REGULAR MEETING OF TOWN COUNCIL

Small Amount of Business For
The Attention of the City
Fathers on Tuesday

A meeting of the Town Council was
held in the Council Chambers on Tues-
day evening, His Worship Mayor An-
drew presiding. At the beginning of
the session there were present Coun-
cillors Patterson, Miller, Alexander
and Goss.

The minutes of the previous meet-
ing were read and confirmed.

The following reports from the
standing committees recommending
payment of accounts were received
and adopted.

Public Property and Streets \$233.78
Finance 26.54
Water and Sewerage 1142.51
Fire Protection 42.62
Police and License 110.92
Councillor Patterson from the Pub-
lic Property and Streets Committee
presented the following report with
regard to complaints on the dumping
ground.

The Public Property and Streets
Committee respectfully submit that
they have had under consideration the
communications from the Fishery Of-
ficers re dumping ground and Council
report that they had interviewed Mrs.
Nelson with regard to securing extra
ground from her, and she has agreed
to give the town a fourteen foot strip
of land along the entire frontage of
her lot for a roadway to allow of us-
ing the shore for a dumping ground,
which will serve for a number of
years to come. On account of this
extra ground, no crib work will be
necessary. We would recommend that
this offer be accepted, and that the
Town Solicitor be instructed to draw
an agreement to be signed by Mrs.
Nelson and the Mayor and Town
Clerk.

The report was received and adopt-
ed.

With regard to the above report the
clerk was instructed to write the Fish-
ery Officers stating what steps had
been taken to meet their wishes.

In reply to a question Councillor
Patterson said that he was afraid ow-
ing to the scarcity of money, the ques-
tion of raising the sidewalk on Ger-
ard Street would need to lie over for
another year.

A request was received from the
Electric Light Committee for a shed
for the use of the manager and the
department for storing supplies, etc.
This would only cost in the neighbor-
hood of \$200 and was now required as
all the supplies had in the past been
kept in the old power house, which
was now dismantled. The matter was
left in the hands of the committee to
procure a suitable building.

Councillor Alexander brought up
the matter of the claim of Mrs. John
Ward against the town for damages
owing to the flooding of her cellar last
winter. According to a ruling in law
the Town Solicitor stated the town
was not liable in damages, but the
Committee felt that there was certain-
ly some damage done, and they were
willing to offer Mrs. Ward the sum of
\$80. The Town Solicitor drew up a
resolution embodying this offer, which
was in no way a precedent, and the
resolution was adopted by Council.

For the Convention of New Brun-
swick Municipalities which will be held
this year, His Worship the Mayor, and
Councillor Alexander were appointed
delegates.

In reply to Councillor Goss, the
Town Engineer stated there were two
sewer pipes going in on Lansdowne
Street, the large 16 in. pipe being the
storm sewer and was not in his opin-
ion too large for the volume of water
which is drained from this district.

In reply to Councillor Alexander's
question regarding the proposed in-
crease in the fire insurance rates, His
Worship stated that he had written
the Secretary of the Board of Fire
Underwriters asking him to call the
matter off, owing to the war, but he
had received no reply so far.

The Council then discussed the mat-
ter of raising the sidewalk on Gerard
Street, but as the Committee had not
had an opportunity of looking over the
plans prepared by the Town Engineer,
nothing was done in the matter.

Council then adjourned.

GERMANS GAINED GROUND ARE ENTERING BRUSSELS

Report Says They Have Switched Their Attack From
the South Which Was Strongly Guarded and
Are Pushing on Towards the North.

(Special to the Graphic).

St. John, Aug. 20. (2 p.m.)—
Reports were received here to-
day from Belgium that the Ger-
mans lost 6,000 men in engage-
ment near Charleroi.

A report has been received
here that the Germans entered
Brussels this morning, but this
has not been confirmed.

London, Aug. 20.—It is official-
ly reported here that the Ger-
mans have crossed the River
Meuse with a large force, at a
point between Namur and Liege,
and that the French troops are
advancing to meet them along
Selle River. Last night the
French advanced as far as Del-
mon on one bank and Mor-
bigne on the other.

Brussels, via Paris, Aug. 20.—
The Germans have gained
ground on both banks of the
Meuse and are in contact with
the allied forces. German ad-
vance guards discovered routes
to the south strongly guarded
and finding opening to the north,
they pushing their advance that
this will cause a change of
tactics probably on both sides.

(Special to the Graphic)

St. John, Aug. 20th.—From reports
here it would seem that yesterday was
a good day for the Germans in Bel-
gium, but no particulars of fighting
have been given out.

Louvain, twenty miles north of
Brussels is still held by the Belgian
army, while the allies hold the
line from this point south to Namur.
Germans claim a victory in Russian
Poland, and an advance of from forty
miles to the eastward.

The governor of Kiau-Chau is pre-
paring for an early attack by the Jap-
anese troops.

London, Aug. 19.—The German ad-
vance began in force last night along
the entire battle front from north of
Louvain to Dinant south of Namur, on
the left bank of the Meuse.

The German cavalry and artillery
attacked at Dinant, and were beaten
back.

The German artillery at Tirlemont
covered the advance of huge masses
of infantry, but the Belgian forces left
their entrenchments and drove them
back.

The result around Louvain is un-
known, but it is believed the Germans
there were also held in check by the
Belgian army.

The Belgian Legation at London of-
ficially denies the report that the Bel-
gian capital has been taken.

The French army of the Lorraine
has occupied Saarburg and Pfalsburg,
eight miles northwest of Saarburg,
German divisional point west of
Strasbourg.

The French now command the Ger-
man lines of communication between
Strasbourg and Metz, on the north-
west, and threaten the rear of the
German armies of the Moselle and the
Meuse.

The Germans have fallen back upon
Zabern, which commands an important
pass through the Vosges mountains to
Strasbourg.

The French army of the Vosges is
continuing its advance northwards
through upper Alsace towards Strass-
burg, and is steadily forcing back the
German defense.

Paris, Aug. 19.—A rumor has reach-
ed the war office that the Belgian
army is retreating from Louvain and
Brussels to Antwerp.

Paris, Aug. 19. (10.50 a.m.)—An of-
ficial announcement this morning says
the retirement of Belgian troops to-
wards Antwerp is rumored, but not
confirmed.

London, Aug. 19.—The Belgian leg-
ation denies the report of the fall of
Brussels. A heavy battle is going on
just east of the Belgian capital.

BELGIAN POSITION STILL GOOD
Brussels, Aug. 19.—"Brussels has
not fallen, but heavy fighting is now
proceeding east of the capital and the
guns can be heard here in one contin-
uous roar. It is evident that the Ger-
man centre is making an attack in
force on the allied lines guarding the
frontal. No indication of the trend of
battle is yet available, but the allies
are offering a desperate resistance, it
is stated, and there is complete confi-
dence here in their ability to hold back
the German advance."

