CARE REQUESTED IN THE ADVERTISER PUZZLE CONTEST

Question, "Do You Subscribe Now?" Should Be Answered Correctly.

NAMES IMPORTANT

Time is passing in The Advertiser's puzzle contest. You have until March 15th to submit a solution of the puzzle and get in line for one of the big cash prizes, the highest of which has a value up to \$700. After the 15th it will be too late. So "do it now!" Contestants sending in solutions from now on should exercise care in filling out the blanks accompanying their puzzle charts. Write names and addresses plainly and complete all addresses by giving the city, town or postoffice, as well as the street and number. Incomplete addresses, as well as names and addresses, written illegibly, oftentimes lead to mistakes and confusion. The attention of contestants is also called to the question in the blank reading: "Do you subscribe now?" This means: Are you already receiving the paper by carrier or mail? It has been interpreted by a few as asking if they were then ordering the paper started for the first time. If you have not been receiving the paper previously put "No" after the question, and if you are an old subscriber answer "Yes." Accurately answered, this question will insure new subscribers receiving their paper more promptly. It has been stated several times, and is repeated again, that the time a solution is received has no bearing upon its winning a prize. The prizes will be awarded solely upon the merits of the solutions received, irrespective of when they were registered. Those submitted this week, right up to the close, will have exactly the same standing as those already registered. It should also be remembered that the amount refunded for subscription has no relation to a solution winning a prize. The larger your remittance, however, the greater will be the amount you will receive if you win one of the four prizes. For instance, if you should be entitled to the first prize by reason of your solution of the puzzle being that you had paid \$2.75 when you submitted the solution you would receive \$27.50, whereas if you had paid \$1.00 you would receive \$10.00. Those contestants who have sent less than a full year's subscription have the privilege of increasing the amount of their subscription at any time up to the 15th. In the event any wish to do this, they must send a check for the amount and chart the same as in the first instance. Those desiring to send any different solution than that already sent it may submit other solutions under the same conditions as the first. In fact, a contestant may send in as many different solutions as he wishes, and from \$2.75 up to two years' subscription with each one. These different amounts will all be applied to one continuous subscription, or the paper may be sent to someone else for a part of the time paid for, as the contestants may direct. Those desiring additional charts or further information may obtain the same by calling upon the Contest Addressing a request to the Contest Department, 110 Dundas Street.

SENTENCES COMMUTED. Chicago, Feb. 21.—Seven death sentences imposed by the court here last October on members of the "vengeance gang," an alleged anti-British society, have been commuted to 15 years in prison. Fifteen of the men who were given heavy prison sentences have had the periods of their incarceration reduced, and eleven who were sentenced to receive 30 lashes have been liberated.

MILITARY MEDICINE

OF 2000 YEARS AGO
Interesting Book Presented to Library of Medical School by Local Doctor.

A unique exhibit in the Western University Medical School library, which has taken its place on the shelves during the past few weeks, is a volume entitled "Observations on Diseases of the Army," by Sir John Pringle, published in 1768. This ancient volume deals with garrison diseases of the British troops in Flanders in 1742 and 1743, and was presented to the library by Dr. Nelson George of this city.

The book is regarded as one of the most valuable additions to the library and of great interest as it affords an insight into the methods of medical and surgical treatment of the army of 2000 years ago. It is interesting to note that scurvy and dysentery were prevalent in the army at that time, and a comparison of conditions in the medical profession in old days with treatment for various diseases, and that the medical profession of today is a procedure will be given by a local physician before the Medical Historical Association at Western at a meeting to be held in the near future.

He Likes to Wash With Lifebuoy

Its velvety lather cleans and refreshes every pore in his skin. It makes him feel fit all over. He "looks" the difference. It is delightful and invigorating to wash with Lifebuoy.

The "health" odour in Lifebuoy is not a perfume not the odour of a medicine—but a pure hygienic odour that tells you instantly why Lifebuoy purifies and protects—why it improves your skin.

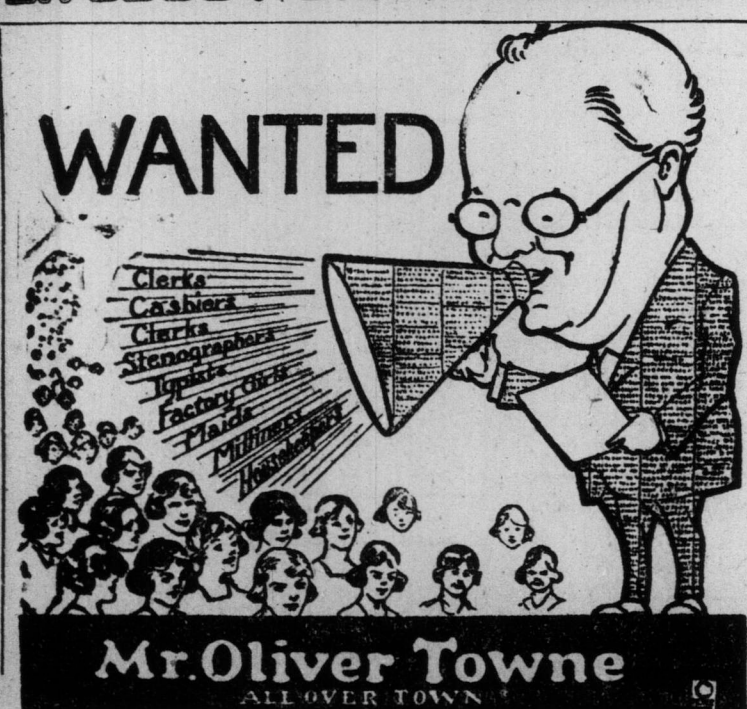

Lifebuoy "smells clean". It is as pure as soap can be made. The velvety smoothness of a wash with Lifebuoy is a delight which is denied to those who use only ordinary soaps.

