MONTREAL, June 19th, 1894.

A. A. BROWN, Esq.,

MANAGER, McCLARY MF'G CO., CITY.

DEAR SIR,

Referring to your new Steel Range, one of which I recently purchased, I have much pleasure in stating that it is one of the best Cooking Ranges I have ever seen; quick and thorough in action, in every particular. The draughts are perfect, and also easily controlled. My cook, who has had great experience, says it is perfect, and the oven is splendid for baking bread, which is quite unusual. One of its strongest points, however, is its economy. The saving in fuel, compared with anything I have ever seen, is simply wonderful. Your firm deserves great credit for putting such a good article on the market. I wish it every success.

Yours faithfully,

J. R. WILSON.

# THE SIMPLEST THING IN THE WORLD. THE SIMPLEX TYPEWRITER.

Is Handsome,  
Weighs  
One Pound.

Can be car-

**THE LATEST OF THE BEST TYPEWRITERS. THE CLIMAX OF IMPROVEMENTS. THE MINIMUM OF PRICE. DESTINED TO REVOLUTIONIZE WRITING, AS THE SEWING-MACHINE REVOLUTIONIZED SEWING. AS INDISPENSABLE TO THE OFFICE, LIBRARY AND STUDY AS THE SEWING-MACHINE IS TO THE HOUSEHOLD.**

This machine is not to be placed in the category with other so-called Typewriters, selling for \$1.00 and thereabouts, which are utterly useless for any purpose except that of a toy.

The "SIMPLEX" is the product of experienced typewriter manufacturers, and is a *PRACTICAL TYPEWRITER* in every sense of the word, and *AS SUCH WE GUARANTEE IT.*

**For Business Men.**—Every man whatever his business, has need of the "SIMPLEX." LAWYERS find them indispensable. MERCHANTS acknowledge their great value. CLERGYMEN write their sermons with them. AUTHORS their manuscripts. Letters written with the "Simplex" are legible and neat and at the rate of FORTY WORDS PER MINUTE.

**For Travelers.**—The size and construction of the "SIMPLEX" particularly adapts it for use on cars and steamboats. It will go into a box 5 inches wide, 9 inches long, and 2-3/4 inches deep. Can be CARRIED IN THE POCKET or put into a valise. Orders written with the "SIMPLEX" cannot be misunderstood. The machine WEIGHS ONLY ONE POUND, BOX INCLUDED.

**For Boys and Girls.**—The "SIMPLEX" will be hailed with delight by BOYS AND GIRLS. It will improve their spelling and teach proper punctuation. It will encourage neatness and accuracy. It will print in any colored ink, violet, red, green, blue or black. It will PRINT A LINE EIGHT INCHES LONG and admit any size letter paper. The printing is always in sight. A USEFUL, INSTRUCTIVE AND ENTERTAINING NOVELTY AT THE PRICE OF A TOY.

Nothing is of greater importance than correct forms of correspondence. The "SIMPLEX" encourages practice and practice makes perfect. Writing with this machine will be such jolly fun for your boys and girls that they will write letters by the dozen. This may cost you something for postage stamps but the improvement in their correspondence will well repay you.

**For the Home Circle and Kindergartens.**—Mothers and teachers will at once appreciate the immense assistance afforded by the "SIMPLEX" in teaching children the alphabet. A child can operate the machine WITHOUT INSTRUCTION and once interested half the work is done. It prints all the capital letters, all the figures and the necessary punctuation marks.

### EXTRA POINTS.

The alignment of the "Simplex" is equal to the very highest priced machine.

It is positive in action and each letter is locked by an automatic movement when the stroke is made.

It has no ribbon to soil the fingers.

Letters written by it can be copied with a letter press.

The "Simplex" is mounted on a hard-wood base and put up in a handsome box with bottle of ink and full instructions for using.

## PREFACE.

---

IN presenting to the public this Eighth Edition of LOVELL'S BUSINESS DIRECTORY, the Publishers would say that in future it will be issued yearly, believing, as they do, that the City has now sufficiently increased in size to warrant its publication annually. It need hardly be said that the same labor and effort to secure accuracy, which the Publishers have always put forth, has not been withheld in the preparation of the present edition, and they have no doubt that LOVELL'S BUSINESS DIRECTORY will meet the approval of its patrons. The next edition will be published early in August, 1895.

The GUIDE TO STREETS, on pages 31 to 39 inc., will be found useful and reliable.

The MISCELLANEOUS part of this Directory, on pages 273 to 328 inc., has been fully and carefully prepared.

The New Customs Tariff revised to date is to be found on page 47.

