THE ROTARY CLUB

The Rotary Club today heard a very interesting address by Dr. Spangler on osteopathy. Dr. Spangler described osteopathy as non-operative surgery. The osteopath seeks to get the patient anatomically correct that he may be physiologically correct. The speaker has a few jokes at the expense of other schools of medical treatment, pointed out that the student in osteopathic college took up every study taken by a student of any of the great medical colleges. He himself had been in St. John for twenty-one years, and laughingly remarked that for some years he was not sure whether he would stay here or go to the penitentiary. His address was heartily applauded.

President Peterson was in the chair. A representation of Chautauque briefly addressed the club and was very cordially greeted.

SIR GEORGE E. FOSTER ISSUES STATEMENT ON COAL SITUATION

Ottawa, July 21.—Sir George E. Foster, minister of trade and commerce, has issued the following statement on the coal situation:

"With the signing of the peace treaty, the United States fuel administration has automatically ceased to exist, and the production and distribution of coal in that country is now governed solely by the law of supply and demand. All wartime regulations, restrictions and embargoes have been cancelled.

"As has been previously intimated, the Canadian fuel control was dissolved on March 31 last. The coal supply of the nation, therefore, now depends on the individual efforts of the coal producers, the co-operation of the consumers in placing their orders for coal at once.

"The information at hand indicates that coal is not coming into the country in the same quantity as last year, or even as it did in normal pre-war years. This is for the first six months of this year, the Pennsylvania anthracite mines, on which Canada depends for a large part of her domestic coal, has produced only 38,800,000 net tons of coal as compared with 41,000,000 net tons during the same period last year, making a shortage to date of more than 10,000,000 net tons. Nor is there much hope that this shortage will be made up, for there is a serious scarcity of mine labor in the anthracite field due to the fact that many thousands of miners are leaving the United States for Europe. Up to the middle of June, 42,000 miners had already left the United States; and it is estimated that 1,000,000 people will eventually leave America before the movement subsides.

"With the strong demand for coal, and the lessened production, there is little room to hope that the price of anthracite at the mines will fall for many months. In fact, the indications are that the price will continue to advance as the fall and winter approach.

"It is not safe to assume that next winter will be a mild one, nor is it possible to forecast what the labor situation at the mines will be or what the strain of the war period will have continuing against possible advances in the price of coal this coming winter. The government therefore urges all consumers to protect their fuel requirements by placing their orders at once. If it is possible to secure full requirements of anthracite at this time, it is suggested that bituminous coal, or other substitutes be acquired for use in the late fall and spring."

SEEK INFORMATION OF GRAVES OF NAVAL MEN BURIED BY RELATIVES

To assist the war graves commission in locating the graves of naval men who were buried by relatives during the war, in order that they as well as the graves of those buried by the naval authorities, may be suitably decorated an appeal has been made to the naval authorities, but in many cases burial was undertaken by relatives, and there is no information in connection with the marking of graves by the Imperial War Graves Commission. This department is taking all necessary steps as regards the graves of those buried by the naval authorities, but in many cases burial was undertaken by relatives, and there is no information in connection with the marking of graves by the locality of the graves. I am, therefore, to ask whether you will be good to cause inquiries to be made through the various branches of your organization. The following are the particulars required as regards each grave: Name of cemetery or burying ground.

b. As full particulars as are available relating to: a. Date of burial. c. Date of death. d. Name of individual graves have been marked, if at all. f. Individual or body now taking care of graves.

CONTRACTS FOR CAST IRON PIPE AND SUPPLIES

(Continued from page 1)

\$8,000 to which the city contributed \$17,500. Mr. Dykeman was anxious that the city should provide water and sewerage facilities. The engineer reported that the work would cost \$11,000, and he was not prepared to recommend the expenditure. He moved that a reply to this effect be sent to Mr. Dykeman.

Mr. Thornton asked how the building problem was to be solved if the city would not provide water and sewerage. To the mayor, the city engineer said the usual ten per cent guarantee of revenue would more than cover the interest and sinking fund. Mr. Dykeman had offered to guarantee a return of six per cent.

Mr. Thornton believed the work should be undertaken at six per cent.

The engineer reported that the treasury department figured on 5% per cent interest and one per cent for sinking fund. He presumed the balance would be for water maintenance.

The mayor said that he was in favor of all possible and reasonable extensions and he hoped Mr. Jones might be able to make further progress in the negotiations.

DELIGHTFUL DAYS ALONG THE RIVER

Saturday and yesterday were ideal days along the river, and craft of all sorts were out. By delaying her departure from Indian Head, she left six o'clock on Saturday afternoon the steamer Oonsee enabled many who could not have gone earlier to visit up-river points, and she had an unusually large passenger list then and on the return this morning.

There is a new dancing pavilion at St. John's Point, and it is said that one is also to be erected in Westfield. One of the largest parties of the season was held at the pavilion at Public Landing Saturday evening. A party of fourteen ladies and gentlemen went up from West St. John and there were many others from up and down and across the river, with a sprinkling of yachmen.

