

NEW BRUNSWICK POLITICS

Premier Blair Tired of a Coalition Cabinet.

He Desires an Appeal to the People—Peter Mitchell's Candidature in Northumberland Regarded as Fatal—Dr. Weidman Will Have a Hard Fight in Albert—Mr. Foster's Election in York Assured.

Montreal, Que., Sept. 3.—Your correspondent interviewed to-day a gentleman who had just arrived from Westmoreland and obtained some very interesting political notes from that county and province.

The Blair Government in Quebec is in great trouble just now. The Liberal members of that coalition desire an appeal to the people at once, giving it to be inferred that if the Ministry is sustained they will turn to and help Laurier, when the Dominion elections are brought on.

It is also stated that Hon. Peter Mitchell's candidature in Northumberland is looked upon as a farce, and that, in case Hon. Mike Adams does not run, Hon. Mr. Weidman will be the member of the Blair Ministry, who will be the Ex-Minister of Marine's opponent.

Mr. White Has Already Tended His Resignation and Will Certainly Retire, and if the Coalition Breaks Up, Hon. Mr. Mitchell, M.L.A., for Charlotte, will Contend the County for Ontario.

It is also stated that Hon. Peter Mitchell's candidature in Northumberland is looked upon as a farce, and that, in case Hon. Mike Adams does not run, Hon. Mr. Weidman will be the member of the Blair Ministry, who will be the Ex-Minister of Marine's opponent.

SEPARATE SCHOOL BOARD.

Trouble Between Catholics and Protestants.

The Separate School Board met last night, Vice-General McCann presiding. There were present Rev. Fathers McEntee, Carberry, Cruise and Rohleder, and Messrs. P. J. Mulqueen, James Ryan, M. Walsh, P. Fayne and William Ross.

Reports of committees were discussed, with a result that accounts amounting to \$125 were passed, and it was decided to make sundry repairs to and purchases for St. Paul's and St. Michael's schools.

A recommendation of the Management and Supplies Committee that the salary of the caretaker of St. Helen's school, and assistant caretaker of that school, be discharged, was referred back to the committee for further information.

A new teacher will be appointed for a school at a salary of \$200 per annum. The Board, had Scheme of a Speculative Pacific Coast Shipper.

The Bold, Bad Scheme of a Speculative Pacific Coast Shipper. A curious tale is told by passengers from Alaska of the discovery made by one of her number, a Seattle man named Brennan, on the coast of Alaska.

Brennan went north some time ago with a small sloop laden with a miscellaneous cargo, on which he had made a good profit, trading among the natives of the northern coast.

It was on an expedition he chanced to visit one of the least accessible villages of the isolated tribes. Brennan there saw the mysterious divinity that is supposed to keep watch and ward over the tribe, a former chief of queen, who by some rare action of the peculiar soil in which he grew, had become solid stone.

Years later the stone figure was discovered by a party of prospectors. The natives held it as an object of good faith, and the body should have been properly buried, and carefully examined, it enthroned the idol so respected, being ever since more honored than the oldest totem.

Brennan claims to be the first white man to see the statue, but so far from feeling awe or being moved to adore, he at once realized that if it could be safely transported to the United States it would be worth a mint of money for exhibition purposes.

The party engaged in removing one leg of the stone figure, and the other was not enough to remove him. While the latter was engaged in removing one leg of the stone figure, and the other was not enough to remove him.

While the latter was engaged in removing one leg of the stone figure, and the other was not enough to remove him.

THE PRELIER AND THE POLE

An Exciting Incident Not Down on the Bills.

Yesterday Ridley probed himself up among the cross-arms of the pole, and the sergeant's one hand was pressed his opinions on the merits and demerits of the play and players, in a manner to attract the attention of the crowd.

Ridley climbed as far heavenward as the pole, amid the cheers of the crowd. He was on an expedition he chanced to visit one of the least accessible villages of the isolated tribes.

