First of Uncle Sam's Soldiers Will Embark This Morning.

WILL SAIL BY THE STEAMSHIP GUSSIE

Seven Thousand Springfield Rifles, a Lot of Ammunition and Hundreds of Boxes of Provisions Will Be in the Cargo, and the Expedition Will Be Meaded For a Point Near Havana.

SOMETHING ABOUT PORTO RICO.

Porto Rico, according to present indications, will be the scene of hostilities very shortly, and therefore a little information about the island will be of interest.

TROOPS GOING TO CUBA.

Tampa, Fla., May 9.—The steamer Gussie, one of the Mallory Line boats, chartered by the Government for use as a transport, will sail for Cuba before morning, loaded with arms, ammunition and supplies.

When these are equipped, the Government will turn its attention to the third class, comprising the last third of the 125,000 volunteers called for.

ship is hovering about the Nova Scotia coast, but keeping well off shore. The steamer Portia, from St. John's, Nfld., for Halifax and New York, which arrived last night, reports passing the British gunboat Pelican on her way from Halifax to Newfoundland, but no others were sighted.

The Sea Was Too Rough. Halifax, May 9.—The steam yacht Esquer of Buffalo, N.Y., which came in here yesterday for coal on her way to New York, and proceeded this morning, has returned to Halifax. Captain Lyons says the sea was running high for his craft, and that he will wait for smoother water.

St. Anne de la Perade Again Visited By a Calamity. Quebec, May 9.—The usually quiet little village of St. Anne de la Perade, famous for its landslide of 1892 and 1896, was again thrown into a wild state of excitement yesterday morning by a telephone message from St. Casimir, that another landslide had occurred at St. Thaurie, a few miles away.

WHERE IS THE ENEMY?

Admiral Sampson Has So Far Been Unable to Find Him.

NAVAL DEPARTMENT IN A QUANDARY.

Having Failed to Locate the Spanish Fleet Sampson is Going to Take Another Tack, But What His Proposal is the News Vendors Don't Know—But Uncle Sam Now Knows That He is Going to Concentrate Some Volunteers.

ALL DEPENDS ON SAMPSON.

If He Destroys the Spanish Fleet Cuba Will Be Invaded.

If Sampson Gets Whipped Then the Invasion Will Be Deferred—And Sampson Will Hunt for the Spanish Fleet to Destroy It Before He Blockades Porto Rico.

New York, May 9.—(Special to Toronto World).—A Washington special says: It is said at the War Department that the invasion of Cuba will depend upon the success or failure of Sampson's plans.

It is asserted positively that Sampson will not blockade Porto Rico until he has encircled the Spanish fleet or become assured it has not crossed the Atlantic.

Montserrat Had Wealth. Key West special: Havana newspapers found aboard a Spanish prize just captured say the Spanish transport Montserrat evaded the American blockade of Cienfuegos and entered that port with three million dollars in silver, fifteen thousand rifles, besides ammunition and commissary supplies, all of which were forwarded by rail to General Blanco at Havana.

Worse Than War. Washington Special: A clash has come between Secretary Alger and Secretary Gage, which will cause one or the other to retire from the Cabinet. The trouble, it is said, is because Gage embarrassed the War Department by opposing appropriations for war measures.

Hungry, But Enthusiastic. Key West Special: An artist just returned from Gomez' camp says there are 18,000 Cubans in the neighborhood of Sancti Spiritus. They are short of arms, ammunition and food, but full of enthusiasm. The condition of the reconcentros is described as pitiful in the extreme.

The Cadiz Fleet. A Cadiz special to The Journal says: Preparations for the sailing of the fleet now here are being closely guarded by the Government. The ships now ready are the Carlos Quinto, with a complement of 600 men; Victoria, with 600 men; Alfonso XIII, with 600 men, and the torpedo boat destroyer Orado and Prosperine.

One Desperate Effort. A London special to The Journal says: There are persistent rumors here, based on a Portuguese despatch, that the Spanish Cape Verde fleet has not sailed to cross the Atlantic, but is combining with other Spanish warships at Cadiz, to sail as a formidable armada, and stake all on the result of its crusade on the eastern coast of North America.

