THE RAND RAIDERS ON TRIAL.—London, July 21.—When the High Court of Justice, Queen's Bench Division, reconvened today for the trial of Dr. Leander S. Jameson and his co-defendants, for alleged violation of the Foreign Enlistment Act, in the matter of invasion of the territory of the South African Republic, the Lord Chief Justice announced that he overruled the motion of Sir Edward Clarke, Q.C., counsel for the defendants, to quash the indictment. The defendants, Dr. Jameson, Major Sir John Willoughby, Col. R. Grey, Major R. White, Col. H. P. White and Henry F. Coventry, then entered pleas of not guilty. The Attorney-General, Sir Richard Webster, Q.C., opened the case for the prosecution.

BRITISH PARLIAMENT.—London, July 21.—In the House of Commons yesterday, Right Hon. Arthur J. Balfour moved to suspend the 12 o'clock rule, under which the House rises at midnight, until the close of the session. Mr. Balfour maintained that the lengthening of the sittings was necessary to facilitate the discussion of the Irish Land Bill, Sir Wm. Harcourt, the Opposition leader, opposed the motion, charging the Government with bringing the House into the contempt of the country. The motion was carried by a vote of 299 to 106.

VENEZUELA'S CLAIM.—London, July 21.—It is stated that Venezuela's brief prepared by Counsel Storow and presented to the Venezuela Commission, as well as the British counsel, is the most important paper that has so far appeared in the case. In this brief, it is claimed, a true divisional line in accordance with the evidence is laid down. Mr. Storow contends that there never has been any British sovereignty in the disputed territory; that the Dutch never gained the slightest foothold in the Orinoco basin, and therefore never transferred what did exist to Great Britain, and also claims that the Schomburgk line had been by Lord Salisbury was a forgery perpetrated by the English Government 20 years after Schomburgk's death.

THE CATTLE EXCLUSION BILL.—London, July 21.—In the House of Lords yesterday it was announced that the royal assent had been given to the diseases of animals bill and the agricultural land rating bill. The Government refused to permit the Greater Steamship Company to erect on the river bank what at Belfast is a building in which to slaughter Canadian cattle.

GUARDING THE QUEEN.—London, July 21.—Extraordinary orders have been issued in anticipation of the journey of Queen Victoria from Windsor Castle today to attend the wedding of her granddaughter, Princess Maud of Wales. Special watchmen will be stationed at intervals of 200 yards all along the line of railroad from Windsor to Epsom, while the royal train is en route.

HOT WEATHER HEADGEAR.—London, July 21.—During the hot weather some large city firms gave their clerks and others permission to wear straw hats. The "chimney-pot" is being discarded, and even the Prince of Wales has appeared in a white shirt and a white hat, wearing white blouses to their riding habits. The London police are to be provided with a serge uniform.

THE TRIGGER

CANADIANS AT BISLEY.
Bisley Camp, July 21.—In the "Scurry" competition yesterday, open to all, five shots at 200 yards, 125 in money prizes. Pte. Armstrong, of the Tenth Battalion, put in five bulls; Capt. Spearing made 24; Sergt.-Major Huggins, 22, and Lieut. King, 20. Capt. Spearing and Pte. Armstrong are a tie for first place, and will divide 15. Sergt.-Major Huggins stands 20th, and takes 11.

In the second series, "Scurry," five shots at 500 yards, for similar money prizes, Lieut. King's target registered four bulls and a magpie.

For the Thorburn prizes, seven shots at 500 yards, Lieut. Weller, Fifteenth Battalion, planted seven bulls' eyes, and will probably win the first prize—115.

In the contest for the oil painting and 510, presented by Col. Burt, and 530 added, seven shots at 200 yards, Lieut. Monro, Forty-fourth Battalion, made five bulls and two inners.

Shooting in the first stage of the Queen's prize, the "blue ribbon" of the National Rifle Association meeting, which last year was captured by Pte. Hayhurst, Thirteenth Battalion, commenced yesterday. The Queen's prize is shot for in three stages, squadded competition. The first stage, three ranges, seven shots at each, 200 and 500 yards, and the second stage, second stage is ten shots at 500 yards, and fifteen at 600 yards, the third stage, ten shots each at 800 and 900 yards. There are 500 prizes, aggregating 12,425, which include 250 given and gold medal and gold badge to the Queen's prize winner.

The scores of the Canadian team in the Queen's prize at the 200 yards range today, seven shots, are as follows:

Yards.	200	500
Pte. Campbell, Forty-fifth Batt.	31	31
Sergt. Crowe, First B. F. A.	31	32
Lieut. Mitchell, Twelfth Batt.	31	30
Lieut. Munro, Forty-fourth Batt.	31	23
Capt. Spearing, Fifty-third Batt.	31	27
Lieut. Weller, Fifteenth Batt.	31	28
Pte. Hayhurst, Thirteenth Batt.	30	32
Pte. Longworth, Seventy-fourth Batt.	29	26
Maj. Macdonald, Forty-eighth Batt.	29	26
Sergt. Mitchell, Thirteenth Batt.	29	33
Lieut. Bent, Ninety-third Batt.	28	29
Staff-Sergt. Harp, Forty-eighth Batt.	28	26
Lieut. Ogg, First B. F. A.	28	31
Pte. Armstrong, Tenth Batt.	27	27
Pte. Neill, Seventy-first Batt.	27	32
Lieut. Ross, Thirteenth Batt.	27	29
Sergt. Lavers, Sixth Batt.	26	28
Sergt.-Maj. Huggins, Thirteenth Batt.	24	22
Lieut. King, Forty-fifth Batt.	24	29
Lieut. Funnions, Fifty-ninth Batt.	24	29

In the Steward competition, open to all, seven shots at 200 yards, kneeling, Lieut. Ross, Thirteenth Battalion, made a 32 target.

The weather for the 500 yards range of the first stage, Queen's prize, was bright and clear.

ATHLETICS

McKEEVER AND LAVIGNE.
The six-round bout between Kid Lavigne, champion lightweight of the world, and Chas. McKeever, of Philadelphia, which took place in Madison Square Garden, New York, on Monday night, was one of the best and cleverest ever witnessed in that city.

The men "talked" things in lively style from the very beginning, and when the going soured at the conclusion of the sixth round both men were still fresh and full of fight. McKeever's showing surprised even his friends. According to agreement a decision was not rendered, and the

merits of the men were left to the spectators. There were many cries of "McKeever" at the conclusion of the contest, intimating that in the estimation of many of those present he had the best of the fight. Lavigne, however, was still full of go, and as he improves rather than weakens in a long fight, the outcome of a final fight between the men is doubtful.

