POLITICS AT
FEVER HEAT IN
NEWFOUNDLAND

Royal Commission Is to Hold
Investigation
Charge That Premier and Another Attempted to Bribe
Member of Resign His Seat
Corrupt Practices Charged
Against the Member.

(Canadian Press.)
St. John's, Nfld., April 19.—The political pot is still boiling furiously here although the general and by-elections are months past. The latest sensation was created in the course of the charging of election petitions against Messrs. Woodford and Jones, elected members for Harbor Main, in November.
Woodford, who stands charged with corrupt practices, declared in an affidavit that Premier Squires and Hon. M. P. Gibbs attempted to bribe him to resign his seat. The opposition papers have been harping on this for some time and the opposition members have petitioned the governor to refuse to allow the local legislature to be opened by Premier Squires until the whole incident is closed. The opponents of the government have also called a public meeting to discuss the situation.
The ground has been knocked from under the feet of the protesters by an announcement that the governor, on the advice of the leader of the government, has decided that a royal commission shall issue an order for investigation of all the circumstances.
The legislature is summoned to meet tomorrow. It is said that the presidency of the legislative council vacated by Sir P. T. McGrath when the Cashin government was defeated will be filled by Hon. J. E. Ryan and M. Frank Steer of St. John's. Hon. S. Alexander Campbell and George Shee will be appointed to the legislative council. Two vacancies out of the five in the cabinet will thus be left unfilled for the present.
The personnel of the royal commission above is understood to be Chief Justice Sir William Horwood and Mr. Justice Kent of the supreme court bench, and Hon. H. K. Bishop, member of the legislative council.

PROFITEERING
CHARGES MADE

Boston Sugar Man and New
York Potato Dealer Are De-
fendants.

New York, April 20.—Charged with making an unlawful profit on the resale of sugar, E. R. Shurburne, members of a Boston sugar importing firm, was arraigned yesterday before United States Commissioner Hitchcock. The complaint, which was made by members of the government's "buying squad," alleges that Shurburne purchased 960,000 pounds of San Domingo sugar from a produce firm at 16 1/2 cents a pound, and resold it for 21 1/4 cents. The complaint alleges that he made \$40,000 more than reasonable profit. Shurburne was held in \$1,000 bail.
The "buying squad" also charged John McElroy, a produce merchant, with profiteering in potatoes. Government agents say McElroy purchased potatoes at \$3.85 a hundred pounds, and resold them at \$8.85. He furnished \$1,000 bail.

SEAL SEASON
WAS A FAILURE

Less Than 85,000 — Action
Against Crew — War Relics
Reach Newfoundland.

St. John's, Nfld., April 20.—Considerable interest attaches to cases against members of the crew of the sailing steamer Terra Nova, just returned from the ice fields. All the ships met with poor luck. They did not obtain enough seals between them to make a good cargo for one. When the period for which they had signed on expired the majority of the crews of some steamers refused to stay out longer, and practically forced the masters to return to port.
The captain of the Terra Nova has now entered test cases charging the men with violation of the Merchant Shipping act.
The total catch this season is less than 35,000 seals for nine ships.
Big shipments of war relics presented by the British government to the Dominion of Newfoundland arrived here on the Furness liner Digby. The shipment includes heavy guns, howitzers, machine guns and other war material captured from the Germans and Turks.

REACH NO DECISION
ON HARD COAL WAGES

New York, April 20.—After discussing for more than four hours the demands of the anthracite mine workers for a sixty per cent wage increase the sub-committee of operators and miners appointed to negotiate a new wage agreement adjourned here last night without taking any action.

Bishop's Charge At
Opening of Synod

Is Read at Service in Fredericton

Diocesan Fund, Forward
Movement, Increased Stipends for Clergy, Restoration of King's College, Some of the Subjects.

(Special to Times.)
Fredericton, April 20.—The 51st annual meeting of the Synod of the Anglican Diocese of Fredericton was opened this morning with a celebration of holy communion in Christ Church Cathedral. His Lordship Bishop Richardson was assisted by Very Rev. Dean Neales and Archdeacons Forsythe, Newham and Crofton. There were about 150 present, including both clergy and lay delegates.
The bishop's charge to the synod was read by His Lordship. He welcomed the various members to Fredericton and referred to the various subjects which will be discussed in the synod. He mentioned the Diocesan Fund, the forward movement, the stipends for the clergy, the restoration of King's College, and some of the subjects.

SOME THINGS
THEY WANT TO
KNOW AT OTTAWA

Ottawa, April 20.—(Canadian Press)—A fairly long list of questions regarding income tax, particularly as it affects farmers, is due for the house on Wednesday from H. H. Stevens, Vancouver.
W. Chisholm, Inverness, will ask for a list of officers of headquarters staff who have horses and rooms, or batten, supplied them since August 4, 1914, also for the costs. The question ends by asking if officers who do not have a horse and room received any extra pay in lieu thereof.
Details of the staffs employed in the offices of the cabinet ministers are asked by W. A. Deschene, Montserrat.
A. W. Chisholm, of Inverness, is asking for a statement on the public monies disbursed for war purposes within military district No. 6 from August 4, 1914, to the most recent date for which the figures are easily accessible.

CITY CLUB FOR
FREDERICTON

Fredericton, April 20.—A meeting was held last night in the board of trade rooms regarding the formation of a Fredericton city club. There were about forty present and the meeting was very enthusiastic and optimistic. Mayor John A. Reed was elected president and J. Stewart Neil first vice-president. The other officers were not elected. George E. Brown was appointed acting secretary-treasurer. The officers together with Jos. Dolphin of Maryville, P. S. Watson of Devon, C. K. Palmer, A. M. Gibson, R. G. Lee, H. W. MacLellan and J. P. Wislow, will form the managing committee. A. R. Slipp, K. C., was named as the chairman of a committee to take steps to have the Fredericton city club incorporated.

Referendum Resolution in
Legislature on Thursday
Teachers' Salaries.

(Special to Times.)
Fredericton, April 20.—The New Brunswick Power Company's bill will be considered tomorrow morning by the corporations committee and it is expected that the committee will reach a decision regarding the form in which they will recommend a bill to the house. This morning was practically devoted to consideration of the Fraser Paper Company bill, which involves the damming of the Tobique River. A private conference will be held on this bill this afternoon.
An informal caucus of all members of the house will be held tomorrow to discuss the whole question of teachers' salaries.
Hon. J. F. Tweeddale is able to be out again and it is his intention to give notice in the legislature this afternoon that on Thursday he will present the resolution calling for a referendum on liquor importation. J. L. Peck of Albert will second the resolution.

THREAT OF 100,000
TO QUIT WORK

Demands of Maintenance of
Way Employes and Shopmen.

Chicago, April 20.—A request for a temporary increase of \$1 a day, with time and a half for overtime after eight hours, Sundays and holidays, pending the decision of the railroad labor board, was made today by the General Chairman's Association of the Brotherhood of Maintenance of Way Employes and Railroad Shop Laborers.
Some 100,000 of the brotherhood in the district would leave work individually on May 1 by Socialist agitators to bring about a general strike of tenants in New York and the Bronx. The agitators are making a part of the May day celebration, so it is predicted by Arthur J. W. Hilly, chairman of the Mayor Hyatt's committee on rent.
"The plan is a part of the Socialist agitators' propaganda to nationalize property," says Mr. Hilly. It will be their first effort to socialize the city government and the Socialist have planned it to be such.
Brussels, April 20.—The Belgian syndicalist congress has decided on the participation by all branches of the syndicalist government in a twenty-four hour strike on May 1. Only the railway men are exempted. The minister of railways agreed to consider May 1 as a holiday.

WANTS EARLY MARRIAGES.

London, Eng., April 20.—T. P. O'Connor, M. P., declared that if he were a dictator some of his laws would be that every girl should be compulsorily married at 18 and every boy at 21. He said that young people ought to bring to marriage all the freshness of their hearts, their hearts, stating that men and women require each other's companionship most in their earliest and latest years.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "what do you think of the suggestion that our civic rulers and other persons of note should put on overalls?"

"Without alluding to anybody," said Hiram, "they could get me into a libel suit, I'd say some of 'em were onto the overalls off, 'int' right?"

"You surely don't mean?" queried the reporter.

"Well," said Hiram, "we'll say I mean that it won't be fair to the overalls."

"You don't see much point to that remark," said the reporter.

"Why consider the feelings of a pair of overalls?"

Washington, April 20.—The allied reply to President Wilson's Turkish note is expected to point out that without the solution of the Turkish question the Allies have found it impossible to adopt the president's suggestion that the Turk be driven out of Europe.
The Allies have taken the position, it was said, that the eviction of the Sultan from Constantinople was impossible without the assumption by some power, preferably the United States, of the obligation for the protection of Constantinople and contiguous Turkish territory.

PLAN MAY DAY
TENANTS' STRIKE

New York, April 20.—An attempt will be made on May 1 by Socialist agitators to bring about a general strike of tenants in New York and the Bronx. The agitators are making a part of the May day celebration, so it is predicted by Arthur J. W. Hilly, chairman of the Mayor Hyatt's committee on rent.

BUTTE DISTRICT
MINERS STRIKE

Butte, Mont., April 20.—Streets of the city were thronged yesterday with idle miners who walked out in response to a strike call of Industrial Workers of the World Local No. 800, or were warned away from the mine by I. W. W. pickets. Between 13,000 and 14,000 men are out. They demand release of all "industrial and political prisoners," a six-hour day, a minimum wage scale of \$7 a day for all miners, abolition of the rustling card; abolition of contract, bonus and efficiency systems; two men to work on all machines and two men to work together in all workings.

Detroit Women Fix Prices
Beyond Which They Will
Not Go — The Court In-
vaded and Also the House
of Commons at Ottawa.

New York, April 20.—The "overall campaign" to reduce the cost of clothing, which has now become international, continues to spread on this side of the line. It is being given the sanction of municipal authorities in some cities.

In New York plans are under way for holding a big overall parade on Saturday. The organizers announce that persons who prefer to wear old patched clothing instead of committing the "extravagance" of buying new overalls will be welcome.

An enterprising firm this morning advertised "dinner custom tailored" in six 1/2 inch spring and summer models at \$107, and denim "tuxedos for evening wear" at \$122. It also offers "modish evening wedding and afternoon gowns" of calico and gingham at \$13.

In Detroit women's associations have entered the ring. One thousand women officers workers have pledged themselves not to accept the following maximum prices:—
Hats and shoes, \$10; suits and coats, \$30; dresses, \$35; hosiery, \$2.50, and gloves, \$2.

The women's organizations have asked the United States district attorney's office to investigate "the unjustified advance in the price of women's clothing." All city employees at San Diego were today authorized to wear khaki or other cheap clothing in a resolution passed by the city council.

The rail has also been adopted in legal circles in Columbia, S. C., where a rule in effect since January, 1920, requiring lawyers to appear before the supreme court wearing black coats has been suspended at the request of men-ber of the bar in order that they may wear denim.

Ottawa, April 20.—(Canadian Press)—The "denim overall" movement invaded the commons today. C. G. MacNeil and David Loughman, great war veterans' association officials, appeared before the committee clad in khaki suits and said that they were but two of the G. W. V. A. executive who had joined the movement. All members of the executive have donned working garb as they take the stand that their next duty is to do what they can to reduce the cost of living. They hope to encourage the trend men everywhere to wear overalls.

Members of the House of Commons this morning said they intended to wear either overalls or old clothes. Many of them said they would start a rush on overalls, thus driving up the price to the detriment of the working man. The overalls and gingham movement continued to gain converts throughout the United States yesterday.

Vancouver, B. C., April 20.—Typhus has killed thousands in Siberia and thousands are still falling victims to the scourge, according to Dr. A. K. Higginson, an American Red Cross party leader, which arrived here on Sunday on the Empress of Japan. Dr. Higginson said that the present chaotic conditions in Russia could not prevail indefinitely, the great masses of Russians being earnestly in favor of a stable government.

"Russians will ultimately get on their feet," he said, "and then we may look forward to a new world."

FEATURES OF THE
BUDGET SPEECH

IN MOTHERLAND

Bounding Revenue and In-
crease in Excess Pro-
fits Tax

Expectation Was That Latter
Would Be Abolished and
Substitute Proposed —
Chamberlain Says National
Strength Great.

