A SUMMARY OF FINANCIAL, COMMERCIAL AND MINING NEWS.

Vol. 26. No 17.

MONTRÉAL, TUESDAY, JUNE 20 1899.

Price 3 cents

## Montreal Stock Market.

MARKET VERY QUIET, WITH A TENDENCY TO WEAKNESS—BUYERS HOLDING OFF IN THE MINING GROUP.

This morning's session of the stock market was extremely inactive, and prices in all securities showed a drooping tendency. The transactions outside of the mining group are small, and are mostly made at slight concessions.

Canadian Pacific, under the influence of lower prices in London, opened off  $\frac{1}{4}$  cent, at 95 $\frac{1}{4}$ . Toronto Railway was selling ex-dividend this morning, and its opening price was equivalent to last night's close. The next sale, however, showed a loss of half a point.

Nearly all the business in the mines was done in the first part of the session, and in every stock the sales were nearly in line with last night's close. The unpopularity of mining securities at this juncture is evinced by the attitude of the buyers and sellers at the close of the session. In most cases bids are very much below the preceding sale, and sellers are not holding for much more than is bid. The indications are for lower prices for this class of stocks.

Canadian Pacific—This security, in sympathy with the drop in London to 97 $\frac{1}{2}$ , this morning, opened with a sale of 25 shares at 95 $\frac{1}{4}$ , and on sales of 100 shares more sold at 95 $\frac{1}{4}$  or low. The closing price was 95 $\frac{1}{4}$ , on 75 shares, with 95 $\frac{1}{4}$  bid and 95 $\frac{1}{4}$  wanted.

Toronto Railway—There were but 50 shares of this stock negotiated this morning. The opening sale was 116 ex-div., the next and last for the session being at 115 $\frac{1}{2}$ , a loss of  $\frac{1}{2}$  cent. Buyers were below the market, bidding 115 $\frac{1}{2}$ . It was offered at 115 $\frac{1}{2}$ .

Montreal St. Ry.—Seventy-five shares was the total amount of dealings in Street Ry. at this session, and all changed hands

at 330, a loss of 3 points as compared with last night's close. The feeling in this stock seems none too good. Buyers offer but 328 1-2, whilst sellers will part with it at 330. The old bearish influence is evidently at work again, and it seems comparatively easy to mark down the price.

Montreal Gas—125 shares of Gas changed hands at 201 $\frac{1}{2}$ . Bid was 201 1-2, with 201 $\frac{1}{2}$  wanted.

War Eagle—No change was effected in the price of this stock this morning, 1500 shares being bought and sold at 370, the only quotation for the session. Buyers and sellers were much below the market, the bid being 367 1-2, with 368 wanted.

Montreal-London—The heaviest sales of the morning were made in this stock, and the price made, namely, 51 for 5500 shares, was an exception to the trend of quotations in the other stocks. Bid was 50, with 52 asked.

Payne—This stock was steady, with sales of 2340 shares at 324 1-2 to 325, the latter being the closing quotation. Bid was firm at 324 $\frac{1}{2}$ , with 325 wanted.

The balance of sales were, Republic, 1500 at 124, with the bid at 120 and 123 asked for it; Twin City, 75 shares at 65 $\frac{1}{2}$ , with the bid in line; S5 Richelieu & Ont. at 109 and 108 $\frac{1}{2}$ , with no change in bids; 11 Jacq. Bank at 110, and 30 Merchants Bank at 170.

Continued dullness marked the dealings in everything aside from mines. But 100 shares of Canadian Pacific changed hands the quotation being 95 $\frac{1}{4}$ . There was a

further decline in Montreal Street to 329 $\frac{1}{2}$  on sales of 75 shares. Toronto was soft on sales of 59 shares each at 114 $\frac{1}{2}$  and 115 $\frac{1}{2}$ . Montreal-London was the feature of the afternoon, 10.545 shares being bought and sold at from 50 to 51 at which it closed.

## MONTREAL MINING EXCHANGE.

The selling at the morning session was better than the buying. Virtue was very sick and from present indications no encouragement is given to buying it. The proposed purchase of the Commander is accepted by some as an admission on the part of the company that a new property is needed. We would not sell at present prices.

Republic was offered at 125 and a fair business was done. The demand was limited. Golden Star advanced and closed steady. Decca was offered down. Black Tail sold at 22 $\frac{1}{2}$ , for which the same price would be paid for more. Slocan-Sovereign was steady at 26. There was no encouragement to buyers at end of morning session. Golden Star is ex-dividend.

# NEW YORK EXCHANGE.

AFTER A RAID AT THE OPENING LED BY THE STEELS, THE MARKET ADVANCES SHARPLY THROUGHOUT THE LIST, AND CLOSES AT ABOUT THE HIGHEST FIGURES FOR THE DAY.

New York, June 20.

London market very dull this morning there being no feature in Americans worthy of note. Prices are normally about  $\frac{1}{2}$  to  $\frac{1}{4}$  below our final prices and absolutely nothing is doing in American shares. Consols are lower and this is thought to show that some apprehension is felt with regard to the situation in South Africa.

There were a number of bear influences at work in our market yesterday but with the exception of a few stocks, prices did not decline much and the general market may be said to have been steady. Chief among these bear influences were the contrary reports and rumors in regard to the action of the American Steel and Wire directors on a dividend on the common. The directors meet on Friday, and until something definite is known it is quite likely that we shall see a continuation of these rumors, with regard to the dividend.