A SIX-ROUND GO.
Philadelphia, Pa., July 21.—Frank Slavin, the English heavyweight, and Harry Baker, of Chicago, met in a six-round fight at the Caledonian Club last night. The fight was declared a draw at the end of the sixth round, but Baker had all the best of it.

THE TURF.
London, July 21.—Mr. Pierre Lorillard's American horse Magic won the Wigston 2-year-old selling plate at Leicester yesterday. Mr. Taylor Sharpe's Red Nob was second, and Lord Crawley's Mrs. Froude third. The Wigston 2-year-old selling plate is of 150 sovereigns, the second to receive 3 sovereigns out of the plate; distance, five furlongs.

TIPS.
Mr. T. Price, of Aymer, has sold his horse, Little Jim, to M. W. Hubberger, of New Haven, Conn., for \$2,000. Little Jim won at Windsor, getting a mark of 218 1-4. He is a half-brother to S. C. May's colt.

LAWN TENNIS.
THE ENGLISH CHAMPIONSHIP.
London, July 21.—At Wimbledon today Mahoney won the lawn tennis championship of England, defeating W. Baddeley last year's champion, three games out of five.

A Blind Man's Feat.
Walks From New Jersey to Chicago and Back.

Works at His Trade as a Chair-Canor and Mattress Maker.

Brunswick, N. J., July 21.—Aaron Provost, of this place, who is totally blind, has just completed a wonderful trip to Chicago and return, alone and unaided, says the New York Journal.

He is 35 years old, and is known and esteemed by many, and his familiar face has been missed for over a year. Provost has been blind since he was 9 months old, the result of attacks of diphtheria and scarlet fever, which left him sightless. His mother, Mrs. Sarah E. Provost, became his tutor, and gave him a fair education until he reached the age of 13, when she sent him to the Pennsylvania Institute for the Blind at Philadelphia. Here he spent two years of his life, and among other things gained an excellent knowledge of geography, and also learned his trade of chair caning. He developed a roving disposition, and became especially fond of walking. He made his way about town with the aid of a cane, and succeeded better than one would imagine. Confident in his ability to travel, he determined last year to take a trip to Chicago, to see, as he says, what he could accomplish.

He went over the entire route on foot, going through many towns and cities, the following being the most important: New York, Buffalo, Cleveland, Columbus, Cincinnati and Chicago. At the last named place the J. Currie upholstery establishment employed him as a chair caner and mattress maker on the day he arrived. Now, 4 years, he remained in their service until May 6 of the present year, when he started homeward.

On his return trip he took in the following cities: Irving, Ill., Michigan City, La Porte, Manatah, Ind., Indianapolis, Portsmouth, Columbus and East New Concord. At this place he became quite friendly with James G. McIntyre, and they have partially arranged to meet again next year and take a long trip in company. After leaving East New Concord, Provost proceeded to Wheeling, W. Va. From there he traveled to Pittsburgh, Harrisburg, Lebanon, Reading, Philadelphia, Trenton and Brunswick, arriving here on Saturday night.

During the entire trip he used the cane for but a comparatively few miles. He left home with enough money to pay for his meals and other wants. He carried with him a parcel of clothing, and this, with his cane, made up his entire outfit. His journey was entirely devoid of accident. He says he was courteously treated by all he met, and his knowledge of geography, aided by his tongue, carried him through his journey safely. Although his route often lay parallel to them, he avoided railroads as much as possible. His main entertainment was the stories of "globe trotters" whom he met. He has papers to show, proving that he took the trip he says he did.

A daring robbery took place in Watford one day last week. It appears that Mr. Harry Schlemmer was awakened about 3 a.m. by a noise in the house and discovered a man going through the pockets of his trousers. Mr. Schlemmer made a dash for the thief, who, however, got away, taking a silver watch. Chief Mathers was notified, and subsequently arrested two suspects on the 7 a.m. train for the west. On the younger of the pair, who gave his name as Frank Giffen, of Menominee, Mich., three watches were found, one silver watch identified by Mr. Schlemmer as the one stolen from him, a lady's gold watch, and a silver open-faced watch with the name "Stearns" scratched on the case. Giffen was committed to Sarnia to stand his trial.

Scissors.

A boon to ladies. Latest invention. No more trouble to find your needle, the Magnetic Scissors will find it for you—selling for 25c.

Her Suggestion.

From the Detroit Free Press. A man is, for some occult reason, liable to look a little shame-faced when he gets home after staying out all night at a political meeting. As he came up the path to the farmhouse, his wife came to the door to meet him.

"Did ye have a purty excitin' time?" she asked.

"Tremendous," he answered.

"I s'pose ye've got everything settled?"

"No. To tell the truth, everything's 'yes' about it much in doubt yet ever."

"Well, I s'pose it's yer own lookout. But I must say I kinder hate ter see ye wasting so much good energy."

"How d'ye mean?"

"Pigs is gott'er to be fed, an' wood's gott'er to be chopped, politics or no politics. I don't want ye to neglect yer country when they're anything that rel'y calls for yer. But I hope ye will bear in mind that every time ye wave yer hat in the air just 'cause ye git a little excited, ye're usin' up muscle that might have done good service choppin' wood, an' that every time ye yell 'Hooray' 'bout nothin' in particular, ye're usin' up good lung power the'd come in mighty handy ter drive the pigs weth."

AN EXCEPTIONAL SALE.

St. John Is Much Interested in the Recent Medical Discovery.

St. John, N. B., July 20.—The many cases of marvelous restoration to health from various forms of kidney trouble which have been constantly appearing in the daily press of the Dominion for some time have awakened the liveliest interest here, and the remedy by which the cures were effected, namely, Dodd's Kidney Pills, are obtaining great celebrity throughout the Province. The appearance of the testimonials of Drs. Rose and McCormick, stating the benefits which they had personally derived from their use, was considered a sufficient sign of the merits of the remedy, and the other interesting and wonderful cases which have since been chronicled have caused the specific to have an exceptional sale.

Town and Country.

BIRR.

Birr, July 21.—The much-needed rain came at last, thoroughly soaking the earth's parched surface in this vicinity, for which we are very thankful.

Mr. James Sinclair is poorly at present. We hope for his speedy recovery.

Messrs. Harry Boulton, Harvey Townsend and Richard Burr, the popular threshers, with their brand new Stratford outfit, did an excellent job for Mr. Wm. Coleman, of Birr, yesterday. The wheat turned out well, there being 300 bushels to ten acres.

Not a day passes but we have some tourists wheeling through the garden of all worlds, and they nearly all stop at Birr's model hotel for meals and to be refreshed. Several Americans touring eastward were guests the other day. All speak highly of the first-class manner in which the house is run.