(Associated Press.)
London, April 20.—The feature of the budget statement delivered in the House of Commons yesterday by J. Austen Chamberlain, chancellor of the exchequer, was the revelation of the country's bounding revenue and a surprise by the chancellor in his announcement of a purpose to raise the excess profits tax to sixty per cent, when it had been expected this tax would be abolished and a substitute tax proposed.

In closing his speech, Mr. Chamberlain referring to the gigantic sacrifices that had been endured throughout the war described the nation's position as "one of unexampled and unequalled strength." He made no proposal, such as had been forecast, to institute a sinking fund to redeem the national debt within fifty years, but he announced that there would be no more borrowing to balance revenue and expenditures, and estimated that the new tax proposals would enable the redemption of £284,000,000 of the debt this year and £260,000,000 next year.

The new taxation scheme included increase in postal and telegraph rates, the raising of the duty on spirits from twenty-two shillings six pence to seventy shillings six pence; the beer duty from seventy shillings to 100 shillings per barrel; doubling of the wine duties, with the addition of a special ad valorem duty of fifty per cent apportioned among the various classes of wine; a fifty per cent ad valorem tax on additional stamps on commercial and stock exchange transactions and a new tax of a shilling in the pound on limited liability profits. The income tax was not changed, except for an additional super tax of six pence in the pound on incomes exceeding thirty thousand pounds per year.

Two questions were left over for special bills, namely, taxation or levy on war wealth, which the chancellor said the commons would decide when the commission studying the question had reported, and changes incident to the income tax in accordance with the recommendations of the royal commission under which the exemption list for married couples will be £250 and for unmarried persons £150.

The present taxes on motor cars and petrol are to continue in force until the end of the year when they will be superseded by new taxes.
Dealing with excess profits, the chancellor said the yield that greatly exceeded any forecast he should have dared to make and had foreseen the present situation on such reduction by forty per cent would have been made last year.

Debate on the budget was postponed until tomorrow. The few members who criticized it during the preliminary discussions based their complaint chiefly on the ground that the new proposals would still further aggravate the high cost of living. They also criticized the absence of a plan to liquidate the country's huge floating debt, saying Mr. Chamberlain had proposed that only £200,000,000 out of an available £284,000,000 this year should be devoted to this purpose. It was suggested that the £280,000,000 available next year half of it should be devoted to reducing the floating debt.

Press Comment.
London, April 20.—(Canadian Associated Press)—The press on the chancellor's budget speech is critical but not general unfavorable, except as to there being no prospect of reduction in the extraordinary expenditures.

The Times thinks that any skill in framing the budget is neutralized because the government is evidently unrepentant in its extravagance.
The Daily News regards the expenditure outlook as hopeless.

The Daily Chronicle, on the other hand, regard the policy as wise and courageous and one which should have excellent effect on our economic stability and on foreign exchange.

The Morning Post hopes that the heavy taxation will attract attention to its cause, which is extravagance in national expenditures.

Both the Telegraph and the Mail express disappointment that there is no promise of reducing the expenditures. The Mail adding that all the taps are still running and that even in this emergency the chancellor had not the courage to turn any of them off.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

BIG ACTS TODAY AT OPERA HOUSE

Famous Musicians, Great Comedy Skit, Clever Impersonator, Bouncers' Circus, and a Riot of Fun.

The Opera House is presenting today one of the best vaudeville bills they have been able to book in many weeks. Every act has special features and all are said to be real "head-liners." The programme will be as follows: Rond and Callaway, a brilliant pianist from Holland accompanied by a talented harpist; Lew and Molly Harding, formerly of the famous Four Huntings, who will appear in a variety novelty skit entitled "The Amateur Detective." This skit is teeming with real good comedy and is bound to make a big hit. Hal Springfield, a famous impersonator, in "Feminine Follies," Crumley and Brown, "The Two Red Caps" in a riot of repartee and laughter; Billy Bouncer's Circus, which is conceded to be one of the biggest comedy acts of the season and which will introduce the famous bounding contests. Everyone is welcome to compete and prizes will be awarded to winners at every performance. This is said to be a great act, teeming with comedy and laughs. In addition there will be the final episode of "The Black Secret," featuring Pearl White.

Carl Rond, a brilliant young Dutch pianist, has appeared with phenomenal success at the Panama-Pacific International Exposition in twelve recitals, four in the Palace of Education, three in the Missouri Building, one in the Indiana Building for the governor of Indiana and staff, one each in the Denmark, Utah, Texas and Illinois buildings, besides being soloist in Festival Hall, Old Faithful Inn, and with the Philippine Constabulary Band.

PRE-WAR PRICES
Will Prevail—The Retail Market Improves.

A day earlier than had been at first anticipated Amdur's are able to make preliminary announcement of completion of a commercial deal involving the expenditure of \$80,000 and to advise that in their stores, east and west, they will submit for public approval this week values and prices unprecedented in saving to the buyers in view of the present abnormally high market.

Full details of the latest achievement of Amdur's in the interests of the public will be published on Wednesday next. The Amdur institutions welcome the sale period as an excellent time during which to present proof positive that their offerings are well worthy of consideration not only in point of low price but also by reason of quality and style. The sale which opens this week is not going to be advertised as a question of bargain, but will be introduced as a matter of real economy. Amdur's are prepared to exhibit goods which will compel attention by virtue of startling values and all they ask in response is public examination of their offerings. Complete details of their great sale will be published on Wednesday next and Amdur's great their case on the facts which will be contained therein.

LOST WILL FOUND IN FAMILY BIBLE

Long Search Prompts Remark That Scripture Should Be Read Oftener.

Toronto, April 20.—The story of how after a futile search for months for a will it was found between the leaves of a time-worn, dust-laden family Bible, that had been snugly laid away on the top shelf of a cupboard in the garret, was revealed in the surrogate court here. The estate was that of the late Mrs. Charlotte Snell, 68 Alexander street, who died in August, 1919, leaving approximately \$9,000.

After hearing the tale from one of the daughters of the deceased, Judge Costworth expressed satisfaction as to the genuineness of the document and granted an order for probate. Among the beneficiaries was Thomas Snell, the second husband of the deceased lady, to whom she left but one dollar, without interest. They, it appears, had been estranged and had secured an official separation some years ago, he at the present residing in Alberta. When the present document eventually turned up, he was the contestant as the proof of genuineness.

The daughter told of one time after her mother's death meeting a nephew down town and chancing to remark that her mother left no will. "But she did," was the reply, "for my wife and I witnessed it." This, he related in the witness stand, had occurred as deceased was leaving after an afternoon visit. She had merely requested them to witness her signature, saying, "It's my will." They had thought nothing more about it, supposing after her death it had been probated. Search after search throughout her house followed, but no trace of it could be found.

Later the same daughter and a sister, desiring to take out some life insurance, resurrected the old family Bible from the cupboard and dusted it off in order to obtain proof of their ages for the insurance. The daughter told of finding within the old heirloom the long-looked-for will of her mother. "A proof," commented Judge Costworth, "that family Bibles should be read oftener."

WAACS DISSATISFIED.
Nine English Girls Have Left Guelph College.

Guelph, April 20.—Expressing complete dissatisfaction with their lot at Macdonald Hall, nine of the sixteen English "Waacs" who recently arrived here under contract to work at the local ladies' college, in return for tuition, left the city for Toronto, where they will seek more congenial employment. The seven remaining will stay at Macdonald Hall and, according to Miss M. U.

we cancelled the contracts and the girls left for Toronto. What they intend to do I do not know, but as far as we're concerned we are through with them." The girls were also dissatisfied with the tuition, which did not begin until the evening, and only after they had done domestic work all day.

Tabby Cats Wet-Nurse Baby Foxes on Farm
New York, April 20.—The legendary sucking of Romulus, the founder of ancient Rome, and his brother Remus, by a she wolf, has found a parallel in the nursing of baby silver foxes by motherly tabbies at an upper New York state fox farm.

So successful has an experiment of this kind proved, according to information received here today by N. H. Bacon, president of the New York Fur Auction Sales Corporation, that the owners of the farm referred to are now offering to rent cats with kittens for a six-week period at \$2.50 each.

On the arrival of the mother cats at the farm, the kittens will be taken from them, and in their place will be substituted baby silver foxes, only a few hours old. When the latter have reached the age of six weeks they will be ready for a more solid diet, and the foster mothers will then be returned to their owners.

The use of cats for this purpose is made necessary by the unwillingness of many of the female silver foxes to permit the handling of their offspring that is required when they are reared on farms. This unwillingness often causes the mother foxes to hide their young in secret underground burrows, or nests where they are likely to die if not found in time. On more than one occasion a mother fox has killed her young in preference to having them handled by the caretakers. This naturally causes financial loss that the use of sub-mothers in the shape of tabby cats is expected to prevent.

Even Magistrate Would Join Overall Army.
St. Thomas, April 20.—Talk of following the lead of members of the Loyal Order of Moose in Detroit and wearing overalls in an endeavor to bring down the increasing high cost of clothing is current in this city, many prominent men giving the matter serious consideration. Girls Like Farming
New York, April 19.—The American Land Service has reported that many women are seeking summer work on the farm. In two days, 100 applications were received from women school teachers alone.

Inspectors McAlish and Kerr yesterday afternoon seized a package containing a dozen bottles of whiskey addressed to a woman whose name does not appear in the city directory, and also to a street which is not in the city. Sara Taylor was arrested at Fort Fairfield recently charged with smuggling 160 quarts of liquor.

A piano recital in aid of the new gymnasium of German street Baptist church was given last evening by Miss Phyllis Barber, aged thirteen years, in the German street institute. She is a pupil of Miss Mariel McIntyre and her playing created something of a sensation. She handled difficult composition with great ease and excellent technique.

The following have been summoned by Coroner Horace A. Porter to inquire into the death of Andrew Ferguson: George W. Coroner, foreman; Walter Warren, Harold W. Stubbs, Arthur S. Godsoe, Gordon C. Allen, Ernest J. Todd and Herbert J. Keys. A post-mortem was held yesterday afternoon by Dr. H. L. Abramson, who said there was no evidence of suicide, death being due evidently to accidental strangulation.

A meeting of the ratepayers of St. Simons parish was held last night at Goldbrook, with J. M. Donovan, county councillor, in the chair. G. H. Simpson was appointed secretary. J. L. Rafferty read a letter from Hon. P. J. Veniot with regard to the breaking of winter roads. It was decided that statute labor would be used to work on the roads during the summer. Other business was transacted including some action to be taken with respect to the condition of Marsh Creek bridge.

PROPORTIONAL REPRESENTATION.

Mr. H. P. Hill, M. P., West, Ottawa, is an ardent believer in proportional representation. In an address in Toronto last week he advocated the change and expressed the hope that the Conservatives would make it one of the planks in their platform. The Globe report says: "Frequently, Mr. Hill said, Canada had witnessed the anomaly of the opinions of half a province being without representation in Parliament. Nova Scotia, for instance, in 1904, returned to Parliament 18 Liberals and no Conservatives, although there were only 56,000 Liberal votes cast, as against 40,000 Conservative votes. The same thing happened in British Columbia, but the shoe was on the other political foot, and the Conservatives benefited. Still another instance of political misrepresentation he gave was that of 1896, when a government with a majority of votes cast throughout the country was thrown out of power."

Canadian Finance gives another very striking illustration when it says: "There have been many instances of existing election systems, but the most recent and perhaps the most flagrant of all was the recent Ontario election. Out of a total vote of 1,153,567 the Farmers' Labor government now in control secured only 388,570 votes, for which they received 56 seats, and the opposition representing 769,997 voters—double as many as the government—only secured 55 seats."

Manitoba has adopted proportional representation, and Canadian Finance highly approves of the step and says: "The Manitoba government deserves commendation for its wisdom in adopting proportional representation for the purpose of its election system. It is a just and fair method of representation to strong minorities in proportion to their voting strength. The rapidity with which it is being adopted in all parts of the world is positive proof of its strong claims for recognition. The latest step forward entitles us to justly claim to have the first provincial government which has actually put proportional representation into force as a method of conducting elections. Other governments have discussed the idea, but Manitoba has once again played the role of pioneer and actually adopted proportional representation. Proportional representation has been in the public eye very prominently lately. Much has been written and said about it, but even now the public has a very vague idea of this system of conducting elections. The real danger in connection with its adoption is in the possibility of its being misunderstood. It is a system which will be watched with keen interest by the other provinces, and it is therefore imperative that steps be taken promptly by the government to inaugurate a campaign of education for the electors may be conversant with the operation of the system."

