NEW GUNS STOOD TEST OF MOOSE FIGHTING WELL

Sir John French Describes Recent Success in France.

USED GAS FIRST TIME

Demoralizing Effect on German Formations—New Canadian Division Praised.

"A new division has been sent from Canada and has joined the army in the field. The material of it is composed of excellent troops, and this division will, in my opinion, acquit itself as well in the face of the enemy as the first Canadian division has already done."

LONDON, Nov. 1.—How the British strengthened their artillery by the introduction of new weapons and the skilful handling of the old along the front in Flanders, where the Germans were driven back in the great offensive of Sept. 25, is the chief disclosure of popular interest in a long official despatch from Field Marshal Sir John French to Earl Kitchener, which is published tonight under date of General Headquarters in France, Oct. 15.

Gen. French refers to the arrival in the field from Canada of a new division, which he says is composed of excellent material.

"This division will, in my opinion, acquit itself as well as the first Canadian division always has done," the field marshal says.

Intense Counter-Attacks. The despatch is mainly a technical military review of the inception, the carrying out and the aftermath of the fighting around La Bassée, Loos and Bullecourt. Nevertheless, it brings to the British public for the first time a full realization of the intensity with which the Germans launched their counter-attacks. These, Gen. French says, were almost continuous from the day of the big British attack up to and including Oct. 8.

Then the field marshal writes, the Germans delivered an attack with some 28 battalions in line and with larger forces in support, which was preceded by a very heavy bombardment.

COUNCIL ENDORSES WICKETT BY REVERSING EARLIER VOTE THEN REVERSED IT AGAIN

Stormy Session at Two o'Clock This Morning Breaks Loose at City Hall and Aldermen Threaten to Resign.

At twenty minutes to two o'clock this morning the reversal of the vote taken by the city council earlier in the evening to not include the city's share of local improvements in the borrowing power, brought on a storm.

Ald. Maguire declared, "This is a most serious trouble, you are now taking a retrograde step. Let us get a report on the whole city's affairs. I never heard tell of such a vicious act."

Ald. Cameron: "Rather than be a party to that iniquitous proposition, I will resign my seat in council."

At this point pandemonium reigned. Several members getting to their feet, Controller Spence at last got a hearing. "If these men were to resign we would still have a quorum, a quorum of martyrs, and they would go right on doing the city's business."

LARGE SERBIAN ARSENAL FALLS BEFORE ENEMY. Loss of Kraguyevatz Will Seriously Hamper Defenders of Country.

FOE TIGHTENS CORDON. Berlin Reports French Forces Have Been Withdrawn From Gallipoli.

LONDON, Nov. 1, 10 p.m.—The Germans have occupied Kraguyevatz, the arsenal town of Serbia, and their Bulgarian allies are pushing their way thru the mountains to Nish, Serbia's war capital.

Official announcement was made by Berlin today of the capture of the Serbian arsenal of Kraguyevatz. It was claimed also that the Germans were continuing their advance from Musinovac and had occupied the heights south of the town. Trivanovo Mountain Serbians were captured. The Bulgarians are still advancing.

Kraguyevatz, which is 50 miles below Belgrade, contains a large powder factory as well as the main arsenal of Serbia, and desperate efforts have been put forth to prevent its falling into the enemy's hands. Its loss is admittedly a serious blow to Serbia.

SPENCE DEFENDS CITY'S FINANCES

Controller Characterizes Letter Published by Ald. Wickett as Amateurish.

FANDANGO ABSURDITIES

Exposition Considered Only Fair to Toronto Council in View of Attacks.

At 1:30 this morning the decision was made to include the portion of local improvements to be included or not. City Treasurer Patterson some time ago issued a statement showing that if they were included the borrowing power had been exceeded by approximately \$407,000, but if not, there was still a margin of over five millions.

The matter was brought to a head by Ald. Wickett's open letter regarding the city's financial position, in which he pointed out that the borrowing power had been exceeded, his figures being the same as those contained in the city treasurer's report, and yesterday afternoon he recommended that the treasurer be advised, in the preparation of debenture bylaws, to put in this statement the assessment and city debt, exclusive of the city's share of the local improvements.

Referring to the letters of Ald. Wickett, the controller continued: "The controller as a whole might as well be deaf as a post, for he has not only refused to accept the best governed cities in this part of the world and has a population that is intelligent and the city in the opinion of reason to be concerned on account of the attacks that have been made, and to expose this fandango of absurdities."

Referring to the remarks of Controller Spence, the controller said: "He can gamble with the people's money, but I won't. I think the board should be made up of men who are not interested in the city's affairs, but who are interested in the city's welfare. I think the board should be made up of men who are not interested in the city's affairs, but who are interested in the city's welfare."

