### WOMEN FILL THE COURT

Fair Sex of Napanee Turn Out to Hear the Defence

### TRYING TO SHOW AN ALIBI.

Defence Think That Fanning's Evidence Establishes It For Mackie.

There Was No Positive Evidence Adduced Through the Testimony for Ponton - Miss May Baldwin Will Go on the Stand in Respect to Mrs. McGreer's Story - Safe Lock Experts to Be Heard To-Day - Mrs. Robert Mackie Combats the Statements of the Misses French and Makes General Denials.

Napanee, Nov. 29.-(Special).-The feature of to-day was that the defence case began immediately on the opening of court. Following this was the incisive cross-examination of B. B. Oeler, Q.C., who was seen and heard in his ablest lines. The alibi for Mackie is considered established by the defence, who point particularly to the evidence of Horsedealer Fanning. A pathetic scene was afforded by the evidence of Mrs. Robert Mackie and her cute little daughter Maude.

There was no positive evidence adduced to-day, though the testimony for Ponton was all from citizens of worth and respectability. There is no gainsaying the fact that "Billy" Ponton is dear to the hearts of the townsfolk. Tomorrow it is expected Miss May Baldwin will be put on the stand, and the defence will endeavor to destroy the strength of Mrs. McGreer's story by the former's testimony.

The safe experts will also be heard to-morrow. The Crown has laid a strong basis of expert testimony, which the defence will have their hands full to combat. Yet they are confident that Gravelle and Ayles will prove equal to the occasion. Theories and problems of algebra and trigonometry will be on the bill when these two take the stand. This part of the case is evoking unusual interest.

Prisoners Mackie and Ponton will give evidence in the morning. Thirty witnesses have been heard. A strong point of the defence is that so far no evidence has been adduced that shows that Ponton was cognizant of any secrets of the bank that were not known to others. It is said by the Crown that the statement that Holden played cards is erroneous, as that gentleman firmly declares he does not know how to.

Mr. Durrand and W. Green will have a chance tomorrow to show what they know of the case. Mr. Lounsbrough, a former clerk, is in town and will be called to give evidence in rebuttal. Interest in the proceedings is on the increase. The court room is crowded long before the opening hour and persons go home at 12 and get back before the court adjourns at 1 and remain till the judge returns. There is a noticeable increase in the attendance of women. The room ever presents an animated scene. Both sides claim an advantage day by day, as the case goes on. The evidence is below.

**The Defence Opens.** When the court opened at 9:10 the defence commenced its case by calling Geo. L. Parrott for the prisoner Mackie. Mr. W. C. Wilson took him in hand. The witness lives about 1 1/2 miles east of Belleville. He is a farmer. There is a log shanty on his farm. The railway switch comes out near the log cabin. The witness said he had seen Pare and Holden in this cabin in the summer of 1897. There were three others with them. They were all tramps. The three were younger men than Pare and Holden. The prisoner Mackie was not one of the party.

To Mr. Oeler: The witness said that this was in the month of June. It was in the afternoon. One of the men resembled the picture of Roghe. Graham Hamer was next put in the box. Gatham is a bit of a boy, of Napanee. Had seen Pare before, and thought he had seen Holden in the woods off the Belleville road. He had seen Pare at Mackie's well, and had spoken to him. He had seen two women with the party in the woods. Prisoner Mackie was not one of the party. He had never seen him till he saw him in court.

Mr. Wilson wanted to bring in a conversation Willie Meeks had with the witness, but Mr. Oeler declared that no foundation had been laid. A foundation consisted in naming time, place and occasion. Mr. Holman argued the matter with the judge, and the stenographer read from his notes, but it was ordered that there was no foundation. The witness, in answer to Mr. Oeler's questions, said that he thought one of the men was Roghe. Edward Jones, another bright-eyed boy, Fred Wilson, Fred Prizzell and Richard Vanalystie were called, and their evidence tendered, in order to contradict the

### MEMORIAL COLLEGE

General Sir John Buller Launches His Scheme for the Establishment of a Memorial College at Khartoum, with a view of educating the Sudanese and continuing the work which General Gordon commenced. He says the Queen and the Prince of Wales have consented to become patrons of the undertaking, and that Lord Salisbury has written in support of the scheme "the only policy by which England's civilizing mission can be effectively accomplished." Lord Kitchener announces also that Baroness Burrell-Contts and other people of wealth and high position support the enterprise.

**A Dramatic Appeal.** London, Nov. 29.-At a banquet tendered him at Edinburgh this evening, Lord Kitchener, in responding to a toast to his health, explained his plans for the institution at Khartoum, and made a dramatic appeal for funds. He asked also for help from the "people of the great English-speaking sister nation of America." The Earl of Rosebery, who was at the banquet, eloquently and patriotically endorsed the project.

### IS IT A WARNING TO BRITAIN?

The Journal des Debats of Paris on the Great American Gobble of Spain's Colonies. Paris, Nov. 29.-The Journal des Debats says: "The Americans, having started out to liberate Cuba, have ended with pocketing what remained of Spain's colonies. This moral evolution of the Americans is edifying as a good example of the manner in which one can, almost in good faith, arrive at the formulation of the most outrageous demands by confusion of ambition and duty at once, by considering an interest to be a divine right. Now that America has entered the arena of international politics she may have some lively surprises in store even for those who have been so ready to offer their friendship."

### WIFE DIES, HUSBAND SUICIDES

Fred W. Gaster, the Champion Bicycle Rider of Northern New York, Shoots Himself. Watertown, N.Y., Nov. 29.-Fred W. Gaster, champion bicycle rider of Northern New York, killed himself at his home at Pamela, four miles from this city to-day. Gaster's wife died at 8 o'clock this morning in childbirth. The husband, at 9:45 o'clock, took a Winchester rifle and went to the room where his wife's remains had been laid out in the bed. He sat down on the edge of the bed, placed the gun between his legs, the muzzle under his chin and pulled the trigger. Death was instantaneous. Gaster was 22 years old and had been married a year.

**Germany's Answer to the Czar.** Berlin, Nov. 29.-The details of the new army bill, just published show that the Prussian peace contingent will be increased by 11,244 men and 2850 horses. The Saxon contingent will be increased by 2073 men. Herr Eugen Richter, the Radical leader, calls this "Germany's answer to the Czar's disarmament proposal."

