## MILL DESTROYED

Dalhousie Loses, Temporarily, Another Industry

### FIRE THE CAUSE

Mill Was Owned by Dalhousie Lumber Co. and Employed about 90 Men

The large saw mill owned by the Dalhousie Lumber Company Ltd. situated in the lower end of the town of Dalhousie was totally destroyed by fire, Wednesday evening. The blaze broke out in the roof from a spark in the burner and spread with great rapidity. There was a heavy gale from the east at the time which made it very hard for the firemen; nevertheless they did everything in their power to save the property and deserve the highest praise. The mill was valued at from \$35,000 to \$50,000 and the insurance is said to be about \$25,000. The loss is especially severe to the company owing to the fact that a number of contracts had been entered into and vessels are now on their way to Dalhousie for the carcasses. The mill was in splendid working condition and on Monday cut about 104,000 feet of lumber. It employed about ninety men and has been the chief, if not the only, industry in the town and the loss will be felt very keenly. It will likely be rebuilt but not in time to help out the summer's work.

The slab wharf which protected the lumber in the booms was also destroyed. The lumber surrounding the mill, however, is believed to have been saved.

## Haywood's Awful Story Is Daily Substantiated

(Special to Events)

Boise, Idaho, June 20.—In the Haywood trial, today, the state continued introducing evidence corroborative of Orchard's awful story of assassination; up to the present nearly every important statement made by Orchard has been verified by other witnesses.

## Luwyers Take Up Time In Crockett Libel Case

(Special to Events)

Fredericton, June 20.—In the case of King vs Crockett before the Circuit court this morning Dr. Pugsley filed a demurrer to the plaintiff's plan of justification, holding that no evidence had been adduced to justify the publication of the libel. The legal argument which followed occupied the attention of the court all morning.

## Grover Cleveland Improving

(Special to Events)

Princeton, June 20.—Ex-President Grover Cleveland, who has been very ill is reported better today. His condition, however, is still serious.

## "Baby's Own" Soap

—keeps its delicate fragrance to the very last fragment, and it is so well made that it will wear to the thinnest wafer.

## INVESTIGATING FONTAINE'S DEATH.

Witnesses Give Different Versions of Shooting Affair at Balmoral

### INQUIRY EXCITES KEEN INTEREST.

Coroner's Jury Decides that an Autopsy Must be Performed on Body—Dr. Martin Selected for the Job.

Coroner Ferguson commenced an investigation Saturday at Dalhousie, into the death of Peter Fontaine of Balmoral. The circumstances surrounding the death of Fontaine were detailed in the last issue of Events.

The coroner's inquiry is attracting widespread interest. As an evidence of this La Presse, Montreal, has a staff man covering it. W. A. Trueman is representing the crown, R. A. Lawlor, K. C., the Fontaine family and W. A. Mott is looking after the interests of the two constables, Seesley and Gallop.

Benjamin Winsor, a magistrate was the first witness called when the inquiry was resumed Wednesday morning. He identified the writing on the warrant as that of James F. Harquail.

James Savoy, a former resident of Balmoral, but now employed by the livery stable keeper, Godd, at Dalhousie was next sworn.

He testified that he drove Gallop and Seesley to Balmoral the day of the tragedy. They arrived at the house of Andrew Fontaine at 4.30 a. m. Witness left the

house soon after they arrived and did not see what happened. He took the team to Joseph Savoy's. He heard two shots and about twenty minutes later possibly nine or ten more. He did not investigate the origin of the shots. No liquor had been taken on the way out as far as he knew. He did not state if the house of Joseph Savoy before the shots were fired that there would be murder done. He had told the constables that the Fontaine's were able men and that they had better prepare themselves.

John Splude of Eel River was the next witness. He assisted at the post mortem examination. He testified that he saw two bullets on body. He would not swear there were more than two. He saw a piece of cotton wool sticking to the back bone which he supposed covered a third wound. In reply to a jurymen he gave as his opinion that there was a third wound.

George Seesley the policeman was recalled, and testified he put the handcuffs on Peter Fontaine (Continued on page 8)

## TOWN COUNCIL.

Meeting held on Tuesday evening.

### THE ASSESSMENT

Increased \$1200 Over Last year—The water question

The city fathers held a meeting on Tuesday evening, all being present with the exception of Coun Taylor.

Accounts were passed as follows:

Fire Com.	
Gutta Percha Rubber Co., hose	\$582.19.
Police and License.	
Mrs Adams,	\$2.00
Boudreau & Cormier	.15
J. T. Reid,	3.00
Water and Sewerage.	
Jas. Robertson Co.,	187.92
A. E. Alexander & Son,	17.62
Peter McLean,	3.78
Electric Light.	
Eugene F. Phillips Co	153.32
A. E. Alexander & Son,	3.69
J. & D. A. Harquail,	1.50
Finance.	
W. J. Miller,	20.00
Canadian Express Co.,	50
W. W. Doherty,	4.00
Public Charities.	
Angus McKenzie,	27.00

Coun. Andrew from the special Com. to interview Joseph Duncan with a view to purchase land for the reservoir, reported that no progress had been made in the matter, owing to the fact that Mr. W. H. Wallace had secured an option on the land in question. Coun. Andrew said that he had been informed by Mr. Duncan that the papers for the transfer to Mr. Wallace had been prepared and no doubt the deal had been closed by this time.

The report was received and the committee discharged.

Coun. Mowat submitted further report on the matter of purchasing an express wagon for the electric light department and asked for authority to purchase at a cost not exceeding \$85.00.

The matter was left in the hands of the committee with power to act.

Coun. Andrew from Water and Sewerage Com. submitted report recommending that the water and sewerage systems be extended along the new street from Prince Wm. St. to Angus Dewar's residence. The estimated cost would be in the vicinity of \$700.

Some objection was made to extending the systems on this street in view of the uncertainty of the lines, but the report was finally adopted.

Coun. Miller brought up the matter of the insurance of all town employees. He submitted a proposition of the Ocean Accident and Guarantee Co., but the council decided not to accept it at present.

On motion Napoleon LaBoeff and John Connors were appointed Pound-keepers and Hogreves.

The Assessors for the different wards were reappointed, viz. Wm Glover, M. G. Mann and Alex. McLennan.

(Continued on page 8)

## GOOD BLOOD WILL SHOW ITS QUALITY. SO WILL BAD BLOOD.

The one in a healthy body and ruddy complexion, the other in ill-health, blotches, pimples, boils and sores, and frequently in intense forms as ulcers, abscesses, erysipelas, salt rheum, etc.

Every organ of the body depends on the blood for force and vitality, and is but scantily served when the blood is impure. No remedy is so potent as a blood purifier or more rapidly produces new and healthy blood than

### BURDOCK BLOOD BITTERS

which neutralizes the various poisons and restores the vitalizing power of this important fluid.

For sale by all druggists and dealers.

#### Notice of Sale

To the Heirs of William Bastin, late of the Town of Campbellton in the County of Restigouche and Province of New Brunswick, Locomotive Engineer, and all others whom it doth, shall or may concern.

NOTICE is hereby given that under and by virtue of a power of Sale contained in certain Indenture of Mortgage, bearing date the twenty-first day of October, A. D. 1891, made between the said William Bastin in his lifetime, of the first part, and William Mott of the Town of Campbellton aforesaid, Esquire, of the second part, and duly recorded in the office of the Registrar of Deeds in and for the County of Restigouche aforesaid, as No. 4216 on pages 536, 537, 538, 539, 540 and 541 of Book "K" of said Records, which said Indenture of Mortgage was duly assigned to James Reid of Charlottetown in the said County of Restigouche, Merchant; there will, for the purpose of satisfying the moneys, both principal and interest, secured by the said Indenture of Mortgage (default having been made in the payment thereof) be sold at Public Auction in front of the Post Office in the Town of Campbellton aforesaid; on Monday the sixteenth day of September next, at eleven o'clock in the forenoon, all of certain Leasehold Lot of land and premises situated lying and being in the Town of Campbellton aforesaid, and bounded and described in said Indenture of Mortgage as follows: "On the 'East' boundary line of said lands one hundred feet, on the 'South' by lands owned and occupied by the heirs of the said John D. Gerrard, thence running along the boundary line of said last mentioned lands fifty feet, on the west by lands owned and occupied by the heirs of the said John D. Gerrard, thence North running along the boundary of the said lands one hundred feet to the Public Highway thence East running along the Southern boundary line of said Highway fifty feet to the place of beginning, together with all buildings and improvements thereon standing and being privileges and appurtenances thereto belonging or in any manner appertaining, subject however to the payment of the rent and performance of the covenants in the original Indenture of Lease contained.

James Reid Assignee of Mortgage  
-3m  
Notice of Assignment, of Meeting of creditors and to file claims.

