### POETRY.

#### THE NATIONAL ANTHEM, Peace Version.

God bless our native land;  
May heaven's protecting hand  
Still guard our shores.  
May peace her power extend,  
Foe train'd to friend,  
And Britain's rights depend  
On war no more!  
May just and righteous laws  
Uphold the public cause,  
And bless our isle.  
Home of the brave and free,  
The land of liberty,  
We pray that still on thee  
Kind Heaven may smile.  
And not this tale alone,  
But be thy mercies shown  
From shore to shore,  
Lord, make the nations see  
That men should brothers be,  
And form one family  
The wide world o'er!

Sir STRAIGHT.—How often do the children hear this! Fathers, mothers, teachers, uncles, all unite in this short bit of advice, "Sit straight!" the children sometimes whimsically, or it may be, angrily ask, "Why?" Because God made your backbone to be erect, and not curved or hunched. It is true, he formed it of several bones in order that it might be flexible, that is easily bent, in order to suit different motions of the body; but its natural position is erect. Sit straight also, to give your lungs room to work in. They contain two sets of cells or tubes, one set for the air, and the other for the blood, separated by a thin membrane. It is necessary for life and health that the membrane should come in contact with the air, and take from the air that part of it which is called oxygen; oxygen purifies the blood, and gives it life and freshness. Now when you stoop, you cannot take in a sufficient quantity of air to answer these purposes, and the little tubes, squeezed together, become sore and irritated. By and by the lungs ulcerate, and then you are likely to get sick and die.  
Give your lungs room enough to pump in all the pure air they want, and you lay the foundation of a strong and sound constitution. There is good reason for the advice. Sit straight.

A disease of the Skin of 12 years standing cured by Holloway's Ointment and Pills.—Mr. Anderson, residing in St. John's, Nfld., was fourteen years afflicted with a most inveterate disease of the skin. The whole of the body was covered, and occasionally the arms and legs with the same disfigurement; he consulted many Physicians, but was not benefited, indeed, he became worse, until he was disabled from following his profession entirely. He then, (like thousands of his native brethren) commenced using Holloway's Ointment and Pills, which entirely cured him in eight weeks after all other means were tried unsuccessfully.

Mr. Lover tells a good anecdote of an Irishman giving the pass-word at the battle of Bontenoy, at the same time the great Saxe was Marshal.  
"The pass-word is Saxe—now don't forget it, Pat," said the Colonel.  
"Sacks! Faith an' I will not. Wasn't my father a miller."  
"Who goes there?" cried the sentinel, after he had arrived at the post.  
"Pat was as wise as an owl, and in a sort of whispered howl replied,  
"Bags, yer honor!"

DEATH FROM POISON.—John Abbot, youngest son of Mr. H. Glover, died on Monday last, by poison from eating musktoad, it is supposed. He was a fine little fellow, of between 6 and 7 years of age. [Caledonian Advertiser.]

### OBITUARY.

It is our painful duty to notice the death of one of our oldest subscribers, viz: ALEXANDER WALLACE LIGHT, Esquire, a Colonel in Her Majesty's army, and late Lieut. Col. of the 25th Regt., who died at his residence, Lytes Carie, near Woodstock, Canada West, on Sunday morning, the 13th ultimo, son of William Stratton Dundas Light (a descendant of the Lytes of Lytes Carie, Somersetshire) and Lucretia, the Countess of Luders. Col. Light was born at Palmcotts, in India, in the year 1779; and emigrated to Canada in 1831, after having spent the greater part of his life "amid the busy scenes of war." This old officer entered the army in the year 1798, at the early age of thirteen years, when the French Revolution was on the eve of breaking forth. From the time of his entering the army till his retirement in 1825, some time after the memorable battle of Waterloo, when he had the charge of the French prisoners at Anwerp and Brussels. Colonel Light was constantly engaged on active service. He was first engaged in the West India Islands throughout the disturbances which occurred there at that early period; subsequently, in 1811, he was again ordered to the same quarter. During his later residence in these Islands, the gallant Colonel devoted his energies to the amelioration of the condition of the troops at the various military stations, especially with reference to the adoption of some effective means for checking the ravages which yellow fever was at that time making amongst them. In the prosecution of these humane endeavours, Col. Light prepared a statistical work upon the Islands which was highly approved of by the Duke of Wellington (then Sir Arthur Wellesley), who also adopted the plans suggested for the prevention and check of that dreadful scourge—the yellow fever. The dates of Col. Light's commissions are as follows:—Ensigncy, 1793; Lieutenantcy, January, 1794; Captaincy, 1799; Major, 1804 (he was then in his 24th year); Lieut. Colonelcy in 1811; from which time till 1825 he commanded the regiment.

