Necessary to Grant Aid.

After the government found it necessary to grant aid to the Canadian Northern Railway, and later on in 1910-1911, further assistance was given to this road in order that 1000 miles to connect its eastern and western lines might be constructed.

In 1911 there was a change in the administration and the new government found that it would have to grant more money to both the Grand Trunk Pacific and the C. N. R. or these roads would go into liquidation.

In 1912-1913 aid was given to the C. N. R. and in 1913-1914 to the Grand Trunk Pacific. Sir Robert continued with a resume of the assistance which the government has found it necessary to give to the C. N. R. since the present time.

After giving a preliminary review of the assistance rendered to the G. T. P. from year to year, the prime minister referred to the decision reached in 1914 to institute a practical inquiry by experts into the railways of Canada.

As to the immediate future, he said, it was the intention of the government to carry out the corporate machinery as existed in the past.

He explained that there would be a reconstituted board of directors consisting of the best men it was possible to obtain, interference would not be tolerated, and every means available to the government would be used to operate the roads properly.

It was only fair to say, said Sir Robert, that the conditions of railway expenditures and income which have prevailed since the beginning of the 19th century had been the cause of the Grand Trunk Pacific and the Canadian Northern being parallel in some portions of the United States today.

As to the taking over of the railway, he stated that he had conferred with those taking part in arbitration on behalf of the government, and had been assured that they had been given the most absolute freedom in the way of securing all the information they required under way at Toronto.

Present Management Responsible. He said that the government had appointed a new C.N.R. directorate, the prime minister said that one reason for leaving the present management was that the government has full and complete access to the records of the company.

It was desirable that the present management should make itself responsible for the management of the railway. It was desirable that the present management should make itself responsible for the management of the railway.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

Local fighting proceeded yesterday on the British front in Flanders. The French troops hold the sector from Kemmel to Hill 44 and Loere, showed their line forward in the area north of Kemmel Village.

In fierce duels. The allied patrols kept keenly on the alert. The allied aviators have bombed railway stations at Chatelet-sur-Return, in the Ardennes, and the aviation ground of the Austrians in the Plave Valley.

As the war proceeds, beyond the periodic outbreaks of enemy offensives, the military operations are becoming more and more of an open secret in aircraft operations that the allies have something of a surprise in store for Germany.

Altho Germany and Austria-Hungary thru their emperors have agreed upon the principles of renewing the alliance, they have not arranged the conditions, and the economic negotiations will drag on for several months.

The political and military sides of the alliance appear in the main to consist of the virtual incorporation of Austria-Hungary with Prussia. The south German states, altho uninvited, have sent representatives in order that they may prevent if they can, the complete Prussianization of the two empires.

The Austrians, meanwhile, are moving large masses of troops to the Italian front, and this movement is giving rise to rumors of an impending offensive.

News of the projected closer union between the central powers has already evoked opposition in Austria. German elements, regarding every move as a snare, are preparing to clamor against the fastening of the new bonds.

The Germans, in respectable numbers, are fearful that they cannot trust Austria-Hungary, for they are perceiving that a large proportion of the Austrian people regard them with profound distrust and dislike.

Since the united command of the allies has immensely improved their position, their military leaders are confident of recovery of the impending Austrian offensive and if they succeed in doing this the new verbal alliance between the two powers may speedily dissolve.

Russian Soviet troops have recaptured Rostov-on-the-Don. It is reported that the German troops that carried the town are retreating. The recovery of Rostov, the Russians say, is probably owing to the need that Germany has for reinforcing her army in France.

She is recalling from the theatre all the troops which she can use in the war in order to have fresh divisions for her renewed offensive. The Germans, it seems, have captured important units of the Russian Black Sea fleet at Sebastopol. These have suffered so much from neglect that the Russian sailors could not sail them out of the harbor.

It was doubtful, even today, said Sir Wilfrid Laurier, whether the railway would be a success, but no one regretted its construction because, the scheme would have existed in any case. The Canadian Pacific Railway had been built altogether at the expense of the Canadian people.

The terms granted by the company have been generous—extravagant in fact—but even those terms scarcely saved the project from collapse at times.

against assets of \$928,427,485. The liabilities were made up as follows: Government bonds, \$300,000,000; bonds issued by the company, \$1,525,000,000; term loans, \$50,000,000; due to other companies, \$20,000,000; current liabilities, \$15,000,000; accrued interest, \$20,000,000; reserve fund and insurance, \$1,245,000.

The assets of the system, said Sir Robert, were as follows: Cash, material, supplies, and accounts receivable, \$30,769,915; land, \$2,823,272,044,790; insurance paid in advance, \$823,708; deferred charges, \$660,115; estimated cost of reproduction of the property at present prices, per Professor Swain's report, \$2,127,272,000; equipment valuation by Mr. Buchanan and Mr. Chaburn, \$56,690,418; capital expenditures from January 1 to September 30, \$1,752,568.

