## COMES HERE TO GET \$600,000 FOR Y.M.C.A.

### C. S. Ward of New York Now Here to Organize a Record-Breaking Campaign for Subscriptions.

"We need \$600,000. We shall get it." In these terse sentences C. S. Ward of New York, secretary of the International Committee of the Young Men's Christian Association, summed up the situation regarding the coming campaign of the Toronto branch of the Y.M.C.A. for building funds.

Mr. Ward, who is the originator of the short-date campaign, arrived in this city yesterday, and when seen by The World, gave an interesting account of previous campaigns in which he has figured.

Well over the medium height, slightly bald, with the broad forehead of the thinker, and the square jaw of the man who does things, Secretary Ward does not waste time on elaborate details, but gets right down to figures and facts. Recently an extra \$100,000 was raised by him for the Y.M.C.A. of New York, where \$500,000 was obtained, and in Chicago \$350,000 was subscribed in one week. Altogether in five years the sum of \$10,000,000 for Y.M.C.A. purposes has been raised through campaigns organized by him, and, unlike many other noted generals he has not yet tasted the bitterness of a defeat.

**Modern Buildings Needed.**

"Toronto is evidently in need of up-to-date Y.M.C.A. buildings," he went on to say. "Several people have asked me if Canada is not behind the times in this respect. Personally, I do not think so, for, in my opinion, such cities as Montreal, Toronto and Ottawa compare favorably with those across the border."

"Now, as to this campaign, I should like to say that I have never gone into one where prospects seem so favorable as they do here. You Y.M.C.A. leaders are all prominent citizens, first-class in every respect, and also I have the strengthening knowledge that my best campaigns have been those conducted in Canada."

Take the case of Ottawa. Here we have a city of some 70,000 people. Yet, on the last day of a \$200,000 campaign, we raised \$60,000. Think of that, and also bear in mind the fact that for three years that sum stood as a record, until in Cleveland on the last day of our campaign we raised \$300,000. But, of course, proportionately, the amount raised in the federal capital was larger.

**Largest Yet Attempted.**

"In Toronto, however, we shall eclipse this record. The sum we have here is the largest we have yet attempted in the time, but we shall get it just the same."

Mr. Ward then referred to the mammoth clock which plays such a prominent part in all his Y. M. C. A. campaigns. With a dial diameter of 25 feet, the progress of the campaign will be recorded. Every hour the hands will be moved forward, indicating exactly how much has been raised; how much still remains to raise, and how long to raise it in. The clock will be fixed on a level with the sixth storey of the Lansden Building on Adelaide street, overlooking Yonge.

The first shot in the campaign will be taken at a complimentary banquet to the British Ambassador at Washington, Hon. James Bryce, on the 28th April, at the King Edward, when 500 guests will be present.

Three committees, consisting of about 100 workers each, sub-divided again into bands of ten, under a captain, will conduct the campaign. Mr. E. B. Wood will be at the head of the citizens' committee; Harry Ryrie, the business men's committee, and John Turnbull, the young men's committee. Several conditional promises have already been received by the committee, thus ensuring a good start for the whirlwind campaign.

## ESTIMATED HIGH IN A REPORT TO GOVT.

### Engineer of Alberta Railway Says That His Own Specifications Were Better Than Those Forced on Him.

EDMONTON, Alta., April 19.—(Special.)—On the stand this morning before the royal commission, Engineer A. L. Waddell told much of interest relative to the A. and G. W. R. He practically admitted giving a report of the estimated cost to the government that was higher than a report, supposed to be similar, which was on the previous file with the company.

He said all his estimated figures were higher and on the safe side, but he was working for the government and endeavored to protect him. He admitted making a private confidential report to Clarke for the Royal Bank, in order to get the bank to finance for them. This report had shown a probable profit of \$1,050,000, based on a cost of \$17,000,000, or a profit of \$100,000 a mile on the 285 miles of the road. Waddell said he was going to build a better road than the specifications called for. The government had practically forced the specification on him when he had better ones to produce. Specifications Cheapened.

In answer to a question as to why he wired in cipher to Clarke, warning him against guaranteeing the specification of the road, Waddell said he knew that the million dollar guarantee promised by Clarke in his letter to the government was foolish, as it would prevent getting money from the bank, since it was different from the agreement with the bank. He admitted that the A. and G. W. R. Co. is paid a salary of \$12,000 to its general manager.

Speaking of the specifications which have been accepted by the government, for the construction of the road, he said he would be ashamed to build a road under those specifications, and that the Alberta Government had forced the specifications on them.

The specifications now in effect allowed for the building of a road 10000 cheaper per mile than those he proposed.

He said also that they had bought 25,000 rails for the \$28 and \$40 per ton laid down in Edmonton.

**Made Government Come Up.**

Waddell said Clarke had first demanded a bond guarantee from the government for the bonds. He finally compromised at \$20,000. Waddell had accompanied Clarke to Europe twice to dispose of the bonds. He indicated J. S. Morgan of New York had purchased the bonds outright.

The government gave the \$20,000 guarantee because it had been shown reports from A. and G. W. engineers to the effect that the road, without report for the Royal cost \$30,000 at least per mile. While these reports were on the government files there were in the company's office official files of other reports showing a much lower cost. Encouraged by Mr. Bennett, he admitted that, acting under orders from Clarke, he had prepared a confidential report for the Royal Bank to the effect that, with proper handling, the road could be built for \$17,000,000. The Royal Bank had agreed to finance the road, but, as the latter doubtfully sure of no excessive expenditure, it appointed a consulting engineer itself, J. S. Darling, who also made a report based to a certain extent on data supplied by Waddell. He understood that it was nearly \$18,000,000.

In the matter of terminals, the Alberta Government had suggested \$250,000, but Clarke stuck out for \$400,000, and got it.

## DEMOCRATS WIN ANOTHER REPUBLICAN STRONGHOLD

### Monroe County, N. Y., Flops Over—Moral Issue Helped, But Tariff Had Its Effect, Too.

ROCHESTER, N. Y., April 19.—Between 6000 and 8000 voters of Monroe County changed from the Republican to the Democratic column today and elected the first Democratic congressman that has represented the 22nd district in 20 years. James S. Havens, a Democrat running on a tariff reform platform, defeated Geo. W. Aldridge, for a score of years the leader of the county Republican organization, by 6000 votes.

Monroe County is normally Republican by 6000. James Brock Perkins, whose death necessitated the special election today, carried the district in 1908 by 10,167 votes.

Havens had arrayed against him one of the strongest political organizations in the state. Yet, in a campaign lasting but 17 days, and with hastily constructed machinery, he accomplished one of the most remarkable overturns in political history.

The result of today's election takes its place beside the Democratic victory in the 14th Massachusetts district, when Eugene E. Foss was sent to congress from a district supposed to be as rock-ribbed Republican as this one.

Mr. Havens rode to victory on a platform advocating tariff reform in the interests of the consumer, a revision of the duties on wool and woolen goods, removal of the tax on hides and lumber in the interest of cheaper houses, and for the preservation of forests, a removal of the tariff on iron and steel, and, finally, advocating independence of all political bosses of any party.