Brussels, via Paris, Aug. 19 (12.45
a.m.)—It is officially announced that
the situation of the Belgian army con-
tinues excellent. While it is impos-

ible to indicate the position of the
troops, says a statement from the War
Office, it may now be said that there
is no chance of any incursion towards
Brussels. No Germans are in or
around Laden. German cavalry camps
are in the Gembloux region, but there
is no movement of troops in that dis-
trict.

PUSHING BACK ADVANCE POSTS

London, Aug. 19.—(2.30 p.m.)—
A despatch to the Reuter Telegram
Company from Brussels says the Ger-
man advance posts, covering the re-
gion between Gembloux and Jodogne,
are being gradually pushed back be-
fore the advance of Belgian and
French forces. The Belgian and
French are now in close conjunction
and in contact with the advance lines
of the German army.

London, Aug. 19 (1.20 p.m.)—The
Central News publishes a despatch
from Rome saying that the German
gunboat Vaterland has been forced to
disarm at Nanking, China.

BIG DEMAND FOR GOV'T PUBLICATION

Requests Received From all
Quarters for Valuable People's
Railway Publications

Included in the large mail that
reaches the General Offices at Mon-
cton, requests for the various pub-
lications issued by the Railway bulk
large these days. So insistent has
been the demand that a reprint of this
year's issue of "Storied Halifax," "St.
John, the City of the Loyalists," "The
Garden of the Gulf" and "Bras d'Or
Lake," has been necessary.

Requests have been received from
many quarters of the globe, the Brit-
ish Isles, India, China, from nearly
every state of the Union and every
Province of the Dominion, and some of
these letters are not without their
amusing and occasionally pathetic side.
One applicant went to the trouble of
actually reproducing the Railway's
magazine advertisement in detail, even
to the drawing of the Moosehead trade
mark, and the various rules used to
make an attractive display. Another
excused himself for writing with pen-
cil as he had been an invalid for years
and could not use a pen. But here is
the gem of the season, written by a
young lady to her mother. Reminis-
cent of Pickwick papers in its frequent
reference to the inner man, and Alfred
Jingle in its method of description; it
also recalls Oliver Twist and his al-
leged insatiable appetite:

"Summerside, P. E. I.
Dear Mamma: Arrived here safely
Monday night. Boat very late, not
the least bit seasick. Ate a big sup-
per on the boat, and then ice cream,
lobsters and chocolates on land.
This is a swell place. Am just dying
to get home to tell all about it. Were
out to four fox ranches this morning.
I got a date with a caretaker to take
some snaps of the foxes at feeding
time.

There is a family here from Ontario
Classey, educated, money, Nice, but
with the greatest thirst for informa-
tion I ever saw. Tell Papa for good-
ness' sake to send over some of that
I. C. R. literature. The father would
simply devour it, the girls go into
spasms, and the mamma would say
very lovely."

We were out to an Island tea about
six miles from here this afternoon.
Fellow took us out. Name, "Ben
Bol." He stayed for tea, but we could-
n't be bothered with him after the
drive was over, so left him in the par-
lor with the "Missus", and are in our
rooms writing letters. Am enclosing
stamps for the literature. I have
told him all I know and need assis-
tance. Needless to say the railway
rendered first aid.

The following was overheard dur-
ing the checking of tickets on a big
excursion train in the East of Scotland
the other day.

One of the collectors was much im-
pressed by the numbers of excursion-
ists travelling with a special brand of
juvenile ticket. Most of them appear-
ed to him to be considerably over the
age limit, but in the haste there was
no time to call for birth certificates.

At length he came to one case he
thought he could hardly pass, a "raw
lump of humanity" extending to some-
thing like six feet.

"You should have an adult ticket?"
"No he's just an apprentice," broke
in some of the others from the South.

"Dear me," said the collector, with
resignation, "I was going to ask if he
had the wife with him!"

A PICTURE OF THE BEAUTIFUL
QUEEN AMELIE OF PORTUGAL.

Queen Amelie, of Portugal, has vol-

her offer having been accepted. It is
probable that the widow of the slain
Portuguese ruler will be attached to
the staff of Devonshire House.

Men of F. Coy. Accepted For
Foreign Service Will Return

F. Company of the 73rd Regiment
can hold up its head with any of those
in the province. A large proportion
of the Company all volunteered for
active service, as well as the officers
and the following names are those
who have been accepted.

The first ten left on Tuesday by the
Limited for Chatham and all the vol-
unteers will return tonight on the
Limited, breaking their journey here
and going on to Quebec by the Limited
tomorrow, Friday night. A spirit of
splendid enthusiasm and earnestness
prevades all the company and as a
body will give a good account of them-
selves. All the officers of F. Coy.,
Capt. LeBlanc, Lieuts. Lockhart, Fer-
guson, and Archer have volunteered
for service as well as Capt. McKenzie,
Adj. of the regiment, but it is not
known yet how many of the officers
have been accepted, although it is un-
officially announced that Lieut. Lock-
hart will go in command of the com-
pany.

In addition to the names given
above

Guy Lutes
Alfred Gillis
and a number from Dalhousie will al-
so be on the roll of honor, and at this
time, we think that these men deserve
a little more of this town than a mere
word of thanks. They have volunteer-
ed for the defence of the empire and
incidentally for the safety of our own
Dominion, our own province, and our
own town, and the time is not inoppor-
tune to extend to these valiant
souls the freedom of the town. Some
celebration should be gotten up for to-
morrow afternoon and following the
lead of other towns, make them a pre-
sentation of some kind. They could be
entertained by the Council to-mor-
row afternoon and presented with a
sum of money, or could be made a
burgess of the town which carries
with it freedom from taxation for all
the time they may reside here, or some
other scheme could be made to show
the appreciation of the people for the
self sacrificing spirit shown by these
volunteers. Perhaps the Mayor and
Council would move in this matter
first, and there is no doubt but the
citizens would gladly fall in with any
proposal by them.

LUMBER MILLS ARE CLOSING
(From the Gloucester Northern Light)

The effect of the war upon the lum-
ber trade is noticed in the report that
some of the St. John mills will be shut
down in a day or two because of no
market offering for the lumber. It is
reported that the Miramichi mills are
also closing.

FARMER'S WIFE ALMOST A WRECK

Restored to Health by Lydia E. Pinkham's Vegetable Compound—Her Own Story.

London, Ont.—"I am a farmer's wife and a very busy woman. Last summer I was taken with severe pains in my back so bad that I could not get up or scarcely move without pain, and my periods were painful. My husband called in a good doctor and I was under his care for some time, but he did me little or no good."

