### TORONTO PREPARES FOR A MILLION PEOPLE BY CARRYING ALL BYLAWS; BLOOR ST. VIADUCT WILL BE BUILT

Nearly Thirteen Million Dollars Will Be Spent on Necessary Public Works and a New Era of Prosperity Will Start Today—Tremendous Majorities Polled for Every Bylaw—Reform in Present System of Assessment Favored by Majority of Nearly Twenty Thousand.

Eight bylaws representing an expenditure of upwards of \$13,000,000, were carried by the electors of Toronto, and this year's council has received a mandate from the people to prepare for the needs of a city of a million, and estimates for the various projects will be obtained forthwith.

The Bloor street viaduct received the emphatic approval, not only of wards one and two, but the city at large. The western wards saw the necessity for its construction and took care to give it big majorities.

In the matter of ward majorities, this bylaw stood third on the list in ward seven, near the top in ward six, also in wards five and four, and, of course, took premier standing in the eastern wards. The construction of the Bloor street viaduct is to be an accomplished fact.

**Filtration Plant.**  
Ward seven did not give a decision in favor of the duplicate filtration plant at the island, the majority was on the other side by some 400 per cent. This can hardly be explained, as it was proposed to enlarge the island plant in order to facilitate the water service in the west. It is proposed to extend a main along Queen street west for this purpose.

Ward seven did not see it this way, and voted accordingly, but sufficient majorities were obtained in each of the other wards to cover this deficiency.

**Storm Sewers.**  
Ward two went back on the storm overflow sewers, as the voters declared against them by just 146 votes. This cannot be easily explained away, because the majority of the sewers will be located in this ward, with consequent benefits to those who in this particular case, have voted against them. This lack of a majority was made up by the enormous poll in favor of the sewers made in ward one, which stood at: For 2470, against 809.

The other bylaws received exceptional majorities, being averaged at two-thirds, more particularly the hospital bylaws. The grant to the National Sanitarium Association received a majority of 11,199, and that of the Hospital for Sick Children was 13,014.

Toronto yesterday declared itself in favor of a reform in the present system of assessment by giving the question: "Are you in favor of assessment by value, improvements and incomes on a lower basis than land?" a majority of 18,920.

A description of the bylaws follows:

### TURKEY CEDES TO ALLIES BULK OF HER DOMINIONS APART FROM ADRIANOPE

LONDON, Jan. 1.—(Can. Press).—After protracted diplomatic skirmishes the Turks finally capitulated to a majority of the demands of the Balkan allies at today's session of the peace conference in St. James' Palace. The Turkish government, through its plenipotentiary, Mr. Enver Pasha, agreed to cede practically the whole of the Ottoman Empire's European dominions except Adrianople, and the territory between it and Constantinople to their victorious but traditionally despised neighbors.

The terms the Turkish delegates presented to the conference as a counter proposal to the demands of the allies were:

First, the rectification of the Turco-Bulgarian frontier by making the boundary west of the line now occupied by the troops of the allies in the village of Adrianople.

Second, the question of the status of Adrianople to be settled by Turkey and Bulgaria directly.

Third, the cession of the remainder of European Turkey, including Jannina and Scutari, to the allies.

Fourth, the Albanian and Cretan questions to be solved by the powers.

Fifth, the Aegean Islands to remain Turkish.

**Reluctant Surrender.**  
The announcement of these terms was wrung from the Ottoman delegates with the greatest difficulty. They came only after Enver Pasha had reiterated the Turkish desire to shift the responsibility for adjudicating all the vital questions to the great powers and the representatives of the allies had registered their unchangeable objections to such a course, and plainly had given the Turks to understand that the failure of the Ottoman delegates to embark upon serious negotiations would mean a resumption of hostilities in southeastern Europe.

The sitting today was the most momentous and exciting since the beginning of the conference. The Greek premier, M. Venizelos, presided, and immediately after the opening of the conference he invited Enver Pasha to present the Turkish counter proposals to the demands of the allies, as the Turks last Monday had agreed to do.

**Wave of Indignation.**  
Enver Pasha's interpretation of the badly transmitted telegrams of the early week had been correct, his proposal to hear such vital matters as Adrianople, to settlement by the powers. This caused an outburst of indignation which M. Venizelos was hardly able to put down. Several of the delegates shouted that it was not dignified to turn such vital matters into a joke, while others observed that they had not come all the way to London and remained here for three weeks to hear a proposition advanced which might have been made at the time the armistice was signed.

When relative calm was restored M. Venizelos, Dr. S. Daneff, the leader of the Bulgarian delegation; M. Novogorich, Serbian, and M. Myukovitch, Montenegrin, each for their respective countries, declared that they would not accept the proposed mediation by the powers and insisted that the Turkish delegates present a practical and defined proposal and on it they would be ready to negotiate.

**Turkey's Maximum Concessions.**  
Enver Pasha announced that his instructions contained another alternative and requested a few minutes' time to formulate it. After a short recess, during which he had absented himself from the chamber, Enver reentered the conference room and M. Venizelos again took the chair.

Enver said that Turkey, desiring to give tangible proof of her love for peace and in fulfillment of the advice received from the powers, was granting a rectification of the frontiers, ceding the territory westward of the line occupied by the allies in the village of Adrianople to them.

### VICTOR AND VANQUISHED BOTH ARE SATISFIED

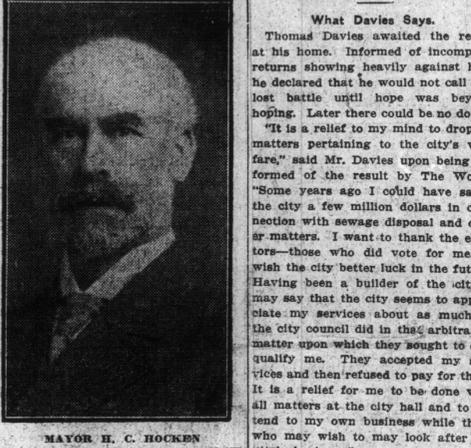

Mayor Hocken Says People Also Are Satisfied That There Is Not Going to Be Any Slump in Toronto and That Ratepayers Have General Confidence in the Future of the City—Davies Is Glad to Leave the Civic Arena.

After an overwhelming victory had been assured, Mayor Hocken gave the following statement to The World last night:

"In view of the fact that I made no campaign against Mr. Davies, the result is exceedingly gratifying. The late E. A. Macdonald used to say that any majority candidate could count on getting 8000 votes, which represented a proportion of the electorate who were dissatisfied with existing conditions. That seems to be borne out in this case, because the people have voted \$13,000,000 for the same men to spend. Now, it is evident that the people generally have confidence in myself and the men whom they have elected to the board of control. They are also satisfied that there is not going to be any slump in Toronto. There never was clearer evidence given of the general confidence in the future of the city than is contained in the vote on the money bylaws today.

"It is a very great honor to be chief magistrate of this fine city and it is also a heavy responsibility, and I renew my pledge to give the very best administration I can, having due regard to economy and efficiency and respect for public rights and progress. It will be my aim to keep up the fight for public rights by providing a pure water supply and extending our transportation system.

"I will pursue an aggressive policy and believe that I will have a board of control and council as anxious as myself to devote ourselves wholeheartedly and unreservedly to giving the people an aggressive and progressive administration."

Mayor H. C. Hocken whose majority yesterday was 15,475.

### MAYOR HOCKEN'S MAJORITY OVER EIGHTEEN THOUSAND HIS POLICIES ACCLAIMED

#### Mayor Hocken's Opportunity

Mayor Hocken has the greatest chance to distinguish himself in the executive chair ever offered to a mayor in Toronto, and, we may add, in Canada. And we believe he will seize his opportunity.