TWO MORE CLUBS FALL INTO LINE

Brantford and Waterloo Notify License Board of Decision.

HELD CLOSED MEETING

Directors of Toronto Institutions Discuss Proposals Privately.

Two more Ontario clubs notified the Ontario License Board yesterday that they had fallen in line with the early closing of the hotels. The conclusion of the war no liquor would be served after 8 p.m. They are the Brantford Club and the Waterloo Golf and Country Club.

So far no Toronto club has notified the Ontario License Board of its decision. It is believed that the early closing of the hotels will be general and adopted by every club in the city by agreement. The first official meeting of the club directors of Toronto to discuss the proposal was held at the Toronto Club rooms on West Wellington street, when about 30 club men, representatives of all the Toronto clubs, discussed a proposal to dispense with liquor after 8 p.m. It was a private meeting and the members desired that nothing be published concerning it. In fact, George Evans, Toronto Club, who acted as chairman, refused last night to even admit that the meeting was for the purpose of discussing early closing.

"It was a meeting of interest," said one of the club directors. "It was early closing discussed," he said. "Now I haven't said; I'm an Irishman, quick tempered and don't wish to be discourteous, and I haven't anything to say," he said. "Well, may I ask you a damn thing, you go to the devil," Mr. Evans retorted, ending the interview.

"Other sources report, too, that the early closing of the hotels is a new battle with the government's policy of curtailed liquor consumption is an 8 o'clock closing, the same as the Ontario bars, and it was pretty well decided that this action would be taken. The Ontario License Board yesterday asked if he were to attend the meeting. I rather thought I would be asked to be present, but I have not been approached," he said.

It is now probable that the club directors will meet to discuss the early closing of the hotels. The Ontario License Board yesterday asked if he were to attend the meeting. I rather thought I would be asked to be present, but I have not been approached," he said.

BOARD PENALIZED TWO HOTELKEEPERS

Hamilton and Dunnville Licenses Are Suspended for Brief Periods.

LAXITY WAS CHARGED

Sales to Soldiers and Gifts to Friends Are Frowned on by Commission.

Two hotelkeepers, R. H. Simpson, Royal Hotel, Hamilton, and O. A. Root, Dunnville, walked the carpet before the Ontario License Board yesterday, and their licenses were suspended for one and two weeks respectively. Simpson was charged with selling to intoxicated soldiers and keeping a disorderly barroom, while Root pleaded guilty to selling or retaining liquor to friends on Sunday.

Simpson told the board that since the adjournment last week he had learned that the police patrol had gone to the Royal Hotel twice and explained that a big soldier caused the trouble. He said that he had never sold liquor to a soldier, but that he had sold liquor to a soldier who had been discharged from the military service.

"I hope you will take into account my past good record," he said, as the board prepared to give judgment. "We certainly will," replied the chairman.

O. A. Root said he had never sold liquor on Sundays, but had, on occasions, given it to friends. Asked by Commissioner Dane what about the jug of whiskey left on the desk one Sunday, he said that he had never sold liquor to a soldier, but that he had sold liquor to a soldier who had been discharged from the military service.

NEWS OF SPECIAL INTEREST TO WOMEN

TRAINS FAVORED IN EVENING GOWNS

Newest Creations for Formal Wear Embody Dignified Features.

DRAPED DINNER FROCKS

Fluffy Net and Chiffon Are Gracefully Posed Over Silk Panniers.

There are two distinct types of the trained evening frocks which are to be equally popular this coming season—the one featured for dance wear by the younger devotee, the other a handsome matronly type of robe for dinner and other such formal occasions. This latter is particularly becoming to the figure which is inclined to be stout, for it follows lines not too accentuated and the train is long and slender and caught gracefully in the draped folds of the gown, which is usually fashioned from heavily headed nets or some of the new paillettes in rich colors combined with metallic effects.

The trained frock for the dance enthusiast differs noticeably in the skirt portion of the model, in that it observes the decree to flare considerably, and unconditionally. The bodice is of some flimsy chiffon or lace and follows the lines of the figure as a rule—the neck line varying in a number of pretty effects—but the skirt is an airy concoction of fluffy net or chiffon posed over filmy underskirts and graced with silk panniers—be sides exploiting the train. This is a long ash-like arrangement in panel effect, falling generally from the shoulders quite loose so that the wearer, when walking or dancing, may conveniently catch it up over her arm. The train on the dance frock is often quite elaborate, and even when the quaint, full skirted-model is comparatively simple the train may be of brocade or beaded chiffon and silk, with elaborate ornaments in sequins or brilliants.

