GLENCOE, ONTARIO, CANADA, THURSDAY, JUNE 10, 1920.

Whole No. 2522

TENDERS WANTED
 Tenders will be received by the undersigned up to Monday, June 14, for the contract of wiring the Town Hall, Glencoe.
 Chas. George, Municipal Clerk.

PIANO INSTRUCTION
 THEODORE R. GRAY, Organist and Choir Director Glencoe Presbyterian Church, teacher on staff of Institute of Musical Art, London. Junior and senior pupils accepted in piano and theory, temporarily at Presbyterian school room Saturdays. Pupils prepared for examinations.

NOTICE
 The Imported Standard Bred Stallion BOAVISTA will make the season at his own stable, lot 8, Longwoods Road, Ekfrid. He is a powerful-built horse, standing 15.3, and a square trotter, and for beauty, size and speed he is one of the finest of the breed. Inspection invited.—D. A. McLEAN.

STRAY CALVES
 Came into the premises of the undersigned, lot 9, 2nd range south, Ekfrid, two black calves.—DAVID HARDY.

NOTICE
 WIARM, the thoroughbred Stallion, will stand for the season at the residence 2 south of Longwoods Road. He is a dark chestnut, stands 16 hands high, well built and a good goer. Inspection invited. Insurance fee only \$10.—James McFarlane, Proprietor, Alisa-Craig, D. McTavish, Manager.

NOTICE
 The Pure Bred Imported Clydesdale Stallion BRANTON SURPRISE, registered Form One, will stand for the season 1920 at his own stable, lot 15, range 2 south Longwoods Road, Ekfrid. Insurance fee only \$10.
 D. McTAVISH, Proprietor and Manager.

NOTICE

H. W. BECK, St. Thomas, will be in this village on or about June 10th to do House Wiring of all kinds at a moderate price. Four years experience with union labor employed. All work guaranteed.

NOTICE
 GOLDEN GLOW will stand at the following places this season:—David Eddie's, North Glencoe, Monday noon; John Simpson's, Wardsville, Wednesday noon; Joseph Armstrong's, North Newbury, Friday noon. Balance of week at his own stable.
 JAMES GILBERT.

GARDEN PARTY LIGHTING
 Committees in charge of this work will do well to make early arrangements for good lighting.
THE DELCO LIGHT
 is the only satisfactory light for this purpose. Terms on application. Satisfaction guaranteed.
M. C. Morgan,
 Delco Light Products, Kerwood

JAMES POOLE
 Fire, Life, Accident and Plate Glass Insurance Agent, representing the greatest fire insurance companies of the world and the leading mutual fire insurance companies of Ontario. Office at residence, first door south of the Presbyterian church, Glencoe.

H. J. Jamieson
INSURANCE and REAL ESTATE
 Main St., Glencoe
 Leading companies represented for Fire, Life, Accident, Illness, Weather and Automobile insurance. Properties for sale and to rent. Saturdays office days.

PASTURE FARM FOR SALE
 In the 1st concession of Ekfrid, lot 18, consisting of 95 acres; 10 acres of bush; has pond and windmill; situated on main road between Glencoe and Appin. Apply to Elizabeth Harris, Glencoe, or Thos. Harris, Snyder, N. Y.

PRESTON PORTABLE GARAGES

CUT DOWN THE UP-KEEP OF YOUR CAR

A big item of the up-keep of a car is the cost of housing it in a public Garage. There's the big monthly rental and the "wear and tear" caused by the scraping and bumping it inevitably gets—to say nothing of the inconvenience.

The only way to operate a car on an economical basis is to keep it in its own garage. You soon pay out the cost of a PRESTON PORTABLE GARAGE in Garage rental—why not save the rental and own a Garage?

For Folder write to METAL SHINGLE & SIDING CO., Limited, Preston, Ontario.

McPHERSON & CLARKE

Vulcanizing and Repairing!

We have now in stock a number of 30 x 3 1-2-inch tires which we will sell at \$18.50. All these tires are guaranteed.

Let us have a look at your old tires before you discard them.

We give free estimates and free advice on all repair work.

DISTRICT AND GENERAL

The Niagara fruit crop escaped a killing frost by a narrow margin on Friday morning.

The Theford Tribune is the latest newspaper in this community to hit the long, long trail.

Uri Pierce, the veteran light harness horse trainer, has in his care at Forest eight trotters and pacers.

Arthur R. Edwards, a veteran of the 51st Battalion, threw himself in front of a G. T. R. locomotive at London and was instantly killed.

Because John Crow, a farmer living near Smithville, kept two barrels of whiskey in his barn rather than in his cellar he was fined \$400.

Fifteen thousand dollars was paid for a three-year-old Jersey cow and \$85,000 for a three-year-old bull at a sale at Mount Kisco, N. Y., last week.

On account of the poor fishing season twenty fishermen of Port Stanley have left for Lake Winipeg, where they will be engaged by a fishing company.

The condition of the wheat crop is not favorable as it was two months ago. The warm, dry weather has caused the ground to bake and has prevented growth.

William Whitelock, 71 years of age, of North Dunwich, while trimming trees in the orchard of Robert Campbell, fell from a tree to the ground, a distance of ten feet, and broke his hip.

In the city of Chicago 1,200 pounds of cigar stubs are picked up each day by scavengers, from spittoons, gutters and other slimy places. These stubs are dried and made into cigarettes for the boy who has more money than brains—and sometimes not very much money, either—to smoke.

The canning centre at Parkhill last year, under the direction of the Women's Institute, proved a profitable concern. Ten thousand tins of fruit were sent to the hospitals and four hundred homes had a part or all of their canning done at the centre. After all expenses were paid a balance of over \$600 remained.

The death took place recently in Alvinston of Mary Jane Brown, relict of the late Hugh Park. Born in Beverly township 78 years ago, she went with her parents to the wilds of Ennisville when she was only three years old. In 1869 she was married to Hugh Park and together they hewed for themselves a home out of the wet timberland. Nineteen years ago Mr. and Mrs. Park retired to Alvinston, where Mr. Park died seven years ago.

TOWN BASEBALL LEAGUE

An organization meeting for the purpose of forming a town baseball league for Glencoe was held in the McKellar House on Monday evening, June 7th. The following officers were appointed:—President, Rev. Mr. Charlton; executive—C. Troyer, T. A. Craig, M. McGeachie, Geo. Parrott, Dr. Freese, W. A. Hagerly, Ed. Hamilton. The league consists of a team from each church and the foundry, with C. Troyer manager of Presbyterian team, T. A. Craig manager of Methodist team, M. McGeachie manager of Anglican team and Ed. Hamilton manager of foundry team.

The following schedule was drawn up:

June 11—Presbyterians vs. Anglicans.
 June 14—Foundry vs. Methodists.
 June 21—Anglicans vs. Methodists.
 June 25—Presbyterians vs. Foundry.
 June 28—Anglicans vs. Foundry.
 July 5—Presbyterians vs. Methodists.
 July 9—Presbyterians vs. Anglicans.
 July 16—Foundry vs. Methodists.
 July 19—Anglicans vs. Foundry.
 July 23—Presbyterians vs. Methodists.
 July 26—Presbyterians vs. Foundry.
 July 30—Anglicans vs. Methodists.

All games are called for 6.45 p. m. A nominal fee of 10 cents will be charged the men for each game; ladies free. James Wilson will be official umpire.

Rev. Mr. Charlton has donated a silver cup as a trophy to the team winning the most games in the season.

Remember the date—June 25th—Anglican Garden Party, Newbury. Good program. Bazaar booth more attractive than ever.

SCHOOL EXAMS START JUNE 24

Practically all the promotion examinations in the public schools throughout the county will be held on June 24 and 25.

The two days will be taken up with examinations and will close the school year for the county pupils, with the exception of those writing the department examination for entrance to high schools and collegiate institutes.

The entrance examinations, which are set and examined by the department, are held simultaneously throughout the province and this year will occupy the last three days of the month, June 28, 29 and 30.

The cream of the baseball club shall be found in the pitcher.

DEATH OF WILLIAM COAD

The death occurred at his home in South Ekfrid on Tuesday evening of William Coad, aged 62 years. Mr. Coad was the second son of the late Squire Richard Coad and was highly esteemed in the community. He was unmarried. The funeral arrangements had not been made at time of writing.

CROPS ARE IN THE BALANCE

A correspondent, writing on June 7, says:—
 Fall wheat has continued to go back during the dry weather of the past week, but with timely rains an average crop is still possible; spring grains, while making very slow progress, have not suffered materially as yet, but moisture was urgently needed yesterday; corn, the planting of which is still under way in most of the counties of the province, is going into the ground under most favorable conditions; no matter how favorable the weather may be from now on, the per acre yield of hay is bound to be light.

The situation is more critical than at any time since snow left. If rains promised for today materialize, fair average crops in all lines, save hay, may be looked for. On the other hand another week of dry weather would prove disastrous.

Eggs will keep better if laid in a cool place. Show this to your hens.
 Mickie says:—I wonder why it is that a fellow who winds his watch regular every day 11 let his paper run clean down and stop, when he only has to think of it wunst a year? I wonder!

Thin the Apples if Too Thick.

There are some very good reasons why it will pay to thin the fruit on the apple trees, if too thick. Where spraying is followed it is very common for trees to overproduce if thinning is not done, for not much fruit falls. An overload makes the fruit inferior in size and quality.

Orchard men who have thinned overladen trees say thinning is a saving of labor instead of an increase of labor as many contend it is. The picking of small fruits and the extra care in grading at harvest time will more than make up for the additional labor of thinning. Where tests have been made it was found that in some cases the saving in labor was twice as much as cost of thinning, when all the work of picking, culling and packing was taken into consideration; and this did not count the profit from the better fruit.

If you will stop to consider, you can readily see that there would be a big difference between picking three or four small apples or one big one, and in culling out the hundred and one kinds of disorders caused by crowding. I saw an unthinned orchard last summer in which not half the apples were of anything like a perfect shape. I doubt if more than twenty per cent. of the fruit would sell as first class, and probably none would if the size were to be considered closely; and that orchard had been sprayed well and the trees were healthy.

Overcropping will often result in no crop at all the following year; if the fruit is properly thinned the trees will bear again unless from some other cause. It is no uncommon thing to find sprayed orchards where some varieties that naturally set too much fruit have tried to mature so much fruit that they bear only every other year. This does not pay. Try thinning one year, keep tabs on the labor, and you will see that it pays in the long run, even if you have only a few trees and are producing fruit for home use only.

Milking Machines Are Dependable Helpers.

Within the last four months I have visited twenty dairy farms where milking machines are in use. I have not heard a word of dissatisfaction from one of the twenty users; every user has said, but not in so many words, that his milking machine is a dependable helper.

The testimony of these twenty users only strengthens my belief that in a herd of not less than fifteen cows a milking machine is a paying investment. Where there is a gasoline engine or a motor on the farm, so that a milking machine does not call for extra power, a herd of twelve cows is large enough to make a milking machine pay.

The principal things that make milking machines such dependable help, according to the testimony of these twenty men, are as follows:

1. Machine milking lasts less time than hand milking.
2. The last cow milks as easy as the first; consequently there is no tending to slight the last cow, as in hand milking.
3. It is easier to get hired help on a dairy farm where cows are milked by machinery.
4. One man can take care of more cows with a milking machine, thus cutting down overhead expenses per cow.

Illness must be discouraged in the broods which are confined, as it is almost certain to lead the chicks into evil ways—bad habits.

Too pecking and other forms of cannibalism are invariably the products of injudicious feeding and idleness. Harmlessly inclined at first, a few chicks will pick at another's toes; an abrasion starts; the victim's toes commence to bleed, the sight of which seems to thrill the rest of the flock with a bloodthirsty impulse; they get a taste of the blood and fight viciously for it, until very soon their victim is rendered helpless and subsequently is partially devoured.

In a surprisingly short time the habit spreads throughout the entire flock, and where chicks are brooded

Hoose

One often hears the statement made that it does not pay to give pigs more than the most ordinary attention and the farmer can scarcely be blamed in this respect if his hired help is inexperienced and yet has to be paid as high a wage as a real good experienced man.

The keeping of a few pigs is practically always a paying proposition but, to make it more so, means must be resorted to whereby the labor can be reduced to a minimum, particularly as the pigs are apt to receive the scantiest of attention in any case. Towards this end, therefore, it seems only natural to try to find out just how well pigs will thrive if allowed to feed themselves. By feeding themselves is meant the adoption of a "self-feeding" method whereby the pigs are allowed access to a limited supply of dry feed whenever they feel so inclined. This system is of value to the breeder who goes in for swine-raising on a large scale and also to the small farmer who has other countless duties to perform but finds the feeding of pigs the worst chore of all. The latter might find the "self-feeding" of great value, particularly in reducing expenses.

With a view to gaining some definite information on the use of the "self-feeder" for swine, experiments have been carried on at the Experimental Farm, Agassiz, B.C., for several seasons. Comparisons have been made in the use of the "self-feeder" as against the trough-feeding method. As far as cost of feed is concerned, results go to show very little difference one way or the other, but when the labor question is considered, the value of the "self-feeder" cannot be ignored. This comparison of the "self-feeder" with the trough-feeding method is being continued until absolute and definite results are obtained, but up-to-date, however, the advantages of the "self-feeder" have been strikingly evident.

With all classes of feeders this device can be used to advantage, while it also may be made use of in the feeding of young sows up to breeding age. With mature breeding stock, however, it is wise to avoid the use of the "self-feeder."

The "self-feeder" for swine has many features to commend it, one of the most important being the fact that, of all farm animals, none adapt themselves so profitably to this method as do swine. Where only two or three pigs are kept, the use of a "self-feeder" can hardly be recommended, but with more than ten pigs the adoption of a "self-feeder" is well worth a trial. Finally, as a means towards the reduction of the labor expense, the "self-feeder" has a distinct advantage over hand-feeding methods.

