TURKS' REFUSAL MEANS ACTUAL ULTIMATUM

Balkan States Will Send a Message to the Porte Today Before Commencing Hostilities—Turkish Ministers Recalled From Bulgaria, Serbia and Greece.

LONDON, Oct. 15.—(Can. Press.)—Turkey's refusal to reply to the note of the Balkan States will in all probability compel these states to address an actual ultimatum to the Porte tomorrow before commencing hostilities.

The ministers of Bulgaria, Serbia and Greece are still waiting in Constantinople, although diplomatic relations are virtually ended, because of the recall of the Turkish ministers from Sofia, Belgrade and Athens.

The conclusion of peace between Italy and Turkey removes much of the uneasiness felt in Europe as to the consequences of the Balkan war. The German foreign secretary, referring to this at Berlin today, said that it would facilitate the localizing of the war.

Fortress Surrendered. PODGORITZA, Montenegro, Oct. 15.—(Can. Press.)—The fortress of Humna, the last between Tush and Scutari, surrendered today to the Montenegrins.

Addressing the war correspondents at a reception this afternoon, King Nicholas said that he regretted the bloodshed, but hoped that it would result in a new and better era of freedom and civilization.

TO BUY AEROPLANES. BERLIN, Oct. 15.—(Can. Press.)—Turkey is negotiating with German manufacturers for the purchase of aeroplanes, and has also engaged military aviators as trainers.

REJOICING OVER END OF THE WAR. Turkey and Italy Make Peace and European Chancelleries Are Elated as Complications Are Eliminated.

PARIS, Oct. 15.—(Can. Press.)—Elation is general in the chancelleries of Europe tonight over the success of their efforts to induce Turkey to conclude peace with Italy.

ROME, Oct. 15.—(Can. Press.)—The news of the signing of a peace protocol has been received here with varying emotions. While the people rejoice that the war is over, there is a certain regret that Turkey now has a free hand against Montenegro—the home land of the Italian queen.

WILSON'S MESSAGE TO ROOSEVELT. TRENTON, N. J., Oct. 15.—(Can. Press.)—One of the first things that Gov. Wilson did today was to send the newspaper accounts of the attempt to assassinate Col. Roosevelt. He sent the following telegram to the colonel at Chicago:

"Please accept my warmest sympathy and heartfelt congratulations that your wound is not serious."

Winnipeg Grain

WINNIPEG, Oct. 15.—(Can. Press.)—With 1342 cars of grain shipped yesterday and on the way today, and 1200 in sight for inspection, all records for receipts of grain in Winnipeg were broken.

Winnipeg is substantiating its claim as the greatest grain centre in America, and really the greatest in the world. Comparing today's shipments with the leading American centres, receipts at Chicago were 286 cars; Minneapolis 468, and Duluth 702.

The quality of the grain is remarkable. Of the 1111 cars of wheat inspected and on the market today, 805 cars were of contract grade, the famous hard wheat of the Canadian West.

TURKEY SIGNS PEACE TREATY

Terms Accepted After Diplomatic Struggle Leave Porte Free to Face New Enemies.

COUCHY, Switzerland, Oct. 15.—(Can. Press.)—After months of diplomatic strife for better terms, Turkey surrendered this evening and the Ottoman and Italian plenipotentiaries signed the protocol of a peace treaty, which puts an end to the war between Italy and Turkey.

The precise terms will not be available until a definite treaty is signed at the end of the week, probably at Laurzanne. Their tenor, however, is well known. The treaty will provide for absolute sovereignty of Italy in Libya, without formal recognition there of Turkish authority by the khaki; Turkey to withdraw her regular troops from Libya; Italy to pay an indemnity equivalent to Libya's contributions to the Ottoman treasury; restitution of the captured islands to Turkey, with guarantee for the Christian peoples; no indemnity payable by either side toward the cost of the war and re-establishment of former diplomatic and commercial relations.

