

GOOD THINGS COMING TO THEATRES OF ST. JOHN
REAL INDIAN IS CHIEF TENDAHOE

Noted Ring Artist and Baritone Soloist at Opera House—A Good Bill
In answer to many inquiries as to whether Chief Tendaho, the clever ring artist and baritone soloist appearing at the Opera House this week is a real Indian, the management assures all interested that the chief is a really, truly Indian, also that he does not wear a wig but those long black braids are his own truly hair. Incidentally it might be mentioned that he is the best performer on the rings that has been seen on the local stage for a long time.

NEW AND GOOD AT GEM
Tonight we have Robert Warwick in "All Man," a big picture of the rich and one who "made good," a bright comedy-entertainment in a specialty act and a screaming comedy picture, "Maggie's First False Step."

"Judith of the Cumberland," at the Nickel today, great story, Queen's Theatre.
"THINK IT OVER," AT PALACE.
Richard Tucker and Catherine Calvert in a sparkling comedy drama in five acts, along with the second episode of "The Secret Kingdom." In three reels, will be shown at the Palace Theatre tonight and tomorrow at usual prices.

PILGRIM SOCIETY SENDS GREETINGS TO KING

New York, Mar. 6.—Lord Reading, British high commissioner to the United States, the Most Rev. Cosmo Gordon Lang, Archbishop of York, and Jules J. Jusserand, ambassador of France, were honored guests last night at the annual dinner of the Pilgrim Society. Women were present for the first time at a banquet of the organization.
Cable messages of greeting were exchanged with King George. That sent the British ruler, signed by Frederick Gunfliff-Owen, vice-president of the society, follows:
"At the Pilgrim Society of America gathered tonight at dinner of welcome to the Archbishop of York and to Your Majesty's new ambassador, Lord Reading, also in celebration of the fifteenth anniversary of the society, the 1,000 guests, including the ambassador of France, the French ambassador, Lord Jusserand, and Your Majesty as America's honored and glorious ally and offer respectful and hearty greetings as well as prayers for the victory of our united cause."
This was the king's reply:
"The message from the Pilgrim Society of America has been received by me with feelings of pride and of gratification. I warmly thank those who have joined in this expression of greeting to myself and of hope for that victory for our common cause by which the future peace of the world can alone be secured. My countrymen, with me, will appreciate the honor done the British ambassador and to the Archbishop of York by the distinguished gathering, including the French ambassador, which this evening commences the fifteenth anniversary of your society."

CALGARIAN FORTUNATELY FLOATED FOR SOME TIME

An Irish Port, Mar. 4.—The Calgarian was torpedoed in the late afternoon, not far from the place where the Tusculana met her doom. The first shock was slight. A considerable time later a second torpedo struck her, followed quickly by a third. The vessel was disabled and the work of disembarking the crew was hastened. The Calgarian was towed to the coast and the crew was landed. The vessel was then towed to the coast and the crew was landed. The vessel was then towed to the coast and the crew was landed.

WALL STREET DUKE REPORT

New York, Mar. 6.—Ralls became suddenly active later under lead of St. Paul's, the common stock gaining 3/8, and the preferred two points on rumors that favorable dividend action might be taken. Pacific averaged one point advance and Rock Island's were substantially higher, also Reading and Chesapeake & Ohio. Industrials, notably equipment, were under the influence of profit-taking, yielding part of their early advance.

THE FARMERS AND THE DRAFT

A Statement Having Bearing on Situation in This and Other D's. et

Once a man has been arrested and handed over to the military authorities he passes from the jurisdiction of the Military Service Council, and any steps for his release from military duty are to be taken through the leave of absence boards, which have been specially formed for dealing with such matters. As regards so-called farmers, however, it is not sufficient for a man to state that he is a farmer and expect to be released on his own statement; full proof must be furnished that he is a bona fide farmer, that he has been actually working on a farm for a considerable period of time, and that his services on his own or his employer's farm cannot be dispensed with. After the great expense and trouble of putting them into khaki officers have been refused exemption after careful investigation of their individual cases by competent tribunals merely because they say they are farmers. Much talk has been occasioned lately in this and other military districts by rumors that the agricultural representative ordered men released from a draft warned that they were farmers. Officers were not released from military duty, and the leave of absence boards, it is fully realized that farming is a better military occupation than being a farmer. Many men in lower medical categories in Class 1 are available and regarded as capable of taking the place of A men to keep essential industries going, and the whole question is now under consideration. The exempting of men as farmers on form laborers is in itself a measure of conscription of labor, which fact has apparently been overlooked by those who oppose, political or other grounds, a general measure for conscripting labor in the national interest.

THE ARMENIA IS AGAIN TORPEDGED

An Atlantic Port, Mar. 6.—The American steamer Armenia, formerly a German merchantman, has been badly damaged on the British coast after being torpedoed by a German submarine. The crew have arrived here. The attack took place on Feb. 9. She was previously torpedoed in the English Channel on Dec. 5, and beached and temporarily repaired.

CATARRH LEADS TO CONSUMPTION

Catarrh is as much a blood disease as scurvy or rheumatism. It may be relieved, but it cannot be removed by simply local treatment. It causes headache and dizziness, impairs the taste, smell and hearing, affects the voice, deranges the digestion, and breaks down the general health. It weakens the delicate lung tissues and leads to consumption.

LIQUOR LOSES GRIP ON SEVEN COMMUNITIES IN VERMONT VOTING

Montpelier, Vt., Mar. 6.—With women exercising full suffrage for the first time in Vermont, town meetings yesterday resulted, on the face of unoffending returns, in reducing the number of liquor license communities to eleven as compared with eighteen last year. With returns in from all but a few small towns which generally vote dry, 285 communities voted against the licensed sale of liquor.

Mr. Otty—We might suggest that you build your new boiler piece-meal. If you had proper boiler accommodation the consumer would not suffer so from air pockets, etc.
Mr. Hopper—We have ordered a "boiler" which we hope will remedy that defect. We hope to put a new consumer also, as soon as the weather permits. It is intention also to put in more benches.
Mr. Otty—The increased production with annual facilities should reduce the unit cost.
Mr. Hopper—Would it not reduce it to \$1.00 or \$1.50?
Mr. Hopper—Not nearly so much as that. We are now selling right up to the limit of our production.
In reply to Mr. Otty, Mr. Hopper said that the Boston company is selling at 60 cents but they have a contract for coal at \$1 a ton.

INDUSTRIALS OUT FRONT

New York, Mar. 6.—(Wall street)—Industrial stocks were the conspicuous feature of today's early dealings, steel showing especial strength in consequence of the favorable annual reports issued by Lackawanna Steel and Republic Iron. Steel shares were generally higher, and a half point higher with United States Steel, Bethlehem Steel, Crucible Steel and Dresser Steel. Coppers, shippings, oils, motors and American Woolen were fractionally better. Rails continued dull and regular. Liberty bonds were again variable.

COST OF POTATO GROWING IN NEW BRUNSWICK

(Frederick Gleason.)

On account of the various investigations conducted by the Food Controller into the costs of production of various crops and the controversy arising especially in regard to potato growing, it may be of interest at the present time to give an actual statement of the cost of growing this crop at the Experimental Station, Fredericton, N. B.

In appraising this question it might be stated that on account of the larger estimate of the cost of production of potatoes in New Brunswick as compared with other provinces, that doubt has been expressed in some quarters as to the genuineness of the figures submitted by some New Brunswick growers.

The Experimental Station is in a position to help in dispelling these doubts by giving an official statement of cost actually incurred on one acre of potatoes especially set apart for this purpose.

At the same time these figures may serve to call attention of growers to the desirability of keeping a business like account with their own individual field operations.

The conditions under which potato growing was undertaken last year necessitated higher expenditure than ever before. Labor, fertilizers and spraying materials were more costly than in previous years, while the price of seed was higher than ever before known in the history of the country.

As a comparison of cost and illustration of its increase in 1917, it may be stated that based on the same details as given for the season of 1917 an acre grown in 1915 cost \$18.88, the crop was eighty barrels of marketable, worth \$17.75 and seven barrels culls, worth fifty cents; a total value of \$18.25, leaving a profit per acre of \$69.32. A cost per barrel of eighty-five cents and a profit per barrel of eighty cents.