Commercial men report business on the "up," with good prospects for the fall trade. The change did not come too soon.

Walter Main's circus men are in town today putting up paper. The great show will be in London on the 27th. "I'm goin' sure, if we can only get that pesky barley in."

The Lunan and London stage line is getting its share of summer traffic, it being loaded both ways with holiday parties, students, teachers, etc.

Mr. Chas. E. Harving was in town today, making ready for his new general store, which he intends erecting right away.

Mr. Harry Wright is turning out first-class work, and lots of it, every day, as is also Mr. Leonard Lambourn, our blacksmith and general jobber. Mr. Lambourn being a practical horseshoer, and devoting nearly all his time to that particular line, is badly in need of an assistant for general work.

ALISA CRAIG.

Business Agents, C. Walker and N. R. Gray.

Alisa Craig, July 20.—The baseball match played here last Friday between the Stars of Alisa Craig and the Crediton boys resulted in favor of the Stars by 20 runs.

Mr. Neil R. Gray, who has been attending the Collegiate Institute at London, during the last term, is home for his holidays.

Mr. Ed. Nablo, merchant tailor, returned home on Friday, after an extended visit of two weeks to Berlin, Buffalo and Dunville.

Miss Nellie Reid returned home after an absence of three weeks, to visit to relatives in Dunville and Buffalo.

Threshing has commenced in this vicinity. The sample is excellent, and the yield is from 25 to 30 bushels per acre.

Miss Winnie Cameron, milliner at White May's, is spending her holidays with friends in Detroit.

DELAWARE.

Advantages and Improvement of the Village—A Bad Fire—Londoners Lose Their Wheels.

Delaware, July 20.—Commercial men who travel through all parts of the country—men who drive for pleasure, and those who ride a wheel—all unite in saying that Delaware is the most charmingly-situated village to be found anywhere, and the country immediately surrounding it is not to be excelled. This is also the verdict of too many of our young men who have left us and taken up their abode in other lands. Of course we who live here are willing to accept of this verdict.

Although times are no as brisk as we would like, still there is some improvement going on in our village. Our genial postmaster, Mr. Wm. Barker, has added to the appearance of his dwelling and postoffice by the application of a liberal supply of paint.

A change of men at Ottawa don't seem to frighten him at all.

The Presbyterians are building a large addition to the manse, the subject of Mr. Sim. Peacock, one of our best and shoe men, is also building a large addition to his residence.

The Methodists have built a very nice fence in front of the new church, which improves the appearance of the grounds very much.

In Delaware West Messrs. Giles and Chambers have each been adding to their dwellings.

While these improvements have been going on, we have also suffered some loss. On Sunday morning about 2 o'clock the barn and stables of Dr. Morris were found to be on fire.

The barn was a large one, and was filled with hay, and a large quantity of wood, and the buildings being wooden and very dry, and the fire well under way before it was discovered, it was impossible to save anything in the buildings. In addition to the loss on the structures, the doctor lost a very valuable horse, a road cart, two cutters, two sets of harness, a quantity of feed, and all the stable equipment. There were three bicycles burned, one belonging to the doctor and the other to Mrs. Barker and her son, who wheeled out from London on Saturday evening, and were the guests of Mrs. Morris over night.

There is some insurance on the buildings and contents, but the loss will be heavy.

Rev. T. T. George is preaching a series of sermons on the subject of baptism. He has already given two of the series, and will deliver the rest on his return from his holidays.

Miss M. McDonald, a former teacher in our public school, but now of Chicago, is visiting Mrs. A. Vall and other friends in this vicinity. Mr. Bruce Ferguson, of Dryden, Mich., is also visiting friends here.

Mr. Wm. Giles, who has been very ill for some time, is now on the mend.

Mrs. E. C. Whitaker is sojourning at Port Stanley.

A number of our people purpose taking in the Scotch picnic.

EFFECTUAL.—Charles J. Booth, Olivewood, Cal., says: "I have used Ayer's Pills in my family for several years, and have always found them most effectual in the relief of ailments arising from a disordered stomach, torpid liver, and constipated bowels."

Today at Ottawa.

Hon. Mr. Tarte Has Not Yet Dismissed a Single Employee.

Sir Adolphe Caron Takes Defeat Badly, and Threatens.

Story of Hon. Alex. Mackenzie's Humor.

TO BE SWORN IN.

Ottawa, July 21.—Mr. J. J. McGee, Clerk of the Privy Council, went to Quebec yesterday, bearing with him the oathbook and Bible for the purpose of making the new members of the Privy Council swear in, and to Sir Henri Joly de Lotbiniere, Controller of Inland Revenue. The latter had already subscribed to the formula that calls upon him to faithfully discharge the duties of his department. This leaves the two Provincial ex-Premiers, Hon. Messrs. Blair and Fielding, to be sworn in, and afterwards the Minister of the Interior, whoever he may be, when the Liberal Ministry will be complete.

THE LIBERAL POLICY.

Hon. Wilfrid Laurier will, says the Free Press, announce his policy this week. During the June campaign he laid down the general principles upon which he would rule, and now that the administration of public affairs is in the hands of the new Premier is prepared to go more explicitly into his plans. The announcement will be made in the opening of the bye-election campaign, when Mr. Laurier is to speak on behalf of Hon. J. I. Tarte. One of the Ministers was asked if there would be any outlining of policy in the bye-elections, and his answer was in the affirmative.

MOUNTAIN OUT OF A MOLEHILL.

Hon. J. Israel Tarte, Minister of Public Works, denies having dismissed one official yet from his department. Speaking on this matter yesterday, he said that he found 100 extra employees on the pay roll of this department, and he felt sure the country would justify his getting rid of the useless ones who contributed to make up this army. Nothing, however, would be done until he had fully investigated the duties and merits of each official in his department.

HON. ALEX. MACKENZIE'S HUMOR.

Toronto, July 21.—Apropos of the numerous applicants for office when there is a change of Government, Mr. T. C. Irving, of Bradstreet's, who was for many years election agent and an intimate friend of the late Hon. Alex. Mackenzie, tells a good story. One day Mr. Mackenzie called at his office in connection with election matters, when the conversation turned upon Government office-seekers. Mr. Irving said: "Mr. Mackenzie, when you were Premier, you must have been pestered with office-seekers." "Yes," he replied. "They were more bothering me than running the country. One day a man who must have been 60 years of age came knocking a place in the civil service. His principal plea was that he was an orphan. I told him that I could sympathize with him there, because I was an orphan myself."

OTHER POLITICAL GOSSIP.

A number of Conservative newspapers are making an outcry for a convention.

