FRENCH FOREIGN MINISTER FAILS TO FORM CABINET

Recommends Doumer Be Asked to Name Ministry

CALL TO PALACE

Eight Times Premier, Unable to Accept Patriotic Duty, Abandons Task

PARIS, Nov. 24—Senator Paul Doumer today accepted "in principle" President Doumergue's request that he form a cabinet, saying he would reply definitely within 24 hours.

PARIS, Nov. 24—Aristide Briand, seven times Premier of France, today definitely declined to form a cabinet in succession to the fallen Painleve ministry, in which he was Foreign Minister.

Shortly afterward, upon his recommendation, Premier Doumergue summoned Senator Paul Doumer, former Finance Minister, to the Elysee Palace.

SOCIALISTS BALK

M. Briand had been urged to assume the Premiership for the eighth time, as a patriotic duty, in view of France's political and financial troubles, but the Socialists refused to co-operate with him.

M. Briand recommended that President Doumergue call upon Senator Paul Doumer to form a cabinet. Just before going to the Elysee Palace, to report to the President, M. Briand said:

"My intention was to form a cabinet of the Left, including M. Herriot, Painleve, Paul Boncour and Blum, but I have not succeeded and prefer to abandon the task."

GRAND FALLS WORK AWAITS REPORT

N. B. Government Likely to be Guided by Result of Power Conference

Representatives of the International Pulp and Paper Co., Ltd., the Bathurst Company, Ltd., and Fraser's, Ltd., were scheduled to meet in Montreal yesterday in conference over the proposed hydro electric development at Grand Falls.

It was said the main item to be considered was an agreement in regard to how much power each company would require for its own purposes and what terms each would be willing to pay for such power, in case the Grand Falls were developed by the province.

NEW YORK, Nov. 24.—Rudolf Philip Rochele, a Bangor, Maine, seaman, yesterday sailed down New York Harbor in a 20-foot canoe propelled by an out-board motor, in which he hopes to travel a 50,000-mile course around the world in three years.

Why Not Shingle Our Own Roof Instead of The Other Fellow's?

OF every three carloads of Canadian wheat which leave the prairies for the Atlantic seaboard, two carloads find their way over Canadian and American railways to American ports.

Within the last few years Canadian wheat, thus diverted, has poured out millions of dollars in employment to American labor, and added greatly to the population of American centres, while our own ports are languishing and our own people have been leaving this country through lack of employment.

It is at an enormous cost to ourselves that we are thus shingling the other fellow's roof. It is about time that we began to put Canadian shingles on Canadian roofs in this matter of traffic.

In actual transportation charges alone, this diverted wheat traffic means that from \$12,000,000 to \$16,000,000 a year Canadian money, which should be spent in Canada, on our own ports and railways, giving employment to our own people, and providing business for our own merchants has been going to enrich our competitors.

That is only the bare transportation charges. We must add to that \$16,000,000 the amount in wages and expenditures which we would enjoy if our own railways and ports had this additional business.

And while our National railways are being employed to this alarming extent to build up New York, Buffalo, Portland, Baltimore, Boston and Norfolk, every Canadian is being taxed to make good the C. N. R. deficits which run into \$50,000,000 a year.

CANADA made provision against this situation years ago when it invested \$170,000,000 in the Transcontinental. That railway was built to a higher standard of construction than any railway of like length on this Continent in order

2,000 OR MORE KIDDIES AGAIN WILL ENJOY CHRISTMAS CHEER

Times-Star Empty Stocking Fund Open Once More—Here is Opportunity to Provide for Those Who Otherwise Would Have No Christmas.

THE Times-Star Empty Stocking Fund is open again. The generous spirit is once more invited to co-operate in providing Christmas cheer for little ones so placed that, were it not for this work, there would be little or nothing to mark the Christmas season for them.

In 1923 this fund provided a well filled stocking for more than 1,600 children of poor homes in Saint John, and last Christmas more than 2,000 were cared for. It is the hope that contributions this season will permit of still further extension of this good enterprise and bring happiness to a correspondingly large number of little ones.

Remember that in many cases there would be no Santa Claus in the homes of many of these little ones were it not for the kindly help given through the medium of this fund. That ought to be a spur to generous giving so that the greatest possible amount of Christmas cheer may be brought to these kiddies, and to the greatest possible number. The greater the amount of money that is placed at the disposal of those in charge the greater will be the good done to the larger number.

It will be a source of satisfaction when Christmas dawns in the homes of those blessed with earthly goods if they can say, as their own children revel in the joys of presents from Santa Claus' great assortment, that, through The Times-Star Empty Stocking fund, they had done something to make little hands clap in delight over Christmas gifts.

Dusky Bride Smiles

Mrs. Leonard Kip Rhineland, daughter of a mulatto coachman, smiles as she leaves White Plains, N. Y., courtroom after seeing her husband wit under cross-examination of her attorney, who wrung from him admission that he swore falsely to five statements in the suit he filed for annulment of the marriage. The defense contends Rhineland, a son of one of New York's wealthiest and most aristocratic families, knew of his wife's negro blood before their marriage.

WINNIPEG WHEAT SOARS TO NEW HIGH

Advances Range From 2 5-8 to 6 Cents on Higher Liverpool Cables

WINNIPEG, Man., Nov. 24.—Wheat prices at the opening of trading on the Winnipeg Grain Exchange today skyrocketed to a new peak for the present movement, advances ranging from 2-5/8 to 6 cents. Sharply higher Liverpool cables, which showed a gain of 4-3/4 cents on Monday's close, prompted the upward trend. On the extreme advance November jumped to 149 1/2; December 145; May 147 and July 146 1/2.

HIGHER IN CHICAGO

CHICAGO, Nov. 24.—Soaring prices carried the wheat market here five cents a bushel higher today almost as fast as trading began. December shot up to 163 3/4 as compared with 158 3/4 at yesterday's close. Reports were current that crop damage was spreading from the north into the centre of Argentina.

U. S. GRAIN EXPORTS

WASHINGTON, Nov. 24.—Grain exports last week from the United States 2,091,000 bushels as compared with 1,490,000 the week before. Grains exported from United States ports were 3,062,000 bushels against 3,169,000, while North American exports of wheat flour were 320,000 barrels against 200,000.

PROVINCES BY SEA ARE TERMED MAJOR PROBLEM

Stranded Amidst Modern Industry, Declares McGill Professor

SCIENCE CHANGES PORTION OF SCENE

Most Humanely Habitable Part Almost at Standstill Since 1867

OTTAWA, Nov. 23.—To permit ancient problems of political economy to creep into national affairs in a partisan way, was to bring Canada to a standstill, Dr. Ira A. MacKay, dean of the Arts Faculty of McGill University told the Professional Institute of the Civil Service here today.

A major problem was the Maritime Provinces—"the most humanely habitable part of Canada"—which had been almost at a standstill since 1867. The causes of this condition were: the substitution of steel for wooden ships, the rapid rural industries, floatations, isolation, education and bad government.

SCIENCE CHANGES PART. Science had changed part of this scene. Predatory interests were partly responsible.

"I believe absentee financial management one of the greatest evils in modern industrial system," said Dr. MacKay. The Scots of Nova Scotia had educated their sons for world citizenship, but the Maritime have become stranded in the midst of modern industry.

