

SUGAR MARKET OPEN; CABINET ORDER STANDS

Premier Meighen, After Hearing, Refiners Declares Suspension Order Permanent.

BOARD EXCEEDED POWER AND INTENTION

Parliament Never Intended it to be Board to Prevent Losses But Excessive Profits

Ottawa, Oct. 20.—At the enquiry being conducted into the sugar situation by the Government today, the Prime Minister, the Right Hon. Arthur Meighen announced that the order in council suspending the Board of Commerce's decision to limit the importation of sugar, would be maintained.

Reasons For Action.

He quoted the two clauses of the Board's order which had been gone into before the cabinet. The first clause relates to the Dominion and prohibited importation and stated that the Government had three main reasons for this position. It had to do with the fact that in its opinion the Board had gone beyond its powers; even if it had not exceeded its legal powers the order was not in accordance with what was contemplated by Parliament when the body enacted legislation constituting the Board of Commerce.

Suggestion to Refiners.

That it would be for the sugar refiners' interests to oppose the action of the Government in suspending the order of the Board of Commerce respecting the maximum price and importation of sugar to show cause why this should not be done.

What Refiners Ask.

It is reported that the refiners are making two new proposals, as follows:—That the Government should allow the refiners, by way of credits or loans, sufficient financial assistance to enable them to meet the present situation.

EARLY RETURNS IN BRITISH COLUMBIA FAVOR GOV'T CONTROL

Question Before Electors is Whether Liquor be Controlled by License or Province.

Victoria, B. C., Oct. 20.—Early returns in the prohibition referendum today give government control 2,990; prohibition 1,776.

Cabinet Order To Send Sugar Down To Sixteen Cents

Toronto Expects Big Drop in Price of Granulated Within One Week.

Toronto, Oct. 20.—As a result of the Dominion Cabinet's refusal to uphold the Board of Commerce order fixing the retail price of sugar at 21 cents a pound, the price will drop to 17 cents, and perhaps 15, in the course of the next week, according to Toronto buyers.

ST. JOHN COUNTY RECOUNT DEMAND WAS IRREGULAR

Judge Armstrong Sustains Objection Raised by Hon. J. B. M. Baxter.

PETITIONER WAS NOT PROPERLY DESCRIBED

Court Adjourned Hearing to Permit Study of Legal Problem Raised.

The first round in the series of election events instituted by the Government in an effort to oust candidates elected on the Opposition ticket, was won by the Opposition yesterday, under the skillful direction of Hon. J. B. M. Baxter.

The Court Constituted

A Government agent had applied for a recount of the votes cast in the County of St. John for the Provincial Election, entertaining the hope that fate would smile kindly upon them and that the recount would rid them of the man they most feared, Hon. J. B. M. Baxter, who has been declared elected as a member of the legislature from St. John County.

Following the order of Judge Armstrong in compliance with the petition of John McKinnon for a recount of the votes cast in the county, the court assembled at 10 o'clock yesterday morning.

Hon. Dr. Baxter, addressing the court, said he was of the opinion there should be no recount on the grounds that the documents calling for the recount were irregular. He based his claim upon three points:

POLICE RAID STOPS DUBLIN NOON TRAFFIC

MacSwiney Suffers Third Delirium Attack But His Condition Improves Later.

KILLED OWNER OF OLD MALT HOUSE

Irish Volunteers Stopped at Fitzgerald Funeral by Soldiers With Fixed Bayonets.

London, Oct. 20.—Lord Mayor MacSwiney suffered a third, but milder attack of delirium this evening, according to the League bulletin. A new development in his condition, which attains apoplectic proportions in the limbs.

A second attack more severe than the first was sustained by the Lord Mayor this afternoon. He is now quiet and more normal mentally.

Big Raid in Dublin

Dublin, Oct. 20.—An auxiliary division of the Royal Irish Constabulary carried out an extensive raid in the heart of the city today. Business premises just off Sackville Street were visited and searched and two men were arrested. About noon all traffic was stopped, two armored cars and a large number of pickets being posted to prevent a disturbance.

Dublin Castle has issued a report that a number of raids were recently carried out by men in uniform, who, however, were not connected with the military. In one case they were accompanied by women, who cut the hair of the wife of the tenant of the house and burned it.

Stop Irish Volunteers

Cork, Oct. 20.—Seven hundred Irish volunteers followed the body of Michael Flinn to the St. Michael's Church today, but were turned back by a strong military force posted at the bridge leading to the cemetery.

Admission to the cemetery was strictly limited to fifty persons, inclusive of the mourners. Soldiers with fixed bayonets prevented any evasions and there were no disorders.

The other hundred strikers in jail are still alive, but it is reported that Murphy's death is expected hourly.

THREE SHIPS ARE FAST IN YUKON

Fear Vessels Will be Frozen in Ice for Winter and be Lost.

Juneau, Alaska, Oct. 20.—Word was received here Tuesday of the anxiety of White Pass and Yukon route officials over the non-arrival of the river steamers Casca, Nesselita and White Horse, carrying 176 passengers.

No word has been received from the ships in the last 72 hours. The vessels are believed to be stuck on a bar 100 miles upstream from Dawson. There is a strong possibility that all three boats may be a total loss if they remain where they are in mid-stream until next spring.

Together with the Selkirk, now sunk at the mouth of these vessels will prove a disastrous winter for the province's summer season just passed.

THREE YEARS FOR THEFT OF HORSE

Leo Morrell of Fredericton Will be Guest at Dorchester for His Crime.

Special to The Standard. Fredericton, Oct. 20.—Leo Morrell, who masqueraded in this city under the name of Leo Miller, was arrested last Thursday by Sheriff Foster, of Woodstock, charged with stealing a horse, harness and wagon from Camp Brea, of this city, some weeks ago, and also obtaining money under false pretences. He was taken before Magistrate Comden and sent up for trial on the three charges.

Yesterday Morrell appeared before Chief Justice Chandler at the sitting of the King's Bench Division at Woodstock and pleaded guilty to all the charges. The grand jury brought in a verdict of guilty and he was sentenced to one year for stealing the horse, one year for stealing the harness, and one year for stealing the wagon. He was also given three years for obtaining money under false pretences when he sold the outfit, but the latter sentence was allowed to stand, and he will serve three years in Dorchester penitentiary.

MINERS AT WORK

Ottawa, Oct. 20.—Word has been received by the Minister of Labor to the effect that all the miners in District 15, Alberta and British Columbia, are now working. A telegram stated that the miners in Permian and Michel, B. C., were back to work. This was the first telegram received by Senator Robertson on his return from the West.

Porch Climbers Got Her Jewels

LADY BORDEN IS ROBBED OF HER JEWELRY

Porch Climbers Entered Family Residence and Got the Treasures, Leaving No Clue

Ottawa, Oct. 20.—Porch climbers who visited the home of Sir Robert Borden, 301 Wurttemberg street, during the dinner hour on Tuesday evening made a complete getaway with the major portion of Lady Borden's personal jewelry valued at \$6,000.

The burglars conducted their job so skilfully that the robbery remained undiscovered until last night. The police have absolutely no trace of the burglars who did not leave any trail to work on.

All Jewels Gone

Lady Borden discovered the loss only last evening when she had occasion to look for a small souvenir and found that all her jewelry was gone. Nothing about her room was disturbed and the drawers had not been ransacked. Lady Borden thinks that the burglars must have climbed a tree and thus obtained access to the veranda and then to her room.

TRAFALGAR DAY WILL BE OBSERVED IN FREDERICTON

Addresses in Schools and at Theatres to Give Aid to Navy League Plan.

Special to The Standard. Fredericton, Oct. 20.—The 115th anniversary of the battle of Trafalgar will be observed here tomorrow in a manner calculated to give an impetus to the collections for the Navy League. Arrangements have been made for speakers to address the scholars in the various public schools in the city during the morning, dealing particularly with the British Navy work during the war, and an interesting function at the Gaiety Theatre when there will be an opportunity for public recognition of the occasion.

Members of the Victor Hatway Chapter, I. O. O. F., will produce a talk. Capt. G. E. T. Roberts will speak briefly on the "Good Hope," the British warship on which Victor Hatway, Fredericton's naval hero, lost his life with Admiral Craddock. A picture of the "Good Hope" in action will be presented to Midshipman Hatway's sister, Mrs. G. E. Howit.

TELEGRAPH OPERATORS QUIT

Chicago, Oct. 20.—Operators in the local office of the Postal Telegraph Company walked out tonight after a reduction in bonuses had been announced. Company officials said only about a dozen quit, while the men claimed that the entire night force of about 300 had left.

No News of Strike.

New York, Oct. 20.—Romeo Johnson, president of the Commercial Telegraphers' Union of America, said here tonight he knew nothing of the reported walkout. "The union has no record orders for a strike anywhere," Mr. Johnson said.

ROBINSON TO STAND TRIAL NEXT TUESDAY

St. Andrews Grand Jury Returns True Bill on Charge of Slaying Baby.

MRS. MATTHEWS REPEATS STORY

Constable Arrested Man on Capital Charge as Soon as Indictment Was Returned.

Special to The Standard. St. Andrews, Oct. 20.—The grand jury for Charlotte County, called in extra session today, returned a true bill against Albert Robinson, Upper Milltown, on the charge of murder.

The respondent, who was in the court room when the indictment was returned, was placed under arrest and on being arraigned before Judge McKeown entered a plea of not guilty. The case is set for trial on Tuesday next.

This case is the outgrowth of the trial of Mrs. Louisa Matthews who was acquitted by a Charlotte County jury last Saturday on the charge of murdering her infant daughter. She took the stand in her own defense, at the trial and the story she told implicated Robinson, a man 60 years of age with whom she was making her home, as the child's murderer. She was other witnesses appeared before the grand jury today and told their story.

Out Two Hours

The jury was two hours in arriving at a decision to indict. Great interest was taken in proceedings, the court house being crowded with many county folks who expressed great sympathy for the defendant as he was led off to jail to await the trial on Tuesday. Nine witnesses have been summoned by the Crown.

It is understood an influential citizen of St. Stephen has interested himself in the case of Mr. Robinson and has secured Messrs. Shipp & Hanson of Fredericton to defend the prisoner.

QUEENSLAND LEAD MAY BE REDUCED

Government Expects Majority of Twenty Will be Cut to Four Now.

London, Oct. 20.—Advice from Brisbane, Australia, say that it is now certain that the Queensland elections will give the government a majority of four as compared with twenty in the last parliament.

The change in public opinion is attributed largely to dissatisfaction with the government's financial legislation and administration.

KILLED GIRL WHO REFUSED TO MARRY

New York Dentist Shot His College Chum to Death in Her Office.

New York, Oct. 20.—Dr. Max Howe, a New York dentist, today entered the Brooklyn district office of Dr. Ruth Rubin, a college chum, and shot her to death, after she had refused to marry him. Then he shot himself in the head, wounding himself seriously. The detectives reported that Howe, on entering the office occupied by Dr. Rubin and man with whom she was in partnership, called her to the door. While they were standing in the hallway, he fired two shots at her after his proposal had been rejected. One bullet pierced the woman's heart.

At the hospital Rowe's condition was said to be critical.

AIRMEN HOME AFTER 9,000 MILE FLIGHT

Quartette Will Recommend Regular Route Between Mincola and Alaska.

Mincola, L. I., Oct. 20.—Escorted from New York to Mincola by an aerial fleet, four United States army airmen today completed a 9,000-mile round trip to Alaska which they started July 15. So enthusiastic was Captain St. Clair Street, squadron commander over the success of the aerial survey made by his "ship" that he announced tonight his intention that the route blazed by the partner that the route blazed by the army fliers from Mincola to Nome be made permanent.

Captain Street declared that if his recommendations were followed, regular air service to Alaska would be inaugurated in the near future.

SENT FOR TRIAL

Amherst, N. S., Oct. 20.—Michael Breen, a young Russian was charged in court here today "with forcibly taking away Miss Haud Ferry, aged 17 years, with intent to have carnal knowledge." After the evidence of several witnesses was heard, he was committed for trial at the next session of the Supreme Court.

WORLD NEWS TODAY

CANADA

The suspension of the sugar order issued by the Board of Commerce, has been made permanent. Lady Borden was robbed of jewelry valued at \$6,000 by porch climbers.

Albert Robinson of St. Andrews, N. B., to face trial next Tuesday for slaying babe of Mrs. Louisa Matthews.

Toronto is expecting sixteen cents sugar within a week. Early returns indicate that Government control of the liquor traffic is favored in the referendum in British Columbia.

THE BRITISH ISLES

Lord Mayor MacSwiney is much worse; Murphy, another food striker, is reported dying in Cork jail.

