow, accompanied by Mme. Witte. At Paris they meet their daughter, who is the wife of the secretary of the Russian legation at Brussels. Mme. Witte has no intention of joining her husband later in America.

GIRLS OUT ALL NIGHT.
Arrested Early This Morning—Policeman Gave Them a Bad Record But They Say They Are Good.
The prisoners' bench seated three drunk who were fined \$8 or thirty days, and two young girls who gave their names as Ethel Snodgrass, age 19, and Bessie Goldworthy, age 17. They were charged with lying and lurking in an alley off Peters street, between five and six o'clock this morning, and not giving a satisfactory account of themselves. Both girls were very respectably attired wearing caps and each carrying an umbrella.
Officer Crawford said he had seen the girls for the last two months walking the streets night after night, at a very late hour. Last night officer White saw them on Brussels street and arrested them this morning about five o'clock, witness came across the two girls in an alley at the back of the Globe laundry on Waterloo street. He had also seen them previously talking to one of the night porters at the Victoria Hotel. When arrested they gave wrong names and stated they were waiting for the Snodgrass girl's sister. Officer Crawford said he knew Ethel Snodgrass to be a woman of bad character. She had a child last winter, and had to go to the Alms house. She mixed up with a very bad class of people. As regards Goldworthy, he only knew that she had been walking the streets for some time past.
Snodgrass who was crying denied that she was a "desperate" character, on the other hand, she said she bore a good reputation. The reason why they gave wrong names and stated they were waiting for the Snodgrass girl's sister, Officer Crawford said he was emphatically denied by James J. Hill in an interview published by the Times.
"Such a suggestion is nonsense," said the capitalist, "there is no plan. A large part of the territory in British Columbia and in Northern Washington is practically identical in character and distinguished in no way one part from the other, except by the drawing of an imaginary line. The new road will cross and re-cross the frontier, following the streams that run through the territory. It will furnish means of transportation to a rich, low grade ore country."

JEWESS WEDS A N. Y. MILLIONAIRE.
Romantic Career of Rose Harriet Pastor.
Brilliant and Beautiful Hebrew Girl Worked Herself Up From Whitechapel Slums to High Position.

STAMFORD, Conn., July 15.—The wedding of Miss Rose Pastor to John C. Phelps-Stokes, son of Anson Phelps Stokes, which took place at noon today in the pretty little church at Norton, was exceedingly modest in its appointments, although among Norton people it was regarded as the social event of the season. The ceremony was performed by Rev. Louis French, the rector of St. Luke's, assisted by the groom's brother, Rev. Anson Phelps Stokes, Jr., of New Haven, secretary of Yale University. There were no brides-

How Red Rose Tea is Grown

TEA is a native plant of Northern India. Transplanted to Ceylon it lost much of its strength and richness, but gained in fragrance and delicacy. That is why Ceylon tea is not a strong tea. That is why I blend Indian and Ceylon teas together—that is how the strength and richness, fragrance and delicacy of Red Rose Tea are secured—that is why Red Rose Tea has that "rich fruity flavor."

MORE MONEY FOR M. P.'s LEADERS AND JUDGES.

Politicians Cheerfully Raise Their Own Salaries— Pension for ex-Ministers—Not a Protest From Other Side of the House.

OTTAWA, July 17.—Substantial increases have been given by the house of commons to leaders, members and judges. Their seasonal pay is raised \$1.00 per head, the prime minister's to \$12,000 and an annual indemnity not exceeding \$7,000 will be granted the opposition leader.

Dr. Stockton (St. John) favored the grant to the leader of the opposition. It was an office equally important to that of prime minister.

Mr. Fielding said that a proposal of this kind was first made in the Province of Ontario. He considered it another evidence of the development of the constitutional system.

Mr. Borden thought the speakers of both houses should be included in the annual plan.

The resolutions were adopted with trivial amendments.

THE INCREASE.

The indemnity of members and senators is increased by a thousand dollars a session. The salary of the prime minister is increased from \$5,000 to \$12,000, in addition to seasonal indemnity. The cabinet ministers' salaries are not increased. They only benefit to the extent of the \$1,000 indemnity increase.

Members and senators get \$20 a day to thirty days, and if a session extends beyond that time the indemnity is \$1,500. The recognized leader of the opposition, in addition to his seasonal allowance, gets \$7,000. Instead of twenty cents a mile travelling expenses a member of parliament is allowed expenses for one trip to and from Ottawa a session. Payments are made to members monthly and there is the same provision as at present for making an affidavit of attendance. A deduction of \$15 a day is to be made for non-attendance.

Every member of the privy council of Canada who has served as a cabinet minister and head of a department for the full period of five consecutive years shall upon his retirement from the cabinet be entitled to receive, out of the consolidated revenue fund of Canada, an annuity equal to one-half of the salary attached to his office or position at the time of his retirement. Any such councillor obtaining a government office or becoming leader shall have his salary or allowance reduced by the amount of such annuity.