In 1916, the acre cost \$88.59, the crop was 120 barrels marketable, worth \$27.75 per barrel and six barrels culls, worth fifty cents, a total value of \$88.33, leaving a profit of \$244.91. A cost per barrel of

FRANCE'S FOOD PROBLEM

Brave Effort to Increase Yield of Other Food-stuffs, With Corn Not so Proliferant

Paris, Jan. 25.—(Correspondence of the Associated Press)—France, without a "bumper" crop of corn to fall back upon, is making a brave effort to increase the yield of other foodstuffs and there are now for the first time signs that the effort is producing results.

Nearly a million more acres of wheat were sown last fall than in 1915, according to recently completed statistics. With ordinary good luck this means nearly 100,000 bushels of wheat more. Spring sowing this year may exceed that of 1917 by nearly the same extent, which would bring the French wheat crop to more than that of last year. The bread crisis, taking effect Jan. 25, was intended to save from food consumption the million bushels required for the extended seeding.

M. Comperre-Morel, commissary of agriculture, charged with the extension of seeding, has already divided 600,000 bushels of Manitoba wheat among farmers. He is confident important gains will be made in the crop of 1918.

The decision of the French food minister to issue cards regulating the distribution of bread to 800 grammaires (about 11 ounces) a day is causing much comment. Some critics, others approve but the consensus of opinion may be summed up in the good-natured remark of a morning paper which says "that for one man who dies of starvation there are a hundred who succumb to indigestion."

Generally, however, the press seem to adopt a very serious point of view of the innovation. The French are notoriously the greatest bread eaters in the world and much doubt is expressed as to the ration of a little more than a half a pound a day being sufficient.

France has another commissary of agriculture, Monsieur Le Rouze, deputy from the department of Morbihan, who is sometimes called the "Potato Dictator." He is charged by the minister of agriculture with direct supervision of the potato growing, more especially to vegetables. He is trying to increase the production of beans as well as potatoes, and is especially encouraging the planting of topinambours, or Jerusalem artichokes. The topinambour plant is about as hardy as a goose, it thrives in poorly cultivated and slightly fertilized soil and is strong enough to throttle any weed that tries to encroach upon it.

The season will furnish an interesting experiment in this comparatively new food product, as a large acreage will be planted for the first time.

NEW LUMBER CONCERN

The people of New Brunswick, especially those living in the vicinity of large lumber areas, will be interested to know that another lumber office for the purpose of buying all kinds of lumber throughout the province for local and export trade has been established here with headquarters at 8 Market Square. The Dundell Company, Limited, with head office at Halifax, has decided to open an office in the city and activities along the lines of buying lumber throughout New Brunswick will be immediately started. H. C. Hearn, who for a number of years has been with the George McKean Company, lumber merchants, will have charge of the new office, and will be the representative for the Dundell concern in this province.

SINN FEINERS DEFY COURT.

Smoke Cigarettes When Own Case Is Proceeding—Troops Summoned.

(Through Reuter's Ottawa Agency.) London, Mar. 1.—Another sidelight on the condition of affairs in certain parts of Ireland is the scene in a sizo court house when eight young men charged with participating in an unlawful assembly, being required to remove their hats, began to smoke cigarettes. Then one said they would have a song, whereupon they sang on the seats and sang songs referring to the freedom of Ireland.

The crowd filling the bench and consulted the district inspector. The singing was renewed when he returned and he threatened to commit them unless they apologized. One said they had no regard for any representative of the British constitution. The magistrate then sentenced them to seven days imprisonment for contempt of court. When they were about to be removed they threw themselves upon the floor and had to be removed by the police.

The crowd filling the court assumed a threatening attitude, and a detachment of the military was summoned. Eventually the defendants were carried to a barrack and conveyed to jail amid great excitement.

Dr. Albert Shields, superintendent of the Los Angeles department of education, is mentioned for a similar plot in New York city.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., WEDNESDAY, MARCH 6, 1918

The Evening Times and Star

ST. JOHN, N. B., MARCH 6, 1918.

The St. John Evening Times and Star is printed at 27 and 29 Canterbury street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act. Telephone—Private exchange connecting all departments. Main 427. Subscription price—Delivered by carrier, \$4.00 per year; by mail, \$3.00 per year in advance. The Times has the largest afternoon circulation in the Maritime Provinces. Special Advertising Representatives—NEW YORK, Frank R. Northrup, 303 Fifth Ave.—CHICAGO, E. J. Powers, Managers, Association Bldg. British and European—Frederick A. Smyth, 20 Ludgate Hill, LONDON, E. C., England. The Audit Bureau of Circulations audits the circulation of The Evening Times.

APPLYING THE PROBE.

The soothing adjuration, "Live horse, and you'll get grass," is addressed by the counsel for the New Brunswick Power Company to the citizens of St. John. If they will but go on paying all the increased charges the power company may impose, there will come a day when hydro-electricity will be brought into St. John at a price which will astonish the people.

It is doubtful, however, if any ray of assurance will obscure the facts set out in the Machinery report, which were set before the Public Utilities Commission yesterday. The \$69,000 additional interest and dividend charge added without additional value being given by the company sticks out like a sore thumb. Moreover, the company's counsel admits that the \$2,000,000 common stock is what is called "water." It was also made clear yesterday that the old company was not really making a fine profit but had a surplus of earnings, the amount in 1916 being \$88,972. The new company has already added \$69,000 per year to be paid by the people in interest and dividends, and seeks to have the \$2,000,000 watered stock also become dividend-bearing—the people paying the score. The people should not be asked to pay for more than they get. They get no more than they did under the old company management.

LABOR EXCHANGES.

The trades and labor branch of the Ontario government proposes to organize employment offices in all centres of population, and has already made a good start. Discussing the question of labor exchanges the Toronto Globe says: "In a pamphlet on social problems issued by Mr. J. J. Kelso some time ago the establishment of a well-equipped labor exchange in every city and town of the province, working under the direction of a central organization and co-operating with each other to provide suitable employment for every applicant was advocated. He pointed out that every man without employment had to be supported by others, and that very often when the head of a family was unemployed for any length of time it meant a complete disorganization of proper social conditions—the neglect of charity, neglect of children, etc. This labor office should not be merely for the unskilled, but should be for all—the artist, designer, professional and business man, as much as for mechanics or laborers. Hereafter such offices had been opened as a charity in seasons of distress, but they should be kept going all the year and be regarded as a most important adjunct of civic government. In connection with such a bureau it was pointed out that special attention might also be given to boys wishing to enter suitable trades and industries as apprentices. Many lads grow up without a trade because they find it easier to get work as messengers, bellboys, etc., than to become acquainted with the factories and outdoor trades, where they would have a real chance of permanency."

MR. JOHN E. REDMOND.

Throughout the English-speaking world the news of the death of Mr. John E. Redmond, the leader of the Irish Nationalists, will be a source of sincere regret. A man of splendid ability and lofty motives he won the respect and high esteem even of those who did not support his views on the Irish question. In later years he was eminently a peacemaker, and a determined opponent of the Sinn Fein. He sought a solution of the Irish problem that would be fair to Ireland and yet not a source of dissatisfaction in Great Britain. When the war broke out he promptly and emphatically endorsed the action of the British government and urged the Irish people to give their unqualified support. The Irish convention to consider a settlement of the whole Irish question received his endorsement, and none would have rejoiced more than he to see a happy ending of the age-long struggle. A man of brilliant parts, an orator of exceptional gifts, Mr. Redmond gave to his country and the Empire a life of service. His eminent services to the Irish people will long be cherished by all save the irreconcilables who cherish the mad dream of an Irish republic separated from the rest of the Empire. Among the tributes to his memory none will be more sincere than those of his colleagues in the British parliament, where he was so long a striking figure. His death at this critical time in Irish affairs is a great loss.

The plea is put forward that purchasers of New Brunswick Power Company stock should be protected. In other words, the rest of the citizens should pay to make that investment profitable. Would that principle be applied, for example, to investment in western town lots?