**Spain Will Be Honest.** London, Nov. 29.-The Madrid correspondent of The Daily Mail says: "Senator Sagasta asserts that if the United States insist upon Spain paying the Cuban and Philippine debts, she will honor her signature to the extent of her resources, and that the Government will not refuse to accept this burden."

**Death of Mr. G. H. Hagey.** Mr. G. H. Hagey of The Globe died yesterday after a short illness at his home, 191 First Avenue. He was well-known and a universal favorite. Deceased was only 29 years of age, and was a former pupil of the Toronto Collegiate Institute. The funeral takes place on Thursday at 2:30 to the Necropolis.

**Couldn't Touch Salvador.** Managua, Nicaragua, Nov. 29.-The armed forces of the United States of Central America, not being assisted by Nicaragua, have retired unsuccessfully from Salvador. It is, therefore, probable that the Federal organizers will devote further efforts to being, being unable to force Salvador to join the union.

**The Nivn Party Returns.** The party sent out by the Ontario Government under Alexander Nivn some six miles into the interior. Mr. Nivn discovered that the longitude of Moose Factory is 25 miles to the east, and that the distance between Nivn and Algoma Districts.

### WENT TO DESTRUCTION

Steamer Portland Was Lost and All Hands Drowned

### DID SHE BREAK DOWN?

Dozens of Bodies Have Drifted Ashore Off Highland Light.

List of the Crew of the Ill-Fated Steamship as Far as Can Be Ascertained - The Portland Also Carried a Full List of Passengers for Portland, Me.-Names of Those Lost-Twelve of the Bodies Washed Ashore at Cape Cod - Other News of the Frightful Storm.

Boston, Nov. 29.-The steamer Portland of the Boston and Portland Steamship Company, plying between Boston and Portland, was totally wrecked at 10 o'clock Sunday morning off Highland Light, and the entire crew and passengers perished within a short distance of land. A large quantity of wreckage, including trunks and other material, has come ashore, and at dark last night 34 bodies had been recovered from the surf by the life-saving crew at Highland Station. One body was that of a woman. The first body was found by Gleason Bouley, a surman at the station, who at once gave the alarm. Then a thorough search was made. The bodies saved were evidently those of passengers. The body of the woman was well preserved. It is thought here that the Portland took the storm outside Saturday night, causing her to break down, and finally to drift on to these lee shores and to destruction.

**The Lost Crew.** The crew of the steamer Portland, as far as can be ascertained, is as follows: Captain, Hollis H. Blanchard; first pilot, Lewis Strout; second pilot, Lewis Nelson; purser, F. A. Alghraham; clerk, Horace Pursor, F. A. Edward Deering; second mate, John McKay; quartermaster, Ansel Dyer; quartermaster, Petersen; watchman, B. Blake, T. Sewell, J. Whitton, J. Williams; first engineer, Thomas Merrill; second engineer, John Walton; third engineer, C. Verrill; steward, A. V. Matthews; second steward, Edward Heuston. Deck crew-John Daly, George McGillvary, Arthur Sloan, James Davidson, Peter Collins, Morris Graham, Cornelius O'Brien, D. Bruce, Matthew Barorn, Richard Harte, George C. Kopley.

**Smoke Union Blue Label Cigars.** The Tutti Frutti Cigarette, Adams & Sons, Co., 11 and 13 Jarvis-street, Toronto, Ont., are sending out a handsome little mechanical time book free to those who send in a wrapper from the Adams' packages tutti frutti gum.

### IT'S RUSSIA'S LITTLE GAME

To Test Its Strength in China-Belief That the Czar Will Withdraw From Niu Chwang if Menaced by America and Great Britain.

London, Nov. 29.-Although, with the optimism which distinguishes nations when regarded in the mass, the English people have made up their minds that the present lull in the international embroglio points to a favorable outcome of all the issues involved, yet individual observers are by no means so well satisfied. Lord Charles Beresford's stirring appeal to his countrymen not to permit Russia to obtain the upper hand in China, where, he declared, she had already packed Niu Chwang full of Cossack soldiers, has been noted. So credible did this appear that, though the source of the information precluded thinking of the assertion without foundation, it was fully expected that the Russian Government would officially deny it. Sure enough, the denial has now reached London, but while in form it is a denial, yet in reality it is a confirmation of the declaration to which it gives the lie. After declaring that the Beresford statement has no foundation whatever, The St. Petersburg Journal proceeds to show that it has very substantial foundation indeed.

### FRANK SLAVIN'S GRAFT

The Ex-Prize Fighter Did Not Live in Ottawa Last Winter for Nothing.

Vancouver, B.C., Nov. 29.-The latest comes from Dawson City bring news that Frank Slavin, the prize-fighter, has secured the right to cut the timber for five miles up the Klondike River, beginning at its mouth. Any other man living in this reserve must pay tribute to Mr. Slavin at the rate of \$7 a cord.

### THE MAGOWANS AT CLEVELAND

They Were Taken to the County Jail to Remain, Unless They Furnish Bail.

Cleveland, O., Nov. 29.-Detective Watt arrived here from Erie to-day with ex-Mayor Magowan and his wife, Mrs. Barneg Magowan. With the Magowans were their attorney, Judge Scott of Erie, Attorneys George A. Allen and H. A. Clark of Erie, and W. J. Whitehead, a business friend of Mrs. Magowan. They were driven to the Central Police Station. No charge was placed against the Magowans. Later the husband and wife were taken to the county jail, where they will be locked up if they do not furnish bail.

### BUFFALO GETS INTO LINE

Starts Ahead With Preliminary Work of Establishing a Municipal Gas Plant.

Buffalo, N.Y., Nov. 29.-The Board of Public Works to-day decided to go ahead with the work preliminary toward the establishing of a municipal gas plant. The Board has been in communication with William H. Pearson, Jr., vice-president of the Economical Gas Apparatus Company of Toronto, with a view of employing him to make the plans. They liked his methods, and came to the conclusion to employ him to make the plans and specifications.

### POLITICS IN QUEBEC

J. E. Mareille Will Lead the Forlorn Hope in Bagot Against the Conservatives.

Montreal, Nov. 29.-[Special].-Mr. J. E. Mareille of Upton will lead up the forlorn hope in Bagot against the Conservative candidate, while Mr. Martineau, Judge Choquette's late partner, will contest the County of Montmagny in the same interest.