Col. Light served throughout the campaigns of Holland and Egypt, and served respectively under Sir John Moore, Sir Ralph Abercrombie, the Duke of York at Gibraltar, Sir Eyre Coote, and the Duke of Kent. The gallant Colonel was twice dangerously wounded, being bayoneted through the liver whilst attacking Ashaba and Brimstone Hill in the Island of Grenada, under Sir Ralph Abercrombie, and shot through the lungs at the siege of Bergen-of-Zoom in the Netherlands. After retiring from the army, this active-minded gentleman ever bent upon improving the condition of those amongst whom he resided—wrote several books upon the poor of the United Kingdom, with the view of drawing the attention of those in power to the policy and humanity of establishing them upon the waste lands of Government, thereby saving the country from the heavy burden of poor rate. Col. Light also wrote a work, beautifully illustrated, recommending the adoption of a similar laudable plan for the settlement of the poor in Canada. After leaving Gibraltar, Colonel Light also wrote a work, presented to the Military College of High Wickham, Bucks, a set of complete Plans together with an Ivory Medal of the Rock and all the Fortifications, made by himself, which may now be seen in the British Museum, Montague Square, London. From the time the gallant Colonel located himself in Canada, he devoted his attention to the advancement of the country of his adoption. He was instrumental in obtaining the Act for the separation of Oxford from the old London District, and in the establishment of Woodstock as the County Town; and lastly in advocating the cause of the "Woodstock and Lake Erie Railway and Harbour Company," in which after several years of incessant labour almost single handed, he was at last successful.—[New York Albion.]

Col. Light was father of A. L. Light, Esq., Engineer in Chief of Railways in this Province.

STRANDED DISASTER.—The steamer Meson Sanford, in charge of Capt. Blake, left Boston for Bangor on Friday night at 12 o'clock. The night was clear and pleasant, but notwithstanding which, about half-past 2 o'clock, the steamer ran directly upon Thacher's Island, Cape Ann, upon which two lights were burning at the time. The steamer was going with much rapidity, and struck with such force as to throw passengers from their berths and to prostrate horses that were upon the deck. The passengers, as might be expected, were in an intense state of excitement, though as soon as the extent of their danger was known they became comparatively calm. They had run so far upon the island that they could drop upon the rocks from the bows. Deeming that the extent of the damage might be light, the captain requested the passengers to remain by the vessel until she could be got off,

but the schooner Flying Dart, Capt. Lewis, came to their aid in the morning, and thirty-five of the passengers embarked in her for Boston, with their goods and luggage, arriving about 7 o'clock in the evening.

THE CANADIAN PARLIAMENT was prorogued on the 1st inst., by His Excellency the Governor General with the following Speech:

Hon. Gentlemen of the Legislative Council; Gentlemen of the Legislative Assembly;—In the present Session of Parliament you have passed an Act altering the constitution of the Legislative Council. I sincerely hope that the result of this change will prove the expediency of entrusting to the good sense and calm and deliberate judgment most form an important element in the process of successful legislation.

I rejoice that you have done your best to simplify the procedure of the Courts in the Western portion of the Province, and thus far facilitated the administration of justice.

From the measure of last session abolishing the Seigneurial Tenure, the country expects substantial benefits, and the supplementary act of this session will render easy the fulfilment of those benefits.

In this way I trust that the arrangements which have been made for securing to each municipality of Upper Canada the immediate benefit of its share in the Clergy Reserve Fund, will be rendered satisfactory to the people.

Your Act for establishing Normal Schools and improving superior education in Lower Canada, is calculated to increase the number of those who will hereafter be qualified by instruction to advance the prosperity of their country.

The liberality of her Majesty's Government has given over to the Province the mass of the Ordnance Lands, and has thus placed their proceeds at our disposal for the purpose of meeting the expenses of that militia whose loyalty and zeal have been so graciously acknowledged by the Queen.

Gentlemen of the Legislative Assembly;—In her Majesty's name I thank you for the supplies you have granted for the public service.

I trust that the aid afforded to the Grand Trunk Railroad of Canada will be sufficient to secure the completion of that great work, essential as it is to the progress and unity—political and commercial—of both sections of the Province.