A Toronto paper epitomizes Hon. Mr. Calder's speech last week in these terse statements:—

"The government will stand by all temperance pledges. Present legislation will be rounded out. "War makes more demands for sacrifice by people. "East and west must have no schism. "World famine is in sight at present. "Labor for farms must be secured. "Financial burdens must be borne by people of Canada. "Patronage list is quite abolished. "Civil service reform legislation is coming."

The report that the Germans are encouraging the Tartars to start an Armenian massacre is quite in line with German policy. When the Turks were slaughtering the Armenians there was no more objection in Germany than to the German atrocities in Belgium and on the ocean.

The New Brunswick legislature opens tomorrow. The Foster government has had a year to prepare legislation and may be expected to bring down important measures for the consideration of the house. It found provincial affairs in a very bad state and has labored faithfully to bring about better conditions. Its record is good.

An Ottawa despatch says that Sir Wilfrid Laurier will co-operate with the government and will offer no factious opposition during the coming parliamentary session. This was to be expected of the veteran Liberal leader, and is in harmony with his course during preceding sessions since the war began.

Sir Douglas Haig says there is no doubt the British drive at Cambrai, despite the unsatisfactory outcome, delayed for at least two weeks the concentration of German forces on the Italian front at a critical time for the Italian army.

A revision of the city charter to provide for public relations on important questions is desirable. Other amendments are also desirable, such as that no commissioner can hold two important offices at the same time.

Canadian transports continue to elude the submarine and land troops in England without mishap. Our forces in France now number more than 140,000. The four divisions are up to strength, and the new drafts keep up a reserve force in England.

Economy in bread consumption is described as a vital need in England. The Canadian people should bear this fact in mind every day, and use substitutes for bread as much as possible. Food will win or lose the war.

Auditor Macintyre is a straightforward witness, who speaks the book—or as much of the book as he was permitted to see. The Public Utilities Commission may be able to get some of the information desired to him. It is in the public interest.

Woman suffrage in Vermont had its first fruits yesterday in a reduction of liquor license communities from eighteen to eleven. Two of the largest cities of the state went into the dry column yesterday.

The warm-hearted people of Ireland today mourn the passing of a sincere patriot and powerful advocate, whose eloquence and influence were ever at their service, to promote their real good.

The toll of the submarine is heavy and the cry for more ships gathers force as the weeks pass. Washington, however, is still confident that the shipbuilding programme will produce adequate results.

The fighting on the western front is still confined to raids, in which the Allies have the best of it. The German drive staged for February has not yet materialized.

The establishment of Dominion labor exchanges has been long urged, and would prove of great benefit to the country.

Last night's cables suggest that the Germans may have tried to grasp too much, and that their trouble in Russia and the Ukraine may not yet be over.

"German swords are preparing the way toward peace," says the Kaiser. A German peace means German domination, or the peace that reigns over a ravaged world.

There is still a war party in Russia and one in the Ukraine. May it grow.

COMPANIONS.

O! Poverty, friend Poverty, For years we've traveled onward side by side; And for all time it seems to me I must in thy dear company abide.

We shall not quarrel, thou and I, So long as we in company must go; Though bound to earth we see the sky No less than they who watch their fortunes grow.

And thou, dear friend, hast left to me A legacy which I must ever own, Of kindly thoughts and sympathy, Which, but for thee, I never would have known.

'Tis very comforting to know (Though we have scored in days beyond recall) The rich look down in fear, but lo! He who lies flat on earth need fear no fall.

The farewell words I fain would speak My lips have formed full oft, but 'neath thy spell I may no other comrade seek, Alas! Alas! I cannot say "farewell."

And yet, old friend, though close we stand, And spite of all which thou hast done for me, Thy smile! with ruthless hand How gladly would I slay and bury thee.

RUSSIANS RESIST.

London, March 5.—Reuter's Petrograd correspondent telegraphing Monday says: "It seems improbable that the peace treaty will be ratified by the congress of soviets at Moscow, March 12."

"The delay of a fortification granted by the Germans for retaliation constitutes an opportune respite for the Soviets, which probably will be utilized in the organization of a red army and the development of means of defense."

By a decision reached at an extraordinary meeting of the council of commissaries—which was published before the signing of the peace treaty—the evacuation of Petrograd is contemplated, together with a systematic destruction of all stores of provisions and war materials which cannot be removed.

NEED MORE SHIPS.

London, March 5.—"Our allies are making every effort to increase their production of ships," Sir Eric Geddes, first lord of the admiralty, said today, "but despite glowing reports in the American press and great as the effort of that country doubtless is, there is no doubt a considerable time must elapse before the desired output is obtained."

The total of U. S. war insurance applied for to date has reached eight billion dollars.

Relied in these cases always brings the glad smile. Get a box of Stuart's Dyspepsia Tablets at any drug store. Be good to your stomach.

News Notes About Prominent Baptists

(Maritime Baptists)

The Tabernacle church, St. John, has been fortunate in quickly securing a successor to Rev. F. P. Dennison. It is doubly fortunate in securing such a man as L. E. Peirford, who has had a most successful ministry at Liverpool, N. S. He will begin his work at St. John on the first Sunday in April.

Lie. D. C. Kaine, during the course of his studies at Acadia, is serving one of the small fields at Meriv Mountain, is finding his efforts being blessed of God. Ten have already found the Lord, and were baptized into the membership of the Wolfville church by the pastor, Rev. N. A. Harkness, on Sunday, Feb. 24, some are seeking the light.

Rev. G. H. Gage has entered upon his fifth year as pastor of the Margareville church. He has been a most successful minister in the confidence and esteem of his people than at present. As a token of appreciation of his faithful ministry the church at its annual business meeting voted an increase of \$100 to the pastor.

Rev. Gideon Syim has had his time pretty well filled up for the last year with supply work. He has been very successful in his work, and has been well accepted in some of our largest churches. But in view of the pressing need of men he is now anxious to enter again upon regular pastoral work. He would be pleased to communicate with some church which is so.

Lie. E. A. Robertson, who has been serving the Greenfield-Blicker church while pursuing his studies at Acadia, has resigned his charge. Ever since the opening of the war he has been anxious to leave his country, but was deterred from active service by physical infirmities. The way has at last opened for him to go to the front. He expects to be put on duty at the pay office in Halifax.

Rev. W. Ileson, after almost a year of service, has resigned pastoral care of the New Canada field, and has accepted a call to the Antigonish field. He will close his work at New Canada the last of April. His faithful work has endeared him to his people, and his resignation has been accepted with reluctance. The New Canada field is now vacant.

Mr. P. H. Haywood, who has been pastor at once. The ordination of Charles D. Pihl occurred at Rollinsdale, Mass. on Jan. 14. His name appears upon our list of licentiates in the Year Book. He graduated at Acadia with the class of 1915, and has since been pursuing his theological studies at Newton. The clerk of the council was Rev. S. Bishop, Acadia '18, while the sermon was preached by Rev. Guy G. Bleakney, of the class of 1914. Mr. Pihl has become pastor of the church at Montpelier, Vermont.

Rev. W. H. Robinson, the devoted and beloved pastor of the Southampton, N. S. field, has been suffering from neurasthenia, and has been unable to carry on his accustomed work since the beginning of the year. He is now slowly recovering and the congregations on his field are hoping to hear again soon the gospel message from his lips. All who are interested in the work of the Kingdom will desire that his ministry may be prolonged for many years.

We have received from the port chaplain the following list of Baptist soldiers on their return from England on Feb. 18: A. Allen, Chipman, N. B.; Jas. Blain, City Road, St. John, N. B.; W. A. Buzzell, St. Stephen, N. B.; G. G. Foley, Rochester, N. B.; E. Haywood, Victoria, Corner, N. B.; E. F. Maston, Chipman, N. B.; J. P. Smith, Fredericton, N. B.; C. Snider, Pearsonville, N. B.; W. D. Steeves, Shediac, N. B.; C. E. T. T. Sydney street, St. John, N. B.; Jas. Walker, Campbellton, N. B.

Rev. P. H. Hayward left Fairville last week past, and is now entering upon his new duties in connection with the boys' work department of the Y. M. C. A., having his home and his headquarters in Toronto. Universal regret is felt in Fairville in respect to his leaving, a regret which is shared by all who have been associated with him in the work of the Kingdom. A little while before leaving Fairville he received notice that his thesis for the Ph. D. degree had been accepted by the University of Pennsylvania, in connection with which institution he has been pursuing his studies.