### ELECTION PROTESTS

Petition Filed Against Hon. J. M. Gibson in East Wellington-No Result in West Elgin.

Thomas Ryan of Mount Forest, on behalf of the Conservatives of East Wellington, yesterday filed at Osgoode Hall the threatened petition against the return of Hon. J. M. Gibson. Apart from the usual charges, the petition says: "That the said John Morrison Gibson was, by himself and his agents, guilty of bribery at common law, inasmuch as he, or someone in his behalf, induced or procured James Park of the Township of Luttrell, a candidate at the said election, to retire and accept a nomination in order that the said John Morrison Gibson might be elected, and that for this purpose the latter, or someone on his behalf, promised or agreement to or for the benefit of J. M. Gibson, to induce him to procure, or endeavor to procure, the return of the said John Morrison Gibson and to refrain from running against the latter." Bristol, Caithness & Barker filed the petition.

### TO GIRDLE THE EARTH

Seems to Be the Ambition of the Canadian Pacific.

### THE FAST ATLANTIC LINE

Is Said to Be the Object of Strathcona's Present Visit to Canada.

Pipe Said to Have Been Laid to Talk the Matter Over With the Laurier Ministers - Sir William Van Horne's Dream of Connecting Great Britain With the Orient May Soon Be Realized-The C. P. R. Takes Over the Crow's Nest Road-Coke Ovens Ready.

Montreal, Nov. 29.-[Special].-There was a report flying around the city that the Canadian Pacific had at last decided to take a hand in the fast Atlantic steamship business, and that Lord Strathcona's present visit to Canada is not foreign to the project in question. It is known that the Canadian High Commissioner was thoroughly loyal to Mr. Petersen and did all he could to help that gentleman along, but, as soon as it was seen that Petersen and Tait could really not succeed, the C. P. R. then decided to enter the field. Rumor has it that Lord Strathcona first went to Ottawa and paved the way for an interview between Sir William Van Horne and those of the Ministers who were in the Capital, and on the following day the president of the Canadian Pacific and Lord Strathcona paid a second visit to the Capital. Of course, the C. P. R. magnates express their ignorance of any such intentions, yet a little bird is authority for the statement that an interesting meeting will be held in a few days at Washington between several friends of the C. P. R. and those of the Canadian Ministers who are in the American Capital. The question is, Will Van Horne assist in the laying of the Van Horne's dream of a line of railway and steam communication from Britain to the Orient be soon realized? C. P. R. Running the Crow's Nest Road.

Mr. William Whyte, manager of the Canadian Pacific's western lines, arrived here to-day by the Vancouver express, and reports that he and Mr. Kern took the Crow's Nest road off the contractors' hands on Oct. 15, and freight trains are now running from Lethbridge to Kootenay Landing. From here barges, with a three-tracked dock, each take 15 loaded cars, and are towed to Nelson, a distance of 55 miles. The passenger service has not yet been organized, but it will be as soon as ballasting is completed.

### 100 COKE OVENS READY.

At Ferme 100 coke ovens are now ready and 200 will be completed at an early day and the C. P. R. will soon be carrying daily to the smelters of Trail, Pilot Bay and elsewhere 400 tons of coke and coal. Mr. Whyte also declares that not a single shovel will be required through the two mountain ranges, and by next summer passenger trains will fly along at as high a rate of speed as on any of the older sections of the Canadian Pacific.

### Japanese Customs and Art Objects.

The sale will be continued this morning commencing this morning at 11 o'clock and at 2:30 p.m. In the assortment for to-day there are some very fine specimens of cloisonne, tanzan talence vases, also several beautiful French bronzes, which will make very desirable Xmas presents. The sale will be continued every day this week until everything is closed out. C. J. Townsend, auctioneer, 28 King-street west.

### Light Snowfalls.

Meteorological Office, Toronto, Nov. 29.- (11 p.m.)-Another rapid decrease in pressure to-day along the Middle Atlantic coast portends more disturbed weather in the Maritime Provinces; a moderate depression covers Lake Superior and light snow is falling over many portions of the lake region. Minimum and maximum temperatures: Victoria, 42-46; Kamloops, 28-34; Calgary, 2-30; Qu'Appelle, 4-22; Winnipeg, 10-18; Port Arthur, 30-34; Eggy Sound, 28-38; Toronto, 20-34; Ottawa, 18-30; Montreal, 18-23; Quebec, 20-30; Halifax, 36-40.

### Lower Lakes and Georgian Bay-Winds, becoming westerly to northwesterly, and increasing to fresh or strong breezes; cloudy to partly cloudy, with light snowfalls at many places; stationary or a little lower temperature.

Ottawa Valley-Mildly cloudy; light snowfalls at many places; no much change in temperature. Upper and Lower St. Lawrence and Gulf-Breezy; cloudy; light snowfalls at many places; not much change in temperature. Maritime-Fair to cloudy; local falls of sleet or rain, more especially at night. Lake Superior-Fresh or strong breezes, shifting to west and northwest; light snowfalls at first clearing and somewhat cold to night. Manitoba-Fair and moderately cold.

RUGBY FOR THE MCKENZIE CUP

Hills and McKenzie Help Freshmen to Win Opening Game.

Hilltoppers Beaten on Varsity Field in the Snow 18 to 4—More Fun Than Football, and the Winning Side Was Always Ahead.

The first game in the Muck Cup series was played yesterday afternoon on the College campus by the teams of '01 and '02. Naughtly two was easily by 18 to 4, the score at half-time being 8 to 4.

The game was more fun than rugby, and amid the cries of "Fetch them, Blood-bounds" as '01 was called, the freshmen started off with a rush. In a few minutes McDermott was over for a try, and Tarte Hills converted, giving his team the only score they got in the first half.

After this unimpressive first half the game was started on the field, when on a pass from McKenzie to Hills, Brown got away clear, and was not overtaken till he was over the line. He placed the kick, but it had not enough strength in it, and the total was 4.

This was all the scoring that was done, while the other half the freshmen played tag with them, adding 12 more points, Hills getting the first try shortly after play was resumed. He converted the goal, while just before time ran out Biggs went over for another, and Hills again converted it, making the score 18 to 4, and putting nearly one out of the race for this year. The teams were:

Varsity (18)—Back, Gillespie; halves, Hills, McKenzie, Fudge; quarter, Biggs; scrum, Jackson, Stratton, Webster; wings, Darling, McGregor, Brodie, Shinnick, Gray, McDermott.

