NO 5

BEAVER FLOUR
A PERFECT BLEND
OF MANITOBA AND
ONTARIO WHEAT

Manitoba wheat contains more food value than any other. It makes the most nutritious Bread and Biscuits. But it contains so much Gluten (Nourishment) that the dough won't rise properly, and the bread is both heavy and gray.

Ontario wheat does not give as nutritious bread as Manitoba wheat. But what it lacks in food properties, it equals by its Biscuits, Cake and Pastry. For Pastry, alone, Ontario flour is better than any other flour made of a single variety of wheat.

But there is no need to go to the expense of buying two flours.

Beaver Flour

is both a bread flour and a pastry flour. It is a blend of Ontario Fall Wheat, Manitoba Spring Wheat and the lightest, most nutritious Pastry of all kinds.

Beaver Flour also yields MORE Bread, etc., to the barrel, than any other.

No matter what other flour you are using, you are not getting the best results because you are not using the best flour.

Order a trial sack of Beaver Flour. The first baking will prove its quality.

At your Grocer's.

Dealers—write for prices on all kinds of Flours, Coarse Grains and Cereals. T. H. Taylor Co., Limited, Chatham, Ont.

THE GERMAN TRADE IN CANADIAN APPLES

Farmers Favor Legislation to Secure Better Market. C. O. Allen in Support of Resolution.

ANTIGONISH—The following resolution was introduced at the meeting of the Nova Scotia Farmer's Association by C. O. Allen, of Kentville:

Whereas, in the year 1906, Germany imposed a duty on apples going into their country, amounting to 10 marks per 100 kilos, equivalent to \$1.63 per barrel of 150 pounds, on all apples from Canada; and 3 marks 20 pfennings per 100 kilos, equal to 59¢ per barrel from the United States, thus enabling our competitive growers from across the border to get their apples into Germany at a preference of \$1.11 less than our own country, which has practically shut out all Canadian apples from the German markets;

And whereas, before the duty went into effect frequently large quantities of Canadian apples found a ready market in being either shipped direct to Hamburg or by German buyers purchasing in the London and Liverpool markets, both of which are now entirely lost, greatly to the detriment of the Canadian fruit industry;

Therefore resolved that the fruit growers of Nova Scotia earnestly entreat the department of finance at Ottawa to secure trade relations with Germany which will admit Canadian apples in the German market under as favorable tariff as is granted to our competitors from the United States;

And further resolved, that copies of this resolution be forwarded to every Fruit Growers Association in Canada, asking their hearty co-operation against the unreasonable discrimination against one of Canada's important industries, amounting to \$1.11 per barrel, exceeding the first cost of production.

C. O. Allen said in support of the resolution:

While this resolution speaks for itself, I would say in support of it, I think the fruit growers of Nova Scotia as well as the rest of Canada, have been a patient suffering people for those past two years, to ensure this important industry of the farm. A duty of \$1.63 on a barrel of apples, costing about \$1.00 to produce, is a most unreasonable tax, and I may say further there is no commodity obtained from the soil of this country, or manufactured, that I can call to mind of being subject to such an excessive duty on our apples going into Germany as well as our own country. More especially does this duty seem excessive at a time when American apples go in under a preferential tariff of \$1.11 less than from our own country, this preference also amounting to more than the first cost of production.

The object of submitting this resolution is to get the fruit growers of Nova Scotia and of our broad Dominion, to band themselves together and if possible to get our Finance Department to allow to place our apples

A Doctor's Statement

Basle St. Paul, C.C. Que. March 27th, 1907.
Toronto, Ont.

Dr. T. A. Sloum, Limited, Toronto, Ont.

Gentlemen—

My many thanks for Psychine and Osmium. I have used them with very great satisfaction both in my own case and in that of my friends. It affords me much pleasure to recommend a remedy which is really good in cases for which it is intended. I am, yours very truly,

DR. ERNEST A. ALLARD.

Doctors recognize that Psychine is one of the very best remedies for throat, lung and stomach troubles and all run down conditions, from whatever cause. It is the prescription of one of the world's greatest specialists in diseases of the throat, lungs, and stomach, and all wasting diseases. Ask your druggist for it, at 5¢ and 10¢, or T. A. Sloum, Limited, Toronto.