WOMEN'S SUFFRAGE VOTE IN N. Y. STATE

Big Polling Will Take Place Today on Paramount Question.

PROS TO GUARD POLLS

Six Thousand Suffragettes Watch Balloting—Tammany Remains Neutral.

NEW YORK, Nov. 1.—Whether women shall be permitted to vote is the overshadowing question to be decided at the New York State election tomorrow. A revised constitution drawn by a convention with Elihu Root as its president at Albany last summer, also is to be voted on and three congressmen, a full assembly, eleven supreme court justices, and some county and city officials are to be elected, but all of these questions are running poor seconds to equal suffrage.

The battle of the women campaigners for and against their enfranchisement has made the campaign picturesque. The speaking campaign ended tonight with a 24-hour suffrage meeting at Times Square. More than 6000 women who will work as watchers at the polls tomorrow, agreed tonight to rise shortly after 6 o'clock tomorrow morning and be at the polls at 8.30 o'clock.

The windup of the campaign of the anti-suffragists was not to be as spectacular as that of their opponents. All of their speakers save one closed their engagements last night. No anti-suffragist watchers will be at the polls. The anti-suffragists say that women don't belong at the polls and that they are confident of a "square deal" from the men in charge of the booths, anyhow.

Both Sides Confident.
Leaders of both sides expressed optimism regarding the result of the election. The estimates of the suffragist leaders are more conservative than those of the anti-suffragists. Mrs. Arthur M. Dodge and Mrs. Alice Hill Chittenden, anti-suffrage leaders, said tonight that they fully expected to see the suffrage proposal beaten by 100,000 votes.

Mrs. Harriet Stanton Blatch, president of the Women's Political League, predicted that the result would be close, but that the proposal would carry by less than 10,000.
Charles F. Murphy, leader of Tammany Hall, in an eleven-hour announcement tonight, said that his organization was strictly neutral in the suffrage fight.

The central organization promised the leaders of the movement to keep hands off, and we are sticking to our promise with no reservations whatsoever," said Mr. Murphy.

In addition to the guns mentioned, a great number of cannon of older types, fell into the hands of the Germans.

With many others he managed to catch hold of a drifting box as it succeeded hour, as one by one of the strong men below were carried on the surge of the sea. At length he and other remained, the others were unconscious. The thing Mr. Clark remembers is a vision of smoke rising so far horizon. HERMAN RIDDER DIED SUDDENLY

Editor of Staats Zeitung Was
Prominent German Pro-
pagandist.

ACTIVE IN POLITICS

He Was a Leading Democrat
and Well-Known
Publisher.

NEW YORK, Nov. 1.—Herman
Ridder, former treasurer of the Demo-
cratic National Committee, and pub-
lisher of the New Yorker Staats Zeit-
ung, died suddenly, late today at his
home in this city.

The cause of Mr. Ridder's death
was kidney trouble, in an acute form.
He had been ill about 10 months, and
for two weeks past his condition had
been critical. He was in his 65th year.

Among a large number of promi-
nent German American citizens of the
United States, Herman Ridder was
one of the most conspicuous figures
in the newspaper publishing busi-
ness and in politics. His associa-
tion in the publishing business had
honored him at one time with the
presidency of the American News-
paper Publishers' Association, and for
many years he held high offices in
The Associated Press, as treasurer
and a director. In politics he was
such a factor that he was talked of
at the national Democratic conven-
tion in December, 1905, as a possi-
ble nominee for vice-president on
the ticket with Bryan, whom, how-
ever, Mr. Ridder opposed at that time.
He was also discussed later as a like-
ly selection for ambassador to Ger-
many.

Mr. Ridder was owner and editor of
the New Yorker Staats Zeitung, one
of the foremost German newspapers
in the United States, and through
it he was particularly conspicuous re-
cently in his ardent defence of the
German position in the European
war.

Will Your Widow Write a Letter Like This?

Will your widow have to write such a letter as follows received recently from one whose husband after taking on insurance refused to continue it?

My husband met his death on May 22nd by accidental drowning and as I am a poor widow of five children left without any means of support, I would thank you if you would advise me whether I am entitled to the insurance.

"A heart-breaking letter to answer," you say. It is indeed.

BUT WHAT ANSWER WILL YOUR WIDOW GET?

Ah! that's the question! Have you a policy? Is it in good standing? If not, man, see to it! See to it to-day! For to-day you may be insurable, to-morrow you may not be!

BARS CLOSED EARLY WITHOUT INCIDENT

No Eleventh Hour Rush, as Some Expected, But Few Customers Forgot New Ruling.

