THIRD READING IS GIVEN, GRAND TRUNK BILL IN SENATE

Unrest Prevalent Among the Police in Disturbed Regions of Ireland

POLICE IN IRELAND WILL NOT STRIKE, BUT ARE RESTLESS

Think Military Should Have Been Used More in Enforcement of the Law.

HUNGER STRIKERS FREE

London, May 7.—Fifty hunger strikers were released from Wormwood Scrubs prison today.

A despatch from Belfast states that twenty-seven hunger strikers who were removed from the jail to the hospital during the week, were discharged today and departed for their homes in the south.

The Star's Belfast correspondent says today he learns from an authoritative source that arrangements are contemplated for a general strike of the Irish constabulary in the event of the government being further unable to take necessary steps to protect policemen in the execution of their duty.

The Press Association, however, announces that as far as the Belfast members of the Irish constabulary are concerned, nothing is known of a contemplated strike movement among that force. The announcement admits there is unrest among the police in all the disaffected regions in Ireland, consequent on the glancers to which the men are exposed and what it says appears to be lack of support by the authorities.

The announcement asserts that there have been complaints that the military should have been more fully utilized to aid in the enforcement of the law in Ireland, but says the whole tradition of the Irish constabulary force is against a strike.

May Rescind Curfew Order.

Dublin, May 7.—It is reported that the "curfew" order in Dublin is to be rescinded at the end of the month.

RICH HAUL OF LIQUOR DISCOVERED BY POLICE

Inspector Umbach, accompanied by P. C. Gilpin and P. C. Brown, made a rich haul of liquor yesterday when they paid an unexpected visit to 765 Shaw street. They claim to have found no less than 50 cases of the prohibited stuff valued at \$1,800, in a garage at the rear of the residence, Benjamin Brank, 754 Queen St. and Goracio Adams, 161 Centre Ave. are under arrest, charged with B.O. T.A.

REAL GUSHER FOUND AT BOOTHROYD FARM

Well Flowing Ahead of Pump at Rate of a Barrel a Minute.

Twenty years ago an oil well was brought in on the Boothroyd farm, near Thamesville, Ont. For some weeks the flush production of this well was 1500 barrels per day. This gives great importance to the recent strike of oil by the Ireland Oil and Gas Company on the same farm within 3000 feet of the former well. In this case the oil came in, at a depth of 220 feet. A pump has since been working and bringing up oil at the rate of over half a barrel per minute. But the oil is still rising and at latest advices had risen 195, or within 35 feet of the surface. The president of the Ireland Oil, Harkness of St. Catharines, is now on the ground, and is making strenuous efforts to prevent any overflow and consequent loss of oil should it come to the surface. Meantime the oil as pumped is being sold to the Vacuum Gas and Oil Company and is being stored in their tanks at Thamesville. The indications strongly point to the discovery of a very important oil pool, and a representative of The World left last night to investigate the whole situation.

The Beck Clean-Up.

Is the "big clean-up" between Sir Adam Beck and the Mackenzie group for all the power and radials of the latter? Quite a number of people think so. Sir Adam was in London yesterday and Sir William out of town.

The fact that the Hydro radial line from Port Credit to St. Catharines has been authorized and the debentures endorsed by the Ontario government puts Sir Adam's commission in a much better position to negotiate with the Gibson group in Hamilton for their radials from Oakville to Hamilton, and from Hamilton to Beamsville, to be incorporated in the Hydro line authorized as above set out.

The announcement of the closing down of the Baldwin's plant because of lack of power is likely to be a factor contributing to a power settlement. The Hydro would have a big block of power available if the product of the three generating plants were concentrated in one distributing plant.

BIG FINANCIAL CRISIS AVERTED PRICES OF GOODS COMING DOWN

Provincial Treasurer of Manitoba Says Curtailment of Credits by Banks Has Warned Business Men.

Winnipeg, May 7.—Thru the action of the banks of Canada and the United States, said Hon. Edward Brown, provincial treasurer, who returned today from the east, a financial crisis of the most serious character has been narrowly averted. The banks, he said, by curtailing credits and forcing business men to face the situation clearly, had already caused a reduction in the price of goods.

"We have entered into a period," said the provincial treasurer, "when decrease in the cost of living will gradually begin to be felt and when adjustments will have to be made."

Borden's Impending Return Stirs Politics in Ottawa

Premier is Now in New York, and Says His Health is Much Improved—He is Expected to Make Important Speech on the Budget.

Ottawa, May 7.—(Special)—Simultaneous announcement that both Sir Robert Borden and the budget will be in parliament next week, has given politics a new lease of life. The prime minister is reported to be in better health than was commonly supposed and will, it is understood, make an important speech on the budget. His future, however, is uncertain. In some quarters the opinion is held that he will continue in office until a return of illness or defeat at the polls compels him to retire. Others, professing more intimate knowledge, say that he will resign as soon as the session is over; and that Unionism will be faced with the task of selecting a new chief. Sir George Foster, who has led the house with skill all thru the session, is now spoken of as a compromise leader.

DECISION WITHHELD IN P.C. LOGIE CASE

Defendant Charged With Conduct Subversive to Discipline of Police Force.

The board of police commissioners, at a special meeting yesterday afternoon, heard the evidence in the case of P.C. Logie, who is charged with conducting himself in a manner subversive of the discipline of the force. The accusation arises out of evidence given by Logie in the action brought by Acting Detective Young against "The World" Newspaper Co. early in February last.

