NOTES BY THE WAYSIDE.

There are three philatelic societies in the United States which are supported by the same class of collectors, the dues of which are low and which give about the same returns to its members for the dues paid. These three societies are the Philatelic Sons of America, Sons of Philately, and the American Philatelic Association. The latter society is composed mainly of advanced collectors. A proper state of affairs is that only a senior and junior organization should exist. The rawest recruit to the ranks of Philately knows that the reason this trio of societies is in existence is to satisfy the personal ambitions of certain philatelic adventurers, who, in the majority of cases, are not philatelists. There are other minor organizations, but these are mostly local in character, and fill a good use to members.

"He who laughs last, laughs best," muses the collector who did not buy any high-value Columbians when they were booming. The man, who, some

months ago had a "corner" in these, thought he had a good thing, and confidently expected from one to five hundred per cent. on his money. But the bubble has burst, and instead of making an advance on his outlay, is clearing out at 15 per cent discount, and even at these prices can find few buyers.

BREZ. BLUFF.

SPECIAL OFFER.

SCOTT'S 1897 Catalogue and a year's subscription to this paper costs only 70 cents. The catalogue singly will cost you 58 cents. If you would prefer the Canadian Philatelic Magazine, you can have it at the same price. Already many orders have been received, and it is a premium every collector can use.

COMBINATION OFFER.

The Canadian Philatelic Magazine, Canadian Weekly Stamp News, each for one year, and Scott's catalogue, 1897 edition, for 90 cents.

It is stated that a company will publish "The Youth's Magazine," a paper issued monthly and circulating among youthful people. It is published in Toronto, 20 pages, same size Munsey's magazine, and possesses a well-edited stamp department. Canada has not, heretofore, any paper of this class, save those issued by religious publication houses for Sunday school purposes. The publishers intend to circulate it extensively in the United States as well as in Canada. Subscription price is 35 cents a year.

A Catalogue of Canadian Stamps, by Wm. R. Adams, will appear this season and will be issued annually. All the known revenues of the Dominion and Provinces, including the postal issues, will appear, and the former priced at their true market value.

The Presidential election in the U.S. is causing much business depression, but business in Canada is improving.

WE have been favored with prices as realized at Bogert & Durbin's 66th sale. Later we will be pleased to publish such prices, and auction holders are requested to send priced catalogues or the quotations.

UNUSED Canada postage will be the ones to advance in the near future. If you try to buy, their scarcity is soon evident.

IN the October Canadian Philatelic Magazine appears interesting reading. I. E. Weldon, president of Dominion Philatelic Association, writes the opening of "Philatelic Journalism in the Dominion"; the editor gives another chapter on "Canada Revenues," embracing the Weights and Measures, Supreme Court, Gas Inspection, and Electric Light Inspection stamps; J. B. Simpson writes "Under Victoria's Rule"; and there also appears a liberal portion of Scott's advance prices, and a few other items make up by far the best issue of this rising paper of the Dominion.

THE DECREASE OF GOOD
SPECIMENS.

(Continued from last week.)

removing parts of old hinges from the backs. Now, what collector is there who can say that in all his collecting experience he has never injured a stamp? Not one I vouch, even after he became advanced or a specialist. Leaving out the numbers of good stamps in the hands of those who pay little regard to the condition of their specimens and who handle them as if they were made of metal, the decrease that is constantly going on in good specimens is greater than we have suspected, I am led to believe. Take, for instance the many different methods by which this may be brought about. Many collectors neglect to soak the papers from the backs of the stamps when it seems likely to be pulled off easily, and in tearing it off the stamp is torn. Hinges accumulate on the back, and being in too much of a hurry or too lazy to use water, the stamp is torn or its thickness decreased so that a watermark is indiscernible. Stamps printed in aniline ink are ignorantly put in water, and the colors run; or, such stamps having just the backs wetted, in being scraped with a knife are injured. A corner or a perforation becomes bent over on a stamp in an album. It is noticed and placed properly, but if it occurs twice or three times, it is liable to drop off. A good many collectors when taking a stamp from a sheet, simply tear off a part of the hinge adhering to the sheet, and when this has occurred half a dozen times to the same stamp, it has a "hump on its back" at the top which causes it to lean out from the page like a picture hung from a wall. The number of stamps one meets with, having a hole—almost through where the hinges usually are placed is indeed startling. I regard this as one of the best pleas for exchanging stamps loose instead of on sheets.

(To be continued.)
