LAST EDITION

47th YEAR, NO. 20302 | WEATHER TOMORROW: FINE AND WARM. | LONDON, ONTARIO, FRIDAY, MAY 26, 1911. —TWELVE PAGES | Sun Rises Tomorrow, 4:42. Sun Sets Tomorrow, 7:47. | PRICE TWO CENTS.

LONDONER BEATEN AND ROBBED WAS PLAYING POKER IN DETROIT

Frank Flannigan Had $50 in His Pockets When He Reached City of Straits.

SLUGGED BY A BAD GANG

Reported Matter to Police, and Is Now Seeking the Saloon Where Row Occurred.

[Special to The Advertiser.]

Detroit, Mich., May 26.—Frank Flannigan, a butcher, of London, was beaten and robbed by four men while playing poker in a Detroit saloon last night.

Flannigan came to Detroit yesterday with $50 tucked away in an inside pocket, and he intended to see the sights as they exist in a big town. He had not been here very long before he met a man that was more than friendly to him and volunteered to show him around.

Last night a poker game was suggested and Flannigan readily consented. The game started off at five cents, but the stakes were raised and raised until the ceiling was the limit.

As one jackpot was won after another by Flannigan, and the money began rolling his way, the Londoner was more than elated, and purchased liquid refreshments like a sailor on shore leave.

Finally there was a big jackpot in sight and Flannigan as usual won it.

As he started to reach for it one of the gamblers struck his hand with something that nearly severed one of his fingers, but Flannigan managed to hold on to the money.

Then other persons in the room began beating him, and finally he was rendered unconscious, and his money, *all but $6*, was taken away from him.

Flannigan recovered consciousness in a short time, but his new friends were missing. He went to the sixth precinct police station and Police Surgeon Thomas sewed up several wounds on his face and his head, and he was allowed to remain at the station all night.

Today he is with officers trying to find the saloon where he was beaten and robbed, in the hopes of getting some trace of the gambler robbers.

Frank Flannigan is well known in London. With his family he resides on William street north. His wife did not know where he had gone, and today was seeking him in this city.

TODAY LAST DAY FOR MARYS' GIFT

Substantial Sum Contributed From All Parts of the Empire.

[Canadian Press.]

London, May 26.—Today is the Queen's birthday, and the closing day for the coronation birthday gift to the Queen from the Marys of the Empire.

Sums ranging from a pound to a penny have been contributed by Marys all over the world, the rich and the poor. A substantial sum was realized.

At the fourth court of King George and Queen Mary last night, the Queen's dress was of English-made satin, every stitch of British workmanship.

YOUNG LADIES PASS THE ASYLUM EXAMS

Plan of a Uniform Training for the Nurses Has Proven a Success.

The following young ladies from London were successful in passing the final examination for nurses at the asylum:

M. Brock, Lexie Clark, Maria Flynn, Edna Scott.

Those who passed the intermediate examinations here were: Mary Atkinson, Florence R. Ball, Lizzie Flynn, Margaret Gifford, Katharine McGarity, Margaret McGee.

The successful candidates in the junior examinations were: Jennie Bailey, Ethel Chapman, Viola Clipperton, Nellie Gee, Tillie Huff, Louise Hystead, Jessie Martin, Florence Reid, Olga Strong.

The plan established two years ago of having a uniform system of training extending over three years for the nurses has proven satisfactory. Examinations are conducted during May each year by a board of examiners appointed by the Provincial Secretary.

MRS. R. K. BISHOP DEAD.

Brighton, Eng., May 25.—Mrs. R. K. Bishop, whose husband is a member of the executive council of Newfoundland, died here today, after undergoing a surgical operation.

SATURDAY, JUNE 3, PROCLAIMED A HOLIDAY

No Announcement Yet As To Coronation Day, June 23.

[Canadian Press.]

Ottawa, May 26. — Saturday, June 3, the birthday of King George V., has been proclaimed a legal holiday throughout the Dominion. No announcement has as yet been made regarding Coronation Day, June 23.

LEFT HIS WIG AND HAT BEHIND

South London Man Went Asleep on an Elmwood Avenue Lawn.

A HUMOROUS INCIDENT

Citizen With Too Much Liquor Aboard Begged a Hat While His Own Lay on the Ground.

Some South Londoner is today minus a wig and a hat. The two top-story accessories just mentioned were found yesterday morning in the backyard of a well-known Elmwood avenue citizen.

Thereby hangs a story. Some hours after he had retired on the evening before, the citizens was awakened by hearing noises about the premises.

Five times he stole noiselessly downstairs to investigate, but could find no burglar. Early in the morning he again heard the noise and went down again. He had hardly got down when the bell commenced to ring.

Going to a side window, he inquired who was there. A man's voice answered from the gloom, and he said he wanted to get in.

"If you don't go on home," said the citizen, "you will get in jail. I will call the patrol wagon."

"Oh, for heaven's sake," said the man, "don't do that. Throw me out a hat. I've lost mine, and am nearly frozen. I'll go away at once if you do."

The citizen got an old "lid" and threw it out, and the man went away.

In the morning the citizen started out to his garden, and was surprised to find a handsome dark wig lying among the vegetables and nearby was a hat. His adventure of the early morning and the sounds he had heard during the night flashed back to his mind, and the visitor's need for a hat was at once apparent.

AUTO VEHICLES WOULD CUT DOWN EXPENSES

Patrol and Ambulance of This Type Favored by Chief Williams.

Chief Williams is strongly of the opinion that it will not be long before London will require an automobile patrol and ambulance.

"If we had such vehicles," he stated to The Advertiser this afternoon, "they would save a great deal of expense. There is no better ambulance anywhere than we have now, but if it were operated as an automobile is instead of being drawn by horses it would go much faster and no time would be lost in hitching up. This would be particularly valuable in the case of the patrol wagon. A policeman, for instance, fighting with some rough customer awry out say in London East, thinks it is an age before the wagon arrives. You can't get to places where there is trouble going on too fast. It would be far cheaper to operate an auto ambulance and patrol wagon than to keep the horses we have to keep now."

The chief states that auto wagons and ambulances are very rapidly displacing the vehicles drawn by horses in all the big cities, and from what he has learned they are giving every satisfaction.

NEVER BE ANNEXED SAYS MR. PARDEE

Chicago, May 25.—F. F. Pardee, a member of the House of Commons, Ottawa, told the British Empire Association last night, that Canada would never be annexed.

FIRST CIVIC BAND CONCERT ON JUNE 5

But the Schedule Has Not as Yet Been Arranged.

The first civic band concert of the season will be held in all probability on June 5.

Ald. Eckert has not arranged the schedule as yet, but at the next meeting of the finance committee on June 2, he will make the arrangements. It is expected that the Seventh Regiment Band will get the majority of the concerts this year.

A concert will also be arranged for June 27, when the automobile tourists are here.

NOBLE C. W. McGUIRE.
Ill. Potentate of Mocha Temple in Session Here Today.

COLONEL MUNRO ON TRIAL TODAY

Charged With Making False Returns of Farmers' Bank.

TRAVERS ON THE STAND

Says That President Had Nothing To Do With Preparation of the Figures.

[Canadian Press.]

Toronto, May 25. — Col. Munro, the president of the ill-fated Farmers' Bank, appeared before Judge Winchester this morning, to answer the charge of making false returns to the Government. In all there are eleven charges covering eleven months. Mr. H. H. Dewart, on behalf of his client, waived reading of a number of new charges, pleaded not guilty, and elected to be tried by his honor.

Travers a Witness.

Mr. Travers, the convicted manager of the bank, was the first witness called by the crown. Travers identified the signature of the president, Col. Munro, on the monthly statement to the Minister of Finance for January, 1910. The statement was prepared by Mr. Fitzgibbon, the accountant, and witnesses went over the figures. Mr. Munro had nothing to do with the preparation of the figures. He was not at the bank oftener than three times a month. The president would ask a question often about the bank's investments, but that was all. Witness had discussed the Keeley mine with the president. Mr. Munro told Travers that he had received a letter from some person challenging the investment in the Keeley mine, but they did not go into the figures.

The manager assured the court that all the bank had in the Keeley mine was fully secured. At that time the bank had about $500,000 invested in the property.

Mr. Monahan, county crown attorney, stated that he was going into the figures in the monthly statement for the purpose of showing what the president might have done to detect the falsity of the figures in the statement to which he had offered his signature.

Mr. Travers explained a number of misleading items, and falsely entered items in the statements. Mr. Dewart was anxious to expedite the case and was willing to make any admission that might facilitate the court's work.

Mr. Monahan, continuing the examination of Travers, asked if information as to the actual composition of the various items in the false statement could have been easily ascertained at the head office.

Travers—Oh, yes. An officer of the bank, such as the president, could easily have got any information he wanted. If the statement had not included this Keeley mine stock, it would have shown a serious impairment of the bank's capital.

"And what would that lead to?" asked the court.

"Well, I don't know. It would depend on the Government, but it might mean the appointment of a commission by the Government to investigate into the bank's affairs."

Court—That is what you were afraid of?

Witness—Yes, it was.

CERTAIN AREAS TO BE BARRED AIR-CRAFT

British Govt. Takes Steps To Prevent Accidents During Coronation.

[Canadian Press.]

London, May 26.—Learning a lesson from the aeroplane disaster that caused the death of the French Minister of War, Winston Churchill yesterday introduced an aerial navigation bill empowering the home secretary to make regulations for defining and inclosing certain areas over which it is thought to be dangerous for air craft to pass.

The bill is a temporary measure brought in with the special view of safeguarding the public who will witness the coronation ceremonies, from reckless aviators. It is preliminary to a more comprehensive measure. It provides fines for the contravention of the regulation.

ARMY CUT-WORM IN RAINY RIVER

Farmers Alarmed at Great Numbers of the Pest.

[Canadian Press.]

Winnipeg, May 26.—The army cut worm in large numbers has made its appearance in the Rainy River (Ontario) district. It has appeared in multitudes in all the fields of that sections, and the farmers are becoming alarmed.

YOUTHFUL MONTREAL SLAYER COLLAPSES ON SCAFFOLD

Carried Bodily to Gallows in Hysterical Condition and Supported While Noose Is Adjusted—Pays Penalty for Murdering Fellow Countryman.

[Canadian Press.]

Montreal, May 26.—Francesco Creola, 20 years old, paid the penalty at eight o'clock at the Montreal jail for the murder of Louiseppe Chine. He was the first Italian to be hanged in the province of Quebec.

Creola, or Guiseppe Grenora, his real name, as the hour of death approached, became pitiably hysterical, and at the last had to be carried bodily up the scaffold, and supported while the rope was adjusted and the last of fices of the church carried out. He utterly collapsed at the last.

The hangman was the same man who officiated at the execution of Timothy Candy. One hundred policemen guarded the vicinity of the jail to guard against any unseemly incident, and all passed off smoothly. At eight o'clock exactly the hangman drew the bolt, and Creola's body shot through the trap. His neck was broken, and death was instantaneous.

BORDEN ELECTION STORY IS A CALL FOR FUNDS

Conservative Press Reports of Voting Sent Out For the Purpose of Stirring Up Party—Some "Ifs" Still To Be Taken Into Account.

[Special to The Advertiser.]

Ottawa, May 26.—The story sent to the Conservative press yesterday, emanating from the Opposition leader, to the effect that Parliament will be dissolved on Sir Wilfrid's return from England, and a general election held in September on the reciprocity issue is not based on any facts that would warrant so definite a statement. The political outlook is still practically unchanged from what it was when Sir Wilfrid left for the Imperial Conference a fortnight ago. Parliament will reassemble on July 18, and what will happen then is conditional largely on the American's Senate's action in regard to ratifying the agreement and on the attitude of the Opposition with regard to persisting in their announced determination of refusing supply and refusing to let the will of the majority at Parliament prevail on the reciprocity proposals of the Government.

Depends on U. S. Senate.

Until the senate at Washington has

MOCHA TEMPLE SHRINERS ARE TREKKING OVER THE SANDS

Nobles From Many Places Are Arriving in London for the Ceremonial Session—A Parade of the Arab Patrol.

The Shriners are coming into the city in large numbers today for the ceremonial session being held this afternoon and evening.

Nobles from Chatham, Windsor, Sarnia, Stratford, Brantford, Hamilton, St. Thomas, Toronto, Buffalo, Chicago, and other cities have already arrived, and the evening trains will bring a still larger number.

Thirty-five candidates will be put over the hot sands tonight, and there will be fun to burn.

There will be a parade of the Arab patrol tonight at 7 o'clock. Capt. A. E. Somerville has spent much time in drilling the patrol, and they are in fine fettle. They are one of the best-drilled troupes in the province.

The route of the march will be from the city hall to King street, thence to Talbot, from Talbot to Queen's avenue, and then to Waterloo, and down Waterloo to Dundas, to Wellington, to King, and then to the city hall.

It is expected that five hundred nobles will take part in the parade, headed by the pipers' band.

Noble J. W. Metherall will act as marshal.

The afternoon session was devoted almost entirely to business. The new by-laws were introduced and considered. Much routine business was disposed of.

DRIVER THROWN AGAINST CURB

Thomas Mascari Had Close Call From Serious Injury in a Runaway.

MAD RACE OF A HORSE

Animal Used Its Heels With Great Effect When It Became Frightened at an Engine.

Thomas Mascari, a Clarence street young man, narrowly escaped serious injuries when he was thrown from the delivery wagon of A. Mascari, wholesale fruit merchant, on the cement curb on Dundas street at the corner of Rectory, this morning.

The horse became badly frightened at an engine which was shunting at the G. T. R. crossing on Rectory street, and dashed down the street towards Dundas, in the meantime using its heels with good effect on the dashboard of the wagon.

The driver retained his hold on the reins, but with the animal kicking so furiously and galloping, he could do little to curb its speed.

At Dundas street Mascari undertook to turn west, but the wagon struck a telephone post on the southwest corner and he was thrown with great force on the cement curb of the street. His leg was badly bruised, but he did not sustain any more serious injuries.

After overturning the wagon several times, the front wheel of which had been wrenched off and demolished, the horse leaped over the fire hydrant on the same corner clear onto the sidewalk, where it was brought to a standstill by the wagon catching fast on the hydrant.

Fruit which had not yet been delivered was scattered over the street, and the horse was more or less scratched and bruised.

PRESENCE OF MIND SAVED HER LIFE

Mrs. Saunby, Aged Lady, Hung to Fender When Struck by a Car.

ESCAPED SERIOUS INJURY

Was Taken Into a Local Office and Was Later Able to Leave for Her Home.

Mrs. J. D. Saunby, of this city, was struck by Ottaway avenue car No. 124 at the corner of Park avenue and Dundas street this afternoon, but escaped with a severe shaking up. She was walking down Park avenue on the west side, and did not see a westbound car.

The motorman stopped the car as quickly as possible, but not before the fender threw Mrs. Saunby to one side.

Her presence of mind in seizing the fender was said by witnesses to have saved her life. Mrs. Saunby was carried into the office of the London Loan Company, and later removed to her home.

APPOINT A COMMISSION TO PROBE MORAL CONDITIONS

Meeting Last Night in St. Andrew's Hall Decided to Ask the Mayor to Investigate Statements as to Children of This City.

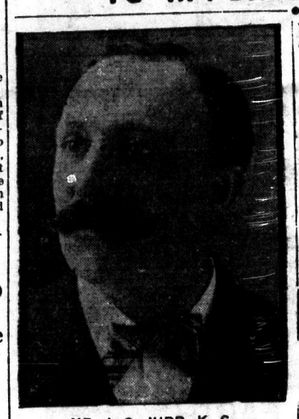

At the second meeting held in St. Andrew's schoolroom in connection with the question of moral conditions among children, those present last night, after further discussion, passed the following resolution:

"Resolved, that we, representing the city council, board of education, Medical Association, Ministerial Alliance, Teachers' Association, Mothers' Clubs, Women's Christian Temperance Union, Women's Council, Children's Aid Society, Charities Organization, Y. M. C. A., the press, together with a number of representative citizens, in all to the number of about one hundred residents of the city of London, having discussed the moral condition of our city, particularly among the young, feel the question is of sufficient gravity to justify us in requesting his worship the mayor to appoint a commission, consisting of men and women who command the respect and confidence of the public at large, to investigate the whole question, to report, and if the conditions warrant, to advise a remedy."

A committee consisting of Rev. Dr. Ross, Principal Waller, Inspector Edwards, and Miss Stella Macklin was appointed to present the resolution to the mayor.

The discussion at the meeting was an interesting one, and occupied some time. Rev. Dr. Ross presided.

MAYOR BEATTIE HAS REFUSED TO APPOINT A COMMISSION

MR. J. C. JUDD, K. C.,
New Police Magistrate of London. Who Takes the Bench on June 1.

TAKES BENCH ON JUNE FIRST

Sir James Whitney Has Announced the Appointment of Mr. J. C. Judd, K. C.

NEW P. M. OF LONDON

Mr. A. H. M. Graydon, the Deputy Police Magistrate, Is Spoken Highly of by Attorney-General Foy.

It has been officially announced that Mr. J. C. Judd, K. C., has been named police magistrate to succeed the lat e P.M. Frank Love. He will commence his duties on June 1.

Sir James Whitney made the announcement in Toronto Thursday afternoon, and the official documents are now on their way to London.

The appointment was made on the understanding that Mr. Judd would give up his private practice.

On June 1, Acting Magistrate A. H. Marshall Graydon will relinquish the position now held by him for five months. During that time, Mr. Graydon has had a large number of cases of importance to decide, and in all he has given the utmost satisfaction.

Hon. J. J. Foy, attorney-general, has expressed his appreciation of the services of Mr. Graydon, and has declared that he has been most satisfactory in the position.

This sentiment prevails in London, the citizens generally being loud in their praise of the efficient services rendered by Mr. Graydon. Chief Williams, the legal fraternity, and others are well satisfied with him. He has won a reputation for fairness and broadmindedness during his occupancy of the bench.

The New Magistrate.

Mr. Judd, the new magistrate, was born in London on Feb. 1, 1864. He was educated in the public schools here, later graduating from the Collegiate Institute and Osgoode Hall. He matriculated in 181, and was articled to Mr. Edmund Meredith, K. C. He served as student with Meredith & Meredith, and when called to the bar in 1886, he entered into partnership with the firm, and has been connected with them ever since.

He has been twenty years in public life. In 1891 he was elected alderman for South London, and was re-elected the following year. Although defeated in 1893 he was elected again in 1894, and was chairman of the finance committee.

From 1895 to 1897 he was a member of the board of water commissioners, serving as chairman in 1896. From 1898 to 1902 he was a member of the library board, being chairman in 1901 and 1902.

In 1903 and 1904 he was an alderman, and chairman of the finance committee.

Was Mayor of London.

The following year, 1905, he ran for the mayoralty, being defeated by Dr. C. T. Campbell by 23 votes. In 1906 he was elected over Mr. S. Stevely, and was returned by acclamation in 1907. From 1908 to the present time he has been a member of the hospital trust, and was chairman last year and this.

In 1900 Mr. Judd ran for the House of Commons for South Middlesex, but was defeated by Mr. Malcolm McGugan, ofC aradoc.

THE WEATHER

Tomorrow—Fine and Warm.

FORECASTS.

Toronto, May 26—8 a.m.

Moderate winds; fine and warm today and on Saturday.

TEMPERATURES.
Past 24 Hours.

Stations.	Max.	Min.	Weather.
Victoria	60	44	Clear
Calgary	44	32	Cloudy
Winnipeg	60	42	Rain
Port Arthur	54	44	Fair
Parry Sound	70	54	Fair
Toronto	70	52	Fair
Ottawa	72	54	Fair
Montreal	70	56	Cloudy
Quebec	72	52	Cloudy
Father Point	58	44	Cloudy

WEATHER NOTES.

The weather is fine and moderately warm from Ontario to the Maritime Provinces, but continues cold and showery in the Western Provinces.

An important disturbance is now centred in the Missouri Valley, which is likely to cause heavy rains in Manitoba.

His Worship Declines To Go Into Mrs. Thornley's Statements.

LET IT DIE OUT, HE SAYS

Legally Mayor Says He Has No Power To Do as Deputation Asked.

"I will not name a commission to hear the charges of immorality brought by Mrs. May R. Thornley. I have no power under the statute to do so, and I furthermore doubt the advisability of such a course, had I such power. We would listen to a lot of filth that would become public, making conditions much worse than they are at the present time. I have no desire to further injure the name of this city."

The above statement was made by Mayor Beattie at noon today to the deputation consisting of Rev. Dr. Ross and Inspector Edwards, who appeared before his worship to present the resolution carried at the meeting in St. Andrew's Hall last night. There was a sharp encounter between Inspector Edwards and Principal Waller during the interview.

Dr. Ross presented the petition to Mayor Beattie. He stated that the meeting had decided to ask his worship to name a commission to go into the charges thoroughly.

What Delegation Expected.

"We are quite aware of the fact that you have no power under statute to appoint a commission," said Dr. Ross. "However, as first citizen of London, we were of the opinion that you could name such a body of men to hear the evidence, and arrive at some conclusions that would be helpful to the morals of the city. It would not be necessary to take evidence under oath."

"I have no power whatever to name a commission," said his worship. "Anything that you suggest would be wide of the mark. What good would a commission be if the men composing it could not hear evidence under oath, and conduct a cross-examination? It would merely be a farce, with no good resulting whatever. I will not name a commission. You can go to the council, if you will, but I will not take upon myself the responsibility of appointing such a body. I do not think it fair, nor just."

Legal Difficulties.

"I do not think the council have anything to do with the matter," continued Dr. Ross. "It is a matter for you to decide. This motion was passed by the meeting last night, and was considered at some length. We are fully aware, as I said before, of the legal difficulties in the way, but a man with your legal training and position could name a body of men who could hear the charges without bias, and come to some definite conclusion. We want to arrive at some method of improving conditions."

Principal Waller made a few suggestions, saying that they wished to evolve some constructive policy that would lead to the protection of the young people, the boys and girls of the community.

Not Hunting Evil.

"We have no desire to hunt evil," said the principal. "Rather do we wish to evolve something of a constructive nature that will better protect our young people in schools, in factories and elsewhere. That is our desire. There are some, quite a number in fact, who do not wish to send their children to the public schools, where they will mingle in mixed crowds, and become contaminated with the evil that is in the world."

"I will not listen to such trash about the public schools," answered Inspector Edwards. "My children attended public school, and I will not have them insulted. Dr. Ross' children went to the public schools. Mayor Beattie's children are going to public schools, and they are none the worse for that. I will not have it said that any children will be contaminated by going to school with them. It's trash."

Was Misunderstood.

"I am sorry that you misunderstood me," said Principal Waller. "I did not mean exactly what the inspector said. We merely want to evolve something constructive to prevent evil, and preventing the children and young people in the city from becoming contaminated with vice."

"Nothing will be gained by discussing the matter," said Dr. Ross. "We did not come to argue but to present our petition."

The legality of the appointment of a commission was again taken up, Mayor Beattie looking up the municipal act.

Continued on Page Eight.

COMMITTED FOR TRIAL ON A ROBBERY CHARGE

Alfred Hale and George Phillips Appeared Before Squire Chittick.

Alfred Hale and George Phillips, both London youths, were committed for trial yesterday on a charge of robbery by Squire Chittick. They are alleged to have stolen a rifle, razor and a number of small articles from Wm. J. Mote, a farmer living in East Nissouri Township.

Mote testified in court that on his returning home after being absent from his farm he had seen the accused boys leaving his barn. Afterwards he discovered that the rifle, razor and other articles were missing, and, setting out in pursuit in the direction of London, he notified Constable Corsant, who effected the arrest of the youths at the home of Joseph Blaney, of the Governor's road, near Crumlin. They were detained on a charge of vagrancy, and yesterday were committed.

COMPLAINTS ARE MADE REGARDING THE SEWAGE

City Will at Once Put the Septic Tanks Into Operation.

The septic tanks will be put in operation at once.

At the meeting of the board of works last night, City Engineer Wright recommended that the tanks be used. He informed the board that the patents held by Cameron & Co., of Chicago, had expired, and the city was at liberty to use the beds.

Mr. Wright pointed out that there had been many complaints of late regarding sewage in the river, and these complaints, he had found on investigation, were well founded.

Certain repairs were necessary to put the tanks in proper conditions, at an estimated cost of perhaps $300.

Mayor Beattie and Ald. Saunders thought it high time the tanks were used. They were built some four years ago at a cost of $14,000, but they had not been used at all, owing to the fact that an American firm claimed to have a patent on them, and demanded a royalty. A number of cities in Ontario combined to fight the claim of the company, and for more than two years there were meetings and conferences regarding them.

The Government took a hand in the matter, and it was proposed to enact legislation to protect the municipalities. However, it was decided to await developments.

The company, seeing that an expensive fight was likely to follow any attempt to collect the royalties, decided not to pay the money necessary to cover the patent, and it expired.

This was in March last. City Engineer Wright has been notified that the patent has been cancelled, and as soon as he was made aware of this fact he recommended to the committee that they be used.

They will be ready for operation within a couple of weeks.

WESTERN DEPRAVITY JARRED HIS NERVES

Salvation Army Editor Says Juvenile Immorality Is Widespread.

Calgary, Alberta, May 26. — "Your western country gives my nerves a jar, when I look over the population and see the startling number of depraved young women in your midst."

This was the praise that Brigadier Graves, of the Salvation Army, editor of the War Cry, used in an interview yesterday. "Young girls below the age of 16 become mothers, and upon investigation I find that it is not thoughtless boys who are responsible, but men who should be punished with the maximum penalty."

The subject mentioned above was not prompted by the reporter, but during the short time that the Salvation Army editor was talking he found it impossible to forget the most startling conditions that he found in the great west.

"It was an awful thing to see the juvenile falling into the pit of disgrace," he continued, "but when you see so much as you see here in the west I cannot help mentioning the facts, even if you do not wish to publish it. Western Canada juvenile girls are falling in greater numbers than those of the east in this respect."

CARE FOR SOLDIERS AT VICTORIA HOSPITAL

Trust Quotes Rates For Government, Which Will Likely Be Accepted.

At the meeting of the hospital trust yesterday afternoon arrangements were practically completed for the care of all the Wolseley Barracks garrison at Victoria Hospital while ill.

A communication was read from Col (Dr.) C. W. Belton, asking the board to name rates for submission to the Government. Dr. Belton was present and explained that the maintenance of a hospital at the barracks was expensive in view of the fact that there was little work. The department were anxious to make arrangements with the hospital for the care of all patients. They were willing to pay any reasonable charge.