The Toronto World says it learned last night from a reliable Liberal source that the Laurier Government have decided to cancel postal holidays the list of Q.C.s made up by Dr. Montague and Hon. John Haggart prior to their resignation.

Hon. Mr. Laurier and Hon. Messrs. Blair and Fielding were entertained at lunch by Lord Aberdeen at the Citadel, Quebec, yesterday.

South Wellington Liberals will protest Mr. Klopfer's election.

The Laurier Club held a large and enthusiastic meeting in Montreal last night. Over 100 new members were elected, and it was decided to organize an excursion to Ottawa to see the Liberals take their seats on the opening of Parliament.

EARLY AT WORK.

The correspondent of the Mail-Enterprise says: "That Mr. J. Israel Tarte, Minister of Public Works, intends to continually appear at his office at 8 o'clock a.m. seems little less than a certainty. Shortly after returning from Montreal last evening he was approached by a gentleman who wished to fix an hour to meet him in his department. Mr. Tarte said he could see him at 8 o'clock this morning. The gentleman mildly suggested that 8 a.m. was a little early, but was curtly informed by Mr. Tarte that he had another engagement at 9 o'clock, and it would be necessary to come at that time mentioned if he wished to see him."

NO OPPONENT YET.

The campaign in John and Theraville, rendered necessary by the appointment of Mr. Bechard to the Senate, will be opened by a grand meeting at St. John's on Saturday afternoon.

Mr. Laurier, Mr. Blair, and Mr. Fielding and other Ministers will speak on behalf of Mr. Tarte, the new Minister of Public Works. So far Mr. Tarte has no opponent, and it is altogether likely that he will be elected by acclamation.

ON THE RAMPAGE.

Sir Adolphe Caron, the leader of the French Conservatives, is now making a tour of his new constituency, St. Maurice and Three Rivers. Yesterday he spoke at St. Barthelemy and at St. Sever.

He charged Mr. Laurier with having betrayed the Province of Quebec in the distribution of portfolios, and held that it had never been so badly treated and that the citizens of the Province should resent this. Sir Adolphe is to preside over a meeting of the Conservative members and late cabinet today in this city to arrange for the contestation of the return of their oppo.

Do You Use It?

It's the best thing for the hair under all circumstances. Just as no man by taking thought can add an inch to his stature, so no preparation can make hair. The utmost that can be done is to promote conditions favorable to growth. This is done by Ayer's Hair Vigor. It removes dandruff, cleanses the scalp, nourishes the soil in which the hair grows, and, just as a desert will blossom under rain, so bald heads grow hair, when the roots are nourished. But the roots must be there. If you wish your hair to retain its normal color, or if you wish to restore the lost tint of gray or faded hair use

The Justice Mill.

"Billy" Williams Stole His Dog and Gets Off Free.

More Bicycle Brawl Breaking—Boys Fined for Bathing at the Cove.

Magistrate Parke's court this morning was interesting while it lasted. There were two William Harts up one for allowing his horse to run at large and the other for drunkenness.

William Williams, whose love for his dog caused him to break into the pound and take out his pet, sat in the dock.

The P. M.—Williams, you are charged with malicious damage to property in breaking the pound. What have you to say? The prisoner said nothing.

Carstaker Burdick went into the box and said that yesterday the dog catchers had trapped the dog, and that Williams had followed them around all morning and loitered in Queen's Park in company with three other men. He tore one of the boards off the roof of the pound and took his dog out. Witness gave chase, and after nearly an hour, over fences and through back yards, captured him and the dog in a closet. He handed the dog back to the pound.

The P. M.—You know you have no right to take the dog away in that manner. I'll let you go this time, but mind, don't do it again.

W. D. Willis pleaded guilty to riding a bicycle on the sidewalk and was fined \$1.

J. H. A. Beattie pleaded guilty to a similar charge, but went into a long recital to show that it was necessary for him to ride on the sidewalk to get into his residence, as the road was in bad condition. One dollar fine was imposed.

Percy Peto was another victim. Mr. Beattie appeared for him and pleaded not guilty. At the place where he had ridden there was no sidewalk. He told of the street being narrow and necessary to prove that he was on the sidewalk. He had ridden on the inside of the path on the south side of Ridout, where there was no plank.

The magistrate didn't see things this way, and fined Peto \$1 also.

Mr. Beattie thought this a gross injustice.

The P. M.—I don't think you ought to make a remark of that kind. Bad roads are no excuse for riding on the sidewalk.

William Hart, for allowing his horse to run at large, was fined \$10. He explained the error to the P. M.'s satisfaction and was discharged.

William Hart, No. 2, no relation to No. 1, was a drunk from Sarnia. He was fined \$10 for being out of town.

Richard Egeon and George Vick were two young men summoned for indecent exposure and bathing in the Cove at the street railway bridge.

Chief Williams stated that several complaints had been made to him about this matter, and it had to be stopped. In his opinion the boys were worthy of severe punishment. They were fined \$2 each or three days in jail.

William Smith, a third offender, failed to respond to the summons, and a warrant has been issued for his arrest.

trust him

You want Scott's Emulsion. If you ask your druggist for it and get it—you can trust that man. But if he offers you "something just as good," he will do the same when your doctor writes a prescription for which he wants to get a special effect—play the game of life and death for the sake of a penny or two more profit. You can't trust that man. Get what you ask for, and pay for, whether it is Scott's Emulsion or anything else.

London, Tuesday, July 21.

It is noted by the curious that Sir Charles Tupper, father, Sir Charles Tupper, son, and Hon. A. R. Dickey, nephew, continue associate bosses of the Conservative party.

According to a writer in a leading German newspaper England leads the way in the production of furniture, glass, carpets, wall papers, and all the other articles which make up the artistic and comfortable home, and nowhere are these goods more popular than in Germany. "From month to month," he adds, "we hear and see more frequently that English and American furniture, carpets and stuff are imported wholesale and sold, that rich people fit up their houses in the English style—in short, that something like an Anglo-American fashion threatens us, in the same way as a French fashion long ruled us in the past." There are "English shops," in all the great towns, and the best and most costly manufactures for household use "find a ready sale, because they are well made, because they are useful and convenient, and, finally, because they are artistic in design." This is how the German manufacturer is supplanting the British, is it?

The Buffalo Express makes the unique claim that its town is the best summer resort in the country, because beer is now sold there at 2 cents a glass. Those who drink the beer have yet to be examined on the subject.

Speaking in East York, the other day, Mr. McLean, Conservative M.P., said that the defeat of the party in the country would "afford an opportunity to reorganize and get rid of some who will have to take a back seat and give an opportunity for the young men to show that they can formulate and carry out a policy that will meet with the approval of the people." Mr. McLean is one of the leaders of the opposition to Tupper Family Compactism.

