Buy Now and Save Money  
F. S. THOMAS, Stores close at 7 p. m.  
539 Main St.

### Black English Melton OVERCOATS

At Greatly Reduced Prices

We will offer to the public for the next few days unusual values in MEN'S BLACK ENGLISH MELTON OVERCOATS.

This class of goods is known to the trade as "Bread and Butter" stock, a class that is seldom cut in price, because they are always in style, just as fashionable next winter as this. They are worn by men, old and young, men who like to dress well without being loud.

WE ARE OFFERING OUR ENTIRE BLACK OVERCOAT STOCK AT

- \$10.00 OVERCOATS FOR ..... \$8.75.
- \$12.00 OVERCOATS FOR ..... \$9.55.
- \$13.50 OVERCOATS FOR ..... \$11.75.
- \$15.00 OVERCOATS FOR ..... \$12.75.
- \$18.00 OVERCOATS FOR ..... \$15.00.
- \$20.00 OVERCOATS FOR ..... \$17.50.

Fancy Tweed Overcoat prices almost cut in two.

J. N. Harvey, Tailoring clothing

CEBRA HOUSE BLDG. --- 169 to 207 UNION STREET

### TARIFF REFORM HAS MADE GREAT PROGRESS

Many Liberals Joining the Ranks, Says Blackstock

Deaf Mute Killed by a Train—Thieves Given Three Years—Enthusias's Want Ontario to Give a Dreadnought

TORONTO, Feb. 4.—At a meeting of a committee of citizens on naval defence the following resolution was passed and a copy ordered to be sent to Sir James P. Whitney: "That the committee respectfully urge the Ontario Government to provide means for the purchase of one Dreadnought as a contribution from this province to the naval defence of the Empire."

TORONTO, Feb. 4.—George Tate Blackstock, K. C., arrived home yesterday from England where he took part in the election campaign. "Tariff reform is going ahead by leaps and bounds," he declared when interviewed. "Just as a large number of Liberals deserted MacKenzie and went over to the Conservatives in the struggle in Canada during 1875 to 1878 over the national policy, so large numbers of Liberals are going over to the Tories in England. The government," Mr. Blackstock added, "is not strong enough to carry the additional load, and will have to modify it greatly."

LONDON, Ont., Feb. 4.—Robert Benson and Thomas McPherson, who after working in Hamilton and Toronto, came here and robbed and assaulted George Bates, brother of Wesley Scott, recently acquitted of the murder of her father-in-law, while he was asleep in bed in the addition to the building, were sentenced to three years each in Kingston penitentiary.

BRANTFORD, Ont., Feb. 4.—Victor Graham, a deaf mute, belonging to Stuyvesant, was struck by a passenger train near here while walking on the tracks and instantly killed. He was on his way to Toronto in search of employment when he met his death.

MANAGUA, Nicaragua, Feb. 4.—Three hundred insurgents under General Masias have captured Boaco, a town fifty miles east of Managua. The fighting lasted two hours but the casualties are not known here. The town was held by the Americans, were surrounded by soldiers led by Col. Barquero. The latter were surrounded but fought sleepily through the addition to the building, were sentenced to three years each in Kingston penitentiary.

PARIS, Feb. 4.—The fall of the River Seine was more rapid today than the appearance of the city is approaching the normal, but the subway system is still inoperative. Water still remains in the tubes, while hatter they have been emptied must be cleaned and disinfected. The progress toward the restoration of the lighting, telephone and telegraph lines is slow but noticeable. The work of disinfection and other precautions against an epidemic of typhoid has been so thorough that none of the newspapers predict that Paris will not only escape contagion but will emerge from the flood clean and healthy.

### KINGSLEY FARMER TOOK HIS OWN LIFE

Henry Anderson Succeeded in His Second Attempt

Had Been Melancholy for Some Time—Arranging for the Annual Forestry Convention.

FREDERICTON, N. B., Feb. 4.—Henry Anderson, a well-known farmer living at Kingsley, fifteen miles above the Hudson, yesterday took his life by shooting himself with a rifle. The unfortunate man had been melancholy for some time past and being left alone for a few minutes he committed the deed which resulted in his death. He lingered some time before death and Mr. Anderson being left alone, he arranged for the annual forestry convention.

FREDERICTON, N. B., Feb. 4.—The probe was pushed farther into the storage system in the Metropolitan territory today. The reported discovery of meat ten months old in one of the plants in the Hudson has stirred the indignation of the New Jersey liquidators and today's session of the Hudson County grand jury, which is investigating the Jersey City warehouse, promised interesting developments. Prosecutor Garman made it evident today that he would neglect no avenue of inquiry that promised a route to the secrets of the cold storage business. He indicated that he was looking for evidence to show conspiracy in an effort to manipulate the food products market by use of the storage system in such a way as to regulate supplies and maintain prices regardless of natural conditions. Lackawanna and Erie railroad officials were asked today to produce before the grand jury waybills and bills of lading showing the amount of stuff received and shipped over their lines last year. These will be compared with the books of the cold storage industry and the officers of those concerns have been subpoenaed to produce.

### GOLD STORAGE STILL UNDER THE PROBE

Meat Ten Months Old Found in New Jersey

Looking for Conspiracy to Manipulate the Market Regardless of Natural Conditions.

### TWENTY FIVE WIVES CREDITED TO MUELLER

Prisoner Himself Admits Having Nineteen

Probably Lost Count—A Hearty Welcome Reached N. Y. Under Arrest.

NEW YORK, Feb. 4.—"Married," asked the desk sergeant as he booked Emil Mueller, also Emil Vonderhagen, brought here from Los Angeles, Cal., charged with bigamy. "Yes," admitted Van Mueller, "nineteen times." Either he has skipped count or the figures in the possession of police have been inflated. They read twenty-five. Von Mueller married Miss Pulla last October in Los Angeles. Angela Vilhina, of this city, whom he ago, heard of it and had him extradited. In addition the police have letters from Mrs. E. P. Wattle of Philadelphia and other women who believe they have been similarly tricked. Von Mueller must have been a busy wooer, either by his own count of nineteen or the police count of twenty-five. He is only 37 years old.

NEW YORK, Feb. 4.—"Married," asked the desk sergeant as he booked Emil Mueller, also Emil Vonderhagen, brought here from Los Angeles, Cal., charged with bigamy. "Yes," admitted Van Mueller, "nineteen times." Either he has skipped count or the figures in the possession of police have been inflated. They read twenty-five. Von Mueller married Miss Pulla last October in Los Angeles. Angela Vilhina, of this city, whom he ago, heard of it and had him extradited. In addition the police have letters from Mrs. E. P. Wattle of Philadelphia and other women who believe they have been similarly tricked. Von Mueller must have been a busy wooer, either by his own count of nineteen or the police count of twenty-five. He is only 37 years old.

### THREE BLACKHAND IMITATORS ARRESTED

Ontario Sports Held Big Cocking Main at Detroit

Printers' Lockout is Threatened in Quebec—Firing Rollers' Temple Under the Hammer.

WINDSOR, Ont., Feb. 4.—Notice of foreclosure of a mortgage on the Flying Rollers temple, known as the "God House," has been posted on the sacred doors and it is likely the place will be sold. The Flying Rollers colony here a short time ago boasted nearly two hundred members, but not the membership has dwindled down to ten. Its leader, John Swindon, finally vacated the building. He was a former high British official in India, and has left Windsor for parts unknown.

NEWS OF SPORT

LOOKS FOR LONG FIGHT

Grady Predicts Jeffries and Johnson Will Use Great Caution.

CINCINNATI, O., Feb. 3.—William A. Grady, the theatrical manager and former pugilist promoter, says the Jeffries-Johnson fight is to be the longest in the history of the game.

Only One "Bromo Quinine" That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Used the World over to Cure a Cold in One Day.

LONGBOAT WAS GOOD IN PITTSBURG RACE

Bob Mintz says that Tom Longboat would have beaten Percy Smallwood if he had run the twelve miles in 1:45 instead of 1:58.

"I never saw the Indian so tractable," said Mintz today. "He did so well as he was told, and worried Smallwood in the same fashion way as he scorched Dorando the night he beat him in New York."

Mintz says that Longboat will run Madison twenty miles or Holmer fifteen miles any time other man wants to come to the front. Longboat will not start the Madison Square Garden fifteen-mile race or any other event except a match race.

JACK TAIT WANTS TO MEET W. M. SHEPPARD

If He Can Defeat Bonhag at Two Miles He May Go After Other Cracks—Tait is Running Good.

TORONTO, Feb. 3.—If Jack Tait, of the West End Y. M. C. A., had beaten George Bonhag at Buffalo Saturday he would have taken steps to have a one mile race arranged with Melvin W. Sheppard as soon as the Irish-American's suspension is raised.

Tait has had a lot of experience since the Olympic games. He was young then—he's only 21 years of age now—and he had only won his first race about eight months previous to going to England, but now Jack considers that he could just about trim his conqueror. All depends upon the showing Tait makes against Bonhag on February 8th at Buffalo in their two mile run, whether Jack will want to tackle Sheppard.

AT SARANAC. SARANAC LAKE, N. Y., Feb. 3.—Edward Lamy, the amateur skating champion, won the final in the 200 yard, half mile, the mile and the three mile events in the international outdoor skating championship contest today.

The 200 yard race was a close and fine struggle. Fred Robson of Toronto finished a close second. In the half mile race Lamy came in only 13 feet ahead of H. Wheeler of Montreal. Claude Lamy and Robt. Logan of Montreal skated a dead heat in the one mile. Lamy falling just as they crossed the line. Young Lamy refused to skate the heat over and Logan went the distance alone.

DEAL SECURED BY TORONTO FROM LANCASTER

There is little doubt that Ben Hooser, the Toronto first baseman of 1909, will make good with the Philadelphia Americans, by whom he was bought toward the end of last season.