Take notice that William A. Archibald, of the Parish of Addington, in the County of Restigouche and Province of New Brunswick, Lumberman and Trader, pursuant to the provisions of Chapter 14 of the Consolidated Statutes of New Brunswick, 1903, intituled "Respecting Assignments and Preferences by Insolvent Persons" did on the sixth day of June instant, make a general assignment for the benefit of his creditors, to the undersigned, Timothy Robinson, of Dalhousie Junction in the said County of Restigouche, Sheriff of the said county, and also that a meeting of the creditors of the said William A. Archibald will be held at the office of W. A. Trueman in the Bank of Nova Scotia Building, in the town of Campbellton in the said County of Restigouche on Tuesday, the eighteenth day of June inst., at two o'clock in the afternoon, for the appointment of Inspectors and giving of directions with reference to the disposal of the estate and the transaction of such other business as shall legally come before the meeting.

And notice is further given that all creditors are required to file their claims, duly proven, with the said Assignee within three months from the date of this notice, unless further time be allowed by a judge of the Supreme or County Court; and that all claims not filed within the time limited, or such further time, if any, as may be allowed by any such judge, shall be wholly barred of any right to share in the proceeds of said estate; and that said Assignee shall be at liberty to distribute the proceeds of the estate as if any claims not filed as aforesaid did not exist, but without prejudice to the liability of the debtor therefor.

Dated at Dalhousie Junction, aforesaid, this 6th day of June, A. D. 1907.  
Timothy Robinson,  
Sheriff of the County of Restigouche,  
37-2-P

## Weak Kidneys

Weak Kidneys, surely point to weak Kidney Nerves. The Kidneys, like the heart, and the stomach find their weakness not in the organs themselves, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone is futile. It is a waste of time and of money as well.

If your back aches or is weak, if the urine smells or looks strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease try Dr. Shoop's Restorative. It is a medicine that can and will do for you. Druggists recommend and sell.

## SUDDEN DEATH OF SUSSEX PRINCIPAL.

### Peter R. McLean Passed away Saturday after a brief illness.

Sussex, N. B., June 16.—The death of Peter R. McLean, principal of the Sussex schools, which occurred here Saturday morning, was a great shock to his many friends and acquaintances, and particularly to his pupils and fellow teachers with whom he had been working only a week before. Mr. McLean had not been in the best of health for some time, but nothing serious was anticipated until he was taken suddenly ill about a week ago with appendicitis, and the patient never rallied satisfactorily from the operation.

Mr. McLean was just completing two years service as principal of the Grammar School, and gave promise of a very successful career as a teacher. He graduated with honors from the U. N. B. in 1903. Services were conducted Sunday night when the Board of School Trustees, the staff of teachers and over 100 pupils assembled to pay their last tribute of respect, and formed in procession to the I. C. R. station, whence the body was taken on the Quebec express to the late home of deceased in Charlottetown. C. J. Jones, second master of the school, accompanied the remains. The teachers assembled at the annual school meeting, passed a resolution expressive of their high regard for Mr. McLean, and deep regret at his untimely death. —Transcript.

### Assassination in St. Petersburg.

St. Petersburg, June 14.—Col. Kotlov, commandant of the Port of St. Petersburg was murdered this morning by a workman in the Admiralty section of the city. The colonel was recently sentenced to death by the revolutionary fighting organization because he recommended a reduction of the working force at the admiralty works. The assassin was captured but he is believed to have had accomplices who escaped.

## FIELD BATTERY TO TRAIN NEAR MONCTON

That Moncton is to have a Battery of Field Artillery has become a fact Word has been received from the Militia Council that the transfer will be effected on June 18. The equipment consisting of Guns, Limbers, Ammunition wagons, Uniforms, Office Furniture, Tables &c., will reach here early next week.

As it is the intention of the Militia Department to supply all the Field Batteries with the most modern pattern of harness for draught horses, as with the new colonial saddlery, for the saddle horses, it has found the Ordnance Stores, Ottawa, could not supply all the Batteries with this pattern of equipment in time to attend camp on June 25th. It is therefore been decided to have the Moncton Field Battery, perform its twelve days of Annual Training in Moncton for this year. A suitable location in or near the city will be selected where a good supply of water for cooking purposes and horses can be had here the camp will be laid out, tents pitched and everything carried out with precisely the same discipline, routine, as would be found at the Sussex camp.

The 16th Battery will profit very much by this arrangement. There will be no risk by the entraining and detaining of horses where all the horses and men are inexperienced. All the men will learn the work so that next year the Battery will go to Sussex with experienced men and be able to hold a place second to none in the whole camp.

Cooking utensils will be provided for the men to mess on, and all the many things that make the life of the men in camp happy and comfortable will be provided here for use in succeeding years.

### HEALTH DEPENDS ON GOOD BLOOD

Everyone who uses Ferrazone has good color and great vitality. Reason for this is Ferrazone's power to create purifying blood. "I was broke down and had no strength and couldn't eat," writes Mrs. Chas. Benny of Cloyne, Ont. "My nerves were irritable, I was thin-blooded and continually unhappy. I tried Ferrazone. It gave me new energy, force, vim. It brought me strength—made me well." Greatest tonic and re-builder ever known is Ferrazone. Sold everywhere in 50c boxes.

### GENERAL ASSEMBLY

Montreal, June 7.—The first great debate of the Presbyterian general assembly occurred yesterday afternoon over the relation of the church to social reform. Overtures presented from several synods, suggesting the formation of a committee for temperance and moral reform, or the appointment of an agent to represent the church in that field, precipitated the discussion.

The first climax was reached in the deliverance by Rev. C. W. Gordon (Ralph Connor), of Winnipeg, who laid the blame for moral corruption in commercial and political life to a large extent on the standing aside of the church.

"The pulpit cannot afford to tell the pew to go down into the fifth degree of politics," he said, "unless the pulpit is prepared to go down and bear its part in battle." Mr. Gordon advocated strongly the formation of a committee for the appointment of an agent for this work. He feared the church might be losing its grip in some ways, but he was confident that Presbyterianism had a message for the laboring man.

E. G. G. MacDonald, K. C., of Kingston, struck a discordant note, but at the same time a striking note. "Call it Committee on graft and moral reform," he said; "Canada is not suffering from intemperance one hundredth degree to what she is suffering from graft. Our forefathers in Scotland were honest. If they did drink more whiskey than we do. We are not an honest people."

John McKay, of Sault Ste. Marie, wanted the church to undertake a campaign for government control of the liquor traffic. It would be supported by the Episcopalian and Catholics, and be an aid to local option.

Professor Magill, of Halifax, contributed the speech of the day in the appeal for the broadening of the work of the committee to include social reform. He spoke of his work in college in lecturing on temperance and by correspondence in stirring up an interest in social reform, and cited applications made to him for information along that line. "It is no use preaching to men, women and children who have nothing to eat," he said, "and who are living in a room where no dog should sleep."

Water Paul, of Montreal, be-

lieved that intemperance caused lunacy, and Rev. Alex. Miller, of Ontario, thought the church should stick to the proper regime of social reform, the preaching of the old gospel. Finally the whole subject was referred to a committee for further reports.

### Tonight!

If you would enjoy tomorrow take Chamberlain's Stomach and Liver Tablets tonight. They produce an agreeable laxative effect, clear the head and cleanse the stomach. Price, 25 cents. Samples free at all Druggists.

The National Transcontinental commission is calling for tenders for the construction of an eight-mile section of the line from Chipman, New Brunswick, eastward to the point where the Grand Trunk Pacific's contract terminates. This will complete the portion of the line between Chipman and Moncton.

## Bowel Troubles

Liver pills, cathartics, mineral waters, often make Constipation worse. They merely irritate the bowels and force them to move—stop taking purgatives and the bowels become "tight" again.

### "Fruit-a-tives" are the one certain cure for Constipation

because their action is upon the liver, "Fruit-a-tives" are a liver tonic. They stimulate the secretions of bile by the liver, this bile causes the bowels to move in the natural, regular way and completely cures Constipation.

"Fruit-a-tives" are fruit juices with tonics and antiseptics added. In "Fruit-a-tives" one atom of bitter replaces one atom of sweet in the fruit juices, forming a new compound which is many times more active, medicinally, than the fruit juices could possibly be. 50c. a box—\$2.50 for 6 boxes. At all dealers.

## Fruit-a-tives

OR FRUIT LIVER TABLETS

**A Grand Cure**  
FOR  
SUMMER COMPLAINT  
AND CRAMPS  
IS  
**DR. FOWLER'S**  
EXTRACT OF  
**WILD STRAWBERRY**

It is nature's specific for Diarrhoea,  
Dysentery, Cramps, Colic, Pain in the  
Stomach, Cholera Morbus, Cholera In-  
fantum, Sea Sickness, Summer Com-  
plaint, etc.  
Rapid and reliable in its action.  
Its effects are marvellous, and it is  
pleasant and harmless to take.  
It has been a household remedy for  
sixty-two years.  
Refuse substitutes. They are danger-  
ous.  
Mrs. Wm. Fawcett, Arthur, Ont.,  
writes: "I find it much pleasure to  
recommend Dr. Fowler's Extract of  
Wild Strawberry as a grand cure for  
Summer Complaint. My little boy, one  
year old, was very bad with it, and a few  
doses cured him. I also used it on my  
other six children for cramps and still  
have half the bottle left. I cannot praise  
it too much."

