DR. ROBINSON, TAMWORTH, TELLS OF BLANCHE YORKE'S DEATH... DOCTOR CHARGED WITH MURDER... SAYS WOMAN DIED IN HIS ROOM

Blanche Yorke Died of Hemorrhage, Says Dr. Robinson in His Own Defence, and Then I Lost My Head and For a Time Didn't Know What Happened.—Tried to Cover It Up by Dissembling and Burning or Burning the Body.

Dr. Robinson's Own Story Of Blanche Yorke's Death His Mind a Blank After He Saw the Girl Was Dead and He Could Hardly Tell What Happened.

By a Staff Reporter. TORONTO, Ont., March 3.—Dr. C. K. Robinson of Tamworth, charged with the murder of Miss Blanche Yorke last night in the witness box in his own defence here today and confessed that the woman died in his bedroom about 1.30 on the morning of July 31 that he subsequently lost control of himself, and after attempting to conceal all evidence of her death, cut off the legs and buried the body in the cellar of his house.

To Mr. Robinson's preliminary questions Dr. Robinson stated that he was 25 years of age when Blanche Yorke died, at his home in Tamworth, and that he graduated from Queen's University, Kingston, in 1912. Upon graduation he immediately entered a hospital in Ottawa, where he served four months. Next he went to the Kingston General Hospital, where he practiced for nine months. From Kingston he went to the Algoma district, and he put in six months in a lumber camp. He opened practice in Tamworth in the month of January, 1914. The doctor said he was married and had one child. On the night of the death of Miss Yorke his wife was in Kingston, where she was receiving treatment for an ailment.

"Do you know Blanche Yorke?" asked Mr. Robinson. "Yes." "Had she been to see you before July 31?" "Twice before." "Did you give her any treatment?" "Yes, for stomach trouble." "On July 31, did Blanche Yorke come to your office?" "She came there about 8.15 p.m." "Did you give her any treatment?" "The doctor answered this question by making a general statement of the whole affair.

"I stayed alone with her, trying everything in my power to save her life, but she became unconscious and died in the night, without the young doctor in the witness box." "I told the court he had used no instruments whatever on the girl." "On the morning the court was packed to capacity, but at noon, when the large crowd refused to leave the building during the intermission, each in fear he would not be one of the lucky ones to reach admission, Mr. Justice Sutherland, who was seated on the bench, and after a long wait, he was admitted to the court that he was completely unimpaired.

"When I saw the patient, I felt an car hard to tell her she was dead. I felt as if I weighed pressing me down. I can hardly express my feelings. I came to myself sitting on the floor. I realized I was alone in the house with a dead woman there before me. I thought of my own position in the matter, in my endeavor to help that woman.

"The question then came to me, what should I do? Something seemed to tell me I must conceal all that evidence of there would be an enquiry into which my name would figure. I considered my reputation and my practice. I commenced to consider all the evidence of pregnancy, I am not clear what happened after that for several hours. I know that I carried the body downstairs and concealed it in the cellar. The idea came to me that I must get rid of that body, and without knowing just why, I started to cut it up. I only cut off two of the limbs when I realized it would be futile and went upstairs again to try and get rid of what was left. I worked all that night trying to clear things up, and not until morning did I realize what a foolish thing I had done, and that from which I could not get back, and then on I tried to conceal all evidence of what had taken place. I had to deny everything. My whole life was a lie. I might have stayed there, but I went away on July 16."

Letterhead Found. A new and startling piece of evidence introduced in the morning was that of Provincial Inspector William Greig, who testified that he had seen the letterhead of Dr. Wilson of Tamworth between the bodies of the mother and child where they lay buried in the cellar.

Everybody, even Defence Counsel Robinson, was surprised at the announcement of this strange circumstance. After wards admitted to the court that the introduction was the first he had heard of its existence. Dr. Robinson said he before and never had one of Dr. Wilson's letterheads in his possession.

Defence Counsel Robinson and Hamilton put in the witness-box two expert surgeons who backed up practically every detail of Robinson's surgical proceedings over the dead girl. The court was visibly impressed by the practitioners' emphatic statements that his treatment and the operation was regular in every particular, and that if the conditions he said existed had been such that the operation might easily have been un-successful with any physician.

