REGULAR MEETING TOWN COUNCIL

The regular monthly meeting of the Town Council was held on Thursday July 15th. Present Mayor Doyle, Ald. Atkinson, Crocker, Dalton, Durick, Jeffrey, Mackay, Russell and Witzell.

A letter from George Black requesting a refund of part cost of water installation was referred to the Petition Committee.

A request from R. E. Woodworth for a refund on 1919 taxes was received and ordered filed. The chairman of the Finance Committee reported that the committee had an offer of \$125.00 for the D. Mahoney property and it was moved by Ald. Russell, seconded by Ald. Witzell and carried that this property be sold and the Mayor and Town Treasurer be authorized to complete the necessary deed on receipt of \$125.00.

The Public Works Committee recommended payment of following bills.

Gordon Davidson	\$76.00
D. J. Buckley	216.06
E. E. Benson	85.00
P. Hennessy	39.00

The chairman of the Police Committee reported that Officer Galley had been injured in the performance of his duties on June 24th and was still unable to resume his duties and submitted a certificate from Dr. F. C. McGrath to that effect. The committee recommended that Officer Galley be paid for the six days lost time in June. Recommendation was adopted. H. B. Cassidy and Capt. A. L. Barry were heard concerning license fee to be fixed for the Royal Exposition Shows, playing in Newcastle under the auspices of the G. W. V. A. and the Newcastle Band.

After hearing these gentlemen, it was moved by Ald. Mackay seconded by Ald. Crocker and carried that the G. W. V. A. be granted a license to bring the Royal Exposition Shows to Newcastle, for one week for \$5.00 per day. It was moved by Ald. Dalton seconded by Ald. Atkinson and carried that the Town Council make a grant of \$50.00 to the Newcastle Band in recognition of their services during the year. The Park and Fire Committee recommended payment of the following bills.

Sumner Co.	1.01
B. F. Maltby	216.89

The Light and Water Com. recommended payment of the following bills.

Maritime Foundry	45.75
L. A. Morrison	1.75
Canadian Brass Co., Ltd.	41.39
T. McAvity & Sons Ltd.	29.25
Imperial Oil Co. Ltd.	56.49
Can. Gen. Electric Co., Ltd.	112.42
Northern Electric Co., Ltd.	111.10

The Public Works Com. asked the approval of the council on the proposed purchase of a piece of land to improve George Street, and it was moved by Ald. Durick, seconded by Ald. Witzell and carried that the Public Works Com. be authorized to purchase a lot of ground at the corner of George Street and the Highway from John Ferguson for \$200.00.

The Mayor reported that he had received a letter stating that an aeroplane en route to Bathurst would alight in Newcastle on 16th inst. and asked the co-operation of the public in rendering police service.

Make No Terms With Jack Johnston

Los Angeles, Cal., July 15—Jack Johnston, pugilist, former heavy weight champion of the world, yesterday telephoned from Tijuana, Lower California, to the office of J. R. O'Connor, United States District Attorney here, repeating his offer of last week to cross the international boundary and surrender to federal authorities "if treated with proper courtesy."

Mr. O'Connor said the offer was refused, the pugilist being informed he would be "handled like any other criminal."

FOR THE MIRAMICHI
Montreal Star: Mrs. Andrew Robinson, of Sherbrooke, Que., and her nephew, Mr. Andrew Parsons left on Monday for Newcastle, N. B., on their way to Mrs. Robinson's camp in the forest where they will remain for a month or more.

AEROPLANE LANDS IN NEWCASTLE ON FRIDAY EVENING

Great Crowd Gathers to See Flying Machine Which was Enroute to Bathurst Picnic Hay Fields Suffer Damage.

On Thursday of last week Mayor D. P. Doyle received word from the Eastern Canada Air Lines, that an aeroplane en-route to Bathurst to take part in the picnic of the Bathurst Lumber Co. on Saturday, would arrive in Newcastle some time during Friday, in order to take on gas which they had previously arranged for. The letter also stated that the aeroplane would probably remain in Newcastle about an hour and the request was made that they be given the protection of the Police, in so far as it was quite possible that a landing would be made in some field which contained a crop, and while the damage caused by the plane would be small, if the general public were not forbidden from the field, much heavier damage would be made by them walking through the crop.

The news of the coming of the aeroplane to town spread rapidly and all were anxious to see its flight. All day long young and old alike were scanning the horizon to see if any signs of the aeroplane's approach was visible. However all their anxiety availed them nothing and many began to despair that an opportunity to witness a flying machine was lost. At 6 o'clock p. m. word was received from Hayscourt that the plane had left that town and was travelling at the rate of 25 miles in 20 minutes. The glad news spread rapidly and large numbers of spectators hurriedly rushed to the C. N. railway Station, and the open fields in that locality. To many, a minute seemed like an hour and considerable restlessness on the part of the eager watchers was shown. At 6.45 p. m. the anxiously awaited cry "Here she comes" went up, and on the horizon directly back of Nelson, could be seen a small black speck, and the sound of a humming motor could be heard, which all knew to be the much looked for aeroplane. Its approach was a rapid one, and each second the shape of the aeroplane became plainer, until at last about 6.55 p. m. it was directly over the town, and a fine view of the plane could be seen. While flying over the town, the machine turned up river and circled over the Radio Syndicate Company's Wireless Station, going directly over the centre tower, which is 500 feet high. It then flew to the Railway line and turned down river over the railway track, passing the station at a much lower altitude and continued its down-river flight a little below St. Mary's church, when it turned and came up river again, all the time gradually coming nearer the earth.

At this stage it was noticed that the pilot intended to make a landing in one of the fields in rear of the Railway Station, as it was continuing its circling movements and coming closer to the earth. Almost before it was realized by the large crowd which had assembled the machine made its landing in Mr. R. H. Greenley's hay field directly in rear of the C. N. Railway Station. The crowd immediately crossed the railway tracks and all efforts to prevent them from running through the standing hay were of no avail. In a very short time the aeroplane was surrounded by an eager crowd of sight-seers, the majority of whom were for the first time in their lives also in possession of a flying machine. In order to prevent as little damage as possible to the hay, the machine was taken from the centre of the field close by to the fence and in this way much heavier damage than otherwise would have occurred was prevented. It was learned from the pilot and engineers that they were one hour in motion from Moncton to Newcastle, and it was not their intention to land where they had but they were having some engine trouble and were obliged to land where they did. The large crowd remained about the plane until it became too dark for any further work. When darkness came on Lieut. I. N. Burnhill, who was in charge of the machine decided that it was impossible to effect repairs to the engine so they could continue their flight, and after making fast his machine, went to the Hotel Miramichi, where he remained over the night. On Saturday morning work was again started on the engine and it was necessary to burn a wide swath down in the hay crop the entire length of the field.

SAD FATALITY LAST TUESDAY EVENING

A particularly sad drowning fatality occurred here last Tuesday evening in which Mr. George Carroll of Campbellton lost his life. He along with John Hamilton and John Young went bathing below Ritchie's mill and while wading, he got beyond his depth, and being unable to swim, sank in about twenty feet of water. Deceased was a C. N. R. brakeman and was about 25 years of age. He was a native of Irianstown, Bonaventure Co. but has lived in Campbellton for the past few years.

The body was recovered the same night about 12 o'clock and was sent to his home for burial.

Governor General And Party Visit Newcastle

The Canadian Fishery Cruiser "Hochelaga" Capt. Barkhouse, docked at the Public Wharf early last Wednesday morning and while here took on a quantity of water. Her Excellency the Duchess of Devonshire, Colonel Henderson, Military Secretary, Earl Dalkeith, Lady Maude Macintosh, Lady Rachel Cavendish, and Lady Blanche Beaufort were on board awaiting the arrival of His Excellency the Duke of Devonshire who arrived here on the Ocean Limited from Ottawa at 1.45 p. m. His Excellency was met at the depot and during their stay in town the viceregal party was taken to the Miramichi Hospital, where they visited the patients, having a hand shake and kindly greetings for all. Their Excellencies were much pleased with the Hospital and spoke in high terms of this magnificent institution. After visiting the Hospital they returned to the cruiser, and left at 5 o'clock to continue their trip to P. E. Island. They will return to New Brunswick in about two weeks and will go to St. Andrews.