The subject of the thesis was Workmen's Compensation Acts in Canada. The degree will be formally granted at the next convocation.

Rev. H. D. and Mrs. Worden of Tusville, N. B., will receive the heartfelt sympathy of all in the sad bereavement they have sustained through the death of their eldest son, Melzar, which occurred at the military hospital, St. John, on last Thursday night. The young man first enlisted with the 29th battalion, but developed bronchitis of a very serious type, and was sent home. He was again called to the ranks under the military service act and passed the medical examination. But the old trouble returned, and he developed into pneumonia with the fatal result noted above.

DIFERENCES DEVELOP.
PLANT IN KITCHENER HAS BEEN SHUT DOWN.

Kitchener, Ont., Mar. 6.—On account of differences of opinion between the officials of the company and the government inspector, the Canadian Blower & Forge Company's factory here has been shut down.

The company is engaged in the manufacture of six-inch high explosive shells and had an output of 1,500 projectiles a week.

HANGED 200 RUSSIANS

German Kultur Exhibited in Market Place of Wolmar

London, Mar. 6.—According to a semi-official news agency despatch from Petrograd a proclamation has been issued by the Bolshevik government under the heading "Importers of German Kultur," asserting that when the Germans entered Wolmar, on Feb. 20, 200 persons were arrested and, without any investigation, were hanged in the market place. The proclamation says that this action resulted from information given by the bourgeoisie, who gathered around the gallows and shouted, "The same fate awaits 500 more."

The Germans have announced that all the Bolshevik Red Guards will be hanged or shot.

Everybody Knows Dr. Chase's Receipt Book

"Ever since I can remember, this was the most valued book in my home. It is a good one."—Mr. John Miller, 8, Salt Spring, B. C.

It may be safely said, without fear of contradiction, that there is no more useful book to be found in any home than Dr. Chase's Receipt Book. The proof of this statement rests in the fact that several millions of copies have been sold, and it is sometimes said that the circulation is second only to that of the Bible.

From the time he began the study of medicine it was a hobby of the doctor to collect all recipes and prescriptions of exceptional value. There enormous have the sales become that imitations have been put on the market and substitutes are offered by unscrupulous persons who seek to steal the reputation of their originator.

The use of Dr. Chase's medicines has become so general that there are few, indeed, who do not know something of their sterling merits. So enormous have the sales become that imitations have been put on the market and substitutes are offered by unscrupulous persons who seek to steal the reputation of their originator.

But the doctor has protected you by having his portrait and signature printed on every box of his medicines. By taking care to see these on the box you buy you can be certain that you are getting the genuine.

Dr. A. W. Chase's medicines are for sale by all dealers, or sent on receipt of price by Edmondson, Bates & Co., Ltd., Toronto.

It was announced officially in military circles yesterday by the local authorities that Major J. J. Bull, of Woodstock, was detailed as officer in charge of the absentee depot for Charlotte county.

Major Bull has just recently returned from the front where he made a record for himself as O. C. of a machine gun section. It was also made known yesterday that Lieut. A. C. Kelly, also a

Half of Jews of Jerusalem Die of Hunger

New York, Mar. 6.—More than half the Jewish population of Jerusalem have died of famine and pestilence, says a message received by the Palestine restoration fund committee through British government sources. The message, made public by the commission last night adds "that the remaining 30,000 look little better than living corpses. The morale, however, is excellent and everybody is happy despite years of acute suffering."

There is scarce and dear and other commodities are practically non-existent. British soldiers are admired by all for their generosity to the poor among whom they often distribute their own rations, and the British authorities are doing their best to feed the population.

Boston, Mar. 6.—Young women telephone operators at all exchanges in this state, New Hampshire and Maine, will strike on next Friday morning at 7 o'clock if their demands for increased wages are not met by the company. This announcement was made last night at the close of a conference between the executive committee of the operators' union and the advisory board of the joint council of telephone workers of New England.

SOCIAL DISEASES BILL

(Toronto Globe.)

The bill dealing with social diseases, introduced in the Ontario Legislature, can be accepted only as a beginning. It is largely permissive in character, and leaves too much to the discretion of municipal health officers, who may differ in their views and methods, but it is a great gain to have general diseases recognized by law as contagious. From this necessary starting point much may be achieved.

The bill provides that if any person is under arrest or convicted of any offence (or she) may be examined, and if infected, may be detained or isolated as the health authorities may determine. The latter may similarly deal with any persons not under arrest who are suspected of spreading infection, unless these persons can produce satisfactory certificates from qualified medical men. If these powers are strictly exercised a great deal will be done to check the spread of the disease, though the problem of the feeble-minded, the class responsible for much of the evil, will not be solved by measures so mild. Perhaps the deficiencies of the bill will be to some extent removed when the regulations are fully developed. It lays down only general principles, leaving the details to be worked out by the provincial board of health. Certainly there should be uniformity in the application of the law. The consequences of a lax administration of the law in one community cannot be confined to that particular place.

The clause in the bill forbidding anyone but a qualified medical man from treating or offering to treat these cases is belated but welcome. The quacks have flourished on the misery of the victims of these diseases, and have made curable cases incurable by substituting their nostrums for the treatment at all hospitals receive of scientific aid. The bill says that these institutions may be required to make such provision. The provision should be compulsory.

As the attorney-general pointed out, the hearty co-operation of private practitioners with the health authorities is necessary to the success of the legislation. Many physicians have been leaders in the agitation for legal weapons for fighting this moral and physical pestilence. A special responsibility is laid upon the medical profession to make these weapons effective.

WM. FITZGERALD NOW MAYOR OF SYDNEY

Sydney, N. S., Mar. 6.—William Fitzgerald was elected mayor of Sydney yesterday by a majority of 201 over S. E. Muggah, retiring mayor. Mr. Fitzgerald had a majority of nearly 700 in Ward 4 which he has represented in the council for the last fifteen years.

A feature of the aldermanic contests was the election of Labor candidates in four of the five wards.

In the Glass Bay mayoralty contest, A. L. McNeil defeated the retiring mayor, S. A. J. Macdonald, by a majority of more than 600.

Y. M. C. A. COLLECTORS DINE

Forty-five collectors, besides several invited guests, attended the Y. M. C. A. Jubilee "convivial" dinner last night at Bond's restaurant. The collectors who will cover the city today to complete the jubilee fund of \$16,000 to leave the Y. M. C. A. entirely clear of debt by May 1, received their lists and instructions and arrangements were completed for the drive today.

Among the invited guests were Mayor Hayes, Chief Justice Hazen, Sir Ezekiel MacLeod, T. H. Estabrooks, John Sealy, W. E. Barke and E. A. Schofield. Chief Justice Hazen spoke strong words of commendation for the Y. M. C. A. service to the men at the front and spoke very feelingly of his experiences in the Canadian military hospitals in England.

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon, apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

Commission Seeks Evidence Of Actual Investment In New Brunswick Power Co. To Determine Revenue Needed And Justified

Audit of Books Does Not Reveal Full Information and Probe Will Have to go Deeper; Opposing Counsel Define Some of the Issues Which Must be Settled; Different Stories of Gas Finances

The lines which the fight between the New Brunswick Power Company and the citizens of St. John will take were fairly well defined at the hearing of the Public Utilities Commission yesterday.

Mr. MacIntyre on stand. The power company matter was taken up at 10 o'clock yesterday afternoon, and the hearing continued until 11 o'clock, with a recess at 10 o'clock.

Addressing the commission, Dr. Baxter pointed out that the company had asked for increased rates and that the commission was to determine if the rates were justified.

Mr. Powell objected that it would not be well to give impressions, unless he was prepared to back them up.

Mr. Powell testified that the company had asked for increased rates and that the commission was to determine if the rates were justified.

Cincinnati man tells how to lift off any corn without hurting one bit

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poisons are now told by a Cincinnati authority to use a drug called Freezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.

It is a sticky substance which dries the moment it is applied and is said to simply shrivel the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed to be a quartet of causes of freeness will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn callus.

You are further warned that cutting at a corn is a suicidal habit.