All trains run by Eastern Standard Time between Montreal and Camp- bellton and by Atlantic Standard Time East and South of Campbellton Atlantic Standard Time is one hour earlier than Eastern Standard Time. 24 hour notation, 24 o'clock is mid- night	

**TELEGRAPH COMPANIES  
MAY ADVANCE RATES  
IN MARITIME PROVINCES**

Toronto, Ont., June 13.—The  
Great Norwestern and Canadian  
Pacific Telegraph Companies have  
advanced rates on all messages to  
United States from twenty-five to  
sixty per cent. The new tariff  
was put into force yesterday. Ac-  
cording to the clause in the Domini-  
on act of parliament concerning the  
amalgamation of the two Canadian  
telegraph companies, the tolls in  
Ontario and Quebec are held down  
to 25 cents limit, above which they  
cannot go. The Maritime Provin-  
ces are not so protected, and it is  
not unlikely that rates will go up  
the near future.—Sun.

**Fits your case Exactly**  
You know how you feel,—blue sickly  
and heavy. Each morning you awaken  
in a dull "dopy" condition and wish it  
were night again. Your liver is wrong  
and needs fixing with Dr. Hamilton's  
Pills to cure all liver ills. At once the  
system is relieved of poisons, blood  
is enriched and purified, appetite in-  
creases and digestion picks up. Health  
and vigor return because Dr. Ham-  
ilton's Pills make the body proof  
against weakness and disease. For  
your liver, your kidneys, your stom-  
ach, for the sake of your looks and  
feelings, try Dr. Hamilton's Pills,  
50¢ per box at any dealer.

**Married Doll**  
to Get Wife.

Lucknow, June 8.—The univer-  
sal superstition that it is unlucky  
for a man who has been married  
once before to be led to a second cer-  
emony in Badoon in the United  
Provinces a few days ago. A  
merchant who wished to marry for  
the third time was persuaded by the  
parents of the bride to first go  
through with the ceremony of  
marrying a doll which he carried  
in his arms. The doll which was  
regarded as his third wife was  
then buried with great pomp after  
which the real wedding took place.

**Every man his own Doctor**

The average man cannot afford to  
employ a physician for every slight  
ailment or injury that may occur in his  
family, nor can he afford to neglect  
them, as so slight an injury as the  
scratch of a pin has been known to  
cause the loss of a limb. Hence  
every man must from necessity be his  
own doctor for this class of ailments.  
Success often depends upon prompt  
treatment which can only be had when  
suitable medicines are kept at hand.  
Remedies have been in the  
market for many years and enjoy a  
good reputation.  
Chamberlain's Colic, Cholera and  
Diarrhoea Remedy for bowels com-  
plaints.  
Chamberlain's Cough Remedy for  
coughs, colds, croup and whooping  
cough.  
Chamberlain's Pain Balm (an an-  
tiseptic liniment) for cuts, bruises,  
burns, sprains, swellings, lame back  
and rheumatic pains.  
Chamberlain's Stomach and Liver  
Pills for constipation, biliousness  
and stomach troubles.  
Chamberlain's Salve for diseases of  
the skin.  
One bottle of these five preparations  
cost but \$1.25. For sale by all Drug-  
gists.

**FATAL ACCIDENT.**

St. John, June 8.—A fatal ac-  
cident occurred at the new Royal  
Bank building this morning. Mich-  
ael Gillen, of Union street, was  
assisting in putting a heavy vault  
door into place when the block  
which supported it gave way and  
the door fell, carrying Gillen to  
the ground, crushing him badly.  
The injured man was at once sent  
to the hospital, where he died an  
hour later. The accident was  
witnessed by a large number of  
men employed on the building,  
and they say that the occurrence  
could not have been prevented by  
them, as the door was falling with  
great force when they first saw it.  
Several ribs as well as Gillen's  
collar bone were broken. Michael  
Gillen was about 48 years of age  
and is survived by his wife and  
several children. This is the first  
fatal accident which has occurred  
on the new building.

**McGale's Butternut Pills**  
An expert says: "The average human  
being eats three times too much." Result,  
headaches, pimples, boils, poison in the  
system.  
Safe for young and old. Purely vege-  
table—a compound of Butternut extract,  
fennel and a blood-purifier.  
Get a box from your dealer, or  
direct, 25c.

**DISARMING THE NATIONS**

The nations met to talk of peace and  
of its many charms  
Each told the rest he thought it best  
that all lay down their arms.  
That spears be beaten into ploughs,  
warsteeds turned out to grass  
That guns be changed to pipes arrang-  
ed for water or for gas.  
"A worthy deed," they all agreed, "for  
peace we are athirst."  
But each one said he'd wait until the  
others disarmed first  
"It is not war I'm looking for," said  
every old John Bull.  
"But any one that pulls a gun will find  
me in his wool."  
Yet I'll disarm—war holds no charm  
for me—I'll only keep."  
My forts to hold my lands outwitted,  
my ships to rule the deep."  
"I hate a fuss," observed the Rus, "I  
yearn for gentle calm  
I'll merely save the words that were  
held in each soldier's palm  
I'll keep my guns—some other ones  
I've ordered, and of course,  
I cannot spare my navy fleet, it's a per-  
fect force."  
"To peace I'm led," the Kaiser said.  
"My army shan't increase,  
Except that each boy I shall teach the  
way to hang to peace."  
And I shall rear upon the foam, in  
sitting on the right,  
Each battleship a shoulder-clip—I  
hope I need not fight  
The peaceful Jap a timid chap, re-  
marked that he agreed  
That he would not keep in one spot  
I've ordered, and of course,  
And Uncle Sam looked like a lamb  
when he observed that he  
Would build no boat that would not  
float upon the angry sea.

Would build no boat that would not  
float upon the angry sea.

**Barely lived through it**

A terrible experience had Edw. J.  
O'Connor of Salt St. Marie "From boy-  
hood" he writes, "I have been a con-  
stant sufferer from asthma and catarrh  
My nose and throat were always stop-  
ped and I had dropping in the throat  
When attacks came on I could not live  
through the night. I would sit up  
coughing and endure great dis-  
tress. Catarrh made me entirely  
helpless. No stronger proof is required.  
Asthma is curable, so is catarrh.  
Use "Catharhine" and your recovery  
is guaranteed. Two sizes 50¢ and \$1.00  
at all dealers.

Rev Samuel Fallows, D. D., L. L. D.,  
presiding Bishop of the Reform-  
ed Episcopal Church and Bishop  
in charge of the Synod of Canada  
will make his Episcopal visitation of  
St. John's Reformed Episcopal  
church, Sussex, N. B. on Sunday  
and Monday, June 23 and 24,  
Sunday 9 a. m. Plummewesep, Sun-  
day afternoon Sussex Corner. Cun-  
firmation sacramental service. Sun-  
day evening service Sussex  
Corner. Monday evening an at-  
home to be held at Mrs. John  
Markham's, Sussex Corner, when  
all members' friends and sympathi-  
zers will be welcome. For over  
three years Bishop Fallows has ren-  
dered devoted service to the Reform-  
ed Episcopal Church as Bishop  
and Rector of an important  
parish in Chicago. He  
participated actively in the great  
war on the side of the "North and  
Freedom," quitting at the end of  
the struggle with the rank of Brig-  
adier General. Literature claims  
his attention, his most recent con-  
tribution to Hygiene, Science and  
Health, being very valuable. He  
is also deeply interested in child  
life and the problem of how best to deal  
with neglected, refractory children.  
He is practically head of the reform-  
atory system in the State of Illinois  
altogether worthy of being highly  
esteemed.

**Few Will Escape**

The torturing aches of corns, Be  
prepared,—the only painless cure is  
Putnam's Corn Extract. Fifty years  
in use and absolutely guaranteed.

# OPERATIONS AVOIDED

Two Grateful Letters from Women Who Avoided  
Serious Operations.—Many Women Suffering  
from Like Conditions Will Be Interested.