## MONTREAL IN 1893-94.

The year 1893 added several important pages to the history of Montreal. In that year the Christian Endeavor Association of America met for the first time out of the United States in a gigantic tent upon the Champ de Mars and at the drill hall, thousands of delegates attending. The cordial hospitality extended by all creeds and both races was only emphasized by the conduct of a number of roughs, who one evening would have resented an injudicious speech upon Roman Catholicism by a delegate, but were restrained by civilians and the police. The Institute of Mining Engineers gathered in Montreal in February, and the Engineers of the continent met here in June. The opening of the Royal Victoria Hospital, the magnificent donation of Lord Mount-Stephen and Sir Donald A. Smith to the city in commemoration of Her Majesty's Jubilee, also took place since our last review, as well as the inauguration of the Board of Trade Building by Lord Aberdeen, the new governor, whose presence also graced the opening of the Redpath Library and the new Science buildings of McGill University. The Redpath Library, the donation of Hon. Peter Redpath, whose death the city has recently been called upon to mourn, is a magnificent structure on McTavish street, capable of containing over a hundred and fifty thousand volumes in fire-proof vaults. The Engineering and Physics buildings of McGill University, the gift of Mr. W. C. McDonald, are stated by competent authorities to be unsurpassed in either the old world or the new in point of architecture and equipment. Their utility is further enhanced by the mechanical workshops founded by bequest of the late William Workman. In a different line, another gift reached the city during the year—the colors presented by the Duke of Connaught to the boy soldiers of the city for competition. These were won by the St. Mary College Cadets, with whom they again remain this year (1894).

The city in its municipal history may mark the period under review in red letters. After some years of unnecessary extravagance, which left the Treasury virtually exhausted, a number of aldermen found themselves in disfavor with the thinking public. Plans were laid by a body of energetic citizens to prevent bribery or other malign influences being brought to bear upon the electors in the choice of aldermen to fill the vacant posts. The newspapers displayed great activity and wonderful accord in opposing the re-election of certain candidates, and a sweeping victory was made for those favoring retrenchment in expenditure and purity in office. The change was made not a moment too soon. The assessment rolls had been marked up to what many thought an unwarranted degree, and new taxation was sought to be imposed, while loans of considerable magnitude were on the tapis. The incoming aldermen had a difficult task before them to restore civic affairs to a satisfactory basis, but the credit of Montreal had not yet been impaired.

In Canadian business circles, the year 1893 will be remembered for the United States and Australian troubles which threatened to react injuriously upon Canada. The silver trouble in the United States reached the acute stage about the middle of the year. The continued shipments of gold, to pay for securities thrown upon the market in a steady stream, reduced the Treasury balance below the legal limit, and other causes working

with this led to the phenomenon being exhibited of a nation transacting its business, with little or no currency, on cheques and clearing house certificates. The people seem to have taken fright at the situation ; they drew their money largely from the banks, hoarded the bills away, and left banks and business men generally to get on as they best could without currency.

In February, the first mutterings of the storm had reached the New York Stock Exchange, and resulted in a short panic, whereby a number of Canadian brokers and speculators were caught. Stocks upon the Montreal Exchange were unduly high ; and when during March, several banks began to call in their loans on stocks and bonds, the sensitive condition of the market, led to a serious panic, which was relieved only by other banks, with larger reserves of cash at their disposal for such and other emergencies, coming to the relief of the brokers. Call loans advanced to six per cent. and even to six and a half, remaining high for some months, and producing a dullness upon the exchange only recently removed. The Australian bank failures, which amounted to an enormous aggregate, locked up so much British deposits for the time being, that the London market was affected, particularly as a good deal of gold was called for to afford relief to the colony, and Canada was thereby disturbed. These causes, and others shortly to be mentioned, led to a greater number of failures than in 1892, with liabilities larger than any year since 1887.

N.B.—The figures of Assets are reported as approximates only, the amount realized differing widely from their estimated value.

At the annual meeting of the Bank of Montreal in June, the general manager strongly recommended economy and caution, and the adoption of his advice by the bulk of the people did much to maintain the credit of the country. The grain crops of Ontario and Manitoba were very large, but this was offset by the low prices, which were only indirectly injurious to Montreal, which is a buyer. The crops in this province were good, but partially damaged during harvest by severe rains. The failure of the British hay crop afforded us an opportunity to introduce that article at good prices ;

and although the consignment system has resulted in several failures, it has been demonstrated that a profitable business in the export of hay can be established on a permanent basis. The exports of hay from this port increased from 10,952 tons in 1892, to 57,646 tons in 1893, an increase of 46,694 tons.