ROYAL EXPOSITION SHOWS

The Northumberland Branch of The Great War Veteran's Association and the Newcastle Band have made arrangements with the Royal Exposition Shows, which is a large carnival, to show here this week beginning yesterday July 19th. The carnival is being held in Watts' field and the attractions are many and varied. The percentage of receipts obtained by the G. W. V. A. will be utilized for the fitting up of their new club rooms and the Band will secure new instruments with the portion received by them.

to enable them to make their ascent. This being done and the necessary repairs made to the engine, as well as arrangements for a field in Nelson where they could alight and take on their gas, the machine again ascended at 2.15 p. m. Saturday. No difficulty in ascending was experienced, as the machine on the first trial flew the ground immediately and left in a north-westerly direction for about two miles. It then circled and passed over the field which it had just left and then turned down river, until it was over Mr. William Johnston's field in Chatham Head where it made a fine landing. Gas was then taken on, and later on in the afternoon again arose and continued its flight to Bathurst. The engine trouble was a matter of regret, which prevented the machine from reaching its destination on the date set, besides putting the pilot to considerable expense and inconvenience, but the extended delay gave the people of Newcastle an excellent opportunity to see an aeroplane on the ground, in the air, landing and ascending.

The aeroplane arose from Mr. William Johnston's field at 6.15 p. m. Saturday and after flying over the river and town for fifteen minutes pointed towards the north and in a very few minutes was out of sight on her way to Bathurst. On Sunday afternoon the aeroplane returned at 3.30 o'clock, again landing in Mr. Johnston's field, and after taking on gas left at 6.30 o'clock for Fredericton. It is understood the aviators intend returning to this vicinity in about two weeks time.

NOTICE

I will be absent from office for two weeks after July 20th.
DR. J. D. McMILLAN

Rev. W.D. Wilson Is Offered New Position

Fredericton, July 14—Rev. W. D. Wilson will probably become general secretary of the Social Service Council of Quebec and New Brunswick within a short time, unless some new arrangements are made for him to continue his present duties.

While Mr. Wilson declares that he has not fully considered the offer as yet, it is understood to have been of a most enticing character, and, moreover, it is looked upon as a promotion. The offer came to him last month, when the prohibition campaign was at its height, and he says he replied to those who, made the offer, stating he was then too busy engaged in the campaign to consider the matter, but would let them know later.

This morning, Mr. Wilson said he had the matter under consideration, but it had not as yet been placed before the N. B. Temperance Alliance. He declined to further discuss the matter, except to say that he had as yet made no decision.

HELPLESS WITH RHEUMATISM

Until He Took "Fruit-a-tives" The Fruit Medicine

R. R. No. 1. LORNE, Ont.
"For over three years, I was confined to bed with Rheumatism. I treated with doctors, and tried nearly everything without benefit. Finally, I tried 'Fruit-a-tives'. Before I had used half a box I saw improvement; the pain was easier and the swelling started to go down. I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place."
ALEXANDER MUNRO.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

NERVOUS MOTHERS
Cumbered with endless rounds of duty, the tired, nervous mother generally finds in **Scott's Emulsion** tonic-help of rarest value. A little of Scott's after meals for a few days would do a world of good. Try it!
Scott & Bowne, Toronto, Ont. 27-9

Spay Calendar For Potatoes

When the plants are six inches high spray with poisoned Bordeaux and repeat every ten days or two weeks until the tops die of oil age or frost.

For the first spray use poisoned 4-4-40 Bordeaux and for the second and later sprays, poisoned 8-8-40 Bordeaux.

To make 4-4-40 Bordeaux, dissolve 4 lbs of bluestone in 4 gals. of water-course sack at the top of the water. 24 hours before using. Dilute the four gallons of bluestone stock solution up to twenty gallons. In another container shake four pounds of stone lime or wet up four pounds of hydrated lime, dilute this up to twenty gallons.

Either put the lime solution into the spray tank first or pour the two solutions in together or pump them in by alternate buckets. Strain all solutions going into a potato sprayer. If arsenate of lime, lead arsenate or Paris Green are to be added, add them last. For a 6-6-40 Bordeaux, use 6 lbs. of bluestone and 6 of lime.

In 40 gallons of Bordeaux use any one of the following poisons.

Arsenate of lime 1 1/2 lbs. to 40 gallons.

Arsenate of lead dry 2 lbs to 40 gallons.

Paris green 1 lbs to 40 gallons.

Arsenate of zinc 1 1/4 lbs to 40 gallons.

Arsenate of soda (arsenoid or solarsate) may be used at the rate of 1 lb. to 40 gallons, this poison must be combined with Bordeaux. Directions for using white arsenic may be obtained from the Dept. of Agriculture.

Use from 60 to 80 gallons per acre per application. Where a man applies only 30 to 40 gallons per acre, he cannot expect to control insects and diseases with the above formulas. Some double them and get fair results, but there is always the danger of burning and poor distribution over the plant. Spray thoroughly and often if the weather is rainy or foggy

WHAT IS MAN?

A man weighing 150 pounds contains approximately 3,500 cubic feet of gases—oxygen, hydrogen and nitrogen—in his constitution, which at 80 cents a 1,000 cubic feet would be worth \$2.80 for illuminating purposes. He also contains all the necessary fats to make a fifteen-pound candle, and thus, together with his 3,500 cubic feet of gases, he possesses considerable illuminating possibilities. His system contains twenty-two pounds and ten ounces of carbon, or enough to make 780 dozen, or 9,360 lead pencils. There are about fifty grains of iron in his blood, and the rest of his body would supply enough of this metal to make one spike large enough to hold his weight.

A healthy man contains fifty-four ounces of phosphorus. This deadly poison would make 800,000 matches, or enough poison to kill 500 persons. This, with two ounces of lime, makes the stiff bones and the brain. No difference how sour a man looks, he contains about sixty lumps of sugar of the ordinary cubic dimensions, and to make the seasoning complete, there are twenty spoonfuls of salt. If a man were distilled into water he would make about thirty-eight quarts, or more than half his entire weight. He also contains a great deal of starch, chlorine, potassium, magnesium, sulphur and hydrochloric acid, in his wonderful system.

Preparing Bees For Winter

The successful wintering of bees is often ascribed to luck. But investigations carried on at the Central Experimental Farm, Ottawa, during the past eight years, show that there is very little ground for this view. Of 348 colonies wintered during this period, both in the cellar and out-of-doors, only seven per cent. were lost, and this loss was ascertained in nearly every case to be due to definite causes, the principal causes being unwholesome and granulated stores and starvation. Most of the colonies lost from unwholesome stores did not die outright but became so weak that they had to be united to others.

The secret of success in wintering bees lies in their proper preparation. This preparation needs to be begun in July when it is important to see that the colony contains a good, fertile queen, preferably one raised the same year, which will raise a large number of young bees in the late summer months.

Each colony needs about 40 lbs. of wholesome stores for the winter and early spring, and this should be in the hive before the end of September in most places. Clover honey and syrup made from refined (hot brown) sugar are wholesome. This year, owing to the high cost of refined sugar, it may be hard to provide sufficient good stores, especially in some parts of Ontario and Quebec where the clover was killed last winter, and chances may have to be taken with honey that the bees gather from other plants. Buck wheat honey is wholesome, but some of the honeys, for example, that come from wild plants in the fall are inclined to cause dysentery and death.

Winter production is very important. If the bees are to remain outside, no better protection can be given than this economy case made large enough to hold about four inches of packing, consisting of shavings, or dried leaves a year or more old, around the sides and beneath the hives, and double this thickness on top. The apiary must be well protected from wind.

If cellar wintering is followed, the bee-hive should be comparatively dry and it should be well insulated to prevent much variation in temperature.

For a few colonies in a cold locality a boarded off portion of the basement of the beekeeper's residence makes a good bee cellar and a furnace in the basement is an advantage. If the stores are wholesome and the bees have been brought in before severe weather, the best temperature for the bee cellar is between 45 and 50°F. If however, dysentery has developed, the higher temperature will cause restlessness and a few degrees lower will be advisable.

Catarrhal Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. F. J. CHENEY & CO., Toledo, O., Agents, 75c.

A New Man

If you are suffering from dyspepsia or other stomach trouble, you will appreciate a medicine that will relieve and correct your condition.

HALL'S DYSPEPSIA REMEDY

regulates and invigorates the digestive organs, prevents acid fermentation and souring in the stomach, and promotes digestion and assimilation of the food.