After some discussion it was decided to ask the following rates: Privates, $1 50 per day, which included physician, medicines, attendance, board, etc.; non-commissioned officers, semi-private, $1 75 per day, these to furnish own physician; commissioned officers, $2 per day, they to furnish their own physician. In case the operating room is to be used the charge will be $2 for a minor operation and $5 for a major operation.

"I think those fees are reasonable," said Chairman Judd.

No Auxiliary.

A communication was received from the London Electric Company offering to leave their transformers etc., at Victoria Hospital as an auxiliary for the sum of $120 per annum. It was decided, however, that an auxiliary was not needed, and the letter was filed.

Superintendent Heard submitted his report for the month of April, showing that during the month 197 patients were admitted, 74 males, 87 females, and 39 children. During same period, 185 had been discharged, 79 males, 73 females and 33 children. There were 14 births and 13 deaths. The number of patients receiving treatment April 30 was 160. The receipts for the month were $2,375 05.

There was some routine business transacted, but nothing of importance.

Those present were: Mr J. C. Judd, K. C., chairman; George B Harris, T. G. Turnbull, Mayor Beattie and Superintendent Heard.

HAYS DOESN'T KNOW THAT HE'LL RESIGN

Idea That Many Men Would Like to Take His Place Amuses Grand Trunk President.

Port Huron, Mich., May 25.—President Charles M. Hays, of the Grand Trunk Railroad system, was at Sarnia Wednesday afternoon, where he boarded the steamer Hamonic for Fort William. With Mr. Hays was a party of six railroad officials, who made the trip from Montreal and Toronto in a special train. At Sarnia the special car Canada was switched to the wharf of the Northern Navigation Company, where the party boarded the steamer.

When Mr. Hays was questioned about a rumor that he would resign, he smiled and replied:

"Young man, I have heard rumors for a long time that I am to resign and that someone is to take my place. All I can say is that I know nothing about it. I am now on one of my regular trips of inspection over the Grand Trunk and Grand Trunk Pacific properties. However, it does appear as though there are a number of men after my position, doesn't it?"

ENGINEER FENNELL DEAD

For Fifty Years Ran on Many Parts of Grand Trunk System.

Montreal, May 26.—Michael Fennell, the oldest engineer on the Grand Trunk Railway system, passed away last night at his home in Point St. Charles, at the age of 79. He was an engineer before the Grand Trunk was built and for over 50 years was employed by that company.

Mr. Fennell drove engines on twelve sections of the system and never had an accident. He was known as far west as Sarnia, Stratford and Fort Erie and as far east as Island Pond, Rouses Point and Massena Springs.

He had the honor of driving the engine which first brought the late King Edward, then Prince of Wales, into Montreal.

He leaves three daughters, two in Montreal, and one in Winnipeg.

FIRE LIMIT LAWS MUST BE OBEYED

Request To Repair Barn That Was Partially Burned Is Refused.

CLAIMS FOR DAMAGES

Two Were Presented to the Board of Works at Their Meeting Last Evening.

Deputations were the order at the board of works' meeting last night, and as a result the session was long.

Mr. James Priddis was the first, and complained that the cost of putting in a sewer connection for his Richmond street property was excessive. He stated that the city was to blame for the damage done, or at least a large portion of it, and he thought they should pay part of the bill of $48 80.

After some discussion, it was decided to compromise, Mr. Priddis to pay half the cost. He agreed to that proposition.

Mr. E. T. Essery, K. C., appeared before the committee on behalf of Mr. B. F. Brighton, who claimed $251 50 for damages to horses and rigs, owing to the condition of Emery street.

As it is probable that the matter may be compromised, it was referred to Ald. Cooper and City Engineer Wright to settle.

Mr. G. N. Weekes, on behalf of the Boy Scouts, asked permission to take up a collection at a band concert in Victoria Park on May 30, in aid of the Scouts. The request was granted, and the water commissioners will be asked to have the park properly lighted before that time.

The Fire Limits.

Mr. John Sussex appeared before the committee and asked that he be given permission to repair the stable recently burned on King street, in which a number of horses were burned.

He stated that the building had not been destroyed up to half its value and could be repaired for $125. City Architect Nutter refused to grant the permission, giving it as his opinion that the building was more than half destroyed, and that it would be in the interests of the city not to have it restored.

"This is a matter for the building inspector alone," said Mayor Beattie. "We have no right to interfere."

The committee took the same view of the question, and Mr. Sussex was denied permission to repair the building. There were other requests of a similar nature, but they were withdrawn after the decision on Mr. Sussex's case.

Swimming Pools.

City Engineer Wright reported that he would have estimates of the cost of three swimming pools on the River Thames, and suggested that the committee make the selection of suitable places at once. The committee will make the choice early next week.

Tenders for a scarifier and 500 feet of hose for flushing sewers were opened but were laid over.

Mr. Wright will obtain information regarding the date of delivery for the scarifier before a selection is made, while Ald. Mitchell will test the hose submitted, and make a recommendation.

There was much conversation at the session, and it was very late when it adjourned.

Those present were Ald. Cooper, chairman, Ald. Saunders, Ald. Morgan, Ald Mitchell, Mayor Beattie, City Engineer Wright, and Secretary S Baker.

MORSE STILL HOPEFUL

Bank Wrecker Says He Will Continue His Fight for Freedom.

Atlanta, Ga., May 25.—Charles W. Morse learned of President Taft's action on his case this morning when he entered the library at the federal prison to take up his daily work. Morse is an assistant in the library, and the first thing he does every morning is to file the papers that come in the early mail. As MMorse stepped to the table on which the mail was lying his eye fell on the first page of a paper on which under big headlines appeared the story of Mr. Taft's refusal to show clemency. After he had finished reading the story he seemed dejected, but finally went about his duties.

"But I have not lost hope," Morse said to the prison chaplain. "Justice will yet be done me, and the fight for freedom will be continued. Yes, I am disappointed, but I feel more keenly for my wife than I do for myself. It is hard on her after the brave fight she has made for me, to meet with this disappointment. I want to see her and comfort her and tell her that everything will eventually come out all right."

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c, at all dealers or EDMANSON, BATES & Co., Toronto.

A BUSY SATURDAY AT SMALLMAN & INGRAM'S TOMORROW

Thousands of our customers have specific preparations to make for the coming month of June for trips contemplated to the seashore or lakeside, for picnics, outings and games, etc. Other thousands who always come to the full realization of summer's approach in the last days of May, will be hurrying for the necessities for general summer comfort---cooler underwear and outer clothing, straw hats, parasols, and summer furnishings for the home, porch furniture, etc. For tomorrow the last May Saturday this store offers its best in merchandise, service and value. Read the good news that follows, which is only an item here and there---examples of the abundant opportunities for shrewd buyers tomorrow.

Trimmed Millinery of Individuality and Style, $3.50 to $6.00

JUNE DISPLAY IN MILLINERY.

Individuality is a strong feature of Smallman & Ingram Millinery. The correct hat for the particular woman. Nature forms no two faces alike in complexion and features. Equal variety among the hats here. No two exactly alike in the whole superb collection. Hundreds of women may choose their June hats now, each with the glad certainty that the favored style is her own.

More styles than ever in our display of June hats—hats to match or blend with any costume. You'll enjoy the sight, and best of all, will you appreciate the great, helpful exposition of value-giving service in hats at these moderate prices....**$3.50** to **$6.00**

Main Floor.

CLOTHING THE MEN WANT FOR HOLIDAYS AND OUT OF DOORS

When a man goes forth to "smile at the sun," he wants to feel like smiling. There is no summer smile in "blanket" clothing; no holiday feeling in clothing that you have been living in through business hours. Your summer vacation, too, will be made more enjoyable by possessing a special suit for the occasion. The Smallman & Ingram Clothing Store for Men offers many suggestions, all of which are properly incidental to a clothing store that puts a man in proper tailored appearance for every sort of work or play that belongs to manhood. It will outfit him for the extended vacation trip with the same readiness that it will array him for his wedding or any social function, and his tennis suit will have the same superiority as the cool worsted suit that he buys from us for his business wear.

Tomorrow for Two-Piece Outing Suits $10.00

They're here in numbers, quality Suits for Saturday, selling at above popular price. Warm weather has come upon us early, and the man who makes early selection this season will be one of the wise. It is a summer for two-piece Suits. Buy now and you will have three long months to wear it—June, July and August. You'll get the biggest ten dollars 'worth out of one of these two-piece Suits by the end of August that you ever got out of ten dollars' worth of clothing. Two-piece Suits of fine soft flannel effect tweeds, gray with green thread, and fawn with light brown thread stripe, three-button, single-breasted, medium long lapel, with or without cuff on trousers. Sizes 34 to 44. Price, suit.....**$10.00**

Two-Piece Suits, in tropical tweed and worsted, neat patterns in checks and stripes, in gray and brown mixtures, single-breasted styles, half lined; sizes 34 to 44. Price, **$12** suit.

Made in New York, $15.00

Designed and built by the best maker of high-grade clothing in New York city; two-piece American models; cool, clean-wearing, fine wool homespun, in gray and fawn; two and three button styles, soft long lapels; 34 to 44 inch sizes **$15**

Extra quality stout men's models, sizes 40 to 46. Price, a suit **$18**

LUSTRE COATS in black and gray, also fine stripe lustre; sizes 34 to 44, in three qualities. Prices, each **$1.50, $2.25, $2.75**

MEN'S STRIPED CAMBRIC COATS, sizes 36 to 44. Prices, each....**95¢** to **$1.15**

Men's Straw and Panama Hats Galore

A new Straw Hat looks better in June than it does in September. Even if it costs a trifle more now, it's not a wise policy to wear the last year's straw for the best part of the season and buy the new when the season's is practically done. They are out of date quickly enough in this age, and you cannot afford to begin the season with last year's shape if you are at all particular about being correctly dressed.

Men's Sailor and Snap Brim shapes, in great variety, at each.....**$1.00** and **$1.50**

Boys' Straw Sailors and Snap Brim styles, each .....**50¢, 75¢**

Men's Genuine Panama Hats, all sizes **$5.00, $7.50, $10**

25 DOZEN MEN'S BALBRIGGAN UNDERWEAR, 69¢ SUIT SATURDAY.

Shirts and Drawers natural shade, well made and neatly trimmed, Canadian made. Sizes 32 to 44, at a Suit .....**69¢**
Or singly .....**35¢**

PEN-ANGLE SILK HALF HOSE, 50¢ PAIR.

Beautiful fine silk, with cotton heel and toe and elastic rib top, in black and dark tan, all sizes. Special, pair .....**50¢**

"Vudor" Porch Shades, all Widths

PUBLIC AUCTION OF BLACKFOOT INDIAN LANDS.

There will be offered for sale by public auction, subject to an upset price, at Gleichen, on the Canadian Pacific Railway, in the Province of Alberta, on Wednesday, the 14th day of June, 1911, at 10 o'clock a.m., 118,642 acres of the Blackfoot Indian Reserve, which is situate about 40 miles east of Calgary, on the main line of the Canadian Pacific Railway. The railway stations of Namaka, Stobart, Gleichen, Cluny, Crowfoot and Bassano are opposite to or within a short distance of the Indian Reserve, and about eight or nine miles north of the northern limit of the lands to be sold.

These lands consist of about three-quarters of Tp. 20, R. 19, the S. ½ of Tp. 20, R. 20, the S. ½ of Tp. 20, R. 21; Tp. 20, and part of Tp. 21, R. 22; Tp. 20 and part of Tp. 21, R. 23; Tps. 20, 21 and part of 22, R. 24, all west of the 4th Meridian.

The lands will be offered for sale in quarter sections, cash or one-tenth cash, and the balance in nine equal annual installments, with interest at five per cent on the unpaid purchase money.

Upon a parcel of land being knocked down, the purchaser shall immediately deposit the sum of one hundred dollars with the clerk of sale, otherwise the parcel will at once be put again. For this purpose intending purchasers should provide themselves with marked checks on chartered banks of Canada, made to their own order, and payable at par at the point of sale; or with bank notes of as large a denomination as possible. The balance of the cash installments must in every case be paid before the close of the sale, failing which the deposit of one hundred dollars will be forfeited and the land withdrawn from sale.

Coal and mining rights in connection therewith on the lands above described are reserved from sale.

Descriptive lists of the lands, giving upset prices and plans, may be obtained upon application to J. A. Markle, inspector of Indian Agencies, Red Deer; J. H. Gooderham, Indian Agent, Gleichen, or the Dominion Lands Agents, Calgary, Lethbridge or Medicine Hat, or to the undersigned.

The unauthorized insertion of this advertisement will not be paid for.

J. D. McLEAN,
Assistant Deputy and Secretary.
Department of Indian Affairs,
Ottawa, April 18, 1911. 78n-v

TENDERS FOR GEORGIAN BAY ISLANDS.

Sealed tenders, addressed to the undersigned, and marked on the envelope "Tender for Islands," will be received until Wednesday, the 31st day of May, 1911, at noon, for the purchase of the following islands in the Georgian Bay:

Island.	Township.
66	Tay
92	Baxter
93	"
95, Lot A, B, C, D	"
96, or Quarry Lot A, B, C, D, E, F	"
125 Roberts Lot C, D, E, F, G, J, K, L, M, O, P, Q	"
138	"
139	"
144 Lot B, Deer C, D	"
155	Gibson
156	"
191	"
212 North Wooded Pine	Freeman
236	"
341	"
146 Little Beausoleil, Lot B, C, D, E, F, H	Baxter
59, Lot A, B, C, D	Gibson
61	"
75, Lot A, Bone B, C, D, E, H, J, K, N, O, P	"
78	"
Kindersley	"
95	"
104	"
139, Lot D, E, F, H, I	"
389 Bowes	Freeman
397	"
412	Freeman & Conger
414 Birch	Conger
421	"
461	"
466	"

Tenderers should state the amount they are willing to pay in cash for each island or subdivision of island, and an accepted check for ten per cent of the amount tendered should accompany each tender, which the successful tenderer, in the event of failure to complete the purchase within one month from the date of the award, shall forfeit to the department.

The highest or any tender will not necessarily be accepted, and the unauthorized insertion of this advertisement in any newspaper will not be paid for.

J. D. McLEAN,
Assistant Deputy and Secretary.
Department of Indian Affairs,
Ottawa, April 18, 1911. 78n-v

WANTED — AGRICULTURAL LOAN Company's shares. John Wright, stockbroker, 437 Richmond street, London, Ont. Phone 693.

HUSBAND AND WIVES PLAN HAPPY HOME

The First Lost for Forty Years Turns Up After Husband Had Remarried.

[Canadian Press.]

Pittsburg, Kansas, May 26.—Peter C. Sharp and his two wives, Ann Catharine and Louise, settled in the Sharp cottage today and told of their plans to live together as a happy family. Ann Catharine, the first Mrs. Sharp, returned to her husband yesterday after 40 years' separation, during which each had searched the country for the other.

Mr. Sharp lost his wife in the confusion of the Chicago fire in 1871. Through the pension rolls of the war department she found him recently and came here from her home in Oakland, California. Nine years ago Sharp gave up Ann as dead and married again.

"If I thought that my coming would displace Louise, I would go back to my nursing the sick in Oakland," said Ann, as the three sat together in the garden today. "She has been a good wife, and married my husband in good faith. This is her home, and I shall bring her no sorrow."

Louise held Mrs. Sharp's wrinkled hand in hers. She is 50 years old

NO JUDGE ON HAND

All Was Ready For Trials at Woodstock, But There Was No One To Preside.

Woodstock, May 26.—Members of the bar, witnesses, jurors and litigants are up in arms because of their treatment. Division court ought to have been held, and many important cases were to come up. County Judge Finkle is in Toronto, but before going he is said to have left word with the clerk of the court, Mr. Francis, that he had arranged with either Judge Macbeth or Judge Elliott of London to take his place. Ass assembled in the court at 10 o'clock yesterday morning but no judge appeared. After waiting two hours and endeavoring to get into touch with one of the judges the lawyers determined to dismiss the witnesses until today, when it is expected Judge Finkle will be home. The lawyers consider this treatment discourteous, and developments are expected today.

REAL ESTATE FOR SALE

DWELLING FOR SALE — $100 CASH, balance monthly payments. Sydney Smythe, insurance agent, 404 Talbot street. 2c

HOUSE FOR SALE, NO. 110 ELMWOOD avenue, South London. For particulars phone 1663. J. Kilgour 70tf

PROVINCIAL POLICE HAVE BEEN KEPT BUSY

Over Eight Hundred Charges Involving Fines Totalling $13,269.

Toronto, May 26.—Statistics have been issued from headquarters of the provincial police showing the number of cases handled for the six months from Nov. 1 to April 30, half the fiscal year. During that time 847 charges were dealt with, an increase of about 100 over the previous six months. The total amount collected in fines was $13,269. On the 847 charges 592 convictions were secured, 376 fines were imposed, 133 people were sentenced, 83 were allowed to go on suspended sentence, and at the end of last month 130 cases were pending for trial at the assizes now in progress in different parts of the province.

Under the liquor license act there were 167 prosecutions, with 132 fines and three sentences. The total amount of the fines imposed under the act was $9,110. The amount of liquor seized was 5,643 bottles of whiskey, 163 gallons of whiskey, four barrels of whiskey, 224 bottles of wine, eight barrels of wine, 165 gallons of high wine, 36 bottles of gin, two gallons of gin, 306 cases of beer, 47 kegs of beer, two cases of cider.

For infringement of the fish and game laws 61 people were prosecuted and 47 fined $1,740.

PEACE ANNIVERSARY WAS MR. KING'S IDEA

Labor Minister Credited With Originating Celebration Proposal.

Mohonk Lake, N. Y., May 26.—Andrew B. Humphrey, secretary of the national committee on celebrating the hundredth anniversary of the signing of the peace treaty of Ghent, gives the credit for originating the idea to Hon. Wm. Lyon Mackenzie King, the Canadian minister of labor. Mr. King first suggested the celebration at the Harvard commencement in 1909, and after Andrew Carnegie had set the seal of approval on the suggestion Mr. King started agitation in its favor at the Mohawk conference of 1910. Civic, religiou and business interests have joined in preparation for the event. Ex-President Roosevelt is honorary chairman; Former Vice-Presidents Morton, Fairbanks and Stevenson, vice-chairmen, and Andrew Carnegie, national chairman.

Among the arts proposed by the committee are the erection of a statue at Ghent and the building of a free toll bridge across the international boundary at Niagara Falls. A conference will be held in New York next winter to arrange for a world peace congrss in 1914.

TWO IN SENATE FOR ROOT AMENDMENT

Friends of Administration Fear Defeat for Reciprocity Bill.

Washington, May 26.—It was learned yesterday that friends of the Administration are alarmed over the outlook for the Canadian reciprocity bill. Noses have been counted in the senate and it has been found that the Administration at present lacks two votes of being able to defeat the amendment proposed by Senator Root, which, if adopted, will have the effect of preventing a free entry of wood pulp and print paper until all restrictions affecting these products have been removed by the Canadian provinces.

While President Taft does not object to the subject matter of the Root amendment, he and his advisors fear that it will be only the opening wedge for a series of changes in the bill which will be the death knell of Canadian reciprocity. It is known that President Taft is preparing to make unusual efforts to prevent the amending of the bill. The fact that Mr. Taft is being opposed on this proposition by Senator Root, who has always been known as a strong Administration supporter, has caused considerable comment in Washington.

A BIG GATE.

Vancouver, B. C., May 25. — Before 15,000 people, the largest crowd that has ever attended a league lacrosse game in Vancouver, the champions beat Vancouver by one goal to nothing in one of the keenest games played on the coast.

LONDON, FRIDAY, MAY 26.

SIR JOSEPH WARD'S PLAN REJECTED.

The announcement that the proposal of New Zealand's premier for an Imperial Council of State has been rejected without finding any support in the Imperial Conference is no surprise. As has been already explained in these columns, New Zealand has some reasons of her own which do not apply to other British dominions for desiring a cast-iron federation with the mother country in foreign and naval policy. South Africa and Canada do not fear invasion. Australia does not feel comfortable about the Japanese alliance, and makes provision for her own safety, but New Zealand neither enjoys sense of security nor cares to merge herself in Australia. The Pacific Ocean means to New Zealand not only peace but possibly a scene of war.

Before leaving home for the Imperial Conference Sir Joseph Ward assured the people of New Zealand that he would move for an Imperial Council of State, looking towards the political unification of the empire. This council would be advisory in theory only to questions affecting the interests of his majesty's dominions oversea. It should consist of a proportional representation from the mother country and each of her autonomous dependencies. As this journal pointed out two or three months ago when Premier Ward's speech was published, to take such a step would create a formal and expensive responsibility on the part of the autonomous dominions for the British foreign policy, especially of defence. They would nevertheless have no real determining voice, the United Kingdom having necessarily the preponderance in the proposed council, and it would be an impertinence on the part of the colonies to ask for any voice in the disposition of Indian or Egyptian affairs for example.

It is plain that the British Government itself has not interfered at all in this matter. Probably it is not very eager to complicate its already difficult machinery, or to add to the problems of its world-wide policies, by associating the colonial governments too directly all at once in the work of foreign administration. There would beyond any question be more or less friction in the organization which Sir Joseph Ward proposed, between the preponderant partner and the others. Ill will rather than good will might be the result. Certainly the British Government, which does not invite the colonies into such a scheme, much less goes out of its way to compel them to come in. It has announced simply that it intends henceforth to take the colonial premiers into its confidence, keeping them informed as to the steps and proposes of its foreign policy, to a degree not enjoyed by the British Parliament itself.

This seems quite a sufficient development at the present time of a pan-British union. It is in the right direction, aiming at increased mutual knowledge and sympathy rather than at further political machinery. The line of safety at present lies not in forging new ties but in strengthening the old, not in stimulating a forced and artificial unification by means of paper constitutions, but in natural and easy growth as an organism towards spiritual harmony. As Sir Wilfrid Laurier says, there are no grievances in sight, and the British way is to deal with them when they arise.

THE PAPER TRUST'S ATTACK.

A new element of uncertainty has entered into the reciprocity question. Senator Root, of New York State, has offered an amendment in the interest of the American paper trust which may possibly pass by a bare majority.

Under the agreement negotiated, Canada will not put pulp and paper on the free list until the United States removes the duty on these articles, no matter what part of Canada they come from. When the United States does that, Canada will admit free, pulp, and paper up to 4 cents a pound. The American Government, however, takes power under the reciprocity agrement to admit free of duty, pulp and paper made from pulpwood of other than provincial crown lands, and therefore not subject to the embargo, while the Canadian Government will continue to levy duties on all American pulp and paper. This the American paper trust stigmatizes as an unfair arrangement. Mr. Root has taken up the cudgels in its behalf, and seeks to amend the agreement by the insertion of a clause which will guarantee that no Canadian pulp or paper shall be admitted free to the United States until the same articles are allowed to pass free from the United States into Canada.

There is some surprise in the course taken by Mr. Root, as he has all along been supposed to be closely associated with President Taft in a moderately progressive policy. But before entering public life Senator Root was one of the most conspicuous corporation lawyers in the United States, and while doubtless he does not hold a brief for the paper trust, his mind pursues an old familiar bent. The dyer's hand is subdued to that it works in. As for the Senate, as a whole, the tendencies of that body are such as to make it a matter for great surprise if a large number of the members do not follow Mr. Root with a rush. To many of them the work of ratifying a reciprocity pact, even one that does not touch the corporation interests to any extent, must be extremely distasteful.

Canadian interests will be little affected whatever the Senate may do with the amendment. It is, in fact, not the agreement itself that will be touched by it, but rather the corollary with which presidential action intended to follow up the agreement. But American newspapers and other large users of paper, mulcted as they have been by the highly protected and piratical American paper trust, object very strenuously to the amendment; its success would tend to weaken their interest in the passing of the agreement, and so break down its support in some degree.

AFTER MANY DAYS.

The editor of the St. Marys Argus publishes a humorous paragraph which he noticed recently in the New York Sun, and which he himself had written nineteen years ago for the Stratford Beacon. So, he says, his little joke has been ranging the newspaper offices until it has almost attained its majority. And yet the critics tell us that humor is the most ephemeral thing next to fashion. The Argus man's sally was as follows:

"He told his 12-year-old son to milk the cows, feed the horses, slop the pigs, hunt up the eggs, feed the calves, catch the colt, and put him in the stable, cut some wood, split the kindling, stir the milk, pump fresh water about it after supper, and be sure to study his lesson before he went to bed. Then he went to the farmers' institute to discuss the question, 'How to Keep the Boys on the Farm.'"

The editor of the Argus exclaims jocularly, "Why, this is fame!" But it will not be fame until the author can make the public know and remember that he did it. The last infirmity of noble minds is the desire to hear one's name spoken by the vox populi, which to the modern democrat and journalist is said to be the vox dei. But who shall know the editor's name, no matter how far his little effusion may travel? Not even his newspaper gets credit; for the paragraph referred to, printed in the Sun, was there cited as from "The Spring Hill New Era," and not from the Stratford Beacon. The reader of the joke column cares as little to know who started the good thing as to ask who grew the coffee beans that were ground for his breakfast cup, or what adventures his last ten-cent piece has come through in its term of existence.

The pleasant thing about journalism is, of course, that nobody works for fame, but each one draws the thing as he sees it, with a quick slab of a brush, for the people as they are. And, after all, who is the original author of anything that he should be bragged of? Who was the father of Confederation? Who wrote Homer? Who invented the "curve" in baseball? Big and little questions alike are hard to answer.

Far better than fame is a justifiable self-satisfaction. What is the difference whether your good strokes are known, if only you hear them reverberating, like the shots fired by the embattled farmers, around the world? To read your history in a nation's eyes is possible, though you be obscured. Even the little unremembered acts of kindness and of love go rolling through the general life, and many a bright saying takes wing perhaps into the receptive brain of a great author, who makes it his and stamps it with his name.

There is no end to a glad word. It is an eternal butterfly, and sometimes it is a man's good fortune to watch its course, knowing that he sent it forth. The editor of the Argus had lost sight of his for many a day, but has again the satisfaction of knowing it is still on the wing.

If the United States Senate chooses to deprive the American newspapers of cheaper paper, this country can stand it.

The premiers of Australia, Newfoundland and South Africa stand with Laurier against the creation of an Imperial Council of State. Surely they're not all disloyal!

Sir Wilfrid's habit of classical quotation and reference counts for less in Canada than in Great Britain, where the classical tradition is still powerful in public life. His scholarship is one of the reasons for his pre-eminence among overseas statesmen in the eyes of the British people.