Age When Fruit Trees Bear.

Reckoning the age of a tree from the time when it is planted in its permanent place, apple trees should begin to bear as a rule, when they have been planted from six to eight years. Certain varieties, such as the Yellow Transparent and Wagener, may bear considerably younger; others, such as the Northern Spy, not until they are somewhat older. Individual trees of the same variety vary somewhat in this respect.

Pear trees bear, in general, at about the same age as apple trees, though perhaps a little younger.

Peach trees under favorable conditions often bear at three years of age, and in any event they should bear at four years, unless injured by frost or otherwise.

Plums vary considerably according to the group to which they belong, but most sorts begin to bear in four or five years after planting.

Some cherries ordinarily begin to bear in about four years and sweet cherries at six or seven years after planting.

Apricots come into bearing at about the same age as peaches, or a little later.

Quinces are usually five or six years old before they bear much fruit.

Raspberries, blackberries and dewberries, if planted in the spring, should bear a light crop the next year. Strawberries planted in the spring, or early enough in the autumn to make a good growth before the advent of cold weather, should produce a crop the next season.

Currants and gooseberries commonly bear a few fruits the third season after planting.

Grapes may bear very lightly the third season, where conditions are favorable, but not much fruit should be expected earlier than the fourth year.

Number of Shingles Required.

Average size of shingles, 4x16 inches, is taken as a basis of calculation.

Laid four inches to the weather, 100 square feet of surface will require 900 shingles.

Laid four and one-half inches to the weather, 100 square feet will require 810 shingles.

Laid five inches to the weather, 100 square feet will require 720 shingles.

Three and one-half pounds of four-penny nails are needed for laying 1,000 shingles.

From five to ten per cent. should be added to these figures to allow for waste and shortage.

The camera, as an aid to the farmer who wishes to keep a permanent record of his stock business, makes its bow for your approval.

Country houses without ice-houses and too far from town to have access to ice supplies, may have an iceless refrigerator as a good substitute.

This convenience comprises a simple wooden frame with a covering of canvas, flannel, Indian head cloth or linen crumpled made to fit so that little air is admitted into it.

Wicks made of the same material as the cover are tacked on top of each side of the cover and extend over into the pan of water sitting on top of the frame. This water is taken up by the wicks and carried down on the sides of the cover by capillary attraction, when evaporation takes place, drawing the heat from the inside and lowering the temperature.

The more rapid the evaporation the lower the temperature. Tests have shown that if the refrigerator is kept in a place where the air circulates

freely a temperature of fifty degrees Fahrenheit may be obtained.

When the frame is finished it should be painted white and enamelled. A covering of white canvas flannel is made to fit the frame, with the smooth side out, care being taken that the cover comes to the lower edge of the frame. The wicks are made half the length of the sides and tacked on the top edge of each side. They must be long enough to extend three inches into the water. Sew hooks and eyes along the upright seam of the cover that is left open to serve as a door.

The whole refrigerator should stand in a larger pan which catches the drippings from the cover and keeps away insects. Keep the refrigerator in a shady place where there is a free circulation of air. Keep the wicks in a supply of fresh water in the top pan.

Harnessing the Brook.

What can you do with a water-wheel, and what sort of a stream do you need?

Well, one man that I know has a stream two feet wide and six inches deep, flowing at the rate of two feet a second. With a fall of seven feet, this will drive an overshot wheel and generate one and one-half horsepower, or light twenty lamps.

The first cost of such a wheel is considerably more than a gasoline engine of equal power, but a gallon of water costs nothing, whereas a gallon of gasoline or kerosene costs from twelve to fifty cents. The wheel can be geared to a line-shaft for pumping, running corn-grinders, etc.; or the electric current can be carried any distance by wire.

The same size brook with a greater fall will develop more power; or a much smaller brook with more fall will give the same power. Overshot wheels are usually best, so the experts say; but if you have a very slight fall (anything under three feet), a breast wheel is the only thing to use. I find, where you have a fairly large stream I recommend a turbine wheel; it uses more water than the other types, but is cheaper.

"Suppose I have only a very small stream?" you ask.

Well, you can put in a small wheel, and let it drive an electric generator, to charge a storage battery; by running the generator more or less continuously you can store up plenty of light against the hours of darkness. Or, you can build a dam and store up the water in a mill-pond; this is a mighty good scheme, if you only want to run the wheel for a few hours at a time.

The ideal place for a water-wheel is where some little brook rushes down a hillside; then a small wooden dam and a short trough will carry the water directly to the top of the wheel.

But most of us aren't so well fixed, our brooks run through our flat fields, with very little fall. In such cases we will need to raise the level somewhat by building a dam in some convenient place; wood, stone, or concrete can be used for this. An earth dam is all right, provided you make it thick enough; but be sure to dig a trench at the bottom, right across the brook, and puddle this tightly with clay. Also, be sure the dam is built of thick, clayey soil; sand, or humus, is too porous, and will let a lot of water leak out.

Probably you won't be able to get fall enough at the dam, so the water will have to be carried in a trough or pipe to some lower piece of ground.

Put Paint on Clean Surface.

It is common practice when we do an odd job of painting around the home to apply the paint without preparing the surface.

It is just as important that the surface be in good condition as it is that we select a good grade of paint—for no matter how good the paint, the result will be far from satisfactory if some attention is not given to this detail.

In the first place, the surface to be painted must be clean, dry and free from dust, grease and dirt. On new work, a thick coat of shellac should be applied to all knots and sappy places. On work that has been previously painted, use a wire brush to remove all loose particles. Spots that are entirely bare where the paint has chipped off, should be given a priming coat of paint reduced with turpentine.

The extra labor in thus properly preparing the surface will be more than justified in the durability of the paint coat and the smooth, uniform appearance of the finished surface.

The Welfare of the Home

Children at the Company Table.

Almost every one of us can look back on those times when, with black rebellion in our hearts, sitting at the table when there was company for dinner, we watched the grown-ups exclaim over the wonderful dessert that mother or Bridget had concocted, and tried to choke down our "nice prunes."

Of course, there are families where the children have their meals by themselves and are not allowed to come to the table with the rest of the family. But in most homes this is not true. All properly brought up children know perfectly well that there are a great many things that grown-ups may eat that they may not, and usually they do not mind. But when there is company, it does seem as if they should share in the feast.

The thoughtful mother will never begrudge the few extra minutes and the little extra work that will make the children feel that they are not abused. It really isn't much more trouble when you have everything out on the table Saturday and are baking the Sunday layer cake to mix up a single little sponge cake, or a brown sugar ginger bread, and bake it and ice it for the children.

Every mother who studies the care of children knows perfectly well that they should not have pie, but pie is usually daddy's favorite dessert, and when it comes on he makes a big fuss over it. Why, not on those days that you have pie, make one specially for the little folks? It isn't any more trouble than the usual rice pudding or custard. Cook some rice and when cold line a deep plate with it. Fill it with stewed fruit, apples, peaches or apricots, pour some soft custard over it, and cover with meringue. It is

delicious. And when cut in wedge-shaped pieces it will look like daddy's. I know one young mother of four who has bought four very pretty little fancy pudding molds, and when there is company for dinner she always makes blenheim, and molds it in them for the children. They are never used at any other time and it is such a treat that they never notice the more elaborate desserts of the guests, unless to be sorry for them.

Another mother with several little boys and girls, who entertains a lot, has made an institution at her home of what she calls Good Boy Tea. All it seems to be is the old-time cambric tea of my childhood, hot water with milk and sugar, but when it is drunk from a very pretty little china cup in the middle of the afternoon, with a lot of pretty ladies, who are sitting around in mother's living room, drinking, too, out of mother's best cups, it tastes like nectar and ambrosia. How much better, I think every time I go there and see them drinking their Good Boy Tea and eating little bread and butter sandwiches like grown-ups, is this way than to have them hanging around whining and begging for a bit of this and a piece of that, and getting it more often than not, just to keep peace, and then having to suffer afterward for the indulgence.

This same mother told me that she always bought some good hard candies whenever she bought a box of chocolates, wrapped them in gilt foil and put them in the box with the rest. It was understood that the "gold ones" were for the children exclusively, and no one was to touch them.

It is better worth while to think up some little trick like this than to make the children unhappy.

Replace Swinging Barn Doors.

The wind came up suddenly. He was standing just outside the barn on the porch. A heavy gust caught the big swinging door which had been opened, but not propped, swung it with terrible force against him, and the life of a promising young farmer came to an end. The swinging door did it.

If the door had been properly propped open the accident might have happened just the same, for when a big door exerts a powerful pressure and it might have brought the door around just the same. That can not be definitely settled. We do know, however, that a good roller door would have saved this young man's life.

There are many heavy barn doors on the farms of this country. Every one of them ought to be replaced at once by a strong, well-hung roller door. Such doors are not expensive and they can be made and hung by the farmer himself.

Seven-eighths-inch stuff is the right thickness, and it should be planned on both sides. A perfectly level space should be found for nailing the boards together. The barn floor is a good place. Help enough should be on hand to raise the doors after they are done. Guides ought to be at the bottom to prevent the door from swinging out. A hasp and staples will hold the doors together in the middle. Some put a small door through one of the big ones, through which to go to the barn floor, but I do not like this so well. Better put the small door somewhere else.

Feeding an orphan foal: Cow's milk has to be well sweetened with sugar or molasses and should be rather poor in butterfat for the feeding of an orphan foal. The milk should be fed warm once an hour at first, and then six times a day. As soon as the foal will eat, it should be allowed crushed oats, and wheat bran should be added gradually.

A trip to the barn before retiring for the night may be the means of saving several hundred dollars. A sick horse or cow in the evening may be a dead one in the morning. If found in time it may be saved. Several years ago, a farmer told me of heading a horse to the barn, as he always did before going to bed, and found one of his horses in a critical condition in the stall. Being on hand, he saved the horse. Otherwise, he would have had a dead horse the next morning.

Knockers never win and winners never knock.

Practical Studies of Soil Fertility.

Nothing is more pressing at the present time than the study of ways and means to increase the present food production. That Ontario soils are failing to yield their utmost, either in quantity or quality, is a fact recognized by careful students of crop and soil conditions. Indeed it is a fact that hits at the foundation of the progress of this Province and Dominion.

For the purpose of considering present soil conditions and making somewhat extensive study of the fertility problem, the Canadian Fertilizer Association has called its second Annual Conference in co-operation with the Ontario Agricultural College at that Institution on June 16th to 18th inclusive.

The above Conference will consist of a gathering of scientists specially trained in various phases of science which have a bearing on farm production. It will also include a considerable number of practical successful farmers who are anxious to add to their practical experience some of the latest scientific information to the end that they may be able to increase and improve the products of their farms.

The program is open to the public and should prove of material interest to all directly or indirectly interested in this question of crop production. The program includes among its prominent speakers Prof. G. W. Cavanaugh, head of the Chemistry Department of Cornell University, Dr. H. O. Buckman of the Department of Soil Technology, Cornell University, various members of the Faculty of the Ontario Agricultural College, Mr. A. H. McLennan, Vegetable Specialist of the Ontario Department of Agriculture and Mr. Henry G. Bell, Director Soil and Crop Improvement Bureau. In addition to the foregoing, various representatives of the Canadian Fertilizer Industry will speak.

Subjects of vital interest will be handled by the foregoing speakers. Such topics as the following are indicative of the nature of the Conference: "Changes and Losses that Certain Plant Nutrients Undergo in the Soil"; "The Physical Nature of the Soil and Some Fertilizer Relationships"; "Fertilizer Law and Its Interpretation"; "The Relation of Fertilizers to Labor"; "Lime in Agriculture"; "Vegetable Growers' Problems in Soil Fertility"; "Fertilizer Theories and Practices."

Knockers never win and winners never knock.

Annual Climbing Vines.

Nothing improves the appearance of a cottage so much as vines at porch or window. It is not always desirable to wait for the permanent climbers; the annual vines are quickly grown from seed. A combination of morning glory, cobaea, moonflower and wild cucumber will fill every want, though there are several other annual climbers just as desirable but not so well known. The scarlet bean will yield an abundance of flowers.

The young plants may be started more quickly if the seeds are planted in a hotbed or window. They can also be more easily protected while tender. Transplant them to the bed where they are to grow, before they have formed runners. A kind of bed of rich earth and well-rotted manure or leaf mold should be made at least two feet from the wall or porch columns. Unless there are gutters, the bed prepared for the vines should be well

outside the drip from the eaves. If the vines are to be on a protected side of the house, it is sometimes desirable to plant the seed directly in the bed where they are to grow.

One objection that has been advanced against vines is their tendency to discolor woodwork or even cause it to decay. With the proper trellising this will not result. Vines should not be allowed to touch the window casing or verandah columns. Set two posts in the ground, brace apart at the top by nailing on them a narrow board, and stretch light poultry netting across the frame thus made. The posts should be as high as the top of the window or eaves of the verandah, and should stand at least two feet from the wall. Vines thus trained will not only make a denser growth, but will allow a free circulation of air through the window. The shade will be effective and beautifying.

Knockers never win and winners never knock.

VACATIONING WITH CHILDREN

The sensible thing to do is to consider first what time it is best for summer recreation. If there are only a few days available it is unwise to spend the most of the spare time going and coming to some distant point.

The second thing to consider is money. How much of the family budget may wisely be spent on vacations?

To have a definite objective in view is to prevent frittering away time and money. If one is merely after change of scene, that is one thing. If he is after health, that is quite another. It is well to remember in the beginning that we pay for what we really need, whether we buy it or not. Sometimes we pay for it in cash and sometimes in lowered efficiency and sickness.