When a physician tells a woman, suf-  
fering from female trouble, that an op-  
eration is necessary, it, of course, frightens  
her.  
The very thought of the operating  
table and the knife strikes terror to her  
heart. As one woman expressed it,  
when told by her physician that she  
must undergo an operation she felt that  
her death knell had sounded.  
Our hospitals are full of women who  
are there for just such operations!  
It is quite true that these troubles may  
reach a stage where an operation is the  
only resource, but such cases are much  
rarer than is generally supposed, because  
a great many women have been cured  
by Lydia E. Pinkham's Vegetable Com-  
pound after the doctor had said an  
operation must be performed. In fact,  
up to the point where the knife must be  
used to secure instant relief, this medi-  
cine is certain to help.  
The strongest and most grateful state-  
ments possible to make come from  
women who, by taking Lydia E. Pink-  
ham's Vegetable Compound, have es-  
caped serious operations.  
Mrs. Robert Glenn of 434 Marie St.,  
Ottawa, Ont., writes:  
Dear Mrs. Pinkham—  
"Lydia E. Pinkham's Vegetable Com-  
pound is so well and widely known that it  
does not need my recommendation, but I  
am pleased to add it to the many which you  
have in its favor. I have suffered untold  
agonies from a serious female trouble for  
nearly three years, and the doctors told me  
that I must undergo an operation, but as  
I was unwilling to do this, I tried your Ve-  
getable Compound, and I am only too  
pleased that I did so, for it restored me to  
perfect health, saving me the pain of an  
operation and the immense bills attending  
the same. I pray accept my hearty thanks  
and best wishes."  
Miss Margaret Merkle of 275 34 Street,  
Milwaukee, Wis., writes:  
Dear Mrs. Pinkham—  
"Loss of strength, extreme nervousness,  
severe shooting pains through the pelvic  
organs, cramps, bearing-down pains, and an  
irritable disposition compelled me to seek  
medical advice. The doctor, after making  
an examination, said that I had a serious  
female trouble and ulceration, and advised  
an operation as my only hope. To this I  
strongly objected—and I decided, as a last  
resort to try Lydia E. Pinkham's Vegetable  
Compound.  
"To my surprise the ulceration healed,  
the bad symptoms disappeared, and I am  
once more strong, vigorous and well, and  
I cannot express my thanks for what  
it has done for me."  
Serious feminine troubles are steadily on  
the increase among women—and before  
submitting to an operation every woman  
should try Lydia E. Pinkham's Vegetable  
Compound, and write Mrs. Pinkham, at  
Lynn, Mass., for advice.  
For thirty years Lydia E. Pinkham's  
Vegetable Compound has been curing the  
worst forms of female complaints, all  
functional troubles, inflammation, ulcer-  
ation, falling and displacement, weakness,  
irregularities, indigestion and nervous  
prostration. Any woman who could  
read the many grateful letters on file in  
Mrs. Pinkham's office would be con-  
vinced of the efficiency of her advice and  
Lydia E. Pinkham's Vegetable Com-  
pound.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

**GRAND ANSE.**

Weather still continues cold and  
farming backwards.  
Fishing commenced late on account  
of the ice which was nearly two weeks  
later leaving the bay than former  
years.  
Large quantity of herring have  
been caught along the shore. The  
catch of flounders have also been better  
than for some years so far but as the  
season was late factories have not as  
many cases named as this time other  
years. Very few salmon have been  
caught here yet. The fishermen com-  
plain of strong tides which make it  
difficult to keep nets in good fishing  
order.  
Mr. and Mrs. W. F. Barry of the  
Grand Anse Hotel were guests of Mr.  
and Mrs. Daniel O'Neil, Waterloo.  
Thos Foley of the Hotel Miramichi  
Newcastle, visited his parents, Mr and  
Mrs P. J. Foley, Pokeshaw recently.  
He also met a number of acquaint-  
ances at the Grand Anse Hotel here,  
where a pleasant evening was spent.  
Mr. Foley's many friends here are  
always glad to meet him as he has  
always been a social favorite with  
his acquaintances here.  
Miss Valerie Pinet, the  
daughter of Luke Pinet, Waterloo,  
and Wm. Clemmings of St. Joseph  
were married in the R. C. Church  
Tuesday by Rev. S. J. Doucet. Af-  
ter the ceremony the wedding party  
drove to the bride's parents where a  
wedding breakfast was served. The  
party then drove to St. Josephs,  
the bride's future home.  
Annie and Bridget Theriault of  
Portland, Me., are spending the sum-  
mer vacation at their homes, Water-  
loo.  
W. F. Barry of the Grand Anse  
Hotel purchased the farm of the late  
Benjamin Sullivan, Waterloo.  
T. Coughlan of Pokeshaw and M.  
Coughlan drove to Waterloo Sunday  
The Misses Murphy entertained a  
few friends Saturday eve.

MINARDS LINIMENT is the only  
Liniment asked for at my store and the  
only one we keep for sale.  
All people use it.

CAMPBELLTON, N. B. June 20 1907

## WANTED A BRIDGE

If the Board of Trade of Campbellton finds time hanging heavy on its hands we would suggest that it give some attention to the subject of a bridge across the Restigouche at Campbellton. It is evidently the intention of the Atlantic, Quebec and Western Railway Company to extend its line east to Gaspé and west to a point in New Brunswick on the Grand Trunk Pacific. The acquisition of the Atlantic and Lake Superior Railway is the first step in this direction. It gives the company a road from Gaspé to Matapédia. A portion of this line is now in operation and the remainder under construction. The company may enter New Brunswick at Matapédia and build a road almost parallel to the present International road. That Campbellton would suffer by the adoption of such a route goes without saying. But if the Restigouche were spanned by a bridge, Campbellton's interests would be safeguarded, for in that event it is unlikely that the Atlantic, Quebec and Western Railway Company would proceed with the construction of a road across New Brunswick, but acquire or utilize the International. As Gaspé is destined to become a mail and passenger port, if not a terminus, of a fast Atlantic steamship line, Campbellton's possibilities as a railway centre would seem almost unlimited with a bridge across the river. Therefore we trust that the Board of Trade will bestir itself. We have much to gain by having a bridge and a good deal to lose by not having one.

On the recommendation of the School Board the Town Council has appropriated about \$600 for purpose of increasing the salaries of the town teachers. Both the Board and Council are to be commended for this step. If there are any human beings on the face of the earth who are underpaid they are school teachers.

## DR. PUGSLEY OR, MR CARVELL.

A few weeks ago one of the St. John newspapers dubbed the Hon. Wm. Pugsley, "the man of the hour." He was that alright but there is no evidence to show that he was anything more. Perhaps however, he will loom large again when the date is set for the by-election in St. John. Meanwhile it is said that F. B. Carvell, the representative of the County of Carleton in the House of Commons is not losing sight of the fact that New Brunswick is without a representative in the Cabinet of Sir Wilfrid Laurier. Doubtless Mr Carvell would make a most capable cabinet officer, but so would Dr Pugsley and the prospective member for the city and county of St. John has a very winning manner. Nevertheless it might be advisable for the doctor's St John press agents to continue to inflate his stock, or at least, not permit it to deteriorate through his connection with a notorious libel suit, as a report from Moncton seems to indicate that it may. It is extremely unlikely that both Mr. Carvell and Dr. Pugsley will occupy cabinet seats at the same time. Sir Wilfrid Laurier will likely appoint the one having the strongest hold on the liberals of New Brunswick, although the Herald of North Sydney, N. S., says there is a possibility if not a probability of both Mr Carvell and Dr Pugsley being left in the outer darkness and Senator Ellis given the coveted plum. The Herald seems to think that this is the easiest way out of a difficult situation. But here's where the Herald's reasoning is defective. Senator Ellis, as the prefix to his name implies, is a member of that

exalted order of political has-beens known as the Canadian Senate. To be appointed to a Cabinet position he would have to resign his present seat and run for the House of Commons. Just where he could run and be elected we cannot imagine and it is doubtful if anyone else can. As it looks now it will either be Dr Pugsley or Mr Carvell—barring accidents, and at the present time the member for Carleton seems to be running strong.

Campbellton sympathizes with Dalhousie in the loss it sustains by the destruction by fire of the Dalhousie Lumber Co's mill. This is the second disastrous fire the shire town has had this year. We trust, however, that the loss on this occasion is but temporary and that a new mill will rise phoenix-like on the ashes of the old one.

The annual gab-fest of the business men of the Maritime Provinces takes place at St. John on Aug. 21st. In other words this is the date of the annual meeting of the Maritime Board of Trade. We haven't access to the minutes of this loquacious body but we should be much surprised to learn if its deliberations have ever resulted in one single solitary thing being done.

## FISH AND GAME.

The New Brunswick Fish, Forest and Game Association was formed at Fredericton on Wednesday evening, 12th inst. Fred M. Edgcombe occupied the chair. Among others present were Surveyor General Sweeney; Deputy Surveyor General Howland; Chief Warden Robinson; Norris Mander; Geo. McKay, Newcastle; Thos. F. Allen, steward of the Tobique Salmon Club; W. H. Allen, Pennier; and a large number of Frederictonians.