TO SUFFER FROM HEADACHES Makes Life Miserable. Headaches seem to be habitual with many people. Some are seldom, if ever, free from it, suffering continually with the dull throbbings, the intense pain sometimes in one part, sometimes in several parts of the head, varying in its severity by the cause which brings on.

Girls! Use Lemons! Make a Bleaching, Beautifying Cream. The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart pint of the most remarkable lemon skin beautifier at about the cost of a penny for a small jar of the ordinary cold cream.

FOUR TOPPED OFF SEND DOWN
ALLAN LINER CALGARIAN

Two Officers And
46 Men Lost
CAPT. KENDALL COMMANDER

Officer, Well Known in St. John,
Who Identified Wreck on the
Montrose and Was Captain of
the Empress of Ireland

London, Mar. 6.—Official announce-
ment was made by the admiralty today
that the British armed merchant cruiser
Calgarian was torpedoed and sunk on
March 1. Two officers and forty-six
men were lost.

The Allan liner Calgarian was a vessel
of 17,215 tons gross, 508 feet long,
and 70 feet beam. She was built in
Glasgow in 1914.

There are no published records of the
recent movements of the Calgarian which
for some time has been in the service
of the British government. The last re-
port given out concerning the liner was
in April of 1916, when she sailed from
Halifax for England with Canadian
troops.

A most unusual circumstance in con-
nection with the sinking of the Calgarian
is the fact that she was struck by
four torpedoes. So far as published re-
ports have shown, in no previous case
has a merchantman been subjected to
such a heavy attack by submarine. Evi-
dently the Germans concentrated U-
boats to ensure the sinking of the liner.

Montreal, Mar. 6.—The Calgarian has
been on a cruise duty on the North At-
lantic steamship routes since the war be-
gan. She has also made several trips
from Halifax to England with distin-
guished passengers, on one occasion car-
rying Sir Robert Borden.

The Calgarian's navigating officer was
captain Kendall, who identified the wreck
of the Empress of Ireland, sunk after col-
lision with the Storstad, a collier in the
St. Lawrence in 1914.

DECISION AGAINST
STATE PURCHASE

London, Mar. 6.—According to the
Daily Mail Gazette the government has
decided against the state purchase of the
liquor trade.

The newspaper says that an investiga-
tion showed that the amount of money
involved could not be devoted to this
purpose under the present financial cir-
cumstances, and that an official announce-
ment to this effect may be expected soon.

A BUSY CONSUL

The Hague, Netherlands, Feb. 10.—
(Correspondence)—Many of neutral Hol-
land's diplomatic representatives abroad
are hard worked in temporarily looking
after the interests of warring nations on
both sides. The record is no far held by
P. H. Hotz, Dutch consul-general at Bey-
ruth, Syria, who has in his care the af-
fairs of ten nations beside those of his
own, including those of the United States.

Two Dutch surgeons are charged with
periodical inspections of the British pris-
oners of war in Germany.

Sulphur.

Hair that loses its color and lustre,
when it fades, turns gray, dull and life-
less, is caused by a lack of sulphur in
the hair. Our grandmothers made up a
mixture of Sage Tea and Sulphur to
keep her locks dark and beautiful, and
thousands of women and men who value
their hair, and who want that beautiful
dark shade of hair which is so attractive,
use only this old-time recipe.

THREE CARD MONTE
SKILL NOT CHANCE

Montreal, Mar. 6.—"Three card monte"
is not a game of chance, but a game of
skill, in which the eye of one party to
the game battles with the hand of the
shuffler, according to a decision given in
the police court here yesterday by Judge
Cusson, who dismissed two men accused
of gambling because they were caught
playing the game.

It was explained to the judge by the
counsel for the accused that "three card
monte" was played with two black cards
and one red card. One of the players
shuffled the cards and the other was re-
quired to pick out the red one.

The Way They Do.
"An extended conversation is entirely
superfluous" with withering sarcasm
said the gas official. "If you do not pay,
we will turn off the gas."

"But," protested the average house-
holder, "there has been no gas coming
through the pipes since."
"Well, then, if you don't pay we will
turn off the gas that you haven't been
getting. Stand aside please. There are
others waiting."

BRIEF SESSION
OF PARLIAMENT

Expected That Members Will
Stick Closely to Business and
Complete Work on Record
Time

Ottawa, March 5.—The union govern-
ment is setting a new precedent in par-
liamentary time saving by summoning
parliament to meet on Monday morning
at 11 o'clock, March 18. The usual prac-
tice when a new parliament is to have
an opening on a Wednesday for the for-
mal session of parliament.

Then according to precedent Thursday
would be devoted to reading of the ad-
dress in reply to the speech of the former
Monday morning and the choice will un-
doubtedly be Hon. E. N. Rhodes, who
was speaker in the last house.

Afternoon the house will meet again and
hear the speech from the throne, the ad-
dress in reply will proceed at 11 o'clock
by Tuesday the business of parliament
will be in full swing.

It is the government's intention to
save time and money by keeping parlia-
ment busy talking legislation rather
than politics. It is not unlikely that
morning sittings will be adopted almost
from the start. A session lasting less
than three months is predicted.

Opposition to Co-operate.
As far as the opposition is concerned
Sir Wilfrid Laurier will set the example
by refraining from all factious criticism
and will give cordial support to every
necessary measure. The selection of a
deputy speaker to succeed the former
deputy speaker, Joseph R. Brown, who
was defeated, presents a problem to the
government.

The deputy speaker, according to law
must be English-speaking when the speaker
is English-speaking. But there are only
two French-speaking Unionists in the
house, namely, Dr. J. L. Chabot, mem-
ber for Ottawa, and Mr. W. R. Mackie,
member for East Edmonton, who is
French-Canadian on his mother's side and
was understood to be in command of
the Empress of Ireland, sunk after col-
lision with the Storstad, a collier in the
St. Lawrence in 1914.

French-Canadian representation in the
cabinet is an even more serious problem
for the government. The defeat of Hon.
Messrs. Sevigny and Blondin leaves no
members of parliament from Quebec
available on the Unionist side for inclu-
sion in the cabinet.

Mr. Sevigny has resigned to the prime
minister, but Sir Robert today said that
Mr. Sevigny was "still a minister. It is
impossible, however, that the acceptance
of the resignation will be long de-
layed. Colonel Blondin, when last heard
of, was in Italy on a special military mis-
sion. Doubtless his resignation will
also be in shortly.

The premier has as yet given no hint
as to what he contemplates in the way
of appointing successors to the two
French-Canadian ministers. There is no
seat in Quebec in prospect where a Uni-
onist can be elected. Sir Wilfrid Laurier
is usually not disposed to accept any
of his followers to resign in order to
allow a Unionist cabinet minister to be
elected.

Among the government's following
from Quebec in the senate there is no
one of cabinet rank and in any event
representation for Quebec via the senate
would, under present conditions, not help
the government.

The whole question of Quebec and also
Roman Catholic representation in the cabi-
net will be left in abeyance for some
time. Parliament will meet, in all prob-
ability, without a French-Canadian cabi-
net minister and with no one in sight
for the position.

Sir Wilfrid Laurier's chief lieutenants
in the house are Hon. Robert Borden,
Lennox and Hon. Charles Murphy, the
only ones of his old colleagues re-
lected under the exception of Hon. W. S.
Fielding. Mr. Fielding's attitude to-
wards the government will be one of
"benevolent neutrality." He was elected
as a supporter of the Military Service
act, but otherwise was unpledged, either
to the government or to Sir Wilfrid Laurier.
He will be free to support or criticize
government measures, and it is un-
derstood will be a straight independent.

RID STOMACH OF
GASES, SOURNESS,
AND INDIGESTION

"Pape's Diapesin" Ends All Stomach
Distress in Five
Minutes

You don't want a slow remedy when
your stomach is bad—or an uncertain
one—or a harmful one—your stomach is
too valuable; you mustn't injure it with
drugs.

Pape's Diapesin is noted for its speed
in giving relief; its harmlessness; its
certain unfailing action in regulating
cures, sourness, gas, gassy stomachs. Its millions
of cures in indigestion, dyspepsia, gas-
tritis and other stomach ailments have
made it famous the world over.