There has been some discussion of the new system in the eastern provinces, but it is not generally well understood, and no party has taken it up as a serious proposition. The action of Manitoba, as Canadian Finance observes, invests it with a new interest in all the provinces.

THERE'S MONEY IN IT.

The secretary of the Canadian Good Roads association declares that good roads mean millions for Quebec. That province introduced a good roads policy about eight years ago. Since then motor tourist traffic has steadily increased. In 1915 only 4,830 motorists visited the province. In 1916 there were 7,581, in 1917 there were 9,427, and in 1918 there were 9,177. During 1919 there were close on to 20,000 cars, representing nearly every state in the Union. Speaking of the last year and this year the secretary says: "A reasonable estimate of the money brought in last year would be \$4,000,000, and I venture to predict for the season of 1920, 80,000 cars, 120,000 people and \$5,000,000. This is a large amount of money, but still a small percentage of the possibilities, if we consider that in 800,000 car owners, every one of whom can make the distance between Canadian and American metropolitan cities in less than two days' time."

When these American motorists can come over good roads from Quebec through the maritime provinces, or come from Maine over good roads through these provinces and on to Quebec, we shall share in the benefits of the traffic. Great numbers of wealthy motorists turn aside at Portland or Bangor who would go on through to Quebec, with a side trip into Nova Scotia, if they were assured of good roads. Now that Nova Scotia has adopted a programme which involves the expenditure of many millions on roads during the next five years, it becomes more than ever the duty of the government of New Brunswick to continue the progressive road policy which has already yielded such good results.

There is one other matter of importance in this regard. The road rule of turning to the left should be changed. Only in these provinces is it still retained. In British Columbia, except in a small

corner of the province, will change the rule on July 15. Out of consideration for the street railways the change will not take place on part of the lower mainland and Vancouver Island until the end of next year, when it is expected that will be the law of the whole province. The change is made necessary because with the increasing number of American motorists there is grave danger to the public. It is only a question of time when the change must be made here and New Brunswick and Nova Scotia may as well make it this year as next. The New Brunswick government has authority to make the change at any time, and only awaits the action of the sister province.

A DANGEROUS UNREST.

Industrial and social unrest in the United States does not subside. The problem is a very serious one, made more so by the vicious activities of agitators who seek the overthrow of organized government. Some of the demands made by these people are such as would lead to chaos. They do not seem to have learned from the experience of the Russian people that Bolshevism as a working policy is an utter failure. May Day this year may see more than the usual demonstrations by those whose aim is revolution. And the agitation in the States is by no means confined to the I. W. W. The Toronto Globe says: "Parlor Bolshevism is one of the great dangers to the welfare of the United States, according to Mr. Peter W. Collins, director-general of the Employment and Reconstruction Service of the Knights of Columbus. During the last year he traveled forty-seven thousand miles in that country and answered three thousand questions in the last six months alone, and he makes the deliberate statement that there is more danger of revolution, that there is more Bolshevism to the square inch in New York city, and more Bolshevism to the square foot in the United States of America than there is in the whole tremendous expanse of the Russian Soviet Federated Socialist Republic."

Many vicious attacks have been made upon Hon. Mr. Veniot in regard to the Carquet Railway. Mr. Veniot has done all that it was in his power to do. That he did not do more was due to delay at Ottawa. As he pointed out yesterday, an appeal had been made to Ottawa against the act relating to the Carquet Railway, which was passed during the last session of the legislature, and he had found it difficult to get a decision from the minister of justice as to whether or not it would be set aside. More significant of the spirit which prompted the attacks upon the minister was the letter he found at Ottawa, written by a political opponent, and tending to discourage the federal government from taking any action. "There are partisans so bitter that they would destroy a public service rather than permit an opponent to gain any credit for work accomplished."

Hon. Mr. Foster pointed out to the legislature yesterday that if the federal government decides to aid the construction of a branch line from Medicine to a point on the Maine border, giving the Canadian National Railway direct connection with the New England system, it would be desirable to complete the Valley Railway from Centreville to Ansdover. The people of that section were promised a railway, and this may be the means of securing it. In the course of his speech the premier gave a very clear statement of all matters relating to the Valley Railway as they exist today.

INDUSTRY AND HOUSING.

The shortage of houses throughout Ontario constitutes the most acute municipal problem. A boom in real estate transactions has taken place in practically every Ontario municipality, especially in western Ontario, in recent weeks. Workers are being transported by motor truck to Oshawa factories from points as far distant as Bowmanville. The phrase "guarding a fire-side" has taken on new meaning when hearthstones are so scarce, and would-be possessors so numerous. In Brantford there are no empty houses for rent. All those at present unoccupied are being held for sale. Woodstock has not found the situation as acute as have other municipalities, but even there a change has occurred in the last three months, and transactions during that time are estimated to equal those of the preceding five years. Guelph, Kitchener, Stratford are in the same plight as other western Ontario cities. London, Chatham and Windsor are facing a difficult situation, and especially the latter city, which must build very extensively this year if it is to provide housing accommodation for the influx of workers in the new industries. The building programme everywhere is likely to prove inadequate. Materials are in short supply, especially lumber, which, according to a hardware wholesaler, is 112 per cent higher than a year ago. Brick manufacturers are satisfied that they will have a more active season than has been experienced since 1915.

Reduced Cheese Output.

Pictou, Ont., April 20.—Pictou Cheese Board has opened the season of 1920. Owing to the backward season and the feeding of calves, no cheese was offered for sale. Information was given by representatives of various factories that the output would be seriously impaired, owing to the opening of two large condenseries, and that the high price paid by butter factories would curtail the output for this season to sixty per cent of former years.

TOURISTS.

The statement and the scholars of war-torn Europe says, "We must have Yankee dollars to shoe the wolf away. So let the tourist travel, and show in boots and crows, and tread our bloodstained gravel, and see our shattered towns. They give us all the willies, those Yankee tourist mobs, the rubbernecks and sillies, the schwenkunds and the swabs. But we must have their booty, and so we rise and wall, Hurrh for Yankee Doodle, and for the eagle's trail!" The tourists will be flocking for many years to come, to see that once were shocking, where shrapnel and machine gun fire had once fought on, though slown of hope, the dowdy old maid teacher will read her guidebook there. Where soldiers used to hanker to gain the hero fame, some corned-Kansas banker will ply his snaphot game. Where once the armies wallowed in mud and bloody foam, on soil that should be hallowed, the rubbernecks will roam. And if old Europe bleeds them, and stings them till they're blind, the white she peds and feeds them, I really will not mind.

CANADA—EAST AND WEST

Domestic Happenings of Other Days

IN SEARCH OF GOLD.

On April 19, 1920, the first steamer to leave San Francisco for British Columbia, with a load composed almost exclusively of gold seekers, started on its northward voyage. The entire Pacific coast was greatly excited at the reports of marvellous wealth awaiting the hardy adventurers in the British province. Miners were pouring into the district from almost every country. The little ship carried sixty British, sixty Americans and about the same number of Germans, French and Italians. All were in search of the yellow metal that lay hidden in the bars of the land. It is estimated that in May, June and July of that year at least 23,000 went into British Columbia from San Francisco by the sea route while another 84,000 or more went by land trails. Steamboat owners reaped a rich harvest and all sorts of vessels in the bay were engaged in service to carry the miners. Many went well supplied with tools and cash for use in mining or in any form of activity that promised large and quick returns. The Hudson Bay Company owned in its office at Victoria the only safe in the country, and it was frequently filled to overflowing with the hard-earned money of the miners.

When the rush assumed large proportions, recognizing the possibility of trouble among such varied and often times untried men, the British government sent some of its warships into the vicinity to keep order. But there was little to be feared, and the newcomers were fairly orderly. Even the Indians shared in the prosperity that had come to the country for they were willing to work at \$4 a day in the gold hunt.

THE SECRET ORCHARD.

At the potted heart of spring-time, hidden as a cloistered rose, where the vagrant fancy hangs, up through laughter out of weeping, to no rest of mortal keeping—There the secret orchard blooms! And the fragrance of it drifting down a narrow, winding little Setts the vagrant fancy fairs. Wakes a flame in hearts unburnt, With a net of mist and dew, All who love dream blossoms best. But if any have attained it, None has ever yet confessed. All the fair things that abound there, Half the rapture that he found there. If the yearning that is crowned there, Be fulfillment of the quest?—Frances Dickson, "Under in Munsey's Magazine."

LIGHTER VEIN.

Resemblance. The stage manager was hurriedly giving instructions to his property man. "Did you say, you're a widow or a widow, sir?" asked the latter, somewhat perplexed. "I said a widow," he replied, and added, with a laugh, "but they're both much alike." The property man scratched his head. "Don't see how you make that out, sir." "Well," replied the stage manager, "when I get near either of them, I always look out!"—London Tit-Bits.

Ireland Wins.

"Talking of hens" remarked the American visitor, "reminds me of an old hen my dad once had. She would hatch out anything from a tennis ball to a lemon. When she was in the mood of love and hatched out two quarts of hot water." "It doesn't come up to a club-fouled hen my mother once had," remarked the Irishman. "They had been feeding her by mistake on sawdust instead of oatmeal. Well, sir, she laid twelve eggs and sat on them, and when they hatched eleven of the chickens had wooden legs and the twelfth was a woodpecker!"—London Tit-Bits.

The Policeman's Happy Lot.

The old-age pension officer was questioning an old lady with a zeal worthy of a noble cause. "And now," he said, "we have come to two important questions: Have you ever been in receipt of parish relief?" "Never" answered the old lady. "In the same plight as other western Ontario cities. London, Chatham and Windsor are facing a difficult situation, and especially the latter city, which must build very extensively this year if it is to provide housing accommodation for the influx of workers in the new industries. The building programme everywhere is likely to prove inadequate. Materials are in short supply, especially lumber, which, according to a hardware wholesaler, is 112 per cent higher than a year ago. Brick manufacturers are satisfied that they will have a more active season than has been experienced since 1915."

What Happened.

A young man who was asked to spend Christmas with a maiden aunt in the country, having large expectations from that quarter, had to regard the invitation as a command performance. His aunt filled his plate with turkey and accessories, and then heaped up another plate with Christmas pudding of the dreadnought brand. Fortunately the old lady was called from the room for a moment and the pudding went through the window into the garden. Some minutes later the maid entered, wearing a look of consternation. "Please, ma'am," she said, "three of our ducks is sunk."

GRAVEURE DELIGHTS LARGE AUDIENCE

A large audience in the Imperial Theatre last evening was greatly pleased with the programme given by Louis Graveure, who made a lasting impression with his pure, rich baritone voice in a wide range of song selections. The programme of charming variety, embracing French, Irish, Bohemian, folk and miscellaneous songs and in all of them Graveure showed an excellence of diction and wealth of tone, having to respond to encore after encore. His audience was delighted and the artist seemed to enter into the spirit of the enthusiasm which prevailed for he responded generously to the ovation tendered him. His accompanist was Frank Bibbs, who is responsible for a large measure of the success attending Graveure for he played with exquisite touch. The concert last night will long be remembered by the audience as an unusual musical treat which afforded pleasure and enjoyment.

GROSS SALE TAX FOR THE SOLDIERS

Washington, April 20.—House Republican leaders yesterday tentatively agreed to raise funds for soldier relief by a gross sale tax of not more than one per cent. The cash payments would be in quarterly instalments, beginning Jan. 1, 1921. Vigorous opposition already has been expressed by some Democrats and prominent Republicans, and a bitter fight is forecast.

IL. A. Flemming of Halifax Is Succeeded by E. S. MacNeil

Halifax, N. S., April 20.—The Bank of Nova Scotia announced yesterday that H. A. Flemming has retired from the management of the Halifax branch after a highly honorable service of forty-six years. He will continue to act as a member of the board of directors. Mr. Flemming will be succeeded as manager of the main branch here by E. S. MacNeil, a maritime province man who since 1913 has been manager of the bank's branches at Lunenburg, Pictou and Victoria, B. C.