With reference to the figures he had given, Sir Robert said that the cost of reproduction, as estimated by Prof. Swain was much lower than the actual value of the property. Owing to the war the value of the road had become greatly enhanced.

Prof. Swain was nearly 7,700 miles in actual operation. From the 1,000 miles of road it could be seen that the debt amounted to about \$44,000 per mile. The road, especially in the west, he said, was in a most excellent condition.

He said that it was absolutely essential to eliminate political influence in its administration. Sir Robert pointed out, however, that the government was not only in control of the C.N.R., but also the Intercolonial, the Transcontinental, the Grand Trunk Pacific, the Canadian Northern, and the Grand Trunk Railway.

The Canadian Government railways worked out to about \$65,000 per mile. That of the Grand Trunk Pacific was about \$100,000 per mile.

Must Take Over G. T. P. Speaking of the Grand Trunk Pacific, Sir Robert said that he regarded it as inevitable that for many reasons the road should be taken over by the federal government. It is a national enterprise to which the credit of the Canadian people has been committed, and in his judgment it is not possible to maintain it as a national enterprise to which the credit of the Canadian people has been committed.

The terms granted by the company have been generous—extravagant in fact—but even those terms scarcely saved the project from collapse at times.

At a later date the Dominion, said Sir Wilfrid, the government, of which he was premier, came to the conclusion that another transcontinental road was needed if the country was to be developed as it should.

The west was opening up very fast. He descended from the state, which had been made a section of only one transcontinental road was needed in Canada. The United States had seven such railways. We had not yet acquired a proper appreciation of the vast resources of the Canadian west which would be developed by railways.

In the period which has elapsed since the construction of the National Transcontinental Railway we had been surprised by the great production along the line. It is not possible to state which was supposed to be barren and unproductive. The progress of the road had been retarded by the death of Sir Wilfrid.

WORK ON VIADUCT. Works Commissioner Has Many Men on Job.

Grading at the approach to the Bloor street viaduct at the Danforth end was considerably advanced yesterday. Twelve 70 and 80 men being again at work there.

Large quantities of stones were delivered by teams and placed on the approach to the viaduct. Bell Telephone and hydro men were also busy adjusting and fixing wires and removing old poles and posts.

On the Rowdale side considerable grading was done and large quantities of stone for asphalt work were placed at different parts of the road.

INJURED IN MAN-HOLE. Cover Slipped Off as Woman Was Walking Over It.

Mrs. Arthur Stubbings, 383 Fulton avenue, who was severely injured thru slipping down a man-hole on Danforth avenue, which it is stated was closed for about 10 days ago, is now slowly recovering.

Mrs. Stubbings was stepping off the sidewalk on Danforth avenue opposite Ferris avenue and the covering of the man-hole slipped off. Mrs. Stubbings received severe bruises on the leg and internal injuries.

Neumarket HOLSTEIN-FRIESIAN SALE IS FAIRLY SUCCESSFUL

The second annual Holstein-Friesian sale was held yesterday at the direction of York County Breeders' Club, of the Richmond Hill Fair Grounds vestibule. Some 350 cows, heifers and calves, were auctioned off, the bulk of the sales going to local farmers and dealers within a radius of 75 or 100 miles.

The committee of management was composed of Messrs. J. L. Burns, J. H. Hines and W. F. Elliott, with T. Merritt Moore as auctioneer.

The average price realized for the cows was in the neighborhood of \$140. The highest price paid was \$215 for a cow owned by Mr. G. G. Van der Sandt.

Some of the breeders represented in the sale of stock were Frank Boyle of the Glenholme Stock Farm of Niagara Falls; W. P. Elliott and W. A. Snider of the Camplish Farm of Unionville; W. A. Snider of the Lennox Farm of Scarborough Junction, W. B. Watson of Pine Grove, and C. E. James of Richmond Hill. There was a large attendance.

It would be a mistake, Mr. Richardson said, to take over the Canadian Pacific Railway. This road was an excellent investment. It was well managed and should be left as it was. The government should take all the other roads under its control.

Riverdale QUEEN ALEXANDRA SCHOOL IS ACTIVE

"We have about four acres of ground in connection with the Queen Alexandra school, Broadview avenue," said John Wallis, principal, to a reporter for The World.

He said that the school is active in the campaign for greater food production education. He suggested to the board of education to break up about one acre for the pupils to produce vegetables, but they did not think the scheme was advisable.

It would not work out satisfactorily," said Mr. Wallis. "We, however, distributed about 400 packets of seeds to about 100 children for their home gardens this season, and certificates will be awarded to the children in the fall."