OLD PANTOMIME PLAYED.

"We have been playing over an old political pantomime on a new stage," he said. The parts for the pantomime would be borrowed from the political experience of Great Britain and the United States. Parties, by employing out-of-date political theories of public as opposed to private ownership and high as opposed to low tariff, were weighing heavily upon the national stability of Canada.

Of railways Dr. MacKay said that the ownership was of minor importance to the efficiency and honesty of the administration. "You cannot run a railway by legislation and our parliaments go on legislating ad nauseam."

SCIENTIFIC PROBLEMS.

"The real problems of Canada were all administrative and scientific. A council or a cabinet of 15 or 20 scientific men could do more for Canada than any group bound up in the traditional political usages."

"Canada," he said, "had been fighting geography a long time and by continuing the fight with patience the Canadians would eventually win out."

ADAGE DEMONSTRATED.

Dr. MacKay referred in opening to the excellent demonstration of that adage that "democracy was a form of government founded upon talk." He himself had very little political sense left except one which was touched with some fear for the solidarity of the country.

Canada's relations with the Empire and with the world at large were not subjects for politicians of "mere township vision." Students of political history and scholars must work together toward the solution of these things.

One Government, he said, had been as bad as another Government in the history of Canada. In the matter of debts "we will have to renovate our whole administrative system."

Montreal Decrees Days of Mourning

MONTREAL, Nov. 23.—This city will observe Friday and Saturday next as days of general public mourning for the late Queen Mother. It was decided at a meeting of city authorities today.

RELIEF DOLE, WAGES TOO

LONDON, Nov. 24.—George Clark of Bethnal Green has just been sentenced at North London Police Court to a total of five months' imprisonment for obtaining the dole and relief from the Bethnal Green Guardians by fraud. It was stated that Clark drew unemployment benefit at Hackney without disclosing the fact that he was at work. He then gave the name of Clark. In the name of Larkins he also drew unemployment benefit at Stepney.

\$800,000 In Radium Is Found By Device

ST. PAUL, Minn., Nov. 23.—Six weeks patient search with a "mechanical bloodhound" has resulted in the finding in a sewer pipe of a tiny tube containing \$800,000 worth of radium, which disappeared from a hospital here. Prof. Henry Erickson, head of the physics department, University of Minnesota, constructed ionization chamber detectors which were attached to electroscopes, and began to hunt along sewers leading from the hospital. The detectors led him to a nine-inch pipe, in a sewer tunnel. The radium tube was found within two inches of a mark he made in the pipe.

WALKS 'ROUND WORLD ON PEG LEGS

George Pernot, ex-lieutenant in the French Flying Corps, and former newspaper man, has undertaken the stupendous task of walking around the world on two peg legs. The picture shows him landing at Vancouver, B. C., from the Canadian Pacific S.S. Empress of Asia, to make the trans-Canadian lap of his sporting enterprise. Except where it is necessary to take steamship transportation, Monsieur Pernot expects to cover 50,000 miles on his two artificial legs. While flying in 1917 near Dixmude, Lieutenant Pernot's plane crashed and fell within the enemy's lines where he was taken prisoner. So seriously was he injured that both legs had to be amputated above the knees. Now La Societe Sportive, of Paris, has offered him a prize of 700,000 francs if he walks around the world within 20 years. He expects to complete his task in three.

IS ADVANCED IN U. S. SERVICE

Former 9th Battery Man Here Now in Aviation

A former member of the old 9th Siege Battery here, George A. Fisher, has been promoted to staff-sergeant in the United States aviation service, according to word received here by his aunt, Mrs. J. B. Perry, Metcalf street.

HAS PARACHUTE DOG.

Fisher broke into the New York news columns recently through the parachute-jumping activities of a dog named "Bing." The news article is as follows:

"Bing is happy again. So is Sgt. George Fisher of the United States Army Air Service, one of the five men assigned by the army to receive instructions in the making of news reels. Sgt. Fisher's specialties are aerial photography and parachute jumping.

"Bing" specialties up to a year ago, were fighting fleas and searching back yards for likely-looking bones.

"One day, Bing, of uncertain canine ancestry, entered a perfect descent, Fisher doing likewise. From that time on, Bing, the only parachute-jumping dog in the world, made almost daily jumps from the roof of the house at New York to get actual experience in news-reel photography. During his absence, Bing refused to do any jumping, and it is only recently that they were reunited."

GOES IT ALONE.

"Only a week later or so Bing was taken aloft for his first independent jump, with a parachute on his back and rip-cord attached to a line from the aeroplane. As soon as Fisher told him to leap, although the height was 5,000 feet, he jumped overboard like an old-liner and made a perfect descent, Fisher doing likewise. From that time on, Bing, the only parachute-jumping dog in the world, made almost daily jumps from the roof of the house at New York to get actual experience in news-reel photography. During his absence, Bing refused to do any jumping, and it is only recently that they were reunited."

ELECTS ITS OFFICERS.

The annual meeting of Zion Church Epworth League was held last night and the following officers were elected for the ensuing year: Honorary president, Rev. George Oram; president, K. W. Day; vice-presidents, first, Miss Ethel Tillet; second, Woodford Purdy; third, Miss Ruth Johnson, and secretary-treasurer, E. Frank Cameron. Plans for the winter program of activities were discussed and a tentative outline agreed upon.

Headaches and Biliousness

Are quickly relieved by Dr. Chase's Kidney-Liver Pills.

When you feel irritable, cranky and downhearted, you can easily blame the liver, for there is no organ in the human body which so quickly throws the system out of sorts as a torpid, sluggish liver. You do not need to be in the blues long, if you know about Dr. Chase's Kidney-Liver Pills for by their direct action on the liver they relieve promptly and prove lastingly beneficial.

Once the liver is right the bowels function regularly and the whole digestive system resumes its work. You feel fine and take a delight in telling others of the merits of Dr. Chase's Kidney-Liver Pills. This is why this favorite prescription of Dr. Chase is so popular and is found in every store where medicines are sold.

MAY EXTEND CONTRACT TIME

School Trustees Appoint Special Committee to Discuss Matter With Contractor

Said Better Job on Vocational School by Extending Time Limit Two Months

The Board of School Trustees last night appointed a committee, consisting of Dr. L. M. Curran, chairman, and Thomas Nagle, to consult with representatives of the architect and contractors for the Saint John Vocational School.

The adjustment of financial responsibility and the date of expiry of the contract for the building, if the construction is delayed beyond Dec. 31, 1926, to give a more satisfactory piece of work will also be looked into.

The Board met in special session last night for a general discussion on the matter and the committee will meet this afternoon.

THOSE PROSENT.

Dr. L. M. Curran, chairman, presided. Other present were: Trustees, H. Colby Smith, T. H. Carter, E. R. W. Ingraham, Thomas Nagle, Dr. J. K. Higgins, S. A. Worrell, acting-superintendent of city schools; A. Gordon Leavitt, secretary; George P. Hennessy, superintendent for the School Board in the vocational school construction; Herbert S. Brennan, representing F. Nell Brodie, architect, and James Gilchrist, representing the contractor for the vocational school, J. A. Grant & Co., Ltd.