The crew of the Marion H., provided a volunteer orchestra for an hour or two during the evening to the great delight of the dancers. The masquerade at the pavilion on last Thursday night attracted a large crowd. There was a great array of varied costumes and a jolly time. There is not accommodation enough in the homes and cottages at the Landing for all who seek to go for the week-end, and a number were reluctantly compelled to return to the city on Saturday afternoon.

The boys' camp at Holderville will be an up-river attraction this week. They go into camp today.

Farmers have begun cutting hay. New potatoes and peas are obtainable. Both native and cultivated raspberries are ripe, and there should be a supply of blueberries by next week.

Yesterday in the late afternoon and early evening the Reach was dotted with motor boats.

FATHER SAVES TWO IN GALLANT EFFORT BUT SIX LOSE LIVES

Malone, N. Y., July 19—Six persons were burned to death in a fire that destroyed the home of Lee Hurteau, at Massena, early today. The dead are: Mrs. Lee Hurteau and two children, Rexterine, aged fifteen, and Earl, aged three; Mrs. Ernest Amell of Cornwall, Ont., a sister of Mr. Hurteau, and her two children.
 Awakened by the screams of his wife, Hurteau made his way to a window, through which he crawled to the front porch, calling to his wife to collect the family by the window. Although nearly suffocated by smoke he managed to reach the ground and get a ladder which he placed against the window. After rescuing two of his children he was overpowered by smoke and lost consciousness. When he revived he mounted the ladder but there was no one near the window and it was impossible to enter the room.
 He tried the other windows in an effort to locate his own and his sister's families, but by this time the fire was raging throughout the building.
 Firemen subdued the flames and found the bodies of the victims, all terribly burned.

DE VALERA SPEAKS AT DEDICATION OF STATUE OF ROBERT EMMETT

San Francisco, Cal., July 20—"You have unveiled a monument of liberty here today as great as that famous monument in the harbor of New York," said Eamonn De Valera, "president of the Irish republic," in addressing a crowd estimated at 60,000 at the dedication of a statue of Robert Emmett, in Golden Park today.
 "It may be the happy destiny of the American nation," he said, "to write the epitaph that Emmett said should be written over him when Ireland is free."
 Those who signed the Irish declaration of independence were characterized as "young Emmetts" by De Valera. The meeting was also addressed by Rev. Jas. Mithon, Episcopal clergyman of Baltimore and Norfolk, Va., and Rev. Dr. Patrick J. Healy of the Catholic University of Washington.

Dublin, July 21—(By the Associated Press)—Field Marshal Viscount French, lord lieutenant of Ireland, in an order issued to the troops yesterday in connection with the victory fete, congratulated all ranks upon the success of their devoted efforts "which rendered this day memorable in the history of Ireland."
 "It is most satisfactory to all of us," the order reads, "to realize the splendid response accorded by many thousands of his majesty's loyal subjects in Dublin who witnessed the parade today."

With Our Summer Clearance Sales to Make Big Business from Now Until End of Month

To take care of our rapidly increasing business our store must undergo many changes. We have decided therefore that rather than put off making these changes at some future time, we would start at once while our summer sales are in full swing. Never before have we had such worthy summer sale offerings and never before have prices been so lowered by wise buying from manufacturers who had lines to clear of most up-to-date goods at big concessions. This sale may be considered a genuine bargain disposal of the above and as additional "finely selected" reductions in departments undergoing changes. GUM DECAY CAUSES TOOTH DECAY

Healthy teeth need healthy gums to hug them. Else they will loosen in Pyorrhea. Tiny openings will come in the gums to act as the gateways of disease germs, which infect the joints or tonsils, or cause other ailments.
 Forhan's prevents Pyorrhea, if used in time and used consistently. No mere toothpaste does. Are your gums tender, gums? Are they bleeding gums? If so, you are certain to have Pyorrhea (Ries's Disease). Four out of five people who are over forty have it.

WHY NOT ENFORCE IT?

The doctors have been heard from on the matter of the enforcement of the prohibitory law. If the law had been thoroughly enforced they would have been less severe in their remarks.

There is no satisfactory explanation of the smallpox quarantine by the United States against these provinces. It is entirely uncalculated and will effect not only our own people desiring to visit the States but large numbers of Americans who are scattered through the provinces at the present time.

The chief jail inspector of New York state recently complimented the police authorities of the town of Olean on the cleanliness of the jail, which was also empty. In explanation of the conditions a correspondent writes: "With the passing of old John Barleycorn, crime seemed to almost pass from Olean."

St. John should have a real celebration when the Prince of Wales comes. There will be the dual opportunity of welcoming our future king and giving a fitting reception to the returned soldiers who will gather to cheer one who was at one time or another with every Canadian Division in France and won the hearty good will of every man by his unassuming manner and fine soldierly qualities.

If the Standard knows who the provincial government candidates in this constituency will be in the next elections, it should also know whom the looters of the Valley Railway and the crown lands will put up to fight the battle of parity.

Addresses worthy of the great occasion were delivered yesterday in King square by Lieut.-Governor Paisley, Chief Justice McKeown and Sir Douglas Hailey, three eminent citizens retired from the turmoil of politics but able to express with force and eloquence the feelings of Canadians in a day of rejoicing throughout the Empire.