A Balloon Corps. Lieut. J. E. Maxfield of the signal corps announced to-night that all arrangements are completed for sending a balloon train south, to be taken to Cuba with the invading army. This is the first attempt ever made by the United States to organize and equip a balloon corps. The observers from this will have a range of vision of over fifty miles.

BUSINESS AT MANILA. There is Nothing Doing in the Place—British Residents Think the War Will Soon be Over. By Associated Press.

London, May 10.—The Hong Kong correspondent of The Daily Chronicle says: "The British in Manila have forwarded a petition through the British Consul to Vice-Admiral Seymour, commander-in-chief of the China station, for further naval assistance, and it is anticipated that additional vessels will be sent there on Wednesday. The British Consul is working in thorough harmony with the American commander, but it is felt that the overwhelming British commercial interests require supervision by a force sufficient to keep the Spaniards and natives in check.

MR. MCCARTHY'S CONDITION.

Last Night It Was Very Critical—Nature of the Injuries—Interview With Dr. Pepler. Dr. Pepler, seen last night by The World, said that there was very little change in Mr. McCarthy's condition. The doctor was with him all Sunday night and last night. At times the patient revives a little and then gets very wretched indeed, breathing with great difficulty. Sedatives are administered all the time. One or more ribs have been broken and pressed in upon the right lung.

Mr. McCarthy is in a very critical condition. While I would not venture to say what will result, serious complications may crop up," said the doctor. The most distressing feature is the injury sustained to the lung. This, combined with the great nervous shock and consequent weakening of the whole system, makes the outlook anything but promising. The fact that Mr. McCarthy was a vigorous man who took the utmost care of himself counts mightily in his favor. It will take a day or two more before any positive statement can be made as to the probable result of this distressing accident. Inquiries and messages of sympathy poured in yesterday from places near and far.

From From Galt. The Galt W.C.T.U. protest against the Town Hall, clear, vigorous. Honor his if that the Union will object to the visit of the 48th Highlanders. That is not so. The W.C.T.U. extends a hearty welcome to the ladies.—Galt Reformer.

THE FALSED FACTS.

Sir Charles Tupper Makes An Accusation Against a Reporter.

Mr. Foster Questions the Policy of Allowing Such Correspondents to Sit in the Press Gallery—That the Seaplanes Canal Has Not Yet Started—Other Matters Before the House.

Ottawa, Ont., May 9.—(Special)—The first two days of today's sitting were taken up with matters not on the order paper, but which, nevertheless, are of interest. Sir Charles Tupper asked if the First Minister could give the House some idea as to any new business that might be brought down by the Government this session, especially in view of the near approach of prorogation.

Sir Wilfrid Laurier replied that he could not at the moment make a full statement, but he might say that the Government did not intend bringing down any new business of a serious nature. There might be some matters of importance locally, but nothing relating to the general public. Sir Charles Tupper asked if it was the intention to introduce a bill for the organization of the Yukon Territory.

There might be some matters of importance locally, but nothing relating to the general public. Sir Charles Tupper asked if it was the intention to introduce a bill for the organization of the Yukon Territory.

Sir Charles Tupper said that he had received a telegram from Col. Prior at Victoria, stating that Seattle was jubilating over the fact that the Dominion Government had given the contract to the Boston and Alaska Transportation Company for carrying of hundreds of tons of supplies to the Yukon via Seattle. The message added that if this were correct, the Government's action was a serious blow to Victoria and Vancouver.

Mr. Borden admitted that a contract had been given to the company named to transport some of the supplies that were going up for the use of the troops next winter. "But," he added, "the largest part is going from Vancouver; only a small portion will go via Seattle. The company have three vessels at Vancouver, and the supplies forwarded early, that they should be allowed to send a portion by way of Seattle."

Mr. Wallace asked if the goods purchased. Dr. Borden: They were purchased here. They were purchased from the contractors, to be shipped on board the boats, and at the request of the company a portion of the goods were forwarded early, that they should be allowed to send a portion by way of Seattle."