The meeting was called, after a notification from the architect, to consider whether an extension of the contract time might not be to the best advantage to secure good work, and the discussion at the meeting was informal.

NO UNDUE HASTE.

Dr. Curran pointed out that it was absolute waste to have any material destroyed by undue haste. The contractors are responsible for maintenance of the building for six months after the building is accepted.

Mr. Gilchrist explained that any extension of time would mean a greater overhead for the contractors who were heating the building, had interest on hold back and insurance charges to meet, men to employ and would be losing on their contract bond. A two months' delay would mean an added cost of about \$1,675 for the contractor.

Dr. Curran said the aim must be for a reasonably fair responsibility for added charges. It was agreed that the painting of the plastered walls and ceilings should not be carried out until there was no danger of burning.

HEATING BUILDING.

Mr. Gilchrist suggested that the school Board might heat the building after Dec. 31, and he reckoned it would cost \$25 a day in January. This cost includes the salary of the engineer. He said all the shop windows, perhaps six rooms on the top floor could be used by Jan. 1, even if the finishing of the whole building was delayed.

It was agreed that the adjustment of financial responsibility and the decision regarding delay in the construction was to be left to a committee, consisting of Mr. Nagle and Dr. Curran.

Dr. Curran emphasized the fact that the school was built solely for service to the community and the Director of Vocational Training was instructed to make the fullest use of the building at the earliest opportunity.

TORONTO, Nov. 23.—Mrs. John Oakley, of this city, in business life Miss Doris Reid, of New York, has risen from "mannequin to millionaire" and has become the highest salaried dress designer in America, according to a local paper. Mrs. Oakley has just signed a three-year contract with a prominent New York dress manufacturing concern whereby she is to receive an annual salary of \$100,000, with unlimited traveling expenses and the privilege of conducting her own private business as a modiste, says the story published here. She is already on the way to Paris and other European centres to "get the atmosphere" for newlines of frocks and gowns for production in New York.

Prisoner Pardoned On Home Town Vote

FARGO, N. D., Nov. 23.—L. C. Collins, former banker of Hunter who received a pardon through a referendum of the home folks.

Collins was serving a sentence in the state prison for alleged embezzlement and although the prosecuting attorney and sentencing judge recommended pardon to the parole board, the majority of the latter believed the question.

The pardon won by 35 to 17 in a Hunter residents should vote on the town of 800 inhabitants.

SPEECHES ENJOYED.

An interesting program of five minute impromptu speeches was greatly enjoyed at the meeting of Centenary Young People's Association last night and the speakers acquitted themselves most creditably. Miss Annie Broad-bent presided. Miss Fowler spoke on "Our Young People" and the theme of Miss Mary Sealy's speech was "The Saint John River." A piano duet by Miss Mary Langstroth and Miss Mary Fulton was much appreciated.

COMING HOME "TO DIG"?

Sir Henry Thornton, President of the Canadian National Railways, who has been in Paris "inspecting the work of rebuilding the Hotel Scribe, which promises to be one of the finest railway offices in Europe," is to sail for New York on Saturday on his way back to Canada.

Incidentally he made another announcement, which is that the C. N. R. has secured at Fifth avenue and Forty-third street, New York, a floor office "which will certainly attract American business."

Keeping in mind that 141,000,000 bushels of Canadian wheat which went through Buffalo and New York last year, the people of expensive offices in Fifth avenue.

The amount of Canadian traffic which goes to Buffalo, New York and other American cities, building them up and providing their people with employment which Canadians need, is so great that the Americans, providing we continue this extraordinary policy of giving them the traffic we need so badly ourselves, should be glad to provide the C. N. R. with highly elaborate offices in the most desirable localities.

Whether the latter subject to "dig into" could Sir Henry Thornton discover that this matter of diverted traffic? He says that Canadianly welcome American capital "so long as it builds up our country and provides our people with work."

Canadian capital is following Canadian wheat to Buffalo, and Canadians seeking employment are finding it in American cities built up by traffic diverted from Canada, because our nationally owned railroads, built for the very purpose, are not hauling the freight to Canadian ports.

Whether we need expensive offices in Paris and New York may be open to question, but beyond all question Canada needs for its own development the tremendous volume of wheat, flour and other freight of Canadian origin that is leaking out through the alien seaboard.

Canadians are doing altogether too much digging for the benefit of their neighbors across the line. Sir Henry Thornton is in a position to do a national service of the first magnitude by damming the outflow of Canadian freight that is escaping through alien channels.

The first step toward that end is to make proper use of the National Transcontinental. When Sir Henry Thornton reaches Canada he will discover that this is an issue which offers him a remarkable opportunity—and which also confronts him with a very grave responsibility demanding immediate action.

A GOOD INVESTMENT.

The very favorable reception given by the Winnipeg conference to Dr. H. M. Tory's address on scientific research as applied to industry and agriculture leads the Manitoba Free Press to call for government action along the lines suggested.

Dr. Tory, who is Chairman of the National Research Council, said that if full use were made of all the possibilities of research work in Canada, the gain to the country in ten years' time would equal the amount of the national debt, which exceeds \$2,000,000.

At a time when Canada is laboring under a heavy burden of taxation, which is a load not only upon the individual but upon business and industry, it is particularly important that the natural wealth of the country should be unlocked through scientific research and brought into use.

Progress along this line, the Free Press submits, would have most important results: "It would greatly increase the value of the output of our factories. If the efforts toward the prevention of rust on grain are successful they will save tens of millions to our farmers every year; and every improved variety of wheat is of great monetary value."

Something has been done in the way of converting eastern soft coal into coke and the complete utilization of our own fuel supplies, and the diminution of Canada's dependence on United States fuel would mean many millions annually to this country.

"Canada is behind almost every other progressive country in research work, but it is of such enormous potential advantage that our national government would be well warranted in giving a strong lead in the matter and inviting the co-operation of the manufacturers and others who stand to benefit from research. There should be a central institute at Ottawa under which should be placed the research branches of the various government departments. There should be adequate laboratories and equipment, the whole work should be given sufficient financial backing by the government, but the administration should be under a competent and representative board. More active co-operation could then be

Invited from business men and the universities.

The Maritimes, like the other provinces, are directly interested in this matter. Research in connection with our agriculture, our fisheries, and our minerals is greatly needed, and there is, in fact, every warrant for the conclusion of the Free Press that, should the Dominion Government give sufficient encouragement to scientific inquiry and development along the line proposed by Dr. Tory, the result would be to "bring rich returns to the whole country."

Professor Wrong has come to the conclusion that not more than 10,000 Canadians really understood this country's problems. It sounds bad, but the Border Cities Star discovers a compensating circumstance, and observes that, if Professor Wrong is right, about 8,990,000 Canadians are luckier than they think.

Odds and Ends

Men's Togs

(Chicago Journal of Commerce.) A woman in the London Spectator has been writing about men's clothing. What she says is not likely to increase male complacency or add to his conceit of his own superiority.

A German professor's curiosity led up to the article in the Spectator. He weighed the clothing of his assistant and his wife, and found that the man's boots alone weighed more than the entire apparel of his wife. It would probably surprise any American

in the bathroom scales the difference in weight between his wife's and his own clothing. The contributor to the Spectator tells us that for 20 years women have been steadily decreasing the weight of their costumes. This reform is wholly feminine. Men have not followed it. But it has "unwisely improved" the physique of women.

