DISLOYALTY CHARGES RESULT IN BITTER DEBATE IN HOUSE

Sevigny, Answering Attack, Declares Laurier and Bourassa Are Reunited and Makes Sweeping Charges of Treason Against Liberal Press and Politicians of Quebec.

By a Staff Reporter. Ottawa, June 15.—The house of commons, after a four-day's slumber, woke up this afternoon in the worst possible humor. Hon. Albert Sevigny, the minister of inland revenue, occupied the centre of the stage, and round his banner shined and flared the headlines of the day.

After the dinner recess the Liberals came back with a formal statement from the leader denying the worst possible charges of treason and disloyalty made by Mr. Sevigny.

Mr. Lapointe of Kamouraska, enquired about the appointment in Mr. Sevigny's department, and claimed Mr. Renaud's newspaper, Le France Parleur, had been preaching sedition against the government in the city and district of Quebec.

Mr. Sevigny's Odd Remedy. Mr. Sevigny's articles in Le France Parleur were sedition, but he admitted that Mr. Renaud had been savagely attacking Sir William Price, who is recruiting in Quebec, and he (Mr. Sevigny) thought it would be in the public interest to suppress the paper, which was a one-man affair, by giving its editor a berth in the civil service.

Mr. Macdonald (Piloton) sarcastically enquired why the government did not make Henri Bourassa a deputy minister.

Mr. Knowles (Moore Jaw) said a newspaper at Sault Ste. Marie suspected of sedition had been promptly suppressed, but Le Devoir was undisturbed, and the editor of Le France Parleur was given a government job.

Mr. Lapointe said that Renaud had bitterly attacked in the France Parleur a paper which was the 17th Battalion, raised by Sir William Price, and advised men not to enlist in it. Mr. Sevigny said he had surprised to hear that Renaud and Sir William Price were not good friends.

Division Bell Jingles. "I do not think the minister of inland revenue is responsible for this in any case," he added. "Sir William Price is one of my good friends, and while he was raising his battalion I tried on several occasions to help him all I could in his organization."

By this time the discussion began to ramble far afield, harking back to Mr. Sevigny's speeches in 1910, 1911 and the Dorchester by-election of 1917, and Chairman Blain declared it all out of order.

ANARCHY IS LET LOOSE IN TOWN OF KIRSANOV

A fight between partisans of opposing parties there followed the proclamation, and eight persons were killed and many wounded. Trunine, the president of the new republic, has been arrested and troops have been sent to Kirsanov.

CONSCRIPTION TO FORE RAILWAY ISSUE LATER

Government Bound to Press Forced Service Measure Thru After, Which Problem of Coal and Car Scarcity Will Be Faced.

Special to The Toronto World. Ottawa, June 15.—It is certain now that the government are going on with the conscription bill on Monday, followed by a big debate. Sir Sam Hughes is here to-day, and may be one of the early speakers. Evidently the government have determined to concentrate on putting thru the conscription bill and putting it thru with a substantial majority, notwithstanding the opposition to it, mainly confined to the Province of Quebec.

Nothing definite is yet known about the policy of the government in regard to the railway situation, though it is believed that it was very extensively threshed out at the caucus on Thursday. The speeches there were made mainly by private members; the policy of the government has yet to be disclosed, although from the announcement in The Journal here to-day it would seem that some kind of temporary assistance for the Grand Trunk and the Canadian Northern may later on in the session be introduced in parliament.

The New Testament and Psalms combined in one leather-covered volume, 4 by 3 1/2 inches, is 50 cents. A miniature edition of the Psalms—2 by 1 1/2 inches—is bound in leather, and priced 35 cents.

"Perplexed."—Bid perplexity depart. There are large pointed collars galore—in white, corded silk, in hemstitched poplin, and in "Cool-Ton" cloth, at \$1.50 each; in white pique, hemstitched, at \$1.00; or button-trimmed at \$1.25; and in crush, at \$1.00, and embroidered, \$1.25. The reply to your first query was published on Tuesday of this week—with full details.

"Beverly."—Then you are not quite as romantic as your name would imply—a heroine on common-sense heels, in fact. However, in these vigorous days, Fair Maiden may well dispense with the picturesque "incident of the sprained ankle. At any rate, your wise want can be filled to your satisfaction. The boot that meets the need is in white canvas, with leather sole and low heel (you may have a layer or two taken off and a rubber heel added if you wish). The price being \$4.00 a pair. ### CONSCRIPTION TO BE PRESSED THRU

(Continued from Page 1.) sufficient cars and coal are provided to handle the threatened shortage of fuel. The scarcity of cars last year has not yet been fully explained; perhaps the war in Europe had something to do with it. At any rate the government are going very fully into the whole situation and will announce their policy after the conscription bill is thru both houses.