Hilltoppers (4)—Back, Burton; halves, Aylesworth, Brown, Ryan; quarter, Robinson; scrum, Telford, Shenston, Whelan; wings, Potman, Sussell, McCullough, Campbell, Ingram; full back, Woodcock.

Notes of the Kickers. The Ottawa University football team, champions of the country, were invited to play a game at Ottawa University by the rector, Rev. Father Constantine, last night.

All Saints' was the final game for the C.E.B. Football Cup on Saturday, by a team from St. Basil's, Ottawa, who were defeated by a team from St. Ignace's, Ottawa.

For the Stanley Cup. Montreal, Nov. 23.—There is a possibility that the hockey season in Montreal will open with three teams, the Montreal Canadiens, the Montreal Wanderers and the Montreal Victorias.

The meeting of the Varsity Rugby Club was held yesterday for the purpose of electing the president and captain for next season. Captain Burnside, who could not attend, was elected president.

On Thursday, Dec. 15, it is expected that the most brilliant ball ever given by the R.O.C.C. will be given at the Montreal Arena.

The meeting of the Ball Committee, held on Monday, was an abundant one, and the enthusiasm in behalf of ensuring absolute success for the coming season was manifest.

Jack Daly of Wilmington, Del., and Joe Gans, the colored lightweight of Baltimore, have been matched to meet in a 25-round bout at the Lenox A.C., New York, Dec. 12.

A YEAR OF RUGBY UNIONS.

Referee Ed. Bayly Reviews the Football Season—Ottawa City's Champions Compared With Osgoode Hall of '02—The Game in Popular Favor.

Dissatisfaction with the government of the old unions has, apart from the actual matches themselves, been the feature of the Rugby season just closed. The revolt of the O.R.F.U. Senior teams opened the ball and Quebec and even the C.R.U. "got it hot" before the snow came.

Trouble the executives have always with them, and perhaps the unions were right, and perhaps not, but it is easier to destroy than to build, and each year at the annual meeting the clubs have their innings if they only know how to take advantage of it. And now to the inter-collegiate: What, indeed, discussing the reasons for its organization, it may be said that it has fully justified itself, both by the high standard of play which its teams display and by the large measure of public approval and patronage which it enjoyed.

A comparison for the World readers, of Ottawa with former champions at once suggests itself to my mind, and Osgoode Hall of '02 and Ottawa College of '06 are typical examples. To begin with the Hills, an Ottawa booster, who, by the way, is a steady though less brilliant player, a steady though less brilliant player, a steady though less brilliant player.

BASEBALL OF 40 YEARS AGO.

When They Played With Willow Bats and Piled Up Cricket Scores—Woodstock Had a Famous Team—Some Notable Contests.

Baseball, the United States national game, known as the diamond game, was introduced into Canada about 1860, superseding the old-fashioned game known to most people as rounders. The Maple Leaf Club of Hamilton was the first club to play the game on this side. In 1861 the Young Canada Club of Woodstock took hold of it, Mr. C. A. Woods, a gentleman from Utica, N.Y., who became proprietor of the old Montgomery House (now Farrell's Hotel), being the instigator.

Woodstock had a famous team in 1870, which was called the "Guelphs." They played at the end of the sixth innings, when the Guelphs were leading by two runs. I remember that myself and nearly all the other young men in Woodstock were present at the game.

NOT TOD SLOANE'S, BUT JOHN GILPIN'S STYLE.

Old-Time Print Shows That Cowper's Citizen of Renown Was First to Race on Horses' Shoulders—Writer in London Star Proves His Case Beyond Dispute—The Rivals' Seats.

During Jockey Tod Sloane's successful campaign on the English race tracks, his method of riding was the subject of much comment. A facetious individual wrote to The London Star that it was not the "Sloane seat," but the "Gilpin seat," that has revolutionized horse racing in England, and with frequent quotations from Cowper's "Task."

That is, he rode easily, and with a bit in hand all the time; indeed, he incited his horse to greater efforts for us, and that was declared a draw. The referee said that the rider, who was supposed to have got the worst of it, was not hurt. The Killy-Brown affair was a fine exhibition, and the referee declared a draw.

The gambler's dilemma. That is, he rode easily, and with a bit in hand all the time; indeed, he incited his horse to greater efforts for us, and that was declared a draw. The referee said that the rider, who was supposed to have got the worst of it, was not hurt.

What thing upon his back had got, did wonder more and more. What is clear evidence that it is Gilpin riding the horse, not the Sloane running about the public. It is true that he carried weight he rides a race!

For a famous poem, accompanied by an old print, proves his case as follows: "I regret to find your sporting editor, Captain Cox, joining in the parrot chorus of praise to Tod Sloane, the American jockey, and his wonderful riding. The public is not to be blamed for being carried away by fantastic theories which have been propounded to account for Sloane's success, when men of judgment and experience like Captain Cox are declared into believing that he has invented some new theory of equestrianism."

Tremulous Selling of Keith's "S4's"

AN IMPROVISED FOOT RING

Colored Champion Beat Gardner in Twenty-five Rounds.

Decision of Referee Dick Roche Not Satisfactory, as Usual—Shorty Ahearn Won the Preliminary in Three Rounds—Notes of the Squared Circle.

New York, Nov. 29.—George Dixon, the colored featherweight champion pugilist, fought 25 fast rounds with Oscar Gardner, the Omaha Kid, before the Lenox Athletic Club to-night, and Referee Dick Roche decided in favor of the champion.

This decision did not please a great many of those who witnessed the fight. Dixon left the ring at the opportunity of Oscar Gardner, who was his seconds, then entered the ring, followed by George Dixon, and his seconds, Tom Sweeney, Bob Brown and Charley Miller. Both sides watched the fight with interest.

In the second round Gardner was first to land, leading left on the neck. Dixon replied with a left to the head, and Gardner countered on the body. Dixon kept his hands close to his face, and Gardner occasionally landed the body with his right.

Dixon began the sixth round with a left to the head, and Gardner countered with a right to the head. Dixon then landed a left to the head, and Gardner countered with a right to the head.

Dixon began the eighth round with a left to the head, and Gardner countered with a right to the head. Dixon then landed a left to the head, and Gardner countered with a right to the head.