Contrary to the expectations of a great many, there was no eleventh hour rush on the bars last night, when the early closing law was enforced for the first time. Between 7 and 8 o'clock bars in the downtown districts presented a very normal appearance, many being practically empty, and at 8.55 everybody had disappeared from the hotels.

Possibly many had forgotten that yesterday was the day on which the new law was to come into force, as later in the evening the hotel doors were tried many times, only to find

them locked and the blinds drawn down. The police had a very easy time as far as drunks were concerned, only a very small number being apprehended.

DETROIT VOTES TODAY ON BUYING RAILWAY

Campaign Most Exciting City Has Known in Ten Years.

DETROIT, Nov. 1.—Detroit voters will decide tomorrow whether the city shall immediately take over the ownership and operation of its street railway system. The citizens, having voted in favor of municipal ownership, are now to vote on a purchase plan agreed upon by the Detroit United Railway, which controls all city lines, and by the city street railway commission.

Campaign for and against the purchase plan have been the most exciting in the city's history during the last decade and registration today indicated an unusually heavy vote. Women taxpayers can vote on the proposition.

GERMAN FOOD SCARCE MORE PROOF AFFORDED

Large Quantities of Eatables Are Being Sent to Prisoners.

LONDON, Nov. 1.—Travelers arriving from Scandinavia say reports are current that the British Government is now supplying food to British prisoners in Germany. In official circles here it is denied that any such step has been taken by the government. It is known, however, that relatives and friends of the prisoners are sending by parcel post enormous quantities of food, especially bread, as the prisoners complain they are unable to eat the German war bread. The report aroused interest in official circles, where the opinion was expressed that Germany might be making overtures thru the United States for some such arrangement. The belief is growing here that the shortage of food in Germany is becoming serious.

BERLIN COMPLAINS OF BRITAIN'S "DESPOTISM"

Great Concern is Professed Over Situation of Neutral Powers.

BERLIN, Nov. 1.—By wireless to Staville.—"German authorities are commenting on the attempts of Great Britain to restrict trade of Dutch shippers with China," says the Overseas News Agency. "These authorities state that the British Government intend to boycott German firms in China. When the war broke out, Britain forbade trade with Germany, later with German firms in neutral European countries, and finally with Germans in China. Thus Germany all over the world are affected. This means that neutral powers are forced to yield to British despotism."
"The British aim to apply the same measures to all other neutral shipping lines, including those between North and South America. Neutral exporters who have been trading for decades with German importers will lose connections with their customers, and exporting concerns under British control will rob them of their business."

THURLOW TP. FARMER FOUND DEAD ON ROAD

John H. McCreary Dislocated Neck and Injured Brain in Fall.

Special to The Toronto World.
BELLEVILLE, Nov. 1.—Private William Rawlinson who left here with the 1st contingent as a member of the 15th Regiment, at this city, returned home today as an invalid. He was wounded in the battle at Langemarck, and his injuries are of such a nature as to necessitate his retirement from active service.

John H. McCreary 52, a farmer of Thurlow Township, is dead as the result of falling from a wagon, and sustaining fatal injuries. His lifeless body was found on the road within three miles of his residence, and the horse and vehicle were found nearby. A postmortem revealed that he had sustained a commotion of the brain, and a partial dislocation of the neck. Medical men say that death resulted shortly after the accident, and that life had been extinct for some time when the body was found. The body was embalmed and viewed the remains, and a funeral will be held Tuesday evening. Mr. McCreary leaves a wife and family of four sons and four daughters.

Saved from the Lusitania

Steward Who was Picked Up Unconscious describes his experience. So Nerve Shattered His Friends Hardly Knew Him. Now, Restored to Vital Strength by Dr. Cassell's Tablets, He Sends Letter of Thanks and Praise.

Mr. James Clarke, of 12, New-road, Birkdale, Southport, Eng., a Steward of the Lusitania, was attending to his duties below deck when the German torpedo found its mark, and in sixteen minutes sent the superb vessel to the bottom. Then began his terrible struggle for life. With many others he managed to catch hold of a drifting box and cling to it. Hour succeeded hour, and as one by one as their strength failed, his companions were carried away on the surge of the sea. At length only he and one other remained, then alone. After that consciousness fled. The last thing Mr. Clarke remembers is a vision of smoke on the far horizon. As he awoke, he found himself picked up just in time.

TUESDAY MORNING, NOV. 2.

The Hydro-Electric Strike

"Give the hydro a chance!" is the appeal of those who have been least inclined to give the hydro a chance when the fundamental questions were being dealt with...

We cannot believe that the men who strike on this hydro-electric question have considered the whole situation as it affects public ownership...

We are inclined to believe that the arbitrators were misled by the violent campaign carried on last year for the reduction of rates in Toronto...