**Need of Coal and Cars.** The need for coal and cars was pointed out at the meeting of the Canadian Manufacturers' Association in Winnipeg this week, and the government were urged by a resolution carried at that meeting to increase their energy to getting cars sufficient for the coal requirements of the country in preference to other steps they might ultimately take in regard to both the Canadian Northern and the Grand Trunk. But conscription is to be the first thing. Nothing is yet known as to any prospective change in the personnel of the government.

Ottawa, June 14.—(Special to Montreal Gazette.)—J. H. Burnham, M.P. for West Peterboro, who had broken with the government because its conscription policy did not embrace conscription of wealth, announced today that he will now support his party on the issue. The reason for his latest decision, he explains, is "the new forward development of government policy" as indicated by the announcement that there will be measures toward conscription of wealth, probably in the form of an income tax.

### FACTS OF DISPOSITION OF CANADIAN FORCES

Ottawa, June 15.—Sir Edward Kemp brought down in the house today a return showing the disposition of the Canadian forces as on May 14. A total of 126,400 were in France, 180,326 in England, of whom 28,000 were immediately available for reinforcements; 17,853 in Canada, 747 in the near east, and 130 in St. Lucia.

A detailed summary of the strength of the Canadian forces in England on May 14 showed a total of 126,241, of whom 87,387 belonged to infantry reserve regiments and 6,322 to artillery.

The list also includes about 17,000 men attached to the Fifth Canadian Division headquarters, of whom 11,015 were infantry and 2,744 were artillery. The Forestry Corps numbered 5,304, engineers 4,754, machine gunners 2,223, army service corps 4,636, army medical corps 5,339. The total of officers was 7,951. Men in hospital numbered 17,635.

The industries affected by strikes during May were: Metal, engineering and shipbuilding, 11 strikes; transportation and communication, 3 strikes; building and construction, 2 strikes; and there was one strike each in the clothing trade and among unskilled labor.

At the end of the month 17 strikes were unsettled. The trend of wages is reported as upward.

### GERMANS WITHDRAW FROM BELGIUM LINES

Berlin, June 15.—Retirement of the German forces at two points on the front in Belgium is reported in today's official statement.

The Germans were pressed back by the British between Hollebeke and the region of the River Douve and also southwest of Warneton.

The text of the army headquarters statement today reads:

"Western front, front of Crown Prince Rupprecht: In Flanders, between Ypres and Armentieres, after a comparatively quiet day, vigorous gunfire began at 8.30 p.m., followed by British attacks along the whole front. After fighting which in some places lasted until morning, the enemy pressed back our protecting detachments situated further east, between Hollebeke and the Douve region, and southwest of Warneton, which had hitherto successfully protected our fighting line against all reconnoitring thrusts by the British since May 5.

"North of the fighting area to the coast there has only been a little artillery activity.

"By a surprise attack, troops belonging to a lower Rhineish regiment broke up a Belgian post, consisting of 25 men, on the Yser Canal.

"On the Artois front, after vigorous waves of fire, the British attacked our trenches during the morning east of Monchy. They forced their way in at some points, but were at once ejected by a counter-attack by our troops, who were in readiness. A portion of a trench west of the Bert Wood is still held by the enemy.

"During the evening several British battalions advanced east of Loos. Here also our position was maintained by a vigorous counter-attack."

### T. H. & B. LAND PURCHASE AT BRIDGEBURG

The procuring of land by the Toronto, Hamilton and Buffalo Railway at Bridgeburg is causing much speculation, and a study of the above map in regard to the use it may be put to by the system that has bought it has led to several theories being advanced.

The purchase of land at Bridgeburg by the T. H. & B. Railway is the cause of a rumor in Hamilton that the road is planning an extension to Buffalo over the M. C. R., thus eliminating much of the delay at present incurred in taking over M. C. R. traffic from Buffalo at Welland. From Welland the T. H. & B. carries cars to Hamilton; and if destined for Toronto or C. P. R. points they have to be rebuffed over the C. P. R. thereby causing further delay.

If running rights over the M. C. R. were acquired by the T. H. & B., passenger and freight service could be established between Hamilton and Buffalo and freight traffic greatly expedited. The rolling stock of the M. C. R. used at present between Welland and Buffalo might also be acquired. F. Backus, general manager of the T. H. & B. would not make any statement regarding the matter.

**DEAD AT NINETY-FIVE.** He was a veteran of the Fenian raids of 1866 and 1878, being a captain of one of the companies which defended the frontier. Mr. Adams was an Anglican in religion and a Conservative in politics, and was prominent in the councils of the party for a long time.

## LACK OF MONEY HITS CIVIC WORK

Heads of Departments Feeling the Effects of War Economy.

### PAPE AVENUE LINE

Delay Due to Scarcity of Steel Rails Caused by War.