Not only has he the character of a good public officer, earnest, fearless, conscientious, indefatigable, but he has a clear vision, a conciliatory but not pliable temper, and he has a progressive policy already tested by experience and criticism, and now practically adopted by every element of civic progress and reform in the city. It is a fine thing to talk progress and reform and efficiency, but it is quite another thing to secure it. Mayor Hocken's business this year is to secure it.

Unquestionably the whole problem of reorganization in the city hall will come up. We shall await Mayor Hocken's views on this point with interest, but the cancellation of the new council indicates a keen desire for reform.

In the mayor alone there is little power unless he is able to co-ordinate his colleagues on the council. There is every indication that this will be possible. We do not believe that Controller Foster or Council will adopt an obstructive attitude. Free criticism and compromise may be looked for, but there is a sufficient element of common-sense to immediately refuse tolerance to mere carping or obstinacy. At least a dozen men, including several of the aldermen again mentioned, can be relied upon to act as business partners act in their private affairs, not by wrangling in public, but by careful enquiry and investigation, determining what is best to be done, and resolving to do it. There can be no two opinions about facts. If the controllers and aldermen are set down to facts, there will be less opportunity for dissension.

We believe that the new council with Mayor Hocken at its head, stands at the beginning of a new turn in Toronto. The inauguration of the harbor scheme, the settlement of the railway question, the work on the new water system, the Bloor street viaduct, and other great improvements, only herald the still greater things that have been kept back by the congested state of public business for ten years past.

The radical railways of the city must be dealt with. That is the vital question which the city must rid herself of. The majority of the generation that tied itself up to a corporation franchise of the kind that has been kept back by the congested state of public business for ten years past, in a sound mind the city will resume control of itself, and get the radical into their hands. This means that the biggest question now ahead.

We congratulate Mayor Hocken on the confidence reposed in him by the ratepayers. They have voted their money, and in the full assurance that Mayor Hocken will do justice to them. He may perhaps be able to show them how to do greater justice to themselves and their tenants before his term of office closes. A board of control on which he may rely, and have every disposition to wish well to every man elected and do so heartily.

Thomas Davies Polls But Very Small Total, Made Up Largely of "Protest" Votes—Polling Was Not Heavy, Mr. Hocken's Success Being Assured.

Mr. Davies need not give any thought as to his ability to qualify for the mayorship, for he wasn't elected. Only some seventeen thousand votes intervened between him and the chair.

With his all-red route of water supply and his vivid, if erratic, arguments in favor of Mr. Davies and a new kind of civic government altogether, he had the best platform he has ever had, but it proved to have been made of very shaky timber.

Practically all of the votes Davies polled were "protest" votes—votes not for Candidate Davies, but against Candidate Hocken. The "all-red" tourist must see that the people don't want him. Joseph Oliver's majority of some sixteen thousand over him four years ago might have made that clear.

And Mayor Hocken has got just what he wanted. He wanted the people's approval and he got it. A vote of 25,000 for a majority of about half a vote to his opponent of about half his majority number. That is undoubted proof that Mr. Hocken was wanted by the citizens, that they favored his policies, that they liked the quiet energy with which he accomplishes the things a city of a half million, and growing fast to a million, needs.

With such an overwhelming expression of confidence Mayor Hocken must enter upon his third month as chief magistrate with strengthened purpose to carry out the big program the by-law voters set before him, the Mr. Hocken is not the man who requires more than a plain sense of duty.

**Twenty Millions Program.**  
Yesterday the city embarked on an expenditure of twenty million dollars in public improvements, for to this total do the works bylaws and the regular yearly program of city improvements react. When they voted yesterday the electors believed Mayor Hocken to be the right executive head to handle the biggest expenditure to which they have ever committed themselves.

Mayor Hocken's vote was not one free of partisan and other influences. In the first returns that came in last night from the lower end of Wards Three and Two, he was receiving only a fair majority, but in the newer districts of the city Mr. Davies was almost forgotten, as the individual subdivisional results showed.

**Widespread Approval.**  
However, Mayor Hocken received a widespread and general approval that was even more gratifying than an acclamation.

The majority vote was very light compared with other years—in 1912 there was no election and this is attributed largely to the fact that many who would have supported Mr. Hocken naturally believed his election certain. With many there was also a feeling that Mr. Davies was not even a candidate, the doubt expressed as to his qualifications having led them to this belief.

### PROVERB CONTEST CLOSED WITH RUSH

Mountains of Answers Were Delivered in Person and by Mail—And Are Still Coming.

#### Take Notice, Proverb Contestants.

Every contestant in The World's Proverb Contest who desires to keep informed as to the handling and examining of the sets of proverb answers, must watch The Daily World closely for particulars, which will be published from time to time. Immediately after the examination is begun, The Daily World will publish instalments of the correct answers, daily, and those who have kept copies of their solutions will be able to determine the numbers they have missed.

It's all over. The great proverb contest of The Toronto World, which has been the centre of attraction for many thousands of persons through the Dominion for the past three months, closed with the last hour of the old year—and the contest is all over with the exception of the examining of the thousands of sets of answers and the awarding of the prizes.

Thousands and thousands of sets of answers have been received, and huge sacks of mail—containing proverb sets which were mailed within the tight limit.

### STABBED BY RIVAL ARREST ASSAILANT

Frank Studholme Victim of a Murderous Attack on the Street—Serious Wounds Inflicted.

Furiously because he thought another man was paying attentions to a certain woman whom he admired, Louis Cowell, a foreigner, is alleged to have made an attempt on the life of Frank Studholme yesterday afternoon about 5.15. Studholme was stabbed in three places with a knife. The city detectives arrested Cowell soon after on a charge of making an attempt on Studholme's life.

Cowell is said to have encountered the injured man at the corner of College and Grace streets. The former asked some personal questions of Studholme, which the latter resented. Hot words ensued, a knife flashed several times and Studholme fell to the pavement with a wound under his arm, which required four stitches to close, a hole thru his ear and a stab in the shoulder.

He was carried into a doctor's surgery nearby and his injuries dressed. Later he was removed to his home at 112 Major street.

Detectives Twigg, Newton and Wickert called at the house where Cowell resided last night and asked for him. The woman stated that Cowell was not in. Wickert guarded the back door, while Newton and Twigg went in. Cowell jumped from a clothes closet and ran thru the back door. Detective Wickert was prepared to catch him, but he ran down the steps. Wickert grasped him and after a short struggle had the handcuffs adjusted.

### DARING BURGLARS STEAL JEWELRY

Scheuer's Store Entered and Valuables Worth Two Thousand Dollars Taken New Year's Eve.

Master criminals successfully carried out an ingeniously-planned robbery at Scheuer's jewelry store, 58-59 Yonge street, sometime near midnight on Tuesday. About \$200 worth of valuables were taken from the show cases and so far the burglars have not been apprehended.

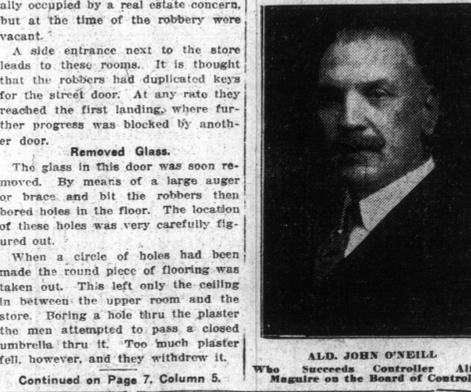

For daring and cleverness the robbery can well be classed with the largest that have occurred in Toronto during the past five years.

Above the jewelry store is situated a suite of rooms. These were originally occupied by a real estate concern, but at the time of the robbery were vacant.

A side entrance next to the store leads to these rooms. It is thought that the robbers had duplicated keys for the street door. At any rate they reached the first landing, where further progress was blocked by another door.