The Canadian wheat surplus would overflow the British market a few years hence, even with a colonial preference, unless another outlet were found in the meantime. Those who say the United States market is not needed are not looking further ahead than the ends of their noses.

Sir James Whitney sails for England next week. The last time he was there he announced that Canada was about to secede from the Empire. If he has no gladder or more truthful message he ought to hold his peace. Sir Wilfrid Laurier is Canada's only accredited spokesman in the mother country just now.

The King has intimated that he cannot receive addresses from all parts of the Empire through delegations and that they must be transmitted through the governors of the respective countries. This will deprive many patriots of an opportunity of getting within speaking distance of the Sovereign, but of course he will read the addresses carefully at his leisure. There will be only a few cords of them.

The Toronto News complains that any Canadian who wins laurels abroad is immediately set down as an "American" by the people of the United States. It blames Sir Wilfrid Laurier and Mr. Fielding for encouraging this tendency, by allowing the Americans to appropriate our natural resources, including our wheat and barley. The News was more than usually hard up for an excuse to have a fling at the Government when that paragraph was penned.

WHEN DICKENS VISITED AMERICA.

[Syracuse Post-Standard.]

Seventy years ago telephones, musical comedies, best sellers and ennui were alike unknown. It is doubtful whether Americans who were living then appreciated their advantages. They had far less comfort, far less luxury and, indeed, far less health and good government; but they had enthusiasms of which, one is tempted to think, this present age is quite incapable.

Think, for instance, of the reception which Charles Dickens got when he came to Boston. He had to furnish his autograph to 150 or 200 relic hunters every day. The ladies of Boston crowded into the studio of a portrait painter who was making a picture of "Boz," so that he was forced to flee, and actually ran to the Tremont House, shaking them from his coat tails as he went.

The late Thomas Wentworth Higginson wrote an article appropriate to the coming Dickens centenary, and the Outlook prints it. Col. Higginson says that Boston audiences were said to be cold, "although when we remember how Boston people stood in line all through the coldest winter nights to obtain tickets to Dickens readings, we can be sure tha there was no lack of enthusiasm.

ALTERNATION.

[Puck.]

Farmer Slow—Do you alternate your crops?

Farmer Timothy—Yep. Have 'em killed by one thing one year and another the next.

A BOON TO BRITONS.

[London Daily News.]

When Mr. Lloyd George's bill is law these blots upon our society will be removed. It will be neither necessary nor possible for a mother to drivel to endanger her health and that of her child under the pressure of economic need; and it will no longer be possible for a workman to be denied the medical and surgical skill of which he stands in need. For the first time in the history of these islands, medicine, surgery, the whole divine art of healing and alleviation which has hitherto been the servant of wealth will become the servant of society. And Mr. Lloyd George has conceived the transformation with a large mind. Not merely the occasional bottle of medicine or the casual visit of a doctor will be put at the disposal of every citizen, but sanatoria and all the costly apparatus of science which are now the prerogative of wealth.

ON ICE.

[Catholic Standard and Times.]

"Yes," said Alkali Ike, "a couple of cowpunchers indulged in a very pretty scientific scrap down at Bad Buck's yesterday."

"It's wonderful how cool those fellows keep under the circumstances," remarked the eastern tourist.

"Yaas, they certainly have to keep cool, stranger. I believe, for some reason or other, their funerals ain't to be for a couple o' days yet."

THE SCIENTIFIC AGE.

[Dellnestor.]

When I was married to my wife
I shared her sweet domestic labors;
We led a simple country life,
And were contented with our neighbors.

In all the jobs a housewife finds
I always was adept and certain;
I fixed the catches on the blinds
And quelled the savage window curtain

To fit a stovepipe in the wall,
To make a shelf or mend a table—
These really were not tasks at all
To one mechanically able.

But when we moved to town, alas!
I found my talents much diminished,
A city man must join a class
In engineering ere he's finished.

I fear the incandescent light,
I cannot mend the radiator;
It never seems to be quite right,
Our chemical refrigerator!

I cannot understand the phone,
The vacuum cleaner has me guessing,
The fireless cooker makes me groan
The electric iron is distressing.

I once was handy with my tools,
But now I fuss about and blunder;
Too late to learn these modern rules,
I simply pay the bills—and wonder.

WILLING TO DO HER BEST.

[Chicago Record-Herald.]

"Please don't come too near me," she said. "I've been eating green onions."

"I'm very sorry," he replied, sitting in a chair across the room from her.

"Of course," she added, "I could get you one if you cared for it."

HIS MOTHER.

[The Century.]

Somewhere tonight you life awake,
Bearing your bitterness alone;
I cannot shield your heart must take
Its turn to bleed and cower and moan.

When straight you pressed to your desire,
And all men spoke your praise, I smiled,
Now, naked, smitten, in the mire,
My arms reach out for you, my child.

Could I but sing you now to sleep,
How strong tomorrow from my breast
To fight and conquer you would leap!
Lord, I keep vigil; send him rest!

HOW IT HAPPENED.

[Birmingham Age-Herald.]

"Ranterby Roarer has appeared 999 times in the same play."

"How do you account for such an unprecedented run?"

"He dies in the first act."

CLEAN ENOUGH.

[M. A. P.]

Mistress—Mary, another knife, please; this one is not clean.

Mary—Not clean, mum? I'm sure it ought to be. The last thing it cut was soap.

AIRSHIP VS. AUTO.

[Brooklyn Standard.]

As a speed machine the aeroplane is slowly crawling up on the automobile, the swiftest of all self-propelled devices. Henry Weymann, an American aviator, in France the other day sent his flyer along at the rate of 100 miles per hour. The best time a motor car has made for a short distance on a straight track is at the rate of 140 miles an hour. In another decade the aeroplane will probably have nosed out the automobile in establishing speed records.

LONDON'S GOOD WORK.

[Galt Reformer.]

London has a tuberculosis hospital that is doing good work in combating the ravages of the white plague. With hospitals of a similar purpose distributed over the country, the terrors of so fell a disease as consumption should speedily disappear.

Don't Persecute your Bowels

Cut out cathartics and purgatives. They are brutal—harsh—unnecessary. Try CARTER'S LITTLE LIVER PILLS

Purely vegetable. Act gently on the liver, eliminate bile, and soothe the delicate membrane of the bowel. Cure Constipation, Biliousness, Sick Headache and Indigestion as millions know.

Small Pill, Small Dose, Small Price

THE BATTLE OF CHATEAUGUAY

[Chicago Record-Herald.]

It has been decided finally that a scene portraying the battle of Chateauguay is to be part of the Canadian pageant in the festival of the empire which is to be one of the features of the coronation. There was thought at one time of cutting it out, from fear that it might wound the feelings of sensitive Americans, because the engagement was one in which the Americans, or, rather, the general who commanded them, cut an inglorious figure, while the Canadians and their general acquitted themselves most creditably.

Few Americans ever have heard of the battle. It was one of the minor events of the war of 1812, ignored in the school histories. Gen. Wade Hampton, the grandfather of the Wade Hampton who was confederate general and United States senator, marched into Canada with 4,000 men. His objective point was Montreal. He had not gone far before he met a strongly intrenched force of 1,000 Canadian militia commanded by Gen. De Salaberry, who was a member of an old French-Canadian family. He was a resourceful, cool-headed soldier, which Hampton was not. After a little fighting, in which about fifteen Americans and five Canadians were killed, Gen. Hampton got frightened, overestimated the numbers of the enemy, and abandoned his forward movement.

The Canadian exaggerate when they say that the skirmish on Chateauguay River saved Canada to the empire. They have a right to be proud of it, however, because it was so exclusively their own affair—no British regulars there to share the glory—that it has a rightful place in the Canadian pageant. No American would ask to have it left out.

Indeed, the Americans who view it in addition to laughing at the quaint uniforms of the period may draw some useful lessons from it. It may teach them that inferiority in numbers can be more than counterbalanced by superiority in generalship. The fact that Hampton was 24 years older than De Salaberry had much to do with his failure. It is because age is so often a fatal handicap in war that it has become the policy of the Government to push ahead the more capable army and navy officers, so that armies and fleets may be commanded by men who combine experience and the full vigor of manhood.

SUMMER CLOTHES FOR POLICEMEN

Inspection of the Force Made by Chief Williams.

This morning the new summer clothes were issued to the police constables of the city, and this afternoon an inspection of the force was made by Chief Williams to see that all was satisfactory.

To the men, who up to the present time have been wearing the very heavy winter garments, the change to lighter clothing is most welcome.

"It was like being in an oven to wear those heavy tunics on those hot days last week," said one man to The Advertiser this afternoon. "I never felt the heat so much in my life as I did from Friday until Tuesday."

Constipation is the root of many forms of sickness and of an endless amount of human misery.

Dr. Morse's Indian Root Pills,

thoroughly tested by over fifty years of use, have been proved a safe and certain cure for constipation and all kindred troubles. Try them.

25c. a box.

Saturday Specials — J. H. Chapman & Co — Saturday Specials

Week-End Events

Queen Quality Hosiery

WE DO ALL KINDS OF RE-UPHOLSTERING.

HOOSIER KITCHEN CABINETS

NO BRICKS FOR CHICAGO

Strike Ties Up Building Operations Involving 47,000 Workmen.

Chicago, May 26.—Three hundred building contractors, who have working agreements signed with 47,000 workmen, are idle because of the brickmakers' strike, in which only 2,500 men are directly involved.

Brick shipped here cannot be utilized, because the teamsters are in sympathy with the brickmakers, and refuse to haul it. Work represented by more than $40,000,000 worth of building contracts can not be started in an effective way because the contractors are unable to get brick.

TOO MUCH ALCOHOL.

Toronto, May 26.—Because he sold some wine which had over 19 per cent alcohol in it, W. Coomlon, a grocer on St. Claire avenue, was fined $100 and costs today.

G. T. R. Strikers Are To Be Paid

St. Thomas, May 26.—Mr. T. G. Thompson, local delegate to the B. of R. T. convention in Harrisburg, Pa., returned yesterday, and reports that on his initiative a resolution was passed by the convention making provision to pay all of the men who lost their positions in the Grand Trunk strike $40 per month until they return to their old positions or secure new ones.

Seal Handbags at the Border

Windsor, Ont., May 26.—Local customs officials were notified yesterday of the passage of a new order by the United States treasury department by which all travellers from one American point to another riding on American railroads and passing through Canadian territory, must have their small hand baggage sealed until the train again reaches United States soil. The arrangement previously has been to affix a small sticker on the small baggage, but this is now done away with, and the locks of all baggage will be closed by having a stamp placed across the locks.

Many complaints are already heard from travellers, who are compelled to do without the contents of their bags from the time Niagara Falls, N. Y., is left until the train pulls into Detroit. Railroad officials say an attempt will be made to have the obnoxious order rescinded.

When buying your coffee don't merely say "A pound of best Coffee"—Specify

Seal Brand Coffee

It costs no more than inferior grades and our reputation is behind it.

WIFE OF THE NEXT PRESIDENT OF MEXICO

Senora De La Barra, Who Will Become "First Lady" of Mexico When Her Husband Takes Diaz's Place.

THE CABLEMAN

BY WEATHERBY CHESNEY.

"Now do you see my plan? I knew that you were busy here, and that you did not want to be interrupted. The widow's intention was to interrupt you, and mine, therefore, was to delay her, by all and any means, justifiable and unjustifiable. That was why she was riding a donkey which had been privately guaranteed to me as certain to go lame at the first or second bit of stiff climbing we came to. I thought that the widow would thereby be compelled to do one of two things—either to abandon the expedition altogether, which was not what I thought she would do; or to waste a considerable part of the morning by walking back to Ribera Grande and hiring a carriage after all. There was a third possibility—that she might suggest continuing the journey on my donkey, and leaving me to lead the lame one back home; but to that I was ready with the unanswerable objection that she did not know the way.

"It was a pretty situation, and I was curious to see how she would meet it. Of course, she met it in the one way which I had not anticipated.

"She laughed as though it did not matter, sat down by the roadside, and said that we would rest for an hour and admire the scenery, and perhaps by that time her steed would have recovered enough to proceed. Now, I knew quite well that he wouldn't, and I thought she knew it too, but delay was what I had been playing for all along, so I fell in with her suggestion without comment. We conversed lightly, perhaps even at times brilliantly, for about twenty minutes, and then, just when I was in the midst of working out a pretty fancy in metaphors for her delectation, and thought that she was hnoring me with her most alert attention, with the purpose of capping my effort if she could, she electrified me by putting a question which had nothing at all to do with what I was saying:

"'Is the pie yours so far, Mr. Montague?'

"My Pegasus of poetic fancy was dashed to the ground, and there was not so much as a flutter left in his wings; I did not even finish my phrase, but looked at her instead. Her manner had changed, and she was regarding me with a mocking smile.

"'Is the pie yours?' she repeated. 'Does our Mr. Montague consider that his is working his commission of delay with surprising ease and success? Or did he despise his antagonist so much that he anticipated that success would be easy? Do you really think I am a fool?'

"She had taken the matter into her own hands. I realized that further pretense was useless. Since apparently she knew my cards, I showed my hand.

"'I think,' I said, 'that you will be somewhat late for the picnic at Las Furnas.'

"'Possibly,' she retorted, 'I shall not want to go. If you will look behind you, you will see a man approaching us. By the pace at which he is coming, it would appear that he is riding a better donkey than either of these which you hired for us. Whether I go to the picnic or no, will depend a good deal upon him, I fancy.'

"'You are going to make him an offer for the hire of his donkey for the day?' I said. But I knew well enough that the remark was foolish.

"She glanced at me through half-closed lids.

"'His name is Andrew Gillies,' she said. 'Do you know him?'

"Then, as though to complete my humiliation, she told me exactly what she had done, and what she meant to do. She did not even pay me the compliment of regarding me as an antagonist from whom it would be advisable to conceal information. I had thought that my fanciful eloquence had impressed her. I see now that she had been laughing at me all the time, and I think she regarded me as a somewhat foolish windbag. You will understand that I found that sufficiently galling.

"It seems that a few minutes after Mr. Scarborough and the two ladies left the Chinolas, Mrs. Carrington, who had been awakened by the crunching of their footsteps on the gravel, got up and looked out from her window. She saw a man in the garden, and he saw her at the window. He took a note from his pocket, held it up for her to see, and then laid it on a garden seat in full view from where she was standing. Then he went away. The man was Andrew Gillies, and she told me that he had in all probability been waiting in the garden in concealment for a long time, hoping for a chance of delivering the letter. You three, by your early start, gave him the opportunity sooner than he had hoped.

"Without waiting to dress, she threw on an ulster and went for the letter.

"'It suggested an interview, Mr. Montague,' she told me sweetly, 'and the place which was mentioned was this road on which we are now. You timed that good animal's attack of lameness very well. If we had gone a quarter of a mile farther I should have had to invent some excuse for stopping. As it is, you have given me the opportunity unsought. Do you still claim the ownership of the pie?'

"'No,' I said, with a grudging admiration at the way in which she had played with me. 'It's yours. What are you going to put into it?'

"'That depends,' she said. 'Though we agree that the pie is not yours, I can't claim that it is all mine either. Andrew Gillies will have a finger in it, too, and I shall wait to see what his contribution is before I offer mine. You understand the situation, I think. He probably found that fact out very soon, and that is why he waited so patiently outside my window this morning. Now, why shouldn't he and I pool our resources—he supplies the pie, and I the additional information which makes the plan of value.'

"'Because you haven't got it to supply,' I said at once, and I really thought she hadn't.

"She smiled. "Didn't Mr. Scarborough tell you,' she said, 'that I was behind the door for some time last night? I know about the scratched stone.'

"'But you don't know what the words on it mean,' I cried. 'No one does.'

"'No; but Andrew Gillies may be able to guess. He knows more than we do, you remember, about what my husband's movements were on the last day of his life. We will see how the point strikes him. You would like to be present at our interview, no doubt; and I owe you some return for the pleasant morning you have given me.'

"She laughed, and I take it that you will believe me when I say that I was feeling pretty riled.

"'I am of the other party,' I reminded her sulkily.

"She laughed again, and said that she didn't consider the fact of any importance. I think I never felt quite so futile as I did when that woman laughed at me. And yet, you know, I admired her for it.

"The man on the donkey didn't come up to us very fast. He seemed to be hesitating because she wasn't alone; and when she saw that she called out to him not to be afraid, that I was a friend of hers and harmless. I have been accused of being a vain man more than once in the past by people whose opinion wasn't worth considering. If they could have seen me at that moment they would have smiled, for if I am vain my vanity was in a fair way to being flayed to shreds; she gave it a whip-cut at every sentence.

"I liked the way she tackled Gillies, though; she didn't give him time to think himself a great man. She just took top station from the first, and kept it.

"'Don't come too near me, Andrew Gillies,' she cried. 'Keep your distance till you've answered a question or two. I know that your hands aren't clean, but I don't know quite how deep the stain on them is. You've got to satisfy me on that point before me go further.'

"The fellow had dismounted and was standing beside his beast, with one arm resting on the saddle. She had treated me pretty scornfully, but I could have struck him for the look on his face when he answered her:

"'I didn't think you would be particular, Rachel Carrington!'

"'I'm so far particular that I draw the line at association with a murderer,' she answered at once. 'You have many vices, Andrew Gillies, and possibly they added to your commercial value in the past. One of the most obnoxious of them is your taunting parade of piety. But you used to have one virtue; a curious virtue it is, too, to be part of the complement of a common swindler. You speak the truth!'

"'According to my lights and conscience, I do,' he replied, unctuously.

"'I have a different theory as to that,' she replied quietly. 'Your conscience has nothing to do with it. You have cultivated the habit of truth because, considerably to your own surprise, you discovered in early life that it pays. Had you anything to do with my husband's death?'

"He shot a curious glance at her, and I thought his eyes quailed before hers.

"'I did not kill him,' he answered.

"'Were you present when he died?'

"There was a long interval before the answer came. We, the woman and I, waited for it almost without drawing a breath. At length the man looked her straight in the eyes, and answered:

"'Yes, Rachel Carrington, I was.'"

To Be Continued.

DAILY MENU

BREAKAST.

Grapefruit, cereal with cream, picked-up halibut (a left-over from dinner), corn, cake, toast, tea and coffee.

LUNCHEON.

Yesterday's soup in cups, cold veal (a left-over, spinach souffle (a left-over), lettuce salad with French dressing, crackers and cheese, boiled rice, cooked with milk and egg, tea.

DINNER.

Tomato soup, lamb chops en casserole, green peas, macaroni a l'Italienne, strawberries and cream, cake black coffee.

Correspondence

Edited by Cynthia Grey.

To Kill Ants.

Dear Miss Grey: Would you kindly advise me in (1) What to do to get rid of black ants in a kitchen, especially on the table? 2. How to wash a sweater coat (white with dark blue cuffs and collar)? 3. I am moving into a new house the first of the month, would it be too late to plant flowers and a few vegetables? If not, what kind of flowers do you think are nicer for the front, and what for the back? Thanking you in advance, ANXIOUS.

A.—1. If possible find where the ants come into the house, and place carbolic acid near the crevice; when washing the table drop a little carbolic in the water. 2. I would not advise you to wash the coat, as the blue is apt to run. Get some cornmeal and rub well into the wool; then brush; two or three rubbings may be necessary to remove all the dirt. 3. I think you would still have success with beets, potatoes, cabbages and tomatoes. Buy a box of the latter from a gardener and transplant them. Salvia, asters, stocks, pansies, and petunias may also be purchased from a gardener and set out into the ground. They will soon take root and advance as rapidly as if the seed had been sown earlier. Geraniums and coleus also make a bright showing.

To Remove Stains.

Dear Miss Grey: Would you kindly answer the following question: What will take grape stains out of a mauve colored gingham dress? FANNIE.

A.—You might try moistening the spots with ammonia diluted with water, rinsing afterwards with clear water.

Freckles and Hats.

Dear Miss Grey: 1. Would you please tell me what will remove freckles from the face? 2. What style hats will be worn by young girls this summer? and oblige, FRECKLES.

A.—1. Frequent applications of lemon juice and glycerine will make them less noticeable. 2. Jaunty broad-rimmed styles, and dainty lingerie hats will prevail.

To Remove Bronze.

Dear Miss Grey: Would you be so kind as to answer the following questions: 1. What will take bronze off chocolate kid slippers? For an entertainment in the winter I bronzed my slippers to make them appear as gold, and cannot find anything as yet that will take it off. 2. Will you kindly tell me something to take the "shine" off of skirts? Yours very truly,

CHOCOLATE DROP.

A.—1. Sponging with strong ammonia water will probably remove the bronze. 2. Benzine and turpentine are two very good agents for renovating clothing. Sponge with either one, and then press.

THINGS WORTH KNOWING

When fastening in the back of a picture frame and the supply of brads runs short, an excellent substitute may be made from tin. With an old scissors clip small shaped pieces from a cocoa tin or other thin tin. These will keep the back of the frame in place quite as well as the proper nails and are just as easy to manipulate.

A paper floor covering is suggested as an inexpensive substitute for the ordinary dust-collecting carpet. It is prepared as follows:

Select a good stout wall paper, of dark color, and plain design. Lay the floor with common brown paper, and spread a layer of thick pasté over it, before laying on the wall paper. Smooth out all creases, and when the floor is completely covered, size and varnish the paper with dark glue and common varnish. When dry, place a rug or two here and there, and your paper substitute will last for years.

The following is a most excellent and simple method of cleaning wall paper, and can be used with confidence in every house: Take one quart of flour and stir in five cents' worth of ammonia and enough water to make a stiff dough; work and knead until smooth, then wipe the paper with this batch of dough, working it so that a clean surface will be presented with every stroke. Go over the paper in this way and your paper will be clean.

Try Cuticura Soap and Ointment Free

Although Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 32-page booklet on the care and treatment of skin and hair, will be sent, post-free, on application to Potter Drug & Chem. Corp., Boston, U. S. A.

Province .....

Measurement—Bust..... Waist.....

Age (if child's or misses' pattern).....

CAUTION.—Be careful to inclose above illustration and send size of pattern wanted. When the pattern is bust measure, you need only mark 32, 34, or whatever it may be. When in waist measure, 22, 24, 26, or whatever it may be. If a skirt, give waist and length measure. When misses' or child's pattern, write only the figure representing the age. It is not necessary to write "inches" or "years." Patterns cannot reach you in less than one week from the date of order. The price of each pattern is 10 cents in cash or in postage stamps.

UNFRAYED SCALLOPS.

Some housekeepers object to the buttonholed scallop on embroidery, because it frays in washing. This can be overcome in several ways. The surest is to buttonhole a second time over the purled edge, when the scalloped has been worked and cut out.

Another method is to run the outline of the scallop with machine stitching before buttonholing. Or in cutting leave a narrow margin and turn back under the scallop and hem to the material.

If these are too much trouble, at least wash the linen before cutting out. The material shrinks and is much less likely to fray. Where the entire piece is not washed, the embroidered edge can be dipped in lukewarm water for a few minutes, then ironed dry and later cut out close to the purled edge.

DARK RUGS ARE AID TO HARMONY.

When selecting rugs or carpets one must always remember this fact, that they must be just as much darker than the walls as the walls are darker than the ceiling, to keep the balance right in the room, says a writer in the Portland Oregonian. When a floor is too light in color it gives you a feeling that it rises. A rug or carpet that is too light in color for its surroundings never appears to lie down, but it seems to want to rise to meet the ceiling, and throws the whole color scheme out of balance. This is a common fault that I notice in many homes. The utility idea has predominated when buying, and the notion that a light-colored rug does not show the dust nor wear so plainly has been the argument and has been used so long that people accept it as an axiom, and do not stop to prove it. If they did they would soon see its fallacy or the uselessness of foregoing the beauty and harmony for a false premise.

At any rate, in these days of vacuum cleaners and sanitary housekeeping, we do not have accumulated dust, and so can choose our floor covering to coincide with the well-known laws of balance and color perspective.

If you really want a light-colored floor covering then you must absolutely keep your walls and ceilings very light. More rooms are spoiled in this way than any other that I can think of.

Mrs. Winslow's Soothing Syrup has been used for over THIRTY YEARS by MILLIONS OF MOTHERS for their CHILDREN WHILE TEETHING, with PERFECT SUCCESS. IT SOOTHES THE CHILD, SOFTENS THE GUMS, ALLAYS ALL PAIN, CURES WIND COLIC and is the best remedy for diarrhoea. Sold all over the world.

AFTER A ROUND AT TENNIS

or other vigorous play, the exposed skin is in a condition to appreciate and benefit by a soothing, cooling application of SANITOL FACE CREAM. Mildly antiseptic, it immediately alleviates sunburn and windburn. Sanitol Face Cream differs from Sanitol Pure Cold Cream in that it contains no oils—gloves can immediately be put on after its use; it will not soil the most delicate fabric.

Santy Claus in the Good Old Summer Time

YOU Western Ontario boys and girls expect "Santa" around when the snow flies. This year **the biggest** Cereal firm in the British Empire has induced Jack Frost's old chum to appear **now.** A hot job this for "Santa," but a pleasant one, because—**he's giving away these dandy little "turn-outs" to boys and girls who love ponies.** Would **you** like one? There's **one** way—a way that won't cost you a five cent piece. Go to your grocer and buy a package of

ORANGE MAIZE

Toasted Corn Flakes

When you get home cut the bottom off the package and mail to us. You'll have very pleasing information by return mail—inside information that will show you how to secure a pony and trap complete for yourself. Santa is engaged to give away several of these dandy outfits to the boys and girls of Western Ontario. They'll only cost the winners a little time and a little energy. And your chance is excellent right now.

N.B. Every boy and girl sending in five or more coupons, before June 1st, will be given a bonus of 300 votes.

LONDON IMPROVES WHEN GAME IS LOST

Berlin Makes Clean Sweep of the Series By Beating Locals 11 to 2.

PITCHERS IN THE GARDEN

Outfielder Davis Given His Release, Together With Bartlett, Who Is Canned For Second Time.

Beating London 11 to 2, through the bobbles of the outfield in the fourth and fifth innings, in which ten runs were scored by the visitors, Berlin yesterday afternoon made a clean sweep of the series at Tecumseh Park.

Corkin pitched a beautiful game until his support, which had been poor, utterly failed him. He dragged along rather listlessly until a number of changes were made in the lineup, when the locals bucked up and played a fine game, holding Berlin scoreless for the remaining four rounds.