The dead lock in the British miners' strike continues unchanged. A great raid was carried out by the police in Dublin centre yesterday.

EUROPE

An earthquake is reported from France. Russians offer one million rubles for General Budenny, dead or alive, who is aiding General Wrangel.

The dead lock in the British miners' strike continues unchanged. A great raid was carried out by the police in Dublin centre yesterday.

Advocacy by some extremists of withdrawing the pumping staffs from the mines finds few supporters among the miners generally. Robert Smillie and other leaders are strongly against it.

Renewed efforts were made at the Ministry of Labor today through negotiation by the parties concerned to avert a strike on the railroads and in the transport industry. The negotiations, however, were adjourned until tomorrow.

No Signs of Peace

There were no signs tonight of peace in the coal industry, but the strike has not yet extended to the allied trades, such as the rail and transport workers.

One effect of the coal strike will be an increase in the cost of living owing to the decline in the value of the pound sterling and the increased cost of inward-bound freights caused by the diminution of exports, declared Austen Chamberlain, Chancellor of the Exchequer, in answering a question in the House of Commons today.

Many Allied Trades Out

Official estimates of the number of people thrown out of employment in other industries as a result of the coal strike are lacking, but newspaper estimates place the number at 150,000 at least, with the total growing steadily.

Thomas Ashton, General Secretary of the miners, in a speech at Manchester today said that if the Premier officials into conference with regard to getting more production out of the mines, the first meeting would give the Premier all the guarantees as to increased output he needed. The miners' leaders were willing, Mr. Ashton said, to attend such a conference.

PURSE OF GOLD FOR PARISH PRIEST

Rev. Father Moore Honored by Friends as He Quits St. Stephen Church.

Special to The Standard. St. Stephen, N. B., Oct. 20.—A very pleasant and surprising affair took place in St. Stephen's Church Rectory this evening when the parishioners met and presented Father Moore with an address and a purse of gold. The address was read by Mrs. Charles Casey.

Father Moore was in the midst of packing up and was completely surprised but replied in touching and grateful terms to the address read to him and thanked the good people of Milltown for their kindness to him not only on this occasion but during the whole eight months of his stay in Milltown. Father Moore goes from here to Chipman tomorrow.

RECOUNT ORDERED IN CHARLOTTE CO.

Application Made at Woodstock in Behalf of Mr. J. M. Flewelling.

Special to The Standard. St. Stephen, Oct. 20.—An application was made before Judge Carleton at Woodstock, today, for a recount of the vote cast at Charlotte County in the Provincial election on October 9th. The application was made by M. K. Ockburn, K. C., and R. F. Hartley, of Woodstock, on behalf of J. M. Flewelling, one of the candidates and is supported by affidavits of George Gay and Berton M. DeWolfe, deputy returning officers, and Vernon Grimmer, one of Mr. Flewelling's agents at one of the St. Stephen polls.

Acting upon the application Judge Carleton has ordered a recount to be held at the Court House in St. Andrews at 10 o'clock on Saturday next.

One Error Known. An admitted error in the returns of one of the returning officers has forced Mr. Flewelling to the extra expense and trouble. The recount will not only show Mr. Flewelling to have been elected, but is expected to show Mr. Pollard, the fourth man on the Opposition ticket to have won over Mr. Scott, who has been declared elected on the Government ticket.

NOT GUILTY OF MURDER.

Brampton, Ont., Oct. 20.—The jury in the case of Frank Larson, charged with the murder of his brother-in-law James Davidson, this afternoon brought in a verdict of "not guilty," do so of their own volition.

DEADLOCK IN MINER STRIKE STILL STANDS

No Attempts Made by Government or Coal Miners to Reach Agreement.

TRANSPORT AND RAILS STILL WORK

One Hundred Thousand Workers in Other Trades Out as a Result of Strike.

London, Oct. 20.—The day brought no new developments in the coal strike, neither side to the dispute made any approach to the other and no outside mediation was instituted. It is still hoped that the proposal of Wm. Bruce, president of the South Wales Miners' Federation may eventually lead to renewed negotiations, but it is admitted that it must first be adopted officially by the miners' executive, which has so far been impossible, as the members of the executive are scattered all over the country.

Advocacy by some extremists of withdrawing the pumping staffs from the mines finds few supporters among the miners generally. Robert Smillie and other leaders are strongly against it.

RIGHT PEOPLE ALWAYS CAUGHT IN REPRISALS

Sir Hamar Greenwood Regrets Raiding Policy But Says No Mistakes Made.

ARTHUR HENDERSON COMPLAINS IN HOUSE

Irish Republican Army Terrorizes Whole Island, Declares Chief Secretary.

London, Oct. 20.—The eagerly awaited debate on the Irish situation was precipitated in the House of Commons today by Arthur Henderson, former Labor Member of the Cabinet, who offered a motion demanding an inquiry into reprisals by the police and soldiers in Ireland.

While admitting that the armed forces of the Crown had suffered provocations, Mr. Henderson declared the charges of the reprisals they had inflicted were "quite in keeping with the aggressive policy which has been consistently pursued by the Government."

The government's policy seemed to him to aim at stamping out Nationalist opinion and breaking the spirit of the Irish people.

Building New Houses.

Questions in the House checked the fact that under the Housing Acts, 10,047 houses had been constructed, and 5,320 were now in course of construction.

Replying to Mr. Henderson's remarks, Sir Hamar Greenwood, Chief Secretary for Ireland, declared Mr. Henderson had not produced a single case to justify his action. The Chief Secretary stoutly defended the Government forces against the charges. He declared a great majority of the cases were alleged without conviction or were alleged against policemen or soldiers acting in self-defence. The Chief Secretary detailed the circumstances of the murder of Inspector Brady. He admitted there had been reprisals in this case. Three shops belonging to notorious Sinn Feiners had been burned, he said, and seven of their shops smashed.

SUGAR MARKET OPEN, CABINET ORDER STANDS

Premier Meighen, After Hearing, Refrains Declares Suspension Order Permanent.

BOARD EXCEEDED POWER AND INTENTION Parliament Never Intended it to Be Board to Prevent Losses But Excessive Profits

(Continued from page 1) The case for the refiners was presented by Huntley R. Drummond, president of the Canadian Refiners' Association, Ltd. He submitted that the refiners had on hand, and under purchase, due to arrive during 1920, 356,000,000 pounds of sugar, representing an investment of over \$85,000,000. That of this sugar, approximately 30,000,000 pounds represents sugar to be manufactured from beets grown in Canada, which must be marketed before the end of January, 1921, the remainder being cane sugar bought at an average cost laid out at the rate of 18 cents a pound.

That at 25 cents raw sugar is the equivalent of a 21 cent refined cost exclusive of any profit. That the refiners are taking 18 1/2 cents a pound for this refined sugar, which has cost them 22 cents a pound. That the amount of refined sugar in their hands and to be manufactured to the end of the year is approximately 250,000,000 pounds.

That at the price of 18 1/2 cents a pound, this represents a loss of 3 1/2 cents a pound on 250,000,000 pounds of sugar, or \$9,375,000. These figures have been carefully compiled, and can be established.

Cost 22 Cents. "The proposition had been made," Mr. Drummond proceeded, "that in order to meet the competition of importations of sugar forced upon the market in the United States at far below the ordinary price there obtaining, the refiners ought to sell at 15 cents a pound, 250,000,000 pounds of sugar, which cost them 22 cents a pound. But it was asked, was not the situation of the refiners' own making? Had they not been making at times colossal profits?"

"These questions," Mr. Drummond said, "are quite pertinent. We admit the public's right to full and frank answers. We answer, first, that the situation is not of our making; that for a long time we have been running our business under government direction; and, second, that none of us have made colossal profits, and that some of us have made no profits at all."

So far as profit-making was concerned, the refiners had during the greater part of the last 12 months been restrained by a Government agency, the Board of Commerce, which in 1918, compelled that its restraint upon the refiners had lessened their earnings to the advantage of the consumer to the amount of over \$200,000,000.

End Was Sudden. The Government sugar hearing came to a sudden end when Huntley Drummond concluded his statement of the refiners' case by saying: "As it is now stated that there was not a warrant in law for the action of the Board, we do not press for the order to be confirmed, but leave our claim for redress in the hands of the people and the Government of Canada, with complete confidence that justice will be done."

Premier Meighen immediately said that it was not necessary to hear the wholesalers, retailers or representatives of other bodies, so that the refiners' sentence concluded that the Government's action was correct in law and there was therefore nothing more to say.

Following the hearing of the sugar case, the Cabinet Council at a special meeting passed an order in council declaring permanent the suspension of the Board of Commerce sugar order.

The question of other assistance to the refiners was discussed, but there will be further consideration before a final decision is reached.

THE TONIC OF RHEUMATISM

Happily Stopped When He Began to Take "Fruit-a-tives"

3 Ottawa St., Hull, P. Q. "For a year, I suffered with Rheumatism, being forced to stay in bed for five months. I tried all kinds of medicine without relief and thought I would never be able to walk again. One day while lying in bed, I read about "Fruit-a-tives" the great fruit medicine, and it seemed just what I needed, so I decided to try it. The first box helped me, and I took the tablets regularly until every trace of the Rheumatism had gone.

RIGHT PEOPLE ALWAYS CAUGHT IN REPRISALS

Sir Hamar Greenwood Regrets Raising Policy But Says No Mistakes Made.

(Continued from page one.) He was convinced, however, that the persons who suffered from the reprisals had committed or possibly helped in the murder of the inspector. He regretted the reprisals, but declared that no man had no right to complain. "The difficulty is," continued the Chief Secretary, "that there is a reign of terror which extends throughout the country. The Irish republican army, organized in brigades, companies and platoons, has broken up the country with branches in England, Scotland and Wales, have terrorized until recently nearly the whole of Ireland. It is an aim of the Government to break down the power of the Crown. It is only the British Government acting through its forces in Ireland that can break this terror. The Irish people are business under it. The Roman Catholic Church is admittedly impotent to break it."

See End of Murders. He declared he believed the vast majority of the people of Ireland prayed for the cessation of murder and outrage. "I foresee at no distant date the end of the reign of terror in Ireland," he said. Connected with terrorism is the boycott, and this also was being broken down, he asserted. The Chief Secretary mentioned some other reprisals and detailed graphically the provocation offered to the Crown forces by the killing of a constable. He referred to the provocation at Balbriggan after the killing of two police officers and expressed regret for it, "because it did mean a certain break in the discipline of the Irish police." He had paraded the men, he said, and told them that no matter what provocation there might be they must not give way, but he could not in his heart of hearts think it might be right or it might be wrong—condemned in the same way those policemen who lost their heads as he condemned the assassins who gave provocation for this outrage.

"TOUGH LAND BREEDS STURDY TYPE OF MEN"

So Declares Dr. Grenfell of Labrador in Address at Which Sir Robert Presides.

Ottawa, Oct. 20.—At a luncheon held today in connection with an appeal for assistance for the Grenfell Labrador medical mission, Dr. William T. Grenfell said he was often asked why people lived in Labrador. There was no answer except that they did. He would rather live one day in Labrador than six months in White-chapel, London, where he had spent part of his early life, and where conditions were terrible. "Labrador is a valuable asset to humanity in that it breeds the kind of men we want," said Dr. Grenfell. "Men who can uphold the best traditions of the sea; who can handle our transportation. It is a tough country to live in, and therefore breeds a sturdy type of men and women. If you can help make life more possible in Labrador, either through the eyes of a surgeon, or a timber merchant, who would start an industry in our forest belts, we need this help."

Sir Robert Borden presided and in introducing Dr. Grenfell, voiced his deep and earnest appreciation of the work which the head of the mission had achieved on this side of the Atlantic ocean, during the past 23 years.

HON. DR. SMITH NEW CHAIRMAN HYDRO-ELECTRIC

Appointment Announced at Fredericton by the Premier After Cabinet Session.

Special to The Standard, Fredericton, N. B., Oct. 20.— Announcement of the appointment of the Hon. Dr. R. A. Smith, former Minister of Lands and Mines, as chairman of the New Brunswick Hydro-Electric Commission, was made this evening by Premier Foster. The appointment means that Hon. Dr. Smith and Hon. C. W. Robinson have changed places, the latter having resigned as chairman to become Minister of Lands and Mines this afternoon and outlined the arrangements for the first international live silver fox exhibition, which will be held at Montreal in November, suggesting that New Brunswick should give a trophy for competition at the show for the encouragement of the commercial breeding of fur-bearing animals under conditions to be recommended by the Minister of Lands and Mines. The Government will co-operate in the matter along the lines suggested.