John "Snake" Deal was bought from the Lancaster team, which won the championship of the Tri-State League. He was acquired with second baseman Fitzpatrick, and it was the speed and hitting of this pair that was largely responsible for the winning of the pennant by Lancaster. Deal is a tall athletic fellow, somewhat on the lines of Jack Flynn. Down in Pennsylvania, where basketball is the favorite winter pastime, and played as winter months. Deal is known as one of the best men in the game. On the floor he is known for his speed, as on the baseball field. A speedy first baseman will be a new sensation in Toronto.

To cure headache in ten minutes use Kuntorf Headache Powder.

The C. M. B. A. five leaders in the three points to five score last evening in a game with I. A. and B. Kelly opened with a string of 112 and remained high, finishing with an average of 94-1-3.

The Thistles defeated Carleton in an eight-rink match yesterday by 33 points. Only one Carleton rink, that skipped by J. P. Bolyer, was victorious by the close score of 21 to 29.

Another similar case occurred Tuesday when two policemen were standing in the most cowardly manner by their swords or revolvers.

One of the most impressive spectacles seen in Paris in a long time was a funeral on Wednesday of Police man Dery, who was murdered by the Apache Liabaut.

This sentiment finds strong echo in public opinion and is heightened by the trans attitude of the most extreme socialist organ in Paris. Herve, editor of La Guerre Sociale, published an article soon after the crime in honor of the assassin Liabaut. "Do you know," he wrote, "the Apache who has just killed Dery, is not lacking in a certain beauty, certain greatness. I find in this country of feeble will and bestial submission he has given a fine lesson of energy, perseverance and courage."

To us revolutionists he has set a fine example. Honest workmen are every day victims of police brutality. The Thistle rink had large margins in the majority of cases. The total score was 182 to 110.

One of the Paris deputies has announced an interpellation in the Chamber on increase. He has denounced the excessive severity of the penalties imposed on the death-dealing of simple vagabondage, while murderous bandits may procure death-dealing weapons in Paris unquestioned and plot to rob and kill with comparative impunity.

Joe Kelly will attend the Montreal meeting.

BALTIMORE, Md., Feb. 3.—Manager Joe Kelly, of the Toronto Ball Club, left yesterday for Montreal, to attend the Eastern League meeting on the way he will stop over in New York to see if he cannot arrange a deal for some new material.

It is more than likely he will strike McGraw, of the New York Nationals, for a pitcher or catcher. Kelly does not believe he will be able to find the men he wants at this time, but he is putting in a bid now so that when the Giants return from their training trip South McGraw will know where to let some of his men go.

Kelly still has hopes of getting Thorny from Boston, and he may pay a visit to that city before his return home.

In speaking of his team yesterday, Kelly said he was perfectly satisfied with the material he has at present. He is desirous of getting his men into good shape, and when he sent out his contracts last week, he advised all of them to start on "gym" work so as to reduce weight and take the kinks out of their muscles. He did not sign one of his men with a contract, and he expects them all to sign. Some of the men will receive increases. Kelly expects to move with his family to Toronto about the middle of April.

APACHE "QUEEN" SPURS ASSASSINS

Paris Ruffians Said to Covet Approval of Grande Marcelle

Arloin, Ha' S'p'at'zing With the Desperados, Fans the Popular Indigent.

Crimes of violence continue of frequent occurrence in France. The Apaches of Paris seem bent upon proving their utter disregard of possible punishment. One of the worst of their kind, Jean Jacques Liabaut, who wanted to kill a policeman the other day and wounded four others, was arrested with a woman known as the Grande Marcelle, who figures as a sort of queen of the Apaches. Her whims seem to have determined many of the depredations of the manufacturers.

Liabaut initiated the armored ruffians of the middle ages to the extent that he wore gloves and wristlets of brass, which bristled with keen points, so that policemen in the mere act of attempting to seize him were sure to inflict severe wounds upon themselves.

He says he derived this idea from reading the appliances used by some Londoners obliged to go out late at night, as safeguards against gangs of strangers who were about. This equipment of Liabaut, together with the revolver and the enormous knives he carried, one in each hand, explains how, attacking policemen without warning, he was able to do so much damage.

An aged female conger was murdered in her lodge on a busy street in the heart of Montmartre Monday evening. She was both chloroformed and strangled, and some 5,000 temporarily in her keeping being sent paid her by tenants of the house, were stolen, the same night.

The old woman was mysteriously slain by the roadside in Neuilly Plaisance, a suburb of Paris. She had been struck on the head and a large knife thrust into her throat where it still was when the body was discovered.

These recent crimes have left a deep impress of horror upon the public. Vigorous demands are being made for the suppression of the Apache scourge, and early in the week the prefect of police issued instructions to his men that they must not forget it is their duty to defend themselves efficaciously against violence in other words, they must not hesitate to use their weapons in cases where there is danger of serious bodily injury.

It must be owned that the restraint of the Paris police is admirable, and no better proof of it could be cited than the patience shown in the encounter with Liabaut. The policemen remained as quiet as possible from using their swords or revolvers.

Another similar case occurred Tuesday when two policemen were standing in the most cowardly manner by their swords or revolvers.

One of the most impressive spectacles seen in Paris in a long time was a funeral on Wednesday of Police man Dery, who was murdered by the Apache Liabaut.

This sentiment finds strong echo in public opinion and is heightened by the trans attitude of the most extreme socialist organ in Paris. Herve, editor of La Guerre Sociale, published an article soon after the crime in honor of the assassin Liabaut.

LAURIER DEFINES HIS NAVAL POLICY

Own Fleet Under Our Own Control

A Masterly Speech—Borden Urges Contribution of Price of Two Dreadnaughts—Monk Opposes Both.

OTTAWA, Ont., Feb. 4.—Sir Wilfrid Laurier yesterday defined the policy of the government, looking to the creation of the Canadian navy in co-operation with the navy of the motherland, in a two hours address which will rank as a classic in the annals of the Canadian Parliament, which its conclusion was marked by the inspiring spectacle of the whole house rising and singing the national anthem. Touching first on the discord and divergent views expressed by the various wings of the opposition, following a unanimous endorsement of the resolution passed last session he drew home the incoherence and anomalies of their opposing attitudes, and in a brilliant review of the basic principle of local autonomy in matters of defence, while at the same time being bound to the motherland by ties of loyalty and devotion, made enduring because voluntary, and based upon the people's will. He pointed out the weakness in the policies suggested from the other side of the house looking either to the outright policy of direct contribution from the government outside of Canada, or to the policy of the other extreme of not meeting the duty now resting on the larger and richer Canada, of fulfilling her responsibilities as a full grown partner and loyal daughter on the mother land.

He was followed by Mr. Borden, who despite the previous endorsement of the government's policy for the creation of a Canadian navy, completely and evidently in the exigencies of pressure from within the party, cast in his lot with the ultra imperialists, who have been advocating a direct contribution as a temporary expedient to meet the alleged crisis in each of Great Britain's islands sufficient to construct two Dreadnaughts, or about twenty million dollars leaving the permanent solution of the question of Canada's defence as a part of the Empire to be dealt with by the ultra imperialists.

To both policies P. D. Monk came out in unequivocal opposition. He took the extreme anti-imperialist position, declaring that Canada should hold aloof from any participation in the wars of Britain, and declared that the creation of a navy meant practically the giving up of the Dominion's freedom and unrestricted autonomy.

THE POINTS REVENGE.—A fairy story. The reproduction of the latest Parisian pantomime. A hand-colored film of beautiful transformation.

LOUIS MANUFACTURE.—An instructive study of different trades. A subject full of interest.

OTHER SUBJECTS.—MR. PERCY HARNEY sings "That's What The Rose Said To Me." And Master Holland in orchestral selections. A programme of over an hour.

Give Your Stomach A Vacation. By Using Stuart's Dyspepsia Tablets. Which Digest Food Without Any Aid.

A TRIAL PACKAGE SENT FREE. The stomach should have a rest when it is tired out from excess of food, indigestion and indigestion. One should not call upon the stomach in this condition to do its full and complete duty. What the stomach needs is natural assistance and when this is given it the stomach responds quickly to the need and red and comes back to its duties refreshed and invigorated.

When you feel as though your stomach were a piece of lead, when gases or foul odor issue from your throat, when your tongue is coated, when your appetite gone, it is high time to send your stomach on a vacation. Stuart's Dyspepsia Tablets coming in contact with foreign substances, which it must reduce in form to give strength and health to the entire organs of the body. It is the commissary department of the human system and must furnish from such supplies as come to it that such a system demands.

If the stomach becomes deranged and cannot furnish the material necessary, it weakens the entire machinery of man and is itself placed out of commission. It cannot do its duty unless the curative powers of Nature receive their force from the stomach. Stuart's Dyspepsia Tablets impart all the power, vigor and strength necessary to the stomach. They do the stomach's work and without calling on this organ for assistance.

If you would put your meal in a glass jar and with it place the correct amount of Stuart's Dyspepsia Tablets you could sit down and watch these tablets digest the meal as perfectly as the most healthy stomach. This demonstration has been made in almost every state in the Union by placing one grain of a single ingredient being capable of digesting 4,000 grains of food.

If you have the slightest doubt about your stomach, go to the nearest drug store and buy a box of Stuart's Dyspepsia Tablets, price 50c, or send us your name and address and we will immediately send you by mail a trial package, free. Address P. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

Fred Logan will endeavor to break the 100 yards skating record at the police sport in the Victoria Rink tonight. Logan is travelling fast and should establish a new figure.

The last assembly of the season was held last evening in Keith's Assembly Rooms. Dancing commenced shortly after nine o'clock. Among those present from out of town were Miss Beale Grimmer, St. Andrews; Miss Danforth, New York; Miss Hutchford, Amherst; Miss O'Leary, Richibucto; Miss Clarke and Miss Stevens, St. Stephen, and Mr. J. D. Hagan, St. John's, Nfld. The chaperones were Mrs. P. R. Inches, Mrs. J. D. Hagan, Mrs. St. John's, Mrs. J. D. Hagan, Mrs. St. John's, Mrs. J. D. Hagan, Mrs. St. John's.

Paris, Especially, Seems in the Grip of Robbers and Assassins.