Try this extraordinary medicine—it will make you feel like a new man.

Sold at all drug and general stores, 75c. The Canadian Drug Co. Limited, St. John, N.B.

Million Dollar Suit Over Wreck Of Circus Train

The Hagenbock-Wallace circus organization, which showed here last month, sustained an enormous loss; two years ago when its train was wrecked on the Michigan City (Ind.) Railway, at Ivanhoe (Ind.), 107 persons losing their lives, including the wife and two children of the circus postmaster, who led the parade through the Streets of John, riding a bicycle. A large part of the circus was destroyed. The administrators of the estates of those who lost their lives have just instituted ninety suits against the railroad, aggregating more than \$1,000,000, alleging that the accident was the fault of the railway. When the employees of the circus sat in their dining tent on Prince Edward Island recently there was almost complete silence. It was the second anniversary of the terrible disaster at Baden (Ind.)

SAYS HIS FAITH CAN'T BE SHAKEN

Halifax Man Believes Tanlac Will Rout Any Case of Rheumatism

"Only those who have been racked with pain by rheumatism as I was, can fully appreciate the way I feel about Tanlac, the medicine that relieved me of all my pain and suffering, and made me a well man," said John T. Davis, who lives at 11-2 North Clifton St., Halifax, N. S.

"I was in a mighty bad way before I started on Tanlac," said Mr. Davis. "For three years I had suffered with rheumatism, and it seemed to be all over my body. But it troubled me most in the shoulders, they would get so sore and stiff that I couldn't raise my arms above my head, and when I moved my arm it was just as though someone was sticking a knife into them. I also had a dull, throbbing pain just like tooth-ache in my arms and shoulders, that would keep me awake for hours, and sudden sharp pains in my legs and knees which would get so stiff that I could barely walk. I had little or no appetite, fell off in weight and got so weak and run down that it was just all I could do to stay on the job and I tell you that some days I felt like life wasn't worth living."

"But now after taking seven bottles of Tanlac I am a well man and happy at the wonderful relief it has given me. I've got a fine appetite and can eat anything that is placed before me. I've already gained twelve pounds in weight and just feel full of energy and go all the time. But best of all the rheumatism has left me entirely, my shoulders and legs are as supple as ever and I haven't had an ache or a pain of any sort in my body. Nothing will ever shake my faith in Tanlac for this for I've proved it myself, and have every confidence in recommending it to others."

Tanlac is sold in Newcastle by E. J. Morris, in Redbank by Wm. M. Sullivan and in Dartmouth by O. Hildebrand.

Food Value and Appetizing Flavor pledged by this trademark

WHEN you buy Beaver Flour you obtain flour that is ideal for all baking purposes—flour containing the food value and wondrous richness of the world-famed Ontario Winter Wheat, combined with the strength of Western Hard Wheat.

For 50 years Beaver Flour has been daily proving to Canadian women that it contains the qualities which make bread, pies, cakes and pastries that are real food treats.

Bakings made with Beaver Flour have that light, fine, even texture and crispy, flaky crusts—sought after by all conscientious, good cooks.

Beaver Flour is the old reliable blended flour, used for half a century by thousands of Canadian housewives.

Profit by the experience of others. Improve your bakings by using

BEAVER FLOUR

Sold by your grocer.

THE T.H. TAYLOR CO. LIMITED CHATHAM ONTARIO

Health will be taken over by Hon. J. A. Calder, Soldiers' civil re-establishment will soon be absorbed by the militia department and, until a solicitor general is appointed, Hon. Hugh Guthrie minister of militia, will continue to administer that department. The prime minister will follow the example of his predecessor and take charge of the department of external affairs.

New Cabinet

- The new cabinet is the following: Premier and minister of external affairs, Hon. Arthur Meighen.
- Minister of trade and commerce, Sir George Foster.
- Secretary of state, Hon. A. L. Sifton.
- Minister of justice, Hon. C. J. Doherty.
- President of the Council and minister of immigration, Hon. J. A. Calder.
- Minister of finance, Sir Henry Drayton.
- Minister of railways, Hon. J. D. Reid.
- Minister of interior, Sir James Loughheed.
- Postmaster general, Hon. P. E. Blondin.
- Minister of marine and fisheries, Hon. C. C. Ballantyne.
- Minister of labor, Hon. G. D. Robertson.
- Minister of militia, Hon. Hugh Guthrie.
- Minister of agriculture, Hon. S. F. Tolmie.
- Minister of public works, Hon. F. B. McCurdy.
- Minister of customs, Hon. R. C. Wignmore.

Election Writs

Writs for the election of the new ministers, Hon. F. B. McCurdy, have not been issued but the elections will be brought on as soon as possible. It is expected that both the new ministers will be readily endorsed by their constituents. While the new ministry is now complete, it is possible that other changes may soon be forthcoming.

The new government consists of ten Conservatives, six Liberals and one Labor representative. The Conservatives are the prime minister, Sir George Foster, Sir James Loughheed, Sir Henry Drayton, Sir Edward Kemp, Hon. C. J. Doherty, Hon. Dr. Reid, Hon. Pierre Blondin, Hon. F. B. McCurdy and Hon. J. A. Calder, Hon. A. L. Sifton, Hon. C. C. Ballantyne, Hon. Hugh Guthrie, Hon. S. F. Tolmie and Hon. E. K. Spinney, and Labor is represented by Hon. Gideon Robertson. The first cabinet council was held immediately after the ministers took the oath of office.

Hon. R. W. Wignmore, who was on his way to Ottawa, took the oath of office in Montreal, where he met His Excellency, who left today to visit Newfoundland.

Hon. R. W. Wignmore, who has been chosen to represent New Brunswick in the cabinet, is a native of St. John, the constituency he represents in parliament. He is a comparatively young man, being born in 1873, while his colleague from Nova Scotia is two years younger, or the same age as the new prime minister. He was a very successful commissioner for the city of St. John and, in 1917, was chosen as the Conservative-Unionist candidate in that city and elected by a very large majority. He is now interested in shipping and is a strong advocate of the improvement of the port of St. John. His reelection is conceded by all parties, and he may secure acclamation.

Hon. Fleming Blanchard McCurdy, Conservative-Unionist member of parliament for Colchester, was born at Old Barnes, Colchester county, February 17, 1876, the son of James and Amelia J. (Archibald) McCurdy. He was educated in the public schools. He began his business career in the service of the Halifax Banking Co. at Truro, in 1896 leaving the bank in 1901 to embark in financial business for himself under the firm name of F. B. McCurdy & Co., which has six banking and brokerage offices in the Maritime provinces, including one in St. John. He was for several years president of the Halifax Board of Trade. He was first elected to parliament for Colchester in 1911, defeating Hon. W. S. Fielding, minister of finance in the Laurier

Saving Home Grown Seed

Although the cost of seed that is used in planting a vegetable garden is small compared with the returns, it is very easy to grow the seed one's self and moreover, if pure seed of a good strain is produced at home, one is surer of having what is required.

Seed of most varieties of vegetables can be grown at home of as good or better quality than is the imported seed, but to ensure having good seed it should be saved from the best plants rather than from those which happen to have been left in the garden unused.

A few plants of peas left to mature without picking any green pods from them will furnish enough seed for the garden next year.

Reserve a few feet of the row of beans for seed, or, better still, mark a few productive plants, which are free from disease and do not pick green beans from them. Quickness of drying is important with beans and peas, as with most seed, and it should be cleaned and kept dry until the following spring.

If seed is damp it is liable to mould and lose its germinating power. For this reason it is particularly important in the case of corn to dry the seed thoroughly and rapidly. When corn becomes ready for use, a few of the earliest and best developed ears should be marked to be left until ripe for seed.

One cucumber will contain enough seed for the wants of the home gardener. A specimen which is typical in shape and colour of the variety grown or the type desired should be left on the vine until it turns yellow, when it is cut open and the seeds spread out thinly and dried and put in an envelope until needed.

Seed is readily obtained from lettuce. One plant will produce more than enough seed for home use, and no doubt some radish plants have gone to seed, which may be left until the seed ripens.

The seed of tomatoes for home use should be saved from the plant bearing the largest crop of early and best fruit. The tomatoes are cut in half and the pulp pressed out into some vessel, adding about one third its volume of water. Put in dark room until fermentation sets in, which will be in about two days, when the seed will separate readily from the pulp. It is then washed out and spread out to dry but not in the sun. When dry, store in paper bags until needed.