Letters of hearty endorsement were read from Ernest Hutchinson, Douglastown; W. B. Snowball, Robt. Loggie, and James Beveridge, Chatham; M. Mowatt, Campbellton; O. Turgeon, M. P., Bathurst; the N. B. Forestry Association; T. Lynch, Fredericton; John T. Rundle, Boiestown; and others.

Several prominent lumbermen of the North Shore, while approving of the object of the association, expressed the hope that it would also give attention to the question of forestry protection and the meeting unanimously agreed to conform to their wishes in this respect.

An interesting letter was read from A. Kelly Evans, secretary of

the Ontario Fish and Game Protective Association, telling of the good work which had been accomplished in that province. Acting Secretary Winslow submitted a draft of the by-laws prepared for the association and which were taken up section by section and adopted with some amendments.

Membership for the parent association was fixed at \$2 and provision was made for the formation of branches in counties, cities, towns and villages, they to pay a per capita fee of 50 cents. The fee for life members was fixed at \$25. Clergymen and teachers will be permitted to join free of charge. The object of the association are better protection of game and fish, protection of forests from fire and to carry on an educative campaign. Power was given the executive to expel members for cause, but they can be restored on two-thirds vote of the general meeting.

The annual meeting was fixed for first Wednesday in May. Every branch organization formed hereafter shall be allowed to nominate members of the executive. The organization will undertake the prosecution of violators of the game and fishery laws and a legal committee is to be appointed by the executive for the purpose.

The following officers were elected: Hon. pres., Surveyor General Sweeney; pres., C. Fred Chestnut, Fredericton; first vice-pres., F. B. Edgcombe, Fredericton; second vice-pres., J. S. Neill, Fredericton; third vice-pres., Timothy Lynch, Fredericton; secretary, J. J. Winslow, Fredericton. The following additional, vice-presidents were elected and power was given the executive to add to the number: Westmorland, J. W. Y. Smith; St. John, George W. Jones; Carleton, Dr. H. A. Green; Northumberland, W. B. Snowball; Restigouche, D. Richards, Charlotte; G. Chipman; Victoria, F. P. Allen; Kent, J. D. Irving.

T. F. Allen said he represented the Tobique Salmon Club and he assured the meeting that every member of that organization would join the association.

It was unanimously agreed that Fredericton should be the headquarters of the movement. Surveyor General Sweeney, in a brief speech, expressed his cordial approval of the object of the association and assured the members that he would be pleased to co-operate with them in protecting the fish, game and forests of the province. He praised the work of the tourist associations in making the attractions of the province known to outsiders and expressed the hope that before long there would be branches of the new organization in every town and

county of the province.

The secretary was ordered to have by-laws published for general information. All of the gentlemen present were enrolled as members.

## Do not neglect the children

At this season of the year the first unnatural looseness of child's bowels should have immediate attention. The best thing that can be given is Chamberlain's Colic, Cholera, and Diarrhoea Remedy followed by castor oil as directed with each bottle of the remedy. For sale by all Druggists.

## BORN

At Athol June 16th, to Mr and Mrs J. M. Salmon, a daughter.

## Tetter Cured

A lady customer of ours had suffered with tetter for two or three years. It got so bad on her hands that she could not attend to her household duties. One box of Chamberlain's Salve cured her. Chamberlain's medicines give splendid satisfaction in this case. —M. H. RONDEY & Co., Almond, Ala. Chamberlain's medicines are for sale by all Druggists.

## \$10.00 Reward.

The above reward will be paid to the person who will furnish the undersigned or Capt. John L. McDonald with the information that will lead to the arrest of the person or persons who stole a bag of goods from the ferry wharf last week.

S. A. Poirier.

### Down and Country.

Rev W. A. Thomson will preach at Matapedia next Sunday at 1.30 p. m. June 23rd and at Escuminac on Thursday June 27th at 7.30 p. m.

Ice Cream Social will be held on the lawn of K. M. Anderson on the evening of Monday June 24th at 8 p. m. Refreshments will be served from 6.30 till 8.30.

Sterling, the three-year old son of Geo Hamilton, of El River Crossing was struck by a train Saturday evening at Dalhousie Junction and died today at the hospital in Campbellton.

Mr and Mrs George D. Bain of Sask were called here on Saturday owing to the severe illness of Mr Bain's mother. We are glad to report that Mrs Bain is improving and there are now hopes for her recovery.

Campbellton Division No 300 will hold a picnic on Monday evening June 24th in the Temperance hall at 8 o'clock. Admission 10 cents. Ladies with pies admitted free. A short programme will be given. All are cordially invited.

Forest fires have been raging for a week or more in the country traversed by the International railway. On Thursday last about ten thousand shingles belonging to Roy Moffat were destroyed. Mr Moffat's men were loading ties at the time but, managed to save everything but the shingles.

Not many of the grown up disciples of old uncle Isaac Watson trout weighing seven pounds yet that is what twelve-year-old Oliver Mowat, son of M. M. Mowat of Tide Head, one day last week that he gained this distinction. He landed several other heavy trout the same day.

The Orangemen of Campbellton are making arrangements for a grand celebration on July 12th. The Orangemen from the county will turn out strong, and it is expected there will be a number from different parts of the province. The annual sermon will be preached this year in the Baptist church by Rev. P. J. Stackhouse.

Rev J. Albert Moore, eastern secretary of the Lord's Day Alliance delivered a most interesting address on the work of the Alliance Wednesday evening in the Methodist church. In the course of his observations Mr Moore pointed out the benefits to be derived from the enforcement of the new Sunday Observance law. A fairly large audience was present but not as large as there should have been.

John Giroux, of Charlo, a prominent farmer, and his son were hurt Sunday evening by a number of persons mixed up in a charivari. Mr Giroux's daughter having been married a number of young people felt it their duty to go and interrupt the festivities. When Mr Giroux and his son appeared to dispel the intruders the former was hit by a stone and his son was also assaulted and so badly hurt that he was unable to attend to his duty at the Royal Bank of Canada in Dalhousie where he is employed. It is expected the offenders will be promptly arrested and brought to justice.

The tenth district meeting of the United Baptists convenes today with the Baptist church of this town. Rev. Mr Wilson of Doaktown accompanied by Mrs Nelson arrived yesterday. Dr McIntyre, Superintendent of Home Missions, Dr McLeod, editor of the Maritime Baptist and Mr C. J. Merzeau, principal of the Horton Academy, Wolfville will arrive this evening. There will be a public platform meeting this evening at 7.30 at which Dr McIntyre and others will speak. There will be sessions tomorrow and another public meeting in the evening at 7.30. The public is invited to all these meetings especially the evening, when the choir will render special music.

Newton Hamilton a boy about three years of age was fatally injured at Dalhousie Jct. on Saturday. He was crawling over an embankment when he was struck by one of the boxes of the wheel of a locomotive and received injuries from which he succumbed. Immediately after the accident the engine was uncoupled and ran into Campbellton and the young lad conveyed to the hospital. The injuries were of such a serious nature that death occurred Monday morning about one o'clock. The remains were forwarded to his home accompanied by the father of the little lad. The grief-stricken parents have the sympathy of the entire community in the loss of their dearly beloved son.

A basket social and entertainment will be held in the new church in Glen Levit on June 24 beginning at 8 o'clock in the evening. Ladies with baskets free. Adults 15 cents and children 10c.

The C. M. B. A., A. O. H., C. O. F., and the Artisans will march to the Catholic Church, Sunday evening. They will leave their rooms in the St. Onge building at 6.30 headed by the Campbellton Band.

The latest painless Local Anesthetic, the safest and best used to date for the painless extraction of teeth. A supply has just been received from the United States by Dr. Cates, who will make his regular monthly visit to Jacquet River this month on the 25th.

Mr T. Wran disappeared rather suddenly Tuesday afternoon. Towards nightfall his friends became anxious about him. There was talk of organizing a search party, but fortunately he came along carrying a basket with seven or eight large trout. One weighed four and a half pounds and the others ranged in weight from two to three pounds.

On his recent visit to Campbellton, Mr A. Milne Fraser, the well known agent of the Smith Premier Typewriter secured several orders for new and second hand machines. Among others he supplied to the "Events" Office one of the very latest model No. 4 Smith Premier, fitted with Tri-Chrome Attachment. This machine is certainly a beauty. Mr S. Laughlan acts as Mr Fraser's local agent for Campbellton.

Town of Campbellton bonds seem to be at a discount in the burg whose name they bear. Mr Fred Lawson representing J. C. MacIntosh & Co., bankers and brokers, St John and Halifax was in town this week endeavoring to dispose of some of them but he met with scant success. That he should have been unable to place them here is somewhat surprising in view of the fact that these bonds yield 4 1/2 per cent interest while investors are getting only 3 per cent for money in the banks.

Henry Levesque who was arrested at Matapedia a short time ago by I. C. R. Officer Noble for stealing express goods from Matapedia station, had his trial recently at New Carlisle, Que. He was convicted and sentenced to six months imprisonment with hard labor. J. H. Kelly for the prosecution and Lawyer Masseau for the defence. Levesque was a porter for one of the hotels there and during his short stay at Matapedia several express parcels disappeared from the I. C. R. station.

