ST, JOHN, N. B. PROSPECTUS

SPRING HILL MINING COMPANY I INCORPORATED UNDER LAWS OF NOVA SCOTIA, 1870, C. 72. Capital \$400,000, with power to increase to \$1,000,000. SHARES \$50.

LIABILITY OF SHAREHOLDERS LIMITED TO THE AMOUNT REMAINING UNPAID ON THEIR STOCK.

2,600 Shares are offered by public subscription. \$5 per share to be paid on application; \$15 per share on allotment, 1st July, 1872; \$15 per share on 1st September, 1872, and \$15 on 1st November, 1872; or the whole may be paid on allotment, with deduction of interest at 6 per cent. per annum, on all payments in anticipation of the date when they become due.

DIRECTORS, &c.

Hon, ALEXANDER MACFARLANE, Senator, Wallace, Nova Scotia, President. HON. ROBERT BARRY DICKEY, Senator, Amherst, N. S. CHARLES H. M. BLACK, Esq., Merchant, Halifax, N. S. LT. COL. CHARLES J. STEWART, Amherst, N. S. ALEXANDER ROBB. Esq., Proprietor Amherst Iron Foundry, Amherst, N. S. TREASURER-JAMES S. HICKMAN, Esq., J. S. Hickman & Co., Merchants, Amherst, N. S. SECRETARY-WM. J. MOFFAT, Esq., Barrister, Amherst, N. S. BANKERS-Bank of Nova Scotia, Amherst Branch; and Bank of New Brunswick, St. John, N. B. OFFICE-Mr. W. J. MOFFATS Office, Amherst, N. S.

The Company have acquired, by purchase, three leases from Government of Nova Scotia to Hon Alex. Macfarlane, of one square mile each, of the richest coal deposits in Canada, at Spring Hill, Cumberland County, Nova Scotia, renewable until August, in Canada, at Spring Hill, Cumberland County, Nova Scotia, renewable until August, in Canada, at Spring Hill, Cumberland County, Nova Scotia, renewable until August, in Canada, at Spring Hill, Cumberland County, Nova Scotia, renewable until August, in 1926 Royalty 10 cents per ton of 2,240 lbs.

Five seams and upwards, of varying thickness from 2½ to 13 feet, are known to exfive seam, and the coal yet discovered in this well known district. Of Association reserve) nearly all the coal yet discovered in this well known district. Of Association reserve) nearly all the coal yet discovered in this well known district. Of Association reserve) nearly all the coal percentage of the seam, has been proved by test pits about by a slope sunk only 25 feet from the surface, and preserving a thickness of 10 feet 1½ mile at an average of 10 feet from the surface, and preserving a thickness of 10 feet 1½ mile at an average of 10 feet from the surface, and preserving a thickness of 10 feet 1½ mile at an average of 10 feet from the surface, and preserving a thickness of 10 feet 1½ mile at an average of 10 feet from the surface, and preserving a thickness of 10 feet 1½ mile at an average of 10 feet from the surface, and preserving a thickness of 10 feet 1½ mile at an average of 10 feet from the surface, and preserving a thickness of 10 feet 1½ mile at an average of 10

beds of coal will be found in their proper position. Thus several distinct colleries may be leased to individuals or companies.

A branch railway of 3½ miles has been surveyed, and steps are being taken for its construction to connect the property by a down grade with the Intercolonial Railway, at a point 21 miles from the head of the Bay Fundy and contemplated Bay Verte Canal, and 13 miles from a shipping place at the mouth of Maccan River, half a mile from the Intercolonial, where vessels drawing 13 feet of water may load. Until the opening of the Intercolonial, between Truro and Amherst, next autumn, the coal will be hauled 4 miles to Black River Station.

miles to Black River Station.

From the nearness of the outcrop to the surface, and the seams lying on high and from the nearness of the outcrop to the surface, and the seams lying on high and descending ground, securing easy drainage, it is considered that these seams may be most economically worked. most economically worked.

The freight of a ton from the head of Bay Fundy to Boston or New York is about 75 cents less than from Pictou or Sydney—of itself a good profit, while the difference to

75 cents less than from Pictou or Sydney—of itself a good pions, whithe St. John is fully \$1.00.