The seed of other vegetables can also easily be saved, and there are many persons in Canada who have their own specially selected strains of different sorts.

POOR YEAR FOR PARTRIDGE

Henry Braithwaite, the veteran guide, who returned a short time ago from an extended trip to the Miramichi woods, says that the present season has not been as favorable to partridges as last year. He says that cold weather in the early part of June was bad for the newly hatched mortality among them.

The fire department was called this afternoon for a fire under the roof of the houses occupied by J. R. Kennedy, Carleton street. The double roof interfered with the work of the firemen. Damage was not great.

He was appointed parliamentary secretary for the department of militia and defence, July 19, 1916. In the general elections of 1917 he was elected as representative of his native constituency, Colchester, and on February 26, 1918, was appointed parliamentary secretary of the newly formed Soldiers' Civil Re-establishment and chairman of the Invalided Soldiers' Commission. He held these positions until 1919.

He is enthusiastic golfer, fisherman, hunter and motorist and is a member of a dozen clubs and associations, having been president of the Wanderers' A. A. C. of Halifax and Automobile Association. His wife was Miss Florence Bridgman Pearson, daughter of the Hon. B. F. Pearson, well known as a promoter and capitalist. They were united in 1893 and have two sons. In religion the householders are Presbyterians.

"Save the surface and you save all" Paint & Varnish

A Finish That Lasts

WHEN you paint it is with the idea of "conserving" your property, as well as beautifying it. And you wish to avoid constant repainting. If it's to be a white surface, you want it to stay white. And it will—if you use

B-H PAINT 70% Pure White Lead (Standard Grade) 30% Pure White Zinc 100% Pure Pigment

This really superior paint gives a brilliant finish that will not fade for a long time to come. Whether in white, or in colors, it will give protection, and will continue to look "fresh" for a long period. This result is obtained by the use of finest ingredients in just-right proportions. The white base for it is that superb pigment known for two centuries as Brandram's Genuine B.B. White Lead. By using this, and other ingredients of similar high quality, there is maintained in B-H "English" Paint a standard of paint quality that other brands have to envy. It excels in "body," brilliance, covering capacity and permanence. This store is proud to be known as

Quit Laxatives; Purges; Try NR

NR Tonight—Tomorrow Feel Right

If it is mistakes to continually seek yourself with so-called laxative pills, calomel, oil, purges and cathartics and force bowel action. It weakens the bowels and liver and makes constant dosing necessary.

Why don't you begin right today to overcome your constipation and get your system in such shape that daily purging will be unnecessary? You can do so if you get a 50c box of Nature's Remedy (NR Tablets) and take one each night for a week or so.

NR Tablets do much more than merely cause pleasant easy bowel action. This medicine acts upon the digestive as well as eliminative organs—promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good, hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleaning out. This accomplished you will not have to take medicine every day. An occasional NR tablet will keep your body in condition and you can always feel your best.

Try Nature's Remedy (NR Tablets) and prove this. It is the best bowel medicine that you can use and costs only 50c per box, containing enough to last twenty-five days. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

New Red Cross Peace Policy

St. John, N. B., 143 Duke Street, July 6th 1920
Dear Mrs. Sargeant:
You will be glad to hear that our new Peace Policy is about to be inaugurated and our representative, Miss Bertha Ruddock R. N. is about to start on her journey to visit the Branches in our Province.
She will tell you what the Red Cross have been doing since the war and what they plan to do in the future. She hopes to have attractive charts and films to illustrate her talk that she will give on the modern Health, Sanitation and Child Welfare subjects.
She wants to meet personally all the members of the Red Cross who did such noble work through the great war. As there are 79 Branches in the Province if possible she would like to combine the talk to two or three at a time. You could assist us greatly by telling us if it were possible to unite with any other Branch in your neighborhood.
A post card will be sent to you a week in advance telling you when to expect her. Meanwhile will you kindly make preparation for her coming by telling everyone and having the news placed in your nearest local paper. All expenses will be met by the Provincial Red Cross. All your Branch will have to do is to secure a hall and an audience and to engage a room for her at an hotel.
Miss Ruddock is very highly suited for the position and I am sure she will receive a very warm welcome. Not only the Red Cross members but everyone will be most welcome at the meeting.
ETHEL HAZEN JARVIS
Secretary Provincial Red Cross

Many Drownings So Far This Year

The number of drownings in the maritime provinces this year up to July 15 has been unusually large, totalling forty-six, and as many who lost their lives were bathers, it is evident that more care and caution should be exercised by those going in for dips, particularly in rivers and lakes, where the fresh water does not possess the buoyancy quality of the salt. Several of the accidents apparently were due to cramps or acute indigestion, probably caused by persons going in the water too soon after eating a meal, or in an over-heated condition. Some of those who were drowned were good swimmers. The drownings in New Brunswick in the last three months numbered seventeen and in Prince Edward Island, four. Twenty-five were drowned in Nova Scotia, three by suicidal acts, and one, a child was murdered. A child is also alleged to have been murdered in this province, and a woman is now held at St. Stephen. There was one suicide at Borden (P. E. I.)
Those who lost their lives in the water in this province were: April 15 Winslow Thomas, of McNutt's Mills, York county, in Tay Stream, April 18, R. E. Seely, Lower Norton; April 22, Henry Langteigne, Shippegan; May 19, Morris Downing, St. John; May 22, Henry Sellen, St. John; May 28, Melanson, Le Blancville, Westmorland county; June 5, unknown child, Hilltown; June 6, Thomas McKensie, Boom Road, Northumberland county, near Campbellton; June 18, John Regan, St. John; June 25, Eben Leavitt, St. George; June 27, Cecil Prosser, Waterville, Carleton county; July 2, George Currie, Devon; July 6, Edgar McGillivray, St. George; July 8, Lester Rogers, Stoney Creek, Albert county; July 8, Harry Steeves, Stoney Creek; July 11, Milton Wortman, Boundary Creek; Westmorland county; July 13, George Carroll, Newcastle.
In addition, a Madawaska county man was drowned in Maine. One person in this province and one in Prince Edward Island were drowned in wells.
A thrilling rescue from drowning occurred at St. Andrew's swimming pool on Sunday last. Murray Kollinsky, of Worcester (Mass), staying at the Algonquin hotel, was going down for the second time and took a strong hold on John Roche's neck. The hold was broken by Arthur Brock, of Worcester, who swam to aid Roche. They saved Kollinsky. All are employees of the hotel.

The Man Who Wins Is Always Full of Life and Energy—Failures are Weak and Bloodless

Some men seem to have all the luck. If there are any good things going these men seem to get them. They make other people do their will; men they are successful; if they are workmen they get the foreman's job. They have the power of influencing people.
The same thing is true of women. Some have the charm that makes men seek them out; others are always neglected. But this is not luck. It is due to a personal gift—vitality. Men and women of this sort are never weak, puny invalids. They may not be big, but they are full of life and energy. The whole thing is a matter of good nerves and good health. Everyone would wish to be like this and the qualities that makes for vitality and energy are purely a matter of health. By building up the blood and nerves, sleeplessness, want of energy, weakness of the back, stooping shoulders, headaches and the ineffectual sort of presence which really comes from weakness can all be got rid of. Dr. Williams Pink Pills have made many weak, tired men vigorous and healthy, and many pale, dejected girls and women, plump rosy and attractive, by improving their blood and toning up their nerves. If you are weak, ailing, low-spirited or unhealthy, try Dr. Williams Pink Pills and note their speedy, beneficial effect.
You can get these Pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co. Brockville, Ont.