Hon. Gentlemen and Gentlemen;—At the opening of this session, I expressed a hope that I soon might have to congratulate you on the conclusion of an honorable peace. By the blessing of God that hope has been fulfilled. Tranquillity has been restored to Europe, and I hope it may bring with it renewed vigor to the interests of trade, and productive of industry.

I am happy in being able to relieve you from the toils of a laborious session, by proroguing the Parliament of Canada as I now do.

The Speaker of the Legislative Council then said:—Hon. Gentlemen of the Legislative Council and of the Legislative Assembly;—It is His Excellency the Governor General's will and pleasure that this Provincial Parliament be prorogued until Saturday the 9th of August next.

GREAT ROBBERY ON GOLD.—Capture of the Thieves.—A few days before the departure of the Canada, a discovery of a most extensive robbery of gold and silver (amounting to nearly £11,000) was made at the Bank of England. Several boxes, supposed to contain specie, had arrived from Southampton, by the Solent, West India steamer, and were consigned for security to the custody of the Bank authorities. On undergoing examination the discovery was made that the whole of the precious metal had been abstracted, and that shot and lumps of lead had been substituted. The boxes were from different merchants at New Granada, and appeared to have been shipped at Carthagena on board the steamship above named for England. On the 16th notice was posted at Lloyds, for the information of the underwriters, that the police at Carthagena, after the departure of the steamer, had received information of the robbery, and had taken into custody the thieves, with about 120 lbs. weight of gold (£5,000 in their possession, a portion of the plunder. The parties implicated are said to be the carriers who brought the boxes to Carthagena from the interior of the country. Other parties were also suspected, whose apprehension, up to the last advice, had not been accomplished.

Father, said a sabbler's lad, as he was peering away at an old shoe, they say that trout bite well now. Well, well, replied the old gentleman, you stick to your work, and they won't bite you!

ARRIVAL OF THE STEAMSHIP AFRICA.

New York, July 11th. The Africa has arrived. There is no general news worth telegraphing. The weather in England was fine, and the agricultural prospects were never better. Another Battalion of Riflemen has been ordered to Canada. MARKETS.—The Cotton Market was inactive. Broadstuffs very dull, with declining tendency. Nothing doing in Provisions. The Bank of England has reduced its discount to 4 per cent. Consols 95 1/2 to 95 1/4.

WEDNESDAY, JULY 16, 1856.

PUBLIC DINNER IN THE TOWN HALL.

On Thursday last, a public dinner was given in the Town Hall, under the auspices of a Committee formed by gentlemen from every section of the County in celebration of the victory achieved by the Constitutionalists throughout the country in support of the late exercise of the Prerogative by His Excellency the Lieut. Governor in dissolving the House of Assembly, for the purpose of appealing to the people on the question of the obnoxious Prohibitory liquor law. We have seldom had the pleasure of being present at any political gathering of more importance as demonstrating the sentiment of loyalty and attachment to the Crown and the Constitution which pervades the hearts of the people of this Province.

Upwards of 50 gentlemen, representing every class of society, from the statesman to the mechanic, were assembled on the occasion, among whom we noticed:—Rev. Dr. Thomson, Rev. Dr. Alley, Rev. John Williams, Rev. Thos. Street, John McCoskery, Esq., Henry Simonds, Esq., M. H. Perley, Her Majesty's Commissioner for the Fisheries, John and Nehemiah Marks, A. J. and D. Wetmore, Jas. Porter, C. W. Wardlaw, Julius Thompson, Jas. W. Street, and Wm. Whitlock, Esquires, Capt. Thompson, and Capt. Moses. The special guests of the evening being the Hon. the Attorney General, John H. Gray, and the Constitutional Candidates at the late Election for this County, Messrs. Boyd, Street, and Dr. R. Thomson, Mr. G. J. Thomson being unfortunately prevented from attending by illness.

The chair was occupied by Capt. J. J. Robinson, R. N., most ably supported by A. J. Wetmore and William Porter Esquires, as Vice chairmen.

On the removal of the cloth, after the usual loyal toasts of the Queen, Prince Albert, and the Royal Family, the Emperor of the French and our allies had been given and responded to, with a marked and fervent burst of applause in each instance.

The chairman next proposed the health of His Excellency the Lieut. Governor—prefacing the toast with some very appropriate remarks on the step taken by His Excellency, which led to the late Election.