THE NEW BY-LAW DISCARDED.

Agreement Made With the Hamilton Radial Company on the Old Terms.

Meeting of the Hamilton City Council in Which Three Matters of Importance Were Discussed—A Bill to Amend the By-Law to be Charged a Fee—Police Items—General News From Hamilton.

Hamilton, May 9.—(Special)—The city fathers, in Council assembled this evening, considered the Radial Railway charge or route and a couple of by-laws, and approved the will of the Hamilton and Ontario Radial Company, through Mr. Alex. Turner, wrote the Council advising them that the company had ample authority to make the by-law to make the change of route without requiring the passage of the by-law that had been under consideration for some weeks.

The Conservative Club held a business meeting last night. They have moved into new quarters in the Arcade, their old home being a place through the very center of the improvement effected. The billiard room is more spacious, as are the reading room and library; and a general spring renovation is evident. The walls are newly papered and blue-grained, and an attractive border, and altogether the club presents a more homelike and cheerful appearance. Mr. A. P. Good, the club treasurer, announces that this year is the first the club has been able to pay its way, and is justly proud of the fact.

A Complete and Interesting Work. The Dodge Pulley Company of Toronto have recently issued a very complete work in the form of a 270-page book and catalogue on the transmission of power and their special lines which they manufacture exclusively for the Canadian trade. The Dodge Pulley is a new kind of pulley, and is a complete work in the form of a 270-page book and catalogue on the transmission of power and their special lines which they manufacture exclusively for the Canadian trade.

Children's Aid Society Meeting. Mr. Adam Brown presided at the annual meeting of the Children's Aid Society, held at the Public Library building this evening. When encouraging reports were read from up to do the construction of the new building. Mr. Brown was elected president, Col. McClure, Mr. W. H. Wardrop, Dr. O'Reilly and Mr. J. E. Burns, treasurer; Mr. William Hunter, secretary.

Police Points. Dave Irvine, the compelling railway conductor, arrested yesterday, was taken to Guelph to stand trial on a charge of assault on a police officer. James Connell, a Jackson-street tough, was taken to jail for a month for assaulting the police. Mevor of Winona, charged with house-breaking and arson, was remanded to jail for a month for assaulting the police.

Minor Matters. The standing committee of the Niagara Synod was in session here to-day, and it was decided to adjourn to-morrow. The Synod in the fall, instead of in June, as was previously decided. Joseph Bamford, the pal of Walter Burrows, who was committed on a charge of attempted house-breaking, was arrested on account of the illness of Bishop Du Moulin.

Married In May. The wedding took place yesterday evening of Mr. J. E. Cassidy to Miss Alice Delabere Burrows, only daughter of the late Colonel Thomas Beresford Burrows. The ceremony was performed by Rev. Dr. Langtry, rector of St. Luke's Church. The bride was assisted by Miss Cassidy of Ottawa, and Mr. Arnold Burrows stood up with the groom.

Medley of Matters Dealt With Last Night. Over-Crowding Condemnation Ignored.

When the Public School Board assembled last evening, Trustee Baird directed, and the chairman to enforce the rule respecting party members, and mark them absent.

Among the numerous communications was one from the United Empire Loyalists Association, requesting that the flag be hoisted on May 15, the anniversary of the landing of the Loyalists at St. John.

On motion of Trustee Baird the request was granted, and the flag was hoisted on the flagpole in the school building.

Trustee Dr. Buck asked if anything had been done in regard to having the Government grants paid to the board direct, and not through the city treasurer.

The chairman replied that the matter would be taken up as soon as the over-crowding problem was disposed of.

On motion of Trustee Douglas a committee, composed of Trustees Kent, Norris and Dr. Buck and Noble, were appointed to investigate the defective lighting at Queen Victoria school.

Trustee Dr. Noble submitted a motion as follows: "That this board petition the Hon. the Minister of Education to allow each of our inspectors to act as principals of one of our schools for one week during the month of June."

The Finance Committee's report recommending the payment of accounts totaling \$800 for rent of temporary school accommodation was adopted.