Referring to Dr. Robinson's statement that he was completely unimpaired by the girl's death, Mr. Robinson said Dr. J. W. Campbell of Kingston had imagined words to the mental condition of a physician after an operation and falling in the treatment administered by Robinson.

"Well, as near as I can imagine, it was getting pretty close to hell itself," was the startling and emphatic reply. "It was nearly 4 o'clock in the afternoon when Mr. Robinson called Dr. Robinson from the prisoner's box to testify in his own defence. Owing to the crowd at the outlet of the dock, Robinson had to climb a little railing, and the only limb leaped over it and landed conveniently into the witness-box.

"What do you know about the Wilson letterhead being with the body?" "I don't know anything about it, never had a Wilson letterhead in my office, nor did I know anything about it until it was presented in court." "Then it did his counsel, interrupted Mr. Robinson.

Severe Examination. Prosecutor Hurstson put Dr. Robinson through a severe cross-examination for three-quarters of an hour, but did not make the physician in any way contradict his previous statements in the witness-box.

Robinson: "About half an hour." "Do you do you account for the fact that he after she had left your office first?" "I tried to do it," continued Robinson, "and resorted to the usual physical process of stopping the flow of blood to make the blood clot. I waited a little while to see the effect of my treatment, and this time the drug did not seem to take any effect. At the end of 20 or 30 minutes I removed the first packing and another investigation showed me that the uterus was getting larger all the time. I made further investigations and found that I had an abnormal condition to deal with, that of a placenta previa. Immediately I realized the girl was in that condition I saw it was necessary to give quick treatment. This I did by means of stimulants and then proceeded to get ready for possible emergencies. I removed the gauze again and found that the case was progressing. About 20 minutes after the third packing had been removed she began to bleed so badly that I discovered it was necessary to interrupt the case and give even quicker treatment. It meant that I had to get that child away from the woman, right away or it would mean that she would bleed to death. Had I had assistance at the time or been in a hospital I might have used instruments." "Did you use as a matter of fact instruments?" asked Mr. Robinson. "The instruments I could not name were my fingers.

"I put her under an anaesthetic and proceeded to dilate, and with my finger I saw the child. The child was very difficult, but I had to go ahead and work as best I could and use considerable strength to deliver the child. I found it absolutely necessary to do that to save the girl's life," asked Mr. Robinson. "Yes, or I would not have attempted to do it."

KRASNA BATTLE PROVES FIERCE... RIVER PASSAGE FORCED... Firing and Bayoneting as They Went, Russians Crossed Lonnitza.

Special Cable to The Toronto World. PETROGRAD, March 3.—News of an additional severe check of the main Austrian army in East Galicia was given out in Petrograd today by the Russian war office, which reported the capture of 3000 prisoners, including 14 officers and 100 pieces of artillery, at the village of Krasná, in one day, and said that the operations were being continued. The Austrians were defending the passage of the Lonnitza river, but the Russian troops, steadily fighting, forced a crossing and captured an Austrian detachment. Besides prisoners, artillery and rapid fire guns, the captives took a large quantity of regimental and divisional trains.

Two German companies, 500 men, were developed and annihilated in the fighting round Kozulowitsa, between the Rukawa and the San Ribers. Formerly held by the Austrians, the Rukawa and Germans in this area, were completely repulsed. The general advantage continues in the north. The Russian army continues to press by assault the village of Kerlen, on the left bank of the Amoulet river. The general advantage continues in the north. The Russian army continues to press by assault the village of Kerlen, on the left bank of the Amoulet river. The general advantage continues in the north. The Russian army continues to press by assault the village of Kerlen, on the left bank of the Amoulet river.

RUSSAINS HOLD THEIR OWN. Canadian Press Despatch. LONDON, March 3.—The Russian determination to relieve Przemyśl and drive the Russians out of Galicia, the Austro-German armies, which for some weeks have been on the Gollan side of the Carpathian Mountains, have during the last few days made repeated attempts to break through the Russian entrenchments, but without success.

Large Losses Sustained. No estimates have been published of the losses sustained by the Germanic armies in their efforts to break through the Russian lines at these places, but they are believed to have been very heavy, and the Russian positions were almost impregnable.

DEAD FRENCH AVIATORS HONORED BY COMRADES. Aeroplane Fleet Flew Slowly Over Cemetery During Burial.