PARIS, Feb. 3.—A wave of crime is sweeping over France, and particularly over Paris. In the Montmartre quarter Mme. Tougat, a conger, was found dead in her bed yesterday morning. The woman, who was 72, had occupied this position of trust for thirty-five years. She was last seen alive at about 11:30, when she was talking to a middle-aged man at the door of her abode. At 2 o'clock in the morning a belated tenant arrived home, and the woman, partly undressed, was found lying dead across the bed. She had evidently been strangled.

Mme. Tougat had in her possession about \$50, representing the quarter's rent of several of the tenants. She is known to have besides a considerable sum which she had received as New Year gifts.

A TERRIBLE CRIME. A terrible crime was brought to light yesterday morning at Neuilly Plaisance, not far from Paris. A workman, proceeding along the high road, noticed the body of a woman lying in a ditch. There was a wound in the head, where she victim had been struck by some blunt instrument, which had fractured the skull and caused death. The remains were subsequently identified as those of Mme. Binouille, aged 58, a widow, who lived close by. On Sunday night the murdered woman had her eldest son to dinner with her. As it was very dark and as the district is badly lit, Mme. Binouille on his way

High Beef A Benefit

If it makes you think---then make trial and see if Better Health Greater Strength Keener Brain

Come from Grape-Nuts

Grape-Nuts

Try the change. You will feel as "fit as a lord" in a week's time by breakfasting on Grape-Nuts and cream, a little fruit, a soft boiled egg, some nice, crisp toast and a cup of well-made Postum.

If you ever try this experiment, you will always bless the day you woke up. There's a reason why Grape-Nuts food furnishes power to body and brain. It is made of selected parts of the field grains that furnish phosphate of potash in a natural state that can be assimilated by the human body. This joins with the albumen of food and forms the gray matter of the brain and nerve centres.

Feed skillfully and you can "do things." The greatest brain workers eat Grape-Nuts. Ask one or two, they'll tell you. You must eaters who are ailing in any sort of way should take the hint. A prominent authority says:

"There is no doubt of the fact that meat-eating is not essential to human life, and that men can be well nourished without resorting to a flesh diet. "It might be stated that the question of limiting the diet is based primarily not on the principle of economy, but on the requirements of hygiene. "At the early breakfasts which Americans are wont to indulge in, that is, a hearty meal before going to their daily work, the omission of meat is to be earnestly advised. "It is well known that men who are nourished very extensively on certain cereals are capable of the hardest and most enduring labor."

You can depend on the energy from Grape-Nuts longer than from any meal of meat. "There's a Reason" for Grape-Nuts

At a meeting to be held this evening in Keith's Theatre Assembly room, beginning at 7.30 o'clock, Douglas McArthur will address the electors on the civic issues of the day. Mr. McArthur has already announced his intention of entering the mayoralty contest, and this evening he will discuss the issues on which he intends to run for election. The meeting will be a public one and all are invited to attend.

BOTH UNFORTUNATE. There was a young fellow who thad, "I wish I could with I with dead" with half it dign criticism. For the poor fellow if I had, And so said a bad cold id with head!

## \$50.00 IN PRIZES

To Readers of CLASSIFIED ADVERTISING

### A Contest of Skill and Diligence

First Prize..... \$15

### AMUSEMENTS

BIG NEW SHOW AT NICKEL.

Today's change of programme at the Nickel will introduce another of the Selig Company's fine features, entitled "The Christian Martyrs," something along new lines in motion pictures. As a foil to a serious film like this the Italian comedy "Two Kings" will be shown. It is worthy of note in this connection that the chief comedian who yesterday afternoon and evening in that screamingly funny little man who did such ludicrous work for pictures shown by Pathes Press at the Nickel a year or two ago. The third picture will be of dramatic quality, entitled "A Noble Forgiveness." In addition to these the Nickel will present some of its educational features. Miss Gertrude Letoy made a tremendous hit yesterday afternoon and evening in her rendition of two Indian lyrics, dressed in a genuine costume of a Chipewyan and eighty-five entries in an illustrated number that is taking well with the crowd. On Monday the favorites, Holmes and Buchanan will commence a short engagement in the Nickel with a sparkling cast number, "Hello! People," the sensational hit from the musical comedy "Havana," now being toured in the United States to tremendous business. In addition to this Mr. Buchanan will be heard in the sentimental hit, "I Love the Last One Best of All," from the musical comedy "Marrying Mary."

### DON'T MISS THE POLICEMEN'S SPORTS AT THE VIC TONIGHT.

Everything is in readiness for the great big night of sports at the Victoria tonight, when the policemen entertain their friends in the unique and successful manner which has distinguished them for many years past. To accommodate the large crowds the doors will be open before seven o'clock. One hundred and eighty-five entries should be sufficient to make both excitement and fun, and there is a question as to which will predominate. The prize list is by all means the most elaborate that has yet been offered, and includes over one hundred prizes, some and extremely useful presents. Don't fail to be early this evening, as the first in line will secure the choice positions.

### THE GREAT COURJURE AT THE ORPHEUM.

Again the Orpheum was crowded last evening to see the remarkable "Couture on the little wheel." This performer's comedy and acrobatic work is alike of interest and seldom if ever has a better act been seen in the city. He is alone worth many times the price of admission, but supported by Dorothy Hall, singer, male impersonator and dancer the show is indeed a very strong one.

### QUEEN'S RINK.

The tickets for the children's carnival are now on sale. As the issue has been limited to the capacity of the building, it will be well for intending patrons to secure their tickets immediately. Orders by phone will be attended to. The Monday Night Club will act as judges in the competition and ten dollars in gold will be awarded as prizes. This will be the only children's carnival the present season, but it will be a very successful one. The price of admission will be the same as last.

### THE GEM.

Tonight those who visit the Gem will witness one of the greatest productions ever played on Broadway in many seasons. "The Rehearsal"—in condensed form. This feature, supported by a thousand feet of film, and the original cast, which toured the States. "The Points Reverse," a hand colored fairy tale from scenes in the latest Parisian pantomime, and the most recent theatrical effects and modern photography, full of beautiful transformations, will be the feature of the evening.

### HOW TO GROW UP.

"How to Grow Up," a comedy, rich in laughs and comical situations, funny and the extreme. A burlesque on puritanical ideas. Louis Manufacturing, an instructive subject, dealing with the manufacture of articles rare and costly. Mr. Percy Harvey sings "That's What the Rose Said to Me," and Master Holland in orchestral selections. A programme of song and dance.

### GUIDE'S LIFE SAVED BY ALPINE SMUGGLERS.

Dangled in Mid Air From Tourist's Body For Two Long Hours. GENEVA, Feb. 3.—Hermann Biner, one of the most popular Alpine guides at Zermatt, had a terrifying experience on Thursday while making an ascent of the Breithorn, and was only saved from death by the heroism of the tourist who accompanied him. Biner was engaged by Dr. Shivel, a Munich physician, to guide him to the summit of the Breithorn, which is 15,000 feet high. After the doctor crossed a snow-covered crevasse above the Theodule Pass, Biner attempted to follow, but the snow bridge collapsed.

### THE ORIGINAL AND ONLY GENUINE.

BEWARE OF IMITATIONS SOLD ON THE MERITS OF UNLIMBED.

### IN MISSOURI.

Girls at the University of Missouri are to be shown how to do education.

### The family that eats plenty of Quaker Oats is a healthy, rugged family.

The most popular food in the world because it does most and costs least.

The guide dropped thirty feet over a precipice and remained suspended by the rope which bound him to Dr. Shivel. The latter, notwithstanding the terrible strain, managed to hold the guide in mid-air for two hours, meanwhile shouting for help.

When the doctor was nearly exhausted and Biner had shouted to him to cut the rope and save himself, two Italian smugglers, heavily laden, came over the Theodule Pass. Hearing the shouts they rescued the guide and assisted Dr. Shivel to convey him nearly to Zermatt. Then the smugglers disappeared, having refused to accept any reward for their services.

### Vibrant Nerve Force Supplied to Man.

(From "Man's Maladies.") Without stamina, man is a failure. What is stamina? It is constitutional vigor—health, it is keen, responsive, vibrant nerve force, that gives wonderful inner strength of will, sustains a sound body, supports a wise mentality, makes money and keeps friends. Keen, strong, sensitive nerves makes stamina and with it man can excel in business, sport, pleasure and social favor. Without it he is apt to be weak voiced, weak memorized, feeble in motion, with cold hands, cold feet, nervousness, timidity, fear without cause, trembling, melancholy, pain in the back of the head, neurasthenia and a general lack of grit, courage and nerve. It is impossible to act naturally under all circumstances, unless the nerves receive should. It should be the aim of every man to correct the conditions responsible for failure and unhappiness, for it can be done—by the simple fulfillment of man's laws that nerves receive their nourishment through the blood, which enables the nerve force to recover the daily waste which is constantly taking place. The nerve fluids and body fluids undergo constant changes, and unless the supply is equal to the demand the stream of health ebbs low, and misery prevails. Astonishing strength, nerve force and pulse is quickly re-stored by the following valuable formula, which anyone can prepare in the privacy of home:

FOUR

THE STAR ST. JOHN N. B., FRIDAY, FEBRUARY 4 1910

THE ST. JOHN STAR is published by THE SUN PRINTING COMPANY (LTD.) at St. John, New Brunswick, every afternoon (except Sunday) at \$1.00 a year.

ST. JOHN STAR. BUSINESS OFFICE, 21, EDITORIAL AND NEWS DEPT., 117.

ST. JOHN, N. B., FEBRUARY 4, 1910.

THE VALLEY ROAD.

Mr. Wilfrid Laurier has not only endorsed what had already been said by Hon. Mr. Pugsley, but has pledged his government to operate, under lease, the St. John Valley railroad which, it is now hoped, will very soon be commenced.

Under the circumstances it is the duty of the Provincial Government to take the next step. Mr. Hasen may not feel justified in setting upon information contained in what is really a private letter from the federal premier to one of his supporters.

St. John is vitally interested in the construction of this road. Certainly the Valley line must be built some time, and whoever controls it will be in a position to direct to this port a very large portion of the immense traffic which will eventually pass over the National Transcontinental and the Canadian Northern.