This week will see the farmers in the midst of laying with a rather light crop in most sections of the province. Conditions in Hungary today are another striking illustration of the curse of Balkanism.

ST. JOHN'S GREATEST MERCANTILE EVENT

Final Week to Take Advantage of This Splendid Opportunity.

The greatest mercantile event in the city of St. John during the month of July, which is now conceded to be Oak Hall's annual midsummer sale, is now on its final week, coming to a close Saturday at 1 o'clock.

Many people wonder how it is that Oak Hall can offer such exceptionally low values during their big sales—and at other times, too—the answer is very simple. Rather than sit back and wait for travelers to come around with their regular lines of merchandise at standard prices and buy small handfuls at a time from each manufacturer, Oak Hall makes it point to have the buyers of the different departments make periodical visits to the big manufacturing centres, such as Montreal and New York.

In this way Oak Hall gets many price concessions, and this combined with their motto of large volume at minimum profit, whereby they mark their goods at the very lowest of prices, is the simple explanation of why Oak Hall is able to offer such unusual values, more particularly during their big July sales.

Friday will be the last full day of St. John's greatest mercantile event, so those who have not as yet taken advantage of it cannot afford to delay much longer.

NO ROOM FOR EXTREMISTS.

Canadian Finance, of Winnipeg, speaking out of the knowledge gained by recent experiences in that city, makes some observations that ought to appeal to the good sense of the people of every part of Canada.

A Winnipeg labor leader stated some months ago that there could be no peace between capital and labor under present conditions. He was an extremist.

Our mill was not built for the glory of God or anybody else. It was built for the benefit of the shareholders. This man is an extremist and a dangerous one at that. His company made 72.9 per cent profits in 1918, compared with 6.88 per cent in 1914.

To allow either of these men, the labor extremist or the manufacturer extremist, to carry on is courting disaster. These types of men are a danger to the people and the governments—federal and provincial—must take definite steps to curtail their activities. There is no room in Canada for these men and they should be plainly told so. If the worker finds men in the trade unions using those organizations for improper purposes he must compel them, to live up to the standard which has been set or drive them out.

Scarcely a day passes but we read of some foreigner or foreigners figuring in a murder or stabbing case. Canada's criminal records would be had enough with none of these, and it is unfortunate that so many persons who seek to settle disputes with knife or pistol have been permitted to land in this country.

St. John was not the only city to take the peace celebration very quietly. The same story comes from Montreal, Ottawa, Toronto, Halifax and other cities. This city, therefore, was not in a class by itself.

It is not surprising that the ministers should have something to say to the doctors on the question of prohibition.

Reciprocity Issue Is Being Revived

(Bangor Commercial).

The Canadian reciprocity issue, which agitated the farmers of the Northwest and New England ten years ago, is being revived in Congress and repeal of all laws permitting free trade between the two countries is urged. The fight we are connected with Republican tariff legislation backed by farmers of the northwest. A bill for the purpose was introduced in the House by Representative Young of North Dakota on Friday. Following rumors that Canada had reversed its attitude through an order in council and was prepared to take advantage of the opportunity to ship wheat into the United States, Mr. Young made an investigation. The order in council became effective as to wheat April 17, 1919, and as to potatoes November 6, 1919. The only thing in the way has been the food administration, which has the power to prevent importation.

The Young bill is to repeal not only the provisions in paragraphs 681 and 644 of the Underwood law, but also to repeal the entire reciprocity law.

"My proposal," Mr. Young explained, "is that while we are plugging the hole made by the Underwood law, to plug every other hole. I notice some time ago that people were going from the northwest to seek changes in the tariff at Ottawa, and I wrote to learn what was going on. I found that Canada already had provided for the exportation of wheat products into the United States, acting under the reciprocal provisions of the Underwood law, yet Canada could have acted under the reciprocity law.

"According to the information received, both wheat and potatoes have been on the free list for a long time. The country has not awakened, because the food administration has had control and could prohibit the importation of foodstuffs, which was necessary.

"At the end of this crop year, June 30, 1920, we will go out from under the price fixing business as to wheat. Then these provisions of the Underwood law and the order in council will become an important factor in establishing the market prices of a free and open market."

Mr. Young will restore a high wall on potatoes and wheat and their products—ten cents a bushel on wheat, forty-five cents a barrel on flour, and 25 per cent ad valorem on Irish potatoes.

GIRL ARTIST OF 13 A WONDER

Infant Prodigies in England—Four Year Old Boy Violinist

London, June 28.—(Correspondence of the Associated Press)—Infant prodigies are being discovered in England almost daily. Some connect this with the psychology of war. One of the youthful marvels is Pamela Bianco, a thirteen-year-old girl artist, whose drawings were given the place of honor in an exhibition at one of the principal London galleries. Critics dealt with them quite seriously, and said that the work was suggestive of Botticelli and some of the other old masters. Pamela is an Italian girl who was born in England and never had taken any drawing lessons.