Italy declared war against Turkey on Sept. 29, 1911, and promptly invaded Tripoli. A blockade of the coast of Tripoli and Cyrenaica was begun by the Italian fleet. Various coast towns were bombarded and in a naval battle many of the Turkish ships were crippled. Severe engagements have occurred between the Italian troops and the Turks and their Arab allies, with large losses on both sides. The coast is now held by Italy, while the Turks and Arabs occupy the interior.

MONK TO RESIGN BOURASSA'S ASSERTION

Borden Will Announce an Immediate Contribution of \$30,000,000 to Imperial Navy, Which Will Be Signal For Minister's Retirement, Says Le Devoir.

MONTREAL, Oct. 15.—(Special.)—Le Devoir in an article this evening signed Henri Bourassa, and apparently inspired, is to the effect that Hon. Mr. Monk will resign as soon as the Borden naval policy is announced.

"Hon. Mr. Monk will retire," adds Le Devoir, "if he does not obtain a plebiscite on the urgency vote. The real friends of the minister of public works," the Nationalist leader says, "and we are amongst them, hope that he will maintain this attitude, although a strong pressure is being brought to bear upon him to retain his portfolio."

CONFIRMED AT MONTREAL. MONTREAL, Oct. 15.—(Special.)—Every particle of news from Ottawa confirms the report of the coming resignation of the minister of public works. To those who go to Ottawa, asking Monk to hold on, he invariably replies that after reading the documents brought from England by the prime minister, he is convinced of the absolute necessity of an urgency vote, but having pledged himself to the people in a contrary sense, to resign is the only thing for him to do.

LAVERGNE WILL WITNESS WAR IN BALKANS

Young Nationalist Bound For Front as Canadian Attache to Forces of Balkan Confederacy Under Authority of Hon. Sam Hughes, His Personal Friend.

OTTAWA, Oct. 15.—(Special.)—Hon. Sam Hughes, minister of militia and defence, will grant the request of Armand Lavergne that he be sent as a Canadian attache to the army of the Balkan confederacy, and the young nationalist will leave for the scene of hostilities probably within the next few days.

"It is my desire to try this case justly and expeditiously," said Mr. Zabel, "and this will be done, but we will avoid having the plain, criminal aspects of the case in any way involved in the national political situation. It would not be fair to any of the persons involved to do so. If we went to trial before election day it is almost certain that the matter would be dragged into the campaign by one or another of the big political parties."

Emphasis Is Laid Upon Colonel's Fine Physique as Big Factor in Favor, But Possibility of Lockjaw Is Pointed Out, and Rest and Quiet Insisted Upon—Colonel Persists in Treating Wound as Light Matter, But Accedes to Physician's Wishes—Crowds Wait Outside Chicago Hospital.

CHICAGO, Oct. 15.—(Can. Press.)—Colonel Roosevelt's condition was found improved at 6.25 tonight, when the physicians made their final examination of his wound. As a precautionary measure tetanus anti-toxin was administered in a medium dose and he was told he might eat what he desired.

COL. ROOSEVELT IMPROVING. CHICAGO, Oct. 15.—(Can. Press.)—Colonel Roosevelt's condition was found improved at 6.25 tonight, when the physicians made their final examination of his wound.

CHICAGO, Oct. 15.—(Can. Press.)—Theodore Roosevelt was not merely superficially wounded by the bullet fired into his breast yesterday in Milwaukee by John Schrank. It was determined tonight by surgeons after all-day examinations and consultations, and the colonel must not see or speak to anyone for several days without permission of the doctors.

THE CIVIC OUTLOOK

As a result of the action of the city council in appointing Mayor Geary as corporation counsel we may now expect the accession of Controller Church to the mayor's chair. The people are probably not much interested at present. They will wake up in the course of a month or so to find out the choice they will have in voting. As long as the people are satisfied no one else should have any objection. Can it be possible, however, that the people are really satisfied? As the city extends in area and population, and increases in wealth and influence, the efficiency, even the competency, of the city government seem rather to decline than to keep pace with the responsibilities of the situation. The citizens do not personally know the candidates who offer themselves, and but slightly the controllers and aldermen. Familiarity with a name passes with many people for knowledge of the character and record and policy of the man who bears it. In such ways the election, year after year, of men without other recommendation than "use and wont," has been accounted for, but the explanation seems feeble.