Pauperism on the Increase

LONDON, January 31.—Participating in the debate in the house of commons last night on the question of the unemployed, John Burns, president of the local government board and labor leader in the house, denounced the unscientific distribution of religious philanthropic and private charity, which, he declared, was usually misapplied and diverted to the wrong persons. He told one of his own experiences recently, when, after an official function, he joined two thousand of the unemployed at the Victoria Embankment.

"I was in my court dress," he said, "but pulled my bowler hat over my eyes and looked miserable, and I got my level of soup and hunch of bread."

Mr. Burns admitted that pauperism in London is on the increase, and said it would continue to grow as long as indiscriminate charity prevailed.

Mr. Burns moved the rejection of an amendment to the address regretting that the King's speech had not recommended legislation dealing with the unemployed question and the amendment was defeated by 155 to 106.

An incidental remark made by Mr. Burns during his speech that the scheme of Herbert H. Asquith, the chancellor of the exchequer, for old age pensions would provide for all a million people attracted much attention afterwards. Nothing hitherto had leaked out with reference to the intentions of the government, but it was now assumed that it would propose a pension of five shillings weekly in case of illness. If so, Mr. Asquith's scheme would entail the annual expenditure of £17,000,000 (£85,000,000).

Stop that Cough! Dr. Sloop's Cough Cure will surely stop it, and with perfect safety. It is so thoroughly effective that it has been used by doctors to cure nothing else even with very young babies. The wholesome green leaves and tender stems of a lung healing mountainous shrub furnish the curative properties to Dr. Sloop's Cough Cure. It calms the cough, and breaks the sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Demand Dr. Sloop's. Take no other. ROYAL PHARMACY, BRIDGETOWN, BEAR RIVER DRUG STORE, BEAR RIVER.

QUEEN ALEXANDRA'S FAITHFUL SECRETARY IS TIRED.

Hon. Charlotte Knollys Would Retire Only for Her Great Affection For Mistress.

LONDON, January 30.—The Hon. Charlotte Knollys, Queen Alexandra's faithful friend and secretary, is beginning to feel the great strain which has been placed upon her for so many years. Miss Knollys has been telling her friends of late that if it were not for her great affection for her royal mistress, she would retire into a small country cottage at once and pass the rest of her days in peace.

She suffers from rheumatism and never sleeps enough sleep. There is hardly a night that she can retire before two o'clock a. m. "The bell in the Queen's room rings for poor "Chatty," as she is called, at all hours of the day and night. Miss Knollys writes as many as three hundred notes and letters a day, mostly on behalf of the Queen.

Many letters addressed to the Queen are never shown to Her Majesty. Miss Knollys uses her own discretion in these matters and spends hours, suffering from both epistles from foolish people. Her friends declare that "Chatty's" conscientiousness amounts to a disease.

CALLS MRS. EDDY A MARVEL.

Bishop Whitehead Says Episcopalians Agree That the Scientist Leader is a Great Leader.

PITTSBURGH, January 30.—The Right Rev. Cortlandt Whitehead, bishop of the Pittsburgh diocese of the Episcopal church, to-day paid a tribute to Mrs. Mary Baker Eddy, head of the Christian Science church, when he commented on an assertion by Dr. Edward Worcester, of Boston, made in Philadelphia on Sunday, to the effect that Christian Science had advanced more in six years than the Episcopal church had in 200 years.

"I suppose it is true," said Bishop Whitehead. "We are all agreed that Mrs. Eddy is a marvel, which is indicated by her ability as a leader. Except for her leadership, I am unable to account for the remarkable growth of Christian Science."

A weak Stomach, means weak Stomach nerves, always. And this is also true of the Heart and Kidneys. It's a pity that sick ones continue to drug the Stomach or stimulate the Heart and Kidneys. The weak nerves, not the organs themselves, need this help. This explains why Dr. Sloop's Restora-tive has, and is promptly helping so many sick ones. It goes direct to the cause of these diseases. Test this vital truth, and see.

ALMOST GIVEN UP

"FRUIT-A-TIVES" SAVED HIS LIFE

Mr. Dingwall was Superintendent of St. Andrew's Sunday School in Williams town for nine years and License Commissioner for Glengarry— and Tax Collector for Charlottetown—for fourteen years continuously. Read how strongly Mr. Dingwall comes out in favor of "Fruit-a-tives."