The toast having been most enthusiastically received with three times three and "three cheers more."

The Hon. the ATTORNEY GENERAL rose and said—Under ordinary circumstances he should not have thought it necessary to return thanks on behalf of His Excellency; as on all public occasions and at all meetings of the people of this Province, the health of His Excellency is proposed and received with the respect due to the Representative of our beloved Sovereign; but on the present occasion, he felt, from the more than usual warmth of the reception with which the toast had been drunk and responded to—that something more than a mere expression of feeling towards him as the Representative of the Queen, was intended by the cheers with which that toast had just resounded—and that a feeling of admiration for him as a man (hear, hear,) and gratitude to him as a benefactor, had mingled with the feelings which vibrated in every heart then present. (Loud cheers.) Under such circumstances he (the Atty. Gen.) considered that it was his duty as the leader of the present Government, and as one of those who are responsible to the people for the late exercise of the prerogative by the Lieut. Governor in dissolving the House of Assembly, to return thanks on behalf of His Excellency; for the more than enthusiastic manner in which his health had been received. The hon. gentleman went on to say, that he had the more pleasure and gratification in doing so, as it enabled him to explain in the terms which His Excellency assumed in the crisis which led to the dissolution of the House—which he then fully entered into, exposing at the same time the determined opposition evinced on the part of the late Council to allow any appeal to the people on the subject of the Prohibitory law, which was doing almost irreparable injury to the Province. The hon. gentleman concluded a most powerful and convincing speech, which we regret our space prevents us reporting more fully, by again thanking the gentlemen then present, (whose feelings he was convinced were largely shared in Charlotte by those who were absent

from that festive board) for the manner in which they had received the toast, and which he did not hesitate to say would be most gratifying to His Excellency, to whom he should particularly report it on his return to Fredericton.

The Chairman then said that he felt sure the next toast he would offer, would call forth their heartiest sympathy and applause. He was about to propose the health of a gentleman, who had nobly come forward to assist His Excellency, the Lieut. Governor, at a moment of the deepest importance to the interests of the Province—at a moment when he was deserted by his then advisers, who shrunk from assuming the responsibility which it was their duty to take upon themselves. Mr. Gray had instantly undertaken as a loyal and true subject of the Crown, to stand by the Governor when called upon, for the course he had taken. He (the chairman) would say no more, fully assured that in proposing the health of the hon. Mr. Gray and the other Members of the Executive Council, that the toast would be received and responded to with the enthusiasm to which it was entitled.

The Hon. Mr. Gray said, that on rising to return thanks on behalf of his colleagues as well as for himself, for the very kind and handsome manner in which the toast from the chair had been received and responded to, he felt that it would ill become him, not to enter into some account of the manner in which the crisis had been brought about, which led to a dissolution of the House of Assembly—and also into the reasons which had prevented himself and his colleagues after they had been called upon by His Excellency to form an administration, from filling up the whole of the Council. He went fully into these questions, and it is with regret, that we feel ourselves constrained to admit, that having been so deeply interested in the statements which fell from his lips, we neglected taking notes sufficiently copious to warrant our attempting to repeat his words. Mr. Gray, after explaining the present state of politics in the Province, and vindicating the act of His Excellency in dissolving the House, as a perfectly constitutional act, proceeded to dilate on the course of policy which it was his intention, as well as that of his colleagues in the administration of the affairs of the Province, so long as he might remain in office. "I feel," he said, "that I should be guided by an even handed justice to all parties, without reference to creed—sectional interest or party bias of any sort;—for, in the emphatic words of the Lieut. Governor, 'when Justice ceases to be even handed, it ceases to be Justice.'"

The hon. gentleman concluded a most impressive and eloquent speech, which was listened to with the most profound attention, amid a long protracted cheering from all parts of the Hall.

In rising to propose the next toast, the Chairman said, that although we had only succeeded in returning two instead of four members from this County on the side of the Constitutionalists, yet, that by an amalgamation of the votes of the separate Parishes, it was perfectly certain, that the two opposition members who had been returned, had not obtained their seats by a fair expression of the voice of the people; (cheers) but only by an influence, which he need not describe, and which was brought to bear more particularly upon the Parishes of St. Stephens and St. James. (Hear, hear.) In all the eight Parishes of the County the four Constitutional candidates had a large majority over the Radicals. (Loud cheers.) He then spoke voluminously, and he believed when the people calmed down after the excitement of the canvass and the poll, and had time for reflection, that they would understand how they had been deceived. He considered under all the circumstances against which they had had to contend, that the Constitutionalists had gained a great victory even by returning Mr. Street in the place of Mr. Brown, (who was afraid to face the constituency, (cheers)) and in putting their old and well tried member, Mr. Boyd, so high at the head of the poll. He felt it would be unnecessary to occupy time, as they had a long list of toasts to go through, to expatiate on the services of Mr. Boyd, and his claims on the confidence and gratitude of this County—but would simply propose his health with the usual honors, which he felt sure, would be cordially responded to.