However good any few individual members of council may be, they have no power in the presence of a stagnant minority. A man of any aggressiveness and sufficient faith in the power of inertia can block almost any scheme, or succeed very frequently in bringing over the weaker vessels of the council to take his view of affairs whether in the public interest or not. The indignities of Controller Foster, a couple of weeks ago, when it was suggested that he would vote to appoint Mayor Geary as corporation counsel, may be taken as typical of these members.

There is an immense vitality in the city, or big city of the magnitude of Toronto, and in spite of errors and weakness and unnecessary burdens imposed by ignorance and incompetence, the city will go on and prosper. That it might go farther and prosper more under better conditions we may be assured, but we must try and make the best of the magnificent opportunities, even with the limitations with which we are beset.

Mayor Geary has proved himself a shrewd and clever politician on his own account. He has yet to accomplish something for Toronto. He can enhance his ability by zeal and his experience may be eked out by the wisdom of others. We trust he will surprise everyone in the discovery of talents such as responsibility and opportunity often call forth in a new office. He owes Toronto much, and if he makes a loyal effort to be faithful to the city and valiant against her enemies, we can ask no more.

BUFFALO AND OUR HYDRO AUDIT

Buffalo has a fight on with the electric corporations. Buffalo has nothing to say to Toronto, or Toronto to Buffalo. But the corporations that are fighting Buffalo and fighting Toronto are all on one side. They know the value of brotherhood and solidarity and they fight the good fight in common for their own interests.

The pre-corporation audit report, with which Mr. Sterling has obliged the city, will be of inestimable service to the corporations in Buffalo. It will serve to show the Buffalo people, if they can believe it, that Toronto is going bankrupt, that the mayor was unable to sell the city bonds in London, and that in a general way hydro-electric has ruined the city so that it cannot build a hospital or widen a street or do anything else that is necessary. Toronto will be a horrible example for Buffalo these days, and there will be an official auditor's report to prove the dreadful case.

We trust the Buffalo people will investigate for themselves, and learn accurately what the situation is. Hon. Adam Beck's announcement yesterday that power was to be reduced to \$16, instead of \$16.50, from the estimated cost of \$18.10, is worth all the audit reports they can read. The rate of \$16.50 was figured on a consumption of 13,000 h.p., but the consumption has already passed 13,000 and before the end of the year will be much higher, so that the \$16 rate is due to the city. Buffalo will make no mistake in adopting the people's plan.

LIVE STOCK SELLING IN AUSTRIA

Austria is far enough removed from Canada in distance, language and ideas. Yet Canada, or Ontario in particular, can learn something from that country of the European continent. In 1907 live

stock bred by Austrian farmers on their way to market, passed thru the hands of a whole series of middlemen before reaching the consumer. Each of these middlemen gleaned a handsome profit to the detriment of the breeder, who was at last driven to energetic, and what is even more to the point, concerted action to secure a reasonably profitable return.

Ontario farmers know, as their Austrian brethren earlier realized, that the isolated breeder cannot help selling his animals to the buyer who comes to him on his farm. It would not pay him to transport the limited number of his head of cattle to a distant market, because even the he obtained a higher price, the expense would be still greater. The Austrian farmers at last recognized that an effective remedy could only be provided by organizing the sale of his live stock on a co-operative basis on the lines of parallel societies established for the sale of other farm and dairy products.

From the July number of Bulletin of the Bureau of Economic and Social Intelligence of the International Institute of Agriculture, published in Rome, the history of the undertaking can be gathered. In 1907 the General Federation of the Agricultural Co-operative Societies of Austria opened, at the Central Market of Vienna, stockyards for the sale of animals for food. Its object was to sell the live stock sent there by farmers of all parts of the Austrian Empire, at the best possible prices. In this it acted with the support of the provincial and local agricultural organizations, and with their assistance built up a system of immense advantage to the individual breeder.