The decision was withheld until early next week, and will in all probability be given out at the regular meeting of the board on Tuesday.

Arthur Roebuck defended P.C. Logie, and ten witnesses were called, including the following: Detective Geo. Young, Detectives Thomson and Carter, P.C. Halliwell, P.C. Murray, Sergt. Grant, P.C. Gardiner, P.C. Dickenson, Ex-Special Constable P. Burnell and P.C. Logie.

PROPOSE INCREASE IN SOME POSTAL RATES

Ottawa, May 7.—(By Canadian Press)—Increase in the maximum registration fee from five to ten cents on letters or other articles sent by registered mail is proposed in a resolution introduced today by the minister of customs and internal revenue. The resolution which will be considered in parliament at an early date, also provides an increased postage on weekly newspapers and periodicals within a distance of forty miles from the place of publication. Between January 1, 1921, and January 1, 1922, the rate is to be one cent, and one and a half cents thereafter. It is not proposed to eliminate the free postage facilities enjoyed by members during sessions.

LOST TORONTO CHILDREN FIND BLUECOATS ARE GOOD FAIRIES

Coincident with the advent of spring the number of children lost daily has increased. Not a day passes but what the police are besieged by anxious parents who call upon them to find their children. No fewer than 26 kiddies were reported missing from their homes yesterday, and the number reported lost has been almost equally high every day since the weather became sufficiently mild for the children to play outdoors. Almost invariably the police locate the children and return them to their homes, but considerable time is taken up in the search and all credit is due to the members of the force for their effective work in this respect.

BALDWIN'S PLANT TO CLOSE OWING TO LACK OF POWER

President A. M. Russell Says Company is Unable to Secure Satisfactory Contract With Hydro-Electric Commission—Sir Adam Beck's Difficulties Fully Realized.

Owing to inability to secure a satisfactory contract for power with the Hydro-Electric Commission, Baldwin's big steel plant at Ashbridge's Bay has decided to close down. President A. M. Russell, Baldwin's Canadian Steel Corporation said to The World yesterday that he had cabled to his directors in England a statement of the power situation here, and in the meantime the contractors on plant construction, Roger Miller & Son, have been notified to discontinue building, and the company's own employees numbering about 300, have been given 14 days' notice to seek other positions.

"Our relations with Sir Adam Beck are entirely friendly," Mr. Russell said to The World yesterday. "We realize his difficulties and that the Hydro has over-sold its power supply, but it would be impossible to operate our plant on the quantity of power offered us. The 2,500 horsepower available would only aggregate the situation. We notified Sir Adam Beck that we could not possibly operate unless we were assured of getting in addition 2,500 more on June 1, 2,500 additional on September 1, and 3,500 on January 1 next. This would be the very minimum on which we could operate."

Company Requirements.

"We would, under the development contemplated, require very shortly 30,000 horsepower and our agents, when negotiations looking to our establishing in Toronto were on, were assured that ample power would be available, and I may say that the promise of cheap power was the determining factor in bringing us to Toronto. It was therefore, a severe blow to us two days ago when we received a letter from Sir Adam Beck, saying that he could not give us the power we require at present.

"We have expended a great deal of money here. Roger Miller & Son, who have a half million dollar contract for plant construction, have completed more than two-thirds of this undertaking. We have been operating two furnaces at night, taking advantage of power available during the off-peak, and have been producing steel castings for the construction of our big plant and also for the trade. We expected to have 2,500 men working here very shortly. What will ultimately be done with the plant will depend upon the decision of the directors in England.

The contractors have just completed the erection of the steel frames from the west of the site of the plant. There were no men working on the building yesterday, the gang having been taken off on Thursday.

ELECTRIC LINE TO ST. CATHARINES HAS BEEN AUTHORIZED

Bonds to Finance Construction From Port Credit Are Now Guaranteed.

STATEMENT BY GABY

In the legislature yesterday, Col. Carmichael, answering Thomas Marshall of Lincoln, and incidentally corroborating The World's story of some few days ago, stated that the Hydro-Electric Commission had secured the necessary authority for the construction of an electric railway line from Port Credit thru Hamilton to St. Catharines. The bonds to finance this undertaking have actually been issued, and the government has guaranteed these bonds, and endorsed the financing of the line. The right-of-way for the line is being secured. The Hydro-Electric Commission, was asked about this last night, and stated that while this action had been taken, clearing the way for the actual start of the construction, the necessary authority for the construction of an electric railway line from Port Credit thru Hamilton to St. Catharines, had not yet been made in regard to the Toronto-to-Bowmanville line. The commission has to await the action of the provincial government in guaranteeing the bonds.

At the board of control yesterday, Controller Maguire stated that Pickering township, one of the municipalities on the Toronto-Bowmanville line, had passed a resolution in favor of raising its share of the bonds for this railway without provincial government guarantee, and he suggested that Toronto should follow suit. "City of Toronto bonds are selling at a bigger figure than provincial bonds," he explained.

The board approved the controller's suggestion, and instructed the secretary to draw up the necessary resolution, which the mayor strongly supported. The resolution and pointed out that it was a case of "now or never with Hydro radials."

Should the other municipalities between here and Bowmanville take similar action, the building of the Toronto & Eastern Hydro-radial would soon be completely assured, as is that of the board on Tuesday.

CHANCE FOR OVERALL WEARER.

Washington, May 7.—Two million suits of overalls are to be sold immediately by the war department, it was announced today by Representative Upshaw, of Georgia, a proponent of the "wear overalls" movement.