MORNING NEWS OVER THE WIRES

In continuation of the budget announcements in the house of commons in London yesterday, Austen Chamberlain said there would be a further duty on when spirits, beer and cigars. Bush terminal, one of the largest in the world, was threatened by fire in New York yesterday, when the steamer Halifax was almost totally destroyed at one of the piers. The new British ambassador, Sir Auckland Geddes, arrived in New York yesterday. The house at Fredericton has decided to continue the close season on partridge for another season. Mrs. H. H. Melanson and Miss Catherine Hennessey of Moncton are in hospital in Toronto. Each was the victim of an accident which in the one case caused a broken thigh bone and in the case of Mrs. Melanson, a broken leg. Fire at Moncton yesterday destroyed the livery stable of D. A. McBeath and occupied by Fred Wilbur. Estimated loss is between \$4,000 and \$5,000; insurance, \$2,000.

FINANCIAL POSITION OF THE TORONTO WORLD.

Toronto, April 20.—Creditors and shareholders of the Toronto World Newspaper Company will meet on Wednesday, when a list of the reorganizers will be given out and a plan of reorganization presented. It is understood that the liabilities total \$600,000 and the equities in the real estate, plant, etc., \$250,000, leaving a deficit of \$350,000.

TO SWEDEN AND NORWAY FOR PAPER.

New York, April 20.—Sales of newspaper paper are setting certain manufacturers from ten to eleven cents a pound, according to figures presented at a meeting of thirty-two publishers of foreign language newspapers. A committee of two will go to Sweden and Norway to seek contracts for newspaper.

WOMEN FINED AS BOOTLEGGERS

Windsor, Ont., April 20.—Windsor's first woman bootleggers were up before Magistrate Myers yesterday and treated to a touch of the law. One received the heaviest fine the court assessed.

One Draws \$1,000 From Stocking and Pays It to Court.

Delia Rosa, thirty-four, of Wynndole street, was convicted of selling 500 cases of whiskey. She paid her fine of \$1,000 in cash, which she drew from the Little National Bank, Amelia Wolfe, ure, 256 Marion street, had sold a few bottles. Her fine and costs amount to \$219.

MORE OF THE MODES

London, April 20.—The smart woman now has the cost of her tailor-made longer at the back than in front. The line is straight. Panels mark the skirt. Afternoon frocks have no longer "halter" necks. The material is cut straight across the front from shoulder to shoulder. Silk skirts are making another bid for popularity. They are especially noticeable in evening and boudoir gowns.

MANUFACTURERS TO MEET.

New York, April 20.—The National Association of Manufacturers' Silver Jubilee Convention will be held in the Waldorf-Astoria May 17, 18 and 19. Problems of the farmer with relation to

Grass for Weald Hats.

London, Eng., April 19.—What women will wear nowadays is almost past belief," said a Lutton hat manufacturer. "It used to be difficult enough to forecast fashions but now it is hopeless. The wildest fantasies of past days are simplicities beside the monstrosities which become fashionable now."

PAPER ON ST. JOHN WATER SYSTEM

F. A. Barbour to Read One at Notable Convention in Montreal.

Montreal, April 20.—The American Waterworks Association will hold its fortieth convention in this city in the week of June 21. Canadian and United States manufacturers of all kinds of water works equipment will have exhibits.

Mr. Barbour is a former St. John man, brother of G. E. Barbour, and was the engineer on the St. John water system.

April 8th, 1920. From the Commissioner's Office, Territorial Headquarters, Toronto, Ont. An open letter To the Citizens of St. John and New Brunswick. Our experience is that the public is not less generous in its giving, but that it is more searching in its questions as to why the request and what is the money to be used for?

Why?—and What For?

The Salvation Army Activities in Canada the following institutions: Maternity Homes for poor mothers and their babies. Children's Homes, not "orphanages" or "institutions," but small homes where parental care can be most closely approximated. Rescue Homes for wayward girls and unmarried mothers and Women's Shelters for temporary care of dependent cases. Police Court Work where men and women, not habitual criminals, are taken in hand, induced to go straight, and followed up. Prison, Jail and Penitentiary Work, visiting prisoners and their families. Working Men's Homes and Shelters where men may have clean beds and decent surroundings at nominal charge, or, if they have not the price, free. Free Labor Bureau. General Hospitals. Home Mission Department. Hospital Visiting Bands. Industrial Workshops where derelict men support themselves and work out their own Salvation. Lost and missing friends world-wide enquiry. Training College for Candidates for Officership. Visiting and Supplies to Poor People in Their Homes. Young People's Work. These institutions are manned by officers whom gold cannot buy. They would not consider their service to be a joy unless it involved day-to-day, life-long, personal sacrifice for God and their fellow-men.

SITUATION IN STEEL MARKET

In its summary of the iron, steel, metal and machinery markets for week ended April 18, Canadian Machinery and Manufacturing News, Toronto, makes the following comments:—

Canadian consumers of steel read with some interest the reports of the United States mills month after month, but it is a fact that they find it hard to see where there is any of this improvement reflected in the shipments that are coming to Canada. Production was 84 per cent in January, 90 per cent in February and 96 per cent in March, but against these figures there is a booking of some 120 per cent of capacity. The market in this country is being supplied with a fairly large tonnage of premium goods. Jobbers find it necessary to put in much larger amounts of money to finance a given tonnage, and they do not make a correspondingly high return.

One of the Toronto dealers made the point this week that the old theory about steel being the barometer for all other things had been shot to pieces. "Steel prices at the close of the war were kept down, and it was a long time before the schedule of March 21, 1919, was departed from, but the comparatively low price of steel did not prevent in the slightest degree the price of everything else running away."

There are rumors of more caution being shown in the machine tool market, where some dealers are again calling attention to the fact that they are accepting business without the cancellation allowance. When a customer places an order they regard it as absolute, and deny him the privilege of changing his mind or switching his business.

There are rumors of an increase coming in high-speed drills. The present list has been in existence for some months now. Nothing official has come to the dealers of the reported increase. The scrap market is dull and listless, but prices are still standing where they were checked up to several weeks ago.

British Team Not Coming.

Montreal, April 20.—Con Jones of Vancouver arrived here yesterday from England. Interviewed as to his inability to secure an English or Scottish football team to tour Canada this summer, he said that F. J. Wall, secretary of the English Football Association, had informed him that so far as the football association was concerned no representative English team could visit Canada until 1922. At Newcastle his proposal was defeated at a directors' meeting by only one vote. At Glasgow the directors of Rangers and Celtic refused to entertain the project. The same result occurred at Bradford City and Chelsea.

Mr. Jones attributes his failure to fear of players being lost to Canadian clubs, also to jealousy among the players who would not be selected on the team to tour Canada.

Try for Canadian Team.

Hanover, N. H., April 20.—Earl Thomson, crack green hurdler, who was recently declared ineligible for the American Olympic team on account of his Canadian citizenship, has announced his intention of going to Montreal on July 10 to compete for the Canadian team. Thomson is joint holder of the world's record for the 45 yard high hurdles. Thomson has lived in the United States all his life, but during the war look out Canadian citizenship papers.

Canadian's Favorites in Antwerp.
Antwerp, April 20.—The Canadian hockey team, which arrived last week by way of England, had been practicing daily in preparation for the opening game of the Olympic series, on Friday night. The practices have been held at the Antwerp ice palace, where the contests are to take place. The players declare the ice excellent.

The drawings for the first pairings will be on Thursday afternoon. The Canadians are hoping to meet the Americans early in the series. The players from the dominion have been given a great reception by the British army contingent here. The American army officers stationed at the Antwerp base will root for the United States team. The Canadians are anxious in the betting here.

Will It Last? The Final Test Of Any Roofing

WHY spend a lot of money on an unknown roofing material, one that is not backed by past performances? It is a small job, or an industrial plant covering acres, that is to be roofed—make a lasting job of it by using a roofing that is worthy, one that will stand up to hard wear and changeable weather conditions.

NEPONSET PAROID

gives just this service on every description of roof, from the largest of railroad buildings and factories, down to the humblest of sheds.

The base of Neponset Paroid is a high-grade rag felt thoroughly impregnated with asphalt, making it positively waterproof and fire-resisting.

It is further reinforced with a talc surface, grey in color; or with a permanent slate surface, red or green in color.

Satisfy yourself when ordering roofing that it is Neponset Paroid. EASY TO LAY—With every roll is supplied sufficient nails and cement with full directions.

There is a Neponset dealer in your district. Write us for his name and a copy of our illustrated booklet "Roofing Canada."

LOCAL NEWS

TO GRAND LODGE.
 Stephen Stephen of West St. John left this morning for Woodstock as a delegate from No. 11 Lodge to attend the sessions of the Grand Orange Lodge of New Brunswick.

PROBATE COURT.
 Letters of administration have been granted to Jas. La. Killorn in the estate of Clarence F. Bidlop, who died intestate leaving \$660 personally. W. M. Ryan is executor.

TO FREDERICTON.
 H. C. Groat, general superintendent of the C. P. R. Ontario district, left this morning for Fredericton with J. M. Woodman, his successor as general superintendent of the New Brunswick district. They will inspect the line and incidentally meet officials in Fredericton.

HAVANA SERVICE.
 The Canadian Merchant Marine is anticipating a weekly service between this port and Havana during the summer, according to J. P. Donerty, port agent of the line. He says that at present there is considerable labor trouble in the south and as a result their steamers are being delayed, but once the situation is cleared up the steamers will run on regular schedule time.

ONLY ONE PLACE.
 The common clerk announced this morning that the suggestion put forward at yesterday's committee meeting to open another booth for the issuing of voting certificates to returned soldiers for the final elections on Monday had been taken up with the city solicitor, who had pronounced the scheme impracticable. The only office to be used will be that located at city hall.

FOUR TO PENITENTIARY.
 Detective Biddiscombe and Turnkey Cunningham escorted four prisoners to Dorchester this morning—John and Marcus McLean, convicted of stealing two overcoats, the property of A. E. Henderson and Donaldson Hunt, respectively, and sentenced to two years each in the penitentiary; George O'Dell, convicted of stealing overcoats from William Johnson, and also sentenced to two years, and Harold Smith, convicted of stealing lead pipe from Courtney Bay works and also sentenced to a term.

NOVELTY SHOWER.
 Friends gathered on Saturday evening at the home of Mrs. Douglas Cady, Metcalfe street, in honor of her sister, Miss Mary Roberts of Cady Station, to whom they tendered a novelty shower. She received some useful and valuable gifts in anticipation of her wedding to take place this week. A pleasant time was enjoyed with games, music and refreshments.

BOYS IN COURT
 A short session of the juvenile court was held yesterday afternoon, and cases against nine lads, charged with setting fire to grass, were taken up. The magistrate talked to the boys and told them what damage would be caused should the fire spread. With a caution he allowed them to go. A lad, aged fourteen, was charged with setting fire to a building in the store of Mrs. Currie, 46 Lambert street. No evidence was taken and the case was postponed for further investigation.

RIVER, STEAMERS ARE AWAY TODAY
 Steamship navigation on the St. John river was resumed this morning when the steamer Majestic left in company for Fredericton and the steamer Ocean for Wickham. The former had a fairly large cargo and a few passengers and the latter a small quantity of freight. Both steamers got away quite early and did not anticipate having any trouble reaching their destinations.

The water in the river continues to rise and from indications will continue to do so for some time yet. It is said that there is still a large quantity of snow in the woods.

FIELD DAY FOR THE BOY SCOUTS

At a meeting of the executive of the St. John district of the Boy Scouts Association last evening reports were submitted and matters of interest in connection with scout work discussed. Preparations were considered for a conference of boy leaders and scoutmasters to be held here soon with representatives from all parts of the province. The matter of securing badge examiners for the Wolf Cubs was left to a committee. This is a branch of the scout movement which has grown so rapidly that extra attention has to be given to it and it is necessary to secure additional workers for the cubs.

A big scout field day is planned for the King's birthday, June 3. At this there will be contests among members of the various scout troops in fire lighting, water boiling, knot tying, first aid, signalling and other matters pertaining to scout training. A. C. Skelton presided at the meeting.