Williams town, Ont., April 25th, 1907.

I have much pleasure in testifying to the almost marvelous benefit I have derived from taking "Fruit-a-tives." I was a life long sufferer from Chronic Constipation and the only medicine I ever secured to do me any real good was "Fruit-a-tives." This medicine cured me when everything else failed. Also, last spring, I had a severe attack of bladder trouble with kidney trouble, and "Fruit-a-tives" cured these complaints for me, when the physician attending me had practically given me up. I am now over eighty years of age and I can strongly recommend "Fruit-a-tives" for Chronic Constipation and bladder and kidney trouble. This medicine is mild like fruit, is easy to take, but most effective in action.

Signed JAMES DINGWALL.

"Fruit-a-tives" — or "Fruit Liver Tablets" are sold by dealers at 50¢ a box — 6 for \$2.50 — or will be sent on receipt of price. Fruit-a-tives Limited, Ottawa.

QUICKLY!

Nursing baby?
It's a heavy strain on mother.
Her system is called upon to supply nourishment for two.
Some form of nourishment that will be easily taken up by mother's system is needed.
Scott's Emulsion contains the greatest possible amount of nourishment in easily digested form.
Mother and baby are wonderfully helped by its use.

ALL DRUGGISTS: 50¢ AND \$1.00

Bridgetown.

No "ice famine" this year!
Mr. W. A. Kinney is seriously ill.
Lumbermen are making good use of their time while the snow makes logging possible.
Mrs. A. C. Chilton is very low and no hopes are entertained for her recovery.
A Clam Supper will be held in the Reception Room of the Baptist Church on Thursday evening, February 20th. Particulars will be given later.
Some of our local mail drivers have been at considerable trouble to deliver their mails during the past week owing to snow blockades.
A heavy gale with snow and rain, gave us another storm last night, which will probably rival in disaster, when told, the storm of Saturday night.
The weather still holds around the zero mark, the past week being the coldest of the season. Last night's storm brought a slight rise in temperature.
The conflagration of a barrel of ashes in the cellar of Dr. Armstrong's house raised an alarm of fire yesterday afternoon, but the fire was put out without difficulty.
Miss Alice MacLean and brother, Arthur, arrived from Lynn on Wednesday to attend the funeral of their father, John MacLean. They were accompanied by his brother, Daniel MacLean, also of Lynn.
The death of Mrs. Howard Messenger of Arlington took place on Wednesday. The funeral will be held on Friday at one o'clock, interment at St. Croix Cove. Mrs. Messenger was a daughter of the late Calvin Marshall of Williamson.
The trains of the H. & S. W. Ry. were delayed by the heavy drifts between Middleton and Victoria Beach last week. Monday's train, however, made about the usual time. An engine went off the track at LaFave bridge and some cars left the track at Liverpool on Saturday.
The death occurred at Moncton on Tuesday of the wife of Rev. J. McAnn aged eighty-three years. The deceased lady was born in Bridgetown, N. S., and most of her life had been spent in Vermont, where her husband was a member of the Vermont Conference. For thirteen years he was principal of a Theological Seminary at Boydon, Vt.
The funeral of the late John MacLean was held yesterday afternoon, with a very large attendance. The service at the house was conducted by Rev. A. J. MacDonald assisted by Rev. Johnson and Dr. Jost. The Macons attended in a body and held service at the grave. The employees at the Larrigan Factory also formed a part of the long procession.
The latest reports of the health of Mrs. E. B. Moore, are heard with deep regret. A correspondent in Kings Co., writes as follows: "Mrs. (Rev.) E. B. Moore is very seriously ill from cancer of the mouth; she has undergone two operations, one at the Halifax Hospital and another at the Infirmary; she is now at the home of her daughter and very little hope is entertained of her recovery."