Under this provision \$2,500 a year is provided for Messrs. Blair, Hilt, Thorne, Foster, Haggart, Sir Adolphe Caron, Mr. Costigan, Sir Mackenzie Bowell, Sir Charles Tupper, Sir Hib-

bert Tupper, Sir Hector Langevin, Sir John Carling, making \$45,500 a year for these dismissed cabinet ministers. The total increase for parliament amounts to \$378,500 a year.

Mr. Fitzpatrick then presented resolutions regarding increased salaries for judges. On the clause prohibiting judges from engaging in any occupation or business other than their judicial duties Mr. Foster asked if it would prevent judges acting on commissions of inquiry or investigation. Mr. Fitzpatrick replied that only in case of urgent public necessity should a judge be employed on a commission.

Mr. Borden considered many judges underpaid, but the bench overmanned. He favored fewer judges, so that all could be better paid. The difficulty was that the province fixed the number of judges, and if parliament refused to make provision for their salaries it was really constituting itself a court of appeal on the action of the provincial body. While it was true there were too many judges at the present time, yet he believed that judges should be removed from any suspicion of tampering, and this he believed the increased salaries would assist in doing.

After some further debate the resolution was passed before six o'clock. The higher judges in all the provinces get increases of \$2,000 a year, and county court judges increases from \$1,000 to \$1,500.

In New Brunswick the salary of the chief justice is increased from \$5,000 to \$7,000, and Judges Barker, Gregory, Hanington, Landry and McLeod from \$4,000 to \$6,000. Judge Forbes remains at \$2,000. The salaries of Judges Carleton, Wedderburn, Wells, Wilkinson and Wilson are increased from \$2,400 to \$3,000.

The following is a brief table of the salaries at present and the amount of increase:

Table with 3 columns: Position, Present Salary, Increased Salary. Includes Premier (\$8,000 to \$12,000), Leader of opposition (\$7,000 to \$7,500), Members (\$1,500 to \$2,500), Retired ministers (\$2,500 to \$3,500), Chief justice (\$5,000 to \$7,000), Other supreme court judges (\$4,000 to \$6,000), County court judges (\$2,400 to \$3,000).

Tonight, with the house in committee on tariff changes, Fielding, at Foster's suggestion, agreed to suspend the changed duty on dry white lead coming into Canada and sold by the importer prior to the date of the new tariff, until September first next.

Foster's motions against the increase of salaries to officers who had been reported as defaulters in the past, were defeated, 66 to 50. These motions included the case of the postmaster at Thessalon and other equally notorious instances.

MERCURY AT 103 IN NEW YORK STREETS.

NEW YORK, July 17.—After a respite of two days the hot wave that last week caused scores of deaths and hundreds of cases of prostration here, returned today with renewed intensity, the temperature being by far the highest of this season. The highest point reached was at four o'clock in the afternoon, when the weather bureau thermometer touched 95. In the streets, however, the heat was much greater, some thermometers recording as high as 103 degrees. While the heat was intense, the air was stirred by light breezes and the general suffering was somewhat mitigated by the absence of the excessive humidity that prevailed last week. It was largely owing to this that only two deaths, directly resulting from the heat, were reported. The total number of prostrations for the whole city was less than fifty. There was little diminution in the heat after midnight, the mercury standing at 91 degrees at 11 p. m.

WASHINGTON, July 17.—The weather bureau tonight announced that there was no prospect for several days at least of a let up of the extreme heat, which has extended over the country for the past few days. The entire country from the Mississippi Valley eastward to Southern New England and the Florida coast is in the midst of a well marked midsummer hot spell. The maximum temperatures today were as follows: Philadelphia, 96; Chicago, 94; Cincinnati, 94; New York, 94; Detroit, 94; Washington, 93; St. Louis, 92; Pittsburgh, 92; Boston, 90.

INDIAN LAD CREMATED IN INCINERATOR.

OTTAWA, July 17.—Frank Ails, familiarly called Frank Elliott, a young Indian, died of a horrible death at J. R. Booth's mill shortly after ten o'clock Thursday night. Caught in the machinery which feeds the mill, he was carried into the roaring furnace and practically cremated. It is believed, however, that he was dead before reaching the furnace.

The young fellow, who was seventeen years of age, was one of a number employed about the mill piling slabs of lumber. He was carrying a bundle of slabs on his back when he fell into the machinery. He was crushed beneath the curb work of the platform. It is not just known what time he fell, but he was seen several times to go down a ladder under the platform as if to hide something. In doing this he had his pass near the moving chain. It is supposed that in fumbling around he tripped and fell and was caught in the driving mechanism. He was carried under the platform, over two or three pulleys and then up the incline leading to the furnace. In doing this he managed to break his body into two and crushed.

