REDUCED RATES OF PREMIUM—HALF
CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary Kuropean Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at much lower Rates of Premium than those of any other Assurance Company 2 smanching business in Conada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are suggested in the second of the Control of