Miss S. Goffrey is visiting in Halifax.
Mr. George Corbett went to Truro, N. S. on Tuesday last.
Miss Alice Shannon is visiting friends in Durham, Victoria Co.
Mr. Arthur Harris has returned from visiting his sons in British Columbia.
Miss C. Corbett left Thursday to visit Mr. and Mrs. F. S. C. Harris, Bridge water.
Miss Goffrey of Yarmouth is spending the week with her grand-mother, Mrs. Goffrey.
Miss C. Cameron left on Tuesday for Milford and Gay's River to visit the Rev. J. R. and Mrs. Douglas.
The death occurred on Sunday last of the infant son of Mr. and Mrs. George Hindon.
Mrs. Coffin and young daughter, of Kentville are visiting the former's sister, Mrs. George King.
L. R. Morse, Inspector of Schools for Annapolis and Digby Counties, is on his annual visit to our schools.
The two vessels which sailed from this port lumber laden, last Saturday, The Schr. "Ethel B. Summers" put into St. John, N. B., the Bark, Elsie was spoken Monday down the Bay.
The schr. St. Olaf, which sailed from Annapolis in December with a cargo of spruce lumber for Messrs. A. D. Mill & Son, arrived at Cardenas, Cuba on the 21st, with loss of job-boom, ribs, all head-gear, foretopmast, and rudder head started, and vessel leaking.
REASON ENTIRED.
Because meats are so ready they are consumed in great excess. This leads to stomach troubles, biliousness and constipation. Revise your diet, let reason and not a pampered appetite control them take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be well again. Try it. Samples free. For sale by W. A. WARREN, BRIDGETOWN, W. W. WADE and BEAR RIVER DRUG STORE, BEAR RIVER.

Middleton Board of Trade Proposes Amalgamation of D. A. R. with I. C. R.

At the annual meeting of the Middleton Board of Trade held on Jan. 16th it was decided to memorialize the federal government to acquire the Dominion Atlantic Ry., and operate it as part of the I. C. R. system. It was also determined to request the co-operation of the city, town and Municipal Councils, Boards of Trade, Agricultural societies and newspapers interested in the section of country served by the D. A. R.
The following reasons are given for the proposed changes:
(1) The contracted nature of the territory traversed by the D. A. R. precludes the possibility of the completion of another line and consequent control of rates.
(2) The government already own the section from Windsor to Halifax and the Company's lease has expired, and will shortly expire.
(3) Frequent reports of negotiations for the sale of the D. A. R. indicate the probability that before long it will form a part of one of the larger railway systems. It is in the public interest that it should become part of the I. C. R. rather than fall into the hands of one of the large corporation railways.
(4) The road could be operated more cheaply as a part of the I. C. R. than as at present.
(5) A railroad operated in the interests of the people rather than of the shareholders of a corporation would provide needed accommodations.
(6) In addition to the present passenger accommodations the public would enjoy the comfortable 2nd class passenger service of the I. C. R. on all express trains.
(7) Instead of having to pay two express rates we would have to pay but one to all points on the I. C. R. line.
(8) Our natural local markets are in New Brunswick and Eastern Nova Scotia. Over a single line of railway we could meet the competition of the upper provinces in this territory under much more advantageous circumstances than those now existing.
(9) One of the great drawbacks to the development of Western Nova Scotia has been the high prices for coal, for domestic and industrial purposes. With a single line the freight on soft coals should be reduced from 20 to 60 per cent.
(10) The proposed change should aid in the development of the vast deposits of superior iron ore at Torbrook by affording better facilities for reaching the various steel plants on the line of the I. C. R.

Bear River.

On Wednesday night the thermometer went to 8 below zero.
S. S. Bear River arrived on Wednesday from St. John.
Kenneth Rice returned to his home at Round Hill on Wednesday.
Miss Alice Woodworth arrived home from the United States last Saturday.
Kenneth Rice arrived last Saturday on a visit to his grand-mother, Mrs. Thos. H. Rice.
Mrs. Hebb of Lunenburg is in town. We learn that she is trying to establish a Tent of the Maccabees for women.
W. D. Ryerson, who has been attending the farmer's Association at Antigonish, returned home on Friday last.
The Union Services are being continued this week, but owing to the bad condition of the roads, the services are not as largely attended as they have been, people from outside not being able to get in.
On Saturday night last we had the worst storm we had had for years. Very high wind and heavy snow making it dangerous travelling after dark. Dr. Lovitt was called out to see a patient and upon returning about 8 o'clock the roads were blocked and he had to make use of the fields and in the fearful storm, he and his man lost their way in M. C. Harris' field. After wandering around for some time they finally saw a light in the house. They immediately got assistance from Mr. Harris, who helped them to get their horse in Mr. Harris' stable and the doctor with his man started for home. They lost their way the second time, but fortunately after some little time they again got their bearings and made their way safely home.