## Aerolux Shades Keep the Hot Sun Out and Let the Cool Breeze In

For Verandah and Sleeping Porch You'll Find Them a Perfect Boon Through the Summer Months—Pleasing to Look at and Easy to Regulate

**S**HADE—BUT PLENTY OF BREEZE; seclusion—but abundance of fresh air. This is what the Aerolux Ventilating Awnings mean when you install them on your verandah or sleeping porch. However exposed to the sun your house may be, they assure you comfort in the warmest weather.

The Linwood out of which they are made is recognized as an efficient heat resistant, and the arrangement of the slats provides for complete ventilation. An adjustable "no-whip" attachment prevents them from flapping in the wind.

Aerolux shades are obtainable in artistic shades, green and brown, also with green and brown slats alternating, and since they are treated with weather-resisting stains, will retain their freshness of color for many years. Sizes and prices, complete with cords, are:

4 ft. x 7 ft. 6 in., each, \$3.50.	6 ft. x 7 ft. 6 in., each, \$6.00.	8 ft. x 7 ft. 6 in., each, \$8.00.	10 ft. x 7 ft. 6 in., each, \$10.25.
5 ft. 3 in. x 7 ft. 6 in., each, \$5.00.	7 ft. 3 in. x 7 ft. 6 in., each, \$7.25.	9 ft. 3 in. x 7 ft. 6 in., each, \$9.50.	12 ft. x 7 ft. 6 in., each, \$12.50.

## Capes! Capes! Capes!

Fashion is Infatuated With Them, and Exalts Them to High Favor as Summer Wraps

In the gala exhibit of summer styles in progress this week on the Third Floor, the Cape is one of the star attractions. There are capes of every smart variety, from the swagger little coat resolving itself into a cape at the back, to the big, all-enveloping "student's" cape of the type affected by the pupils of the great studios of Paris. Among them are these:—

A cape-coat in tan covert cloth, short in front, with the cape portion converting itself into sleeves, which fit closely from elbow to wrist. A New York model, a sketch of which appears in "Vogue" of May 15. Price, \$55.00.

## The Famous "1847 Rogers Bros." Silver-plated Tableware

With a Choice of Three Well-Known Designs—"Priscilla," "Cromwell," and "Old Colony"—Procurable by Single Piece or Complete Cabinet

Is there some happy young bride and bridegroom you want to make happier still with a cabinet of silverware? Or is it yourself you're thinking of, and the need of replenishing the household stock of forks, knives and spoons. However the case may be, you'll do well to look into the merits and graces of the celebrated "1847" silver-plated flatware made by the well-known Rogers Bros.

It is featured in three patterns, the names of which are already household words. The "Cromwell," as you'll see by the illustration, is a plain, dignified pattern with square effect at base of handle. The "Priscilla," somewhat similar, has floral scroll at base of handle, continuing to bowl, and the "Old Colony," a more elaborate floral design in grey finish.

All designs are heavily silver-plated, having double the amount of silver deposited where the most wear is given. Their handsome appearance is retained with little effort, and the polishing is a comparatively simple matter. The prices are as follows in each of the patterns mentioned:

- |   |  |                                |
|---|--|--------------------------------|
| Coffee Spoons, \$5.50 doz.                  | Berry Spoons or Tomato Servers, \$2.25 each. | Cream Ladies, \$1.25 each.     |

## The Fashionable Suitcase of Black Enamelled Duck

Otherwise Known as the "Week-End Trunk," Being Splendidly Roomy, and Equipped With a Removable Tray

In the Pullman coaches going out of New York this big black suitcase is a familiar sight. Wherever smart luggage is gathered together, there you will generally see it. With the woman who makes it a point to have her travelling appointments right, it is a prime favorite, for both long and short journeys. For not only is it large enough for the carrying of a suit or frock, but, being equipped with a tray, the risk of clothes crushing is materially lessened.

Down in the Travelling Goods Section of the Basement is a splendid showing of these capacious suitcases—well-made, nicely lined and smartly finished. For example, the cases and hat box our artist has sketched:—

A. Woman's Suitcase, with frame of basswood, the sides of 3-ply veneer, and covering of black enamelled duck—a case that a man of two hundred pounds weight could stand on without breaking. It has two brass bolt locks, reinforced cowhide handles, three brass hinges, and heavy leather-covered handles. The interior—equipped with removable tray—is lined with chintz in a wide choice of patterns. It may be had in five sizes, priced as follows:—20 in. long, \$9.25; 24 in., \$10.50; 26 in., \$11.25; 28 in., \$12.00; 32 in., \$14.00.

B. Woman's Suitcase, made with steel frame, covering of black enamelled duck, leather-covered handles, two nickel-plated locks, the interior equipped with double tray, and lined with chintz. Sizes and prices are:—24 in., \$8.25; 26 in., \$8.50.

C. Woman's Hat Trunk, with steel frame, covered with black enamelled duck, with reinforced handles of natural cowhide. The interior, lined with chintz, is equipped with cushions for two hats. Price, \$5.50. A similar trunk, with tray and places for five hats, is \$9.75.