Reliable agents, in the principal centres of production, were engaged and instructed to collect the live stock available for shipment and forward the stock in carloads to Vienna. There the shipments were received by the federation agents, taken to the stockyards and sold at the most favorable opportunity. The price, after deduction of the proportional expense, and without any commission charge, was then forwarded to the breeder. Whenever this was appreciated breeders began to offer higher prices in the districts covered by the agents of the federation. The isolated breeder was no longer at the mercy of the dealer, and his profits correspondingly increased.

In 1908 the live stock from the different provinces sold by the federation on the Vienna market amounted in value to 2,998,270 crowns, approximately \$900,000. In 1911 the sales totaled 13,175,274 crowns, or about \$2,800,000, representing the price of 128,650 animals. The imperial government, thru its minister of agriculture, gave generous moral and financial support to the movement and opened a special office for its encouragement. Co-operative stockyards have now been opened in nine separate centres of population in Austria-Hungary, and others are in course of establishment. Those already in operation have everywhere proved successful and their advantages are recognized by both large and small breeders.

MELONS AND STOCK VALUES.

Defenders and apologists for the cutting of the Canadian Pacific Railway melon are finding justification and satisfaction in the recent drop in the price of that stock. Why they should do so is not evident, since the movement was in sympathy with the break caused by the menacing conditions in Eastern Europe and so far as the Canadian Pacific is concerned is not at all likely to be of long duration. Nor is it to be presumed that these conditions had more than partial influence, and small at that. The melon cutters are both able and willing to manipulate the market in a way that can be used in support of the specious arguments of their agents.

Exactly similar assertions to those made over the last melon proposal were advanced at the immediately previous capital increase. Power was obtained to issue the stock at par—part was made at 125 and the remainder at 150, while the market value ranged around 130. The public were told that the issue meant a reduction of the shareholding value, but the assertion was completely disproved by the course of the market. The stock did not fall—on the contrary, it rose steadily to its recent record, and it is certain that record will not only be equaled but surpassed in the near future.

Itching and Burning on Face and Throat

Sores Disfigured So He Dared to Appear in Public. No Rest Night or Day. Cuticura Ointment Cured.

"Six months ago my face and throat all broke out and turned into a running sore. I did not bother about it at first, but in one week's time my face and throat were so badly itched and burned that I began to seek relief in different medicines, but none seemed to give me any relief. The sores disfigured my face to such an extent that I dared to appear in public. I suffered terribly and could get no rest night or day. At last a friend advised me to try the Cuticura Remedies. I had about given up hope, but thought I would have one more try. I used a little Cuticura Ointment, and it helped me from the start. I continued using it and in six weeks' time was completely cured. My friend also advised me to use Cuticura Soap, as it is the best for the skin. I used it and my sores were completely cured. (Signed) Rasmus Good, Seven Pines, Ala., Feb. 18, 1911.

FOUND RELIEF ONLY FROM CUTICURA SOAP AND OINTMENT

"My little girl when only a few weeks old broke out on the top of her head and it became very itchy and burning. I tried many remedies found relief only from using Cuticura Soap and Ointment. (Signed) Mrs. W. S. Owen, Yachin College, N. C., May 28, 1911.

For more than a generation Cuticura Soap and Ointment have afforded the most successful treatment for itchy and scaly troubles of infants, children and adults. A single cake of Cuticura Soap and box of Cuticura Ointment will return the skin to its normal condition. Cuticura is sold by druggists and dealers throughout the world. A liberal sample of each, with 32-p. book on skin diseases, sent free on application to Potter Drug & Chem. Corp., 50 Columbus Ave., Boston, U. S. A.