It is not always possible where there are little children to go away from home and to be as comfortably located at reasonable expense as under one's own roof. In that case day trips to some nearby beauty spot will afford pleasant change without too much effort. Sometimes a week-end trip from Saturday noon to Monday morning may be arranged and enjoyed by all.

It is certain that no mother anticipates with pleasure taking her little brood to some place where her own work will be made much harder, and she is bound to come home tired out. Conditions of this kind make a vacation a toil instead of a rest.

If a camp or a cottage is to be chosen for the summer vacation where there are few conveniences, see to it at least that there is an abundance of pure water nearby, comfortable beds, and an opportunity to get food supplies. A family can content itself to live simply, but there are certain things which must be had for health and comfort.

Babies are likely to be distressed by change of surroundings. Unless the change can be long enough to be of some real benefit, it is a question whether they are not better at home. The change of food is an important item. For a day or even a two days' trip, an infant's food may be prepared in the home kitchen and taken along, but if the vacation is to be a longer one, arrangements should be made in advance for baby's food supply.

The insects, especially mosquitoes, are often troublesome near the water and in the woods, and if the summer cottage is not provided with screens, mosquito netting should be taken along and tacked over the windows, for young children are often made irritable and restless by their sleep being disturbed by stings and bites. A little bottle of arsanol will often give relief if the spot is puched with the liquid.

Young children can only eat certain foods with safety. It is easy enough to arrange these at home, but more difficult away from home. Among the forbidden foods for children under ten years of age are raw vegetables, such as celery, onions, cucumbers and tomatoes, or cooked ones, such as corn, old beans, cabbage, eggplant, lima beans, salads, hot bread, griddle cakes, rich cake, preserved fruits, rich desserts, pies, pastry, jam, nuts, rich candy, ham, sausage, liver, pork, kidney, wild game, dried and salted meats and greasy fish. Ageable nurses may be given to children over seven but tomato soup, beef hash, beef and the children are old enough to digest it thoroughly.

See that the little people have their full amount of sleep or even a little more, for the extra excitement will tire them. When they are among strangers, it is an excellent time to cultivate consideration for the rights of others, which when all is said and done, is the truest kind of politeness. Make the most of the opportunity to call their attention to little refinements of living which are enjoyable, and tend to make daily life harmonious. Children are quick to see and to remember.

If the outing is one for a single day, those of the older children should be given certain responsibilities upon starting, that the one in charge of the party shall not be overburdened.

Mary, ten years old, is asked to keep track of her own belongings, which consist of a light coat, a little rubber-lined bag, with her bathing suit in it, and a small basket of sandwiches to eat as soon as the shore is reached. Mary is asked to remember that she is responsible for three things. James, eight, is proud to be given charge of a small suitcase with walls of paper fibre. In this is the rest of the lunch. As this is rather heavy, he is asked to look out for nothing else. Four-year-old Jane has a roomy string bag. In it are her sand pail, the shells, spoons and little molds for digging.

This leaves mother free to carry baby and to take on her arm a convenient and capacious knicker bag of other necessities. Mary is asked to see that Jane keeps close to mother, and James is asked to look out for himself in this particular, and to be careful not to get separated from the party.

To a Baby.

You are made of God's thoughts,
And of angels' smiles,
And songs that the nightingale sings,
All rolled up together
In rose petals pink,
You Spirit of Beautiful Things!

CAMERON HIGHLANDERS DISARMED BY PARTY OF SINN FEINERS

Private Residences Meet Fate of Police Barracks—Destruction of Property to Value of Several Hundred Thousand Pounds.

London, June 6.—A military and police patrol of twelve fully-armed men—Cameron Highlanders—was surprised and disarmed on Saturday night near Queenstown by a company of 100 armed Sinn Feiners. The incident took place between Carrigrohilly and Middleton, about seven miles from Queenstown.

The men of the patrol were riding bicycles at the time. The Highlanders were travelling with fixed bayonets. The attacking party were also on bicycles, and after collecting the rifles and ammunition and the bicycles of the patrol, they rode off. The disarmed patrol made its way to Middleton on foot.

Another account from Cork says the soldiers, eleven in number, had a policeman as a guide, and were surrounded by a party of 50 or 60 men. The men were apparently playing bowls and opened on both sides of the road as if to let the patrol pass. As the soldiers moved through, the men suddenly closed in, and before resistance could be offered, deprived the military of their rifles and ammunition. They also took away the policeman's revolver.

Dublin, June 6.—The week-end list of outrages in the South and West of Ireland is a serious and formidable one. There were more burnings carried out yesterday, including the

Kilmurray, County Cork, police barracks, making a total of such buildings destroyed since last Easter 404. Private residences of wealthy people in many parts of the country are meeting the same fate as the police barracks. Quite a large number of magnificent country mansions have come under the Sinn Fein ban because it was suspected that they were about to be occupied by the military. This appears to be a mistaken idea, but it has led to the destruction of property to the value of several hundred thousand pounds.

Oak Grove House, in Mid-Cork, former home of the family of Capt. Bowen Colthurst, was burned to the ground yesterday morning. Captain Colthurst was associated with the Easter rising in Dublin in 1916, and caused the execution of Sheehy Skeffington.

The magnificent residence of Captain Smith at Churchtown, County Meath, also was completely destroyed. It is estimated that the damage amounts to £70,000. A great quantity of valuable furniture was lost.

John Blake, a landowner, was shot from behind a hedge and seriously wounded at Thom, nineteen miles northeast of Galway, while on his way to church.

The court house at Ffarmount, County Cork, was wrecked Friday night.

Champion Bull of Ireland, taken at the recent show in Dublin.

SINN FEINERS GAIN ASCENDANCY IN NORTH IRELAND ELECTIONS

Battleships Arrive at Cork With Marines—Forty Tanks and 28 Airplanes in Ireland at Present.

A despatch from Belfast says:—The followers of Sir Edward Carson have been defeated in County and District Council elections in their own strongholds in choosing the Boards of Guardians. In addition to the Sinn Feiners winning County Tyrone, for the first time, and maintaining their hold on County Fermanagh, Michael Carolan, who was unseated by the Belfast Council following his sentence at hard labor for an alleged seditious speech, on Friday headed the poll in the Spahill division of Belfast, which previously had been a stronghold of Orangemen. Still another Sinn Feiner headed the polls in the Falls division, Belfast, the stronghold of Joseph Devlin, and another Sinn Feiner was elected in Lisburn.

Keenest interest was taken in these elections, because both counties are included within the Ulster area outlined in the Irish Bill now before the Irish Parliament. Various election tricks were revived, and a woman disguised herself and voting as her own mother. Another woman is said to have voted seven times.

The feature of the elections generally in Northern Ireland was the ascendancy gained by the Sinn Feiners over the followers of Redmond.

A despatch from Cork, Ireland, says:—The battleships Warapito and Valant arrived in Cork harbor on Friday and transhipped a large number of

marines into destroyers, which took them into Queenstown, where they landed. The Transport Carizita embarked 1,200 troops at Devenport for Queenstown, from which place they will be distributed in Wexford, Waterford, Cork and other counties.

A despatch from London says:—Winston Churchill, Secretary for War, announced in the Parliamentary newspapers on Friday that there were 40 tanks and 28 airplanes in Ireland at present.

A despatch from Dublin says:—The Drangin police barracks in East Tipperary was attacked on Friday morning for five hours by a large force of men. Eventually the barracks was burned and its nine defenders compelled to surrender their arms. There were no casualties.

Another vacant barracks was burned at Goleen, near Skibbereen. The railway terminus at Tralee was raided by daylight and a quantity of explosives and military stores removed from it.

A goods train was wrecked on Thursday night in a street of Westmeath, Lethstar, as a consequence of the rails having been torn up.

A large number of men, armed with bombs and rifles, attacked the police barracks at Cappaghwhite, Munster, on Friday morning. The police garrison, consisting of two sergeants and eight constables, repelled with similar weapons from the roof.

BRITISH LABOR FOR ONTARIO MINES

Europeans Giving Place to Immigrants From British Isles.

A despatch from Cobalt says:—Immigration promises to play an important part in solving the problem of labor shortage at the mines of Northern Ontario. In a statement recently made by a prominent mine manager of Cobalt, the favorable effect of this is already noticeable. Out of about fifteen men recently engaged, there are now arrivals from the British Isles. Nor is this confined to any one mine, as on other properties the presence of these new recruits to the ranks of Canadian labor are to be found.

The percentage of foreigners of middle Europe origin is gradually diminishing, and is giving place to a steeper element made up of British and American-born, as well as a sprinkling from Western Europe. It is especially true that from the Porcupine and Sudbury districts, during the last few months, there has been a steady trek of foreigners back to their former homes in Middle Europe.

Nova Scotia Forest Fires Quenched by Rain

Halifax, N.S., June 6.—Welcome rain has fallen in Nova Scotia. The rain set in at 10 o'clock on Saturday night, and since then there has been a continuous downpour. The precipitation in 24 hours was about an inch and a half. The rain brought great relief to the whole country, and was particularly welcome to those whose homes were endangered by forest fires and to the hundreds of fire fighters. It will also be a good help to the crops.

FIRST CANADIAN TRADE EXHIBITION OPENS IN LONDON

A despatch from London says:—The first Canadian Trade Exhibition ever held in Britain opened in the Agricultural Hall, London, last week. The exhibition will afford an object lesson of wide range of present-day Canadian trade. It includes Canadian products varying all the way from a motion-picture projector to folding beds. A Montreal ready-made clothing firm, apparently unimpressed by the competition of the world's woolen centre, Manchester, has an exhibit of ladies' and children's garments and other firms are showing wall papers, tractors, spark plugs, washing ma-

German Sent Down For Sixteen Years

A despatch from Geneva says:—Sixteen years in a French prison was the sentence pronounced by a French military judge at Ludwigshafen, in the occupied zone, upon Captain Imhof, a German officer accused of looting French chateaux during the war. Captain Imhof, it is stated, was arrested by the French during their occupation of Frankfurt. Imhof's house was found to be full of furniture, pictures and tapestries stolen from French chateaux during the German occupation. In defence, Imhof pleaded that thousands of officers, from the former Crown Prince downward, did the same as he. The French judge said he regretted he was unable to treat the prisoner as an ordinary burglar and inflict a heavier sentence.

German Sub. That Sank Lusitania is Destroyed

A despatch from Copenhagen says:—The German submarine U-20, which sank the Lusitania and later was wrecked on the west coast of Jutland, where she has been lying buried in the sand ever since, has lately been emptied, so that only the empty hull now remains. This will now be destroyed, the intention being to use German mines which drifted ashore for blowing up the hull, so that every trace of the evil-famed boat shall disappear.

Ice in Lake Superior.

A despatch from Sault Ste. Marie, Ont., says:—Occasional reports of ice are still coming from vessel-masters on Lake Superior. In 1919 ice had not disappeared from the lake before July, and Marquette harbor was still ice-filled during that month.

WALLS RED WITH VICTIMS' BLOOD

Instruments of Torture Used by Bolshevik Extraordinary Commission.

A despatch from Geneva says:—A Red chamber of horrors was discovered after the capture of Jitomir by the Poles in the cellar of a building occupied by the Bolshevik Extraordinary Commission, according to a report recently received by the Ukrainian Legation in Berne. Numerous instruments of torture reminiscent of the Spanish Inquisition were found, and the walls and floor were dyed dark with the blood of the unfortunate victims.

Thirty prisoners, among whom were seven women, were sentenced to death by the commission during the night before the Polish and Ukrainian troops entered the city. The President of the commission, Overdechevov, lingered too long as a witness of their execution.

His delight in his cruelty cost him his life, for when he tried to follow the retreating Reds the adjacent streets were already occupied by Polish soldiers. Seeing escape was impossible, he committed suicide. He was found dead in the torture chamber among the mutilated bodies of his victims.

Valuable Discovery of Radium in Ontario

A despatch from Montreal says:—The discovery of radium is reported in the territories of Proudfoot and Butt, near Kearney, on the Grand Trunk Railway. Claims are made and staked off. Other valuable minerals have been found, including vanadium, molybdenum, potash, feldspar, muscovite and mica. The rock is of gneiss granite formation, with a pegmatite vein running through it. This pegmatite vein contains the valuable minerals and is found to be from 18 inches to 20 feet thick.

W. Ryan, a Cobalt prospector, stated that on his own claims he had traced the vein for more than a mile, where it averaged seven feet in thickness and at every point he broke it he found radio-active mineral.

King's Second Son is Created Duke of York

A despatch from London says:—Only one Peerage is bestowed in the King's birthday honors, and that is conferred on Prince Albert, who becomes the Duke of York, Earl of Inverness and Baron Killarney. Prince Albert, as King George's second son, thus takes the title his father possessed as the late King Edward's second son. The majority of the honors are for services rendered during the war.

BRITISH DEFEND TURK TERMINALS

Warships Fired on Nationalists Coming too Close to British Lines.

Constantinople, June 6.—British warships opened fire on Nationalist positions near Touza, on the Sea of Marmora, 38 miles west of Ismid, late Friday night. Constantinople was aroused by the heavy firing of the guns of the warships. The Nationalists had approached close to the British entrenchments along the Gulf of Ismid, where many British units are stationed to protect troops guarding the railway.

The collapse of the Sultan's troops leaves the British alone to defend the railway terminals opposite Constantinople. Many Armenian and Greek refugees have entered Ismid after escaping from the Nationalists.

Sister of Czar in Destitute Circumstances

Belgrade, Serbia, June 6.—Garbed in a tattered ermine cloak, pieceless once, but now so weather-beaten and worn as to be utterly worthless, the Grand Duchess Olga, sister of the late Czar of Russia, has been among the thousands of refugees seeking the aid of the American Red Cross. Hatless, her gloves in twisted rags, her shoes broken out, and her purse empty, the Grand Duchess stepped from a crowded refugee train at the Belgrade station. When a steaming plate of soup from the Red Cross kitchen was handed her, she ate it ravenously and remarked: "It is a week since I have had so much food at one time."