One day a friend of mine told me to try Lydia E. Pinkham's Vegetable Compound as she had been greatly helped by it. I began taking it and soon got well, and my periods became natural again. Since then I have had perfect health. In fact I have never felt so well in my life. Lydia E. Pinkham's Vegetable Compound is a medicine many women need. If you think this letter will help other women please publish it."—Mrs. K. C. Young, Tumbler's Corner, London, Ontario, Canada.

Women who suffer from those distressing ills peculiar to their sex should not doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

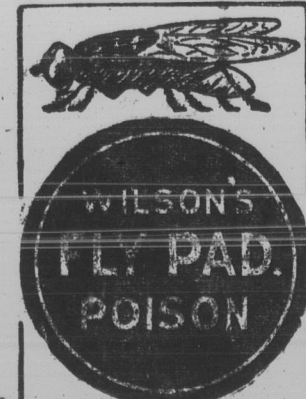

A LOYAL PEOPLE

Throughout this Dominion it is generally recognized that when Great Britain is at war Canada is at war also. That sentiment has been voiced in Parliament on more than one occasion and is thoroughly believed in by the mass of the people. It is well to the front today. The possibility that the United Kingdom might be driven to take up the sword has been talked about on the streets of this and other Canadian cities during the last few days and the people are of one opinion. That opinion is that Canada will do her duty. In the armies, in the streets, and in the homes the same conclusion was reached. Canadians know that Great Britain is a peace-loving country that seeks to deal honorably with other nations. They know that she would not engage in war unthinkingly or vainly gloriously, but only as a last resort when all honorable attempts to preserve peace had failed. They have seen in the present impasse the sovereignty and his ministers doing their utmost to make the European antagonists realize the folly and wickedness of plunging into a tremendously costly war at a time when the world is suffering the effects of war recently ended. They know that if war has come to Great Britain it was not of her seeking. That knowledge will make Canadian doubly anxious to help the Mother Land in defending her rights. The unfortunate hour has come when the United Kingdom is drawn into the maelstrom and there will be a united Empire behind her. Canada at least will not be found wanting in the hour of peril. Her people are willing to fulfill their obligations.

NOT YET REACHED AN UNDERSTANDING

Tokio, Aug. 14.—Japan and Great Britain, it is said, have not yet reached an understanding concerning Japan's attitude in the war. Lengthy communications have passed between Tokyo and London defining Japan's status in the European peace conference at the conclusion of the war.

"What a row your children make! Where is their mother?"
"She's gone to attend a meeting on the duties of women."

Every ten cent packet will kill more flies than \$8.00 worth of any sticky fly killer. Refuse substitutes, which are most unsatisfactory.

GERMANY CONTINUES TO ADVANCE SLOWLY

London, Aug. 14.—11 p.m.—Pressing forward by weight of numbers, the German advance across Belgium is slowly, but steadily proceeding, and soon must come in contact with the allied armies which, according to an official communication from Brussels tonight, are in battle array as some point unnamed.

The Belgians in the outpost skirmishing, are said to have inflicted severe checks on the German forces, but on the whole the German wing has kept on its way and has reached a line from north of Namur to Haelen, which suggests that the first big battle will be fought somewhere between Louvain and Dieste, where the allies will probably try to hold the roads to Brussels and Antwerp, and prevent the German attempt to render northern Belgium untenable.

Further south, French troops have entered Belgium through Charleroi, going to the relief of their neighbors, the Belgians, and to aid in any attack directed towards Namur.

In the east the French are reported to have secured possession of ridges in the Vosges mountains, and to hold the passes of Le Hohomme and Saint Marie au Mines, through which important roads pass, and which it is declared gives them great strategic advantage.

GERMANS STILL HAM- MERING LIEGE FORTS

London, Aug. 14.—Reports from Brussels received this evening, say that the Germans are again hammering away at the Liege forts without success. Siege guns have been placed and it is expected that eventually the forts will be forced to surrender, but the delay to the German advance is serious as the Russian armies are already near the German eastern frontier.

GERMAN FLEET HAS BEEN BOTTLED UP

British fleet in the far east has succeeded in cornering the German far-eastern squadron. Atlantic trade routes are clear. No news from North Sea.

GERMAN ARMY BEING HARASSED IN RETREAT

London, Aug. 14.—Exchange Telegram from Brussels says that the right wing of the German army is still retreating harassed by the Belgian outposts. During the night a number of skirmishes accentuated the German retreat.

CANADIAN ARTILLERY BRIGADE AWAY FIRST

Ottawa, Ont., Aug. 14.—Details of the artillery division of the Canadian expeditionary force, have been announced. It will consist of three brigades of eighteen pounders guns, with one heavy battery of four sixty pounders in addition.

The total force will be twenty-three officers and 772 men and 746 horses for each brigade, making a grand total of 69 officers, 2316 men and 2132 horses for the three brigades.

NO GENERAL ACTION YET UNDER WAY

London, Aug. 14.—The great battle impending between the Germans and British, French and Belgian allies has not started.

That the advance guards are in contact, is evidenced by the reports of serious engagements at points, perhaps the most important at Haelen, where the Belgians, supported by the French and possibly by the British, inflicted a crushing defeat on a German cavalry corps of 10,000, killing and wounding fully one quarter of the enemy. The Germans retreated in confusion to Tonges.

Italy has mobilized 250,000 troops on the Swiss and Austrian frontiers, as a precautionary measure. All the passages over the Alps are strongly held.

FRENCH HOLD ALL IMPORTANT PASSES

Paris, Aug. 16.—Strong French forces are now in possession of all the passes of the Vosges mountains, from the west, as far as these leading down to Colmar. Further south, French forces are ready to proceed over the flat country toward Meuseaux.

The French have taken the offensive along the line from Lunéville to Verneburg on the German frontier but here, as in the other theatres of war, the main armies have not come into contact.

FRENCH CAPTURE MANY GERMAN TROOPS

London, Aug. 17.—Official bulletin says French troops in their rapid course along the Valley of the Schirneck have taken a thousand prisoners.

DECLINE PRESIDENTS OFFER OF MEDIATION

Washington, Aug. 17.—Great Britain, France, Austria and Germany decline president's offer of mediation.

VEIL OF SILENCE OVER THE NORTH SEA

No serious fighting reported today. No news from North Sea. Official statement issued at Paris, of French successes in Vosges Mountains, Alsace. Entire German division surrendered.

British forces have joined French, in place not indicated.

Despatch to London paper from West Hartlepool says Captain of steamer there declares he passed 7 sunken German ships off Spurhead entrance of the Humber. Masts were visible above water. Brussels despatches say Germans lost 3,000 men in this victory was provided by successful battle of Haelen. Belgian losses small. Engagements, nine miles north of Namur. Proving that the Germans are retreating thither and that the allies are pushing ahead. Brussels is no longer in danger.