Canadian Press Despatch. CHALONS-SUR-MARNE, France, March 3.—(Via Paris, 5.45 p.m.)—A fleet of aeroplanes, many of the machines driven by the better known of the military aviators in this region, flew slowly over the cemetery at Lappe today during the burial of Lieut. Mouchard and Sapper Maillard. The two men were killed when their aeroplanes caught fire and fell. The accident occurred during the night patrol, and the flames from the burning aircraft were seen for miles. The fact seems to be that the Russians are advancing along the whole northern line, but very slowly because of the mud which impedes the movement of guns and transport wagons. They have been able to reinforce their armies in every direction and are now considered to be in as good a position as the Germans, who have left their railways behind them.

King Found Navy Eager To Meet Kaiser's Fleet

LONDON, March 3.—(11 p.m.)—King George, on his return from a visit to the fleet, sent a message to Admiral Sir John R. Jellicoe, in which he said: "I have been on representative ships of all classes and am much impressed by the state of their efficiency and the splendid spirit which animates both officers and men. I have not the slightest doubt my navy will uphold its great traditions."

ALLIE FLEET HOLLY ENGAGED WITH STRONG TURKISH FORTS

Three British Battleships Hit Before Guns of Fort No. 9 Were Silenced, But British Casualties Were Slight—"Attack Progresses," Says Admiralty—Progress of Two Miles Thru Straits Reported—Seaplanes Landed Mines.

Canadian Press Despatch. LONDON, Thursday, March 4.—12.25 a.m.—The admiralty late last night issued the following report, regarding the bombardment of the Turkish forts by the Anglo-French fleet.

Three Ships Hit. "A further report received states that on Tuesday the Canopus and Cornwallis engaged Fort No. 3. A heavy fire was opened by Fort No. 3, together with six batteries and howitzer, against the Canopus and Cornwallis. Fort No. 3 was damaged and three ships were hit by the only casualty was one man slightly wounded. "Seaplanes reconnaissance was impossible because of the weather; the mine-sweeping operations were continued throughout the day. The attack progresses.

Clara Morris Says

THAT AN AMERICAN'S MANIA FOR TITLES IS A STRANGE MYSTERY

AMONG feminine fads we frequently find love of uniforms and of titles bracketed together, when they are really pole-wide apart. One deals with the present, the other with the past.

The woman may reason: "Here are men who have submitted to strict discipline, who can obey or command, who can make themselves respected, and are ready to fight at the drop of the hat for country, love and honor."

A steady diet from the 13th to the 16th year of sensational novels of "The Dairy-Maid Duchess" and "Lady Audley's Secret" type, will bring a pretty and vain girl to such a point that a "strain of music from heaven's own choir could not thrill her as a dumpy's "my lady" would do.

But who can explain why an American woman-born and bred in a republic that has no aristocracy, no nobility, no gentry, no classes (?), who had "liberty and equality" blown in the glass of her feeding bottle—should become obsessed with the desire of bearing a title?

A coronet! Strawberry leaves, balls or plain circlet—of all the dead-sea fruits, not one is so beautiful, so costly and so gritty and bitter of ash as you are. For a sneering, elderly rake, with a title, this obsessed girl will throw Cupid out of the window by his wings, give up country and fortune, as fair payment for the right to pass from a room ahead of some other woman, even though she must herself yield the "pass" to one of higher rank, and to break out in coronets over all her personal belongings.

Edith's "A Strange Riddle of a Lady" describes perfectly the American title-hunter.

The HANDS That PART THEM By Michelson

THEY don't want to be parted, and nobody is there to say they must part. But, all the same, they are forced to part by two hands that have been very quietly and stealthily preparing to do this very thing—the hands of the big clock.

They are only one consolation—they are the same hands that beckon you back again!

Secrets of Health and Happiness

Why You Use Only a Few of the Words You Know

By DR. LEONARD KEENE HIRSBERG A. B., M. A., M. D. (Johns Hopkins)

ALL men think all men mortal but themselves. All men see that other men live in glass houses, but refuse to see the permeability and fragility of their own. Man with an exalted sense of his own rightness becomes pathologically aware of his neighbor's, his competitor's, his rival's, his enemy's shortcomings, yet remains wholly convinced of his own pure motives and eternal virtue.