Still in Session. The Government are in session again tonight and will meet tomorrow, by Hon. L. A. Dugal, who has been a member of the Government without portfolio, left for his home at Edmoustone tonight. He did not offer for re-election in Madawaska at the recent election, and this afternoon he took leave of his colleagues, this completing his duties as a member of the Cabinet. Mr. Dugal was elected first to the Legislature in 1912, when Mr. Peletier, now sheriff of Madawaska, and he were the only members in opposition to the then Government. After the election in 1917, when his party was returned to power, Mr. Dugal was elevated to membership in the executive council without portfolio, which position he has since occupied.

SEVEN KILLED, TWENTY HURT IN SIDE-SWIPE

Open Switch Thought to Have Been Cause of Eric Disaster.

Eric, Pa., Oct. 20.—Seven persons were killed and twenty injured, three probably fatally, when New York Central train No. 63, east bound, side-swiped train No. 23, west bound, two hundred feet west of the Union depot here at noon today. A switch thought to have been thrown by members of a section gang, working at the scene of the wreck, is believed to have caused the accident. The west bound train had just left the depot, and the east bound train, a Cleveland-Buffalo express, was coasting into the station when the crash came. A car on the eastbound train suddenly leaped from the rails and crashed into the Pullman, tearing its steel sides away as if they were paper.

Pullman a Wreck. The occupants of the car were hurled from their seats and thrown into a mass as the steel car tore into the side of the Pullman. Suddenly the heavy Pullman toppled over with the open side up in the air. Police and firemen were forced to use ladders in taking the dead and injured from the wreckage. All of the dead were badly mangled, and it is almost impossible to identify three of the dead until the Pullman list can be checked up.

Teeth Shine

When the film goes—watch and see

Learn now how teeth look—how they feel—when you comb the film. Get from your druggist, without cost, this ten-day test. Note the instant results, then look in ten days. Millions have already done this. Leading dentists everywhere advise it. Now show your home folks what clean teeth really mean.

The war on film. Dental science, the world over, is fighting a war on film. Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. And most tooth troubles are now traced to it. Those troubles have been constantly increasing. The ordinary tooth paste does not end film, so the tooth brush has proved inadequate. Millions know how well-brushed teeth have discolored and decayed.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. And, despite all brushing, few escape these troubles caused by film.

ST. JOHN COUNTY RECOUNT DEMAND WAS IRREGULAR

Judge Armstrong Sustains Objection Raised by He J. B. M. Baxter.

PETITIONER WAS NOT PROPERLY DESCRIBED. Court Adjourned Hearing Permit Study of Problem Raised.

(Continued from page 1) That Judge J. B. Armstrong claimed the objection of recount during himself as judge of the Court for the City and County of St. John, whereas, according to C. 118, Section 2 of the County Statutes of New Brunswick, he has described himself as Judge St. John County Court. Therefore, he claimed that strictly speaking, Armstrong had signed himself as a court which legally had no voice.

That no applicant was described as required by law, in the paper filed. That John McKinnon, who was named as applicant, was not named in the affidavit of which process were issued nor described as applicant, and that Dr. Baxter, one of the principal parties concerned, not only officially who the application was supposed to be, but he submitted that they should have been a valid application, which might be supported by affidavit, and that the affidavit was totally insufficient.

The Objection Raised. W. P. Jones, K.C., of Woodville, argued for the applicant. He claimed that Judge Armstrong was judge of the County of the City and County of St. John and was, therefore, the proper person to sign the affidavit. He submitted that under the law of the Election Act the man who the affidavit may be the applicant. Mr. McKinnon might be regarded as applicant. It is from Mr. McKinnon's affidavit that Dr. Baxter, in reply, said the information must be made to the judge of the County Court. The information must be made to the judge of the County Court, Section 2, Consolidated Statutes, which that judge shall be a particular court. This is not a resident of another part of the province. The signature must appear on the face of the notice to be that of the applicant. He claimed that the applicant must be specifically named. ST. JOHN COUNTY RECOUNT DEMAND WAS IRREGULAR

Judge Armstrong Sustains Objection Raised by Hon. J. B. M. Baxter.

PETITIONER WAS NOT PROPERLY DESCRIBED

Court Adjourned Hearing to Permit Study of Legal Problem Raised.

(Continued from page 1)
That Judge J. B. Armstrong signed the declaration of recount describing himself as judge of the County Court for the City and County of St. John, whereas, according to Chapter 118, Section 2, of the Consolidated Statutes of New Brunswick, he should have described himself as judge of the St. John County Court. Therefore he claimed that strictly speaking, Judge Armstrong had signed himself as judge of a court which legally had no existence.

The objection raised
W. P. Jones, K.C., of Woodstock, argued for the applicant, his argument that Judge Armstrong was judge of the county of the City and County of St. John and was, therefore, the legally constituted one to sign the order. He submitted that under the wording of the Election Act the man who made the affidavit may be the applicant, hence Mr. McKinnon might properly be regarded as applicant. It appears from Mr. McKinnon's affidavit that he was agent for Mr. Bentley, and as such surely he must be regarded as competent to make the application. Dr. Baxter, in reply, said that the information must be made to appear to the judge of the County Court having jurisdiction, that Chapter 118, Section 2, Consolidated Statutes provides that such judge shall be judge of a particular court. This court, he submitted, must be specifically designated. The signature must appear on the face of the notice to be that of the proper official. He claimed that his opponents had thrown away their case, and that the four days allowed from time of application for the signature to be secured had now elapsed. According to Mr. Jones, he said, even a resident of another province or an alien, could demand a recount. He submitted that no one but an elector of the constituency could make such application, and that he must be described as such.

Time Taken to Consider
After the arguments were all in Judge Armstrong briefly reviewed the situation placed before him, and regarding the question before him, and more than ordinary importance, and one which should not be decided too hastily, adjourned the court until four o'clock, when he would give his decision.

At the reassembling of court, Judge Armstrong did not sustain Hon. Dr. Baxter's first contention, passed over the second, and fully sustained the third grounds for objection and decided against a recount.

The small army of Government hangers on present were keenly disappointed at the turn affairs had taken against them. They spent some time in consultation as to the next move to be made, and then left the court room dejected in spirits.

DOCTOR WOULD INNOCULATE ALL IN THE SCHOOLS

Claims Such Methods Would Eradicate Most Diseases from Which Children Suffer.

Ottawa, Oct. 20.—The outcome of the Dominion Child Welfare Conference held for the past two days in the Daily building, was the formation today of the Canadian Council of Child Welfare, a body of nationally organized bodies interested in child welfare work are to be represented on the council. Dr. Olin A. Amoy, deputy minister of health, explained the relationship which might exist between the voluntary organization and the department of health. If the council desired to put on a nation-wide child welfare week, he felt sure the department would help in every way possible.

A resolution recommended the appointment of a minister of parliament in the dominion. The resolution pointed out that the post was a necessity. A second resolution which called for the compulsory registration of births within six weeks, was unanimously adopted. Goes to Halifax

Another called on the government to rescind the legislation which cuts out the franchise privileges for the sending of births, marriages and death notices after April next. This was adopted. The next place of meeting will be Halifax. A further resolution drew attention to the death of trained and untrained nurses. It called on the government to use all the influence in its power to bring to the notice of all in the country the increasing shortage and to recruit students for nursing training schools.

The final resolution, which was adopted and applause, asked that legislation be enacted prohibiting the placing out of children either in free or boarding homes, except by adoption, or except by the sanction of some responsible official of a specific organization, appointed by the province to look after this work.

Ottawa, Oct. 20.—Dr. Day, Kingston, advocated the inoculation of all school children for immunization from diseases, especially diphtheria, at the morning session of the Dominion Child Welfare Conference. Col. Albert Carless, medical director of Dr. Barnardo's Homes, London, stated that there was too much money being spent on infectious hospitals. They had a great deal of scarlet fever, and it had been proved that it was not necessary to inoculate for this. In the course of an address regarding the immigration of Dr. Barnardo's boys to Canada, Colonel Carless criticized both the immigration officials and Canadian railways. He suggested that all examination of immigrants should take place on the other side of the Atlantic.

Claims Trains Dirty.
The trains on which immigrants were compelled to travel in Canada last week, were described as filthy and there was no attempt at disinfection. Mrs. Muldrew, director of Home Branch, Soldiers' Settlement Board, spoke on maternal and child welfare in isolated areas or in newly settled districts and territories.

Dr. J. G. Page, chief of the Division of Health, Immigration and Marine Hospitals Service, Department of Health, spoke of the necessity for better medical service on trans-Atlantic boats. Miss Griesbach, Toronto, insisted that there should be a national humane provision for expectant mothers, whether they live in outlying districts or in the city.

Simonds And Loch Lomond Fair

Large Attendance from City and Other Sections—Class of Exhibits Excellent.

The annual fair held by the Simonds and Loch Lomond Agricultural Society attracted large crowds of people to the old and famous fair grounds yesterday. The weather was all that could be desired for a county fair, the stock, horses, produce were as good if not better than any previous year, showing that the farmers of this parish are taking more interest yearly in their productions and the visitors were highly pleased with the exhibits. Many ladies and gentlemen from the city and from sections of the country many miles away from the fair grounds were in attendance, and the circle round the show ring as well as along the side of the road held many automobiles. No little praise may be given William Thomas Boyle, the present, and A. F. Johnston, the retiring secretary-treasurer of the society, for the success of the fair, and R. C. Gilmour is spoken of by these officials for great assistance. M. McLeod, superintendent of Agricultural societies in the province, arrived from Fredericton and stated that he was highly pleased with the fair, and thought the exhibits were among the best shown at any fair in New Brunswick.

Among the visitors to the fair were: Mayor Schofield, Commissioner Frink, Commissioner Thornton, County Secretary J. King Kelley, Dr. Curran, A. F. Bentley, Wm. McDonald, Wm. Johnston, Charles H. WEDDINGS.

Hennsberry-Kinsella. Miss, the daughter of Mr. and Mrs. Augustus Kinsella, 165 Paradise Row, was married yesterday morning in Holy Trinity church at six o'clock by Rev. J. J. Walsh, V.C., D.P., to Edward J. Hennsberry, B.A., B.C.L. The bride was attended by her sister, Mary, while Louis Hennsberry, brother of the groom, acted as groomsmen. Following the ceremony a wedding breakfast was held at the home of the bride's parents, the happy couple leaving by 8 P.M. Government Dingley on a honeymoon to Boston. There were many beautiful wedding gifts, including an electric lamp from B. G. Dun and Company branch, St. John.

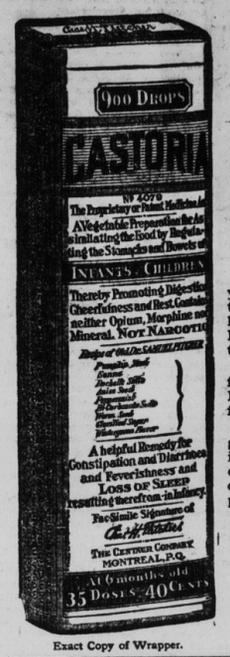

Hamm-Fisher. At St. Paul's church, Lakeside, St. John County, Harold Morrison Hamm and Mildred Fisher, Stanley street, were given away by Rev. Gordon Lawrence, at two o'clock yesterday afternoon. The bride, who is a daughter of Mr. and Mrs. Charles A. Fisher, Stanley street, was given away by her father. After the ceremony an informal reception was held at the summer home of the bride's parents, Lakeside. Later on the happy couple started on a motor trip through the Maritime Provinces, and will reside at Halifax, N. S.

Parent-Huestis. A very pretty wedding was solemnized yesterday morning at 11:30 at the home of the bride's mother, Glen Falls, when Miss Nellie, daughter of Mrs. George and the late Murray Parent, of Fredericton, was given away by her father. The ceremony was performed by Rev. A. Taylor McKim. The bride was given in marriage by her brother, Murray, and the wedding march was played by Miss Lou Duffy, of Sussex. Following luncheon, the bride and groom left on a honeymoon to Montreal and other Upper Canadian cities, and on their return will reside at Fredericton.

Sibley-Jones. A pretty wedding ceremony was celebrated yesterday afternoon at 5:30 o'clock in St. Mary's Episcopal Church, Waterloo street, by Rev. R. Taylor McKim, when Miss Clare Lipsett Jones, only daughter of Mrs. Melissa S. Jones, became the wife of Harry Sibley, son of Thomas Sibley. Both of the contracting parties are residents of this city, and are justly popular. The happy couple left on last evening's train for their honeymoon.

Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children unless you or your physician know of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS.