MARTIAL LAW IS NOW PROCLAIMED

London, Aug. 14.—What practically amounts to martial law was proclaimed this morning by a special issue of the London Gazette which gives a long list of new rules for the public. Under these private persons may not light a fire on a hill; may not spread alarming reports; must, if ordered, keep indoors at specified times; must, if ordered, keep all lights out. The authorities may order the destruction of any house or property and finally, the power of court-martial is given the authorities in certain cases.

BLOWN UP BY FLOATING MINE

Trieste, Aug. 14.—It is officially announced that the Austrian-Lloyd merchant liner Baron Gautsch struck a floating mine off Lussin, Dalmatia, and was destroyed. Twenty of the crew were killed and the remainder, 130, were saved.

WOUNDED TROOPS ARRIVING IN ENGLAND

A number of wounded troops have arrived at Southampton from Belgium and although their nationality has not been made known it is supposed that they are British.

Austrian troops have entered Russian Poland, where German troops also have been engaged, and Russian forces have captured the Austrian town of Sokal, in Galicia, by assault; two regiments of Austrian Cavalry were annihilated by Cossacks.

JAPAN ANXIOUS FOR THE FRAY

London, Aug. 14.—There is every indication that Japan will declare war on Germany. Long cablegrams are being exchanged between Japan and England, and are believed to relate to Japan's status in the division of spoils if she joins the fight and Germany is whipped.

DELAY A SERIOUS MATTER TO GERMANS

London, Aug. 14.—Military strategists are of the opinion that the Germans are meeting with delay, which they did not count upon, and that every day the Belgians keep them fighting, means an increase of Russian forces on their eastern frontier.

They express the belief that unless Germany soon disposes of Belgium and France, she will have to choose between withdrawing a great part of her army from the west or leaving the road to Berlin open to the forces of the Emperor of Russia.

Already herds of Russians are reported to be marching towards Prussia on one side and to Austrian Galicia on the other.

GERMAN ADVANCES STILL PROCEEDING

London, Aug. 16.—Despite the repeated repulses which they have suffered, the Germans battalions continue to move forward for a decisive encounter which cannot be delayed much longer. While there has been a lull in the fighting in Northern Belgium, the invaders are sweeping along the Valley of the Meuse, south of Namur and have reached Dinant, where part of a strong French force, which is established behind that town, took the offensive and defeated them.

FRENCH WARSHIP SINK AUSTRAINS

London, Aug. 17.—Naval battle between French and Austrians in Adriatic on Sunday two Austrian Iron-clads were sunk, one set on fire and a fourth escaped.

SIX MEN INJURED

It is supposed that a German brakeman on a construction train working on the new line between Derby Junction and the Miramichi, deliberately planned to kill a large number of Russian employees working on that construction. The gang was working on a fill, when the German drew the coupling pin on five cars of gravel, allowing the cars to run down a steep grade to where the men were working on the trestle. Most of the men were able to get clear, but six were injured, one seriously.

WHY CANADA SHOULD BE CONFIDENT

In view of the events taking place in Europe, which will constitute an epoch of perhaps unprecedented importance in history, we appeal strongly to all Canadian business men and all who hold securities or investments of any kind to meet the present situation with calmness and confidence. Our first duty, at any cost, is to aid in Great Britain's sustenance and defence, and our next duty, not less important, is to keep the business of the Dominion moving as normally as possible.

Let it be remembered that while we must lay aside something to pay our share of the cost of the war, we have at our back storehouses of natural wealth scarcely yet touched. As the calamities of Europe place a higher value on our wheat and other exportable crops, so will the same calamities—the result of military operations—make the peaceful land of Canada more attractive to some of the best people of Europe whose hopes and lands have been despoiled or devastated by war. At the present instant Canada stands practically immune from the physical menace of war; our fields are giving their wealth to the harvester, and our other resources are yielding their bounty in greater proportions than ever. Wealth production is proceeding, and the opportunities for still greater primary production are not diminishing. This continent, including Canada, will profit largely and speedily by the changes in the world's currents of trade during the war. Many of our factories will find demands upon them stimulated because of restriction placed upon the productive machinery of Europe by the exigencies of

war, and though for a time in diminished quantities, a fair proportion of Britain's available capital will come to Canada for investment. Under the circumstances, therefore, the one great essential to keep business moving is confidence, and Canada, probably of all nations of the world, has least excuse to offer for any lack of it.

"In the unprecedented and critical situation that exists," says Sir Geo. Paish, "it is of the greatest importance that everyone should endeavor to act as if great events were not impending. Were confidence seriously disturbed, business would come practically to an end, and our ability to face the difficulties that may be in front of us would be seriously injured. Therefore, it is of vital importance that, as far as possible, the events that are now taking place should not interfere with the daily life and the daily work of the nation. Orders should be given, factories should be run, and every thing should be arranged to maintain, as far as possible, the productive power and the income of the country."

"But for this" to be accomplished, the situation must be faced with courage and confidence on the part of everyone. Investors must continue to invest, bankers must continue to lend, the Stock Exchange must continue to deal, and every one according to his ability must endeavor to work hard in order that individual incomes, and therefore the income of the whole nation, may be maintained at the highest possible level.

"A little over a century ago, when the nation was at war with Napoleon, its income was a very small one, being less than one-eighth of what it is at present, and in a comparatively small space of time the British people succeeded in raising about \$1,000,000,000 of money for war purposes, and so great was their confidence and courage that at the end of the great war, which severely taxed their resources, they were stronger and wealthier than they had been at the beginning."

Canada's natural resources are as yet barely touched. From any temporary lull in our progress, from whatever cause, we can, therefore, recover our feet more quickly than did the Motherland after her world struggle of a century ago, if our people are of the same heart and industry, and we are confident they are. Courage in the fight for the Empire is not more necessary than courage in the maintenance of the industry and commerce of the country.—Financial Post.

A PATRIOTIC DUTY

Merchants and manufacturers should keep constantly in mind the fact that war imposes on them a duty

not less patriotic, not less important than that devolving on the younger men who must form the bulk of those in the fighting line. A cheerful optimism is one of the most sacred obligations of the moment. The present is not the time to shut down factories, to close up enterprises and cut off the incomes of the bread winners. A sane realization of the seriousness of the situation should convince those who control industrial and commercial enterprises that it is a duty to keep going as long as it is possible to do so. Money earned in times of commercial prosperity cannot be put to any better use than giving employment in times of distress to those who helped create it. No time can better teach the lesson than war time.—Ex.

WHERE IS CALLAGHAN?

Since the first news was received here that Admiral Jellicoe had succeeded Admiral Callaghan as head of the North Sea fleet, many rumors and surmises have been afloat as to what his change really did mean. Many are of the opinion that the unconfirmed report of the Battle in the North Sea, where seventeen German warships were destroyed and a number captured was true, and that the loss of six British ships included that of the flag ship Iron Duke and the death of Admiral Callaghan.