JAPAN HAS AGREED TO THE CONDITIONS FOR FINANCING OF LOAN TO CHINA

Washington, May 7.—Japan has withdrawn all objections to the Chinese consortium and has prepared a communication, accepting the terms as agreed upon by Great Britain, the United States and France, the state department was informed today by the American embassy at Tokyo. The consortium will become effective as soon as the signatures of officials have been affixed.

The acceptance of the consortium by Japan ends a two years' effort to provide for the financing of China by representative groups of bankers in each of the four great countries. Japan has contended that Manchuria and Mongolia should be excluded from the operation of the consortium, claiming that it had predominant rights in that territory because of proximity.

The terms of the consortium are general and each negotiation under it will be taken up separately. Japan will have the right to object to loans for any work she feels will weaken her national life or vitally affect her sovereignty. Under this head, it is stated, may be included the construction of railroads in certain sections of China, particularly Manchuria.

The amount of money to be loaned under the consortium has not been determined, but the advance sum of \$50,000,000 for railroad and other construction and betterment is expected.

Under the terms of the consortium all loans by the banking groups which in the United States include 37 banks in all sections of the country, must first be approved by the state department. The bankers, after deciding on each individual loan, will submit to the department the terms, contracts and documents bearing on it and if these are approved, the loan then may be made with the official sanction of the government behind it. The same procedure will be followed in the other countries.

BITTER FEELING AT GATHERING OF BRITISH LIBERALS

Members of Coalition Party Withdraw After Heated Verbal Conflict.

ASQUITH ENDORSED

London, May 7.—Lively scenes punctuated the proceedings of the National Liberal Federation conference which began at Leamington today. The delicate domestic relations of the party were illustrated during the week by the election of all Asquithian candidates to the management of the National Liberal Club. The exclusion of all Coalition Liberal nominees had led to the anticipation of a good deal of friction at the conference. Actualities in this respect easily exceeded expectations, and, instead of healing disputes, the meeting developed into an exhibition of irreconcilable bitterness.

Several members of the Coalition ministry attended, including Messrs. Addison, MacNamara, McCurdy and Neal, but it was early demonstrated that the independents were in the great majority and meant war. The chairman, Sir George Lunn, got a hearing for a speech in which the prime minister was strongly attacked as the advocate of closer co-operation with the Conservatives and a resolution of confidence in Mr. Asquith as leader, and, expressing hostility to the Coalition, received warm approval, but during the second's speech and those of the Coalitionists who followed, and delivered with verbal outbursts and thrusts with great vigor and spirit, the atmosphere became intensely heated. Mr. Addison and his colleagues were constantly interrupted, and the meeting was the scene of continuous disorder, which culminated in absolute deadlock when one speaker declared that when the company of the Coalition to association with some who took refuge in a barnburner to assassinate Campbell-Bannerman.

The upshot was the withdrawal from the meeting of the Coalition party, headed by Attorney-General Sir Gordon Hewart. The retiring contingent held a meeting of protest on the hall steps, roundly denouncing the treatment received by them, while the party inside proceeded to pass the resolution by an overwhelming majority.

SENATE ACCORDS THIRD READING TO G.T.R. PURCHASE

Members Hold Up Bill to Relax Clause Deporting Britishers Who Talk Seditious.

ADVANCE DRUG ACT

Ottawa, May 7.—(By The Canadian Press)—In the senate today, Hon. Gideon Robertson's bill repealing a number of the deportation clauses of the immigration act, aroused strong opposition and after considerable discussion, the bill was laid over until after the senate adjournment. A number of senators expressed strong antagonism to any relaxation of control over British citizens who came to Canada and challenged constitutional authority.

At the opening of the sitting, Senator McSweeney brought to the attention of the government the proposed migration from Canada of western Mennonites. Senator Dandurand asked for the opinion of the Manitoba representatives on the desirability of these people as citizens.

Sir James Loughheed said the government had no information on the subject, but if these people were seeking the kind of liberty they were said to be seeking, the people of Canada would be reconciled to their departure.

COMMONS CONSIDERS FIFTY-MILLION VOTE FOR SOLDIERS' LAND

Scheme Receives Praise and Criticism.

PROGRESS REPORTED

Ottawa, May 7.—(By The Canadian Press)—Today, in the house, the soldiers' land settlement scheme came in for praise—and a cross-fire of criticism. The house was supplied on a vote of fifty million dollars to carry on the work of the soldiers' land settlement board during the present fiscal year. First Hon. Arthur Meighen, minister of the interior, related the work of the board since its formation in 1916. He stated that 27,000 acres had been approved to March 27 and approximately 59 million dollars. Soldier settlers on the land, whose loans had been approved, totaled 15,284 and of their number 69 had already discharged their obligations in full. Under the migration branch, 855 men had completed courses of training; 600 were undergoing training. Of the fifty millions asked for this year, all but two millions would be advanced in loans.

Major Power.

Generally speaking, the committee praised the work of the board. But Major Power of Quebec South was specially critical. It was too early, he argued, to make any general criticism of the soldiers' land settlement act, but he thought the act had failed in its purpose in older provinces.

TO PLAN HANDLING U.S. GRAIN CROP

Federal Director Barnes Tells of Dangers of Instituting Embargo.

SAFEGUARD PRODUCER

Chicago, May 7.—A committee of 47, representing all branches of grain production in marketing, will be appointed to plan the handling of the wheat crop and to take action on the opening of grain exchanges for future trading in wheat after May 31, when the wheat guaranty act expires. It was decided today at a meeting of board of trade representatives, grain dealers, millers, elevator men and bankers, called by Julius H. Barnes, federal wheat director.