The Spring Hill coal is well adapted for house, steam and smelting purposes. Situated within 37 miles by rail of the lodes of brown hematite and micaceous iron ore of the richest quality, known as the Acadia iron ore, of Londonderry, it is difficult to assign limits to the quantity of ore likely to be taken to Spring Hill, for smelting by a sign limits to the quantity of ore likely to be taken to Spring Hill, for smelting by a sign limits to the quantity of ore likely to be taken to Spring Hill, for smelting by a sign limits to the quantity of ore likely to be taken to Spring Hill, for smelting by a sign limits to the Quantity of relikely to be taken to Spring Hill, for smelting by a step will ask the Machine shops being used in the iron and steel works at Londonderry, as well as the Machine shops being erected for the Government railways at Monoton.

The portion of the Intercolonial between Truro and Amherst is now being ballasted with engines driven by Spring Hill coal. It is understood that the line between Truro and Newcastle, if not the whole line to St. John, a distance of 280, miles will shortly and Newcastle, if not the whole line to St. John, a distance of 280, miles will shortly be worked in the same way, and the local demand between these points, already large, is steadily increasing.

Vessels bringing flour from the St. Lawrence to St. John, Yarmouth, and other Vessels bringing flour from the St. Lawrence to St. John, Yarmouth, and other lower ports. through the Bay Vorte Canal, when completed, may have return cargoss of coal to Quebec, Montreal or Toronto.

From all these sources of traffic, in addition to the Western part of Nova Scotia. The New England ports and New York, it is assumed that an unlimited market will be afforded.

afforded.

Additional means of shipment will be afforded by the contemplated railway to Parrsboro—a port open at least ten to eleven months in the year—for which the Nova Scotia Legislature have provided large subventions.

The estimated cost per ton for raising, handling, and putting on board ship, say at mouth of Maccan river, is about as follows:

Cutting and raising, including weighing, screening, &c...... 65 cents. Railway transportation, loading and royalty.....
 Cost on board...
 \$1.10

 Freight to St. John...
 1.20

If Pictou and Sydney coal can be shipped to Boston and New York at paying prices. it cannot fail to be highly remunerative to send a better article from Spring Hill, with an advantage of 75 cents in freight. The local traffic would yield a high rate of profit.

Taking the low average of only 80 cents per ton, inclusive of repairs of machinery, &c., and assuming only 100 000 tons as the annual production at first, we have a gain of 20 per cent. on the capital, which might be much augmented by the rent of other seams, as suggested. From the exceptionally high character of this coal, and the facilities for raising it cheaply, this quantity, it is confidently believed, might ere long be doubled or trebled, and a large rate of profit secured even with considerable increase

TESTIMONIALS.

Extracts from Reports of Messrs. Woodhouse and Jeffcack, Mining Engineers, London and Derby, G. B., (January 2, 1866) The Coal Field which we have carefully examined, and which is the subject of this Report, is situate in the county of Cumberland, in the province of Nova Scotia. It is generally described as the "Springhill 'Coal Field, but in redity it is a part of the great Cumberland Coal Field.

The first or upper seam we found to be a bed of remarkably good coal presenting a vary

sit. and shall seem of coal at Springhill will afford suitable fuel for smelting the iron—not con sit. The main seam of coal at Springhill will afford suitable fuel for characteristics of the coal are, it oning an excess of ash, and free from "but" and dirt, often associated in the seam, and a densit is the professional for the coal are, it is strength of structure which suits either for coking, or, we think, for use raw in the blast attength of structure which suits either for coking, or, we think, for use raw in the blast attength of structure which suits either for coking, or, we think, for use raw in the blast attength of structure which suits either for coking, or, we think, for use raw in the blast attength of structure which suits either for coking, or, we think, for use raw in the blast attention of the seam of the Canadian and Scotch Extracts from Report, in 1869, of the late Mr. Ed. Hartley, F. G. S., of the Canadian

The analysis shows this coal to belong to the class known as highly bituminous, or fat caking is, in character very similar to those of the North of England, known as North Country or veastle Hartley Coal. The high rate of volatile to fixed combustible matter should render coal, in common with the Newcastle coals which it resembles, an admirable gas coal, while he amount of sulphur it falls much below the average of Newcastle coals (which contain about be enthalfolded on the coal section of the coal appears in every way adapted from it should be very easily purified. The coke of this coal appears in every way adapted from sulting. (See Canadian Geological Survey Report, 1870.

'See Canadian Geological Survey Report, 1870.