Although anything may happen in time of war, we believe this is too pessimistic a view to take. While the censorship of news has been most strictly applied, the press news bureau of the Government in Britain would not permit the publication of a crime of keeping hid the fact of the loss of ships and consequent fatalities. In fact the whole thing points the other way. When the Admiralty was sure by striking a mine the News Bureau gave out the name of the only officer lost, Paymaster Gedge, and the number of seamen (195) lost. The press news bureau exists not for the purpose of withholding news, but for the purpose of giving correct official reports, and their official report says "there has been no battle in the North Sea."

We certainly chafe at being kept so much in the dark, but we can rest assured that whether we win a battle or lose it the correct news will be given us by the press bureau and nothing withheld. We perhaps may be inclined to be optimistic in this naval affair, but it is just as possible to think of Admiral Callaghan being entrusted with some battle squadron, away in some other part of the globe, perhaps landing troops in German East Africa, or rounding up all the German merchantmen from the Mediterranean to the Indian Ocean.

We don't know and no amount of speculation will help. Let us keep calm and patient, resting assured that when the naval battle does come off, we shall hear in no uncertain tones which way it went.

There is a popular delusion that "war time" is good for newspapers. Nothing could be more erroneous. It seriously increases the cost of news gathering, and it brings no compensating return in revenue in these days when the price paid by the public for the paper frequently does not cover the cost of the "cheerful paper" alone. Yet competition compels every paper that would keep the field to spend money like water to get all the news possible.

CANADIAN FORESTRY CONVENTION

Owing to the war the President and Directors of the Canadian Forestry Association have, after the most careful consideration, decided to cancel the arrangements for the Forestry Convention which was to be held in Halifax, Sept. 1st to 4th, 1914, and to postpone the Convention indefinitely. Whatever it is decided to do in the future, due notice will be given thereof to the members and all others concerned.

Attention is particularly directed to the fact that all railway arrangements as published have been cancelled, and that anyone going to Halifax within the stated dates will have to pay full fare back to starting point. All persons receiving this notice are requested to make it known to any others who they know were preparing to go to Halifax.

THE RECKONING

Ye who would reckon with England—
Ye who would sweep the seas—
And Nelson flung to the breeze—
Count well your ships, and your men,
Count well your horse and your guns,
For they who reckon with England
Must reckon with England's sons.

Ye who would challenge England—
Ye who would break the night—
Of the little isle in the foggy sea
And the lion heart in the fight—
C. O. well your horse and your swords,
We'll, well, our shot and guns,
For they who ride against England
Must sabre her million sons.

Ye who would roll to warfare,
Your herds of peasants and slaves,
To crush the pride of an Empire
And sink her fame in the waves—
Test well your blood and your metal,
Count well your troops and your guns,
For they who battle with England
Must war with a Mother's Son.

RAILWAY ACCIDENT
Last Friday morning Duncan Dugan employed at Mowat's mill, met with an accident at the railway crossing there. He was crossing the track with a sloven load of shingles, when unperceived, the Ocean Limited caught the rig, badly damaging the sloven. Dugan was thrown a considerable distance and had one leg broken and other injuries. The horses escaped unhurt, and it is a wonder that Dugan was not killed.

VALCARTIER CAMP IS NOW READY FOR TROOPS

Ottawa, Aug. 19.—All is in readiness now to receive the Canadian contingent of 25,000 troops at Valcartier Camp and orders were issued last night by the Minister of Militia, to all commanding officers throughout the Dominion to entrain on Thursday morning for Valcartier Camp. Thus Canada's war machine, the biggest of its kind in the history of the country will be set in motion and infantry, artillery, army service corps, a sprinkling of cavalry and all the numerous auxiliaries that go to make up an army division will stream into the Ancient Capital and thence to Valcartier.

Col. Sam Hughes refrained from issuing this order before, until the necessary water supply was ready and its purity guaranteed. There is now as pure a water supply as can be obtained in the Dominion controlled by Dr. Naismith, of Toronto, an expert water analyst, with a staff of assistants will make tests every day.

WAR AND SICKNESS

DURING A TIME OF PEACE,

WE FEEL IT OUR DUTY TO ADVISE THE PUBLIC

that all Drugs have been advanced 25 to 50 per cent. by the wholesalers and jobbing houses throughout Canada. The public, especially those who are sick, will suffer the most. Almost every line of actual necessity, such as baby foods, etc., etc. are all sold out, and there are few to be had at any price. Our advice to the public is to buy from us before our large stock is depleted in sufficient quantities to last them some time. This applies particularly to those who have to take medicines continuously and who cannot do without them.

We will continue to sell all the stock we have on hand at our old prices and will only advance them when we have to pay more for new goods—if we can get them! Although we carry one of the largest Drug stocks of any drug store in the Maritime Provinces it should not be forgotten that in times like the present a regular stock in trade does not last long.

We hope the hundreds who deal with us will appreciate this timely advice and act accordingly.

We remain,
Yours very truly

SUDDEN DEATH OF HIS HOLINESS THE POPE

Pope Pius Tenth Died Early This Morning at Rome.—Ill For Some Days

(Special to the Graphic) Rome, Aug. 20th.—His Holiness Pope Pius Tenth died here this morning at 12.05 o'clock. He had been ill for several days, but no alarming symptoms were observed till yesterday morning. The physicians in attendance however did not think that he was so near, as hopeful news was given out to the general public only yesterday morning.

Pope Pius Tenth was in his 68th year having been born on June 2nd, 1855. He was elected Supreme Pontiff on August 4th, 1903.

It was with great delight that the music lovers of the town heard that Miss Synott, who has been playing at the Empress, will take up the position of pianist at the Opera House, under Mr. S. W. Dimock, her engagement beginning on Monday, August 24th. Miss Synott is well and favorably known throughout the provinces as one of the few high class players, and since her coming here has made many friends in this town, who will no doubt render her continued support in her new position. The music lovers of the town congratulate Mr. Dimock and also themselves that they have been able to retain Miss Synott in Campbellton.

As a player and musician, Miss Synott stands in a class by herself, and has been eagerly sought after in many places, and what was Chasman's loss has been our gain. Miss Synott's playing itself will be an attraction at the Opera House, and will be appreciated as such by all who recognize good music.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a humming sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Wall's Catarrh Cure. Send for circular, free.

BULLET CRASHED THROUGH WINDOW

Considerable excitement was caused on the Ocean Limited from the West, when a bullet crashed through two windows in the second class car and though no person was injured, yet an Assyrian had a narrow escape from being struck by the bullet. The shooting occurred a few miles on the other side of Nash's Creek, when the train was going at top speed and the miscreant must have been on murder bent. The bullet entered one window and passed out through the other side. An Assyrian, sitting by the window, next to the window through which the bullet passed, had a narrow escape and he was very much frightened. The I. C. B. authorities here were notified and the police are now working on the case.