Children Cry For Fletcher's CASTORIA
Of Course You Love Your Baby.
You love it because of its very helplessness, because it can't tell you what is the matter when it feels bad. It can only cry and look to you for help. But the more you love baby, the more you want to help baby, the more you ought to realize what a wonderful remedy Fletcher's Castoria is. It has been used for babies' ailments for over thirty years.
An experienced doctor discovered Fletcher's Castoria especially for babies' use. It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. Doctors who know what is safe and best for babies have only good to say of it.
Don't neglect your baby. Get a bottle of Fletcher's Castoria and give baby a few doses of it. See how the little one smiles at you as if trying to thank you for helping it. Soon you will learn to depend on Fletcher's Castoria, made just for infants and children, and of course you would not think of using anything for them that was not prepared especially for infants and children. So keep it in the house.

Wealthy Britishers Seeking a Taxless Paradise—Intend to Locate on Some Cruise Isle.

(Copyright, 1920, by Public Ledger.) London, Oct. 20.—One of the smartest ships that ever sailed from an English port will be the schooner Modora, which is scheduled to lift anchor at Southampton by the end of this month for destination "Somewhere in the South Seas and Spanish Main." Stranger still will be its passengers. Some forty Englishmen, many of whom are millionaires, are on board. "Pleasant conversation" as they call it.

They are sailing to explore the South Seas in an effort to find an island which has never yet been afflicted with the curse of taxation or bonded by tax collectors.

Seriously organizing and leading this quest for a taxless paradise on earth is Rhodes Disbar, fellow of the Royal Geographical Society, explorer and wealthy clubman, who today announced he and his ship, the Modora, a 160-ton schooner, would be ready to sail in a few weeks, together with forty other protestant adventurers.

The tyrannical oppression "of the chamber of the exchequer has been too much for Disbar and his cohorts and he conceived the bizarre idea of embarking on a cruise in search of a haven of refuge. Together with his followers he purchased the Modora, which, perhaps, unlike any ship that ever sailed the Spanish Main, is rigged up in a most luxurious style with all the comforts of a club in "Pleasantly."

Disbar is laughing over the efforts of the government to frighten him from carrying out his project, and in spite of official warnings that his scheme is strongly disapproved and that it will involve those participating in serious difficulties, Disbar is going ahead, insisting more disgruntled taxpayers for his proposed colony and preparing for the voyage.

"When we get a good wind from the East," Disbar said today to your correspondent, "we shall set sail straight away, although unfavorable winds or bad weather may delay us. We have not quite decided yet exactly where we are going, but before setting anchor we expect to call at the Canary Islands, Cape Verde Islands, West Indies and the Spanish Main. We shall then go through the Panama canal to the Galapagos and then to the Marques Islands, where in all probability we may settle."

"I know some persons think as a pack of fools, but we are all not so silly as we may appear. The logic of my plan is being attested to by the thousands of applications from men everywhere anxious to accompany me."

However smoothly the plans of Mr. Disbar may work, the chamber of the exchequer has given assurances he will have some (possibly) tax-free at the pier before the jacket sails to collect unpaid income tax from the fleeing pilgrims.

OLD CLOTHES, NOT MONEY, IS WHAT SIBERIANS WANT

Cash Has No Attractions for Them But Clothes Will Buy Anything.

By SYDNEY B. CAVE. (Copyright, 1920, by Cross-Atlantic.) London, Oct. 20.—A curious report on the condition of the peasants in Siberia has been received in London. It appears that the countryside is flooded with enormous sums of paper money which has now lost all its worth in the eyes of the peasants. If no means to buy foodstuffs in a Siberian village one must take with one's old shoes and clothes for the man, and face powder, lip rouge, perfume, pins and needles for the woman. The peasants stubbornly refuse to accept the Communist regime. In fact, never before can it be said that they have been so rich, so independent, so bourgeois.

Stuffer—From Farmina.

There is very little communication between the village and the town, where the citizens, although enjoying a beneficent Bolshevik regime, are suffering from famine and lack of all essentials. The Soviet Government in Siberia exists only along the railway line and does not extend farther than a few miles from it. The peasants in their villages have cut themselves adrift from all central government and care only for their own needs. Many of them have not even heard about Poland, Wrangel, and Finland.

TWELVE YEAR OLD LAD WITH TWELVE LANGUAGES ALREADY

Youngest Freshman Who Ever Entered Columbia University is E. R. Hardy.

New York, Oct. 20.—Master of 12 languages, keenly interested in battling averages, but more devoted to the game of marbles when played for money, 12 year old Edward Roche Hardy, Jr., son of Mr. and Mrs. Edward Roche Hardy, of this city, today qualified as the youngest freshman that ever entered Columbia University.

The youthful prodigy is five feet three inches in height, weighs 143 pounds and, his mother said, is perfectly normal in appetite, habits and recreations. He spends a great deal of time in the university swimming pool, when not engaged in reading. Babylonian tablets investigating the fourth dimension or delving into other erudite subjects.

INDIAN AXES OF CARVED STONE IN GOVT ISLAND PITS

(Special to The Standard.) St. John, N. B., Oct. 20.—Captains R. E. Weston, G. R. Riley and G. M. Jones, who have been engaged in a Government contract on Grand Lake to supply gravel for road work and concrete, have concluded their operations for the season, and returned to St. John on Friday afternoon. They have been operating at Goat Island, on Grand Lake, where the gravel deposits are very deep. During their excavations this summer, they found two valuable Indian axes, of neatly carved stone. Both axes were a number of feet underground and still had their handles of wood bound with leather thongs, which, however, soon fell to pieces after being dug up.

SHAW TURNS HIS TONGUE LOOSE ON BRITISH PREMIER

(Copyright, 1920, by Cross-Atlantic.) Edinburgh, Oct. 20.—George Shaw, characteristically attacks Premier Lloyd George on his candidacy for the rectorship of Edinburgh University against Professor Gilbert Murray. "The contest is indeed intellectually and academically," says Shaw, "Lloyd George is the incarnation of the parliamentary, electioneering, snubbing fattening, recklessly shortsighted opportunist, which is verily wrecking European civilization." His election against Murray would be really an intellectual equivalent of "not this man but Barabbas."

Delawanna of Lunenburg Esperanto of Gloucester Said to be Evenly Matched

Halifax, N. S., Oct. 20.—"I will probably have a crew of 15 men," was the statement of W. C. Machum, owner of the Lunenburg schooner Delawanna, which is to be the Gloucester schooner Esperanto, in the international fishing race for the Scotia championship, which is to be held in the Nova Scotia waters, and possibly November 2nd, at the championship of the American Canadian fishing fleets of the coast. The Delawanna is now en route to Lunenburg, and Mr. Machum is there "visiting the work of preparing the international contest."

Himmelman the Skipper

On the long distance telephone he said that it had been decided that Captain Thome, skipper of the Delawanna, would sail her in the Scotia race. In the recent race of the Scotia, the Delawanna was defeated by the Nova Scotia schooner, Capt. Himmelman sailed his vessel, and is credited with obtaining the maximum speed of his craft. In the Scotia race the Delawanna carried a crew of more than forty, eleven of whom were captains. These eleven probably retained and the balance were expected to be from the hundred or so skipper of the Lunenburg county fishing fleet.

The Same Rig

With the exception of a new rigging, the Delawanna will be replaced in the Scotia race for the Scotia championship, the Delawanna will enter the international Scotia race, which is to be held in the Scotia waters, and possibly November 2nd, at the championship of the American Canadian fishing fleets of the coast. The Delawanna is now en route to Lunenburg, and Mr. Machum is there "visiting the work of preparing the international contest."

Has Nova Scotia Crew

Gloucester, Mass., Oct. 20.—Esperanto, Gloucester's entry in the international race for fishing, will be manned by a crew of 15 men, and will be captained by W. C. Machum, who will carry the race with the crack Canadian schooner Delawanna, which is to be captained by W. C. Machum. The captains who have placed themselves under the orders of Machum are John Mattie, Lee Murray, John Wallace Bruce and Thomas and the seven berths that remain to be filled probably will bring more captains to the crew. Like Captain Welch, many Esperanto's crew will be Gloucester fishermen who sail from the harbor are natives of Nova Scotia. Canada's champion and its crew. To the value of \$5,000 and a cup provided by the Maritime Fisheries Board of Halifax, has been added as a prize for the skipper of the vessel. The local committee has accepted the offer of the Colonial Fisheries Co. Limited, to give such a trophy.

HERE FOR CONFERENCE

Rev. W. C. Machum arrived in St. John yesterday, and will be at sessions of the Boys' Conference and the St. John County School Teachers' Association. Machum is Field Secretary of the Sunday School Board, and is present at the Boys' Conference, which is being held at Yarmouth, N. S., attended by the Maritime Baptist Conference at Yarmouth and speaking highly of the excellent address given there.

ALARMS OF FIRE

The fire department was called at 10 o'clock yesterday morning on the roof of the Hotel King Square, which is thought to have been a chimney. The fire was extinguished, and the damage was not considerable.

DANGEROUS PRACTICE

Some night prowlers have ideas of amusement. For some time past the lanterns placed in the windows of Prince William British streets have in some cases been removed and hidden away, while the glass globes have been broken. Delawanna of Lunenburg and Esperanto of Gloucester Said to be Evenly Matched

Halifax, N. S., Oct. 20.—My boat will probably have a crew of all skippers, was the statement today by W. C. Smith, captain of the Lunenburg schooner Delawanna, which is to race the Gloucester schooner Esperanto, off Halifax harbor on October 30, Nov. 1st and possibly November 2nd for the championship of the American and Canadian fishing fleets of the Atlantic coast. The Delawanna is now at Lunenburg, and Mr. Smith is there supervising the work of preparing her for the international contest.

Himmelman the Skipper

On the long distance telephone today he said that it had been definitely decided that Captain Thomas Himmelman, master of the Delawanna, would sail her in the series off Halifax. In the recent race off this port he had been skipper of the schooner Capt. Himmelman sailed his ship to victory, and is credited with having obtained the maximum amount of speed out of his craft. In that contest the Delawanna carried a crew of more than forty, eleven of whom were captains. These eleven probably will be retained and the balance of the crew is expected to be selected from the hundred or so skippers of the Lunenburg coasting fleet.

The Same Rig

With the exception of a new jib replacing the headsail which was carried away in the race for the Nova Scotia championship, the Delawanna will enter the international series with just the rig which carried her to victory on the previous occasion. Her ballast, however, will be changed. In the Nova Scotia race she carried a cargo of salt, but the conditions of the international competition require that ballast must be of rock or iron. Mr. Smith said today it had not yet been decided which ballast would be selected for the Delawanna. He added that he expected his vessel and the Gloucester schooner would be evenly matched and the race would provide a good comparison of the merits of the Canadian and American vessels of design and construction. He pointed out that the Delawanna was designed by G. A. Rhinland of Lunenburg and not by Capt. McManis of Boston as had been reported.

Has Nova Scotia Crew

Gloucester, Mass., Oct. 20.—The Esperanto, Gloucester's entry in the international race for fishing schooners, will be manned by an expert crew. Selection today of 18 of the 25 men whom the Gloucester committee yesterday prepared for a large influx of visitors to see the race.

HERE FOR CONFERENCE

Rev. W. C. Machum arrived in St. John yesterday, and will be present at sessions of the Boys' Work Conference and the St. John County Sunday School Teachers' Association. Mr. Machum is Field Secretary of the Baptist Sunday School Board, and was present at the Boys' Conference held recently at Bridgetown, N. S. He also attended the Maritime Baptist Convention at Yarmouth and speaks very highly of the excellent addresses delivered there.

ALARMS OF FIRE

The fire department was called out at 10 o'clock yesterday morning for a fire on the roof of the Hotel Edward, King Square, which is thought to have caught from a chimney. The roof was considerably damaged.

DANGEROUS PRACTICE

Some night prowlers have strange ideas of amusement. For some nights past the lanterns placed to guard the excursions on Prince William and Britain streets have in some cases been removed and hidden behind boards, while the glass globes of others have been broken. The absence of these lights might well be the result of a bad accident.

ESCAPED TRUSTIES STILL AT LIBERTY

Sing Sing Men Dashed About Rhode Island and Massachusetts in Stolen Car.

New York, Oct. 20.—Racing their stolen car at all speed they can get out of it, George Stivers and Marcus Bassett, the escaped Sing Sing prisoners, are seeking a refuge somewhere in Massachusetts or Rhode Island, according to the best information the authorities have been able to get of them. In both states the two men have friends, and all roads leading from Connecticut are being closely watched.

So far as the Sing Sing guards are concerned, the chase has now gone too far afield for them and today they gave up search for the two convicts. But will be maintaining with all possible vigor by the sheriff and the police of four states, New York, Connecticut, Rhode Island and Massachusetts, aided by scores of volunteers.

REWARD IS INCREASED.