The Management Committee's report contained a clause that an additional kindergarten teacher be appointed to Queen Victoria school.

On motion of Trustee Lee a teacher was ordered to be transferred from Churchill school to Queen Victoria school.

Trustee Dr. Noble recommended that Miss Peake from Phoenix-street to Hamilton-street school, and that Miss Purvis be transferred from Hamilton to Phoenix-street school.

The clause recommending the acceptance of the offer of Trustee Dr. Noble to do the printing of the board's reports was adopted.

JEFFRIES IS THE COMING MAN

His Victory Over Tom Sharkey Proves His Fighting Qualities—The Sailor Twice Nearly Out.

San Francisco, May 9.—Jim Jeffries won the decision from Sailor Sharkey in a fight that leaves no doubt as to which is the better man or the possibilities of the former's future in the ring.

From start to finish of the twenty rounds fought at San Francisco last night the Sailor had not a chance to win, and was only able to survive by the grace of his opponent.

Sharkey had been greatly underrated, while Sharkey's rough tactics have given him a reputation as a fighter which he never deserved.

Sharkey tried to use his old tactics with Jeffries, but for once found a man who was stronger and who met his wild, bull-dog tactics with coolness and foreful blows which drove him back.

Jeffries' superior strength and his superior speed were only given a fair trial.

TROOPS GOING TO CUBA.

Continued from page 1.

Beers and men not one was lost and only eight injured and three slightly. All of our ships escaped any serious damage. By the fourth of May Commodore Dewey had taken possession of the naval station at Cavite, destroying fortifications there and at the entrance of the bay, and paroling their garrisons.

The status of the bay are under his complete control. He has established hospitals within the American lines, where two hundred and fifty of the Spanish sick and wounded are assisted and protected. The magnitude of this victory can hardly be measured by the ordinary standards of naval warfare, outweighing any material advantage in the moral effect of this initial success. At this unsurpassed achievement the great heart of our nation throbs, not with boasting or with greed of conquest, but with deep gratitude that the triumph has come in a just cause and that by the grace of God an effective stop has been taken toward the attainment of the wished-for peace.

Frederic in this city, awaiting transportation to Manila. Every day troops from Oregon, Washington, Utah and Idaho will be pouring in, and the work of mustering the militia will continue. The State and Federal authorities here are working night and day to have all in readiness when the transports and the heavy gun wharves for their freight. Word came from Washington late last night that all the Spanish vessels in the bay were to be paroled in the first shipment of troops to the Philippines, and that California had paroled the vessels. The Secretary of War for his admirable celerity in mustering in its quota and for the cheerfulness of the men that composed it. No effort is being spared to get into the ranks of the army and navy every company in California.

WILL HOLD THE ISLANDS.

Admiral Dewey Advises Washington to Appoint a Provisional Government Over the Philippines.

New York, May 9.—A special cable despatch to The World from Hong Kong says: Despatches, signed by Commodore Dewey, have just been sent to Washington, recommending that a provisional government be appointed for the Philippines. His proposal is for a commission to take control of the Government. He suggests that he be named as one of the commissioners. The Government would be continued upon much the same lines as at present.

40,000 RESOLUTE CUBANS.

General Gomez Heard From—He Wants Arms, Equipment and Food for His Troops—Hard Times on the Island.

New York, May 9.—The World, in a special despatch from Key West, gives the substance of a communication just received from General Gomez, as follows: Gomez wants rifles, food, clothing and United States troops. He promises to drive the blockaded Spaniards out in six months. Gomez formerly declines his readiness to cooperate with Miles and Sampson.

AN ARMY OF INVASION.

American Troops Being Mobilized to Land in Cuba—500 Transport Vessels Needed.

Washington, May 9.—The Washington Post says today: Between sixty thousand and eighty thousand men will be landed on Cuban soil at once. They will wear the uniform of the United States, and they will be equipped with the latest military arms. The Spanish forces on the island and the American flag boats over Havana. This is the idea of the military advisers of the Administration, and the President has approved the plan.

THE STATE TROOPS.

First Regiments Will Be "Kicked Into Shape" at Camps in Tampa and Mobile.