More Street Cars

"There are a hundred and ten more street cars on the streets now than there were at this time last year," is the statement made by Manager R. J. Fleming of the Toronto Street Railway Company. He is of the opinion that the supply of cars furnished the citizens this winter will meet the requirements equally well compared with the case of other cities, in view of the increase in the population.

GEARY RECEIVES 'GRATULATIONS'

Police Commissioners Offer Their Felicitations to New Corporation Counsel On Obtaining New Post.

A resolution was passed by Judge Winchester and Colonel Wenzel, congratulating Mayor Geary on his appointment as corporation counsel and assuring him that his services, while on the board had been, in their opinion, of great benefit to the public. They expressed their regret that they were to lose such a congenial member of the board and wished him success in his new position.

The tariff for motor cars will be revised at a future meeting of the board, for it is said these are unduly high. Mrs. Walden, treasurer, was given sick leave; Constable Polia (28) and Walker (19) resigned; Constable Robinson (12) was restored as a first-class constable; B. Rouse was appointed island constable instead of Constable Goodman, who had resigned; and the contracts for the licenses were let.

TO WORK FOR BETTER ROADS

A provincial educational campaign for good roads is to be carried out under the joint auspices of the Ontario Motor League and the Ontario Good Roads Association. The representatives from the former will be W. G. Trethewey and Frank Roden and of the latter Major Kennedy, Dixie, and George Henry of Orford.

The first meeting will be held today, when a salaried organizer will be appointed, who will actually administer the campaign. Large sums have already been obtained, and the rest of the requirements are in sight. The work of the organizer will mainly consist in traveling through the province, particularly the rural districts, giving illustrated lectures of the value of good roads.

MORE FIRE PROTECTION FOR GALT

GALT, Oct. 15.—(Special).—The recent \$190,000 fire has aroused the town council to a sense of the need of fire protection. A special meeting was held at which the chief reported that the fire-fighting equipment is not up to the standard. He thinks Galt should have a steam fire engine. The fire committee will report on the recommendations without delay, and it is likely all will be adopted.

A National Railway Across Canada

The Globe Thinks the Grand Trunk is to Drop Out and Canada Run the New Railway—What is to Become of the Intercolonial?

(Special Despatch to The Globe.) OTTAWA, Oct. 14.—The statement made to parliament by Sir Wilfrid Laurier in 1903, when introducing the bill providing for the construction of the National Transcontinental Railway, that it not only provided for a third great transcontinental railway opening up the Canadian hinterland, but also paved the way for the extension of the Intercolonial Railway to Winnipeg, and, if necessary, right thru to the Pacific Coast, is likely to come to the fore again in the latter phase sooner than was expected.

The act of 1903 provided that the Intercolonial shall have, if desired, the right to purchase the National Transcontinental and over the Grand Trunk Pacific from Winnipeg to the Pacific Coast. It will be remembered that Mr. Borden at that time also advocated the extension of the Intercolonial to the west, and the government operation of the new line instead of leasing it to the Grand Trunk Pacific.

Big Card for Next Election. Recent developments in connection with the government's dealings with the Canadian Pacific, Grand Trunk and Canadian Northern railways, will be remembered that Mr. Borden at that time also advocated the extension of the Intercolonial to the west, and the government operation of the new line instead of leasing it to the Grand Trunk Pacific.

The policy outlined above is, in the main, in line with what Mr. Borden urged while in opposition. It is in line with recent hints in the government press in closest touch with the premier and his minister of railways. And it is apparently to be the government's chief card to solve the west in regard to its freight rate and transportation problems. A government-operated railway from Winnipeg east, with the proposal for practically a further extension by the present line to the C. N. R. to the Pacific coast, would be believed, prove a popular appeal, especially in western Canada, and is apparently the only thing the government will have to offer as an offset for the demand for lower tariffs and wider markets.

The announcement, and details formulated of the policy will, of course, be delayed until the opportune moment prior to the next general appeal to the electors. But in a general way, that is the policy which the government now has in view.