Many more imported Suit Cases in black duck are also displayed—prices ranging from \$12.25 to \$30.00 each. For men, too, are a number of larger suit cases of the same order, smartly lined with a white and blue or white and red checked linen weave. Prices, \$11.00 and \$12.50.

USE RAILS FOR THE VIADUCT

Decision Given by Ontario Railway and Municipal Board Yesterday.

PAPE AVE. LINE WAITS

But Order is Issued Which Places It Next for Completion.

The Bloor street viaduct is to have the advantage of the rails now on hand and the Pape avenue line will wait until more rails are secured to the decision reached by the Ontario Railway and Municipal Board after hearing argument from both sides yesterday.

Representatives of ward one and the Danforth Avenue Ratepayers' Association waited upon the board and urged that its order for the completion of the Pape line be gone on with, but I. S. Fairly, assistant city solicitor, appeared for the purpose of explaining that the viaduct line was the most needed and that a larger area would be served. Controller McBride said that if only one was to be built that should be the viaduct.

Mr. Wiederhold, representing the Danforth Avenue Ratepayers' Association, argued at some length and said the citizens of the district would be satisfied if only the tonnage of rails shown on the line stop at Wroxeter avenue. He referred to evidence given by Fred Hubbard, assistant manager of the Toronto Railway Company, who appeared for the company, that there were 192 tons of rails on hand. It was because the line was needed by working men that he thought it should be built.

The statement that the aldermen from ward one had had it "put over" them was challenged by Ald. Hiltz and Controller McBride said the board was not in a position to do the best it could for both interests. It was a case of one scheme or the other and if the viaduct line would be gone on with just as quickly as the rails came in.

In giving the decision of the board D. M. McIntyre, chairman, stated that it was his opinion that the Pape avenue line would be thru long ago. War conditions had altered the plans however. The Pape line would be of local utility while the viaduct would be of general service to a greater number.

The city council had not supported the Pape avenue line and as it is a double track line it is decided to proceed with the viaduct. The decision was taken into consideration. Judging between the two schemes it had been decided that the same was the most pressing.

It was then agreed that an order would be issued stating that the company would report acceptance of rails and not use any for any other purpose without the sanction of the board.

This will guard the citizens interested in the Pape avenue line against the company using rails as they are delivered owing to deliveries being under the 25 tons required for this work.

**ON TOUR ACROSS BORDER.**  
Norman Sommerville, secretary of the Speakers' Patriotic Association, leaves today for points in the United States to address various cities in behalf of the \$100,000,000 Red Cross campaign which is to commence on Monday. Among other cities Mr. Sommerville will visit Buffalo, Dayton, Cleveland, Toledo, Springfield and Columbus, and at the latter city he will be the guest of honor at the Decoration day celebration, Thursday, May 23, in honor of the men who fell during the civil war.

**BOY WINS HIS CASE.**  
In the assizes yesterday, before Justice Masten and a jury, Ralph Mitts, aged 11 years, was awarded \$300 damages against Joseph E. Russell for injuries received when the lad was knocked down by a motor car last November at the corner of King and Trinity street, driven by Joe Russell.

**INSURATED MAGNESIA**  
For Dyspepsia, Indigestion  
Heartburn, Belching, Sour Acid Stomach, Gas in Stomach, etc., take a teaspoonful of Insurated Magnesia in a half glass of hot water after eating. It is safe, pleasant and harmless to use, and gives almost instant relief. It neutralizes stomach acidity and awakens the food current so that digestion is easy and painless. Sold by druggists everywhere.

**BIT PRODUCTION.**  
Two Thousand Tons in Stocks Steadily in U. S.  
May 15.—Newsprint production during the four week period ending April 28, amounted to 2,000,000 tons, of which 1,000,000 tons was shipped during the period. Stocks are about equal to demand. Fifty-nine mills are working during the period.

FIX FISH PRICES AT FIFTEEN CENTS

Government Decided Upon Figure for Whitefish, Trout and Pickerel.

ORGANIZED SERVICE

Plans for Purchase and Distribution Are Announced for Province.

Ontario Government fish will sell at 15 cents a pound during the summer season. It was announced by Hon. Finlay Macdormid at the parliament buildings yesterday. This is the price set for whitefish, trout and yellow pickerel. Pike and the coarser varieties will sell at proportionate prices automatically fixed by the prices quoted.

There will be no change from last season in regard to cuts, the charge for extra handling, and will be 2 cents per pound. Thus if only a portion of a large trout is purchased, the price will be 17 cents per pound. At the points of shipment the price will be 14 cents owing to there not being transportation charges. This will apply to lake ports where the fish are brought in.

