SIMSON'S LINIMENT

Gentlemen.—I wish to speak with approval of Simson's Liniment. Inving my knee fractured and the cords almost destroyed by a kick rom a horse, and other applications not proving successful to reduce the ain and soreness, I used the Liniment, which at every application at most took effect, and now I am able to walk nearly as well as ever. I ave also used the Liniment with great success in taking soreness from orns in horses after removing them.

Mr. G. O. Feliton, Stationer, of Trure, N. S., says: Simson's Liniment been used in my family this summer with good results, and we find cry pleasant in its operations.

This preparation is most effective for giving tone and strength to the enfeebled system, promoting the digestion and assimilation of food, restoring the nervous forces to their normal condition, and for purifying, curiching, and vitalizing the bloom. Failing Health.

Ten years ago my health began to fail. I was troubled with a distressing Cough, Night Sweats, Weakness, and Nervousness. I tried various reinedles prescribed by different physicians, but became so weak that I could not go up stairs without stopping to rest. My friends recommended me to try Ayer's Sarsaparfila, which I did, and I am now as healthy and strong as ever.—Mrs. E. L. Williams, Alexandria, Minn. I have used Aver's Sarsaparilla, in my family, for Scrotula, and know, if it is taken faithfully, that it will thoroughly eradicate this terrible disease. I have also prescribed it as a tonic, as well as an alterative, and must say that I honestly believe it to be the best blood medicine ever compounded. W. F. Fowler, D. D. S., M. D., Greenville, Tenn,

Dyspepsia Cured. It would be impossible for me to describe what I suffered from Indigestion and Headache up to the time I began taking Ayer's far-saparilla, I was under the care of various physicians and tried a great many kinds of medicines, but never obtained more than temporary relief. After taking Ayer's Saraparilla for a short time, my headache disappeared, and my stomach performed its dutes more perfectly. To-day my health is completely restored.—Mary Harley, Springfield, Mass.

I have been greatly benefited by the prompt use of Ayer's Sarsaparilla. It tones and invigorates the besystem. regulates the action of the directive and assimilative organs, and vitalizes the blood. It is, without doubt, the most reliable blood purifier yet discovered.—H. D. Johnson, 383 Atlantic ave., Brooklyn, N. Y.

"The Sisters of Our Lady of the African Missions" form a religious society bound by the gaws of religion, to work as Providence, through their Superiors, may direct.

"The Work of Mary Immaculate for the Conversion of Pagan Women" is purely a secular association destined to work chiefly where the missions and one her religious dress, cannot labor. As an illustration of what can be done by females, and even girls, it is stated in a note that "Mgr. Yet female missionaries, he says, can have free access to them, as free as that of male missionaries to the males, and this fact emphasizes the vast importance of employing females to co-operate with the males in the work of conversion. "Woman is the root of society, for she is the mother. Her children are what she makes them. Through the woman the family is gained, and through the family society is won."

It is impossible to exaggerate the importance of the work which these two societies aim to accomplish, each in its own appropriate way. "The Sisters of Our Lady of the last census.