Mr. Aldridge, his opponent, contended that the general proclamations in favor of the policies of the Republican administration. On the tariff proposition he was regarded as a maverick.

Both candidates declared for reciprocity with Canada, and Employee Compensation Act, a parcels post, and a postal savings bank, also Aldridge's position on these matters was less clearly defined than his opponent's.

The Democrats acknowledged, however, that one of the main factors in today's reversal of political sentiment was a personal issue raised by Aldridge's record as party boss, and evidence presented at the recent insurance investigation conducted by State Superintendent of Insurance Hotchkiss. Mr. Aldridge had acknowledged that he received a \$1000 cheque from Elijah Kennedy, an agent of the fire insurance companies, but denied that he benefited personally by the transaction. He declared that he turned the money into the treasury of the Republican organization.

This so-called "moral issue" was taken up by the churches, and no less than 20 clergymen announced themselves in Havens' favor.

"The result of the vote in the city wards shows that the revolt of the men who most feel the high prices of necessities against the Payne-Aldrich tariff bill, has not been exaggerated," said Havens tonight.

## MONTREAL STREET RAILWAY GIVES INCREASE

### Rate to be 15 Cents Minimum per Hour and 21 Cents Maximum.

MONTREAL, April 19.—(Special.)—The Montreal Street Railway Company have given 2000 conductors and motormen a cent and a half increase. This means 15 cents minimum per hour and 21 cents maximum.

## LITTLE EVA IN A FIDGET.

Little Eva has found her Uncle Tom. Ever since the little union newboys objected to paying more for the sin-clear Star than they paid for four out of the six Toronto newspapers, Little Eva has been in a fidget.

Little Eva fidgeted till she brought John Ross Robertson home from a well-earned rest in the south. That generous soul was fretted till he consented to use the broad back of the Telegram as a shield from behind which Little Eva could badger the little union newboys.

Still fidgeting, Little Eva sniffed the woodpile and in last night's Star solved the mysterious cause of her fidgets by revealing the Echtopan.

Little Eva says The World is Uncle Tom.

The World had hoped that it would not have to play the role of Uncle Tom; but since we are cast for the part, we will accommodate Little Eva.

The World is in sympathy with the little union newboys of Toronto. Its sympathy and support date from May 9, 1908, when The World settled its strike with the newboys, a strike that was fomented, fostered and fretted by Little Eva. In that settlement The World recognized the union of the little newboys and agreed to help them in every reasonable way to better their condition. In that settlement was born the idea of the Union Newboys' Home.

And for this The World needs must play Uncle Tom for Little Eva.

The World's advice to Little Eva is to cease fidgeting and give the little union newboys of Toronto a square deal. Our grateful opinion is that The Star is not worth more than six cents a dozen as the newboys claim. And this opinion is seconded by Little Eva herself, for The Star is sold outside of Toronto for \$1.50 a year, less 30 cents commission a sum total of \$1.20 a year.

Why should the little union newboys of Toronto be sacrificed to make cheap reading for the great unwashed outside of Toronto? Little Eva, be a good girl and don't fight with the naughty boys!

## MANITOBA STOCK SELLS WELL

### First Issue Underwritten in London at 103.

WINNIPEG, April 19.—(Special.)—Hon Hugh Armstrong, provincial treasurer, has received a cable from the government agent in London, stating that a million dollars of new Manitoba stock has been underwritten at 103. This is the first sale of stock since the new plan was inaugurated. Formerly each issue of provincial bonds was sold separately, but now all the provincial stocks and listed accordingly. It was thought this would appeal to the investor and place the provincial credit on a more substantial basis.

## REGINA'S TRACTION FIGHT

### Public Ownership Sentiment Opposed to Granting Private Franchise.

REGINA, April 19.—(Special.)—With the Lord's Day Alliance and Trades and Labor Council both lined up in opposition to the granting of street railway franchise to J. W. Deconroy O'Grady, and other Winnipeg financiers, there appears a likelihood of a strong fight being made against the passing of a street railway bylaw, which is to be voted upon May 6.

Public opinion being always strongly in favor of public ownership of utilities and with an estimated profit of over \$50,000 on the city's water works an lighting department during the present year, there is a growing feeling against granting the proposed franchise.

Advocates of public ownership have formed a strong committee to conduct a fight against the bill.

## PREMIER FLATLY DECLINES TO ACCEDE TO OPPOSITION DEMANDS THAT FLEET SHALL AUTOMATICALLY ENGAGE IN ANY OF GREAT BRITAIN'S WARS—MUST NOT FIGHT WITHOUT ORDERS.

### AMENDMENT IS MADE TO VESTED AUTHORITY.

OTTAWA, April 19.—(Special.)—Interest in the navy bill is not yet dead, so far as the commons are concerned. The fight in committee on the bill to-day was fiercer than ever, and Mr. Borden and the premier, with Mr. Fielding as his quick-firing gun, had many warm exchanges.

Mr. Borden and Mr. Doherty, who, by the way, to-day occupied Hon. Mr. Foster's accustomed place at Mr. Borden's left hand, had an opposition similar to those of the Militia Act, making the royal prerogative very clear, being accepted by the premier.

But in regard to the question whether the Canadian navy should assist the empire automatically, the premier insisted that there would be no delay in the hour of danger, but that Canada would retain complete control of her own navy.

Mr. F. Maclean suggested as a compromise that in time of emergency parliament could, by order in council, place the fleet temporarily under control of the British admiralty.

The effect of the day's battle on Sir Wilfrid was plainly visible. It was very hoarse and very tired at the end of the day.

**Department Created.**

The house lost no time in getting down to business this morning, and the premier soon explained the proposed creation of the naval service department. The department of marine and fisheries was already overburdened and it had long been desired to subdivide it, if it could be possibly done. The new department would be under the control of the minister of marine, with a deputy, and would administer the navy, the fisheries, the coast guard, the hydrographic service, the tidal observation service and the wireless telegraph service. These plans were approved.

Mr. Northrup objected to clause 4, which vests in His Majesty the King the control of the naval forces, thru the minister of marine, as a representative. It was explained that the wording was similar to the Militia Act, and as embodied in section 3 of the B.N.A. Act. It could not be expected that under the constitution of Canada or any of the young daughter nations of the empire the minister could exercise his authority directly; he must be done thru his representative.

"The clause is, in fact, a guarantee of reasonable government," said Mr. F. Maclean. Mr. Northrup, however, argued that the King alone could delegate his authority, and that the parliament of Canada has not that power.

**Passed to Parliament.**

Sir Wilfrid went on to say that the prerogative of the crown over the army and navy had long passed into parliament, and as the British constitution was introduced into Canada by the British North America Act of 1867, and as the authority of the crown over the army and navy was then limited, he contended that we had complete control.

The minister of justice, after declaring that he would not remain for a day in the government if he thought there was an intention in this bill to undermine Canada's connection with the mother country, pointed out that in 1865 the British parliament declared the British North America Act to establish a new and yet two years later the same body had declared that the Canadian parliament could establish a navy.