The selling in this stock is not as good as it has been for the last few weeks and it is thought by some that the big liquidation is over, and that yesterday's selling is principally for lightly margined accounts and on stop orders.

F. S. declined, in sympathy with Wire and buying on decline was distinctly good.

It is announced this morning that application has been made by one of the preferred shareholders to prevent the company paying a div. on Federal Steel common till the end of the fiscal year. This may result in some selling of the stock, but it does not seem at all likely that the injunction will be granted.

There were numerous rumors yesterday in regard to friction between Metropolitan and its employers. It would seem that these rumors are founded on fact, but it does not seem likely that anything serious will come of them.

The local newspapers this morning publish a very bearish article on Con. Tobacco. It says that the directors are totally at variance with regard to their policy, and that some of the more prominent ones may resign from the directorate and start an opposition company.

It seems quite likely that to-day we shall again see a dull market, and one that is confined to a comparatively few stocks.

New York, noon June 20.

At the opening this morning there was considerable demoralization in the trading, and prices all around suffered more or less. The features were F. S. and A. S. W., both of which were under tremendous pressure and opened materially lower than last night. The reason for this attack in the case of F.S. was the granting of a temporary injunction restraining the company from the payment of any dividend on the common,

till after July 3rd when they will be given a hearing, and will have to show why they shall not be enjoined from paying such dividend.

Mr. Flower said that he was very much surprised at it, as the company had fully protected the rights of the preferred stockholders, by laying aside sufficient funds to meet the dividend of the preferred for the entire year.

He expressed himself as satisfied that the injunction would be dismissed when the facts are presented to the courts. There were some very large selling orders in Wire in which the break was largely in sympathy with F.S., and partly on rumors that there will be no div. declared at the directors' meeting this week.

Another stock which suffered early was Con. Tobacco. One of the newspapers this morning, published an article which stated that the affairs of the company were in a very embarrassed state, that they were earning no money and that there was likely to be a split in the directorate in the near future. The article in question was of a decidedly sand-bagging nature, and no doubt brought a great deal of stock on the market.

After the first pressure to sell was over all round, the general market displayed considerable rallying power, prices in most cases moved up again and since the first half hour of business have held steady.

The Standard railroad stocks were affected in the morning weakness, only to a very small degree. The market is now quiet and steady.

### NEWS OF THE MINES.

#### REPUBLIC.

Mr. F. K. McMamara, the well known expert, who has mined in almost every part of the western hemisphere from Alaska to Argentina has lately been in Republic and referring to the Republic mine says "Republic is a world beater, and I shall not be surprised if the story of Apple Creek is repeated. The formation of the Republic district makes it possible that there will be 40 mines like the great Republic within a radius of a few miles. I have been in all the great camps on the Pacific slope, that have risen during the last 30 years, and I have seen none whose future is brighter than Republic."

#### SHIPMENTS OF ORE DELAYED.

Foreman Wilson Piper of the Evening Star, reports that the heavy rains of the past few days has made the road from the Evening Star to the Columbia & Western railway so soft that it is impossible to haul ore over it. As a consequence he has been compelled to delay the commencement of the shipping of ore until the road becomes dry again.

#### WORK ON THE ST. ELMO.

At the St. Elmo it has been found necessary to erect a blacksmith's shop and other buildings before operations could be commenced. This work is under way and it is expected that by the latter end of the week miners will be put to work. The machine companies are figuring on the 10-drill compressor that is to be installed on the property. There is a splendid surface showing on the St. Elmo and it is thought that deep explorations will develop a pay chute.

#### THE OKANOGAN STRIKE.

The Vein is Over 14 Feet Wide and a Seam Assays \$107.

The assays from the new strike recently reported on the Okanogan Free Gold Mines were received in a letter from Superintendent Edgecombe yesterday, in which he says: "Since writing you re the western ledge I have been cutting through it and as yet have met no sign of a hanging wall, although the ledge is now 14 feet in width. In this ledge there is a very large seam of sylvanite ore that assays \$107 to the ton in gold. The ledge is composed of a series of seams, some of which assay low, while the

rest will yield a profit. The ore is heavily charged with sulphuric acid, so that a very large amount of the values will be found in them."

#### DOMINION COAL.

Boston—President Whitney says: "The Dominion Coal Co. has recently received a proposition from the Dominion Iron and Steel Co., which received a charter from the Dominion Parliament to build an iron and steel plant at Sydney, for a supply of coal which would involve an increased output for the Dominion Coal Company of between 1,000,000 and 1,500,000 tons of coal per annum. Such a contract, providing a home market for such a large amount of coal, is naturally a very desirable thing for the company."

#### ANACONDA SOLD.

The announcement is made that the Standard Oil Co. have bought from Marcus Daly his entire holdings in Anaconda. The purchase price is said to have been \$23,000,000. The Standard people do not acquire the total stock of the company, as an English syndicate still has a \$5,000,000 interest in the mine.

Chicago, June 20.

On lower cables wheat opened off ½ to 1 p.c. and continued to settle slowly without any reactions worth mentioning right up to the close which was at the lowest figures for the day. July lost 1½ p.c. for the day, September 1½ p.c. and December 1½ p.c.