Sir John Kirk of London, England, who has spent fifty years in reclaiming waste lands from the gutters and making good men and women out of them. He is one of London's best known philanthropists.

Can Fly Across Ocean With Greatest Ease

A despatch from Barrow, England, says:—An airship, R-80, built here for the Admiralty, will be launched in two or three weeks. She embodies the latest improvements in airship designs. It is stated that she could fly across the Atlantic with ease. The vessel is 535 feet in length and 70 feet wide. Her lifting power is 38 tons. Four engines, each of 240 horsepower, will give her a maximum

speed of 65 miles an hour. She will carry a crew of 15.

Turks Have Fifteen Days Longer

Constantinople, June 6.—The Government has received a note from the Allies granting the Turks a delay of 15 days in which to present their observations on the peace terms. Turkey had asked an extension until July 11 in which to submit its answer.

French Encourage Large Families

A despatch from Paris says:—Motherhood at last comes into her rightful place in the list of French honors, according to a decree which provides for granting medals to mothers of large families. Five children will entitle a mother to a bronze medal; eight to a silver medal, and ten to a gold medal, which will be called the Medal of the French Family. Like the Legion of Honor medal, the bronze medal will be signified by a ribbon, and rosettes will be the higher awards for increasing the population.

Prince of Wales Rests For Week at Melbourne

A despatch from Melbourne, Australia, says:—The Prince of Wales, by the advice of his physicians, will take a week's rest after the Victoria festivities before proceeding to Sydney. He is due at Sydney on June 16.

706,600 Is Montreal's Population

A despatch from Montreal says:—The population of the city of Montreal, not including any of the surrounding municipalities, is returned as 706,600 at end of 1919. There are in Montreal 37,793 dwellings rented to citizens, while other dwellings occupied by the owners number 6,452.

British Company Purchases Patents of Zeppelins

A despatch from London says:—The Godrich T. Corporation has purchased the secret processes, patents, materials and plant of the Zeppelin Company, according to the Evening News. The corporation will begin the construction of Zeppelins on a large scale.

Seven Months' Cruise For Prince George

A despatch from London says:—Prince George, the youngest son of the King and Queen, after becoming a cadet, sailed on the battleship Temeraire on June 2, for a seven months' cruise.

The only dentists of China used to pull teeth with their fingers. They practiced by pulling dogs' teeth from a wooden board until they had a grip with a lifting power of 300 or 400 pounds.

KEEP COOL!

BY WEARING COMFORTABLE APPAREL

Not necessary to pay high prices for Summer Outfits. Use good judgment in making selections.

Pretty Voiles and Batiste for Dainty Dresses
They come in pretty patterns and designs. Colors to stand washing. Priced 65c to \$2.15.

Zephyrs for More Serviceable Porch or Street Dresses
Anderson's celebrated Silk Finish Zephyrs, made from finest Egyptian cotton, 65c and 75c yard.

American and Canadian Gingham
Wide width. They come in great variety of patterns. Direct copies of best make. Specially priced 35c, 39c, 50c yard.

Our big May selling of Wash Goods leaves a number of short ends for "Remnant Pile." These will work in well for children and at a big saving in price.

Men's Summer Underwear, 20% under today's values
In combination, or separate garments. In Merino, Natural Wool, Balbriggan or Cotton. Spring needle knit. We bought heavily before the 20% advance on spring underwear. The wise buyer will act promptly. See our big \$1 values in underwear.

Men's Outing Shirts
Silk, Mercerized and Cotton. In "quiet colors" yet bright enough to be "smart." Soft cuffs and new soft collars. Prices \$2 to \$4.50.

Correct Hats for Men of All Ages
All the smart styles for the young chaps. The more conservative styles for men wishing this kind. In Semmit, Split and Panama. All the new flocks for summer, 1929. Splendid values at \$1.50, \$2.50, \$3.50.

Ladies' Ready-to-wear Porch Dresses
In pretty Gingham, Zephyrs and Voiles. Made up in such good styles. Remarkable values at \$5, \$6.50, \$7.50 and \$9.50.

Children's and Misses' Ready-to-wear Wash Dresses
In attractive styles. In Gingham, Zephyrs, Chambrays and Voiles—\$1.95 to \$3.

Ladies' Underwear in Most Desirable Qualities and Styles
In combination or separate garments, teddy bear or envelope style. In white, flesh or shell colors at prices to suit all purses—65c to \$7.50 suit.

Mercerized Lisle Hose, Manufacturer's Seconds, 39c
Very slight defects, worth regularly 65c to 85c. Twenty dozen in all. On sale while they last at 39c. No more than three pair to a customer.

A Clearing of Overalls, \$2.25, worth \$3.50
A few dozen pairs slightly soiled we are closing out at \$2.25. Wear just as well as \$3.50 lines.

Every boy wants a Jersey. It's a real boy's garment—easy to slip on, will stand any amount of hard wear, and stops all fussing about "saving your clothes." Mothers like the Ballantyne Boys' Jerseys, too—they keep the boy always looking neat; they cannot pull out of shape, and they are the most economical garments made for boys. We are showing the Ballantyne Boys' Jerseys, pullover and fasten-on-shoulder styles, in a variety of colors.

Piles of Oxforas Now so Popular
In Vici Kid, Patent and White Canvas—\$2.75 to \$6. 50c to 75c underpriced. Make closest comparison and see.

Our May sales were another record-breaker. We aim to make June sales go well ahead by giving "value" and "service."

Successor to F. G. Humphries
Purveyor of all kinds of FRESH AND SALT MEATS
Deliveries from 8 to 10 Saturdays all day

Wedding invitations printed in the latest style and with neatness and despatch at The Transcript office.

The Transcript

Published every Thursday morning from The Transcript Building, Main Street, Glencoe, Ontario. Subscription—in Canada, \$1.50 per year; in the United States, \$2.00 per year—payable in advance.

Advertising—The Transcript has a large and constantly growing circulation. A limited amount of advertising will be accepted, at moderate rates. Prices on application.

Job Printing—The Jobbing Department has superior equipment for turning out promptly books, pamphlets, circulars, posters, blank forms, programs, cards, envelopes, office and wedding stationery, etc.

A. E. Sutherland, Publisher.

THURSDAY, JUNE 10, 1929

ANNUAL PRESS MEETING

The annual convention of the Canadian Weekly Newspapers' Association, held at the King Edward hotel in Toronto Thursday and Friday of last week, was one of the most interesting and successful ever held by the Canadian Press. Subjects of momentous interest to the craft were dealt with in a concise yet complete manner, and the various discussions were led by men of broad and practical experience. While no attempt was made to regulate prices, the problem of how best to meet the ever-growing cost of publishing and printing without depreciating the high standard of production engaged much of the time of the convention.

The entertainment features of the convention were greatly enjoyed. The ladies of the Toronto Press Club entertained the wives of the members of the association at an afternoon tea on Thursday. On Friday afternoon the association and wives of its members were the guests of the Lieutenant-Governor at a garden party at Government House, and in the evening they were the guests of Leow's Theatre.

On Saturday the convention was brought to a fitting close when the newspaper men and their wives, to the number of 200, journeyed to Niagara Falls as guests of the Canada Steamships Company, and from there to the famous Roycroft shops at East Aurora, N. Y. The party was met at the station by Elbert Hubbard and other Roycrofters, and headed by the Roycroft Band, marched to the Roycroft Inn, where luncheon was served. At the conclusion of the luncheon eloquent tributes were paid to the memory of the late Elbert Hubbard, by the president, W. Rupert Davies of Renfrew, and J. J. Hurley of Brantford, and Past President A. E. Calman of Picton. Elbert Hubbard II. made a fitting reply. The famous Roycroft shops were then visited, where interest centred in the printing and binding departments. The party arrived back in Toronto at midnight.

The press is exceedingly grateful for courtesies extended to its members in connection with the convention—to the Grand Trunk and other railroads for expeditious and comfortable transport; to the management of Leow's Theatre for the enjoyable evening of the Grand Trunk and other railroads; to the management of Leow's Theatre for the enjoyable evening of the Grand Trunk and other railroads; to the management of Leow's Theatre for the enjoyable evening of the Grand Trunk and other railroads.

THIS IS THE SORROWFUL STORY

(Rural Canada)
Consider now the Editor. Yea, consider the editor: He weareth purple and fine linen. His abode is amongst the mansions of the rich. His wife hath her limousine and his first-born sporteth a racing car that can hit her up in 40 flat.

Lo! All the people breaketh their necks to hand him a child. A child is born unto the wife of a merchant in the bazaar. The physician getteth ten golden plunks. The editor writeth a stork and a half and telleth the multitude that the child tippeth the beam at nine pounds. And the proud father giveth him a Cremona.

Behold, the young one groweth up and gradueth. And the editor putteth into his paper a swell notice—yea, a peach of a notice. He telleth of the wisdom of the young woman and of her exceeding comeliness. Like unto the roses of Sharon is she, and her gown is played up to beat the band. And the dressmaker getteth two score and four iron men. And the editor getteth a note of thanks from the sweet girl gradueth.

The daughter goeth on a journey. And the editor throweth himself on the story of the farewell party. It runneth a column solid. And the fair one remembereth him from afar with a picture postal card that costeth six for a jiltney. Behold, she returneth, and the youth of the city fall down and worship. She picketh one and lo, she picketh a lemon. But the editor calleth him one of our most promising young men and getteth away with it. And they send unto him a bid to the wedding feast and behold, the bids are printed by Montgomery Hawback in a far city. Flowery and long is the wedding notice which the editor printeth. The minister getteth 10 bones. The groom standeth the editor off for a 12-month subscription.

All flesh is grass and in flume the wife is gathered unto the soil. The minister getteth his bit. The editor printeth a death notice, two columns of obituary, three lodge notices, a cubit of poetry and a card of thanks. And he forgetteth to read the proof on the heading and the darn thing cometh out "Gone to Her Last Roasting Place."

And all that are akin to the deceased jumpeth on the editor with exceeding great jumps. And they pull out their ads and cancelleth their subscriptions, and they swing the hammer unto the third and fourth generations.

Canst thou beat it?
Middlesex county council has granted the Western University \$100,000 towards the erection of a unit of the new buildings to be erected in London, as a memorial to the boys of the county who died or were killed on active service in the late war.

365 Days a Year Service

ALL motorists, especially those who use their cars for business purposes, must have steady service. They soon learn that correct lubrication is vitally important to uninterrupted service and that Imperial Polarine gives adequate thorough lubrication.

Imperial Polarine keeps the engine running smoothly and quietly by establishing and maintaining a perfect piston-to-cylinder seal, which holds all the power of the fuel charge behind the piston.

Imperial Polarine thoroughly lubricates and cushions every rubbing surface with a wear-resisting oil film. When used exclusively breakdowns are infrequent, depreciation is low, fuel costs reduced.

One of the three grades described below is specially suited to your motor. Look for the Imperial Polarine Chart of Recommendations where you buy your oil and learn which grade to use.

Imperial Polarine is sold in one and four-gallon sealed cans, steel 12½-gallon kegs, steel half-barrels and barrels, by dealers everywhere.

IMPERIAL POLARINE (Light medium body) IMPERIAL POLARINE HEAVY (Medium heavy body) IMPERIAL POLARINE A (Extra heavy body)

All This EXTRA For You

Don't buy a bicycle just because it looks good. A bright appearance often hides poor materials and workmanship.

Buy a C. C. M. Bicycle.

The beauty of the C. C. M. is more than surface deep. There are three coats of brilliant, waterproof enamel over a coat of anti-rust. That means an enamel that will stand wear and weather.

The smooth, highly-polished nickelling is over rust-proof copper. That's why C. C. M. nickelling retains its bright appearance and wears so long.

You don't always spin along smooth pavements. Sometimes you have to bump over ruts and cobble stones. So the C. C. M. frame has the long, strong "Fishmouth" reinforcement at the joints. This makes a powerful frame with a large margin of safety.

TOWN AND VICINITY

Appin lawn social will be held on August 4th.

The Big Bend Old Boys' picnic will be held on June 23rd.

Glencoe annual race meeting will be held on Wednesday, June 16.

Mrs. Anna McCallum, who has been seriously ill for some time, is now convalescent.

Miss Jessie Humphries has passed her final examination in Arts at Toronto University.

John Stevenson left for Goderich on Monday to resume his position with the C. P. R. bridge painters.

Reeve Allan McPherson is attending the June sessions of the county council in London this week.

Rev. Dr. Stalker has returned from Detroit and is now with his sister, Mrs. Hyndman, in West Lorne.

The silver cup donated by Rev. Mr. Charlton to the town baseball league is on view at Wright's hardware window.

John Hick was severely hurt one day last week, being struck by the heels of his horse which was "frisking itself on the hatter".

Preparations are being made for the unveiling of the memorial tablet and honor roll at Appin on the afternoon of Wednesday, June 23.

Glencoe has the old time crowds on Saturday night but the old time horse and buggy has almost disappeared. Everyone comes to town in an auto now.

Mrs. Elsie Campbell, before leaving Campbell for Appin, was presented by the W. M. S. Duff church with a life membership certificate handsomely framed.

The Grand Lodge of the Independent Order of Oddfellows opens its annual meeting on Monday at London. Glencoe Lodge will be represented by Archie Sinclair.

John Hurley, formerly of Glencoe, has sold out his barbering business in Denver, Colorado, and taken an agency for the Massachusetts Mutual Life Insurance Company.

Rev. A. A. Graham, principal of the Presbyterian Boys' School at Moosejaw, Sask., called on Glencoe friends last week while en route to the General Assembly at Ottawa.