Dixon began the tenth round with a left to the head, and Gardner countered with a right to the head. Dixon then landed a left to the head, and Gardner countered with a right to the head.

Dixon began the twelfth round with a left to the head, and Gardner countered with a right to the head. Dixon then landed a left to the head, and Gardner countered with a right to the head.

Dixon began the fourteenth round with a left to the head, and Gardner countered with a right to the head. Dixon then landed a left to the head, and Gardner countered with a right to the head.

Dixon began the sixteenth round with a left to the head, and Gardner countered with a right to the head. Dixon then landed a left to the head, and Gardner countered with a right to the head.

Dixon began the eighteenth round with a left to the head, and Gardner countered with a right to the head. Dixon then landed a left to the head, and Gardner countered with a right to the head.

Foundations.

There are no premiums, no credit risks, nor special discounts figured into the cost of "Fit Reform."

You who pay cash (as you must here) are not asked \$15.00 for a \$12.00 garment, so that some favored few may buy it for \$10.00, or for nothing (if on credit).

The law of average or of chance has little to do with prices here. You pay absolutely for nothing but the material bought in thousands of yards; for the workmanship systematized into economy as in the making of a watch; and for a margin of profit which satisfies on a cash basis and on a large turnover, but would not pay expenses alone in a tailor's business.

No "Custom Tailor" uses as many fine imported cloths or finish garments as well as we do, though we sell at little more than half the prices they must charge to live. Your money back if you say so.

THE TORONTO WORLD ONE CENT MORNING PAPER. No. 23 YONGE STREET, Toronto.

THE CITY COUNCIL AND TRADES UNIONISM.

Urged by "organized labor" the City Council has decided that in future the union label is to be placed upon all clothing manufactured for the use of the fire brigade and other officers in the employ of the city. In other words, unless clothing workers choose to belong to a particular labor union, they are to be debarred from working upon clothing made under contract for the city. Further, even members of this particular union are not to be allowed to work upon such contracts unless all the other employees in the shop or factory, in which they are employed, belong to the union, nor unless their employer conducts his establishment in all respects so as to meet the approval of the union. The factory or shop may be perfect as to its sanitary arrangements, as to hours of labor, wages and treatment of employees, it may be superior to any shop entitled, under the rules of the union, to use the label, but unless the proprietor agrees to submit himself and his business arrangements to the union, the action of the Council places him and all who work for him, both unionists and non-unionists, under the ban. The ten aldermen who voted for Alderman Woods' motion on Monday night may not have understood this nor intended it, but this is what the motion means. Viewed in another way the action of the Council means that the non-union men and women of the city, who form the great majority, are told that, while they must continue to pay their quota of the taxation, they are no longer to be allowed to enjoy their fair and equitable share of the benefit arising from the expenditure of the rates. Alderman Woods and his supporters may not have aimed at doing such an inexcusable and indefensible piece of injustice, but this is what they have done. The union label has been adopted by some trades unions as a means of assisting them in organizing, that is unionizing their trades. When an employer is granted the use of it, its appearance is a guarantee that union wages have been paid and union conditions observed in the making of the article to which it is attached. All unionists are expected to purchase labelled goods, and in this way it is supposed a business advantage will come to the manufacturer who uses it. All this is perfectly fair and legitimate and, so used, the label is a means of unionist propaganda, to which none can rightly object. It is too late in the day to object to the existence of labor unions. Nor, in the face of recent decisions by so high an authority as the Judicial Committee of the House of Lords, can it be disputed that unionism has the legal right to refuse to work with non-unionists. But this is quite a different thing from asking a City Council to refuse to allow non-unionists to do work for the doing of which they have been taxed to pay, which will deprive them of their civic rights because they do not choose to be members of a particular trade union.

REDISTRIBUTION.

There is no doubt that the Liberals will introduce a redistribution measure at the coming session. It is equally beyond doubt that it will never pass, so far as it concerns British Columbia. It is published in The Vancouver World (Liberal) of Nov. 22. This is it:—

INCALCULABLE GOOD.

Dr. Ward's Blood and Nerve Pills have done me an incalculable amount of good. I think they are the best, surest and quickest acting cure for nervousness, unhealthy action of the heart, insomnia or sleeplessness, anæmia or impoverished blood, loss of appetite, general debility and ill-health. For nine years, before I commenced taking Dr. Ward's Blood and Nerve Pills, my heart was weak and in an unhealthy state. It acted so much as if I were a nervous wreck, and I was unable to do any work without suffering great distress, my heart fluttering and beating so rapidly that I could scarcely breathe, causing faintness, loss of strength, and leaving my nerves all unstrung. My sleep was very much disturbed, I had no appetite and there was little strength or vitality in my body; I was always excessively nervous.

THE COLLINGWOOD-TORONTO

We are pleased to see that the City Council has requested the Mayor to call a public meeting to discuss the question of improved railway communication between Georgian Bay and Toronto, in connection with the transportation of freight from the great lakes to the seaboard. The towns of Collingwood, Mid-

land, Owen Sound and Penetanguishene are all intensely interested in this matter, and if Toronto decides on a vigorous policy it can count on the hearty support of the whole Georgian Bay district, Parry Sound excepted. The problem to decide is whether it is cheaper to convey freight from Owen Sound and the other ports on the Georgian Bay to Montreal altogether by railway or by rail to Toronto and thence by water to Montreal. Within the last three or four years the traffic of the great lakes has been heading for the Georgian Bay. The C.P.R., the Grand Trunk and the Ottawa and Parry Sound railways have made the Georgian Bay the terminal at which they receive Northwest freight. The Grand Trunk and the C.P.R. carry the freight received by them at Georgian Bay points to the seaboard wholly by rail. The O. & P. S. Railway carries the freight to Coteau, a distance of 345 miles by rail, and thence 35 miles by water to Montreal. The railways have centered their efforts on the Georgian Bay route, because it is the most economical and because it enables them to compete with the all-water route, via the Welland Canal. This route via Georgian Bay is practically a new one. Its merits were first recognized by the projectors of the Ottawa and Parry Sound Railway, who constructed this line for the very purpose of taking advantage of the short cut from the great lakes to Montreal across Central Ontario. It is admitted that transhipment at Georgian Bay ports is the coming method of conveying freight to the seaboard the next question that has to be solved is, which particular route from Georgian Bay to tide water is the most economical? The C.P.R. and the Grand Trunk are making strenuous efforts to meet the competition of their new rival, whose terminus is at Parry Sound. The latter seems to be securing the bigger part of the traffic. But the best route of all, in our belief, one that has not yet been tried. It is in the interests of none of the railways to give it a trial. We refer to the route via Toronto, with transshipment at this point to vessels for Montreal. This route involves only 70 miles of rail, as against Parry Sound's 345 miles. There is really no comparison between the two routes. If the Grand Trunk and C.P.R. find Mr. Booth's railway a serious competitor, we cannot expect their sympathy in a project which will make the competition for freight more severe. Toronto cannot therefore count on the assistance of its railways in any scheme to build an air line between Georgian Bay and Toronto, and to construct the necessary terminal facilities in this city. On the contrary, we may expect the opposition of the C.P.R. and Grand Trunk. But the whole country will be behind any project that reduces the cost of transportation. Toronto will receive the support of the Northwest as well as of Ontario in any efforts it may make to reduce the cost of carrying grain to the seaboard.