Aged Woman Paralyzed Falls Upon Hot Stove

Our Smith Cove correspondent says: Mrs. D. H. Sprague is critically ill with paralysis. She was seized while working over the stove on Tuesday morning last, and was badly burned before being rescued. Mrs. Captain Hunt, who lives in another part of the house, heard faint cries of help and rushed to Mrs. Sprague's apartments to ascertain the trouble. She found Mrs. Sprague lying across the hot stove unable to move, but fortunately not speechless otherwise she would have been incapable of giving an alarm and would therefore have been burned to death. As it was one side of her face and one of her arms were badly burned. The shawl around her shoulders was unable to protect her from the scorching heat. It is believed that Mrs. Sprague was found. There is little or no hope of her recovery.

EDISON'S ADVICE TO BOYS.

"I should like every boy interested in electricity to hear what Thomas A. Edison once said to me when I was a boy working in his laboratories," writes Joseph H. Adams in the introductory to his "Harper's Electricity Book for Boys." "I often recall it as things do not go right at first. I asked the great inventor one day if I could not make up my mind to give up my inspiration. He looked at me and replied: 'My boy, I have little use for a man who works on inspiration. Inspiration is two parts of inspiration and 98 per cent perspiration.'"

FOR THAT TERRIBLE ITCHING.

"Edison, better than I can describe, was his victims in perpetual torment. The application of Chamberlain's Salve will instantly allay this itching, and many cases have been cured by its use. For sale by W. A. WARREN, BRIDGETOWN, W. W. WADE and BEAR RIVER DRUG STORE, BEAR RIVER.

CHILDREN ENJOY IT

"I have used Coltsfoot Expectorant with the greatest satisfaction with my children. It is a wonderful cure for colds and sore throat. I believe it saved the life of my little son, who was very sick from a protracted cold on his lungs."
MRS. ANNIE BRAMBLER, Orangeville, March 15, 1907.
"I am greatly pleased with the good results we get from Coltsfoot Expectorant. I got great comfort with it for my children."
MRS. WALTER HAMMOND, 171 Argyle St., Toronto.
Coltsfoot Expectorant is the greatest home prescription for all throat and chest troubles in the world. No home should be one hour without it. You can have free sample by sending name to Dr. T. A. Stearns, Ltd., Toronto. All good druggists keep it. Price, 25c. Send for Free Sample Today.

Smith's Cove

Squire Winchester was in Digby this week on professional business.
A commercial traveller driving from Bear River to Bear River station on Tuesday last had the misfortune to freeze one of his ears quite badly.
James Winchester has been circulating a petition for presentation to the Minister of Marine and Fisheries protesting against the dumping of ballast in Annapolis Basin and praying that steps may be taken to have the practice stopped.
The weather has been cold enough to freeze a brass monkey in by-time. The chronic kickers will be unable longer to discuss the possibilities of an ice famine. A change of subject is therefore in order. Let us talk about "the good old summer time."
Frank Stalle, who has been suffering from rheumatism, underwent treatment at the hands of Dr. Mount, the magnetic healer. As a result, Frank says he is now as "frisky" as a kitten and ready for any reasonable long year proposition. He draws the line at forty.
Capt. Hunt was 90 years old on Sunday last. The numerous friends of the general captain will wish him many happy returns of the day. He followed the sea from early youth until his retirement a few years ago. Since then he has been living in the Imperial House, which he owns and which for years has been the stopping place for transient travellers. Lately, however, he and his good wife have gone out of the hotel business. The captain becomes reminiscent at times, and tells of his sea-faring experiences, which are highly interesting. One of the roughest trips he ever made was the sail across the Bay from St. John to Digby one cold Friday. The weather was so thick that it was impossible to see land the length of your nose, yet the captain steered a safe course through Digby Gut and reached Digby without mishap. All his acquaintances are pleased that Captain Hunt is still permitted to fill the vacuum of life, where he can be seen weathering the storms with the same fortitude that characterized him in his sea-faring days. To many a mariner and shipwrecked traveler on the voyage of life, Capt. Hunt has thrown out the life line, and go doubt when he reaches that beautiful harbor for which we are all bound, he will receive a right royal welcome from the multitude, whom he has rescued.