CIVIC ELECTIONS.

Civic elections will be held on April 13th. Citizens have been referring to the contest for the past month. That is, outsiders who have only an impersonal interest display some curiosity as to the outcome four months before the elections are held.

After the elections are held, it takes the council a month to get in shape for business, to wind up the loose ends left over from the preceding year, and to adjust itself to new conditions. Thus the aldermen are free from the active influence of civic politics for only half their term of office, and it is doubtful if some of them are ever free.

Changes in the make-up of that council at frequent intervals, are beneficial. Veterans in the public service are inclined to grow into the habit of looking upon themselves as the whole thing, an attitude which has a memorializing effect on the organization. They should be willing to retire after a few years, bearing in mind the thought that perhaps, in spite of their own opinions, there are other men just as capable as themselves of conducting civic affairs.

vocates in advancing the prosperity of the city.

Some of these very apparent weaknesses are hard to overcome. There is a disinclination on the part of our leading men to engage in civic affairs, a natural feeling that their own business should receive first attention.

Others dislike the publicity, more believe there is too much criticism, and for one reason or another it is hard to find many candidates to whom the mass of the people will without hesitation entrust the work of the corporation.

FEDERAL HELP FOR VALLEY RAILWAY

Sir Wilfrid Laurier Pledges the Government Will Operate the Road as Part of I. R. C. if up to Proper Standard—Montings at Woodstock and Conroy Ho.

WOODSTOCK, N. B., Feb. 4.—The town hall was the scene of an enthusiastic meeting last evening in the interests of the St. John Valley Railway. Vigorous addresses were delivered and the assurance of assistance from the federal government was received.

Amid rounds of applause, the message from Sir Wilfrid Laurier was read by Mr. Carvell, sir Wilfrid in the message expressed his sympathy with the Valley road project. He said that he approved of the terms of the erection of the road.

Other speakers were George Upham, M. P. P. Donald Munroe, M. P. P., Rev. G. D. Ireland, Rev. R. G. Fulton and Thomas Noodin.

HAVE YOU CHILBLAINS?

Nothing Like Zam-Buk for Them. If you are a victim to the itching of chilblains—that intolerable tickling as soon as they get warm, an itch that almost unbearable soreness when they are rubbed—try Zam-Buk.

The Evening Chit-Chat

By RUTH CAMERON

No matter how much it may accomplish, any work which spoils the worker for some happy converse with his penow men, is evil. The man who comes home at night nervously unfit to be friends with his wife and children, no matter how many luxuries he may shower upon them, is not a good provider.

Are you one of these people? If you are it may interest you to know in addition to the judgments I have already brought in that you are taking something that does not belong to you.

You are stealing energy for your work. Doubtless you thought you were accumulating so much more than your neighbors by your own strength.

You are doing partly out of the forbearance and endurance of the members of the workforce and some of us are driven by necessity to work beyond our strength and dispositions.

Don't Hesitate

But grasp this rare opportunity. If you want bargains, or to be more exact, if you want footwear of any kind at prices that will actually astonish you, come to

COADY'S Big Shoe Sale

This was the busiest store in St. John all week and we look for an immense trade tomorrow. People know when a store is living up to its promise. We told the story of how we were going out of business entirely—how we had to vacate the store to make room for the London House people—we promised to give the people our stock of Boots and Shoes at prices that were actually less than they cost to make.

Coady & Co. 61 Charlotte Street

WILL INVESTIGATE

FIRE DEPARTMENT. Committee Appointed by Common Council to Look into Water Pressure, Hydrants, Fire Engine, Etc.

Porter Says:

A cough or cold is a dangerous thing. At first sign of a tickle or sneeze, shiver or shak, take Porter's Cough Syrup and a couple of Grippe Pills.

FRANK E. PORTER PRESCRIPTION DRUGGIST, Union and St. Patrick Sts.

SPLENDID PERFORMANCE OF ARIZONA BY COLONIALS

Large Audience Applauded Efforts of Our Own Stock Company to the Limit—Repeated on Saturday.

The famous western play Arizona was presented at the Opera House last evening by the Colonials in a manner that reflected great credit on every member of the cast.

Miss Warren in the role of the colonel's wife, did full justice to a difficult part that calls for emotional setting of high character. Myra Cowe, although ill, was delightful in the role of Bonita, and received quite an ovation.

The play was admirably staged and the artistic effects and costumes were glowing features of the production.

THE "REGAL" TOOTH BRUSH

SIMULTANEOUS - EVANGELISTIC - MEETINGS

To the Cooperating Churches in the Simultaneous Campaign, St. John, N. B.:

Dear Brethren—As Chairman of the twenty-five groups of churches of Boston, co-operating in a similar Evangelistic Campaign a year ago, I would send you the greeting, the assurance and the prayerful good will of the Consolidated Evangelistic Forces of the City of Boston.

We well know that great blessings await you. Your victory will be as great as your faith in the promises of God. A year has passed since the special visitation of Divine Grace upon this city, and its influence is powerful in our churches today.

Yours in Christian Service, A. J. Leonard

Pastor Park Street Church, Boston. The Meetings Begin next Monday

The Lighter Side of Life

FOLLOW EDITORIAL THIRD SHIPS. I saw three ships come sailing by, Come sailing by, come sailing by, I saw three ships come sailing by, New Year's Day in the morning.

AND WHAT DO YOU THINK WAS IN THEM? Wasn't them then, was in them then? And what do you think was in them then, New Year's Day in the morning?

THREE PRETTY GIRLS WERE IN THEM THEN, Were in them then, were in them then, Three pretty girls were in them then, New Year's Day in the morning.

ONE COULD WHISTLE, AND ANOTHER COULD SING, And another could play on the violin, Oh, which one then would you like to have been, New Year's Day in the morning?

OTHERWISE ENGAGED. Rev. Howler—I haven't seen your husband at church recently, Mrs. Briggs—What is he doing? Mrs. Briggs—He's doing 'six months' here.

HE WAS TERSE. Employer—Yes, I like your face. How long were you in your last place? Applicant—Seven years. Employer—What were you doing there? Applicant—Seven years.

EYESIGHT! Eyesight is priceless; you can preserve it at small cost if you call on D. BOXANELL, Scientific Optician, 28 Dock street. Store closes at 6 p.m. Sat. 8.30 p.m.

AND IT DID. "Holl on, thou mighty ocean!"—The poet wrote his song. Ah, well, the bard has had his way. For ever since that fateful day The ocean has, in ceaseless play, Been rolling right along!

The Musician (at Wise's musicale)—The piano is very much out of tune, Mr. Wise—Play something from Wagner and they won't notice it. Mrs. Johnston—Oh, professor, I wonder what I could do to improve my daughter's voice? Distinguished Professor of Music—Well, I am sure I do not know, unless you try feeding her on canary seed.

# ANTICOR

A sure way to foot comfort. At last all terrors of corns and callous have been overcome. ANTICOR is the most practical invention ever made for the human race. If you own an ANTICOR you will forget you ever owned a corn or callous spot. No longer need to run the risk of cutting a toe in trying to remove a corn with a razor or knife. ANTICOR is a patent Safety Corn Remover made of German Silver with three double edged blades and shaver. Will last a life time. Perfect Self Treatment. No danger, no pain.

Price \$1.25 each.

New Theory as to Origin of Negroes' Color

Big Catch of Gasoline Cans—Searching for Dredger—Will Take Mariners' Property—The Bangor Campaign

SYRACUSE, N. Y., Feb. 3.—Injuries received in a football match, resulted in the death here today, of Wesley Kellogg, eleven years old, son of Rev. S. S. Kellogg, of Burlington, Pa. Death was due to paralysis.

ST. LOUIS, Mo., Feb. 3.—That the negro did not get his color from Ham, and that he is not even a member of the race of Adam, but a descendant of one of four or five brothers Adam must have had, is the belief of Rev. Dr. Edwin H. Richards.

Dr. Richards is attending the laymen's evangelized convention which began a four-days' session here tonight.

ATLANTIC CITY, N. J., Feb. 3.—The crews of the fishing smacks Theodore Fletcher and the Irene, ran into a big field of floating cans of gasoline off Beach haven today. The fishermen gathered 180 of the cans, which bear no marks by which they can be identified.

WASHINGTON, D. C., Feb. 3.—Capt. Ross, commander of the revenue cutter service, has dispatched the cutter Yamacraw, stationed at Charleston, S. C., to hunt for the schooner Mary J. Russell, of Leesburg, N. J., reported abandoned about 370 miles southeast by east of that port. The vessel is waterlogged and will sink. An effort will be made to tow her into Charleston harbor.

SOUTHERDOR, Mass., Feb. 3.—Officials of the Southbridge Savings Bank, the books of whose former treasurer, John A. Hall, are said to indicate an apparent shortage of \$40,000 or more, said today that they will institute an action for authority to sell all the real estate property of the Treasurer Hall. By this means they expect to raise about \$10,000, which will be applied to the deficit.

BANGOR, Me., Feb. 3.—The feature of the Chapman-Alexander revival campaign on Thursday was a meeting for men in the Second Congregational Church, over 400 being at the tables at 10 o'clock. Dr. Chapman conducted a meeting for men in the Second Baptist Church, many expressing their desire at its close to lead a Christian life.

At the same hour, a meeting for women was conducted in the Second Congregational Church by Mrs. Wm. Ashen. The central meeting in city hall, which was otherwise engaged Thursday night, will be resumed on Friday.

Dr. Chapman has expressed his gratification at the interest taken in the campaign, which, he says, has exceeded his expectations.

**INDIGESTION GOES IN FIVE MINUTES**  
Heartburn, Gas, Dyspepsia and Stomach Misery Vanishes Before You Realize It

STOMACHS FEEL FINE

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food or have a feeling of Distension, Heartburn, Fullness, Nausea, Bad Taste in the mouth and stomach headache—this is indigestion.

A full case of Pepp's Diapapin costs only 50 cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these 60-cent cases, then you will understand why Dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapapin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite, what will please you most is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for Bloatingness or Constipation.