The prolonged dry spell was broken by a heavy rain on Monday night. Fields, crops and gardens were suffering from the need of it and have taken on a refreshed appearance.

Alexander Merrick of the 10th line of Metcalfe died on Saturday in his 71st year. He was a well-known and highly-respected farmer. He is survived by his widow and four sons.

A mammoth social for which a \$200 program is being prepared, will be held on the grounds of J. W. Reycraft, Highgate, on Thursday, June 21. Particulars in next issue of The Transcript.

In the absence of the pastor, Rev. Mr. Garbutt, at Conference, the service in the Methodist church on Sunday morning last was conducted by Chas. M. Macfie in place of the evening service was withdrawn.

S. McMullen, principal of the Glencoe public school, has been appointed assistant principal in one of St. Catharines' public schools, an initial salary of \$1,600 per annum, with a yearly increase of \$100 (a maximum of \$2,000) is attained.

Bert Collins, a Strathroy baseball player, is in Victoria Hospital in a serious condition, an initial salary of \$1,600 per annum, with a yearly increase of \$100 (a maximum of \$2,000) is attained.

"In His Dear Native Land of the Maple Clad Hills" is the title of a catchy song written by Lachlan Leitch, one of our local boys, and set to music by George Graf, Jr. It has a patriotic ring and should meet with popular favor. Copies may be had at Irwin's store.

The Transcript again invites secretaries of sporting clubs, lodges, etc., to hand in to this office any information of public interest concerning their organizations. There is no charge for inserting information about matters of this kind, only for advertising specific coming events.

Rev. Mr. Lloyd, the minister, being in attendance at the General Assembly in Ottawa, the service in the Presbyterian church last Sunday morning was conducted by the Rev. Mr. Leitch, bridge giving an address on Temperance. In the evening the congregation were privileged to hear Rev. Mr. Farquharson, the newly-inducted minister at Wardsville and Newbury.

Notwithstanding that the price of eggs is ranging around the half-dollar mark, some people fortunate enough to have laying hens are not satisfied with that price, but take a very disreputable method to double it. This is accomplished by palming off stale incubator eggs with a sprinkling of fresh ones. An instance was reported in Leamington one day last week when a whole case of eggs was thus affected.

In a rather one-sided game of baseball at Woodgreen on June 3rd the team of that place defeated Crinan to the tune of 21-5. Francis, Woodgreen's pitcher, put up a strong game. It was his first for this season and it was due to his good work that the visitors did not get a larger score.

Batteries: Woodgreen—Tabeock, catcher; Francis and Waterworth, pitchers; Crinan—Dobson, catcher; Dymock and Lotan, pitchers.

The death occurred on Saturday at Melbourn of Mrs. Rosa Belle Williamson, wife of David Williamson. Besides her husband Mrs. Williamson is survived by her father, Joel McLeod, Cass of R. E. No. 3, Appin, and three sisters, Mrs. Elizabeth Davis, London; Mrs. Nellie B. Hughes, Appin; Mrs. Jennie G. Sweeney, Appin. Her mother died just a year and a half ago of Spanish influenza, from which shock Mrs. Williamson never recovered. She was 39 years of age.

Strathroy degree team of the I. O. O. F. came over to Glencoe on Tuesday evening and conferred the third degree on nine brethren. The evening was a notable one in that one hundred Oddfellows were assembled in which were represented the lodges of Strathroy, Watford, Kerwood, Mount Brydges and Melbourn. After the work of the evening lunch was served,

followed by an interesting program of speech and song. Those present say they never saw the degree so thoroughly exemplified as was done by the visitors from Strathroy.

The Merchants Bank here had a visit last Wednesday from Angus A. Werlich, the Ontario Manager of the Rural Service Department of the Merchants Bank of Canada. Mr. Werlich, in company with the local manager, R. M. McPherson, called on a few of our local farmers and business men and discussed the bank's plans along the line of "Service." The Merchants Bank is the only bank in Canada with a special Rural Service Department, organized to help the branches to give better service to the farming clientele.

Mr. Werlich is the genial and popular head of this department. He expresses himself as well pleased with crop conditions generally throughout the country.

PERSONAL AND SOCIAL

Miss Irene Leitch of Strathroy spent Sunday with her cousin, Miss Mary Leitch.

Mrs. W. C. Dobie and her grandson, Donald Gordon, of Brooklyn, N. Y., are visiting at W. G. Poole's.

A. M. Graham is in Detroit today acting as best man at the wedding of Oscar Howard and Miss Grace Templeton.

Mr. and Mrs. Field and children of Northwood and Mrs. Merritt and Mrs. Allison of Louisville spent Sunday at Colin Leitch's.

Mr. and Mrs. William Chisholm of North Ekfrid announce the engagement of their eldest daughter, Violet Sophia, to Robert John Bell, son of Jason Bell of Pratt's Siding.

Mrs. J. S. Ashplant, Mrs. Ginge, Miss Harris and Miss Adeline Poole of London and William J. Anderson of Chicago spent Wednesday at W. G. Poole's.

Mr. and Mrs. Alex. McMurchy of Ripley, Ontario, announce the engagement of their only daughter, Florence, to Charles Liddle, son of Mr. and Mrs. Robert Liddle of Wardsville. The marriage will take place the third week in June.

Rev. T. L. Fowler of Ridgetown will conduct anniversary services in the church of Christ, Mos, on Sunday, June 13, at 11 a. m. and 5 p. m.

Car owners, attention! We now have in stock Noble's Standard Polish, for automobiles, phonographs, furniture, etc. Try it.—Wright's Hardware.

The Agricultural Association have granted to the Daughters of the Empire the sole right to sell refreshments on the fair grounds the day of the horse show. All proceeds will be in aid of the memorial hall. Donations of cake and pie are asked for. Kindly leave these at the tent opposite the McKellar House on that day.

The most obstinate corns and warts fall to resist Holloway's Corn Cure. Try it.

THE CROOK

In our quiet country village lived the prince of garrick sharks, and his dreams were all of pillage and of skinning easy marks. Oh, his front was fine and stately, and he was a gorgeous gent, and he fooled the suckers greatly with his promised 10 per cent. But one morning he was missing, with the winning smiles and glad, and his name's become a hissing in our melancholy sad. Oh, we do not see him trundle in his costly auto now, and he took away a bundle that would choke a muley cow. There are threats and there is waiting from the suckers, old and young; talk of lynching and of falling from the come-ons who were stung. Gone the crook who did the dishing, and they know not where he went; but he's doubtless busy fishing, elsewhere, with his 10 per cent. Oh, I am a doubting Thomas, and I smell the scent of cheese when the get-rich fakers promise more than safety guarantees. And the wise and cautious banker knows how much is safe and sane, and that's all for which I'll hank-er while I have a working brain. Better have an income modest, and be sure it's always there, than to put the sand and sawdust and to weep and tear my hair.—Walt Mason.

Did you ever notice that two-thirds of "promotion" consists of "motion." Opportunities are like apples; if you pick them too soon they are green, and if you wait too long they are rotten.

Wedding cake boxes at The Transcript office.

After reading of some of the happenings in Ireland these days, many a man is glad it is still "a long way to Tipperary."

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring all worm troubles to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause and imparting a healthy tone to the system most beneficial to development.

BY-LAW No. 267

A BY-LAW TO REGULATE THE PARKING, LIGHTING AND TURNING OF CARS ON THE STREETS IN THE VILLAGE OF GLENCOE.

Whereas it is deemed necessary to regulate the parking, lighting and turning of cars on the streets of the Village of Glencoe, the municipal council of the Village of Glencoe enacts as follows:—

First—That all parties parking cars on the streets of Glencoe shall park the same on the right hand side of the streets. They shall park them inclining the front towards the sidewalk at an angle to allow a car to be parked by its side, running the right front wheel to touch the curb.

Second—No party shall park a car within 25 feet of a street crossing.

Third—All cars parked on the street at night shall have front and rear lights lit.

Fourth—No car shall be parked behind another car.

Fifth—Parties wishing to turn their cars must go to the street crossing to do so. No turning in the middle of the block will be allowed.

Sixth—Any party or parties violating any clause of this by-law shall be liable upon summary conviction before a magistrate or a justice of the peace to a penalty not exceeding twenty-five dollars.

This by-law received its three readings and was finally passed in council this 31st day of May, 1920.

The "Quality" Character of this brand has an International Reputation.

A Trial Packet will bring speedy conviction

A Farm Family's Ice-Box. This well-refrigerator serves the purpose of a family ice-box. The windlass raises the rack of shelves into the housing above the well.

The Shape of Baby's Ears. If there is one bit of neglect more than another that a mother should be ashamed of it surely is that of letting a boy grow up with his ears sticking wide out from his head.

The Deadly Fly. All of the flies that drive us to distraction in the summer are descendants of the few flies that managed to keep alive in cracks or behind the wall paper during the winter.

Eleven Things to Remember in Cake Making. Coarse granulated sugar gives a coarse-grained cake. Powdered sugar gives a close-grained, dry cake.

Keep Minard's Liniment in the house. Wonderful Mosquito. The grasshopper will spring two hundred times the length of its own body. The dragon fly, by its strength of wing, will sustain itself in the air for a long summer day with unabated speed.

Arranging Garden Flowers. How few of us realize that to arrange flowers in an artistic manner is an art! One must always remember that the vase is secondary. It is well to have a few vases for certain flowers. For instance, I have some yellow Japanese pottery. I use it especially for yellow flowers or perhaps blue and yellow posies.

Sanitary Floors. The physician tells us that dust and dirt are prolific sources of disease.

Cracks in floors, while being unsightly in appearance, harbor an unbelievable quantity of dirt. A new floor, if properly laid, is free from this disagreeable feature, but in the course of time, these cracks will begin to appear, due to the shrinkage of the wood.

It is a simple matter to remedy just clean out the dust and dirt from the cracks with some sharp pointed instrument and then thoroughly clean out with a scrubbing brush, soap and water.

It was true then. He was contemplating some felony. The older man had tempted him, and he was debating now whether he should succumb or resist.

Obeying an irresistible impulse, she left the sleeping child, but had only reached the passage outside his door when she came upon him. His face was flushed, his eyes bright.

"That may be his reputation, but he may meet his match, and I shall insist upon silence. Yet, after all, my fate is his to make or mar. And I believe it will be misery."

"I haven't a moment. I am late as it is." He had broken away and was gone in a moment. Miserably Celia turned back. Re-

levated of her vigil, she was too wretched even for the companionship of Mrs. Moss. That good lady was in some distress, too. A defaulting lodger had vanished owing two weeks' rent and leaving an unlit room behind.

She awoke in the morning with a nervous headache. She was early astir, but Brendon was as early. She heard him drag something across the floor. It sounded like packing. Flight! Her perturbed mind leaped to that instant conclusion.

Below on the fourth step Mrs. Moss stood in animated conversation with two men in uniform—policemen. They seemed impatient; she reluctant. Then all three figures entered the house, and Celia could hear their heavy tread below.

Quickly she ran up the few stairs and knocked at Brendon's door. "They are here!" she gasped, as if a moment, as if their mounting steps approached, he appeared to be considering it. Then his face set and he shook his head.

"There is a skylight opening on to the roof," she whispered, frantically. "Give a moment, as if your mounting steps approached, he appeared to be considering it. Then his face set and he shook his head."

"I am concerned about the Canadian child having shames worthy of his reverence and honor. Parents cannot expect to reveal to a child the essence of greatness and nobleness in another until after they have answered for themselves the question of what greatness really is—not that they know that greatness is not a matter of passing fame, but of abiding worth, mental and spiritual, and that in a democracy no man is great who does not greatly serve."

The Mystery Lodger

By DOUGLAS ALEXANDER.

"Oh, I haven't a word to say against the young man as a lodger," declared Mrs. Moss, as she tested the heat of her iron by a method probably as ancient as the use of the implement itself. "But what does he do for a living? That's wot puzzles me."

"Well, there are many ways of earning a living that everyone does not know about," suggested Celia Carr, her pretty, eager face and low-toned voice eloquent in defence of the subject of Mrs. Moss's speculations. "That's as it may be. Only it don't seem right, somehow, for 'im to shut hisself up all day long in 'is room, 'ardly stirring out till it's dark. More like a criminal than a respectable young man!"

"How absurd! I thought you said that Mr. Brendon was a student?" "Well, that's wot 'e told me when 'e came 'ere a fortnight ago. Wanted quietness durin' 'e day; would be no trouble; though I says to 'im then, 'Out at business durin' 'e day, I says, 'as always been my mother's Men, as I'm always sayin'—'" She broke off abruptly, for at that moment her own better, for not her earning, half could be heard coming down the area steps.

He was returning from his usual unsuccessful task of looking for work, a game of hide-and-seek that had gone on steadily for some years. Occasionally he returned from the chase mellow, at other times quarrelsome, according to the quality and quantity of the liquid substance he had imbibed.

Celia generally fled, as now, before his advancing step. She mounted the stairs and almost ran into a man who was descending them. Both halted instinctively, and the dim hall-light fell on the white, strained face of Mrs. Moss's mystery lodger.

"I—er—you startled me," he murmured, but his voice sounded pleased for all the agitation his manner revealed. "Mr. Brendon—forgive me—but—but you look troubled."

"Troubled!" He echoed the word with a curious inflection in his voice. Then he sighed, and a whimsical look passed like a shadow across his face. "Yes; wot only my own troubles but other people's as well."

"Aren't that strange to you in his voice, Celia glanced at him swiftly. Was he laughing at her? But his expression was quite serious. "Can—can I help you at all?"

"I am glad," she spoke simply. She was quite a capable business young woman, depending on her own efforts to gain her living, but at heart she was a child still.

After a further search or two he returned into his odd, abstracted manner that might so easily have been construed as fortiveness, and with a murmured good night passed into the street.

