The Toronto Globe says, editorially: "Owing to the physiographic character of the western peninsula of Ontario and to the climatic changes

that have resulted from deforestation, some of the rivers traversing it cause a great deal of trouble to cities and towns along their courses. There is a high plateau, which includes parts of the countries of Peel, Wellington, Dufferin, Perth, Huron, Bruce, Grey and Simcoe. From this plateau a number of rivers radiate: the Humber and the Credit, empting into Lake Ontario: the Grand River, into Lake Erie; the Thames, into Lake St. Clair; the Maitland and Saugeen, into Lake Huron, and the Sydenham, Big Head, Beaver and Nottawasaga, into the Georgian Bay. All these rivers flow rapidly in making the descent from the plateau, and most of them have a much more leisurely movement after they reach the comparatively level country. The summit of this plateau, quite extensive in area, is in ummer always on the verge of aridity. and occasionally it topples over the verge into blighting drouth. The explanation of the vanishing of the water is simple enough. The swamps that formerly acted as saturated sponges, have been drained, cleared, and converted into solid land. PUBLIC ABATTOIR NEEDED.

The question of establishing a public abattoir, equipped with the modern sanitary appliances, wherein all animals the meat of which is intended for sale in this city, would be slaughtered. should not be allowed to drop by the local board of health.

it is a well-known fact that in all communities there are people who will not scruple to kill animals known to be diseased, and offer the meat for sale. Only recently a case in point was officials directly responsible to the noted in a neighboring township, and Chamber of Deputies. a few days ago a carcass was ordered off the market here by the medical health officer, because it bore unmistakable evidence of being unfit for

An animal might be affected with lump-jaw, a disease known to be communicable to man, but when it has been slaughtered, and the head removed, the meat may pass as prime quality. Dr. Tamlin, the city veterinary officer, is authority for the statement that from 15 to 25 per cent of the hogs slaughtered hereabouts are affected with tuberculosis, and that it is impossible to detect disease in dead meat. The consequence is that any honest retailer may at any time be innocently offering for sale meat from a diseased animal. The only possible way of determining whether a live animal is tuberculin test, but as that is not made compulsory it loses much of its value.

Under the statute a municipality may establish an abattoir, and compel all animals whose meat is intended for candidates, by arrangement, were not consumption as food, but the fact that opposed by the Labor party save in not one municipality in the Province a few constituencies. But there can be no doubt that the protection such an enterprise would afford the public health would justify even a monopoly, particularly if those who undertook it were prepared to pay a reasonable sum to the city for its franchise. Better than present conditions would be an amendment of law compelling the inspection of all animals intended for slaughter, and the infliction of a penalty in cases where slaughtering is done without a certificate that the animals killed had been inspected by a duly authorized offi-

St. Paul, Jan. 28.-A special to the Dispatch from Seattle, Wash., says: "The largest herd of caribou ever seen in the wilds of Alaska is now crossing the Yukon River working its way southward to escape the frigid

cold of the Arctic region. "Prof. Joseph B. Terryl, geologist, just sent to the coast reports of the

migration of the animals. "The herd has been moving for 100 days now and there seems to be no end to the string. It is estimated that more than 100,000 caribou have crossed the stream and wended their way into the fastness of the mountains of

the lower Yukon territory. "The head of the columns as reported by those who have been traveling in the district seems to be near Sixty Mile Creek, the herd apparently com-

ing from the Tanana Valley. "It is believed that the winter is unusually severe, which has had the effect of driving animals from their usual feeding places to some point

farther south." BARGAINS IN HEIRESSES

New Scale Williams Piano can testify to its clarity volume and carrying power. New Scale Williams Piano is perfectly balanced—treble, middle and bass being beautifully proportioned. This is a noticeable feature in concert work, and is highly praised by artists. Mr. E. T. Murray, leader of the famous "Black Watch" Band says, "The tone is more like a fine Baby Grand than an Upright." And the Harmonic Tone-Pro-longing Bridge is but one of many ex-clusive features in these—Canada's finest pianos.

THE MOST RELIABLE and Successful Authority—Greatest success in the treatment of Hernia (Rupture) Varioccele (False Rupture) of all known agencies in modern times. He who makes a specialty of one department must certainly be more experienced and capable than those having "many irons in the fire." Don't put off your case, believing it to be simple—Remember neglect often proves fatal. Have your case attended to now, and thus void danger. Stop wasting time and money elsewhere but come to one whose life-long study has taught him what to do. Do not despond or be deterred from seeking further advice, or because of repeated failures consider your case incurable. Because others failed in your case you have become discouraged. This is the very time you should consult me as my-reputation has been made in curing hopeless (se-called) cases.

LADIES suffering from Navel or any form of Rupture should not hesitate in having their case attended to at once. Everything strictly private and professional.

MOTHERS—Look to your children—Now is the time to have them cured, while young. Den't allow them to grow up handicapped in the race of life, with rupture.

MY CHARGES are within reach of all, the poer man as well as the rich. Terms can be satisfactorily arranged, no reason why you should not consult me at once, during this visit.