An organization has been established comprising 20 districts, each of which has a correspondent. Dealers in each district will place their orders with this representative, who will then ship directly to them. He will furnish a weekly statement of all such dealings. This will save transportation costs, it was pointed out yesterday, and this price will prevail in the west under the plans arranged by the federal authorities at Ottawa.

**Supplement Supply.**  
In places where more than the 20 per cent, which the government has arranged to get from the fishermen is required, the supply will be supplemented from the nearest shipping point.

Sturgeon, the price of which varies considerably, will be sold at 20 cents per pound, and this price will prevail throughout the season. Herring will be treated somewhat differently, and the price will be fixed from time to time according to the run. At present it is 11 cents per pound, and it is not likely to get higher.

These prices are an increase of 2 1/2 cents per pound in Toronto and 1 cent outside Toronto, and largely to the increased price to be paid the fishermen, the increased cost of transportation and equipment. Even so, the prices set are from 2 to 5 cents lower than those which will prevail in the west under the plans arranged by the federal authorities at Ottawa.

**DAMAGES AWARDED.**  
Two Companies Involved Have to Pay Share.

The jury at the spring assizes before Justice Masten returned a verdict in favor of Pete Rangeltovich, awarding him \$155 damages against the Leaside Munitions Co. The verdict stated that the company had been guilty of negligence and that the accident was in the employ of the Munitions Co. Judge Masten ruled that judgment be given against both the Leaside Munitions Co. and the Ontario Motor Livery, who was suing for \$10,000 for injuries he received when he was knocked down by a light-colored car owned by the Provincial Motor Livery, to convey the workers to and from the Leaside Munitions Co. factory.

**TRAVELERS' CHEQUES.**  
The public are reminded of the fact that the best way to carry money is by the travelers' cheque system. Those cheques are issued in different denominations, put up in book form, and carried anywhere in the world. This simple way of carrying funds has been in force for twenty-six years, and is pre-eminent in all of these features, as evidenced by many years of steadily increasing patronage.

Travelers' cheques are accepted by mailways, hotels, shops, etc., and can be cashed any day in the year. Purchasers of cheques are safeguarded against loss by the provision that at the time of sale his signature must be placed on each cheque in the space provided.

All information concerning this simple way of carrying money may be had at the office of A. F. Webster & Son, 52 Yonge street.

**WANTS HIGHER MINIMUM.**  
W. E. Turley Discusses Pensions Fund to Veterans.

W. E. Turley, provincial secretary of the G.W.V.A., stated yesterday that he favored the raising of the minimum pension from the present \$860 to \$1000. "I recall the day," said Mr. Turley, "when the minimum total disability pension was as low as \$500. The government statistical bureau tells us that a man with a wife and say four children can't live on twenty dollars a week. This being the case how can any one expect a man totally incapacitated to live on a pension grant of less than \$18 a week? And besides there are other considerations involved."

On the other hand the secretary was not in favor of granting a permanent pension along the lines suggested at Tuesday evening's meeting at Parkdale G.W.V.A. "If it is true that in the long run we will run the risk of losing our pension altogether under the present system of re-examination every six months," said Mr. Turley, "it is equally true that in some instances it will increase by virtue of the increased disability."

**SEA LION A NUISANCE.**  
Ald. Hiltz Would Send It Away From Zoo.

"Some animals could be dispensed with, but the most rare and valuable animals might be retained," said Ald. W. W. Hiltz, speaking of the threatened closing of Riverdale Zoo. "I would certainly send the sea lion away, as it is a nuisance to the residents of the neighborhood. I can hear it at my home more than half a mile away, and it is very trying to nervous people, the noise of the beast and particularly when there is sickness," he said.

Re "Where Duty Leads"

It has been brought to our attention that orders have been taken in Toronto by several returned soldiers for a book entitled "Where Duty Leads," and that a receipt form bearing our name as publisher and a line reading: "Delivery within 30 days or notify publisher," is being issued.

TOY FACTORY SEEKS HELP FROM COUNCIL

A deputation appeared before yesterday's session of the board of control on behalf of a toy factory, which aims to employ only soldiers or their dependents. Controller Robbins pointed out that the factory was as yet only so in name, and hoped to gain bond surety from the city council to enable the firm to go forward with the work. The factory is at 227 Gerrard street, and \$10,000 in bonds would help along the good work.

Controller Maguire expressed the opinion that the vocational committee was taking up the re-education of the soldiers.

"This is a matter," said the mayor, "which belongs to the provincial and not to the municipal authorities. The government is always saddling the municipalities with its responsibilities. I shall be glad to consider the grant if possible of a free site to encourage this industry."

Controller McBride was solidly entrenched against any grant of money or bonds as a pernicious business principle.

Mr. McAndrew (for the deputation): "We are not asking for \$10,000, but for cash, to help us hold a bazaar. We want to raise money to continue our business."

The deputation was advised to make its application in writing.