Limited by B.N.A. Act.

Mr. Doherty said Canada had not the power to determine where the command of the forces should be. That question had been disposed of by the British North America Act. It was

### ONE EFFECT OF HIGHER DUTY—LLOYD GEORGE REINTRODUCES HIS FAMOUS BUDGET.

LONDON, April 19.—David Lloyd George reintroduced last year's budget in the house of commons to-day.

He declared that he realized that the present deficit of \$131,240,000 would be more than wiped out when all arrears had been collected, and that there would be an annual surplus of \$14,300,000.

If the budget had been passed as usual last year, he said, there would have been a surplus of \$21,000,000.

The chancellor commented upon the remarkable decrease of 32 per cent in the consumption of whiskey, which he attributed mainly to the extra duty imposed.

The gross revenue from spirits as compared with the estimated figures was \$14,000,000.

## FIVE YEARS FOR PERJURY

Justice Latchford's Sentence on Disorderly Housekeeper.

PORT ARTHUR, April 19.—(Special.)—A sabbath court occupied all day with W. Armon v. Redden, in which plaintiff sought \$10,000 for alienation of his wife's affections. The jury found for the defendant. The evidence indicated that Joseph Redden, a well-to-do and respected citizen, was being sued for damages in the place of his brother, Sam Redden, who is a human wreck. Joe Campon, charged with perjury, for having sworn, when on trial before Magistrate O'Brien at Fort William, on a charge of keeping a disorderly house, that he was married to Mary Sweet, pleaded guilty, and received a five year sentence. Justice Latchford commenting severely on the crime of perjury as undermining the foundations of justice.

# The "Greater" Cleveland

"Do you recognize the old-time poster of the Cleveland bicycle? This was the banner that heralded the 'bicycle-age.' It is front-to-day in the big bicycle revival."

And it stands to-day, just as of some years ago, for the best there is in "Bicycledom." It is as far in advance now as then, because it represents the "last word" in bicycle building. Cleveland has all the comfort-giving features that have made modern wheeling pleasant. It sells at a price that must be asked for an honestly made bicycle.

"The bicycle is a great blessing—it is good for the 'Blues' for brain, for dodging process servers. I have tried it in each case and feel much better, thanks."

EUGENE ZIMMERMAN, Caricaturist of "Judge," New York City.

THE HYGIENIC CUSHION FRAME.—If there is one invention more than another in the bicycle line that has helped to popularize wheeling, it's the Hygienic Cushion Frame. "Makes all roads smooth," is the slogan that carries it to popularity, and it has lived up to the advance notice. The Cushion Frame gives "Fullman Comfort" to bicycling.

CANADIAN CONTROL ASSERTED.

The debate on the naval bill at Ottawa yesterday turned on two points, and on one or both of these there may be a division on the third reading. They are, first, as to the command, control, and organization of the Canadian navy, the bill practically asserting Canadian command and control by taking such command and control explicitly in this or preceding statutes; and, second, as to the action of the Canadian fleet in time of war, that the direction of such action, whether war or no war, must rest in the Canadian Government and parliament. This, too, is explicitly set out in the present bill.

In other words, the Canadian parliament is retaking control of the Canadian navy, and the going to war, and the bulk of Canadians, we imagine, believe this to be safe and sound doctrine. As a matter of fact, should war arise, the Canadian and English fleets will be found as one force, moving as one unit. The fleets will be unified by temporary orders-in-council, not by statutes or prerogatives of the crown.

POSITION IS EVERYTHING.

Once more the city is getting in wrong in the fight with the street railway. This time there is no ground for a fight. The privy council has twice decided that the street railway can track where it pleases on Toronto streets. The last fight on this point resulted in an expenditure of \$9000 and a decision which the city hall people said was anticipated. Common sense will declare that another fight of that kind will have a similar conclusion. Whatever the city does it will not get the street railway to give away its position.

It ought to be made quite clear that the people at the city hall, are not playing the street railway game of making the people so sick of city hall methods that they will be willing to hand the franchise over to the company (see more rather than suffer from the bickering and blocking which appear to be the only results attainable at present).

If the Street Railway Company desires to lay tracks on the streets of Toronto within the old boundaries, he will be a smart man who will stop it, in the face of the privy council decision. The World has all along declared that the only way of solving the problem is to expropriate. What has Mayor Geary to say to that? But if the city is not willing to expropriate, then there is no use in running against the stone wall of the privy council's judgment.

The remedy that is to be applied to ameliorate the situation is to be found in tubes. But the present attitude of the mayor and council is to delay consideration of this plan and stall off the construction of tubes until the city is forced to make a new deal with the street railway company on a basis of handling the traffic of the annexed districts. This is the real wish of the company, and those who are assisting by delay and obstruction at the city hall to-day are helping to play that game.

No real fault can be found with Mr. Fleming's plans if the privy council decision is to be observed. If Mr. Drayton advises the city to go up against the privy council again, we may have to submit to another two years' delay. But Mr. Drayton has not so advised yet. Until he does, it will be so advised yet.

If the city takes Mr. Fleming at his word and insists upon him fulfilling his present offers, and has the Ontario Railway Board to back up, Toronto for the first time in twenty years will be in a strong position in relation to the company. The city could go ahead and provide tubes for the outgoing traffic, and entrances for the radicals. The street railway would then have no case to confront the railway board with should it default in its promises. It is fully to fight the railway company on technicalities. Let the city go about the business as a business firm would, and the matter can be settled up in very short order.

If Toronto is to fight the street rail-

MARVELOUS POWER OF FRUIT JUICES

Valuable in Many Diseases. "Fruit-a-lives," the Famous Fruit Medicine is Making Many Wonderful Cures.

The whole world is beginning to realize the value of fruit in curing disease. To Canada belongs the honor of discovering the one method by which the juices of fresh, ripe fruit could be rendered so active medicinally as to be an infallible cure even when drugs are failures.

"Fruit-a-lives"—the wonderful tablets made of fruit juices and valuable tonics—have proved their value in thousands of cases of Constipation, Biliousness, Indigestion, Dyspepsia, Rheumatism, Neuralgia and all Skin, Liver and Kidney Troubles.

To-day the sales of "Fruit-a-lives" are enormous—due solely to the fact that "Fruit-a-lives" never fail when properly used.

Ex-Inspector Stephen declares that the police department would be better off if advancement in the force was contingent on ability to meet certain fixed rules. In other words, he favors the civil service commission idea in vogue in United States cities. Such a commission in charge of both police and fire departments, would undoubtedly be an improvement over present methods.

THE LION AND THE LAMB

J. A. Macdonald and Sir James Whitney Spend Hour Together.

The editor of The Globe sauntered up to Queen's Park yesterday morning. It began to rain and the editor found himself without an umbrella. In vain he looked for shelter until the hospitable portals of the premier's office met his eye. He entered and immediately the lion and the lamb had lain down together. For an hour and a half or more the fighters fraternized. When interviewed later, the editor was tactful. He had nothing to say. Finally, he confessed to The World that it was an accidental call—quite informal, and the premier and he had discussed many subjects quite discreetly.