OVERCHARGING THE RATE-PAYER. Ald. Richardson makes the statement that the sidewalks, constructed by the city cost ratepayers 30 per cent. more than they themselves could do the work for. This statement ought to be investigated and its truth or falsity demonstrated. Instead of ratepayers having to pay 30 per cent. more for their sidewalks, when done by the city, they should save that amount. By buying in large quantities the city ought to be able to do this work for considerably less than private individuals. If Ald. Richardson's statement is substantiated it shows that something is wrong in the Engineer's department.

THAT YANKEE HOLD-UP.

Mr. Charles Runk, the Montreal Traveler, Does Not Feel Kindly Towards Uncle Sam. Mr. Charles Runk, the traveler for S. Davis & Sons, Montreal, who was deported from Detroit while passing through on his way to Sarnia, was at the Walker Hotel last evening. This latest victim of the Barytan looks like an artist, and has the gentle manners of a dancing master. He naturally feels sore on the point, but treated it in a philosophical manner. "It is the market satire on the so-called Anglo-Saxon relations, this kick-out I got," he remarked. "It wasn't as if I was going to do business in Detroit. I was simply passing through Detroit, going from Windsor to Sarnia. As it was my loss, both in time and money, was considerable, I was angry. I was passing through Windsor every day and was never objected to."

MISS BIGGART'S RECITAL. Of the Story of "Adam Bede," Dramatized by Russell, Was Simply a Hysterical. "Adam Bede," with its measureless waters of human passion and misery, diverted from the intricate story into a dramatic channel, was poured out before a delighted audience at the First Unitarian Church last evening. The interpreter was Miss Mabelle Biggart, whose own clever work as novelist and dramatist enabled her to express the subtle shades of thought and feeling, Miss Biggart, attired in a Grecian gown of sky blue, with silver gloves and short sleeves, that showed the dimpled arms to best advantage, delivered her reading beneath soft lights and surrounded by flowers. The story began with the wedding scene and leaped to the love affairs of Seth, home and his sorrows, Hetty Sorrel's bitter nanking at Mrs. Poygers, the appearance of Arthur, Hetty deserted, the court house scene, and the stirring pathos of Dinah's visit to Hetty in the jail. Miss Biggart is an exceptionally able and intelligent actress, and at its close that a vast amount of histrionic talent had been denied the stage by the refusal of the novelist's parents to allow her to devote herself to it. The effect of her reading was heightened by being accompanied by the music of piano and violin, in the clever hands of Miss H. Shipley and Mr. Charles Wagner. Mr. Hawes presided.

CORNWALL BRIDGE DISASTER.

Mr. Patrick Murphy Claims \$5000 for the Death of His Son. The first suit arising out of the Cornwall Bridge disaster was opened yesterday at Osgoode Hall, with Patrick Murphy and his wife of 306 Bathurst-street, as the plaintiffs. Five thousand dollars damages for the death of their son Patrick is claimed. The defendants, who are all Americans, are the Phoenix Bridge Company, the New York and Ottawa Company. The question of jurisdiction will therefore depend on the character of the contract, and the exact degree of responsibility will be the difficult matter to fix. Mr. Mulver, barrister, is the issuer of the writ.

NEW SECRETARY OF MONTREAL HARBOUR TRUST.

Montreal, Nov. 23.—(Special).—David Selig, who was appointed yesterday to succeed Mr. Robertson as secretary of the Harbour Trust, while Mr. Arthur Archambault, of La Patrie staff, was made assistant. Robertson resigned on account of poor health. He was a very valuable official.

A NERVOUS VISITOR.

Archibald Robbins has no particular place of abode and he tried to take up his residence last night in an occupied house on Salem-avenue. Some children who were in the house ran out and told Constable Burns, who arrived and took him in charge. The prisoner is charged with trespass.

DID GRAYSON STRIKE CROWE?

Matthew Grayson of 145 Elizabeth-street was arrested yesterday by Detective Harrison on a charge of assault. The complainant in the case is Mr. J. M. Crowe of 99 Albert-street, and he says the prisoner struck him with a bottle.

CHARGED WITH FORGERY.

John Stean, a brakeman living at Little York, was a prisoner at Police Headquarters last night, charged with forgery. It was said that the prisoner uttered a forged document and secured \$38.

A doctor's Prescription

Should always be filled from the very best materials available, particularly when it is for liquor.

A doctor orders Port, or Sherry, or Brandy, or Native Wine, for the purpose of assisting a patient to health and strength.

If, then, cheap liquor is bought and used, more harm than good is probably done, and whatever it cost is wasted money.

When the doctor orders liquor, either make up your mind to get it good or tell him you can't afford it at all.

We have liquors suitable for invalids' use, according to their requirements, from the following prices upwards:

SPECIAL December Sale

HIGH-GRADE SILKS

FIRST FLOOR

Thursday, to-morrow, December 1st, we will institute A Special Sale of High-Grade French Silks For the Month of December,

including silks which, for style and durability, are absolutely and undeniably of the highest order. Our supremacy for silk buying and silk selling is so well established that it seems quite superfluous to emphasize the extraordinary nature of this special silk event to prospective buyers.