Try a cake of Lifebuoy to-day. You can get it at any grocery, drug or department store.

DOUBT RADIAL SERVICE BETTER

United Farmers' Co-operative Officials Lack Confidence in Plan.

TORONTO, Feb. 22.—Officials of the United Farmers' Co-operative Company, testifying here today before the royal commission investigating the practicability of the Ontario Hydro-Electric Power Commission's projected radial railways, expressed lack of confidence in the hydro radial as being able to provide better shipping arrangements than were already offered by the steam railways.

One of these officials, S. P. Fothergill, who has charge of the livestock department of the Co-operative Company, said speed in delivery was one of the first essentials in the handling of livestock from the farm. He could not see that radial railways would be able to give a better service than the steam railways were giving. Mr. Fothergill favored shipment by truck wherever distance and road conditions permitted, and that the trucks were more certain of making rapid delivery.

Charles R. Watts, secretary of the Dominion Farmers' Association, said the proposed hydro radial railways would jeopardize the success of the Hydro-Electric Power Commission in furnishing power and light. He said that a duplication of a line running east from Toronto would be like putting a knife to the throat of the hydro enterprise.

FIFTY BOOST FOR BETTER HIGHWAYS

Great International Roadway Predicted by Speaker at Chatham Meeting.

CHATHAM, Feb. 22.—One of the most enthusiastic meetings ever held in this district in the interests of good roads was attended tonight by more than 1,000 men from all over Ontario and many points in Michigan. They listened with keen interest to splendid talks by W. S. Gilbreath, manager of the Detroit Automobile Association, and many other speakers. The speaker of the night, Mr. J. J. F. Fothergill, of the Kent Motor Club, presided, and was assisted on the stage by fifty good roads boosters who not only spoke in favor of good roads, but who also led in the community singing.

Capt. Gilbreath predicted a great international highway between Canada and the United States, which he declared would further cement the ties that bind the two countries. He depicted the benefits that would result from the following of the help the highway would be to the farming community as a whole. He referred to the present discrepancy of value between Canadian and United States gasoline, and expressed the hope that the difference would be eliminated.

C. W. Cornell, inspector of county roads in the Ontario Department of Public Works, represented Hon. J. B. B. Biggs, and spoke briefly. A resolution endorsing the road building plan as outlined by the Hon. J. B. B. Biggs.

Other speakers were A. D. Bowley of Windsor, president of the Ontario Motor Club; Mayor A. G. Odette of Tilbury; Mayor Alex. Clinch of Brimley, and W. M. Gray.

MALLISTER SAYS HE IS THROUGH NOW

SARNIA, Feb. 22.—Watford's senior N. H. L. team defeated Sarnia here 6 to 5, tonight in a third round contest. The majority of the Sarnia team failed to put in an appearance, their places being filled in with city league players. McAllister, who played a wonderful game in the first round, despite the score, threw up the sponge after the game, and if he sticks to his word Sarnia may as well hang up their sticks, as he has been the main factor in their success in the running. This is the second game hand running he has had a green team trotted out on the ice in front of him.

To Be Troubled With CONSTIPATION

THE CAUSE OF MANY ILLS.

If you do not feel well and go to your family physician, one of the first things he will do is ask you to hold out your tongue. The reason for this is that the condition of the tongue shows the condition of the stomach and bowels.

If you allow your bowels to become constipated you will have bilious attacks, sick headaches, coated tongue, foul breath, heartburn, water brash, etc., and those troublesome piles, which cause so much annoyance and misery.

Keep your bowels moving regularly and you won't be sick.

In Milburn's Laxa-Liver Pills you will find just the remedy you require for this purpose. They are purely vegetable and do not grip, weaken or sicken.

Mr. James S. Harris, Box 324, Halifax, N. S., writes: "For two years I suffered with constipation. I could not get any thing to cure me, and hardly anything would give me even temporary relief. One day my uncle induced me to try Milburn's Laxa-Liver Pills, and even brought me a vial. I tried them without much faith, but I soon found they were doing me good, and after using the second vial I was relieved of my trouble."

Milburn's Laxa-Liver Pills are 25c a vial at all dealers, or mailed direct on receipt of price of The T. Milburn Company, Limited Toronto, Ont.

GAS COMPANY MAY APPLY TO RAILWAY BOARD

Investigation Into Elgin Conditions Will Continue On Friday.

ST. THOMAS, Feb. 22.—The Southern Ontario Gas Company may apply to the Ontario Railway Board for an adjustment of the differences between the company and western municipalities.

The investigation into the situation at the villages and rural municipalities of the West Riding will be continued on Friday afternoon before Provincial Commissioner Bethune at Dutton, and experts from the company will be present to show that all of its customers are given equal service and there was no discrimination shown in the volume pressure reaching the municipalities. Messrs. Leitch and Cameron, will insist that a settlement be reached without submitting the case of the users to the railway board. That the board has jurisdiction in the inquiry is advised by Mr. Leitch.

Harvey Logan, a G. T. R. brakeman, St. Thomas, is in the general hospital, Chatham, suffering from injuries received in a fall from the tender of the locomotive. He was picked up by a conscious and badly bruised, but his condition is not serious.

Reverend Mrs. Cross, Mrs. E. Beales, 44 Ontario street, is in receipt of a silver cross from the department as a mark of appreciation of the heroic services rendered by her son, Pte. G. Beales, who died in the late war.

St. Thomas residents who claim they are not liable for income tax are being asked by the inspector of London to report on their financial standing.

Brought Home for Burial. The body of the late Mrs. Mary J. McCandless, who died recently at Ocean Park, California, arrived in the city today and was removed to the residence of Mr. McCandless, Park avenue, Yarmouth Heights. Mr. and Mrs. W. M. McCandless accompanied the remains from Los Angeles. The funeral will be held Thursday morning.