This city will have many Diapapin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too, if you ever try a little for indigestion or heartburn or any other stomach misery. Get some now, this minute, and forever rid yourself of Stomach Trouble and Indigestion.

was about nineteen years of age, and has been in delicate health for a long time, although a fatal ending to his trouble was not immediately looked for. Indeed he has of late seemed to be gaining strength and hops was generally entertained that he might outlive his weakness. His father has been in poor health recently and the shock comes with terrible force upon him at the present time. Dr. Wareford lost his wife suddenly a few years ago and this second sorrow and affliction comes with crushing power upon the whole household. Two younger brothers with the father survive.

Bentley's the best Liniment for Strains, Sprains and Rheumatism.

ALTARS ON BOARD SHIP.

The following is taken from the Catholic Record:

"The first of the altars to be provided by the Canadian Pacific Railway for the use of Catholic priests on the Empress steamships has been dispatched from Montreal for St. John's.

**ELECTRIC RAILWAY FOR F'TON AND VICINITY**

At the next session of the legislature there will be an application for a charter by a company known as the Fredericton Street Railway Company. R. B. Hanson is the solicitor and says that Fredericton will have the railway just as soon as they can get cheaper power. The idea is to have lines running to St. Marys, Gheen and Maryville and possibly Nashvaukas, Springhill and Victoria Mills.

### RIGHT KIND OF A FIGHT WAS PROMPTLY BLOCKED

Wolgast and Nelson Were Ready for a Lonesome Bout But Managers Interfered.

SAN FRANCISCO, Feb. 4.—Loudly denouncing his coming adversary in strict price ring terms, Ad Wolgast tore off his coat last night in the office of Sid Hunter, fight promoter, where an effort was being made to settle terms for the Wolgast-Nelson fight, and offered to fight Battling Nelson then and there. He stood in front of

Nelson, hurling his deft, but Nelson never rose from his chair. When Wolgast had finished his tirade, Nelson offered to wager \$5,000 against \$2,500 of Wolgast's money, he and Wolgast to lock themselves in any room in the building with the agreement that the one who could unlock the door first should collect the big bet. Others present interfered and the two pugilists were kept apart.

The \$2,000 mark has been reached in the Seaman's Mission building fund, although many collectors have yet to make their reports. It is expected that the collections will be well up to \$1,500, the amount aimed at.

Mrs. Asquith will launch the first Australian destroyer on Wednesday.

Alfred L. Burt of Toronto has been selected as Rhodes scholar by the university this year.

### SUDDEN DEATH OF YOUNG MAN AT HAMPTON

Keeps Wareford Died of Hemorrhage While on His Way Home From a Social Gathering.

HAMPTON, N. B., Feb. 4.—A very sad and tragic end to a most enjoyable social party occurred last night at Hampton Village. A number of friends had spent the evening socially at the home of Mr. and Mrs. George McAvity, among whom was young Mr. Kemps Wareford, eldest son of Dr. Percy H. Wareford, who was apparently one of the most interested and happy of the party.

Dr. Wareford was in the company of his friends at the time of the tragedy. He was on his way home from a social gathering. He collapsed and died of hemorrhage. The friends started for their homes. Mr. Wareford going in the team with Mr. Judson Slipp for the short distance to his home. On stepping out of the carriage he collapsed and was borne into his home. Dr. Wareford and the family were immediately summoned but within ten minutes the young man had passed away. The occurrence has filled the community with sympathetic sorrow as the deceased and his family were held in the highest regards. He

## A CLOTHING SALE

SCIENTIST TEACHING YOUNG APE TO TALK

Dr. Furness' Orang-outang is Quick to Pick Up Knowledge Distinguishes Colors, Answers Calls, Threads Needles, Ties Knots and Does Other "Stunts."

PHILADELPHIA, Feb. 3.—On the floor in the conservatory of Linden-shade, the beautiful country place of the Furness family, near Wallingford, Dr. W. H. Furness, 3rd, spent an hour or two yesterday afternoon with Borneo, an orang-outang from the island of that name. Dr. Furness and Borneo were evidently the best of friends, at least the ape was well satisfied, being close enough to sit on top of a hairy creature from the tropics. Professor Lightner Witmer, head of the Department of Psychology, with his wife, sat on a low bench a little further from the stove and with rapid attention studied the intellectuality of the ape, its feats of manly being displayed under the tutelage of Dr. Furness.

"That spelling is wrong," explained Dr. Furness, "it is not an orang-outang, it should be orangutan, which in the Malay dialect means man of the woods, or wild man. This orang-outang ape came to me last May from southwest Borneo, a hot, moist climate where these animals are often seen playing about in the tall trees. When he reached me he was less than two years old. He is not at the time of life when an ape learns most easily. An ape becomes adult at 12 or 14 years and lives to be 40 years old or so. When he arrived here he was entirely ignorant and did not even know enough to come when called. Now he answers calls, stands when asked to sit in a chair, threads a needle, builds blocks like a child, strings beads, ties knots, can distinguish a round from a square hole so as to put a ball or a cube through the round aperture, can put pegs in shapes in a peg-board and now I am teaching him to tell colors and to talk."

"Ask him to walk," suggested Professor Witmer.

"Stand up, Borneo," said Dr. Furness. Borneo rose quite promptly. "Walk over to me." Borneo shuffled along on two feet, not very erect nor very swiftly, but still he walked as well as the average fat man.

"You see he walks with his toes curled under his feet; that's typical of the orangutan. My new chimpanzee can walk with toes out straight, but Borneo can never hope to do that. Borneo put his hairy face up close to the face of Dr. Furness, as if rather affectionately inclined. "Speak to me, say 'pa pa.'" "Pa pa," answered the ape. Then Borneo said it over again, "Pa pa." It was not a great success at articulation as the words were spoken with too much of a puff. But the ape said it better than the average baby in beginning the language.

Portlands made a start on retaining the senior basketball championship when they won from Algonquins at the Y. M. C. A. last night, 15 to 12.

The big guns with the long muzzles, the ones which must be leveled at the enemy, are mounted on imposing gun carriages. The gun is loaded, aimed according to the directions given by the fire control station, then the shells are fired. When it is fired the recoil throws it back and down into the pit. There it is loaded, driven up into place again and fired. Thus the operation is repeated until the enemy is at the bottom of the sea or a flag of truce flies at the masthead. Most of these guns now in use are of 12-inch bore. They can begin firing on a target 10 miles away, and then they can fire at 15 miles or more away, and at five miles they have frequently registered a hundred hits out of a hundred shots, most of them being so accurately aimed that they would go through a hatch without hitting the paint on the sides. Two of these guns are placed in a single pit, and together they can keep firing at a target nearly all the time, their combined capacity being a shot every 15 seconds.

Before the Spanish-American war it was thought that the firing of ten shots by a coast defense gun was a good day's work. Since then their speed has been increased to many times that much in a single hour. After the Spanish-American war, when the new type of coast defense was in its infancy, there was great secrecy. Even the well-touched-for American could not see the batteries of Fort Monroe. Sec. Root had his attention called to this precautionary rule. "Will your mines and guns work?" he queried. "Yes," was the answer. He asked why have any secrecy about them; why not let the world know how strong they are?" He asked. And since then the world has known and our coast defenses are respected in all the imaginary wars which the armies and navies of the world fight in their professional journals.

The equipment of the coast defense forts is one of the most remarkable evidences of military progress in America. The immense searchlights which reveal the enemy the minute he ap-

FOR DEFENCE OF THE AMERICAN COAST

Great System of Fortifications Has Newly Sprung Up All Important Ports—Great Guns Guard the Larger Cities on the Atlantic and Pacific Seaboards.

NEW YORK, Feb. 3.—With the completion of fortifications now in course of construction that tend to give the United States a feeling of security from danger of foreign invasion, the system of the Spanish-American war the nation found itself all but unprotected in this manner. Should the military minds of the really strong powers instead of poor, weakened, enervated Spain there is no telling how serious may result to the cities of the seaboard might have been. New York, Boston, Washington, Baltimore, New Orleans, New Orleans, Galveston, and San Francisco were all open to attack. Only obsolete guns and inadequate forts protected them, aside from the protection they were afforded by the navy, writes Frederick J. Haskin in the Washington Post.

But after the peace of Paris the military authorities of America began to reflect how different it might have been if we had met a stronger nation in the arbitration of the sword. They felt that we would ultimately have won no matter what the power against us, but that it had been with every gun on board city of the Atlantic coast in ashes as a part of the price of victory. It was a lesson to them and the Spanish-American war was no sooner closed, and the stock-taking of its results ended, until the military minds of Washington began to bestir themselves to the creation of a modern system of coast defenses.

Out of their planning has grown one of the world's most complete systems for defending the coast of a nation from attack. From Portland, Me., to the Puget Sound every important harbor is being put in such shape that the fleet does not exist that might hope to force an entrance. With the complete system of high-powered guns, mortars, search-lights, fire control, and everything else that tends to give a port advantage over a battleship, it seems that the last word is being said in the matter of coast defense.

When the voyagers of the world sail past the coast of America they are met by forts of stone standing like sentinels on guard. To the uninitiated they look like a line of sentinels, but in fact they are only the relics of a by-gone age in warfare. They are in reality more dangerous than any other weapons. Where the danger to the enemy lies is not in the stone forts, but in great batteries of guns that are hidden in sand covered with naught but an unoffending green grass.

Behind these little forts lies the safety of every coast city in the nation. These hidden mortars and guns may be relied on to sink any enemy who may send against them. The mortars are giant shot-mortars. They are mounted on imposing gun carriages. The gun is loaded, aimed according to the directions given by the fire control station, then the shells are fired. When it is fired the recoil throws it back and down into the pit. There it is loaded, driven up into place again and fired. Thus the operation is repeated until the enemy is at the bottom of the sea or a flag of truce flies at the masthead. Most of these guns now in use are of 12-inch bore. They can begin firing on a target 10 miles away, and then they can fire at 15 miles or more away, and at five miles they have frequently registered a hundred hits out of a hundred shots, most of them being so accurately aimed that they would go through a hatch without hitting the paint on the sides. Two of these guns are placed in a single pit, and together they can keep firing at a target nearly all the time, their combined capacity being a shot every 15 seconds.