At the same time a committee of 16, composed of two representatives each, will be appointed by the eight United States exchanges, where trades in futures have been handled—Chicago, Duluth, Minneapolis, Omaha, Toledo, Milwaukee, Kansas City and St. Louis—to make recommendations on the resumption of future trading in wheat. This committee will consider suggestions from all elements concerned and will report its recommendations to the general committee, which will take action.

Pitfalls in Embargo.

Mr. Barnes, in an address at the gathering, said there were "untold difficulties" in the suggestions of grain exchanges that the government invoke the embargo privileges of the Lever act, if necessary, to prevent a pool of foreign governments from manipulating American wheat markets.

"Any form of embargo is a limitation of the producer's right to a free world market," he said. "If that producer be deprived of this natural advantage, then justice dictates that he should be protected against the collapse, which might follow a surplus crop confined to insouciant home consumption."

Mr. Barnes said that inadequate inland transportation facilities offered a hazard to a return to an open market.

FRESH EVIDENCE IN HASSAN CASE

Detective Courtney Denies Negligence Was Shown in Making Search.

More real progress marked the fourth sitting of the coroner's jury investigating the death of Ramoden Hassan, the Macedonian, whose mutilated body was found buried in the cellar of a house at 159 Worsley street.

The second witness, Joseph or Raja Aboueln, had accompanied the previous witness on his trip to examine the house for Tom Bell, his evidence practically corroborated the evidence of the former witness.

Offer of Money. The second witness, Joseph or Raja Aboueln, had accompanied the previous witness on his trip to examine the house for Tom Bell, his evidence practically corroborated the evidence of the former witness.

Aboueln said and Jumbo Irish, witnesses of previous sittings, were called and stated that they believed the pin that was recovered from Adosey after he had secured it from Mammoth was formerly the property of Hassan.

Detective Testifies. Detective Courtney was then called and gave his evidence with regard to the findings of the body in the cellar. He stated that they were called on the case on April 13 and after conducting an investigation of the room formerly occupied by Hassan, made a thorough search of the cellar, under the supervision of Adosey.

From then up until called in the second time by the same gentleman they had carried on their search of the cellar and efforts to a large extent proved fruitless.

Resolution at Ottawa Provides for Initial Cost of Six Hundred Thousand Dollars.

Ottawa, May 7.—(By Canadian Press.)—Creation of a Canadian Scientific Research, at an initial cost of \$600,000 for the site and construction and equipment of the building and \$500,000 for the first year's salaries and upkeep, was endorsed by unanimous vote of the house of commons tonight, following the introduction by Hume Cronyn (London) of the report of the select committee which has been considering the matter and of which he is chairman.

WANTS CONTROL OVER INLAND SHIP RATES

J. F. Armstrong, M.P., to Apply for Commission to Investigate Whole Matter.

Ottawa, May 5.—(By The Canadian Press).—J. F. Armstrong, M.P., Lambton, is to apply for a commission to inquire into and report on the necessity of bringing the control of rates on inland water borne traffic and coastwise shipping under control of the railway board. Mr. Armstrong has had a bill along these lines before the house several sessions.

In an interview today Mr. Armstrong says: "The organized opposition to my bill by the shipping interests has made it necessary for me to circulate a petition asking for the appointment of a commission.

The duties of said commission to include the gathering of data regarding freight and passenger rates, tolls, tariff agreements and arrangements, insurance and any matters pertaining to the conduct of vessels on the high seas and on waters under the jurisdiction of the parliament of Canada and the amount of control if any that should be established with respect to any of these matters.

FRENCH MAY EVACUATE ENTIRE NORTHERN SYRIA

New York, May 7.—The French have retreated from Cilicia and may entirely evacuate northern Syria, according to a despatch received here today by the near east relief, from Dr. James L. Barton, its representative in Constantinople.

Hadjin, which has been besieged by Turkish forces for more than a month, now is defended by Armenian troops, the despatch added. The Armenians are defending Aintab against assaults which began May 1, and all the French have retreated from the city excepting a small force left to guard college buildings. Many residents are leaving the city, the message said.

SUNDERLAND RE-ELECTS HAMAR GREENWOOD

He Has Large Lead Over Labor Candidate—Liberal Far in Rear.

Sunderland, Eng., May 7.—Sir Hamar Greenwood, chief secretary of Ireland, was re-elected to parliament today in the by-election necessitated by his recent appointment to the Irish secretaryship. Sir Hamar received 22,818 votes, as against 14,377 for V. H. Rutherford, the Labor candidate, and 5095 for W. Howe, Independent Liberal.

At the general election in 1918, Sir Hamar, a Coalition Liberal, was returned by about 2000 plurality over R. N. Hudson, the Unionist candidate. The Labor candidate in this election polled 9578 votes. No Unionist opposed him in the present by-election.

PROHIBITION PLEBISCITE IN NEW BRUNSWICK SOON

Fredericton, May 7.—Announcement was made by Premier Foster this afternoon that the plebiscite on the provincial prohibition law now in force as a war measure in New Brunswick would be held early in July.

"It is the desire of the government that the questions should be as plain as possible and there will not be more than two questions submitted," said the premier, who intimated that the questions had already been definitely decided upon, although announcement is being withheld until the date of the plebiscite is fixed.