'Forwarding Mr. Hartley's a. alysis, Sir W. E. Logan writes, 9th June, 1869: "You will obtain it is superior to any of this continent yet known. It is superior, too, to the average of reastle coals, and very nearly equal to the best."

Extract from Report of John Rutherford, Esq., M. E., late Inspector

miles.

"The main seem, or what is supposed to be the main seem, has been traced for a distance exceeding one mile and a half in a northerly direction, on the MacGarlane areas."

In Professor Selywyo's, F. G. S., Report laid before Parliament, Session 1872, he thus refers to In Professor Selywyo's, F. G. Secretary Building Committee. july131w United States Hotel, (Formerly St. John Hotel.)

AVING been thoroughly repaired and refitted, is now opened for the accommodation of Transient and Permanent Boarders, under a new and superior management.

It is beautifully located, in one of the finest
and most healthy parts of the City, being on the
corner of King and Charlotte streets, directly
opposite and commanding a full view of King
Source. It is the centre of business, and only a
few minutes walk to all the Rail Road Stations
and Steamers in the city.

The house having received all the modern improvements, and been elegantly turnished, no
labor or cost will be spared on the part of the
Proprietor to make it one of the best hotels in
the city. july13 tf Moulders Facing and Tools.

july10 news gibe tel fm Nursery Rhymes, No. 11. Y: is an antiente mariniere,
And he stoppeth one of three;
By thy long grey beard and glittering eye,
Now wherefore stopps't thou me?
Still, in thy hand I'd understand
Why should that bottle be? PEOPLES' LINE. Fredericton, Woodstock & Grand Falls "The bridegroom's doors are opened wide,
And I am next of kin;
The guests are met, the feast is set,
May'st hear the merry din.
So, quick, I pray, thou'lt say thy say
And let me enter in." A BOAT of this line will leave Fredericton daily (Sundays excepted) at 6 o'clock a. m., for the obove named places and intermediate landings.
Returning, a boat will leave Tobique every day, (Sundays excepted) at 2 p. m., and Wood stock at 9 o'clock every morning.
All Way Freight must be prepaid unless acompanied by the owners, and will be at the owners' risk when lett.
A boat will run to Grand Falls whenever sufficient Freight is offered.
This line connects at Fredericton with the Union" and "Express" Lines of Steamers for Saint John.
S. H. L. WHITTIER, He holds him with his glittering eye,—
Ye wedding guest stood still,
And listens like a three year's child,—
Ye mariniere had his will;
"Me friend," swith he, "this remedee
Will Rheumatism kill." Ye wedding guest sat on a stone, He cannot choose but hear, And thus spake on that antiente man, Ye bright eyed mariniere: "Neuralgia, too, and Tie Doloreaux, It causes to disappear. S. H. L. WHITTIER, "Tis a capital oure and always sure,
All others must go to the wall,"
(Now yo wedding guest had a pain in his ches',
The result of a dangerous fall),
So without any fuss, he pulled out his puss,
"Your stock—I will take it all." UNION LINE For Fredericton. ...\$1.50 Ye mariniere whose eye is bright,
Whose beard with age is hoar,
Iscone: and now ye wedding guest
Turns from ye bridegroom's door,
And in jigs and reels he kicks up his heels,
For his aches he feels no more.

Government Savings Banks UBLIC NOTICE is hereby given that Government Savings Banks will be opened of let of July, 1872, at the undermentione faces in the Province of New Brunswick, and charge of the following agents:— . HICKMAN, ESQ., - - - DORCHESTER, JAMES A. GRANT, ESQ., - ST. STEPHEN. The offices will be open from 10 A. M. to clock P. M., daily. Further information may explain the agents.

By order of the Minis er of Finance,
THOMAS D. TIMS,
Financial Inspector,
Saint John, N. B., 4th June, 18:2. Ayer's Cathartic Pills,

whole machinery of hie restored to its meaning activity. Internal organs which become clogged and sluggish are cleansed by Ayer's Fills, and stimulated into action. Thus inciplent disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation. without disturbance to the constitution, or diet, or occupation.
Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these Pills rapidly cure:—
For Dyspepsia or Indigestion, Listlessness, Languor, and Loss of Appetite, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.
For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Cold and Billious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it. diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhees, but one mild dose is generally required.

For Eheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back, and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression, a large dose should be taken, as it produces the desired effect by sympathy.

taken, as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. PREPARED BY Dr. J. C.