Ronnie Routledge, four years old, little more than a baby, whose parents know nothing of music, has enjoyed six months of tuition on the violin. At the Grimsby College of Violinists recently he outranked forty-three competitors, most of them in the twenties and scored 119 points in a possible 120. Professor Denton describes him as a miracle.

Bobbie Day, aged seven, of Brighton, son of a motor mechanic, has wonderful powers of clairvoyance, according to the Weekly Dispatch. Blindfolded he described several articles. These included a treasury note (giving its color, numbers and writing on the back), the color and texture of a piece of fabric he had never seen, the correct answer to a complicated sum in mental arithmetic, and figures written down at random.

After five minutes' test he complained of feeling icy cold. "I just see little pictures and I just say what," is Bobbie's explanation.

A BRAVE SOLDIER

"Marshal Joffre, victor of the First Battle of the Marne, passed first under the Arc de Triomphe. He rode alone."

One can almost hear the hoarse greeting from a thousand throats, as the great Marshal of France received the homage due to a brave general and a very gallant gentleman. Joffre, with his iron nerve, with his simple-hearted kindness and his unswerving belief in his army and his country's cause has won a lasting place in our affections. In all the

THE BRITISH EMPIRE REJOICES OVER PEACE

No Such Celebration In London Since Victoria's Diamond Jubilee

Appropriate Observances Throughout New Brunswick; Eloquent Speeches, Band Con- certs and Fireworks Mark Holiday in Saint John; The Suburbs Celebrate

London, July 19.—Land, sea and air forces of the British empire and her Allies marched today in the triumphal victory parade to mark the return of peace.

Several million persons watched the gorgeous spectacle, the enthusiasm growing as each new excitement stirred their emotions.

When the British contingents came in sight the applause became a great road above which could be heard at times the shrill voices of women. The patriotic fervor had its climax in the great demonstration at Pall Mall and about the Pavilion before Buckingham Palace, where King George, Queen Mary, Premier Lloyd George, the cabinet ministers and the diplomatic corps reviewed the parade.

Marshal Foch, leading the French forces, was given a hearty reception. So also was General Pershing and the Americans and the other allied leaders and their contingents.

The tremendous cheering that greeted each national force was virtually continuous.

London has not witnessed such a celebration since the late Queen Victoria's diamond jubilee in 1897. Buckingham Palace was decorated on its exterior for the first time in its history. Huge flags of the Allies floated from the upper windows, and a wide streamer of purple and gold stretched across the facade. The royal pavilion, erected close to the beautiful Victoria monument, added color to the striking scene.

King George, from his seat on the scarlet dais, had a clear view through a colonnade of ornate white pylons, reaching for more than half a mile to the admiralty arch.

The troops marched past the reviewing stand to the music of dozens of military bands.

Throughout the Province

The various centres throughout the province celebrated the Peace holiday in a most fitting manner. Reports coming in from all quarters indicate that the people of the province entered into the spirit of the occasion. From early morning until late at night they "carried on." The usual programme consisted of a parade in the morning, followed by patriotic speeches and demonstration, sports of various description in the afternoon, fireworks and a general good time, a free celebration in the evening.

St. John Celebration

Celebrations for the coming of peace were empire-wide on Saturday, the officially appointed holiday, and St. John's in the general rejoicing was a specially happy one. With ideal July weather the programme arranged was carried out with complete success and to the great enjoyment of all who remained in the city to take part in it. Stores, streets, houses, ships and the vehicles were gallantly decorated with flags, streamers, bunting and pennants and there was a general holiday air about the city from early morning until the shades of night had fallen. The slow booming of the royal salute of twenty-one guns from the armories punctuated at noon marked the commencement of the official celebrations and in the afternoon and evening the crowds gathered in King square to enjoy the fine rendering of patriotic selections given by the Temple of Honor Band in the afternoon and the band of St. Mary's church in the evening and to

listen to the speeches of His Honor Lieut-Governor Pugsley, Chief Justice Sir Douglas Hazen and Chief Justice McKeown, all three of whom rose to heights of eloquence that greatly stirred their hearers. The evening band concert

was followed by a display of fireworks from the court house and so large a crowd assembled to witness them that not only was the square literally filled, but along both sides of King street and beyond Germain street the crowd stood closely packed. The illumination of the fireworks was visible for some distance and in Fairville could be seen to particularly good advantage while the excitement of the near-by beholders brought many prolonged exclamations and wrought destruction in the flower beds and on the grass of the square.

Major Hayes acted as the chairman for the gathering and besides the distinguished speakers there were also on the stand Major W. Vassie, M.C., Rev. G. A. Kuhring, Rev. J. M. Berrie, Rev. G. F. Dawson, Rev. P. S. Dowling, Captain A. J. Murphy, Senator W. H. Thorne, A. O. Skinner and Commissioners Thornton and Jones.

At Renforth

The Renforth Athletic and Outing Association held aquatic sports on Saturday as their contribution to the peace celebration. A very large crowd was present and the association provided everything in the form of refreshments free to all ladies and children. The following is the list of events with the different winners:

Single canoe race—Captain F. H. Smith.

