The copy filmed here has been reproduced thanks to the generosity of:

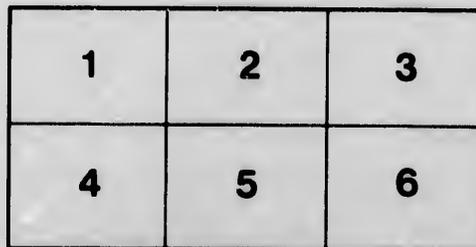

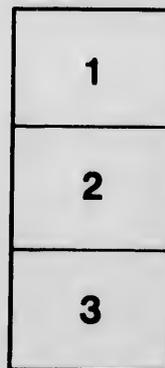

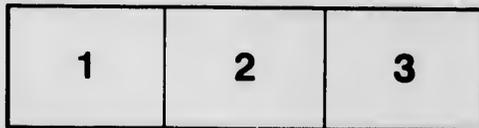

Library Division  
Provincial Archives of British Columbia

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Library Division  
Provincial Archives of British Columbia

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

# BIG GAME SHOOTING, AND FISHING

IN

## BRITISH COLUMBIA.

---

MESSRS. INSKIP AND TAIT, who have resided in British Columbia for some years, are well known as keen and successful hunters over an area comprising many hundreds of square miles in this province, consequently they are well acquainted with the Roads, Trails, Rivers, Lakes, and Hunting Grounds west of the Rocky Mountains, and having now completed all necessary arrangements, are prepared to escort gentlemen to the best and least frequented parts of the country, where grand sport may be obtained.

The **BIG GAME** consists of Black, Brown, and Grizzly Bear ; Panther are occasionally met with : Moose are plentiful in the northern interior ; Big-horn, Mountain Goat, Wapiti, Caribou, and various kinds of Deer.

The **SMALL GAME** comprises Wolf, Coyote, Lynx, Wolverine, Fox, Beaver, Otter, Porcupine, Hares, etc.

The **WINGED GAME** includes several varieties of Grouse, Prairie Chicken, Quail, etc.

**WILD FOWL** : Swans, Geese, Ducks, Teal, Heron, Plover, Snipe, which at certain seasons of the year frequent the Rivers, Lakes, and Marshes in countless thousands.

**FISHING**.—Salmon and Trout are to be found in nearly all the Inlets, Rivers, and Lakes, the larger species of Trout running to 40lbs. and upwards in weight. The Char fishing in some parts is superb, the fish attaining an enormous size, whilst the Ouananiche or Land-locked Salmon is the gamest fighting fish in the world.

The **CLIMATE** is extremely bracing and healthy; ague and malarial fevers are absolutely unknown. The summers are warm and dry, the rainfall in the interior averaging only five to twelve inches according to locality for the entire year. The snowfall is very light, but increases with the altitude, seldom falling in the lower valleys until the middle of December. Severe weather does not usually commence until January, but even when the thermometer falls to zero, or possibly something below, the cold, owing to the general absence of all wind and the extreme dryness of the atmosphere, is by no means unpleasant, whilst on most days there is brilliant sunshine with a beautiful blue sky.