As soon as the act occurred, a cry went up from some of the passengers that the shot was the work of the foreign element, but railway men appear to be of the opinion that the shot was fired by some fanatic, who wished to cause some excitement, taking advantage of the war situation. Firing a bullet through a crowded train is no joking matter and it is hoped that the miscreant is captured and punished.

SPECIAL MEETING WOMEN'S INSTITUTE

Will Be Held on Monday Evening at the Home of the President Mrs. A. A. Androw

A special meeting of the Women's Institute will be held on Monday evening, August 24th, at 8 p.m., at the home of the president, Mrs. Albert A. Androw. The purpose of this meeting will be to consider the advisability of taking up the work of raising funds for the proposed "Hospital Ship", and it is earnestly requested that every member of the Institute make it a point of being present. This scheme of contributing to a laudable purpose has been taken up enthusiastically by all the towns in Canada and it should not be that Campbellton be behind others.

At this meeting it is likely that committees will be formed and subscription lists opened, and it is the wish of the officers of the society that all members be present.

Halifax, N.S., Aug. 14.—For half an hour on Thursday night H.M.S. Bristol, the smallest British warship in the North Atlantic, fought a long range duel with the Karlsruhe, the largest and fastest of the German cruisers, which has been trying to intercept British shipping on the North Atlantic.

Fleeing from H. M. S. Suffolk, which interrupted the Karlsruhe coaling at sea from the North German Lloyd liner Kronprinz Wilhelm, the German cruiser was intercepted by the Bristol southwest of Bermuda and for half an hour a long range running fight took place in the blackness of semi-tropical night.

Racing through the heavy swell at a terrific clip, the ships exchanged broadsides without inflicting much damage, the conditions being very unfavorable for accurate gunnery. Although the Bristol's consort were at least one hundred miles astern, the German would not stand and fight. Altering his course, he gradually drew away from the Bristol, owing to superior speed, and in half an hour was out of range of the British ship's six inch bow-chaser. All through the night the chase lasted, but in the darkness the German ship gained on her pursuer and made off south to San Juan, where she put in for coal some days ago.

CLEAR FOR ACTION

Details of this action, the first single ship fight in which a British man-of-war has engaged in these waters in a hundred years, were brought to Halifax today by H.M.S. Suffolk, the flagship of Rear-Admiral Craddock, commanding the Fourth Cruiser Squadron.

"We were steaming north on Thursday morning last. The crew had just been ordered to general stations when from the foremost head came the hail: "Enemy on port bow." Said the flag captain of the Suffolk in giving out an official statement of the chase of the Karlsruhe today: "As soon as we knew that war was declared the ship had been prepared for battle. Fittings, all woodwork, and everything else that might be inflammable was pitched overboard, and the sea for miles around was strewn with debris."

"Under these circumstances there was little left to do when the order 'clear ship for action' was given. The gun crews went to battle stations, and the stokers were double banked. Off the port bow, about eleven or twelve miles away, we could see the Karlsruhe and the Kronprinz Wilhelm. The Karlsruhe had her boats out coaling from the North German Lloyd, and as we hurried down toward her it was in the hope she had run so short of bunkers we could catch her. As soon as the Germans sighted us they took to their heels. The Karlsruhe did not even stop to pick up her boats. Her men clambered aboard her as best they could and she hustled away to the northward, while the Kronprinz Wilhelm, steered off to the east. We knew of course that the Karlsruhe had the heels for us. Our only hope was that she was short of fuel and could not keep up her steam, but this hope was fruitless."

ALL AFTERNOON CHASE

"Nineteen thousand yards was the closest we got to our quarry. The Bristol was to the north of us and the Berwick south. We called both of them up by wireless and ordered them into aid in the chase, the Berwick trying to cut off the Kronprinz Wilhelm, while the Bristol took a position to intercept the Karlsruhe. All afternoon we raced after the fleeing German. By five o'clock her smoke had disappeared and then all our hopes centred in the Bristol picking her up."

At nine o'clock that night the welcome news came through the air to us from the Bristol, "Enemy in sight." In a few minutes came the message, "We are engaging the enemy." Although we must have been fully a hundred miles astern by then, we raced on for all we were worth. We had no fear or the result if the German stood up to the Bristol, for we were all sure that our fellows could whip the Karlsruhe easily at close quarters, but we wanted to be in at the finish ourselves. The Karlsruhe had the heels of the Bristol, too. They were in action for about half an hour. For

CRIMEAN VETERAN PASSES AWAY

Said Circumstances While Body Was Awaiting Burial.—House Burned

The death of James Arnold occurred at Barachois on July 31st. The late Mr. Arnold was born at Drogheda, in the county of Louth, Ireland, and had reached the age of seventy-seven years and five months. He was a veteran of the Crimean war, having seen service in the seventeenth regiment, "Royal Bengal Tigers". He was also twenty-five years a member of the Government and Harbor police at Montreal. For the past three or four years he had been living here with his son, who is employed in the office of the Sherbrooke Lumber Company. He had been in declining health for some few months past. Death always brings with it address to those left behind, but in the case of the late Mr. Arnold an incident which happened after his death helped to make things doubly sad. On the evening after his death, whilst the corpse was being waked, fire caught from a candle in the room where the corpse was, and before it was noticed the entire room was in flames. The fire spread so rapidly that all efforts to remove the corpse were in vain. In a very short time the house and all its contents were reduced to ashes, so quickly did the flames do their work that practically nothing was saved. Much sympathy is felt for Mr. Arnold in his sad bereavement.

a few minutes the German stood up and the ships fought broadside to broadside, the Bristol using her two six-inchers and the five four-inchers on her broadside against the Karlsruhe's five four-point ones. After a few minutes, however, the Karlsruhe turned and ran. The Bristol chased her, firing her forward six-inchers. It was difficult to make anything like good practice. It was pitch dark and the sea was heavy. Not one of the German shells landed anywhere near the Bristol, but our chaps think they got some shots aboard the Karlsruhe. However, in long range fighting under those conditions it is pretty difficult to do much, and the Karlsruhe's speed saved her again. The Suffolk, Berwick and Bristol cruised together for several days, but could get no trace of the Karlsruhe or her consort, and finally we hear that she had put into Porto Rico for coal.

"We got our prize on Saturday morning. The Leda is a five oil tanker and was coming up from Baton Rouge for New York. She did not know that war had been declared and was much surprised when we ordered her to stop with a blank shot across her bows. However, they took their capture with good grace. We put a prize crew aboard and conveyed her to Bermuda, where we turned her over to the examination service and continued our voyage north."