LONDON FIRM MAY GO TO ST. THOMAS

Location Is Being Sought For the Spramotor Plant.

ST. THOMAS, Feb. 22.—It is possible that if a suitable site is obtainable in the city the Spramotor Company, London, of which W. H. Heard, St. Thomas, is managing director, may be moved to St. Thomas. A portion of St. Andrew's market site is favored as a location, and it is stated that when the private bill was passed by the legislative committee recently Mr. Heard's legal representative here had in view the placing of the factory there. A petition is now being largely signed by property owners of the city asking a reconsideration of the private bill, as the original resolution of the council directing the city to take over the site was "factory."

state that after being vested in the corporation, it would be used for "park and other purposes," but the would-be factory was not included in the motion submitted and passed by the council.

Tractors Feature Big Chatham Show

Farmers Are Keenly Interested in Power Machinery Also.

CHATHAM, Feb. 22.—The second annual show of the Chatham Automobile Dealers' Association was opened this afternoon by President W. C. Pursey. The speakers included Mayor Brisco, President G. W. Wands of the chamber of commerce, Dr. Doolittle of Toronto, W. S. Gilbreath, manager of the Detroit Automobile Club; W. C. Robertson, secretary of the Ontario Motor League; Warden Fletcher of Kent County, Engineer Corbett of the Ontario Department of Public Works, and A. P. Fothergill, president of the Kent Motor Club.

A pleasing feature of the show is the number of closed cars on exhibition. Utility trucks and tractors predominate, however, and are the main objects of interest to farmer visitors, groups of whom are being taken to the factory. Special farm machinery made to go much interest, and a large number of heavy trucks are also included in the exhibition. A number of deputations from American cities visited the show this afternoon and declared that it was the best they have visited this year. A fifteen-piece orchestra, jazz singers and dancers, novelty stunts and surprise packages kept the large crowds entertained.

NEW POLICE CHIEF NAMED AT BLENHEIM

H. S. Wilson Appointed From List of Ten Applicants.

BLENHEIM, Feb. 22.—There was a special meeting of the town council last night for the appointment of a chief of police to fill the vacancy caused by the resignation of Rufus East, who has been the constable for many years. There were no fewer than ten applicants for the position: W. C. Burk for \$1,000; Robt. Lindsay, \$900; Chas. Chatterton, \$950; A. J. Seymour, \$1,000; S. C. Sharpe, \$1,000; Elston Burchell, \$1,000; H. S. Wilson, \$1,000; Geo. W. Butler, \$1,000; and W. Humphries of Windsor. The appointment went to H. S. Wilson because of his volunteering in the war though not having been accepted and because of two of his sons having served and one having been killed in France; as well as on account of the fact that he has been a Mason and his services will be able to be utilized as inspector in the case of concrete payments being constructed here this summer. The salary of the M. O. H. Dr. Hanks, was increased from \$50 to \$100 per annum. The council also had a lengthy discussion by the council of the proposed paying to be done, and a committee was appointed consisting of Mayor Clune, the Hon. J. J. Cookson, to go to Toronto to interview the department of public highways in the matter.

FARMER SENATOR

OTTAWA, Feb. 22.—(By the Canadian Press.)—Senator J. G. Turf, Liberal senator from Assiniboia, Man., today informed the Senate that he intended to support the Farmers' party in Parliament. In the course of his speech on the debate on the address Turf broke away from his party affiliations, and stated that hereafter he would represent the policy of the National Progressive party in the Senate.

SETTLE WHEAT TARIFF IN BILL

S. Senate and House Conferees Compromise On 35 Cents.

WASHINGTON, Feb. 22.—A compromise agreement fixing the tariff on wheat at 35 cents a bushel was reached today by Senate and House conferees, considering the Fordney emergency bill.

The wheat schedule was one of the principal stumbling blocks of the conferees.

The House rate was 30 cents per bushel, and the Senate 40 cents.

The agreement on 35 cents was said to involve the question of the difference in the rate of exchanges.

ASK REV. ALLAN TO REMAIN ANOTHER YEAR

Port Lambton Pastor Also Has a Call to Saskatchewan.

PORT LAMBTON, Feb. 22.—At the February session of the Port Lambton Methodist Quarterly Official Board, a unanimous invitation was extended to Rev. A. E. Allan to remain another year as pastor of the church. Mr. Allan has also received an invitation from a Saskatchewan circuit. His decision will be governed by that of the advisory board of the Methodist conference in June.

J. A. Wadsworth who has conducted a general store at Whitehead for a number of years has disposed of his business to J. Johnston of Sarnia, and will retire from business owing to ill health.

Robert Gray has sold his residence in town to William Hinnegan the new customs officer, for \$1,800. Mr. Hinnegan will be succeeded at Walpole Island by J. Bakus of Wallaceburg and will move to town in a few days.

Gray has purchased the Dawson property on the corner of Moore and Front streets for \$2,000 and will remodel the same.

Mr. and Mrs. Thos. R. Boothman entertained a number of friends at their home in honor of their son-in-law and daughter, Mr. and Mrs. W. Wesley, who will take their departure in a few days for the home of the latter in England. Gray has purchased the Dawson property on the corner of Moore and Front streets for \$2,000 and will remodel the same.

Friends here have received word of the sudden demise in Detroit of Mrs. Albert Stewart, nee Estella Henderson, a former resident. Besides her husband and four children, two brothers and one sister survive.

A carload of tile was unloaded here on Monday and distributed on the ground for the construction of the tile drains on Moore and Stoddard streets which are being put in by the township council. Work on the same will be begun at once. The contract was awarded to O. Wyckhouse for \$433.