The heads of civic departments are beginning to feel the effect of the pruning knife on the estimates and the policy of the council not to proceed with works involving new expenditures. Works Commissioner Harris plainly placed the position of the city before the works committee yesterday afternoon when Ald. Ryding protested against the condition of streets in the west end. The alderman stated that Annetta street was particularly bad and blamed the works department for delay.

"The work we are going on with we have money for," said the works commissioner. "We have money for the work we cannot finance. I may be wrong but I think the Finance Commissioner Bradshaw and I are just as anxious to have certain works carried out as any member of the council, but there are conditions which we have to meet, and having regard to these conditions we cannot proceed. You may issue instructions as often as you like but they will not have any effect, as we cannot carry out works without money. You may recollect I told you that when considering the estimates."

Viaduct Approaches. Ald. Robbins asked the commissioner if anything had been done in repairing the approaches to the Bloor street viaduct, and was told that the matter was receiving the attention of the roadway department.

Ald. Hiltz stated that the citizens in the east end were anxious to know when the viaduct would be completed, and asked the commissioner for information. He thought if it were possible to complete the work before winter it should be done.

"The general contract for the work expires on Dec. 24," said Mr. Harris, "but the viaduct will not be completed until the summer. I think you will see it finished according to schedule, something that does not often occur. For structural and legal reasons it cannot start on the pavement until the

contractors have finished. It would be unwise to put down pavements in the winter."

"We have the rails for the Rosedale section, and are arranging for the rails for the Don section. It means so much to all parts of the city that we want to get Bloor street viaduct off our hands as early as possible."

He stated that the rivetting on the centre span of the viaduct would not be completed sooner than six weeks.

Pape Car Line. Ald. Hiltz also enquired about the Pape car line, and was informed by the commissioner that the city was not responsible for any delay in proceeding with the work. The hold up was due to the inability of the Toronto Railway Company to obtain rails, owing to the steel situation. The company, he said, had made every effort to carry out the order of the railway board, and was making every effort to have the work completed. He thought it would be unwise to tear up the roadway and inconvenience the citizens when the railway company had not the rails to proceed.

Regarding the C.P.R. subway, Mr. Harris inquired. He said that he was preparing a report on the matter and would issue it next week. Street Commissioner Wilson reported on an alternative plan for the brick garage which he proposed erecting adjacent to the Don incinerator at a cost of \$25,000. A one-storey wood frame brick building, he said, would cost \$12,000, and a one-storey brick building with provision for two storeys would cost \$16,500.

On the motion of Controller Foster the committee struck out the recommendation for a garage.

No Street Extensions. The committee decided not to proceed with the extensions of Seymour avenue, Beresford avenue and Jedburgh road, on account of the abnormal financial situation. The estimated total cost of the work was \$54,000.

The committee also decided to close Woria avenue, which the C.N.R. has purchased for \$7407. The company had encroached on the ground, and when brought to its attention expressed a desire to purchase it.

The proposed widening of the southeast corner of Bay and Queen streets will be abandoned in order to curtail civic expenditure. Commissioner Harris' recommendation not to widen the northeast corner of St. Clair avenue and Yonge street was adopted.

### LIQUOR IMPORT RECORD STAGGERS THE BOARD

Formidable List of Shipments "Beyond Anything We Expected," Says Member.

In accordance with the Ontario Temperance Act, as amended at the last session, every railway, express company and other common carriers are required to keep at each agency within the province where goods are consigned, an accurate record of each consignment of liquor received and every consignment of liquor made, so that the Ontario License Board may keep track of sales. The result has been amazing, and the list of shipments of liquor from outside of the Province of Ontario is formidable. "It is quite beyond anything we anticipated," remarked a member of the board.

### TRANSFERRED TO ORPINGTON.

Capt. Carl W. Waldron, C.A.M.C., who was until recently located at the Westliff Canadian Eye and Ear Hospital at Folkestone, where he was in charge of facial restoration and jaw fracture work, has been transferred with his staff and the entire department to the Ontario Government Hospital at Orpington.

In the older ages the increase averages about 50 per cent. In addition, assessment dues of 20 cents a month are payable.

## GRANTED TAX REDUCTION TO OFFSET NUISANCE

Residents on Eastern Front Get Slight Compensation for Gas Attacks.

Sixteen property owners living on the east side of Morley avenue appealed to the court of revision yesterday for a reduction of their assessments on the ground that the nuisance caused by the city sewage disposal system was accentuated by a garbage dump at their back doors. They declared that their property was not nearly as valuable as it was three years ago. Because of the condition existing on the street they had got to be ashamed to say they lived on Morley avenue.

The court reduced the assessment of the houses from \$1200 to \$1000 and on the land from \$20 to \$15 per foot.