Washington, D.C., May 9.—Repeated requests have come from all sections of the United States for instructions regarding the various organizations of State troops which are being mustered into the United States Army. The War Department is replying, through three points, as to receive the greater number of troops. The animating purpose of the department is to have assignments to be divided the volunteers in such a way as to be available for three distinct purposes.

EXPECTING NEWS.

Naval Officials at Washington Are Not Certain What Is to Be Done.

Washington, May 9.—Naval officials are expecting interesting news from Admiral Sampson within the next twenty-four hours. It is now officially admitted that the Admiral yesterday was with his fleet near Cape Haytien, on the north coast of San Domingo, at a distance of a day's march from Porto Rico. So far no reports have come to the department of any kind of the landing operations that are being taken place in those waters.

Cabinet Arranging War Matters.

Washington, D.C., May 9.—At today's special Cabinet meeting the leading subjects of discussion were the measures to be taken to reinforce the United States at Manila and the probable movement on Cuba. As to the former there has been no complete agreement in the plans. Dewey's 15,000 troops will be despatched on the City of Pekin and other transports. The United States will act as a base of operations. The United States will act as a base of operations.

SAID HE FALSIFIED FACTS.

Continued from page 2.

It would seem it was made a first order for next session. The bill having been reported as amended, Mr. Casey made a last stand for his compensation clause by moving it as an amendment on the third reading. This necessitated a division, the result of which was the defeat of the amendment by 80 to 21.

CIVIL SERVANTS' SALARIES.

Quite different from Mr. Casey's plucky fight was the collapse of the bill "Respect to the attachment of civil servants to the public service," so-called. Its promoter, Mr. Richardson, threw up the sponge at the moment when a professor's chair of the law was to be made vacant, and while he was struck by the arguments presented in support of it and which were to support the principle of it, the law officers of the Crown decided that it would have to be "considerably recast" before being passed into law.

ONTARIO'S ARTISTS.

Private View of the Twenty-sixth Annual Exhibition of the Provincial Society.—The rooms of the Ontario Society of Artists echoed last night to the mingled strains of art talk, society talk, and gaiety, while sweet music from an orchestra was worn in, on the occasion of a private view accorded by the artists to the public. The people of Toronto always look well on mass, and the gathering last night was no exception. Between five and six hundred people admired the pictures, promenaded and enjoyed themselves generally.

CANADA'S GREAT OPPORTUNITY.

The report of the Yerburgh Committee on National Wheat Stores has been published in England, and coming at a time when the price of wheat has been greatly increased by a few weeks of war in which England is not concerned, it is exciting a great deal of attention. The committee declares that after harvest home in England the supply of wheat only lasts fourteen weeks, and that after the first of March there is never more than six weeks' store of food on hand. The committee, rejecting all proposals for bounties to farmers and subsidies for millers as impracticable, insists that national wheat granaries are indispensable to the defence of the United Kingdom in time of war, and recommends the purchase of 8,000,000 quarters of wheat, with the renewal of a third of the stock every year. Leading British newspapers in discussing the question point out that even this reserved stock of food would serve for only fourteen weeks' supply and suggest that a royal commission should be appointed to conduct an exhaustive enquiry into the national food supply in time of war. The matter has often been talked of before without anything being done, but now the British Cabinet has taken it up and it is expected that some definite action in the matter will soon be decided upon.

This is Canada's opportunity and the Canadian Government should lose no time in taking advantage of it. Now is the time to bring forcibly to the attention of the British Government the fact that Canada is well able to supply all the wheat that England requires. Let the Dominion Government ask the British Government to send a Royal Commission to Canada to examine and report on the capabilities of the Canadian Northwest as a granary, and the advantages of the Canadian route for the shipment in both summer and winter. A commission should come to Canada before the next harvest and stay long enough to thoroughly investigate the whole matter.

