### Montreal Stock Market.

TRADING UNSATISFACTORY, IN VIEW OF GENERAL CONDITIONS — MINING STOCK WAS STRONG GENERALLY — PAYNE UNIFORMLY AT 129.

Montreal, March 6.

There were very few orders or the market this forenoon, and business, therefore, had a very leisurely appearance. Buying does not seem to suit people's fancy, and selling does not appear more popular than buying. There is public indifference, but the indifference is of such a kind that is compatible with a great deal of watchful care, and so there are no offerings at prices that might tempt even slow buyers to take them as bargains. If one could forget that the market is disappointingly unlike what was expected from changes in fortunes in South Africa, he would say that there was a steady firmness which was satisfactory. It is impossible to be quite satisfied with trading that transfers Canadian Pacific at 98½. The local exchange cannot get much beyond that so long as London keeps at 101½. Those knowing best and being most interested in Richelieu & Ontario may be resigned, but are not content with 103½ for old stock, and 106½ for the new issue, and offer very little for sale at these figures. Toronto at par, as it was this forenoon, was ½ lower than its closing yesterday. The decline of ½ in Street, though now privileges are approaching, was not a very good showing in ordinary stock business.

Mining stock, however, showed better; Payne was ½ higher than last closing, Montreal-London advanced 3 and War Eagle rallied 1 point, its highest point to-day being 140. Virtue closing at 93, was 1 point lower to-day, and Republic at 97, was ½ lower.

Of Eastern Townships' Bank, 26 shares were sold at 158.

#### MORNING SALES.

Can. Pac.—25, 98½. 75, 98½.  
Rich. & Ont. x. n. s.—110, 108½.

32.  
Virtue—1,500, 92. 500, 92½.  
Montreal Gas—10, 189.

#### COMMERCIAL CABLE ANNUAL STATEMENT.

The Commercial Cable Company's annual statement was received to-day by the shareholders. The showing is a very fine one, the net earnings having increased \$819,017 over the previous year's receipts, which is equivalent to an increase of 8 per cent. on its capital stock of \$10,000,000—making the net earnings from the company's cables and land-lines between 15 and 16 per cent on the capital. The sum of \$350,000 has been added to the reserve fund, which now amounts to \$3,475,631, and \$150,000 has also been added to what is known as the Insurance Fund, which now amounts to \$836,418. The street took very little notice of the statement, as the stock has passed out of speculative hands into those of investors.

#### STRAWS.

Chicago — Rock Island has declared the regular dividend of 1¼ per cent., payable May 1st.

Reduction in grain rates went into effect March 5th.

Soo Line half year's earnings to Dec.

31st, \$1,487,282, against \$1,111,022 same date last year.

Atlanta, Ga. — Cotton planting will be very large this year. It is estimated that 100,000 tons more of fertilizer tags will be employed this year than last year. On this expectation becoming a fact prices are likely to decline.

Dividends will shortly be resumed on the Payne on a larger scale than ever. Five per cent. quarterly is freely spoken of by those in a position to know, and \$2.00 is the figure named which the stock will sell at in the near future.

Speculation is rife as to what the dividend in Virtue will be. Some say one, two, and we have heard as high as three per cent. monthly mentioned, but whether the directors decide it will likely be 1½ per cent.

Mr. Obalski's report made at the request of, and paid for by a few of the insiders, has not been made public as yet, but those in a position to know are quietly accumulating stock and putting it away.

**MONTREAL MINING EXCHANGE.**

**MARKET INCLINED TO EASE OFF - VIRTUE QUIET AND STEADY - MONTREAL - LONDON STRONG ON GOOD REPORTS.**

Montreal, March 6.

The market was far from being as buoyant, and with one exception, prices are lower-to-day. It cannot reasonably be expected that prices shall continue to advance continuously unless circumstances become more generally favorable.

The feature of strength to-day was Montreal-London, which sold up to 31, which is a gain of  $2\frac{1}{2}$  and 3 points. Montreal-London has been selling low, and could well afford to sell higher yet. The unfavorable impressions have been greatly dispelled by the report of the independent engineer, who reassures us of the true value of the Dufferine mine, although he openly states that great saving might have been obtained by the use of electricity in the place of steam, and also says that at the present state of development, work-the mine scarcely warranted, the late installation of the extra 30 stamps making 60 in all. He confirms previous good reports of the mine, and these statements will go far to helping the price of the stock.