The game opened with Manager Jo-Jo Keenan in his usual position on third, Cross at right, Kusel, a new one from the South Michigan League, in centre, and Bartlett, the Detroit catcher, who was given his release the day before, and who asked for another tryout as a fielder, in the left garden.

The latter was chiefly responsible for the defeat of London. He showed no ability in the field, and was sent along home after the first few rounds. Davis was sent home to Port Huron. McDonald in practices yesterday showed up well on the first sack, and will be carried along for that position.

Pitchers in Outfield.

After the game had hit the skids, Pitches Hynes and Fenske were placed in left and right respectively, Cross going to third to replace Keenan, who handled the remainder of the battle from the bench.

It has been suggested that Keenan take the right field himself, in order to remain in the game for his hitting ability. Joe is there with the swat every time, and the team would suffer a serious loss if he decided to remain inactive.

Within a few days several new ones will be added to the quad, as the management is sparing nothing to get good players on the job. Kusel arrived yesterday, and appears to be very fast on the sacks. He was unfamiliar with the rough outfield, and did not show to particular advantage in his work there.

Hynes Helped Matters.

Hynes accepted all his chances in the garden, and rejuvenated his playmates by picking off a couple of difficult flies.

Kusel and Keenan worked the double steal in the fourth inning, Boss Joe purloining a pair in making the circuit, and finally tallying. He had opened the festivities in that round with a clean two-sacker.

COLBORNE DEFEATS RECTORY, 5 TO 4.

In a very fast and exciting game on the Rectory street school diamond last night, the Colborne nine defeated Rectory street, 5 to 4. An extra inning was played to decide the winner. Batteries—Colborne, H. Logan and E. Logan; Rectory, Barrell and Robertson.

GUELPH PUTS ONE OVER ON CHAUCER ELLIOTT'S 9

Johnson's Men Get an Early Start at St. Thomas—Score 9 to 6.

St. Thomas, Ont., May 25. — Abby Johnson's Canadian Leaguers slipped one over on the locals here today. Muir, who did the slab duty for the visitors, was effective with men on the bases, and received good support. The Guelph team found Easty, who twirled for the home hopes, freely in the first four innings, and made nine runs. He settled down after this and succeeded in holding them the rest of the game, but the lead was too great for Chaucer Elliott's men. They started a rally in the eight, but it was short-lived, after two runs had crossed the plate Easty struck out. The St. Thomas team leave for Brantford in the morning. Score:

BERGER, OF BRANTFORD, TOO MUCH FOR HAMILTON

Kane's Krew Revives and Pokes a Hole in That Losing Streak.

Brantford, May 25.—Cy Berger proved too much for Hamilton here today in the final game of the series, and blanked Knotty Lee's team for seven innings. Brantford played safe ball, and won by 7 to 2. Berger kept the hits well scattered. In the sixth inning Hammond pulled down one back of second in sensational style, and retired the side on a double play with three men on bases. The game was the best exhibition played here yet, and a few more like it will make the fans forget Brantford's losing streak. Catcher Elwood was unconditionally released today. Score:

TWENTY-THREE HOPES IN ELIMINATION BOUT.

New York, May 26.—Twenty-three heavyweight boxers from various parts of the country will be the contestants at the National Sporting Club here tonight in a novel white-hope tournament. The purpose of the meeting is to discover a man who in time may be worthy to face Jack Johnson for the title.

They Expressed Their Wishes

One hundred and fifty merchants wrote in to the makers of "Semi-ready" for prices and particulars in a single month.

Fifty merchants were acceptable and accepted.

Fifty were not acceptable.

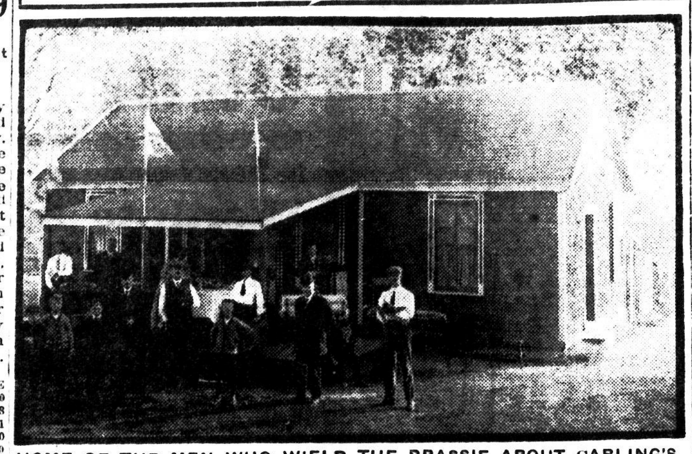

Fifty others were, but they argued that the Semi-ready label prices were too low, and did not offer them sufficient profit. They wanted to fix their own prices.

It is well for the Buyer of Clothes to know this last reason, for when he finds a Semi-ready store like ours he can know that we are content to do a large volume of business on a small profit basis.

Semi-ready Clothes are the only clothes sold at standard, fixed and close-to-cost prices—marked by the makers—and guaranteed worthy. This is the only store selling

FRISCO SPORTS DON'T THINK WELL OF THIS CONTEST

San Francisco, May 25.—Scarcity of Burns money caused a shift in the odds on Saturday's lightweight championship battle, and today Wolgast is a 2 to 5 favorite, with even money offered that the local boy does not respond for the 18th round.

The latter figure appeals to Burns' followers more than the 1 0to 4 proposition on general results, and several good commissions have been placed.

TROUBLE AT ROCHESTER

Buffalo Fans Invaded Flour City and Attacked the Umpire.

Rochester, N. Y., May 25. — In the eighth inning of today's battle Buffalo very nearly won the game on a six-run rally, but Wilhelm took Hughes' place, and the contest ended 10 to 9 for the Hustlers. Buffalo sent a delegation of 1,700 rooters. They did not like Umpire Pollock's favorable decision on Moran's steal of third in the fourth inning, and bombarded Pollock with pop bottles when he came in to protest against the remarks of the Buffalo fans. Policemen took a hand, and the game was called for 15 minutes until order was restored. The score:

BROWNS GET 'VARSITY PITCHER.

St. Louis, Mo., May 25. — Pitcher William Harper, of Missouri University today joined the Browns. Harper is a big fellow possessed of no end of speed and some control. He has hung up a great strike-out record for his college and has won a majority of his games. In 15 contests he has averaged 12 strikeouts.

TIGERS LOSE FINAL MATCH TO SENATORS

Too Much Walter Johnson For Detroit Crew Yesterday.

WASHINGTON EVENS UP

Philadelphia, Chicago and Boston Other Winners of League.

Detroit, May 26. — The Tigers lost the final game of their series with the eastern clubs yesterday at Bennett Park, when the Nationals secured an even break with the league leaders by winning 6 to 2.

It was just a little too much Walter Johnson for the Tigers that caused the defeat.

PING BODIE'S LONG HIT SAVES GAME FOR SOX

Recruit's Long Hit Beat Yankees in Overtime Contest 3 to 2.

Chicago, May 25.—The White Sox managed to take the last game of the series from the Highlanders today by the score of 3 to 2 in a ten-inning contest. It was an unsatisfactory game, and the New Yorkers should have won. Luck was against them, however, and they lost out. The pitching of Brockett and Warhop could not have been surpassed, and they were entitled to a win. Chase's men outhit and outplayed the locals, but, as stated before, they had no luck, and Comiskey's pets won a desperately fought struggle. Score:

ATHLETICS MAKE IT FOUR IN A ROW

Deafeat Cleveland Crew Again by a Score of 12 to 6.

Cleveland, May 25.—The champions closed the series with the Naps today by walking away with the fourth game by a score of 12 to 6. This time the Mack men found they were in no practice game, as the Naps—or what there is left of them—had their batting eyes with them, and clouted safely 14 times, forcing Morgan and Krause out of the box, and making Bender, who finished the game, pitch his best. The score:

CLEV.	A.B.	H.	O.	A.	E	PHIL.	A.B.	H.	O.	A.	E

BROWN KNOCKS T. MURPHY OUT

Punch on the Jaw, Followed by Stiff Blow in Stomach, Put Harlem Boy Out.

LOSER NEVER LANDED

Knockout Was Counterpart of That Handed McCoy by Jim Corbett.

New York, May 25. — Knockout Brown redeemed himself tonight when he stopped Harlem Tommy Murphy after 40 seconds of a one-sided fight in the first round at the Madison A. C. The end came so quickly and unexpectedly that for a moment ring sharps believed that Murphy was shamming. His knockout was a counterpart of that suffered by Kid McCoy at the hands of Jim Corbett here eleven years ago.

Murphy received a left hook under the chin before the battle had been under way 10 seconds, and he looked for a moment as if he wanted to quit. He did not fall, however, until Brown landed a terrific stomach punch which was followed by another left on the jaw.

End Came Suddenly.

As he rolled about helplessly the crowd did not seem to understand that the end was near, and hundreds jumped up laughing, but it turned out that Murphy was really in distress, and when he fell unconscious on his face, Brown's victory was complete.

Murphy did not hit Brown once. He missed several light swings before he received the punch that made his brain whirr. He made a sorry showing, particularly in view of his winning battle with Brown two weeks ago in Brooklyn. There was nothing the matter with Murphy's condition, for he looked well and strong, and before the bout he expressed great confidence in himself. Brown said after the bout that he would meet the English lightweight champion, Matt. Welis, who arrived here today, at a week's notice.

Division Peculiar.

New York, May 26. — Although Knockout Brown defeated Tommy Murphy in exactly 40 seconds of one-sided fighting here last night, he will receive but a few dollars as his share of the $3,600 gate receipts, while Murphy will today cash a check for a cool $3,000, which was turned over to him yesterday before the fight, to guarantee his appearance, and Brown agreed to take whatever remained of the gate receipts after the expenses were paid. His share will not exceed $50 or $60, it is said.

Brown declared that he is not going to complain, however. He plans to meet Matt. Wells, the British lightweight champion, as soon as the latter is ready, and hopes to make up his loss on last night's bout.

Wells arrived here early today on the liner Cleveland.

MELBOURNE 6, KATESVILLE 5.

Melbourne, May 25.—In a hotly-contested game of baseball, Melbourne yesterday defeated Katesville by the score of 6 to 5. The game was a pitchers' battle from start to finish. Melbourne broke the tie, which had existed throughout the game from the fifth inning, G. Squires, for Melbourne, scoring the winning run in the ninth inning with two men out.

Score by innings—
Melbourne .... .1 2 0 0 0 2 0 0 1—6
Katesville .... .1 3 1 0 0 0 0 0 0—5

Batteries—Melbourne, Long, McDougal and Patrick; Katesville, D. Lewis and C. Lewis.

Umpires—Long and Bennett.

ENGLISH POLO TEAM TRIES THE NEW LINE-UP

Cedarhurst, May 25. — International polo practice today was limited to a three-quarter game between the British army cup challengers and a fairly good scratch team, which the challengers beat by 8 goals to 3 in a slow and uninteresting exhibition.

The American cup defenders did not play, preferring to watch the playing of their rivals' line-up, with Captain Herbert Wilson as back instead of Captain Barrett. Two of the scratch team's goals were scored by Captain Barrett, who was playing against his comrades.

BLACKBURNE WILL PLAY SOON.

Chicago, May 25.—Physicians attending "Lena" Blackburne, White Sox shortstop, who was operated on yesterday for floating cartilage in the knee, today told Comiskey's "$11,000 beauty" that he would be able to take his place on the diamond in two months as strong as ever.

Serious Skin Eruptions

Are Ended by Zam-Buk.

Mr. William Purser, of 1385 Elgin Avenue, Weston, Winnipeg, says: "As a cure for skin diseases there is nothing to equal Zam-Buk. Some pimples and sores broke out all over my face and defied various remedies, which, from time to time, I applied to them. Not only were these sores unsightly, but they were very painful. For over two months I was afflicted in this way until I was advised to try Zam-Buk. I found this balm was entirely different to the ordinary remedies. It reduced the irritation and the smarting pain. The sores from first being anointed with the balm, grew less and less angry, and then began to dry off. In a short time they all disappeared."

Finest known remedy for eczema, ulcers, abscess, scalp sores, ring worm, children's rashes, chafings, cuts, burns, scalds, insect stings, sore feet, etc. Also cures piles. 50c. box, at all drug stores, or post free from Zam-Buk Co., Toronto, for price. Zam-Buk soap, 25c. tablet is splendid for delicate skin and for baby's bath.

GIANTS FORCED OUT OF FIRST POSITION

The Reds Hand McGraw's Men a 6 to 3 Walloping.

DOYLE STEALS HOME

Keefe Remarkably Effective, While Drucke and Ames Failed To Check Cincinnati.

New York, May 25.—The Reds finally got a game from the Giants today. They did it easily, while they were about it. The locals were puzzled completely by Keefe, and their only run was due to a three-bagger and clean steal home by Doyle. Drucke was wild, and Ames was solved in the eighth. Score:

COULON IN A DRAW.

Fort Wayne, Ind., May 26.—Johnny Coulon, of Chicago, champion bantamweight, and Johnny Daly, of New York, fought ten fast rounds to a draw last night.

SPEED TRIALS ARE ON AT INDIANAPOLIS TODAY

Forty-Six Drivers Are at Track With Racing Cars — Joe Horan Injured.

Indianapolis, Ind., May 25.—All the drivers entered in the Memorial Day 500-mile automobile race at the Indianapolis speedway, with the exception of Joe Horan, whose leg was broken in an accident to his Amplex car yesterday, were on the track early today testing their engines for the elimination trials to be held tomorrow. Bob Burman, with his Benz, was the last of the 46 entrants to arrive at the course.

Horan was regarded as a dangerous contender in the race, as he holds the national speedway record for 250 miles, which he set at Atlanta on Nov. 7, 1910. He went the distance in a Lozier in 3:26:15.

The car which overturned with him yesterday, after he lost control of it at the turn coming into the home-stretch, probably will be repaired in time to be entered in the elimination trials. Its new driver has not been named.

Horan Laid Up.

Horan, who is at a hospital, will be out of the racing game for several weeks. His mechanician, Everett Ward, who was painfully bruised when the Amp lexupset, was at his repair pit today.

S. M. Butler, chairman of the contest board of the American Automobile Association, arrived today and is expected to settle a dispute as to whether or not Bob Burman shall be permitted to make speed trials in the Blitzen Benz preceding the 500-mile race. Manufacturers of other cars have protested.

Two of the drivers entered in the big race are only 21 years old. They are Joe Dawson, who drives one of the Marmon entries, and William Jones, driver of a Case car. The oldest of the drivers, Charles Bigelow, who pilots a Mercer, has passed his 38th year.

COWANS BEATEN IN COMMERCIAL LEAGUE

Hobbs Win Fast Five-Inning Game at Tecumseh Park by 2 to 1.

Hobbs defeated Cowans in a Commercial League match last night by a score of 2 to 1, the contest being a pitchers' battle, in which Clark had a little the better of the argument with eight strikeouts.

Crummer was a little wild at the start, but settled down splendidly. Cowans fielding was first-class, the features of the game being running catches by Baker and Rich.

The core:

Summary — Errors — Templeton, Clark. Two-base hits—Pearce, Crummer. First on balls—off Crummer 2, off Clark 3. Struck out—by Crummer 4, by Clark 6. Left on bases—Hobbs 4, Cowans 4. Double play—Clark to Roberts. Passed balls—Heir, Walsh. First on errors—Cowans 1. Hit by pitcher—Hier, Roberts. Time—55 minutes. Umpire—C. Ward. Scorer—W. Heslop.

MOTORS TUNING UP FOR THE BIG RACE

Elimination Tests To Be Made on the Indianapolis Speedway.

[Canadian Press.]

Indianapolis, Ind., May 26.—More racing cars than ever before were assembled on a track made the Indianapolis speedway resound with the explosive roar of their muffled exhausts this morning as they were tuned up for the elimination trials for the Memorial Day 500-mile race.

Officials of the course expected that the tests of speed of the forty-six cars entered in the race would occupy the greater part of today, Each of the cars must show a speed of 75 miles an hour or withdraw from the race. The test was to be made with a flying start on the last quarter mile of the home stretch of the speedway. To qualify, each car must make the quarter mile in twelve seconds. The drivers had little fear that any of the cars entered would fail to meet the test.

ST. MARY'S A. C., 2; POTTERSBURG 0.

St. Mary's A. C. team defeated the Pottersburg nine on a Pottersburg diamond Thursday afternoon by a score of 2 to 0. Lenehan, for St. Mary's, had his opponents guessing, allowing them only two hits. Batteries—Pottersburg, F. Garret and F. Bennet; St. Mary's A. C., Lenehan and Pelton.

DAILY HISTORY OF BASEBALL

MAY 26.

1885.—The Pittsburg American Association Club played its third consecutive errorless game—a remarkable record in those days.

1888.—Alonzo A. Stagg, now the boss of athletics at the University of Chicago, and then pitching for Yale, struck out twenty Princeton batters.

1890.—The shortstops in the Brooklyn-Pittsburg Players' League game were proficient performers with the stick. John Montgomery Ward, of the Easterners, made two singles and two doubles and scored four runs, while Tommy Corcoran, of the Westerners, made four singles. The Brotherhood used a lively ball and high score games, were just as numerous in that ill-fated organization as they have been this spring in the National and American Leagues.

1890.—Outfielder Carroll, of the Minneapolis Western Association Club, made four doubles and scored four runs in the game with Kansas City. Park Swartzel pitched.

1893.—There was a plentiful supply of home runs in the Boston-Washington National League game, the Senators making four and the Beaneaters three.

1895.—Charles S. DeBost, who caught for the old Knickerbocker Club of New York, and who helped greatly in the development of baseball, died.

1903.—Christy Mathewson, of the Giants, who rarely makes a wild pitch, committed three of these battery errors in a game against the Cubs.

1904.—"Rube" Waddell, of the Athletics, fanned twelve of the Detroit Tigers, twice retiring the side on strikes.

1905.—Two 1 to 0 games were played in the American League. The Cleveland Naps, with Otto Hess pitching, downed the Highlanders in ten innings, and Chicago defeated Boston. Nick Altrock pitching against Cy Young.

1910.—The Chicago White Sox made fourteen hits off Pitcher Quinn, of the Highlanders, yet were beaten, 4 to 3.

Scotland Weaves for Summer Clothes

The Clothing you require for wear in June and the last days of May is a Suit of light fabric made from all wool and made in good style. Such a Suit does the Scotland Woolen Mills Company sell you for Fifteen Dollars—no more, no less. If you are not pleased with the order, the Company will refund you any money you have paid.

What wool Scotland turns out goes into the cloth we sell. The balance is made up by imported wool from Botany Bay, Australia.

Scotland Woolens come in all weights and in superior summer fabrics of all wool. The patterns now being shown are the very latest made, and are the accepted designs by the big London tailoring houses.

Something better in Worsteds and Tweeds for summer wear. A new shipment was put into stock Thursday, and may be seen at our store today. The patterns are very new, but are quiet in coloring.

OUT-OF-TOWN MEN—Our Mail Order proposition is the important end of our business. We have it down to a science. Write to us for our new self-measuring chart-book of samples and fashion plates.

"MILLER'S ILLUSTRATED"—We have just published the summer edition of "Miller's Illustrated," containing some excellent matter on baseball. You get all the "dope" on the big leagues, and some ancient history of the great American game.

CANADA'S BEST ATHLETE WILL COMPETE IN MANY CHAMPIONSHIPS

FRANK LUKEMAN.

[Special to The Advertiser.]

Ottawa, Ont., May 25.—Clocked in 9 4-5 seconds for the 100 yards sprint, and holder of three Canadian championships, Frank Lukeman, the Ottawa Amateur Athletic Association star, should be a cinder path sensation this summer.

But 24, Lukeman has competed for years, and is now reaching his best form. His experience enabled him to capture the Canadian all-around championship against the pick of American athletes, and he will invade the United States to try and win the American all-around title.

Big, rangy, with plenty of weight, Lukeman is the ideal sprinter and jumper. He has won the 100, 220, 440 yord sprints, the hurdle events, and the jumps in an afternoon. He is picked to win the sprints at the Festival of Empire games, London, and properly handled, should duplicate Nat Cartmell's clean-up of the English championships.

M'CLARY RIFLE ASSN. AFTER NEW MEMBERS

Team Will Shoot in Dominion Contest Commencing Tomorrow.

The first contests of the season of the Dominion Rifle Association, the organizatoin promoted and encouraged by the Dominion Government, will be held tomorrow throughout the Dominion, and will continue in both civil and military departments on June 3, July 8 and 15.

The McClary Rifle Association, of this city, will be among the competitors, and as the rules allow from 40 to 100 members in each team, the officers are anxious to recruit additional shots from about the city.

OSHAWA'S SECOND DAY.

Oshawa, May 25.—The following is the record of the second day's racing at Alexander Park, under the auspices of the Oshawa Driving Club:

Free-for-all, purse $300—

Buchnell King, b. h., Nat Ray, Toronto	6 1 1 1
Hal Direct, b. s., Woodruff & Brooks, Oshawa	1 2 3 2
St. Anthony, ch. h., P. Burnham, Kingston	4 3 2 4
Ian Bars, b. s., McIrwin, Brantford	2 5 4 3

Sunday Belle, Furloso, Syke and Direct also started.

Time—2:17¾, 2:15¼, 2:14½, 2:17½.

2:20 trot, purse $300—

Dr. Wilkins, b. h., McIrwin, Brantford	2 1 1 1
Lady Brant, c. m., S. McBride, Toronto	3 2 2 2
Loulu, b. m., Westbrook, Brantford	4 4 3 3
Billy Stewart, b. s., J. H. Noble, Toronto	5 5 4 4

Dr. Ulman, driven by Nat Ray, won the first heat, was second in the second heat, and then had to be withdrawn from the race, having gone lame.

Time—2:20¾, 2:25, 2:25¼, 2:25¾.

BURMAN WILL MAKE TRIALS ON MONDAY

Will Not Try For Marks Before Races on the Speedway.

Indianapolis, Ind., May 25.—Manufacturers who opposed barring "Wild Bob" making his trials against the short distance records here before the start of the 500-mile race next Tuesday, carried their point today, and the speedway management announced that Burman would make his speed trials Monday morning. Burman will endeavor to lower the world's record for the quarter mile, kilometer and mile. Joe Horan, who was to have driven the Amplex car, is in the hospital with a broken leg. Arhtur Greiner, of Chicago, arrived today. The accident yesterday caused the Amplex car to be dubbed the "doodon car" by drivers. Greiner is the third man to be named as pilot for the machine.

This was tuning up day at the speedway, in preparation for the elimination trials tomorrow.

EAST END MEETING

A meeting of the East End League has been called for this evening to deal with a dispute over the umpires. Richardson and Phillips have been working the double system since the opening of the season, the former proving unsatisfactory to the McClarys especially. They claim that they will withdraw unless new arbiters are secured.

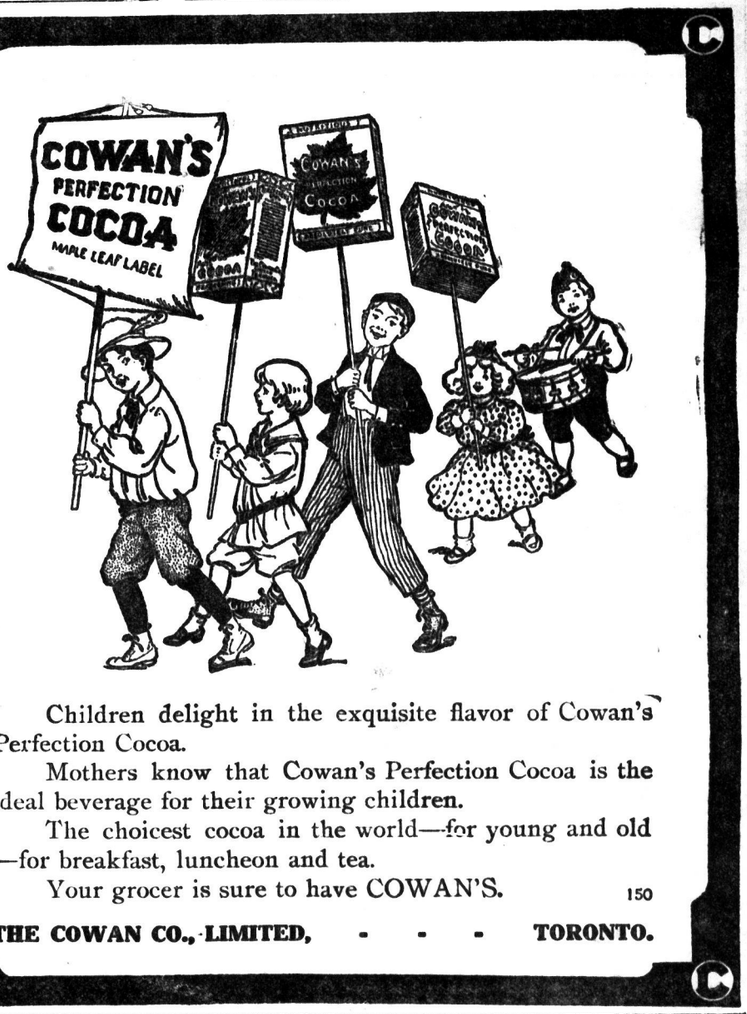

The Ramblers will clash with the Jubilees tomorrow afternoon in the first game, while McClarys and St. John's A. C. will contest the second match.

JACK WANTED TO GET HIS CHAUFFEUR OUT QUICKLY.

New York, May 25—Jack Johnson, the pugilist, paid a fine of $10 in the police court in Brooklyn today for his chauffeur, who was charged with breaking the speed laws. Charles Brown, the chauffeur, pleaded not guilty, but Johnson stepped to the bar and said:

"May it please your honor, I do not think my chauffeur quite understands this court business. I am sure he is mistaken when he pleads not guilty. I believe he was going from 18 to 20 miles an hour. Isn't that the truth, Brown?"

Brown admitted that it was, and Johnson paid the fine from a roll of bills so large that he had difficulty in getting it out of his pocket.

Children delight in the exquisite flavor of Cowan's Perfection Cocoa.

Mothers know that Cowan's Perfection Cocoa is the ideal beverage for their growing children.

The choicest cocoa in the world—for young and old—for breakfast, luncheon and tea.

Your grocer is sure to have COWAN'S. 150

TWO DOUBLE-HEADERS IN NATIONAL LEAGUE.

New York, May 25.—The dates when six National League postponed games will be played off were announced tonight by Secretary John A. Heydler.

Two of the games will be played between Cincinnati and St. Louis on dates when games are already scheduled, making double headers each day. The other four games will be played on open dates. The schedule follows:

Chicago at Pittsburg May 29, June 1.