Double boat race—L. V. Price and George H. Wetmore.

Double canoe race—A. G. Burnham and Captain F. H. Smith.

Boys' swimming race—Masters Gilbert and Fowler.

Four-oared boat race—James Griffith and H. L. Smith.

Girls' Swimming race—Mildred Wetmore.

Tab race—George Price.

Out and in canoe race—Fred E. Garnett and Robert Hunter.

Men's swimming race—Paul Cross and L. E. Whitaker.

Relay race between the married and single men—Won by the single men.

Flag of war—Also won by the single men.

There was also a single boat won by Frank Allison.

One of the features of the day was a challenge boat race between E. Bates Tapley and George R. Wetmore. The distance was from Renforth to Riverside and back. Mr. Tapley represented Fairvale and Mr. Wetmore, Renforth and the latter came off victorious much to the delight of his many supporters.

At Fair Vale

The peace holiday was celebrated in a fitting manner at Fair Vale. The programme of the day opened with a baseball game in which the Pirates of the South End League defeated the Fair Vale team by a score of 11 to 6. Kerr Miller and McGowan formed the battery for the victors, while Stirling and

CALL TO TRADES AND LABOR CONGRESS

It Will Be Held in September in Hamilton, Ont.; Some Excerpts From Official Notice

The convention call of the Trades and Labor Congress of Canada has been received from the office of P. M. Draper, secretary-treasurer, Ottawa. It will be the 8th annual session and will open in the Royal Connaught Hotel auditorium in Hamilton at 10 a. m. on Sept. 22. The call signed by President J. W. Moore and Mr. Draper, says that since last the congress met most vital changes have taken place and exceptional conditions have arisen. The world has passed from a state of almost universal war to one of general peace. A period of transition has come, with reconstruction and readjustments. Out of the chaotic confusion created by the war many new and unaccustomed elements have arisen to affect the social, political, national and international affairs of all countries, Canada included. A wave of industrial unrest has swept over this country, making itself felt in most abnormal conditions. Labor has never before found so much need of calmness, determination, vigilance and organization. The momentous question of international trade union affiliation has assumed proportions that far exceed in importance to the trades union movement anything heretofore experienced. Not during the most anxious years of the war was there more cause than this year for prudence and activity. The problems to be solved during this year's convention are of paramount importance and will demand the very best that is in the delegates in attendance at the Hamilton convention of the Trades and Labor Congress of Canada.

There is to be a fall session of the federal parliament, probably in October. The capitalist and the employer are perfectly organized. Organized labor must bring every energy possible to bear upon the study of the legislation that will be deemed necessary for the protection of its vital interests. In a word, the best intelligence of organized labor must be brought into play, not alone for the purposes of criticism, but especially with constructive action in view.

It is needless to here repeat what has been reiterated yearly, about the necessity of perfecting our organization. The capitalist and the employer are perfectly organized. At the command of these are not only the wealth but also all the influence that can be secured, talent, ability, legal acumen, directing powers are all at their service. The consequence is that it behooves our friends of labor to meet these conditions with like weapons.

This is a situation that must be considered by the convention and that will not brook delay. Not only must labor render permanent that which it has won in the gigantic struggle for its life, but it must advance further and further each successive year along the highway of organization and watchful activity.

Let there be no delay in the electing of delegates. To carefully select them and to send to the convention the very best and most practical men possible is necessary to commence at once.

Montreal, July 21.—The local labor situation is again assuming a troubled aspect. The week opens with workers in seven trades to the number of nearly 5,000 on strike and with the threat of 2,000 more workers going out this afternoon if the employers do not agree to treat with the men. The workers on strike are: 4,500 textile, dyers and cigar makers, 200 blacksmiths and horse-shoers, 200 bakers, 200 wire workers, electricians, and fifty drivers and dressers. All these disputes appear to be deadlocked, no progress having been reported all last week.

HOW JAPANESE LOOK ON CHINA

Policy Not Wholly Unselfish, Says Paper—View of Attitude of Chinese to Other Powers

Tokio, June 12.—(Correspondence of The Associated Press)—"Japan does not pretend to be wholly unselfish in her policy toward China," says the Herald of Asia, a conservative journal of Japanese thought. "Japan," it says, "is protecting China chiefly for the sake of her own security. Japan cannot allow China to barter away her birthright even if she is simple enough to engage in such folly. If China wants to test Japan's sincerity let her refuse all further concessions to occidental nations and secure for all time the inalienation of her territory, and Japan's task in regard to China will be finished."

"It is a question, however, whether China is yet able to do without the assistance of Japan in keeping foreign nations at bay; and this helps, strange to say, is just what China does not want. If it that China would rather be a slave of the white races than the equal of Japan? We can hardly credit this."

"There is no need for China to be anxious about the return of Kiaochow. Japan has promised to restore the territory to China just as soon as China is able to guarantee that it will not again fall into the hands of a third party. What more can China desire? And does justice require more? China talks as if she were an absolutely independent nation, granting concessions to no country. If she will take this attitude toward all western countries, Japan will be ready to concede China her new status. But to show a desire to cast out Japan while leaving the others in place, is something no one can expect Japan to approve."