Warden Lawes of Sing Sing again notified all the police departments in southern New York, Connecticut and Massachusetts, that the runaway convicts are still roaming through Connecticut and asked them to watch for their appearance. The warden also announced that he doubled the fifty-dollar reward offered for each fugitive. Several hundred more photographs and printed descriptions of the missing convicts were sent over the country today. If recaptured, Bassett and Stivers will each face prosecution for jail breaking, felonious assault and two charges of grand larceny in New York state and three charges of highway robbery and one of grand larceny in Connecticut as the result of the crimes they committed since Saturday night.

The fugitives, when last seen, were in a stolen automobile and wore civilian clothes taken from their owners at pistol point.

McTigue Won From Bloomfield

New York Middleweight Out-pointed Englishman in Ten Round Bout at Montreal.

Montreal, Oct. 20.—Mike McTigue, of New York, middleweight, out-pointed Jack Bloomfield, of England, in a scheduled ten-round bout here tonight.

Other bouts were: "Makin' good" his claim to the Canadian middleweight championship won by Eugene Broome, Mike McTigue decisively defeated Jack Bloomfield in a ten-round bout at Mount Royal last night. Bloomfield was the victor in a prize fight in Montreal. McTigue fought cautiously in the opening four rounds, but by gradually wearing his opponent down, he earned the right to the honors of the bout in the seventh and eighth rounds.

A Big Fight.

The bout was one of the most gripping ever witnessed in a local ring, and disproved the story that McTigue and Bloomfield were wearing the same hand punches to the bout was not to be a fight for supremacy. This story was started shortly before the fight entered the ring, and was rapidly spread throughout the arena. After the commencement of the opening round it was apparent that the fight was a grudge bout, and the two were determined to win the decision.

McTigue opened on the offensive while Bloomfield showed a preference for boxing rather than mixing it up. As the round progressed Bloomfield gained confidence in his own ability and divide the honors. In the second round Bloomfield was the first to cut loose and went after McTigue with a rush. The Irish fighter stood off his opponent but failed to land any effective blows while Bloomfield sent right and left hand punches to the right hand corner of the ring by way of mouth. This was Bloomfield's round.

The Third Round

Again in the third round Bloomfield earned the honors by outpointing McTigue at both ends rather than fighting. White Bloomfield stood off and boxed with the Irish fighter McTigue waited for his opportunity to put over a right hand cross which he waiting tossed away several chances to score.

From the commencement of the fourth round McTigue adopted a different tactic. He engaged in a series of attacks. Bloomfield, however, landed several left jabs without effect and then shot across five right hand punches that earned the honors for him as they rocked Bloomfield.

In the fifth round the honors were well divided both men being on the defensive and offensive in turn. In the sixth round McTigue showed in good advantage but from then until the finish it was McTigue's fight as he finished stronger and although he did not show the flashy style exhibited by his opponent he landed the more telling blows.

Back to Ropes

In the seventh round McTigue forced Bloomfield back to the ropes and had him staggering about as he landed on left and right hand punches. Bloomfield being undoubtedly saved by the sounding of the gong. Following up his advantage of the previous round, McTigue again landed the honors in the eighth round. In the ninth he had Bloomfield backing away, but failed to land as frequently as in the former rounds. McTigue won down in the tenth. Bloomfield staged a rally, but was unable to overcome the lead held by his opponent and accepted his first defeat in a local ring by a narrow margin. The men that were the losers were deserving of as great credit as the winner.

Midget Smith, Panama, bantamweight champion, drew with Mickey Delmont, of New York in ten rounds. "Butch" O'Hagan, Albany, middleweight, knocked out Marty Wells, Boston.

THE SUGAR SITUATION.

It apparently did not take the Governor-in-Council long to come to a conclusion as to the proper course to be taken with regard to the sugar situation. Without calling upon those opposed to the Board of Commerce's order, the Government decided that no sufficient case had been made out by the refiners for sustaining that order, which, therefore, remains suspended. This action on the part of the Government will be universally approved.

If the sugar refiners find themselves caught with large stocks on their hands at a time of falling prices, the Canadian people must assuredly bear the blame for the position the refiners are in; and they ought not to be subjected to a tax, whether imposed by an order of the Board of Commerce or any other constituted authority, for the relief of the refiners. No doubt existing circumstances have brought the refining industry to a serious condition, but that industry was supposed to be in the hands of men very capable of taking care of it. We altogether dissent from the view that the Canadian people have not done their duty. For all the sugar they have consumed since the cane producers began to flood the market the Canadian people have paid, if not the highest price, at all events very high prices. They are not indebted to the refiners for any favors and cannot say that in the matter of sugar they have much to thank the Board of Commerce for.

If, as one of the accidents of the sugar story, Canada's refining industry should be seriously damaged there would be very genuine and very general regret throughout the country, but the Canadian people cannot fairly be called upon to admit liability as an accident insurance corporation in the premises. The people have been paying more for their sugar than they ought to have been required to pay, and though for this the refiners of Canada may have been not much more at all to blame, certainly the Canadian people themselves are not to blame. They had no part in the mad speculation which made the prices that are now making away in the presence of large stocks and the opening up of sources of supply that were closed by the war.

Premier McInnes makes it very clear that the Board of Commerce exceeded its powers. Power to make such an order as was made should, we submit, be exercised only by Parliament or by temporary Order-in-Council of the Government that is responsible to Parliament. Such an order as that issued by the Board, whose jurisdiction is now in question before the Judicial Committee of the Privy Council, cannot be looked upon favorably as a precedent. If in one case the people are to be ordered to rescue a group of corporations that have made a bad stroke of business, why should the people not be made to bear the burdens of other groups that have got into straits? Where could the line be drawn to back the application of the same principle once it was resorted to? If the sugar refiners are helped out by assessing the people who consume sugar, how can the manufacturers, such as confectioners and fruit canners, who use sugar as a raw material, be refused a like levy upon the consuming public?

MISTRESS OF THE SEAS.

One hundred and fifteen years ago today, England became the unquestioned Mistress of the Seas, a title which no other nation has ever been able to wrest from her, although a year or two ago the ex-Kaiser made an ill-fated attempt to do so. No other nation has ever thought it worth while to make the attempt, and for the sake of humanity it is to be hoped none ever will, for the same building courage and determination which brought victory to the British flag a hundred and fifteen years ago would again come into play and never be lost until victory once more rested with that flag.

The story of Trafalgar is too well known to need any retelling. When the sun rose that day the fate of the Empire and the freedom of the world hung in the balance. Napoleon, the implacable enemy to both, had based his right to world mastery upon the doctrine that "might is right," and the only obstacle which stood between him and his ambition was the ships and sailors of Britain. At sunset Britain's foremost Admiral lay dead, with scores of his bravest seamen; but the Empire was saved. The great fleet of Napoleon was signally defeated; the death blow was struck at his attempt to grasp the sceptre of world power, and the progression of civilization was assured.

It is that glorious victory which the British Empire commemorates today. Today the world stands upon the same old ground, the same old sea, with the same old story to tell. The world is still the same old world, with the same old story to tell. The world is still the same old world, with the same old story to tell.

winable ships and seamen, which on that occasion stood between world freedom and world slavery, just as six years ago it again stood between another apostle of the doctrine that "might is right," and once more saved civilization from the clutches of a militaristic monster even greater than Napoleon. The British Navy ended for once and for all the ambitions of Wilhelm Hohenzollern to crush British institutions and world freedom under the iron heel of Prussia, just as it will always stand on the side of freedom and justice.

BENEFITS OF REFORESTATION.

The people of New Brunswick have lately been told by the spokesmen and press supporting the Foster administration that under that administration the Crown Lands of the province have been better looked after than ever before. No one seems ever to have been able to find out in just what respect this marvelous improvement in conditions was to be observed, but it has not been in the direction of reforestation. The Foster Government seems to have policies regarding everything that is not material, but when any real benefits might be produced out of certain conditions it has no policy to offer to bring them about.

There is the question of reforestation, for instance. Why has not the Foster Government some such plan as that of the Ontario Government for encouraging reforestation under which it offers to plant with forest trees any suitable area over five acres that a township council will provide. Any sensible effort toward reforestation deserves support, and if the Ontario Government succeeds in interesting the people in the question it will accomplish something worth while. The Foster Government would never think of anything so practical as this idea. Small though it is, it would be a beginning, though as a means of providing timber supplies for the future it must be admitted it would not accomplish a great deal. Still, it would be a start.

An experienced forester of the Dominion service has suggested in connection with the matter that it would not be going to undue lengths to plant five acres on every farm of average size. Individual farmers, once they became acquainted with the subject, might be prepared to expend some effort in the scheme themselves. A mistake was made by earlier settlers in completely clearing the farms, but it was made in ignorance, and farmers all over the continent have erred in the same way.

The planting of new areas of forest would not have a bearing on the timber supply of the future alone. Scientific investigation and practical experience have shown that a farm is better agriculturally if it has on it a small wooded area. The beneficial effects of such an area on a farm are many. Some of them can be readily appreciated by the layman. For instance, a forest area will retain moisture in the soil much longer than cleared and cultivated land. In the cleared area the water from rainfall, over that which is immediately absorbed by the earth, quickly flows away to the rivers and creeks and is lost to the district. In the forest it is retained much longer on the ground and on the fringe of the trees and as a result the atmosphere in the neighborhood is moistened, to the benefit of growing crops. Also, it has been demonstrated that forest areas attract rain. In some localities they serve to break the sweep of hot, dry winds which are damaging to crops, and reforestation activities of the Dominion Government in the West have this factor especially in view. Another advantage is the attraction of insectivorous birds to agricultural districts—earlier settlers destroyed the birds as well as the forests without realizing the damage they were doing.

Forestry and agricultural experts, after long study and investigation, have gone so far as to declare that some of the very best agricultural districts of the continent would have their capacity for production increased from ten to twenty per cent by the creation of a small area of forest growth on every farm—that the increase in production would far exceed the loss resulting from the withdrawal of the area planted in trees from agricultural use.

With even fewer benefits than those which have been mentioned, expenditure on reforestation will be repaid many times in dividends.

FINISH IT.

A prominent man once said: "Genius is everywhere, but the kind of genius that will carry out an idea to its finish is as scarce as snow in June." He was not merely phrase-making. The world is littered with unfinished things—unfulfilled plans, uncompleted thoughts, unexecuted schemes.

Almost every one has imagination. It is the gift of the many, not the few. But to carry out one's plan, to make resolutions of one's own, to make decisions only on fortune's favorites, it is an excellent habit to finish things. It is a book is worth reading if it is worth reading to the end. It is a thing is worth saying if it is worth bringing to a logical and grammatical conclusion. A lot of us are mentally untidy.

The decision of the County Court Judge on the question of a recount in St. John County, dismissing the application, will be concurred in by all fair-minded men. On the face of things the only ground for such an application, if made by anyone else than Mr. Bentley personally, must be that the constituency is suffering some wrong which only a recount can rectify. It necessarily follows from this that the applicant must be an elector in the constituency and will justify the application. Why Mr. Tweeddale be the applicant with a knowledge of the facts could make the application, what is there to prevent any stranger to the province coming in and asking for a recount?

WHAT OTHERS SAY

Reports Alienty.
 (Toronto Star.)
 There is a report that a Prince of Wales is coming to Canada. There is one thing that may be said about reports, that there is always plenty of them going around.

Surely.
 (Vancouver Sun.)
 Inasmuch as both the great political parties in this country are in favor of having customs duties on imports, the point at which their respective policies part company is liable sometimes to become obscured in the heat of partisan discussion.

A Government Pulp Mill.
 (Toronto Star.)
 On several occasions during recent months the Star has suggested that the province might be warranted in going into the pulp and paper business. It is now officially intimated that the Government is considering the advisability of establishing a Government pulp mill in the neighborhood of Fort William. The matter has been undergoing examination for some time, and a decision may be reached at an early date.

In principle there is little difference between the province developing its natural resources in the form of water power, as it does through the Provincial Hydro-Electric Commission, and developing its timber resources through some other form of organization, in the Fort William district the two might go hand in hand, for the Hydro is building a large power plant on the Nipigon River that is in need of one or two large customers to ensure profitable operation, and the province has large timber limits in this region which must be sold to lumbermen unless some other use can be made of them.

The operation of a large pulp mill by the Government would give the provincial authorities an invaluable insight into the complexities of timber cutting, enable them to determine that should be paid by the lumbermen, and indicate the extent, if any, of the profit-making by the manufacturers of sawn timber. It might be well to fit with an experiment a return to the people of the full value of the natural resources which they own.

A BIT OF VERSE

AFTER THE BATTLE OF JUTLAND.
 (By Herbert L. Manks.)
 In bygone days men sang the praise of Britain's walls of wood.
 That near and far, in peace or war,
 A thousand shocks whistled roaring
 The towering shafts braved roaring
 Or swelled in the freshening breeze,
 And Britain's Sons behind the Guns
 Were found in the seven seas.