Cincinnati at St. Louis—(Two games) May 29; (two games) June 1.

St. Louis at Cincinnati—June 20, June 23.

In addition to its alien population, bygone Stepney was credited with a large number of citizens of other towns on acocunt of the current notion that all children born at sea belonged to the parish of Stepney, a notion probably due to the large number of sailors who lived there. Paupers who had been born at sea were gravely sent to Stepney from all parts of the country, and from time to time the law courts had to be called upon to decide against their claims.—London Chronicle.

EVERY WOMAN SHOULD READ THIS LETTER ABOUT

St. Lawrence Sugar

Laboratory of Provincial Government Analyst.

MONTREAL, 22nd February, 1909.

I HEREBY CERTIFY that I have drawn by my own hand ten samples of the St. Lawrence Sugar Refining Co's EXTRA STANDARD GRANULATED SUGAR, indiscriminately taken from four lots of about 150 barrels each and six lots of about 450 bags each. I have analysed same and find them uniformly to contain 99-99/100 to 100 per cent of pure cane sugar, with no impurities whatever.

(Signed) MILTON L. HERSEY, M. Sc. L.L.D.
Provincial Government Analyst.

LONDON BATTERY LEAVES JUNE 8

Annual Drill Will Then Be Held on the Petawawa Training Grounds.

10 BATTERIES THERE

Some Interesting Facts Concerning This Famous Place Where War Is Played.

In view of the fact that the Sixth London Field Battery leaves for its annual training at Petawawa on the 8th of June, a few words describing this camping ground may prove of interest.

It is situated about 100 miles above the Dominion capital on the Ottawa River, and is about ten miles west of the town of Pembroke. The Government property covers a tract of land of about 50 square miles, and in that area is embodied almost every possible kind of surface, from flat plain to steep hill. That part of the ground set apart for the actual camps is on a bluff overlooking the Ottawa River. In some ways reminding a Londoner of Port Stanley, if one makes allowance for the wild appearance of the surrounding country. The river is several miles wide at this point, and on the Quebec side almost directly opposite the camp is a summer resort called Fort William, much frequented by people from Pembroke and the neighboring towns. Further off are the hills that form the watersheds on the north, and the view from the camp looking over the river towards the hills is one that is truly beautiful.

Modern Guns.

The necessity for reserving such a large area for artillery practice becomes apparent even to the layman, when it is pointed out that the actual range of a modern field gun is about two and a half miles, and that of the larger modern guns is from four to five miles. The ranges are situated some five miles from the camps, and still another part of the ground is allotted to ordinary drill and manoeuvre. The soil is very sandy and absorbs the rain even more rapidly than is the case at Carling's Heights. Part of the area is covered with scrub brush, and in going places there are fairly thick woods and some small lakes.

The facilities provided at the camp are excellent. Water is piped to all the camp sites, and wash troughs and shower baths are provided for all units. Drinking troughs for horses are placed near each horse line, and the necessity for taking the animals a long way to water them is thus done away with. A complete system of sewers is operated, and the chances of exposure to disease is reduced to a minimum. The water is piped a long distance, and is sweet and pure, while the benefit of a shower bath or a swim in the river after work can easily be imagined. All the horses that went up with the London Battery in 1907 put on flesh, as all the conditions appeared to agree with them, and this year the various improvements should better matters considerably still.

Ten Batteries.

There will be ten or more field batteries training at about the same time as the London Battery, and the competition between them all will be very keen. They are all affiliated in the Canadian Artillery Association, which donates annually a large number of cups and money prizes. Some of these are awarded to the battery as a whole, but there are a good number of individual prizes in each unit. These are awarded to the members of each battery for efficiency in the different parts of the work, such as signalling, gunlaying, driving, riding, fuse-setting, etc. These money prizes vary in value from $10 down, and with most of them there is also given a badge which the winner is entitled to wear on his arm when in uniform. From this it will be seen that every member of the London Battery stands a good chance of making something besides his actual pay while at Petawawa.

The actual gun practice of the London Field Battery will this year be carried out under nearly as active service conditions as possible. No member of the battery knows just where the targets are situated, nor what their distance is away. The battery is ordered to rendezvous at some given place at a certain time, and there the commanding officer is handed an order, which instructs him to engage the enemy at some place. He has then to take his battery to this place and after locating the dummies (representing the enemy) to engage them in the manner ordered. The range is secured by firing a series of trial shots, and it is often very difficult to get it properly.

Shooting at Dummies.

The wooden dummies representing men, guns, etc., are by no means easy to see at a distance of some miles, and if the day is wet it is sometimes practically impossible to see whether the shell bursts near them or not. There are three different series to be fired, including one at a rapidly-moving target and the battery that gets the most hits on all three, wins the cup for target practice, provided the umpires consider that the work was carried out in a soldierly and workmanlike manner. It can easily be understood that a battery's success depends as much on the work of each gunner and driver as it does on the officers and that is the great reason why the artillery branch of the service is so much more attractive to the average man, than the other branches. It is interesting, scientific, and each batteryman feels that the success or otherwise of his unit depends in no small measure on his own work.

Mimic War.

The main line of the Canadian Pacific runs through the training ground, and many a tourist has looked out of his car window and wondered when he saw guns being fired and batteries trotting and galloping from place to place. There is a spur line which runs into the centre of the camp grounds, and there are five sidings from which troops can be detrained in short order. It is possible for five trainloads of troops to come in and unload at the same time without inconveniencing one another, which is a great point in favor of Petawawa, as anyone who has camped at Niagara or Goderich will easily realize.

In addition to the many advantages of Petawawa as a working camp the recreation part of it is not overlooked. A large space has been fenced off for the men to indulge in games and sports. A football field is provided, and also a baseball diamond. In 1907 the London Battery took up a baseball nine which early established a reputation for itself, and towards the close of the camp none of the other teams could be persuaded to play, as they were all sure to be beaten. The officers are anxious that a keen interest shall be taken in sports and Lieut. Charles Hunt has arranged to provide the necessary equipment in the way of balls, bats, etc.

The Artillery Train.

The London Field Battery will travel to Petawawa by the C. P. R. in a special train, consisting of four passenger coaches, four horse cars (palace type), four flat cars for guns and wagons, and two box cars for baggage. It is expected that the battery will get away early on Thursday afternoon, the 8th of June, so that they will reach the camp grounds early the following morning. The train will probably be in charge of Mr. W. Dockrill, the well-known travelling passenger agent of the C. P. R., and his presence insures a rapid and pleasant trip to destination.

Sergeant - Major Instructor Finney, of the Royal Horse Artillery at Kingston, arrived in London last week, and is now busy every evening at instructional work to prepare the officers, non-coms, and men as much as possible for camp. He will remain with the battery during their entire training, and much benefit ought to accrue from his instruction. He understands the work from beginning to end, and has the knack of imparting his knowledge to those he is instructing in a pleasant but effective manner. He has already made several helpful suggestions to Major Leonard about camp arrangements, and it is likely that some other changes will be made at his suggestion which cannot but be of great assistance to the commanding officer.

Getting in Shape.

The London battery is now being carefully organized for camp, and although Tuesday and Thursday are the regular drill nights, some of the officers and men are down every night in the week getting in shape. Major Leonard has not yet picked out his complete number of sergeants and corporals, but that will be done within the next week, so that all gunners and drivers can be posted to their sub-sections before leaving London. There are still some vacancies in the ranks to complete the establishment and those who are contemplating joining the battery should do so within the next few days, as the total number of men to be taken (of all ranks) is only one hundred, and nearly all the old members of the battery can be relied upon to help out the officers this year of all others.

It is expected that the battery will take a good standing this year, and that the new 18-pounder equipment will be issued next fall. It is confidently hoped that Londoners will have every reason to be proud of the local battery, and a great deal of interest is being expressed about Petawawa and the annual camp. A royal salute of 21 guns will be fired on June 3, the King's birthday, at noon, and it is of interest to note that this will probably be the last time the battery will turn out mounted to perform this duty. It is the intention of the authorities to install a saluting battery of guns permanently in Victoria Park in the near future, and when this is done these guns will be used for salutes instead of the more modern field guns with which the battery is armed.

Coronation Representative.

Major Woodman Leonard yesterday received word from Quartermaster-Sergeant Scott, the battery representative on the coronation contingent, that he reached Kingston safely and that he is now hard at work with the other battery representatives getting in shape for the trip. Sergeant Scott is reaping the reward of faithful service in the battery, as he joined it in 1905 and has worked hard to help the officers and men ever since. The next five years ought to be interesting ones for the Canadian militia with the Duke of Connaught as Governor-General. He is a keen soldier, and will no doubt take more interest in the militia than any previous viceroy. There will also probably be some very large reviews during his regime, and most units will probably have some sort of a trip to attend same, similar to those at Toronto in 1902 and Quebec in 1908.

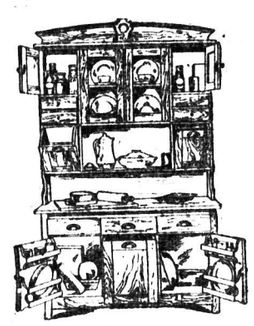

MAKE YOUR DOLLARS COUNT

Buy at the Ontario Furniture Company and save money. There's no stock in London like this. 40,000 square feet of floor space crowded with homefurnishings, making the greatest showing in Western Ontario.

$3.95

DYSPEPSIA

"Having taken your wonderful 'Cascarets' for three months and being entirely cured of stomach catarrh and dyspepsia, I think a word of praise is due to 'Cascarets' for their wonderful composition. I have taken numerous other so-called remedies but without avail, and I find that Cascarets relieve more in a day than all the others I have taken would in a year." James McGune, 108 Mercer St., Jersey City, N. J.

Pleasant, Palatable, Potent, Taste Good. Do Good. Never Sicken, Weaken or Gripe. 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C C C. Guaranteed to cure or your money back. 919

SOUR STOMACH?

MI-O-NA WILL CURE YOU.

The stomach supplies nourishing blood to the muscles, the nerves, and skin. If it is not healthy, the food will ferment and undigested will pass along through the bowels, furnishing so little nutritious matter that the blood becomes impoverished, and the glow of health vanishes.

If you suffer from nervousness, sick headache, belching of gas, sour taste in the mouth, heaviness after eating, or any other miserable stomach disturbance, you need Mi-o-na Tablets. They will relieve any distressed stomach condition almost immediately and are guaranteed to cure if used according to directions. Sold by all Druggists for 50 cents a large box or postpaid from The R. T. Booth Co., Ltd., Fort Erie, Ont. Be sure you ask for Mi-o-na the guaranteed remedy for indigestion and stomach trouble. Sold and guaranteed by Cairncross & Lawrence.

Be Good to Yourself

and the world will be good to you. The way is to keep your stomach, liver, kidneys and bowels right. And you'll find great help in

BEECHAM'S PILLS

Sold Everywhere. In boxes 25c.

GOVT. REPORT OF FRUIT CROP

Conditions of Orchards From the Atlantic to Pacific.

EFFECTS OF LATE FROST

General Outlook In Apples, Pears and Peaches Is Good.

[Special to The Advertiser.]

Ottawa, May 25.—No losses in Eastern Canada have been reported from winter killing, except in the case of strawberries, and then only from limited areas. The losses reported have been less than for several years. For a number of winters, even when the conditions did not appear to be unfavorable, fairly serious losses from winter killing have been reported. This was accounted for by the injuries which the trees received during the cold series of winters from 1899 to 1904. Apparently normal conditions have been restored, and Canadian orchards are again strong and vigorous. The snowfall was not excessive anywhere, and the orchards have escaped the ordinary sleetstorms that nearly always prevail in one section or another.

Spring Weather.—The spring of 1911 is reported somewhat backward, but not excessively so; and in most cases the fruit growers report that this tardiness has been a positive advantage, as it is likely to prevent losses from late frosts. Fairly heavy frosts were prevalent the first week in May, but no serious damage was reported. The latest reports indicate that rain is now needed in Eastern Canada. In British Columbia serious damage to the peach and cherry crop is reported as the result of frost.

Apples.

The prospects for bloom this year are excellent. It is too early, of course, to speak except as to the show in bud. The wood growth and bud development during the summer and fall of 1910 was excellent, and close observers predict an excellent show of blossoms, if there are no unfavorable conditions later in Mai. This is the report of May 15.

District 1—All varieties are reported in good condition, with every prospect up to date of a good crop. Doubt is expressed only in the case of Spies, possibly because these bore fairly wel last year.

District 2—In 1909 a heavy crop was grown in this district. In 1910 the crop was very light, but the wood and tree growth was good. It is confidently expected, therefore, that if the favorable conditions of the present time are continued, the crop for 1911 will be good.

District 3—This district in 1910 had a fair crop of Baldwins and Spies, and though the majority of correspondents report everything favorable up to date, a few have expressed doubts with reference to Spies and Baldwins. The orchards in this district are receiving extra care this year and many new orchards are coming into bearing.

District 4—The Fameuse and McIntosh are in excellent condition. Wealthy, Duchess and Wolfe River are showing up well.

Districts 5 and 7 have had no winter losses, and so far as can be judged from the dormant buds have reason to expect at least an average crop.

District 6—The fruit growers of the Annapolis Valley are particularly optimistic. Though there was an exceedingly small crop last year, the trees were well cared for and made excellent growth. Spraying, pruning, fertilization and cultivation have been practiced as never before. Several new co-operative associations have been formed. Some well posted correspondents express the conviction that the Annapolis and Cornwallis Valleys will produce 100,000 barrels of apples this year.

District 8—The orchards of Prince Edward Island are receiving more attention this year than ever before. No adverse weather conditions have been reported, but buds are still dormant.

Districts 9 and 10 — Blossoms have opened well in British Columbia, and for the present a good crop is expected except in late varieties.

Pears.

Pear trees are in good condition. In the Niagara district they have begun to bloom and the showing is good. The frosts of the last few weeks have not injured them to any extent, and the wood growth of last season is fair. The British Columbia crop promises to be not more than an average one.

Plums.

The commercial crop of plums this year will in all probability be above the average, if no adverse conditions arise. The crop was rather short last year in many sections, but the trees are in good condition. The black knot, though still present, is not prevalent to the extent of former years, and the tenderer varieties are being gradually eliminated. It is possible that the Japan varieties may show up well this year, though slight injuries have been reported from Southern Ontario and British Columbia.

Peaches.

The outlook in Niagara district is good; the orchards have been well cared for and the weather conditions so far have been favorable. Peach growing is not progressing rapidly in Essex county, is actually declining in Kent, but many new orchards are being planted in Lambton. The crop prospects are only medium, though there are very adverse reports from Lambton county. The British Columbia crop will be very light.

Cherries.

Cherries are showing well in all sections. Though the trees are beginning to bloom nicely in the commercial orchards of Ontario, it is too early to speak confidently of the "set" of fruit.

Grapes.

Grapes have wintered well. The wood of last year was well matured and vigorous. Fortunately the buds were not far enough advanced to be injured by the recent frosts, and the present indications look to at least an average crop.

Small Fruits.

Small fruits generally have come through the winter well. An exception may be made, perhaps, in the case of strawberries, but this exception applies to only limited areas. The lack of snow and the heavy frosts after the snow had disappeared in same cases seriously injured the strawberry crop. Nevertheless if no further adverse conditions intervene, there will be a large aggregate, as there is an increased acreage this year. New Brunswick has now several large growers, and Nova Scotia is paying much more attention to small crops than formerly. The indications in British Columbia are for a light crop.

Raspberries and blackberries came through the season particularly well. Very few winter losses were reported anywhere, even on the moderately tender varieties.

Currants and gooseberries are in their normal condition.

Tomatoes.

No large commercial plantings have yet been made of tomatoes, but the plants are doing well in greenhouses, hotbeds and cold frames. The acreage contracted for by canners is somewhat larger than usual.

Insects.

No insects are reported as being particularly prevalent up to date. There are, however, the usual number of common pests.

Several samples of Bud Moth have been sent to the fruit division, and the Blister Mite is reported over wider areas than formerly.

The Oyster Shell Bark Louse is on the decrease, but it is still prevalent in some sections.

The San Jose Scale continues to spread, but very slowly. In districts seriously affected some years ago, large numbers of fruit growers are reporting that they have no difficulty in controlling it with the lime sulphur, and no longer dread its ravages.

Canker Worm is on the decrease in Nova Scotia, where it has been working great injuries for a series of years. It will likely do serious damage only in a few sections this year.

The Brown Tail Moth in Nova Scotia is being fought most vigorously, and is kept well in control, but there is every indication that there is no prospect of eradicating this pest in the near future.

The Tent Caterpillar is reported from several districts. This is nothing unusual, nor are there any indications that there is anything like an extraordinary infestation at any point. Nevertheless, indications are not wanting that in the neighborhood of Ottawa there will be many trees defoliated this year unless active measures are taken to repress the Tent Caterpillars. Their food plants are distributed so widely in fence rows and neglected bush lots, that the mild infestation of last year may possibly result in a serious invasion this year. Orchards that are well sprayed with the poisoned Bordeaux mixture will in all probability escape any serious injury.

Fungous Diseases.

It is too early to report with reference to these diseases, but there is nothing to indicate more than the usual prevalence.

Spraying.

Perhaps the most noticeable feature in the report sof correspondents for this month, is their universal testimony to the prevalence of spraying. Everywhere orchardists appear to be impressed with the necessity of spraying, and spray pumps, Bordeaux mixture and lime sulphur mixture are being used this year where they never were before. It would be less remarkable if these reports came from one or two sections, but from Prince Edward Island to British Columbia there is a universal revival in connection with combating insects and fungous diseases.

Foreign Fruit Crop Prospects.

Great Britain—Weather conditions have been favorable upon the whole, and though the promise for tree fruits is good at present, it is yet too early to predict a crop. Small fruits have wintered well, and the rather moist weather last fall favored vines and trees.

United States—The conditions generally have been favorable for the apple crop. The Southwestern States show a fairly good bloom and not less than 80 per cent of a full crop. The Pacific States have experienced a fairly cool spring, with no forcing of early bloom. Warmer weather is reported now, and, with the exception of some slight injury to cherry and peach blossoms, no damage is reported from frost.

The Better Care of Orchards.

A marked feature of the apple industry, particularly in Ontario this year, will be the number of orchards that are being worked on rental. A large amount of English capital has been invested through two or three companies in this enterprise. In addition to this, many local apple dealers have changed their methods, and, instead of buying the fruit in the orchard as in former years, they have proceeded to rent the orchards. This has been done on so large a scale that it cannot fail to materially affect the quantity and quality of apples produced in Ontario orchards. Nearly all these rented orchards will be thoroughly sprayed and many of them have been pruned. In most cases there is a stipulation for cultivation of the ground as well. It is safe to say, therefore, that there will be several thousand trees this year receiving cultivation, pruning and spraying that did not receive treatment in former years. The immediate effect of this good treatment will be to increase the crop materially the first year. In estimating the crop for this season, therefore, liberal allowance will have to be made, over and above the usual estimates, for the increased quantity and quality of the apple crop as the result of this feature. This is mentioned here for the purpose of bringing to public notice this new element in the crop estimate, although there is yet insufficient data to make any definite estimate of the actual addition to the crop as the result of these new ventures.

Co-Operative Associations.

Another important feature is the formation of a large number of new co-operative associations; in all probability the number will be double that of last year. Many of these, of course, are very small and may not do effective work the first year. The tendency, however, is towards a better quality of fruit, and a larger quantity of it from the same number of trees. It would be an easy matter, by ordinary good care, to double the merchantable quantity of Ontario apples. This co-operative movement is not confined to Ontario. The development in Nova Scotia is even more noticeable, and it is not at all improbable that the larger portion of the crop will be handled co-operatively there, if not this year, in the very near future. A large increase in the number of associations is also noted from British Columbia.

Directions For Sending Specimens.

Orchardists are urged to examine their trees and plantations very closely for insects and fungous pests. Specimens of insects, if dead, should be wrapped in paper or cotton and inclosed in a pasteboard box. If the specimen is particulary soft it should be packed in cotton saturated in alcohol. Whenever possible, grubs, caterpillars and so forth should be packed alive in a box, together with a supply of their food; air-holes are not necessary. Particulars as to where the insect was found and the nature of the damage which it is doing, whether to leaves, buds or stem, are frequently of very great importance. Send for information and identification of specimens to Dr. C. Gordon Hewitt, Dominion Entomologist, Central Experimental Farm, Ottawa.

Eczema Worse In the Spring

THE BLOOD IS WATERY—DIFFICULT TO GET THE HEALING PROCESS STARTED.

But Whatever the Cause You Can Relieve the Itching and Heal the Sores With

Dr. Chase's Ointment

Salt rheum and eczema are usually worse at this time of year, because of the sudden change of temperature and the watery condition of the blood.

It is not necessary to refer to the suffering caused from the intense itching nor to the tendency of these ailments to spread over the entire body. The essential point is how to bring about cure, and if you have been reading the cures reported from time to time in this paper you will already know that there is nothing like Dr. Chase's Ointment as a cure for eczema, salt rheum, psoriasis and every form of itching skin disease.

This ointment stops the itching almost as soon as applied, lessens the discharge from the vesicles or blisters, cleans out the morbid growth and stimulates the process of healing.

Because other treatments have failed, you may feel discouraged. But in Dr. Chase's Ointment there is a cure for you. We know this because of the reports we have received from so many thousands of cases.

For instance there is the cure of Mrs. Nettie Massey, of Consecon, Ont., who had psoriasis or chronic eczema so bad that almost the whole body was covered with sores, and three doctors failed to cure her. One doctor said she could never be cured. Write to Mrs. Massey about her case.

Dr. Chase's Ointment, 60c a box, at all dealers, or Edmanson, Bates & Co., Limited, Toronto.

TWELVE FREIGHT CARS SMASHED TO FRAGMENTS

Ditched by Broken Axle and Mogul Plunges Into Wreck.

[Canadian Press.]

Beamsville, Ont., May 25.—By the breaking of an axle at 11 o'clock this morning a G. T. R. freight train from the Falls, bound tfor Hamilton and west, was wrecked near here. Twelve cars were smashed to fragments and the track torn up for a considerable distane. A mogul engine pitched into the wreck before it could be stopped, and was badly damaged. A brakeman was hurled over the top of one of the acrs, but escaped serious injury. Trains to the Falls are being sent around by way of a siding until the wreckage is cleared away.

NEW YORK WOMAN LOST IN MIDOCEAN

Mrs. J. W. Sneed Is Mysteriously Drowned, Returning With Family From the Orient.

Seattle, Wash., May 26.—According to wireless advices received today at Victoria, B. C., when the Tamba Maru, of the Nippon Yusen Kaisha line, arrives Wednesday or Thursday from the Orient the steamship's officers will have to report the loss of one of her saloon passengers, Mrs. J. W. Sneed, of New York, wife of the manager of the British-American Tobacco Trust, who is on his way to his New York home with his bereaved family of two grown daughters and two sons.

The tragedy occurred when the Tamba Maru was 155 miles out from Shanghai, where the family had embarked. The younger members of the family were in the social hall singing when the mother was drowned, and they did not know of it until the next morning.

Mr. and Mrs. Sneed, whose cabin was at some distance from that of the children, retired early, and Mrs. Sneed was not missed until half-past three o'clock in the morning, when her husband awakened to find her gone from the stateroom.

The death of Mrs. Sneed is surrounded with the deepest mystery. Whether she fell or was thrown overboard is a question.

It is the theory of some of the passengers that she walked in her sleep and fell over the gangway, only partly secured. Some think she left her cabin to see to her daughter's comfort. The family appeared in the happiest of circumstances.

WORKER AWARDED DAMAGES

Hand Was Crushed by Falling Rock While Working Drill.

[Canadian Press.]

Toronto, May 25.—Chief Justice Falconbridge has awarded Kalle Siven, a miner, of Cobalt, $2,500 damages against the Temiskaming Company for injuries received while in the company's employ on Jan. 13, 1910. His hand was crushed by a falling rock while working at a drill.

CHILD BURNED TO DEATH.

Ottawa, Ont., May 25.—In a fire near Fort Coulonge, Quebec, yesterday, which destroyed the home occupied by two families named Ladouceur and Kingsbury, a daughter of the former, aged three years, perished. The fire had made good headway when discovered, and all the inmates of the building save two small children, a boy and girl, made their escape. The boy was rescued by one of the men of the house, but it was impossible to reach the other child. Her charred remains were found in the ruins after the fire, which was caused by lightning.

Could Not Rest at Night.

Back Was So Weak.

Weak, lame and aching backs are the primary cause of kidney trouble. When the back aches or becomes weak it is a warning from the kidneys that everything is not right with them.

Heed the warning: cure the weak, lame, aching back and dispose of any chances of further trouble.

If you don't do this, serious complications are very apt to arise and the first thing you know you will be troubled with Dropsy, Diabetes or Bright's Disease, the three most deadly forms of Kidney Trouble.

On the first sign of anything wrong Doan's Kidney Pills should be taken. They go to the seat of the trouble and strengthen the kidneys, thereby strengthening the back.

Mrs. John Puigh, Parkdale, Man., writes:—"I have used Doan's Kidney Pills and find nothing to beat them. I could not rest at night my back was so weak. I tried everything, but could not get anything to do me any good until I was told by a friend to use Doan's Kidney Pills. I tried them and I am not the same weak woman I was before. I am very thankful to have found so speedy a cure."

Doan's Kidney Pills are 50 cents per box or 3 for $1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's."

R. J. YOUNG & CO.

A SPLENDID PICTURE THAT OF PREMIER

Hon. S. H. Blake Comments on Sir Wilfrid's Peace Prophesy.

[Canadian Press.]

Ottawa, May 25.—"Aside altogether from politics or any other interest, the grandest condition to my mind in the present day is the picture drawn by Sir Wilfrid Laurier at the imperial conference, of the three thousand miles of boundary lines between the United States and Canada, free from soldier, gun or fortress," stated Hon. S. H. Blake, K.C., of Toronto, in an interview here today.

Asked for an opinion in the ne temere decree, Hon. Mr. Blake said:

"If it means, as it is said, to be promulgated in some of the countries of the world, that a priest can enter a household and by threats or otherwise convince a mother and father that they are living in concubinage, it is worthy of the worst days of the Spanish Inquisition."

CAMBRIDGE EIGHT DEFEATS BELGIUM

Sixty Thousand Persons Witness Defeat of the Favorites.