ST. JOHN MAN'S SUCCESS

The following is copied from Bailey's "Topics of Brooklyn, for March": "St. John, N. B., that wonderful country beloved by poets, artists and sportsmen, the lure of tourists and the fulfillment of all romantic possibilities in the youthful heart of school children was the birthplace of E. D. Farmer. Eight years ago he entered the J. S. Bailey organization as manager of the Springfield store and made during his regime there "the store beautiful" with a fine organization and large sales returns. In 1916 he came to Brooklyn and accepted a promotion as general manager of the J. S. Bailey Company chain of department stores, which position he has since held, and which reflects credit on his aggressiveness, initiative and perseverance.

He put the "grow" in our famous slogan, "Watch us Grow." At the annual meeting held recently in Boston, Mr. Farmer was elected vice-president and a director of the J. S. Bailey Company—an all merited position. One in which his friends extend best wishes.

Mr. Farmer will carry on as general manager along with his other responsibilities.

MONTREAL TOTS ARE KILLED BY AUTOMOBILES.

Toronto, April 20.—Ethel Ryan, aged five, and Ida Easthope, aged three, were killed yesterday by automobiles.

MAY DECIDE FOR OVERALLS

Hardware Clerks' Association Here Taking Up the Matter.

The officials of the St. John Hardware Clerks' Association are getting together and discussing the matter of approaching their members on the overalls question. It is felt by them that all hardware men will welcome the idea, as they say the wearing of overalls can easily be adapted to the hardware business. A good many of the office men have already expressed their willingness to wear overalls. The high cost of clothing is a serious matter to the ordinary salaried person and general approval with which the movement has been met in other cities is said to make it almost certain that the plan will be adopted here.

POLICE COURT

In the police court this morning a case against Soo Hoo, proprietor of the Sanitary Cafe in Charlotte street, charged with allowing the illegal consumption of liquor on his premises, was taken up. He told of being in the kitchen on the night in question and that he did not know what was going on in his dining-room. He said, however, that he recognized Inspector Merryfield and that he saw him take a man out, but the man was able to walk. Inspector Merryfield was recalled and said that the man was carried out bodily by Sergeant Detective Power, Detective Biddiscombe and himself. The case was postponed for other evidence. G. H. V. Belyea appeared for the defence.

In the case of Clarence B. Whipple, charged with breaking and entering the residence of James B. Kaye, West St. John, John Maxwell said that a son of Mr. Kaye told him there was someone in his father's house. They went to the house and found it open, and on going inside saw that a trunk had been broken into and the cash box taken out. The case was postponed until next Tuesday morning and the accused was allowed to go to appear in court on that day.

Ernest Graham was charged with assaulting Robert Shaffer, an aged man, who was remanded.

James Fred Boyle, charged with wandering about in Waterloo street and not being able to give a satisfactory account of himself, was remanded.

John and Daniel Gillis, taken in for protection at 1.30 this morning, were remanded.

Albert McAniff, charged with being drunk and creating a disturbance in the store of Mrs. Helen Lacey, Germain street, recently, was told he was liable to a fine of \$208 and was remanded.

Two men charged with drunkenness were remanded.

NOT ALL SMOOTH IN THE JEWISH CONGREGATION

Talk of Petition for Recall of Present Board of Officers.

A mass meeting was recently held by the Jewish synagogue congregation for the purpose of discussing conditions as they obtain and of seeking a way that would result in their improvement. It appeared at the meeting that the large majority of the people were inclined to be displeased with the present board of officers. One of them as much as proposed that the present officers vacate and a spirited discussion of the case for the recall of the present board of officers, feeling that in the interests of local Jewry this is the best course that will bring about better conditions and restore matters to their former standing.

SUES FOR LIBEL

Capt. Geo. L. Ward Seeks \$8,000 From Peter McIntyre and A. A. McIntyre.

In the circuit court before His Honor Judge Chandler hearing was begun in the case of Geo. L. Ward, master mariner, vs. Peter McIntyre and A. A. McIntyre. The plaintiff alleges that he was libelled in a letter written by the defendants and claims \$8,000 damages. Mr. Mullin opened the case for the plaintiff and Mr. Powell conducted the examination. The plaintiff, who was master of the defendant's vessel, the Harold A. Cousins, took the stand and was followed by D. Mullin, Mr. Harrison opened the case for the defence and A. A. McIntyre took the stand before the noon recess. H. A. Powell, K. C., and D. Mullin, K. C., appear for the plaintiff and W. H. Harrison for the defendant.

SOCIAL VERY MUCH ENJOYED

An unusually good social was held by the Young People's Society of C. E. in Ludlow street Baptist church, West End, on last evening, and was attended by many. The event was the closing of a membership and attendance contest which has been running for some time. The society had been divided into ten sides and the members of the successful group captained by Mrs. A. K. Horton and known as Number 9, were the guests of the other groups.

The following programme was carried out: Piano solo, Miss Hilda Beattie; vocal solo, E. Clyde Parsons; mandolin solo, Harold Hopkins; humorous readings, Gordon Stevens; vocal solo, Miss Jennie Colwell; banjo selections, W. Thomas.

Guessing contests were participated in, these bringing much fun. An "advertising" contest was won by Harold Hopkins and W. Thomas, and a "cat" contest was won by Miss Mabel Wills and Miss Madeline Christopher.

The president of the society, Miss E. G. Cochrane, who presided, expressed appreciation of the work of Group No. 9 and said that a gold C. E. pin would be presented to Mrs. Horton. The other members of Group 9 were given whistles that they might keep blowing for the society.

After a few remarks by the pastor, Rev. W. R. Robinson, refreshments were served by an efficient committee, and the singing of the National Anthem brought a very pleasant evening to a close.

It's Hardly Our Place To Correct The Boston Transcript—

But in a recent issue under the feature-head, "Saturday Night Thoughts," appeared the following—

PUTTING THINGS TO RIGHTS.

In the spring a young man's fancy—
 No! Why not face the familiar fact
 and say, "In the young a housewife's
 fancy heretofore turns to mops and
 brooms."

Surely the staid old palladium of Boston doesn't mean to record that sentiment in the year 1920, "Fiercely turning to mops and brooms" harks back to the pre-Vacuum Cleaner period. Today the housewife sets power to do her spring cleaning. A touch of the button and up comes the dirt and dust from the carpet—an adjustment added and out draws the dust from chairs, sofas, etc.

Congoleum Floor Covering, where practical, does away with the broom—a damp cloth brushed over the surface and back to natural colors the rug.

MARINE NOTES

The Purvis Whaler Kianawha sailed from Plymouth on April 17 for this port with general cargo.

The Royal Mail Steam Packet liner Chelmsford sailed at 1 o'clock today for Montreal and the British West Indies via Halifax.

The Greek steamer Panaghi Vagliano is due this afternoon at the Greek quay, Halifax.

The Canadian Navigator is loading at Lunenburg and expects to get away around the end of the week. The Canadian Voyager is also loading for Lunenburg. Four were killed by the blast and two were buried under rock and debris.

IN THE TUBES.

New York, April 19.—Traffic through the tubes of the Hudson River tunnel between New York and Jersey City, the last branch of the railroad service in the metropolitan district, was interrupted by the "outlaw" strike of railroad employees, was resumed yesterday at 6 o'clock this afternoon and 7 o'clock tonight.

LOST ON RAILROADS

Washington, April 19.—Reduction of \$30,000,000 in the \$200,000,000 asked by the railroad administration to be granted by the house appropriations committee. The new appropriation would bring the total granted to \$229,000,000. The estimate was estimated today by the house appropriations committee at \$1,229,000,000. This includes the \$229,000,000 estimate and guarantees to the roads under the terms of the transportation act.

BACK IN OTTAWA.

Ottawa, April 19.—Greetings were being extended by members today to Sam Hughes and Hon. Rodolphe Lemieux, both of whom were in the parliament building for the first time since the opening of the session. Mr. Lemieux has just returned from a visit to Europe, and while there he visited the grave of his son, the late Lieut. "Ruddy" Lemieux, and also received a war decoration which had been conferred upon his son.

Sir Sam Hughes was looking much better as the result of his stay in the South. "My health has much improved," he said, "and I hope to take my seat in the House again, probably tomorrow."

ABSENT WITHOUT LEAVE.

New York, April 19.—Thomas J. McGill, leader of the strike of several thousand elevator operators here today was ordered to appear tomorrow before Clarence Fay, Commissioner of Public Works, to answer charges that he was absent without leave from his post as an elevator starter in the municipal building. McGill, who draws a salary of \$1,400 a year from the city, is alleged to have directed the strike while on "sick leave" and drawing pay from the city.

Matter of Passports.

London, April 20.—It is intimated here that passports are no longer required for passengers going to Canada direct and intending to remain there permanently.

DETROIT.

April 20.—A walk-out on the part of 100,000 members of the brotherhood of maintenance of way employees and railway shop laborers in the Chicago district will not receive sanction of the brotherhood, said E. F. Cable, president of the organization, today.

A Nice Dividend.

SUGAR MEN ARE CALLED TO OTTAWA

Ottawa, April 20.—Representatives of the sugar refining interest in Canada have been here under summons from the government to consult as to the advisability of removing control from sugar, the export of which is still under government regulations as a war measure. There is also involved a situation which may have to be discussed internationally. It is understood that the government has been advised by nearly all the refiners that they are not desirous that control should be continued as it is the home market they are mainly concerned with, but there is one of the refiners, the Canada Trust, who is anxious that control should be maintained. Mr. Dike of the Mueller, Fox Company, limited, Chicago, American sugar importer, is in Ottawa, urging that control should be removed and saying that certain Canadian refiners are sheltering themselves behind it in refusing to carry out contracts made for the supply of granulated sugar.

CANADIAN SHIPS AND THEIR USES

(Canadian Press Despatch) Montreal, April 19.—Replying to criticism in the Halifax papers in regard to the construction of new employment vessels now lying in Halifax harbor, Mr. Parsons, agent for the Anderson Shipping Company of Canada, selling agents for these vessels today said that the facts did not support such criticism.

These vessels, one hundred in number, were all built in Canada of Canadian materials and by Canadian labor. They are being used for various purposes around Newfoundland and in Halifax. One of them was sent to France as an exhibit ship in January by the Anderson Company of Canada, and in spite of the worst weather proved her seaworthiness in the most thorough manner. She arrived at Bonaventure from Halifax, after facing the worst weather conditions in fourteen years. Four were killed by the blast and two were buried under rock and debris.

SIX MEN KILLED BY EXPLOSION OF DYNAMITE

Bishop's Charge at Opening of Synod

(Continued from page 1) "I do not suggest that the synod should take action at this time in connection with this subject. The sending to the leading non-Roman Catholic churches in the province a memorandum in regard to it will be wiser, I think, than the outcome of any conference that may be called. The matter is one of vast importance and challenges the earnest attention of every one of us. Diverse education from the sanction of the supernatural law of God is of itself alone makes it worth while from the standpoint of human character. Unless education is allied with belief in God as the ultimate power, it is no real foundation for the ordered development of the world's light. It becomes a faith without the Word of God that pleads for the compulsory reading of the Scriptures in the public schools."

SOLEMN WARNING GIVEN AGAINST GERMAN PEOPLE

(Canadian Press Despatch) Toronto, April 19.—Frederic W. Wile, American newspaper correspondent, who represented the London Daily Mail and its associated papers in Germany, addressing the Canadian Club here today, said that he had spent three years in Germany, he had at last begun to understand the British character. Mr. Wile said that the American people should be warned against the German people that they are dealing with a nation that is not only unrepentant and unregenerate, but also unscrupulous.

MONTREAL DRUGGIST COMES OUT WITH THE FACTS ABOUT TANLAC

"We Never Had a Medicine in the Store That Gave Such Satisfaction," He Declares.

SAW OTHERS RESTORED, THEN TOOK IT HIMSELF

Quickly Overcame His Own Troubles After Everything Else Had Failed to Bring Relief.

"After my personal experience with the medicine, I do not hesitate to say that Tanlac is the finest tonic and system purifier that has ever been offered a druggist's counter."