The fair comparison is with the wage scale in similar lines of work. The men should remember that there is pioneer work to be done in this great measure of reform...

If the forces of labor, home and foreign, are to be employed to encourage, and possibly to injure the cause of public ownership in Ontario...

Freedom is a matter of the observance of law and order, and anything that tends to establish reasonable law and order is of the nature of freedom...

Liberty and independence and devotion to law and order are no monopoly of the United States, but it was under that impression, truer when the Monroe doctrine was formulated than it is today...

Other important services are rendered by the air-men, both offensive and defensive, but our Canadian military authorities still hesitate about giving our air-men any local standing...

We can manufacture here, also, and our planes are as good as any, if not better. We fell down on dreadnoughts. The senate fell down on us. Even the senate could scarcely object today to the supply of a thousand aeroplanes in lieu of three dreadnoughts...

Perhaps the government has the air-men and their machines under control. There is nothing in Canada that would do the country of the aeroplanes more credit.

Germans Short of Men A proof of the scarcity of German reserves may be found in the incident of the capture of the Taurus hill. The French in securing this position obtained command of an essential line of supplies on which the Germans depended...

These reflections only emphasize the need for men and more men, munitions and more munitions for the allies. Every part of every allied nation must do its full share to ensure victory. Canada must do her part, and every man in the country who knows what liberty and civilization may become for him under conditions that will be rid of the harassing burden of militarism as the result of a successful end to this effort after some living, should be eager and swift to take his place in the ranks of those who cherish these ideals.

Should Europe Be Driven Out of America? In the opinion of Mr. Charles H. Sherrill, formerly minister of the United States to Argentina, the present would be an excellent time to ask European countries to relinquish possession of their colonies in the western hemisphere...

It is only fair to say that Mr. Sherrill does not appear to be animated by any hostile feeling towards any of the European nations, but he is anxious that the American continent should be self-contained and responsible to no power but its own.

Mr. Sherrill is of the opinion that the United States is now in a position to ask the European states to comply with this policy, and he urges that "the time is ripe to free the soil of all the Americas." It is the duty of the United States to ask its European friends to "liberate all territory in any of the Americas now held by them."

With regard to Canada, Mr. Sherrill has avoided any difficulties by stating that "Canada can have her independence whenever she likes, but contains her connection with the British Empire by her own volition." He desired more particularly freedom for the Guianas, British Honduras and such European colonies. It is just possible that the people in these colonies enjoy all the freedom they desire, and that they prefer the stable conditions of their free government rather than such turbulent and distressing experience as have given Mexico an unenviable position among the alleged "free" nations.

Freedom is a matter of the observance of law and order, and anything that tends to establish reasonable law and order is of the nature of freedom, for no law and no order can exist without the consent of the governed. No one can dispute the beneficent influence of the presence of the United States Republic as an example and a moral force tending towards independence as well as law and order on this continent; but Canada has just as much claim, according to its size and importance, as our large neighbor, to exert influence and wield the authority of example in the interests of liberty and independence.

In like manner and proportion every other British colony, and we believe every other French and Dutch colony, may be cited and classified.

Liberty and independence and devotion to law and order are no monopoly of the United States, but it was under that impression, truer when the Monroe doctrine was formulated than it is today, that the doctrine came into being. We are quite willing to accord to our neighbors all the credit due them, but they must not forget that other people have not stood still while they have progressed, and it is owing to this fact that the Monroe doctrine has fallen into more or less innocuous desuetude.

If any nation is willing to be bought out by the United States, that is its own affair, but it would be a mistake on the part of the United States to move for the extinction of European connection in the Americas before consulting the people who are chiefly concerned.

READY! AYE! READY!

BRITISH SUBMARINES SHATTER FOE'S PLANS

Germans Unable to Get an Adequate Supply of Shells.

LONDON, Nov. 1.—Germany's plans in the Riga district have been completely demoralized by the successful campaign of British submarines in the Baltic Sea, and the complete isolation of the Gulf of Riga by Russian mine fields, says the Petrograd correspondent of The Post.

"The slackening of the German thrust at Riga is attributed by the Retch to an insufficiency of shells, owing to the activities of allied submarines in the Baltic," a Retch despatch from Petrograd states.

BUSINESS BOOSTER CO. TO EXPLAIN BOOSTING

Alleged Infraction of Trading Stamp Act Charged and Sumsmons Issued.

The Morality Department has issued a summons against the Business Booster Company, promoters of a "West Ebor street voting competition," for an alleged infraction of the Trading Stamp Act.

