One of the "wild men of the woods," of whose sxtraordinary exploits we hav heard so many different versions, was re cently killed in Livermore Valley, Califor- nia, while in the act of levelling a Henry rifle at the head of a ranchman named Mullen. The wild man had been in the habit of making unexpected visits to the base of Mont Diablo, as it was supposed, for the purpose of taking the life of Mul- len, for whom he had conceived a deadly hatred. In a moment of passion he had betrayed his intention to a negro who was in the employ of Mullen. The matter was then brought to the notice of the County y Sheriff, but he did not look upon the case as of much importance. Mullen, however,	measures as his discretion might sugges, to protect the rights of both Legislature and citizens. Under this authority Carter yesterday issued a proclamation advising citizens TO CLOSE PLACES OF BUSINESS, and come to his assistance in such num- bers as will intimidate all opposition. He notifies the Police and Militia, who have been stationed to watch the proceedings of the Legislature, by Governor Warmoth, to disperse under penalty of ARREST AND IMPRISONMENT. One of the "wild men of the woods," of whose sxtraordinary exploits we hav heard so many different versions, was re- cently killed in Livermore Valley, Califor- nia, while in the act of levelling a Henry rifle at the head of a ranchman named Mullen. The wild man had been in the habit of making unexpected visits to the base of Mont Diablo, as it was supposed, for the purpose of taking the life of Mul- len, for whom he had conceived a deadly hatred. In a moment of passion he had betrayed his intention to a negro who was in the employ of Mullen. The matter was then brough to the notice of the County Sheriff, but he did not look upon the case as of much importance. Mullen, however, succeeded in procuring a pair of handcuffs- and a warrant of arrest. While on his way home he met the maniae, and shot him through the heart in self-defence. It will be observed that the amount of Provincial and County moneys to be ex- pended in any District in aid of Schools will depend almost exclusively upon local exertion, or the direct efforts made by the people of the several Districts in maintaining their own Schools. The sum to be received by the Trustees from the Province is definite, but the exact amount that will be received by the Trustees from the County Fund on account of the aver- age attendarce of pupils, cannot be known at the time of the School meeting. The meeting should, therefore, be careful in voting its esti- mates to authorize a sum amply sufficient to en- able the Trustees, is, of course, to be car- ried to the credit of the next School year, while any deficit arising from an authorized expendi- ture may be carried forward and provided for in the estimates of the following year. The first disbursement of the County Fund will be opportioned on the School attendarce made between January 15th and April 30th, inclusive. 8.
