Mr. Fielding, Mr. Pardee Address Gathering at Sarnia.

TELL STORY OF WISE GOVERNMENT

In Stiring Speeches the Lambton Voters Are Shown Progress of Laurier Administration.

[By Our Own Man.]

Sarnia, Sept. 28. - The campaign opened here this evening, when Hon W. S. Fielding, minister of finance, on behalf of Mr. F. F. Pardee, the late member for the riding. The meeting was a most successful one, the opera house being filled to capacity, while hundreds were unable to obtain admission. Mr. Fielding was in excellent form, and dealt with the financial policy of the Laurier Government in masterly style. Addresses were also de- now running a fast freight train from livered by Mr. F. F. LONDON, TUESDAY, SEPT. 29.

A FALSTAFF'S ARMY. Has a political party in Canada ever

gone into an election so bankrupt in brains and character as the present federal Opposition?

It is impossible to compare the men behind Borden with the lieutenants of Blake and Laurier, when the Liberal party was in Opposition. There is no comparison-only a contrast.

Cartwright, Mulock, Mills, Davies, Fisher, Paterson, Geoffrion and Scottthese were some of the men who for years carried the federal banner of the Liberal party in its darkest days. Every one of them had a national reputation, and was acknowledged to be fit for the highest responsibilities. The great name of Mowat was added in the campaign of 1896.

The Liberal leader in Opposition was surrounded by giants. The Conservative leader in Opposition is surrounded by pigmies. Who have been Mr. Borden's lieutenants in the House of Commons? Apart from Osler, who is a C: P. R. director, and Monk, the French-Canadian leader has there been a man of first-class ability and untarnished reputation behind Mr. Borden? There is Foster, who in office betrayed his leader, and in private life violated more valuable form of assistance than ler, who remains silent under a sorry proportionately to the cost of an imaccusation, and whose western deals perial navy they would have a right have been a public scandal. There is proportionate to their contributions to his secret negotiations with railway in time of war this right would be exis Pope, the ringleader of the gang, equivalent to the amount of the confrom Parliament. There is Bennett, a sistance to the imperial fleet in time of might have added, with truth, that chant for slander and coarse abuse. and who was leagued with Pope and Fowler in some of their western exploitations.

Such are the men who are in the front rank of the federal Opposition! THE BRITISH OVER-SEAS STATES

AND THE NAVY. The announcement that the British admiralty has given its general approval to Australia's scheme for the formation of a "mosquito" flotilla as the nucleus of an Australian navy is important in that it indicates a change of attitude on the part of the naval

At the second colonial conference they advanced the theory that as the sea is all one, though there may be many colonies, there should be but one admiralty and one fleet, though divided into many squadrons.

Cape Colony and Natal accepted this view and principle, and have contributed in a small way to the imperial navy without any conditions as to their local defence at sea or any at- King, which every young Canadian tempt to influence the discretion of the should inwardly digest: admiralty in its dispositions.

Australia, however, has always insisted on the presence of a small fleet in her waters as the condition of her subsidy, and latterly appears to have practically decided to have a fleet of her own, and not trust wholly to imperial protection. The fact that Canada has taken over the garrisoning of the naval stations at Halifax and Esquimalt is taken to mean that the Dominion inclines to the Australian rather than the South African view.

Of the two alternatives-one imperial fleet supported in part by colon-1al contributions, and an imperial fleet under the admiralty, with colonial ities. TAXATION REDUCED. In 1896, under the Conservative tariff, \$18 28 was the average an paid upon every \$100 worth of goods imported into the country. Under the Liberals, the average rates per annum have been as follows:

1897 \$17 87 1899 16 70 1902 15 09

If, since the Liberals have been in power, the Conservative average rate One year \$5.00 of taxation in 1896 had been levied upon all the imports, nearly fifty million dollars more duties would have been collected. That is the fair measure of the reduction of taxation brought about by the Liberals.

> movements in time of war would re-! main in the hands of the admiralty, for a polecat. What masterly repartee! no fleet could act under orders from half a dozen centres, and no scheme giving the colonies representative control at the admiralty is conceivable. That the colonies would consent to

The cost being small will render it almost certain to carry, and energetic handling of this scheme would result in the water being delivered to the city before the dry period of next year, and it is hardly likely that any extensive addition to our waterworks plant would be in operation so soon. The absolute necessity of obtaining more water by next summer needs no argument at all. and this can only be accomplished by undertaking some small and simple proposition such as the Kilworth addition, which does not need anything in the way of city piping, building, pumps or other appurtenances, which would delay the completion of the work. CANADA'S LEADING CLOTHIERS

Men's New Fall Suits and Overcoats

Now is the time when the men who are always ahead of the "crowd," are coming in for their Fall Clothes. That's the secret of their success. They buy here and buy early. That's a tip for you.

Of course we're ready. Not with our entire season's stock, like most stores. No, that's not our way. Our factories are now "humming" and will be all season. And as they finish the stock it comes to our tables.

Which means: We are showing the biggest assortment today in town. And tomorrow we'll show more new styles, and likewise next week and so on through the season. Our values are always best. We tailor our own clothes in our own factories. That explains the superiority of Grafton styles, too.

PRICES FOR ALL FALL SUITS AND OVERCOATS, \$6.95, \$8.50, \$10, \$12, \$15, \$18, \$20 and \$25

Long Trouser Suits for Young Men Of Fifteen to Twenty Years, \$8.50, \$10, \$12, \$18

Boys nowadays turn to Long Trousers when they are about 15 years old—a result due to the evolution of clothing. Grafton Suits give the growing youth a manly bearing with youthful lines and effect, instead of the appearance of wearing the hand-me-downs of their father or elder brother. No wonder boys long for such clothing.

We have enlarged this feature this season and have large stocks at \$8.50 to \$18.00-and every suit adheres to the Grafton standard. Instead of clothing your boy with cheap, shoddy and cotton clothing you can buy allwool and Grafton-tailored clothing at as little and less prices than you have been paying for the other kind with such poor results.

All sizes for men. Cut to fit perfectly in generous, comfortable sizes. There are white and colored grounds with neat spot, stripe or fancy patterns. Included are plain blue chambrays. Fashionable, soft-front styles that every man will need for fall. Getting them now means a saving of 31c on each shirt. Not only that but you're getting the best Dollar Shirt in Canada. They are Shirts that any man would be pleased to wear. Better get a supply tomorrow. Value \$1.00. Special price tomorrow69¢

This victory gives the Tigers the same number of games to play as the two rivals. All three now have eigh contests remaining. The Tigers hav out to win as many games as the two opponents to win the flag.

Today, barring rain, will prob ably be the biggest day of the year fo the American League. The Tigers pla a double-header with the Senators an Cleveland takes on Philadelphia fo two, while Chicago does the sam with Boston.

Jennings sent Killian to the moun yesterday and the southpaw got awa well. He was given the fastest support, Jerry Downs and Bush espe cially starring in the fielding lin while Schmidt put up an article catching that showed him to be st working at his best.

Tom Hughes was Cantillon's offer ing. The tantalum lamp is very desirable from the fact that it is of high efficiency, but it is not adapted for many of the fixtures at present in use, for the reason that it must hang vertically, whereas more often than not, the lamps in the existing fixtures 0! hang at an angle. An adapter has been recently invented by which this 13 discrepancy is overcome.