The voting competition is a prize scheme inaugurated by the company, so it claims, to increase the business of the merchants in the district. The police state that a representative of the company visited stores of various trades and explained a proposition by which the merchant was to purchase a piano or other article, payable in six months on the instalment plan, and offer it as a prize for the most votes recorded by a customer.

Every cent purchase represented a vote. If the increase in business did not warrant the purchase at the end of six months, the difference would be allowed by the company. A number of the stores agreed to enter the scheme. It is alleged by the police that the prize articles were sold to the tradesmen at twenty-five per cent. over their real value.

DEFEAT FOR BULGARS French Repulse Attack Near Krivolak With Heavy Loss.

LONDON, Nov. 1.—The British troops in the Balkans, whose movements have been kept secret since they poured into Saloniki, prepared to rush thru Greece to the assistance of Serbia, are now in the trenches with the Balkan allies at grips with Bulgarian forces on the front near Strumitza. The all reports that the allies have taken this town apparently are unfounded. It is along this lower stretch of the front that the Bulgarians are likely to receive the first hand blow from their opponents.

French Defeat Bulgars. A despatch from Saloniki, Greece, indicates a Bulgar defeat some miles northwest of Gievevli. It says: "Bulgarian infantry supported by two batteries made an attack yesterday on the French advance post covering Krivolak, on the left bank of the Vardar. After sharp fighting the Bulgarians retired, having sustained heavy losses."

A German wireless despatch from Sofia says that for the first time since the beginning of the war a Hungarian Danube steamer—the Berettio Orsova on the Danube along the Bulgarian border is now established for practical purposes of transporting munitions by water.

ROUMANIAN ARMY ANXIOUS TO FIGHT

Two-Thirds of Generals Urge Action Against Bulgaria.

PLANS ALL PREPARED

Belief Held That Intervention Will Ensure Success of Allies.

MILAN, Oct. 31, via Paris, Nov. 1.—At a meeting of the Roumanian headquarters staff held to discuss the military policy of that country, says The Corriere della Sera's Bucharest correspondent two-thirds of the generals declared in favor of entering the war on the side of the quadruple entente.

Gen. Averescu, former minister of war, was the chief advocate of intervention. When asked by Gen. Christescu if he believed it possible to conduct a victorious war on two fronts, Gen. Averescu replied that he not only believed it possible, but that all the necessary plans were ready.

The semi-official Roumanian press has been authorized to deny the statement that King Ferdinand has given M. Radetz, Bulgarian minister at Bucharest, formal assurances that Roumania will remain neutral unless her own interests are affected. According to The Corriere della Sera's correspondent, the Roumanian press denies also that the present king or his father ever possessed stock in the Krupp Company.

CHARGE GROUDEF SAYS CHIEF GRASETT

Story About Inspector Crowe "Malicious Invention of Suspended Constable."

The charge that Inspector Crowe received a box of cigars from a west Queen street hotelkeeper is without foundation, and is only the malicious invention of a suspended constable, said Chief Grasett, yesterday, when questioned regarding the charges laid against the inspector by an officer of No. 3 division.

"As to the race tracks, well, there is no reason why the inspector should not attend them if he wants to. I go to them myself. This officer had been suspended for being absent from duty without proper cause, and he made this charge."

The board of police commissioners will investigate the charges today.

TORONTO RAILWAY'S APPEAL IS DENIED

Yonge Street Extension Privilege is Withheld by Ontario Railway Board.

JURISDICTION LACKING

Commissions Have No Power to Interfere in Dispute With City.

The Ontario Railway Board decided yesterday that it has no jurisdiction to grant the request of the Toronto Railway Co. to proceed with the work of the Yonge street extension, regardless of the appeal of the City of Toronto to the privy council.

During the hearing I. S. Fairly, representing the city, took exception to a remark of the chairman of the board to the effect that in opposing the work the city officials had not the interest of the citizens at heart.

"I don't like the assumption that the city has not the interests of the public at heart," Mr. Fairly said. "It is rather broad."

Mr. Ingram then took a band and remarked that as it was coming near the first of January there might be a remedy.

H. S. Oeler, for the company, argued that the provision regarding this particular case, and that the board had no jurisdiction to order a railway company to build a line any place it was necessary. Chairman McInnes, however, pointed out that the question in point in this case was whether or not the company had the right to build.

MR. JUSTICE MASTEN OPENS FIRST COURT

A. J. Russell Snow, K.C., on Behalf of Legal Profession, Compliments Recent Appointee.

Mr. Justice Masten opened his first court yesterday, the non-jury sessions in the City Hall.

Justice Masten was recently appointed to the bench in the supreme court, and A. J. Russell Snow, K.C., on behalf of the legal profession in the city complimented him on his appointment.