**Removed Glass.**  
The glass in this door was soon removed. By means of a large auger or brace and bit the robbers then bored holes in the floor. The location of these holes was very carefully figured out.

When a circle of holes had been made the round piece of flooring was taken out. This left only the ceiling in between the upper room and the store. Boring a hole thru the plaster the men attempted to pass a closed umbrella thru it. Too much plaster fell, however, and they withdrew it.

Alderman John O'Neill who succeeds Controller Maguire on the Board of Control.

### LONDON FAVORS POLICY OF BECK

Majority of Aldermen Pledged to Submit Bylaw For Electrification of Port Stanley Railway.

LONDON, Ont. Jan. 1.—(Can. Press).—Hon. Adam Beck won a notable victory today when the people elected seven aldermen out of twelve pledged to submit a bylaw for the electrification of the London and Port Stanley Railway, a city-owned line, to Lake Erie.

Of the twelve elected today three are new men and one an ex-alderman. Of the old council two are defeated. One of these, Ald. Coles, was the father of the federal square proposal, which was approved by the council last year for \$200,000 for a site for a city hall. Of the industrial loan bylaws one is carried. This provides a loan of \$20,000 to the Denton Iron Company.

With the exception of Controller Maguire, the board of control for 1913 stands as it was last year, with the promotion of Ald. John O'Neill to fill the fourth place thus vacated.

The poll was as follows:  
THOMAS FOSTER ..... 15,514  
JOHN O'NEILL ..... 14,546  
THOMAS L. CHURCH ..... 12,705  
FRANCIS S. SPENCE ..... 11,876  
ROBERT M. YEOMANS ..... 10,778  
JAMES SIMPSON ..... 10,241  
ALFRED MAGUIRE ..... 9,828  
JOHN J. WARD ..... 9,272  
GEORGE R. SWEENEY ..... 1,642  
RICHARD WOODS ..... 1,504

Controller Foster polled the heaviest vote in every ward with the exception of Ward Three, where ex-Controller Maguire headed the list.

Controller O'Neill, who has represented Ward Two during the past four years, was a general favorite for another second or third place in all the wards, and his election to the board of control was conceded when the earlier returns rolled in.

Ex-Controller Spence was not given a place on this year's board by the majority of the voters, and according to the dope, previously handed out, he did well to land so near Controller McCarthy, his running mate, who came fourth.

Controller Maguire, who was placed practically in the also rans, coming eighth, was the surprise of the day, if any surprises existed.

Alderman Yeomans' comparatively fine run was due to the distinction given him by his fight for mechanical filters, but the plumbers' bylaw and his criticism of the present water supply, and the fact that his opponents were all probably having given West Toronto, Humber Bay water for all time, lost him a lot of support in the western wards.

### ONLY ONE CHANGE IN BOARD OF CONTROL

Widespread Approval.

The majority vote was very light compared with other years—in 1912 there was no election and this is attributed largely to the fact that many who would have supported Mr. Hocken naturally believed his election certain. With many there was also a feeling that Mr. Davies was not even a candidate, the doubt expressed as to his qualifications having led them to this belief.

NO SOLID THREE IN FIFTH WARD

J. W. Meredith Defeated R. H. Graham, Who Served the Ward For Sixteen Years.

DUNN AND MAY RETURN

Majority For Meredith, Who Headed the Poll, Was Seventeen and Recount May Follow.

With the defeat of Ald. R. H. Graham yesterday Ward Five's "solid three," consisting of Messrs. Dunn, Graham and May, was broken.

After serving sixteen years in the council, four years of which he represented the old St. Stephen's Ward in the late '80s, Robert H. Graham was ousted from what looked like almost a life job.

John Wesley Meredith will make his first appearance in the council chamber, having headed the polls in the Fifth Ward.

Ald. Joseph T. V. May got back to their old chairs in the civic chamber. It was a rather sore blow to Ald. Graham to have been defeated after such a long service in the city.

He served in 1887, 1889, 1890 and 1891 as alderman for St. Stephen's Ward, now Ward Five, and for 12 years since then has represented Ward Five.

In 1897 he sat on the board of control. His downfall might be described as "this passing of the Grahams" for J. Graham, after many years in the city hall, was defeated for council two years ago.

John Wesley Meredith, who was one of the unsuccessful candidates last year, headed the polls with 2799 votes, a majority of 17 over Ald. Dunn, and

Charles Henry Maybee, a new man in the municipal arena, headed the polls in ward six yesterday by a majority of over 1100 votes over Ald. Fred G. McBrien and Ald. David Spence, both of whom were re-elected.

Ald. John A. Austin lasted only one year in the council, having this time made a very poor fourth.

The voting was unusually keen in this ward. It was seen by the first return from the subdivisions that Mr. Maybee would be elected.

Ald. McBrien led in the race, but when about half the polling booths had reported, Maybee started to gain ground and finally forged to the front which position thereafter he held.

There were really only four men with a chance—Maybee, McBrien, Spence and Austin. The latter was practically 700 votes from making a third position, or being re-elected.

The Sunday slides question was considered to be the predominant issue in this ward.

The three former aldermen voted against the use of the High Park slides on Sunday, and all save Austin were returned to the council.

The new alderman, Charles Henry Maybee, in his campaign for election, did not commit himself on the question other than that he did not believe matters affecting Sunday legislation should come before the council.

He considered, not being the right one to deal with such matters, he did not see whether he wanted the slides open or closed.

Ald. McBrien and David Spence entered upon their third year in the council as representatives of the Parkdale ward.

The following was the result: C. H. MAYBEE..... 4692 F. G. MCBRIEN..... 3568 DAVID SPENCE..... 3527 John A. Austin..... 2840 R. J. Clarke..... 2106 James E. Stewart..... 1139 Thomas E. Earls..... 483

Charles Henry Maybee's election in ward six, where he led the field, and his nearest rival by a thousand votes, was one of the most unexpected results of the festive tobogganists.

Ald. McBrien, who has always taken a keen interest in civic politics, particularly as they affected Parkdale.

He was born in Cannington, receiving an education under our local school system.

Ald. Maybee is a strong believer in the civic education and besides that he has the necessary technical knowledge back of his belief to be a great help to the city in carrying this project thru to a successful conclusion.

He is a cattle dealer by trade. In politics he is a staunch Liberal.

SAME ALDERMEN IN FOURTH WARD

Wanless, Weston and McMurrich Go Back Again, Having Satisfied Their Constituents.

WANLESS HEADS POLL

No new representatives of ward four will be seen in the council chamber this year.

Ald. Wanless, Weston, and McMurrich, the old guard, were re-elected in the order named.

Ald. Wanless headed the polls with a majority of slightly over 200 over Ald. Weston and nearly 500 over Ald. McMurrich.

Excitement was high in the ward four combination would be broken.

Both R. D. McLeod and Dr. John Shyne looked dangerous at one time, but toward the end they became also rans.

Mr. McLeod finished in fourth place with 1638 votes as against 2337 polled by Ald. McMurrich, who finished in third or the last position of the winners.

Dr. Shyne was only 80 votes behind Mr. McLeod.

Ald. McMurrich enters upon his 17th year in the council, he sharing the honors as an old-timer with Ald. John Dunn.

Ald. McMurrich's first year in council was in 1891, when he was elected a representative of the old St. George's Ward.

He sat for ward four for nine years afterwards, and until 1902.

BOTH MEN BACK IN WARD SEVEN

Ald. Anderson Increases His Strength and Majority Over Ald. Ryding, Who Falls Off Slightly.

WERE SAFELY ELECTED

Contest in the Far West Ward Was Not Spectacular and Vote Showed Very Small Gain.

