EFFRAITS DENIED BY PARTIES MENTIONED TEL OF MONEY HANDLED

Hugh W. Hogue Admits He Bases Charges on Letters of Elliott's Retained by Him—Relates Conversations in Which Money for Bribery Figured.

At the request of Aid. Lynn, whose name appears in a most unfavorable light in connection with the alleged hooding of the Puddy abductor permit on Paton-road, a special meeting of the city council will be held this afternoon at 3 o'clock in the council chamber, and the affidavits made by Private Detective Hodgins, Secretary Scott of the Northwest Ratepayers Association and Hugh Hogue, who is the informer in the charges implicating Aid. Lynn, ex-Aid. Rameken and Geo. H. Elliott, a promoter, will come before the council.

There is the usual modest feeling in aidment circles in the fact that there is not much in the charges, but there appears to be quite sufficient to warrant a strict investigation, not only as to the charges as preferred, but as to the history of the Puddy matter which has been before the council for three years.

Ex-Aid. Rameken admits having spoken to aidmen concerning the case with a view to influencing them. George Elliott is reticent, but Aid. Graham, who was opposed to the proposal for an abductor in the west end, was approached by him in his interests.

Mr. Elliott was seen by The World on Saturday afternoon and was shown the copies of the affidavits. As to the letters written by Elliott to Hogue, he says he is now in a trust company vault.

Lot of Statements Lies He May Upset Some Says Hogue's Office Boy

Never Said He Did Never Forget That S. Hill, Nor Did He See the Big Amount of Money—Was Promised Protection, But Didn't Need It.

Willie Pegg, the stenographer, who was in Hogue's employ and who balked at the signing of the affidavit drawn up by Lawyer Paterson on information given by Hogue as to alleged statements made by the youth, in which he admitted knowledge of a bribery deal, has made up his mind to keep his own counsel for the present, and he is determined to keep silence. He is in his eighteenth year, and went into the employ of the Miracle Pressed Stone Co. in June last. About a month ago he gave up his situation there for no reason, as given by himself, that Mr. Hogue told him the Toronto branch of the firm was to be discontinued, and that his services would not be required. His employer and himself made up the entire staff of the establishment.

The youth, when seen yesterday at his home, 39 St. Clarence-avenue, was uncommunicative, but threw out one or two remarks from which it is to be inferred that he will have something to impart when the investigation is on. "A lot of the things I have been said are lies," he asserted in reference to the story told by his late employer. "The youth who has been said to have said 'you may upset some of the statements made.'"

"Perhaps you have something more definite to go upon than suspicion?" was suggested. "Oh, I don't know much about the matter; just one or two things I heard said," rejoined the lad.

Willie does not appear to have hinted at a great deal at home about any suspicions as to happenings in the office, but Mrs. Pegg, from her remarks has apparently been somewhat doubtful of the character of the business carried on.

SKIN STOLEN, ASKS \$10,000 WERE BUSINESS OVERDONE Volunteered Outlets to Save Woman's Life, But Doctor Illegally Exceeded His Benevolent Desires.

Spokane, Wash., Oct. 15.—George A. Loveloy, 46, who was selected as a charitable outlet to save a fellow Elk's wife, Mrs. Fred B. Searies, suffering from severe burns, yesterday brought suit against C. P. Thomas for \$10,000 as the value of 50 inches of skin which he says he had cut off his legs while under chloroform.

Mr. Loveloy asserts that it was recommended to him that the surgeon should cut off his thighs and three or four strips of cuticle three or four inches long and three-fourths of an inch wide. After the operation Loveloy found that the fronts of his legs between the knee and hip were stripped of skin, and it was ten days before he was able to leave the hospital.

Mrs. Searies was burned in an accident at the Spokane fair. She was brought to Spokane by a train. A number of Elks volunteered to furnish cuticle to cover the burned places, but Loveloy proved such a promising subject that while under chloroform all the skin necessary was given. An incident between Loveloy and Mrs. Searies' husband and brother was peeled off his legs.

The grafting operation was successful, but the woman was so weakened from long illness that she died.

PIANOS AND ORGANS

that must be Sold Quickly

The Nordheimer business in the renting of Pianos alone is an immense one. As we rent hundreds of new Pianos there is a continuous inflow of returned rentals, practically good as new. We also take a very large number of Pianos and Organs in exchange when selling our Steinway and Nordheimer Pianos. Many of these are almost new. As we require every inch of our floor room to display new Pianos, and our storerooms being overcrowded, we have had these instruments put in thorough order, like new, and have marked them at the very lowest possible price—unheard of, in fact—and offer exceptionally easy terms. If you are thinking of purchasing a Piano this fall we would positively recommend making a selection now, as such an opportunity seldom happens in the ordinary course of business.