A Summer School for Sunday School Workers will be held, under the auspices of the Presbyterian of Miramichi, in Campbellton, from Tuesday July 2nd at 7.30 p. m. until Friday night July 7th. Names or number of delegates must be in by the 25th of June to secure free entertainment. The following transportation companies have generously granted free return for single first class one-way fare: The I. C. R. Kent Northern Railway; Interprovincial Navigation Co.; and the Miramichi Navigation Co. Delegates must get standard certificates.

## With Edged Tools

By HENRY SETON MERRIMAN  
Author of "The Sower," "Roder's Corner," "From  
One Generation to Another," Etc.

Copyright, 1894, by HARPER & BROTHERS

"And I think that Mr. Oscar will be looking for you."

"And he won't need to look long, sir. I should like to see you safe on board the boat; then I'm ready to go."

"Right. We can both leave by Thursday's boat, and we'll get the capital to drop you and your men at Lopez. We can get things ready by then, I think."

"Easy, sir."

The question thus settled, there seemed to be no necessity to prolong the interview. But Joseph did not move. Meredith waited patiently.

"I'll go up, sir, to the platter," said the servant at length, "and I'll place myself under Mr. Oscar's orders; but before I go I want to give you notice of resignation. I resign my partnership in this 'ere simlacine at six months from today. It's a bit too hot, sir, that's the truth. It's all very well for gentlemen like yourself and Mr. Oscar, with fortunes and fine houses, and as sayin' goes, a wife apiece waiting for you at home—it's all very well for you to go about in this blamed country with yer life in yer hand, and not a tight grip at that. But for a poor soldier man like myself, what has smelt the regulation powder all 'is life, and hasn't got nothing to love and do gal waiting for him at home—well, it isn't good enough. That's what I say, sir, with respects."

He added the last two words by way of apology for having banged a very solid fist on the table.

Joseph rubbed his hands slowly together and departed, leaving his master to begin a long letter to Guy Oscar.

And at the other end of the passage, in her room with the door locked, Jocelyn Gordon was sobbing in a wild burst of grief because she had probably saved the life of Jack Meredith, and in doing so had only succeeded in sending him away from her.

When Jack Meredith said that there was not another man in Africa who could make his way from Loango to the simlacine plateau he spoke no more than the truth. There were only four men in all the world who knew the way, and two of them were isolated on the summit of a lost mountain in the interior. Meredith himself was unfit for the journey. There remained Joseph.

In coming down to Loango Joseph had had the recently made track of Oscar's rescuing party to guide him day by day. He knew that this was now completely overgrown. The simlacine plateau was once more lost to all human knowledge.

And up there, alone amid the clouds, Guy Oscar was, as he himself tersely put it, "sticking to it." He had stuck to it to such good effect that the supply of fresh young simlacine was daily increasing in bulk. Again Victor Durnovo seemed to have regained his better self. He was like a full blooded horse—tractable enough if kept hard at work. He was a different man up on the plateau from what he was down at Loango. There are some men who deteriorate in the wilds, while others are better, stronger, finer creatures away from the luxury of civilization and the softening influence of female society.

Of these latter was Victor Durnovo.

One thing Guy Oscar soon became aware—namely, that no one could make the men work as could Durnovo. He had merely to walk to the door of his tent to make every picker on the little plateau bend over his tree with

renewed attention. And while above all was eagerness and hurry, below, in the valley, this man's name insured peace.

The trees were now beginning to show the good result of pruning and a regular irrigation. Never had the leaves been so vigorous, never had the simlacine trees borne such a bushy, luxuriant growth since the dim, dark days of the flood.

Oscar relapsed into his old hunting ways. Day after day he tranquilly shouldered his rifle, and alone of people appeared into the forest only to emerge therefrom at sunset. What he saw there he never spoke of. Sure it was that he must have seen strange things, for no prying white man had set foot in these wilds before him; no book has ever been written of that country that lies around the simlacine plateau.

Oscar was thinking of Millicent Chyne one misty morning while he walked slowly backward and forward before his tent. His knowledge of the country told him that the mist was nothing but the night's accumulation of moisture round the summit of the mountain, that down in the valleys it was clear and that half an hour's sunshine would disperse all. He was waiting for this result when he heard a rifle shot far away in the haze beneath him and he knew that it was Joseph, probably making one of those marvelous long shots of his which roused a sudden sigh of envy in the heart of this mighty hunter whenever he witnessed them.

Oscar immediately went to his tent and came out with his short barreled,

renewed attention. And while above all was eagerness and hurry, below, in the valley, this man's name insured peace.

The trees were now beginning to show the good result of pruning and a regular irrigation. Never had the leaves been so vigorous, never had the simlacine trees borne such a bushy, luxuriant growth since the dim, dark days of the flood.

Oscar looked down in his sailow, powerful face. He was not quick at such things, but at that moment he felt strangely certain that Victor Durnovo was hoping that Meredith was dead.

"I hope it isn't," he answered, and without another word he strode away down the little pathway from the summit into the clouds, loading his rifle as he went.

Durnovo and his men, working among the simlacine bushes, heard from time to time a signal shot as the two Englishmen groped their way toward each other through the everlasting night of the African forest.

It was midday before the newcomers were espied making their way painfully up the slope, and Joseph's welcome was not so much in Durnovo's handshake, in Guy Oscar's silent approval, as in the row of grinning, good natured black faces behind Durnovo's back.

Joseph's arrival with ten new men seemed to give a fresh zest to the work, and the carefully packed cases of simlacine began to fill Oscar's tent to some inconvenience. Thus things went on for two tranquil weeks.

"First," Oscar had said, "let us get the crop in, and then we can arrange what is to be done about the future."

So the crop received due attention, but the two leaders of the men—who he led by fear and he who commanded by love—were watching each other.

One evening when the work was done Oscar's meditations were dis-

rupted by the sound of a rattling shake as a rat, turned by the sound of angry voices behind the native camp. He turned naturally toward Durnovo's tent, and saw that he was absent. The voices accompanying a roar of sound, which Oscar never remembered having heard before. It was the protesting voice of a mass of men—and there is no sound like it—no sound so disgusting.

Oscar listened attentively and suddenly he was thrown upon his feet by a pistol shot.

At the same moment Joseph emerged from behind the tent, dragging some one by the collar. The victim of Joseph's violence was off his feet, but still struggling and kicking.

Guy Oscar saw the flash of a second shot, apparently within a few inches of Joseph's face, but he came on, dragging the man with him, whom from his clothing Oscar saw to be Durnovo.

Joseph was spitting out wadding and burned powder.

"Shoot me, would yer, yer skulking chocolate bird? I'll teach yer!" I'll twist that brown neck of yours."

He shook him as a terrier shakes a rat, and seemed to shake things off him—among others a revolver which described a circle in the air and fell heavily on the ground, where the concussion discharged a cartridge.

"Ere, sir," cried Joseph, literally throwing Durnovo down on the ground and described a circle in the air and fell heavily on the ground, where the concussion discharged a cartridge.

"Ere, sir," cried Joseph, literally throwing Durnovo down on the ground and described a circle in the air and fell heavily on the ground, where the concussion discharged a cartridge.

## "You Will Suffer all Your Life."

### SAID ALL THE DOCTORS

Half a dozen of the best physicians told Mr. Baker that he had Chronic Rheumatism, and would have it as long as he lived. One day Mr. Baker read in a paper of a man who had Rheumatism just like him—who had been told by doctors that his case was hopeless—and who had been completely cured by GIN PILLS.

The two cases were so much alike that Mr. Baker decided he would invest \$25 in a box of GIN PILLS and give them a trial.

It was the best investment he ever made. Before the first box was taken, he felt better all over, so he got another. He took that and bought a third, getting better all the time.

I have been greatly benefited by your GIN PILLS, and all who have used them in this neighborhood speak very highly of them. One of my neighbors, Mr. X., who suffered for years with Rheumatism and who has spent hundreds of dollars with specialists without receiving the slightest benefit, was entirely cured by two boxes of GIN PILLS. He is proclaiming their virtues from the "house-tops."

Yours truly, D. L. BAKER.

We don't even ask you to buy GIN PILLS—but to try them at our expense. Write us, mentioning this paper, and we will gladly send you a free sample of these wonderful Kidney Pills that cure Rheumatism! The Bole Drug Co., Winnipeg, Man.

Sold by all dealers—50c. a box, or 6 boxes for \$2.50—or sent on receipt of price.

## Was Weak and Run Down WOULD VERY OFTEN FAINT AWAY

Mrs. J. H. Armstrong, Port Elmsley, Ont., tells of her experience with

### MILBURN'S HEART AND NERVE PILLS.

She writes: "It is with gratitude I tell you of my experience with Milburn's Heart and Nerve Pills."