Most of these illusions are the result of that All DR. HIRSBERG. Baba's cave of jewels and cross called memory. Memory is both the prisoner and the warder of a man's outlook. The memory of the just is blessed, but where is there such a person? The memory of most human creatures is

Psychological laboratory experiments have of late been directed more and more toward an analysis and understanding of memory. Most persons realize that there are more elements to memory than words and recollection.

Mr. Garry C. Myers, an eminent student of psychology, has just unraveled another one of these tangled skeins of the intricate and complex web upon which recognition and recall as related to human remembrances as subjects of his investigation. Mr. Myers used 254 high school students as subjects. A number of words were spoken to them as if for a spelling test, and half an hour later they were asked to recall the words.

Dr. Hirschberg will answer questions for readers of this paper on medical, hygienic and sanitation subjects that are of general interest. He will not undertake to prescribe or offer advice for individual cases. Where the subject is not of general interest letters will be answered personally, if a stamped and addressed envelope is enclosed. Address all inquiries to Dr. L. K. Hirschberg, care this office.

Dance the Old "Folk Dances" to Give You Average Weight

By LUCREZIA BORI, Prima Donna of the Metropolitan Opera Company, New York.

OF course you know that many of us throw away the opportunity to become beautiful because we are too lazy to exercise. Do you like to take a broom and vigorously sweep a room to gain much-needed exercise? Probably you don't, yet there is nothing better than dancing to produce strength, grace and symmetry of form.

There is, however, one form of exercise which the modern woman welcomes with smiles—dancing. Play a rollicking foxtrot or a one-step, and the will dance in the morning, afternoon or evening.

What is more, she will never appear faded from over-exercising, even though she becomes healthfully tired at times. She is always flushed and happy with the exercise.

There is nothing better for sluggish circulation than dancing. You are forced to breathe deeply, which means that you get more oxygen to the muscles being brought into activity, you will gain a freedom and grace heretofore unobtainable of. By all means dance, and dance often.

Refreshed and equal to the most strenuous social or household activities. It is always more pleasant to do the folk dancing in company, for there are many figures that require four, six or eight persons to dance them. You will find plenty of friends who will become enthusiastic over this form of exercise and will be glad to form a class.

A Bride's Own Story of Her Household Adventures

By ISOBEL BRANDS

SUNDAY night supper is a "necessary evil" in most families. I've known the ghost of the midday banquet stalk forth in the shape of cold sliced meat, warmed-over vegetables thinly disguised, and unwhomlike canned fruit, hastily annexed from the pantry. Nobody anticipates with much pleasure Sunday night's meal, and everybody eats from force of habit rather than anything else.

Here is where Aunt Juliet's scheme scores. She never has a heavy midday dinner Sunday. It's just a light luncheon, because her really heavy meal of the week is served Saturday night, and Sunday is a light cooking day.

When I prepared the meat dish, aunt spent about half an hour over the chestnut puddings. This is made by boiling large chestnuts for about 10 minutes until their coats come off easily. Then the peeled chestnuts are put into boiling water again and cooked until tender, when they go through the ricer and get mixed up with powdered sugar and raspberry juice from the can of preserved raspberries. Then they are mounded and topped with whipped cream, on top of which are a few preserved raspberries.

"This is a positive feast of a Sunday night supper," remarked Bob appreciatively as we sat down. "Don't you think, though, that you're encouraging Bubbles in elaborate menu habits?" he asked Aunt Juliet with mock caution.

PETER'S ADVENTURES IN MATRIMONY

By LEONA DALRYMPLE

Author of the new novel, "Diene of the Green Van," awarded a prize of \$10,000 by Ida M. Tarbell and S. S. McClure as judges.

MARY writes Hugh: I TELEGRAPHED that we would be home that day. Then Mary wrote a note to Hugh, her cheeks flushed hotly with color. She wrote and rewrote, to a up innumerable sheets of paper, and finally, with trembling hands, held out the sheet to me.

"I don't want to read it, dear," I said. "It's quite enough for me that you're willing to write it."

"But I want you to, Peter," she said with a sob. "I do want you to read it. There's something in it that I couldn't say before, even to you, for I didn't realize it myself."