"Stand to your guns, my Hearts of Oak,
 And God be with us this day,
 As your fathers fought and great
 deeds wrought
 Fight ye in the same old way."
 "Three years are gone, the days are
 done
 And the times new ways reveal,
 The walls of wood that the shocks
 whistled
 Give way to walls of steel,
 The big ships plough with foaming
 bow
 The waves of the Seven Seas;
 But the Steam King mocks at the ship
 that rocks
 And drifts in the dying breeze.
 Yet it's "Stand to your Guns, my
 Hearts of Oak,"
 As it was in the olden day,
 For Britain's Sons behind the Guns
 Still fight in the same old way.

EX-GERMAN OFFICERS WOULD JOIN WRANGEL

Sobotsopol, Oct. 20.—Severe fighting continues along the Danube and northern front, in the vicinity of Nibopol. Leon Trotsky, Russian Bolshevik minister of War, is reported to be bringing up ten divisions of communist forces, which will not surrender as easily as the ordinary troops heretofore used on the line. It is reported that numbers of former German officers in the Baltic provinces are offering their services to Gen. Baron Wrangel.

MANY CASES ARE POSTPONED

A case against Frank Carson, charged with a violation of the city's building by-laws, called for yesterday afternoon at 2.30, was again postponed, as only the defendant in the case was present.

Eight cases were reported for calling beer having a higher percentage of alcohol than allowed by the prohibition act. Four did not appear and one was too ill to attend court. On the application of J. A. Sney, who appeared for seven of the men, the cases were all postponed until October 27, at two o'clock in the afternoon. Cases reported last week were further postponed until Friday morning at eleven o'clock. Daniel Mullin, K. C., and E. S. Ritchie appeared for the defence, while W. M. Ryan conducted the prosecution in all cases. Two men charged with drunkenness pleaded guilty and were remanded to jail.

A case against Cornelius Sheehan, Sidney Parks and James Smith, charged with creating a disturbance in a yard off St. David street, was remanded and the accused allowed to go on condition that they would report to the magistrate on next Wednesday and he would inquire into their conduct during that time.

John Bates was before the court for exceeding the speed limit in Dock street on October 18. After a satisfactory explanation the matter was allowed to stand.

Trafalgar Day Being Celebrated

Brave Deeds of Lord Nelson Are Recalled Today All Over the Empire.

It is perhaps one of the secrets of Britain's greatness, her glory of tradition, and the faithfulness with which the old days are held in remembrance. As each anniversary of Trafalgar Day, October 21, rolls around throughout the Empire the brave deeds of Lord Nelson are recalled, and it is a poor-spirited boy or girl, man or woman, who fails to feel a thrill of pride acknowledging that as Britons all, in our Nelson, our national hero and our example of courage and devotion to duty.

The Great Battle

"The account of that day can never be too often repeated. With few men of the morning of Oct. 21, the Allied fleet could be seen from the deck of the "Victory" and Nelson's long-looked-for opportunity had come at last. Nelson was on deck early and in spite of the fact that he knew that his life would be deliberately aimed at as he stood in the "Victory" wood who came on board at six found him, contemplating a decisive victory. The breeze was light and the "Victory" went into action with scudding sails set.

Nelson was in full dress, with the four stars of the orders he had received blazing on his breast. He seemed to know that they would cost him his life. "God bless you, Blackwood," he said as that captain left him. "I shall never speak to you again."

At 11.30 the signal to prepare to anchor at the close of the day was made. After talking over the wording with Lieutenant Pasco, the signalling officer, flags of the immortal signal were run up. At the main track the signal to "Engage the enemy more closely" was flying.

Into Action

The "Victory" went into action amid complete silence. By the time she was two and a half cables' length from the "Bucentaure," her sails were in shreds, her mizzen topmast cut in two, and her wheel knocked to pieces.

The Battle

As she passed the French flagship, the "Victory" raked her. The French "Neptune" in return raked the "Victory." Then the "Victory" fouled the "Redoubtable," and the tragic stage of the drama was at hand. The "Redoubtable," keeping her ports closed opened a deadly small arm fire. For a quarter of an hour this was maintained, when Nelson who was pacing the quarter-deck with his captain, stumbled and sank on his knees.

"I trust your Lordship is not severely wounded," said Hardy, as he caught him.

"They've done for me at last, Hardy," replied Nelson, and added, "My back-bone is shot through!"

Admiral's Dying Moments

Though in great pain the Admiral was quite calm and pulled a handkerchief over his face so that the sea-men should not recognize him. He was carried to the cockpit, where he lay, partly covered by a sheet, asking for water. The surgeon knew that the wound was mortal. The fire from the "Victory" worried him greatly and he asked constantly for Captain Hardy, whose duty kept him on deck. At 2.05 the British ship fired herself from her now helpless opponent and drifted into the battle again. In the cockpit Nelson listened for every cheer which would announce another French ship had struck.

"Well, Hardy, how goes the day with us?" he asked as the Captain came from the deck. "I am a dead man, ardy, I am going fast."

About an hour later Hardy returned, and grasping the dying hero's hand, congratulated him on his victory, saying that about fifteen of the enemy had struck.

"That's well, but I bargained for twenty." Then Nelson cried resolutely, "Anchor, Hardy, Anchor!" and a quarter of three hours after receiving his wound Nelson expired, at 4.30, his last words being, "Thank God, I have done my duty."

Nelson's Last Prayer

"May the great God whom I worship grant to my country, and for the benefit of Europe in general, a great and glorious victory, and may no misdeed or unkindness be done to me, may humanity after victory be the predominant feature in the British fleet! For myself individually, I commit my life to Him who made me, and may His blessing light on my endeavors for serving my country faithfully! To Him I resign myself, and the just cause which I entrusted to me to defend. Amen! Amen! Amen!"

Lesson of Trafalgar

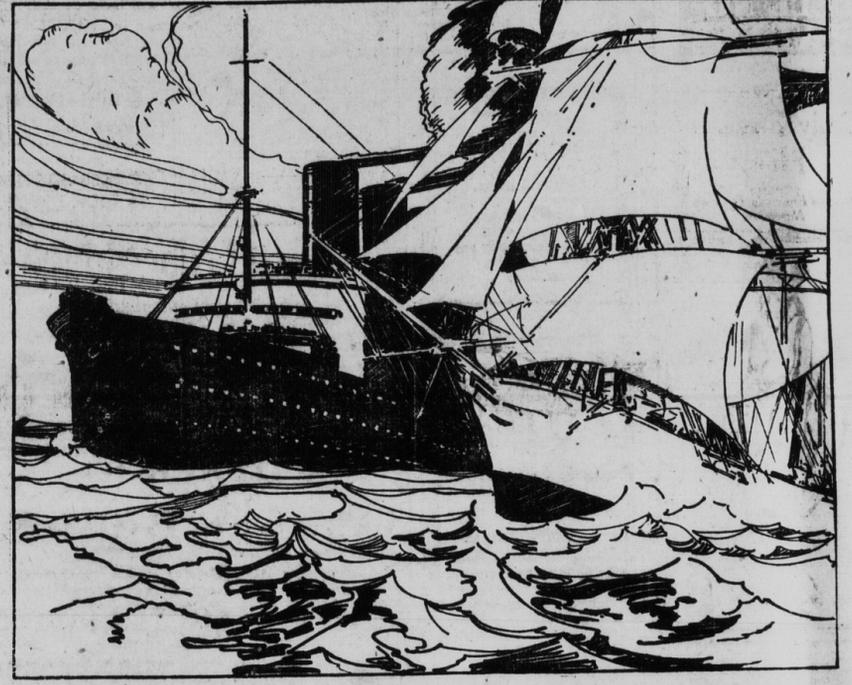

And if today our race recall His last triumphant doom, Place wreathes on his unflinching pall And flowers about his tomb, 'Tis to remind us still to keep Aggression's lust in awe, And with Dominion of the deep Guard freedom, peace and law.

OBITUARY.

Mrs. William H. Otts

The rather sudden and unexpected death of Mrs. William H. Otts, at her home, 39 Kennedy street, early last evening proved a severe shock to her relatives and many friends. The deceased had been unwell since last fall but was not thought to be in a dangerous condition. About five o'clock yesterday afternoon she took a sudden turn for the worst and died shortly after.

The deceased was a highly respected resident of the North End and a wide circle of friends will learn with the deepest regret of her death. She leaves to mourn besides a sorrowing husband, two daughters, Mrs. A. H. Case, of Kennedy street, and Mrs. C. E. Vall, of Ottawa, Mr. and Mrs. Case are at present visiting Mr. and Mrs. Vall in Ottawa and the sad news has been wired to them and they are expected to arrive home tomorrow. Interest is Challenged by a Question—Daily Problems for Standard Readers.

Answers to Wednesday's Questions.

1. Published records of the debates of the Dominion Parliament so called because the debates of the British Parliament were originally published by the Messrs. Hansard.
2. "To have the floor" is to be recognized by the presiding officer and thus have the right to speak or address the meeting. When a speaker who has the floor gives way to another speaker, thus forfeiting his own right, he is said "to yield the floor."
3. A debate is the orderly, dignified discussion that may take place on any question before the meeting.
4. A unanimous vote is a vote without one dissenting voice. It is sometimes stated that a certain member withdrew his name in order to let another member's election be unanimous or by acclamation. This is unparliamentary. You cannot take away one member's vote and give it to another, even if this vote is cast in your favor. You may decline it but you cannot transfer it. In a case like this a subsequent motion may be made to make an election unanimous.
5. A delegate is a member of a society appointed to represent it at some specified gathering.
6. The salary paid to a member of parliament is called an indemnity, which means an allowance or compensation.
7. An Attorney-General is an official whose duty it is to represent the King in legal cases where the rights of the crown are involved. Usually the attorney-general is a member of the provincial cabinet.
8. The Attorney-General of the Province of New Brunswick is the Hon. J. P. Byrne, Bathurst.

Today's Questions.

1. In forming a cabinet, what are the initial steps of the Premier?
2. What is required of a member of Parliament who is asked to enter the cabinet?
3. Is it always a member of Parliament who receives an invitation to enter the cabinet?
4. What is a quorum?
5. Can you name six of the many exemptions from municipal taxation?
6. What New Brunswick man has been called to a cabinet very lately and what department will be his charge?

Study problem. Should juvenile courts, presided over by women as well as men, be established in every town and city?

Cleaning Brass.

When hammered or engraved brass becomes tarnished, it can be cleaned by rubbing with a piece of lemon. If should then be washed in hot water and polished with a dry cloth.

What Would You Do?

Ten-to-one, you too would use Zam-Buk! Every day mishaps by the score, and most forms of skin and scalp disease are "doctored" quickly and efficiently at home by this highly concentrated herbal balm. Zam-Buk's rapid antiseptic healing and wonderful soothing and pain-killing power has been a world revelation.

Here's evidence from Canadian homes.

SCALDED FOOT. Mrs. Smart, 27, Harbour Avenue, Elmwood, Moncton, writes: "A man of boiling water upset over my foot. The blisters scalded raw and bled freely. When my husband applied Zam-Buk, it soothed the inflamed surface, speedily and cured Zam-Buk brought perfect healing."

GASHED HAND. Mr. John F. Kelly, of St. John's, writes: "I gashed my hand severely in the kitchen. My wound was so deep that I needed a week to heal. I used Zam-Buk 100 times and it healed in a few days. I am now well and my hand is as good as new."

CHILDREN'S ECZEMA. Mr. W. D. Lewis, 10, Kent Street, Central Falls, U.S.A., writes: "My children had eczema on the face and neck. We used Zam-Buk. The eczema disappeared and the children are now well. I continued treatment until healed every day."

ORN FINGER. Mrs. J. Randall, of Silver Street, St. John's, writes: "My daughter lost the top of her finger in the washing machine. As we are eight miles from the doctor, I used Zam-Buk. The wound healed and she is now well."

SCALDED FOOT. Mr. D. J. Shaw, Belfast, N.S., writes: "I had a bad case of scalded foot. I used Zam-Buk and it healed in a few days. I am now well and my foot is as good as new."

QUEBEC PREMIER'S DAUGHTER MARRIED

Miss Gabrielle Taschereau and Captain Cortland Fages Wed by Cardinal Begin.

Quebec, Oct. 20.—The most important social event of the present year took place here this morning, when the daughter of the Premier of Quebec, Miss Gabrielle Taschereau, was married to Captain Cortland Fages, son of Brigadier-General Fages, former commander of the Fifth Military District.