RESTRICTIONS RATHER THAN PROHIBITION

"Prohibition is not the best term to use. What is required, from a federal standpoint, is the sane restriction of the liquor traffic and sane regulations governing it, and such legislation will include both prohibition and permission."

This is the statement of D. B. Harkness, general secretary of the dominion prohibition committee, who was the preacher at the Centenary church yesterday morning and the Central Baptist church last evening. Mr. Harkness was the representative of the temperance forces of Canada in the house and senate at the recent sessions, and is visiting the province for the purpose of conferring with the representative temperance leaders in New Brunswick. He expects to go from here to Halifax, and from thence to Prince Edward Island, returning to Winnipeg, his home, at about the last of the month.

POSTMEN'S PICNIC

One of the largest crowds which ever gathered at Seaside Park did so on Saturday, attending the Postmen's Picnic which was distinctly successful. Much enjoyment was taken from a programme of sports which included:

Flag of war between the street railway men and the postmen which was won by the street railway.

Street railwaymen's race—1st Percy Moore, 2nd Walter Vincent.

Fat men's race—1st G. R. Hatchett, 2nd J. Rogers.

Girls' race—1st Mary Floyd, 2nd M. Hogan.

Little girls' race—1st Helen Butler, 2nd Audrey Crawford.

Boys' race—1st E. Lister, 2nd W. Atchison.

The lucky numbers for the gate prize were 848 and 2853. The two gate prizes were a load of coal and one half barrel

of four. There is still a lottery which is to be drawn during the week for prizes which are a load of coal, an oil heater and lady's jersey.

ANSWER TO THE DOCTORS

In the Portland street Methodist church yesterday morning Rev. Neil McLaughlin spoke on the resolution passed by the New Brunswick Medical Society at its session last week. He took the view that the society in its resolution endeavored to throw discredit on the prohibition act and had furthered propaganda which would tend to destroy it. He took each section of the resolution separately and either sought to show that the statements were incorrect or in some instances, made up legislation which had already been passed.

Buy a Season Ticket, \$2.50, and Become a Member

Why?

You Owe It to Yourself.

Point 1—Your own business may depend on how problems, national and international, are settled. It will pay you financially to hear "Behind the Scenes in Germany" by an English spy in Germany—"The Resurrection of Russia" by the pastor of the great British church in Petrograd—"Sophia Triumphant", by the only woman sergeant in the Allied Armies.

Point 2—You will attend, at least a few of the Chautauqua numbers; therefore save 50 p.c. by getting a season ticket.

Point 3—You can see a famous English Opera, which at most theatres would alone cost the price of a season ticket.

Point 4—You will not have another such opportunity until 1920—when Chautauqua returns.

You Owe It to Your Family.

Point 5—Your wife deserves the restful change, your children will enjoy the novelty of Chautauqua Week.

Point 6—Your children may add years to their lives by hearing Dr. Geisel's lecture on "How to Live 100 Years." (First night).

Point 7—Your "kiddies" can attend morning Junior Chautauqua (just for them), besides the regular programme; all for \$1.00 junior ticket.

Point 8—A Season Ticket will save money for your family. It is interchangeable.

Point 9—Your entire family should not be compelled to wait for this until 1920—when Chautauqua returns.

You Owe It to Your Community and Country.

Point 10—Our Community is benefited by the co-operation, the teamwork, the get-together spirit which Chautauqua Week fosters.

Point 11—St. John is one of more than 5,000 forward communities in Canada, in the States, in Alaska, in Australia, in New Zealand, which count Chautauqua as essential. We will put it across as every other community puts it across.

Point 12—The public-spirited men of St. John have pledged to sell 600 season tickets. They took this obligation for our city. Back them up with a ticket.

Point 13—Canada is grappling with the most acute problem it has yet faced—Reconstruction. Chautauqua gives information and stimulates discussion. Without discussion Democracy is impossible.

Point 14—Canada wants these problems solved correctly now—not in 1920 when Chautauqua returns.

Thousands of People Took Advantage of This Opportunity Last Week—Were You One of Them? If Not, You Still Have a Whole Week to Visit

ST. JOHN'S GREATEST MERCANTILE EVENT

It takes more than "mark-down" prices to make clothes values. You may be able to equal these sale prices of ours elsewhere—perhaps you can beat them.

Our motto of "large volume at minimum profit," assures us of a big turnover, while you reap the benefit in rock-bottom prices.

Canada Refuses But New Zealand Acts, Says Wellington Paper—Son Killed While Fighting With 26th

"A Wellington boy, aged seventeen, tried to enlist with the forces. He turned down because of his age, his father is dead, his mother has three other children, girls, and young, and only one child is old enough to work; the boy works his passage to England, joins the navy, his age is discovered, and he is discharged. He then joins his father's old regiment, his age is found out, and he is again discharged. He then joins the Canadian machine-gun section, goes to the front, and does splendid work, and is killed at his gun."