Brennan there saw the mysterious divinity that is supposed to keep watch and ward over the tribe, a former chief of queen, who by some rare action of the peculiar soil in which he grew, had become solid stone.

MR. JONAS OF GASPE

Devotes Some Attention to the "Fanatics" of Ontario and Expresses His Own Views on the Manitoba School Question.

Editorial in L'Evenement, Quebec, Aug. 31. NOTHING MORE. Among the most fanatical journals of the Province of Ontario is The Toronto World, directed by Mr. Maclean, a young member for the county of York.

A representative of the people, under a mandate which obliges him to see an example respecting the laws and constitution of his country, his prejudices, his hatred of everything Catholic, his French cause him to forget his duty, and although he admits with D. Alton McCarthy that he has sworn which he does not wish to interfere and hands upon the iniquitous law of 1890, which he the violation of the solemn contract, to which the signature of the Sovereign, to whom he has sworn, he does not wish the Canadian Parliament to dictate to him.

For some time he has written to this effect and during the session at Ottawa he took a great deal of trouble to prevent the passage of a remedial law to the House.

Ask him the reasons of his opposition to the bill, and he stammers, for he has no guide save the spirit of party persecution.

He humbly admits, if you press him, that it is most unfortunate that the Catholics are forced to school with the Protestants, and that they cannot send their children; that they have certain reasons, but that he has found a method of putting them in separate schools, and that he will do it, and don't let anyone try to prevent our persecuting them, for when we have to overcome every thing rather than sacrifice our hatred and our satisfaction at seeing them hated.

In this way argue the McCarthy's, the Martins, the Wallace's, the Hughes and the others who are so busy around them some thousands of fanatics, who have begun to believe that the Catholics are the cause of their troubles, and that they are the cause of their troubles, and that they are the cause of their troubles.

Mr. Maclean and his organ, The Toronto World, do not understand the Manitoba School Question.

He being less willingly blind, they were able for a moment to stay a moment to reflect, they would soon understand that what they are advocating separate schools demand is only just and reasonable.

He being less willingly blind, they were able for a moment to stay a moment to reflect, they would soon understand that what they are advocating separate schools demand is only just and reasonable.

TOO HANDY WITH THE PEN

SCHOOL TEACHERS' EPITOLATORY TENDENCIES.

The Alleged Evil Discussed at a Meeting of the Collegiate Institute Board, and Some Suggestions Given the Officers as to Their Conduct in This Respect in Future.

The Collegiate Institute Board met last night and passed reports. The total expenditures for the half year, ending June 30, were \$109,954.89 was spent at Jamieson-avenue \$10,338.84, and at Harbord-street \$11,901.61.

There was considerable discussion over Dr. Ferguson's motion, of which notice was given before the holidays, relative to the epistolatory tendencies of teachers.

Trustee Hastings, supporting the resolution, thought that teachers had no need to rush into print while there were so many members of the Board to talk to.

Trustee E. F. Clarke suggested that a resolution should be placed on record to outline the class of communications which should be condemned, for instance, such as letters reflecting on fellow teachers.

Dr. Ferguson was requested to permit the discussion to be postponed until next meeting. This was done.

Mr. Houston gave notice that at the next meeting of the Board he would move that all the scholarships given by the Board at the entrance examination should be given to the pupils of the four classes of the public and separate schools of the city of Toronto.

A games committee composed of Capt. Ross, Messrs. Clarke, Elliott, R. Scott, G. Wilson, Hastings and Ross was appointed.

Articles for Sale. BUS FOR SALE. NEARLY NEW. SUITABLE for hotel, can be seen at 250 Logan-avenue, Tel. 1718.

Physical Director. Can be engaged for club or gymnasium. Address Athlete, care of World office.

Agricultural Insurance Company. OF WATERTOWN, N.Y. GEO. H. MAURER, Manager, Toronto. FRED H. ROSS & CO., 59 Victoria-street, City Agents, 136

T. EATON CO., (LIMITED) CANADA'S GREATEST STORE 190 Yonge-st., Toronto.

Canada's Greatest Store. Five acres of selling space under one roof...