Ghent, Belgium, May 25.—The eight-oared race between Jesus College, Cambridge, and the Ghent Rowing Club, on the Terneuzen Canal today, resulted in a victory for the Englishmen. The distance was 1 mile 555 yards. The winners' time was 6 minutes 32 seconds, while the Ghent crew covered the distance in 6 minutes 35 seconds. Sixty thousand persons witnessed the race, in which the Belgian crew was the favorite.

C. N. R. PLANS

General Reorganization of Company's System About To Take Place.

Montreal, May 26. — The presence yesterday of Mr. D. B. Hanna, vice-president of the Canadian Northern Railway, in Montreal, is considered of the utmost significance in local railway circles. It is stated that a general reorganization of the company's system, consequent upon the unification of the Canadian Northern Quebec with the Canadian Northern proper as a transcontinental line, is now in progress, the effect of which will be to switch the centre of gravity, so far as the Canadian Northern Railway is concerned, from Toronto to Montreal. It is in connection with this reorganization that Mr. Hanna has come here, and important changes in the local staff, involving several promotions, may be expected in the near future as the outcome of the visit.

ORANGE YOUNG BRITONS

Annual Session of Grand Lodge Held At St. Thomas.

St. Thomas, May 26.—The grand lodge of the Orange Young Britons of Ontario at the annual session here yesterday unanimously passed the following resolution: "That this grand lodge unreservedly condemns the ne temere decree, and places itself on record as also opposed to any interference by any church or society with the civil marriage laws of Canada."

It was decided to take immediate steps to institute drill corps throughout the Province. Addresses of welcome were given the delegates by Messrs. McCormack, county master; E. W. Trump, for the local lodges, and Mayor Guest.

Grand Secretary Hornshaw reported two hundred lodges in the Dominion, with a membership of 14,000, 1,000 of whom are in Toronto.

Grand Treasurer Carscadden reported a surplus on hand of $533 18, and an organization fund of $748 12.

The following officers were elected: Grand master, Gordon Black, Toronto, by acclamation; deputy grand master, W. J. Lowrie, Russell; junior deputy grand master, W. J. Blair, Toronto; grand chaplain, J. J. Young, Hamilton; grand secretary, Shelton Hornshaw, Toronto, re-elected); grand treasurer, T. A. Carscadden, Russel, re-elected; grand director of ceremonies, W. J. Tissack, Ottawa; grand lecturer, J. A. Dickson, Dundas, re-elected; deputy grand chaplain, B. Wing, Brockville; deputy grand secretary, S. A. Moffat, Toronto; deputy grand treasurer, A. J. McDonald, Hamilton; deputy grand lecturers, B. Harcourt, West Toronto, and J. Biers, North Bay; grand auditors, Thomas Patterson, Hamilton, and Alex. McHam, Toronto.

TIRED, RUN DOWN PEOPLE

A NORTH CAROLINA MAN SUGGESTS A REMEDY.

Greensboro, N. C.—"For a long time I was so rundown and debilitated that I could hardly drag around. My appetite was poor and I could not sleep nights. I had tried different so-called tonics without benefit. I was advised to try your cod liver and iron tonic, Vinol, and I am so glad I did, for it gave me a hearty appetite, I soon commenced to sleep soundly and I feel strong, well and more active than I have for years. Every rundown or debilitated person should just give Vinol a trial." K. Allsbrook. (We guarantee this testimonial to be genuine.)

What Vinol did for Mr. Allsbrook it will do for every weak, run-down or debilitated person in this vicinity. To show our faith we will furnish the medicine free if it does not do as we claim. Come in and get a bottle on these terms. W. T. Strong, Druggist, 184 Dundas St., London, Ont. Anderson & Nelles, 268 Dundas St., London, Ont.

LONDON BATTERY LEAVES JUNE 8

Annual Drill Will Then Be Held on the Petawawa Training Grounds.

10 BATTERIES THERE

Some Interesting Facts Concerning This Famous Place Where War Is Played.

In view of the fact that The Sixth London Field Battery leaves for its annual training at Petawawa on the 8th of June, a few words describing this camping ground may prove of interest.

It is situated about 100 miles above the Dominion capital on the Ottawa River, and is about ten miles west of the town of Pembroke. The Government property covers a tract of land of about 50 square miles, and in that area is embodied almost every possible kind of surface, from flat plain to steep hill. That part of the ground set apart for the actual camps is on a bluff overlooking the Ottawa River. In some ways reminding a Londoner of Port Stanley, if one makes allowance for the wild appearance of the surrounding country. The river is several miles wide at this point, and on the Quebec side, almost directly opposite the camp is a summer resort called Fort William, much frequented by people from Pembroke and the neighboring towns. Further off are the hills that form the watersheds on the north, and the view from the camp looking over the river towards the hills is one that is truly beautiful.

Modern Guns.

The necessity for reserving such a large area for artillery practice becomes apparent even to the layman, when it is pointed out that the actual range of a modern field gun is about two and a half miles, and that of the larger modern guns is from four to five miles. The ranges are situated some five miles from the camps, and still another part of the ground is allotted to ordinary drill and manoeuvre. The soil is very sandy and absorbs the rain even more rapidly than is the case at Carling's Heights. Part of the area is covered with scrub brush, and in going places there are fairly thick woods and some small lakes.

The facilities provided at the camp are excellent. Water is piped to all the camp sites, and wash troughs and shower baths are provided for all units. Drinking troughs for horses are placed near each horse line, and the necessity for taking the animals a long way to water them is thus done away with. A complete system of sewers is operated, and the chances of exposure to disease is reduced to a minimum. The water is piped a long distance, and is sweet and pure, while the benefit of a shower bath or a swim in the river after work can only be imagined. All the horses that went up with the London Battery in 1907 put on flesh, as all the conditions appeared to agree with them, and this year the various improvements should better matters considerably still.

Ten Batteries.

There will be ten or more field batteries training at about the same time as the London Battery, and the competition between them all will be very keen. They are all affiliated in the Canadian Artillery Association, which donates annually a large number of cups and money prizes. Some of these are awarded to the battery as a whole, but there are a good number of individual prizes in each unit. These are awarded to the members of each battery for efficiency in the different parts of the work, such as signalling, gunlaying, driving, riding, fuse-setting, etc. These money prizes vary in value from $10 down, and with most of them there is also given a badge which the winner is entitled to wear on his arm when in uniform. From this it will be seen that every member of the London Battery stands a good chance of making something besides his actual pay while at Petawawa.

The actual gun practice of the London Field Battery will this year be carried out under nearly as active service conditions as possible. No member of the battery knows just where the targets are situated, nor what their distance is away. The battery is ordered to rendezvous at some given place at a certain time, and there the commanding officer is handed an order, which instructs him to engage the enemy at some place. He has then to take his battery to this place and after locating the dummies (representing the enemy) to engage them in the manner ordered. The range is secured by firing a series of trial shots, and it is often very difficult to get it properly.

Shooting at Dummies.

The wooden dummies representing men, guns, etc., are by no means easy to see at a distance of some miles, and if the day is wet it is sometimes practically impossible to see whether the shell bursts near them or not. There are three different series to be fired, including one at a rapidly-moving target and the battery that gets the most hits on all three, wins the cup for target practice, provided the umpires consider that the work was carried out in a soldierly and workmanlike manner. It can easily be understood that a battery's success depends as much on the work of each gunner and driver as it does on the officers and that is the great reason why the artillery branch of the service is so much more attractive to the average man, than the other branches. It is interesting, scientific, and each batteryman feels that the success or otherwise of his unit depends in no small measure on his own work.

Mimic War.

The main line of the Canadian Pacific runs through the training ground, and many a tourist has looked out of his car window and wondered when he saw guns being fired and batteries trotting and galloping from place to place. There is a spur line which runs into the centre of the camp grounds, and there are five sidings from which troops can be detrained in short order. It is possible for five trainloads of troops to come in and unload at the same time without inconveniencing one another, which is a great point in favor of Petawawa, as anyone who has camped at Niagara or Goderich will easily realize.

In addition to the many advantages of Petawawa as a working camp the recreation part of it is not overlooked. A large space has been fenced off for the men to indulge in games and sports. A football field is provided, and also a baseball diamond. In 1907 the London Battery took up a baseball nine which early established a reputation for itself, and towards the close of the camp none of the other teams could be persuaded to play, as they were all sure to be beaten. The officers are anxious that a keen interest shall be taken in sports and Lieut Charles Hunt has arranged to provide the necessary equipment in the way of balls, bats, etc.

The Artillery Train.

The London Field Battery will travel to Petawawa by the C. P. R. in a special train, consisting of four passenger coaches, four horse cars (palace type), four flat cars for guns and waggons, and two box cars for baggage. It is expected that the battery will get away early on Thursday afternoon, the 8th of June, so that they will reach the camp grounds early the following morning. The train will probably be in charge of Mr. W. Dockrill, the well-known travelling passenger agent of the C. P. R., and his presence insures a rapid and pleasant trip to destination.

Sergeant - Major Instructor Finney, of the Royal Horse Artillery at Kingston, arrived in London last week and is now busy every evening at instructional work to prepare the officers, non-coms, and men as much as possible for camp. He will remain with the battery during their entire training, and much benefit ought to accrue from his instruction. He understands the work from beginning to end, and has the knack of imparting his knowledge to those he is instructing in a pleasant but effective manner. He has already made several helpful suggestions to Major Leonard about camp arrangements, and it is likely that some other changes will be made at his suggestion which cannot but be of great assistance to the commanding officer.

Getting in Shape.

The London battery is now being carefully organized for camp, and although Tuesday and Thursday are the regular drill nights, some of the officers and men are down every night in the week getting in shape. Major Leonard has not yet picked out his complete number of sergeants and corporals, but that will be done within the next week, so that all gunners and drivers can be posted to their sub-sections before leaving London. There are still some vacancies in the ranks to complete the establishment and those who are contemplating joining the battery should do so within the next few days, as the total number of men to be taken (of all ranks) is only one hundred, and nearly all the old members of the battery can be relied upon to help out the officers this year of all others.

It is expected that the battery will take a good standing this year, and that the new 18-pounder equipment will be issued next fall. It is confidently hoped that Londoners will have every reason to be proud of the local battery, and a great deal of interest is being expressed about Petawawa and the annual camp. A royal salute of 21 guns will be fired on June 3, the King's birthday, at noon, and it is of interest to note that this will probably be the last time the battery will turn out mounted to perform this duty. It is the intention of the authorities to install a saluting battery of guns permanently in Victoria Park in the near future, and when this is done these guns will be used for salutes instead of the more modern field guns with which the battery is armed.

Coronation Representative.

Major Woodman Leonard yesterday received word from Quartermaster-Sergeant Scott, the battery representative on the coronation contingent, that he reached Kingston safely and that he is now hard at work with the other battery representatives getting in shape for the trip. Sergeant Scott is reaping the reward of faithful service in the battery, as he joined it in 1905 and has worked hard to help the officers and men ever since. The next five years ought to be interesting ones for the Canadian militia with the Duke of Connaught as Governor-General. He is a keen soldier, and will no doubt take more interest in the militia than any previous viceroy. There will also probably be some very large reviews during his regime, and most units will probably have some sort of a trip to attend same, similar to those at Toronto in 1902 and Quebec in 1908.

MAKE YOUR DOLLARS COUNT

Buy at the Ontario Furniture Company and save money. There's no stock in London like this. 40,000 square feet of floor space crowded with homefurnishings, making the greatest showing in Western Ontario.

$3.95

DYSPEPSIA

"Having taken your wonderful 'Cascarets' for three months and being entirely cured of stomach catarrh and dyspepsia, I think a word of praise is due to 'Cascarets' for their wonderful composition. I have taken numerous other so-called remedies but without avail, and I find that Cascarets relieve more in a day than all the others I have taken would in a year." James McGune,
108 Mercer St., Jersey City, N. J.

Pleasant, Palatable, Potent. Taste Good. Do Good. Never Sicken, Weaken or Gripe. 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C C C. Guaranteed to cure or your money back. 918

SOUR STOMACH?

MI-O-NA WILL CURE YOU.

The stomach supplies nourishing blood to the muscles, the nerves, and skin. If it is not healthy, the food will ferment and undigested will pass along through the bowels, furnishing so little nutritious matter that the blood becomes impoverished, and the glow of health vanishes.

If you suffer from nervousness, sick headache, belching of gas, sour taste in the mouth, heaviness after eating, or any other miserable stomach disturbance, you need Mi-o-na Tablets. They will relieve any distressed stomach condition almost immediately and are guaranteed to cure if used according to directions. Sold by all Druggists for 50 cents a large box or postpaid from The R. T. Booth Co., Ltd., Fort Erie, Ont. Be sure you ask for Mi-o-na the guaranteed remedy for indigestion and stomach trouble. Sold and guaranteed by Cairncross & Lawrence.

Be Good to Yourself

and the world will be good to you. The way is to keep your stomach, liver, kidneys and bowels right. And you'll find great help in

GOVT. REPORT OF FRUIT CROP

Conditions of Orchards From the Atlantic to Pacific.

EFFECTS OF LATE FROST

General Outlook In Apples, Pears and Peaches Is Good.

[Special to The Advertiser.]

Ottawa, May 25.—No losses in Eastern Canada have been reported from winter killing, except in the case of strawberries, and then only from limited areas. The losses reported have been less than for several years. For a number of winters, even when the conditions did not appear to be unfavorable, fairly serious losses from winter killing have been reported. This was accounted for by the injuries which the trees received during the cold series of winters from 1899 to 1904. Apparently normal conditions have been restored, and Canadian orchards are again strong and vigorous. The snowfall was not excessive anywhere, and the orchards have escaped the ordinary sleetstorms that nearly always prevail in one section or another.

Spring Weather.—The spring of 1911 is reported somewhat backward, but not excessively so; and in most cases the fruit growers report that this tardiness has been a positive advantage, as it is likely to prevent losses from late frosts. Fairly heavy frosts were prevalent the first week in May, but no serious damage was reported. The latest reports indicate that rain is now needed in Eastern Canada. In British Columbia serious damage to the peach and cherry crop is reported as the result of frost.

Apples.

The prospects for bloom this year are excellent. It is too early, of course, to speak except as to the show in bud. The wood growth and bud development during the summer and fall of 1910 was excellent, and close observers predict an excellent show of blossoms, if there are no unfavorable conditions later in Mai. This is the report of May 15.

District 1—All varieties are reported in good condition, with every prospect up to date of a good crop. Doubt is expressed only in the case of Spies, possibly because these bore fairly wel last year.

District 2—In 1909 a heavy crop was grown in this district. In 1910 the crop was very light, but the wood and tree growth was good. It is confidently expected, therefore, that if the favorable conditions of the present time are continued, the crop for 1911 will be good.

District 3—This district in 1910 had a fair crop of Baldwins and Spies, and though the majority of correspondents report everything favorable up to date, a few have expressed doubts with reference to Spies and Baldwins. The orchards in this district are receiving extra care this year and many new orchards are coming into bearing.

District 4—The Fameuse and McIntosh are in excellent condition. Wealthy, Duchess and Wolfe River are showing up well.

Districts 5 and 7 have had no winter losses, and so far as can be judged from the dormant buds have reason to expect at least an average crop.

District 6—The fruit growers of the Annapolis Valley are particularly optimistic. Though there was an exceedingly small crop last year, the trees were well cared for and made excellent growth. Spraying, pruning, fertilization and cultivation have been practiced as never before. Several new co-operative associations have been formed. Some well posted correspondents express the conviction that the Annapolis and Cornwallis Valleys will produce 100,000 barrels of apples this year.

District 8—The orchards of Prince Edward Island are receiving more attention this year than ever before. No adverse weather conditions have been reported, but buds are still dormant.

Districts 9 and 10 — Blossoms have opened well in British Columbia, and for the present a good crop is expected except in late varieties.

Pears.

Pear trees are in good condition. In the Niagara district they have begun to bloom and the showing is good. The frosts of the last few weeks have not injured them to any extent, and the wood growth of last season is fair. The British Columbia crop promises to be not more than an average one.

Plums.

The commercial crop of plums this year will in all probability be above the average, if no adverse conditions arise. The crop was rather short last year in many sections, but the trees are in good condition. The black knot, though still present, is not prevalent to the extent of former years, and the tenderer varieties are being gradually eliminated. It is possible that the Japan varieties may show up well this year, though slight injuries have been reported from Southern Ontario and British Columbia.

Peaches.

The outlook in Niagara district is good; the orchards have been well cared for and the weather conditions so far have been favorable. Peach growing is not progressing rapidly in Essex county, is actually declining in Kent, but many new orchards are being planted in Lambton. The crop prospects are only medium, though there are very adverse reports from Lambton county. The British Columbia crop will be very light.

Cherries.

Cherries are showing well in all sections. Though the trees are beginning to bloom nicely in the commercial orchards of Ontario, it is too early to speak confidently of the "set" of fruit.

Grapes.

Grapes have wintered well. The wood of last year was well matured and vigorous. Fortunately the buds were not far enough advanced to be injured by the recent frosts, and the present indications look to at least an average crop.

Small Fruits.

Small fruits generally have come through the winter well. An exception may be made, perhaps, in the case of strawberries, but this exception applies to only limited areas. The lack of snow and the heavy frosts after the snow had disappeared in same cases seriously injured the strawberry crop. Nevertheless if no further adverse conditions intervene, there will be a large aggregate, as there is an increased acreage this year. New Brunswick has now several large growers, and Nova Scotia is paying much more attention to small crops than formerly. The indications in British Columbia are for a light crop.

Raspberries and blackberries came through the season particularly well. Very few winter losses were reported anywhere, even on the moderately tender varieties.

Currants and gooseberries are in their normal condition.

Tomatoes.

No large commercial plantings have yet been made of tomatoes, but the plants are doing well in greenhouses, hotbeds and cold frames. The acreage contracted for by canners is somewhat larger than usual.

Insects.

No insects are reported as being particularly prevalent up to date. There are, however, the usual number of common pests.

Several samples of Bud Moth have been sent to the fruit division, and the Blister Mite is reported over wider areas than formerly.

The Oyster Shell Bark Louse is on the decrease, but it is still prevalent in some sections.

The San Jose Scale continues to spread, but very slowly. In districts seriously affected some years ago, large numbers of fruit growers are reporting that they have no difficulty in controlling it with the lime sulphur, and no longer dread its ravages.

Canker Worm is on the decrease in Nova Scotia, where it has been working great injuries for a series of years. It will likely do serious damage only in a few sections this year.

The Brown Tail Moth in Nova Scotia is being fought most vigorously, and is kept well in control, but there is every indication that there is no prospect of eradicating this pest in the near future.

The Tent Caterpillar is reported from several districts. This is nothing unusual, nor are there any indications that there is anything like an extraordinary infestation at any point. Nevertheless, indications are not wanting that in the neighborhood of Ottawa there will be many trees defoliated this year unless active measures are taken to repress the Tent Caterpillars. Their food plants are distributed so widely in fence rows and neglected bush lots, that the mild infestation of last year may possibly result in a serious invasion this year. Orchards that are well sprayed with the poisoned Bordeaux mixture will in all probability escape any serious injury.

Fungous Diseases.

It is too early to report with reference to these diseases, but there is nothing to indicate more than the usual prevalence.

Spraying.

Perhaps the most noticeable feature in the report sof correspondents for this month, is their universal testimony to the prevalence of spraying. Everywhere orchardists appear to be impressed with the necessity of spraying, and spray pumps, Bordeaux mixture and lime sulphur mixture are being used this year where they never were before. It would be less remarkable if these reports came from one or two sections, but from Prince Edward Island to British Columbia there is a universal revival in connection with combating insects and fungous diseases.

Foreign Fruit Crop Prospects.

Great Britain—Weather conditions have been favorable upon the whole, and though the promise for tree fruits is good at present, it is yet too early to predict a crop. Small fruits have wintered well, and the rather moist weather last fall favored vines and trees.

United States—The conditions generally have been favorable for the apple crop. The Southwestern States show a fairly good bloom and not less than 80 per cent of a full crop. The Pacific States have experienced a fairly cool spring, with no forcing of early bloom. Warmer weather is reported now, and, with the exception of some slight injury to cherry and peach blossoms, no damage is reported from frost.

The Better Care of Orchards.

A marked feature of the apple industry, particularly in Ontario this year, will be the number of orchards that are being worked on rental. A large amount of English capital has been invested through two or three companies in this enterprise. In addition to this, many local apple dealers have changed their methods, and, instead of buying the fruit in the orchard as in former years, they have proceeded to rent the orchards. This has been done on so large a scale that it cannot fail to materially affect the quantity and quality of apples produced in Ontario orchards. Nearly all these rented orchards will be thoroughly sprayed and many of them have been pruned. In most cases there is a stipulation for cultivation of the ground as well. It is safe to say, therefore, that there will be several thousand trees this year receiving cultivation, pruning and spraying that did not receive treatment in former years. The immediate effect of this good treatment will be to increase the crop materially the first year. In estimating the crop for this season, therefore, liberal allowance will have to be made, over and above the usual estimates, for the increased quantity and quality of the apple crop as the result of this feature. This is mentioned here for the purpose of bringing to public notice this new element in the crop estimate, although there is yet insufficient data to make any definite estimate of the actual addition to the crop as the result of these new ventures.

Co-Operative Associations.

Another important feature is the formation of a large number of new co-operative associations; in all probability the number will be double that of last year. Many of these, of course, are very small and may not do effective work the first year. The tendency, however, is towards a better quality of fruit, and a larger quantity of it from the same number of trees. It would be an easy matter, by ordinary good care, to double the merchantable quantity of Ontario apples. This co-operative movement is not confined to Ontario. The development in Nova Scotia is even more noticeable, and it is not at all improbable that the larger portion of the crop will be handled co-operatively there, if not this year, in the very near future. A large increase in the number of associations is also noted from British Columbia.

Directions For Sending Specimens.

Orchardists are urged to examine their trees and plantations very closely for insects and fungous pests. Specimens of insects, if dead, should be wrapped in paper or cotton and inclosed in a pasteboard box. If the specimen is particulary soft it should be packed in cotton saturated in alcohol. Whenever possible, grubs, caterpillars and so forth should be packed alive in a box, together with a supply of their food; air-holes are not necessary. Particulars as to where the insect was found and the nature of the damage which it is doing, whether to leaves, buds or stem, are frequently of very great importance. Send for information and identification of specimens to Dr. C. Gordon Hewitt, Dominion Entomologist, Central Experimental Farm, Ottawa.

TWELVE FREIGHT CARS SMASHED TO FRAGMENTS

Ditched by Broken Axle and Mogul Plunges Into Wreck.

[Canadian Press.]

Beamsville, Ont., May 25.—By the breaking of an axle at 11 o'clock this morning a G. T. R freight train from the Falls, bound tfor Hamilton and west, was wrecked near here. Twelve cars were smashed to fragments and the track torn up for a considerable distane. A mogul engine pitched into the wreck before it could be stopped, and was badly damaged. A brakeman was hurled over the top of one of the cars, but escaped serious injury. Trains to the Falls are being sent around by way of a sliding until the wreckage is cleared away.

NEW YORK WOMAN LOST IN MIDOCEAN

Mrs. J. W. Sneed Is Mysteriously Drowned, Returning With Family From the Orient.

Seattle, Wash., May 26. According to wireless advices received today at Victoria, B. C., when the Tamba Maru, of the Nippon Yusen Kaisha line, arrives Wednesday or Thursday from the Orient the steamship's officers will have to report the loss of one of her saloon passengers, Mrs. J. W. Sneed, of New York, wife of the manager of the British-American Tobacco Trust, who is on his way to his New York home with his bereaved family of two grown daughters and two sons.

The tragedy occurred when the Tamba Maru was 155 miles out from Shanghai, where the family had embarked. The younger members of the family were in the social hall singing when the mother was discovered, and they did not know of it until the next morning.

Mr. and Mrs. Sneed, whose cabin was at some distance from that of the children, retired early, and Mrs. Sneed was not missed until half-past three o'clock in the morning, when her husband awakened to find her gone from the stateroom.

The death of Mrs. Sneed is surrounded with the deepest mystery. Whether she fell or was thrown overboard is a question.

It is the theory of some of the passengers that she walked in her sleep and fell over the gangway, only partly secured. Some think she left her cabin to see to her daughter's comfort. The family appeared in the happiest of circumstances.

WORKER AWARDED DAMAGES

Hand Was Crushed by Falling Rock While Working Drill.

[Canadian Press.]

Toronto, May 25. Chief Justice Falconbridge has awarded Kalle Siven, a miner, of Cobalt, $2,500 damages against the Temiskaming Company for injuries received while in the company's employ on Jan. 13, 1910. His hand was crushed by a falling rock while working at a drill.

CHILD BURNED TO DEATH.

Ottawa, Ont., May 25.—In a fire near Fort Coulonge, Quebec, yesterday, which destroyed the home occupied by two families named Ladouceur and Kingsbury, a daughter of the former, aged three years, perished. The fire had made good headway when discovered, and all the inmates of the building save two small children, a boy and girl, made their escape. The boy was rescued by one of the men of the house, but it was impossible to reach the other child. Her charred remains were found in the ruins after the fire, which was caused by lightning.

R. J. YOUNG & CO.

A SPLENDID PICTURE THAT OF PREMIER

Hon. S. H. Blake Comments on Sir Wilfrid's Peace Prophesy.

[Canadian Press.]

Ottawa, May 25.—"Aside altogether from politics or any other interest, the grandest condition to my mind in the present day is the picture drawn by Sir Wilfrid Laurier at the imperial conference, of the three thousand miles 'of boundary lines between the United States and Canada, free from soldier, gun or fortress,'" stated Hon. S. H. Blake, K.C., of Toronto, in an interview here today.

Asked for an opinion in the ne temere decree, Hon. Mr. Blake said:

"If it means, as it is said, to be promulgated in some of the countries of the world, that a priest can enter a household and by threats or otherwise convince a mother and father that they are living in concubinage, it is worthy of the worst days of the Spanish Inquisition."

CAMBRIDGE EIGHT DEFEATS BELGIUM

Sixty Thousand Persons Witness Defeat of the Favorites.

Ghent, Belgium, May 25.—The eight-oared race between Jesus College, Cambridge, and the Ghent Rowing Club, on the Terneuzen Canal today, resulted in a victory for the Englishmen. The distance was 1 mile 555 yards. The winners' time was 6 minutes 32 seconds, while the Ghent crew covered the distance in 6 minutes 35 seconds. Sixty thousand persons witnessed the race, in which the Belgian crew was the favorite.

C. N. R. PLANS

General Reorganization of Company's System About To Take Place.