A HOT TIME IN MONCTON CITY COUNCIL.

MONCTON, N. B., July 17.—There were some interesting developments at the meeting of the city council this afternoon. Ald. Botsford moved for the dismissal of Police Officer Trites, a suspended some months ago for being in a barroom while on duty, though Trites and the officer with him swore they drank nothing but buttered bread and ginger beer. Ald. Botsford's motion was not seconded, but was followed by a motion installing Officer Trites from date of his motion passed and Ald. Botsford resigned his position as chairman and member of the police committee. Ald. Botsford's resignation was accepted and Ald. Fryers appointed temporarily in his place. Ald. Purdy, who had some differences with other members of the council in regard to the erection of exits in the Opera House, also tendered his resignation as chairman of the music committee. His resignation was accepted.

SUMMER SCHOOL OF SCIENCE.

YARMOUTH, N. S., July 15.—The Summer School of Science, so auspiciously opened on this morning, is in full swing, although pupils are still coming in, and quite a number are expected early next week. The enrollment up to the present is 100. The lectures are well attended, those on English literature leading. There is great interest shown in botany. The field expeditions as well as laboratory work are well attended. The faculty have been unremitting in their efforts to arrange lectures to suit the greatest number possible, as there must of necessity be several lectures going on at once.

CAR AND TEAM COLLIDED.

An accident occurred yesterday afternoon on Prince William street which caused some commotion on that thoroughfare. Car 49 was coming along towards King street at a lively clip when one of the city teams, No. 2, Driver Winchester on the seat, attempted to cross the tracks near the corner of Duke street. Before the car could be stopped the team and horse were up-ended and driven forward about twenty feet. The screams of the ladies in the car brought out the people in the neighboring offices. These set to work and extricated the horse from under the fender, beneath which it had been forced, and at length got Mr. Winchester's team into some semblance of respectability, though with smashed shafts and damaged harness.

FATAL ACCIDENT IN PORTLAND.

PORTLAND, Me., July 17.—Wm. M. Fowler, aged 31, was fatally injured yesterday by being caught under a falling pile of lumber at the mill for which he was a teamster. He died in the hospital shortly after the accident. His name was in this city and he is survived by a widow and three children.

SWAM LOWER RAPIDS OF NIAGARA RIVER.

NIAGARA FALLS, N. Y., July 17.—Carlisle D. Graham, of this city, and Wm. J. Glover, Jr., of Baltimore, Md., successfully swam the lower rapids of the Niagara River from the American side of the whirlpool, to Lewiston this afternoon. Glover beat Graham by four minutes. The distance of four miles was covered in 26 minutes by Glover. The start was made at 4.02 p. m. from flat rock, which is on the American side. The swimmers did not venture in the upper rapids where Captain Webb lost his life about 25 years ago.

Both men wore life belts and inflated rubber rings around their necks. He started Glover took the lead. He entered the rapids about a minute ahead of Graham. Until the Devil's Hole was reached, the swift current and roaring rapids had the swimmers in their grasp. About at that point a swirling eddy caught Glover and he was down fully two minutes. His life belts saved him. Swimming in the swift, smooth current was hard for Graham, but evidently easy for Glover.

At 4.23 o'clock Glover was pulled upon the dock at Lewiston. He was dressed about 15 minutes later, telling his story. Graham had to be taken to a hotel in a wagon and did not leave bed until late in the afternoon. Neither of the men was injured.

Graham swam the lower rapids twice before, first on Sep. 7, 1901, and again on August 31, 1902. He is about 35 years old, while Glover claims but 21 years.

FOOLHARDY BATHER JUSTLY PUNISHED.

NEW YORK, July 17.—Prompt retribution was meted out tonight to Samuel Brooks, a bather at Audubon Beach, whose foolhardy mischievousness imperilled the lives of three young women. Brooks was rescued by the police after having received a terrible beating at the hands of hundreds of people who had seen him rock a boat until it was capsized and its occupants thrown into the water.

Three young women were rowing when Brooks and a companion, who were in the water, approached, and, heedless of the protest of the young women, climbed into the boat, taking positions at either end of the craft, the men began to rock the boat, and continued until the boat was upset. Bathers, attracted by the plight of the drowning girls, swam to their rescue, and after a struggle brought the three in a semi-conscious condition ashore.

Meanwhile Brooks and his companion swam away, and the latter escaped. Brooks was less fortunate, and when he reached the shore an infuriated mob that had witnessed the performance set upon him with umbrellas and sticks, and might have killed him but for the timely intervention of the police. He was placed under arrest.

SENATORS THINK I. C. R. IS SUFFICIENT.