From 1100 to 1200 employees, according to the season, making the largest store organization in Canada.

A manufacturing department in which we use 124 sewing machines, running by steam power at the rate of 1800 stitches per minute.

Thirty-three merchandise departments, including everything in dry goods, together with books, groceries, bicycles, carpets, wall papers, furniture, housefurnishings, harness, jewelry, patent medicines, ready-made clothing, boots and shoes, and everything else that goes well together.

A delivery system, consisting of 55 horses and 35 wagons, covering the entire city and vicinity within a radius of ten miles at regular intervals.

Three boilers, with 600 horse-power, and three handsome engines, aggregating 350 horse-power, consuming about 1000 tons of coal per year.

Seven dynamos, with a capacity of 2250 incandescent lights and 200 arc lights. The largest private electric plant in Canada.

About 40 miles of steam pipe is necessary to heat the entire building.

Crimmel's Automatic Sprinkler System of fire protection, representing 2000 sprinkler heads.

The Pneumatic Cash System, requiring 4-1/2 miles of 2-1/4 inch brass tubing, with 109 pump stations, and two rotary pressure blowers, necessary to operate the plant.

Seven hydraulic elevators, driven by two pairs of steam pumps, with a capacity of 1,000,000 gallons of water a day.

Two large dairy farms—one at Islington and the other at Georgetown—receiving daily the product of 120 milk cows; barn buildings on farm with capacity for storing 350 tons of hay and 10,000 bushels of grain.

Dairy lunch room in the basement, supplied with cream, butter and milk direct from our own dairy farms, and capable of accommodating 3000 people a day.

Mail order department with experienced clerks to do shopping for those who can't get to the store, serving customers at a distance as well as though they shopped in person.

Everybody Welcome: Again and again we have emphasized for your benefit the possibilities of this store.

Our Advantages: The bigger the store the better the advantage in price. That's the fact. Here's the argument—IT BUYS OF THE MAKER.

Rich Compliments: It is not an over-difficult matter to determine in advance the success of a season. Present-day shoppers are critical in their judgment of new goods, and anything second-rate will not pass muster.

There are certain facts so thoroughly established the wonder is that anybody questions them for a moment. The buying and manufacturing facilities of this store are immeasurably superior to anything you know of outside—have been for years.

A MEMORIO OF '37.

UNVEILING OF A MONUMENT TO JEAN OLIVIER CHENIER.

Historical Sketch of the Hero and the Battle of St. Eustache—A Conflict in Which 70 Patriots Lost Their Lives.

August 24, 1837, will remain a red letter day in the mind and heart of the descendants of the patriots of 1837-38 and of all those who have come to the conclusion that the Canadian rebellion was, after all justified, both on account of the grievances that brought it on and of the results that followed in securing constitutional government for the country.

Jean Olivier Chenier was born in Longueuil, in 1817. Dr. Kimbrell, of Montreal, who had been struck with the appearance of the bright boy, took him under his protection and gave him his classical and professional education.

THE CHENIER STATURE. Influence over his compatriots. Dr. Chenier was the soul of the insurrection in the northern districts, where camps had been organized in the parishes of St. Eustache and St. Benoit to prevent the approach of the volunteers of St. Andrew's and of Chatham and to prevent the arrest of the leaders of the movement.

It's a Dainty Little Watch, Kents', 144 Yonge-St.

Remarkably good value. Has 14 solid gold cases, full jewelled movement. A watch that we can guarantee to give good satisfaction.

KENTS' 144 Yonge-St.

effect of grouping the patriots around the leader in whom they had confidence.

and the St. Eustache camp soon numbered between 1,000 and 1,500 men. During the few days immediately preceding the battle of St. Eustache, Chenier had to contend with many difficulties. A number of his men, being unable to secure arms, returned to their homes, and many followed the advice of the curé of the parish, Abbe Paquin, and his vicar, who told them that resistance to the troops would be disastrous.