Mr. Boyd said that he had now served the constituency of this County, in the Provincial Parliament during a period of seventeen years and had had the honor of being returned on six different occasions. They had now returned him at the head of the poll, by a larger vote than had ever before been cast for any single individual, at any previous election in this County. He thanked the electors from the bottom of his heart for the compliment thus paid him, and the trust which such a vote evinced in him, and he assured them that such a vote had never been found—true and firm to the party—so he would ever remain. The hon. gentleman then reviewed the course of the late Government during their tenure of office, and the circumstances which led to a dissolution of the House, defending the Lieut. Governor against the unjust and scandalous charges which have been brought against him, and declaring his firm conviction of the constitutionality of the appeal to the people, and his determination to support His Excellency, and to vote for the repeal of the Liquor law. (Cheers.) He was also determined to support the present administration, which he believed to be composed of men of true liberal principles—friends of the people—of civilization and progress—whereas the party who unfairly assumed the title of "Liberals," were in reality

obstructive, and perhaps something worse. He explained how he was compelled much against his own inclination, in obedience to requisitions from his constituents, in order to obtain the passing of the Bills for the Railroad from this place, to vote for the general railway scheme of the late Gov.,—and after again reiterating his acknowledgments of the compliments they had paid him, sat down amidst loud cheering.

Capt. Robinson next called on all present to fill a bumper to the toast he was about to offer. He said he never felt more proud in his life than in performing the duty which now devolved upon him, of proposing the health of his friend Mr. G. D. Street. It needed no eulogy from him to extol the character or merits of that gentleman who was known throughout the county as a man of the highest integrity and talents—and one who would do honor to the position he was now called upon to fill. He begged to propose the health of Mr. Street, with three times three, and one ever.

Mr. Street said it was with no ordinary feelings of satisfaction that he rose to return his thanks for the toast which had been introduced to their notice by their worthy chairman in such flattering terms to himself, and received by the friends around him with so marked a warmth of feeling and cordiality. It was indeed a proud moment in his life, and one that he should never forget, to find himself greeted by such an assembly of his fellow countrymen, with so evidently sincere an expression of their sympathy and confidence in him. It would be a stimulus to him in the discharge of the new duties which now devolved upon him, to fulfil them with an energy and devotion for the advancement of the interests of the Province, and of this County in particular, that should merit a continuance of the good opinions which he could not help feeling the cheers he had just heard were intended to convey towards him. He felt proud too, of the position in which he stood, as the Representative of so important a section of the Province as Charlotte and undoubtedly is, to uphold their glorious constitution in its integrity, and to support their excellent Lieut. Governor in the just and legitimate exercise of his prerogative. He had come before them as a candidate for their suffrages unsupported by any hidden influence, to battle against a combined influence of bribery and intimidation—ledger influence and long purses,—and he felt that it was indeed a victory and a subject of congratulation not only to himself, for the handsome manner in which he had been supported at the poll—but also to the county, that the principles of loyalty in the people had so largely withstood the temptation which had been exercised to overcome their sense of truth and justice, (hear, hear.) He proceeded to review the act of the Lieut. Governor in dissolving the House, the operation of the Liquor Law, the great Railway scheme, passed during the late Session, and the general conduct of the late government, and particularly dwelt on the shameful attempts which had been made during the Election by the opposite party, to import religious feelings and sectarian views into the contest,—and concluded a most eloquent speech, which we regret want of space prevents us reporting more fully, by an earnest assurance of his entire devotion to the interests of his constituents without bias or favor to any party or Government; and after again expressing his deep appreciation of the compliment they had paid him by drinking his health sat down amidst great cheering.