It's a chance to buy a handsome silk waist, skirt or dress at a considerable saving in the cost, and those who will take advantage of this chance will fare better than those who don't. Sale will be in the Silk Section proper—Main Floor.

- 5200 yards 22-inch French Figured Silk, in plaids, stripes and figures, in both Taffeta and soft makes; also poplins, fancy broche, fancy striped silks, fancy figured taffetas, fine fancy figured broche, shot taffetas, light broche silks, etc., were 85c, \$1 and \$1.25 per yard, for... 60

Out-of-town buyers may have samples of these silks by writing to our Mail Order Department at once.

Resident ministers will speak at the Elizabeth-street mission, and Rev. Mr. Lansing will address the young people of Davenport. On dress the young people of Davenport. On dress the young people of Davenport.

West York Farmers' Institute. The West York Farmers' Institute will hold their first meeting of the season at Woodbridge on Thursday, Dec. 1, in the Orange Hall. Mr. Smith of Highfield will occupy the chair at the afternoon meeting and a lecture on "Increasing the fertility of the soil with little outlay" will be given by H. McCulloch of Snelgrove. There will be a discussion on the "Turpentine" and other subjects, and an address on "Breeding and feeding hogs for market" will be given by Dr. G. W. Dewey of Anderson of Hully. The evening session will treat on home life. Music and songs will intersperse the speeches.

Funeral of A. S. Smith. The funeral of the late A. S. Smith of Kew Beach took place yesterday afternoon from the home of deceased, Lee-avenue. There were many guests present. Burial took place at the Woodbridge branch of the Upper Canada Bible Society on Monday evening. The male choir, under the direction of Mr. W. W. Dewey, interspersed the evening with selections.

State Colonel and Senator Marshall of Brown's Hill, for disturbing a Menominee ritual last Sunday, were fined \$3 and costs by H. D. Ramsden, J. P. of Mount Albert. Miss Maud Elliott of Woodbridge left yesterday for Chicago to attend the wedding of Miss Irene Wiley, daughter of Mr. Wiley, formerly station agent at Woodbridge, but now on the Illinois Central. Miss Wiley is to marry a son of Chicago's big Chief of Police.

TO CONTROL ALL CONTAGION
It is Proposed to Appoint Medical Inspectors for Schools.

WHEN A CHILD IS ABSENT

The Medical Inspector's Business
Will be to Ascertain if There is
Contagious Disease in the Family
-Striving the Water Supply-Oral
Fed to Pigs-The P. B. of H. Meet-
ing.

The Provincial Board of Health opened
its quarterly meeting yesterday, presided
over by Dr. J. D. Macdonald, Hamilton (chair-
man), J. J. Cassidy, Vaux, Brockville;
Bryce and Kitchen. Most of the morning
was taken up with the consideration of
striving's proposed water supply. The au-
thorities propose conducting the water
from Oak Lake, 300 feet above the town,
in iron pipes, the plant to be looked after
by a competent engineer. As the water
is to be used chiefly for fire purposes, the
request was granted, the right to order
necessary changes in the water supply not
to be granted until the water supply is
satisfactory.

In the afternoon the board first consid-
ered a letter from Dr. Goodman, the health
officer of St. Catharines, asking the board
to stop the construction of a ditch between
Welland and Fort Colborne, for the pur-
pose of draining the Hamabrook Marsh
into the Welland Canal. Dr. Bryce com-
municated with the Minister of Railways
and Canals, who said there would be a
natural objection to using the canal for
drainage, as it is used for water supply.
The board decided that the canal was not
to be used for the present, and the mat-
ter was left open for future consideration.

Secretary Bryce's Report.
Dr. Bryce presented the quarterly
report of the secretary, which reported that
this year had been marked by a low mor-
tality from the several contagious dis-
eases. It is thought probable that occa-
sional cases of smallpox may be intro-
duced into the province during the winter,
and local authorities are advised to be on
the danger from the general neglect to vac-
cinate school children with the preparation
of glycerinated vaccine now becoming so
general.

The Deputy Registrar-General was grati-
fied to perceive that reports were received
from 707 out of 727 municipalities for the
year ending October 31, 1898, showing a
total of 97 per cent. of the total popula-
tion of the province. The board com-
mended very favorably on this, giving
credit especially to Mr. Lindsay.

Scarlatina in Toronto.
Scarlatina has increased in prevalence,
the chief centre being Toronto. It would
be impossible to deal effectively with this
disease until morning visits of medical
men were paid to the schools, as in New
York and Boston, and in case of an ab-
sence following up on the cases of ab-
sence. Parents very often would not
report a case, as they knew their home
would be placarded and other children iso-
lated.

The Problem of Typhoid.
The problem of typhoid fever was consid-
ered. It has been more prevalent during
the past quarter than any previous quarter
of the year, and was prevalent almost
entirely in rural districts and villages, and
once in 15 years ago.

Pigeonies are Dirty.
The Department of Agriculture at Ottawa
has forwarded a report regarding the
condition of large pigeon farms in Ontario,
where the city of St. Catharines, and
little better exist in the neighborhood of
all our larger centres, and, in spite of
the strictest measures taken, such as the
health act, the rural boards have
proved utterly useless for the purpose.
Rural pigeons are a pest which is system-
atically being introduced into the city,
and a heavy fine for the offence can
be levied. A very epey letter was re-
ceived from the Deputy Minister of Agriculture
at Ottawa, describing such places.

To Hunt for Contagion.
Regarding Dr. Bryce's recommendation
to provide inspectors to look up the
contagious diseases in the city, the
city, methods of operation in other
cities were presented. In New York 150
doctors, living in the vicinity of the

PUT YOUR FINGER
ON YOUR PULSE.
If it is Weak or Irregular don't Hesitate
to Start the use of Milburn's
Heart and Nerve Pills at once.

The way the heart beats is an index
of how the whole machinery of the body
is going. With a strong, steady, regu-
lar pulse we may expect vigorous health.

With a weak, irregular, intermittent
pulse we can tell at once the vitality is
low—that Dizziness and Faint Spells, Smit-
tering and Sinking Sensations, Nervous-
ness and Sleeplessness and similar con-
ditions are bound to ensue.

By their action in strengthening the
heart and regulating the beat, toning the
nerves and enriching the blood, Mil-
burn's Heart and Nerve Pills relieve and
cure all those distressing conditions just
enumerated, and impart vigor and vitality
to the system.