Why should his unnamed anxieties cause her such disturbance as well? The question was in Celia's mind as she entered her room.

Suddenly enlightenment came. Her face grew rosy, her whole body seemed to tingle with that blush of dismay. "Oh—I never thought—does love come like that?" she gasped. "Can-

he have guessed? Oh, how shall I ever face him again!" She was very much on the alert to avoid meeting him during the following days. As a matter of fact, when next she saw him it was not in the house, in which as a rule he remained so secluded, but out of doors. It was during the lunch hour, and he was seated in a big, ugly motor-car by the side of an individual who seemed all right.

That scrap of conversation made Celia's heart grow cold. Could Mrs. Moss's vague suspicions have touched the truth? Her young lodger in the company of a man who was notorious as the biggest thief in London. And he looked it.

Victory Bonds

YOUR OPPORTUNITY

Temporary conditions have resulted in a very low level of prices for Victory Bonds. When these conditions alter—and they will be shortly—present investment opportunities will no longer exist.

Purchasers at present prices can not only secure a high return on their capital over a long period, but will undoubtedly find these prices at a much higher level in a short time.

For your convenience, the attached coupon will assist you in selecting and ordering the desired issues.

It was late when Brendon returned. Lying awake, Celia heard him go to his room, and wondered what crime had been perpetrated and what final persuasion had been used by the hateful Daughan to wring consent from him.

She awoke in the morning with a nervous headache. She was early astir, but Brendon was as early. She heard him drag something across the floor. It sounded like packing. Flight! Her perturbed mind leaped to that instant conclusion.

In her agitation, she crossed over to the window, which looked on to the street, and, pushing it up, leaned out to get a breath of the fresh spring air.

Then she almost collapsed, and all her floating suspicions were gathered together and shaped into certainty. Below on the fourth step Mrs. Moss stood in animated conversation with two men in uniform—policemen. They seemed impatient; she reluctant. Then all three figures entered the house, and Celia could hear their heavy tread below.

Quickly she ran up the few stairs and knocked at Brendon's door. "They are here!" she gasped, as if a moment, as if their mounting steps approached, he appeared to be considering it. Then his face set and he shook his head.

"There is a skylight opening on to the roof," she whispered, frantically. "Give a moment, as if your mounting steps approached, he appeared to be considering it. Then his face set and he shook his head."

"I am concerned about the Canadian child having shames worthy of his reverence and honor. Parents cannot expect to reveal to a child the essence of greatness and nobleness in another until after they have answered for themselves the question of what greatness really is—not that they know that greatness is not a matter of passing fame, but of abiding worth, mental and spiritual, and that in a democracy no man is great who does not greatly serve."

I cannot think of a finer service that a parent can render a child than to help him rightly to appraise the moral and spiritual worth of men and women well-known, of the best-known, of the so-called great. To reveal Wilberforce or Florence Nightingale to a child is to inspire and enrich a child, not only by placing a titanic figure in the Pantheon of his imagination, but by making clear what are the greatnesses of the great.

Tongs and Twists

Curling tongs and corsets are appliances of the toilet commonly associated with femininity at its most feminine. Nevertheless, there have been many prototypes in real life of Conna Doyle's elderly British colonel, the secret of whose unrelaxed military figure is revealed when an Arab bullet, that ought to have killed him, is deflected by his corset steel.

In the days of famous dandies—Ben Brummel, Beau Nash and those other historic beaus who took their personal appearance so seriously, and serious affairs so frivolously—the hair dresser's achievements were deemed of great importance, and the services of the more skillful practitioners were eagerly sought. But there is no shock to our sensibilities in real life if a merely a beau may fairly be expected to behave very much after the manner of a belle.

It is different when a man who amounts to something is caught indulging in small vanity. Carl papers are, somehow, always comic-stripists and humorists have revealed from Dickens down in holding up to ridicule the woman in curl papers—and a masculine poet in curl papers is certainly reduced to a figure of fun! But it is related that Scope Davies, a friend of Lord Byron's, once entering the poet's chamber unexpectedly, found him reclining comfortably in bed with his hair done up in curl papers.

"Ha, ha, Byron!" cried Davies, teasingly. "I have at last caught you acting the part of the Sleeping Beauty!" "No, Scope," was the sheepish reply. "The part of a dashed fool, you should have said."

"Anything you please," conceded his friend, cheerfully. "But you have succeeded admirably in deceiving your friends; it was our conviction that your hair curled naturally." "Yes, naturally every night," replied the poet, "but don't, my dear Scope, let the cat out of the bag, for I am as vain of my curls as a girl of sixteen."

The tragic poet of the hyacinthine locks! Who would have thought it? It suggests a creeping, cold suspicion that perhaps even those historic ringleaders of Darsalet—those famous ringlets dangling picturesquely above his pallid brow, or thrust back with careful carelessness by a beringed hand—may also have been due rather to art than nature.

In the case of one distinguished head, that of Artemus Ward, the humorist, one of the very first Americans to captivate London, both socially and artistically, there was a real and reasonable excuse for resort to curling irons. He was amazingly long and thin in build, and lean of countenance, with a boldly hawklike nose—an oddity of appearance that, with his grave, gentle, drawing utterance, greatly heightened the effect of his comic speeches. Still there are limits; and after a bad attack of mountain fever his straight yellow hair became so thin and stringy about his pale and painfully cadaverous face that he decided that something must be done about it. His recent biographer, Mr. Don C. Seitz, tells how a friend met him coming out of a shop with a package and was at once hailed with "It was those old fellows! I've been all over the city for them, and I've got them at last!"

"Got what?" "A pair of curling tongs. I am going to have my hair curled to lecture to-night. I mean to cross the plains in curl," as he called it; for the curls were retained as a permanent adornment, and it was not always convenient to seek a barber. That he did so when he could, he attested in a casual reference in his lecture on the Mormons: "A Mexican lady's hair never curls—it is straight as an Indian's. Some people's hair won't curl under any circumstances. My hair won't curl under two shillings."

The obliging friend complied, with more or less success; but it was not long before Artemus became his own "curled," as he called it; for the curls were retained as a permanent adornment, and it was not always convenient to seek a barber. That he did so when he could, he attested in a casual reference in his lecture on the Mormons: "A Mexican lady's hair never curls—it is straight as an Indian's. Some people's hair won't curl under any circumstances. My hair won't curl under two shillings."

Speaking of "burdensome" names, Stray Stories tells of one Arthur Pepper of Liverpool, England, who bestowed upon his infant daughter a name that comprised every letter in the alphabet, running from Anna to Yetty Zeno.

It seems surprising that the names of Dickens's characters, odd though they were, should be found in real life; for it was from life that many of them were taken. Some, as is known, were copied from the names of signs over business places; but that was not the novelist's only source of selection.

John Forster, his biographer, found among his papers a carefully drawn list of names, with the sources from which he obtained them. Some of the names are too extravagant for anything but reality. Jolly Stick, Bill Marigold, George Muzzle, William Why, Robert Gospel, Robbin Scrubban, Sarah Goldsnacks, Catharine Two, Sophie Doornaday, Rosetta Dust and Solly Gimblitt.

In parts of Australia where the average rainfall is not more than ten inches, a square mile of land will support only eight or nine sheep. In Buenos Ayres, the same area, with thirty-four inches of rain, supports 2,600 sheep.

C.N.R. Men on G.T.R. Board

The Canadian Government has chosen as its representatives to sit on the Board of Management of the Grand Trunk Railway Carlos A. Hayes, Vice-President, in charge of Traffic in the C.N.R., and Samuel J. Hungerford, Assistant Vice-President of Operating, Maintenance and Construction Dept., Canadian National Railways, both of whom have had over thirty years of actual railroad experience and have risen step by step until at present they are recognized among the foremost railway men of Canada, each an expert in his own respective field of service.

Mr. Carlos A. Hayes was born at West Springfield, Mass., March 10th, 1865, and entered railway service in April, 1882, holding various clerical positions in the accounting and general freight departments of the Boston and Maine Railroad at Springfield, in 1890, Boston until November, 1890. From 1890 to 1892 he was with the Central New England and Western, and Philadelphia and Reading Railways. He joined the G.T.R. in 1892 as New England Agent of its National Dispatch and Signaling Department. In 1894, in 1903 he became Assistant General Freight Agent for the G.T.R. at Chicago; the General Freight Agent at Montreal in 1908, and Freight Traffic

Manager in 1911. In 1913 he went to Canadian Government Railways as General Traffic Manager, Eastern Lines, and became General Manager of Eastern Lines in 1917. In November, 1918, he was appointed Vice-President in charge of Traffic for Canadian National Railways at Toronto.

Mr. Samuel J. Hungerford was born in Canada, near Bedford, Que., July 15, 1872, and entered railway service at an early age as Machinist's Apprentice of the South Eastern & Canadian Pacific Railway at Farnham, Que. He held various positions in Quebec, Ontario and Vermont, until 1894, when he was made a charge man at the Windsor St. Station, Montreal. This position he held until 1897, after which he received promotion after promotion until he joined the C.N.R. He became Superintendent of Rolling Stock of the western lines of that road with headquarters at Winnipeg, in 1910. Five years later he was promoted to be Superintendent of Rolling Stock at Toronto with jurisdiction over all the lines of the Canadian Northern and was made General Manager of Eastern Lines of that company in November, 1917. He received the appointment of Assistant Vice-President in charge of Operation, Maintenance and Construction, Canadian National Railways, on December 1, 1918.

Models for Canadian Youth

BRITISH COLUMBIA WATER POWER

EQUAL TO FIVE NIAGARA FALLS.

Capable of Providing Power, Light and Heat For Future Needs.

The water-power wealth of British Columbia, equal, it is said, to five Niagaras—one of the greatest industrial assets this province contains—will be one of the chief resources which will be shown and explained to the delegates of Canada's Industrial Congress when they reach the Coast in June this year. The congress tour, which commenced in Medicine Hat, Alberta, on June 2nd, reached Vancouver on June 7th, and closed at Victoria on the 10th.

Pouring down from the mountains and from the glaciers that fill the gorges of the northern ranges, comes enough water every day to develop electrical power equivalent to three million horsepower. This figure is not based on flood conditions, but is the estimate arrived at by Government engineers working during low water seasons and using a conservative basis of estimate. The mighty falls of Niagara, when all the water that is available on the Canadian side has been harnessed to the turbine will produce only 650,000 horsepower. British Columbia's mighty rivers and mountain torrents, if they are all harnessed, could supply the homes and the industries of this province with nearly five times as much power.

Enormous Liquid Wealth.

When it is remembered that only 123,000 electric horsepower can be developed by the plants which are at present supplying Vancouver, New Westminster and all the towns of the vicinity with power which drives the motors in the mills and factories, propels the street cars along the city's streets and powers the heat for the up-to-date kitchens it will be seen that while the power generated at present at the plant of the British Columbia Electric on the North Arm, and of the Western Canada Power Co. on the State river, is ample to take care of present needs, and the heat for the cities and other communities of the lower mainland for some time to come, the total water-power available in the province is sufficient to provide power, light and heat for forty cities and industrial centers of the size of Greater Vancouver and New Westminster combined. British Columbia possesses in the liquid wealth that pours down the hills the equivalent to five Niagaras with all that this means for the future of the province industrially when these waters are harnessed and turned to the needs of man.

Savage Substitutes.

There is a common idea that the diet and climate conditions of the savages are the cause of their having beautiful teeth, but some authorities dispute this.

In some parts of Africa, when an infant has gone through the weaning period, his mouth is rinsed out with an infusion of the leaves of a native tree, a constant use of which, which is said to be the cause of the whitening of the teeth.

The natives living near the source of the Nile employ the roots of a pod-bearing plant to relieve toothache, while another type of an infusion of bark is used for the same purpose.

The toothbrush, as used in this country, is, of course, unknown to the savages, but many of them have an effective substitute. They use a piece of wood from certain trees, which contains beneficial qualities. Further, this stick is free from the great objection of brushes, it can be renewed at frequent intervals, and is thus always fresh and wholesome—a great advantage over the toothbrush of civilized races.

The Smith Family.

Seeing that the Smiths had had over 2,000 years in which to increase and multiply, it is not surprising to learn that in the United States alone they number about a million.

The late Dr. Mahaffy discovered that there was a man named Smith living in Egypt in 227 B.C., and there may have been even earlier Smiths.

The Smiths have always shown themselves more clanish in the United States than in other countries. They once organized a banquet at which the guests were Smiths, a man, and the president was Captain Smith, the Governor of Virginia. The cooks were Smiths, the waiters also, and a Smith said grace. An ode was specially composed for the occasion by a poet Smith, and this was issued in book form by a publisher named Smith.

To Replace Dot and Dash.

English scientists are experimenting with two musical tones, sent by a telephone key and received by a telephone, to replace the dot and dash in telegraphy.

Why Mummies Wear.

The extraordinary durability of the ancient Egyptian mummy is believed to be due to the fact that it was finished with a vegetable blue derived from the African locust-bean tree.

AUTO SPARE PARTS

for most makes and models of cars. Your old, broken or worn-out parts replaced. Write or wire us describing what you want. We carry the largest and most complete stock in Canada of slightly used or new parts and accessories. We ship and assemble in Canada. Satisfaction guaranteed in full our motto. Show's Auto and Garage Parts Supply, 822-821 Dundas St. Toronto, Ont.

Buddha Statue Rivals Sphinx.

For many years it has been known that about fifty miles from Jah-ding, in western China, there is a very large and remarkable statue of Buddha, but it was not until a very few years ago that it was ever described by an Occidental.