Keep this perfect stomach doctor in
your home—keep it handy—get a large
fifty-cent box from any drug store and
then if anyone should eat something
which doesn't agree with them; if what
they eat lays like lead, ferments and
causes flatulence; causes headache,
dizziness and nausea; eructations of acid
and undigested food—remember as soon
as Pape's Diapesin comes in contact
with the stomach all such distress van-
ishes. Its promptness, certainty and
action in overcoming the worst stomach
distress is a revelation to those who
try it.

Make Your Own Cough
Syrup and Save Money

Better than the ready-made kind.
Easily prepared at home.

The finest cough syrup that money
can buy—acting on the mucous mem-
brane as much as ready-made preparations
—can easily be made up at home. The
way it takes hold and conquers distress-
ing coughs, throat and chest colds will
fully repay the attention given to it.
Any druggist can supply you with
2½ ounces of Finck's (50 cents worth).
Pour this into a 16-oz. bottle and fill
the bottle with plain granulated sugar
syrup. Shake thoroughly and it is
ready for use. The total cost is about
15 cents and gives you 16 ounces—a
family supply—of a most effective pleas-
ant tasting remedy. It keeps perfectly.

Finck's is a highly concentrated com-
pound of Norway pine extract and it
acts penetrating through every air pas-
sage, raising the phlegm, soothing and
heals the inflamed or swollen throat
membranes, breaks up the mucus, and
will disperse thick and greasy cough
with full directions and don't accept
cheap imitations.

AMENDMENT TO
THE CIVIC CHARTER

Council Wants Authority to Hold
Plebiscite at Any Time—Dum-
plebiscite in Harbor to be Pro-
hibited

In view of the possibility of the citi-
zens desiring to vote their opinion on
the municipal ownership of the street
car lines, the council has passed a resolu-
tion at the meeting of the common council
yesterday which was adopted by the
mayor and other commissioners.

The amendment, which will be placed
before the legislature, provides that cer-
tain questions may at any time hold a plebiscite
on any question which it deems nec-
essary. Heretofore it has been incumbent
upon the council to secure special per-
mission for each individual plebiscite
placed before the people, but this amend-
ment is passed upon by the legislature
it will give the common council full
power in the matter of plebiscites.

Commissioner Russell introduced an
amendment to the bill presented to the
persons from depositing refuse into the
waters of the harbor. The amendment
restricted the word "oil" in the other
provisions enumerated. Commissioner
Russell explained that this was
necessary because of the fact that cer-
tain steams in port dumped quantities
of oil into the harbor. This oil, float-
ing on the surface of the water, finally
settled under the wharves and adhered to
piling, making them very inflammable
in case of fire. The oil also found its
way under the wharves and lodged in
the inner piling making the structures
very dangerous.

suffered five years with my heart and
nerves, but the last two years I have
suffered terribly. If I went to bed I
would wake up as if I were smothering.
I did not get one night's sleep out of
seven. I got so very weak that the doc-
tor was called in, and he said it was my
heart, and that I must take great care of
myself. I saw your advertisement in
your magazine and I bought a box of
your famous Milburn's Heart and
Nerve Pills, and said I would try them.
I have only taken two boxes of them
and I feel a new woman. I will recom-
mend them to anyone afflicted with
heart trouble."

STECHEK ELUDED

ZBYSKO'S GRASP

Details of Match in Which Wrestlers Strove Vainly for a Fall; Cleverness of Nebraska Grappler Offsets Tawering Pole's Strength

After wrestling for an hour and a half at Madison Square Garden, New York, last Friday night neither Wladek Zbyszko nor Joe Stecher had obtained a fall, and it looked as if the bout would go the full two hours to be decided upon points. The mighty strength of the Pole repeatedly offset the shifty cleverness of the Nebraska farmer boy.

The men had been wrestling forty minutes when Zbyszko clutched Stecher's toe and the Garden went wild with applause when the Nebraska squirmed out of danger. Zbyszko worked incessantly to get an effective toe hold, but Stecher was too slippery for him.

At the end of the first hour, after the men had been on their feet for some time, Stecher took the offensive and forced Zbyszko down to a sitting posture, where he tried to apply his famous scissors hold. The Pole broke it by getting Stecher's toe, but Joe quickly tore himself away.

It was 10:10 when the big bout got under way. Stecher and Zbyszko, rushing from their corners, butted their heads together for several minutes like a couple of goats. It was easy to see that the Pole had a great deal more arm power than the Nebraska farmer boy.

The first ten minutes passed with both grapplers on their feet trying out each other's strength. Stecher forced Zbyszko to his knees, but couldn't hold him.

The Pole hauled Stecher violently to the mat and grabbed his toe, but the American quickly broke the hold. After fifteen minutes, the wrestlers again went to the mat, Stecher having a head hold, but the powerful Pole shook Joe's arm from his bull-like neck.

Stecher was like a slippery eel in Zbyszko's grasp, and the Pole became exasperated when his efforts to hold him light failed. The Nebraska boy was clever in keeping his toes far from the Pole's hands.

Commanding all his strength, Zbyszko grasped his lighter opponent around the body and hinged him to the canvas, but the bouncier Stecher landed on top when they tumbled.

These wrestling tussles unquestionably have a strong appeal for all sorts of persons. From the newboys, who fringed the rails of the top galleries in the rafters, to the fowling grand opera singers in the boxes, everybody in the big crowd became worked up over the antics of the wrestlers.

Several hundred fashionably dressed women were among the spectators and joined in the loud outburst of enthusiastic approval. Some of the women wore evening gowns and seemed just as unconcerned as they would be in a theatre box.

threw Harry Stevens of England with a flying mare and double body hold in 22.43.

Charley Cutler and Yussuf Hussane indulged in a rough-and-tumble affair. Hussane entertaining the crowd by hurling Cutler's 300 pounds through the ropes several times.

Cutler was badly punished with a toe hold, but he broke away and made Hussane wince with a deadly head hold. They mauled each other all over, inside and outside the ring, for thirty minutes without a fall.

Dr. Roller gave the decision to Hussane.

There now seems but little doubt that if Canadians win the championship of the National Hockey League, the Stanley Cup games will be played somewhat in the manner of a theatrical road attraction—a game or two in Montreal, another in Ottawa and another in Toronto.

The plan to play in Toronto has already been broached, and it developed today that negotiations were also in progress with the Ottawa rink management with a view to playing a game there, if ice conditions permitted.

There is little doubt, but what Stanley Cup games, whether they be between Ottawa and the Coast League title winners, or with Canadians representing the N. H. L. would draw immense crowds in Ottawa. Canadians are almost as popular there as Senators, and in addition Ottawa is a remarkable hockey city from a box office viewpoint.

With the limited seating capacity at the Jubilee rink, it is doubtful if increased prices even, the series would prove a success financially. There is a guarantee of \$2,500 to the western club, and after the rink's proportion is extracted from the total, it takes a large gross gate to give the home club a balanced account.

The Cup series is best three out of five. Last season on the Coast only four games were played, but in the last eastern set, the series went the full length.

WOMAN'S DANGER PERIOD The period between forty-five and fifty-five years of age is said to be a crisis or danger period in a woman's life which tests her for her life.

It is then that she suffers from such annoying symptoms as heat-flashes, nervousness, headaches, "the blues" or dread of impending evil, or some dormant disease in the system becomes active.

When a woman is passing through this crisis there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound, which after forty years of success is now considered the standard remedy for woman's ailments.

THE MOVIE STARS. The news from the studios is to the effect that Elsie Ferguson has just finished work in a picture of "A Doll's House," and that the new Mary Garden film, "The Splendid Sinners," tells the story of Edith Cavell.

The latter picture, incidentally, will be released on March 23. Guy Bolton, also has turned film author long enough to write "The Young Man in the Hat," which after forty years of success is now considered the standard remedy for woman's ailments.

Inter which she will embark upon a Paul Post Story entitled "The Phantom Feud." Pauline Frederick has been making "Resurrection," Tolstoy's novel. Billie Burke has been making a comedy called "Let's Get a Divorce," built for her by Anita Loos and John Emerson. Amy Jennings' next is "Sunshine Nan," to be released next week.