Fred Hubbard of the Toronto Street Railway Company appealed against the assessment imposed upon the amusement plan of the company at Scarborough Beach. He stated that the park was only open for four months of the year, and contended that the company should not be taxed for the other eight months.

Harry Nixon of the assessment department said the company should appeal on its tax bill, as the brokers had done, when the war started. The court asked the company to produce its tax bill for 1917, when the matter would be decided.

Mr. Hubbard also appealed against the assessment on the rails and ties on the property of the company and asked the court to decide the principle. The court had set a precedent in the Toronto Suburban case and confirmed the assessment.

### FINED FOR ASSAULT.

Factory Superintendent Put Out Shell Inspector Who Was Reading Paper.

Caught reading a newspaper at the Canadian Allis-Chalmers Company's plant, Owen Hurst, a government inspector on shells, alleged that he had been assaulted by J. J. Scollon, general superintendent of the works. In the police court yesterday Scollon denied having assaulted Hurst, claiming that he had caught him reading the paper during working hours, had asked him who he was, and after a verbal quarrel had taken him by the shoulder and put him out of the shop. Counsel for Hurst argued as his client was in government employ Scollon had no jurisdiction over him. Scollon was fined \$5.

Clerihew from here were enclosed. The official wire stated that he had been missing since April 9. When war broke out he was on a survey in British Columbia, but previously he had been connected with the Bank of Toronto for a number of years and served on the staff of that institution in Kingston, his home town.

THE WORLD'S PRICE ANNOUNCEMENT OF RIDPATH'S LIBRARY OF UNIVERSAL LITERATURE. Last week, we told you the story in these columns, how "THE WORLD," by being on the job, and going after it to get it, secured a big consignment of the world-famous RIDPATH LIBRARY, owing to the failure of a large New York publishing concern. On account of the extremely reasonable price at which we learned these books could be purchased, we conceived the idea of making it the occasion of a great educational treat for our readers. That such will be the case, we will let the following facts and figures speak for themselves.

THE BOOKS ARE HERE New, beautiful, and in perfect condition; printed on the very finest book paper, specially water marked at the mill, and made for this edition; printed from the original plates of "RIDPATH" in big, bold, clear type; illustrated by the world's most famous authors, places and historical paintings; bound in rich dark green durable Holliston Linen, with backs stamped in full gold design; the same paper, printing and illustrations in which over thirty thousand sets have been sold at \$77.00 per set in Canada and the States, and never for less anywhere.

Send \$1.00 Only and we will ship the complete set to you, all charges prepaid. We deliver in the city free, prepay express to nearby points, and prepay freight where the distance is too great to warrant express charges.

Our figures show, after paying for the books, the freight, duty and over-head expenses of handling, and delivery charges to you, we can distribute them at \$1.00 with your order, and nine monthly payments of \$3.00 each.

Never Sold for Less Than \$77.00 THE WORLD has been reliably informed, and investigation has proved, that about thirty thousand sets of this marvelous work have been sold in the States and Canada at \$77.00 per set, AND NO LESS.

HURRY UP! They won't Last Long

ORDER BLANK -- Tear Out -- Mail Today THE TORONTO WORLD, TORONTO, CANADA. Gentlemen: Enclosed find \$1.00 for which please ship me, all charges prepaid, one complete set of RIDPATH'S LIBRARY OF UNIVERSAL LITERATURE in 25 volumes, bound in Holliston Linen, and I agree to pay the balance of \$27.00 at the rate of \$3.00 per month, beginning on the first day of the month following receipt of books. THRILL OF SERVICE SWEEPS CONFERENCE

Spontaneous Outburst of Patriotic Fervor Followed Lt.-Col. Williams' Address.

VICTORIA'S NEW GLORY Pacifist Philosophy Shaken and Students Are in the Trenches.

Urged by a spontaneous desire to give expression in some outward manner to pent-up feelings occasioned by a remarkable address by Lieut.-Col. C. G. Williams, chief recruiting officer for the Dominion, in which he made a fervent appeal for better recognition of the army and navy fund of the church, pastors, laymen and women present at the afternoon session of the Toronto Methodist Conference yesterday noon with one accord sang the national anthem.

It was an impressive scene, and, acting on the impulse of the moment, the delegates without a dissenting voice passed a resolution by which they pledged themselves to make a special offering to the fund on Sunday, the first Sunday in July.

Previous to Col. Williams' address some introductory remarks were made by Rev. Dr. Long who presented the report of the board. He declared that the lethargy of Methodists in responding to the fund was "appalling and shameful." Only one church in Toronto had responded, he said. He believed that if a collection was taken up in each charge ample funds would be obtained to enable the board to proceed with its work in an efficient manner.