Before the Spanish-American war it was thought that the firing of ten shots by a coast defense gun was a good day's work. Since then their speed has been increased to many times that much in a single hour. After the Spanish-American war, when the new type of coast defense was in its infancy, there was great secrecy. Even the well-touched-for American could not see the batteries of Fort Monroe. Sec. Root had his attention called to this precautionary rule. "Will your mines and guns work?" he queried. "Yes," was the answer. He asked why have any secrecy about them; why not let the world know how strong they are?" He asked. And since then the world has known and our coast defenses are respected in all the imaginary wars which the armies and navies of the world fight in their professional journals.

Where the danger to the enemy lies is not in the stone forts, but in great batteries of guns that are hidden in sand covered with naught but an unoffending green grass.

Behind these little forts lies the safety of every coast city in the nation. These hidden mortars and guns may be relied on to sink any enemy who may send against them. The mortars are giant shot-mortars. They are mounted on imposing gun carriages. The gun is loaded, aimed according to the directions given by the fire control station, then the shells are fired. When it is fired the recoil throws it back and down into the pit. There it is loaded, driven up into place again and fired. Thus the operation is repeated until the enemy is at the bottom of the sea or a flag of truce flies at the masthead. Most of these guns now in use are of 12-inch bore. They can begin firing on a target 10 miles away, and then they can fire at 15 miles or more away, and at five miles they have frequently registered a hundred hits out of a hundred shots, most of them being so accurately aimed that they would go through a hatch without hitting the paint on the sides. Two of these guns are placed in a single pit, and together they can keep firing at a target nearly all the time, their combined capacity being a shot every 15 seconds.

Before the Spanish-American war it was thought that the firing of ten shots by a coast defense gun was a good day's work. Since then their speed has been increased to many times that much in a single hour. After the Spanish-American war, when the new type of coast defense was in its infancy, there was great secrecy. Even the well-touched-for American could not see the batteries of Fort Monroe. Sec. Root had his attention called to this precautionary rule. "Will your mines and guns work?" he queried. "Yes," was the answer. He asked why have any secrecy about them; why not let the world know how strong they are?" He asked. And since then the world has known and our coast defenses are respected in all the imaginary wars which the armies and navies of the world fight in their professional journals.

The equipment of the coast defense forts is one of the most remarkable evidences of military progress in America. The immense searchlights which reveal the enemy the minute he ap-

FOR DEFENCE OF THE AMERICAN COAST

Great System of Fortifications Has Newly Sprung Up All Important Ports—Great Guns Guard the Larger Cities on the Atlantic and Pacific Seaboards.

NEW YORK, Feb. 3.—With the completion of fortifications now in course of construction that tend to give the United States a feeling of security from danger of foreign invasion, the system of the Spanish-American war the nation found itself all but unprotected in this manner. Should the military minds of the really strong powers instead of poor, weakened, enervated Spain there is no telling how serious may result to the cities of the seaboard might have been. New York, Boston, Washington, Baltimore, New Orleans, New Orleans, Galveston, and San Francisco were all open to attack. Only obsolete guns and inadequate forts protected them, aside from the protection they were afforded by the navy, writes Frederick J. Haskin in the Washington Post.

But after the peace of Paris the military authorities of America began to reflect how different it might have been if we had met a stronger nation in the arbitration of the sword. They felt that we would ultimately have won no matter what the power against us, but that it had been with every gun on board city of the Atlantic coast in ashes as a part of the price of victory. It was a lesson to them and the Spanish-American war was no sooner closed, and the stock-taking of its results ended, until the military minds of Washington began to bestir themselves to the creation of a modern system of coast defenses.

Out of their planning has grown one of the world's most complete systems for defending the coast of a nation from attack. From Portland, Me., to the Puget Sound every important harbor is being put in such shape that the fleet does not exist that might hope to force an entrance. With the complete system of high-powered guns, mortars, search-lights, fire control, and everything else that tends to give a port advantage over a battleship, it seems that the last word is being said in the matter of coast defense.

When the voyagers of the world sail past the coast of America they are met by forts of stone standing like sentinels on guard. To the uninitiated they look like a line of sentinels, but in fact they are only the relics of a by-gone age in warfare. They are in reality more dangerous than any other weapons. Where the danger to the enemy lies is not in the stone forts, but in great batteries of guns that are hidden in sand covered with naught but an unoffending green grass.

Behind these little forts lies the safety of every coast city in the nation. These hidden mortars and guns may be relied on to sink any enemy who may send against them. The mortars are giant shot-mortars. They are mounted on imposing gun carriages. The gun is loaded, aimed according to the directions given by the fire control station, then the shells are fired. When it is fired the recoil throws it back and down into the pit. There it is loaded, driven up into place again and fired. Thus the operation is repeated until the enemy is at the bottom of the sea or a flag of truce flies at the masthead. Most of these guns now in use are of 12-inch bore. They can begin firing on a target 10 miles away, and then they can fire at 15 miles or more away, and at five miles they have frequently registered a hundred hits out of a hundred shots, most of them being so accurately aimed that they would go through a hatch without hitting the paint on the sides. Two of these guns are placed in a single pit, and together they can keep firing at a target nearly all the time, their combined capacity being a shot every 15 seconds.

Before the Spanish-American war it was thought that the firing of ten shots by a coast defense gun was a good day's work. Since then their speed has been increased to many times that much in a single hour. After the Spanish-American war, when the new type of coast defense was in its infancy, there was great secrecy. Even the well-touched-for American could not see the batteries of Fort Monroe. Sec. Root had his attention called to this precautionary rule. "Will your mines and guns work?" he queried. "Yes," was the answer. He asked why have any secrecy about them; why not let the world know how strong they are?" He asked. And since then the world has known and our coast defenses are respected in all the imaginary wars which the armies and navies of the world fight in their professional journals.

The equipment of the coast defense forts is one of the most remarkable evidences of military progress in America. The immense searchlights which reveal the enemy the minute he ap-

GOLDIE'S CHOICE BLEND FLOUR advertisement featuring a star logo and text: "You are looking for quality in Flour. You will find it in STAR FLOUR for all purposes: Bread, Buns, Biscuits, Pastry and Cake. THE GOLDIE MILLING CO., LTD., AYR, ONT."

MR. F. P. BRADY TO REMOVE TO SYDNEY

SYDNEY, N. S. Feb. 3.—It is reported in official circles in Sydney that F. P. Brady, one of the board of management of the Intercolonial railway commission, has been appointed to the position of traffic manager of the Dominion Coal and Steel Co., replacing F. W. Warren, who resigned his position last week. It is also said that Mr. Murphy, who accompanied Manager Butler on his recent visit here, is to be appointed chief electrician for the combined companies.

Constipation.

No one need expect to be healthy if the bowels are allowed to become clogged up. A free motion of the bowels daily should be the rule with everyone who aspires to perfect health. Constiveness or constipation clogs the bowels, chooses up the natural outlet of the system, and retains in the system the poisonous effete waste products of nature, causing bad blood, dyspepsia, headache, biliousness, foul humors, pimples, boils, blotches, piles, etc. Burdock Blood Bitters has built up an unrivalled reputation as a cure for constipation and all the diseases which arise from it.

Deputy of the Minister of the Interior. N. B.—Unauthorized publication of this advertisement will not be paid for.

FRANCE WILL ACCEPT AID FROM DOMINION

OTTAWA, Feb. 3.—Canada will give \$50,000 in aid of the flood sufferers in France. A supplementary estimate providing for this was brought down in the commons by Hon. Mr. Fielding at the opening of the house this afternoon. In the commons this afternoon, on motion of Sir Wilfrid Laurier, Messrs. Geofrion and MacDonald (Picton), Wilson (Laval), Clarke (Essex), Lennox, Crothers and Barker were appointed a select committee to enquire into the charges made by Mr. Lumsden with regard to incompetency on the part of those of the staff of the National Transcontinental Railway.

SIR EDWARD CLOUSTON TO SUCCEED DRUMMOND

MONTREAL, Feb. 3.—Sir Edward Clouston, the present vice-president of the Bank of Montreal and general manager, will be appointed president in succession to Sir George Drummond, but whether he will retain the general management or not is problematical. In the event of his relinquishing the general management it is expected that Mr. H. Vincent Meredith, the present local manager, will become general manager, and that Mr. Stavert will be appointed assistant general manager.

CHAMBERLAIN'S COUGH REMEDY

WILL CURE Your Cold. Try It The uniform success that has attended the use of this remedy in the cure of bad colds has made it one of the most popular medicines in use. It can always be depended upon to effect a quick cure and is pleasant to take.

Regular Habits An Absolute Necessity For Good Health. You might as well expect to find a man or woman healthy when their bowels are blocked with refuse. Nature demands that the indigestible food and waste matter which collects in the lower bowels shall be got rid of at least once in twenty-four hours. If this is not done it decomposes, filling the bowels with poison, which is taken up into the blood and carried all through the body.

### COMMERCIAL

**RIO JANEIRO, Feb. 4.**—The government today authorized the minister of finance to negotiate with the Rothschilds for a loan of \$10,000,000, the funds to be used for the conversion of the outstanding external debt issue at five per cent into 4 per cent bearing bonds.

**NEW YORK, Feb. 4.**—A rash of orders at the opening carried the prices of stocks comprehensively upwards. The rise of Americans in the London

market alarmed the untended shorts here and they bought heavily. Central leather started two points higher last night; Great Northern Pfd, 1 1/2; Am. Smelting and Pacific Mail, 1 1/2 and up; Sou. Pac. Northern Pacific, Reading, Rock Island, N. W. Central, Erie 1st Pfd., Chicago and Alton, Atchafson and U. S. Rubber 1, National Biscuit sold at a decline of 3.

It will pay you exactly five dollars to order a suit or overcoat now at Pilsbury's store. You can select a medium weight fabric that will be remarkable in spring.