ORATORY OF MCGRAW CONVINCES SCHUPP

Chief Pitcher of Giants Signs Contract After Ten-Minute Talk With Leader

New York, Mar. 4.—Ferdinand Stubelefeld Schupp, the ace of the Giants' pitchers, collapsed before the oily oratory of Manager John J. McGraw down in Louisville yesterday, and, after he had chatted for less than ten minutes with the Giants' persuasive leader, he signed his contract for the coming season.

It is understood that the New York Club graciously conceded to Schupp's requests in relation to salary. The contract was for one year only. Schupp is now ready to go south, and the only cause for worry now must be on the part of the batsmen who will face Schupp during the summer.

Schupp was the leading pitcher of the National League last season, winning twenty-one games and losing only seven, each game. In 1916 he was the leading pitcher on this basis of reckoning averages. These twenty-one games had quite a little to do with the Giants winning the pennant. While Schupp was stricken

Schupp signed, and took the first train out of Louisville for Collingsville, Ind., where he will have another ten minutes interview with Arthur Fletcher. It seems that the difference between Fletcher and the New York club is not over the question of his salary as a ball player, but he is somewhat in the dark about his salary as field captain of the team, an excited position to which he has been raised since the departure of Charles Herr.

Schupp only took a few minutes to make his plans for the training trip, and as soon as he signed the papers he told McGraw that he would like to go to Hot Springs with the other veterans, who are now on their way to the health resort. McGraw was highly pleased at Schupp's anxiety about getting into shape as soon as possible, so he will leave for Hot Springs today.

Under the guidance of Catchers Lew McCarty and Bill Harden, it is expected that the pitchers will be in good shape by the time they get to Hot Springs on March 16. A new date has been added to the exhibition tour of the Giants and the Cleveland club. They will play at Camp Shelby, Hattiesburg, Miss., late in March.

No news has been received from Manager McGraw concerning any interview he may have had with Dave Robertson at Norfolk. The New York manager planned to make that his first step on

the way south, but the fact that he has wired no tidings from that place is taken as an indication that Robertson will not sign.

It is believed that McGraw will not bother to go to see Pol Perritt at Shreveport at this time, but may stop at that place on his way to Martin. Perritt is in the automobile business, and it is for this reason and not because he is dissatisfied with his salary that he has decided to give up the game.

RECEPTION TO PASTOR The public reception for the new pastor, Rev. I. W. Williamson, was held in the Victoria street Baptist church last evening. The church was crowded to the door by the members of the congregation and also by many other Baptists of the city who wished to welcome Mr. Williamson to his new field of labor.

Rev. Gideon Swim acted as chairman, and on the platform were Mayor Hayes, Rev. I. W. Williamson, Rev. D. J. McPherson, Rev. Neil McLaughlin, Rev. J. C. B. Appel, Rev. H. L. Esinor, Rev. Mr. Green, Rev. R. Taylor McKim, Rev. S. S. Poole and Rev. Dr. Hutchinson.

During the reception the church male quartette, composed of Messrs. Holder, Burt, Kierstead, and Williamson, sang several selections. Miss Birdie Campbell also sang most effectively "Nearer My God to Thee." Miss Gilchrist officiated in the absence of the regular organist.

VETERANS MAY TAKE ELKS CLUB BUILDING A plan is being considered, which if adopted, will provide for the purchase of Elks' building in Wellington row by the building committee of the Great War Veterans' Association as a memorial building.

A meeting of the civilian building committee of the association was held yesterday afternoon in the office of the chairman, E. A. Schofield, at which the proposition was introduced. It was so entirely new to the members present that none expressed his opinion of it, so the matter is still pending, and it is not known just what the individual attitude of the members of the civilian committee is in the matter.

No details as to the proposal have been announced to the public and the whole proposition is as yet in the initial stages, but that it may be finally consummated, is a report that has gained currency.

"THE GOWARD"

WHAT THE CRITIC SAID WHEN IT WAS BEING SHOWN AT TWO DOLLAR ADMISSIONS:

THE management of the Knickerbocker Theatre, where it is being shown the Triangle programme, for the third week of its season, continued over the subjects which had held the screen for the second week.

It is a straight and simple tale, from the pen of Thomas H. Ince, who is also the producer. Mr. Keenan has the role of an old southern colonel—and it is a role that he knows right down to the ground—a man proud of the line of Winslow, from what he has done, from what his forbears have done, he has a right to expect much from his son in the coming hostilities between North and South.

It is a remarkable interpretation of the rugged old Colonel Jefferson Beverly Winslow Mr. Keenan gives us. Restraint is the keynote—to the verge of boldness; but it is always impressive. He smiles as he contemplates with pride the photograph of the tintype of his son; he rages, but not hysterically, when he learns of the young man's cowardice; the failure to enlist he condones, but takes measures to see that the youngster alters his mind; when the quick desertion follows, the old man shoulders the gun the young man laid down; the mind of the father is so upset by the strain on the family's honor that he refuses to acknowledge as his own the boy in bed suffering from a wound the father had inflicted. It is only when finally he is made to understand the day's victory is due to the great bravery of his son that the reaction comes. It is a situation of heartache as the old man takes his son in his arms.

To tell even a little bit of this exciting story would be to spoil it; suffice it to say that you will not have one dull moment, but will follow the adventures of the various characters with a tense interest that will continue to the end of the picture.

"THE KID SNATCHERS" A Two-Reel L-Ko Comedy That's a Riot

FRI. and SAT.—Douglas Fairbanks in the five-part comedy sensation, "The Kid Snatchers," and Marie Walcamp in "The Red Ace." Children's Matinee Saturday at 2.30.

Gill stated that an agreement of terms had been reached with Lajoie, and that in all probability the veteran would pilot the Indianapolis club, and succeed Jack Hendricks, who is now manager of the St. Louis Nationals.

In baseball circles here it is regarded as highly improbable that the International League will start the season, and for that reason, Owner McGill feels almost certain that Lajoie will hold down first base for the local club. Jack Leary, who played first base last season for the Indians, is now in the navy.

To Give Jim Another Fight. New York, Mar. 5.—Frank Gilhooley, former Montreal and Buffalo International League star, already has started his training campaign for the 1918 season. A broken ankle in 1916 and a broken collarbone last season having curtailed his activity in his two years with the Highlanders and possibly have prevented him from advancing to the front ranks of his profession.

NEWS OF THE SOLDIERS

The members of the depot battalion made a fine showing yesterday in a route march. The battalion, headed by Lieutenant J. L. McAvity, paraded the principal streets of the city. They were highly commended upon by the citizens.

Among the hardships under the M. S. A. is the case of a young farmer who was granted exemption by a local tribunal with the understanding that he go back to the farm in the spring after working on the elevator for the winter. He was arrested yesterday by the dominion police and handed over to the military police under Major Pincombe. Application on a habeas corpus writ has been made to Judge Chandler for his release.

On Monday evening residents of Pearsonville, Kings county, and the surrounding district assembled at the home of Mrs. Bessie Solder to pay honor to her son, Private Coleman Solder, a returned soldier. Private Solder went overseas when but sixteen years old. He served with the Canadian Army Dental Corps and, after going to England, was transferred to the 43rd battalion. He reached the fighting line but was returned to England owing to illness.

IS CANADA'S ARMY UN-EMOCRATIC?

The charges publicly made in the Ottawa papers recently by Lieut. John Quinney concerning the unjust treatment of soldiers returning to Canada are about to be investigated, it is said, by an officer who has been appointed to hear evidence at headquarters in the different military districts.

BIG-E-NUFF

It is stated that Hon. S. C. McBurn and Hon. N. W. Howell will accompany Sir Robert Borden to England very shortly. It was stated during the recent election campaign that these two ministers would go overseas as soon as possible to look into certain desired reforms in the overseas military establishment. It would appear that there is work to be done over there in the way of reviving Canadian ideals which have begun to droop in Argyle House.

Some of our Canadian officers, or officials, seem to have been away from their native lands too long. They need to be sent back for a while, at least, to have their batteries stored again with the Canadian point of view. They need to be sent home to have their mental chronometers adjusted.

RECEPTION FOR BRIDE.
Mrs. C. A. Gurney, 48 Elliott Row, entertained on Monday evening in honor of Mrs. Fred Scott, who has just returned after her wedding trip, and other friends. With supper, music and games all had a pleasant time.