If, as a Rome, N. Y., farmer affirms, the ravages of the army worm can be stayed by putting a window of salt around a field, the cure of the pest will be easy and cheap. The idea is that when the worms attempt to crawl over the row of salt enough of it will adhere to the pests to destroy them. Salt as an insecticide is not valued half as highly as it ought to be.

Mr. Walt A. Ratcliffe, of Listowel, Ont., who is blind, deaf and dependent, has written an interesting series of political pieces on the late political campaign, entitled, "Laurier and Victory." These have been printed in an attractive cover and are being sold by Mr. Ratcliffe at 15 cents a copy, the Toronto News Company being the publishers. Mr. Ratcliffe intends to use the profits of his little venture to print a more pretentious volume. No doubt many readers of the "Advertiser" will give this deserving man a lift by buying his little book.

The Ottawa News Factory. These are the dog days, without a doubt, and the extravagant telegrams that are being sent out from Ottawa by correspondents of Conservative and so-called "independent" journals emphasize the fact. These voracious authorities never let a day go by without conjuring up, from their inner consciousness, some sensational development regarding the alleged doings of the new Ministers. One day they tell us that a Minister is at daggers drawn with his neighbor, and that they "never speak as they pass by." The next, they shift the manufactured hostilities to another section of the Ministry, and express the gravest fears as to the result. Again, they discover that hundreds of workmen are about to be dismissed, and hundreds taken on in their places. And when it is shown that any changes are merely the ordinary after-election settlement of departments, they fall back on the allegation that it is reported wholesale dismissals will take place soon, anyway. That yarn exploded, they turn to the Ministers once more, and they allege that Sir Oliver Mowat is about to resign his position as Minister of Justice, and become Lieutenant-Governor of Ontario. Now, though it is undeniable that Sir Oliver would make an ideal Provincial Governor, it is known that the question of a successor to Lieutenant-Governor Kirkpatrick has not even been discussed by the new Government at Ottawa. But there is no restraining these space writers in Ottawa between seasons. If there is no news going they make it. What is all.

An Oil Boom.

A petroleum boom has been started in Great Britain. The intention is to purchase the whole of the oil wells in Galicia, now variously owned in the Schodnica district, and run them as a British institution. In recent months, it has not been very difficult to set on foot any new company in the British metropolis, provided reasonable prospects were held out. During last month, the average was four companies floated every day; the capital called for during the first half of 1896 was \$406,000,000. Sixty-five millions were for foreign government loans, fifty-five millions for cycling companies, forty-five for breweries, sixty for railroads, and forty-seven for mining companies. Last year the capital applied for during the same period was \$260,000,000, in 1894 it was \$155,000,000, and in 1893 only \$130,000,000. These are proofs that Britain still continues to be the great money market of the world.

Homes for Millions in Northern Ontario.

This is a great country, and we are constantly having new and sensational developments of its resources. The silver, gold and lead deposits in the Rocky Mountains between British Columbia and the Northwest Territories, are found to be richer than the most sanguine had anticipated, and a great future is before them. On the other hand, we have many and varied resources in Northwestern Ontario and surrounding unexplored territory, which, when developed, will add greatly to the wealth of the country, and give food and happy homes to millions of settlers yet to be. Examination of a carefully-prepared map of Canada, first published during the dispute between the Dominion Government and the Administration of the Province of Ontario, proves that the almost entirely undeveloped territory was considerably larger than the remainder of the Province. At that time, it was represented that the disputed territory and the lands on either side of it were worthless, and that Sir Oliver Mowat's Government, in wishing to control them, for the benefit of the people of Ontario, was but endeavoring to nurture a white elephant. So little was known at that time of the greater portion of the territory lying towards James' Bay that those who made the statement were quite safe in making it. Indeed, the map of a dozen years ago, now before us, gave no more information than was to be found on the average school map of Central Africa prior to the explorations of Captain Speke and Grant, Dr. Livingstone, and Stanley. For many hundreds of miles all was blank except the tracings of rivers started by Indian tradition to flow in various directions to the great southern arm of Hudson Bay. The mouth of the Noddawal River, for example, was marked on the chart of Hudson Bay, but until Dr. Robert Bell, of the Dominion Geological Survey, explored the territory last year the maps were found to be all astray about the interior. Instead of several separate rivers running northward across this great unknown tract, it proved to be drained entirely by the Noddawal and its tributaries, which thus form a counterpart to the Moose River and its branches. The latter drain all the country southwest of James' Bay, while the Noddawal system of rivers drains the whole region to the southeast of the bay. The areas of these two great river systems appear to be of nearly equal extent, each covering some 60,000 square miles or thereabouts, being quite equal in extent to that of the Ottawa. The western, or main, branch of this river was named the Bell River after Dr. Bell's discovery was made known last year. It starts from near the northern boundary of Grand Lake, on the Upper Ottawa. The valley of the upper part of it is in direct continuation of the long western arm of this lake, and it is separated from it by a deposit of sand which has blocked up the ancient northward outflow of the lake, and now constitutes the height of land at this place. One stretch of this great river, 60 miles in length, Dr. Bell says, is navigable for good-sized steamers, being from 25 to 40 feet deep and uninterrupted by rapids. Other smooth stretches are also adapted for steam navigation.

What is of even greater importance to Canadians everywhere is the statement made by Dr. Bell that there is an immense tract of loamy and clayey soil, well adapted for agriculture, and the climate appears suitable for ripening grain of all kinds, including wheat; and it will also prove a splendid country for dairy-farming and stock-raising. The cattle and other domestic animals produced from imported stock at Moose Factory, Rupert House, and Eastmain River, to the north of the most northern part of the country, here referred to, Dr. Bell says cannot be excelled in any other part of Canada. The forests of the whole region, except in some small sections, are still unburnt, and will be of great value. The white and red pine are found only in the southern part of it, but there is an abundance of fine spruce, tamarack, and other timber. This new region will support a large white population some day when opened up by railways. It will add so much to the width of the habitable part of the Dominion which every one knows has length enough, but was supposed to lack breadth. Dr. Bell has started out to continue his explorations in this timberland of Ontario, and we may expect to learn much that will interest us when he next emerges from the wilds and re-enters civilization. His

researches prove that the people of Ontario have at their doors abundance of room to expand their energies as time rolls by.

HOW IT STRIKES SOME.

HINTS FOR DAIRYMEN.

The Care of Milk for Cheese-Making—Patrons Should Be More Particular This Season.

Cheese buyers report that an unusually large quantity of cheese this season is not as fine in quality as last season. The flavor is not good, and in many instances the cheese are harsh and dry and are not the proper kind for the export trade.