"I had had acute indigestion for the last three years, and could find nothing to relieve me. After every meal I used to feel as though I had swallowed some hard substance. The gas would form so as to nearly suffocate me and cause my heart to palpitate. I had no appetite whatever and my food seemed to have no flavour. The distress caused by indigestion was especially bad at night, and hindered me from sleeping. I was fitful and nervous, and when at last I did drop off to sleep, I would have the most frightful nightmares, and wake up with a start to find myself in a bath of perspiration. My complexion was very sallow, and I got so weak that I felt as though I must give up altogether and go to bed. In fact I was in a complete state of nervous prostration and exhaustion."

"We never had a medicine in the store that sold like Tanlac or that gave such general satisfaction. So many people who bought it told me that they had been benefited by it, that I decided to try it myself. The result exceeded all my expectations, for Tanlac did more for me than any other medicine I ever tried. I now have a splendid appetite and my digestion is perfect. I have the most refreshing sleep at night, undisturbed by nightmares. My complexion is fine and healthy. I have gained several pounds in weight and feel as well and strong as can be. After this I shall take special pleasure in recommending Tanlac, for I now know from personal experience what it will do."

Tanlac is sold in St. John by the Ross Drug Company and F. W. Munro and by the leading druggist in every town. (Advt.)

IMPERIAL'S CROWDS WERE THRILLED TO THE MARROW

"Behind the Door" Story of Vengeance Wreaked on U-Boat Commander.

Whenever a photoplay production bears the imprint of Thomas H. Ince's direction, then the screen fans look for something extraordinary. That seems to have become the rule since Mr. Ince presented such screen triumphs as "The Guilty Man" and "False Faces." That Mr. Ince is making huge strides forward was amply evidenced at the Imperial Theatre yesterday, when his latest production, "Behind the Door," starring that virile player, Hobart Bosworth, was shown.

The story of "Behind the Door," written by Gouverneur Morris, afforded Mr. Ince ample scope for the employment of his genius as director of gigantic spectacles. It is a story of the logical development of which holds one spell-bound from start to finish. It is a thrilling narrative of tremendous dramatic strength at times and the finale which is disclosed by shadows "behind the door," and which breathes tragedy born of relentless vengeance of the man who has been deeply wronged, is one of the strongest seen by motion picture audiences here in many a day.

Oscar Krug, the part played by Mr. Bosworth, is a taxidermist in a small town where people are wont to gossip about their neighbors, right or wrong. At the outbreak of the war between the United States and Germany, rumor has it that Krug is a German spy, and one day, to vindicate himself, Krug thrashes a crowd of men who are seething with indignation and immediately enlists in the navy.

After he is assigned to the captaincy of a merchant vessel, it develops that Krug has secretly wedded Alice Morse,

the charming daughter of a banker. She is the outcast of her home by her indignant parent, and disguising herself as a Red Cross nurse, she joins her husband aboard his ship. After a cruise of some days the vessel is torpedoed and Krug and his wife are forced to take to the boat for safety.

The couple fare badly during the next few days in the open boat, when suddenly a submarine appears from the depths. Krug hauls the U-boat, which is commanded by Lieutenant Brandt, and assists his wife to the deck of the submarine and is preparing to follow her when Brandt orders the crew to thrust his boat away. Krug blasphemes and swears vengeance upon Brandt, who launches forces Alice into the conning tower, and presently the U-boat submerges, leaving Krug alone on the face of the deep.

Krug is rescued by a passing vessel and again rejoins the merchant marine. In the days that follow, he sinks the same submarine. Of all the crew, Brandt alone is saved, and recognizing him, Krug plunges into the sea and saves his life. He takes him to his cabin and behind the locked door obtains the full story of Brandt's iniquitous conduct toward Krug's wife. The Hun, steeped with liquor, falls to his knees and he glances drunkenly as he reveals the story of Alice's sufferings and death at his hands.

Krug trusses up Brandt and proceeds to wreak vengeance upon him. Although the audience are not favored with all the details, the shadowgraphs employed by Mr. Ince tell the frightful story of an enraged strong man's vengeance for the wrongs done him and his by a ruthless foe. It is in these scenes that Mr. Bosworth reveals his art—a pictorial display that will linger long in one's memory.

This story will receive its final presentation on the Imperial stage at four shows today.

Minard's Liniment for burns, etc. ST. MARY'S BAND FAIR. The fair being given by St. Mary's band in Thorne Lodge Hall, Thorne avenue, got away to a good start last evening. It was opened by a speech by E. N. Stockford. The hall was packed to capacity and a good programme of music was furnished by the band. The door prize, a bag of flour, was taken by ticket No. 412, which was held by James McLeod. A pair of slippers, prize for tagetie, was won by A. Kinney. The floodgates prize was taken by A. B. Copp, a fine slipper. The piano prize went to Mrs. John McCormack, and consisted of a box of soap. The drawing for the fancy waist was won by Mrs. H. McEachern.

The fair is being conducted by members of Thorne Lodge and St. Mary's Band, acting together. It was liberally patronized and the various games and amusements afforded enjoyment to the various booths and about the hall generally.

THE NEED OF GAME PROTECTION

Arrangements for Entertaining National Editorial Association in June.

The committee having in charge the arrangements for the reception of the National Editorial Association party that will arrive in St. John in June reported good progress made in all the preliminaries, at the meeting of the Tourist Association in the association's rooms yesterday afternoon. N. R. DesBrisay, the president, was in the chair and there was a good attendance of members. Amongst those present was W. H. Allen of Fenwick, York county, president of the New Brunswick Guides' Association, who came specially to offer the association's co-operation of the guides in entertaining the party of distinguished guests.

Detailed arrangements were reported to have been made for taking the party for a sail on the St. John River on the first day of their visit. The Commercial Club has asked to be allowed to take part in the entertainment and it was decided to accept the offer. To provide the supper on the first night, holding it either at some place on the river reached in the sail or holding it in St. John on the return from the sail. This proposal it was decided to submit to the Commercial Club and pending the answer of the club no action will be taken for the supper arrangements by the association.

Plans for the second day of the visit which were spoken of included an automobile trip round the city in the morning with visits of inspection at the principal industrial plants. Reports were given of the formation of a game protection association for the province which will be in readiness to present to the visitors. These souvenirs it is planned will consist not only of attractive brooches but also of simple articles typifying the manufactures and industries of the province.

As the party is to go on to Dalhousie when it leaves St. John to attend the convention of the All New Brunswick Tourist, Game and Resources League in that place the arrangements for the convention were discussed at length. W. H. Allen, on behalf of the guides, said that he was prepared to make all arrangements for the party.

The meeting yesterday also took up the matter of the formation of a game protection association for the province which is to be brought up at the convention in Dalhousie. W. H. Allen, W. Gagnon, chief game commissioner for the province, had expressed the opinion that such an association of sportsmen and men interested in the preservation of game and fish in the province which would uphold the game commission and create public sympathy in the enforcement of the game laws, was an absolute necessity in New Brunswick.

Reports of the different counties regarding membership rolls recently sent out by the All New Brunswick Tourist, Game and Resources League, were very satisfactory. They showed that the league membership was rapidly increasing and that support for its undertakings and interest in its work would be assured by a large and representative body in each county.

CLASS PRESENTATION. At the closing session last evening of the show card and lettering class "A" in St. Vincent's school, Cliff street, Mr. Sergeant, on behalf of the class, presented the instructor, John B. Moore, with a handsome shaving outfit. Mr. Sergeant, in making the presentation, referred to the efficient and painstaking manner in which Mr. Moore had conducted the class and sincerely thanked him for his efforts.

Although taken by surprise, Mr. Moore, in a few well chosen remarks, replied in a fitting manner, and complimented the class on the talent shown, and trusted they would be able to continue the work.

GROWING DEAF WITH HEAD NOISES? TRY THIS. If you are growing hard of hearing and fear Catarrhal Deafness or if you have roaring, rumbling, hissing noises in your ears go to your druggist and get 1 ounce of Farmanin (double strength), and add to it 1/4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who is threatened with Catarrhal Deafness or who has head noises should give this prescription a trial.

Watery Blood

YOUR blood may be rich and red—well stored with nourishment for the cells and tissues, or it may be thin, weak, and watery.

If thin, there is a pallor of the lips, gums and inside of eyelids. In other words you are anaemic or bloodless.

Since every ounce of nourishment supplied to the human system is obtained from the blood, the anaemic condition means a starving of the nerves and crippled functioning of the vital organs.

Headache, lack of energy and ambition, failure of the digestive system, shortness of breath, weak heart action and sluggish, torpid condition of the liver, kidneys and bowels are some of the symptoms of anaemia.

Cure can only be brought about by improving the condition of the blood by use of such treatment as Dr. Chase's Nerve Food.

The digestive system has failed to supply proper nourishment from the food you eat, so you must get the blood-forming elements in condensed and easily assimilated form as they are found in this well-known food cure.

The letters published here will give an idea of the benefits to be obtained from the use of

Weak, Thin, Nervous People Should Take Bitro-Phosphate

What it is And How it Increases Weight Strength and Nerve-Force.

Judging from the countless preparations and treatments which are being advertised for the purpose of making thin people fleshy, digestive organs and muscles and pale cheeks glow with the bloom of perfect health. Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among chemists as bitro-phosphate, which is incorporated in our most all drug-expensive and sold by most all drug-gists under a guarantee of satisfaction or money back.

By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate will soon produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear. Hair falls out and pale cheeks glow with the bloom of perfect health.

CAUTION—While Bitro-Phosphate is an unsurpassed aid for the relief of nervousness, general debility, etc., those taking it who do not desire to put on weight should use extra care in avoiding fat-producing foods.

Muscles Need Nothing when the nerves fall down. The nerves control the muscles. The stomach feeds both.

Millions of people have adopted a new teeth cleaning method. Wherever you look you see pearly teeth nowadays. Let this ten-day test reveal what this method means to you.

Those Pearly Teeth

Learn how people get them. All statements approved by high dental authorities.

Everyone is welcome. Now this new method is embodied in a dentifrice called Pepsodent. And everyone is welcome to a ten-day test.

Pepsodent is based on pepsin, the digester of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

Pepsin long seemed impossible. It must be activated, and the usual agent is an acid harmful to the teeth. But science has found a harmless activating method, and pepsin can be every day applied.

Two other ten-day requisites are combined in Pepsodent. So this method in three ways brings unique results, and everyone should know them.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears. It will be a revelation.

Do this for your sake and your family's sake. Judge the method by results. Cut out the coupon now, for few things are more important than whiter, safer teeth.

VALLEY RAILWAY BILL EXPLAINED

Interesting Session at Fredericton Yesterday — Water Power Bill Passes Committee.

Fredericton, April 19.—A full explanation of the several government bills relating to the Valley Railway was given in the legislature this afternoon by Premier Foster. Interest in the government plans for the road has centred in the extension for which the premier had announced early in the session authority would be sought. Hon. Mr. Foster explained today that this extension was contingent upon the action of the federal government with respect to the construction of a new branch line from Meductic, on the Valley Railway to a point on the international boundary line, to connect with the Maine Central Railway. This project now is receiving consideration at Ottawa and if carried out will give the Canadian National Railways an outlet of their own for traffic destined for the New England states and other parts of

be developed to go a long way towards paying the interest on the investment besides serving the local needs of the country through which this section of twenty miles would run. Over and above the dominion subsidy available, the new line would cost about \$1,000,000 and the premier suggested that the first steps towards securing this extension would be the consent of the federal government to the proposed extension to the international boundary.

Claims Against Railway.

The premier also made an interesting statement of the various claims against the Valley Railway which are receiving attention, including that of the B. N. A. as assignees of the Hibbard Company, which is based in part on the allegation that a settlement made by the previous administration was founded on a bogus claim. Another suit is that of A. R. Goulet, who not only seeks \$48,000 from the province, but also claims ownership and control of the road.

The Valley Railway bills before the house provide for the funding of expenditures not previously funded; for an extension of time for the construction of the line to Andover; for the adjustment of right of way claims and the continuation of the offices of the directors of the railway company.

A peculiar incident occurred at the beginning of the evening sitting, when B. F. Smith of Carleton, on a question of privilege, read what purported to be a rather violent attack on the minister of public works and his methods of administration which had appeared in a lengthy communication in *L'Espresso*, under the signature of Thomas Albert, priest, Shippegan.