In the above despatch there are a number of statements that assert a great deal: First, that the Grand Trunk is likely to throw down the National Transcontinental east of Cochrane, that it can get out of its agreement in that respect anyway. It prefers Portland to St. John.

Second, that it is to lease, or rather has taken a lease of that part of the line between Winnipeg and Cochrane. Third, that it is free to lease the second and discard the first. Next, that the government is to move out of the line from Montreal to Winnipeg, and send the Intercolonial over it to the west. Fifth, that it is to give the Intercolonial to the Canadian Northern Railway.

Plant and Nine Acres Near Canada Foundry Bought By U.S. Factory for \$125,000

The Wilkinson Flow Company's plant and eight and three-quarter acres of land next to the Canada Foundry, have been sold to the Bateman Manufacturing Company, Grenloch, N.J. The purchasers are manufacturers of agricultural implements, who will take possession of the property almost at once.

The Wilkinson Company assigned two years ago, and the property was disposed of by the assignee, E. R. C. Clark. It is on the east side of Campbell avenue, and north of the C. P. Ontario and Quebec division tracks. The property is two-thirds covered with buildings, mostly low brick structures. The price paid was close to \$125,000.

SAYS GAMBLERS PLOTTED MURDER. Becker's Effort is to Shift Responsibility to Shoulders of Clique—Schepps Corroborates Evidence.

NEW YORK, Oct. 15.—(Can. Press).—Gamblers, and not Police Louis Chas. Becker, instigated the murder of Herman Rosenthal, a large sum of money, raised by gamblers, was paid to get Rosenthal out of New York when he began to "squall" on the subject of police protection, and when he took the money and then refused to go, the gamblers, threatened with the loss of their protection, plotted and executed his murder thru the agency of the four gumps.

Such was the line of defence implied in questions put by John F. McIntyre, Becker's counsel, to Sam Schepps on the witness stand today. Schepps was not given an opportunity to say whether he had knowledge that such was the origin of the murder plot, for Justice Goff excluded the questions.

Schepps merely looked bored. He had at that time spent practically the entire day on the stand corroborating the testimony of Jack Ross, Bridgie Webber and Harry Wallon, the trio of self-confessed accomplices in the murder of Becker of having inspired the murder.

Schepps added another link to the chain of evidence against the defendant by swearing that Becker had asked him if the gun had been paid for their work. He also testified that he had been the bearer of a reassuring message from "Zet" Becker to Jack Ross, when the latter was in hiding "ready to commit suicide" at the home of Harry Pollock.

FATHER HAYDEN DEAD

For Many Years He Was Connected With St. Paul's. Rev. Father Hayden, who was pastor of St. Paul's died yesterday at the House of Providence in his seventieth year. CITY EFFECTS VIOLATE BYLAW

Doors of City Hall Open Inwards, When Law Says They Must Swing Outwards.

"All doors of exit shall open outwardly, and no such doors shall be closed and locked or fastened in any way during any entertainment or while the building is open to the public." This is the provision of the city by-law governing "Theatres, Churches and Public Buildings," and the city architect's department says that it is the duty of the police to enforce the by-law. Despite this the by-law was violated in two great public buildings and in violation of one of them every day.

Restores Men to Vital Vigor

It is the strong, vital man who has the courage to meet all dangers—who succeeds in life. Vitality is that thing which makes success. It gives men that compelling power which sends them forth eager and equipped to meet and overcome all obstacles. It is the thing which gives the young soldier courage to face death, it is the thing which impels and holds his steadfast love and faith. No matter what your age, I can give you this same vital power. I can make you "young" and keep you what early or later indigestion may have sapped your strength. I can restore the vigor you lost, no matter how old you are. From an intimate and studious observation of possibly 100,000 weakened men, I say to you that VITALITY or the lack of it means all the difference between a manly man and a half-man. The man who bubbles with vital power will exert a pleasing influence upon all with whom he comes in contact; women are naturally attracted to him, as are men. Lack of vitality is a negative condition, and it even repels. You wear my HEALTH BELT all night; it sends a great, glowing, health-giving current of electric-vitality into your nerves, blood and organs; it takes all the "kink" out of your back and all the coward out of your make-up; it puts you right up in the "feeling fine" class and keeps you there. No stimulation, no false results; just a sure return to manhood and courage. Recommended also for rheumatism, pain in the back, kidney, liver, stomach and bladder disorders. It makes you feel young and keeps you feeling young forever.