Among others there are one or two chief reasons for this. Prices are so low that patrons are neglectful about caring for the milk properly, and do not think it pays to go to any extra trouble, while dealers are necessarily more particular about the quality because of the low prices. The makers are not at all blameless in this matter. Many of them seem to have lost their usual good judgment and are not carrying on their work according to the latest and best methods.

Patrons of cheese factories are urged to give particular attention to the following:

1. All milking pails or cans should be sterilized by boiling hot water before any milk is put in them.
2. The milk should be strained in every case so as to eliminate any dust or dirt that may have gathered during milking.
3. As soon as the milking is done the milk should be thoroughly and properly aerated. This can be done by means of some of the agitators or by dipping and stirring with a long-handled dipper. The morning's milk should be as thoroughly aired as the night's. The animal house should be taken out before the milk comes off the cow.
4. A can of milk that is badly tainted or has a foul odor will injure the whole vat of milk and prevent a first-class cheese from being made of it. Hence the neglect of one or two patrons may injure the whole output of the factory.
5. A bad taste in milk may not be detected when the milk is being taken in, but may develop when the milk is heated, and injure the whole product. The maker cannot do much to correct the bad milk when being taken in, and has to depend upon the carefulness of the patron in performing his duties.
6. It is better not to supply milk at all, if it cannot be supplied in a pure condition. A maker cannot make good cheese from poor milk.
7. When prices are low a better quality of cheese is demanded, and patrons can assist makers in supplying this by taking the very best care of the milk, and sending only a pure article to the factory.

Convincing Evidence That Lactated Food Is the Best.

The manufacturers of Lactated Food have the strongest letters from medical men, hospital authorities and managers of Infants' Homes, recommending the use of Lactated Food. The present food for this purpose is a poor one. Lactated Food is wonderfully large, showing that mothers and physicians everywhere have confidence in it.

Lactated Food has saved thousands of lives after failures with medicines and other foods. The standing boast of Lactated Food is: "It saves babies' lives."

A little boy not many miles away, on going home the other night, told his father: "I saw the coolest thing just now, father, ever I saw in my life." "What was that, John?" replied his father. "A cart of ice." "And in two minutes he wished he had a cart of ice to sit on."

LIFE SAVED.—Mr. James Bryson Cameron states: "I was confined to my bed with inflammation of the lungs, and was given up by physicians. A neighbor advised me to try Dr. Thomas' Electric Oil, stating that his wife had used it for a great trouble with the best results. Acting on this advice, I procured the medicine, and less than a half bottle cured me; I certainly believed it saved my life. I was with reluctance that I consented to a trial, as I was reduced to such a state that I doubted the power of any remedy to do me any good."

Talk about absent-mindedness, said a man the other day—why, I like it for, when I was a boy, I worked for a man who was so absent-minded that he discharged me three times in one week and paid me a week's wages each time.

Mrs. Selette Coon, Syracuse, N.Y., writes: "For years I could not eat many kinds of food without producing a burning, excruciating pain in my stomach. I took Farnley's Food according to directions under the head of 'Dyspepsia or Indigestion.' One box entirely cured me. I can now eat anything I choose without distressing me in the least." These pills do not cause pain or griping, and should be used when a cathartic is required.

and will push itself along. It starts on July 1. From that date on until our surplus stock is cleared out, look out for bargains. We mean to dispose of it. Some of it we will give away. The balance will be sold at sacrifice prices. It will pay you to buy even though you may not need the goods just at present.

190 Dundas Street.

A Brother's Error.

This incensed the outlaws, and one of them, more impetuous than his companions, picked up the blazing torch and hurled it into the house. In a few minutes the building, doomed out of the darkness and a cruel red light flashed in the windows.

Going back, the Prophet said: "See, Valentine Kyle, your house is on fire! It is but a speedier form of the ruin that must come to every temple erected by human hands."

"It was the only home left me in the wide world," sighed the heart-broken man.

"Nay, speak not so. I have a valley more beautiful, though not so extensive as yours, and I have a home that all the torches that ever flashed could not burn down. Fear not for the cold or the hunger; my ravens will bring us food," said the Prophet with contagious energy.

CHAPTER XVI.

We left Henry Kyle in charge of Bouton's camp. Scarcely had Bouton departed when Kyle went to Alice Blanchard and informed her that he was about to leave. He advised the sisters to depart with him, but they resolutely declined to trust to his good faith.

Going to where his saddled horse stood waiting him, Henry was in the act of mounting when he heard someone creeping toward him. A flash of lightning from an approaching storm revealed Patch. The report of Henry's pistol and a clap of thunder followed simultaneously. Then he mounted and galloped for the mountains.

Henry Kyle's shot unfortunately did not take effect on the would-be assassin. Patch was untouched, but thoroughly frightened. When the horse galloped off, Patch sat on the ground and felt all his limbs to make sure that he had not been hurt. When he became satisfied on this point, his spirits and his courage rose wonderfully. He was saved a job that from the first he did not like, not because he would hesitate to do murder, but because, like all men of his class, he was at heart a coward. He went directly to the place where the sisters were sitting, and when he was within a few feet of them he threw himself on the ground, saying at the same time:

"This is a mighty dark night, ladies."

The ladies made no reply, whereupon he repeated:

"It's a mighty dark night, ladies, and looks as if we must have right smart of a storm."

Still no reply. "Don't you hear me?" he asked anxiously.

"We do," replied Alice.

"Then why don't you speak?"

"Why should we speak?"

"Because it's perille, and when I ax a civil question of a man or woman, blow me, but I like a civil answer."

"But you did not ask a question. You simply volunteered an opinion," said Alice, with the calmness of tone that distinguished her.

"Waal, we won't quarrel about pints like that. I ain't much on the talk, I'll confess, and maybe you ladies like you uns mout think me a bit rough, but when you git down under the husks, even if I do say it myself, there ain't many better fellers than me."

After exchanging a meaning glance with her sister, Alice Blanchard became more gracious to Patch, and that monster, delighted at the change, then and there declared that if they would trust him he would take them to their friends "without a cent of pay."

In response to Clara's question he told how this could be done, and did he dream that the sisters had planned to get away from the outlaws that night.

When, at length, Patch left, the sisters, with more light on the question, renewed the conversation. Their horses were below the camp, and believing that it would be safer and easier to ride than to walk, Clara proposed that they should attempt to secure them. She had the Weldon decision of character. Securing on their persons a few necessary articles from their saddle-bags, including a knife, they started for the storm to break with as much eagerness as those in profound darkness wait for the light.