### LOSING OVER \$100,000 A YEAR ON LIGHT CONTRACT

**Boston Contract Declared Illegal by Special Committee—Finance Commission Criticized**

**BOSTON, Mass., Feb. 3.**—Boston is paying \$100,000 a year more than it should for the lighting of its streets by electricity and has been paying at least \$200,000 more than was just during the past ten years, according to a startling report made to the Common Council of Boston tonight by a special committee of that body appointed last year to make an investigation. The committee finds that Boston is paying \$100,000 a year for the same lamp for which St. Louis pays \$50. Compared with other cities, the committee finds that Boston is paying more for its street lighting than any other large city in the country. The special committee, moreover, declares the present contract is illegal, because not authorized by the Board of Aldermen, and voidable because the corporation council says, the money for more than a year is not in sight; the existing contract being for five years.

A severe criticism of the finance commission for its methods was also incorporated in the report.

### MYSTERIOUS DEATH OF MAN AND WOMAN

**Bodies Found After a Month in Peculiar Attitudes—Murder, Suicide or Natural Causes?**

**PHILADELPHIA, Pa., Feb. 3.**—What may have been a double murder, a consumptive, a man and a woman, were found after a month in peculiar attitudes—murder, suicide or natural causes? The bodies were found in a room in the wholesale jewelry trade section of this city, where they had lain probably more than a month.

The room where the bodies were found was used by Bohrer as a sleeping apartment and adjoined his shop on the third floor of a small building at Seventh and Sanson streets.

The couple were found clothed only in their night robes. Bohrer's body was stretched out downward across a chair, while that of the woman lay on the bed, also face downward.

There was nothing to indicate that the couple naturally agreed to kill themselves, no trace of poison being found. Neither were there any evidences of murder, aside from the fact that Bohrer's body was lying in an unusual position.

### WOMEN'S GLANCES FLUSTER ACCUSED

**Sophia's Kitchman Breaks Down and Refuses to Take the Stand—Man Now In Jail.**

**WATERBURY, Conn., Feb. 3.**—The breaking down of the accused, which prevented her taking the stand in her own behalf, and the first direct mention of the connection of Joseph Mitchell with the shooting, were incidents in today's trial of Sophia Kitchman, for the murder of Bronislaw Kutchman. Witnesses for the defense testified to having seen Mitchell with Sophia on the afternoon that Kutchman was shot and on the following morning. Mitchell was under arrest and will be tried at the conclusion of the Kitchman trial.

The accused girl spent a restless night. When her counsel at the afternoon session asked her if she were ready to go on the stand, she said: "No!"

Later she added: "I feel satisfied that I am going to be free soon, and I am confident that I have already planned a trip to Florida. I intended to go on the stand this afternoon, but the sight of that large crowd in the court room scared me. I am not afraid of the jury or of the lawyers, but I do not like to have a crowd of women looking at me. I know they come to see how I got when I try to compose myself. I feel that I am making a mistake. Then my new dress does not fit me as well as I would like, and all those women notice such things. I hope the judge will keep all those women out of court tomorrow, when I go on the stand. A girl has no chance to tell a story that appears right when a lot of women are gazing on her. I will be able to tell my story, if I am not annoyed by the glances of curious women, and all I ask is a fair chance and that the court prevent the curiosity-seekers to keep out. When a woman is in trouble it is her own sex who gloat over the fact."

### SINKING STEAMER CALLS FOR AID BY WIRELESS

**"Kentucky" Meets Disaster on Her Maiden Voyage—The "Alamo" to the Rescue.**

**NEW YORK, Feb. 4.**—The steamer Kentucky of the Alaska Pacific Steamship Company is sinking while struggling through heavy seas forty miles southeast of Cape Hatteras today, her crew and passengers in the lifeboats meanwhile struggling by every possible means to keep the vessel afloat.

News of the Kentucky's desperate plight was received here in a despatch from the United Wireless Telegraph Company's station at Cape Hatteras.

**CHARLESTON, S. C., Feb. 4.**—The wireless station here today intercepted a message from the steamer Kentucky of the Alaska Pacific line, on her maiden voyage from New York to the Pacific coast, saying that the steamer is sinking in latitude 31.1, longitude 76.48.

The Malloy vessel, the Alamo is proceeding with all haste to its assistance.

### A BIG METEOR

**QUINCY, Feb. 4.**—A meteor supposed to have struck near here at 1:30 this morning aroused the whole city and caused buildings to tremble. Those on the streets saw a great fire in the sky. Several saw the meteor accompanied by an appalling detonation followed a few seconds later by trembling of the earth lasting five to ten seconds.

### WELSH YEOMEN WERE

Yeomen were formerly considered to be by their title on a level with esquires, and they were called yeomen because in addition to the weapons proper for close engagements, they fought in the wars with arrows and bow which was made of yew, hence the word. After the conquest the name of yeoman, in reference to the original condition of the yeoman, was changed to that of archer. The term, however, was continued with additions—the yeoman of the crown, of the chamber, yeoman usher, etc.—and we find that considerable grants were bestowed on some of them. In the legal view a yeoman is defined to be one that has fee land of the value of 40 shillings a year, and is thereby qualified to serve on a jury, to vote for knights of the shire and to do any other act which the law may require. The yeomen always took a leading part in whatever concerned the rights or interests of the kingdom, and their renown as warriors is fully established by their numerous heroic achievements.—London Globe.

### THE ORDEAL BY FIRE

The really strong scene of the play had arrived and the amateur hero stepped himself for the effort. The first into the water the villain had entangled him was on fire, and his shrilling escape from the burning structure was where he was going to bring down the house.

"I am choking!" he cried. "The smoke is overpowering me!"

"That would have been all right except for the fact that there was no smoke, and it seems unreal to choke with smoke when there isn't any smoke to choke with."

"The flames!" he cried. "The flames—I feel them!"

But his flames were absent also. He glanced into the wings and realized what had happened. Some one had damped the red fire.

It was a moment of terrible strain. Nothing relieved the situation, and he lost his head and rambled on about the fire that no one could see. It was awful, and it was worse when a big brute in the gallery belched forth.

"Never mind the fire, guv'nor! Get on with your job!"

And then the actor laughed a wild, maniacal laugh, and the kindly curtain came down.—London Tit-Bits.

### ALL CAN WORK AND TRY.

Milton wrote, "Who best can suffer, best can do." The progress and success of the other fellow always looks easy. But only the other fellow knows all about it. We cannot all work just the same way. Brilliant minds make great leaps. They are daring and courageous. Timid ones must plod because it is their nature. The old saying, "What others have done, I can do," is not strictly true, and is misleading to the inferior intellect. A strong man can lift great weights, for he has the muscular strength. Weaker men cannot do what he has done, but they can work and try. That's about all that most of us can do.

### ONTARIO ENDS YEAR WITH LARGE SURPLUS

**TORONTO, Feb. 4.**—Provincial Treasurer Matheson delivered the budget speech in the legislature yesterday afternoon, claiming a surplus of two hundred and fifty thousand to three hundred dollars on the year's operations, although nine months' statement had shown a deficit. The prosperous condition of Ontario's railways, the Transcontinental Northern Ontario was referred to and the estimated receipts for the year were placed at thirteen millions, six hundred and twenty-seven thousand, including cash in hand. Expenditure was estimated at seven millions, eight hundred and twenty-four thousand, besides two and a half millions extra for the Hydro-Electric power enterprise, which is a guarantee of municipal investment.

The Liberals elected D. J. MacDougall Ontario as the first critic, and there is no telling how he will take uncollected flogging.—Exchange.

### MISSING DISASTER BY A FEW RODS

**MANCHESTER, Mass., Feb. 3.**—Missing disaster by a few rods, the engine of the five o'clock passenger train from this city, over the North Weymouth branch of the Boston and Maine railroad, went into an open switch at Everett, derailed the engine and tender, causing injuries to but one person, Engineer Geo. J. Baiter. Baiter suffered principally from slight bruises and a shaking up. The engine ran down the bank and landed right side up. A few rods further on, the Catawag River runs through a deep ravine, and had the mishap occurred there, a serious wreck might have occurred. A wrecking train was sent from this city to put the engine and tender back on the rails.

### FISH OUT OF WATER.

A fish with very singular habits exists in New Zealand, called by the Maoris the kakawai. It is generally discovered when a man is digging out rabbits in the summer-time, and it lies at a depth of a foot or two under the soil. The character of the soil, whether sand or loamy, does not seem to matter. The fish is from two to three inches long, silvery, shaped like a minnow, but rather more slender and tapering. It appears quite torpid when exhumed, and if dug up in summer and put into water it dies at once.

If, however, it is brought to daylight in May or June (the end of autumn, when the rains are beginning to make the soil thoroughly wet, and put into a tub of water, a serious thing happens. After a day or two it casts its skin, which sinks to the bottom, and the fish plays about bright and lively. Of course, in winter there must be marshy spots or pools in which the fish can swim, but often all evidence of such existence disappears in summer, and the hot, dry, waterless plain seems the last place on earth in which to find a fish.

### ENGLISH DIFFICULT TO PRONOUNCE.

The difficulty of English for strangers does not lie in its orthography, but in its pronunciation. Abroad, people will constantly say that they can read and write English readily while unable to utter a word or to understand a word of the spoken language; as, of course, vice versa, a great many English and Americans can read and write French long before they can understand or make themselves understood; the other languages are just as difficult for them to pronounce as English is for others. The only difference is that English stands alone with its system or lack of system of pronunciation. When a Frenchman knows how to write German, he is at the same time able to speak the language, if not beautifully, at least so as to be understood; the same holds for a German speaking English.—Prof. Albert Schellin, in the North American Review.

### HORSES AND RAIN.

Day after the lover of animals had stopped to pet the baker's horse, which happened to be hitched at a certain corner at one hour when the animal lover passed, and the horse apparently appreciated the attention. But one day his mood changed, and he "kicked" viciously. "Well, of all things!" exclaimed the animal lover. "Probably because you never petted him before in rainy weather," said the man who knows a little bit about horses. "As you value your ten fingers and general safety of limb, don't pet familiar with a horse when he is soaked with rain. No matter how peaceable his disposition, the rain makes him cranky, and there is no telling how he will take uncollected flogging.—Exchange.