Brave and Clean. He dealt with the moral condition of the soldiers at the front by reading an extract from a letter written by a Methodist chaplain with the fifth division, to the effect that in that division the 20,000 men were as clean, if not cleaner, than any community of 20,000 in the whole world. Only two-fifths of one per cent of the men were affected by drunkenness when the chaplain wrote that only three cases of this kind were reported a day in the camp.

Col. Williams, in opening, dealt with the great need of funds in order that the work of the army and navy board might be carried on, declaring that

the state would do its part as far as Methodist soldiers were concerned, but the congregations of that denomination would have to recognize that they had a duty to perform.

With reference to the conscription means now before the house, he declared that it did not involve racial consideration, but was one to be met with approval by everybody in the country. "God pity the man who makes it a racial question," he said. "The battlefront is just outside your door, not only on the fields of Flanders."

He emphasized the tremendous part being played in the war by the British pacifist teaching, which would maintain its supremacy on the high seas there would be no talk of the need of conscription, but conscription would be enforced immediately. "Any man who objects to conscription now is voting for compulsory service in the near future," was the way he put it. "The voluntary call has gone; we have been practically conscripting men for months past, make no apology for that. It is from the bottom of my heart, thank God, a new day has arrived."

Scales Have Fallen. In a brief address to the conference, Chancellor Bowles declared that Victoria College, once saturated with pacifist teaching, had shaken off that sort of thing and done itself credit in the war. He said that the college had been cleared, and having lost nearly all its students, "gloried in its weakness."

Edward Sparrow, 45 Pembroke street, employed as a driver by the Oak Vale Dairy, 661 East Gerrard street, was arrested last night by Detective Mulcahey on a charge of theft. THIRTY NEW YORK RECRUITS ARRIVE

Nearly One Hundred British Subjects Come From States This Week.

HIGHLANDERS PARADE. Another Briek Day of Enlistments at Toronto.

Recruits for the C.E.F. came forward in strong at the mobilization centre at Toronto yesterday. There were only 13 men rejected. The day was again featured by the arrival of a party of British subjects signed up for service with the Canadian forces at the British Recruiting Mission in New York City. There were 30 men in the New York contingent.

Some of the New York recruits arriving yesterday were enrolled with the following units: Canadian Rifles, 5; 48th Highlanders Co. and Army Medical Corps, each 4; Queen's Own Co., 2; Grenadier and 10th Royal Grenadiers Co., each 2; 10th Royal Grenadiers Co., Royal Canadian Dragoons, C.A.S.C., No. 1, R.C. Co. and Imperial Water Transport, each 1.

The 48th Highlanders Regiment paraded 495 strong, at the armories last night, 23 of its total being members of the overseas company. Lt.-Col. C. W. Darling was in command. There are now 198 members in the 48th C.E.F. company, the other 75 men being in training at Camp Borden. Last night's parade at the armories was spent in company drill, with No. 1 Company putting in an evening of target practice at the miniature ranges. The regiment is starting on a course of maneuvers. One company will study marksmanship each Monday and Friday night.

Grading of three months' pay and allowances to all soldiers honorably discharged or retired from the C.E.F. was announced by the minister of militia some time ago. Soldiers who come under this order-in-council have received their order-in-council from the militia department, which is causing comment. The view taken by some of the soldiers is that men who, after being discharged, again joined a unit of the C.E.F., and not to be eligible for this extra pay. One company will study marksmanship each Monday and Friday night.

In the affidavit sent each man, the affirmations asked for include, among others, "I am not at present a member of the permanent staff of permanent force or of an official or employee of any of the federal government, and that part of my service was performed overseas."

"Not if you are a government employee, it will not be necessary for you to have this form filled out by you return same, and state where employed. No postage required."

HELD ON THEFT CHARGE. Edward Sparrow, 45 Pembroke street, employed as a driver by the Oak Vale Dairy, 661 East Gerrard street, was arrested last night by Detective Mulcahey on a charge of theft. It is alleged that in the months of December, 1916, and January of this year he stole milk tickets to the value of \$15.68. He was taken into custody on Church street.

Apropos of the ball incident yesterday at Rosedale D. J. Leroy, the veteran East Toronto cricketer, tells of witnessing a centre stump being bowled down and leaving the two balls in position, supported by the outer stumps. It was a windy day and the wickets had been forced securely into the turf. Yesterday one end of a ball in the Ridley-T.C.S. game was dislodged and stuck an inch down on the wicket.