OTTAWA, July 17.—In the senate this afternoon, Power of Halifax severely criticized the interim report of the transcontinental railway commission in relation to routing a line parallel to the Intercolonial at an immense cost. Senator Wood thought the proposition to lease the I. C. R. to any other company would not be popular in the maritime provinces, nor in the interest of Canada, and Senator Owens said the I. C. R. would serve the purposes of the country for the next 20 years. Senators McMullen and MacKeen hoped the government would pause ere it endorsed the construction of this new line from Quebec to the Nova Scotia border.

The senate tonight discussed the autonomy bills to a late hour in committee of the whole, practically clearing up the business sheet, apart from routine fragments.

The Governor General will arrive in the city on Wednesday to prorogue parliament.

Autonomy bills passed through committee in senate without amendments at a late hour this morning. Several amendments were offered, but they stand for the third reading.

The senate adjourned at 11.5 a. m.

TO ENTERTAIN VISITING KNIGHTS OF PYTHIAS.

The Knights of Pythias held a mass meeting of New Brunswick and Manx Lodges last evening in their hall on Germain street, to decide on the entertainment to be given the visiting Knights from Massachusetts who are expected next month. The chairman of the meeting was Robt. Maxwell, M. P.

After considerable discussion regarding the manner of welcoming and entertaining the visitors, the meeting elected the following committee to arrange a programme for the occasion and submit it to a later meeting: Baron Wilson, W. E. Hopper, L. O. Thomas, A. L. Dodge, E. C. Wilson, Hugh McLeellan, B. Stillwell, Robt. Maxwell, H. T. Hughes, Robert Strain.

This committee in a later meeting added to their number W. C. Boden, F. E. Hamington, W. A. Simonds and M. S. Clawson.

The committee will report at a meeting to be held on Monday night. The visiting Knights are expected here on the 7th of August.

WHAT LUTHER BURBANK HAS DONE

In The Country Calendar for July, W. S. Harwood gives the following summary of the work of the marvelous California plant breeder.

"For thirty-five years Mr. Burbank has been at work creating new forms of plant life and improving old ones.

"The plumcot (result of the union of the apricot and the plum), of rare flavor and richness, again disproving the dictum of the scientists.

"The phenomenal berry, a similar creation, a cross between a raspberry and a California dewberry, having the color of a raspberry and the shape of a blackberry, but larger than either, far more productive, and with a flavor surpassing both.

"The plumcot (result of the union of the apricot and the plum), of rare flavor and richness, again disproving the dictum of the scientists.

"A walnut first so thin of shell that the birds could get at the nut, afterward bred backward along the path it had come until a shell of the required thickness was secured.

"He has produced a new thornless cactus, a combination of many other varieties, which bears a fruit, too, for the desert planter of the earth; he has done all these, and many other marvelous things which may not be mentioned here for lack of space."

No one ever understood the follies of stage people better than did the late Kirk La Shelle, and of the ruling passion of actors he used to tell this story.

"It's for my father," the actor explained. "I've just come back from his funeral. It was a sad affair."

"Mr. La Shelle expressed his sincerest sympathy. The actor's grief was obviously real and great.

"A thing like this a man doesn't get over soon," he went on. "I attended to all the funeral arrangements. I did the best I could. We had everything just as father would have liked it."

"Many there?" asked La Shelle. "Many there!" cried the actor changing from grief to animation. "Why, my boy, we turned 'em away!"

"But wouldn't that be giving myself away?" "That's what."

"And I might get in bad, eh?" "I'm afraid so."

"Well, I'm much obliged for the information. A friend of mine in Texas asked me to find out for him."

"Then you didn't want to know for your own satisfaction?" "Of course not. What I want to know is if a dog that has just celebrated his 21st birthday isn't too old to require a license."

"He is if the sausage man happens to make his acquaintance."

"Thank you. Good morning."

Little Mildred had had a nightmare, and was telling the family about it the next morning.

"When I woke up," she said, "I was still scared, and my heart was beating a tattoo."

"How could your heart beat a tattoo?" she asked, sarcastically.

"I guess it could be on the drums of my ears, couldn't it?" demanded Mildred, indignantly.

A WOMAN OF HISTORY.

NEWBURGH, N. Y., July 17.—Mrs. Caroline Elizabeth Monell died suddenly at her home in Fishkill Landing today, in her 90th year.

She was the grand-daughter of John Adams, second president of the United States, and a poem on her birth. She was a daughter of the late John Peter Dewint, an old Knickerbocker.

She first married Andrew Downing, the landscape artist who laid out the public grounds at Washington. He perished in the Henry Clay Steamer, July 23, 1852.

She later married John J. Monell, who died some years ago. She leaves one daughter.

MORE MONEY FOR PUBLIC MEN.

To all lovers of peace it is encouraging and comforting in the extreme to note the pleasant harmony that is marking the closing hours of the present stormy session of parliament.

Look for instance at yesterday's session. Much important business was under discussion, business involving the annual expenditure of hundreds of thousands of dollars, such business as usually provokes much sharp criticism, nothing but sweet accord and unanimity, such as would put a Quaker prayer meeting to shame.