Ward seven let in no new blood. Aldermen Ryding and Anderson are aldermen again and by a fairly decisive vote that was numerically little greater than that of the previous election.

The field was small. There was no great outstanding feature of the contest to draw out the voters.

Neither of the two aldermen had performed anything startling in their year in council.

John A. Macdonald put up a fight that looked formidable, but there was not sufficient of underlying strength to pull him into a winning place.

Alexander J. Anderson, alderman, who is a barrister, increased both his lead and his vote.

MAYBEE ON TOP IN SIXTH WARD

His Majority Was More Than a Thousand Over Aldermen McBrien and Spence.

AUSTIN A POOR FOURTH

Sunday Slide Question Played an Important Part in the Vote in This Ward.

Charles Henry Maybee, a new man in the municipal arena, headed the polls in ward six yesterday by a majority of over 1100 votes over Ald. Fred G. McBrien and Ald. David Spence, both of whom were re-elected.

Ald. John A. Austin lasted only one year in the council, having this time made a very poor fourth.

The voting was unusually keen in this ward. It was seen by the first return from the subdivisions that Mr. Maybee would be elected.

Ald. McBrien led in the race, but when about half the polling booths had reported, Maybee started to gain ground and finally forged to the front which position thereafter he held.

McCarty Best White Man Whips Palzer in 18 Rounds

Note and Comment

New Year's Day showed up nothing better from a sporting standpoint than this glorious climate of ours. There was everything, including games on the ice at Hillcrest and the Arena, even if the weather was spring-like.

The curlers had a busy afternoon playing cards, billiards and pool. The only ice in the city is at the Arena, and is reserved for the skaters and hockeyists. Possibly, if appealed to, Manager Solman would show that he possesses some Scottish blood by giving up his grand artificial surface, 300 x 80 feet, some fine afternoon from 4 to 6 to the jolly brethren of the team and the curlers.

There is no truth in the suggestion that the directors of the Arena have arranged for this sort of weather. As a matter of fact, it is merely a duplicate of the temperature of a year ago, and the Arena and the outdoor skates will yet work overtime before the spring.

The curling season has not yet begun, and the hockey game barely. Still preparations are being made for the spring training of the ball clubs, and a little more than two months the correspondents will start with Tim Jordan, Dick Randolph and the rest of the Leafs on their annual hike to Macon, Ga., all for the glory of McCarty. Just wash them!

In response to several queries, the following description of the manufacture of ice at the Arena is given: A large tank of brine is used, through which a current of steam is passed. The brine is forced into these coils by two 50-ton machines, and changes it into ice. The brine is pumped out of the tank through the pipes to the tank again. When the brine leaves the tank it is 12 degrees below zero, and it returns to 32 degrees. The brine, being so cold, causes an excess frost. This system is very economic and uses very little fuel. They also turn out 50 tons of ice per day for hotels and domestic purposes. This is the first place of its kind in Canada, and is the largest in America. The De La Verne Machine Company, New York, who are the installing and repairing agents at Hamilton, Ottawa and Montreal.

At the time that the stallion Perseus died in 1908, his owner, the late King Edward, was deeply sympathetic with the horse because he was only 15 years old and in the natural course of events might have lived at least ten years longer. Edward's sympathy was the untimely death of the Derby and St. Leger winner of 1885 more than realized because of the remarkable fact that every year since his death the winners of his race have kept him at the head of the list of winning stallions.

WATER TRAINING FOR TORONTO

Ottawa Piles Up Score on Riddipath's Boys—Soft Ice May Have Had Something to Do With It.

OTTAWA, Jan. 1.—The smallest crowd that has ever witnessed an N.H.A. game in Ottawa saw the Ottawa defeat the Toronto by 7 to 1 in a burlesque exhibition at the Arena tonight. Taking a lead of three goals in the first period, the locals scored two, one in the second, and added another two in the final. Toronto's goal was lucky one, a long shot from McLean's stick finding a place in the net behind Leisner. The blue shirted men never dangerous, being outplayed at every turn, and after the first session the spectators sat back in alliance except for the moment when Toronto scored. They then arose and gave Bruce Riddipath's team a mighty cheer, as if to encourage them.

The weather had been mild since early in the week, and the ice was so soft that the skates of the players and officials sometimes cut thru into sand underneath. It was even worse than that if there had been water on the surface, for the puck stuck and rolled instead of skidding along, thus eliminating the possibility of fast skating, combination or clever stick-handling.

Slap-dash hockey consequently was the result, with Ottawa the aggressors thru-out, no combination was effected by either team. The Ottawa worked out their full squad, so one-sided was the game, and Manager Riddipath of the Toronto kept putting men on and off in an effort to infuse the westerners with speed and snap.

Toronto's defence was fairly good, and Holmes in goal made a number of fine stops. Davidson and McLean showed fair form, and Cameron at cover was the best man on the team. They were well formed to block the men either with their bodies or sticks.

Cameron showed speed in going up the ice, and made a number of game attempts to bore thru the Ottawa defence, but both McLean and Davidson were slow in clearing. It was on the line that Riddipath's team showed its greatest weakness.

The line-up: Ottawa (G)—Goal, Leisner; point, Lake; cover, Shore; centre, Roman; right, Broad-bent; left, Darragh. Toronto (G)—Goal, Holmes; point, Davidson; cover, Cameron; centre, McGillivray; right, Wilson; left, Foxton.

McCarty Best Hope MADE PALZER PUNCHING BAG

Iowa Grant Easiest Kind of a Mark For Sturdy Luther—Referee Stopped Bout in the Eighteenth Round When Palzer Had Been Punched Into Submission.

LOS ANGELES, Jan. 1.—Luther McCarty of Springfield, Mo., shattered the heavyweight championship ambitions of Al Palzer, the Iowa giant, at the Vernon Arena today. For nearly eighteen rounds he used the huge frame of the Iowa as a punching bag.

The middle of the eighteenth round found Palzer staggering blindly under a volley of lefts to his battered face, and when Referee Charles Eytan walked between the men and held the right hand of the smiling cowboy pugilist, the decision was received with cheers.

McCarty's victory, following his decisive defeat three weeks ago of Jim Flynn, places him at the top of the list of white heavyweights.

McCarty has announced, and reiterated the statement today, that he would never fight a negro.

Palzer, in spite of his superior height, weight and reach, was no match for the cool-headed, agile youngster. He literally stumbled thru the fight, assimilating awful punishment, and his rushes were wholly ineffective. He scarcely landed a clean blow thru-out the fight.

McCarty entered the ring at 2:54, after watching the last preliminary from ringside seat. He was followed by Palzer within a few moments. Ringside betting appeared to favor McCarty, with offers of 10 to 8 were greedily accepted by Palzer's backers. Most of the McCarty betting was at even money. Palzer's weight was announced at 277 and McCarty's at 224.

The Fight by Rounds. Round 1.—The fight started at 3:18. Palzer rushed McCarty with two lefts, and McCarty drove a hard right to Palzer's eye. Palzer reached McCarty with a hard right, Palzer staggered McCarty with a hard straight left to the chin. Palzer reached McCarty with two lefts, and McCarty drove a hard right to Palzer's eye. Tecumseh Pros Beaten By the Canadiens 4 to 3

George Kennedy's flying Frenchmen added just one more victory to their string when they downed Tecumseh, 4 to 3, in the Arena last night. It was a close affair for two periods, but the last session made up for the lack of thrills earlier. The Indians gave the Canadiens the greatest scare of their lives in this period, and the Montrealers can thank Vesna for saving the game.

The ice was heavy for two periods, but the brine had done its work by the time the players got the ice for the last twenty minutes, and it was a lightning-fast period. Tecumseh had the puck nearly all the time, and the good clearing of the Canadian goalkeeper, coupled with some luck, beat Nicholson's men.