"I was very weak and run down, had headaches nearly every day and very often would faint away, in fact, my doctor said that sometime I would never come out of the faint. It was through one of your traveling agents that I was induced to try Milburn's Heart and Nerve Pills and after taking three boxes I am glad to relate it has been a number of years since I had a fainting spell and scarcely ever have a headache. Too much cannot be said in praise of Milburn's Heart and Nerve Pills, for in me they have effected a perfect cure."

Price 50 cents per box or 3 boxes for \$1.50, at all dealers, or The T. Milburn Co., Limited, Toronto, Ont.

## A Change for the Boys

The Superintendent of one of the largest corporations in Canada, head office, Montreal, offers to employ all the MALE STENOGRAPHERS who are graduated from

Fredericton Business College

You may enter at any time as we will have NO SUMMER VACATION this year. We could have placed many more graduates during the past year had we had them.

Write for catalogue. Address: W. J. OSBORNE, Fredericton, N. B.

## TECHNICAL EDUCATION

### Address Delivered by Hon. Mr. Weir in Montreal

(Quebec Telegraph)

Hon. Mr. W. A. Weir, K. C., who presided at the presentation of prizes of the Council of Arts and Manufactures in Montreal Tuesday delivered a highly interesting address on technical education.

Hon. Mr. Weir spoke as follows: Mr. Chairman, Ladies and Gentlemen: It is my first and pleasant duty to thank you, Mr. President, very specially, for your kind words of welcome to me as the representative of the Provincial Government.

I have also to congratulate you upon having succeeded in bringing together so large and representative an audience of the citizens of Montreal. This fact demonstrates

very clearly the great interest which you aroused in the minds of the people by your great devotion to the cause of technical education. You name, and those of you fellow-members of the Council of Arts and Manufactures, are revered all through the Province of Quebec, for the noble and self-sacrificing work you have been doing.

I congratulate you also, sir, upon the successful year's work which has been ended under your supervision. I have carefully read the annual report which you had the kindness to submit to me a few days ago and have been very much gratified by the increasing attendance and the growing perfection of the work accomplished. I have notice particularly, the demands coming from various other centres in the Province of Quebec for the establishment of other schools under your supervision, and it will be my duty to lay before my fellow-members the representations which you have made thereon.

It was a great pleasure to me also to examine the specimens of work produced by the pupils, and I have, been very gratified, and delighted, at the ability displayed by them, showing that they have seriously appreciated the opportunities for improvement under the guidance of the able professors of the staff.

Our educational system in the past has had its highest ambition, the turning out of clerical men, doctors, lawyers and teachers whose work in society is greatly to be commended; but the overwhelming importance of thoroughly training our agriculturalists and artisans seems to have been to a great extent overlooked.

Within the last twenty years, there has been a complete revolution

## DOCTORS USING PATENT MEDICINES

The Honest Physician is Anxious to Cure and Uses the Best Available Remedies.

The proposed legislation through the Dominion Parliament for the regulation of the manufacture and sale of patent or proprietary medicines is of the utmost importance, and it is receiving a great deal of attention, not only by the proprietary medicine manufacturers, but also by the leading doctors and druggists. Every manufacturer of reliable and high class remedies welcomes the bill as a step in the right direction. The discussion has brought out the fact that the best physicians in Canada and on the continent approve of and prescribe Psychine in cases of the most difficult character. In a recent instance of very serious throat and lung trouble the patient had been using Psychine. Two leading United States specialists were consulted, in addition to two eminent Canadian physicians. Upon learning what the patient was using, a sample of Psychine was taken and analyzed, with the result that the physicians advised its continuance. They prescribed no other medicine but Psychine, with the result that the patient has fully recovered and is a splendid walking and talking advertisement for the wonderful curative power of a remedy that will "stand up" before the keenest professional criticism and analysis. As a builder up of the system and restorer of all wasted conditions, Psychine has no equal, and the best and most earnest physicians recognize this fact.

"At the age of 25 my lungs were in a terrible state. I had a gripe the year before, it settled on my lungs and I kept steadily growing worse till I got down so low that I was in bed for six weeks. I had a consultation of doctors and they said they could do nothing more for me. Then I started to use Psychine. I took the medicine for more than a year. It certainly did wonders for me. I am now as strong as I was before my sickness."

MRS. H. HOPE, Morpeth, Ont.

Psychine, pronounced Si-keen, is the greatest of tonics, building up the system, increasing the appetite, purifying the blood, aids digestion, and acts directly upon the throat and lungs, giving tone and vigor to the entire system. It is sold by all druggists, 50c. and \$1.00. Dr. T. A. Slocum, Limited, 179 King Street West, Toronto.

tion in the agricultural products methods and exports to the province and the adaptations to the new requirements are being only made after slow and costly experiments. Now reliable experiments necessitate trained observers and these are not natural farm products of this or any other land.

Sir William McDonald has recognized this great fact and has given some four millions of dollars for the training and development of thorough agriculturalists in the magnificent collegiate model farm at St. Anne de Bellevue. When one considers the splendid development of agricultural science in Japan, in France, Belgium and other countries, there can be no hesitation in saying that Sir William McDonald has planned wisely and well in endeavoring to teach the true principles of agricultural economy, progress and development. A similar consideration, of equal great importance, is the changed industrial and commercial conditions within the generation just passed.

Those of us who are yet in mid-life have seen the skilled workman forced into the laborer's position and the apprentice disappear from the trades. Formerly, by country cross-roads and village street the wood-worker and the black-smith made the carriages and farm implements for the neighborhood now; the wood-worker has practically passed off the stage and only an odd blacksmith lingers to nail on the horse's shoes that are forged in the city mill, and to repair the carriages and farm machines that are built in the city factory.

Similarly, the shoemaker has been driven from his bench, the tailor from his courtier, the cabinet-maker from his shop; so that, except in the building trades, there are but few skilled workmen, under the old methods, whom stress of competition has not forced to give up their business; and never again will the old fashion tradesman or the apprentice cut any figure in the economic history of the world. No longer can the energy of human muscle compete with the steam engine and the turbine.

Invention of machinery, that replaces hand labor and improved means of labor which the modern factory has made us familiar with.

While this drift and re-adjustment of industrial operations and trade centres have particularly driven out the skilled artisan of former years, they have equally created a demand for a new class of workman the basis of whose preparation must be laid in the schools not in the shop. The call is for men of intelligence, educated and trained with ability to grasp the idea of the guiding head of the department and translate them into finished products. The man is wanted—and wanted most imperiously—who has been taught to observe accurately, to reason clearly, to think independently the man in short, who has the capacity for intelligent and successful improvements—for such, the industrial conditions make constant and increasing demands.

If students have not the means of fitting themselves for such occupations as the need of the country and the influence of industry require, they will doubtless continue to go to school and college and become lawyers, doctors, preachers and teachers, though they may have little mental aptitude for these professions, and though continually faced by the puzzling question of finding a vocation in which another of their class can earn a living; while skilled and intelligent superintendents and workmen will continue as is now the case, to be brought from other countries with better educational facilities, to take the best industrial positions we have at our disposal and carry off the cream of the earnings.

Meantime our own people do the slave's work for the laborer's pittance, not because they lack intelligence or capacity, but because this country has turned out its children as incompetent for lack of proper fitting for life's duties.

You have been endeavoring, sir, with your colleagues and the Provincial Government, to remedy, to some extent this state of affairs; but what is really needed, sir, is not a remedy locally applied here and there, but a revolution of our entire educational system in so far as the production of trained agriculturalists and skilled workmen are concerned.

All the world knows the immense progress in industrial arts that has been made in Germany in Austria, in France and Belgium by the establishment of technical schools. The products of these countries have invaded all the markets of the world, thanks to the splendid capability and the trained knowledge of their working teachers. The industries of many other countries have been alarmed thereby and with reason.

I see no other adequate protection for Canada in such matters than the thorough establishment of modern technical education. We must remember also that the millions of Asia are awakening and taking their place in the commercial competition of the age. The position of the Japanese has already been well established and is year by year becoming more favorable. The same can also be said, in a lesser degree as to the present, but in probably greater terms as to the future, of the people of China. Pekin will soon be within easy access by railway from Paris, and the products of the labor of millions of Chinamen, with their wonderful adaptability and power of imitation will then come strongly into competition

with the products of the workingmen of Europe and America.

Against such competition, the white workingman cannot successfully compete on the same plane. His only remedy is to elevate himself by careful preparation for the battle of life, so that he may occupy a higher plane in the industrial struggle.

To my mind, no more imperative duty lies upon the Governments of Western lands, than to make the determination by every means within their power, to thoroughly increase the training, the efficiency and the power of initiative of their industrial populations.