GUILTY OF MURDER OF PONTIAC GIRL

Pontiac, Mich., May 7.—A jury in circuit court late today found Anson Best, a Flint, Michigan, youth, guilty of the murder of Miss Vera Schneider a telephone operator whose body was found on the porch of an unoccupied dwelling in a restricted residence district here on April 25. Best was sentenced to life imprisonment at the Marquette prison.

WINFREY TO VISIT LAND SETTLEMENTS

Montreal, May 7.—Sir Richard Winfrey, former parliamentary secretary to the board of agriculture in Lloyd George's government, passed thru Montreal today on his way to visit the various soldiers' land settlements in Canada. He intends studying their working and also finding out which part of Canada would prove most suitable for imperial soldiers coming to the Dominion. He explained that the British land settlement act places the settlement of soldiers in the hands of the county councils, who are authorized to buy land, lease it to returned men in lots of from 5 to 50 acres, and lend them money for equipment equal to their capital, but not exceeding \$500.

SYDNEY CIVIC WELCOME TO WINNIPEG RED LEADERS

Halifax, N.S., May 7.—The Halifax Herald publishes the following despatch from its Sydney correspondent: "Without a dissenting voice, and almost without discussion the Sydney city council voted last night to extend a civic welcome to the two Winnipeg Red leaders, who are expected here Sunday to address a mass meeting of local laborites on behalf of the imprisoned strike leaders. It is not the intention to have the mayor go thru the usual form of extending the freedom of the city to the visitors, because there will not be time for that formally, but the vote of welcome from the city council, in the form of a resolution, will be presented to the Winnipeggers thru officials of the Sydney Trades and Labor Council, which endorsed the city council maneuver last night.

FREE FIGHT IN COUNCIL

Mullingar, Leinster, Ireland, May 7.—Two hundred laborers forced an entry into the council chamber today, where a discussion was in progress on the question of road repairing contracts, and demanded that direct, instead of indirect, labor be used. After a free fight, the council complied with the laborers' demands.

Back in Irons to Answer For Murder of Ship Captain

New York, May 7.—A. H. Iversen, a ship's carpenter, brought back from Genoa a prisoner in irons on the American steamer Tonawanda at the Italian port. It was alleged that Iversen struck the captain when he refused a demand for money, and that the captain, in falling, sustained injuries which resulted in his death.

BUY ONE-MAN CARS FOR CIVIC LINES

Suitable for Toronto's Needs, Reports Commissioner Harris.

BEFORE BOARD AGAIN

Works Commissioner Harris recommended to the board of control yesterday that twenty-one street cars of the one-man single truck type be purchased in Philadelphia for the civic lines, and also that the board was equally divided on the matter with Controller Cameron absent, it is understood the recommendation will be adopted when it comes up next week before the full board. Mayor Church and Controller Ramsden supported the proposal while Controller Gibbons dissented, and Controller Maguire stood out for the purchase of cars in Canada. Controller Cameron is said to favor the one-man car.

The works department has had \$200,000 available for some months for cars for the civic lines and some weeks ago Commissioner Harris was instructed to call for tenders. He reported yesterday that he had received three tenders, one to supply cars at \$30,437 each, with delivery in September; No. 2 to supply at \$21,132 each, with delivery in about six months and No. 3 to supply at \$27,420 each, delivery to commence in about eight months. The first tender, he said, did not conform to specifications. He recommended the rejection of all three tenders, and the purchase instead at \$11,900 each of 21 Birney safety cars.

Carry 32 Passengers.
This car is operated by one man, is automatic, light weight, of moderate size, and equipped with automatic appliances that it can be operated by one man with equal schedule speed with the two-man car on the same route. It seats 32 passengers in cross seats, who enter and leave by way of the front platform, directly under the control of the operator. The controller, air brake, door and step mechanisms are so interlocked that a passenger cannot board or leave the car while it is in motion, and in the event of any lapse on the part of the operator, the moment his hand leaves the controller the air brake is automatically cut off, the air brake set, and is applied to the track and the power released which holds the front door closed, so that it may be opened by a push of the hand, by which time the car would be at a standstill.

This car is 28 feet long, seats 32 people and weighs 15,500 pounds. The units the city now operates are 45 feet long, seat 48 passengers and weigh 46,000 pounds. The car weight per seated passenger is, therefore, approximately 484 pounds for the safety car, and 868 pounds for those at present used on the civic lines. There is a front and rear door, and the unit may be operated as you enter or pay-as-you-leave system. The operator collects fares and controls the entire movement of the car from his seat.

Fewer Accidents.
Experience has shown a decrease in the number of accidents with this type.

This car is now in use in 48 United States cities, including Brooklyn, 212, and 100 more on order. Boston and Bay State Railway, 232 cars; Kansas City, 98; Spokane, 85; Trenton, N.J., 13; Seattle, 60; and Terre Haute, 66. In his report Commissioner Harris writes:

"I have closely examined the Birney safety car and have watched its operation as a result of which I am convinced that the city should purchase a number for use on the civic lines. I do not urge that it is the most suitable car for all operating conditions, but am assured that for our purpose in the outlying sections, it will meet our present needs. The millers are in a position to commence delivery within ten weeks.

"I, therefore, recommend that the city enter into a contract for 21 double-end Birney safety cars."

Controller Gibbons Opposed.
Mayor Church urged the adoption of the report. If the city waited for cars from the companies tendering, there would be no new cars available for next winter.

Controller Maguire wanted the board to instruct Commissioner Harris to confer with the Preston Car Company, one of the firms tendering, and see how soon delivery could be made. Mr. Harris remarked that this firm was months behind on delivery the last time they were given an order.