The combination play was conspicuous for its absence, and the individual player was in his glory. Laviolette covered himself with medals and was easily the man on the ice. Throop held down the right side for the Toronto team, and was the hardest-working man in the arena as far as the McNamara brothers again showed they are just about as good as the defence game as any in the N. H. A.

PARKDALE TONIGHT

Kingston Team in Grand Shape For Tussle—Paddlers' Line Up Very Strong.

The Queen City hockey fans will be given a chance tonight to see up two more Senior O.H.A. teams when the Kingston Frontenacs will tussle up against the Parkdale Canoe Club in an exhibition game. Both teams are very strong this year, and are considered by the critics to be the equal of anything playing Toronto company.

Altho Jimmy Sutherland's boys have been handicapped by the lack of ice, yet from all reports they are in the best physical condition, and will give the paddlers a whirlwind of a game. For the last three weeks the Kingston boys have been training in the gym, and are out this year to regain their position at the top of the hockey world. Eastons ousted them from Parkdale in going great runs this year, and most of last year's stars are in line, and considerable outside talent has been secured, and the West End boys have gathered together the makings of a septic that will take a lot of beating, and then some. The paddlers will probably line up as follows: Goal, Moak; point, Lawson; cover, Ford; right wing, Riddipath; left wing, Edwards.

Low E. Marsh will be the referee. The Dominion checkers tournament was concluded yesterday after an unequalled record, when Barrett in his wife and two children the leading jockey of the continent was a passenger on board the steamship "George Washington." O'Neill says that he earns twice as much money in France and England as he ever did in America.

CUBS MUST RIDE ON WATER WAGON

President Murphy Orders All His Hired Men Up on the Front Seat—Must Obey.

CHICAGO, Jan. 1.—According to a rule recently laid down by President Murphy of Chicago National League Club, the baseball players of his organization are on the "water wagon" today, and hereafter during the 1913 season.

Murphy's edict precipitated heated words from Frank Chance, late manager who claimed that his players lost no games on account of too frequent tippling. Manager Evers, who succeeds Chance, says the orders of the president must be obeyed. It was understood that the order was to go into effect at the beginning of the New Year.

James R. Keene Seriously Ill. NEW YORK, Jan. 1.—It is stated that the condition of James R. Keene, the financier and horse breeder, has become so much worse that he has been removed from his apartments in an uptown hotel to a private hospital. Mr. Keene's health had not been good for over a year, and recently he was compelled to take to his bed. At the hospital it was said that Mr. Keene was resting comfortably as could be expected.

A Famous Brotherhood of Artists

The names of MILLAIS, ROSETTI and HUNT are famous in the World of Art.

The secret of their success is traceable to the fact that they formed a school of independent thought—they copied no one—they broke away from conventionality—THEY THOUGHT FOR THEMSELVES.

It Pays to Think for Yourself

If you are a smoker, try to think what the difference between a DAVIS' "NOBLEMAN" CIGAR (TWO FOR 25c) and a high-grade imported is, and you will find the only difference is that "NOBLEMAN" is 50 per cent. cheaper, because it pays less duty.

"NOBLEMAN" is clear Havana and Cuban made, and is used by smokers who think for themselves and study the cigar question at close range.

TIGERS PLAY HERE ON SATURDAY NIGHT

West End Senior Basketball Team Ready For Hamilton Squad—Both Teams Strong.

The Hamilton Tiger basketball team are certainly looking forward to the coming game on the West End Y.M.C.A. floor on Saturday night next, with the east senior team.

All of the West End players are in the best of condition to give the Tigers the game of their lives, and from all accounts they will have to travel faster than ever to win this game.

The opening game will be played between the business-men and the intermediate senior team. The business men are working overtime to get in the best of condition for this game.

Between the halves, E. Archibald will give an exhibition of pole vaulting, and a little apparatus work will be put on.

The reserve seat plan is now open at the building.

CLARA PAUL SURPRISES TALENT TRIMS FAVORITE ST. ANTHONY

Great Racing on Poor Track at Hillcrest Park—Creosote and Margot Leonard Repay the Form Players—The Summary.

The first day of the second meeting given by the Toronto Driving Club was held under most favorable weather conditions, although as much could not be said for the track, and account to the mild weather the going was very sloppy, and each and every driver, after having driven a heat, hardly knew what he was, if he had taken a peep in a mirror.

The racing was grand, every heat being contested from wire to wire, although it was generally conceded by form players that the three races were won in straight heats. Margot Leonard was a decided favorite in the 2 1/2 trot, and she finished first race in the crowd—her heat was unfinished, Clara Paul winning the two heats raced, and she looks as if she has the race hot money. This race will be called first today. The summary follows:

DARK HORSE LIFTS THE CUP AT BIG STORE TOURNAMENT

Annual Bowling Tourney Biggest in History of Organization—J. C. Eaton Donates Silverware For Game on Saturday—Scores of New Year Big Event.

The Eaton A.A. annual handicap tournament for the J. C. Vaughan Cup and other prizes was jointly held at the Athenaeum and Toronto Bowling Club yesterday (New Year's) morning.

Commencing on Saturday afternoon, the tournament was held in a most interesting manner, and reflects great credit on the committee, composed of George Studholme, Charles Templeton, W. Hayward, Ed. Foley, W. J. Bowman, W. Dennis, and W. J. Smith, the secretary.

The largest of interest in the big store, and a large gallery greeted the night at the Athenaeum, a match game with ten men a side, representing the Toronto and factory, will be rolled, with home and home games, for a solid silver cup, valued at \$100, to be presented last year by the store.

The factory for the tournament will be presented after the final game between the store and factory at the Toronto Bowling Club.

Allan Stuart, a dark horse, won the Vaughan Cup and medal, other scores being as follows:

THURSDAY MORNING, JAN. 2, 1913

**FAITH IN TORONTO.**  
 The vote on the money bylaws is a really marvelous testimony to the faith of the citizens in Toronto. When we consider everything that may be said to the contrary it is perfectly evident that the people who have the control of Toronto's finances in their hands are confident of the future of the city. No city in Canada would be prepared to vote \$12,000,000 for civic schemes so readily. It is a tribute also to Mayor Hooker and a testimony that the ratepayers are satisfied to trust him with the direction of the vast expenditure which they have authorized. We believe this confidence will be fully justified. The new men on the board of control and council will approach all the important problems before the city with an entirely new view of city affairs. The village ideas that have so long dominated the council are almost extinct, and the men who supported them have been almost all swept away. Ald. Dunn is a solitary survivor, but he is by no means hopeless, and may wake up to the new state and the new spirit under the shadow of the tall tower.

**A GOOD MAN FOR THE HARBOR.**  
 Ex-Controller Spence is responsible as much as any other for the success of Toronto's magnificent harbor plans, and he deserves the credit which is due to a long course of self-sacrificing work in bringing the harbor scheme to its present state. Mr. Spence was indefatigable in interesting the press, in enlisting support from various city officials and in bringing the political authorities into line for it. In fact, he developed a new side of his character in this work as a constructive worker and organizer. In the city council he was for the most part an obstructive and destructive critic. This and other considerations have determined the citizens to leave him free to attend to work in which he has been brilliantly successful, and in which he has done honor both to himself and the city. Others have now taken up the harbor work, but no one will wish to rob Mr. Spence of any credit due to him in this connection.

**NEW MEN WERE WANTED.**  
 Nine new aldermen in the city council at the time of writing is a clear indication of the desire of the citizens for a new deal in civic affairs. The way in which the city business was dilly-dallied with last year, until Mayor Hooker took hold of things, indicated that the aldermen were at least as much to blame as Mayor Geary. Between them however, they managed to do little or nothing. People are aware with acute consciousness that business is not transacted by doing nothing.

