A scientist of this sort in the employ of the Government, Mr. Edward E. Howell, arriving one day last week at Rochester, on his way to join an exploring expedition in the West, jumped from the train to save himself a long walk, and came face down upon a beautiful pile of stones, for the various kinds dear to the geological heart. He saluted these relics of ancient eras so affectionately that his face was badly etched, and looked like a map of creation just after the flood. We like science; but close study of this sort hardly seems necessary or desirable if the race of geologists is to be perpetuated. Geological processes have always been

of July. June 29th a woman named Frances Stewart suffered the death penalty in London for murdering her grands only 12 months old. She had been living with her son-in-law, but acted in so exasperating a manner that he ordered her to seek a home elsewhere. Avowing her determination to make the hearts of her daughter and son-in-law ache as they had made hers, she took the little boy away and drowned him in the Thames. Although recommended to mercy by the jury which convicted her, the crime was regarded as being so heartless that the law was allowed its-course.

Mr. Gladstone not only employs the Mr. Gladstone not only employs the time afforded by his temporary retirement from public life in literary work, but he has recently appeared at Queensferry near his country seat, Hawarden Castle, in the capacity of an arbitrator in a dispute between the owner of an adjoining colliery and his men. The colliers had struck on account of a contemplated reduction of fifteen per cent. in their wages, and demanded the discharge of four men who had remained at their work. The ex-Premier told them plainly that if "any workman chooses to work for nothing in the face of a thousand other men, he has as good a right to do so as the thousand have to say what they will work for."

Love-Crazed-An Old Wretch. A terrible tragedy recently took place at Marysville, Cal. Two men named Shirley and Henry Price were neighbors. The latter had a daughter named Eunice about 17 years old, whom Shirley, who was about 60, wished to marry. He managed to become Price's creditor to the amount of \$44, and going to the lat ter's house demanded the payment of the debt or his daughter. Price refused both, not having the money, but the girl offered to give him a flock of turkeys for part payment at least. This was unsatisfactory, and Shirley pulled a revolver from his pocket and levelled it at her head, but it missed fire, and the old wretch was thrown to the floor by Prince and a negroboy, but was allowed to rise on a promise of remaining quiet. Once released, however, he sprang upon Price and inflicted a mortal wound with a knife that he had concealed. Eunice started across the fields to the house of a neighbor named Moore, about a mile distant, and managed to get within calling distance just as Shirley seized her. Mr. Moore did not dare to shoot for fear he would hit the girl as well as the assassin, but hit him with the butt end of the musket without knocking him down. Then commenced a desperate struggle, in which Shirley was finally overpowered and bound. He is a man of considerable property, and until this mad freak seized him had borne the reputation of being a peaceable and quiet citizen. managed to become Price's creditor to

Dr. J. Walker's California Vinegar Bitters are a purely regetable preparation, made chiefly fi. In the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases. Dr. J.
