JURY IN FOSTER-GLOBE CASE GIVES VERDICT FOR EDITOR

Court Orders Judgment and Costs for Doctor Macdonald.

THE CRITICISM WAS JUSTIFIED

Jury Also Finds That Plaintiff Acted in Good Faith.

Toronto, Feb. 28. - The verdict for Dr. Macdonald in the Foster-Macdonald libel suit was handed to Mr. Justice Magee at 8:50 on Saturday night, and was read by the clerk amid the breathless silence of those present. The legal gentlemen present, the members of the press, and the few people who had straggled back to the court in the hope that a verdict might be reached, were all eager to catch every word which the jury had to say of the charge of libel laid by the Hon. George E. Foster against Dr. Macdonald, editor of the Glibe.

"Is that your unanimous verdict," asked Mr. Justice Magee, and to this Mr. F. C. Davies, foreman of the jury, replied very clearly and distinctly, "It is our unanimous verdict.'

"I ask for a poll of the jury," said Mr. I. F. Hellmuth, K. C., counsel for the plaintiff. The poll was taken, each of the jury-

men answering to the question, "Is that your verdict?" with a simple "Yes," or "It is." Mr. George Wilkie, for the defendant, then asked that judgment be entered for Dr. Macdonald, with costs. and judgment was entered accord-

A Stay Asked.

Mr. Hellmuth, for the plaintiff, asked for the usual stay of judgment for 30 days, which was granted. This was to give Hon. Mr. Foster the opportunity to exercise the right to ask the divisional court for a new trial, which may be refused or granted, as the court decides. If a new trial takes place it must be before a jury just as was that which ended Saturday night.

Thieves Sound an Alarm and Loot Lockers During Firemen's Absence.

[Special to The Advertiser.] Woodstock, Feb. 28.—An ingenuous obbery was committed here this robbery morning. An alarm was rung into the fire hall from box 14 at 3:43 a.m., and also to the Bain fire department, which responds to a call from this box. On arrival at the scene of the supposed fire an empty house, no fire was to be seen, but footmarks were plainly visible around the house. Later It was discovered that a small fire was burning in the floor of one room, and this was at once extinguished, but a quantity of cotton was there half-burnt, showing the fire to be intentional. While the men of the Bain fire department were out at the fire their quarters were ransacked, and \$26 85 stolen from one man's locker, the rest of the money and valuables being locked up in trunks. It is evident that the same person lit the fire, sent in the alarm, and then rifled the firemen's rooms. This is the second attempt to start fire within a week, the other being a school building.

But while we think of this blight upon our land we must remember that for every white slave introduced there are five women of our own land practically forced into a life of shame by economic conditions. The latter desires, of course, to see the amount of money spent on war, and the munitions of war confined to the narrowest possible limits. The imperialist meets this desire. For which will cost the most, one strong imperial navy, or half a dozen or more independent navies—in short, one for each of the seven seas? There must be one at Halifax, another at Vancouver, one at Cape Town, another at Sydney, one for New Zealand, one for India, one for Egypt-all these besides the home fleet. Here are seven or eight navies. and this is the way the principle of autonomy works out. Could anything

IN 3-YEAR HUNT

Father Pursues Man Who Shot Hi

Daughter Over Two Continents. Chicago, Feb. 28.—The story of father's three-year search in two continents for the slayer of his daughter was revealed today when Kleebrites Hiotis, 20 years old, was arrested, with the aid of a Government immigration inspector.

According to the police, the prisoner admitted his identity and confessed to killing the girl, Filipici Damaskis, 17 years old, but insisted that the tragedy was accidental.

"He loved my daughter," said Peter Damaskis, the slain girl's father, "but my wife did not want him for a sonin-law. They quarrelled and Hiotis killed the girl."

The tragedy was enacted at Paleoporion, in Greece, July 21, 1907, according to Damaskis. A celebration was being held following the marriage of a sister of Hiotis. During a dance the Damaskis girl fell dead with a bullet in her neck. She had been fair trial."

Hiotis came to America immediately after the shooting and has lived in Chicago for six months. Damaskis pursued him and caused his arrest after a three-year search.

I had almost begun to think my case incurable when I came across an advertisement in the papers about "Little Digesters." I decided to give them a trial. DIAMOND MERCHANTS AND JEWELERS

By purchasing in large quantities we are able to secure many exceptional bargains, and for some years it has been our custom to share with our patrons and give them advantage of these.

In order to do so, our plan has been to make February of each year the extra special bargain month, and during it we sell goods, in many cases for half price, and in every case for at least one-fifth off.

Our patrons have learned of this big bargain month and have shown that they appreciate it by each year taking advantage in larger numbers of the opportunity to purchase Cut Glass, China, Rings, Sterling Silver, Silver Deposit, Walking Sticks, Umbrellas, Opera Glasses, Fobs, Charms, etc., at greatly reduced prices.

The month ending today has been no exception to the rule, and tonight will end one of the greatest bargain-giving months we have ever enjoyed.

As it is impossible for us to reach each customer individually, we take this means of thanking all for their liberal patronage not only during the sale but throughout the entire year.

We trust that the mutual good feeling between us will continue. It is our earnest desire at all times to treat fair and give good value for money, that we may more and more deserve confidence and receive greater patron-