I took the sheet of paper and read: Dear Hugh—I am going home with Peter. When it came time for me to tell him that I was going to live apart from him until I could get a divorce, it came over me with dreadful vividness what life without him would be, and I couldn't. Hugh, I couldn't. I don't know what this feeling for you has been, but when the test came I knew that I really loved Peter best. Forgive me, MARY.

Today's Fashion

Frock of White, and Black and White Silk. Crole beef, Celery Olives, Raspberry chestnut pudding, Lemonade.

MANY of the latest dance frocks are a combination of striped and plain materials. In the frock pictured here the bodice is of plain white silk trimmed with lace, and the skirt is of black and white striped silk.

Advice to Girls

By ANNIE LAURIE

DEAR ANNIE LAURIE: I am writing to a boy who has gone from town to take a position of considerable danger. At one time I thought he cared for me, but I did not treat him well, and lately he has been going with another girl.

Y ES, I'd tell him now that I thought about him and worried about him and wished he was back. I wouldn't be foolish or rushing or emotional about it. I'd just be sincere and honest and friendly, and see what would happen.

DEAR ANNIE LAURIE: I am 16 years old, and I am very much in love with a fellow two years my senior. We are separated at present, and he writes me devoted letters most every day. A member of my family has upset me very much by telling to convince me that he doesn't love me, because he

Three Minute Journeys

By Temple Manning

WHERE "HOOPING THE HOOP" IS A FAVORITE SPORT.

THE other day I went to a vaudeville show and saw a slack-rope walker take a large grooved hoop, that looked as if it had been taken from a wagon wheel, and win great applause by propelling it along the rope with himself inside. The performance took me back to a scene I had witnessed in South Africa.

Along the dusty road one day I saw three wild-looking objects hurtling along the ground. They were too far off for me to tell precisely what they were. They looked more like huge hoop snakes with their tails in their mouths, rolling along than anything else I could recall. But when they came nearer I discovered my mistake.

They were three Kaffir boys racing in the game of "hooping the hoop." From contorted military postures they had taken the iron tires. Standing inside the broad bands of metal, propelling them along with hands and feet, they stepped forward with their feet in the metal bands and their hands working like mad pistons above to propel the hoops onward. In three clouds of dust

THURSDAY MORNING, MARCH 4

Where Are the Watch Dogs?

A bill has already gone thru the railway committee of the house of commons which if made law by parliament will be severely detrimental to the welfare of Canada.

Before the committee it was contended that Canada now has no jurisdiction over ocean freights. Some of the members of the committee denied this assertion; it is not a bad policy to assert that you have no jurisdiction where your own interests are concerned.

Outside of The World and the Telegram very little attention was paid to the proceedings in question. More space was given to the shoe scandal, which will be forgotten in a year, than to this stupendous proposal, which will be the heaviest yoke ever imposed on our future.

It was also pointed out that inasmuch as the government had proposed last session to take jurisdiction over securities issued by our railroads, the bill should not be allowed to go thru until that proposal of the government could be made law; and if the government had decided to hold their bill over for a session it was suggested that the Canadian Pacific also suspend its bill for another session.

The World directs the attention of the public and especially of the farmers of the west to this situation. What does the president of the board of trade of Toronto think of the proposal; and what do the millers of Canada think of this proposal; and what do the farmers of the west think of it; and what do the other papers of Toronto think of it? It certainly is worthy of consideration from them all.

the negative if not actively hostile attitude adopted by many towards the war is distinctly injurious to the country, whether considered as a part of the empire or as the guardian of a developing population with national aspirations.

We do not believe the reluctance to enlist is as great as some critics charged last year. There are more men offering than the authorities are able to accept. It seems a pity that those who desire to do so could not be offered facilities to join Kitchener's army in Great Britain.

A recent visitor from a border city of the United States is responsible for the statement that the influence of German spies there and of the pro-German press has been sufficient to turn a pro-British feeling of six months ago into a pro-German feeling today.

A state of war means a more or less precarious condition of the national existence. It is bad enough to be apathetic thru over-confidence, but to be apathetic thru indifference or sympathy with the enemy is a crime, which, rendered specific, is treason and punishable with death.

The Germans who are among us trying to subvert our institutions and laws have no fine-spun scruples and no illusions, and they would not hesitate in Germany to condemn any Britisher whether his sympathies were keen or slight.