The nuptial ceremony was performed by His Eminence Cardinal Begin in the chapel of the Franciscans on Grande Allee, and was attended by the elite of the society of the ancient capital.

After the ceremony, a breakfast was given to the close relatives and members of the two families at the residence of the Premier, and later the newly-married couple left for their honeymoon, which they will spend at Lake Huron and Atlantic City. On their return they will reside in this city.

Reflections of A Bachelor Girl

By HELEN ROWLAND

(Copyright, 1920, by The Wheeler Syndicate, Inc.)

The old-fashioned marriage was a heart-ache, the modern marriage is fast becoming a labor-ache.

Lo, two pay-envelopes blossom, where there used to be only one: "I'll clean your safety razor, if you'll hook my frocks," is no longer the slogan of domestic reciprocity.

It's "I'll run a typewriter, down-town and help you with the bills, if you'll turn the washing-machine up-town and help me with the meals."

There used to be two kinds of feminine hands; those that "rocked the cradle" and did all the cooking—and those that wore diamonds and got all the kissing.

Nowadays, "the hand that rocks the cradle" also drives the fire-irons, kalamines the kitchen, plants the garden, and sometimes brings home a pay-envelope.

And the hand that wears diamonds probably runs a tea-room or a dressmaking establishment.

At present, there are three varieties of wives. Those who cook seven breakfasts a week for their husbands; those who meet their husbands at breakfast, now and then, when they have the time; And those who lie a-bed and let their husbands bring their breakfasts to them.

Most wives, who insist prettily on breakfasting with their husbands every day, could get the same thrilling effect, by standing the newspaper against the opposite side of the coffee-pot and carrying on an animated dialogue with the P.M. edition. Wood-wot!

And as for the man—breakfast-a-tout, seven times a week, MAY be his ideal of marital bliss.

But we suspect that, if it's "the empty-chair across the dinner table" that drives many a man into matrimony, it's the cheer of early-morning peevishness across the breakfast table, that drives many a one out of it, again.

The "fifty-fifty marriage" is fast becoming the ideal marriage. But it is not running on oiled wheels yet. It is merely creaking along, hopefully, with many joints, jars, and surprises.

It will be a complete and dazzling success, on that bright day, when men are willing to admit that if a woman is good enough to do a man's work, a man is not too good to do a woman's work. Hand him the dish-towel, Susanne!

Nowadays, the marriage service should read, "Love, honor and HUSTLE!"

WAR MEDAL FOR FAMOUS ACTRESS

Montreal, Oct. 20.—Henry V. Esmond, noted British dramatist, arrived at Quebec today on the liner Victorian from Liverpool. Mr. Esmond was accompanied by his wife, Miss Eva Moore, who received word on landing that the King of the Belgians had awarded her the Queen Elizabeth medal for war work. Mr. and Mrs. Esmond will make a tour of the Dominion in a series of Mr. Esmond's plays.

To Slip a Plant.

To grow a house-plant from a slip, take a half-ripe branch and cut a slip three inches long. After taking off all the leaves except the upper two, plant it in wet sand, exposing only half of the slip. The sand should be kept moist. When the roots begin to grow, transplant the slip into a pot with ordinary soil. Plants such as oleander and ivy will root in water.

Bright Clothes To Please Men

Prof. Hill Declares Love of Dress is Way Males Are "Captured."

(Special Correspondence of Cross-Atlantic News Service.)

London, Oct. 20.—"The flaming garb worn by women now are designed, perhaps instinctively, to attract the notice of the male sex."

This is the opinion of Prof. Leonard Hill, who has just published his book, "Science of Ventilation and Open-Air Treatment."

Just as the bower bird picks up every bright thing to form a bower for his mate, women decorate themselves with bright colored clothes to please the men. Red particularly excites the emotions; lips are red and cheeks are red.

Prof. Hill considers that in neck-wear women are more hygienic than men.

Prof. Hill says that clothes should let as light as possible, permeable to air, allowing free evaporation, and not clinging to skin when wet. For this cellular material is the best.

At a temperature of 59 degrees we should wear summer clothing; at 50 degrees summer clothing plus a light overcoat; at freezing temperature winter clothing, thick undergarments, and an overcoat; and when the thermometer is 10 or 5 degrees below freezing a fur overcoat.

Coolness without chilliness is what we should aim at for the highest of health. A man in sedentary employment is constantly trying to remove himself from the influence of cold, and his daily life is practically under the influence of a tropical climate.

Prof. Hill considers that in neck-wear women are more hygienic than men.

OCTOBER ROBES THE WEEDS IN PURPLE.

Walter Malone.

Far, far away, beyond a hazy height, The turquoise skies are hung in dreamy sleep; Below, the fields of cotton, fleecy white, Are spreading like a mighty flock of sheep.

Now, like Aladdin of the days of old, October robes the weeds in purple gown; He sprinkles all the sterile fields with gold, And all the rustic trees wear royal crowns.

The straggling fences—all are inter-laced With pink and azure morning glory blooms; The stately aspens glorify the waste, While grasses stand on guard with pikes and plumes.

The sunset, like a vast vermilion flood, Splashes its giant glowing waves on high; The forest flames with foliage red as blood, A conflagration sweeping to the sky.

TWINS ALWAYS SICK TOGETHER

Frederick, Md., Oct. 20.—Scientists here are investigating what they declare is an unusual psychic phenomenon.

When Clarence L. March, of Akron, Ohio, becomes ill, his twin sister, Clara March, who lives here, also invariably becomes ill. The unusual bond between the twins has existed since they were children.

Stage People Go To Church

Theatricals Resent Impression That They Neglect Places of Worship.

New York, Oct. 20.—Theatrical Broadway resents the idea that actors and actresses are pagan folk. "There are quite as many players who are conscientious Christians as you will find in any other walk of life," said George M. Colman, actor and playwright, who himself was the first president of the Catholic Actors' Guild. Other active members of this guild are Wilton Lackaye, Fritz Williams, Brandon Thomas, and Emmet Corrigan. All the Barrymores are Roman Catholics which faith embraces the attention, also Marie Cahill, William J. Kelley, Andrew Mack, Jane Grey and Eleanor Robertson who married August Belmont, Sr.

Harley Manners, the playwright was educated for the priesthood. His wife, Laurette Taylor, is a church-goer. Otis Skinner is the son of a minister. Mary Anderson was educated in a convent and was always intensely religious. Al Johnson is the son of a Rabbi. Others of the Jewish faith who try to live up to its tenants are Joe Weber, Lew Fields, Sam Bernard and Bertha Kalish. Irving Berlin, the songwriter also was the son of a rabbi.

In the Christian science fold we find many thespians. Lillian Russell is one of these. Others who are followers of Mrs. Eddy are Ruth St. Denis, Francis X. Bushman and his wife, Beverly Bayne, Madge Kennedy, Milton Sills, the screen artist, William Farnum, Chik Sales, Johnny Hyams and Lella McIntyre. Nora Baye when ill some years ago came back, she says through "Science and Health," that she was cured, and she exactly professes the faith but claim to be giving it full attention.

MOTION PICTURE EXHIBITORS MET

F. G. Spencer Elected President, and W. C. McKay, Secretary-Treasurer.

At the fifth annual convention of Motion Picture Exhibitors' League of the Maritime Provinces held in Halifax yesterday, F. G. Spencer, St. John, was president; H. R. Walker, Miramichi, vice president; W. C. McKay, St. John, secretary-treasurer; W. O. Fenety of Fredericton was chosen vice president for New Brunswick; and J. J. Salway, Miramichi, vice president for Prince Edward Island.

A great amount of business was transacted and the session is said to have been the best yet held by the league.

FASHIONS FROM THE FOOTLIGHTS

The charm of simplicity was demonstrated by Miss Marie Lohr, in "Every Woman's Privilege," which was produced at the Globe Theatre, says the Daily Mail.

Miss Lohr tripped on in the first act looking "sweet seventeen" in a shell-pink crepe de Chine, with insertion of point de venise, and a wide, soft, of-cire ribbon of a deeper shade. Later she appeared in a dinner gown of ivory Spanish lace, with Greek drapery, and a ruffled collar. Her hair was to feet. Diamante dewdrops gave a delightful touch to the flowers.

In the last act she appeared in a semi-direclore frock of natter blue. The skirt was of blue and white striped silk, accordion pleated, the cross-over bodice being all blue, with shirred white facings. A little husar cape of natter blue cloth, and a smart little hat with brim of the same striped silk and crown of blue lace, surmounted by a cockade, made Miss Lohr the embodiment of girlish charm.

What Secret Scandal Made The Wealthiest Old Family in New York Adopt a Pretty Bookstore Clerk?

On Monday a poor sallow in a bookstore. On Tuesday, she was living in a Fifth Avenue mansion, surrounded by every luxury, with jewels, autos, costly clothes and a maid of her own. Why did the wealthy Melrose family bother about an obscure girl like Norma Sheridan? Was it the secret of her birth, that had been buried for eighteen years? Only two women knew and they would not speak. Two men rushed blindly on, both loving her and yet both completely mystified. One the cultured society man, the other a simple earnest young mechanic. Which would she choose? Which would give her happiness—this girl with the conflicting blood of two worlds in her veins? This brilliant society story is the most absorbing romance Mrs. Norris has ever written. As you read her description of life in New York Society it is as vivid as if you were mingling with the Four Hundred yourself. You will be entranced with this story from the first page to the final chapter. It is beyond all doubt the most delightful novel of love and mystery we have ever published. Don't miss "The Beloved Woman," a mystery story of New York Society, by Kathleen Norris, beginning in Pictorial Review for November.

World's Biggest Woman Is Dead

She Weighed 668 Pounds and Had a Waistline of Eighty-Three Inches.

London, Oct. 20.—"Lovely Lucy Moore," reputed to be the world's biggest woman, is dead at Bristol. She was born of an English father and American mother at Lexington, Ky., 43 years ago, and although about average weight at her birth, her subsequent development was abnormal.

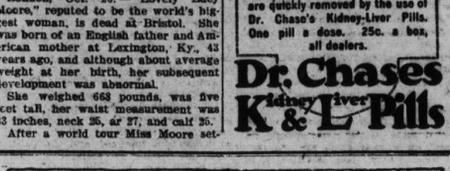

She weighed 668 pounds, was five feet tall, her waist measurement was 83 inches, neck 25, arm 37, and calf 25. After a world tour Miss Moore set-

led in England 21 years ago, and, minimizing her exhibition career, four years ago, went into retirement, living with her brother and niece in Bristol. When recently removed to the infirmary it took nine men to get her from her bedroom to the ambulance.

Acting Limbs

Poison in the system causes pains, aches and stiffness. The poisons are quickly removed by the use of Dr. Chase's Kidney-Liver Pills. One pill a dose. 25c. a box, all dealers.

Dr. Chase's Kidney-Liver Pills

Murver, what makes you so cross?

Poor mother, has headache, dizzy spells, headache and is nervous, which are all symptoms of woman's trouble.

Most women neglect their health, and for this neglect they pay the penalty. Any woman who suffers thus will find that she loses flesh faster than Nature can put it on. She will find that neglect does not pay. A little more attention to health would brighten up her life and make her worries fewer. If she asks her neighbors she finds that Dr. Pierce's Favorite Prescription benefits a woman's whole system.

It not only acts upon the troubles and weaknesses peculiar to women, but is an all-around vegetable tonic that braces the entire body, relieving nervousness, sleeplessness, headaches, dizziness and a run-down condition.

Dr. Pierce's Favorite Prescription in the drug stores in 1870. For fifty years it has stood the test, and thousands upon thousands of women everywhere in Canada can testify that this non-alcoholic tonic made them healthy and well. Send ten cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package of Favorite Prescription tablets.

Our Travelling Salesmen Enjoy Selling Red Rose Orange Pekoe Tea

Travelling salesmen work very hard as a rule. They put in long hours, and the pleasure of travelling is not so great as to those of us who mostly live at home.

Naturally, therefore, these men must get a great deal of their pleasure and satisfaction from their work—they like to sell the finest of products and represent a good "house."

Our travelling salesmen are exceedingly critical of the products which they are asked to sell, and when we told them last January that we wanted them to sell a new tea of extra quality—much finer than has usually been sold in Canada—they were keenly interested, put the new tea to many tests amongst their friends, and gave it a lot of time and thought.

Having convinced themselves of the extra fine quality of Red Rose Orange Pekoe Tea, they started on their trips full of enthusiasm.

Their satisfaction, however, has been much greater on their later trips, because of the splendid renewal orders which are following their first sales.

Like good merchants, our salesmen enjoy selling the very finest tea—Red Rose Orange Pekoe.

Try the tea which has met with so much success.

Montreal Woman Says 20 Years Younger Since Taking Tanlac.

