Every shoe in this store is distinctive in style—exclusive in color—exclusive in price—and sold at the price fixed by the makers.

Some very new shades and shapes arrived yesterday. I want you to see them. They are very catching.

"Walk-Over," \$3.50. "Korrek Shape," \$5.50.

Thousands to choose from. Every desirable shape and shade.

The Toronto Vinegar Co. (LIMITED)

180 Victoria Street, Toronto

INCORPORATED 1890.

CAPITAL, - \$50,000.00 1000 Shares of \$50.00 Each.

The Toronto Fruit Vinegar Company (Limited) was incorporated for the purpose of manufacturing cider, vinegar, pickles, sauces, and other table delicacies.

In 1894 their factory, which was at Cedar Grove, Ont., was found to be inadequate, and a much larger parcel of land was purchased, and a factory erected thereon in the village of Stouffville, where the business has been carried on successfully up to the present time.

While the stock issued is only \$19,500, an inventory of the factory and plant shows present worth of the company to be \$24,191.53. This does not include the cost of establishing this well developed business, and we feel sure that it is a rare chance to purchase stock that will pay a good dividend from year to year.

With this increase of capital it will enable the company to establish the Toronto factory, and thereby increase their manufacturing at a less cost than at present, and also manufacture greater quantities of the different goods.

Subscription books will be opened at the office and salesroom of the company Wednesday, July 5th, and close Monday, July 10th.

The directors reserve the right to allot any such subscriptions and for such amounts as they may approve.

500 Shares of \$50 Each at Par \$25,000

Payable forthwith upon allotment.

Forms to subscribe may be had on application.

## BIG DEAL IN REAL ESTATE.

The Jamieson Corner, 40x80 Feet, Sold by the Ontario Government for \$101,000.

## EXTENSION OF VICTORIA-STREET

Favorably Reported on by Commissioner Fleming—New Budget From City Hall.

A big deal in real estate was consummated and registered yesterday afternoon. The 4000 foot lot upon which the Jamieson building stands was sold by the Ontario Government to the trustees of the estate of the Hon. William McMaster, for \$101,000.

This is at the rate of \$25.25 per foot, with a depth of 80 feet. The transaction is a striking commentary on the refusal of the trustees to sell the Knox Church site, a much larger property, for \$120,000 lately.

## Report on New Hotel.

The report of the Assessment Commissioner to the Board of Works today will be strongly favorable to the extension of Victoria-street for the immediate benefit of the projected new hotel. The Board required a report on three matters, the value of the extension as a street, as to its effects on surrounding property, and as to the legal aspect of the proposition.

The commissioner reports that in the interest of the whole city the work should be carried out. He would, however, assess a small proportion of the cost of the extension to be determined upon in accordance with the accruing benefit. The legal aspect of the case simply is that legislation to confirm the city's rights will have to be secured.

commends further that the sewage west of Miller-street should be treated for use as water, separately. He would extend the Fort Millie-street sewer along Dominion-street and the Miller-street sewer to the end of the wharf, at a total cost of \$100,000.

To secure more wharfage accommodation, an offer by Mr. George Fears of the wharf on the west side of George-street slip, at \$200 and taxes for the year, and the whole wharf, 520 feet deep, for the next four years, at \$700 and taxes per annum, is recommended for acceptance.

To secure a car line from Avenue-road to the Union Station, Mr. Eastwood has secured legislation permitting the running of cars through the University ravine.

However, he adds, "before recommending any more street railway routes, I desire to call the attention of the committee to the fact that the Toronto Railway Company have so far failed to comply with the order of Council to make certain extensions of their system already recommended by the City Engineer and endorsed by Council, and it would appear that they have no intention to make these extensions. I, therefore, think it would be advisable for your committee to consider the question of taking legal proceedings to compel the company to carry out the orders of the Council."

The suggestion of H. H. Dewar to protect the Union Station at railway crossings from York-street to Berkeley-street, is confined to the Board of Control, as a matter of policy.

A much-needed brick sidewalk is recommended for the King-street frontage of the old U.C.C. grounds.

New Pavements. Pavements are recommended as follows: Admiral-crescent, asphalt, Lower-avenue to Bernard-avenue, cost \$80,000, city's share \$40,000; Buchanan-street, brick, Yonge to Herby, cost \$40,000, city's share \$20,000; James-street, macadam, Albert to Louisa, cost \$20,000, city's share \$10,000; Markham-street, asphalt, Harbor to Bloor, cost \$11,140, city's share \$5,570; Broadway-avenue, cedar block, Spadina-avenue to 180 feet west, cost \$48,000, city's share \$24,000; Carleton-street, cedar block, St. Patrick to 376 feet north, cost \$74,000, city's share \$37,000; Green-street, gravel, Yonge to Queen's Park-crescent, cost \$25,000, city's share \$12,500; Palm-street, asphalt, Arthur-street to College, cost \$10,120, city's share \$5,060; Florence-street, cedar block, Dufferin to Brock-avenue, cost \$19,400, city's share \$9,700; Crescent-road, macadam, Yonge-street to Rosedale-road, cost \$25,000, city's share \$12,500; Gifford-street, cost \$18,000, city's share \$9,000; Low-herg-street, asphalt, St. George to 125 feet east of Bedford-road, running north, cost \$72,000, city's share \$36,000; lane, first south of King-street, brick, John to Dorset, cost \$100,000, city's share \$50,000.