Of course the expedition and the harmony might have something to do with the fact that the money voted by the members was directed toward their own pockets.

It is unlikely that any serious protest will be encountered to most of the new expenditure, even among the taxpayers. The thousand dollar increase in the sessional indemnity is not unreasonable. The average session nearly twice as long today as it was when the present indemnity was fixed and the calls upon a member's time, energy and purse are much more numerous than then.

Other new expenditures which should meet public approval are the proposed increase of the premier's salary and the creation of a salary for the leader of the opposition. It is not consonant with the dignity of Canada that the head of her government should have in his gift offices much better paid than the one he himself holds or that he should be dependent to any extent upon his party or his friends.

Under present conditions the leadership of the opposition demands practically the whole of a man's time and it is vital to the interests of the country that the position of chief critic of the government should be well filled, it is altogether fitting that the country should contribute something to the living expenses of that man.

As to the increase in judicial salaries there should be no opposition. No public position needs better men than the bench and in order to induce leading lawyers to doff the barrister's gown for the judge's robe it was necessary to make the financial descent less precipitous than it is now.

But there may be fair ground for criticism in the act which makes all men who serve on short term as cabinet ministers pensioners on the country for the rest of their lives. While there is British precedent for it and room for argument in its favor the taxpayer will learn slowly to look complacently at the annual payment of thousands of dollars to men who are giving nothing in return and many of whom are not in actual need of the money. If more was needed to induce second men to become cabinet ministers it might have been better to put it in the form of increased salary. However, the question will certainly never become a party issue.

ANOTHER TRIAL WANTED.

The Sydney papers are demanding a repetition of the mail transfer test, though, as the Post points out, last week's experiment proved that the Sydney route will give maritime merchants their English mails two days earlier than the St. Lawrence route and will cause no delay to Montreal and points west. But the Sydney people claim a saving of twelve hours to the outward and inward services and are anxious to have the chance of seeing their claims proven. It is certainly in the interests of all maritime business men that they should get this chance.

ANOTHER JAPANESE TRIUMPH.

A despatch from Tokyo dated yesterday says that the Japanese expect to have the Russian battleships Pallada, Pobeda and Poltava, sunk at Port Arthur, above water again soon. The little brown men are apparently an expert at raising vessels as they are at sinking them. It was only a few days ago that they resurrected the battleship Peresvet, and the cruiser Bayan which will soon be members in

good standing of the Mikado's navy. Two others were raised earlier in the war, the cruisers Varag and Korietz, sunk at Chemulpo, but these were so badly damaged that the undertaking of refitting them has apparently been abandoned.

While the warships sunk in the open sea in the last battle are probably irretrievably lost, there are several others of various descriptions doing submarine duty in the shallow waters around Port Arthur upon which the Japs are undoubtedly working and which will probably be added to their navy before long.

An American exchange points out that the Japs appear to be doing much better in that line than the United States did with the Spanish cruisers forced ashore in the battle of Santiago. There was much talk of floating these at the time, but on account of the distance and difficulties and the condition of the hulls the naval authorities concluded that it would not be worth while.

It must be nice to have a job where you can sit down and vote yourself more salary whenever you feel like it.

THE LESSON OF THE RIVER.

Here you are a-singin', when the world is half a song; The river turns the mill-wheel, but it's singin' all day long!

Here you are a-mumble' of the sorrowfullest words; When the winds laugh in the blossoms 'round the breasts of singin' birds!

Get out in the sunshine—see the lilies of the light; Tell the world, "Good mornin'," an' be thankful for the night!

REV. MR. PROSSER WILL STAY.

His Resignation Was Only a Matter of Form, Repeated, by Church Rule, Every Year.

The Telegraph this morning said that Rev. A. J. Prosser, pastor of Waterloo Street Free Baptist church, had resigned, and that the letter of resignation came as a great surprise to the entire congregation.

One of the deacons of the church, when seen this morning, said that a letter of resignation from his pastor, who is on his holidays, was read last Sunday by Rev. A. E. Cobbe, but that the resignation was only formal. It is one of the rules of the church, he said, inaugurated a few years ago, that each year three months before the end of the church year, the pastor should send in his resignation and give the church an opportunity to act upon it.

It was in accordance with this custom that Mr. Prosser's resignation was read. As, however, he gave no reason for departing, he is probably willing to remain with them. As for the congregation, although a two-third vote is necessary to choose a pastor, there is little doubt, with Mr. Prosser's popularity, but that he will be appointed pastor for the coming year. The reverend gentleman will be at home this week, and will likely occupy his pulpit next Sunday.

VETERAN HERO DEAD.

NEW YORK, July 18.—General Francis E. Pinto, who was the only surviving commissioned officer of the first regiment New York volunteers which fought at the battle of Gettysburg, is dead at his home in Brooklyn. He was 83 years old. General Pinto was with the storming party that placed the first flag on the walls of the Chapultepec.