Hon. Mr. Veniot promptly inquired where the question of privilege came in, and also what guarantee the house had for the translation was correct. As a matter of fact, he said, the translation appeared to him to be garbled and Mr. Smith's purpose seemed to be that of making an attack on a minister under circumstances which did not give him an opportunity to present a defence.

Mr. Smith's reply was that the article impugned the honor of a member of the house and therefore was a fitting subject for comment on the floors of the house.

Hon. Mr. Veniot retorted by quoting from the letter the words, "I believe you

PURITY - QUALITY - ECONOMY

With the increased cost of labor and materials due to war conditions, it is not reasonable to suppose that a really first class baking powder can be made and sold at the old prices. Rather than sacrifice the quality of

MAGIC BAKING POWDER

we found it necessary to make slight increases in price during the war period. Even though Magic Baking Powder may cost a few cents more than the ordinary kinds it is still by far the most economical baking powder on the market to-day when purity, strength and leavening qualities are taken into consideration.

honest, Mr. Minister." It is possible that more will be heard of this matter before the incident is closed.

Water Power Bill.

When the house took up in committee of the whole consideration of the government water power bill, it looked at first as if that would keep the members busy for the rest of the evening but surprisingly rapid progress was made with it, with the result that practically the entire bill, with the exception of a few clauses which were held over for consideration,

was disposed of by 10:30 o'clock. Among the sections held over was that authorizing a member of the government to draw pay as a member of the water powers commission. Mr. Baxter regarded this as a departure from established principles of constitutional government. The premier said that it would be but following the example of Ontario, but promised consideration.

Keeping up the speed which was generated toward the close of the last week, the house started today on the sixth full day of the session with a momentum that carried it through an immense amount of business. In addition to the other business transacted, thirty bills were considered by the committee of the whole and most of them were reported as agreed to.

An important session of the corporations committee will be held tomorrow morning when that committee will consider in private session the verdicts on the New Brunswick Power Company, Fraser Paper Company and Miramichi Light, Heat and Power Company bills, all of which have been the subject of representations pro and con by interested delegations.

Why Women are Thronging to See the Charming New Designs in Metal Beds—by Simmons Limited

NO woman needs to hear the advantages of the metal bed over wooden beds explained to her—nor does she need to be told how badly the old-style metal beds look in the room.

The bare announcement a short time ago that Simmons Limited had at last achieved truly good design in metal beds was enough to throng the prominent stores where these beautiful beds are being shown.

IT will interest you to know that this achievement of Simmons Limited involves also the invention of the first truly seamless tubing ever produced for metal beds.

This Seamless Steel Tubing—exclusive Simmons idea and property is square and trim; free from seam, split, pit or rough spot. It works kindly into shape—finishes smooth and takes the enamel in one even, unbroken coat all over, free from pinhole, check or chip.

All these new Simmons designs are made with the Simmons Seamless Steel Tubing.

Illustrated below is a Twin Pair of the "Tudor," a design that goes beautifully either with strictly Period furniture or the pleasant livable atmosphere of the typical "homey" bedroom.

You will find these fine new Simmons designs in Beds Built for Sleep in the leading stores.

Your choice of many different patterns—and of Twin Pairs and Double Width in each pattern.

Enameled in accepted Decorative Colors, and in Mahogany, Oak and Circassian Walnut.

Simmons Springs, too—

"Waldorf" Box Spring—Composed of finest oil-tempered double-cone spirals, mounted on a frame of seasoned hardwood and upholstered with heavy layers of white cotton felt. Finished with roll edge. Covered with attractive ticking. A spring that really does give freely to all the contours of the body, yet supports the spine in any sleeping position.

And some very charming Brass Beds and Children's Cribs, together with Simmons Mattresses and Pillows—all built for sleep by Simmons Limited.

SIMMONS BEDS, Springs, Mattresses and Pillows cost little if any more than the ordinary merchandise of the average store.

A post card to us will bring you the names of Simmons merchants near your home.

The "TUDOR" No. 1963—in Twin Pair
Made of Simmons' new Square Steel Tubing—seamless, smooth and beautifully finished.
Exquisitely enameled in the accepted Decorative Colors.
Has the Simmons patented pressed steel "Noiseless Corner" lock. Easy rolling casters.
Your choice of Twin Pairs and Double Width.
Especially pleasing in Twin Pair.

Sleep is a big subject! Write us for the booklet, "What Leading Medical Journals and Health Magazines Say About Separate Beds and Sound Sleep." Free of charge.

EDUCATION AS A PANACEA FOR BOLSHEVISM

Albany, N. Y., April 20—The senate last night, without a dissenting vote, passed the fourth of the Lusk bills designed to curb radical activities. The bill passed last night is intended to provide for the extension of educational facilities to foreign born and native adults and minors more than sixteen years of age.

To Honor Dead of St. Julien Battle

Ottawa, April 20—Yesterday in parliament the house, on the proposal of George Foster, decided to stand for a minute or two in silent prayer on Thursday next, the anniversary of the battle of St. Julien, in commemoration of the bravery and heroism of the Canadian troops.

Fernand Rinfret, recently elected member for St. James-Montreal took his seat on an irritated and inflamed condition they get no chance to heal.

You will find in Dr. Wood's New Way Fine Syrup a remedy without an ounce for curing coughs and colds, soothing inflamed cases, relieving the phlegm, strengthening and healing the breathing organs and fortifying them against serious pulmonary disease.

Mrs. Fred Fairburn, Copper Cliff, Ont writes—"I caught a heavy cold, got sore throat and had a terrible hacking cough that I could not get rid of. I had tried quite a few remedies, but they did not seem to do me much good until I took Dr. Wood's New Way Fine Syrup. By the time I had taken a few bottles, my cough was all gone.

"It seemed to loosen the cough right away so that I could spit up the phlegm that gathered in my throat, and also took the hot, raw, burning fever out of my bronchial tubes. I feel that Dr. Wood's has no equal."

Price 25c and 50c, at all dealers. Put up only by The T. Millburn Co., Limited, Toronto, Ont.

NEW FUEL HOTTER THAN COAL OR OIL

St. Louis, April 20.—A new fuel fluid of greater heat value per unit than either coal or fuel oil, and hence particularly valuable as a fuel for steamships and battleships, giving them a wider cruising radius, was described in a paper by Jerome Alexander, a New York chemist, which was read by Dr. Harry H. Holmes of Oberlin College, chairman of the National Colloid Research Council, before the American Chemical Society.

The paper declared that the new fuel utilizes coal waste and cheap tars, these ingredients being dispersed in fuel oil by colloidal action and the action of a certain "fixing" agent, whose nature is kept secret, results in a fuel which combines the valuable qualities for heating of both oil and coal. Peat, lignite, cellulose waste, sawdust and similar inferior fuels may be utilized in the process, Mr. Alexander declared. He said that the new fuel could be piped, stored and burned virtually as fuel oil, and that as a fuel for steamships it is virtually double the value of either coal or the present forms of fuel oil. He also declares the new fuel is very valuable for laying smoke screens in warfare.

A proposal that chemists assist in wiping from public use and memory the term "wood alcohol" because it suggests an intoxicating beverage, and consumed as such, was made to the pharmaceutical division of the society by Charles Baakerville, professor of chemistry of the College of the City of New York. Under the new plan the name wood alcohol will be abandoned and the word "methanol" used instead. It was also judged that the change in the name had been recognized, but its usage could not be brought about instantaneously, and would require time. As no formal legislation can eliminate the old term, chemists and druggists must perform the service.

PUBLIC IS LOSING TRAINED EXPERTS

Snapped Up By Private Firms, Committee Is Told.

Ottawa, April 20.—Within a few months, if the present exodus continues, fifty per cent of the trained experts in the bureau of mines of the government services will have left to accept the offers of private employers, R. J. McConnel, head of that branch, told the standing committee on scientific research, with their salaries. Private companies are offering them much more money for their services and the classification has given them little hope of attaining what they consider a proper position in the civil service.

The chairman, Hume Cronyn of London, gave an account of a trip he had made, with Dr. A. B. Maclean, administrative chairman of the advisory council on scientific research to Washington and Pittsburgh, where they had inspected the bureau of standards at the former city and also the Mellon Institute in Pittsburgh. In the former bureau there was an immense amount of industrial research work being done and mapped out, while the Mellon Institute, which is supported by two wealthy bankers, is also engaged in solving industrial problems.

KILLED WRONG MAN.

Saskatchewan Farmer Says Crime Was Unintentional.

Saskatoon, Sask., April 20.—Enraged at his brother-in-law, Jake Senft, for alleged attention to his wife, Harry Johnson drew a revolver and in attempting to shoot Jake Senft, shot Fred Senft instead, killing him instantly. The killing took place on Fred Senft's farm at Jasmun, near Melville, Sask., according to the statement of Johnson, who walked into provincial police headquarters at Melville to give himself up.

He said he had killed Fred Senft, but that the killing was unintentional. Johnson's brother-in-law, giving his alleged grievance as a reason. He was locked up on a charge of murder.

TABERNACLE CHURCH SOCIAL.

The Young People's Society of the Tabernacle church held a rubber social last evening in the school room. The meeting opened by the singing of several songs by the assembly. The programme consisted of readings by Miss Tilley Ross; solo, by the pastor, Rev. Mr. Brindley; reading, Mr. Copp; song, by the president, Peter Murray. The music and readings were much enjoyed, several encores being given. Following the musical part of the programme the company was served with refreshments, and then all enjoyed themselves playing games. The candy table was in charge of Mrs. Snodgrass and Miss

If wages are to stay up in Canada there must be money to pay them.

Every time you buy an "imported" product in place of one made in Canada you are helping to build up "outside" industries and provide work and wages for "outside" labor.

The way to protect your job is to buy Canadian-made goods.

Be sure, too, that the machines or goods you buy are actually made in Canada.

Look for the C.C.M. trade mark. It is the sure guide to a true made-in-Canada bicycle.

The frames, forks, axles, cranks and sprockets of C.C.M. Bicycles are made in Canada.

Also the handle bars, seat posts and front hubs.

And that is not all—

The pedals, chains, mudguards and grips are made in Canada.

The wood rims, spokes, nipples, cups and cones are made in Canada.

Yes, and the Hercules Coaster Brakes, frame pumps, and tires are made in Canada, too.

Only the saddles and the steel balls are imported. No one in Canada makes these lines as yet.

If the C.C.M. Company imported their parts and merely assembled C.C.M. Bicycles a much smaller plant would be required. Only about one-twentieth of the number of workmen would be employed.

By buying real "Made-in-Canada" Bicycles—C.C.M. Bicycles—you provide more employment for Canadians. You keep Canadian dollars working at home where they are worth one hundred cents.

And you get a better bicycle for your money—a bicycle with the new Hercules Positive Drive Brake—the Coaster Brake without a side arm.

WHY IS IT

that chronic skin diseases which have defied all other treatments yield to Zam-Buk?

It is because Zam-Buk is germicidal, and also has such power of penetration that it reaches disease in the underlying tissues and cures from the "root" up. That is the only way a permanent cure can be effected.

Mr. H. C. Buckley of 461 E. Broadway, Portland, Oregon, says: "For chronic skin diseases there is nothing like Zam-Buk. For fifteen years I had eczema, and I tried an endless number of so-called 'eczema cures,' but nothing was capable of curing me permanently until I used Zam-Buk. Ten months' use of Zam-Buk has effected a complete cure."

For ulcers, abscesses, boils, ring worm, blood-poisoning, piles, burns, scalds and cuts, Zam-Buk is equally good. All dealers or Zam-Buk Co., Toronto. 50c box, 3 for \$1.25.

Ottawa, April 19.—There were 1,347 railway accidents during the nine months ending December 31, 1919, according to the report of the board of railway commissioners, covering that period, which was tabled in the committee today. In these accidents there were 223 persons killed and 1,520 injured.

MOTHER TAKES HER OWN LIFE

When Told That Her Son Must Die — Hurls Self Through Window.

Chicago, April 20.—When Mrs. Benjamin Cayne arrived at the bedside of her little son, in a hospital where he had been for several days, a pneumonia sufferer, a physician told her gently that he could not live. With tear-filled eyes the mother knelt beside the bed and slipped her arms beneath her boy's shoulders.