At first the fury of the storm alarmed them, but they soon became calm, and hailed its roaring as the voice of a friend. The rain fell in a deluge, but this they did not mind. It shielded them from their foes. At first the lightning was so vivid and continuous that it kept the camp and the surrounding landscape lit up. It revealed to them the horses, and joy! two of them were saddled with their own saddles and another near by bore a man's.

"If they follow us on horseback," thought Alice, "the danger will be increased. I must free all the animals."

She made Clara wait in the bushes by the river, and, knife in hand, crept forward and began to cut the ropes that held the uneasy horse to the stakes. Every one was freed. She secured the two on which she and Clara were to ride and hastily led them to the river. They were in the act of descending the bank, when the lightning flashed out again, and they heard a maddened shout behind them. Alice looked back, and not ten yards away she saw Sam Bliss galloping like a wild man and shouting all the time. Answering shouts came back from the camp. The horses, discovering they were free, went snorting and plunging madly about. Pistols were discharged, and the whole camp was an uproar that drowned out the rushing of the storm.

Keep close to my side, Clara. Now liberty, in God's name!" said the bold Alice.

They turned their horses to the river and boldly dashed in. The banks

on both sides were low, but the rain had already swelled the bed, and the cold current rose to the girths and soon began to float the manes of the horses. It was so dark that they could not see the opposite bank and so had to be guided wholly by the frantic shouting and shooting behind them. The instinct of the horses served them well. The animals, though forced to swim down 200 yards by the mad current, kept their nostrils pointed to the opposite shore, and went on until they stood dripping on the other bank.

HOT WEATHER BLUES.

And Paine's Celery Compound.

The hot, fiery weather of midsummer is extremely trying to those who are weak, nervous, sleepless and used up. Just at this time, half-well people suffer from what is termed "hot weather" blues. This means a general feeling of nervousness, an oppression that makes daily life a burden. When the "hot weather blues" overcome a person, there is always a great lack of nerve force and power, and bodily strength is at a low ebb.

Many will ask, "What can we do that we may be enabled to attend to business and enjoy life like others around us? Why, do just as thousands of others have done, banish the cause of the 'blues' by using Paine's Celery Compound for a few weeks. This marvelous tonic medicine will restore your vitality; it will strengthen the nervous system; it will cleanse the blood and give you new feelings and aspirations.

Thousands have found Paine's Celery Compound to be an invaluable agent in the hot weather for keeping up activity, appetite, perfect digestion, and for promoting sweet and refreshing sleep. Paine's Celery Compound will banish the 'blues,' and put every weary and used up man and woman in such a condition that work will be a pleasure, and life will be worth living.

Marshal Field, the millionaire merchant of Chicago, it is said, intends to make Washington his winter home. He is to build a palace of such proportions as to give his entire a profound impression.

THERE is not a more dangerous class of disorders than those which affect the breathing organs. Nullify this danger with Dr. Thomas' Electric Oil—a pulmonary of acknowledged efficacy. It cures soreness and lameness when applied externally, as well as swelling, necrosis and crack in the back; and, as an inward specific, possesses most substantial claims to public confidence.

MUNYON'S TRIUMPH.

It Has Been Proven That His Remedies Cure 90 Out of Every 100 Who Use Them

The Most Careful Investigations by the Press Result in a Glorious Victory for His New School of Medicine.

UP-TO-DATE

Ideas Score a Brilliant Victory Over Old Fogysm.

There is no question whatever about Munyon's complete victory over the old way of treating disease. Such testimony has never been received in London by all of the different medical preparations in the world together as by the Munyon Remedies Company during the past two weeks. Hundreds have been cured who do not report this fact to the papers, or to representatives of the company. It is every day talk in this city now to hear a person say: "I have been using Munyon's, and I am well again."

cured with one or two bottles of Munyon's remedies, and at a cost not exceeding the price of one visit from their physician. Few persons have declared they have received no benefit, and some of these after visiting Munyon's representative at the Tecumseh House find that they have not taken the proper course, and feel confident of recovery in the near future.

Prof. Munyon invites physicians of this city to send him the name and address of any patient whom they acknowledge cannot be cured by their methods, on receipt of which the professor will administer such remedies as he thinks proper, free of charge, and allow the results to be published in the daily papers.

RHEUMATISM CURE.

Munyon's Rheumatism Cure is guaranteed to be absolutely harmless, and a strong tonic in building up the weak and debilitated. It cures acute or muscular rheumatism in from one to five days. Sharp, shooting pains in any part of the body stopped in a few doses. A prompt, complete and permanent cure for lameness, soreness, stiff back, all pains in hips and loins. Chronic rheumatism, sciatica, lumbago, or pain in the back, are speedily cured. It seldom fails to give relief from any kind of rheumatism, and almost invariably cures before one bottle has been used. Price, 25 cents.

STOMACH AND DYSPEPSIA CURE.

Munyon's Stomach and Dyspepsia Cure cures all forms of indigestion and stomach trouble, such as rising of food, distress after eating, shortness of breath, frequent belching, heart caused by indigestion, wind on the stomach, bad taste, offensive breath, loss of appetite, faintness, or weakness of stomach, headache from indigestion, soreness of the stomach, coated tongue, heartburn, shooting pains in the stomach, constipation, dizziness, faintness, and lack of energy.

NERVE CURE.

Munyon's Nerve Cure cures all the symptoms of nervous exhaustion, such as depressed spirits, failure of memory, restless and sleepless nights, pain in the head and dizziness. It cures general debility, stimulates and strengthens the nerves, and tones up the whole body. Price, 25 cents.

KIDNEY CURE.

Munyon's Kidney Cure cures pains in the back, loins or groins, from kidney disease, dropsy of the feet and limbs, frequent desire to pass water, dark colored and turbid urine, sediment in the urine, and diabetes. Price, 25 cents.

CATARRH CURE.

Catarrh positively cured. Are you willing to spend 50 cents for a cure that positively cures catarrh by removing the cause of the disease? If so, ask your druggist for a 25c bottle of Munyon's Catarrh Cure and a 25c bottle of Catarrh Tablets.

The Catarrh Cure will eradicate the disease from the system, and the tablets will cleanse and heal the afflicted parts and restore to a natural and healthful condition.

Munyon Liver Cure corrects headache, biliousness, jaundice, constipation, and all liver diseases.

Crushing Defeat.

Spaniards Under Indian Ambush by Maceo.

Spanish Leader Captured—Over 300 Per sons Killed by the Cubans.

Key West, Fla., July 20.—The Spaniards under Gen. Surarez Inclan have sustained a crushing defeat at the hands of the insurgents under Antonio Maceo. Not only was Inclan's column defeated with heavy loss, but it is currently reported in Havana that the Spanish general himself was captured and is now held as a prisoner by Maceo.