Thrill that brings Comfort instead of Sacrifice
THRIFT, the paramount national duty, applies to time as well as to money—to small personal outlay as well as to larger family expenditure.
Applied to the daily shave, thrift means the use of a GILLETTE SAFETY RAZOR
The Razor of National Service.
The Gillette reduces shaving time to five minutes or less—an actual saving of a week of working days a year! To the man who depends on the barber, it saves still more time, and from \$25 to \$50 or even more annually. This means the cost of one or several War Savings Certificates.
Moreover, there is not a man living with a beard to shave who cannot shave better with a Gillette if he will use it correctly—with the blade screwed down tight and a light Angle Stroke.
For the thousands of young men just reaching shaving age the Gillette Safety Razor is a source of good habits—not only thrift, but punctuality, personal neatness, and efficiency in little things. For yourself or your son, at home or Overseas, it is a splendid investment.
Gillette "Bulldogs," "Aristocrats" and Standard Sets cost \$5.00—Pocket Editions \$5.00 to \$6.00—Combination Sets from \$6.50 up. Send for Catalogue.

#### "THE SUBMARINE EYE."

"The Submarine Eye," the timely photodrama, with thrills new to motion pictures, will be continued in the next week at the Grand Opera House, with a matinee every day. The word "submarine," as used in the title of this marvelous production, made principally at the bottom of the sea, is not intended to suggest an underwater fighter. Briefly described, the submarine eye is an inverted periscope, which, when lowered into the water, reveals to the gazer above all that transpires on the floor of the ocean within the radius of its magnifying eye. The most perfect photography ever secured under water is the Williamson Brothers with their flexible metallic tube and submarine chamber serve to make the "Submarine Eye" the one big novelty in motion picture drama.

#### THE HIPPODROME.

In the Bluebird feature, "Treason," with Allen Holubar, Joseph Girard and Lois Wilson in the leading roles, the Hippodrome management believes that the picture, which heads the bill next week, is one of the greatest aids to recruiting ever filmed. The picture deals with the diabolical methods employed by the Germans in installing their secret service system in France. The Garden Belles have a bright little miniature comedy, featuring the Mrs. Vernon Castle, which will be shown in the thirteenth episode of "Patric," Henne Page and company in "Meet Me at the Gate" present a quaint pastoral play, while Burns and Fox are eccentric comedians. The Engman Sisters, Scott and Marke in smart songs, dances and dialog and Bell and Dell, monologists, complete the bill.

#### THE ROBINS PLAYERS.

Oliver Morocco is the producing manager who places his stamp of approval on the offering to be made by Edward B. Robins and the Robins Players at the Alexandria. The picture, which is the first in the series, will be produced for the first time in stock "Mile a Minute Kendall," from the pen of Owen Davis. "Mile a Minute Kendall" is described as a limited production, but because the action of the play is just about that fast.

"The Shrapnel Dodgers" will be seen in an entirely new act, with the exception of the musical turn given by Sergt. Blake on his one-string violin.

#### PAULINE FREDERICK.

For the first half of next week the marvelous emotional actress, Pauline Frederick, will be featured at the Madison in "The Better Sell," a phenomenon which gives an answer to the question when is it possible for a woman to propose to a man. As an added attraction there will also be presented Roscoe (Patty) Arbuckle in the two-reel comedy, "A Reckless Romeo."

For this week and Manager Solman has engaged another famous band which will give three concerts, one this evening and two Sunday. The first concert Sunday will take place in the afternoon, and the second in the evening. #### How to Look Years Less Than Your Age

The most aged face will look years younger after the use of ordinary make-up. This remarkable substance, because of its peculiar absorptive power, actually removes the thin veil of faded or withered outer cuticle, a little at a time. Gradually the fresher, more youthful complexion is revealed. This absorption process being a purely hygienic one, an entirely natural complexion is restored, free from the artificial complexion, which appears anything but girlish, though often bearing the appearance of youth. An ounce of mercolized wax, obtainable at any drug store, and a tube of mercolized cream at bedtime, and removed mornings with warm water. To eradicate such marks as wrinkles and furrows, make a wash lotion by dissolving one ounce of powdered mercolized wax in a quart of water. This has wonderful astringent and tonic properties. It quickly effaces all kinds of wrinkles, no matter how caused, making the skin firm, smooth and young-looking.

One of the newest and most promising employments being taught women is the making of optical munitions, lenses and prisms for binoculars and other instruments. The optical munitions training school is located at the Northampton Polytechnic, St. John street, Clerkenwell, London. The whole course lasts about twenty weeks, but from the outset of their training they receive ten shillings a week instead of paying fees. By the end of the twentieth week, if her progress has been good her payment is advanced to 20s a week.

#### DOUBLE BILL AT STRAND.

Two names were worth to conjure head the bill of the first half of next week at the Strand Theatre, Petrova in "Bridges Burned" and Charlie Chaplin in "The Immigrant." "Bridges Burned" was written by Madame Frenay herself and provides her with an ideal part in an ideal play. She takes the part of an unscrupulous Irish girl, who is wronged by the man she loves, and who, in the end, avenges her wrong by blowing up the man's house. Charlie Chaplin's new vehicle, "The Immigrant," is even funnier than most of the comedies in which he appears.