A military funeral was held on Walpole Island when the remains of Alaf Sand, a returned soldier who died from the effects of being gassed while fighting in the great war, were laid to rest. The funeral was conducted by the Rev. W. V. A. of Wallaceburg. The Indian band furnished the music.

Physicians Recommend Castoria

YOU know the real human doctors right around in your neighborhood: the doctors made of flesh and blood just like you: the doctors with souls and hearts: those men who are responding to your call in the dead of night as readily as in the broad daylight; they are ready to tell you the good that Fletcher's Castoria has done, is doing and will do, from their experience and their love for children.

Your physician knows that Castoria is purely a child's remedy. It was sought for and discovered as a substitute for Castor Oil in the ailments of Infants and Children.

Your physician will tell you this for he knows that preparations put on the market for adults are not adaptable for the very young and he is particularly interested in your baby.

Children Cry For Fletcher's CASTORIA

Is Baby Well and Strong?

Your heart aches when your baby falls sick. You feel so anxious to help the little sufferer, yet so helpless because baby can't tell you where it feels bad. But, if you are wise, you know that generally baby sickness comes from a disordered stomach or bowels. You can tell easily that baby is constipated or has pain, eruptions, flatulence, diarrhoea, is restless, feverish, wakeful, fretful. Good mothers use Fletcher's Castoria, a wonderful remedy, purely vegetable, discovered by a family doctor and used in the best families for over thirty years.

Children cry for Fletcher's Castoria. It is a comfort to babies, the mother's unfailing friend. Any Mother who has used Fletcher's Castoria will advise you to use it for your baby. Give your sick baby a dose of it and note how soon baby begins to feel better. A few doses and you will realize what a wonderful remedy Fletcher's Castoria is for babies, what a comfort it is for mothers to depend on.

Never try to relieve baby with a remedy that you would use for yourself. Don't say tomorrow, get it today.

SEEK CARRIERS OF TYPHUS ON VESSEL

NEW YORK, Feb. 22.—Detained for 36 hours at quarantine, while health officers sought any typhus carriers in her steerage, the steamer Aquitania finally docked this afternoon.

But even then her passengers did not

immediately step ashore, for city health inspectors detained them for nearly half an hour while they conducted an examination of 20 second-cabin passengers boarding the ship from disease-infested areas of Europe.

IMMIGRANTS EXAMINED.

NEW YORK, N. Y., Feb. 22.—Four hundred immigrants who arrived at Grand Central station early today from Boston, where they landed yesterday from the steamship Rotterdam, were examined for possible typhus infection.

Ten of them found to be vermin-infested, were sent to a hospital for delousing. The others were released.

A HAPPY SELECTION.

Canadians should be pleased by
Charles Evans Hughes' acceptance
of the state secretaryship in the
Harding cabinet. Under the pres-
ident, the position is the most influ-
ential in the administration, and
Mr. Hughes can be depended upon
to carry on Washington's participa-
tion in international affairs with dig-
nity, courtesy and fairness.

Mr. Hughes' career shows him always
for justice, decency, righteousness,
peace. Next to Lloyd George, he
will probably be the greatest suc-
cessor in world matters for some
time. As it is well known that his
ideals include some such regulating
body as the League of Nations, his
appointment will give the greatest
satisfaction in the capital of the
world. In this country it is an assur-
ance of a continuation of the good
relations that exist between the two
nations. It was also made to
futile the frantic attempts made by
an element of hyphenated Americans
to cause a clash between Great Brit-
ain and the United States.

ENGLAND'S PUBLIC SCHOOLS.

A noted American educationist
declares the public school system of
the United Kingdom is all wrong.
He asserts that it can never pro-
duce a fine breed of manhood, that
it is totally inadequate to equip
youth for the contests of life. A
glance over the map of the world
furnishes a refutation of the charge.
Everywhere is to be found parts of
the greatest empire of history, all
of them conquered, discovered,
established, developed by a breed of
men trained as boys in the public
schools of England, Scotland or Ire-
land. The history of British trade,
industry, exploration, and war is a
matchless record of courage, re-
source, patience, justice, and the
men that have "put it over," and
continue to do so, were bred in the
public schools of the British Isles.
On the record of its men the world
over, Old England can do a good
deal worse than refuse to abandon
its system of educating her boys.

THE WAR ON THE CRIMINAL.

In Western Ontario, and espe-
cially in London, it was a boast,
until a year ago, that the inhab-
itants of this prosperous district
were comparatively free from crim-
inals. With pride and honor Lon-
doners pointed to the fact that the
local police and detective depart-
ments were so efficient that thieves
and crooks avoided the city.

Today, through no fault of the
police, such is not the case. The
trouble is that the force is under-
manned and not possessed of the
best equipment, while the ranks of
the lawbreakers have increased.

Chief of Police Robert Birrell is
using all the means in his power to
rid the city of crooks, and is get-
ting the fullest support and co-op-
eration from every member of the
force. But he needs more men, and
has applied for them. It is up to the
city council to grant, as soon as pos-
sible, his request, which has been
forwarded to the city hall through
the medium of the police commis-
sioner. He is asking for an addition
of twelve to fifteen men. And Lon-
don needs every one of them. Three
motorcycle officers are also desired.
These, too, are necessary in a city
of London's area. The East End
sub-station also will be a great
benefit, for it will give to East Lon-
don, Potteryburg and Ealing in-
creased protection, for more efficient
patrol work can be accomplished
when the point from which the
"beats" radiate is in the vicinity.

On the effectiveness of police work
depends a great deal of the co-op-
eration and sympathy of the general

public. Whenever the citizen is the
victim of violations of the law his
first move is to seek the aid of the
police. On the other hand, time and
again, when an officer battles with a
lawbreaker, spectators jeer at the
constable, and in some cases help
the culprit to make his escape.