Controller Gibbons said he would not approve of the purchase of single truck cars. They were unsuited to winter conditions here, and were very unsatisfactory in snow.

The tie vote shelved the matter temporarily.

TURN HAIR DARK WITH SAGE TEA

If Mixed With Sulphur It Darkens So Naturally Nobody Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible since we are living in an age when a youthful appearance is of the greatest advantage.

CITY HALL NOTES

The city solicitor has recommended that a clause be inserted in the ferry-by-law to provide a fare of five cents for the round trip for children 12 years of age.

The board of control recommends at the suggestion of Commissioner Bradshaw that a grant of half a year's salary be made to the widow of the late G. N. Morrison, for years a member of the treasury's staff.

The assessment commissioner reports that in demolishing the houses on art gallery property in accordance with an agreement always dwellings would be razed which now house 101 persons.

FACTORY HYGIENE SOUND PRINCIPLE

Colonel George Nasmith Advocates Study of Human Element in Industry.

That the new subject of industrial physiology was appealing to the shrewd business men of the country, and this because it was a sound business proposition, involving increase in output, increase in money values and large decrease in wastage, was the message sent out by Dr. George C. Nasmith at yesterday's luncheon of the Electric Club, held at the Kosmos Hotel, Dr. George Carr in the chair.

Dr. Nasmith took his main theme the value of industrial physiology, but this he divided into two sections—that of the personal as against the machine element in the control of employees, and that of the new theory of ventilation upon which was based the fundamentals of life itself.

The so-called scientific management of former days achieved certain results, but it failed in that it always eliminated the factor of the human or personal element. It was the great war, with its varied exigencies, which forced both the governments and the industrial captains of the world to investigate into the causes of fatigue and inefficiency in production. No sooner had investigations been carried out than it was decided to shorten the hours of the working day, to give Sundays and holidays off wherever possible, and to institute systems of warm lunches for employees and all the congenial environment possible.

As a result, efficiency was rapidly and largely increased, wastage decreased, and avoidable accidents were reduced to a minimum.

New Era of Altruism.
It might be claimed with certainty that with the advent of the war a new era of altruism combined with business acumen commenced at least in Canada and the United States, and the new science of industrial physiology, with its beneficent effect upon the public and the worker, was now rapidly moving apace.

Touching upon the new and proven theory of ventilation, the speaker stated that the old order had entirely changed. Laboratory observations had been made thus: An individual was kept under observation at work and in a sealed room. He soon lost energy. Pure air was then applied thru a tube or tubes. No effect. Likewise, when the man was outside and was made to breathe impure air no deleterious effects were noticed. But when the air, especially that of the sealed room, was stirred by means of an electric fan, an immediate change was noted—a marked improvement. Energy returned, and with it increased efficiency.

The subject immediately became normal. Humidity and temperature, said Colonel Nasmith, were the prime factors in the problem of ventilation. The ideal air was that which contained 50 per cent. relative humidity, combined with a temperature of 68 degrees Fahrenheit. In the large plants it had been found that when the temperature had been raised from 75 degrees to 68 degrees, the output increased 15 per cent. This fact, therefore, proved an invaluable investment as sound advice to follow.

CO-INVENTOR GRANTED INJUNCTION

William A. Wilson was granted an injunction by Justice Kelly at Osgoode Hall yesterday afternoon, restraining Jack A. Manns from finally disposing of the rights in mechanical electric railroad and safety signal device. It is said Manns has disposed of the rights for \$500,000 to the Grand Trunk, but Wilson claims to be working with Manns on the model for six months, he is entitled to a share of the proceeds.

CITY WINS CASE

A judgment was given in favor of the city in their suit against William T. and Ellen Hards, for the return of \$12.85 sent to them by mistake. The Hards' counter-claim against the city for \$297.13 insurance money was dismissed.

FOUR MONTHS AT FARM

John J. Kenny, who is alleged to have a bad record, was yesterday sentenced to four months at the Jail Farm by Col. Denison for stealing grips from the union station.

ESTATE DIVIDED

By the will of Emma Ann Smith (widow), formerly of Toronto and Oakville, who died in London, England, on Feb. 1, her two daughters, Emma A. Chisholm Watson and Margaret Forster, both of London, England, divide an estate of \$30,065 equally between them.

DRUNK WHILE DRIVING

Horatius Cascalen was yesterday sentenced to one week at the Jail Farm for being drunk while driving an automobile.

AWARDED INSURANCE

Justice Orde yesterday awarded Mrs. Annie Bird the \$1000 insurance which her husband had taken out with the New York Life Insurance Company. The company's claim, that the question on the application form had been wrongly answered was dismissed.

CONSERVATIVES TO HAVE COUNSEL AT CROWN LANDS PROBE

Province Agrees to Pay the Expenses of Peter White, K.C.

CREDIT HYDRO LINE

Peter White, K.C., who represented the Hearst government at the Homer liquor investigation, has been chosen to represent the Conservative interests at the inquiry into the department of lands and forests before Judges Riddell and Latchford. The government will bear the expenses.

The attorney-general in the legislature yesterday said the acting leader, Hon. G. S. Henry, of the Conservative opposition, had made this request and the government had acceded to it.

Under an act introduced by Charles McCrea, Sudbury, J. M. Godson, the present minister of lands, is created judge of a mining court, and will have power to deal with all mining claims, both before and after they are patented. The commissioner's present powers apply only to unpatented claims.

Hon. Col. Carmichael introduced a bill to establish a boxing commission for Ontario.