#### THE REGENT THEATRE.

Douglas Fairbanks in a Fairbanks comedy produced by the Fairbanks Company in typical Fairbanks style is what the Regent Theatre will offer as its big attraction next week, when "In Again, Out Again" makes its appearance here. "Doug's" latest screen performance, the first Fairbanks release of the Artcraft Pictures Corporation, is 50 reels of joy boiled down into six.

## SPOTS OF INTEREST AROUND BANFF

HERE are many beautiful scenic views to be seen in the vicinity of Banff and none more attractive than that of the illustrations below. Apart from the most beautiful mountain scenery in the world to be found around this delightful district Banff holds the distinction of being a very important town in the Canadian Pacific Rockies, and has a large number of attractions.

Natural Sulphur Springs lie a mile west from Bow River bridge, at the base of Sulphur Mountain, on the road to Sun Dance Canyon. It is approached through a small building and a short subterranean passage. The chamber within the mountain was formed partly by a subsidence of the rocks while cooling and partly by water erosion. It is somewhat conical in shape, having a base of thirty-six feet and a height of forty-five. Two and a half miles beyond the cave and basin, at the foot of Sulphur Mountain, is Sun Dance Canyon. It is said, that in olden days the plateau above was a favorite camping place of the Indians. It was here that the copper-colored aspirant of tribal honors passed through the final ordeal of courage—the suspension by the skin of the shoulder-blades, and other tests of endurance—before being admitted to the symbolic rites which signified that the Great Spirit had endowed him with powers essential to the full-blooded brave. Besides the numerous drives the National Park is one of the principal attractions of the village is the museum, maintained by the Government, situated at the north end of the Bow bridge. It is a handsome frame and log structure, finished in rustic design on the outside, and the inside with British Columbia fir and cedar. The building contains the museum, the offices of Mr. Howard Douglas, the Park Superintendent, a public reading and writing room and a dark room with necessary appliances for the amateur photographer. Within the museum are many fine specimens of the flora, fauna and mineralogy, etc., of the mountains, besides private collections of Indian relics, specimens of Indian workmanship and curios. Here too are kept the meteorological records. Adjacent to the museum are the aviary where a collection of imported pheasants is to be seen, and the Royal North-West Mounted Police barracks.

It is a great tourist centre and all the fascinating spots in the district are accessible by good carriage roads or bridle paths within a radius of three miles are the Hoodoos, Cascade Mountain, Stoney Squaw Mountain, the beautiful vermilion lakes, the animal paddocks, the golf links, and many other delightful spots.

Verdict of Accidental Death
Special to The Toronto World.
Kingston, June 15.—An inquest held this afternoon by Coroner Dr. E. Mundell over the death of Thomas Wislinski, the eight-year-old boy killed by a C.N.R. engine, it was shown that heroic efforts were made by brakeman W. J. Lee to save the lad. Lee was riding on the tender of the engine, which was backing down from the railway station to the roundhouse. At the risk of his own life the brakeman grabbed the boy and lifted him off his feet, but lost his hold and the child was crushed to death under the wheels. The jury returned a verdict of accidental death.

Chicago, June 15.—Estimates that the total domestic production of wheat for 1917 would be nearly 30,000,000 bushels in excess of the government figures. MINERS SUBJECT TO MONTREAL POOLS BEARISH ATTENTION SHOW NEW LIFE

Approaching Meeting of the Miners Explanation Given—Holly at New Low.

Start Made in Steamships Common—Dealings Cover Several Thousand Shares.

Another of the many crises in the mining situation in the mining camps is drawing near, and this influence is creating a nervous feeling in the mining market yesterday, which was furthered by some liquidation in the late afternoon and a generally softer feeling all around. It is these frequent occasions which make the mining stocks so unattractive to bear investors. Yesterday's movement was again on hand to take advantage of the weaker tendency, and, in fact, a short time ago was beginning to get almost optimistic, but when the bulls, if there are any, were being pretty quiet. However, it is a long lane that has no turn, and this maxim might apply just as well to the mining market. The worst that can befall a labor strike, and after the strike duty it would probably be found that this contingency had been pretty fully accounted for during recent months. The big Porcupine mines are already in about the position that a strike would leave them, while it is quite impossible that the men would give up the third property, where they are believed to be quite satisfied. Most of the remaining properties have not yet been taken up by their owners. As for Cobalt, there appears to be only a very remote possibility of a strike there, as the men in most mines are already on strike, and they are demanding, so long as a strike keeps where it is, over 70 cents per ounce, there is little cause for worry about Cobalt.