London is not the only place
where the chief constable has asked
for more men. Almost every city of
any size, both in the United States
and Canada, is employing more of-
ficers. In the thirteen counties of
Western Ontario the number of
crimes committed daily is on the in-
crease. In many of the towns and
villages, stores and residences have
been entered by burglars. The
county police system, whereby the
constable receives remuneration on
the fee basis, is an obsolete one—
a system which, although adequate
in the days before motor cars were
common, is now fit for the ash-heap.

The Provincial Government has
afforded some relief by placing pro-
vincial officers in some of the coun-
ties, but it will not have done its
full duty until it has installed a pro-
vincial force in each county under
control of a provincial officer. One
provincial officer is doing effective
work in Middlesex, but with a num-
ber of assistants he could do a great
deal more.

BEHOLD NORTH DAKOTA.

Three years ago North Dakota
started an experiment in the most
advanced socialism. A man named
Townley launched the Non-Partisan
League, an organization whose mem-
bership was drawn mainly from the
agrarian population. Everything was
to be run on the co-operation sys-
tem. The league owned the mills,
elevators, stores, banks. Every mem-
ber of the league was a part-owner
and shareholder in the profits. The
league quickly secured control of the
State Legislature, and at once put
through legislation that compelled
everybody to fall in with state
socialism or get out. To "free the
farmers and the workers" was the
league's motto.

Today North Dakota is in a
state of dreadful financial con-
fusion. The Bank of North
Dakota—the bank that has been
financing the league—is declared
to be insolvent. The State Gov-
ernment—run by the league—is
unable to sell state bonds even when
offering 9 per cent. Eastern bankers
refuse to advance six millions when
the Socialist policy is dropped. The
New York Times comments on the
situation, as follows:

"The bankers feel that the pub-
lic has no appetite for the bonds of
a Socialist state, and because, natu-
rally, they don't want to seem to
prescribe a system of government
to the North Dakotans. So Mr.
Townley's economists are left to
stew in their own juice."
"It is an impressive tribute to
the genius of the North Dakota
Socialists that a state so rich in
resources can't borrow money even
at 8 per cent, while the 6 per cent
bonds of the other Dakota are sell-
ing at a premium."

Some of those behind political
movements of a Socialistic nature
a good deal closer to Ontario than
North Dakota should mull over
North Dakota's predicament.

OUR FORESTRY RESOURCES.

An estimate of the supply of pulp-
wood available in a single province
of Canada—the Province of Quebec
—places the total at 360,000,000
cords. This is part of forest re-
sources which, according to the
"Dominion of Canada," a study by
the Bankers' Trust Company of
New York, are the mainstay of the
second most important Canadian in-
dustry, taking net value of output
as the basis of comparison.

The latest available census of
Canadian manufactures gives the
value of log products in 1917 as
\$115,800,000 gross, \$75,100,000 net;
and of pulp and paper, \$96,300,000
gross, \$61,600,000 net. The total net
value of forest products, \$136,700,
000, was 35 per cent greater than
the net value of Canada's manufac-
tured animal products, and about 45
per cent above the net value of her
manufactured vegetable products.
Manufactures of metals alone ex-
ceeded in net value the output of
forest products.

The United States is dependent
upon Canada's forests for an impor-
tant part of her supply of newspaper
paper, and of wood pulp, from which
such paper is manufactured. In 1914
the United States imported about
one-fifth of the paper consumed,
while in 1919 the imports, chiefly
from Canada, were about one-third
of the consumption.

"THE BACHELOR" A TOAST.

[Cochituted.]
Ho! Here is a toast to the bachelor
chap:
Your health; may it be o' the best.
May you ever find pleasure in shooting
crap.
And play solitaire with a zest.

May the draught from your pipe y'et
bring sweet content,
And bright night lights never grow
dim.
May the day never come when your
last son spent,
Your wine-glass not full to the brim.
May you have your desires, and have
them away;
Because in the evening of life,
It will take all of these, and more, to
ally.

OTHERS' VIEWS

NOT IN MASS.
[London Daily Chronicle.]

The fact that children should be
studied individually, and not in the
mass, is a comparatively recent discov-
ery. We are not far removed from
the days when children were flung into
schools to sink or swim. Certain of
them floated to the top of the class
and were regarded as clever; others
remained at the bottom and were as-
sisted to remain there by a system of
ridicule and neglect. They were the
dunces. It was one of the many things
that the educational authorities of that
period could never understand that so
many of the clever ones never made
their mark in after-school life, and so
many of the great men had been re-
garded as dunces in their school days.

UNCHANGED VON TIRPITZ.
[New York Times.]

Admiral von Tirpitz's remarks about
the relations of the United States and
Great Britain were not prompted by
regard for the one or the other of
the other. "Great Britain's sin, the
official German mind, was entering the
war in the beginning, America's sin
entering the war in time to end it with
the defeat of Germany and the shat-
tering of her dream of dominating the
world. Hence the opinion of Admiral
von Tirpitz upon the future relations
of the two Anglo-Saxon powers must
be regarded with suspicion. He en-
courage the United States in naval
expansion, and says it is his belief that
"America will not make the mistake
Germany did of trusting the life and
prosperity of her commerce and in-
dustry to the brotherly feeling of the
English." As a matter of fact, Ger-
many extended her commerce to every
part of the globe and built up a lucra-
tive trade in markets that Great Brit-
ain would have liked to keep to her-
self. In some markets, in South
America, for instance, Germany under-
sold Great Britain. When Germany
forced war upon Europe she was rid-
ing the crest of prosperity. Great Brit-
ain may "hold the keys to the Medi-
terranean," as the German admiral
says, and her outposts may be found
in the seven seas, but her naval power
cannot exclude the United States from
the share it deserves, through enter-
prise and efficiency, in the markets of
the world.

