(*Not printed.*)

VOLUMES—SPECIAL.

- No. 147. HALIFAX COMMISSION:—Return to Address, Documents and pleadings relating to the questions decided by the award rendered at Halifax, on the subject of the indemnity of five millions five hundred thousand dollars, under the Treaty of Washington.

TABLES
OF THE
TRADE AND NAVIGATION
OF THE
DOMINION OF CANADA,
FOR THE FISCAL YEAR ENDING 30TH JUNE,
1877.

COMPILED FROM OFFICIAL RETURNS.

*Presented to both Houses of Parliament by Command of His Excellency,
ISAAC BURPEE, Minister of Customs.*

OTTAWA:
PRINTED BY MACLEAN, ROGER & Co., WELLINGTON STREET.

*To His Excellency the Right Honorable Sir FREDERIC TEMPLE, Earl of DUFFERIN,
K.P., K.C.B., P.C., Governor General of Canada, &c., &c., &c.*

MAY IT PLEASE YOUR EXCELLENCY:

The undersigned has the honor to present to Your Excellency the Tables of TRADE and NAVIGATION of the Dominion of Canada, for the Fiscal Year ending 30th June, 1877, as prepared from Official Returns, and laid before him by the Commissioner of Customs.

All of which is respectfully submitted.

ISAAC BURPEE,

Minister of Customs.

OTTAWA, 20th January, 1878.

CUSTOMS DEPARTMENT,

OTTAWA, 10th December, 1877.

To the Hon. ISAAC BURPEE,

Minister of Customs.

Sir,—In laying before you the Trade and Navigation Tables for the Fiscal Year ended 30th June last, I do not feel it necessary to offer any lengthy explanations in reference thereto, because they are so compiled as to afford the most extended and distinct information respecting the Imports and Exports and the shipping interests of the Dominion.

The classification of Imports and Exports has been so extended as to embrace, separately, nearly all the leading articles known to commerce, and in the cases in which goods are reported in groups, care has been taken that such groups shall be composed of articles having a close affinity with each other. I may state that owing to this extension of the classification the volume has necessarily greatly increased in size, and any further extension would necessitate its division into two volumes.

I again reproduce the tables, Nos. 1 to 9 inclusive, published for each year since Confederation, adding to each the figures for the last Fiscal Year. In Table No. 8, "Rate of Customs duties per capita of population," the percentage for the Province of Manitoba is this year calculated upon an estimated population of 30,000, instead of the Census population of 1871. This estimate cannot be considered excessive, and it brings the proportion of duties paid per head into nearer proximity to that of the other Provinces.

No. 1.—Value of total Exports, Imports and Goods Entered for Consumption in the Dominion, with the Duty collected thereon, for ten years.

NOTE.—In connection with the foregoing table it has been ascertained, by careful enquiry of the principal Importers, that about 50 per cent. of the goods imported at the Port of Montreal are sold to parties residing in Ontario, and hence by adjusting the revenue from Customs Duties on that basis, the following table will give a more equitable view of the actual contribution of each of those provinces, and of both combined, to the Dominion Treasury.

Year.	Per Capita percentage of Duties paid in Ontario, adding 50 per cent. of the Duties collected in Montreal to Ontario Revenue.	Per Capita percentage of Duties paid in Quebec, deducting 50 per cent. of the Duties collected in Montreal.	Per Capita percentage of Duties paid by the combined Population of Ontario and Quebec.

From an examination of the returns from the principal Ports of entry, and information otherwise obtained, I am led to believe that prices of general merchandise have continued to recede. At the end of the Fiscal Year 1875-76 it was generally believed that market values had reached bottom, and the tendency thereafter would be upward, but the result has not justified that expectation. It is true that sugar and molasses shew quite a considerable advance upon the average of the year's importations. The rise has not been sustained, however, but has receded since the first of July last below its former level.

In hardware there has been a marked decline in prices, especially in imports from the United States. English heavy hardware has fallen about $7\frac{1}{2}$ per cent., and heavy shelf goods in the same line about 5 per cent. The same classes of goods, however, from the United States shew a general decline of about $12\frac{1}{2}$ per cent.

Iron from Great Britain has fallen materially, although previously at an unusually low figure. Bar, rod, hoop, and nail sheets have declined 20s. to 25s. sterling per ton, and galvanized iron 35s. to 40s. sterling per ton. Tin plates 3s. to 3s. 9d. per box, and Canada plates 1s 6d. to 2s. per box.

Cottons and cotton goods have fallen generally from 5 per cent. to $7\frac{1}{2}$ per cent., including brown ducks and cotton flannels from the United States.

Stationery from Great Britain does not appear to have sensibly receded in price, but that from the United States appears to have fallen to a serious extent, viz.: Paper about 10 and other stationery from 10 to 25 per cent.