**SIR JAMES AND ASSESSMENT REFORM.**  
 We commend to Sir James Whitney the vote on the question whether legislation should be sought to secure assessment reform. It is true that the vote is a popular vote and not one of ratepayers only. But a comparison of the vote on the money bylaws indicates that a majority of at least two to one of the ratepayers, who are landowners, voted in favor of reform. It is impossible for Sir James to continue to assert that no one wants reform. The boards of trade, the manufacturers, the municipalities by hundreds, and now the citizens of Toronto, declare that assessment reform is necessary and wanted.

**THE ADVANCE TIPS.**  
 It is worth noting that the table published by The World on Tuesday morning giving the tips of the six newspapers and the Municipal Improvement Association gave a clear indication of the popular feeling on the aldermanic election. The World summarized these tips editorially and it will be found that only in three instances, out of the 30, was there an error, and one of these gave the correct name as an alternative. This was in the First Ward, where Messrs.

GETTING INTO THE WOODS

Orr and Hubbard were coupled together, and ex-Controller Hubbard was elected. It was only therefore in the Fifth Ward, where Dunn was elected, and Graham defeated, and in the Sixth Ward, where Maybee was elected and Austin defeated that the consensus of opinion was at fault. In the case of the controllers the papers were further off the scent. The consensus called for McCarthy, Spence, Yeomans, and O'Neill or Foster. The result put Spence and Yeomans in the discard and placed the irrepressible "Tommy" Church on the board once more. And considering Controller Church's record as acting mayor in the absence last year of the present corporation counsel, much worse men might sit in his place.

**WHAT'S THE USE?**  
 Ex-Ald. Davies must not consider his vote so much a personal compliment as an expression of the elements of discontent with Mayor Hooker. Mr. Lindale, some years ago polled almost as large a vote in a much smaller constituency. Almost anybody can poll the discontents in any year to as great an extent as Mr. Davies has this year. But is it worth while? Mr. Davies can continue to prove annually that he can be defeated. Surely it can afford him no satisfaction? But the wilful man "mains his way."

**HOW THE PAPERS VOTED.**  
 According to the advice given the electors The Mail and Empire were the most successful counselors. It named three controllers and 16 aldermen on its official slate correctly. The Telegram and The World were more correct, however, from another point of view, being only defeated in three positions each to The Mail's five. The Globe was wrong in eight places and The Star in nine. The News, The Mail, was wrong in five. The Municipal Improvement Association named twenty men and elected fourteen. The Star's partisan slate defeated its object, and incidentally injured James Simpson, who was handicapped by association with Messrs. Ward and Spence. Had The Star been satisfied to support Simpson and McCarthy alone it might have got them elected. The Star was wrong in nine instances.

**Now for the tubes.**  
 Ball did not bow the Wicket.  
 The reputation of Ph.D.'s is now in the hands of Alderman Morley Wickert. J. D. Logan, Ph.D., is watching the issue with keen anxiety.  
 Ald. McBride may thank a ruthless, reckless tongue, for his defeat. He has a good heart and a generous nature, according to general belief, but a man who has constantly to apologize in council for his language must learn to respect the dignity of his native title, even if he has no self-respect.  
 Mr. H. H. Ball made a very encouraging run for a beginning. He was not sufficiently well-known in the older part of the second ward and should not be afraid to try again.

PARCELS POST OFF TO A GOOD START

**Public Showed Decided Appreciation of Innovation in United States—Some Freak Shipments.**  
 WASHINGTON, Jan. 1.—(Can. Press.)—Americans today were using for the first time their newest institution—the parcels post. Reports to headquarters from post-offices large and small throughout the country indicated that the service was being ushered into its usefulness with a heavy day, and that the facilities provided for handling the new business would be taxed to capacity as the public knowledge of it became more general.  
 From all points came reports of "freak" shipments in the new post. They consisted of everything from pitchforks and prunes to paving blocks and live hogs. Under regulations practically every class of merchandise is mailable by parcels post. All mail matter formerly fourth class now goes in the new service.  
 The Globe and The Telegram will claim the credit for carrying the Bloor street viaduct bylaw. We can only claim the credit of educating them to do it. It took several years.  
 Ald. Risk will be a good man for bridgework on the Don.  
 No doubt about it; big eyes are infectious.

A MODERN MIRACLE

**He Had Eczema 25 Years and Doctors Said "No Cure."**  
**Yet Zam-Buk Has Worked Complete Cure.**  
 This is the experience of a man of high reputation, widely known in Montreal, and whose case can readily be investigated. Mr. T. M. Marsh, the gentleman referred to, lives at 101 Desjardins avenue, Montreal, and has lived there for years. For twenty-five years he has had eczema on his hands and wrists. The disease first started in red blisters, which itched, and when scratched became painful. Bad sores followed, which discharged and the discharge spread the disease until his hands were one raw, painful mass of sores. This state of affairs continued for twenty-five years!  
 In that time four eminent medical men tried to cure him, and each gave up the case as hopeless. Naturally, Mr. Marsh tried remedies of all kinds, but he also, at last gave it up. For two years he had to wear gloves day and night, so terrible was the pain and itching when the air got to the sores. Then came Zam-Buk. He tried it just as he had tried hundreds of remedies before. But he soon found out that Zam-Buk was different. Within a few weeks there were distinct signs of benefit, and a little perseverance with this great herbal balm resulted in what he had given up all hope of—a complete cure! And the cure was no temporary cure. It was permanent. He was cured nearly four years ago. Interviewed the other day, Mr. Marsh said: "The cure which Zam-Buk worked has been absolutely permanent. From the day that I was cured to the present moment I have had no trace of eczema, and I feel sure it will never return."  
 If you suffer from any skin trouble, cut out this article, write across it the name of this paper, and mail it with one cent stamp to pay return postage, to Zam-Buk Co. Toronto. We will forward you by return a free trial box of Zam-Buk. All druggists and stores sell this famous remedy. Six boxes, or three for \$1.25. Refuse harmful substitutes.

PLEA FOR ULSTER WAS UNAVALING

**Premier Asquith Declined to Accept Proposal to Exclude Made by Sir Edward Carson.**  
 LONDON, Jan. 1.—(Can. Press.)—An attempt was made this afternoon to insert into the new year vigor into the home rule debate in the house of commons. The members from Ulster responded to the appeal of the northern province of Ireland from the operations of the measure.  
 Sir Edward Carson, in moving an amendment to that effect, pleaded for serious consideration of the question, which might, he said, be vital to the success of the bill and to the constitution of the United Kingdom. It was, he said, a question whether the use of force could be resisted in the mind to drive Ulster out of the constitution under which it desired to remain. Never, he concluded, without the use of force could the Ulster people be compelled to submit to the degradation of a parliament in Dublin which was abhorrent and loathsome to them.  
 Asquith is firm.  
 Premier Asquith followed Sir Edward Carson and immediately made it quite clear that the government would not accept the amendment to the home rule bill.  
 "I would wreck the bill," he declared, as the effect of the amendment would be to exclude several Nationalist counties from the operations of the act. Ireland, he continued, must be treated as a whole on the principle that what was beneficial for the country as a whole, could not in the long run be injurious to any part thereof.  
 The premier asked the Unionists to declare clearly what their attitude would be if the home rule bill in its present form was submitted to the electorate and approved.  
 Abide by People's Verdict.  
 Andrew Bonar Law, leader of the opposition, said that if the bill were put before the electors and they supported it the Conservative party would not encourage resistance to it by the Ulsterites, but if the government attempted to force the measure through against the wishes of the people of Ulster he would heartily assist them in resisting it. Mr. Law said he believed the Ulster loyalists would rather submit to being ruled by a foreign country than by the Nationalists.  
 Winston Spencer Churchill, first lord of the admiralty, who, when he arose to address the chamber, was greeted with loud opposition cries of "no" and "traitor," testified Mr. Law for insinuating that the loyalist Ulstermen would rather be annexed by a foreign country than continue their allegiance to the crown if the bill were passed.  
 On division the amendment was defeated by a vote of 234 to 197.