Admiral von Tirpitz is somewhat in-
consistent when he predicts the avoid-
ance of war between the United
States and Japan, yet in the next
breath warns this country that in the
event of such a conflict England, "re-
gardless of her treaty with Japan and
friendship with America," would con-
sider her political interests—that is to
say, might be found upon the side of
Japan. This is, of course, the view
put out by the German propagandists,
of whom von Tirpitz is not the least.
The amended Anglo-Japanese treaty,
now in force, provides, in effect, that
if any third nation has a treaty of
arbitration with Great Britain she will
not be obliged to join Japan in a war
in which Japan's interests in Asia are
at stake. No one can know better
than Admiral von Tirpitz that Australia
and Canada would part company
with the mother country if she be-
came an ally with Japan in a war upon
the United States. Such a thing would
be the ruin of the empire. It would
not be tolerated by sentiment in Eng-
land for a moment. The von Tirpitz
statement was intended to make bad
blood between the two countries, and
to drive the United States to ally with
pro-Germans and other anti-British
elements here.

COOKING FOR MEN.

[Winnipeg Tribune.]
Cooking has been added to the cur-
riculum of male students at an eastern
college. "Cooking is something that all
men should know something about."
Some men should know all about it.
Particularly should married men
have the necessary knowledge so that
in the pinch they can scold a pan of
potatoes or stir up a mess of fluffy bi-
scuits.

There is no telling when the good
wife may be absent from home at meal
time.
As time goes on the legitimate rea-
sons for this are growing.
And what is more pleasing to the
average wife than to return from the
bridge party, or the polling place, a
trifle late, perhaps, and worried for
fear that she'll not be able to get to
dinner on the dot—what is more pleas-
ing than to be greeted at the door by
the man of the house, all uniformed up
in a long over-all apron, a dab of
flour on his beaming countenance, stir-
ring embryo drop biscuits?

And the teakettle steaming its heart
out?
And the smell of burning beefsteak
permeating the otherwise hopeful at-
mosphere?
Man should know how to cook!

NO DISGRACE.

[Los Angeles Times.]
The Hearst papers would make an
issue of the fact that the new Bishop
of New York was born in England.
They might be able to jump on
poor old Bill Shakespeare for the same
reason. Lots of worse things can hap-
pen to a man than being born in Eng-
land. We can't all be native sons of
guns. The fact that a man was born
in old Ireland instead of the new doesn't
necessarily disqualify him from eluc-
inating the Scriptures to his fellow
man. Being born in England is not
considered disgraceful in any place out-
side of Stuttgart. In fact, there are a
lot of folks who are rather proud of it.
And England has produced some bloom-
ing good bishops, don't you know?

PADEREWSKI—THE FALLEN.

[Boston Transcript.]
Mr. Paderewski returns to the
United States, his "second fatherland,"
evidently with joy to be here, but with
occasion for sorrow in his heart. After
having sacrificed his artistic career on
the altar of his native country, so that
he is constrained to say that "piano
playing is a closed chapter in his life,"
he also sees his political career virtu-
ally at an end, with his beloved Poland
suffering from privation and hunger,
and despotism thrust upon it by its
enemies. The great artist, abjuring his
artistry for public service, returns to
America with heart saddened, as his
locks are whitened, by the stress and
sadness of the five most terrible years
of the world's history. There was, per-
haps, more than in George Clemenceau's
remark at the peace conference, on meeting Paderewski as
the political representative of Poland:
"Quelle chute!" The French mind, the
Latin mind, sees art, after all, as a
thing above statecraft. In that way of
looking at the matter, to be the su-
preme artist in one's own field may be
a greater thing than to be the head
of a state. In this day and age, presi-
dents and prime ministers come and
go. Demos make them yesterday, and
Demos will break them tomorrow. But
Demos cannot make a supreme artist.
In addition to birth for that eminence
the artist must have half a lifetime of
most laborious as well as supreme
intelligent preparation. But if Paderewski
belongs to a nation of artists,
he also belongs to a nation of patriots.
Patriots may have lost his art; music
may know him no more. But
even in the sadness of his heart, he does
not regret the "fall." Give all to father-
land; it is a motto for great artists, as
well as for ordinary men.

WARNING.

[Louise Driscoll.]
I heard the snow in my garden—
It sang a melting song.
It spoke to someone I cannot see
And said: "It will not be long—
It will not be very long!"

I looked out over my garden
And saw a grey chickadee
Eating the purple berries
On a dark green cedar tree—
A friendly cedar tree.

I thought he seemed to listen.
And like a dripping sound
The melting snow was making.
To something underground—
Some listener underground.

It may be someone answered
With words I do not know
(I've never heard a crocus bulb
Stir under the snow now—
Under the melting snow).

I have a wide, white garden
Without perfume or sweet;
No bright wings flutter to it.
No little skipping feet—
No small adventuring feet.

But bulbs and roots are waiting
And hear the melting song;
In musical, slow numbers
It says: "It will not be long—
It will not be very long."

FRIGHTENED SHEEP.
[London Daily Mail.]
Farmers are puzzled to account for
the panic which seized last thirty
widely separated flocks of sheep in
Cambridgeshire. The animals broke
down in the fields in which they were
folded in the open and scattered over
the countryside. Mr. W. Varney Webb,
the chief constable of the county, to
whom the farmers resorted, says that
he can only suppose that the sheep
were terrified by the falling meteors
down the northern lights, by which the
sky was weirdly illuminated during
last Saturday's early hours. In buried
ages nature's wild moods could drive
our primitive ancestors shuddering to
their caves, but it is difficult to as-
sociate panic fear of falling stars with
such a matter-of-fact creature as the
sheep.