Noble Five - To the shareholders of the company a notice has been issued re the consolidation of the company under B.C. laws. All persons owing shares are requested to forward them, on or before the 1st day of April, 1900, to Cody, B.C., to the office of the new company, in order that certificates for a like number of shares in the capital of the new company may be issued to them in lieu thereof.

Virtue was inclined to ease off; it sold firmly at  $92\frac{1}{2}$ .

Big Three was steady to firm, selling repeatedly at  $8\frac{1}{2}$ .

Deer Trail continues its vagaries, selling at 8 and  $7\frac{1}{2}$  cents. Pretty cheap for a stock which pays at its present selling figure close on to 35 per cent.

**MORNING SALES.**

AMERICAN STOCK LOW IN LONDON BECAUSE DULL HERE—MARKET DID NOT RALLY MUCH AFTER SUGAR DIVIDEND—STEEL STOCKS WEAK ON STRIKE RUMORS AT CHICAGO—FINANCE BILL EXPECTED TO INFLATE SECURITIES

New York, March 6th.  
The markets in London generally shows an upward tendency but the improvement is less pronounced in Americas than in the other branches, owing to the heaviness of the market here. The improvement abroad is said to be due to rumors that Gen. Buller's forces have encountered a portion of Joubert's command and have gained a victory.

The advocates of higher prices were disappointed by yesterday's market. It has been believed that as soon as the uncertainty in regard to the sugar dividend had been removed the general market would have a substantial rally. A rally was started but it was checked by the weakness in P. O. and Hoop, and the other steel stocks. There is still no definite news to account for the selling of P. O., most of which is said to come from Chicago. It is generally attributed to the fears of an attack on the city by Chicago politicians. As to the steel stocks, the unsettled outlook for labor in Chicago is given as a reason for the decline. Yesterday was selected as the day for the extension of the strike, but owing to the inclement weather nothing was done. It was rumored after close that some of the machinists in one of the R. R. shops had gone out. It was afterwards said that of the 200 which had gone out, 150 had returned to work.

The heavy selling of Hoop by inside interests remains unexplained.

The "New York Times" says, that one of the officials of sugar has made the assertion that yesterday's dividend of 1 $\frac{1}{2}$  on common should not be looked on as a quarterly payment, that it may be the only dividend that will be declared this year. The other papers however, do not appear to have this information. The Conservative element in the Street continues to pin its faith to higher prices for the Railroad Stock. The opinion being based on the expectation that the Finance Bill will be passed in the near future and will result in considerable confusion.

## MINING NEWS.

### THE OUTLOOK IN ROSSLAND.

The British Columbia Review published in London, Eng., in its issue of the February 17, says:

Most people still look upon mining as a gamble, in which the profits are transient and uncertain, and the risks abnormally great. This is true of placer mining and of some varieties of quartz mining. The quartz vein which contains a steady average of value is desirable, but rare. But it is not true of coal mines, iron mines or copper mines, when they are developed past the prospective stage. There is no industry in which a more accurate estimate can be made of future profits, provided the ore from which these profits are to be derived is blocked out and measured. It is possible to forecast the future not merely with regard to the mines, but with regard to the population and business subsidiary to and dependent on the mines. The population and business values of a town dependent upon mines follow the pay roll in an easily calculated rate. So long as the pay roll is increasing, the population and business values of the town to which the mines are tributary must also increase. Of course there are periods of speculation and boom in which outside money is poured into a town and temporarily inflates values and increases population. But this phenomenon, common to all communities, has little or nothing to do with the laws by which population and business increase. A thousand miners at work will support a population of 5000 people and so on, in about the ratio of one to five. The profits derived from business, however, depend not merely upon the gross pay roll; but also, and more directly, upon the surplus the individual wage-earner has to spend over and above mere necessities. Miners earn very high wages, as they ought, for their calling is a hard dangerous, and dirty one, and that is the reason why the profits upon investment in a mining community are relatively higher than in other communities; so long as the industry is growing; because .

values increase in a relatively greater proportion. Consequently, given conditions of stability and growth, there is no field of investment at all comparable to a mining town.