CASTRO RETURNS ON GERMAN STEAMER

**NEW YORK, Jan. 1.—(Can. Press.)**  
 Having abandoned further effort to gain admission to the United States, General Cipriano Castro, the exiled dictator of Venezuela, spent New Year's Day today in detention at the immigration station on Ellis Island, answered at the hostility shown him here.  
 Castro's wishes to return to Europe by a German steamer will be readied by the authorities at Washington, according to a despatch from the capital, and if there is no unforeseen obstacle the unwelcome visitor will probably sail for Hamburg on Saturday on the steamer America of the Hamburg-American line to find what ever asylum the German Government will afford him.

Troubles of Time

Old Time looks down on London Town with anger and dismay; he fumes and frets while suffragettes still seek their willful way. By throwing bricks and such-like tricks they keep him on the hop; he mops his brow and wonders how or when this thing will stop; so there he stands and wrings his hands, and utters plaintive moans; his old head aches, his scowl-arm shakes, and lame are all his bones. From want of sleep he fain would weep; his face is lined with care; he gets no rest, and sore distress he feels a dull despair. In days when man this old world ran Time foreknew what would hap; a glance he'd cast at records past, then he'd go and take a nap. Now women-folk man's galling joke in false male's teeth have cast; so Time must strive to look alive all year from first to last. He hates his job; it makes him sob; with weariness of soul he dips his pen as if he were a dull despair. He scribbles all the day with ancient, shabby flats—and "Suffragettes" this year he sets atop of all the list. The foremost place and lots of space he gives them in his notes; he has no clue to what they'll do this year in quest of votes. He vaguely dreams of wild extremes to which the tribe might go, but on the plan they'll tackle Man old Time no light can throw. They jar his nerves with all the curves they've added to the game; still they began, the race of man he'd acted much the same; thru all the days men's moves and plays Time gazed astart from the start, but womenkind he grieves to find, have dumped his apple-cart.

\$250,000 FIRE IN KANSAS CITY.

**KANSAS CITY, Mo., Jan. 1.—(Can. Press.)**—Fire in the wholesale and office district this morning resulted in a property loss aggregating \$250,000. The fire originated in the New York life building annex. The centre tier of offices on the east side of the main building, exposed to the flames after their contents destroyed, were charred and their contents destroyed. In most of these offices, occupied by attorneys, valuable law libraries were burned.

ALASKA'S MINERAL OUTPUT.

**WASHINGTON, Jan. 1.—**The mines of Alaska produced \$31,850,000 during 1912, of which \$16,650,000 was gold, and since 1890, when mining was first begun there, the territory's total production of minerals has been valued at \$223,000,000. In its annual report, mentioned important development work in copper finds and new discoveries in gold.

BRANTFORD COURIER CHANGES HANDS.

**BRANTFORD, Jan. 1.—(Special.)**—A change in the ownership of The Brantford Courier went into effect today. A joint stock company, headed by W. F. Cookshutt, M.P., and W. S. Brewster, M.L.A., and others have acquired control. The change marks the retirement of R. H. Reville as business manager, while F. Douglas Reville will continue as editor.

 War Against War.  
 The idea of a strike against war, for many years a subject of conjecture in Europe, was given a trial in France the other day. It did not work. The general strike called in France for last Sunday was quickly broken by the power of the government. So far the republic's military prestige is untouched. This strike was organized for the particular purpose of protesting against France's possible participation in the Balkan difficulty; it may also be looked upon as an interesting experiment in general. Some day we may hear of a widespread war in Europe, but evidently the time is not yet ripe for such a demonstration.

PROVERB CONTEST CLOSED WITH RUSH

Continued From Page 1.

In the outlying districts—are still pouring in. No estimate of the actual number of proverb sets has, as yet, been arrived at. In fact, there has been no time to count them, or even think of counting them. The clerical force of the contest department, which by the way was augmented from time to time, was taxed to its utmost in waiting upon the thousands of contestants who called at the office of The World, daily, for extra back coupons, and in filling the flood of orders that were received by mail from the day the last proverb picture was published, and up to within a few hours of the closing time.

The first picture in the contest was published on Thursday Oct. 3 last. The last on Monday, Dec. 16 last. There were seventy-five proverb pictures in all, one appearing in The Toronto Daily and Sunday World each day during the intervening time.

After the seventy-fifth proverb picture had appeared, it was decided to extend the time for depositing and mailing answers until the last day in the year, on account of the Christmas holidays and the delay in reaching outside of Toronto contestants promptly with current issues of The World containing the proverbs. This extension of time also gave competitors ample opportunity to carefully review their work, write their solutions and deposit or mail them without confusion or hurry.

The extended time proved a boon to everyone in the competition, for the holiday season, which is looked forward to and enjoyed by everyone, would have made it difficult for the great army of competitors to have completed their work on time with any satisfaction. This is further borne out by the fact that but very few answers were deposited or received during the first week of the time limit for sending in answers. In fact, the great bulk of proverb sets did not begin to come in until the first day after Dec. 26, and from that time on they poured in, in tremendous quantities, and kept on coming in up to the last moment of the time scheduled for the closing.

Several huge sacks were received yesterday, and there are still several thousand sets to come from the post-office today. As fast as the proverb sets are received at the office of The World they are promptly opened and locked in the fire-proof vault in the basement of The World building, where they are constantly under guard, day and night.

That the contest has proved itself one of the most popular and gigantic features ever conducted by a daily newspaper in Canada is fully attested by the many new readers it has attracted to The World, and the great mountains of proverb sets that have been received. From the very first announcement concerning the competition, the public in general displayed intense interest, and as the contest progressed it grew to unlimited bounds throughout the entire period. Everyone who had entered always had a good word for it, and one never heard a word against it.

Contestants who followed the competition thru to its close, and the number who did not are few indeed, have done their work well. Errors and careless mistakes which so often predominate in a feature of this kind were practically eliminated. So far not a single set of answers has been returned in a feature of this kind with the rules of the contest. But while the contestants have finished their work, an arduous and laborious task now looms up before the contest manager and the contest department. It is the examining, classifying and filling of the many thousands of sets of answers. The work, however, of carefully and properly handling the answers, together with the announcing of the judging committee, will be begun at once, and contestants must watch The World closely if they desire to keep informed as to the manner in which the work will be done.

So gigantic is the task that new quarters in which the examination is to be conducted, is now being arranged.

TORONTO PREPARES FOR A MILLION

Continued From Page 1.

\$2,221,760, which will be based on a structure 88 feet in width in common with the widening of Danforth avenue. There will be the suitable driveways and boulevards and facilities for street cars. Underneath this driveway provision will be made for the construction of the tubes. Under the present proposed plan it is understood that the viaduct tubes will be constructed as elevated branch running east to Sherbourne st., thence across to Danforth avenue by way of the viaduct. This means rapid transportation from the centre of the city to the outskirts thru the elimination of the impediments caused by the vehicular traffic.

More Good Roads

The acceptance of the good roads by-law means increased transportation facilities for the market gardeners and farmers living in the immediate vicinity of Toronto, with a consequent opening of profitable produce. The money is urgently needed by the good roads commission, which estimates that the work under way could be accomplished without any further assistance, but in order to have a system of roads which are "good" in every respect, the commissioners have had to lay out an increased expenditure of \$2,221,760. Debentures amounting to \$2,221,760, making in all \$2,438,500. Work will be commenced in due course.