The battle is said to have occurred on July 15, near Maceo's stronghold, in the Province of Pinar del Rio. For the last two weeks the insurgents have been very aggressive, and some small parties have repeatedly attacked the troops, causing the Spaniards much annoyance. Gen. Inclan was ordered to drive back these detached bands of insurgents, and for this purpose took with him 2,000 men. Maceo seems to have expected such a movement, and arranged to ambush the Spaniards. He stationed a large force in a favorable position, and ordered his detached bands to draw Inclan into the trap. The Spaniards followed the insurgent skirmishers incautiously and fell into the ambush. Then the Cubans opened fire from all sides, which threw the Spaniards into confusion. While the Spaniards were thus disordered, the Cubans charged, completely routing their foes.

Gen. Inclan made a desperate effort to rally his demoralized forces, but was surrounded by the Cubans and compelled to surrender.

It is said in Havana that the Spaniards were pursued almost to the trocha, and lost more than 300 men killed and wounded. There were 11 officers among the killed. Cubans here also say that Maceo will hold Inclan as a hostage to save the lives of prominent insurgent officers who have been captured by the Spaniards. One of these officers is Capote. If this rebel leader is shot by the Spanish it is said Inclan will meet the same fate at the hands of Maceo.

IN A JEALOUS RAGE!A Tailor Shoots His Wife, Himself and
Several Neighbors.

Rockford, Ill., July 21.—Jas. French,
murdered his wife Sunday
afternoon, chasing her from Winni-
bag street into O. R. Gorcham's resi-
dence, where he shot her eight times.
He also attempted to kill Alfred Bur-
ker and County Clerk Norton, neigh-
bors who ran in to save her. Norton
was seriously injured.
French then ran to the river, five
blocks away, pursued by several hun-
dred citizens. He shot himself in the
head and then jumped into the water.
The police rescued him, and he may
live.

The tragedy took place in the fas-
hionable residence district just after
noon and created intense excitement.
The couple had separated twice. Jeal-

About the Liver.

A lazy, slow or torpid liver influences
the whole system, causing biliousness,
sick headache, sallow complexion, lan-
guor and dullness. Burdock Blood
Bitters regulates the liver, purifies the
secretions and cures all forms of liver
troubles. We say so and here is the
proof.

I hereby wish to thank you for the
great benefit derived by me from your
Burdock Blood Bitters. For three
years I was troubled with liver com-
plaint and tried everything to no pur-
pose. I had almost given up hope,
until one day I determined to try Bur-
dock Blood Bitters. I can say now that
marked improvement resulted from the
use of the first bottle, and at the end
of the sixth bottle I discontinued its
use, being completely cured.

room of the Talbot Street Baptist
Church last night was highly enter-
tained by Mr. and Mrs. Ernest Grigg,
returned missionaries from Burma.

In the course of a very interesting ad-
dress, Mr. Grigg described the growth
of the mission work started in Bur-
mah by Rev. Mr. Judson, 33 years ago.
There are now 50,000 natives of that
country associated with the Baptists,
apart from the followers of other de-
monstrations.

Mr. and Mrs. Grigg were sent out
by the American Baptist Union three
and a half years ago, to labor among
the Chin people of Arakan, Burma.

Grigg, owing to the ill-health of Mrs.
Grigg, were obliged to return to this
country sooner than they intended.
The Chins live in the mountains, in a
very barbaric state, and twelve years
ago had not been reached by the Gos-
pel.

At present there are 400 Christian
Chins, 13 churches, 13 schools and 25
native teachers and preachers in con-
nection with the Baptist society. Mr.
Grigg's remarks were interspersed
with humorous accounts of the cus-
toms and habits of the people.

At the conclusion of his speech the
reverend gentleman and his wife ap-
peared in Burmese costume, and al-
ternately explained, in a very bright
manner, the various Burmese arti-
cles on exhibition. The collection was
most complete, and included every-
thing that could assist in making the
description of their eastern sojourn
as vivid as possible.

The meeting was very interesting and
instructive, and at its conclusion a
hearty vote of thanks was tendered
the speakers. A liberal collection was
taken in aid of the missionary work.

Mr. and Mrs. Grigg left this morn-
ing for Exeter, Ont., their former
home.

A Tavistock correspondent of the
Woodstock Sentinel-Review says: Mr.
Vance has returned from London with-
out his fine bay driver. It appears
that the Mr. Wilkins, fruit buyer, who
hired the animal from Vance, was
simply a decoy to get possession of
the animal. Mr. Vance has had the
animal in his possession for a period
of two years, having obtained him
from the late Mr. Deane, of North
Adam, the liveryman, of London, who
now by the trick of Thursday has
possession of the horse, claims that
he was stolen from him three years
ago, and that he has known for sev-
eral weeks that the horse was in Tav-
istock. Mr. Vance does not say
whether he will push his claim or not.

**DEATH OF MRS. H. A. MATHEW-
SON.**

Very many friends will regret to
hear of the death of Mrs. Mathew-
son, relict of the late H. A. Mathew-
son, who was secretary-treasurer of
the Free Press Printing Company.
Her death occurred yesterday at the
residence of her sister, Mrs. Wm.
Haldane, Wellington road, Westmin-
ster, after an illness of nearly two
years. She had been confined to her
room for six months past. Deceased
was a daughter of the late Dr. J. J.
Lancaster, of this city, and was very
highly esteemed. She was twice mar-
ried, her first husband being Mr.
Newcombe, of Peekskill, N. Y. De-
ceased took a very active part in
charitable work in this city, having
been secretary of the Protestant Or-
phans' Home, secretary of the Wo-
men's Christian Association, and a
member of the W. C. T. U. McCall
Mission and other circles, besides be-
ing a prominent worker in the First
Congregational Church.

She was a talented lady, and some
of her work as an artist is quite mer-
itorious. She wrote shorthand, which
she turned to account in her duties
as secretary. One daughter, aged 19
years, survives her. The interment
will take place tomorrow at Mount
Pleasant Cemetery.

DIGGING FOR GOLD.Important Discoveries Just Made in
British Columbia.

Rossland, B. C., July 21.—Silvanite,
or telluride of gold, was discovered
in the Evening Star mine at Trail
Creek on Saturday, and considerable
quantities of free gold. Some of the
pieces of ore assayed \$1,600 to the ton
in gold. A strike of importance was
also made in the Monte Christo claim,
adjoining the Evening Star. A body
of very fine ore was encountered in
the upper tunnel, which assayed \$16
to the ton. The strike is within 20
feet of the surface. The strike re-
ported in the city of Spokane is all
that was claimed for it. The quality
of the ore is improving with every
shot. The mine is now regarded as
a second War Eagle.