The Chairman then gave in succession,— "The Visitors who have honored us with their presence," to which Mr. Henry G. Simonds responded on behalf of his father, in a speech replete with feeling; "The Army & Navy," which was acknowledged by Capt. Moses. "The St. Andrews & Quebec Railroad," "The Committee of gentlemen who had originated and superintended the dinner," to which Mr. Julius Thompson responded. "Mr. A. W. Smith and the Press," to which he replied. "The hon. Mrs. Manners-Sutton and the Ladies," which was drunk with acclamation. "The Lord Bishop and the Clergy of the diocese," was also given by the vice chairman, Mr. Wetmore, for which both the Rev. Dr. Alley and the Rev. Dr. Thomson returned thanks.

The hon. the Attorney General proposed the health of the Chairman, and eulogized his character and public spirit, speaking in the highest terms of the independence and uprightness of his conduct during the time he represented this County in the House of Assembly. (Loud cheers.) Capt. Robinson expressed his warmest thanks for the manner in which his health had been received—disclaiming any merit for anything he had done, as it had all been more than his duty—and if ever he was called upon again, he would always be found ready to do it again.

Mr. PERLEY also in the course of the evening proposed "Prosperity to the trade and Commerce of Charlotte County"—but, as our space totally prevents us this week from doing even an abridgement of justice to the very eloquent and interesting address with which he delighted the company—and as his speech did not refer in particular to the political object of the meeting but treated almost exclusively of the importance of the fisheries, and contained some most valuable information on that subject, which is one of the deepest moment to the inhabitants of this County; we shall postpone making any report of it on this occasion, in order that we may give it in an enlarged form next week.

The meeting was conducted throughout with the greatest harmony and good feeling, and the greatest credit is due to Mr. and Mrs. Pheasant of the Railway Hotel, for the very handsome manner in which they set out the tables, and catered for the occasion.

The Legislature will meet tomorrow—the Session will be an interesting one, and the relative strength of parties will soon be known. The Liquor Law will be repealed by an overwhelming majority—a new License Law will be enacted, and also a Bill brought in for the purpose of giving power to the Justices to call an extra Session and grant Licenses. No doubt the opposition will offer an amendment to the Address in answer to the Speech—and perhaps they may try another "Barker house" dodge—but in vain; that "trick" will not bear repeating. A member from old Charlotte as usual, will move the address.

Monday last was the warmest day this season—followed on Tuesday with light showers. The grass and other crops promise an abundant yield.

THE FISHING LIMITS.—Our Washington correspondent alluded recently to the labours of the joint commission appointed under the first and second article of the Reciprocity Treaty. It consists of the Hon. M. H. Perley, of St. John, N. B., Commissioner, and George Hayward Perley, Esq., Secretary and Surveyor on the part of the British Government; and of Gen. G. G. Cushman, of Bangor, Commissioner, and R. D. Curtis, Esq., of Washington, Surveyor on the part of the United States. Last summer they visited various rivers and harbours in the British Provinces, without arriving at any conclusion.

This summer, the Commission has had its headquarters at the Tremont House, and yesterday, documents establishing the fishing boundaries of the following rivers were signed:—The Pictouque, Merimac, Ipswich, Taunton, and Seakonk. At the same time it was decided that it was not necessary to treat on the Saugus, Charles, Mystic, Neponset, and Acushnet. The commissioners have visited these ten rivers, and their decisions were made after due consultation and deliberation.

The Commission adjourned yesterday, to meet at Prince's Edward's Island in a fortnight, to examine the various rivers and harbours there, and return here in September; Gen. Cushman left afterwards for Bangor, and Hon. Mr. Perley will return to St. John by the next steamer.—Boston Journal.

Destructive Fire at Lowell.—A destructive fire broke out on the morning of last Tuesday week in the "picker" of the Richmond wadding mill, a large three-story building, filled with light dry material. Scarcely was the fire discovered before the whole building was enveloped in one sheet of flame; it then spread with fearful rapidity to the adjoining mills, burning to the ground, two two-story dwelling, and partially destroying two stone houses. The loss is estimated at about \$21,000, and is uninsured; notwithstanding active efforts to confine the fire to the mill yard the north west wind wafted the flames to the dwelling outside, which being of wood and very dry, instantly caught, and three buildings were destroyed. Several others more or less damaged, were partially insured.

STORM IN VERMONT.—We learn from the St. Albans (Vt.) Messenger that during a recent storm a young lady who was hooped up in extreme fashion, while on her way from church, was lifted up by the wind, and borne quite a distance, but landed without serious damage to herself. The Narrows Bridge across the Missisquoi River was blown down and a barn on the farm of a Mr. B. H. Smealley.