Dr. Sprague, an authority on things Chinese, visited it. At the end of two days' travel he reached the image and found it to be a colossus in size, although not so large as rumor had made it out. The upper half of the hillside consists of a sandstone cliff, and in this a niche fifty feet broad has been cut leaving a central core of stone that is carved in the shape of a figure seated in European style, not cross-legged, as Buddha is so often represented. The traveller found the height of the image to be not less than one hundred feet.

A series of five tiled roofs, descending like a flight of steps, built in front of the image, protects it from the weather, so that only the face can be seen from without.

When the doctor came within sight of the great Buddha he paused and rested from his journey at a point near one of the gates to the walled city that lies in the valley below. As his eyes turned to the great face, which has been gilded until it shines like metal, as the immense size and perfect preservation of the idol made their impression, the thought came to him that "this is more marvellous than many of the world's boasted wonders."

He thought of the colossi at Thebes and the Sphinx. Scared and ruined and defaced by the hand of man and the effects of time, they are little better than lumps of battered rock. But far in the west of China sits this old Buddha, unnoticed and almost unknown, yet greater in size than the Egyptian colossi, with his proportions preserved intact, with temples above and below him, and with the priests in attendance to keep the incense burning at his feet. There he sits, grimly gazing out over the tiled roofs of the city that lies before him.

Black Cat Beliefs.

Why have black cats nearly always been accounted lucky?

Ireland is by no means the only place where superstitions about black cats are or were rife. In Egypt cats were regarded with great reverence. Archaeologists have found them in tombs of kings and princes.

Australian have a curious legend about cats. Mityaro, the moon, they say, was a native cat, who fell in love with a woman whose wife and was driven away to wander ever since. To them a cat, black, grey, or white, prophesies only bad luck.

In Japan and China a black cat is regarded as a dangerous demon, often possessing as many as two or three forked tails, and having the power to change itself into an old woman.

The Chinese believe if a cat leaps on or walks over a corpse it will cause the corpse to rise up at once. Any person passing through the room would be in danger of being seized by the corpse when in that state, and would be killed immediately.

In Egypt, according to ancient writings of Herodotus, if a cat died in a private house by a natural death all the inmates of the house were obliged to shave their eyebrows.

Where Old Uniforms Go.

The denizens of African forests and Eastern deserts are clothing themselves in khaki, and longing for the days when the British army shall return to its more stylish scarlet. For it is to Africa and the East that the Army's cast-off uniforms go to be sold, or to be bartered for rubber, and ivory, and other wealth.

Kilts are considered very good form for barbaric dances, but nothing is more admired than the waistcoat which has adorned a London dandy. A native will show his importance by the number of waistcoats he can acquire, and if he can wear twenty at a time he is very grand indeed.

STYLES FOR SCHOOL GIRLS

9426—Girls' Dress, 14 yds. 14 cents. In 5 sizes, 6 to 14 years. 14 rag. 9405—Girls' Dress (with panel front; with or without bias fold). Price, 25 cents. In 5 sizes, 6 to 14 years. Size 14 requires 4 1/2 yds. 34 ins. wide.

These patterns may be obtained from your local McCall dealer, or from the McCall Co., 70 Bond St., Toronto, Ont. W.

CONSTIPATED CHILDREN

Children who suffer from constipation, indigestion or any of the other ailments due to a clogged condition of the bowels will find prompt relief through the use of Baby's Own Tablets. The Tablets are a mild but thorough laxative which can always be depended upon to regulate the bowels and sweeten the stomach. They are absolutely safe and are sold under a guarantee to be entirely free from opiates or other injurious drugs. Concerning them Mrs. Thomas A. Boutot, Lake Baker, N.B., writes: "I am pleased to state that Baby's Own Tablets were of great help to me when my baby was suffering from constipation." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Sing a Song.

If you sing a song as you go along, In the face of the real or fancied wrong, And show a heart that is brave and stout; If you'll laugh at the jeers and refuse the tears, You'll force the ever-reluctant cheers That the world denies when a coward cries.

To give to the man who bravely tries, And you'll win success with a little song— If you'll sing a song as you go along, If you'll sing a song as you plod along, You'll find that the busy, rushing throng Will catch the strain of the glad refrain; That the sun will follow the blinding rain; That the clouds will fly from the blackened sky; That the stars will come out by and by, And you'll make new friends, till hope descends From where the placid rainbow bends, And all because of a little song— If you'll sing the song as you plod along!

If you'll sing a song as you trudge along, You'll see that the singing will make lives you stroug, And the heavy load and the rugged road, And the sting and the stripe of the tortuous road Will soar with the note that you set afloat; That the beam will change to a trifling mote; That the world is bad when you are sad, And bright and beautiful when glad, That all you need is a little song— If you'll sing the song as you trudge along.

How He Worked It.

A good story concerning Henry Labouchere's grandfather is related by George Grenville in his "Memories of an Old Etonian."

When he was quite a young man, it appears, he was a clerk in a bank at a salary of £80 a year. But he moved in good society, amongst other families he was on visiting terms with that of Sir Francis Baring, the millionaire financier.

"This gave him an idea. Presenting himself before the senior partner of the bank where he was employed, he inquired whether it would be possible for him to become a partner forthwith.

"Certainly not!" was the reply. "Why, you are only a junior clerk."

"But supposing," rejoined Labouchere, "that I had received the consent of Sir Francis Baring to marry his daughter?"

"Oh, that alters the matter entirely! In that case we shall be only too pleased."

Labouchere next approached Sir Francis and asked him for his daughter's hand, only to meet once more with a curt refusal.

"But supposing," said Labouchere, "that I am not a mere clerk, as you suppose, but a partner in the bank?"

The baronet's manner changed. "That being so," he said, "I will treat the matter over with my daughter."

The result was that Labouchere married Sir Francis Baring's daughter, and became, at the same time, a partner in the bank.

One of the most important things in life is to stop when you have said enough.

Never Give Up.

Never give up!—it is wiser and better. Always to hope than once to despair; File off the load of doubt's cankering fetters And break the dark spell of tyrannical care. Never give up, or the burden may sink you— Providence kindly has mingled the cup; And all trials and troubles bethink you, The watchword of life must be, "Never give up!"

Never give up; there are chances and changes, Helping the hopeful a hundred to one, And through the chaos His wisdom arranges Ever success, if you'll only hold on. Never give up; for the wisest is bold-est, Knowing that Providence mingles the cup, And of all maxims, the best as the oldest, Is the stern watchword of "Never give up!"

NOURISHING FOOD AND GOOD HOURS

Help You to Resist Disease—Aid These With a Tonic to Keep the Blood Pure.

The power of your body to resist disease and to fight it after disease gets a foothold, is one of the most precious possessions you have. You weaken this power when you let your general health run down, your blood gets thin and your nerves unsteady. You weaken it when you worry, when you over-work, when you do not get sufficient sleep, and when you are under-nourished, either because you do not eat the right kind of food or because your digestion is out of order. You preserve your power to resist disease when you keep good hours and eat proper food at regular intervals. You further increase your strength and resistance to disease when you build up your blood and nerves by the occasional use of a tonic like Dr. Williams' Pink Pills, which are free from opiates and harmful drugs of any kind. The value of these pills as a health builder is fully shown by the experience of Mrs. E. C. Taylor, Hanover, Ont., who says: "At various times since I was a girl of fifteen I have proved the value of Dr. Williams' Pink Pills. At that age I was in a weak and feeble condition, suffering from many of the well known symptoms of anaemia. My mother procured a supply of Dr. Williams' Pink Pills, and after taking about a half dozen boxes I was restored to normal health. Again after my marriage, and much and again took Dr. Williams' Pink Pills, which once more met all my expectations and fully restored my health. My latest experience with these pills was following an attack of pleurisy, which left me completely broken in health. Part of the time I was under the care of two doctors, and for three months I was practically bed-ridden and death. Again at my mother's suggestion I started the use of Dr. Williams' Pink Pills. I had not been taking them long before I could tell that they were helping me. Day by day I could feel my strength returning, and was soon enjoying good health once more. In view of my experience I think I can safely say there is nothing in the way of medicine better than Dr. Williams' Pink Pills.

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box or six boxes \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Spanish Flu

Claims Many Victims in Canada and should be guarded against.

is a Great Preventative being one of the oldest remedies used. Minard's Liniment has cured thousands of cases of Grippe, Influenza, Sore Throat, Asthma and similar diseases. It is an Enemy to Germs, thousands of bottles being used every day, for sale by all druggists and general dealers.

Blooming Railway Stations.

Flowers are amongst the assets of the Canadian Pacific Railway. Flowers bloom in C.P.R. gardens at most of the principal stations from one end of the country to the other. There are flower knots outside the Algonquin Hotel at St. Andrew, on the Atlantic coast, and one of the most beautiful flower gardens in America blooms around the Empress Hotel in Victoria.

In the old days most of the pioneers were too busy opening up the untrodden ways to give much attention to the cultivation of flowers. Yet flower cultivation along the C.P.R. seems to have progressed with the commercial prosperity of the railway system itself, for it is now thirty-one years since one of the C.P.R. employees produced a few varieties of flower seeds in his own plot and distributed them amongst his friends at some of the stations—with the object of starting flower gardening along the line. The start was auspiciously made, and now the C.P.R. has a floral department with headquarters at Windsor Street Station, Montreal. Mr. B. M. Winnegar is the horticulturist and forester. Every year thousands of packets of flower seeds, bulbs, trees, shrubs, grass seed and large quantities of fertilizers are distributed free of charge to station agents, section foremen, caretakers of round houses and employees living on the property of the company. The seeds that will flower along the railway in the summer and autumn are sent out in March. Full particulars for cultivation are printed on each seed packet. Bulbs for spring flowering are sent out in the fall.

Seeds and plants of the best kind are always provided. Standard flower seed packets contain nasturtiums, alyssum, nigella, sweet peas, phlox and kochia. Fern and house plants are sent to large stations. An endless variety of perennials are distributed, and amongst the varieties of trees supplied are maple, birch, beech, poplar and willow. Shrubs include laurel, red catpal, sumac, berberis and weigela.

In all cases the cultivation of flower beds is done by the employees of the company, many of whom have become expert gardeners. On each division of the C.P.R. prizes are given every year for the best display of flowers, and some of the products of gardens kept by the railway amateurs have won prizes at Canadian and United States floral exhibitions.

During the last thirty-one years the encouraging influence of the C.P.R. flower growers has materially assisted in the inauguration of floral societies all over the country. Many of the railway officials are members of these societies. Flowers have improved the appearance of the railway stations, and inspired by the beauty of the stations, residents of the towns have planted flowers that beautify their homes. A little flower flame along the C.P.R. has often thrown the spark that ignited a fire of flowers.

Spanish Flu

Claims Many Victims in Canada and should be guarded against.

is a Great Preventative being one of the oldest remedies used. Minard's Liniment has cured thousands of cases of Grippe, Influenza, Sore Throat, Asthma and similar diseases. It is an Enemy to Germs, thousands of bottles being used every day, for sale by all druggists and general dealers.

MINARD'S LINIMENT CO. LIMITED, Yarmouth, N.S.

Soft Pedal for Typewriter. To make typewriters less noisy a Cleveland inventor has patented a platen cover that changes the loud click of the type to a dull thud.

ED. 7. ISSUE No. 24-20.

BITS OF HUMOR

Why? She had just accepted him, and they were blissfully discussing the "might-have-beens."

"Darling," he enquired in the tone of one who knows what the answer will be, "why didn't you accept that little donkey of a fop?"

"Because," she answered, dreamily, "I loved another."

The Closest Race.

An Englishman, a Scotsman, and an Irishman were indulging in reminiscences of sporting occasions.

"The closest race I ever saw was a yacht race," said the Englishman, "in which one of the boats that had been recently painted won by the breadth of the coat of paint."

"The closest race I ever saw," declared the Scotsman, "was one in which a horse, stung by a bee, won by the height of the swelling on his nose."

"The closest race I ever saw," said the Irishman, "is the Scotch."

Clever Biddy.

"Biddy," remarked the newly-wed Irishman, "go down and feed the pigs."

"Faith and I will not," replied the bride.

"Don't be after contradicting me, Biddy," retorted the husband. "Haven't I just endowed you with all my worldly goods, and if you cannot feed your own property, then it's ashamed of you I am."

"This was a new point of view, so off Biddy went.

Presently she returned.

"Have you fed the pigs, Biddy?" demanded her husband, sternly.

"Faith, and I have not," she answered, "I have done a great deal better. As they were my property I have sold them, and shall not be bothered with them again."

MONEY ORDERS.

Pay your out-of-town accounts by Dominion Express Money Order. Five Dollars costs three cents.

Shade Best For Flowers.

Flowers are more fragrant when the sun is not shining on them. It is contended by a French scientist, because the oils which produce the perfume are forced out by the water pressure in the plant cells and thus is diminished by sunlight.

Minard's Liniment for sale everywhere.

New Germ Foo.

Recent study has proved that the juices of lemons, oranges, onions and garlic kill disease germs. These of lemons and garlic are most effective in this way. It is the free acid in the fruit juices that does the business.

The Transcript.

THURSDAY, JUNE 10, 1920

NEWBURY

D. J. Batsner and wife left last week for a visit with their sons in Cincinnati.

Mrs. J. J. Whittaker and Miss Laura Gay arrived from Windsor on Wednesday last. Miss Gay is remaining in her home for a time.

Two former residents here died recently in Calgary, one being Mrs. Nancy Bracken and the other Jack Stokes. Both were well known here and their friends will have the sympathy of all.

Reeve Holman was in London on Thursday last on special committee work. This week he is attending the regular meeting of the county council.

Mr. and Mrs. Will Goulding of Bothwell spent Sunday at Matt. Armstrong's.

Miss Martha Gordon spent a couple of weeks in London, returning on Thursday.