His lordship, in reply, said that during his thirty years' practice he had learned to respect the members of the bar. Lawyers in his court will have to show good reasons before the trial of any actions can be put off, and he prophesied also that adjournments of cases would be hard to get.

"The Rideau" and "The York," New Trains Between Toronto and Ottawa Via Canadian Pacific Ry.

When the C. P. R. attaches a special name to a train this means that the equipment is the finest and most up-to-date. The Lake Ontario Shore Line on which the two new trains, "The Rideau" and "The York," are operated, was recently completed as very heavy cost and has a roadbed unequalled on any part of the system. Excellent service is therefore assured to those who travel by these trains between Toronto and Ottawa and the delightful scenery should add an additional attraction to the journey. The trains leave Toronto at 1:45 p.m. and Ottawa at 1:15 p.m. daily, except Sunday, reaching their respective terminals the same evening, namely, Ottawa at 10:00 p.m. and Toronto at 9:00 p.m. They call at the principal stations en route and have convenient connections with trains from Kingston and Sparks Street (Central) Station at Ottawa, in which current periodicals are supplied free, and a broiler service, provide mind and body with food as required. PATRICK DENIES PACT WITH SAMMY

Willing That Correspondence Be Produced at Meeting—Ottawa Wants Taylor.

A Montreal despatch says: In rebuttal of the accusations made by George Kennedy, president of the Canadian Hockey Club, that Sam E. Lichtenhein, president of the Wanderers, had effected a private agreement with the Patricks, and recently published in local papers, the Wanderers' chief has received a despatch from Frank Patrick, president of the Pacific Coast Hockey League, which speaks for itself.

Sam E. Lichtenhein, Montreal: "Eastern despatches state that Kennedy accuses you of having entered into a private agreement with my league. As this charge is absolutely false, I am quite unable for you to produce all of my correspondence at your league meeting, also that you can give me the same copies for publication if you wish to."

President Lichtenhein had no other statement to make than offer the message for publication, he stating that it was unaltered and unasked for by him.

This comes from Ottawa: Fred Taylor, one of the chief causes for the war between the National Hockey Association and the Pacific Coast League, notified friends in Ottawa Saturday that he was preparing to come east, as ordered by the department of the interior. The Patricks manager recommended the immigration branch having ordered Taylor to report here at once. He is due next week. This article declares that Taylor may thus have a wand for the Ottawa, as a member of the team committee stated last night that they would make an effort to sign Taylor up. However, he will be stationed in Ottawa, and will undoubtedly figure on the Ottawa team. The club Lichtenhein claims he is still the captain of the Wanderers. Taylor wants to say that he is still the captain, and that he is still the captain, and that he is still the captain.

According to advices received from E. J. Harty, president of the Ottawa Hockey Club, he laid up in one of the Sherbrooke hospitals as a result of a fall from a horse. A letter from a member of Broadbent's company states that Harty, while going into action for one of the articles, was thrown heavily, injuring his head and sustaining some internal injuries. No bones were broken. It was thought that he would be able to resume duty in the course of a fortnight or so. Harty is expected to go to France shortly, and his mishap may keep him out of action for a few months. Official confirmation of the accident could not be secured.

Yesterday's developments in the hockey war between the National Association and the Pacific Coast League were as follows: Frank Patrick's refusal to resume negotiations with the N.H.A. until President Emmett Quinn's name had been added to the retired list. Lester Patrick's announcement that at least fifteen stars would be signed by the N.H.A. from the N.H.A. of Hamilton. Sam Lichtenhein's threat to sue Geo. Kennedy for libel unless the Patricks established his charges against the Wanderers' owner. An announcement that the majority of the Quebec players were already under contract and thus immune from the Patricks' raids. Sam Lichtenhein's move for the dismissal of President Quinn on the ground that he had caused all the difficulty through his making a necessary agreement with the Patricks.

Last week Frank Patrick declared that the Ottawa had led to the hockey up-raise and that he would make a dead-end fight. He said he would sell so far as the Ottawa was concerned, and that Jack Darragh, Hamby Shore and others would not make the trouble to reply, and that he would come to terms with the Ottawa. The Senators have not asked for a meeting of the league, and the Patricks do not intend to do so. They are satisfied that they can repulse the Patricks' raids, and that the other clubs are well able to look after themselves.

A Winnipeg despatch says: Now that the hockey war is on between the east and west, local hockey followers are looking for a visit from one of the Patricks at an early date. Tommy Dundas, owner of the Patricks, and other prominent players in the city may require a little coaxing to pay the blades again, especially as the season will take the form of an increase in pay. The Patricks could also pick up a couple of good names, also they would have trouble in inducing any of the senior players to go west. Del Irwin has been mentioned as a possibility several times, but he is doing a good job in the immigration department and would hardly leave the U.S. Irwin, who has also been mentioned as a possibility for hockey, has been approached by any of the hockey magnates.