Tax Motor Trucks.
The minister of public works, in explaining his bill to regulate the operation of public vehicles, said it was designed more particularly with a view to taxing motor trucks which used the public highways, but paid not one cent of provincial taxes for the upkeep of the roads. If it were not for the good roads these trucks would not be able to operate for hire.

System Unsatisfactory.
Mr. Marshall has given notice that this house deplores the unsatisfactory results of our educational system. That the chief purpose of a proper system of education, viz., the development of mental power, and with clear and accurate thinking is no longer attained. That the great majority of the children leave our schools lacking in the necessary progress therein, but with a false standard that success in life is only attained by the acquirement of wealth and position.

That this house is further of the opinion that this situation can only be improved by complete reorganization of our whole educational system—the removal of the many barriers to educational progress, artificially raised by ill-considered regulations of the past, by elevating the teaching profession, giving larger control to local centres and seeking the co-operation of all the people in true educational progress, and that this house hopes and believes that the whole question of educational reform will receive the earnest attention of the present administration.

Wants Storage Elevators.
Major T. E. Keenan, with reference to the view of the present high prices of foodstuffs and the shortage in supply this house deplores any waste and in its opinion that measures should be taken by the government to remedy as far as possible the situation and to that end would recommend the construction of storage elevators for potatoes to be owned and operated by the government for the benefit of the people.

On Tuesday night Mr. Thompson will ask if A. M. Latchford, who is acting for the attorney-general in the proceedings before Judge Coatsworth relating to the account of retiring officers is a son of Mr. Justice Latchford who is to investigate into the department of lands and forests.

Identify Geary.
Mr. Buckland will ask if J. M. McEvoy, appointed by the government as one of the coroners to investigate the lands and forests department, is the same Mr. McEvoy who was associated with Mr. Justice Riddell as counsel for the late J. E. L. Stratton in the Geary investigation.

Mr. Kennedy will ask what is the amount of power being exported out of the province from the plants at Niagara Falls, and when will the township of Albion get Hydro power.

Hon. Peter Smith has given notice that he will move that any hotel, restaurant, dining-room or other place where dances are held and an entrance fee is charged or facilities for dancing provided on a performance given during the service of meals or refreshments, shall be brought under the scope of the amusement tax act.

Caught Too Many Fish.
At the public accounts committee yesterday, it was disclosed that fishermen were ordered by the department to cease fishing because of over supply.

R. R. Hall of Parry Sound claimed that a few fishermen had control of the fishing in Georgian Bay, and they sold all their catch to the Buffalo Fish Company. Mr. McDonald replied that if the export of fish were prohibited, the fishermen would be ruined in a month. He has recommended that in future not more than 1000 tons of fish be taken from Lake Nipigon in a year.

Wants the Vouchers.
On the motion of Col. H. S. Cooper, the provincial auditor will produce all correspondence, vouchers and particulars relating to \$350,000, under the head of "organization of resources committee, expenses of patriotic fund and Red Cross campaign." Particulars are requested also relating to \$88,532.20 under "public accounts; Hon. W. D. McPherson accountable."

Barnett Stone will be summoned to give further evidence respecting the purchase and sale of vishnik.

Firemen's Day Off.
Firefighters to the number of 200 from the permanent fire departments of the province appeared before the municipal committee of the legislature yesterday to support the bill giving the firemen one day's rest in seven. Delegates were present from the cities of Guelph, Peterboro, Hamilton, London, Fort William, St. Catharines, Ottawa and Toronto. Messages of support were also received from the Soo and Ottawa.

The bill was unanimously passed, after being amended to suspend its operation for the first time in 1920.

Want Day in Seven.
D. Head, representing the Ontario Firemen's Association, argued for the bill, which was voted then committee.

tee by the Hon. Walter Rolfe, minister of labor. Mr. Head stated that men are not objecting to working on Sunday, but want one day off in seven. Present hours are 12 hours a day and seven days a week. Municipalities have not granted the requests of the firemen, and therefore the matter has been brought up before the legislature.

Wilson Crockett objected to the clause in the bill providing that men staying on duty in violation of municipal regulations shall be subject to a penalty of from \$10 to \$100, except in cases of emergency. Mr. Heenan supported Mr. Crockett's contention.

G. R. Geary asked that owing to agreements made this year between the city of Toronto and Toronto firemen, the bill be not effective until Jan. 1, 1921.

The bill was passed, amended to become operative in 1921 and with the penalty clause struck out.

SCARBORO BEACH PARK TO OPEN NEXT WEEK
A bill permitting municipalities to plant trees on municipal highways, charging same to maintenance, was passed.

Scarboro Beach Park is to be opened in all its glory next Saturday, and the management are endeavoring to have everything in perfect working order by May 15. The damage done to the tower and many of the buildings by the severe winter during the winter are all under repair. The tower is to be rebuilt as rapidly as possible. In fact, every effort is being put forth to make these amusements which suffered damage perfectly safe and before they are opened to the public a very rigid inspection will be undertaken.

Altho the program of bands and amusements for the coming season are not as yet complete, it can be stated that they will be more extensive and diversified than in any of the past years. The management are desirous of making 1920 a banner year for the park and are exerting every effort to that end.