COULDN'T HIT, AND LOST TO SKEETERS

A Few Solid Hits Behind Justin Would Have Reversed the Verdict.

Special to the Toronto World. Jersey City, N.J., May 15.—Toronto's ball players invaded the home of the Jersey City Skeeters for a two-day battle against the home team and suffered a four-to-nothing defeat.

A perfect exhibition was marred by the costly misplays of the visitors in the seventh chapter, when some weird throwing on the part of Messrs. Warhop, Hensch and Onslow accounted for the three runs hung up in that frame on the Jersey score sheet.

The game should have been decided with a one-to-nothing margin for Jersey City. Justin pitched fine ball for Toronto, and barring the fourth period had Jersey City batsmen at his mercy.

Widely Scattered. Clinton, who had not pitched for Jersey City since the opening game of the season, showed in great form and had no trouble in earning his second victory.

Jersey City played perfectly in the field, getting away with every chance presented. McGraw, the catcher secured from the Boston Nationals, played a fine game behind the bat, hitting every attempt made to score.

MANAGERS HUMAN, EACH HAS HIS WAY Ida Tells of Methods to Produce a Winner—Lajoie's Case.

By Ida L. Webster. A discussion arose a few days ago as to the best method of handling baseball players. The ideas were many and varied, but finally the consensus of opinion read Lajoie, Hendricks, Barrow and McGraw.

Lajoie's idea of managing a ball club is obedience, first, and always, loyalty. Why should I cater to the whims of some foolish thing, who is trying to impress upon me what he deems to be an old man in this game?

# ARMENIAN TAG DAY BRINGS GOOD SUM

Over \$12,000 Was Collected for Armenian War Victims.

Toronto taggers are learning by experience that "the early bird catches the early worm," and so, perhaps, earlier even than usual, the women and girls in the Armenian campaign were out yesterday morning.

"My girls were out at 6 o'clock at their corners," said Dr. Margaret Patterson, whose division of Y. A. D. nurses had charge of the Queen's Park district, beginning with College and working north.

"We have done very well, and I think we are finishing out the tagging is practically done by about one o'clock," was the further comment of the captain of the grey-uniformed group. All along the line reports were good.

"People have been so generous," was a frequent comment, while others equally loud in praise of Toronto people modified the statement by saying "most of the contributions are small, but everybody gives."

This was quite evident, for in the incessant line of people who surged up and down Yonge, King and others of the principal thoroughfares, were hundreds decorated with one or more of the bright yellow pennants with the black lettering.

Headquarters were at Babayan's, on King street, where 200,000 tags have previously been distributed among the forty captains Mrs. Babayan, organizer of the campaign, is a continuous all-the-year-round worker for the Armenians, her interest being of a special character, as her husband's people have not been heard from for three years, and she Mr. Babayan sends constant supplies to Constantinople, his old home, and to his mother, who has no knowledge that she has received them. The present campaign is in line, though not a fractional scale with the \$30,000,000 that is in process in New York for the suffering Armenians.

Among the taggers yesterday were a group of girls in Armenian costume who collected in the area of the Kings Edward, where a hurdy-gurdy sent out musical notes to attract the passerby. Little four-year-old Paul Courian was out with his yellow box—the youngest of the patriots doing his "bit" for his country.

Mrs. Babayan asked that her thanks be expressed thru The World to every captain and every worker, for their generous co-operation and hard work. The returns were brought into the Bank of Commerce, and after being counted were given in charge to Mr. Cameron of the bank, who is treasurer of the Toronto fund.

The following are the captains and the amounts collected. The splendid sum of \$2,356.17 collected by Mrs. Armstrong in the west-end district is expected that the amount will total \$15,000.

### ENEMY IS BEATEN ON MARKET AS WELL

The New York stock market was kept at the boiling point again all day yesterday and in one instance, that of the Baldwin Locomotive, the rise from the previous day was \$12 a share. The remarkable buoyancy of the stock is accounted for in two ways. First the confidence among the leading financiers of the early success of the allies, and secondly, the belief of the hyper-enthusiast that the German drive was having such results as would cause a collapse in American securities. It is stated that previous to and during the drive on the western front the German Americans thought to make a clean-up on the New York market by selling stocks short which were to be bought back when the channel ports were taken. This suited the New York insiders down to the ground and while the Germans were being trimmed on the western front the disloyal element in the States, was treated to a clean-out financial trimming. It is not thought that the short interest built up a month ago is yet used up although it is expected that the amount will total \$15,000.

# SOCIETY

CONDUCTED BY MRS. EDMUND PHILLIPS

The Duchess of Devonshire was present at the luncheon given under the auspices of the Prisoners of War Committee of the Laurentian Chapter, I. O. D. E., at Earncliffe, the house of Senator and Mrs. McLennan at Rockcliffe, Mrs. Malcolm Donald, Boston, was the speaker.