We have not, as already admitted, done our full duty in this matter here in the Province of Quebec, but I may be allowed a word of admiration for the far-seeing statesmanship of the Hon. Mr. Gouin the Premier of the Province, who, at the last session of the Legislature, took steps of broadening the foundation of technical instruction in the Province of Quebec, and who has spent the last two months of a pretended holiday in studying the systems of technical schools in Old Europe, in order to know all the better how to proceed with this great work here in the province of Quebec, and thus carry on, in a wider area, and in a more extended manner, the work which has been so patriotically carried on by the members of the Council of Arts and Manufactures.

The marvelous resources of the Province of Quebec are crying aloud for the application of the skilled intelligence of man. A great naturalist has said that everything that grows in a forest, from the humblest weed, to the greatest tree, is of value to mankind.

The forests of Quebec cover an area of over one hundred thousand square miles.

The knowledge of chemistry is every day increasing our means of utilizing all the resources of this great forest area.

The wilderness of the Province abounds in force and power to supplement the work of chemist. Nowhere on the continent has nature been so lavish with the forces of stream and fall and river. It has been stated that the power which is conveyed to the city of Montreal from Shawingian Falls could not be equalled within the limits of the city by the power producible from the consumption of a million tons of coal per annum.

A statement such as this shows to the imagination the wonderful value of the water powers of the Province of Quebec. This power allied to the knowledge of the chemistry and industrial arts, and to the trained skill of her citizens applied to our vast forest exhaustible mines and fertile fields is

bound to make the Province of Quebec one of the most prosperous manufacturing sections of the world.

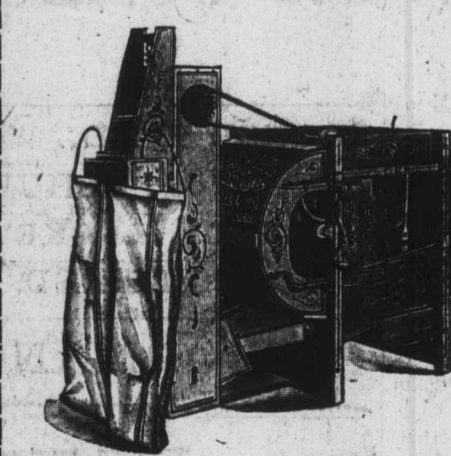

In this attempt to show the vast field of usefulness that lies before the establishment of technical schools flowing from the small beginning so heroically carried on by you Mr. President and your honored colleagues, I may perhaps have succeeded in wearing and you this large audience; but I shall hope at least, that I have demonstrated, to some extent, the value of the work which you have been carrying on, both in regard to the individuals who have followed your classes, and in pointing out the members of the Legislature, and the Government, and to the people of our province in general the necessity of development upon the lines so well established by you.

Ladies and gentlemen, I thank you cordially for your kind attention.

Minard's Liniment Relieves Neuralgia

Most delicious, tempting biscuits—always crisp and fresh—

### Investigating Fountaine's Death.

(Continued from 1st page.)

on the stairs and then pushed him up and put him on the bench. To Mr. Lawlor, counsel for the Fountaine family, he stated that he did not load his revolver after he left home. To Mr. Mott, he stated that Peter Fountaine, resisted vigorously. He fired five shots in all. The first was accidental. Peter Fountaine and Jalbert had him down and in the struggle the shot was fired. The second was fired when Peter Fountaine ran around the house. He also testified that his neck was swollen when he returned and marks are still on his wrist.

At the afternoon session the crown prosecutor in explaining the cause of the recall of Dr. Desbrow stated that a witness at the morning session testified that he saw a piece of cotton wool on the back of deceased which he believed was sticking to a wound, and Dr. Desbrow had previously stated that there were but two wounds. Dr. Desbrow, recalled adhered to his statement that there were but two wounds. He explained the presence of the cotton wool by saying that he had used it to clean off the surface of the wound and that probably a piece had adhered to the back. In reply to Mr. Lawlor, he said that he did not examine the brain and that he was unable to find the two bullets. They are probably still in the body. He testified that there was a little blood on the stairs and on the upper floor. He explained that the blood in these places was due to a hemorrhage from a wound in the nose. He was asked by Mr. Lawlor to present his notes to that effect. He was excused to get them.

Wm. Gallop was then recalled and corroborated the testimony he had given at a previous session. To Mr. Mott he said that neither he nor Seeley had fired shots in the house.

Dr. Desbrow, recalled, said he found no reference in his notes to the nose bleeding. He explained the omission by stating that he did not consider it important. To a jurymen he said he would swear positively that Peter Fountaine had no bullet in head or brain.

The coroner stated that he had been asked by Mr. Lawlor to have the body examined. The matter rests with the jury. The jury was then excused to consider this

one point. On their return they reported through the foreman that it was the wish of the majority of the jury that Dr. Martin of Campbellton be summoned to perform an autopsy.

The inquest was then adjourned until 10 a. m. Tuesday next.

### Town Council.

(Continued from 1st page.)

The Council then went into committee of the whole to consider the assessment, Coun. Jardine in the chair. The following was decided upon as the assessment for the current year, and was finally adopted by the Council.

Public Property and streets,	\$4000
Street Lighting,	1000
Schools,	6,500
Fire and Fire engine Department Interest,	2,500
Sewerage Debenture Interest	2000
Relief of Poor,	300
Board of Health,	300
Maintenance of Police,	1250
Salaries and Contingencies,	1150
	\$19,000

The above is \$1200 more than last year. The principal increase is for school purposes this amount being \$1000 more than last year. This is made necessary by the proposal of the School Board to increase the teacher's salaries, to fit up another room in the building to provide for the new department of vocal culture, to paint the exterior of the building and make other necessary improvements. The balance of the increased \$200, is divided equally for Police purposes and contingencies.

The Water and Sewerage Com. were authorized to confer with Mr. Wallace in regard to the lease of land at reservoir, also to take the whole question of increase of water supply into consideration and report to Council.

All music lovers will heartily hail the advent of the great Hargreaves' Railroad Shows to Campbellton, Wednesday afternoon and evening, June 26th., for it is a well known fact that Prof. P. Carrescia's superb concert band of thirty pieces, connected with this circus, ranks far above the average tent show band. Prof. Carrescia's arenic band has an enviable reputation among circusdom's musical aggregations. Himself a leader of extraordinary ability, if not a genius, he has selected a personnel of some of the most proficient performers procurable in this country and Europe.

There are other bands with the great Hargreaves' Railroad Shows—all strictly first class—but Prof. Carrescia's concert company is the one which is featured. And small wonder, for, in all the world there are few similar aggregations which can compare with this imperial arenic and military band, which renders promenade concerts from 1 to 2 and 7 to 8 p. m., and furnishes the inspiring music throughout the performances. Did you ever consider the important part the band has in the circus? Without the band the circus entertainment would be as dismal a failure as a theatrical production without an orchestra. There seems to be something magical about the circus band. As we sit in the big tent and hear the promenade concert we are thrilled and intoxicated until we almost imagine that we have been transported to Utopia. This subtle intoxication is doubtless due, in a large measure, to the atmosphere of the circus tent—for the "big top" has an atmosphere peculiarly its own. The concert band of the Hargreaves' circus has been receiving the most flattering criticisms throughout the country. Press and public unite in pronouncing it one of the very best bands ever heard in a circus. This band has an extensive repertoire of popular and standard music, the character and scope of which is indicated by the following excellent sample program: Overture, "Norma," Rossini; trombone solo, "Annie Laurie," varied; two-step, "Arrah Wanne," descriptive selection, "Election Night," Waltz, "España," Waldteufel; two-step, "The Good Old U. S. A."

Drank Chloral and Never Awoke.

Sydney Mines, June 14.—The death occurred Wednesday evening under sad circumstances of Rory McDonald, at an advanced age of 70 years. Mr. McDonald has

for some time been acting very strangely and a few days ago complained of not feeling well, and went to a physician for medicine. The doctor refused to give him the medicine asked for. Being of a determined nature Mr. McDonald went elsewhere in search of drugs and obtained from some one an ounce of chloral unknown to any member of the family. The bottle is supposed to have been labelled with the usual directions and through mistake he drank the contents at once, after which he fell into a deep slumber and slept for twenty-six hours remaining unconscious until his death.

I will mail you free to prove merit samples of my Dr. Shoop's Restorative and my Book on either Dyspepsia, The Heart or Kidneys. Troubles of the Stomach, Heart or Kidneys are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating result of your ailment and not the cause. Weak Stomach nerves—the inside nerves—mean stomach weakness always. And the Heart and Kidneys as well have their controlling inside nerves. Weaken these nerves and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy claims to treat the "inside nerve". Also for bloating, biliousness, bad breath or complexion use Dr. Shoop's Restorative. Write me to-day for sample and free Book Dr. Shoop, Racine, Wis. The Restorative is sold by A. McG. McDonald.

### BLACK CAPE