The two senior O.R.F.U. clubs have failed as yet to reach a decision on the play-off for the title, but Millard Gibson and John McKay of Hamilton are coming down today to confer with the O.R.F.U. officials, and a settlement will likely be reached. Toronto offered on Saturday to play home and home games with the Wanderers, or a sudden death game on Rosedale field. Hamilton K.C. refused to entertain these proposals on Saturday. The World ed. J. A. McAllister of Hamilton, president of the O.R.F.U. of the home last night, and he intimates that he is now willing to play home and home games with the Wanderers, but that he is not willing to play home and home games with the Wanderers.

SPRUNG SURPRISE SCHOOL BEATEN

Medals Look Like Victoria's Opponents in Mulock Cup Finals.

Medals were happy last night and the School men were correspondingly glad because of the Mulock Cup at Victoria Stadium when the doctors came out on top by a 3 to zero score. The winners are the Mulock Cup holders for the year, and it was a satisfactory win for the medicals, and the game revealed several shortcomings of the Mulock Cup arrangements. The chief of these is that the games do not start early enough, and that the last quarter has to be played in darkness. A certain indefiniteness about the length of the quarters is another source of dissatisfaction that could be remedied.

As for the play itself, it was fully up to the Mulock series standard, and in addition that two such evenly matched teams of high calibre have come up against each other as the Senior Medals and Senior School outfields. For the first half they battled away and were unable to notch a single tally. Two hundred and thirty-five yards of play, and several shortcomings of the Mulock Cup arrangements. The chief of these is that the games do not start early enough, and that the last quarter has to be played in darkness. TOP QUALITY WANTED

Good Demand Exists for Best Stockers and Feeders.

The receipts for yesterday's market at the Union Stock Yards numbered 220 cars, including 1447 cattle, 225 calves, 1712 hogs, 4373 sheep and lambs and 437 horses.

Butchers' cattle—Opened slow, soon went to active at an advance, and the larger run was well sold out at noon. The quality was mostly good to very good, for the top grades very keen. All classes benefited more or less by the increase, which was due to the fact that the market was mostly active at an advance, and the larger run was well sold out at noon.

Stockers and feeders—There was a large demand for the top quality of medium to heavy weight feeders, and as there was only a limited number of these, many orders went unfilled. Prices were steady to strong at an advance.

Lamb—This division was packed with the heaviest run for many months and quality was reasonably good. Trading opened slow and broke into a steady under last week for the bulk. Buying terms were active and the lot were practically sold out at noon.

Calves—Slow sale and easy; all classes of 250 per cwt. to the extent of 1000 head.

Hogs—There were barely 300 on sale in the open market, and live pork was quoted at 40c per cwt. for the best.

WAR SHARES HEAVY C. P. R. IN BIG RISE

Allies Not to Pay Higher Price Demanded by U. S. Manufacturers.

BETHLEHEM IN DROP

Loses Thirty-Nine Points in Day—U. S. Steel Up and Down.

NEW YORK Nov. 1—Under the influence of further favorable trade conditions, as disclosed by some remarkable statements of railway earnings, many investment stocks ascended to higher quotations today, while specialties were disposed to react.

The heavyness of the latter issues was due in part to intimations that the allies had decided not to pay the higher prices demanded by American manufacturers of munitions and similar supplies.

U. S. Steel rose fractionally to 88 3/4, a slight rise for the current movement at the opening market, but later lost this gain and considerably more, closing at 87.

Pennsylvania Railroad made a net gain of \$1,562,000 on its eastern lines last week, a record for the year.

MUNITION ORDERS FOR HOME COMPANIES

Five Hundred Million in Orders Will Shortly Be Given and to Canadian Concerns.

TIMISKAMING GETS OVER IN OLD GANS WORKINGS

The Northern Miner says: The discovery on Timiskaming Gets Over in the 500-foot level of the old workings on the Gans property, or rather it is a continuation of the old workings on the Gans. The vein, which is not being developed by the old workings, is three or four inches wide and will run between two and three thousand ounces to the ton. Bullion is still being stored in New York, and London and no attempt is being made to sell it at present prices. There are on hand at the present time three cars of concentrates that could be shipped at any time, and twenty or thirty tons of high-grade ore taken out of development in various parts of the mine. Development is being continued fairly vigorously. The big new hole is now running quite smoothly, and there is now no impediment to the sinking thru the diabase sill to the lower contact.