Mrs. Charles Macoun of Campbellford, Ont., corresponding secretary of the Federated Women's Institutes of Ontario, will speak in the town hall on Wednesday, June 16, at 2:30 p. m. on "Woman's Responsibility to Herself, Her Family and Mankind." A good program will also be given. All ladies welcome. No charge.

The district convention of the West Middlesex Women's Institutes will be held at Stratroy on Friday, June 25; morning session at 10:30, afternoon at 1:30. Mrs. Hammett has been requested to address the convention.

An open meeting of the U. F. O. was held in the Newbury town hall on Saturday evening, May 29th, when the building was filled to the doors. Interesting addresses were given by J. J. Morrison, provincial secretary, and Harold Currie, Stratroy. D. N. Munroe occupied the chair.

CASHMERE

Mr. and Mrs. West, Dark and son Charlie and Mr. and Mrs. Charles Tunks and daughter Jean spent Sunday with Mr. and Mrs. Elias Reyecraft, near Glencoe.

Mr. and Mrs. Jones of Lambeth spent Sunday with the latter's sister, Mrs. Isaac Dawson.

Ralph McIntyre has returned home from London after spending the winter months there.

On Thursday last the worst was feared for Sam Smith, who is seriously ill with typhoid fever and bronchial pneumonia, but we are glad to say his condition is somewhat improved at time of writing.

Mrs. Alex. McIntyre has returned home after spending a couple of weeks with her daughter, Mrs. Bert Webster, near Dutton.

League as usual on Wednesday at 8:30 p. m. The topic will be "The Growing Life."

KILMARTIN

Mrs. George Cameron, Wilfred and Frank Cameron of Thamesville, Mrs. Charles Wallis of Bay City and Miss Kate Cryderman of Detroit visited at John Little's last week.

Miss Elena Reyecraft spent the week-end with Mrs. Will Woods. Kilmartin social July 2nd.

Mr. and Mrs. Wm. Little, Miss Phemie Jarvis and Miss Phemie Little of Teeswater motored up and are visiting at John Little's.

Miss Katherine McKellar has returned from Detroit.

Miss Mary E. McAlpine has gone to London.

Mrs. Ross of London is visiting her brother, Fred Gubbins.

APPIN

We are glad to see Will May about again after suffering for two weeks from carbuncles.

Rev. Mr. Chidley of Mt. Brydges very ably filled the Presbyterian pulpit here last Sunday.

Rev. Mr. Whaley is attending Conference in Stratford these days.

All roads lead to North Ekfrid next Sunday afternoon and evening as it is anniversary there in the church.

An enjoyable evening was spent by the Presbyterian choir at the home of Mrs. John McMaster last Tuesday when the members met for practice.

Rev. Mr. McCulloch is attending the Assembly at Ottawa.

Appin baseball club defeated Glencoe and Alvinston in test games here last week. Here's hoping for the league games.

Quite a number attended the garden party at Bethel last Wednesday evening.

Mr. and Mrs. Kenneth Rose of East Williams called on relatives here recently.

There will be a meeting of the Ekfrid Patriotic Society at the town hall at Appin at 8 o'clock on Saturday, June 12, when final arrangements are to be made for unveiling the memorial tablet on the 22nd. It is desired to have as large an attendance at this meeting as possible.

Mrs. Chas. Macoun of Campbellford will address the Women's Institute on the afternoon of June 14 at the home of Mrs. Dan McColl. The Middlesex Institute will also be present.

The Transcript office sells blank counter check books. Handy for those not using large quantity.

EKFRID STATION

The farmers' club will hold a meeting on Friday evening, June 11.

Mr. and Mrs. Bernice Galbraith and family and Malcolm Galbraith spent the week-end with friends at Jeanette's Creek.

Mac. McAlpine, Mrs. Mary McAlpine, Miss Marsh and Miss Herrington, all of Glencoe, visited with Annie Galbraith on Sunday.

Duncan McAlpine, who has been in poor health for some time, is now improving.

Mrs. Archie McAlpine of Aberfeldy, who has been spending a few days with Annie Galbraith, returned to her home on Monday last.

Miss Inez Henry of Macksville spent the week-end with Miss Frances Wrin.

Mr. and Mrs. Chris. Poole of Winton Grove called on friends here Sunday.

NEWBURY

WARDSVILLE

Mrs. Douglas spent a few days in St. Thomas last week.

Miss Mary McVicar and Miss Isabel and George McCracken spent the week-end at Miss McVicar's.

Dr. Husser is attending Conference at Stratford.

Mr. and Mrs. V. Faulds spent the King's Birthday at Aylmer.

Mr. Nichols is in Detroit on a business trip.

Will Mitchell spent a few days last week in London. He was one of the jurors.

Will Sparling has returned to Detroit.

Joe Creegan has gone to Detroit, where he intends taking a position.

Mr. and Mrs. Love motored to Aylmer last week and spent a couple of days there.

Mrs. Bowles returned home from London after visiting her son.

Will Turk is in St. Thomas attending the assizes.

Miss Cassie Faulds has returned from Detroit, where she has been spending a few days with Miss Martin.

Frank McGregor conducted the service in the Methodist church Sunday evening.

Mr. Templeton of Morpeth is visiting his sister, Mrs. Frank Davis.

The A. Y. P. A. of the Anglican church held a social evening at Mr. Hubbard's last week.

Rev. Mr. Murphy preached the Masonic sermon in the Anglican church Sunday afternoon.

Mrs. Tichey of Ryerson, Sask., is visiting her brother, Mr. Sloan.

MELBOURNE

Wedding bells are ringing. With ideal weather and a large gathering, the Melbourne sports day which was held on the 2nd was a decided success.

The people thronged from far and near, in cars, buggies, and some on horseback, to meet their friends and have a good time.

The races were all that could be expected, the best horses coming from Lambeth, Lawrence, Stratroy and North Ekfrid.

The Stratroy band furnished excellent music. The baseball match between Delaware and Melbourne was most interesting, Delaware being the winners by a score of 9 to 12.

After the sports were over on the fair grounds a grand concert was held in the Woodman Hall which was well attended.

The sports committee deserve great credit for the splendid day given to the people of the community.

Harry Sinclair of Chatham, formerly a Melbourne hotelier, spent a few days in our village recently.

Mrs. M. R. Brown has returned home after a visit with her son Fred of Windsor.

Rev. and Mrs. Vance have returned from a trip to England, France and Belgium.

L. W. Beach is attending the Methodist Conference which is being held in Stratford.

Mrs. Robert Parr and daughter, Mrs. Gilbert McLean, attended the week-end service, it being the occasion of the ordination of the former's son, Maxwell Parr.

Mr. and Mrs. Harry Munce have returned from attending a golden wedding at Granton.

Miss Alma Melroe of Bridgen is the guest of Mrs. Robert Parr.

Mrs. Livingston of Alvinston was the guest of her aunt, Mrs. James Showers, last week.

Mr. and Mrs. Frank Harvey of Stratroy called on friends here recently.

Miss Sharp has returned from a visit with friends at Southey and Bridgen.

Mr. McAndless, manager of the Home Bank here, is having his vacation at his home in Iderton and other places.

Alvin Clarke of Stratroy spent a few days with friends here recently.

Robert Conn of Detroit paid a short visit to his sisters here last week.

Arthur Wright of Stratroy preached in the Methodist church on Sunday morning.

About 75 friends gathered at the home of A. D. Brown on Friday evening and showed his daughter Jean with good wishes and presented to her a set of china dishes.

A social time was spent in games, cards, piano and vocal solos, also dancing.

Miss Jessie Grey is visiting friends in Sarnia.

PARKDALE

Mr. and Mrs. Russell Martin and baby Marguerite of Springfield, Ohio, are visiting the former's parents here.

Mrs. John Robinson and daughter, Mrs. Thomas Haggitt, spent Saturday in London.

Miss Edythe Thompson spent the week-end with her friend, Miss Florence Simpson.

Mrs. Ed. Haggitt and daughter, Mrs. Trethewey, are visiting with friends in Windsor.

Mr. and Mrs. Fred Haggitt motored to Inverness and spent Sunday with the latter's parents.

CAIRO

Mr. and Mrs. G. W. Young accompanied Mr. and Mrs. J. C. Watson in their auto to Kent Bridge on Friday.

Dr. Chester Forman of Detroit visited his mother during the week, leaving for home on Sunday.

Mrs. Annie Smith of Detroit and her nephew, C. P. Smith, Mr. and Mrs. L. Young and Nurse Mary McGowan motored to the home of Mr. and Mrs. M. McGugan on Saturday, returning on Sunday.

Mrs. D. McCallum and son Jack of Paris are visitors at the home of Mr. and Mrs. Arnold.

Mr. and Mrs. John A. Wehlman motored to London on Sunday, 6th inst. Ed. Arnold is having his barn raised and the house of Mr. and Mrs. Wm. Johnston has a gang doing the work.

Norman Fenby and son of Biggar, Sask., after spending a week with the former's father, returned to their home today.

KILMARTIN

A very large congregation attended the Gaelic service in Burns' church, Mossa, on Sunday morning last.

The church was packed to the doors, many having motored for miles to hear a service in their mother tongue.

Mr. McKillop of Largo conducted the service, and although a young man, speaks Gaelic quite fluently.

Hugh F. Munroe acted as precursor in an able manner. It has been suggested that such a service be made an annual event in Kilmartin.

Rev. Mr. Robertson took charge of the services at Largie and Tall's Corners last Sunday.

On Monday evening of this week the ladies of the neighborhood tendered a shower to Miss S. M. Leitch on the occasion of her approaching marriage.

A very enjoyable time was spent by all present.

On Sunday last Mr. and Mrs. M. C. Munroe celebrated their sixty-fifth anniversary of their marriage. The day was spent quietly at home. Both are enjoying fairly good health.

Mr. Munroe was able to attend the Gaelic service in the morning. He was born on the farm on which he still resides 87 years ago, and Mrs. Munroe on a neighboring farm 86 years ago.

Calculations were received from friends at home and from members of the family far away.

A number from here attended the picnic at Poplar Hill last Wednesday.

Notice

Having opened our garage for service on all makes of cars, with Wm. Kirkwood of Simcoe in charge, he having a long and successful experience in carburetors and electrical systems, we would invite a share of your automobile repairing.

GUNN-MCFARLANE

A very pretty June wedding was solemnized at the Hamilton Road Presbyterian church, London, on Tuesday, June 1, at 11 o'clock forenoon, when Helen Victoria, only daughter of John A. McFarlane and Mrs. McFarlane, was united in marriage to William Gunn, eldest son of Alexander Gunn and the late Mrs. Gunn of Leamington.

The young couple were unattended. The ceremony was performed by Rev. Dr. D. L. McCrae. The bride, who was given away by her father, was very becomingly gowned in coral blue tulle, with "forget-me-not" overdress. She wore a white Milan hat with pink ostrich tips and her corsage bouquet was of palest pink roses.

The wedding music was played by M. B. Stein, and during the signing of the register Mrs. Hugh McCormack sang very sweetly "I Love You Truly."

After the ceremony a dainty wedding breakfast was served at the home of the bride's parents. The happy young couple left in the early afternoon for a motor trip through Michigan. On their return they will reside in London.

The gifts were numerous and very beautiful. The bride has been one of the most popular and active members of the Hamilton Road church, and the ladies of the congregation made the church a bower of beauty, the decorations being lilacs and lily of the valley.

METCALFE COUNCIL

Council meeting and court of revision held May 31st. Members all present.

W. Field and A. Merrick applied to have assessment on dogs taken off roll as dogs had been killed. Applications granted.

Angus McCallum asked to have John McCallum's name added, which was done.

On motion of Denning and Hawken the court was closed and council opened for general business. Minutes were read and approved. The usual number of orders were paid.

The clerk was instructed to write A. S. Code, O. L. S., to have 8 and 5 sideroad award drain completed as soon as possible. Messrs. de Gex, Toohill and McLean waited on the council asking for an increased grant to Stratroy fair.

On motion of Denning and Blain a grant of \$50 was given, same as in 1919. On motion of Hawken and Denning the clerk was instructed to have the court of revision held at 10 o'clock forenoon of Tuesday, June 29, at the town hall. Moved by McNaughton and Hawken that a corrugated iron roof be put on. The latter carried.

Council adjourned to June 28 at 1 p. m. Harry Thompson, Clerk.

EKFRID COUNCIL

The municipal council of the township of Ekfrid met in the town hall, Appin, on Thursday, May 27, 1920. All the members were present. The minutes of last meeting were read, approved and signed by the reeve.

Samuel Lotan and other interested owners complained to the council of the non-repair of a drain from the north half lot 14, con. 3, to the Harnet drain, and requested the council to take the necessary steps for the repair and improvement of said drain, and James M. McGregor, C. E., was appointed to make an examination of said drain and prepare a report, plans, specifications and estimates for the work to be done, and also to estimate the cost of the work under the Municipal Drainage Act.

By-law No. 87 abolishing statute labour was read three times in open council and passed by the council.

Council adjourned to Tuesday, June 1st.

Council resumed. All the members present. The minutes of last meeting were read, approved and signed by the reeve.

The report of the engineer on the proposed Lethbridge drain was read and the several owners assessed in Ekfrid were heard in the matter, and the clerk instructed to draft a by-law for levying and collecting from lands and roads in Ekfrid the proportion to be contributed for said work.

The clerk having drafted a by-law, it was read a first and second time and provisionally adopted and the clerk instructed to serve a copy of said by-law upon each of the assessed owners as directed by the Municipal Drainage Act, and it was resolved that the court of revision be held at 10 o'clock forenoon of Tuesday, June 29, at the town hall, Appin.

By-law No. 831 providing for the construction of the Urquhart drain and by-law No. 837 providing for the repair of the McGregor drain were each read a third time and finally passed by the council.

Council adjourned to meet again on Tuesday, June 29.

A. P. McDougald, Clerk.