The annual games were held at St. Andrew's College yesterday afternoon, and it was a matter of congratulation that the weather was perfect for the onlookers, the college keeping off the wind. Many regrets were expressed that perhaps this would be the last time the parents and friends of the boys would gather there, as the government will take the college for a convalescent home. Dr. and Mrs. Macdonald welcomed the guests in the assembly hall, after Lady Hendrie had presented the prizes for the different events, and had been presented with a lovely bouquet of yellow and mauve Japanese iris by Master MacLean. The young people enjoyed the dance, ending with the singing of the school song "March, March on Down the Field." The hall was decorated with flags and large branches of wild cherry. The long tea-table was pretty with silver and pink snap-dragon. Miss McCollum, and Mrs. Montgomery, matrons of the upper and lower school pouring out the tea and coffee. Among those present were Lady Hendrie, Miss Hendrie attended by Mrs. Elliott Langstaff, New York, will be the guest of Mrs. John Bruce, the I.O.D.E. and next week will be the guest of Mrs. John Bruce.

The forty-seven graduates of Victoria College are having a house party at Annesley Hall which began yesterday. Last night the Victoria College Alumnae Association held a reception in South Hall, where the president, Miss M. H. Skinner, was the hostess.

Today the United Alumnae Association is giving a general reception in the Art Museum. Miss Currie, the acting dean, will hold a reception at Annesley Hall in the evening, and at the convocation on Friday the Victoria College Alumnae Association will entertain the faculty and the graduates, both men and women, at tea in South Hall.

The pictures were arranged around the table of the gallery, and included photographs of Lady Hendrie, Lady Hearst, Lady Moss, Lady Falconer, Lady Willison, Mrs. N. W. Plumptre, Mrs. H. D. Warren, Mrs. Arthur VanKoughnet, Mrs. Stearns Hicks, Mrs. Torrington, Mrs. E. Bristol, Mrs. Margaret Patterson, Miss Marjorie MacMurray, Mrs. A. Hamilton, Mrs. Albert Brown, Mrs. Hermon, Mrs. Euestis, Mrs. William Beasmore, Mrs. Sidney Small, Mrs. Arthur Poplar, Mrs. Wilton Cummings, Mrs. Ralph Connable, and from Montreal Lady Drummond, Mrs. Arthur Drummond, Mrs. Guy Drummond, Mrs. Stewart and Mrs. James Park.

Tea was served in the small dining-room, consisting of biscuits made of fine flour and cakes made of potato flour, and tea.

The members of the Queen Mary Needlework Guild, in their white dresses, veils and aprons, were in charge.

Those on the committee present were Mrs. H. D. Warren, Mrs. Bristol, Mrs. Poplar, Mrs. Wilton Cummings, Mrs. Arthur VanKoughnet and Miss Lucy McLean Howard.

A musical program was given by Miss Grant, Miss Campbell and Miss Doris Robinson. The 48th Highlanders Chapter, I. O. D. E., will present badges to the wives and mothers of the men of the regiment on the promise of the event, which is given annually in the interest of the hundreds who are sheltered within its walls, being one of the most successful in its history.

PRACTICAL DAILY GUIDE FOR VACANT AND BACKYARD GARDENERS ENLISTED IN GREATER PRODUCTION CAMPAIGN.

Here is a tip for the gardener who wants extra early and tender radishes, lettuce, mustard and cress. It is a popular practice in France and Great Britain, but one that is little indulged in on this side of the Atlantic. All the salad crops can be induced to be more sprightly in their growth if the row of patch is covered with straw for three or four days after the seed has been sown: The straw shades the ground, keeps in the moisture and rapidly draws up the young seedlings.

### WILD FLOWERS

BY Rachael R. Todd, M.D.  
**THE TRAILING MYRTLE.**  
Periwinkle. Vines minor.  
"But nature, in due course of time, once more shall here put on her beauty and her bloom."  
Have you found the trailing myrtle yet this spring? If not, use your eyes, for never have I discovered such magnificent specimens as are trailing here and there and everywhere in the nearby woods. In cool, moist spots, shady or half-sunny, along the edges of the marshes, down by the crumbling stream bank, hiding in and out along the rocks, and covering the old tree stumps with a glory of glistening green, the Periwinkle is truly, just now, the joy-of-the-ground, which, as Harriet Keeler points out, is the English name.