To the Succor of France In his review of the financial situation consequent on the heavy liabilities to which the war has committed the allies, the imperial chancellor of the exchequer made an appreciative reference to the part taken by France between its outbreak and the date on which he spoke in the house of commons.

FURTHER EFFORTS AGAINST TAVERN

Request Made to Hon. W. J. Hanna by Delegates From Kent County.

ALREADY BEEN NOTED

Assurance Given to This and Another Deputation From Dover.

Kent County regards Hon. W. J. Hanna as a special protector of the country as far as temperance measures are concerned. A deputation waiting on him yesterday bore the unqualified thanks of several townships for the excellent administration of the license law.

The place is known as the Mitchell Bay Hotel and was designated as a "caterer for young men" and "a disreputable place." The delegates claimed that it catered to young men who were ashamed to get drunk in their own homes.

"This place has already been noted for special attention," said the minister significantly, "and not, sure that you appreciate just how far that goes."

Dover representative then stepped forward and presented the thanks of the whole community to the deputation for their enforcement of the license law.

ALL MINOR CLAUSES OF TORONTO'S BILL PASS

Incorporating of Municipal Loan Association Only Matter Calling for Discussion.

The Toronto City Bill received the consideration of the private bills committee yesterday and all the minor clauses were passed without serious amendment.

The Toronto City Bill received the consideration of the private bills committee yesterday and all the minor clauses were passed without serious amendment.

BURLINGTON HOTELMAN SUMMONED BY DEATH

William J. Brush Served on School Board and Water Commission. BURLINGTON, March 3.—William J. Brush, 53, proprietor of the Queen's Hotel, died this afternoon after an illness of several months.

STORM CALF USED IN LATER ORDERS

Some Shipments to Valcartier Not Inspected—Two Thousand Pairs Rejected. Canadian Press Despatch. OTTAWA, March 3.—W. Brown, director of militia contracts, was again on the witness stand at this morning's session of the parliamentary boot committee.

Mr. Brown stated that a short date of delivery had been given him. In these later orders storm calf had been asked for in every case and had been furnished.

Mr. Brown stated that out of 175,000 pairs of boots ordered altogether, 5000 pairs had been ordered in Winnipeg by Acting Minister J. D. Haza, the 13,226 pairs furnished by the Hart, John McPherson, and Amherst shoe companies had been sent direct to Valcartier without inspection, and that the total number of pairs inspected outside the factory had been 4,177, and 2013 pairs of boots in all had been rejected.

Mr. Brown stated that it would be almost impossible to manufacture the British boot in Canadian factories. R. A. Pringle, K.C., said he desired to put on file the report of the United States army boot experts who had decided on a light army boot.

Mrs. Wisenighbour Says:—

"I should have told you the other day, when I was speaking of 'Eddy's' Washboards, that it is just as necessary to have an Indurated Fibreware Tub to hold your clothes if you want to make a success of washday."

Mrs. Newlywed Says:—

"I've heard of Eddy's Indurated Fibreware. What's the difference between fibre and woodenware?" "Fibreware is made from compressed fibre, baked at extreme heat. All in one solid piece, it cannot warp or fall apart. No chance of splinters. Wears much longer, looks better, and is light to carry. The letter point you should always take into consideration," concludes Mrs. Wisenighbour.

DEPUTATION URGES SUPPORT FOR ROAD

New Highway to Be Known as Sir James Whitney Memorial.

MAKE IT BOULEVARD

Proposed Road Would Benefit Farmers and Run From Ottawa to Morrisburg.

Urging government support for a new highway, to be known as the Sir James Whitney Memorial road, running from Ottawa to Morrisburg, a large deputation obtained a hearing from the Ontario Cabinet yesterday.

The new line they wished to form a link with the transprovincial road running east and west, and they desired to make it after the style of an American boulevard. The length would be 45 miles and the government contributions would reach \$250,000.

It was claimed that farmers in Dundas, Stouffville, Russell and other eastern counties would benefit to a great extent in gaining access to markets. Municipalities, including Ottawa, were quite willing to bear their share of the expense.

Respective of party interests the delegates united in wishing to perpetuate the name of Sir James, and this was remarked upon by Premier Hearst in his reply. He promised special consideration, either not promising to introduce a precedent.