### WILD FLOWERS IN THE SOUTH.

One morning you drive through the woods and see nothing but the usual green of winter; two days after on the same road you behold afar what seems to be a huge white sheet showing through the tree trunks and covered when a man is digging out rabbits in the summer-time, and it lies at a depth of a foot or two under the soil. The character of the soil, whether sand or loamy, does not seem to matter. The fish is from two to three inches long, silvery, shaped like a minnow, but rather more slender and tapering. It appears quite torpid when exhumed, and if dug up in summer and put into water it dies at once.

This property can be improved at small cost to accommodate 4 tenants; now partly improved; well located, adjacent to Main St. Baptist Church. A fine property and offered at a bargain. Apply to ALFRED BUTLER, 48 Princess St. Phone 390. Other properties for sale.

### INSECTS AND FLOWERS.

Experiments on showy flowers like the poppy tend to show that insects are not always attracted to flowers by the brightly colored petals, but rather by the perception—doubtless by means of smell—that there is honey or pollen. In these experiments the unpopped flower bud is enclosed in a gauze net so as to protect it from insects, and when it expands the petals are carefully removed without touching the remaining parts with the fingers (for bees avoid a flower if the smell of human fingers is left on it), and the insectless flowers receive practically as many insect visits as untouched flowers do.

### Had Weak Back.

Would Often Lie in Bed for Days Scarcely Able to Turn Herself.

Weak back comes from the kidneys, and when the kidneys are out of order the whole system becomes damaged. Those who have never been troubled with kidney trouble do not know of the suffering and misery which those afflicted undergo.

Don's Kidney Pills are a specific for all kidney troubles.

They begin by helping the kidneys to flush out all the acid and poisonous impurities which have collected, thus clearing out the kidneys, bladder and all the urinary passages and carrying away the uric acid, the chief cause of rheumatism, from the blood.

Mrs. Arch. Schmale, Black Point, N.P., writes:—"For years I was troubled with weak back. Oftentimes I have lain in bed for days, being scarcely able to turn myself, and I have also been a great sufferer while trying to perform my household duties. I had doctors attending me without avail and tried liniments and plasters, but nothing seemed to do me any good. I was about to give up in despair when my husband induced me to try Don's Kidney Pills, and after using two boxes I am now well and able to do my work. I am positive Don's Kidney Pills are all that you claim for them, and I would advise all kidney sufferers to give them a fair trial!"

Price, 50 cents per box, or 3 for \$1.25, at all dealers or C. T. Millard, Co., Ltd., Toronto, Ont.

In ordering specify "Don's."

The Treasury Board meets for a short session at 2:30 this afternoon and the Ferry Committee holds its regular monthly meeting at four o'clock.

Thirty-five passengers for the steamer Corsican reached the city at noon today and went through by rail to join the steamer at Halifax.

A horse attached to a delivery wagon slipped on Main street and fell to the ground. It was raised with considerable difficulty but escaped practically unhurt.

Alderman Vanwart, chairman of the Safety Board, has decided to have water gauges installed in all the fire stations and the pressure indicated by the instruments will be noted and recorded three times each day.

The fortnightly laborers' payroll disbursed at City Hall today is made up as follows: Ferry \$242,550; Public Works \$127,215; Water and Sewerage \$93,235. \$462,999.

The Baptist Mission study class met last evening in the Waterloo street Church. Carefully prepared and interesting papers were presented on Mexico—Pagan, Papist, Protestant and Patriotic, by Miss Coates, Mrs. Wright, Miss B. Everett and Mrs. F. H. Wentworth.

Last night about forty of the friends of Mrs. W. Kitchener celebrated her birthday, presenting her with many useful and beautiful presents. After a pleasant evening spent with music and games, a beautiful supper was served, shortly after which the guests departed, wishing Mrs. Kitchener many happy returns of the day.

Mark Hambourg, accompanied by his wife and daughter, Dudley Gibson, arrived in the city at noon today for his performance in the Opera House this evening. Mr. Anderson has announced that the case of the opera will be sold at fifty cents for tonight's performance. Coaches may be ordered for \$45.

Arrangements have been completed with the Amherst Ramblers to play the all-star John Mackey team in this city on Saturday, January 19. The Queen's Rink will be the scene of the battle, which should prove one of the liveliest in recent years. The locals have also matches in view with other Nova Scotia teams. The Amherst Ramblers will meet the Ramblers at Amherst.

Despite the fact that the river has been open for a number of miles, the "farthest north" trip by the newspaper men and some friends has not yet been equalled. It was on February 2nd, 1906, that the tug Lord Roberts with a boom loaded to her forecast head, took the newspaper men up river and reached a point of the Public Landing. Other attempts going up river had been made, but this was the latest date and farthest point gained.

Members of Anti-Tuberculosis Society have arranged to meet the Board of Health at its monthly meeting on Wednesday next. Full arrangements for the opening of the dispensary then be made. The board at a previous meeting granted the society the use of 145 1/2 lbs. of soap.

COUNTY COURT CHAMBERS

The case of Walter Briggs vs. Herbert Black was tried on review before Judge Forbes in Chambers this morning. The plaintiff sued the defendant who was a commissioner of highways under the old government for Westmorland Co., for \$10.85 for work and labor performed on the road in Maiden, Westmorland Co., under the old Highway Act in November, 1907. The case was tried before Magistrate Dunfield and a jury and the latter returned a verdict for the plaintiff. His Honor this morning ordered a non suit on the ground that the plaintiff admitted he was in the employ of the government, not of the defendant.

PERSONAL

George B. Hegan of M. R. A., Ltd., was a passenger by S. S. Coricain, sailing today on a trip to the carpet manufacturing centres of Europe.

Miss Mae Gleason arrived home on the Calvin Austin Tuesday, after spending a few months with her sister, Mrs. Rodney MacDonough of Brookline, Mass.

Miss Mamie O'Leary of Richibucto is visiting Mrs. Geo. V. McNerny, King street east.

W. C. Cross came in on the Atlantic express at noon.

S. F. Gerow returned on the Boston express today.

Willard F. Higgins returned from New York last evening. Mr. Higgins was in attendance at the Custom Cutters' Association International committee.

EIGHT CHARGES NOW MADE AGAINST SEAL

Evidence in Telephone Case Heard Today

Many Stolen Articles Identified by Employees—Seal Was Formerly Janitor—The Royal Hotel Case.

James Seal, charged with theft, was before the Police Magistrate again this morning on preliminary hearing. Detective Killen has no less than eight different charges of theft against the man and is producing stolen articles found in Seal's possession to prove the cases. This morning the first case to be taken up was a supposed theft from the Royal Hotel.

Frederick A. Wright, head waiter of the Royal Hotel, said he was responsible for the articles in the dining room. A silver coffee pot with "Royal Hotel" engraved on the side of it and found in the possession of the defendant, was identified as the property of the hotel. No person outside had any right to have one. The pot was worth about four dollars. The defendant had been a bell-boy in the hotel. The pot found had a damaged top and like others, had been in store-room.

The next case taken up was that of breaking and entering the New Brunswick Telephone Company's premises. Albert H. Skinner, who works in the repair department of the Telephone Company, gave evidence that he lost some articles. A combination drill case with his initials on it was identified. It was stolen about the middle of November last. He also identified a quash drill as his that had been taken about the same time. The case was worth \$4.50 and the drill \$1.50. The repair department is in the rear of the building.

Frederick T. Cerry said he was employed in the Telephone Company. The defendant worked there as a messenger boy. Witness identified a pair of pliers with two file marks on them as his, also a case of drills, a centre punch and nail set as his property. The pliers were worth \$1.25 and the case \$1.50. These articles were taken about the 12th of last November from the repair department.

Oliver D. Thompson, another employee of the N. B. Telephone Company, testified that the defendant had worked as janitor of the building. Witness's locker had been broken into and some drills and other articles stolen. Cases of tools similar to those found on defendant were taken. A small frame saw, a screw driver, a box screw driver and a quantity of tools were identified by witness as property similar to that taken from the company.

Joseph A. Byrne, in the repair department of the Telephone Company, identified the case of saws and dies, a trunk line and test set were taken last August. The test set was worth \$15 and the case of dies and saws \$7. Two screw drivers, four locks and a number of drills were identified by witness as articles similar to those taken from the company. The defendant had been messenger and then night janitor and had a key for all the rooms. The side window on the north side of the building was opened about November 12th and the articles stolen. Defendant was not then in the employ of the company.

There will be two more witnesses in the case of the Telephone Co., and then the case of theft from the Globe Laundry will be heard.

SCOTCH SAILOR WILL GO ANYWHERE BUT HOME

Magistrate Wants a Ship to Take a Whole Cargo of the Same Kind—Murphy Says He is Not the Man.

This morning in the Police Court there were two drunks, strike rans, manded to jail. One was a Scotch sailor. He got out of jail last Saturday after serving a term for drunkenness. This morning he begged to be allowed to go. He said he had a wife and five children in England, and that he had been on as a seaman on the steamer Sokoto, the Mexican liner which was to sail this morning. It was learned that the steamer had sailed about seven o'clock and as the sailor was too late he was remanded to jail. He said that he would go on any ship but one going to England, as he did not wish to return home at present in a destitute condition.

The Magistrate said it might be learned if another steamer was to leave soon for Mexico or any other place and if it would take a cargo of such people, some might be taken off Breen's corner to join the party.

Peter Murphy, who some nights ago assaulted Mike O'Brien and knocked three of his teeth out, was in court. He said that there were four in the party; that he did not strike O'Brien. They had been shipmates for two years and O'Brien had made a mistake when he blamed the defendant for the assault. The Magistrate told Murphy that he was liable to a term of two years in Dorchester. He was remanded to jail. A fine of two dollars was allowed to stand against Fred Beckwith for violating the coachmen's rules at the I. C. R. station.

SUSSEX CARNIVAL

SUSSEX, N. B., Feb. 4.—A successful carnival was held in the Alhambra Rink last night. The prize winners were: Gentlemen's best, L. C.