It is a few days early yet for the blossoms, but judging by the strong and unusually sturdy vines that have survived one of the severest winters we have known these twinkling blue blossoms will be wonderful. The Periwinkle is one of our most aristocratic wildflowers, tracing its lineage back so far into the ancient times that its beginnings are lost in mystery. Possessing, as it does, the most ancient of plant blood, as its "true blue" blossom indicates, the plant may travel where it pleases, with no loss of caste. And Periwinkle is such a wanderer that it may truly be called a tramp. And her curiosity is of the most insatiable kind. She mingles with all sorts and conditions of wildflowers, yet keeping strictly to herself. I have even discovered her hobnobbing with "Skunk-cabbage," which may travel where it pleases, with no loss of caste, yet for obvious reasons is not received in polite society. But Vinca minor cares nothing for that. Not creeping close along the ground, the vine lengths itself as it grows. The leaves come out in pairs, forming a little node which becomes a root stock since tiny rootlets strike down into the moist earth. From the axle of these leaves spring up short flower stems, one stem only from each leaf joint, and pushing up a couple or so of inches above the leaves, crowns it self with a small trumpet-shaped, saucer-topped blossom, five petals of the most wonderful deep royal blue. Some specimens produce white flowers, but these are not common in this country. The leaves are waxy, of an intense glistening green, and much like the well-known wintergreen leaf both in shape and size, save that they are rather less pointed. The plant may grow to be twelve to twenty inches in length, creeping and striking which comes within its way of progress.

The Myrtle is fairly easy to transplant, and as a consequence is a favorite with those who adorn window-boxes, rockeries and the like. Many domesticated plants are produced by growers for sale, and there are several sorts with variegated or striped leaves. The home varieties do not blossom, however, so readily as the wild sorts.

I have pointed out, the Periwinkle is a very ancient plant. Legend has it that once the plant did not trail, but grew as a bush. However, being "by the gods beloved," in mythical times, it was used as a national gift, and hence we read of poets, musicians, victors and heroes, whom the people delighted to honor, as being "myrtle crowned." Indeed,

Strenuous efforts are being put forward by the committee of men and women who are working in the interests of the House of Providence picnic to be held in the grounds of the institution on Victoria Day, and indications point to the promise of the event which is given annually in the interest of the hundreds who are sheltered within its walls, being one of the most successful in its history.

**A SHOWER FOR THE SAILORS**—An urgent request has been sent from Halifax for comfort. The Commodore Jarvis Navy League branch will receive comforts; don't forget sweater coats. Navy League, 24 King street west from 10 o'clock to 4, all this week.

In this respect the myrtle vies with the laurel leaf and the bay. As a consequence of all this popularity, so the ancient legends run, the myrtle became too proud, and for her persistence among the rocks and low places of the earth, to work out her own redemption and in time regain the high estate from which she was cast. The plant has ever been a favorite with the poets of all lands and all ages, and has stood as an emblem of eternity from time immemorial.

NEW ALLIANCE RESTS ON POOR FOUNDATION

Amsterdam, May 15.—The Yorwerts, the German socialist organ, commenting on the conference of the emperors at German main headquarters, says:

"An alliance can only rest on a secure foundation when concluded with the joyful assent of the peoples. But at the present moment, less than ever, can we count upon such assent in Austria."

"Germany today is cordially disliked in Austria, not only among the Slav majority, but among a considerable section of the German-Magyar minority."

The newspaper expresses the opinion that the conferences at headquarters dealt too much with dynastic interests and the distribution of the Lithuanian, Courland, Esthonian, Livonian and Polish thrones.

LIVE STOCK MARKET

Generally speaking there was an active market on the Union Stock Yards Exchange yesterday. Good to choice heavy steers and heifers, and anything choice in quality, in fact, was in strong demand.

That new high records are still being made was evidenced by the fact that 1 1/2 per lb. was paid for extra choice heifer and 1 1/2 for a straight lot of steers, with another bunch selling at 1 1/2 and a load of 21 steers at \$15.80.

Sheep and lambs held steady to strong, but the market for calves with heavy deliveries of poor quality, has been easier all week, and with a fairly heavy run today the prospects are for an easier feeling through the week.

The market for hogs held steady to 2 1/2, fed and watered, but the outlook, however, is for a weaker market yesterday was for a weaker market in the immediate future. This figure will show just conclusively the great strength of cattle trade in Ontario today.

Stocks and feeders showing good quality were steady to strong, and so were the milkers and springers, with a good crop.

Market Notes. A feature of yesterday's market was the new high record of 1 1/2 per lb. paid for the Harris Abattoir to Charles Zeigler.

The Harris Abattoir, which was sold to Henry Wade of Pickering, No. 1011, was sold to Charles Zeigler of the Harris Abattoir.

C. Zeigler & Sons also sold one load butchers, 1000 pounds, at \$14.50, one load, 1070, another load, 400 pounds, at \$13.00, and three cows, 1250 pounds, at \$12.50.

For the week ending May 15, 1918, the assets of the said estate will be distributed among the parties entitled thereto, having regard only to claims or interests of which the nature is clearly established by the facts of the case.

NOTICE TO CREDITORS.—In the Matter of the Estate of Jeremiah Nelson, late of the City of Toronto, in the County of York, Contractor, Deceased.