Fortune Lavished On 'Red Lantern'

The expenditure of a quarter of a million dollars, costumes worth a king's ransom and the services of 1,200 persons, from director, scenario writers and art designers to an ensemble that embodied a small army in size, represent but a part of the tremendous outlay in money, time and effort given by Metro to the production of 'The Red Lantern', in which the incomparable Nazimova appears at Happy Hour Theatre on Wednesday evening.
'The Red Lantern' is truly colossal when it is judged by the combination of the supreme artistry of its brilliant star and by the sumptuous environment provided for her and her supporting cast. It has the added value of being based upon one of the most talked of novels of the decade, 'The Red Lantern', a romance of the ancient city of Peking, from the pen of Edith Wherry, and published by the Bodley Head.
The total cost of producing 'The Red Lantern' was, in round figures, \$250,000. The time required to make it, was three months; eight weeks in actual production and four weeks devoted to elaborate research work carried out by June Mathis and Albert Capellani, who made the screen adaptation and scenario, in order to insure absolute accuracy in the matter of Chinese life and customs.
In this they were aided by several assistant librarians in Los Angeles and Hollywood, so that before a scene was photographed, they had amassed a wealth of material that assured authenticity in every detail, and also suggested many bits of quaint business, throwing truthful sidelights on the characters of the inhabitants of the ancient capital of China.
Albert Capellani, the eminent French director, now producing his own pictures directed Nazimova in 'The Red Lantern'. To him was assigned by Messrs. Rowland and Karger, the exclusive services of Henri Matisse, French artist and Paris Academy medal winner, to design not only all the art interiors, but costume details, special furnishings and properties and also personally to 'dress' every set with an eye to color harmonies and contrasts.
Nazimova's gowns alone—the splendid robes of state worn in the imperial court of the Manchus and the fantastic habiliments of the Goddess of the Red Lantern among them were worth \$75,000, and the costumes worn by supporting principals in the large cast and those of the hundreds of 'extras' figuring in the palace scenes and the bloody street fighting scenes reproducing the Boxer uprising in Peking at the time of the siege of the Allied legations in 1900, were worth \$50,000. Real Chinese rugs used in the production represented a fabulous outlay.

ST. LOMER GOUIN JOINS LA PRESSE

Shamrock IV Wins First Race

Sandy Hook, N. J., July 15—Great Britain gained her first toe-hold in forty-nine years on the America's Cup today, when Sir Thomas Lipton's challenger, Shamrock IV, won the first race of the 1920 regatta after the defender, Resolute, had been forced out of the running by an accident to her rigging. The green challenger must win two more races out of a possible maximum of four if she is to achieve Sir Thomas Lipton's dream of taking the trophy back to Britain. The Resolute must win three out of four to retain the cup which has been in possession of the New York Yacht Club since 1851.

Discord Crops Out in Ranks of Third Party

Chicago, July 14—Robert La Follette, Jr., notified the new party leaders tonight that his father would not run for President under any circumstances on the platform adopted.
The "Farmer-Labor Party" was the name chosen by the convention for their new political group. The first name brought before the convention was that of Dudley Field Malone. Then a New York woman nominated Henry Ford, her speech being halted several times while delegates booed and hissed.
The labor group was dominant when the new fusion party adopted a platform late today, in preparation for nomination of candidates at tonight's session.
A near stampede developed when an attempt was made to forestall introduction of the majority platform report by the submission to the convention of report that was reported to be acceptable to Senator Robert La Follette. The Senator's friends, however, were overruled, and the Senator's own platform ideas had been buried in the night.

SUIT CASES, BAGS and TRUNKS

SUIT CASES from..... 1.50 to 18.00
LEATHER BAGS from..... 5.00 to 40.00

A healthy body means healthy arteries. The railways are the arteries of Canada.

IN the operation of railways Canadians hold high reputations.
The chief Canadian systems are operated over great stretches of territory presenting widely different problems.
Their traffic obligations fluctuate rapidly with the seasons.
Climatic conditions are sometimes difficult. Unusual foresight, skill and determination are called for.

Yet the only unfailing highways for the heavy traffic across the New World from China to France during the war—were Canadian railways.
Canada alone among the allied countries had no war-time transportation crisis. When foreign roads choked under their load, she relieved them of millions of tons. At a time when ships were the need of the hour no ship lost time in any Canadian port through failure of the railways to deliver cargoes at the docks.

Today the Canadian producer still commands the fastest, the most dependable and the cheapest railway service in the world.
But the foresight that made this record possible could do nothing without MONEY! The skill that kept terminals uncongested had to be backed with MONEY! The determination that drove crippled engines ahead in the face of 40-below gales and mounting snow would in the long run have been useless without MONEY!

Thus to-day the alarming fall in the net revenues of the railways is a menace to railway efficiency. It injures railway credit. It dissolves the reserves needful to meet the expanding needs of a growing country. It imperils national prosperity.
Increased freight rates are imperative therefore, not merely on behalf of railways but in the interests of Canada itself!

This is the first of a series of advertisements published under the authority of
The Railway Association of Canada
formerly the CANADIAN RAILWAY WAR BOARD

In July 1918 the Canadian roads were threatened with a general strike. To prevent this public catastrophe they agreed to follow the American scale of wages. The Government of Canada meantime allowed freight rate increases intended to make up the cost of these new wage rates.
Leaving aside all question of increased cost of material, the new wages cost the railways of Canada an extra eighty million dollars for the first year alone.
The new rates yielded them an additional forty-three millions!
The annual deficit on wages alone was thirty-seven millions and is constantly growing!

The C.P.R. and its Veterans

With a total of 18,330 returned soldiers given employment up to June 30th, the C. P. R. has achieved a record which its officials consider the best record in the history of the Company.

Table with 4 columns: Category, Total reported as joining the Army, Killed or Died on Active Service, Re-employed. Rows include Train and Enginemen, Shopmen, Clerical, Miscellaneous, Maintenance of Way Employees.

Army service naturally upset the old order of life, and a percentage of those who might have come back to railway service in Canada drifted elsewhere.

Table with 4 columns: Category, Enlisted, Killed or Died on Active Service, Re-employed. Rows include Barber, H. G., Bliss, R. H., Cantile, G. S., Carmichael, John, Coppock, R. C., etc.

If the "Veteran" Army of the C. P. R. were ever to parade together, it would make a brave showing of medals and decorations.

Mr. William Lewis was called to Salisbury last week, owing to the serious illness of his father.

Mrs. J. R. Lawlor and daughters are spending the summer months at the sea-shore in Burnt Church.

Mrs. Wm. J. Ryan and son, Gordon of Bangor, Me., are visiting the former's mother Mrs. James Duff.

Miss Edith Casey left on Tuesday to visit relatives at Old Town, Portland and South East Carry, Maine.

Mrs. P. J. McEvoy returned Monday from a pleasant visit to relatives and friends in New York and New Haven.

Mrs. Joseph Jardine, widow Tabusintac last week having been called there on account of the death of her mother, Mrs. Murray.

Mrs. J. W. Kilborne who was called here on account of the serious illness of her brother Stanley Casey has returned to her home in Portland, Maine.

Miss Clara Bernard has resigned her position with the North Shore Leader and has accepted a position on the clerical staff of the J. D. Croghan & Co.

Mrs. W. J. Jardine and children of Moncton, have gone to Port Daniel Centre, Quebec, where they will spend the summer holidays with Mrs. Jardine's father.

WEDDINGS

NICHOLSON-FERGUSON

At the home of the bride's parents, on Wednesday July 14th, Miss Florence J. Ferguson, daughter of Mr. and Mrs. John Ferguson, was united in marriage to Willis McD. Nicholson, son of Mr. and Mrs. Esborne Nicholson, by Rev. L. R. MacLean. Mr. and Mrs. Nicholson left on the Ocean Limited for Montreal.

WILLIS-MURPHY

Chester Willis of Hibbing, Minnesota, son of Mr. and Mrs. Hugh Willis was married July 7th, to Miss Violet Murphy daughter of Mr. and Mrs. William Murphy of South Nelson, N. B. The ceremony was performed by Rev. Harry Bell. The happy couple spent their honeymoon in Duluth, and will be at home to their friends in Hibbing after August 1st.

GALLIAH-ROBICHAUD

Miss Elodia Robichaud, of New Brunswick, North Co. and Mr. Joseph E. Galliah, of Newcastle, were united in marriage Wednesday morning, July 14th, in St. Mary's Church. The ceremony was performed by Rev. Fr. Dixon.

Miss Margaret Galliah, sister of the groom, was bridesmaid, while Mr. Simon Savoy supported the bride. The bride's dress was navy blue silk, with pictured hat to match.

After the ceremony a luncheon was served at the home of the groom, after which the happy couple accompanied by a number of friends, motored to the home of the bride, Neguac.