Let Me Send You This Book Free

Fill in the coupon; let me send you at once my free booklet in plain sealed envelope; it is profusely illustrated with half-tone photos; keep it in your pocket for easy reference; read the chapter on Vitality; read the chapter on Debility; read the chapter on subjects which interest every man, young or old, who would be strong in manly vigor. It is a word of hope, a carefully written, interesting booklet which should be in everyone's possession. Therefore send to-day. If in or near the city, call at my office. Keeps a to:

"IMPOSSIBLE TO HELP MY KIDNEYS"

Until I Used "Fruit-a-tives" World's Greatest Kidney Cure

Practically everybody in Toronto knows Professor J. F. Davis. For years the elite of that city has taken lessons from Prof. Davis in the art of dancing and deportment. His constant activity gradually weakened his kidneys, which calamity threatened to make him an invalid.

"I want to say that 'Fruit-a-tives' is my only medicine, and has been for the past five years. Previous to that I had been troubled with Rheumatism and Kidney Disease, and had taken many remedies without satisfactory results. Noticing the advertisements of 'Fruit-a-tives,' I adopted this treatment altogether, and as everyone knows, I am now—and have been since taking 'Fruit-a-tives'—enjoying the best of health."

Rheumatism or Kidney Trouble is making you miserable, take "Fruit-a-tives" and get well. 50c a box, 6 for \$2.50, trial size 25c. At all dealers or send on receipt of price by Fruit-a-tives, Limited, Ottawa.

MISSION TO NON-CATHOLICS TO TALK ABOUT CONCRETE ROAD

An interested congregation attended the first of a series of lectures now being given at St. Basil's Church, St. Joseph street, to the non-Catholics of Toronto. The questions asked thru the question box, show the earnest desire of many honest minds to know just what the teaching of the church is on many disputed questions. Among these were the following: What leads you to believe there is a purgatory? By what authority do your priests assert that they mediate between God and man, their office being that of mediator between God and man, save the man Christ Jesus? Answering which the missionary stated: "The intercession or mediation of Jesus Christ is unique and totally distinct from his saints and followers. He is the one Mediator of justice in virtue of His redemption, as this passage from St. Paul says: 'While the mediation of the just and of the saints in heaven is not of justice, but of grace, and of value only in union with His mediation, St. Paul himself, Romans xv. 16, beseeches the brethren to help him by their prayers. And in Eph. vi. 18-19, he again asks them to persevere in prayer, not alone for themselves, but for me, that speech may be given me, that I may open my mouth with confidence, to make known the mystery of the gospel. And in II. Tim. i. 13, he tells Timothy that without ceasing, I have remembrance for the in my prayers. From this it is clearly evident that St. Paul could see no usurpation of the mediatorship of Jesus Christ, or contradiction in his own teaching.' Another question asked: 'When Christ said to his apostles: "Go ye, teach all nations, whose sin you shall forgive shall be forgiven, whose sins you shall retain, shall be retained," did He not mean for all people to forgive one another?' To this the missionary replied briefly and urged the questioner to attend the lecture of Friday night, in which the subject will be treated fully. Another wanted to know why the Catholic Church taught that it is right for a Protestant to go to a Catholic Church, and wrong for a Catholic to go to a Protestant Church.

Deputation Will See Dr. Reaume Today to Discuss Proposed Hamilton-Toronto Highway. A large delegation of motor enthusiasts and others will call upon Hon. Dr. Reaume, minister of public works, at the parliament buildings to-day, with a view to ascertaining what the government intends to do with the proposed concrete road from Toronto to Hamilton. MR. GILLEN LEAVES Takes Up Duties at Montreal Today, But Family Remains.