They no longer faint all over the place. They are not so delicate as they were. They can stand frost and cold better than men. They are not laid up with colds a dozen times during the winter. They let the air get to their skin.

Indeed, they court it with bare arms and all but bare legs, necks and shoulders, and increase in health and strength under thin costumes in which the so-called stronger and superior sex would be a shivering shambles.

So this feminine "critic of men's clothes" goes to tell about them. They are thick, heavy and constricting, cause excessive perspiration under active exercise, exclude sunlight and air from the skin, bind the neck with tight collars and ties, discourage the very hairs on their heads with hats through which air cannot circulate.

Frequent colds, bald heads and queer physiques. How many men there are whose legs, arms and bodies are simply grotesque, too thin or too thick, with flabby arms and absurd necks! A painful subject. Let us pursue it no longer, now that woman's wit has turned to show us our lack of progress in sanitary dress!

Sandwich Islands

(Vancouver Province) The Hawaiian Islands are planning to celebrate the 150th anniversary of their discovery by Captain Cook, when due honor will be paid to the memory of that intrepid English navigator.

On his first visit Captain Cook named the archipelago "Sandwich Islands," after his patron, the Earl of Sandwich, an inveterate gambler who invented the sandwich so that he could eat while playing cards.

Unfortunately for Captain Cook, the Hawaiians discovered the meaning of the word "sandwich" between his first and second visits, and imagined that they were expected to govern themselves accordingly. So they made a sandwich of Captain Cook and enjoyed it immensely.

One of the features of the celebration, it is hoped, will be a parade by the Sandwich Hula-hulas, a branch of the Native Sons of Hawaii, whose proud boast it is that they are direct descendants of the old-timers who took Captain Cook to their bosoms on his first visit, and to their stomachs on his second.

Has No Sin—Nor Immorality. (Christian Science Monitor.) There is something worth thinking about in what Walter Prichard Eaton, dramatic critic and writer, said the other day at Wellesley College when he urged that while there is no sin in slang, there is no immorality in it either. "Present-day authors," he declared, "are writing in water when they use current slang and vernacular. Realism, when applied to the speech of the day, can only achieve the success of the day." Moreover, although there may be no sin in slang, Shakespeare gave a hint concerning the directing in which it often tends, when he wrote, "Mend your speech a little, lest it may mar your fortunes."

The Best of Advice

BY CLARK KINNAIRD

THE ONLY LAWS THAT ARE ENFORCED.

HOW puny are man's laws alongside those of Nature! And of how little consequence! Yet the whole code of her laws may be written on a postage stamp.

Motion is the first secret of Nature. The whirling bubble on the surface of a brook admits to us the secret of the mechanics of the sky.

Every shell on the beach is a key to it. A little water made to rotate in a cup explains the formation of the simpler shells; the addition of matter from year to year causes them to ripple at last at the most complex form.

And yet, as Emerson exclaims, "So poor is nature with all her craft that, from the beginning to the end of the universe, she has but one stuff—but one stuff with its two ends, to serve up her dream—will, stars, sand, fire, water, tree, man, it is still one stuff, and betrays the same properties."

THERE is constant life in her, motion and development; yet she remains where she was. She is eternally changing, and never stands still; yet she is steadfast; her step is measured, her exceptions rare, her laws immutable.

The meaning of the whole she keeps to herself, and no one can learn it from her; yet man carries the world in his head, the whole of astronomy and chemistry suspended in a thought.

Because the history of nature is characterized in his brain he is the prophet and discoverer of her secrets. Every known fact in natural science was divined by the presentiment of somebody, before it was actually verified. Truly, there is nothing new under the sun.

Man does not tie his shoe without recognizing laws which bind the farthest regions of nature.

MAN is never able to enforce his laws. Nature always does. Yet man in all his infinite wisdom continues to make laws contrary to those of nature.

Poems That Live

ALMOND BLOSSOM.

Blossom of the almond trees, April's gift to April's bees, Birthday ornament of spring, Flora's fairest daughter— Coming where no flowerets dare, 'Tis the cruel outer air When the royal king-cup bold Dares not done his coat of gold And the sturdy blackthorn spray Keeps his silver for the May— Coming when no flowerets would, Save thy lowly sisterhood, Early violets, blue and white, Dying for their love of light— Almond blossom sent to teach us, That the spring days soon will reach us, Lest, with longing over-ried, We die as the violets died— Blossom clouding all the tree With thy crimson broidery, Long before a leaf is green, On the bravest bough of green— Oh, when winter winds are swinging, All thy red bells into ringing, With a bee in every bell, Almond blossom, we greet thee well. —Edwin Arnold.

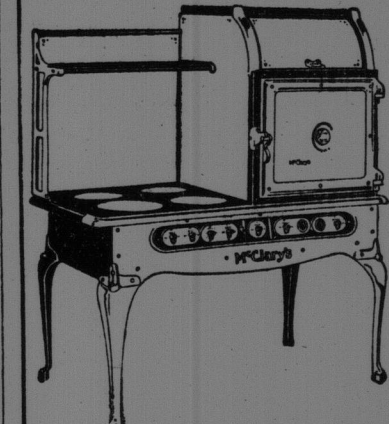

Strange.

(Ottawa Citizen.) An interesting aspect of this promising trade situation in Canada is that the recent political upheaval and its inconclusive outcome have not apparently interfered with the steadily rising tide of business. In common with other countries, Canada went through a period of depression. Tariffs had little to do with it; and tariffs will

have little to do with future periods of business prosperity. In the face of the course of economic events the late political struggle and the extravagant language used in its presentation take on a strange unreality. If trade revival comes—and it seems as if it will—it will be due to factors and causes not dreamt of in the philosophies of partisan rivals for office, as expressed on the platforms of the general election.

ELGIN TIME KEEPER TO THE SUCCESSFUL

Painted from life by... JAMES MONTGOMERY FLAGG

I could not find a watch that agreed with me until I secured an Elgin

One of a series of little biographies of Elgin Watches

WRITTEN BY EMINENT ENGINEERS

It was Oscar Wilde who wrote that "a man will kill the thing he loves," and while I would not care to confess to being a time-killer, I must admit that I have submitted my watches, for which I had a real affection, to many punishments, including the water test.

For in my younger days, I served as coxswain of an eight-oared shell, and in one dramatic practice spin on the Schuylkill, the boat was swamped and the crew made a most inglorious exit from the water. I swam ashore,

but the watch that went overboard with me—my father's and a fine English make—was never quite the same.

My second watch was a gift from my mother on my twenty-first birthday. It served me faithfully for several years and then for reasons best known to itself, suddenly lost its reputation for unerring accuracy.

With no little reluctance I discarded it, and purchased an Elgin which, decade in and out, has never miscounted a minute that I've been aware of. It has won my regard as a true friend, on which I can rely almost to the second.

KINDERGARTEN HEAD RESIGNS

Mrs. A. G. McAvity Gives Up Office After Long Term of Service

Reports Show That Association Had a Year of Great Success

With keen regret the Free Kindergarten Association at its annual meeting yesterday afternoon accepted the resignation of Mrs. Allan G. McAvity from the office of president and expressed deep appreciation of her able leadership. The meeting was held in the Board of Trade rooms with Mrs. A. W. Estey presiding. The reports showed the year to have been one of great success and there was a small balance on hand to begin the new year.