Yes, they did talk about university matters. But largely with regard to the wishes of the alumni association in seeking representation upon the board of governors. "The Globe still takes the attitude that whoever nominates the members of the board, the government should make the appointment. Otherwise it would be impossible to hold the government responsible for the expenditure of the people's money in support of the university," he said.

JOINS CITY MISSION STAFF

Aaron Wilson, Edinburgh, to Assist in Relief Work.

Aaron Wilson, who has had considerable experience among the poor in the City of Edinburgh, has just been appointed as one of the staff workers of the Toronto City Mission Board. The benevolent work, including undenominational house to house visitations, Dorcas or general relief distribution and summer outings for the sick and feeble, is accomplished by the aid of annual subscriptions and voluntary contributions. Those who know and appreciate the fact that such poor people must continue to suffer the pangs of hunger and hunger, unless some generous people, who are able and willing, give of their abundance to assist in their relief, are the persons whom the mission board depends for financial aid.

The following officers were elected: W. W. Digby, G. A. Dunning, J. W. Benton, Edward Jenkins. Many members spoke in a complimentary way of Mr. Digby, the instructor.

To Surrender Ownership of Quarries.

QUEBEC, April 19.—An important bill was introduced in the legislature here by Hon. C. H. D'Amour, minister of mines, by which the Quebec mining law will be amended so as to give to the order of the proprietors of stone quarries which are located on their lands. Since time immemorial almost quarries situated on seigneuries in this province have been considered as the property of the crown.

Mayor Geary, while he didn't vote, said afterwards he didn't altogether like the idea of putting the application, but that the application might appear with objections to the running of cars on the south side of McDonnell-square, as proposed by the city engineer.

Put Onus on Railway. Aid. McCarthy took early occasion to say that he "felt like putting the responsibility upon the street railway in the old City of Toronto where they have the franchise, and to consent to allow them to go ahead and build."

Wherever they like? questioned Controller Foster.

Let them apply to the railway board, explained the sidesman, who said he didn't see any prospect of gain in fighting the railway thru the courts again.

McCauleid wanted to know what the city could do in the face of the privy council's decision giving the railway power over certain streets.

Aid. Maguire asked Mr. Johnston if he would recommend the city to apply for lines if he thought the railway would select those portions which would tend to block the tube scheme, and the solicitor smilingly replied that he would not give an opinion.

Would Call Bluff. Aid. McCauleid asserted that if the city agreed to the lines the railway asked for, the company would be the most disappointed people on earth.

Mr. Rust pointed out that Mr. Fleming withheld information as to where he intended to extend his northwestern and northeastern lines. As to the objections to the use of Bay-street, as recommended by himself, the city had proposed the plan, but the railway board had said the railway could use the street.

Mr. Johnston said the issue had resolved itself into one of whether lines in the public interest and that the act of railway "rights" didn't enter in.

Controller Foster held that the Fleming program would only tend to compound the mistake of giving the suburbs without service. If the city's application failed, it would be no worse off. He didn't like to use Bay-street, but for the good of the whole service was ready to have it done.

Spence to the Fore. Controller Spence, while not a member of the committee, spoke against accepting the railway's lines.

FUTURE OF HARBOR. Controller Church Believes Commission is Needed to Shape Policy.

Controller Church, who for five years was a member of the Toronto harbor board, has thrown himself heartily into the plan of a commission to govern the affairs of the harbor and of Ashbridge's bay.

The Controller believes that a commission will achieve the greatly desired ends of continuity of policy and centralization of authority, pointing out that the harbor board has been greatly hampered thru conflict of jurisdiction with the Dominion government and the city.

He has codified the various acts relating to the harbor and the way for discussion at the city, which is to get all surplus revenue.

Facilitating the erection of piers, terminals, mokes, docks, and elevators, enabling more effective competition with railways.

More concerted plan for marsh development, creating an asset estimated to be worth \$55,000,000 to the city, which is to get all surplus revenue.

Will solve the cleaning and deepening of the harbor. Will make Toronto a great port. Will assist the seawall and driveway scheme.

Will control eastern and western channels and all plant required for the harbor.

"DOPE" SELLS VICTIM OF HIS ILLEGAL WARES

Inquest Into Death of James Fisher Results in Two Arrests, Pending Some Further Enquiries.

At the close of the inquest last night into the death of James Fisher, who was found dead in a room reeking with gas at 25 West Richmond-street, on Wednesday last, Thomas Fisher, who roomed with the deceased, and gave his present address as 123 West Richmond-street, was arrested, charged with vagrancy. He will be held, in order that the police may investigate the sale of drugs.

Fisher in his evidence said the deceased had no other occupation beyond peddling drugs and whiskey. Fisher also stated his roommate was addicted to morphine and cocaine. He had frequently seen him under the effects of the drugs.

The last he had seen of James Fisher alive was on Wednesday morning. He left about ten o'clock to look for work, and when he returned he found him dead on his bed with the room full of gas. He came with Fisher to the room the day before, but Fisher had occupied it that night with Miss Alma Robinson, whom he told the landlady was his wife. He stated he was no relation to his namesake. The latter was a Jew, while he was English.

Miss Alma Robinson, who is also in custody, on remand, so that the police may continue their investigations into the case, Fisher's statements. She had known Fisher for nine months, but stopped living with him the day before his death, as he was becoming deranged by excessive use of the "dope."

Policeman Ironsides, who took charge of the body, said he found drugs in the deceased's possession. He had known the man to be a dealer in "dope," but had never been able to convict him. He had served time for other troubles. The physician, who attended Fisher, stated he died from the effects of gas and drugs.

Coroner Morgan, in addressing the jury, said the use of drugs was coming a menace to the safety of the city. More people than the city officials have any idea of use it, and it was just this class of men that kept the traffic supplied. Coroner Morgan regretted that so far the police have not been in a position to stamp out the selling of "dope."

The jury brought in a verdict of manslaughter by gas poisoning and morphine. A rider was also added to the effect the police should use every means to find those guilty of selling drugs illegally and prosecute them.

HOW TO PRESERVE GAME. Thomas Pettigrew Contributes an Article Along These Lines.

Editor Sunday World: In the northern portions of old Ontario and in new Ontario we have one of the most valuable hunting grounds in Canada, but if they are to be preserved for any great length of time, there is a great and increasing evil that must be speedily stopped—I refer to the hunting of the common red deer with dogs. This is not true sport, but brutal and needless waste of animal life.

Just imagine one of those noble-looking animals, pursued for a long time by dogs, terrified, exhausted, panting, struggling past, uttering short hollow sounds, with its flanks "all in," as they say, and its tongue hanging out of a bleeding mouth. He has also been just this class of men that kept the traffic supplied. Coroner Morgan regretted that so far the police have not been in a position to stamp out the selling of "dope."

Why Bruchesi Objected. Circumstances Would Have Violated the Church Discipline.

MONTREAL, April 19.—In a statement to-night, Mr. Bruchesi says that his reason for notifying Justice Lemieux that he should not give his temporary address in St. James Methodist Church, Sunday evening, was simply out of respect to the church discipline. The address was to take place after the regular service, with the regular congregation, and the regular pastor presiding. It would have been just as wrong for a Methodist to have been asked to occupy a Catholic pulpit.