INCOMING TRAINS INDICATE STORMS

Bad Weather Has Interfered With Traffic in Northern Ontario. Trains coming to Toronto yesterday showed signs of having contended with a snowstorm. Bad weather has interfered with the train service in Northern Ontario for the past day or so.

Efforts are being made by the railway detectives to apprehend those who have recently opened a number of freight cars while en route. A special watch has been put on the bridges.

Large advertisement for O'Keefe's Special Extra Mild Ale. The ad features a bottle of the beer and text emphasizing its purity, health benefits, and that it is made in Canada.

MAJOR ARCHAMBAULT TO COMMAND CORPS
 Will Be Gazetted Lieutenant-Colonel of French-Canadian Regiment.
 O.T.A.A., March 3.—The announcement was made tonight that Major Archambault of Montreal had been appointed to the command of the new French-Canadian Regiment to be recruited in that city for overseas service. Major Archambault will shortly be gazetted Lieutenant-Colonel.

LA GRIPPE, LIKE WAR, IS REAPING ITS HARVEST
 How to Prevent Germ Diseases.
 'All are terrified by the great war. Every means is being taken towards success, so that peace may be restored. In the meantime La Grippe is in our midst, and claiming many victims. The germs of Spinal Meningitis are spreading abroad. Are we doing all we can to prevent these terrible diseases? Like pneumonia, La Grippe seeks its prey among people who are not up to the mark in the way of health. In fact, pneumonia is not an unusual development of La Grippe when the human system lacks the vigor to throw it off. It is only wise to prevent having La Grippe if possible, and the best way to do this is by fortifying the system. Rich, red blood is the greatest of germicides. It is the only means of combatting the disease germs. Therefore, enrich the blood and you prevent La Grippe, as well as colds and other germ diseases. Dr. Chase's Nerve Food has long since proven its efficiency as a means of forming new, rich blood and building up the system. We know this, because we have seen it tested in so many thousands of cases. But how are we going to prove this to you unless you try it? Try it when you feel tired and discouraged. Try it for sleeplessness and irritability. Try it for nervous headaches and indigestion. Use it with the idea of fortifying the system against such germ diseases as La Grippe, Spinal Meningitis and Pneumonia. The sudden climatic changes at this season of the year drive many to the wall. Keep your health at high-water mark by using Dr. Chase's Nerve Food and you will be grateful to us for telling you about it.

ENEMY STATEMENT DECLARED UNTRUE
 British Ambassador Denies All English Ports Are Fortified Places.
 No Women and Children Interned in Civilian Camps in Britain.

EXCUSE FOR OUTRAGES
 Canadian Press Dispatch.
 WASHINGTON, March 3.—A statement was issued tonight by the British ambassador denying that Great Britain had declared all English harbors to be fortified places, and that women and children had been interned in civilian camps in Great Britain.

JOCKEY'S UNIQUE RIDE IN THE MALTESE DERBY

Horseracing is a popular sport generally, but it is doubtful whether any nation can boast of a more unusual race than the Maltese Derby. Once a year the road skirting Sliema Harbor is reserved as a race-course, and the people turn out in thousands to back their favorites. There is no regulation of the course; the crowd simply clears out of the way as the horses come along. The jockeys ride without saddles or stirrups, and they carry a whip in either hand for his own mount, while with the other he keeps back any of the other contestants who attempt to overtake him. At a "meeting" some time ago one of the spectators was seen to deliberately trip up a horse by extending his leg at grave risk to himself, at the moment the animal was passing him. These things, however, incredible as they may appear to the sportsman and

AMATEUR BASEBALL

The first meeting of the Toronto Senior Baseball League (Stanley Park) will take place at St. Mary's Club, Bathurst and Adelaide streets, at 8 p.m. on Thursday, March 4th. Representatives from St. Andrew's, St. Patrick's, Judean's and St. Mary's clubs are asked to be in attendance.

AMERICAN MONEY IS VERY SCARCE HERE

Dollars Exchange Demanded on Every Thousand of U.S. Currency.

EXCHANGE RATE SOARS

Local Banks Ask One Per Cent. the Highest Rate for Years.

American money is so scarce in Toronto that it costs ten dollars to secure one thousand dollars American currency at a premium of one per cent. the highest rate that has been charged for years and which is directly due to war conditions.