One of the Montreal pools has come to life, despite the money squeeze. Steamships started up on Thursday and came into real life yesterday with the handling to and fro of several thousand shares. Similar tactics have occurred on many previous occasions, and when the spurge is over the price will react again and the shares fall into the usual oblivion. The activity will be usual, find some buyers willing to take the chance of a small gain and large possible loss. It will require the stimulus of a dividend or the promise of a dividend to invite buyers of the balance of the list did not give the market any too genuine an appearance, and should provide ground for reflection among speculators. There was a small real demand for the two leading steels and some few other issues, but the public interest otherwise was non-existent.

BRADSTREET'S TRADE REVIEW

Toronto reports to Bradstreet's say that a vastly improved condition has resulted in increased retail trade as a result of the advent of summer weather at midweek. The demand for wash goods underwent a marked increase with the passing of the backward weather that has characterized the early part of the month. Dress goods also picked up. Collections were well up to the mark, and orders for the remainder of the year were quite satisfactory. Wholesalers estimate that there will be no British woollens or carpets available in the Canadian markets as a result of the American supply. The wholesale trade in carpets is well maintained still. Hardware business is quiet, but the leather trade continues. The demand for garden tools, etc., for the spring season eclipsed all previous records. In the opinion of a number of representative retailers, while autumn orders are guaranteeing a fair degree of activity in the coming months. Activity in the harness and saddlery trade is quiet. The leather trade continues, and there is a ready market for all available stocks for export to the United States. Sole leather is quiet, but the backward season is regarded with the domestic trade. The fixation of the government buying price of cheese has taken a good deal of the business out of the market. The egg market is much weaker, and wholesale buyers have arrived within one or two cents of the goal of 50 cents which they have fixed as the buying price. The British price of 40 cents a dozen would bring the buying price in Canada down to 27 or 28 cents, and buyers are of the opinion that this level will be closely approached. The sugar market is rather quiet at present, with only a change in the number of Cuban retapers passing. The number of Cuban factories grinding is still largely in excess of that at the same period last year. Buying to the extent of fully 250,000 tons by the British commission, American market, and has materially added to the strength of the situation. Live stock prices have tended lower, with both cattle and hogs 50 cents per cwt. The top price for butchers was at \$11.75 for the week, and hogs were down to \$15.50, fed and watered. Provision prices were strong, but slightly higher, and fresh vegetables have been substantially reduced in price.

ADANAC HELD MEETING

The annual meeting of the Adanac Silver Mines was held yesterday for the election of officers for the ensuing year. Mr. R. A. Cartwright becomes president, E. N. Campbell vice-president, M. R. Cartwright treasurer and secretary. Directors elected were as follows: R. A. Cartwright, E. N. Campbell, M. R. Cartwright, C. N. Bushnell, and A. B. Hind.

POOL OPERATIONS

Heron & Co. had the following at the close: Montreal, June 15.—Canadian Steamships advanced three points on a turnover of about 10,000 shares. Pool operations accounted for this unusual position and rumors of a dividend were in circulation. Canadian Car was a strong stock on the strength of their large Canadian order. The rest of the list was neglected.

LONDON STOCK MARKET

London, June 15.—The stock market was quiet, but steady, with the chief interest being in the mining shares which were showing a handsome profit. There was a little demand for investment stocks, and the old 4 1/2 per cent. preference of the London and North-Western was bought on a possible conversion rights in connection with a new issue expected in the autumn. Foreign bonds showed irregularity. The American department had a number of sales with prices and money in better demand. Discount rates quiet.

CONFUSION MARKS DEALING IN STOCKS

Liberty Bonds Draw Fraction Over Par on New York Exchange

New York, June 15.—Culmination of the Liberty loan campaign with a liberal over-subscription and a 6 per cent. rate for call money were the opposing forces in today's market and created considerable confusion and unsettlement of prices. Extreme reactions of one to four points in important stocks were largely regained before the finish, when money related to 8 1/2 per cent.

The Liberty bonds were duly listed on the exchange, their first quotations being 100 1/2-5/8, or a slight fraction over par. The market, which immediately followed, was mostly at par, but just before the close of the session a sale was reported at 99 3/4-5/8, a discount of 4 points in the hundred dollars.

Dealings in the new issue were regarded as nominal insofar as they bore on general investment conditions. The 6 per cent. money rate was the highest of the year, and resulted wholly from conditions imposed by payment to the Treasury of the balance of the Liberty loan commitments. Prior to the reversal in stock prices, the market was largely regained before the finish, when money related to 8 1/2 per cent.

WINNIPEG GRAIN MARKET

Winnipeg, June 15.—Trading was light and the market showed signs of weakness on the grain exchange today. Winnipeg's market for wheat was mostly closed at \$2.07. Oats showed a slight increase over yesterday's closing price with July and October 5 1/2. Flax closed one cent down for July and 1/2 cent decline for the October crop.