Abbott Resigns. ROME, April 19.—The Giornale Italia says that because of his visit to Ex-President Roosevelt in Rome, Abbott Lawrence Janssens, secretary of the congregation, has resigned the positions held by him and the headquarters of the church. The paper adds that the pope has not yet taken any decision.

ST. JOHN, N. B., April 19.—(Special.)—Ald. J. H. Frink was elected mayor to-day by a majority of 2382. His opponent, Douglas McArthur, polled only 977 votes.

Two out of three aldermen-at-large were re-elected. Ald. Potts headed the poll with 2385 votes. Ald. Kelley came next with 2365 votes and the two new men were J. V. Russell, 2555 votes, and R. A. Wiggmore, 2559 votes. Ald. Vanwart headed the poll in the wards with 310 votes. G. E. Smith defeated Ald. Belyea in Guy's. John Willet ran against Ald. Codnor and two other candidates in Dufferin ward and was elected, and W. H. White captured Ladawood ward from Ald. Wilson.

The local option vote in Stanley and Sydney wards resulted in a victory for the liquor men in both cases, with large majorities.

STRIKE FAR FROM BROKEN. President Lichtman Says Union Newsboys Are Still Solid.

Said President Lichtman, of the Newsboys' Union last night: "Any statement that the strike is finished is an absolute falsehood. The boys are still a solid body in continuing the strike, and so voted at a meeting held at the Labor Temple Monday night. The Star may have bought up one or two boys, but the great body of the boys are solid."

"It is true that Faddy Weinstein, vice-president of the union, has turned over, and went about spending money and trying to influence smaller boys to desert, but he did not succeed in getting any. Even he was not actually 'hustling' papers today, but was canvassing the boys."

"I myself saw most of the boys, and did not meet one that was even wavering. We believe that we are fighting a fair fight for a square deal."

"There is no reason for giving in for the boys are making almost as much money by selling The News as they did before by selling the three papers, and The News is no doubt in a position to give the public a sworn statement as to its increase of circulation."

"It was stated in The Star to-day that I had when I said that The Star had sold their rates from seven to eight cents a dozen to the boys. The Star will scarcely deny that, while the 2 o'clock Star had been dozen upon American papers, and I had information of the contemplated move to raise from 7 to 8 cents on the regular edition."

"Showing my own good faith with the boys, which they well know, I guided them in their strike against The Star's words, by writing a resolution in two acts and seven scenes, which was presented."

THE WEAK AND PUNY CAN BE CURED TAKE MY BELT FOR WHAT IT IS WORTH. WEAR IT UNTIL YOU ARE CURED— THEN PAY ME MY PRICE.

If you come to me and I tell you that I can cure you, I've got confidence enough in my treatment to take all the chances. I am curing hundreds of weak men and women every day, and I know what I can cure, and what I can't. If you will cure me, you may wear my belt free until cured.

I know that no man remains a weakling because he wants to. I am sure that you want to overcome every indication of early decay that has shown itself on you. I don't think the man lives who would not like to feel as big and strong as a Saisoid, and I know that if you have a reasonable foundation to build upon I can give you a bigger man than you ever hoped to be. I want you to know that you can't believe it, and I want you to have my book, in which I describe how I learned that strength was only electricity, and how I learned to restore it. Also, I want to tell you the names of some men who will tell you that when they came to me they were physical wrecks, and are now the finest specimens of physical manhood.

Dr. Albert Ralph, Kales, Ont., Tells His Experience in His Own Words.

Dear Sir,—A short time ago I purchased one of your Belts. I am very pleased to say that I have received great benefit from it in every way. My vertebrae almost gone, and my back is much better. Before using your Belt my nerves were in pretty bad shape—so bad that it interfered with my work. Any man can easily know that this means to me, as my health is greatly improved also, and I feel better than I have for the last five years, and only wish I had one of your Belts before. I have spent a considerable sum of money one way or another for different drugs, and to tell the truth, I never thought there was a cure in the world for vertigo, except an operation, as that is what a doctor told me in a London, England, hospital. I thank you for your kindness and all you have done for me. You are at liberty to make any use of this, you like in any of the papers, as I know it is all true, as I have proved it for myself. I intend to recommend your Belt to all I get a chance, as I think it is a godsend to any person to be in good health.

And how is it with you? Have you rheumatism and back pain, a dull ache and weakness, and if you feel yourself growing aged before your time? Are you nervous, sleepless, short of memory and lacking in spirit? Do you know that you are not the man you would like to be?

If so, I can cure you. What you lack is just what electricity supplies. My Belt will cure you, and if you will come to me you will soon be one of "DR. McLAUGHLIN'S MEN."

Business transacted by mail or on office only. No agents. Cut out this coupon now and mail it. I'll send the book without delay absolutely free. Call if you can't. Conventions free.

Mrs. Joseph Carr, who keeps a grocery store at 261 Hamburg Ave., Toronto, says: "In all my years of housekeeping I have never yet used a preparation equal to Zam-Buk. It is nothing short of a wonder, a miracle. Indeed, I cannot speak in terms of its wonderful healing properties, and would not be without this remedy in my home at any cost. I have used it for sores, cuts, bruises and other skin injuries, and consider it a household necessity, especially where there are children, as it heals all wounds and bruises in almost incredibly short time. My eldest son had occasion to use Zam-Buk for a badly inflamed toe, caused by an ingrowing toe nail. A few applications from Zam-Buk Co., Toronto, for price, cured him."

### YORK COUNTY

#### N. TORONTO WILL VOTE ON RAVINE LAND DEAL

Question Important One to the Town—Accident in West Toronto—County News.

NORTH TORONTO, April 18.—(Special.)—What will the town council do with respect to the proposed Stubbard deal and what action are the ratepayers likely to take when the bylaw comes before them for final adjudication?

These are questions which crop up around town wherever two or three business men meet, while in the street they hear the ravine land which is proposed to acquire either by purchase or expropriation.

When the matter was first mooted there was a good deal of discussion, but the project to buy the ravine land is a popular one around town. It is also a question whether Mr. Stubbard is at all anxious to sell any part of the ravine land which is proposed to acquire either by purchase or expropriation.

The chief objection taken to the project by representative townsmen is the apparent inadequacy of the supply in the ravine for even present needs. Would the acquisition of more than twelve acres of the Stubbard property assure enough for the next five or ten years, and would the expenditure of say \$20,000 even if it sufficed to cover the matter for that length of time, be money wisely invested?

There are all questions which the town must face before embarking on a big proposition like that proposed. Even \$20,000 would be a small amount if there was any assurance that we would be any better off in the event of the bylaw being carried.

Again there has never been any report presented from engineers, eminent in their profession, along this special line as to the supply which is likely to be obtained by securing more land or the putting down of pipe lines.