Assessment Reforms

No question is of greater importance to all phases of commercial and private life, at this time, than that of the assessment of property. The attention of politicians, municipal, provincial, and federal, of all shades of opinion, is directed to the question of the assessment of property. The assessment of property is a matter of great importance to the people of Ontario. During the last session of the provincial legislature, A.A. Ellis, M.L.A., for Ottawa, and N. W. Rowell, leader of the Liberal opposition, introduced a bill which would amend the Assessment Act so as to provide for a more equitable and just system of assessment. The bill was passed by the legislature and is now in force. It provides for a more equitable and just system of assessment, and is a great benefit to the people of Ontario.

Money For Hospitals

Continued From Page 1.

No local organizations deserve the support of the municipality more than the Sick Children's Hospital and the National Sanitarium Association, and the passing of the by-law granting them \$250,000 and \$200,000 respectively, will help to place them in a position to meet the demands upon their resources. The \$200,000 to be given to the National Sanitarium Association will probably be utilized in increasing the number of beds in the hospital, and the \$250,000 to be given to the Sick Children's Hospital will be used for the purchase of land for the construction of a new hospital building. The passing of the by-law is a great benefit to the people of Toronto, and is a great credit to the city council.

"I Sleep Soundly, Feel Like New."

All Who Lack Vigor, Those Who Are Dispirited and Worn Out, Should Read This Carefully. Proof That Health and Renewed Vitality Quickly Return When Right Remedy is Used. "I am only thirty three years old, yet for almost two years I have felt more like seventy-five. I have found it difficult to sleep at night, and in the morning I felt so depressed and heavy that I could not get up. I was unable to do my work, and I was a great deal of trouble to my family. I had heard of Dr. Hamilton's Pills, and I decided to try them. I took a box, and I feel like a new man. I sleep soundly, and I am able to do my work. I am very grateful to Dr. Hamilton's Pills for what they have done for me. I can recommend them to anyone who is suffering from the same troubles as I was. They are a great help, and I feel like a new man now." —J. E. Parkhurst, a well-known grocery dealer in Jefferson, Pa.

PROVERB CONTESTANTS WATCH The Daily World Closely For Instalments of the Correct Proverb Answers

DARING BURGLARS STEAL JEWELRY

The intention was to poke the umbrella thru a small hole in the plaster, causing it to open when once thru. Thus all the plaster would fall when the hole was enlarged, right into the umbrella and make no noise on the floor. Failing in their purpose the burglars were signalling the New York. The remaining plaster was knocked off in small pieces so that it did not make much noise on the floor. The robbers passed thru the hole onto the top of a showcase. They descended to the floor and then began operations on the showcase. The one chosen for the robbery was situated near the Yonge street window. It was carefully plastered with heavy typepaper. After wrapping a miniature canon in an evercoat, the robbers struck the glass below the typepaper. The glass broke, but none fell. Instead it stuck to the fly paper. About 72 diamond rings were taken, in addition to other jewelry. The robbers made their getaway in the same manner as they came. Mr. Scheuer did not discover the robbery until 3 o'clock yesterday morning, when he immediately informed the police. The fact that these items were taken happened to be over the show cases demonstrated at once that the

GREAT GERMAN PROTECTING AND POWER DAM.

A great dam has been built at Meuser, near Hirschberg, in Silesia, Germany, to shut off a valley, the waters of which caused much loss and danger during flood times, and to impound a supply of water sufficient to provide the greater part of Silesia with hydro-electric power. Work on the dam was started eight years ago. The value of steel exports of the United States, according to the government statistics, now amounts to a billion dollars a day.

**EMBROIDERED NEGLIGEE.**  
The garment sketched has a fascinating white and gold effect. Cream white silk was used for the waist and skirt, while the sleeve bands and skirt flounce are of pale gold-colored satin. The embroideries are worked in simple stitches with gold-colored silks, and narrow bands of old gold velvet between cords covered with the satin are used on the shoulders, front and skirt. Loops of the same satin-covered cord ornament the front, and a gold gauze ribbon is worn in the hair.

MONTREAL, Jan. 1.—(Can. Press.)—With the words, "Blessed be God, blessed be His holy name," on their lips, and the host raised by the hand of their archbishop in benediction over their heads, a congregation of over 13,000 persons ushered in the New Year at Notre Dame Church last night.

**BIRCH—MEEK.**  
KINGSTON, Jan. 1.—(Special.)—The marriage took place tonight of Miss Mabel Meek, daughter of Robert Meek, secretary-treasurer Oddfellows Relief Association, and George Birch, Fort William, formerly of this city. Rev. G. I. Campbell officiated.

**WOMEN POLICE OFFICERS IN ST. PAUL.**  
ST. PAUL, Minn., Jan. 1.—Mayor H. P. Keller announces the appointment of five women as regular members of the St. Paul police department. They are Mrs. Margaret Kelly and Mrs. William Moore, who were appointed in accordance with a recently enacted city ordinance. The two policewomen assumed their new duties last night by watching the old year out at the dance halls, where the authorities claim young girls are surrounded by bad influences. They will report what they saw to the mayor, as they have no authority to make arrests.

**THE PRIZES.**  
For the best letter—A lower box for Mr. Loraine's performance in "Man and Superman" at the Princess Theatre.

**THE QUESTIONS.**  
Here are the questions to be asked or discussed in your letter:  
"Is Mr. Shaw justified in claiming there is so much sham about society?"  
"Do girls entice men into marriage rather than risk single life?"  
"Do mothers, in thinking so much of their children's future, neglect proper consideration of their own interests, and thus give the future happiness of their children?"

**THE RULES.**  
All letters will be considered and the prize winners will receive a lower box for mail. The World reserves the right to publish, in addition to the prize winners, any letter that may be of interest. Limit your letter to 250 words. Write your letters plainly and distinctly on one side of the paper. Do not use your name and address. Bring or mail them at once to the "Man and Superman" Essay Editor, Toronto World.

You will receive presents and, if in employ, advancement. Do not take risks with anything of much value for the signs of change games are against you. Those born today will have intelligence and energy. They will not spare themselves in their efforts to advance and will usually win the goal. They will be inclined to run to extremes, and should be associated with those of moderate and self-controlled minds.

**THE BISHOP OF TORONTO**  
The Bishop of Toronto and Mrs. Sweeney held a reception yesterday afternoon at See House, where they were assisted by the bishop and Mrs. Reeva, the Archdeacon Inglis, Coadjutor and Canon Dixon. Mrs. Sweeney wore black lace and silver over white satin, and Mrs. Reeva, gray with white lace, and a black and white plume. The decorations were all in crimson and green, and the girls assisting were the Misses Dorothy Tate, Dixon, Crinkshaw, Inglis and Clegh.

The American girl and the American mother of today are just the same mother and daughter of all ages, and deep in the heart of the mother will be found that desire for the greatest happiness of her child, whether for her to be found in the classroom, consoling the sick in our hospitals, or in the deeper, quieter joys of married life.

**CONVENTIONS AND SHAMS.**  
Bernard Shaw is right about society and its shams, if he means those conventions of thought and conduct which are ordinarily termed ideals. Most people believe that truth, beauty, goodness, etc., have a sort of divine validity, fundamental and absolute; but impartial thinking has discovered that these and other ideals have no agreement of society as to what is the good in beliefs, manners and morals. In other words, they are simply conventions—and shams, insofar as they pretend to be anything more.

**A READABLE ATTACK.**  
George Bernard Shaw was nothing if not wholehearted. He never believed in half measures. In his "Man and Superman" he makes a very readable, if greatly exaggerated, attack upon modern social life. It is, like some novels, founded on fact, and like them, is stranger than most fiction, for it often wonders how Shaw impressed people personally. He must have been an utter bore. He was so very right, all ways, and others so very wrong.