In Rossland there are six great mines, the Le Roi, the War Eagle, the Centre Star, the Iron Mask, the West Le Roi, and the Columbia Kootenay. The greatest of these mines is the Centre Star. The Centre Star has only just begun to produce and pay dividends; and is only now being equipped with adequate hoisting machinery. It only enters upon its really productive stage with this year, and in order to keep the output up with the development, the force in the mine must be doubled. The Le Roi mine is still handicapped from want of shaft and hoisting facilities. It is choked with ore. Fabulous stories are told of the bodies of ore disclosed in the lower levels. It also will soon be obliged to greatly increase its working force and output. The War Eagle is in the same position. Its hoist is a failure. The management stated a long time ago that the mine possessed ore reserves sufficient to justify the doubling its dividends, but has so far been unable to do so on account of the difficulty over machinery. The Iron Mask should be a large shiner for the first time this year. The West Le Roi and Columbia Kootenay have not as yet shipped any ore, but are preparing to do so.

Now it is difficult to estimate exactly how great an increase in production, pay roll, and population, the closing year of the century will witness, but it is certain there will be an increase and a large one. It is not going too far to say that the population will in all likelihood increase to well over 10,000 people, with a consequent steady improvement in real estate and business values. In addition to what may be confidently predicted of the six mines mentioned, there are two factors of a more classic character which are exceedingly important, but whose effects it is even more difficult to gauge. In the first place the productive area of the camp is steadily widening. The Rossland mineral zone will eventually be worked to its remotest limits. It will take many years before its latent treasures are even discovered, much less exhausted. The rapidity of its development depends very largely on the flow of English capital. This, no one in Rossland expects to be great until the Le Roi and other properties of the A. B. C. are properly established as one of the greatest if not absolutely the greatest group of gold mines in the world.

Development and dividends can alone prove this. Those most familiar with the district await the outcome with unshaken confidence. In the second place, Rossland is the centre of control over a large mining area. It is the only Western Canadian market for mining shares. It is a headquarters for miners, and the financial centre for new promotions. This position it is likely to retain, and as the country grows and the mining industry expands, its access-

ions of wealth and population from this source will increase. In view of all these facts there are opportunities for the investment of capital in Rossland which should not be overlooked.

### LARGE EMPLOYERS OF LABOR.

The Phoenix Pioneer says. The largest employers of labor in the Boundary is the Miner-Graves syndicate, operating and successfully developing Knob Hill, Old Iron-sides, Victorin, etc. It is a noteworthy fact that since active work was commenced on these mines, several years ago, there has never been a shut-down, nor has a single pay day been passed, and under the superintendence of Mr. Wm. Yelen Williams there is no fear of labor troubles.

# CHICAGO MARKET.

**WHEAT, SHORTS TURNING BULL TODAY HAD THE EFFECT OF CLOSING WHEAT 1 CENT ADVANCE—CORN STRONG,  $\frac{1}{2}$  HIGHER—PROVISIONS CLOSED AT THE TOP.**

Chicago, March 6th.

Liverpool—Wheat opened and closed unchanged from last night's closing, demand moderate. Paris wheat decline equals  $\frac{1}{2}$  cents per bushel.

New York—Wheat opened unchanged and is now  $\frac{1}{2}$  lower.

Chicago—Wheat, after opening at last night's quotation on good selling by Schwartz & Dupee, sold down to 65 $\frac{1}{2}$ , but on covering by shorts gained  $\frac{1}{2}$  and is steady now at that price.

Corn opened weak but now strong at the advance of  $\frac{1}{2}$ . Our purchases made in country today on last night's bids very light, only 15000 bushels—Looks like very light movement from now on; country roads impassable.

Oats—Dull and steady, no trading.

Provisions opened steady at last night's prices. We believe provisions are on the eve of important change and think advance the most probable.

Northwest Cars—Minn., 143; Duluth, 454; last week, 592; last year, 551.

Car Lots—Wheat estimates, 45; receipts, 66; Cont'l, 2, shipments, 1,800 winter; 62,532 spring. Corn estimates, 800; receipts, 711; Cont'l, 5; shipments, 126,670. Oats estimates, 275; receipts, 463; Cont'l, 64; shipments, 17,700.

Primary Receipts—Last week receipts, 539,257; shipments, 255,110. Last year receipts, 585,645; shipments, 114,723. Four ports last year, 317,802; shipments, 64,702. Exports flour receipts, 69,220 barrels.