SPORTING GOSSIP

REALIZING THAT AMATEUR BOXING-not prize fights-is one of the cleanest and most interesting forms of sport, the sporting editor of this paper recently made inquiries in this city to determine if such contests were possible under the local statutes. He found that boxing here is only possible with the permission of the chief of police, who, by the way, does not care to take the responsibility of allowing anything in that line without the support of the

If amateur contests were permitted here, they would be conducted under the auspices of the Canadian Amateur Athletic Union, the governing body of

By way of obtaining information on the subject of amateur boxing in Canada, Mr. N. H. Crow, secretary of the C. A. A. U., was communicated

His reply was as follows:

Dear Sir,-In reply to your letter, I have made a thorough inquiry, and failed to find a city in Canada in which amateur boxing was not permitted. I inclose you a copy of the Canadian Amateur Athletic Union boxing cules, and as you can readily observe, every precaution is taken to make the sport clean and non-injurious to the contestants.

Am glad you purpose doing something in this line of sport. The Canadian Amateur Athletic Union will sanction a tournament in London if conducted by responsible parties.

Let me suggest that you or Mr. Williams write Deputy Chief Constable Stark, city hall, Toronto, for references in regard to the complete approval amateur boxing has met with here.

Mr. Stark is president of the C. A. A. U., and would be pleased to give the benefit of his thorough knowledge of this most excellent sport. Mr. Stark's department in the city hall. Toronto, looks after the licensed

TO MANY THE IDEA OF PUBLISHING THIS LETTER may seem like courting opposition to the movement to promote amateur boxing in this city. The writer thinks that the people should know just what is contemplated, and be given an opportunity of acting accordingly.

There is as much difference between a brutal prize-fight and a clean, clever amateur contest, as there is between day and night, and if the movement goes through, and it looks favorable now, the public can rest assured that everything will be conducted in a quiet, orderly and respectable manner.

DON'T FORGET THE CITY HOCKEY LEAGUE CONTESTS at the Princess Rink Friday night. There will be no crowding or crushing at the entrances, and the reserved seats will be free to ladies and their escorts.

The four teams are most evenly matched, and the struggles will be nost interesting. A number of new players have been signed up by the various teams, and the play is becoming faster and cleaner each night.

Puck faced off sharp at 8 o'clock. Each team is under a forfeit to appear on time, and there will be absolutely no delays. Boost the game!

THE FASIG-TIPTON SALE

Poor Lot of Trotters at Opening Day in Madison Square Garden.

New York, Jan. 29.—The annual mid-winter sale of light harness horses by the Fasig-Tipton Company began yesterday in Madison Square Garden and will last four days. A big crowd was in attendance in spite of the fact that the stock that came for the opening day was below the average. Prices ruled well, and there was no lack of buyers. Horses were present from all parts of the country, while Canada, England and Australia were represented by agents looking for bargains.

The stock offered brought an average of about \$200, and one went as high as \$1,000.

Feared Suffragettes

The menace of an outbreak on the part of the women suffragists of England gave an unusual interest to the formal proceedings of today. While it was not anticipated that the women would disturb the King, they threatened to make things most interesting for the members of the House of Parliament, particularly if there was no mention of suffrage in the speech from the throne.

Greater precautions could not have been made if an anarchist uprising had been feared. The only ladies admitted to the galleries of Parliament were those whom members vouched for in writing as their wives or relatives, and the police who were on duty around 70, 5, 5 and 1 at 341/2, 25 and 25 at 341/4; Win-Westminster and throughout the Houses nipeg, 10 at 140; Sao Paulo, 2 at 115, 25 of Parliament were instructed to keep at 116, 15 at 11614; Dominion Bank, 20 and

Referring to the peace conference, held at The Hague last summer, the always the rule, to make the convener King said: "The various instruments annexed to the final act of that conference show the progress that has been made, and they are receiving the attentive consideration of my Government. One of the most important of these instruments establishes the great principle of an international court of appeal in prize cases."

"My Government are considering the question of inviting representatives of the leading maritime nations to attend a conference in London in the course of next autumn, with a view of coming to an understanding on certain importat points of international law for the

guidance of this court. "The condition of the Christian and Mussulman populations in the Mace-Harris. donian vilayets shows no improvement. The bands of different nationalities continue to pursue a campaign of violence, and the situation gives serious cause for anxiety. The great powers of Europe have agreed to present to the Turkish Government a scheme for the improvement of the judiciary in that region, and my Government have made further proposals to the Sultan, and also to the great powers, for dealing effectually with the principal causes of this disturbance."

A SERIOUS ALLEGATION

Bailed Prisoner Says Turnkeys Choked that it should not affect the Canadian Man to Death.

Ottawa, Jan. 28. - A serious allegation is made against the county jail officials by James Tracy, a prisoner who was bailed out yesterday. Tracy makes the statement that James Callaghan, who died in the prison Saturday night, was abused and practically choked to death by the turnkeys. His statement is backed up by Joseph Hudson, another prisoner, released this morning. The inquest on Callaghan, which was held last night, was postponed till Wednesday evening, when all the new evidence will be intro-

NO IMAGINATION

NO LANGUAGE

So Said Rev. Mr. Livingstone in an In-

teresting Lecture. A most interesting lecture on 'Imagination" was delivered before a large audience in Wesley Hall last night by Rev. James Livingstone, of Wellington Street Methodist Church. Mr. Livingstone showed that without

imagination there would be no language, as every word in the language is the child of imagination. Without a language, there would be no literature, poetry or music, and the

world would lose thousands of its most priceless treasures. In painting and sculpture, some wonderful results of imagination are apparent, and all that is beautiful and best in the world is traceable to this wonderful faculty.

Imagination excels memory, because memory at its best can only take us back to our first knowledge, whereas imagination is the great gatherer of all Word was received in the city yes- six children, namely, Mrs. Nichol, Mrs. knowledge, and in addition looks into