Miss Vallie Sandall's resignation from the office of treasurer was regretfully accepted thanks being extended for her good work. Reference was made to Miss M. Gunn's pioneer work in connection with the Free Kindergartens.

ELECTION OF OFFICERS.

Officers elected were as follows: President, to be appointed by the nominating committee; vice-presidents, first, Mrs. A. W. Estey; second, Mrs. W. C. Rising; third, Mrs. H. L. Spangler, and fourth, Miss May Harrison; secretary, Miss Marjorie Knight; treasurer, Miss Bessie Dawson; additional members of the executive, Mrs. Alice Estey, Miss M. Gunn, Mrs. W. A. Polly, Mrs. E. R. Taylor and Mrs. Shimway.

Mrs. H. H. Pickett, as convener of the educational committee, gave the monthly reports of the kindergartens. At the Wellington Row kindergarten Miss G. Louise Estey reported a happy Halloween party, a walk through the market before Thanksgiving, milk supplied by the DeMonts Chapter, I. O. D. E., and welcome donations of clothing received.

At the South End kindergarten, Miss E. Edna Colwell said 83 children were enrolled, a pleasant Halloween party held and six new chairs bought with money in the kindergarten bank.

IN SOUTH END.

For the South End kindergarten Miss Edith Stevens reported 64 enrolled and 20 on the waiting list, much sickness among the children and many donations, including fruit from St. Paul's church, milk and biscuits from Alexandra Chapter, I. O. D. E., and biscuits from Mr. Marven.

At St. Mary's kindergarten Miss Winnifred Ross reported an average enrollment of 40, a good health report and a much enjoyed party.

At the Mabel Peters kindergarten, Miss Ruth Manks reported an enrollment of 60.

MORE VISITORS NEEDED.

Mrs. Pickett appealed for more visitors at the kindergartens and especially at the Christmas closing treat. Mrs. H. L. Spangler was to be asked to party with the Christmas treat committee. Letters of sympathy in bereavement were to be sent to Miss Ruth Manks and to the relatives of Miss Louise Murray.

Delegates to the Women's Council were appointed as follows: Mrs. W. A. Nicholas, Mrs. P. E. Holman, Miss M. Gunn, Mrs. Shimway and Mrs. H. Usher Miller. Heartily thanks were extended to the Queen Square United church members and to Mrs. W. F. Hatheway for two contributions of \$5 and to the Gyro Club for \$25.

Mrs. Pickett read an article on the "kids' guard" or kindergartens, taken from Kate Douglas Wiggin's recently published diary.

Mrs. F. E. Holman gave the report of the hall committee and the report of Mrs. A. F. Robinson's very successful training class which meeting on week day afternoons in the assembly hall of Centennial School through the kindness of the school trustees. Ten pupils began the course but Miss E. Ritchie has been compelled to drop out because of ill health.

(Continued from page 1.)

that it might be a highway providing for the carrying of traffic east and west, bringing the Canadian grain to Canadian ports, and carrying back to the prairies the European and Canadian goods required there.

It was designed especially to prevent the very leakage of traffic of Canadian origin that is bleeding this country white today. The Transcontinental, from Winnipeg to Moncton, Saint John and Halifax, instead of being deserted, instead of being a locked-up investment, a paralyzed asset, should be humming with traffic, particularly after inland navigation closes. The effect would be twofold. In the first place it would stop the gigantic leak to American channels, and in the second it would build up the ports and the transfer points all along the line.

MANY thousands of trainloads of Canadian wheat go to the American seaboard. Think what it would mean if most of that traffic, or all of it, were brought where it rightly belongs, by Canadian hands, over Canadian rails, to Canadian ports.

This issue is one of intense interest to the Maritimes, but is essentially a national issue, and we have just had evidence that its vital nature is appreciated in Winnipeg, in Toronto, and in Quebec.

The Maritimes and the country at large have frequent assurances from the Canadian National executive of their strong desire to carry the greatest possible amount of traffic to Canadian ports. But the Transcontinental, which could be employed to that end, is not being so employed. Unless action is taken very soon, when inland navigation closes, the history of the coming winter season will be that of previous ones.

OBVIOUSLY, as the Toronto Star says, it would be much better for Canada if the Canadian traffic now going to American ports were carried to our own harbors, even if the railways received no more than the bare cost of operation. But both the Toronto Star and the Manitoba Free Press point out that the traffic can be kept in Canadian channels at a profitable rate.

Sir Henry Thornton, President of the Canadian National system, having the Transcontinental under his jurisdiction, holds the key to this situation in his hand. He is hearing from Winnipeg, from Toronto, and from other national centres. They are not offering him empty advice, but are pointing out the actual and effective remedy, which is to make proper use of the Transcontinental as a lever to restore this stream of traffic to its natural course.

Could there be a more practical or a more important subject for united and immediate action on the part of the Maritimes—of their Boards of Trade, of their labor organizations, particularly those of port and railway workers, of their members of Parliament, of their citizens generally?

THE cash register responsive to the wheat traffic rings three times in Buffalo or New York while it rings once in Canada. That is a situation which must not be permitted to continue.

Let the Maritimes unite with Winnipeg, Toronto and Quebec, and bring about the early and effective action which the importance of this matter clearly demands.

Deaths

Frank B. Newcomb HOPEWELL HILL, Nov. 23—The death of Frank B. Newcomb, postmaster, a native and well-known resident of Hopewell Cape, occurred a few days ago after a short illness, beginning with a severe cold. Besides his duties as postmaster, he had held a position in the mercantile business of C. M. Pye, and was a trusted and capable official and universally esteemed. Besides his wife, who was formerly Miss Mabel Ayer, daughter of Mr. and Mrs. Charles Ayer, he leaves a daughter, Elsie, and two sons, Gilbert and Claude, also two brothers, Avery Newcomb, of Hopewell Cape, and Capt. H. G. Newcomb, of Halifax; and a sister, Mrs. J. Alton Tingley, of Amherst. He was a son of the late Gilbert Newcomb, his mother being a member of the well-known Pye family, of Hopewell Cape.

Robert Turner HOPEWELL HILL, Nov. 23—Friends of Silas G. Turner, of Albert, will sympathize with him in the death of his son, Robert, aged nine years, who succumbed to a chronic illness. He leaves his father, aunt and two sisters. His mother died a few years ago.

Jennie Wilson YORK MILLS, N. B., Nov. 23—After an illness of only a few weeks, Jennie Wilson, only daughter of Mr. and Mrs. A. J. Wilson, of Coburn, N. B., passed away at her home on Monday last. The funeral was held Wednesday afternoon at the Harvey Universalist church, which was filled to capacity. The service was conducted by Rev. Hugh McLean. The pallbearers were six uncles, Heber Wilson, of Portland, Me.; Levi Wilson, Albert Johnston, Thomas R. Wilson, James L. Nesbitt and H. M. Little, all of Harvey.

Boudreau-Turner. SACKVILLE, Nov. 23—The marriage took place at the Holy Rosary church, Middle Sackville, Nov. 18, of Phillip Boudreau to Mrs. Elida Turner. Rev. Father Fraser officiating. The contracting parties, who were formerly of Amherst, will reside in Sackville.