LOOKING FORWARD.

Mrs. Nowar—"Do you think my daughter will be a musician?"
"Professor—"I don't say. She will sell me six copies of a long lived omelet."
"Pick Me Up."

SEALED TENDERS addressed to the undersigned and marked on the outside "Tender for 'Trestle Sydney'" will be received up to and including TUESDAY, FEBRUARY 18TH, 1908, for the construction of a hard, Trestle Bridge, etc., at Sydney, N. S. Plans and specification may be seen at the Station Master's Office, Sydney, N. S., and at the Chief Engineer's Office, Moncton, N. B., and at which places forms of tender may be obtained.
All the conditions of the specification must be complied with.
D. POTTINGER, General Manager, Railway Office, Moncton, N. B., February 1st, 1908.

Small-Pox at Micmac.

(Bridgewater Bulletin.)
A sensation has been aroused in this community by the discovery of small-pox at the Micmac Mission, last week. Dr. Stewart was called at the mines and found a miner named Wheeler covered with suspicious sores and on examination pronounced it small-pox. Dr. Stewart at once notified the municipal health officer, Dr. Messenger, of Petite Riviere, and the Board of Health of Bridgewater. Dr. March, the town health officer and Dr. Messenger proceeded to the mines and verified Dr. Stewart's diagnosis and at once established a pest-house and took quarantine proceedings. A family named Boland were infected, and all cases were placed in the pest-house and completely isolated. A strict quarantine is maintained and all mails from that district are fumigated.
The type of this disease is a very mild one, the man Wheeler had never quit his work, although he suffered severely at times from headache and high fever.
It is said that the disease was contracted from a man named Gray, from Yarmouth, who had been at the mines.
The mine managers and the health officers are using every means to keep the disease from spreading, and a strict penalty will be enforced on any who violates the quarantine regulations.
The Famous Pedestrian
Gentlemen:—
"It was a martyr to catch of the head, throat and stomach. I tried many physicians and medicines. A friend suggested Eucalypti. I tried it and it was the only thing ever did me any good. I am now perfectly well. It is the greatest remedy the world has ever known. Do not need it for my health now, but I use it as a strengthening for my walking matches. I see nothing of my physical endurance to Dr. T. A. Stearns, Limited, Toronto.
JAMES REYNOLDS, Port Hope, Ont.
Pyrine is the greatest cure for catarrh of the head, throat or stomach in the world. It is a wonderful tonic and strengthening of the down system, acting directly on the vital organs, giving youthful vigor and strength to the system. At all druggists, and at Dr. T. A. Stearns, Limited, Toronto.

Boys and Cigarettes

In Arkansas a bill has been made prohibiting the sale, manufacture or giving away of cigarettes or cigarette papers in that state.
"So sweeping a measure would not have been taken, had it not been for a demoralizing character, cheap stories of the "blood and thunder" sort, illness, liver and stomach, are too great a handicap for the most hardy boys whose parents are indifferent to his movements so long as he gives them as little trouble as possible; and it is not surprising that he, in so many cases, turns out to be a most valuable citizen and observe what is going on around them.
In St. John the extent to which boys are allowed to smoke cigarettes, on the streets, without any protest whatever, is a disturbing evidence of the utter indifference to the welfare of these lads. Cheap stories of a demoralizing character, cheap stories of the "blood and thunder" sort, illness, liver and stomach, are too great a handicap for the most hardy boys whose parents are indifferent to his movements so long as he gives them as little trouble as possible; and it is not surprising that he, in so many cases, turns out to be a most valuable citizen and observe what is going on around them.
But to confine attention to the one habit of cigarette smoking, it is surely time some definite, practical and general effort was put forth by the citizens to overcome the evil. It is perfectly clear to all who know their eyes open that the law relating to the sale of cigarettes to boys is flagrantly violated. Action taken in influential quarters to discourage the boys from a habit which is not only bad but injurious to their health would be very timely. Whatever may be the thought of the arguments presented by antisocial associations in general, there is no escape from the conclusion that an effective association of this sort to prevent smoking by boys would be a most valuable institution.

THAT BAD BREATH OF YOURS MEANS INDIGESTION

And very likely constipation, which fill your blood with impurities and poison your whole system. To cleanse your blood and strengthen your digestive organs