Six Lives Lost; Thirty Hurt
Mighty Rush of Water Sweeps Five Steerage Passengers to Death and Straws Deck With Injured, One of Whom Dies—Disaster Came Unheralded.

New York, Oct. 14.—Five lives are known to have been lost and more than 30 persons injured, some of them seriously, on the Cunard Line steamer Campania last Wednesday, when a gigantic wave rolled over the vessel and swept across a deck with steerage passengers. By sudden death was the coming of the disaster and so great the confusion which attended and followed it that even the officers of the ship were unable to estimate the full extent of the tragedy. It is possible that the five persons known to be missing from the steerage, may not constitute the full number of dead.

When the Campania reached quarantine to-day ten of the injured passengers were still in the ship's hospital, some of them seriously hurt, and a score of others were being treated in the city hospitals.

The steamer was plunging along under full headway when the sea was running, but the weather conditions were far from unpleasant as the ship approached the harbor. The water was calm and the air was clear. There was nothing to indicate the approaching disaster, when suddenly a great wave struck the ship and rolled over her.

Salvaged to Their Waists.
The wave boarded the steamer about midships on the port side and swept clear of the main deck, completely filling the space between that deck and the deck above and carrying overboard a large number of the passengers. The water was so high that it reached the waists of the passengers on the upper deck, and many of them were swept overboard.

Strewa With Injured.
So great was the volume and force of the rushing water that it was impossible to see the faces of the passengers who were swept to their deaths. Others dashed against the rails and other parts of the ship, and many were injured. One young woman had both legs broken, and a high and several persons suffered broken arms and ribs, while more than a score were bruised and lacerated.

When the wave cleared the vessel the forward part of the ship was tilted and the stern was high in the air. The captain, Mr. Strewa, was busy in attending to their hurts. In the meantime an expert of the steamer

As Becket Dies, So Irving
Last Words of Tragedian Those Which He Spoke So Often on the Stage—Signs of Collapse Noticeable for Weeks Past.

London, Oct. 14.—Seldom has the death of a public man in England called out such a universal expression of sorrow as has followed the tragically sudden death of Sir Henry Irving, the actor, who died at his home in Bedford square, London, at 11 o'clock this morning.

It is now known that Irving lost vast sums during recent years in the elaborate but unsuccessful theatre of the Strand, "The Lyceum Theatre," and "The Lyceum Theatre." He was a man of great energy and ambition, and he was always ready to take the most radical steps to secure the success of his projects.

Princesses Digby Bell in "The Education of Mr. Pipp."
Grand: "Me, Him and I."
Maletic: "When the World Sleeps."
Sheas: Vaudeville.
Star: Dreamland Burlesques.

The newest comedy announced for production at the Princess Theatre for the first half of this week, with Wednesday matinee, is "The Education of Mr. Pipp," which is a sufficiently illuminating to most readers of magazines and students of contemporary art, inasmuch as it indicates that Augustus Thomas, the brilliant playwright, who has given the American stage its greatest success in the last few years, has chosen as the basis of his latest effort the pictorial side of the ideal of that premier exponent of the ideal girl, Charles Dana Gibson. Digby Bell is the star.

"Me, Him and I," last season's successful spectacular musical comedy, grand, which will be the attraction of the Grand all this week, provides a clean, lively, laughable evening's entertainment. The principal comedians of the troupe are a "bustled" Indian medicine show, Billy Watson as the merry and extremely funny Doctor Con, "the only Irish Indian in captivity."

Sheas' program will be headed by Lind, who has been a sensation on the roof gardens of Chicago and New York all this summer. Lind is magnificently talented and a claimed to be one of the highest order, and his selections are always of the best. Wilfred Clark will be seen in his new dramatic sketch, "The Boy Comedian," assisted by Theo. Doreto, international eccentrics, are the funniest acrobats that have been seen in this city. They are assisted by the English comedienne, who will sing some new songs. Cartmel and Harris present an artistic singing and dancing specialty, and the Pantzer Trio are gymnasts of the highest order.

A Hunter's Paradise.
Mr. John T. Miner of Kinsville, Ont., writes: "Our hunting ground is about three miles west of the Canadian Pacific railway, about 150 miles west of Sudbury, Ont., near Blasco. We camp on the side of the railroad and get our mail daily. There are moose, deer, bear and caribou all within two or three miles of the railroad. Last fall I saw fifty-six deer and eight moose. Our party killed four bull moose, the main line of the Canadian Pacific is over our party four and we killed all the deer we wanted. There are usually four to six in our party, and we always secure all the game we want without a guide."