Sherbourne-street Track. Also the track allowance on Sherbourne-street, from north end of bridge to south end, at South Drive, brick, at cost of \$27,000.

Mr. Rust says that \$600 is useless for the Eastern-avenue cinder path. King-street block bicycle paths, from Bathurst to Dufferin-street, would cost \$2000.

UNCLE SAM'S BIG TANK is to conquer the Philippines—New Troops for General Otis—Many Applications From Men.

Washington, June 29.—The first volunteers to be raised for service in the Philippines will be those for the skeleton regiment now being formed by Gen. Otis. It is not believed there will be the least difficulty in obtaining these men. It is probable that some time will elapse before the troops of the provisional army are sent to Manila, but meanwhile they will be drilled and taught marksmanship in camp. It is estimated that three months are required to make soldiers of new recruits. The officers of the War Department think that a number of volunteers now coming home will desire to return to the Philippines for a short service after they have had an opportunity to see the home and friends. These men are regarded as the most desirable for the regiment being organized by Gen. Otis.

# The ... Truth About the Ha Wood Indictment

A despatch published in the World of June 24 announces that an indictment has been secured at Pittsburg against John H. Patterson, president, and Joseph S. Crane, M. N. Jacobs, D. E. Perkins, N. F. Thomas and Thomas Savagere, agents of the National Cash Register Company, charging them with conspiracy. The indictment is based upon an affidavit sworn to by W. H. Gill, agent for the Ha Wood Cash Register Company at Pittsburg.

Gill was formerly in the employ of our Pittsburg agent, Mr. M. N. Jacobs, but was discharged for cause. He was appointed sales agent for the Ha Wood Cash Register Company.

The above statements, as they appeared before an alderman in Pittsburg and swore that the National Cash Register Company's officers and agents, maliciously conspired and agreed to defraud the Ha Wood Cash Register Company, and, by dishonest and unlawful acts and false statements, caused and destroyed and ruined the business of the Ha Wood Cash Register Company.

The reason they failed to succeed in Pittsburg was because of the inferior quality of their machines, which were found to contain many serious defects and failed to give proper receipts to the merchants.

The Ha Wood register having been found to infringe a number of our patents, the United States court four months ago rendered a judgment against our company. We have also pending in various United States courts a large number of suits against users and sellers of the Ha Wood registers.

Recently we secured control of the fundamental patent on multiple-counter and duplicate cash registers, and it is now known that the registers made by the Ha Wood Company have been served upon this suit will be commenced under this patent. The Ha Wood Company is the manufacturer of their registers.

Not content with encroaching upon our patent rights, the Ha Wood Company and its agents have circulated concerning us many false and untrue statements. In consequence of which we have used them for \$150,000 damages; and Mr. John H. Patterson, president of this company, has entered a libel suit against them for \$100,000 damages for printing false statements about him personally.

For some time past the hope and ambition of the Ha Wood Company has been to sell out to the National Company. We have declined to make them any offer, and they have never resorted to any kind of scurrilous advertising and personal attacks upon this company, its officers and representatives.

We desire that the public should know that under no circumstances and at no price will we ever buy out the Ha Wood Cash Register Company, and we are not to be intimidated by any of the threats which have been made against us. We are guilty of no offense against the law of any state, and have done nothing that is not legal, honorable and businesslike.

# The New Hat

## Don't Forget That!

140-142 YONGE ST. COR. TEMPERANCE ST.

To-day Dineens remains open until 10 p.m. for the convenience of patrons who will not have time to stop at the store in the morning for the hats that are to enhance the enjoyment of Dominion Day outings to-morrow.

and every hat purchased up to the closing hour will be delivered to any address in the city.

We have never made such extensive and elaborate preparations for a new hat event as to-day's displays of correct, up-to-date midsummer hats for the holiday outing to-morrow. There are no less than ten different styles in featherweight felt hats of bright tints to choose from, and the shapes are the latest—a little fuller in crown and wider in rims than the forms which came out earlier in spring.

In buying a new hat at Dineens to-day you are sure of the styles that you will see most in vogue next month.

New styles in straw hats for July, which arrived at Dineens from New York yesterday, are quite a bit nobbler than anything that came out and went out a month or so ago. There are midsummer fancies in the weight and get-up of the new midsummer straw hats which are unmistakably different from the spring reminiscences in straws seen most anywhere else. The constant freshening of stock at Dineens is the natural operation of a great big business.

You don't expect this in a smaller concern with a smaller trade—and, at Dineens you are not fooled in either the styles or the prices.

For ladies, there is a new caprice of fashion in both felt and straw hats—mere wafers in weight, but decidedly dressy—which will be in great vogue all through the month of July and into the fall season. A rakish elegance is expressed in an expansive rim, surmounted with a dainty little crown, trimmed in exquisite taste with white, and variegated China silks in plain and fancy effects. A full feathered eagle's quill, thrust in the side of the crown trimming, adds the dash which distinguishes the Ladies' "Rough Rider" from any other outing hat-style designed by the men who fashion the military ideals of the day. These hats are shown at Dineens in all the shades to suit different tastes—in white, pearl, turquoise, tan and the other fashionable tints.

and the prices at Dineens are no higher than those of any other store in the city. The quality of the hats is of the highest and is offered at elsewhere.