Navigation opened by the arrival from sea of S.S. "Pickhuben" at 2 p.m. on the 3rd May, and closed with the departure for sea of the S.S. "State of Alabama" on the 23rd November. The first sailing vessel to arrive was the barque "Peacemaker," on the 19th May, and the first vessel to enter the Gulf by the Straits of Belle Isle was the S.S. "Nether Holme," on the 23rd June. Four hundred and thirty-three vessels of all kinds were entered at the Port Warden's office, with the tonnage of 836,931 tons, being eleven vessels and 48,231 tons over the arrivals of last year. There was an increase of steamships by twenty-two vessels and 57,451 tons, and a decrease in sailing vessels of eleven vessels and 11,220 tons.

There were several mishaps to inward-bound vessels, but the only one to outward-bound vessels was that of the S.S. "Lake Nepigon," which was pierced by ice in the Straits of Belle Isle. She was beached in Forteau Bay, temporarily repaired, brought back to this port, and after overhaul and slight repairs, proceeded on her voyage.

The Custom House returns for the Port of Montreal showed a large increase in the export figures for 1893, as compared with 1892, and an advance of nearly nine million dollars over 1891. This improvement is most gratifying, especially as trade throughout the world was so dull. While the average annual value of the exports for the thirteen years from 1880 to 1892, inclusive, was only thirty million dollars, last year's exports aggregated over forty-eight million dollars, being an increase over that average of sixty-two and one-half per cent.

The continued increase in the value of the exports shows that the produce of the Dominion is steadily gaining ground in the markets of the world, and that the search for other outlets when the McKinley Bill almost closed the States to Canadian merchandise, proved successful. The value of the imports also shows an increase, but not so large a one as the exports. Owing to the reduced rate of duty on sugar and some other articles, the amount of Customs duties collected, although a little larger than in 1892, is much smaller than during the previous six years, or the average of the past twelve.

The cattle market continued to be injured by the embargo placed upon Canadian animals in Great Britain, and a good deal of pressure was felt by some firms. The following table gives the exports from Montreal in 1893, and totals since 1881.

In financial circles the year 1893 was one of some anxiety in Canada and of serious disaster in Australia and the United States. The Australian banks had for some years been largely interested in real estate deals bolstered up by British money which these banks took on deposit to an extent far beyond the needs of the colony. The collapse of the land boom brought down several banks, and the panic spread until it was necessary to reconstruct almost every important bank in Australia. In the United States the silver question reached its crisis. Gold continued to be exported until the Treasury could not maintain the \$100,000,000 prescribed by law. Foreign investors were returning their holdings for sale, and the whole country was pervaded with a feeling of distrust, which is always injurious to business. The panics of the stock market spread to the public generally. Deposits were withdrawn from the banks and hoarded away until there was such a dearth of currency, including even the silver certificate, the cause of all the trouble, that business was transacted with marked cheques and between banks by clearing house certificates. Scores of the smaller banks went to the wall during the crisis, and but for prompt action on the part of the President to preserve the parity of silver with gold, and ultimately to secure the repeal of the silver purchase act, the country would have been even worse off than it was.

In Canada there was no domestic cause for trouble. Our deposits in banks came from within the country itself, and, while sometimes hard to handle profitably, they were at least in proportion to the development of the country, and wild-cat schemes were not necessary to invest them. Our currency system also was, if not perfect, next door to perfection, while the agency system of our banks kept the general managers informed as to the situation in all parts of the Dominion. Nevertheless, the American and Australian troubles by themselves, and by their reaction through London, exerted an adverse influence upon Canadian trade. There were restricted earnings among business men, and consequently restricted purchases. Our two great railway lines suffered serious diminution in their freight receipts, indicating a much larger falling off in domestic trade. Our banks and loan companies by constant watchfulness have not suffered serious diminution of profits, although the decline in circulation and in demand deposits, and the necessity of maintaining a large reserve of available assets which generally carry a low rate of interest decreased their earning power.

The following shows the situation of the banks in Montreal up to June, 1894, according to their annual statements :

BANK.	NET EARNINGS	DIVIDEND	ADDED REST	ADDED P. & L.
Bank of Montreal.....	\$ 1,313,289	10	.....	\$ 113,290
Merchants Bank.....	630,903	7½	\$ 100,000	18,533

As was the case in the leading cities of the United States, Montreal showed a falling off in the clearing house returns in 1893, but to a lesser degree. The total clearings were \$568,732,000 against \$590,413,000 in 1892, the decrease being 3½ per cent, against 14 per cent. in New York, 12 in Boston, 10 in Philadelphia and 9 in Chicago. The failures in Canada in 1893, according to Bradstreet's, were 1,781, with liabilities of \$15,690,404, and reported assets of \$7,388,692. The liabilities had not been so large since 1887, and 1891 was the only year since that date in which the number had been exceeded.