VALUE OF "OZONE."

The value of "ozone" (it is really lighted oxygen) is well known to medical science. It kills germs of internal disorders. If taken in concentrated form and that means "Solution of Ozone, (the coupon kind)" it ensures a speedy cure for asthma, bronchitis, Bright's disease, kidney trouble, malaria and rheumatism. This stringent remedy needs give it a tonic leavative to secure the best results. Your druggist will give you sixteen ounces of "Solution of Ozone (the coupon kind)" for fifty cents and if you insist on the coupon kind will guarantee a free package of "Celery King." GERMAN BARON MURDERED.

NEW YORK, July 15.—Baron Von Ende, brother of Baron Kupp's widow, has been found dead on his estate in the province of Cordoba, says the Herald despatch from Buenos Ayres, Argentina. The Baron had been killed by two shots, and according to authorities inflicted by a bullet. However, there is a suspicion of foul play.

LOCAL NEWS.

Eyes (1847) Dred—Call, see D. Boyner, Optician, 61 Main street.

Officer McNamara was called into John Donohue's house yesterday to quell a disturbance between Thomas Crawford and Ross were called into Henry Burns' house in Blood alley to quell a disturbance between Burns and his wife.

At a meeting of the Painters' Union last evening a new member was initiated. The union was entertained to grammophones selections by Messrs. Holland and Pevotal.

The family of Thomas F. Pomeroy, formerly of St. John, who was killed in an elevator accident in Boston recently, are anxious to locate his son Charles. The elder Pomeroy was prominent in the Grand Order. Young Pomeroy always made his home with his parents. His mother and his brother, George T. Pomeroy, now live at 79 Brookline street, Cambridgeport, Mass., and another brother, William, lives at 15 Brookline street. The last heard of Charles was about a year ago, when he was located in Fitchburg, where he was employed on the Fitchburg railroad. His brother George says that that was the last time that any member of the family heard from him. He was about 20 years old, 5 feet 6 in height, light complexion and light hair, weighed 120, and was of slender build.

A letter signed by the deacons of the Baptist Church of Fairville was forwarded yesterday morning to Rev. Frank L. Bishop of Sydney, C. B., extending to him a unanimous call from the church. A letter was received on Saturday from Mr. Bishop. Mr. Bishop will be heard from in the matter before the end of the week, and if the call is accepted by him, it is likely to be at least another month before he would be able to occupy the Fairville pulpit.

The vaudeville entertainments at Seaside Park will probably be discontinued for a while, and possibly may be done away with altogether. Since the vaudeville show has been put on the weather has been anything but favorable and consequently the patronage has not been such as to justify the expenditure necessary to keep the affair going. It is likely, however, that some changes will be made and other forms of amusement will be provided, though just what they will be is not definitely known yet.

Randolph G. Lord of East Boston, a native of Liverpool, N. S., had a remarkable escape from death in Charlestown last week. While at work on a Myrtle wharf grain elevator he was overcome by the heat and fell from the top of the grain, a distance of sixty feet. His collar bone and right arm were fractured and he was bruised, but he will recover. Lord is 38 years of age.

The Salvation Army musical troupe had a successful evening in Carleton last night. A large audience was present and the troupe will be in command. All the city officers were present. Two candidates came forward at the close of the evening. The troupe will be in No. 5 barracks Thursday evening. They have been making a tour of the provinces, and after leaving St. John staged in Colchester and other northern towns. The officers' annual picnic will be held at Spruce Lake.

T. B. Abbott, a native of St. Stephen, who for the past twenty-five years has resided in the city of Mexico, is at the Victoria. Mr. Abbott has been spending a month in St. Stephen with old friends, and intends going on the pilgrimage to St. Anne de Beausure with the party leaving this afternoon. While in the city yesterday Mr. Abbott called on his old friend, Rev. Mr. Chapman, the vicar-general.

Mr. Abbott is proprietor of the Grand Hotel, one of the leading hostilities in Mexico city, and is also largely interested in mining.

Another chapter in the history of the Dominion Coal Company is about to begin. A new general manager is to take charge, and George Herriek Duggan is to move to Mexico. The director of affairs (under President Ross, of course) will be Charles Fergie, considered by Mr. Ross as the most competent authority on coal production.—Glouce Bay Gazette.

CHICAGO SUFFERING FROM HEAT.

CHICAGO, July 18.—After 41 persons had been prostrated and ten of them died during the hottest day up to date this summer, a breath of cool air relieved Chicago last night. The relief was short lived. After a few hours the wind veered again and the heat was intense throughout the early morning hours.

Cooler weather is declared to be in store for the latter part of the week. The maximum temperature of yesterday, 94, equalled the record of last summer, which by an odd coincidence was made on the same day, July 17.