New York Fashion Writer Tells of Winter Vogue for Gray

NEW YORK, Nov. 23.—(United Press)—Gray has never had the vogue for winter that it has had this year. Previously we have accepted gray as a spring, summer or early fall color, but this year it is one of the smartest of the winter shades. This season's gray is a soft, pinkish gray that is bound to be becoming to everyone who chooses it. Smart coats and ensembles of gray velvet or cloth trimmed in squirrel or gray fox are worn by debutantes and matrons whose costumes are the envy of the shop girls. While one sees few entire gray fur coats one sees numerous gray cloth coats heavily trimmed in gray fur. Squirrel coats are not extremely popular nor have they been for several winters. A smart young woman appeared on the avenue wearing one of the loveliest gray coats we have seen. The coat was of a luxurious gray cloth resembling a heavy duvetyne and had quite a plunkish cast in the gray. It matches the frock.

Recent party sale and Miss Alice G. Rising reported on the Sunday services in the Old Ladies' Home. Mrs. Fred Fleming, rector of St. John's (Stone) church, gave his illustrated lecture on a trip up the Clyde, in the church hall last night at the B. Y. C. U. regular meeting. Rev. "Red Seal" CEDAR CHESTS

An Appropriate Gift of Lasting Utility

THE women of all generations have appreciated the protective utility of cedar chests. To-day, with artistic beauty added, "Red Seal" Cedar Chests are doubly desired. A beautiful, fragrant, moth-killing "Red Seal" Chest—all cedar or Walnut finished with inner case of genuine Tennessee Red Cedar, as you prefer—is a gift that will be treasured all down the years. In design, proportions and finish, "Red Seal" period chests are "right". There are period models in Walnut to match perfectly the Queen Anne, William and Mary, Chippendale and Adam suites and pieces produced by leading furniture makers. In bedroom, living room, dining room or hall—wherever convenience dictates it should be placed—a "Red Seal" Chest is a

beautiful and useful piece of furniture, as well as a safe depository for woollens, furs and other valuable garments. "Red Seal" Chests are made only of thoroughly kiln-dried woods and best quality hardware. The lock-corner system of construction, with other features, makes them absolutely "tight"—moth proof, dust proof and damp proof. Whether for a gift or to grace your own home, choose a genuine "Red Seal" Cedar Chest, plainly marked with the name and made by The H. E. Furniture Co., Limited, Milverton, Ontario.

BROWNLEE IS NEW PREMIER OF ALBERTA

Herbert Greenfield Quits After Holding Office Since 1921 Elections

OTHER MEMBERS OF CABINET REMAIN

New Government Is Sworn in; "Back to Farm" Says Retiring Head

EDMONTON, Nov. 23—Premier Herbert Greenfield, leader of the Farmer Government since he took over the reins of office from the former Liberal administration in 1921, submitted his resignation to Lieutenant-Governor Egbert today, recommending that His Honor ask Attorney-General Brownlee to form a government.

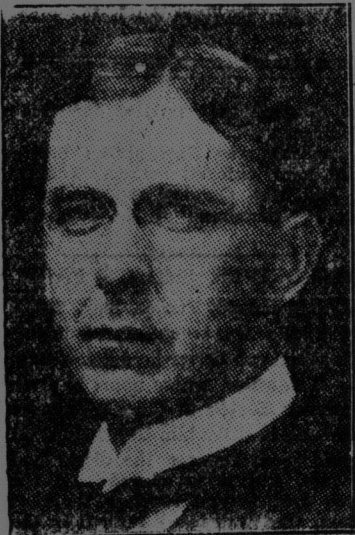

Premier Brownlee was sworn in immediately thereafter, followed by his ministers, the official duty being performed by His Honor at his chambers in the government buildings.

OTHER MINISTERS STAY. While some changes have been made in the new cabinet, no changes in personnel have been made, neither is a new attorney-general named to replace Premier Brownlee.

The new cabinet is now named as follows: Premier and Attorney-General—Hon. J. E. Brownlee; Provincial Treasurer and Minister of Municipalities—Hon. E. R. Reid; Minister of Agriculture and Public Health and Provincial Secretary—Hon. Geo. Hoadley; Minister of Labor and Public Works—Hon. Alex. Ross; Minister of Railways and Telephones—Hon. V. W. Smith; Minister of Education—Hon. Perron Baker; Minister without portfolio—Hon. Irene Parby.

ONLY CHANGE NOTED. The only changes in portfolio are that Premier Brownlee while retaining his portfolio at Attorney-General, relinquishes that of provincial

secretary to Mr. Hoadley, while the portfolio of Minister of Municipal Affairs held formerly by Mr. Greenfield, goes to Mr. Reid, who retains also that of provincial treasurer.

Mr. Greenfield was not a candidate he was called upon to form a government at the general election in 1921, but went to Mr. Reid, who retains also that of provincial treasurer.

Mr. Greenfield was not a candidate he was called upon to form a government at the general election in 1921, but went to Mr. Reid, who retains also that of provincial treasurer.

"BACK TO FARM," HE SAYS. Rumors that the former premier would take some official position, possibly on the Utilities Board, are denied by Mr. Greenfield.

"Back to the farm for me," was his only comment this morning. "I'm through with politics for good and all."

STATEMENT ISSUED. Premier Greenfield, as one of his last official acts, prepared a statement for the press which reads, in part, as follows:

"I had not been a candidate in the election and was strongly disinclined to enter public life but, in response to the unanimous request, verbally expressed by every member, I consented to accept the position, subsequently forming the present government, which assumed office on August 13, 1921.

"Latterly it has become increasingly evident that there is not the full accord between the supporters of the government in the legislature and myself, which is essential to the successful continuation of any administration.

APPEAL TIME NEARS. "We are now rapidly approaching the time when the administration must make its appeal for a further mandate from the people. In fairness to my successor in office and to give him the opportunity of forming his own plans for the election, I have decided to tender my resignation to His Honor the Lieutenant-Governor."

Premier Brownlee, when asked for a statement on taking office, replied that he would endeavor to get out some statement today, but that he might not be able to do so until Tuesday owing to the number of matters requiring his attention.

DISTURBANCE CAUSE REMAINS MYSTERY

Fall River Reports Tremors, Rumbblings, Switchboard Lights Flashing

FALL RIVER, Mass., Nov. 23—The cause of rumbblings, faint tremors, and flashing lights on telephone switchboards in southeastern Massachusetts and Rhode Island early this morning remains a mystery.

Reports that the district had been shaken by a slight earthquake were current, but the police reported that no disturbance had been noticed and the sudden flashing of the switchboard lights was attributed in some quarters to a sharp electrical storm.

N. Y. Hunter Gets a Record Alaskan Bag

SEWARD, Alaska, Nov. 23—Returning here after two months' big game hunting in the interior, N. E. Boomhower, New York carpet manufacturer, exhibited a caribou with antlers having 69 points, which nearly equals the world record for caribou horns.

Boomhower also shot a brown bear measuring ten feet in length, and 19 inches between the ears. The New Yorker said he planned to go to British East Africa this winter to hunt, and expected to return here next spring.