England at present imports annually about 116,000,000 bushels of wheat. The Province of Manitoba, with a population of about 200,000, a large number of whom live in the cities, towns and villages and do not farm, produces about twenty million bushels of wheat above the requirements for consumption in the province, and the area of wheat land has hardly been encroached upon as yet, even in Manitoba, while there is an almost boundless domain of fine wheat growing land beyond the province. Of course a considerable quantity of Manitoba wheat is required for consumption in other parts of Canada, but if the acreage of wheat were increased, nearly the whole of the extra quantity produced could be shipped to England. It has been estimated that less than one hundred thousand additional farmers in our Northwest could make up Britain's deficiency. If England could import the wheat from our Northwest, that would not take long to get that many more farmers into Canada.

A CANAL AS A RESULT OF THE WAR.

One of the results of the Spanish-American war will almost certainly be the adoption by Congress of a bill to provide for the speedy construction of a canal to connect the Atlantic and Pacific oceans. The people of the United States have for a long time regarded with considerable favor a proposed canal through Nicaragua which would connect the two oceans. The United States Congress appointed a commission known as the Walker Commission to investigate and report on the matter, and this committee having almost completed its surveys will probably soon report. The financially strong syndicate of engineers and contractors who have been so successful in the work of constructing the great Chicago drainage canal recently inspected the route of the proposed Nicaragua canal, and it is stated that if certain amendments to the Nicaragua concession can be secured they will submit a proposition to the United States Congress to construct the canal for a certain sum of money in cash or bonds, furnishing whatever security may be required for the completion of the work within a given time.

One reason why Congress is likely to favor the project is that its completion would almost double the efficiency of the United States fleet for the protection of American interests on the two great oceans, and it would not be necessary to spend nearly as much money on new warships as would otherwise be required. But the greatest advantage to the United States would be from a commercial point of view. The completion of this canal would give the United States, and especially the southern part of it, an extraordinary advantage over England in competing for the trade of

the western coast of South America, Australasia, China, Japan and other countries in the east. The Southern States can already manufacture iron much more cheaply than England and they are making remarkable progress in the cotton industry. With cheap negro labor, raw materials close at hand and a short route to the east, the United States would become a most dangerous commercial rival of Britain.

NO BENEFIT TO CANADA.

So far the war has not been specially beneficial to Canada. The great ocean liners have not been frightened away from New York and Boston to Canadian ports as predicted, the railway companies say they have not been helped by it, and while a few speculators have benefited by the rise in the prices of wheat and flour, not many of our farmers have any wheat left to sell, and the consumers in the cities and towns have no reason to rejoice on account of the increased price of bread. Shipments of lumber to both the United States and South America from our ports in the Maritime Provinces have fallen off, and the Klondike boom seems to have flattened out. The United States consul at Victoria, B.C., reports that immediately after the destruction of the Main the Klondike boom slackened, and it has steadily decreased ever since, so that the number of miners' licenses taken out has fallen from 600 or 700 daily to but 50. But nevertheless Canada is prospering and will probably continue to do so whether the war is long protracted or not.

CANADA'S CHIEF WINTER PORT.

Several years ago the city of St. John, N.B., began the construction of extensive wharves on the west side of the harbor in the part of the city formerly known as Carleton, but now called West St. John. As a result of these improved facilities and the enterprise of the Canadian Pacific Railway which is making St. John its Atlantic winter port, the volume of winter business has considerably increased. The exports from the new wharves on the west side alone amounted in value to \$4,888,918 during the past winter, and it is expected that the total exports of the port will be over eight million dollars for the 1897-98 season. The business volume of the port has increased during the past winter if the elevator capacity had been greater, and as the Canadian Pacific Railway proposes to build a new grain elevator of 750,000 bushels capacity at West St. John this summer, it may be expected that there will be an increase of business next year. The Canadian people of the west as well as of the east are interested in the progress of St. John. It is a matter of vital importance to Canada to have a great Atlantic port open throughout the year with business sufficient to attract large ocean steamships. The relations of Britain and the United States are particularly friendly just now, and we all hope that they will ever continue to be so, but it is impossible to tell what complications may arise in the future to cause another Cleveland to threaten to withdraw the bonding privilege. In any case nothing will do so much to show Americans the disinterestedness of our friendly attitude as the knowledge that we are independent of them and do not need to ask for any favors.