U. E. Gillen, formerly superintendent of the middle division of the Great Trunk Railway, left Toronto for Montreal last night, to take up his new duties as superintendent of the eastern division, with headquarters in Montreal. Before leaving Superintendent Gillen stated to The World that although he himself would be staying at Montreal, he was leaving his family, his present at least, in Toronto. His new duties will necessitate frequent visits to Toronto, the territory over which he assumes control extending from Pictou, N.S., west to Toronto. Superintendent Whittenberger, formerly of the eastern division, who succeeds Gillen here, will have charge of the territory from Toronto west to Chicago.

FOREIGN REPORTS SEND WHEAT MARKET LOWER

Domestic News Was Also Against Values--Visible Supply Shows Increase--Dardanelles Not Likely To Be Closed Against Shipping.

CHICAGO, Oct. 15.—Falling off in export demand today pulled wheat down. The close was nervous at a decline of 7-8 to 1-4 c net. Latest trading left corn varying from 1-2 c down to a shade advance, oats 1-8 c off to a shade up, and provisions straggling between 2-1-2 c lower and a rise of 1-17-2 c.

Decided weakness in all European wheat markets caused free unloading at the start. Short sellers took a hand and there was no rally until reports came that Serbia and Bulgaria would probably declare war before night.

The option, however, was small in comparison with the early decline and bearish sentiment grew when advices from Winnipeg told of foreign selling of futures there.

Fine weather and the weakness of wheat tended to ease off the corn market. There was a good deal of covering by shorts in the final hour.

Oats sagged with other grain, and because export was poor.

Firmness in the hog market exerted a greater influence on provisions than the downward course of cereals.

Northwestern Receipts
Receipts of wheat at northwest points, with usual exceptions, follow:

Today	Week	Year
Chicago	285	100
Minneapolis	488	130
Winnipeg	115	300
Duluth	202	583

The Liverpool market closed today 3/4 to 1/2 c lower on wheat, and 3/4 to 1/2 c to 1/4 c lower on corn. Wheat at Paris closed 2 1/2 to 3/4 c lower, at Berlin 2 1/2 c lower, at Dacca 2 1/2 c lower, and at Antwerp 2 c lower.

World's Visible Supplies
The world's visible supplies of wheat, according to Bradstreet's figures, showed an increase of 8,572,000 bushels last week, over an increase of 82,000 bushels, and a decrease of 32,000 bushels.

European Visible
European visible wheat, 5,188,000, a gain of 7,888,000, an increase of 287,000 bushels for the week.

LIVERPOOL GRAIN EXCHANGE.
LIVERPOOL, Oct. 15.—The disappointing American and Winnipeg closing yesterday, together with the comparatively firmness in Wall street, caused some realising here and Canadian offerings were lower. European crop prospects were more favorable and the visible is expected to show an increase. The opening there was some covering by shorts and prices advanced on the hostilely in Turkey and Canadian news. The advance was lost with the upturn heavy with speculative selling on the larger and cheaper Australian and Canadian offerings. Russia and India are both offering freely and spot markets were generally firm. It is believed that the Dardanelles will not be closed.

Corn opened 1/4 c lower and later October declined 1/2 c with the decline in Buenos Ayres from the opening and the weakness in America. The distant month was firmly supported on the war news and former Plate offerings, together with unfavorable European crop advices.

The Robert Simpson Company, Limited

CLOTHING That Expresses Personality

It is difficult to lay finger upon exactly the features in coat or suit that give it individuality. Of one thing you may be certain, the material by texture and coloring does a large part in fixing this character. Tweeds are particularly sympathetic materials for men's wear. The rich effects given by under colors, color stripes and color combinations are infinitely varied and the weaves are no less numerous. The Simpson tweeds are selected most carefully and do much toward giving our men's clothing its enviable reputation.