A TRAGIC WIDOW. LONDON, Nov. 24—A young widow, who appeared before the Marylebone magistrate recently, had been the victim of the following misfortunes: Two husbands killed in war; third husband committed suicide; her confectionery shop burnt down and the widow badly burnt. After the fire, the woman, Ada Mary Back, Kentish Town, was 14 weeks in hospital before she recovered from her burns. She had three children of her own and four stepchildren.

APPEALS STAND IN CANADIAN SHIP CASE

U. S. Supreme Court Refuses Dismissal Over Liquor Boat Seizure

Canadian Press Despatch. WASHINGTON, Nov. 23—The Supreme Court today refused to dismiss the three appeals brought against the Government for the forfeiture of the Canadian schooner Frances Louise and her cargo of liquors seized 10 1/2 miles off the Massachusetts coast. The cases will be heard on their merits.

The Federal District Court for Massachusetts held that the seizure was unlawful because the schooner was more than an hour off shore.

The Government insisted the seizures could be justified under the customs and international laws on the ground that the schooner was trading with the shore and that in negotiating the liquor smuggling treaty with Great Britain it had not abandoned its right to seizure under the municipal and international laws.

Minnesota Plans Pioneer Museum

MOORHEAD, Minn., Nov. 21—While the pioneers and their children still alive to tell of their experiences, Concordia college, a Lutheran institution, will develop its museum of Norse relics.

Letters, diaries, pictures, costumes, home equipments, newspapers, and books are being gathered. Professors J. A. Holvik and H. C. Nordlie are leaders in the movement.

Among the interesting relics so far is an old copy in Norwegian of a message delivered by Gov. Samuel Merrill in 1870 to the Iowa legislature. So numerous were the Norwegian settlers in the state that the message was translated into their language at the expense of the state.

Victoria Rink Management Extends Privileges to Visitors

WORLD from Pittsburgh that the International Skating Union has sanctioned the world championship meet here and quiescent organization meet here and quiescent organization

CHAIRMEN NAMED Announcement of the appointing of various committee chairmen was made this morning by Mr. Paterson.

Finance—T. E. Simpson. Construction—Thomas Nagle. Tags—Col. A. E. Massie.

Another Offer In connection with co-operation of all citizens, Mr. Paterson said this morning he was pleased to receive a communication from the management of the Victoria Rink extending the privileges of the rink to the Olympic champion, and other visiting skaters.

Mr. A. P. Paterson, President Saint John Skating Association, said this morning he was pleased to receive a communication from the management of the Victoria Rink extending the privileges of the rink to the Olympic champion, and other visiting skaters.

Although I realize that most of the skating will be done on an out-of-door track, perhaps inclement weather may force the skaters to an indoor rink some part of the period preceding the races.

Our local boys are being sent tickets, but I shall appreciate it if you will pass on this invitation to the outside entrants. Every morning and afternoon, and also evenings after the band blocks would be placed and the regular track put in readiness for the skaters.

Yours very truly (Sgd.) GEO. P. HAMM, Mgr. Victoria Rink.

"Red" Grange Says He Plans To Return To Finish College Course

Along The Sport Trail

ONE would imagine that a great many infants are going to suffer severely this cruel, harsh winter as the result of Mr. Tex Rickard's deal to the New York Boxing Commission that he will not give 50 per cent. of the gross proceeds of the receipts from the proposed Milk Fund bouts but is quite willing to go on his old arrangement of splitting the swag after all expenses are paid.

THE OTTAWA SENATORS parted off the claw of the Victoria Cougar last week in handy style. Joe Lamb was not taking part in the operation but the victories stamped Ottawa as contenders for the N. H. L. title this year.

WHEN the City Ladies' Basketball League makes up its mind regarding rules for the coming season, this city will have about 35 teams playing in organized leagues and any talk about there being a great future for the game after a lapse of several years seems rather out of order for that time is right here now.

LOST WORLD PROVES FILM THRILL DRAMA

Noted Screen Stars Share Honors With Prehistoric Monsters at Queen Square

Imagination flies in awe before the thrills of prehistoric monsters and the strange fascination of dramatic grandeur compressed into Waterson R. Rothacker-Frost National spectacle, "The Lost World," which opened last night at the Queen Square Theatre.

This adaptation of Sir Arthur Conan Doyle's famous adventure tale, "The Lost World," has been translated to the screen by Earl Hudson with the uncanny elusiveness of a nightmare.

Finally capturing one of the monsters—a brontosaurus bigger than ten elephants—the party returns with it to London to prove the discovery.

"Romola" Is Lovely Picture and Fills Imperial Theatre

There are few spots in the world where so many stirring and strange scenes have been enacted as have taken place in the Piazza della Signoria in Florence, Italy.

What glorious, what iniquitous scenes have taken place there. The immense, high-towered and castellated Palazzo Vecchio, which projects itself into the square, was not only the residence and fortress of the civil functionaries and the home of the Government during the highly charged days of the republic, but it was also for a number of years the residence of the Medici when this family held the reins of government in their strong and capable hands.

CIRCUIT COURT CASES ARE CIVIL

No Criminal Business to Come Before Justice Crocket

Action Following an Injury Sustained by Boy—Chancery Session Held

The November sittings of the Circuit Court opened this morning with Mr. Justice Crocket presiding. There is no criminal business before this term of the court, but four civil cases have been entered on the docket.

One of the civil matters before the court will be the case of Long et al. vs. the Estate of William McLaughlin, an action for damages arising out of an automobile accident at Fair Vale during last summer in which the little son of the plaintiff was seriously injured.

Another case is that of the plaintiff vs. the defendant's delivery truck when the latter, through some accident to the steering gear, plunged into a ditch and the lad was so badly hurt that his arm had to be amputated.

The following petit jury panel was summoned: F. C. Jackson, L. M. Lecheur, J. M. Elmore, J. T. Sargeant, H. M. Akerly, C. E. Magnusson, Isaac Mercer, L. C. Thompson, M. F. Kirk, A. H. Wetmore, F. Armstrong, A. H. Paterson, A. H. Farrell, E. W. Henry, J. D. Adams, E. R. Hagerman, F. Fowle, A. E. Cunard, A. A. Gundry, L. C. Fitzgerald and W. B. Tennant.

The civil docket follows: JURY. McDonald vs. Simonds; Barnhill, Sanford and Harrison. Durick vs. McGuire; W. M. Ryan, Long et al vs. McLaughlin; W. R. Scott.

NON-JURY. Thomas vs. Boyle's Belyea & Gilbert.

CHANCERY COURT. The November sittings of the Chancery Court opened this morning with Mr. Justice Grimmer presiding. The case of Christie vs. Walton was entered by J. F. H. Teed, and Dec. 10 was set as the date of trial.

George Gilbert of Bathurst made an application in the matter of an application in the matter of the measurement of a widow's dower and the hearing was set for Dec. 10 pending a settlement. A. N. Carter appeared for one of the heirs of the estate.

D. King Hazen read the report of the master in the matter of the Nicholson Estate vs. E. S. Whittaker and the report was confirmed. Court adjourned until Dec. 10.

Trade Comment Of Local Interest

Through the action of the Saint John Board of Trade there will arrive in the city early in December a shipment of oranges and grape fruit from Port of Spain, Trinidad, according to advice received by F. Maclure Scanders, commissioner of the board.