Montreal, May 26. — The presence yesterday of Mr. D. B. Hanna, vice-president of the Canadian Northern Railway, in Montreal, is considered of the utmost significance in local railway circles. It is stated that a general reorganization of the company's system, consequent upon the unification of the Canadian Northern Quebec with the Canadian Northern proper as a transcontinental line, is now in progress, the effect of which will be to switch the centre of gravity, so far as the Canadian Northern Railway is concerned, from Toronto to Montreal. It is in connection with this reorganization that Mr. Hanna has come here, and important changes in the local staff, involving several promotions, may be expected in the near future as the outcome of the visit.

ORANGE YOUNG BRITONS

Annual Session of Grand Lodge Held At St. Thomas.

St. Thomas, May 26.—The grand lodge of the Orange Young Britons of Ontario at the annual session here yesterday unanimously passed the following resolution: "That this grand lodge unreservedly condemns the ne temere decree, and places itself on record as also opposed to any interference by any church or society with the civil marriage laws of Canada."

It was decided to take immediate steps to institute drill corps throughout the Province. Addresses of welcome were given the delegates by Messrs. McCormack, county master; E. W. Trump, for the local lodges, and Mayor Guest.

Grand Secretary Hornshaw reported two hundred lodges in the Dominion, with a membership of 14,000, 1,000 of whom are in Toronto.

Grand Treasurer Carscadden reported a surplus on hand of $533 18, and an organization fund of $748 12.

The following officers were elected: Grand master, Gordon Black, Toronto, by acclamation; deputy grand master, W. J. Lowrie, Russell; junior deputy grand master, W. J. Blair, Toronto; grand chaplain, J. J. Young, Hamilton; grand secretary, Shelton Hornshaw, Toronto, re-elected; grand treasurer, T. A. Carscadden, Russel, re-elected, grand director of ceremonies, W. J. Tissack, Ottawa; grand lecturer, J. A. Dickson, Dundas, re-elected; deputy grand chaplain, B. Wing, Brockville; deputy grand secretary, S. A. Moffat, Toronto; deputy grand treasurer, A. J. McDonald, Hamilton; deputy grand lecturers, B. Harcourt, West Toronto, and J. Biers, North Bay; grand auditors, Thomas Patterson, Hamilton, and Alex. McHam, Toronto.

TIRED, RUN DOWN PEOPLE

A NORTH CAROLINA MAN SUGGESTS A REMEDY.

Greensboro, N. C.—"For a long time I was so rundown and debilitated that I could hardly drag around. My appetite was poor and I could not sleep nights. I had tried different so-called tonics without benefit. I was advised to try your cod liver and iron tonic, Vinol, and I am so glad I did, for it gave me a hearty appetite, I soon commenced to sleep soundly and I feel strong, well and more active than I have for years. Every rundown or debilitated person should just give Vinol a trial." K Allsbrook. (We guarantee this testimonial to be genuine.)

What Vinol did for Mr. Allsbrook it will do for every weak, run-down or debilitated person in this vicinity. To show our faith we will furnish the medicine free if it does not do as we claim. Come in and get a bottle on these terms. W. T. Strong, Druggist, 184 Dundas St., London, Ont. Anderson & Nelles, 268 Dundas St., London, Ont.

Eczema Worse In the Spring

THE BLOOD IS WATERY—DIFFICULT TO GET THE HEALING PROCESS STARTED.

But Whatever the Cause You Can Relieve the Itching and Heal the Sores With

Dr. Chase's Ointment

Salt rheum and eczema are usually worse at this time of year, because of the sudden change of temperature and the watery condition of the blood.

It is not necessary to refer to the suffering caused from the intense itching nor to the tendency of these ailments to spread over the entire body. The essential point is how to bring about cure, and if you have been reading the cures reported from time to time in this paper you will already know that there is nothing like Dr. Chase's Ointment as a cure for eczema, salt rheum, psoriasis and every form of itching skin disease.

This ointment stops the itching almost as soon as applied, lessens the discharge from the vesicles or blisters, cleans out the morbid growth and stimulates the process of healing.

Because other treatments have failed, you may feel discouraged. But in Dr. Chase's Ointment there is a cure for you. We know this because of the reports we have received from so many thousands of cases.

For instance there is the cure of Mrs. Nettie Massey, of Consecon, Ont., who had psoriasis or chronic eczema so bad that almost the whole body was covered with sores, and three doctors failed to cure her. One doctor said she could never be cured. Write to Mrs. Massey about her case.

Dr. Chase's Ointment, 60c a box, at all dealers, or Edmanson, Bates & Co., Limited, Toronto.

Could Not Rest at Night.

Back Was So Weak.

Weak, lame and aching backs are the primary cause of kidney trouble. When the back aches or becomes weak it is a warning from the kidneys that everything is not right with them.

Heed the warning: cure the weak, lame, aching back and dispose of any chances of further trouble.

If you don't do this, serious complications are very apt to arise and the first thing you know you will be troubled with Dropsy, Diabetes or Bright's Disease, the three most deadly forms of Kidney Trouble.

On the first sign of anything wrong Doan's Kidney Pills should be taken. They go to the seat of the trouble and strengthen the kidneys, thereby strengthening the back.

Mrs. John Puigh, Parkdale, Man., writes:—"I have used Doan's Kidney Pills and find nothing to beat them. I could not rest at night my back was so weak. I tried everything, but could not get anything to do me any good until I was told by a friend to use Doan's Kidney Pills. I tried them and I am not the same weak woman I was before. I am very thankful to have found so speedy a cure."

Doan's Kidney Pills are 50 cents per box or 3 for $1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's."

QUIET AT MEXICO CITY.

Mexico City, May 26.—Owing to the fact that Mexico City was orderly through the night despite the magnitude of the crowd which celebrated the change in administration, businessmen this morning prepared to resume their occupations on a normal basis. Shutters were removed from the windows for the first time in weeks in many instances.

WIPED OUT BY AVALANCHE.

St. Petersburg, May 26.—Word has reached here that the village of Orochor, situated on Pamir Plateau, in West Central Asia, has been overwhelmed by an avalanche. One hundred and twenty-eight persons were killed.

the occasion, reached almost to the end of the train, and was held by a coronet of myrtle and orange blossoms. Her bouquet was of roses and lilies of the valley.

After the ceremony the guests drove to Claridge's Hotel, where they were received by Lady Furness. Later Mr. and Mrs. Bryan left for Paris, and will spend the honeymoon in the south of France, Switzerland, and the Italian lakes. The bride travelled in an embroidered gown of palest oyster grey marquisette, with hat to match.

LINKING UP EMPIRE WITH THE WIRELESS

Message Flashed From Canada to Western Africa in Sixty Seconds.

[Canadian Press.]

Glace Bay, C. B., May 26.—One hour by wireless from Glace Bay, C. B., to Dakar, on the coast of French Western Africa, is the astonishing feat that has just been accomplished at the Glace Bay wireless station. The message was flashed from here to the Eiffel Tower station in Paris, and from there relayed to the Dakar station, the whole operation taking but 60 minutes. So successful was the experiment that it is announced that the British dependencies will be linked together by wireless, and plans to this end are now being made. Between 70 and 70 new stations will be required to put this girdle around the world.

BOOK-MAKING ON THE BASEBALL GAMES

Odds Openly Posted on All Results in the Major and Minor Leagues.

Memphis, Tenn., May 26. That a general plan has been made to attempt wholesale bookmaking on major and minor league games was indicated here yesterday when odds were openly posted on results of all American, National and Southern League games. Special prices were provided when requests were made, but 8 to 1 was offered that the public could not pick four winners in any one league. This follows a report that bookmakers, formerly well known on race tracks, had opened a general agency at Hot Springs, Ark., for the purpose of laying odds on baseball games. Little business was done locally.

BALLOONIST DROPS INTO LAKE ERIE

Aerial Craft Disappears About Ten Miles Off Sandusky.

[Canadian Press.]

Sandusky, O., May 26. A balloon, apparently in distress and drifting northward over Lake Erie, was seen late yesterday to drop into the water about ten miles off shore. Watchers with field glasses declared they saw a man in the basket. For a time the balloon would rise and then drop to within a few feet of the water. Suddenly it went down out of sight. Searching parties in launches have returned here without finding any trace of the air craft.

MAYOR BEATTIE REFUSED

Continued From Page One.

and declaring that there was absolutely no power to name one.

The board of education had the power, his worship pointed out, to consider charges against any individuals in the schools, and expel them if found guilty.

"I want it understood that nothing immoral has been brought out in connection with our schools," said Inspector Edwards. "All that I have heard has been outside the schools altogether."

Principal Waller and Inspector Edwards withdrew, and Dr. Ross and Mayor Beattie continued their discussion.

Improve Conditions.

"I think it would be much better," said his worship, "if the good citizens of London would devote their energies towards improving conditions. Let the parents of the boys and girls be taught the responsibility they have with their children. They should be taught morality in the home. Playgrounds should be provided, properly supervised, where the youngsters, after they are out of school, may be looked after. Steps should be taken to prevent them congregating on the streets, and above all, the parents should keep their children off the streets at night. If they would do this rather than try to ventilate the state of things said to exist, much better results would be accomplished, to my mind at least. We would not elevate the moral tone of this city one iota by a commission. A lot of filth probably would be brought out and published and, as a result, the minds of the children would be corrupted worse than they are now. It would not remedy the evils complained of whatever. Your aims are praiseworthy, but, pardon me for saying it, are misdirected."

A Possible Impression.

"The impression might prevail that conditions here are so bad that they would not bear investigation," said Dr. Ross. "There is that side of the question. However, I will not argue the matter any further. I will leave it in your hands."

Mayor Beattie and Ald. Eckert, who dropped in, discussed the matter at some length, and his worship announced that he would positively refuse to name a commission.

"I have no power to do so," said Mayor Beattie. "I certainly have no desire to do so. I think London has been misrepresented sufficiently as it is, without any further evidence being brought out. Let the matter die out, and then the good people who are behind the agitation can devote their energies towards devising schemes to protect the young."

ANOTHER FASHIONABLE OLD LONDON WEDDING

Former Toronto Man Married to Niece of Lord Furness.

London, May 26. — Another large and fashionable wedding of special interest to Torontonians was celebrated yesterday at St. Mark's Church, North Audley street, by the Rt. Rev. W. Boyd-Carpenter, Bishop of Ripon, assisted by Rev. H. R. Cronshaw, vicar, when Mr. Claude Glennon Bryan, eldest son of the Rev. Bernard Bryan, rector of the Church of the Epiphany, Parkdale, Toronto, and canon of St. Alban's Cathedral, and Mrs. Bryan, was married to Annette, niece of Lord and Lady Furness. Sir Wilfrid Laurier was present.

There were six bridesmaids and two pages, Masters Frank Furness, nephew of the bride, and Charles Madden, son of Rear-Admiral Madden, dressed in white satin Charles I. costumes, carried the court train. The bridesmaids, Miss Astrid Furness, sister of the bride; Miss Ada Brown, a cousin; Miss Isobel Blyth, niece of Lord and Lady Blyth; Miss Ella Barwick; Miss Mary Furness, a niece, and Miss Joyce Gold, daughter of Mr. Harcourt Gold, the famous Oxford stroke, were dressed in maize-colored satin, veiled with chiffon, and blue sashes. All wore the bridegroom's favors, which consisted of very handsome brooches of blue enamel on gold, inset with pearls and diamonds.

Hon. W. Mackenzie King, Hon. Marmaduke Furness, son and heir of Lord Furness; Dr. A. G. Mackenzie, of Toronto; Mr. Harry Wallace, and Dr. Badgerow were the groomsmen.

The bride, who was given away by Lord Furness, with whom she has lived as a daughter for years, wore a dress of old needlepoint lace, an heirloom in the family, mounted in chiffon. Her full court train was of silver brocade lined with satin, and the long veil of the same old lace, which was lent by Lady Furness for

DYSPEPSIA Can Be Cured.

This disease is the all prevailing malady of civilized life, and one which oftenest baffles all ordinary treatment. It gives rise to a great variety of distressing symptoms, such as distress after eating, rising and souring of food, wind in the stomach, heartburn, etc.

Nearly everything that enters a weak dyspeptic stomach acts as an irritant; hence the great difficulty of effecting a cure.

The long train of distressing symptoms, which render life a burden to the victim of dyspepsia, may be promptly cured by the use of Burdock Blood Bitters.

B.B.B. regulates the stomach, liver and bowels, stimulates secretion of the saliva and gastric juice to facilitate digestion, purifies the blood, and tones up the entire system.

Mrs. Herman Dickens, Benton, N.B., writes: "I have used Burdock Blood Bitters and find that few medicines can give such relief in dyspepsia and stomach troubles. I was troubled for a number of years with dyspepsia, and could get no relief until I tried Burdock Blood Bitters. I took three bottles and became cured, and I can now eat anything without it hurting me. I will highly recommend it to all who are troubled with stomach trouble."

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

DE LA BARRA IN CONTROL

News Greeted by Wild Manifestations of Delight by Populace of the Capital.

Mexico City, May 25. — President Diaz, in a pathetic letter read by the president of the Chamber of Deputies, this afternoon resigned the presidency of the Republic of Mexico, which he had occupied for seven terms and part of another, and at 4:54 o'clock the acceptance of the resignation by the deputies was announced. Vice-President Ramon Corral's resignation was also accepted, and Minister of Foreign Affairs Francisco Leon de la Barra was chosen provisional president to serve until a general election can be held. Everyone had expected an uproar when the announcements should be made, but within the chamber the words announcing the event were followed by silence. The deputies seemed awed by what had taken place.

Populace Rejoices.

In the streets, black with people, the news that Diaz was no longer the president was the signal for wild shouting and manifestations. There was no violence or destruction of property.

On the motion to accept the president's resignation, 167 voted "Aye," while no expression was made by Benito Juarez, a descendant of President Juarez, and Concepcion Delvalle. As their names were called all other legislators rose and bowed their affirmation.

In similar fashion the resignation of Vice-President Corral, now in France, was accepted, and similarly Senor de la Barra, recently ambassador to Washington, was chosen provisional president. Senor de la Barra will take the oath of office at noon tomorrow in the yellow parlor of the national palace.

Military control of the federal district was assumed by Alfredo Robles Dominguez, Madero's personal representative, insuring the handling of popular demonstrations by a leader of the new regime. The federal garrison is under orders to make no move whatsoever without his approval. Senor Dominguez said that he could bring 5,000 organized rebel troops into the city within three hours. Their baggage and horses are aboard trains furnished by the Government at Cuernavaca, Pachuca and Tlalnepantla.

Dominguez tonight said that the troops would remain at their present stations until they should be needed in Mexico City to control the situation.

The President's farewell letter was as follows:

"The Mexican people who generously have covered me with honors, who proclaimed me as their leader during the international war, who patriotically assisted me in all works undertaken to develop industry and the commerce of the republic, establish its credit, gain for it the respect of the world and obtain for it an honorable position in the concert of nations; that same people has revolted in armed military bands, stating that my presence in the exercise of the supreme executive power is the cause of this insurrection.

"I do not know of any fact imputable to me which could have caused this social phenomenon, but permitting, though not admitting, that I may be unwittingly culpable, I come before the supreme representatives of the nation in order to resign, unreservedly, the office of president, which I do with all the more reason since, in order to continue in office, it would be necessary to shed Mexican blood.

"I hope, gentlemen, that when the passions which are inherent to all revolutions have been calmed, a more conscientious and justified study will bring out in the national mind a correct acknowledgment, which will allow me to die carrying engraved in my soul a just impression of the estimation of my life, which throughout I have devoted, and will devote, to my countrymen."

BOER WAR VETERAN IN MEXICAN STRIFE

Leading an Expedition Against Rebels of Lower California.

[Canadian Press.]

Juarez, Mexico, May 26. — Senor Madero today announced that his brother, Major Raoul Madero, and General Viljoen, a veteran of the Boer war, would lead an expedition to Lower California next week to silence the revolutionists there. About seven hundred men and artillery will be taken.

THE FIRST SUICIDE FROM NEW BRIDGE

Man Leaps From Centre of Span of New East River Structure.

New York, May 26.—The new Manhattan bridge, which soars across the East River just north of the original Brooklyn bridge, received its baptism of suicide today. John Doherty, of Brooklyn, aged 35, jumped from the centre of the span and was dead before he could be hauled out of the water, not from drowning, but from the shock of the long fall.

A POET'S DIVORCE SUIT.

New York, May 6.—Richard Le Gallienne, the poet, did not oppose his wife's divorce suit yesterday when it came to trial. He was present but the suit was tried as an undefended action.

Mrs. Julie Norregar Le Gallienne is living in Paris. Her suit is based on statutory grounds and involves a young New York woman whose name she says she does not know.

The Le Gallennes were married in London in 1892, and have one child, a daughter 12 years old.

FLYER VEDRINE REACHES MADRID

Gilbert and Garros, His Rivals, Stalled in Mountains.

KISSES FOR THE VICTOR

Delivers Message From Paris and Is Congratulated by King Alfonso.

[Canadian Press.]

Madrid, May 26.—Pierre Vedrine, the French aviator, arrived at the Spanish capital from Burgos at 8:06 o'clock this morning, being the first contestant to complete the third stage of the Paris-to-Madrid aviation race. He covered the distance of 140 miles between Madrid and Burgos, where he landed yesterday from St. Sebastian in two hours and forty-five minutes. Gibert and Garros are still stalled in the mountain fastnesses, and it is not thought probable that they will be able to finish within the time limit.

Vedrine, on landing at the Getafe aerodrome, was so tired after his voyage he jumped from his aeroplane and flung himself on the ground to rest. A frantic crowds on rushed up, however, and bore the victorious aviator on their shoulders to the judges' platform where he was kissed repeatedly by women.

Later, on complaining that he was still numb from his flight, he was removed to an infirmary where he received medical attention and a short, but much needed, rest. On reappearing at the aerodrome the Frenchman smilingly delivered the message which he had brought with him from Paris, and was congratulated on his magnificent flight by the civil governor of Madrid on behalf of King Alfonso.

Vedrine left the suburbs of Burgos in ideal weather this morning and flew over Aranda De Duero, 48 miles south of Burgos at a good height, and at a great speed.

The Paris to Madrid race was begun on May 21 under the auspices of the Petit Parisien, which offered a prize of $20,000. In addition to this, the Spanish Aero Club gave prizes amounting to $10,000, and King Alfonso offered a special prize for the fastest speed over the Spanish section. The journey was divided into three stages, Paris to Angouleme, Angouleme to St. Sebastian, and St. Sebastian to Madrid, a total distance of about six hundred miles.

Twenty machines were entered for the race, but as a result of the tragic accident, when the start was made from the Issy-Les-Moulineaux aviation field, which resulted in the death of M. Bertcaux, the French minister of war, and in serious injury to Premier Monis, all but three of the aviators withdrew. Of these three, Pierre Vedrine, who reached the Spanish capital this morning, was the favorite. He covered the first stage of the contest, 275 miles, in 3 hours and 39 minutes, breaking all records for a long distance country flight. The running time of the southern express between Paris and Angouleme was beaten by Vedrine by 1 hour and 39 minutes.

FINANCIAL AND COMMERCIAL

OATS ARE STILL IN KEEN DEMAND

Sold Readily on Local Market at From $1.17 to $1.18 Per Cwt.

POULTRY PRICES HIGH

Hay Shows a Falling Off in Price—The Quotations Today.

Outside of some 20 loads of hay there was little or no market on the local square this morning.

Hay, on account of the quantity which has been offered for sale during the last week, shows a noticeable falling off in price. The highest paid today was $12 50, and $11 and $11 50 was considered fairly good prices.

Oats, on the contrary, still maintain a high price, and meet with a fair demand; oats were today readily sold at $1 17 and $1 18 per cwt.

Dairy produce, eggs, dressed meats, vegetables and green stuffs are about the same in prices, and a fairly active market will likely be held tomorrow.

Poultry, both alive and dressed, although the prices have dropped a few cents in the past week, sells high, considering the advanced stage of the season.

PORCUPINE

We would recommend the immediate purchase of Eldorado at TEN CENTS PER SHARE. THOMAS RAYCRAFT, Room 1, London Loan Block. 'Phones 2996 and 1736.

TORONTO, May 26.—Somewhat higher ables, an increased export movement and bullish crop reports from the southwest, but chiefly the last-named influence, combined to give a fractional advance in wheat, oats and corn prices here this morning. Flour was not affected. Latest quotations: Ontario wheat—No. 2 winter, 85c to 86c outside, according to location. Manitoba wheat—No. 1 northern, $1; No. 2 northern, 97½c; No. 3 northern, 95½c. Oats—Canada western, No. 2, 40c; No. 3, 38½c, at lake ports; Ontario No. 2 white, 37c outside and 40c on track at Toronto. Corn—American No. 3 yellow, 57c, c. i. f., May shipment, bay ports. Peas—No. 2, 79c to 80c outside. Rye—No. 2, 70c to 72c outside. Barley—Malting, 65c to 67c outside; feed, 55c to 57c. Buckwheat—50c to 52c outside. Manitoba flour—First patents, $5 10; second patents, $4 60; strong bakers, $4 40. Ontario flour—Ninety per cent winter patents, $3 50, Montreal freights. Millfeed—Manitoba bran, $21 in bags; shorts, $23; Ontario bran, $22 in bags; shorts, $23 50.

WOODSTOCK, May 25.—The the meeting of the Woodstock cheese board today it was decided to secure incorporation. Today ten factories boarded their cheese, consisting of 959 boxes colored and 125 boxes white, all of which was sold on the board. Prices today had taken a drop. The first factory called sold at 10¼c; eight secured 10⅝c, while one secured 10 11-16c.

BELLEVILLE, May 25.—At today's cheese board 2150 boxes white were offered; 1185 sold at 10¾c and 755 at 10 11-16c; the balance was refused at 10 11-16c.

BROCKVILLE, May 25.—Ten and one-quarter cents was the best price bid for the offerings of the cheese salesmen at today's meeting of the board. The offerings totalled 3080 boxes, 2120 of which were colored; only 40 boxes were sold. On the street the factorymen came to terms with buyers on a basis of 10¼c; at this figure between 5000 and 6000 boxes were sold.

VANKLEEK HILL, May 25.—There were 1270 boxes of cheese boarded on the cheese board today; 170 boxes colored, balance white. The price offered was 10¼c for white and 10 5-16c for colored, and at above prices all sold on the board.

KINGSTON, May 25.—On the Frontenac cheese board this afternoon cheese sold at from 10¼c to 10⅜c; there were 729 white and 610 colored boarded.

[Special to H. C. Becher.]

WINNIPEG, May 26.—The Winnipeg wheat market closed today as follows: May, 95⅛c; July, 95½c; October, 88⅜c.

Straw is dull, with the bulk of the sales at $6 per ton. Quotations on track at Toronto are as follows: Hay—No. 1 timothy, $12 to $13; mixed clover and timothy, $9 to $11. Straw—$6 to $6 50

POTATOES.

TORONTO, May 25.—Potatoes—Wholesale quotations average $1 10 per bag for Ontarios, out of store, and 90c to 95c per bag in car lots.

FINANCIAL.

[From Charles Head & Co., by private wire to J. J. Tearney.]

NEW YORK, May 26.—(Noon) — The manner in which the market acted all through the first hour was a decided surprise to the speculative element. Stocks were in scanter supply than at any preceding time during the year, and in some issues it was noted that deliveries were very slow. Room traders were among the most urgent buyers, and helped an upward movement on which advances ranging from 1 to about 3 points were recorded. At the same ment buying of matured dividend payers. time, there was a resumption of investment buying of matured dividend-payers.

Foreign Market Notes.

Paris, May 26.—Prices were irregular on the Bourse today.

Closing—3 per cent rentes, 95 francs, 87½ centimes for the account. Exchange on London, 25 francs 30½ centimes for checks.

WALL STREET OPENING.

New York, May 26.—Wall street, 10:10 a.m.—The pressure against United States Steel of the last two days appeared to have been relaxed in the early trading on the stock market today. Transactions in the stock were not large, and the prices were unchanged. Cessation of the selling movement had a bracing effect upon the market and prices were advanced moderately. General Electric gained two points, Canadian Pacific one, Atchison and Westinghouse Electric three quarters, Reading five-eighths, Union Pacific and Amalgamated Copper one-half. The resignation of President Diaz caused an advance in Mexican securities. National Railways of Mexico, second preferred, gained three-quarters.

THE CUT IN STEEL.

CLEVELAND, O., May 26.—"A bombshell thrown into the iron and steel trade was the announcement late on Wednesday that the Republic Iron and Steel Company had reduced the price of steel bars to $1 25, Pittsburg," says the Iron Trade Review.

"The United States Steel Corporation subsidiaries, Jones & Laughlin Steel Company, and the Cambria Steel Company have met the cut, and it is undersood that others makers will do so also.

"Just what will be the effect upon the general market it is still a little too early to determine definitely. Today, at least, some sellers are discouraging would-be buyers from closing. A general meeting of manufacturers will be held on Monday in New York to discuss conditions.

"The price made by the Republic Company, $1 25, applies to jobbers until Oct. 1; to general consumers until Jan. 1, 1912; but to agricultural implement makers until July 1, 1912. In the case of the Steel Corporation subsidiaries it is announced that the new low price on bars applies only to immediate shipment business.

"Pending business in structural material is being held up, awaiting developments."

LIVERPOOL, May 26.—Wheat—Spot closed firm; No. 1 northern, Manitoba, 7s 5½d; No. 2, nominal; No. 3, 7s 2½d; futures firm, May, 7s; July, 6s 10⅞d, October, 6s 8⅞d. Flour—Winter patents, 27s. Hops (in London)—Pacific coast, £5 5s to £6 10s. Beef—Extra India mess, 87s 6d. Pork—Prime mess western, 77s 6d. Hams—Short cut, 14 to 16 lbs, 58s 6d. Bacon—Cumberland cut, 26 to 30 lbs, 49s 6d; short ribs, 16 to 24 lbs, no stock; clear bellies, 14 to 16 lbs, 48s 6d; long clear middles, light, 28 to 34 lbs, 51s 6d; do, heavy, 35 to 40 lbs, 49s 6d; short clear backs, 16 to 20 lbs, 46c; shoulders, square, 11 ot 13 lbs, 40s 6d.

HYMAN'S TEAM WON

Defeated G. T. R. Crew at Stratford.