"By taking Tanlac I have not gained thirty pounds in weight, but all of twenty years young."

"I had the truly remarkable sensation of being twenty years younger than the other day by Mrs. B. Guilmot, of 824 D'Arbois Street, Montreal."

"The six years previous to the taking of Tanlac was just one unbroken period of suffering for me. My health was so disordered there were so many things I never dared do, and I was so weak and nervous that I had to be carried to bed."

"I had no appetite, and even the smallest things cooking made me ill. My liver was badly out of order. I suffered constantly from awful headaches. My nerves were so weak that I had no constant pains in my back and couldn't stoop over or about without intense pain."

"This went on till I just had to get myself on a rigid diet, and in four or five weeks took practically no food whatever. In seeking relief I tried everything I could of or heard about, but nothing helped me, and I was going down in health all the time."

"But, I declare, it's just wonderful how different everything is with me since I have taken Tanlac. My life is splendid, and I can eat or do anything I want, and never even the least inconvenience."

"My nerves are steady, I sleep all night, and the headaches and backache have left me. My friends who have known me since I was a child, hardly know me for the same person when they meet me. I just can't find language to fully express my joy in taking Tanlac."

"Tanlac is sold in St. John by Druggists and F. W. Munro and personal direction of a special representative.—Adv't.

A party of four Fredericton hunters have returned from successful week to Little Lake, Sarnaby County. They landed four moose and state they saw 35 moose while on their trip.

PRESENTATION

J. B. Armstrong of the C. P. R. office staff, West St. John, was presented yesterday morning with a set of pipes by his associates in honor of his fiftieth birthday.

TAKEN TO HOSPITAL

James McMillan, a Western Union messenger attempted to swing on a girder in the building yesterday and fell, injuring his spine. He was taken to the Hospital in treatment.

AUTOMOBILE STOLEN

The St. John police have asked the assistance of police officials throughout the province in locating a Chevrolet car, No. 10395, which was stolen in the city last Friday night. No trace of the car has been found as yet.

BUSINESS CHANGE

A Chipman Smith & Co., druggists, Charlotte street, have disposed of their branch store in Bathurst, which was opened for business in 1918. The new proprietor is Wm. F. Pepper, who has been manager of the establishment since the business was begun, thirty-two years ago. Before going to the North Shore, Mr. Pepper, who is a Londoner by birth, spent several years in the St. John store, which opened its doors in 1891, a few years after the Loyalists landed here. Struth Robertson became a partner in the business in 1882.

Y. M. C. I. DRIVE FOR MEMBERSHIP

Thermometer Now Shows Total of Seven Hundred and Fifty.

The Y. M. C. I. drive for membership is going strong and the prospects for a record year in point of membership as well as in all other respects look very bright. The thermometer showing the success of the drive which is posted at the corner of Cliff and Waterloo street shows a total of seven hundred and fifty.

The two teams who are competing in friendly rivalry to swell the list are known to have several hundred names each, and it is expected that over two thousand members will be on the rolls before the drive is ended.

The teams are captained by George Flood and George Cunningham, who have under them five lieutenants with a squad of four men each.

The team securing the largest number of members is to get a turkey supper, while the losers will be consoled with crackers and cheese.

Each team is setting the names it has secured come out in dribbles with the intention of swamping their rivals in the closing hours of the drive.

The gym classes are proving very popular at the Y. M. C. I. this year. The girls' classes are beginning to almost rival the boys in point of membership. They have taken up basketball and have the material for several promising teams. A good year is promised in all departments.

PERSONALS.

Mr. and Mrs. Richard O'Leary, the Misses O'Leary and Mrs. Harry O'Leary, of Richmond, motored to the city yesterday and are registered at the Royal.

Mrs. Gordon Geddie and infant son, of Regina, are visiting Mrs. Geddie's mother, Mrs. Armstrong, Meeklenburg street.

Mrs. Fred Magee and Miss McLeod, of Fort Elgin, are visiting in the city.

C. W. Farquhar, of Sackville, was in town yesterday.

Amongst the several motor parties arriving in the city from outside points yesterday were Mr. and Mrs. Robert H. Armstrong, Miss Armstrong and Miss Kathleen Armstrong, of Newcastle; also E. P. Corbett and party, of Moncton.

DANCE TO BE HELD.

Refinery Men Quitting City

No Idea When Plant Will be Re-opened Can be Obtained by Employees Here.

The closing of the sugar refinery in this city has installed hardships upon the many employees, the full extent of which is beginning to be realized. Employees have endeavored to secure some definite answer from the management as to whether they were to have employment soon. The question has been evaded and the men have received no assurance of work in the immediate future.

Hunting New Jobs.

As a result the younger men on the working staff have gone in search of new employment, and many have left the city in quest of that work. Some have been promised jobs when the winter port season opens, and others, who have grown old in the service of the refinery and are physically fit to undergo the severe strain of longshoremen work, are facing the oncoming winter with more or less misgivings. The latter class of employees are the ones most seriously affected by the closing down of the plant.

Art Club Council Was In Session

Additional Members to Complete Organization Elected Yesterday.

The Art Club Council held its first meeting at the Studio yesterday afternoon, and with W. Frank Hatheway in the chair, elected the additional four members to complete its organization. The council now includes: P. N. Woodley, Wm. Brodie, Alex. Watson, Mrs. W. P. Hatheway, Mrs. H. A. Powell, Miss E. R. Holt, Archdeacon Crowfoot, Miss Alice Lockhart, Mrs. A. W. Estey, Mrs. Richard O'Brien, P. N. Woodley consented to take the recording secretary's office. A committee was appointed to interview a gentleman suggested as president, and Dr. Spangler is unable to accept the position, much to the disappointment of members, who hoped to see the doctor putting his surplus energy into the club. A special meeting of the club will be held immediately a decision is arrived at.

Appointment of regular committee and considerable business is awaiting a new president.

Junior Class

The Junior Art Class started in good shape in the afternoon. The attendance of pupils was large, and most important was the fact of nearly all last season's class members turning out, and more enthusiastically than ever. Most of the older ones will advance during the season into the senior class.

The Art Committee and Miss Holt, the teacher, are pleased with the outlook.

The curator's prizes for drawing of the Tifley and Champlain monuments will be competed for next month, and the drawings shown at a monthly meeting.

Government To Handle Liquor

Radical Change in Method of Dealing With Intoxicants in Province is Rumored.

The license year for the dispensation of spirituous and malt liquors comes to a close with the end of this month. If rumors of cabinet dealings at Fredericton, yesterday, are to be relied upon, a Government Commission will assume the responsibility of handling the liquor business at the Province with the beginning of November.

To whom this important work will be entrusted is not known, the Premier not having announced the membership of the new Commission.

The whole administration of the Prohibition Act in New Brunswick will come under the orders of the Commission. The wholesale vendors, now located in this city, will be no more, and all applications for retail licenses, liquors for dispensing and authority of license must be made to the Commission.

Government To Handle Liquor

It is understood that the office of Chief Inspector is not to be abolished, as has been reported, and it will come under the direction of the Commission. Chief Inspector Wilson was in conference with the Cabinet yesterday to discuss the workings of the new system. It is reported that Mr. Wilson is desirous of resigning the office to enter upon other duties, but, by request, is continuing in office until such time as the New Brunswick Temperance Alliance names its successor. It is expected some definite announcement, relative to Prohibition, will be made by Premier Foster today.

Donald Macner, one of the strong supporters of the Government and the President of the Temperance Alliance, was elected with the Premier yesterday, and is expected to have given some advice as to the composition of the Commission, believing that certain men be named on the Commission who are desired by the Alliance.

Important Word From Havana

Merchants Agreed to Assist Each Other to Tide Over Present Sugar Crisis.

The St. John Board of Trade recently received a copy of the resolution passed by the Havana Board of Trade following the declaration of the moratorium in Cuba. The wholesale grocers and importers of Havana have agreed to band themselves together and mutually assist each other to tide over the present crisis, caused by the sudden drop in sugar. They are agreed that all business, whether buying or selling, must be transacted on a strictly cash basis.

The communication states that a moratorium was declared by the Cuban government following the panic caused by Cuban International Bank, which was of a greater amount than the cash then on hand. The panic was such that runs were even experienced by banking institutions with foreign connections, and which were not interested in speculation on sugar products.

Assembly Was Distinguished One

House of Lords, House of Commons, Canadian Club and Sandy Macdonald.

Dead men tell no tales, neither do dead soldiers." If they did, some two or three thousand empty long necks which were heaped on one of the city's wharves yesterday, might have recounted some queer old tales of their adventures during these art Prohibition days.

The assembly was a distinguished one. There was present a large delegation from the House of Lords, and also from the House of Commons, and the Canadian Club. The gathering was made up largely of Scottish ha-bes. It looked like a gathering of the clans, the Macdonalds predominated, and they all answered to the name of Sandy.

The scene was not without its pathos, and the fact that a favorite was no longer to be seen, was strikingly borne out. For here were gathered those who once had been the idols of many clubs, whom men hailed as boon companions, and who had the entire into the most select circles.

Yesterday they had fallen from their high estate. They no longer wore the seals and ribbons which were wont to denote order or class to which they belonged. As though to ensure that their humiliation should be of the deepest, an Israelite was sorting them into groups and routing them to a vinegar factory.

Annapolis Valley Apples Arriving

This Year's Crop Estimated at But Fifty-Eight Per Cent. of Last Year.

The coasting schooners from across the bay are arriving daily with cargoes of Annapolis Valley apples. This year's crop has been estimated at but fifty-eight per cent. of that of last year, and the prices are therefore high. Number one Gravenstems are quoted at \$8 per barrel.

The potato crop across the bay was largely affected by rot, and the majority of the blue nose skippers are on the look-out for a return cargo of tubers. At this juncture the New Brunswick growers of other lobbers, steps into the game and demands \$4.50 for his product.

So the Nova Scotian skipper is faced with the need of a special appeal another day. As soon as he has secured a top price for his own goods along comes another chap and goes him one better. Producers they be in every trade—

Navy League Fund Growing

The Navy League, which is making its way over Canada, is a special appeal to the donors of the Navy and to care for the dependents of sailors is in St. John leaving the answer to this appeal to the generosity of the citizens. The debt of gratitude to the Navy can never be paid in dollars and cents, but monetary assistance will evidence to a sailor's bereaved family that they are not forgotten or neglected.

Good News From Milk Dealers

No Likelihood of Increase in Price Until End of November.

There is no likelihood of an increase in the retail price of milk in the city until the end of November at least, and the price now obtaining may be, perhaps, continued throughout the winter, several local dealers stated yesterday.

Another dealer was of the same opinion, but added that much would depend on the price of hay and feed. Hay is now selling at forty dollars a ton and will probably go higher, feed is rather unstable, and recently dropped two or three dollars a ton. The dealers say that if the prices of these two commodities do not advance, it is not probable that milk will, and that they drop sufficiently, the price of milk will also drop.

Will Conduct Series of Meetings

Deputy in Dept. of Inland Revenue Here to Meet Manufacturers and Merchants.

G. W. Taylor, Deputy in the Department of Inland Revenue, arrived in the city yesterday to discuss with manufacturers and merchants problems arising in the collection of excise, sales and luxury taxes. Mr. Taylor is here at the bidding of his chief, Hon. R. W. Wilmers, Minister of Customs and Inland Revenue, to enlighten St. John business men on any matters in connection with the newly imposed taxes concerning which they have not been thoroughly conversant.

Mr. Taylor informs the Standard there is a commendable disposition on the part of the merchants to do their part in assisting the Department in the collection of luxury and sales taxes. The difficulty has been that many of the merchants throughout the county have not been able to interpret the act to their working satisfaction, and many requests for information and direction have been made to his department. He is here to make his points clear to St. John merchants, and will conduct a series of meetings with them today.

Mr. Taylor will meet the Board of Trade tomorrow for general discussion of the tax laws. Following that he will meet each branch of trade in the city, discussing with them the application of the Act as it affects each line of business, and will be prepared to smooth out any of the knotty problems which are causing any misunderstanding among the different merchants. His duties are to instruct and educate. Many called upon him yesterday, were courteously received, and went away fully acquainted with what was required of them in the carrying out of the act.

APPEAL HEARD

In special committee of the common council in the Mayor's office yesterday an appeal from taxation was presented by D. King Hazen on behalf of the Hazen and Latier estates, Douglas Avenue. Mr. Hazen stated that the properties referred to were for sale at their assessed valuation. He also contended that the proposal that the extension be charged with cost of property tax and sewerage services meant confiscation. He did not actually claim that the properties were being discriminated against.

It was decided, on motion, that the Mayor prepare and forward a report to council on the appeal.