The manager of a downtown branch bank explained the situation to The World yesterday. Prior to the war the bulk of Canadian borrowings came from Great Britain. Since conditions have curtailed the supply of money from this source to a much smaller quantity, American banks have been forced to look toward New York money markets for the ordinary conveniences of their business.

STRONGER MARKET IN WALL STREET

Traders Went Far Afield to Account for Advancing Tendency.

TIME MONEY EASIER

Bonds Advanced Despite Increased Offerings for European Account.

Canadian Press Dispatch. NEW YORK, March 2.—For want of some definite or specific reason, Wall Street was disposed to believe today's further rise in stocks to be the acceptance of Washington's proposals regarding the regulation of this country's exports to Europe.

In the final dealings profit-taking and renewal of bear pressure caused some recessions from the top level, but the closing was strong, with an unusually large number of material net gains.

Specialties moved in contrary fashion, some showing substantial advances while others fell back correspondingly.

The strength of steel and allied shares was accounted for by the February record of the trade, also it seemed a debatable question whether the current month was keeping pace with its predecessor.

Long time money was easier, half-year loans being made at 3 1/2 per cent. and 100-day loans at 3 1/4 per cent.

Other assets are: Property, \$2,427,869.48; buildings, \$53,824.73; equipment, \$75,173.84; water construction, \$8,823.37; mill construction, \$77,859.07; stock account, \$229,000; note, \$14,865.92; on account of purchases, \$109,000; \$217,907.50. Total, \$2,968,892.44.

During the year 278,861 ounces of silver were produced, giving a net cash return of \$108,334,000.

NEW YORK COTTON. Ericksen Perkins & Co. (J. G. Beatty), 700 King Street, Toronto, report the following quotations on the New York Cotton Exchange:

STRIKING FEATURE IN ANNUAL REPORT

Way in Which Current Assets Have Been Collected During Stringency.

PROFITS HAVE FALLEN

Canadian General Electric Expected Decrease, But Surplus Stands High.

A striking feature of the annual report of the Canadian General Electric Co., Limited, for the year ended Dec. 31, 1914, is the way in which current assets have been collected notwithstanding the financial stringency.

The conservative nature of the report is shown by the fact that the large sums expended from time to time in the acquisition of patents, rights, and other manufacturing rights have all been written off and the items which ordinarily are chargeable to good will are carried on the account of the company at the nominal sum of \$1.

HIGH GRADE ORE IN THREE PLACES

Wonderful Enrichment in the Timiskaming Since the Last Annual Meeting.

A FRANK STATEMENT. Directors Set Forth Condition of Property Now and a Year Ago.

While there have been persistent reports of a contest for control of the Timiskaming Mining Company at the annual meeting called for March 18, the directors have stated that they are confident that the property of the company is now in a better condition than it was a year ago.

The various stages of development are followed and the progress described from the time a year ago when the present directors took charge and found no reserve mill.

North Dome Property of Timisk. To one not acquainted with the history of Timiskaming the directors' statement reads like a romance.

Timiskaming. The property of the company is now in a better condition than it was a year ago.

ENGLAND BUYS ENTIRE SURPLUS?

Reports That Argentine Crop Has Been Acquired. Weak Market.

EUROPE STILL BUYING

Corn Strong Throughout the Day. Europe Still After Oats.

Canadian Press Dispatch. CHICAGO, March 3.—Altho wheat advanced most of the time today, on account of liberal export sales, the market at the close was weak owing to assertions that the entire Argentine surplus for 1914 had been purchased by Great Britain.

European demand for oats appeared to be as urgent as ever. Chicago handlers were known to have sold 500,000 bushels of oats to the seaboard, and there were signs that the real total was a good deal more.

Despite some fluctuating sales early in the day, the market wound up firm. On the decline, shorts and investors took hold quite freely.

There were eleven loads of hay, 100 bushels of oats and 100 bushels of barley. The prices for all remained unchanged.

Wheat, fall, bushel, \$1.50 to \$1.55. Good wheat, bushel, 1.40 to 1.45. Buckwheat, bushel, 0.90 to 0.95. Rye, bushel, 1.20 to 1.25.

ST. LAWRENCE MARKET. There were eleven loads of hay, 100 bushels of oats and 100 bushels of barley.