Mileage Records GOODYEAR MADE IN CANADA CORD TIRES. The unequalled mileages which we have claimed for Goodyear Cord Tires are a matter of record. The list shown here is representative of the experience of thousands of motorists. High average mileage is rightly expected of these super-quality tires. Such mileage unfailingly results in lower tire-cost-per-mile. You, too, can reduce your year's tire bill by equipping your car with Goodyear Cord Tires and Goodyear Heavy Tourist Tubes. But, remember, Goodyear Cord Tires have virtues other than high mileage. Their extreme resiliency makes riding more comfortable, saves the car, reduces fuel consumption. They represent the final word in tire perfection. Have YOU Had Goodyear Cord Experience? Perhaps you are already using Goodyear Cord Tires. Then will you tell us the mileage you are getting. We will value the information and appreciate your courtesy. Use the coupon. The Goodyear Tire & Rubber Co. of Canada, Limited

THE TURF.
At Moosepath.
A large crowd gathered at Moosepath Park on Saturday afternoon when two events were pulled off. In Class A four horses were entered, but only two were in the field when the race was called.

At the City Proper.
For Greater St. John, they announce, to begin next Wednesday morning at 9 o'clock. (Daylight) sharp, their regular annual clearance sale of summer goods.

AM DUR'S will offer on Wednesday next different goods of superior tone at challenge prices. There have been several sales held throughout the city and are still fresh in the memory of shoppers and of all those who read the advertisements in the dailies.

These are times when economy must be exercised. A dollar is popularly supposed to be worth at present only 50 per cent. of its antebellum purchasing power.

Features of the sale will include ladies' dresses, sweaters, hosiery, underwear, middie, Hampton wash skirts, children's dresses, men's wear and other lines now in brisk demand.

Full details of the opening bargains will be contained in advertisements to be published in Tuesday's papers and throughout the sale period, announcements will be made of several special feature sales. That is, there will be sales within the annual clearance or extraordinary cuts in prices on certain lines. The reductions in these feature specials will be made not on the regular prices but on the clearance sale prices. The result will be irresistible.

THINK LITTLE OF OUR PEACE CELEBRATION
A letter received by the Times on Friday for publication, was signed as expressing the sentiment of many returned soldiers of the peace celebration. The writer says: "We note with dismay the preparations being made for the celebration of the war and those who followed them (and who at the same time cringed in pockets of those who are now unwilling to spend more than fifteen cents on fireworks, at the moment of aggression, the people at least appreciate to some little extent what they have done and the result of it."
"We can remember the time when a holiday was a holiday and not a farce, when the city was decorated to a treat, when arches were erected and when the council was ready and willing to spend a few dollars as a mark of appreciation. Since our departure from here we have seen a great many both large and small towns, but in no case have we seen a town that was decorated to a treat. St. John is a disgrace to its name today. What is needed is a new council with young blood and progressive ideas, who are at least willing to try to improve the city in every respect."
The sooner we get a new council and put some life into the old town the sooner will the boys become satisfied and settle down. This we are hoping to do at the next election.

PILGRIMAGE LATE

In announcing yesterday that next Saturday would be the Feast of St. Anne, His Lordship Bishop LeBlanc said that it was not likely that there would be a pilgrimage to St. Anne de Beaugre before September this year. This was due, he said, to the difficulty in obtaining excursion trains. He expected that it would likely be late in September before a pilgrimage from this part of the country could be arranged.

The Wolves, leaders of the North End baseball league, played a nine from St. George on Dufferin diamond on Saturday afternoon, and were defeated by the visitors, 12 to 10. The game was well contested and was interesting. A large number of fans were in attendance. The battery for the St. George team was Dowd and Spear, and for the Wolves Johnston and Thompson. This evening the Curlews and Wolves will play.

GRANTS AVAILABLE FOR RIFLE ASSOCIATIONS

It was announced at local military headquarters this morning that several provincial rifle associations have applied to the department of militia and defence for an annual grant, loan of rifles, camp equipment and issue of ammunition for the purpose of resuming their annual competitions.

It has been decided that there is no objection on the part of this department to rendering assistance along the lines indicated in such cases as the local conditions render it advisable to do so. Grants to provincial associations have been provided for by parliament on a pre-war basis and may be applied for by those associations whose expenditures warrant it. Associations in all cases will be required to comply with the following regulations:

The provincial rifle associations should furnish, not later than December 31 in each year, an annual report and return showing the dates of prize meetings or rifle matches held, the number of competitions, the amount received from competitors and other sources during the year, the amount expended in prizes and the amount expended for other purposes under the several heads of expenditure. POLICE COURT

In the police court this morning twelve men charged with drunkenness were remanded. Two men arrested on the same charge, but out on deposits, appeared and were fined \$8 or two months in jail, while a third who was out on deposit was to appear this afternoon.

Frank McDonald was charged with begging and was fined \$50 or three months in jail with an additional sentence of six months without a fine. John Elliot was arrested by C. P. R. Policemen Tower and Graham on Saturday night in a car in Fairville yard. He was in the police court charged with lying and luring. He was sentenced to three months in the County Alms House.