MASONIC.—At the last regular Communication of Albion Lodge, of Freemasons, 570, R. E., the W. M. presented to Bro Dennis Morton, a quadrant, bearing an appropriate inscription, the gift of the Members of St. Andrews Lodge, 732, R. E., of Sydney, Cape Breton, as a testimonial of regard.—Courier.

The Pictou Chronicle says that Captain Green of the brig Oregon, lying in the stream ready to sail for Boston, was assaulted by the mate and crew, who were under the influence of liquor, and was pursued to his cabin, the crew smashing in the door and windows.—The captain found it necessary to resort to fire-arms, and shot the foremost with a pistol in the stomach. The wound is not likely to prove fatal.

A WARNING.—A late number of the Courier du Pas de Calais, contains the following:—"Two men lately entered an inn in Cambria, ordered coffee, and died shortly after swallowing a cup each. The landlady summoned the police, who declared that the men were poisoned. 'Impossible!' cried the landlady; 'they have only drunk a cup of coffee a-piece, and that can do no harm.' She at once drank a cup to prove its innocence. The same result, however, ensued in her case, as she was seized with terrible pains and also died. On examining the pot a box of lucifer or locofoco matches, was found lying in it."

Who Goes Below?—A son of Erin having hired his services to cut some ice, was asked if he could use the cross-cut saw.—He replied, he could, surely. He was sent accordingly, in company with some of his co-labourers, to cut some ice, and on reaching the centre of the pond the saw was pro-

duced with handles still in their place. The workman, looking at the saw, very coolly put his hand in his pocket, and drawing from it a cent, turned to his companion, and raising the cent, said, "Now, Jamie, fair play; head or tail, who goes below?"

JOY TO THE INVALID.—Persons afflicted with any of the diseases arising from a disordered liver, stomach, nervous debility, dyspepsia or liver complaint, should try PERRY DAVIS' PAIN KILLER. It seldom fails to effect a cure in a very short time. Sold by Druggists generally throughout the United States and Canada.

BREV.—On the 8th instant, Mrs. Jane Watson, widow of the late Mr. David Watson, aged 70 years, deeply regretted by a large circle of relatives and friends.

**LET US REASON TOGETHER.**

**HOLLOWAY'S PILLS.**

**WHY ARE WE SICK?**

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the Weak, the Nervous, the Delicate, and the Irritable, of all climes, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD. These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA AND LIVER COMPLAINTS. Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to those organs, however much deranged, and when all other means have failed.

GENERAL DEBILITY. ILL HEALTH. Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses.—Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

FEMALE COMPLAINTS. No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:—

Ague, Jaundice, Liver complaints, Lumbago, Piles, Rheumatism, Retention of Urine, Scrofula, or King's Evil, Sore Throats, Stone and Gravel, Secondary symptoms, Tic Douloureux, Tumours, Female Irregularities, Ulcers, FEVERS of all kinds, Worms of all kinds, Weakness, from whatever cause &c. &c.

Sold at the Establishments of Professor Holloway, 244, Strand, near Temple Bar, London, and 80 Maiden Lane, New York, also by all respectable Druggists and Dealers in Medicines throughout the Civilized World, at the following prices:—

1s 4d; 3s 6d; 5s 6d each box.

There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box.

Sold by all Venders of Medicines throughout New Brunswick, and by A. H. Thompson, St. Stephen; Billings & Dyer, Eastport, and

**Ufford's Smoke Consuming Patent Lamp.**

It is warranted to produce, without smoke and with only the poorest quality of oil or grease, at an expense of less than half a cent per hour, a light equal at least to four wax candles. Extremely simple and durable, less injurious to the eyes than any other artificial light, and will prove the truth of these statements.

Price \$1 25, 63c. 67c.

We have one of the Lamps in use, and are able to conform to the favorable testimony of the Traveller, having found it answering well to what it claimed for it. (Parian Recorder.)

No person who has ever tried one of the Lamps will be willing to give it up for ten times its cost, if it could not be replaced. [New England Farmer.]

However Curious! See an advertisement that the Deaf might be relieved by applying to DR. BOARDMAN, 204 Washington street, corner of Suffolk Place, BOSTON. I was induced to leave home and test the Doctor's skill. I was so deaf that I was unable to hear ordinary conversation. To my astonishment, in twenty minutes my hearing was perfectly restored. I recommend all persons to try the Doctor's new method of cure.