Ex-Councillor W. G. Ellis, Nicholas Garland and others, whose long residence in the northern end of the town eminently qualifies them to speak with authority in the matter, are hopeful that North Toronto contains within her borders enough water to furnish an abundant supply for some time to come. It will be a matter for profound gratification if after an exhaustive engineering report, supplemented by actual research, this optimistic view is borne out by actual facts.

In the meantime the question of water is a live one, the town council may safely be trusted to act in the matter with due caution. The citizens will support them in any movement looking to an abundant supply of water, and falling all other sources will undoubtedly favor annexation with the larger municipality to the south of us.

There was a delegation of the members of York Lodge A. F. & A. M. to West Toronto to-night where the local brethren were right royally entertained by the members of Victoria Lodge A. F. & A. M. Following a

#### DELIGHTFUL EVENING OF SONG AND STORY

delightful evening of song and story luncheon was served. The town council meets to-morrow (Wednesday) evening. The attention of our readers is again called to the large and exceptionally fine sale of dairy cattle on the farm of Alex Bryce, Glen Grove, on Thursday, April 28. Fully 100 head of dairy cattle, 16 horses, and a lot of farm and household goods will be offered. The sale begins at 9 a.m., and is in charge of J. H. Prentice, of Unionville.

The heavy rainfall of to-day, while creating some temporary discomfort, is heartily welcomed around town, relieving the long standing drought and immensely helping vegetation. Over in the Lawrence Park Estate, where a wonderful transformation has taken place this spring, the planting of trees and evergreens, the downfall was doubly welcome. Many of the maples planted are from 30 to 40 feet high, and require a good deal of moisture. The gardens and lawns are wonderfully improved.

One of the most enjoyable events ever held in the Epiphany Methodist Church here was that of to-night when a social re-union of the members and those who were many recently allied with the church, was held. A delightful program was given, among those contributing were J. F. Howitt, who rendered a number of Whitcomb's Riley's selections in fine style, J. Withrow, in an obligato solo, Mrs. Watts in a splendidly executed violin solo, and P. Thorne, who delighted the audience in vocal selections. S. J. Douglas in a concert solo accompanied by his daughter, Miss Inex, are always favorites with a North Toronto audience, and rendered most effective service. Altogether the event was one long to be remembered. At the close of the concert luncheon was served.

DOVERCOURT. One of the best humorous talks yet given here will be delivered next Friday night, at 8 o'clock, in the Davenport-road church hall, by Wm. Douglas, K. C. His subject is "Cranks," and those who enjoy a good laugh will have it on this occasion. Admission is free.

DOWNVIEW. DOWNVIEW, April 19.—(Special.)—There will be a special meeting of the Epworth League on Wednesday night, April 20, when the executive of the Toronto central district will be present, and address the meeting. The addresses will be inspiring and helpful.

PRINCIPAL IS REMEMBERED. M. H. Thompson of 226 Seaton-street, who gave up teaching last December, was the recipient on Friday evening, of a sterling silver tea service and a quantity of sterling silver cutlery from the six-pupils of the Aurora public school, as a token of their appreciation of his services and of the esteem in which he is held. Mr. Thompson was principal of Aurora public school for twenty-six years.

LICENSE FOR WEST TORONTO. Editor World: As the time has arrived for the issuing of hotel licenses in Toronto, and as local opinion in West Toronto has run its time, I would like to ask you on behalf of the farmers who go in to the city for miles around, if there is any possible way for the license commissioners to grant a license to accommodate here, local opinion get to accommodation without driving direct to the centre of the city, whereas we could, and always did get better accommodation here, local opinion than we do at present, and besides there is the fact of having to drive four or five miles further than would be necessary had some hotel a license

### Realty and Building

Specific evidence of the tremendous activity in building circles in Toronto during the past year is shown by the annual report of the building permits issued by City Architect McCallum. The report shows that no less than 7184 permits were granted and that the total cost of erecting these buildings was \$18,139,247. The list is headed by new brick dwellings, of which 3693 were built, at a cost of \$3,899,315, while in addition to these there were 240 permits for new row-houses, to cost \$215,625; 102 for brick veneer dwellings, at \$184,450; and 118 for frame dwellings, at \$120,045. Forty new factories were erected at a cost of \$740,200. There were also built 548 stores and offices, 145 garages, 19 theatres or moving picture shows, 11 churches, 13 schools and 7 banks, besides smaller edifices.

Castle Farm, situated on Danforth-road, Scarborough Junction, has been purchased by F. H. Gooch & Co., for a price said to be around \$25,000. The property is part of lot 25, concession 1, Scarborough Township, and contains 100 acres, lying between the Grand Trunk and the Canadian Northern right of way.

Properties lying immediately to the west on Jane-street and just outside Scarborough Township, and are reported to be in fair demand. F. J. Stewart sold six lots in this section, fronting on Lessard-street, on Monday, at \$10 per foot.

The Cooper homestead, at the north-west corner of Sherbourne and Linwood-streets has been sold to the Knights of Columbus for \$27,000. The lot is 100 by 102 feet, and it is proposed to convert the building into a health-club for ladies and gentlemen on Wednesday night, in the club rooms. Prof. Fred Belmont will sing.

Had Orders from Lumsden Told to Hurry His Work—\$100,000 to Cover Mistakes.

OTTAWA, April 19.—(Special.)—S. R. Poulin, engineer in charge of district P of the National Transcontinental Railway, in succession to Major Hodgins, gave evidence before the Lumsden committee to-day. He said he had received his instructions from Mr. Lumsden himself. His orders were to push forward work. In reply to Mr. Chrysler, he mentioned that one method of hastening work he adopted was to erect in some cases temporary trestles over parts which could be filled in as excavation proceeded.

As to classification, his opinion was that \$100,000 would cover differences due to misunderstanding of orders issued.

# COBALT--- Liquidation in La Rose Injuries Cobalt Market--- COBALT

## Liquidation Still Continues And Cobalts Sell Lower

### Crown Reserve and La Rose Are Having a Damaging Influence on Shares of Lower Securities.

World Office,  
Tuesday Evening, April 19.

Weakness in many of the Cobalt stocks was the one and only feature on the mining exchanges to-day.

Various reasons were assigned for the general heaviness in the market, but the main idea was concentrated in the belief that the decline in the higher priced investment shares was, for the time being, having more effect on the market than anything else.

La Rose dropped further again to-day and in the cheaper securities Timiskaming and others which have recently showed some buoyancy, were lower.

It was not generally understood where the new selling came from, but the impression is that a good deal of the stock that came out was actual liquidation and it was for this reason that prices sagged with the filling of these selling orders.

For some time past numbers of brokers in New York and Boston have made every endeavor possible to frighten American shareholders out of their Cobalt stocks for the purpose of replacing them with the copper issues, with which they are connected. This has undoubtedly had a big influence in bringing a lot of shares into the market which would otherwise have been held off, and while this stock is being digested by those who are coming in and picking up the shares at present low levels, advanced are less likely than sagging quotations.

Round the exchanges there is no feeling of depression in existence and old judges of the market are firmly convinced that when the current movement has exhausted itself, a better class of reasoning will result in bringing the Cobalts back to a nearer parity with their intrinsic worth.