GUY-ANDERSON

St. Andrew's Church, St. John was the scene of one of the most interesting weddings of the year, last Wednesday evening at 9 o'clock, when Miss Louise, daughter of Mr. and Mrs. R. H. Anderson, of Queens Square, was united in marriage with Thomas Guy, manager of the Bank of Montreal in Haymarket Square. The ceremony was performed by Rev. J. S. Sutherland, of Fredericton, assisted by Rev. F. S. Dowling, and the bride was given away by her father.

The bride's costume was of white satin, embroidered with silver and crystal beads and a veil embroidered with seed pearls and orange blossoms, and she carried a shower bouquet of roses. Miss Jean Anderson, maid of honor, wore gold velvet and a black hat and carried a bouquet of crimson roses. The bridesmaids, Miss Agnes Anderson and Miss Katherine Brown, of Chatham, were attired in white silk with gold trimmings and gold lace hats and carried gilt staves with bows of tulle, and bouquets of buttercups and daisies.

Another beautiful dress was that of the train-bearer, Miss Constance Mullin, a Kate Greenaway costume of point d'esprit. George Roberts supported the groom. Victor Crosby, John Moore, Leslie Peters and Robert Anderson were the ushers.

The choir sang "The Voice that Breathed O'er Eden," as the bridal party entered the church; Mrs. L. LeLachour sang "Because," and as they left, Miss Megarity, the organist, played Mendelssohn's Wedding March.

The church was beautifully decorated with daisies, buttercups, palms and ferns and a bell of daisies and buttercups had been erected.

After a reception at the home of the bride's parents, Mr. and Mrs. Guy left for P. E. Island for their honeymoon. On their return they will reside at 24 Pitt street, St. John. A great number of beautiful and costly presents were received, including a case of silver from the congregation and choir of St. Andrew's church and a beautiful china dish from the Ladies' Aid of the same church.

Among the out-of-town guests present at the wedding were: Mr. and Mrs. R. S. Murray, Schenectady (N. Y.); Mrs. W. H. Tapper and Mrs. R. Hutchison, Brookline (Mass.); Mr. and Mrs. F. H. McNaught, Miss Katherine, Miss Isabel and Alexander Brown, and Miss Lillian (Snowball), Chatham; Miss Marjorie Forsyth, Miss Marion Haddow and Miss Elizabeth McDonald, Toronto; and Miss Florence Hickson and Miss Louise Manny, Newcastle.

On The Crest Of The Music Wave

There are eighty-one song leaders in Los Angeles, Cal., who have taken a special course of training for their work. The city averages 45 community sings monthly with an attendance ranging from 50 to 1000.

Gerson J. Brown, director of Chamber of Commerce of Cincinnati, Ohio, recently made a unique donation of fifty seats at each of a series of concerts of the Cincinnati Symphony Orchestra, to be distributed among poor but musically gifted children. Mr. Brown believes this opportunity to hear some of the world's inspiring music may develop the latent genius in some indigent youngster and be the call to a distinguished musical career.

According to Representative Royal C. Johnson of South Dakota, the nation's greatest victory memorial is to be erected in Washington in the form of a fine auditorium built for the holding of music festivals, conventions, conferences, etc. Congress has donated the site for the building on the spacious Mall, about half way between the White House and the Capitol, and has authorized the George Washington Memorial Association to collect the necessary funds for its construction and maintenance—\$10,000,000.

Among the branches of instruction offered to the men of the United States Army, Fourth Division, at Camp Dodge, Iowa, is the Music School under the direction of Howard Wade Kimsey. In this school courses are given in sight reading, rudiments of music, voice-culture, piano, singing and band and orchestra instruments. There is also a daily glee club practice, as well as male quartet and chorus singing. There are forty-nine students enrolled in the school at the present time; voice, 14; piano, 23; violin, 9; band and orchestra instruments, 11.

Music seems to have taken a new hold on the hearts and minds of South America. Maurice Dumesnil, the pianist, who has just returned from the southern continent, says: "The enthusiastic response to the South American to good music is almost unbelievable. Great crowds pack the concert halls, and the interest runs at fever heat. The Symphony orchestras, of which there are several, are "sold out" at every concert. There is a great musical field in South America now, and I am at a loss to understand why more artists do not take advantage of it."

The value of music in stimulating business progress and developing an esprit de corps among workers was the subject of a recent speech by D.M. Yates, general manager of Marshall, Field and Company's retail store in Chicago before the firm's choral society. This organization was established in 1906. Thomas A. Pape, one of the employees, is director. Under his supervision more than 200 voices have been trained to musical efficiency of a high order and attractive programs are frequently given, to which the public as well as the employees are invited.

WILSON'S FLY PADS

Kill them all, and the germs too. 10c a packet at Druggists, Grocers and General Stores.

OTHER TABLETS NOT ASPIRIN AT ALL

Only Tablets with "Bayer Cross" are Genuine Aspirin

If you don't see the "Bayer Cross" on the tablets, you are not getting Aspirin—only an acid imitation.

The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, prescribed by physicians for over nineteen years and proved safe by millions for Headache, Neuralgia, Gout, Rheumatism, Lumbago, Neuritis, and for Pain generally. Made in Canada.

Handy tin boxes of 12 tablets—also larger sized "Bayer" packages—can be had at drug stores.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monheim, Germany, and is the only name of Bayer's Aspirin.

Aspirin is well known that Aspirin tablets are made in Germany, and the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with the Bayer cross mark, the "Bayer Cross."

New Telephone Rates Announced

By order issued at 3 p. m. July 13th the Public Utilities Board approved of a new schedule of rates for the N. B. Telephone Co., Ltd., reserving jurisdiction to repeal within fifteen months, on application of interested parties.

Existing contracts are to operate for a reasonable time and any new contracts shall be entered into for a month at the new rate, until such times as the equipment is able to give the proposed new service.

The new schedule provides as follows:

For private 'phones—One-party, \$30. The old rates were \$30, \$24 and \$20, respectively.

For business lines, party 'phones are cut out. There is a flat rate of \$96 for service not to exceed 25 calls a day; when 25 calls is exceeded a measured service will have to be taken.

The measured service rates are: \$36 a year for the first 720 calls, or for 60 calls a month. There is an additional charge provided of 3 cents a call for the next 100 a month; 21-2 cents a call for the next 140 calls a month and two cents a call for all calls over 300 a month.

The old business rates were: \$45 for one-party, \$40 for a two-party 'phone and \$35 for a four-party line.

Before the new order goes into effect, there is a condition that the company must canvass subscribers and thoroughly explain the alternative services.

Use of Seaweeds

There are three types of seaweed used for fertilizers in the Maritime Provinces. The most common is known as Eel-grass, and comes ashore in large quantities along the bays and rivers; the others are Rock-weed, which comes on shore along the sea-coast, and Kelp, a large, coarse sea-weed, that comes in from the deep sea.

A chemical analysis of sun-dried eel-grass gives it about the same fertilizing value as stable manure per ton. Those who have used it, however, for a number of years, know that it is not readily available as a plant food, and when ploughed under it often remains in the soil to be ploughed up again, with very little apparent change, seven or more years later. Eel-grass, when applied to the land for the first time, will usually greatly increase the crop. The salt present may be one of the factors in improving acid lands. It opens the soil for potatoes, and not only increases the crop, but acts as a preventative of some diseases, producing splendid, clean potatoes. It is most useful however, when used in conjunction with barn-yard manure. It is a good absorbent when dry, and soaks up large quantities of liquid manure about a stable or barn-yard. It can be usefully added to a compost to increase the bulk and prevent the hotter manures from wasting.

The kelp and rock-weed are much more readily available, as they will rot when composted by themselves, and are valuable sea-manures, containing at certain seasons a considerable quantity of potash salts. They are used for potatoes and roots generally, and greatly supplement other fertilizers.

The eel-grass is used a great deal as banking for buildings and root cellars, as it is a good non-conductor, and keeps out the frost. It is also now extensively used for upholstery, and when properly saved and cured is quite valuable. It is one of the best mulches for strawberry plantations, keeping down the weeds, and preventing the berries from coming in contact with the earth. Some have used it as mulch around trees in an orchard left in sod to keep down the grass.

Experiments have been conducted at the Charlottetown Station with both sun-dried eel-grass and the ground sea-weed fertilizer that was put up by the Government at Clark's Harbour, N. S. The ground seaweed fertilizer was also tested on ten other farms in Queens County. On four farms increases were reported in the yield of potatoes; two farms showed a loss where the fertilizer was used, and four farms did not show any difference from the application except in colour of the foliage, which was darker.