Fred Northrup was charged with assaulting Street Car Conductor Pierce, but the conductor could not be present this morning, so the case was postponed until this afternoon. Before sending those charged with drunkenness into jail, the magistrate asked all those who were Hebrews to put up their hands, no hands went up, and he said "Hereafter I want it distinctly understood that those Christians who get drunk on Sunday will not be allowed out on a deposit of less than \$200." The magistrate continued by saying "All right, Christians, march into jail."

HOPES GERMANY WILL REPAIR DEVIATION AS SOON AS POSSIBLE

Cologne, July 20.—(By the Associated Press)—The People's Gazette says Pope Benedict has sent a message to the German bishops in which the Pontiff expresses the hope that Germany will repair the devastation due to the war as soon as possible and that she will under no circumstance permit any action which would bring ruin to Europe as well as to Germany.

WILL BE EXCELLENT ROAD FROM HERE TO ST. STEPHEN

Surveys Made For Diversion At
Present Poor Sections

MUCH GOOD ALREADY DONE

Burton M. Hill, Chief Road Engineer of Province, Gives Description of Highway and Tells of Improvements to be Made

When the plans which have been prepared by the public works department of the province have been fully executed the road between St. John and St. Stephen will bring joy to the hearts of the motorists and all others who have occasion to use that route. Already the work accomplished along this road has resulted in making it a fine highway with the exception of two short stretches where improvements are needed and where extensive repairs have been avoided owing to the intention to make important changes.

The worst section of the road is the six-mile stretch from Crow Harbor to LePreaux or LePreaux which is rough and rocky. Surveys have been made for a diversion which will afford a better road and which will be constructed in first class style. There is another stretch of about two miles at Spruce Lake which needs revision and the work in both these places will be completed next season.

Burton M. Hill, chief road engineer of the province, who is in the city today, gave the Times a detailed description of the present condition of this important highway and of the improvements which are to be made to it.

The Road Today.
From St. John to Spruce Lake the road is in splendid condition. At Spruce Lake a stretch of two miles is to be revised to overcome the narrowness of the road at some places and eliminate bad turns. From Spruce Lake to LePreaux the road is in excellent condition. From LePreaux to New River, by the short route, extensive repairs have been made and the road widened. Some stretches of excellent new road with rock foundations have been built and the whole section is in good condition. From New River for a distance of two miles the road has been reconstructed and a fine piece of work has been completed.

From this point to Crow Harbor extensive revisions are to be made and for these revisions were completed last month by an engineer from the department. The new route will follow the shore more closely than the present road, giving very much better grades and making the short gravel available for surfacing. These revisions will do away with long stretches of rough and rocky road and also give travelers an opportunity to view the magnificent scenery along the coast. The construction work involved is quite heavy but plans have been made for the completion of the road next season and when this is done there will be a continuous improved road between St. John and St. Stephen.

A crew is now working between Crow's Harbor and Penfield Ridge, where a mile of road has been completed, with two miles yet to be done. From Penfield Ridge to St. George the road is one of the finest in the province, especially that section through Penfield Ridge.

The Lower Stretch.
On the next section, from St. George to Digby, extensive improvements have been made this year and when additional improvements now in progress have been completed, which will be by September 1, this portion will be the equal of any improved gravel road in the province.

From Digby to St. Andrews long stretches have been improved. Several miles are yet to receive attention and a crew is at work in this section. Testimony of tourists who have traveled far during the summer is to the effect that the remaining section from St. Andrews to St. Stephen is one of the best pieces of road they have passed over in the province, and one man remarked that he had seen nothing better since he left Ohio.

Owing to the reconstruction of the Digby bridge, which now is in progress, it is necessary for vehicles to make a detour, three miles which are on the main road but will be in position in another three weeks and after that the main road again will be open. Tourists who have made the trip between St. Stephen and St. John say emphatically that the worst road they find between the two places is the western entrance to St. John, through Douglas avenue, which they say is in worse condition than even the detour roads they have found in the province.

GOLDEN WEDDING TOMORROW

Capt. Robert Murray and his wife, Sarah Murray, of 19 Harding street, will tomorrow celebrate their golden wedding, and will receive the hearty congratulations of many friends. It will be a quiet observance, but their living children—three sons and three daughters—will be with them. Captain and Mrs. Murray are both natives of St. John, and were married on July 27, 1869, by Rev. William Armstrong in old St. James' Church, Broad street. Both are hale and hearty, he at the age of seventy-three and she at the age of sixty-nine years. Few men were better known along the water-front than Captain Murray, and all his old friends will join in wishing him and Mrs. Murray happiness in their evening of life.

AT THE BAY SHORE

The glorious weather of Saturday and Sunday invited thousands to the sea shore. At the Bay Shore on Sunday afternoon fully 1,000 people were grouped along the beach or in picnic parties in the shade of the over hanging banks. The float at Bay Shore was continuously in possession of swimmers for the tide served at a good time. First the kiddies had it as the water rose just high enough to make it buoyant. Then as the depth increased the experienced swimmers had their innings and there was diving galore. Several very excellent swimmers were among the number and made an interesting time for those on the beach. The bathing houses capacity was fully taxed and shore residents said they had not seen such a crowd since before the war.