### VIGOROUS CAMPAIGN

Arranged by the Directors of the La Rose Mine.

D. Lorne McGibbon, the president of the La Rose Consolidated Mines, was in the city yesterday attending a meeting of La Rose interests to plan a developing campaign for the coming summer.

After the meeting it was stated that the company would pursue a very aggressive policy on all the properties, both underground and on the surface. R. B. Watson, the superintendent in charge, outlined a plan of vigorous hydraulic operations which it is expected will result in increased production.

Asked as to the recent low figures reached by the stock in the markets, Mr. McGibbon stated that he attributed the downward course of the shares to short selling, and that when interests who favored assuming this side of the market sought to cover their commitments, he expected that they would meet with considerable difficulty in securing the stock, except by bidding up the price.

### NEW JERSEY CAN'T SUE HERE

Action Against Henry Timmins for \$150,000 Dismissed on Technicity.

Geo. H. Watson, K.C., yesterday secured a dismissal with costs of an action brought against Henry Timmins by Grant Hugh Brown, New York, on behalf of a New Jersey company for \$150,000 deposit money on two Cobalt claims brought for \$75,000.

Mr. Watson first succeeded in getting the New Jersey company (United Cobalt Exploration Co.) made a party to the suit, and then argued that as the company was not licensed in Ontario it had no status here, and could not sue.

Justice Falconbridge, in dismissing the case, ruled that any future action which the company might bring after becoming qualified should not be prejudiced by the present case.

Originally, Grant Hugh Brown secured contracts in his own name for the purchase of the two claims. He then transferred his interests to the company and paid deposits of \$100,000 and \$50,000. The company did some developing, but was unable to meet their further payments regularly. Mr. Timmins' agreement stated that in case of default in payments the deposit should be forfeited. E. F. B. Johnston, K.C., acted for plaintiff.

### SILVER NEAR ARDEN

KINGSTON, Ont., April 19.—A silver vein, said by a mining engineer to be remarkably rich, has been discovered in the range of hills lying about four miles south of Arden, a village on the C. P. R. in Kennebec Township. The rocky ridges in Kennebec are nearly all mineralized but heretofore only low grade depositions have been found.

Liverpool Wheat Prices Firmer But Chicago Options Still Weak

Improved Crop Conditions in States Being Played by Bears Against Any Rallyes—Cash Markets Are Dull.

World Outlook April 19. Liverpool wheat futures closed today 1/4 to 1/2 higher than yesterday, and corn futures 1/4 lower.

At Chicago wheat closed 1/2 higher, and corn 1/4 lower. Winnipeg cars to-day: Wheat 32, oats 26, barley 7.

Manitoba flour—Quotations at Toronto are: First patent, \$5.75; second patent, \$5.20; strong bakers, \$5; 50 per cent. patent, 28 1/2 to bid, c.i.f., Glasgow.

Corn—Kiln-dried yellow corn, 65 1/2c; No. 2 yellow, 65c; Toronto freight, No. 4 yellow, opening of navigation, 65c; 50c; Collingwood or Midland; kiln-dried, 65 1/2c.

Winnipeg Wheat Market. Wheat—May \$1.04, July \$1.04, October \$1.04. Oats—May 34c, July 35c.

Toronto Sugar Market. St. Lawrence sugar is quoted as follows: Granulated, 55.20 per cwt., in barrels; No. 1 golden, 54.20 per cwt., in barrels; Bakers, 54.20 per cwt., in bags. These prices are for delivery here. Car lots 5c less, in 100-lb. bags, prices are 5c less.

New York Sugar Market. Sugar—Raw firm, Muscovado 23.75 to 23.75; centrifugal, 24 to 24.25; refined sugar, 24 to 24.25.

FRUIT MARKET. Quotations for foreign fruits are as follows: Grape fruit, Florida, \$4.50 to \$5.00; Lemons, Messina, 2.25 to 2.50; Oranges, Bahia, 1.50 to 1.75; Pineapples, 3.75 to 4.25; Tomatoes, 4-bank, carrier, 3.50 to 4.00.

Chicago Cattle Market. Receipts of live stock at the Union Stock yards, were 10 carloads, consisting of 161 cattle, 28 hogs and 14 calves.

There were 120 cattle left over from Monday's market, which with the 124 fresh arrivals, made 244 cattle on sale. But there were 100 cattle sold, the balance over the 244 being bought from some of the dealers who bought heavily on Monday.

Trade was good with prices just as high as on Monday, and in fact one dealer reported them 10c per cwt. higher.

Exporters. E. L. Woodward bought for Swift & Co. as follows: 100 exporters, 117 1/2 lbs. each, at \$1.25; 17 exporters, 120 lbs. each, at \$1.25; 17 exporters, 120 lbs. each, at \$1.25; 17 exporters, 120 lbs. each, at \$1.25.

George Campbell bought for Morris & Co. as follows: 100 to 150 lbs. each, at \$1.25 to \$1.25; 100 to 150 lbs. each, at \$1.25 to \$1.25; 100 to 150 lbs. each, at \$1.25 to \$1.25.

Representative Sales. Coughlin & Co. sold 92 butchers and exporters, 1150 to 1250 lbs. each, at \$4.70 to \$4.75; 25 hogs, at \$9.70 per car.

Market Notes. There were two trains, one of 25 cars, and another of 20 cars of export cattle, left the Union Yards to-day, one went via Niagara Falls, New York, the other via Montreal to Boston for shipment.

Coughlin & Co. sold what hogs were on sale to-day, 28 in number, at \$9.70 per car.

Hogs Sell Sixty Cents Lower at Buffalo—Cables East. NEW YORK, April 19.—Beaves—Receipts 225, no trade in live cattle; steady feeling; dressed beef steady at 11c to 12c.

Receipts—Nothing doing; feeling steady; dressed calves about steady; dry dressed veals, 10c to 11c; hogs, 10c to 11c; 25 butchers, 1150 lbs. each, at \$4.70 to \$4.75; 25 hogs, at \$9.70 per car.

Chicago Live Stock. CHICAGO, April 19.—Cattle—Receipts 25,000; market strong and steady; steers, \$4.25 to \$4.50; bulls, \$4.50 to \$4.50; calves, \$4.25 to \$4.25; stockers and feeders, \$4.75 to \$4.75.

Hogs—Receipts 11,000; market 3c to 3c 1/2 lower; light mixed, \$8.75 to \$8.75; choice light, \$9.20 to \$9.20; packing, \$8.75 to \$8.75; 25 hogs, at \$9.70 per car.

East Buffalo Live Stock. EAST BUFFALO, N.Y., April 19.—Cattle—Receipts steady; prime steers, \$8 to \$8.50; 25 hogs, at \$9.70 per car.

Sheep Notes. A growing sheep has no time to be sick. Good lambs are never reared unless they receive a favorable start in life.

They are generally the effect of poor feeding or neglect of some kind. Usually with good feeding good condition sheep can be fattened in six weeks.

When lambs are to be marketed as soon as in good condition they should be taught to eat as early as possible.

In the manner in which wool is cleaned that gives it the proper class where it belongs.