The seaweed are useful as absorbents about a barn-yard. They add to the bulk of manure about the farm, enabling a more even distribution to be made over a greater area each year. They are fairly rich in fertilizing constituents, which they give up slowly to the plants through several seasons.

CANADA'S SOFT COAL SITUATION

MONTREAL, July 15—From statements of leading coal importers of this city, it appears that the soft coal situation in Canada is steadily becoming worse, and there is no factor yet in sight which may tend to bring about a change.

A leading coal merchant, when speaking about the proposed scheme of buying coal from Alberta, said that the plan is unworkable for the mines in the West already market all their own production, and if it was shipped to eastern points their other users would be in the same position as here.

"It has the flavor"—a rich, satisfying flavor that every man who chews, appreciates.

And the quality is always the same—buy it where you will.

I SUFFERED FIVE YEARS

Finally Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Paris, Ont.—"For five years I suffered from pains caused by displacement of my organs and in my back. All of this time I was unfit for work and was taking different medicines that I thought were good. I saw the advertisement in the papers of Lydia E. Pinkham's Vegetable Compound and took it faithfully. I am now in perfect health and do all my own work. I recommend it to others, and give you permission to publish this letter in your little book and in the newspapers as a testimonial."
—Mrs. D. CASSADY, Box 461, Paris, Ont.
Why women will continue to suffer so long is more than we can understand, when they can find health in Lydia E. Pinkham's Vegetable Compound!
For forty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, irregularities, etc.
If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

May Hold Bye-Elections In Five Constituencies

Ottawa, July 14—With the advent of the new Government, preparations are likely to be made shortly for bye-elections in five constituencies. Acceptance of offices in the Meighen Administration by F. B. McCurdy and S. W. Wigmore, entailed bye-elections in Colchester, N. S., and St. John City, N. B., respectively. But when the government assumed office, there were already two vacancies in Ontario. One in East Elgin, due to the death of David Marshall, the other in Peterboro, West, due to the resignation of J. H. Burnham. In addition, the acceptance of the office of parliamentary librarian by Hon. Martin Burrell will entail his resignation as a member of the House.

There is a probability also of a sixth vacancy. Sir Herbert Ames, having taken the position of financial director of the League of Nations is not likely long to retain his seat in the House. A problem has arisen, too, in regard to the parliamentary under-secretaryships. During the war, three were created by statute, External Affairs, Soldiers Civil Re-employment and Militia and Defence. They were filled respectively by F. H. Keefe, Lieutenant Colonel Hugh Clark and F. B. McCurdy. Mr. McCurdy resigned some months ago and yesterday was sworn in as Minister of Public Works. Lieutenant Colonel Clark and Mr. Keefe remain. The three positions were created "for the continuance of the present war and until the end of the said war, or if parliament is sitting when the war ends, then until the end of such session of parliament."

London, July 14—The Irish Secretary's office today issued a formal reply to the Trades Union Congress resolution demanding the withdrawal of troops from Ireland. The reply says that the resolution probably is the result of a misconception of the actual functions of the troops, which are not that of occupation, but to assist the civil power and the police in preserving order.

It points out that military law has not been proclaimed, and asserts that the marked absence of disorder on the occasion of the July Twelfth celebration was undoubtedly due to the presence of these troops, and declares that it is impossible to withdraw these troops, which would leave the law-abiding population at the mercy of the forces of disorder.

Delivering Goods By Aeroplane

In our last issue there appeared an item announcing the purchase of an aeroplane by Brandram-Henderson Ltd., and the installation of a delivery service by air from their factory at Montreal to the towns and villages within the central division. Since then, we have seen Mr. George Helliar, the Brandram-Henderson manager at Halifax, who recently returned from Montreal, and he has told us more about it. The conception of the aeroplane idea, he says, was that of the President of the company, Mr. George Henderson, and so far it has proved to be the most effective advertising effort that has ever been made in Canada. Other institutions such as County Fairs, Victory Loan Campaigns, etc., have engaged aeroplanes for special stunts, but Mr. Henderson in his venture went further. He bought an aeroplane outright, lock, stock and barrel, and gave it definite duties which it performs with clocklike regularity.

"Up to the time I was in Montreal," said Mr. Helliar, flights had already been made to a large number of places one to Three Rivers, a distance of 90 miles was made in 50 minutes. On a day when a trip was made to Berthierville, the Mayor of that town proclaimed a public holiday, and on the landing of the aviator, the local band played "See the conquering hero come." I understand that the Brandram-Henderson agent there sold over \$900 worth of paint right in the aviation field, within a very few minutes, so impressed were the people by the firm's enterprise. I might say that in each town before making a landing to deliver his freight, the aviator is instructed to circle about for a time, dropping bombs of propaganda for "B-H. English" and "Brandram's B. B. Genuine White Lead." It is a fine advertising stunt; the most effective that we have ever attempted.

"Perhaps Brandram-Henderson will install an air delivery from Halifax," the "Merchant" suggested. "They might, but for one thing," said Mr. Helliar. Halifax is without an air drome and until she gets one, there is no use to consider the matter. I must say that it made me quite jealous to see our Central Division getting so much splendid publicity, which we might have shared in if only Halifax had had an air drome. However, we may have our chance yet. An air drome for Halifax is a real necessity today.

"You think then," said the "Merchant" "that the aeroplane delivery is a sound commercial proposition." "That," said Mr. Helliar, "is the view of our President. He believes the aeroplane is bound to have an important place in the merchandising world, just as soon as the country will take it seriously, and he hopes that the precedent he has established will be quickly followed by other Canadian manufacturers."

It should be gratifying to all Maritime Province people to hear that one born and nurtured in the province has been the first to install a goods

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

BASEBALL
The Newcastle Base Ball Team was defeated by the Bathurst Team on Wednesday afternoon in Bathurst by a score of 7-3.

NO REDUCTION IN SUGAR
Little hope is held out by the Board of Commerce of any reduction of price in sugar. The Canadian consumer has an advantage of from 4 to 5 cents per lb. over United States Consumers.

1920 WHEAT CROP
The government has decided that the 1920 wheat crop will not be controlled by the Wheat Board, but that the marketing of this year's crop will revert to the usual methods of pre-war times.

OFF TO SUSSEX
The Local Cadet Corps, under command of Jack Nicholson paraded yesterday in front of Harkins Academy at 9.30 a. m., preparatory to leaving for Sussex for a week's instruction there.

NOTHING DONE
Nothing has yet been done towards the repair of the Castle street sidewalk, and as time goes by its condition is becoming more dangerous. Apathy seems to be one of the great characteristics of our town government.

CLEARING HOUSE
FOR MONCTON
At a well attended meeting of Bankers and Citizens of Moncton held Friday, it was decided to establish a clearing house in that city. Moncton is the only Maritime city outside of St. John and Halifax to have a clearing house.

JULY 12TH CELEBRATION
The celebration of the 12th at Campbellton this year was participated in by many from the Miramichi and a pleasant day was spent by all in the Restigouche town. In the parade 600 members of Orange Lodges took part and speeches were given at the site of the new Soldiers Memorial hospital. The horse races were also a great attraction of the afternoon.

SPRUCE BUDWORM SITUATION
Mr. M. B. Dunn of the Dominion Department of Agriculture, has just returned from an extended trip through the forests on the South west Miramichi River, his purpose being to secure information regarding the Spruce Bud Worm situation. Mr. Dunn reports that the worm is at present to be seen in very large quantities, that practically all the Balsam Fir has been killed and at least 50% of the Spruce has been injured. The situation is a most serious one and a complete destruction of the forests by this pest is probable.

GRADING LIST
The following is the pass list of Miss Craig's department which had not been previously sent in for publication.
Promoted to Grade II—Arthur Stothart, Edwin Russell, Margaret Kethar, Janette Price, Tom Troy, Tom White, Jean Allison, David Trov, Vincent Wedden, Warren Russell, Percy Lindon, Arnold Russell, Allen Craik, Winton McCaul, Mary Roman, Clair O'Brien.
Conditionally: Chris. Craig, Charles Arsenault, Morrison Maltby, Archie Campbell.
Promoted to Grade III—Dorothy Stothart, Bertam White, Ambury Jarvis, Bobby Steeves, Wallace Maltby, Rupert Kethar, Adlie Bel-yea, Harold Melanson, Edward To-kin, Fred O'Donnell, Tim Murphy, Ray Landry Gilmen Geikie, Graham Crocker, Phyllis Hare, Margaret Craig, Edward Paulin, Hugh McGowan.
Conditionally—Ray McGrath.