It will be in the order of things, if the war continues long and the sea routes are obstructed, that certain articles of food will become scarce, the natural result of which will be that the price thereof will advance. For the ordinary necessities of life however there is nothing in the situation, nor is anything likely to arise, to justify an increase in the cost to the consumer. If anything like a concerted attempt to take advantage of the situation is made the result to the makers may be awkward. The tariff law gives the Privy Council much power in the matter of reducing duties, and while it is not a power that it is well to use, it will be freely used in a situation such as has been suggested. Moreover, if it is used it may be hard to restore the existing order. Those concerned would do well to think of the future as well as of the present before going far.

A scheme to extend the trade of Canadian fish merchants is being promoted in England. It includes a demand for a subsidy from the treasury of Canada. The Parliament of Canada is "easy" for men who want public money to aid them in their private business. The time may be coming though, when the people will object. Taxes that are not needed for the proper services of the government are well left in the taxpayers' pockets.

CAN'T FIND OUT WHO THIS BOY IS

Police and detectives are baffled in their effort to discover the identity of a boy of about eleven years old found over a week ago wandering near Wellington bridge. He is being held for identification at the Juvenile Court.

His own account of himself is that his name is Joe Curry of Currie, and that he left his home in New Mills, New Brunswick, to see Montreal. He says the guard let him come down without a ticket on the Intercolonial train, but the guard has denied to the police that he ever saw the boy.

The child can neither read nor write, but says he lives with his uncle and aunt, Mr. and Mrs. John Curry, 'out in the woods near Nash's Creek, New Brunswick.' He says there are no police and no mayor and he does not know the names of any neighbors, except two Roman Catholic priests, Father Lambert and Father Wallace. —Montreal Star, Aug. 12.

Now is the Time to Plan For the Summer

We will not give a summer vacation this year as a number of students from long distances would be inconvenienced thereby.

GREAT BATTLE IS NOW IN PROGRESS

German Army Has Come in Contact With Allied Forces in Belgium

(Special to Northern Light).

London, Aug. 18.—The Express says "There is little doubt that a great battle is now going on in Belgium between the Germans and the Belgians and French allies."

A Brussels despatch to the Mail says, "Sharp fighting has been in progress since Monday morning."

That the Germans are forcing their way through Belgium is indicated by the Brussels report that German cavalry is approaching the Belgium capital, that measures for the defense of Brussels are being hastened and that the seat of Government has been removed to Antwerp.

The British official press bureau announced that any action which Japan may take against Germany will not extend beyond the China Seas.

Several Austrian army corps have invaded Russia, and the Russian advance in Galicia has been checked.

Brussels admits that the French casualties in the fighting between Namur and Dinant were heavy, as the Germans were strongly entrenched and their artillery played great havoc.

The British official news bureau says the French fleet in the Mediterranean has made a sweep up the Adriatic as far as Catard.

Montenegro troops have crossed the Bosnia frontier, and occupied the town of Behinitza, after a fierce battle they are also credited with capturing eight Austrian block houses and several villages.

GERMANS STILL RECEIVE SEVERE REPULSES

Burnds, Aug. 16.—All along the Alsace-Lorraine frontier, the advances guards of the two opponent armies have come into contact, and according to French official reports, the Germans have been driven back everywhere with loss.

MAIN GERMAN ARMY NEAR LUXEMBURG

London, Aug. 16.—Telegraphing from Brussels the Standard correspondent says:—

"As a result of a series of careful aeroplane reconnaissances, it is believed by the Belgian leaders that the main part of the German army is now concentrated in Luxembourg.

"The German plan revealed in the latest troops movements indicates an approaching attempt to break through the centre of the French line and deal a crushing blow at the most vital spot in France."

FRENCH DRIVE GERMANS WITH HEAVY LOSS

London, Aug. 17.—London Times correspondent describing fighting at Drinant says French drove Germans out of town with heavy loss.

Further successes by French in Vosges mountains are reported.

NO NEWS OF BI BATTLE UNTIL RESULTS KNOWN

London, Aug. 17.—A Paris paper says preliminary engagements of first great battle are doubtless now in progress in Belgium, and that bulletins will not be issued until results are reached, perhaps not for a week.

AUSTRIA DEFENDING HER COAST LINE

London, Aug. 16.—Austria is preparing to resist an attack on her shores of the Adriatic.

A state of siege has been proclaimed in Bulgaria.

A POSITIVE CURE FOR RHEUMATISM

Hundreds of People Have Found "Fruit-a-tives" Their Only Help

READ THIS LETTER

Superintendent of Sunday School in Toronto Tells How He Cured Himself of Chronic Rheumatism After Suffering for Years.

55 DOVERCOURT ROAD, Oct. 1st, 1913.

"For a long time, I have thought of writing you regarding what I term a most remarkable cure effected by your remedy 'Fruit-a-tives'. I suffered from Rheumatism, especially in my hands. I have spent a lot of money without any good results. I have taken 'Fruit-a-tives' for 18 months now, and am pleased to tell you that I am cured. All the enlargement has not left my hands and perhaps never will, but the soreness is all gone and I can do any kind of work. I have gained 35 pounds in 18 months."

R. A. WAUGH

Rheumatism is no longer the dreaded disease it once was. Rheumatism is no longer one of the "incurable diseases". "Fruit-a-tives" has proved marvellous powers over Rheumatism; Sciatica, Lumbago—in fact, over all such diseases which arise from some derangement of stomach, bowels, kidneys or skin.

"Fruit-a-tives" is sold by all dealers at 50c. a box, 6 for \$2.50, trial size, 25c. or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

SAINT JOHN EXHIBITION

Will Be Held September 5th to the 12th. Late advices from the Saint John Exhibition are to the effect that everything is proceeding satisfactorily and that the show will be held from Sept. 5th to the 12th, as planned. The fact that the Nova Scotia Provincial Exhibition has been called off will make the Saint John more than ever the chief attraction of the season. While the conditions occasioned by the war have caused one or two exhibitors to withdraw, owing to the fact that it is impossible for them to get some special goods from Europe, their places have quickly been taken by firms anxious to avail themselves of this opportunity and others still remain on the "waiting list." Word has been received from the Amusement men in New York that everything in this department will be carried out according to contract, in fact every department of the Exhibition will be complete and as far as known unaffected materially by the European situation. The various transportation companies will have their cheap rates ready for publication in a day or two, whereof information may be obtained from the Station Agent.

DALHOUSIE

Dalhousie, Aug. 19th.—Last week was full of important events in the shiretown. A meeting of the ladies of the place was held on Friday afternoon in the Star theatre to devise ways and means to raise funds to go towards the "Hospital Ship". There was a large attendance and great interest was taken in the subject. Mrs. W. S. Montgomery presided in a very acceptable manner and Miss Hilda Stewart proved to be a splendid Secretary. The following were appointed solicitors to collect money and the hospital ship. A vigorous canvass was made in the town proper and in the country districts. The appeal met with a very cordial response and the collectors found the people in hearty sympathy with the project. Mrs. Alex. McKay collected the sum of \$67.50, from residents of William Street; Mrs. L. D. Jones and Mrs. Andrew Barberie, Adelaide St., \$13.45; Mrs. W. A. R. WHY WEAK LUNGS?