"Oh, don't go from me, Leonard," she sobbed. "Don't you remember that story you like so well about Mary's lamb—You know, 'Mary had a little lamb'—Oh, dear God, don't take my boy away from me—"

But there was no response. The boy lay still, breathing heavily. The mother left the room. There was a crash of window glass. Attendees picked up her lifeless body from the courtyard four stories below.

Thirty minutes later Leonard joined his mother, and the father, Benjamin Cayne, is left weeping and alone.

POTATOES NOW MARCH IN LUXURY BRIGADE.

Chicago Restaurants Find Prices Too High for Their Menu.

Chicago, April 19.—The price of potatoes must come down or Chicago hotel keepers and restaurant owners will erase the lowly spud from the bill of fare. This ultimatum went out today.

"The price has mounted so that we cannot serve potatoes in hotels under 65 cents," said Leonard Hicks of the Hotel Grant, secretary-treasurer of the Hotel Association of Chicago. "Smaller restaurants have not the big overhead expenses nor other charges that the hotelmen must meet, so they can charge less. If we cannot buy potatoes at reasonable wholesale prices we will have to cut them out."

The plan of boycotting certain articles of food because of prohibitive wholesale prices originated in Denver, where the hotelmen and restaurant owners already have dropped potatoes from their menus.

FORTY-SIX PERSONS HAVE ESCAPED THE GALLOWES.

Ottawa, April 20.—In the last four years forty-six people sentenced to be hanged have had their sentence commuted. In forty cases the sentences were commuted to life imprisonment, in five cases to varying terms of imprisonment from ten to twenty years, and in one case at Salmon Creek, N. B., a new trial has been granted and is now pending.

PAJAMA DANCES BARRED IN PARIS BY POLICE

Paris, France, April 20.—No more pajama dances, either private or public, were held last evening in the prefect of police. The pajama dance was inaugurated last summer by the "fast set" of society as a strictly private affair, but the craze spread. When the public dance halls began to advertise "pajama nights" the police decided it was time to put their foot down in the interests of public morality. The guests at pajama affairs attended clad only in pajamas, as the name implies.

AGED CLOWN FINDS HOME.

Poughkeepsie, N. Y., April 19.—His career in the sawdust ring ended, Alec Jacobson, seventy-six years old, who for many years has made children happy with his antics as a circus clown, has been placed in the care of a wealthy niece in New York city by the local bureau of Associated Charities, to which he applied for aid.

A well attended meeting of the Masons' Union was held last evening in the Odd Fellow's hall, Union street. A considerable amount of routine business was disposed of.

WRESTLING.
Stetcher Defeats London.
Boston, April 20—Joe Stetcher defeated Jim London in a wrestling bout here last night, making the single fall in one hour 15 minutes and 45 seconds, with a body scissor and body leverage.

Zbysko Wins Again.
Milwaukee, Wis., April 20—Stanislav Zbysko last night won two straight falls of a catch-as-catch-can wrestling match from Demetrius Totolas, heavy-weight. Totolas succumbed to a crotch and double wrist lock in fifty minutes, and to a toe and half nelson in three minutes.

ATHLETIC.
Greek Wins Marathon.
The Boston marathon, which was held yesterday, was won by Peter Triquillidis of New York, who covered the distance in two hours twenty-nine minutes and thirty-one seconds, which was eight minutes slower than the record, Arthur V. Roth of the Dorchester Club, Boston, was second.

BOWLING.
Checkers Defeat Office Staff.
In a match game between the office staff of the Furness Withy Company and the checkers of the firm the latter won by a grand total of 1,229 to 1,108. The game was bowled on the Y. M. C. I. alleys.

BASEBALL.
National League, Monday.
St. Louis 6, Chicago 9 (12 innings)
New York 2, Philadelphia 1.
Brooklyn 4, Boston 2.

Boston 6, New York 6. Afternoon game: Boston 8, New York 3.
Brooklyn Releases Conlan.
New York, April 20—The release of Pletcher J. F. Conlan to the Reading Club of the International League, was announced yesterday by the Brooklyn Nationals.

THE RIFLE.
Great Work With Gun.
A record of 199 hits out of a possible 200 was made by S. C. Kincaid of the Metropolitan and Boston Rifle Club in the indoor tournament of the Massachusetts Association of National Rifle Association Clubs last week. Kincaid was shooting prone without artificial rest in the five-man team match limited to 22-calibre rifles weighing not more than ten pounds. In the individual slow fire match he also showed excellent results, with a total of 197. The distance was seventy-five feet.

A. D. Wheeler, another Metropolitan and Boston member, won the perfect score match, based on the best grouping and count, and also carried off the honors in the luck target match, at seventy-five feet, with a score of seventy-eight out of a possible ninety.

In the pistol and revolver shooting, W. L. Darling of the Boston Revolver and Gun Club scored 191 out of 200 chances, and M. P. Partridge, captain of the same club, had a score of 168.

FOOTBALL.
British Games.
London, April 19—Second division football results today were:
Wolverton, 3; Bristol City, 1.
Southern League.
Bristol Rovers, 0; Watford, 0.

THE RING.
Levinisky a Winner.
Montreal, April 20—Battling Levinisky easily defeated Silas Green, colored, both nineweight of New York, on a ten-round bout here last night. Levinisky outpointed and outclassed his opponent in every round of a fight that was uninteresting and dragged at times.

Comeau Awarded Decision.
Ottawa, April 20—Oscar Comeau of Hull was awarded the decision over Joe Conti of Rochester, N. Y., in a 15-round fight staged in Hull last night. The Hull boy was the aggressor and had the edge on Conti throughout. Clifford Leconte was referee. The boxers are 115-pound class.

Moore Meets Moore.
Providence, R. I., April 20—Pat Moore of Memphis, gained the decision last night over Roy Moore of St. Paul, in a 12-round bout.

Technical Knockout.
Halifax, April 19—Johnny McIntyre, of Glace Bay, was awarded a technical knockout over "Kid" Blakie, in the eighth round, at the South End rink tonight. The bout was scheduled for fifteen rounds. McIntyre had the best of the bout throughout, and on the opening of the eighth round Blakie claimed to have injured his ankle. Referee Foley then gave the decision to McIntyre.

POLICE COURT.
In the police court yesterday afternoon, the case against Soo Hoo, proprietor of the Sanitary Cafe, charged with allowing the illegal consumption of liquor in his restaurant, was taken up but postponed until Friday afternoon.

The case against John D. O'Hanley, charged with drunkenness, who was burned in his cell some time ago, was resumed and the magistrate allowed him to go as he had already spent two months in the General Public Hospital.

LOOKING BACK OVER SEASON OF CITY LEAGUE

Good Scores and Some High Averages at Black's

Ramblers Winners—McLven High Three String Man and High Average Winner—Gamblin High Single String.

Statistics of the City Bowling League competition on Black's alleys during the winter months have been compiled. They show that some good scores were made and that on the whole the bowling was consistent. The Ramblers won first prize, the Sweeps second and the Thistles third. R. McLven won a cup for the highest average. Harry Sullivan won one for the second highest average. T. Wilson won a watch for the third highest average and W. Riley won a cup for the highest average on the winning team. The high average bowlers on the five losing teams received a cash prize. A consolation prize for the lowest bowlers on the teams was won by Allan Beattie.

The following figures show the standing of the teams, their total pinfall and average pinfall per game, as well as the number of strings bowled by individual players and their averages:

Unquestionably the Most Profoundly Thrilling Tale of German U-Boats Yet Filmed

THOMAS H. INCE presents

HOBART BOSWORTH

"BEHIND THE DOOR"

LADIES AND GENTLEMEN OF ST. JOHN—Here we have a pictorial drama of the most powerful character imaginable—the very topmost height of suspenseful thrill. It is the tale of a man named Krug, suspected of being of enemy sympathy, but in charge of an Allied transport. His boat is torpedoed and his bride kidnapped aboard the German U-boat. How he gained revenge for this crime upon his wife is the most remarkable triumph in filmed dramatics. Thom. H. Ince has ever produced. The wartime atmosphere, the belly sea, the submarines awash and exciting battles to safety and the never-to-be-forgotten scene in the captain's cabin, will create a veritable sensation. Blase picture people themselves accord this film the thrill-palm of the year.

A CHALMERS
with a New Beauty of Body

It is new, will no doubt be widely copied in another year, and expresses the finality of beauty. It is "cut" high in the front at the radiator line, and low from the windshield back. You sit close to the ground; the side line is considerably lower than in any previous Chalmers.

Seats are lower, tilt more; you sink into the seat cushion, and you have abundance of foot room, front and rear.

In detail this new body possesses a completeness, a finality that seems impossible to improve upon.

Chalmers Motor Co., of Canada, Limited, Windsor, Ont.

Underneath the body is the same unchanged Chalmers chassis that is well nigh faultless. Hot Spot and Ram's-Horn continue in their original and masterly way to get out all the power that nature put into gas, though the complaints against the present grade of gas increase daily. There's a limit to the supply of the new Chalmers, but there seems to be no limit to the number of those who insist on one. As a word of warning—see this new Chalmers immediately.

Chiclets Win-New Friends
by *New Fruit Flavor*

THE tremendous sales of Chiclets throughout the length and breadth of Canada have brought a demand for Chiclet daintiness in a new flavor--Fruit Flavor.

To the thousands who prefer Chiclets to any other form of chewing gum and Fruit to any other flavor, we are happy to announce the production of dainty, candy-coated Chiclets with Adams delicious fruit flavor.

We are sure that this new product will meet with quite as enthusiastic a reception and will be as "Really Delightful" as its aristocratic companion, the peppermint Chiclet.

The new fruit flavor Chiclet will be sold in a pink packet, identical except in color with the original Chiclet packet.

McKNIGHT IS OUT OF CONTEST

Edwin T. McKnight of Medford, Mass., formerly of Kings county, N. B., now president of the state senate, who has been a candidate for delegate from the eighth congressional district to the Republican national convention, has withdrawn from the contest and left the field open to Lewis Parkhurst of Winchester and Philip R. Ammidon of Cambridge. The time has long since expired for official withdrawal, and Mr. McKnight's

name, therefore, will be on the ballot at the primary, but his announcement that he is no longer a candidate practically takes him out of the field.

Mr. McKnight states in the last paragraph of the letter which he sent to Messrs. Parkhurst and Ammidon announcing his withdrawal: "I have been pledged to our illustrious governor for president, and I sincerely trust that present-day conditions in our nation may emphasize to you why you should support and work for the nomination of Calvin Coolidge, our beloved

governor, the great expounder of law and order."

It was only a few weeks ago that Mr. McKnight sent out word of his retirement from politics, but at that time he said he should remain a candidate for delegate to the national convention. He now states that his business affairs have so developed that he cannot go to the convention.

The understanding of the political leaders is that Messrs. Parkhurst and Ammidon will vote for Governor Coolidge in their first ballots in the national

convention, but that if it appears that Governor Coolidge has not great strength they will then turn to General Wood. Neither of the two candidates for delegate is, however, pledged to any candidate for the presidency.

GIVES \$25 A WEEK TO GET PHONE NUMBER IN HURRY.

Jersey City, N. J., April 20.—A Jersey City business man is frank and admits that he's doing something which is entirely original in so far as the giving of tips is concerned, for he is paying a central office phone girl a weekly stipend to see that he gets a certain number on the jump. He admits he sends this girl a check for \$25 every week and that he considers the money well spent. He uses the telephone but once or twice a day. He was surprised one day when he got his number in record time. He says the operator who connected him was so pleasant and efficient that he went to much trouble to learn her name.

CIRCLE WORLD IN 4 DAYS. FRENCH FLIER'S PREDICTION

Paris, April 20.—Andrew Michélin predicts that within the next few years it will be possible to circle the world in four days. He is the newly-elected president of the Aero Club of France. "We are only in the infancy of aviation," said he. "In a few years 200 miles an hour will be the normal rate of travel. Any aviator of average ability will be able to travel 8,000 or 7,000 miles without a stop. New York will be twelve hours from Paris."

Frenchman may set out in the morning, lunch at Naples, sleep the rest of the night at Cairo, and can go around the world in four days."

To Remit Veterans' Fees.
Toronto, April 20.—Hon. Manni Doherty, Ontario minister of agriculture, has announced that the government has decided on the remission of all fees returned soldiers taking courses at the Ontario Agricultural College. About 125 veterans will benefit by this act!