ST. JOHN STAR, TUESDAY, JULY 18, 1905.

The Wings of the Morning

The sailor was standing now, with the crowbar clashed in both hands. The fire in the valley stretched and died away. A Dyak face, glistening like a Japanese demon, appeared at the top of the ladder nearest to Iris.

"Don't fire!" shouted Jenks. And the crew had crashed downward. Two others pitched themselves half on to the ledge. Now both crowbar and revolver were needed. Three ladders were thus numbered somewhat for these health and Jenks sprang toward the fourth and most distant. Men were crowding like ants. Close to his feet lay an empty water cask. It was a crude weapon, but effective when used properly, and the sailor had never made a better shot for a goal in the midst of a had fought scrimmage than he made with that tub for the head of the uppermost pipe.

"Keep back! They can never gain the ledge!" she shrieked. And then, above the din of the fall, the yells of the assailants and the howling of the wounded, there came through the air a screaming, tearing, hipping sound which drowned all others. It traveled with incredible speed, and before the sailor could have his ears for he well knew what it meant—a shriek which burst in front of the ledge and drenched the valley with its ghastly gleam.

Jenks was just able to drag Iris out against the rock ere the time fuse opened and the bullets flew. He could form no theory, hazard no conjecture. All he knew was that a twist of his hand had blown toward them through the space, scattering red ruin among the amazed scoundrels beneath. Instantly he rose again, lest perchance any of the Dyaks should have gained a foothold on the ledge.

CIVIC OFFICIALS TO BE PROSECUTED.

Mayer Weaver of Philadelphia Takes Strong Action.

On Advice of Elihu Root He Will Institute Criminal Prosecution Against Several Prominent Men.

PHILADELPHIA, July 17.—As a result of advice received from Elihu Root, special counsel for Mayor Weaver, it is probable that the mayor will within a few days institute criminal prosecution against certain persons who are prominent in municipal affairs.

This opinion was sent to Mayor Weaver today, and was the result of a conference held in New York last Friday. Those who participated in the conference besides Mr. Root and the mayor were former U. S. Attorney General Wayne MacVeagh, who is special counsel to the committee of nine of this city; former Judge James Gay Gordon, private counsel for Mayor Weaver, and Julius T. Davis and Joseph S. Ames, both of counsel for the committee of seven.

It was well he took this precaution. She was now so unnerved that an unguarded movement might have led to an accident. But the knowledge that her lover was near, the touch of his hand guiding her feet on to the rungs of the ladder, sustained her. They had almost reached the level when a loud exclamation and the crash of a heavy blow caused Jenks to halt and look downward.

A Dyak, lying at the foot of one of the scaling ladders and severely wounded by a shell splinter, witnessed the descent. In his left hand he grasped a parang; his right arm was bandaged. Though unable to rise, the vengeful pirate mustered his remaining strength to crawl toward the swaying ladder. It was Taung S'All, inspired with the hate and venom of the dying snake. Even yet he hoped to deal a mortal stroke at the man who had defied his wrath, and all his cutthroats had gathered about him, with an oath and a gasp, as they saw the Dyak chief collapse and breathe out his fierce spirit in a groan.

At the first glance Jenks did not recognize Taung S'All owing to his change of costume. Through the thinner smoke he could see several sailors running up. But, with the passing of the chief, their last peril had gone. The next instant they were standing on the firm ground, and a British naval lieutenant was saying eagerly: "We seem to be turned up in the nick of time. To you, by any chance, belong to the Sirdar?"

128 INFANTS PERISH FROM HEAT IN MONTREAL.

MONTREAL, July 17.—One hundred and twenty-eight infants perished in Montreal last week, the victims of heat plus bad food, bad ventilation, bad milk and unhygienic surroundings. The weather for the last two weeks has been abnormally hot and especially humid, but because the first prolonged hot spell generally kills off the majority of weaklings, those who survive

GOING TO OTTAWA. Meteorological Office Will Be Removed from Toronto a Year Hence.

OTTAWA, July 17.—The meteorological observatory at Toronto, and nearly all the members of the staff now at Toronto, will be transferred to Ottawa a year hence. This is the decision which has been reached by the cabinet. The Toronto University authorities have pressed so earnestly for the ground now occupied by the university in Queen's park, and this, coupled with the fact that the observatory at Appleton is so entirely inadequate for the purposes of the service, that it has been deemed advisable to transfer the weather bureau to the capital, where it will be in closer touch with the dominion observatory and the department. A special building for the purpose of the observatory at Appleton will be erected in this city, so that the staff may have accommodation which will enable them to render even better service to the public. M. W. F. Stupart, director of the weather bureau, has been here this week in connection with the proposed change.

SUSSEX NEWS.

An Interesting Address on Japan—Off on a Canoeing Trip—Visitors to the Town.