THOSE UNBUCKLED OVERSHOES.

[Toronto Star.]
You're a sight, Privolittina, that it is
not hard to gaze upon,
And I'll never tire of gazing if
I might see you let me know
But I own there's one fad, Friv, that
I look in blank amazement upon.
What's the big idea, girlie, of each
undone overshoe?

I've observed some foolish fashions as
I've peacefully gone to bed.
And I've said those girls are nutty,
But I didn't, girl, mean you.
Still it makes you look as clumsy as a
little duckling waddling.
That it's got me guessing, Friv, your
unbuckled overshoe.

You are otherwise so tidy that this
foot fad sort of puzzles me,
And I wish you'd tell me frankly
what the game is that you play,
I'd express myself more bluntly, but
discretion comes and nuzzles me.
And when we get married, Friv, tell me
promptly now, I pray.

I infer that there's some meaning to
this very studied stylelessness,
And my heart ne'er thumped so
madly in the past years of my
life.
You mean you're "foot loose." Friv, I
appreciate your guilelessness,
And when we get married, Friv, you'll
be buckled up for life.

TAINTED MONEY.
Soap Box Orator—An I tell you that
all them millionaires' money is tainted
—all of it.
Unconvinced Person—Ow d'ye mean,
"tainted?"
Soap Box Orator—Well, 'tain't yours,
an' 'tain't mine, is it?

THE ONLY DIFFERENCE.
[Harmine Schwed.]
Said a Socialist to a Bolshevik,
You're a cruel autocrat.
You loot and kill in the very name
Of the proletariat!

Said the Bolshevik to the Socialist,
"Come now, you urge and screech
in flowery words the things we do—
We practice what you preach!"

"When you give forth 'appropriate,'
We simply go and rob.
And when you urge to 'confiscate,'
We do the little job!"

"Now, as your phrases fool the crowd,
Keep talking, we beseech.
But, man to man, remember well—
We practice what you preach!"

PAGE OF INTEREST TO WOMEN

IN SOCIETY

Mrs. Thomas Mortimore has gone to Toronto for a two weeks visit.

Mrs. W. F. Green, the Ridgeway, is visiting her son, Mr. W. H. Green of Toronto.

Mrs. H. Harris has returned home after spending a few days with her daughter, Mrs. H. D. Steele, of Lobo.

Mr. J. A. Scott of Winnipeg, spent the week-end with his sister, Mrs. F. Watterworth, 855 Hellmuth avenue.

Mrs. Gordon Wright was in Niagara Falls yesterday representing the Local Council of Women at the meeting of the National Council executive held there.

Miss Stirling Love, who has been visiting her sister, Mr. Frank Ware, left last night for California, where she will pay an extended visit with her sister, Mrs. Gordon Knott.

From two to three hundred guests are expected to attend the big Trinity Chapter, O. E. S., at home, which will be held in the Masonic Temple on Friday evening of this week. The conveners in charge are Dr. and Mrs. Cunningham, Mr. and Mrs. H. Hooper, Mr. and Mrs. W. T. Clark, and Mr. and Mrs. Fred Brown.

A pretty tribute was paid Mrs. Frank Leonard, when the members of the Women's Canadian Club executive and a number of friends gathered at the station at 6:40 o'clock last night to wish her good-bye on her journey to the Old Lady of the Sea, where she was accompanied by her husband, who was accompanied by her hand, was showered with candy and other gifts. The Canadian Club executive have arranged to have a cluster of flowers forwarded to the station at Montreal, so that she may sense their fragrance while crossing.

Yesterday afternoon at the tea hour, a cosy corner was screened off from the Smallman & Ingram tea room and if anyone had peeped behind the screen, they would have found fifty members of the Campbell Becher chapter gathered there to bid farewell to one of their number, Mrs. C. J. Tripp, who is leaving the city on Monday, March 1st, for a visit to the table, from which Mrs. F. J. Greenaway, regent of the chapter, and Mrs. Arthur Keene, president of the chapter, were in charge of this successful little function. Mrs. Arthur Keene and Mrs. Harry Bell.

Among the out-of-town guests who will be present at the Cottrell-Duff wedding today will be Mr. and Mrs. A. G. Graham-Lucas.

On Saturday evening, Feb. 12, the marriage of Miss and Mrs. C. H. Lucas, Middlemiss, to Mr. John F. Graham, of the Presbyterian manse of Melbourne. The ceremony was performed by Rev. John Elder. The young couple will leave for their future home at Niagara Falls.

At three o'clock next afternoon Jack Trevor, busily scanning a pile of reports and business documents, which he had brought in his New York office, heard a step on the threshold of his door.

There was a sudden whiff of exotic perfume, a rustle of alien draperies, and a woman, smiling and smiling as the spring day—stood before him.

"Hello, Jack, old boy," she said, with a nod which was as warm as a smile. "I'm not here to see you, but to see you."

"You aren't very cordial," he said, looking at her. "Didn't expect to see you here, did you?"

"I'm sorry, Jack," she said, looking at him. "I'm not here to see you, but to see you."

"I'm not here to see you, but to see you," she said, looking at him. "I'm not here to see you, but to see you."

"I'm not here to see you, but to see you," she said, looking at him. "I'm not here to see you, but to see you."

25 YOUNG MOTHERS ATTEND THE COOKING CLASS AT TECHNICAL

Learn How To Prepare Most Nourishing Food For Their Children.

It was an exceedingly interesting and happy company of young mothers who gathered at the Technical School yesterday afternoon for their first class in cooking, arranged by the local Child Welfare Association, through the energies of Miss Bertha Smith, Miss Seburn, of the Victoria Hospital, in white uniform and cap of the graduate dietitian, presided over the class, in which twenty-five mothers have registered.