Drugs and chemicals, so far as they affect the Revenue, appear to remain nearly in *statu quo*. In free goods, however, such articles as "Caustic Soda" and "Sal Soda" have fallen about 15 per cent.

Teas.—It is very difficult to determine whether there has been an actual fall in the price of teas or not. According to the Trade Returns the average prices, both in Green and Black, of the Dominion imports have been steadily declining for the last four or five years. These averages shew, for Green Tea, in 1874, 35 cents; 1875, 36 cents; 1876, 29 cents; and in 1877, 26 cents per pound. For Black Tea, 1874, 28½ cents; 1875, 26½ cents; 1876, 26½ cents; and in 1877, 25 cents per pound. This falling off, however, may, and probably is, to a great extent, the result of smaller importations of the higher grades or classes, and larger importations of the inferior grades. From all the information which has reached this Department, it appears to be well established that there is a growing demand for good mediums and the lower grades, and a correspondingly diminished demand for the higher, probably resulting from the hard times. The reason why there appears so small a difference between the average price per pound of Green and Black Teas, is that all Japan teas are classed as Green, and they constitute a very large proportion of the whole.

These are but a few examples introduced to indicate the continuance, up to the end of the Fiscal Year, of the general depreciation of values and accompanying depression in commerce. It also points to the fact that less revenue has been realized than the tariff rates would have secured, if applied to goods purchased in a higher market.

It is further apparent, from the warehouse returns, that the necessary consumption of the year has been drawn to some extent from previous importations, the balances in warehouse at the close being smaller than at the commencement of the year; and various indications render it apparent that it has become the general practice of importers to order more frequently and in much smaller quantities than was their habit in more prosperous seasons. It is, perhaps, correct to assume that both measures are prudent, and will have a tendency not only to prevent extensive disasters, but to hasten the recovery of our Canadian commerce from its present depressed condition.

The following tables are introduced as a ready means of following the general course of trade in the Dominion with its fluctuations. The first, being a general statement, embraces the whole period from the date of Confederation to the 30th June last, and contains much interesting information in small compass. With reference to the great reduction in the percentage of imports over exports observable in 1876, it will be readily seen that the cause is attributable chiefly to a diminution in the value of imports of about \$30,000,000 as compared with the preceding year, while the exports, by the same comparison, shew an increase of over \$3,000,000.

Linens and woollens have declined from 7½ to 10 per cent. and silks from 10 to 15 per cent.

No. 10.

A COMPARATIVE STATEMENT of the Total Value of Imports and Exports of Merchandise, into and from the Dominion of Canada in each Year from 1867-68 to 1876-77; showing also percentage excess of Imports over Exports in each Year.

Fiscal Year ending 30th June.	Imports.			Exports.		Excess of Imports.		Percentage excess of Imports.	Percentage increase or decrease of		
	Total Imports, in- cluding Coin and Bullion.	Canadian, including Coin and Bullion.	Foreign.	Total.	Over Canadian Exports.	Over Exports, Canadian and Foreign.	Imports compared with preceding year.		Total Exports compared with preceding year.

								28,930,537

* The value of Coffee from Great Britain consumed in 1873, was \$95,482, and in 1874, \$131,367. The whole of the former, and \$115,983 of the latter, being included in the amount shown as the total value of free goods.

The total value of Tea entered for consumption in 1873 was \$3,287,318, of which \$3,285,486, is included in the value of free goods. The consumption of 1874 shows the diminished value of \$1,716,763, of which \$1,418,267 is also included in free goods. The reason for the great apparent excess of consumption in 1873, is found in the repeal of the duty on Tea and Coffee, which caused all of these goods in warehouse to be entered out free.

The excess of Free Goods imported from Great Britain in 1873 and 1874 is accounted for chiefly by the large supplies of Railway Iron received, and Tea and Coffee being then free, also Metals of various kinds being included, which were subsequently transferred to the list of goods chargeable with 5 per cent. duty.

No. 12.

In conclusion, I may be permitted to observe that the construction of all the tables in this volume, has been devised with special reference to the combination of the most extensive commercial information with the greatest possible conciseness and simplicity. It is more than probable that individuals will still fail to find in them items of information of special interest to themselves, and not being acquainted with the *modus operandi* whereby such information can be obtained by this Department, they may present requests which, if complied with, would involve much more labour and expense than the information was really worth, and even in some cases applications may be made, compliance with which would be found impossible, but so far as the means of the Department extend, all reasonable requests for additional statistics have been, and always will be, cheerfully answered in as full and satisfactory a manner as possible.

I have the honor to be, Sir,

Your obedient servant,

J. JOHNSON,

Commissioner of Customs.