SUSSEX, July 17.—Rev. Egerton Pearson gave an instructive address in Trinity church last evening on the methods and work of the Anglican church in Japan. Mr. Pearson is home on furlough after several years' service in missionary work in Japan, and is speaking in the interests of the work of the missionary effort among the Japanese which is being carried on.

M. S., under whose auspices much of the missionary effort among the Japanese is being carried on. H. V. Mills and A. B. Maggs expect to leave tomorrow for Gagetown, whence they will return by canoe by way of the St. John and the Kennebecas to Mr. Maggs' summer camp at Meemen's Cove. They will be away a week. Mr. Maggs has previously made the trip by water from the Forks at Sussex to Gagetown, and can recommend this route to intending campers.

E. H. S. Flood of St. John is in town. Mrs. Flood and little son are staying at "The Knoll" for a few weeks. Mrs. Florence E. Land, matron and teacher in the domestic science department of the Lyman School for Boys, has been in town. Mrs. Clara J. Middleman, teacher in the same school, are visiting their sister, Mrs. J. D. Gough, at her home in Pictou, N. S.

Harry Fairweather of Peterboro, Ont., is visiting his old home here. Mr. and Mrs. Burpee Gillespie, who have been spending a week here, have gone to Truro, N. S., for a few days before leaving for their home at New Mills.

Rev. Gideon Swin of Apohaqui preached at both services in the Presbyterian church yesterday, in the absence of the pastor, Rev. Mr. Baird, who is spending a vacation in New York.

INMATE OF ASYLUM CHOKED ANOTHER

MONTREAL, July 17.—An inmate of Longueuil Point asylum choked another inmate Saturday evening and death was the result. It happened in a violent ward. Louis Lamare, an inmate for four years, had a quarrel with another inmate, and the keeper separated them. At the time there was only one keeper, as the other one was at supper, it being about six p. m. Lamare, the inmate, was having the best of it when another inmate, to save the keeper, took his assistant by the throat. The inmate afterwards Lemarre's grasp relaxed and the keeper got up, and when Lamare did not move out for Dr. Elton, who found he was dead.

Now both crossbar and revolver were needed.

CHAPTER XV.

THE drifting smoke was still as dense that not even the floor of the valley could be discerned. Jenks dared not leave Iris at such a moment. He called to Mir Jan: "Take off your turban and hold it above your head if you think they can see you from the warship."

PILOTS' EVIDENCE QUESTIONED

Col. McLean, in Case Against Pilots Commissioners Makes Serious Charges Against Defendant Witnesses.

Before Judge McLeod today the argument was concluded in the case of the Cumberland Railway & Coal Company against the Saint John Pilot Commissioners. This was an action brought to recover back pilotage which the plaintiffs claim was illegally exacted on coal barges.
It was contended by Mr. Skinner, K. C., that the payment in this case was a voluntary payment and therefore could not be recovered back.
McLean argued that the payment was exacted under what is called "color of office" and that all such payments are considered by the courts not to be voluntary payments but payments that can be recovered back in an action for money had and received.
He cited a number of English cases in support of this contention. He also argued that on the facts of the case as proved the payment was a compulsory one. Mr. Troop, as chairman of the Pilot Commissioners had in 1883 insisted on the payment of pilotage fees and had written to the Department that these coal barges were to be secured the enforcement; that notwithstanding Mr. Likely's protest at that time both written and verbal payment of pilotage fees was collected by the coal barges; that after the case of the "Grande" pilotage was still enforced notwithstanding the Exchequer Court of Canada decided that pilotage fees could not be collected on coal barges, and further that Mr. Troop had stated that pilotage fees were collected by the authority of the Board of Pilot Commissioners. Mr. McLean referred briefly to the evidence given by the plaintiffs that these coal barges were rigged for the purpose of carrying coal, had two spars 48 feet high which were used as derricks for the purpose of hoisting coal from the hatches and that these spars were placed so as not to interfere with the unloading of coal and that small leg of mutton sails were only used, and that the total amount of canvas for these barges which are 48 tons registered tonnage was only 250 yards while that on a schooner of that size it would require about 3,000 yards of canvas. He also referred to the fact that all the captains of the tug boats and the captains of all the barges and other witnesses called for the plaintiffs had testified that it would be practically impossible to navigate these barges and that they would have to be towed from port to port; that constructed as they were with the masts and small sails they could not be navigated and could not tack.
He criticized very severely the evidence given by some of the pilots especially Pilot Trainer, Pilot Spears and Pilot Miller that these barges were used as derricks for the purpose of unloading coal and also that mutton sails and with only 350 yards of canvas could be safely and practically navigated from port to port and that they would undertake to take them around the world. He referred to the evidence given by the other pilots and the contrary testimony given in this respect by Trainer and Spears and Miller and characterized the evidence given by these pilots as an attempt to deceive the court and to make the court believe that these barges rigged as they are were properly rigged for sailing purposes.
Judgment was reserved.