ACCIDENT IN TANNERY.
Luther Golding, injured at Peter's tannery yesterday afternoon, was reported as feeling comfortably at the General Public Hospital this morning. He was caught in a revolving screw and after being whirled around was tossed on the floor, more shaken up than injured.

ANOTHER LIQUOR CASE.
Three prisoners in the police court this morning pleaded guilty to charges of drunkenness. They were all remanded for judgment.

Everett Waters was before the magistrate yesterday afternoon charged with having liquor in his possession in a place other than his dwelling house. He pleaded guilty. He was again before the court this morning and after some evidence again remanded.

A young man was charged with lying and lurking in alley and also with vagrancy. He was remanded. The evidence of the policemen who arrested him was given.

RYAN CASE IN CHANCERY.
In the supreme court chancery division before Mr. Justice Giffen in the case of John P. Ryan et al vs. Annie Ryan et al, the master's report was considered today on motion of M. G. Teed, K. C., counsel for the plaintiff. The master reported that a balance of \$1,700 was in his possession and the court ordered the amount, after payment of costs, to be distributed to these entitled. This was a partition suit and involved the sale of a property in Brussels street belonging to the late Peter Ryan. M. G. Teed, counsel for the plaintiff and D. Mullin, K. C., W. J. Manney and L. A. Conlon for the defendants.

BOY SCOUTS VISIT.
The Waterloo street church troop of boy scouts visited the Coburg street church troop last evening. Scouts from Calland, A. S. M. Goldworthy of the Waterloo street troop addressed the boys and Scoutmaster Dunlop of Coburg street responded. Members of both troops exemplified the tenderfoot tests. B. C. Waring, district deputy commissioner, examined two candidates and presented to them their tenderfoot badges. He also handed to Mr. Goldworthy the warrant for the appointment of his brother, the late William J. Goldworthy, as assistant scoutmaster, to be handed to the latter's widow in recognition of his services with the scouts. St. Paul's and St. John's troops also met last evening. Great interest being shown by the boys and every troop is working hard to qualify for Senator Thorne's trophy.

MATTER OF REGISTRATION OF DRUGS IN FAIRVILLE CO RT.
In the Fairville police court this morning before Magistrate W. H. Allington, Glendon H. Allan was charged by the Pharmaceutical Society with dispensing drugs without being registered. H. C. McInerney appeared on behalf of the Pharmaceutical Society and Mr. Allan conducted his own defence.

J. Benson Mahoney, registrar of the society, and Frank Smith, who purchased a quantity of iodine from Mr. Allan, testified.

The prosecution charged that Mr. Allan was evading the law by dispensing as he was not a registered druggist. The defence contended that he was not acting personally but merely general manager of the Fairville Drug Co., Ltd., several of whose officials held pharmaceutical certificates, and that the business was under their supervision the law was being complied with.

A fine of \$20 and costs was imposed. Mr. Allan gave notice that he would appeal.

THE CASE OF PTE. WM. THOMAS

East St. John, N. B.,
March 5, 1918.

To the Editor of The Times,
Sir—The publication in this evening's Times of items relating to the treatment of soldiers, leads me to wonder how long this sort of thing is to continue. It is not necessary to go to Toronto for examples as to how soldiers who need medical attention are used. Take the case of my own brother, Pte. William Thomas, 20th Battalion, and it would be interesting to know how many times it has been duplicated in St. John. He was on active service with the 20th until severely wounded at the Battle of Courcellette. After receiving the best of treatment in the English hospitals to which he was sent, he was returned to Canada suffering from tuberculosis. Was he sent at once to a sanatorium? No. He knocked around Halifax for three weeks without getting any treatment for his trouble and was then sent to Hazelwood Hospital, Halifax, for one week, when he was ordered to report to St. John. He did, and was at home here for three weeks more, during which time both his friends and myself did our utmost to get justice for him, but to no avail. The Rev. F. P. Demisson, of the Tabernacle church, eventually had him sent back to Hazelwood, Halifax, where he died in July, in my opinion a victim of red tape. Surely those who are so ready to fight for our country are entitled to the very best of treatment when taken sick through the discharge of their duties. Thanking you in advance for your valuable space,

I remain, yours truly,
FREDERICK THOMAS.

WOMEN GAIN NEW ENTHUSIASM IN WORK IN THE WAR

Mrs. J. A. McAvity, Home After Ottawa Conference, Says Much Benefit Will Result From It

The most lasting impression of the women's conference with its war committee of the dominion cabinet, held in Ottawa last week, according to Mrs. J. A. McAvity, who was one of the delegates from New Brunswick, was the intense desire of the women present to do whatever lay in their power to aid in winning the war. The greatest harmony was shown and one of the results of the conference will be the closer co-ordination of the various branches of women's work in order to prevent overlapping and to ensure the best results from the energy expended.

The gathering was an education and an inspiration to the delegates and they left Ottawa with the intention of returning to their homes ready to aid in the movement to utilize to the fullest the efforts and the enthusiasm of the women of the country.

The wide variety of subjects dealt with at the conference is shown by the headings of the programme outlined in advance for their consideration. These included: Advisory committee of heads of national organizations, section on national registration, propaganda through women's organizations, press propaganda, co-ordinating committee, industrial activity, agricultural production, and thrift.

The delegates divided into sections to expedite the consideration of the problems but even this failed to give sufficient time for the work prepared for them and additional matters which they considered required attention and an extra day was added to the conference.

Mrs. McAvity was also impressed by the evidence that closer co-operation in French-Canadian ladies present and the cordial relations shown at the conference are expected to bear fruit in the future of the dominion.

There was no mistaking the tone of the gathering—the determination of the women to do whatever lies within their power for the winning of the war and the upbuilding of the nation, and the confidence is regarded as the first step towards large accomplishments.

As the reports of the various sections are compiled they will be distributed and the delegates will do their part in carrying the messages contained therein to the women's organizations of their various provinces. A general stimulus in all branches of women's work is expected as a result of the meeting.

EXCITING TIME IN GAME ON VICTORIA ALLEYS

C. P. R. Games on Victoria Alleys.

On the Victoria alleys on Tuesday afternoon the C. P. R. Checkers won four points from the office staff in a fast and exciting game which was marked by sensational finishes. Ervin, at the start, started off the first game with a 101 score, but forgot to finish. "Doc" Hammond rolled a good game once he got started. Sandy Nobles was not up to his usual form. Codrre and Griffin were in a class by themselves. Scribner and Connell occupied the cellar position for the checkers. Carleton proved to be a dark horse. Chase surprised all present when he toppled them over for 108, the highest score during the game. Following is the result—

Office:
Nobles 71 68 66 205
Codrre 82 79 78 289
Griffin 76 72 80 228
Hammond 66 79 79 224
Ervin 101 72 72 245

806 870 876 1141

Checkers:
Leonard 79 105 78 262
Chase 89 82 76 247
Scribner 71 75 77 223
Connell 79 71 79 229
Carleton 88 97 81 266

406 480 481 1227

Morrissey was not present. His feet were bothering him. Try a hot iron, Ned.

"Old Pep" Connell will need some cough medicine today.

Leonard was heard to say something about "old age defating beauty" as he wended his way homeward.

"Snorts" was in good condition.

"Westy" Carleton rolled a consistent game.

Nobles says the alleys are not wide enough.

If there was a fence on the sides of the alleys Griffin's ball would have been more effective.

The next match game will be on next Tuesday when Josselyn will supply the matches.

"Doc" Hammond was present in more ways than one.

A DISTRESSING CASE

Walter C. Fewings Ends His Life With Revolver Shot

A tragic affair took place this morning when Walter C. Fewings, a well-known young business man of the city, was found dead, shot through the right temple, in the warehouse of the Ford Motor Works, Marsh Road. Mr. Fewings was employed as an accountant between 9:30 and 10 o'clock this morning some of the employees having cause to enter the warehouse in his right hand. Mr. Fewings' home is at 162 Mount Pleasant avenue and he was married only about a year ago. He leaves, besides his heart-broken wife, one child, a little girl. He was about twenty-four years of age. Financial troubles are ascribed as the cause of his act. Coroner Kenney had not determined at noon as to the holding of an inquest. The young man's parents live in London, Ontario.