Of all domestic animals on the farm the sheep has the power to appropriate the most feed and give for said feed the greatest return.

In shearing it is quite an item to take the clip in such a manner as to injure the sheep the least and best preserve the fleece.

Whatever may be said for or against quantity or quality, young mutton or profit, unless it can be procured at a profitable rate it has no good grounds for recommendation.

As a rule the wool on young sheep is stronger and has more elasticity than that of aged ones which for want of youth has less strength and fibrous body.

Circumstances and management have about as much to do in making money growing pay as in turning the scale towards profit in any other farm product.

With sheep husbandry as with other lines of farming it should be the aim to so conduct the business as to be able to put the products on the market when they are in greatest demand and bring the best prices.

Praise for the Firemen. P. C. Larkin, of the Salada Tea Co. has written to Chief Thompson, extending his "very best thanks for the magnificent manner in which the fire in our warehouse was handled."

CATTLE SUPPLY IS SHY

AND PRICES WILL BE HIGH

What Has Happened in Hogs is About to be Repeated in Cattle

It is beginning to dawn on many traders in cattle that the supply is not as large as generally figured some time ago.

Recent developments show that farmers and regular cattle feeders have empty feed lots, and most of them are satisfied to let them remain empty while corn is high.

A bullish feeling is dominant in the country regarding the corn situation, and farmers who have the corn are inclined to hold for higher prices.

This is a disencouragement to the cattle feeder who is very much on the fence.

The current demand calls for more good feeding stock than is available, but it will be a distinct shortage of matured cattle at all markets, and it will be no surprise if values go galloping up the hill after hogs and sheep.

What has happened to the hog supply is about to be repeated in cattle. With a twin shortage of beef and pork, coupled with a deficient supply of mutton, the public will do well to brace time by the forelock and read up meatless menu literature.

Corn belt feed lots have been depleted, owing to bad weather and the high price of feed, and where the March, April and May supply of beef is coming from is worrying dressed beef manufacturers.

Usually Texas dumps a lot of beef into the market hopper at this season, but a short cotton crop has discouraged southwestern feeders last fall, and packers see no relief in that direction.

Beef has been selling much lower than pork and the inequality is about to be wiped out—Chicago Live Stock World.

MAGISTRATE HAD PITY

Reduced Term in Jail for Convicted Opium Smokers.

Mark Cam was yesterday convicted as keeper of a disorderly house at 181 1/2 York-street, and with four other Chinese, convicted as inmates, was fined \$10 and costs 30 days.

They were caught "milking the pipe" in a raid last Saturday night. On the plea of J. W. Curry, K.C., that the men were penniless, his worship reduced the imprisonment to ten days each.

Mr. Curry intimated that the prosecution of these Celestials was apparently the outcome of recent disturbances between the two factions of Chinamen in the city, known as the eastern and western factions.

## Good Taste Saves Money in Housefurnishing

"I KNOW what I'd do if I had money, but unfortunately I have guinea tastes and a shilling allowance."

So often people are overheard remarking things in a similar vein to the above.

We would like to say very earnestly to these people that taste is a help and not a handicap in this store. We cite instances in every section of the Carpet and Curtain Departments where comparatively cheap materials will appeal particularly to people of discrimination. Good taste well exercised here in our housefurnishing stocks will procure more and better effect than mere unguided lavishness in the most expensive store in the land.

We will show you exactly what we mean by pricing a few of the lines we refer to, and then you will simply ask to see them when you come and judge for yourself as to their artistic worth.

## A Sale of High-Class One-Piece Dresses

IN the north east corner of the cloak department we have heretofore carried a stock of the richer class of garments for ladies who desire distinctive styles and who have been in the habit of going abroad to get them.

Great changes have been wrought in this quarter of the store of late, as those who have visited the store lately are aware.

Owing to these changes certain parts of the stock have been displaced or duplicated, and we are willing to accept greatly reduced prices for the garments involved. An instance occurs Thursday when we offer:—

78 One-Piece Dresses, in taffeta corded Bengaline, satin and more antique silk, some styles have lace yoke and collar, others silk embroideries and touches of Persian trimmings, short or long sleeves, gored and pleated skirts, shades are peacock, bronze, navy, black, green, cream and brown in the lot. Regular prices \$55, \$35 and \$25. Thursday to clear. No phone or mail orders filled.

## The Aristocracy of Cottons

Wash Goods Department Talks.

RICHNESS, LUXURY, REFINEMENT, QUALITY, in dress fabrics are no longer confined to wool goods, silks and velvets. You can have all the art delicacy, beauty and quality IN A FABRIC THAT WILL WASH.

Cotton has taken equal place with silk and wool. Cotton is now in the forefront of progress—an aristocrat of textiles, a fabric to be classed with the highest products of the loom. The demonstration lies to your hand. Come to Simpson's and see the development of cotton dress goods exemplified by the display for this spring and summer.

36-inch Rep, the favorite suit, a fine, even twill, highly merized, all the new and leading shades, white, helio, pearl, mid grey, pink, sky, turquoise and linen shade, 29c.

Handsome and somewhat startling designs in the celebrated Serpentine Crepe, dainty floral, flower, bird and butterfly designs, and in the quaint Dutch design, also a full range of plain colors, as white, pink, Nile, sky, mauve, navy, red, etc. All one price, 25c.

Indian Head Suiting, that beautiful soft material so popular of late years; this will wash and wear well, and there is nothing that will drape more gracefully; full range of colors, as in the rep. Special 20c.

Full range of plain colors in our celebrated British Duck, for children's wear, special, made for school suits and frocks, very strong, plain colors and stripes, 15c.

Crum's celebrated 32-inch English Print, the only reliable washing print that comes into Canada. We have a tremendous assortment of patterns in all colors, 15c.

Simpson's ranges of White Nainsooks and Victoria Lawns are well known; we invite comparison in all our numbers; they are made specially for us by the leading manufacturers of Manchester and Glasgow. Prices from 10c to 50c. Wash Goods, New Department, 2nd Floor.

## Silks for Summer Gowns

Morning—Afternoon—Evening

LET Simpson's be your first thought when the question of silks comes uppermost. Is it a morning frock you require, or a semi-tailored suit?

Nothing is more appropriate for the fresh summer morning than Shantung, the silk of the season. You can have a nice 34-inch Shantung silk for as little as 55c.

The real hand-loom Shantung sells at 75c and \$1.00 per yard. This is a heavier cloth than the others, and we have it Lyons dyed in all the colors.

Tussor Poplin, 38 inches wide, is nice for a long morning coat—\$1.50 per yard.

THEN FOR AFTERNOON FROCKS.

Fonlards have no rival this year for pretty summer afternoon frocks. We have the choice designs and colors of the French and American foulards. We cannot say more than that, nor do we need to—75c, 85c and \$1.00 per yard.

LASTLY FOR EVENING GOWNS.

This is the season for draped and clinging gowns, and crepe de chine or silk ripple crepes have natural right-of-way. We show more than forty selected shades and blacks, in every approved quality of tone. 44 inches wide—\$1.50 per yard.