Hyman's Tannery baseball team won from the G. T. R. crew at Stratford on Victoria Day by 11 to 6, the score by innings being:

		R.	H.	E.
Hymans	6 2 2 1 0 0 0 0 *	11	14	5
Stratford	1 1 0 0 2 0 2 0 0	6	5	2

Batteries—Richardson and Collis; Patrick and Byrick.

Hymans are after other games with out-of-town teams. John A. Meyers is the captain.

FINAL ORDERS FOR CENSUS ENUMERATORS

Count Will Be Based on Alive Midnight of June 1st.

Ottawa, May 27.—Final instructions to census enumerators have been sent out by Chief Census Commissioner Archibald Blue. The population count will be based on the people beneath the roof of each house on midnight of June 1. All living persons in Canada at that hour will be enumerated.

GOLD WATCH AND PURSE FOR POPULAR OFFICIAL

Supt. Geo. Hodge, of C. P. R., Was Pleasantly Surprised by Employees.

Superintendent George Hodge, of the C. P. R., was most pleasantly surprised Thursday when he received from the employees of the division of which he had charge before coming to London, a beautiful engraved gold watch, a purse of gold, and a very handsome electric reading lamp. Accompanying the gifts was an address expressing the regret the men felt at Mr. Hodge's departure, and wishing him every success in his work on this division.

CORONATION TRAFFIC HEAVY FROM DISTRICT

Local Agents Report Sale of Very Many Tickets.

The rush to the coronation has commenced, and railway officials state that every day for nthe next week they will be carrying many passengers bound for London, England.

A notable party went through this morning from Chicago and occupied a special train made up of ten Pullman coaches and a diner. The special ran as second No. 4, and went through at 3:33 a.m. The occupants were all either English or German people who are sailing from New York tomorrow to attend the coronation.

"We have sold a very large number of tickets," said one agent to The Advertiser this afternoon. "Many people from London and all through the district are going. Those who didn't decide to go until recently are having the greatest difficulty in getting accommodation of any kind. Space on every boat is at a premium."

A dispatch to The Advertiser from London, England, today, states that the traffic is not going to be so heavy as was expected owing to the higher prices. This, however, does not seem to have affected the local steamship business.

DR. BRUCE-SMITH HAS APPROVED THE PLANS!

It Is Likely That Changes to Court House Will Now Go Through.

The proposed alterations to the court house and jail will occupy the time of the Solons of Middlesex County for a couple of days again at the June session, which commences at the county buildings one week from Monday, June 5.

The plans have been discussed many times, both at a special session of the county council and at meetings of the committees in charge, and it is thought that the matter will now go through finally with little difficulty.

Dr. Bruce Smith, provincial inspector of prisons, has set his seal of approval on the proposition, so the old building will again go through a process of rejuvenation. It has frequently been threatened and condemned by judges and grand juries, but the councillors now figure that it will last for from 20 to 50 years more. After that they will not be worrying about the affairs of the castle.

The tax rate will also be struck at the June session, and while a great deal of money is being expended this year on roads and bridges, the councillors have a great deal of faith in their ability as pruners.

Residents of Middlesex have always enjoyed a comparatively low tax rate, and if any increase is made a strong reply will be made at the polls next year.

NOT LONDON PEOPLE

The Advertiser yesterday received a dispatch from Winnipeg, Man., to the effect that George Hunt, who was drowned there on Victoria Day, in company with his cousin, Miss Jessie Hunt, lately from England, was a son of the late W. H. Hunt, of Thornbury, near London. The correspondent evidently confused London, England, with London, Ontario.

The Advertiser, in ommunicating with Thorndale, the only place with a name similar to that in the dispatch, near this city, was unable to discover any information regarding the W. H. Hunt referred to or any who could possibly be the family in question.

CORRESPONDENCE

The St. John's Church Difficulty.

To the Editor of The Advertiser:

I have been informed that the wardens of the Church of St. John the Evangelist have received a letter from the rector, offering to make a settlement of the trouble which he, after mature consideration, forced on the congregation. Let us see what a magnanimous offer it is. At a duly constituted vestry meeting, attended by a very large number of the bone and sinew of the congregation, a motion was almost unanimously passed making his salary $1 a month from July 1. In lieu of this, the very liberal offer made is at the rate of $1,000 a year for the two months of July and August, and then to return to his present salary, a sacrifice on his part of a total of $84 34. I don't think this will appeal to any "centrally minded" man, a term the bishop used very freely at the vestry meeting.

Now, why should this rector hold up and drive from the church such a large number who have worshipped there so many years? The bishop said at the vestry meeting it was the multitude who crucified the Lord of Glory. His meaning was plain. Let us see what a misfit it was. The multitude referred to did not know Christ. What did our Saviour say on the cross? "Father, forgive them, for they know not what they do." Surely our bishop would not have made such a remark had he given it a moment's thought. Does he mean to tell us that such men and women as compose St. John's congregation, who have spent time and money from their early youth until they have grown white-headed in laboring to build up Christ's Church here on earth, know Him not? It is an unjust accusation, and this is fully proven by the fact that they are still endeavoring, with all the means at their command, to do the Master's work in opposition to those who are apparently determined that such shall not continue.

I appeal again, as one of the congregation, to the rector to insist on the bishop's accepting his resignation, and let the good work go on, and St. John's would prosper in the future beyond anything it has accomplished in the past.

VERITAS.

London, May 26.

ADVERTISING FOR THE WESTERN FAIR

Secretary Hunt Is Busy Sending Out the Posters.

The office of Secretary Hunt, of the Western Fair, resembles a stationery warehouse these days. Everywhere there are great piles of mailing tubs, all laid out addressed and stamped. Every hour the piles grow bigger as the secretary and his assistant finish fresh bunches of printed matter.

"We will have a big drayload of matter for the postoffice when we finish," said Mr. Hunt today. "Every postoffice and country store in the district gets some of our posters, and one of the maps. I am sending out 4,000 prize lists and a large number of various kinds of circulars. It is a big job to get all this stuff addressed and tied up and mailed correctly, but it brings results. This year we will send out $3,500 worth of matter to advertise the big fair."

MASONS ARE AGAIN ON GOOD TERMS

Little Difficulty at Port Huron Has Been Swept Away.

The Masons of the Grand Lodge of Michigan and of Ontario, are again on good terms, the differences existing between them for some months having been finally satisfactorily adjusted. Word has been sent to all the blue lodges in the province, notifying them of this fact, and fraternal relations have been restored.

As a result the brethren may visit each other without running the risk of being disciplined.

The trouble arose some months ago at Sarnia. The Port Huron lodge came to Sarnia and conducted the funeral of one of their brethren in the jurisdiction of Ontario without permission. Relations were broken off after this, and the most worshipful the grand master notified the lodges that the Grand Lodge of Ontario was not on good terms with the Michigan brethren.

In the meantime, however, the matter was fully explained, and an apology sent to the Ontario brethren from the Michigan lodge.

ELECTION STORY

Continued From Page One.

ratified the agreement, it may be taken for granted that the debate will be continued in the Commons here. If it is ratified at Washington some time in July, as is expected according to the best advices which have reached the Government here, then a final and determined effort will be made by the Liberals to force the Opposition to allow the agreement to come to a vote in the Commons. If obstructive tactics are still entinued, if supply is refused and if the Government finds itself also blocked in putting through the coming redistribution bill, based on the results of the June census figures, then the only recourse will be an appeal to the country to solve the deadlock. There are three big "ifs" still to be taken into account before the time of the next general election can be asserted with any degree of definiteness.

Meanwhile the Conservative story of an election in September is sent out with the design of frightening the country organizations into more active preparations for a contest and also with a view to facilitating the collection of the huge compaign fund expected from the anti-reciprocity interests.

EAST LONDON NEWS

A MISSION CIRCLE

One Formed in the Centennial Methodist Church.

A meeting was held in the league room of the Centennial Methodist Church last evening under the auspices of the Women's Missionary Society for the purpose of organizing a mission circle for the young ladies of the church. Mrs. Harrison, the district organizer of circles and bands, was present, and addressed the meeting. The following are the officers elected:

Honorary president—Mrs. S. O. Lancaster.

President—Miss Elsie Lintott.

First vice-president—Miss Allie Wright.

Second vice-president — Miss Annie Martin.

Recording secretary—Miss Edna Lancaster.

Corresponding secretary—Miss Vera Hagerman.

Treasurer—Miss Eleanor Horton.

Superintendent of systematic giving—Mrs. G. N. Hazen.

A Talent Tea.

A very successful talent tea was held last evening at the home of Mrs. J. McDonald, of 35 Egerton street, under the auspices of the Ladies' Aid of Egerton Street Baptist Church. The tea was largely attended, and an interesting musical programme was rendered.

East End Notes.

Mr. Percy Welford, formerly of East London, and a son of ex-Ald. Welford, has graduated with high honors from the School of Practical Science, Toronto.

Miss Emma Flinton, of King street east, is recovering from a severe attack of la grippe.

Miss Bessie Fishbein, of 428 Rectory street, was surprised by a number of her friends who called at her home on the occasion of her 16th birthday Wednesday evening. She received many beautiful presents, and a pleasant evening was spent with music, games, dancing and refreshments. At a late hour the party broke up after showering Miss Fishbein with good wishes and congratulations.

Representatives Chosen.

At a meeting of the members of the congregation of the Askin Street Methodist Church, held last night, the following were chosen representatives to the quarterly board: Messrs. H. E. Lawson, E. W. G. Quantz, J. H. Childs, G. E. Gregory, William Thomas, C. E. Lewis, Bert Childs, C. McDonald, T. Copp and A. Courtis. The annual picnic of the church will be held to Port Stanley in August.

Card of Thanks.

Mr. Henry Doan and family, of 778 King street, wish to thank their many friends and the McClary Manufacturing Company for the kindness and sympathy extended to them in their recent sad bereavement.

Dalton's CONCENTRATED Lemonade

is better than lemons and sugar. A bottle of Dalton's makes a half gallon of lemonade — glasses 12 for 10c.

No trouble—no mess—no knives or lemon squeezers — just add iced water and the lemonade is ready to serve. Be sure to get DALTON'S—no imitation is even half as good. **Contains no other acid.** 10c. a bottle.

All grocers and druggists. 13

Beware of the Imitator—Insist on Dalton's

GRAND TRUNK STRIKERS ARE GREATLY INTERESTED

Move Is Made to Pay Them $40 a Month Until Reinstated.

Local G. T. R. strikers, who have not yet been reinstated, are greatly interested in a resolution which was passed yesterday at the big annual meeting of the Brotherhood of Railway Trainmen at Harrisburg, Pennsylvania, making provision to pay all of the men who lost their positions on the Grand Trunk $40 a month until they return to their old positions or secure new ones. The resolution was moved by T. G. Thompson, of St. Thomas.

It was stated to The Advertiser today that all of the local strikers who were not reinstated have not received any pay from the union for two months. Up to that time each man got $50 a month.

The local lodges are represented at the Harrisburg convention by Conductor Heath and Brakeman Ingram.

COLONEL MUNRO

(Continued From Page One.)

Ugly Rumors.

The crown sprang a surprise on the defence when Mr. Monahan produced letters from Col. Munro to General Manager Travers, in which the president drew Travers' attention to ugly rumors afloat concerning the affairs of the bank, and letters marked private, from which he had cut the signatures. These letters had been wrtten to Munro by M. P. S., who had heard of unfavorable reports of the bank's financal status. The letter continued:

"I think it would be well to have Dr. B. pay his indebtedness to the bank, as so many people know of it, and they claim that he is worth nil."

To this Travers had written a very vigorous letter in reply, stating among other things, that one might as well try to get blood out of a stone as collect from Beattie Nesbitt. No doubt when his affairs were in shape he would setle up.

A letter was also produced from Col. Munro wherein he agreed to sign blank returns as a matter of convenience.

SATURDAY ENTRIES AT THE WOODBINE

A Special Meeting.

There will be a special meeting of the board of education at 4 o'clock this afternon to consider the question of industrial education. The members of the board who visited the centres in other cities will report, and it is expected that something definite will be undertaken by the board at this session.

Personal Mention

Mrs. Frank Ellis, of Detroit, is visiting her parents in this city.

Miss Gladys Comber has returned from Tillsonburg, where she captured many prizes in the dancing competitions on May 24.

Mr. J. F. Faulds, of this city, has returned from a trip to the Canadian west. He reports that in all the places he visited business is booming.

It is announced that Mrs. Boomer, Mrs. R. M. Graham and Mrs. S. T. Harrison will attend the national meeting of the Council of Women, to be held in Port Arthur in June, as delegates from the London Local Council.

Mr. and Mrs. Alexander D. Macpherson, of London, Ont., announce the engagement of their daughter, Mary Eva, to Mr. James Herbert, Johnson, of Stettler, Alta., the marriage to take place in June.

Mr. George Tull, of Calgary, and a well-known former Londoner, is in the city for a few days visiting his relatives.

Mr. Charles H. Haystead, well known as a Toronto cigar traveller, has accepted an engagement as traveller for the Jose Gaste Cigar Company, of London.

LOCAL ITEMS

Band Concert Tuesday.

The Boy Scouts of London will hold a band concert in Victoria Park on Tuesday evening next, when a collection will be taken up at the gates. Music will be supplied by Bandmaster Pocock and the Citizens' Band.

Police Court.

At the police court today two North End youths who were charged with being disorderly by using profanity on the street, were given a severe lecture and discharged. An Indian-lister who got drunk paid $10. Several bicycle riders who preferred the sidewalks paid $1 85 each.

Mr. Judd Must Resign.

Mr. J. C. Judd, K.C., chairman of the hospital trust, will tender his resignation as a member of that body, now that his appointment as police magistrate has been announced. The city council will have to appoint his successor for the unexpired term. It is not known who will be named for the position, although ex-Ald. Thos. Gillean is most prominently mentioned for the place. Mr. Judd's term expires in December next.

Housebreaking Charge.

Phillips and Hale, the two young men arrested by Constable Corsaut a week ago, near Crumlin, are before Squire Chittick today on charges of housebreaking and stealing certain articles from John Mote, and with attempting to steal a horse, buggy and harness from the same person. They were taken on a technical charge of vagrancy, some of Mote's property, including a rifle and razor, being found on them. It is alleged that they had harnessed the horse and opened the gates when discovered by the owner, who had been away from home.

OBITUARY

Surviving her husband by but two weeks, Mrs. Joanna Stewart Keown, formerly of Ailsa Craig, died yesterday afternoon at Victoria Hospital in her 64th year. Mrs. Keown had been an invalid for about 30 years, but the death of her husband in Ailsa Craig was followed by her serious illness. One son, John S. Keown, of Detroit, survives. The funeral was held this morning from the undertaking parlors of Griffith & Willsie to the Grand Trunk station. Interment will be made today at Ailsa Craig.

No Charge as Yet.

License Inspector Galpin has not yet laid any charge against the King street Chinaman at whose place he recently seized seventeen cases of Oriental spirits. He has forwarded samples of the liquor to headquarters at Toronto, and it will be analysed there. As soon as he gets the reports the information will be laid, and the case gone on with. The last consignment of Chinese liquor that was seized here contained alcohol in percentages varying from 80 to 90 per cent. The best Canadian brands usually contain from about 65 to 70 per cent.

STEAMSHIP ARRIVALS.

New York, May 26.—Arrived: Cleveland, from Hamburg; Perugia, Naples; Pennsylvania, London.

Montreal, May 26.—Steamer Empress of Ireland arrived at Quebec at 2:45 a.m. today. Empress of Britain passed Innistrahull at 1.40 a.m. today; dock at Liverpool at midnight.

Cape Race, May 26.—Steamer Furnessia, from Glasgow for New York, reported 1,085 miles east of Sandy Hook at 7:45 a.m.; dock about 8 a.m. Monday.

Sable Island, May 26.—Steamer New York, from Southampton for New York, in wireless communication here when 650 miles east of Sandy Hook at 6.55 a.m.; dock about 6 p.m. Saturday.

Proved He Was a Gentleman

New York, N. Y., May 26. — The heavy notes of a deep bass voice in song rolled through Jefferson market police court today. John O'Brien, 50 years old, of no home and no occupation, arrested for drunkenness, and begging 2 cents from a policeman, was singing a selection from "Carmen," to prove to the court that he was a gentleman.

"If that isn't enough, I know a few arias from 'Faust,' 'Il Pagliacci' and other operas. No? Then listen to this page from 'Epictitus.'"

Long extracts from Cicero, the Iliad, Herbert Spencer and the works of Theodore Roosevelt followed. The court admitted that O'Brien was a gentleman.

"Won't you help me to get a start to learn some trade?" asked O'Brien.

"Certainly; I'll send you to the workhouse," was the unexpected reply. "Six months."

LONDON AND DISTRICT

A Pretty Wedding.

A very pretty wedding was celebrated at the residence of Mr. Geo. Chappell, Broughdale, on Wednesday evening last, when his eldest daughter, Miss Daisy Viola, was united in marriage to Mr. Richard Fitzgeorge, Pilbrook. The young couple were attended by Miss Eva Berryhill and Mr. Geo. Chappell. The ceremony was performed by Rev. S. Anderson, pastor of the Richmond Street Methodist Church. The young couple will be at home to their friends in Broughdale after the 1st of June.

Piano Recital.

Piano pupils of Miss Steele, of the London Conservatory of Music staff, gave a recital at Heintzman Hall last evening, which was well attended by the parents and friends of the pupils. The playing of the pupils was marked by a style and finish seldom seen in such young performers. Those taking part were Misses Geraldine Bindner, Norah Moore, Gladys Andrus, Margaret Sloan, Geraldine Glover, Mildred Granger, Helen Miller, Rhea Harris, Eloise Baird, Irene Thompson, Jessie McIntosh, Mercy Wells, Helen Patterson and Master Gordon Stewart. Miss Faith Turnbull, vocal pupil of Miss Fox; Misses Frane Robinson, Stella McConnell and Marjorie Talbot very ably assisted.

WESTERN ONTARIO NEWS

Lloyd Robinson, 9 years old, died of injuries received through being dragged by his pony from which he had fallen, his foot catching in a stirrup.

Stratford district Methodists in conference at Mitchell voted unanimously in favor of church union.

Charles Forsythe, who was accidentally killed at New Liskeard, was buried at Woodstock with Masonic honors.

Frank Sterling, accused of stealing a horse from a St. Thomas livery, was committed for trial at the June assizes.

It is announced at Vancouver that plans for a general strike for June 5 have been arranged.

Aged Joseph Stroud, of Ingersoll, was found dead in his bed.

A BURGLAR KILLED.

Cleveland, O., May 26.—A burglar, identified as James Kane, of Syracuse, N. Y., was shot and killed early this morning by Ed. L. Ackerman, as Kane was boring a hole from the cellar up through the kitchen floor of Ackerman's home in an effort to gain entrance from the cellar.

Through Train to the West Via Chicago and St. Paul.

Personally conducted Grand Trunk special train will leave Toronto 11 p.m. Tuesday, May 30, for Edmonton, stopping at all points on Grand Trunk Pacific Railway west of Winnipeg. Pullman tourist sleepers will be carried, fully equipped with bedding and porter in charge. Berths may be secured in these cars at a low rate. This is an exceptional opportunity for those wishing to take advantage of the low rate homeseekers' excursions through the American cities.

Secure tickets, berth reservations, and full particulars from any Grand Trunk agent, or address A. E. Duff, district passenger agent, Toronto, Ont. 2c

"UNION JACK" WILL BE PRESENTED TO BOYS

Scouts Will Assemble in Victoria Park on Saturday Afternoon.

An afternoon of unusual interest for the Scouts is being arranged for Saturday in Victoria Park, at 3 p.m. Three presentations are to be made. The Local Council of Women will present the Union Jack to the London District Boy Scouts. The Princess Patricia Chapter of the Daughters of the Empire will next present the troop colors to St. Paul's troop. The Municipal Chapter will present prizes to the following for proficiency in the essay contest held on April 21:

Troop No. 1—Harry Cole, senior scouts; Howard McDiarmid, junior scouts.
Troop 2.—A. D. Robins, senior scouts.
Troop 3.—Kennon Johnston, senior; A. Templar, junior.
Troop 4—Allan Talbot, senior.
Troop 6—Alex. F. MacDonald, senior.
Troop 7—Ellison Atkinson, junior.
Troop 8—Turner Welford, senior.
Troop 9—Charles Vining, Hubert Tucker, seniors; Stanley Raymond, junior.

Commissioner Weekes will preside, and will introduce a programme of speeches by the members of Scout Council.

Orders of the Day.

The following are the orders for the day:

At 2 p.m., sharp, the troops will assemble at the court house. The following scoutmasters will be in charge:
No. 1—Messrs. Cree, Snell and Chadwick.
No. 2—Messrs. Mann and Robins.
No. 3—Mr. Ware.
No. 4—Mr. McKone.
No. 5—Messrs. Watt and Hamilton.
No. 6—Messrs. Parkinson and Raymond.
No. 8—Mr. A. L. G. Clark.
No. 8—Messrs. Metcalf, Marsh and Kingswood.
No. 9—Messrs. Brady and Paull.
No. 10—Messrs. Dr. Stevenson and Nott.
No. 11—Mr. Appleyard.
No. 12—Mr. Garratt.
No. 13—Capt. T. J. Murphy.
No. 14—Mr. Bluett.
Mr. W. B. Clark in charge of the first-aid demonstration by No. 4 Troop.

Each troop will parade with patrol flags, troop flag, staves, scarfs, haversacks, hatchets, knives, whistles, bugles, drums, signalling flags, and stretchers.

The patrol leaders of No. 8 will form the color party at the park.

On Tuesday evening a band concert will be given in Victoria Park. A collection in aid of the Boy Scout movement will be taken at the gates. The London Scout Council has the matter in charge.

On Saturday, June 3, the King's Birthday, the Scouts will parade to Queen's Park. Scouts in uniform will be admitted free. Each troop will enter a team in the relay race.

Complete Music Roll Library Free.

Our Player Music Library is entirely free exchange for all time, to purchasers of New Scale Williams Pianos. "The most perfect player piano," is the public opinion. 94tf

$1 55 to Detroit and return, via Canadian Pacific Railway, going Saturday, May 27, at 11:35 a.m. Tickets good returning any train up to Monday, May 29. B

MANY ACTIONS ENTERED FOR THE COUNTY COURT

One Criminal and Six Civil Cases Are Down for Trial.

A half-dozen civil actions and one criminal case will be on at the June sessions of the county court, which will be held shortly before Judge Elliott.

William Heslop, the young West Londoner, who attacked James B. Fowler with a butcher knife in the latter's shop last winter, when he discovered his wife in Fowler's company, comes up for trial.

W. H. Bartett, of Petrolea, the driller of the McGregor wells, is suing for $350, which he claims is due him as balance for the work done on the McGregor property, under instructions from Oliver Baird, of Parkhill, and J. C. Fountain, of London.

W. J. Hunter & Sons, Toronto, auto dealers, are defendants in a suit brought by A. Knowles, the local representative, for commission on the sale of machines made by other agents in his territory after he had worked up the "prospects."

C. N. Spencer vs. Alf Robinson, and a counter-claim by Mrs. Alf Robinson vs. C. N. Spencer and Sheriff Cameron. The sheriff, under a writ made a seizure of $350 worth of goods at the Robinson home, which Mrs. Robinson claims did not belong to her husband.

H. T. Reason & Co., London, vs. the Canada Chicle Company, of Peterboro —An action for $113 for a quantity of gum boxes made for the defendant.

Canada Trust vs. Nettie Sharpe, of the county of Huron. The plaintiffs are administrators of the estate of Jennie Young, of Port Huron, and are suing for $318 in a mortgage case.

Alex. Brant is being sued by the Hensall Foundry Company, and Elizabeth Hunt, of London, for $400, the price of a certain piece of real estate.

FREIGHT HITS CAR AT SAGINAW

Seven People Hurt, Three Seriously, in a Crossing Accident.

[Canadian Press.]

Saginaw, Mich., May 26. — Seven people were hurt, three seriously, and 50 passengers were thrown into a panic, when a Grand Trunk freight train, running at a slow rate of speed, crashed into a street car on a downtown crossing last night. All of the injured are Saginaw people.

CALL A BARONET'S WIFE A SMUGGLER

United States Officials Raid Lady Duff Gordon's Dress Shop in New York.

New York, May 26.—"Lucilla, Limited," a corporation dressmaking concern, established here in January, 1910, in West Thirty-sixth street, by Lady Duff Gordon, wife of Sir Cosmo Edmund Duff Gordon, as a branch of Lady Gordon's main store in London, England, was raided yesterday afternoon by Deputy Surveyor Norwood and Customs Inspector Williams. Thomas J. Duggan, the manager, was placed under arrest by Deputy United States Marshal Reed.

Duggan's arrest was made on a warrant issued by Commissioner Shields, charging the accused man with conspiring with Abraham Merritt, the secretary, "unlawfully, knowingly and corruptly" to import women's wearing apparel from England at less than their true values. According to the complaint the conspiracy was formed Dec. 16, 1910, but Assistant United States Attorney Wemple says undervaluations have been going on ever since the store was opened. Wemple said the undervaluations amounted to at least 50 per cent of the value of the imported goods.

A subpoena will be issued for Lady Duff Gordon's appearance as a witness before the federal grand jury. Lady Gordon is a daughter of Douglas Sutherland, of London, and was the widow of James S. Wallace when she married in March, 1900, Sir Cosmo Edmund Duff Gordon, the fifth baronet of that name.

FEARS BUSINESS WILL BE INJURED

Justice Harlan Returns to His Attack on Recent Standard Oil Decision.

Washington, May 6.—Still as opposed to the majority opinion of the supreme court of the United States in the Standard Oil case as he was on the day that opinion was announced, Associate Justice Harlan today filed in court his formal dissenting opinion in that suit.

His oral attack on the court for holding that only unreasonable or undue restraints on trade are in violation of the law furnished the outline for today's broadside against the opinion. He went further, however, and criticised the court for modifying the decree of the lower court so as to permit the subsidiary companies to enter into agreements among themselves, and expressed a conviction that instead of the opinion giving quiet and rest to the business of the country, it would throw business into confusion and invite widely extended and harrassing liquidation, the injurious effect of which will be felt for many years.

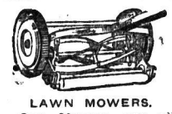

Ever since the case was decided, May 15, Justice Harlan has been preparing his dissenting opinion and it was not complete until today. One of the last changes made, it is said, was to insert a quotation from the decision of Judge Taft, now President Taft, in the Addystone pipe case, in which Judge Taft said, that according to the decision of the supreme court, all restraint, whether reasonable or unreasonable under the common law, were forbidden by the statute.