WHAT WILL BE DONE?
The question has been asked recently by a number of the citizens "What is going to be done with the funds which were left over from the Returned Soldiers' Celebration? The money is deposited in the Bank and apparently nothing more is being thought about it.
There are a number of useful ways in which the money could be disposed of, and a meeting of those responsible for the fund should be held and a definite decision arrived at. The matter of a County Memorial is out of the question as the Council at their session in January decided to take no action whatever.
The young men of the town are anxious to provide some suitable grounds for sports, etc and this might be a matter which the committee in charge could look into. However the money should be disposed of in some manner and not be left idle in the bank of the citizens who are asking questions regarding it would be pleased to hear something about it from those in authority.

CASTORIA
For Infants and Children
In Use For Over 30 Years
Do not let your children suffer from colic, diarrhea, or other ailments. Castoria is the best remedy for all these troubles. It is a gentle laxative and is safe for all ages. It is made from natural ingredients and is free from any harmful substances. It is the only medicine that is so effective and so safe. It is the best thing you can give your children for any of these troubles. It is the only medicine that is so effective and so safe. It is the best thing you can give your children for any of these troubles.

CONSPICIOUS BY ITS ABSENCE
The Town Watering Cart is becoming conspicuous by its absence again. It seems too bad that more attention is not given to this matter by the authorities.

CONTRACT AWARDED
The contract for the Taxis River Mouth bridge, a permanent wooden structure in the parish of Ludlow, Northumberland, has been awarded to Whitman Brewer, North Devon, the contract price being in the vicinity of \$20,000.

MANSE PROPERTY SOLD
A special meeting of the congregation of St. Andrew's Church, Chatham, has decided to accept the offer of \$6,700, received from Albert McLennan, for the Manse property in Water street. A new manse will be built on the Henderson street lot that has been purchased from the Warren C. Winslow estate.

MILL SAW BILLS
The Advocate Office has just finished printing a stock of the latest Mill Saw Bills, which was drafted up by the Mill owners on the Miramichi River. This Saw Bill is suitable for any mill on the river and we are now prepared to supply them to all desiring same.

NORTH SHORE MOTORS, LTD.
Albert MacLellan, Charles Edward Weldon and Walter Chubb McLoon all of the Town of Chatham are incorporated as The North Shore Motors, Limited, with head office at Chatham and a total capital stock of forty-five thousand dollars. The company is authorized to take over the stock in trade of Albert MacLellan, also his garage, lands and business.

RACE CALLED OFF
Expiration of the sailing time limit saved the Lipton challenger Shamrock IV, from apparent defeat at the hands of the cup defender Resolute, in the second meet Saturday of the 1920 regatta for the America's cup. The defender had put more than a half hour's sailing between her and the challenger and was breezing home under main sail, club topsail and balloon jib, when the race was officially declared off at 7.25 o'clock.

FRENCH CRUISER COMPLETED
The French short courses which have been held in Bucouche, Rogersville, Tracadie, Kedgewick and St. Leonards during the last two months in cookery, sewing and nursing, were completed Friday in St. Leonards. Miss Benoitte Leblanc, one of the instructors, will return to St. John, while the other, Miss Alice Landry will continue the summer demonstration work in Madawaska county this week.

EXTRA DAY'S RACING AT CHATHAM
The Chatham race track committee have found it necessary to enlarge upon its programme for the August Meet, in connection with the Maritime and Maine Circuit, to accommodate the large number of horsemen interested. Instead of a two days' meet with six classes, there will be three days racing with nine events. The dates of Chatham's meet are August four, five and sixth.

BROKE RECORD
Before a fair sized crowd at Moosepath Park on Saturday afternoon the track record was shattered when that game little pacer, Peter Warren, went a mile in 2.15. In fact he went two miles faster than the old record, as in the third heat of the match race with Touz both horses being the distance in 2.15 1/4, the heat being a dead heat. The old mark, which was 2.16 flat, was made by Gloria, driven by Frank Fox, about eight years ago.

CHATHAM HAS HAD ENOUGH
At the largest attended meeting of ratepayers since incorporation, held at town hall, Chatham, Friday evening, the proposal to ask for authority to issue bonds for the purpose of extending the permanent pavement from George Street to the Bacon Road, a distance of about one and a half miles at the Western approaches of the town, to connect with the Tarvia Road, now under construction by the Government, was overwhelmingly voted down. The large number of the members of the local union who were at the meeting strongly opposed the measure.

HAD SCRAP WITH BEAR
Uncle Henry Braithwaite, the veteran guide and trapper who returned recently from the Miramichi woods, tells of a lively scrap which he had with a bear a short time ago. The animal had been trapped and Mr. Braithwaite tried to despatch it with an axe. The animal however, was too quick for him and after fencing for a time knocked the axe from the guide's hand. Mr. Braithwaite then emptied a .22 calibre revolver into the carcass of the brute and left him for dead. When he returned the next morning the bear was very much alive and was roaring at the top of his lungs. This time however he had a rifle and a well directed bullet settled his quarrel.

SUNDAY SCHOOL PICNIC
St. James' Church Sunday School Picnic will be held at Wilson's Point on Wednesday 28th inst.

THE RING
Joe Beckett, heavyweight champion of England, defeated Tommy Burns, the French Canadian pugilist, in the seventh round of a 20 round bout at Albert Hall, London, Friday night.

NO POTATO BUGS ON NORTH SHORE
George F. Sanders of Annapolis Royal, N. S., and M. A. McLeod, Supt. of Agricultural Societies have just completed a two weeks' tour lecturing on "Potato Spraying." King's, Westmorland, Restigouche, Gloucester and Northumberland Counties were visited, twenty-four meetings being held, with an average attendance of fifteen. Mr. McLeod reports that the North Shore is absolutely immune from potato bugs this year and that on the whole the crops look very well, in the counties visited.

ARREST FOLLOWS PURCHASE OF CAR
James P. Murray was arrested on Saturday afternoon at the corner of Main street and Douglas avenue, St. John by Police Constable Howard. Murray is charged with obtaining an automobile under false pretences. On Tuesday at Boiestown, it is said, he purchased from J. W. McCluskey a light Overland four car and gave in payment a check for \$1,200 on a Fredericton bank. On presentation of the check it was reported that there was no such account at the bank, steps were taken for the apprehension of Murray. He was in the car at the time he was arrested by Howard. It is expected that Chief of Police Finley, of Fredericton, will arrive in St. John to take Murray to the capital.

MORE THAN 25,000 AUTOS IN BRITISH COLUMBIA
Victoria, B. C., July 15—There are now in operation considerably more than 25,000 automobiles in British Columbia. Plates issued at the Victoria licensing office and Vancouver are working on a series culminating with 30,000.

Red Hot July Days Hard On The Baby

July—The month of oppressive heat; red hot days and sweltering nights; is extremely hard on little ones. Diarrhoea, dysentery, colic and cholera infantum carry off thousands of precious little lives every summer. The mother must be constantly on her guard to prevent these troubles or if they come on suddenly to fight them. No other medicine is of such aid to mothers during the hot summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaint, or if the trouble does come on suddenly will banish it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

A Life Jacket From Lusitania Is Picked Up

Philadelphia, July 15—A life-jacket, a silent remembrance of the tragic sinking of the Lusitania, five years ago, and bearing a strand of faded blonde hair, was picked up yesterday in the Delaware River. The name of the ship that the Germans torpedoed still remained clear and distinct on the wave-beaten canvas, which has been adrift on the sea throughout these years of war and two years of peace. The life-jacket, which was found by two railroad detectives was covered with slime and seaweed, with one arm strap broken. On one side were the words "life belt" and on the other, in large black letters the inscription "Lusitania."

Quarter Million For Dalhousie

Halifax, July 15—Speaking at a luncheon tendered the financial men here today for the general meeting of the shareholders of the Dominion Steel Corporation, by the Halifax Board of Trade, Roy M. Wolvin, the president of the company, announced a gift of \$250,000 to Dalhousie University from the British Empire Steel Corporation, to be used for the purpose of providing more professorships in research work in connection with the resources of the province of Nova Scotia.