Mrs. B. Croft, residing on Waterloo
Street, St. John, N.B., relates her expe-
rience with this remedy as follows:

"For some time past I have suffered
from palter, weakness and nervous pros-
tration, I had palpitation and irregular
beating of the heart so severe as to
cause me great alarm. I was treated
by physicians, but got no permanent
benefit."

"Finally I was recommended to try
Milburn's Heart and Nerve Pills, and I
am glad to say that from them I derived
the first real benefit that I ever got from
any medicine. My appetite is improved,
my entire system toned up, and I can do
no less than cheerfully recommend Mil-
burn's Heart and Nerve Pills to all re-
quiring a reliable heart and nerve tonic."

Milburn's Heart and Nerve Pills are
Sold at a box, or 3 for \$1.25, at all drug-
gists. T. MILBURN & CO., Toronto, Ont.

Miss Mary E. Hicks, South Bay, Ont., says
that Lax-Liver Pills cured her Sick Head-

GENERAL AS REFORMER.
Matters That the New Commandant
is Considering

Extension of Period of Annual
Camps - General Hutton Would
Like to Be Present at Each One -
More Suitable Clothing for the
Men-Improvement of the Cook-
ery System-Local Storage of the
New Rifles.

The World learned yesterday that since
General Hutton's inspection of the troops
at Toronto on Thanksgiving Day he has
visited every militia headquarters in On-
tario and met the officers of all grades,
with whom he discussed the military situa-
tion. He was anxious to obtain their views
on several questions. As a result of these
visits, he knows nearly every officer in the
country, except the Far West, which he has
yet to visit.

Three Propositions.
There are three principal propositions
that the General is considering:
1. To make the militia force more popu-
lar.
2. To increase its efficiency.
3. To make it bear less heavily on offi-
cers and men who give so much time to
their respective duties.

In reference to camps of instruction, Gen-
eral Hutton will endeavor, if possible, to
secure 16 days of training, owing to the
fact that at the end of the present term of
12 days in preliminary camp, and the use
of arms, the men go home and do not have
the opportunity of doing actual work in
brigades. The General will do all he can
to obtain the extra money this extension
will entail from the Government. In this
he believes he will be backed up by the
General's intention, if possible, to have the
militia and will be successful in this.

The Annual Training.
As to the camps, the General has already
arranged all the details, and will endeavor
to adjust the dates that he will be able
to command every camp in person. In this

GENERAL AS REFORMER.
Matters That the New Commandant
is Considering

Extension of Period of Annual
Camps - General Hutton Would
Like to Be Present at Each One -
More Suitable Clothing for the
Men-Improvement of the Cook-
ery System-Local Storage of the
New Rifles.

The World learned yesterday that since
General Hutton's inspection of the troops
at Toronto on Thanksgiving Day he has
visited every militia headquarters in On-
tario and met the officers of all grades,
with whom he discussed the military situa-
tion. He was anxious to obtain their views
on several questions. As a result of these
visits, he knows nearly every officer in the
country, except the Far West, which he has
yet to visit.

Three Propositions.
There are three principal propositions
that the General is considering:
1. To make the militia force more popu-
lar.
2. To increase its efficiency.
3. To make it bear less heavily on offi-
cers and men who give so much time to
their respective duties.

In reference to camps of instruction, Gen-
eral Hutton will endeavor, if possible, to
secure 16 days of training, owing to the
fact that at the end of the present term of
12 days in preliminary camp, and the use
of arms, the men go home and do not have
the opportunity of doing actual work in
brigades. The General will do all he can
to obtain the extra money this extension
will entail from the Government. In this
he believes he will be backed up by the
General's intention, if possible, to have the
militia and will be successful in this.

The Annual Training.
As to the camps, the General has already
arranged all the details, and will endeavor
to adjust the dates that he will be able
to command every camp in person. In this

## CHICAGO FUTURES EASIER.

Despite the Continued Good-Sized Exports.

Chicago wheat futures received a net 1/2c per bushel to-day. In the face of big clearances for export, and the premium on cash wheat in most markets, the bear influences were heavy. Receipts in the Northwest, and reports of a big Argentine crop.

Corn was steady both at Liverpool and on the Chicago board.  
Bacon rose 6d at Liverpool.  
Total clearances to-day: Wheat and flour 634,000 bushels, corn 453,500 bushels. Exports at New York to-day: Flour 2988 barrels and 13,430 sacks, wheat 106,235 bushels.

Wheat receipts at Liverpool the past three days 124,000 centals, including 101,000 centals of American. American corn receipts same period 58,800 centals.  
Wheat receipts at Minneapolis and Duluth to-day 2041 cars, against 1904 the same day of 1897.

Estimated wheat receipts to-day 1,822,335 bushels, against 1,103,700 bushels the same day of 1897. Corn 372,727 bushels, against 758,650.

Car receipts of grain at Chicago to-day: Wheat 170, corn 478, oats 314. Estimated total receipts for Wednesday: Wheat 175, corn 180, oats 120.

**Action of Colonial Wools.**  
John S. Fisher, wool broker, 28 Front-street east, has received the following cablegram from London:  
There was fair competition on basis of last auction's closing rates.

**Chicago Gossep.**  
Henry A. King & Co., 12 King-street east, received the following despatch to-day from London:  
Wheat—The action of the market to-day, and the statistical situation, was perplexing to both friend and foe. The large receipts in the Northwest—2941 cars, against 1048 last year—and The New York Herald's report of crop estimate of 72,000,000 in Argentina, leaving an exportable surplus of nearly 40,000,000 bushels, were the bear factors. On the other hand, the large clearances for cash wheat all over the country, and the advance in Continental markets, were the advance factors. Bradstreet's increase in the world's available of 3,870,000 bushels was considered light. The advance of 2 1/2c per bushel in Paris on the November 20th futures, was steady, at 6 1/2c for Dec., and 5 1/2c for March. In London, the futures were steady, at 7 1/2c for Dec., and 8 1/2c for March. Flour, 10c 3/4.

**London—Open—Wheat, of coast, nearly due, on passage, nominally unchanged. No. 1 Not. Argentine, 11c 1/2. English country markets, quiet. Malze, of coast, nearly due, on passage, 3d higher. American light, 4 1/2c. Heavy, 4 1/2c. Sows, 3 1/2c.**