The business of the afternoon was the homey job of making apple sauce, stewed prunes and cocoa, all seemingly very simple, but never so well done or so nourishing as when done in the proper way. Prunes must be stewed for four hours, so that it is not necessary to add sugar, apples must be peeled with the thinnest of skins and so forth. This was the practical work and each mother had her own little stove and tinny stove and tinny stove to experiment. Directly preceding the practical work was a lecture on the importance of food elements and sources. The aim is to give the mothers, who are constant attendants an idea of how to best prepare the most nourishing kinds of food for their children, and general rules on the feeding of young children will be laid down. The lecture will be given by Miss Seburn, who is a dietitian and a food expert.

This course of lectures is being put on through the co-operation of Mr. Beal of the Technical School, in an effort to train city mothers how to prepare proper food for their children, who are monthly improving in health through advice given their mothers at the weekly child welfare clinic.

ting of a popcorn wedding cake, which was presented to Miss Wilson.

On Wednesday afternoon the Lobo Women's Institute met at the home of Mrs. James F. Edwards, with Misses Vera Graham, Edith Smith, Selinda Smith, Coral Brash, Lillie Brash, Irene Chalmers and Blanche Chalmers, acting as hostesses. After a very interesting program, a dainty lunch was served and a social hour followed.

The Lobo Women's Institute is holding an "at home" on Thursday evening, March 3rd, at the Lobo Hotel. The Lobo Community Club held their regular meeting on Wednesday evening with a large number in attendance. A special feature of the evening's program was a play entitled "A Change of System," put on by a few young people of the community collection was taken, which amounted to \$10.35. Another very interesting program is being prepared for next week.

THEODORE W. I. The tea put on by the Theodore Women's Institute on Sunday afternoon in the rest room was well patronized, the proceeds being \$18.50.

Miss E. Mitchell, the traveling secretary of the Women's Institute, gave a splendid address this afternoon in the basement of Knox Church. The program included a play, "The Boy and the Girl," by Mrs. A. Carmichael, the president of this society, was in the chair.

KERWOOD W. M. S. The Valentine and birthday social given by the Kerwood W. M. S. was a most successful one. A very pleasing program of solos, quartets, contests and addresses was given, a feature of special interest being a three-story birthday cake decorated with forty colored candles, it being the fortieth anniversary of the W. M. S. in Canada. The honorary president, Mrs. James Richardson, was invited to cut the cake.

COLDSTREAM W. I. A very successful session of the Coldstream Women's Institute was held in the Foresters' Hall, Poplar, recently. An instructive feature of the meeting was a demonstration in the making of men's shirts by Mrs. Jos. Atkin, who showed excellent samples of both work-a-day and fine shirts and explained her method of making. In these days of high prices, a member has kindly offered to cut out ladies' blouses, and show methods of making, for any who wish to bring material to the next meeting.

An acknowledgment was read at this meeting of a donation of \$20 to the rest room in St. George's, which was purchased a writing table with the sum donated.

A communication from Mr. George Putnam, superintendent of Women's Institutes, was read in answer to the request sent him for a domestic science course. He stated that he hoped to supply a lecturer for two weeks' course in March or April.

Another important feature of the program was the reading of a paper on the medical school inspection situation in Middlesex, by Mrs. N. P. Campbell. Medical inspection in Ontario is now under the direction of the department of education and the provincial board of health. Each school nurse is required to follow up the work of the doctor, to give advice on proper care and food needed in each individual case. She is also required to keep a record of the health of the children, and to report to the department of education and the provincial board of health.

At the end of the meeting, a record of each child's condition kept on a card and sent to the parents. SAYS QUEBECIS NOT GOING TO BECOME GOAT FOR MEIGHEN

Archambault Tells Commons That Government Has No Mandate To Make Love To Quebec—Advises Premier That Election Will Show That It Is Not Quebec, But the Government That Is Isolated.

Ottawa, Feb. 23.—By the Canadian Press.—"The government," said Mr. Archambault, "is not going to make love to Quebec." He said that the government is not going to make love to Quebec, but that it is going to make love to the people of Quebec. GODFREY HOTY BACKS FERGUSON

Tory Member So Violent That He Gets Reprimand From Speaker.

[Special to The Advertiser.]
Toronto, Feb. 23.—So vigorously did Dr. Godfrey Hoty, Conservative, attack the government in the House of Commons today that the speaker, Mr. G. Howard Ferguson, had to reprimand him.

Hoty, in connection with the timber commission that he had to be called to order by the speaker in the Ontario Legislature tonight.

Mr. Justice Riddell, he said, wanted to do "the right, the honest, the decent and square thing" he would have made public Hon. Mr. Ferguson's speech in the House of Commons.

FEARFUL AND COMMERCIAL EGG PRICES TAKE SLIGHT ADVANCE

Small Supplies Responsible—Demand for Hay Falls Off.

The small supplies of eggs and the active demand brought the retail price up to 50c per dozen at the local market on Thursday morning. All sales were around 45c and 50c per dozen.

There was no demand for hay, Tuesday and Wednesday found such a large number of loads sold that the market was glutted with the commodity.

BEAVERBROOK TAKES EXCEPTION TO GOVT. MINISTER'S CHARGE

Declares His Object in Desiring Cattle Embargo Lifted.

London, Feb. 24.—(Associated Press.)—Interest in the agitation against the embargo imposed by the British Government on Canadian live cattle has been stimulated by the controversy which has broken out between Lord Beaverbrook, the Canadian-born peer, and Sir Arthur Boscawen, the recently-appointed minister of agriculture, who is waging a warm by-election in Dudley. Lord Beaverbrook has a letter to the minister in the London Daily Express this morning, in which he takes exception to what he describes as "the foul attack" made upon him by the minister in a speech in the House of Commons.