AD. CLUB AGAIN ACTIVE.
Last night initial steps were taken in a plan to revise and reorganize the Toronto Ad. Club. The reorganization meeting was attended by a group of representative Toronto advertising men, all of whom are enthusiastic regarding the progress made. Temporary officers were elected. These officers are to hold over until the first regular meeting of the club, which will be held at the King

And the Other Presidential Candidates Is Clearly Shown

In "The Digest's" Mammoth Poll Of 11,000,000 Voters

There are from fifty to sixty thousand votes being received daily in THE LITERARY DIGEST's great presidential poll of 11,000,000 voters. As the vote grows and all sections of the country begin to be represented, a number of editors comment on the really popular expression of opinion which these ballots represent. The Troy Record makes the interesting suggestion that by means of such polls "it may be possible for the people to shake themselves free from paid publicity and artificially stimulated candidacies and indicate the men they want to that class of representatives who really want to know." In trade and labor circles, in political clubs, in fact wherever men and women congregate throughout the country, THE LITERARY DIGEST poll is arousing the most intense interest, as is evidenced by our daily mail.

More than 700,000 votes are tabulated and shown in THE LITERARY DIGEST for May 8th. When it is remembered that eleven million voters, almost two-thirds of the vote cast in the last presidential election, are being canvassed some idea of the magnitude of the enterprise will be gained. Every ballot is mailed in an envelop, and delivered through the U. S. Post-office personally to the voter address. Return postage on the ballot is prepaid, and the voter has only to check or write the name of his or her party and the first and second choice for Presidential candidates. Thus every vote cast is absolutely a secret ballot.

If you are not following this unique poll through the pages of THE DIGEST weekly, begin to do so this week. Other important articles in this number of THE DIGEST are:

REQUEST McLEAN'S RESIGNATION

At a recent meeting of the ladies' auxiliary of the Veterans of France, a resolution was passed to the effect that it has been brought to their notice that General McLean said: "It is not a fact, anyway, that the majority of private soldiers' widows are from the servant class." The resolution petitions the government to withdraw or retire the brigadier from the pensions committee as being class-prejudiced, grossly unfair and a fabricator.

erwell, a former member of Mr. Martin's cabinet, who himself was a founder of the Grain Growers' Association. None of the Saskatchewan Liberal ministers supported their old colleague against the farmers.

Some Liberals in the east are expecting that if the farmers will let alone bring their Liberal tails behind them. Whether the agrarian movement will be a permanent class manifestation, or a phase in the evolution of a great progressive party, it seems increasingly clear that the Canadian Liberal party as it was known for generations, is scheduled for sepulture without hope of identifiable resurrection.

THE GIRL WHO SMILED THRU By MAKION RUBINCAM

ALMOST A CONFESSION. CHAPTER 78. She tried not to see David. He did not ask her to dine with him when Lois was in town, the one evening she saw him at a concert with a man at a time when she knew Lois to be home.

Then, too, Lawrence came to see her over the Christmas holidays. He was very tender and gentle and sweet, Alice felt, as she had never felt before, that curious, wistful quality that he had. He took her to visit a friend of his mother's, a charming old lady who had a house in New England, and who kept Alice with her New Year's Day, when Lawrence had to go back.

She saw David once a week, when he lectured to her class, but, aside from that, not for almost two months. Then one morning, as she was leaving the building after the biology class was thru for the day, he caught up with her.

"Come to Nardoll's for lunch," he begged. "I haven't seen you for so long." Unwilling to say yes, but unable to say no, Alice let herself be taken to the quiet little tea room, where she had seen him before.

"How is Lois?" she asked. This always seemed a good question; it built up a fence between them, and made them both realize their positions—he was married; she was engaged.

"Lois is not well," he answered. "She caught a grippy cold by getting overheated at a dance." "I'm sorry," Alice murmured, perfunctorily.

"I'm afraid I'm not," David answered. "She will not wrap up properly when she is overhated, and she will not listen to sensible advice. She likes to dance all night, almost every night, and refuses to take care of herself as she should. Sympathy gives out and annoyance sets in under those circumstances."

STILL CONTINUE BLOODLESS GAINS

Mexican Rebels Are Daily Adding to Numbers and Captured Towns.

Washington, May 7.—Reports, official and unofficial, today credited the Mexican rebels with further bloodless successes. Information reaching rebel agents here, they said, pointed to an early occupation of Piedras Negras, Laredo and Matamoros, the only important border ports of entry remaining in Carranza control.

Official confirmation of the report received early in the day by rebel agents that Carranza already had left the capital, was lacking tonight. The state department today received several messages from the embassy in Mexico City, but they were all dated Thursday.

Despatches from rebel sources reported that Luis Cabrera, head of the Carranza cabinet, was en route today by train, for Piedras Negras, and that Alfonso Cabrera, brother of the cabinet minister, has been arrested by Gen. Gonzalez in Puebla.

Developments along the border today suggested three possible fights near the United States border. The commander of the Laredo garrison appears to have held his men in line, notwithstanding the defection of customs and immigration guards, but rebels were reported to have captured a trainload of federal reinforcements between Lampazos and the border town.

Disarmed Garrison. A similar situation was presented at Piedras Negras, opposite Eagle Pass. There the commanding officer was said to have disarmed his garrison, while a rebel force advancing northward was said to have reached a point only 25 miles south of the border.

Spokesmen of the revolutionists minimized the importance of the refusal of General Calles to accept the services of Villa and the announcement of General Pablo Gonzalez, that he could not support the revolution.

St. Catharines, May 7.—The 25-year-old son of Edward Book ran amuck in Stanms, armed with a pair of scissors, holding up autoists and terrorizing the residents. He was overpowered and brought by a constable to the county jail on a commitment charging him with lunacy.