A tip that might profitably be taken by local fish merchants was picked up at the Winnipeg conference. Mr. Scanders said this morning. He was told by a Vancouver man that, believing there was a market in the Orient for British Columbia fish, a firm had sent a representative to look the ground over. As a result of the visit of this investigator the firm was today exporting 25,000 tons of salt herring annually.

Mr. Scanders expressed the opinion that local merchants would adopt the same method in dealing with the markets to the south as they might build up a profitable business.

Sends From Quincy for Band Fair Tickets

A very satisfactory attendance was again registered last night at the City Cornet Band Around the World Fair in St. Malachi's Hall, which entered on its second and last week. The musical program, which was an excellent one, was given by St. Mary's Band under the baton of Bandmaster Williams.

It is announced that the committee which had in hand the arrangements for the Protestant Orphans' Fair will attend tonight as a mark of appreciation to the City Cornet Band for its assistance at the Orphanage fairs.

In a letter to Mr. Connolly, William Bruchhof, a former well known Saint John man, now residing in Quincy, Mass., who was in business in King street for many years, encloses \$10 for Around the World tickets and expressed his congratulations to the band on their 51st anniversary.

New Service Will Start in Few Days

Pepper is the convener of the entertainment committee which will have charge of the arrangements.

GETS DEER IN B. C.

O. J. Morgan formerly of this city and now making his home in Vancouver, B. C., was up the coast on a hunting trip over Thanksgiving holiday and was successful in bagging two fine deer. It was his first hunting while in B. C. territory. While Mr. Morgan was here he was very fond of hunting and fishing and was successful at this sport. He expects at an early date to make a trip to the interior of the British Columbia forest after bigger game. In a letter to his brother, G. H. Morgan, at 1141 Main street, Morgan tells entertainingly of his outing.

RECORD NUMBER ATTEND.

The attendance at the Stella Maris card party in East Saint John last night was exactly 404, and it took 101 tables to accommodate everybody. It was the top notch mark of attendance up to that time, but Rev. Francis Walker, priest of the parish, said last night that there was plenty of room for more and had more people arrived last night the committees would have been prepared for them. The prizes were won as follows: Ladies, first, Mrs. E. J. MacDonald; second, Mrs. W. J. McNulty and consolation, Miss Mary Durnani; gentlemen's first, J. E. Arrowsmith; second, George Maxwell and consolation, Thomas McGulre.

QUEEN SQUARE EVENT

The Ladies' Aid of Queen Square United Church are holding a supper and sale convened by the president, in the schoolroom today. The serving table is nicely decorated in mauve and yellow, and is centred with mauve and yellow chrysanthemums with silver candlesticks containing mauve and yellow candles on either side. The lunch supper tables each has for decoration a chrysal vase of marguerites and a single rose. Members of the Minnie Roberts Mission Circle are the servers and the ladies of the Aid assist in the various departments. Mrs. F. G. Spencer is convener of the fancy work table and the book table is being looked after by Mrs. M. T. O. Toole as convener. The proceeds will be used for church purposes.

BUSY SESSION ON UTILITIES

Power and Telephone Co. Matters on Saint John Schedule.

Board to Sit Here Tomorrow and in St. Stephen on Thursday

The November meeting of the New Brunswick Board of Public Utilities will be held tomorrow and promises to be a busy one. It will be held in the equity court chambers. On Thursday the board will sit at St. Stephen to hear some matters affecting the counties of Charlotte and Carleton and on Friday morning will meet again here to hear the case of the New Brunswick Power Co. vs. the City of Saint John, in which the company are asking the board to reduce the amount they pay to the city for water and for a return of \$11,000 which they claim has been overpaid to the city. Following is the agenda for the meeting here and at St. Stephen:

AT SAINT JOHN

Hearing on the petition of the New Brunswick Power Co. on re-opening extension to Little River. Dr. Taylor in support of petition, W. A. Ross, contra. Hearing on the petition of Geo. H. Clark and others re extension of N. B. Power Co. service in West Saint John. Francis Kerr in support of petition; Dr. Taylor, contra.

Hearing of the application of New Brunswick Telephone Co. for permission to issue \$600,000 worth of stock. A. N. Carter in support; J. King Kelley K. L. for other interests.

Report of N. F. Nutter regarding interference of wires between the Hydro Commission and N. B. Power Co.

AT ST. STEPHEN

Hearing on the application of the town of St. Stephen and Milltown for permission to enter into a contract with the Maritime Electric Co. Ltd. for the lighting of the streets of the said town. The case will be argued by the town and the electric company.

ENJOY LECTURE AND INSPECT MUSEUM

Cubs Have Profitable Evening—Other Events of This Week

The Wolf Cubs of No. 6 Edith Avenue Pack last evening enjoyed a delightful lecture at the Maritime Museum, where Dr. Wm. McIntosh entertained them for an hour and a half with a talk on birds, a tour of the museum and some interesting Indian legends. This evening B. Faraday of the N. B. Power Company will give a short talk on electricity, dealing with the Electrician Scout Proficiency badge and electricity as a vocation. He will speak to the members of No. 2 St. Paul's troop, No. 1 Knox Troop, No. 8 Mission Troop and the Zion Church Trail Rangers. The meeting will be held in St. Paul's Sunday School hall.

On Friday evening Mr. Faraday will give a similar talk in the Fairville United Church Sunday school, when he will speak to the members of No. 10 Fairville United Church Troop, No. 24 Fairville Baptist Church Troop, and No. 9 the Kirk Troop from West Saint John.

These meetings are being arranged by the lecture committee, of which F. D. Foley is chairman.

Tomorrow evening the monthly of the Scout Leaders' Club will take place in Trinity Church Sunday School Hall at 6:30, and will be attended by scoutmasters, assistants and chairmen of the various troop committees. The program will include announcements of the plans for the visit of the Chief Commissioner for Canada, Dr. James W. Robertson, who is expected in the city on Saturday evening. Many local matters of interest to scouters will be brought up for decision, and practical scouting items will complete the program.

GAVE PLAY IN HAMPTON.

The Assumption players of West Saint John, assisted by the St. Rose's players, under the direction of J. J. O'Toole, repeated their three-act entertainment at Hampton on Monday evening before a large and appreciative audience. Specialties were given by the Misses M. Farren, E. Driscoll, G. McKenna and Mr. Joyce. Those who took part in the play were Misses M. Farren, M. Condon, M. Hennessey, Morrissey and Messrs. B. Quigg and W. Quigg of the Assumption players and Miss E. O'Toole and Messrs. J. B. Richards, J. J. O'Toole, A. deRoche and Louis Murphy, of the St. Rose's players.

AUTO CASES.

In police court this morning Fred Northrup reported for parking his auto longer than the legal time limit, pleaded guilty but after learning that his car had broken down and could not be moved last night Magistrate Henderson dismissed the case.

CARLETON CITY HALL

One of the matters which will probably come before the City Council this afternoon is the report of a sub-committee dealing with the restoration of the Carleton City Hall. The committee engaged the services of H. C. Mott to draw a set of plans and specifications and is about ready to recommend a plan for tenders for at least a part of the work.