But, together apart from the preservation of friendly relations with the United States, it is clearly to our advantage as a commercial nation to have a great winter port of our own. The harbor of St. John is the only one north of the Gulf of Mexico, the entrance to New York and Boston is practically always open to navigation. It is a question whether Halifax or St. John will be the terminus of the Canadian Atlantic fast steamship line, the matter being left to the decision of the steamship company. Halifax has a truly magnificent harbor and is nearer to England than St. John, is much nearer to the centre of Canada, and its people,

All the poetry, all the romance, all that is ideal in the wide, wide world, is bound up in that one word, "Motherhood." A woman's greatest joy is her happiness, her greatest duty is her motherly love, and her greatest privilege is to become the mother of a healthy, happy child. Untold thousands of women fall short of this because of weakness and disease of the distinctly feminine organs. Dr. Pierce's Favorite Prescription is a marvelous medicine for ailing women. It acts directly on the delicate and important organs which make woman's femininity and makes them strong and healthy. It allays inflammation, heals ulceration, soothes pain and tones up the nerves. It banishes the discomforts of the expectant months and makes baby's coming a joy to both mother and child. It guarantees the little new-comer's health and an ample supply of nourishment. Thousands of women have testified to its marvelous merits. An honest dealer will not endeavor to substitute some inferior preparation for the sale of this little life-giving profit.

"I took Dr. Pierce's Favorite Prescription previous to confinement," writes Mrs. Corbis of New York, "and it did me so much good that I never did so well in my life. It is only two weeks since I was delivered of a healthy baby."

In most healthy families you will find Dr. Pierce's Common Sense Medical Advice. For a paper-covered copy send 3c in one-cent stamps to cover postage and mailing only. Cloth bound 50c stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

LORETO ABBE

New Being Enlarged at a Cost of A Visit to the Latest Institution Loreto Abbe, famous as an centre all the country over, well behind in the progress of brick and mortar. The abbey caught the eye, but when the interior of buildings is completed it will be one of the finest piles in Canada. The additions of masonry-colored five storey high, are on the east side of the main building, and when finished some 75,000 the abbey will be a fine sight. A tall, calm-faced sister, who has been a gifted leader of society, not renounced her title, and would register through the pile last evening.

To gain a better idea of the interior, a glimpse of the old way by way of contrast, and then led the way into the basement, a lofty room 80x80 feet, all done in wood and in every way fit for a banquet hall. It is the dining room with nuns and pupils, but when the fronting Wellington-place, 1 wide is ready, religion and gaiety divided and the pupils are to be latter. On the ground floor is pointed with parabolical pride to some class room equipped in a manner, in keeping with the idea of hospitality. The hall of this floor runs to the necessary religious duties, through it proceeded the delicate music that have made the abbey. One was both to be the good Sister was already hal to the next story. WHEAT ADVANCED 15c.

And the May Line Sold Up to \$1.75 at Chicago Yesterday.

Phenomenal Gains at Other U. S. Centres—British and European Markets Report Further Improvements—Corn Higher in sympathy—Provisions Firm.

Monday Evening, May 9.

Wheat to-day continued its sensational advance, May selling up to \$1.75 at Chicago, and July at \$1.20, both lines showing corresponding strength at other world centres.

The early strength of the market at Chicago was caused by the heavy covering of shorts and the further reports of riots in European countries on account of the scarcity of food.

The feature of the day was the extension of the extraordinary bullishness of May wheat to the latter, as well as of range traders and talkers of a \$2 market.

The above-mentioned advances in May and July at Chicago were accompanied by rises of 7c and 5c in September and December respectively.

At Liverpool spot wheat closed 4d higher than on Saturday, May 9, at 9d higher, July 2d, Sept. 4d and Dec. 2d higher.

At Paris wheat closed steady at an advance of 40 to 75 centimes for the day.

At Antwerp the market closed very strong, 1 franc lower.

Corn to-day showed strength in sympathy with wheat, the central rate 2 1/2c for the day, at Toledo 10c, at Detroit 10c, at Duluth 10c and at Chicago 10c.