**E. D. SPEAR, IRIDIAN DOCTOR,** 19 Kneeland Street, BOSTON, Mass.

THE great success which has ever attended the Indian Practice of Medicine, as perfected by E. D. SPEAR, M. D., excites envy in the hearts of the many quacks of the day. Many of his remedies, as the public have already learned from newspapers of the day, are prepared from recipes which are believed to have originally been received from the Indians one hundred and seventy years ago. No other remedies deserve the name of Indian.

DR. SPEAR'S GREAT INDIAN MEDICINES. (For names and description see his "Family Physician")—to be had, free, at his office, or sent to order, prepaid on receipt of a paper postage stamp.

Are certain cures for Asthma, Ague and Fever, Barber's Itch, Boil, Bronchitis, Cancer, Canker, Colds, Consumption, Coughs, Costiveness, Cramps, Debility, Diabetes, Derangement of the Bowels, all humours in the Blood, Giddiness, Headache, Inflammation of the Eyes, Jaundice, Kidney Complaints, Liver Complaints, Loss of Hair, Lumbago, Milk Leg, Nightmare, Palpitation of the Heart, Pains in the side, back, and other parts of the body, Painful Menstruation, Pin Worms, Rheumatism, Salt Rheum, Scald Head, Scrofula, Shortness of Breath, Sore Throat, Spinal Complaints, Strangury, &c.

Dr. Spear's Female Medicines have become very celebrated, and it is now admitted that his treatment of Female Weaknesses, Prolapsus Uteri, Irregularities and Suppressions is far superior to every other treatment for these complaints.

It is also celebrated in the treatment of children. His medicines being vegetable, do not poison the system.

Dr. Spear is now being visited by one thousand patients every month, some of whom travel hundreds of miles to consult him and to obtain his medicines.

Dr. S. will warrant a cure in every curable case. After giving his remedies a fair trial, if a cure is not effected, he will pay any other physician, who will effect a cure, his bill, not exceeding \$100.

Persons at a distance can consult him by letter, enclosing a stamp to pay the answer.

Dr. Spear consults with patients at his Office No 19 Kneeland street, upon all conditions and diseases of the system, free of any charge.

**A MARVELLOUS REMEDY FOR A MARVELLOUS AGE!**

**Holloway's Ointment.**

**THE GRAND EXTERNAL REMEDY.**

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, disorders of the Liver, affections of the Heart, Inflammation of the Lungs, Asthma, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

**ERYSIPELAS, RHEUMATISM AND SCORBUTIC HUMOURS**

No remedy has ever done so much for the cure of diseases of the Skin, as this Ointment. Scurvy, Sore Heads, Scrofula, or Erysipelas, cannot long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

**SORE LEGS, SORE BREASTS, WOUNDS & ULCERS.**

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumours. Professor Holloway has dispatched to the East large shipments of this Ointment, to be used in the worst cases of wounds. It will cure any ulcer, glandular swelling stiffness or contraction of the joints, even of 20 years' standing.

**PILES AND FISTULAS.**

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

Bad Legs, Chicago-foot, Bad Breasts, Chilblains, Burns, Chapped hands, Bunions, Corns (soft), Bite of Mosquitoes, Cancers, and Sand Flies, Contracted and Stiff Joints, Cocco-bay, Fistulas, Elephantiasis, Glandular Swelling, Gout, Glandular Swelling, Scoury, Lumbago, Sore Heads, Piles, Tumours, Rheumatism, Ulcers, Scalds, Wounds, Sore Nipples.

Sold at the Establishment of Professor Holloway, 244, Strand, (near Temple Bar) London, and 80, Maiden Lane, New York also by all respectable Druggists and Dealers in Medicines throughout the Civilized World, in Pots, at 1s. 3d., 3s. 3d. and 5s. sterling, each Pot.

There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder, are affixed to each Pot.

Sold by all Vendors of Medicines throughout New Brunswick, and by A. H. Thompson, St. Stephen; Billings & Dyer, Eastport, and

**Soap and Candle Factory AGAIN.**

THE subscriber in returning thanks for the extensive patronage received for the last twelve years, respectfully informs his friends and customers, that since the late disastrous fire in Water-street, he has erected a new Factory in Prince-street, a very short distance above the Post Office, and next adjoining Dunn's Steam Mill, where he will be happy to receive and execute all orders from his old customers and the trade generally; and by manufacturing a good article, at a fair price and light profit, to give satisfaction.