The toll of tuberculosis is claiming more than 350 victims every day in the United States, yet few realize their grave condition until the critical period arrives. Overwork, worry, weakness after sickness, catarrh, bronchitis, tender throats—all exert the weakening influence that invites consumption.

To guard against consumption, thousands of people take Scott's Emulsion after meals because its rich medicinal nourishment strengthens the lungs, puts vigor in the blood, and builds strength to resist tuberculosis. Scott's Emulsion is nature's strongest builder. Refuse substitutes.

GREAT BATTLE IS NOW IN PROGRESS

German Army Has Come in Contact With Allied Forces in Belgium

(Special to Northern Light).

London, Aug. 18.—The Express says "There is little doubt that a great battle is now going on in Belgium between the Germans and the Belgians and French allies."

A Brussels despatch to the Mail says. "Sharp fighting has been in progress since Monday morning."

That the Germans are forcing their way through Belgium is indicated by the Brussels report that German cavalry is approaching the Belgium capital, that measures for the defense of Brussels are being hastened and that the seat of Government has been removed to Antwerp.

The British official press bureau announced that any action which Japan may take against Germany will not extend beyond the China Seas.

Several Austrian army corps have invaded Russia, and the Russian advance in Galicia has been checked.

Brussels admits that the French casualties in the fighting between Namur and Dinant were heavy, as the Germans were strongly entrenched and their artillery played great havoc.

The British official news bureau says the French fleet in the Mediterranean has made a sweep up the Adriatic as far as Catard.

Montenegro troops have crossed the Bosnia frontier and occupied the town of Rehatinitza, after a fierce battle they are also credited with capturing eight Austrian block houses and several villages.

GERMANS STILL RECEIVE SEVERE REPULSES

Burns, Aug. 16.—All along the Alsace-Lorraine frontier, the advance guards of the two opponent armies have come into contact, and according to French official reports, the Germans have been driven back everywhere with loss.

MAIN GERMAN ARMY NEAR LUXEMBURG

London, Aug. 16.—Telegraphing from Brussels the Standard correspondent says:—

"As a result of a series of careful aeroplane reconnaissances, it is believed by the Belgian leaders that the main part of the German army is now concentrated in Luxembourg."

"The German plan revealed in the latest troops movements indicates an approaching attempt to break through the centre of the French line and deal a crushing blow at the most vital spot in France."

FRENCH DRIVE GERMANS WITH HEAVY LOSS

London, Aug. 17.—London Times correspondent describing fighting at Drinant says French drove Germans out of town with heavy loss.

Further successes by French in Vosges mountains are reported.

NO NEWS OF BATTLE UNTIL RESULTS KNOWN

London, Aug. 17.—A Paris paper says preliminary engagements of first great battle are doubtless now in progress in Belgium, and that bulletins will not be issued until results are reached, perhaps not for a week.

AUSTRIA DEFENDING HER COAST LINE

London, Aug. 16.—Austria is preparing to resist an attack on her shores of the Adriatic.

A state of siege has been proclaimed in Bulgaria.

A POSITIVE CURE FOR RHEUMATISM

Hundreds of People Have Found "Fruit-a-tives" Their Only Help

READ THIS LETTER

Superintendent of Sunday School in Toronto Tells How He Cured Himself of Chronic Rheumatism After Suffering for Years.

55 DOVERCOURT ROAD, Oct., 1st, 1913.

"For a long time, I have thought of writing you regarding what I term a most remarkable cure effected by your remedy 'Fruit-a-tives'. I suffered from Rheumatism, especially in my hands. I have spent a lot of money without any good results. I have taken 'Fruit-a-tives' for 18 months now, and am pleased to tell you that I am cured. All the enlargement has not left my hands and perhaps never will, but the soreness is all gone and I can do any kind of work. I have gained 35 pounds in 18 months."

R. A. WAUGH

Rheumatism is no longer the dreaded disease it once was. Rheumatism is no longer one of the "incurable diseases". 'Fruit-a-tives' has proved its marvellous powers over Rheumatism, Sciatica, Lumbago—in fact, over all such diseases which arise from some derangement of stomach, bowels, kidneys or skin.

"'Fruit-a-tives' is sold by all dealers at 50c. a box, 6 for \$2.50, trial size 25c. or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa."

SAINT JOHN EXHIBITION

Will Be Held September 5th to the 12th.

Late advices from the Saint John Exhibition are to the effect that everything is proceeding satisfactorily and that the show will be held from Sept. 5th to the 12th, as planned. The fact that the Nova Scotia Provincial Exhibition has been called off will make the Saint John more than ever the chief attraction of the season. While the conditions occasioned by the war have caused one or two exhibitors to withdraw, owing to the fact that it is impossible for them to get some special goods from Europe, their places have quickly been taken by firms anxious to avail themselves of this opportunity and others still remain on the "waiting list." Word has been received from the Amusement men in New York that everything in this department will be carried out according to contract, in fact every department of the Exhibition will be complete and as far as known unaffected materially by the European situation. The various transportation companies will have their cheap rates ready for publication in a day or two, whereof information may be obtained from the Station Agent.

DALHOUSIE

Dalhousie, Aug. 19th.—Last week was full of important events in the shiretown. A meeting of the ladies of the place was held on Friday afternoon in the Star theatre to devise ways and means to raise funds to go towards the "Hospital Ship". There was a large attendance and great interest was taken in the subject. Mrs. W. S. Montgomery presided in a very acceptable manner and Miss Hilda Stewart proved to be a splendid Secretary. The following were appointed solicitors to collect money in aid of the hospital ship. A vigorous canvass was made in the town proper and in the country districts. The appeal met with a very cordial response and the collectors found the people in hearty sympathy with the project. Mrs. Alex. McKay collected the sum of \$47.50, from residents of William Street; Mrs. L. D. Jones and Mrs. Andrew Barberie, Adelaide St., \$13.45; Mrs. W. A. R. Cragg and Miss Alma LaBilious, Renfrew and Brunswick Sts., \$18.35; Mrs. Maud O'Keefe and Miss Hilda Stewart, Victoria St., \$15.32; Mrs. Jos. Never in the history of the Catholic Church of Dalhousie has there been such preaching. WHY WEAK LUNGS?

The toll of tuberculosis is claiming more than 350 victims every day in the United States, yet few realize their grave condition until the critical period arrives. Overwork, worry, weakness after sickness, catarrh, bronchitis, tender throats—all exert the weakening influence that invites consumption.

To guard against consumption, thousands of people take Scott's Emulsion after meals because its rich medicinal nourishment strengthens the lungs, puts vigor in the blood, and builds strength to resist tuberculosis. Scott's Emulsion is nature's strength-builder. Refuse substitutes.
