

Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- Coloured covers / Couverture de couleur
- Covers damaged / Couverture endommagée
- Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- Cover title missing / Le titre de couverture manque
- Coloured maps / Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- Bound with other material / Relié avec d'autres documents
- Only edition available / Seule édition disponible
- Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.

- Additional comments / Commentaires supplémentaires: Various pagings. In first part of pagination page 28 is incorrectly numbered page 8.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured pages / Pages de couleur
- Pages damaged / Pages endommagées
- Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed / Pages décolorées, tachetées ou piquées
- Pages detached / Pages détachées
- Showthrough / Transparence
- Quality of print varies / Qualité inégale de l'impression
- Includes supplementary material / Comprend du matériel supplémentaire
- Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below /

JOURNAL

OF THE

HOUSE OF ASSEMBLY

OF THE

PROVINCE OF NEW BRUNSWICK.

His Excellency The Honorable Arthur Hamilton Gordon, C. M. G., Lieutenant Governor and
Commander in Chief, &c. &c. &c.

Fredericton, Wednesday, 12th February, 1862.

HIS Excellency The Honorable John Henry Thomas Manners-Sutton, late Lieutenant Governor, having been pleased, by Proclamation bearing date the fourteenth day of May last, to dissolve the late General Assembly, and to order that Writs do issue for electing Members to form a House of Assembly; and His Excellency The Honorable Arthur Hamilton Gordon, C. M. G., the present Lieutenant Governor, having by further Proclamations been pleased from time to time to prorogue the said General Assembly to this day, then to meet for the dispatch of business—

The Clerk of the Crown in Chancery delivered to the Clerk of the Assembly a Roll containing the names of the Members returned by the Sheriffs of the several Counties as duly elected, and which is as followeth:—

NEW BRUNSWICK.

*Roll of Persons returned at the last General Election to serve in the General
Assembly of the Province.*

Albert J. Smith,
James Steadman,
Amand Landry,
William J. Gilbert.

For the County of Gloucester.

Robert Young,
John Meahan.

For the County of King's.

George Ryan,
Edwin Arnold Vail,
Walter Bates Scovil.

For the County of Albert.

Abner R. M'Clelan,
Reuben Stiles.

For the County of Queen's.

John Farris,
Samuel H. Gilbert.

For the County of Carleton.

David Munro,
William Lindsay.

For the County of Victoria.

David B. Raymond,
John Costigan.

For the County of Restigouche.

John M'Millan,
John Montgomery.

Office of the Clerk of the Crown in Chancery, 12th February 1862.

S. L. TILLEY, C. C. C.

A Commission having issued under the Great Seal, bearing date the 10th day of February instant, appointing Sir James Carter, and Neville Parker, Robert Parker, Lemuel A. Wilmot, and William J. Ritchey, Esquires, Commissioners for the duly qualifying the said Members; Sir James Carter, one of the Commissioners named in the said Commission, attended, and at the Clerk's Table administered the oaths to the following Members, who thereupon subscribed their names thereto, and took their Seats:—

Charles Fisher,
George L. Hatheway,
Hiram Dow,
Charles N. Sinner,
John Jordan,
Charles Watters,
Samuel L. Tilley,
Arthur H. Gillmor, Jr.
George S. Grimmer,
James Boyd,
James G. Stevens,
William E. Perley,
John Glasier,
Edward Williston,
John M. Johnson,
George Kerr,
Francis M'Phelim,
John Meahan,

Amand Landry,
Robert Young,
James Steadman,
Albert J. Smith,
Timothy W. Anglin,
William J. Gilbert,
John C. Allen,
George Ryan,
Walter B. Scovil,
John M'Millan,
John Montgomery,
Daniel B. Raymond,
David Munro,
William Lindsay,
John Farris,
Samuel H. Gilbert,
Abner R. M'Clelan,
Reuben Stiles.

A Message was then received from His Excellency the Lieutenant Governor, by the Gentleman Usher of the Black Rod, requiring the immediate attendance of the House in the Council Chamber.

The House attended accordingly; when

The Honorable John S. Saunders, sitting as President of the Legislative Council, said—

"Honorable Gentlemen of the Legislative Council, and

"Gentlemen of the House of Assembly,

"I am commanded by His Excellency the Lieutenant Governor to inform you that he doth not think fit to declare the causes for which he has summoned this General Assembly, until there be a Speaker of the House of Assembly: It is therefore His Excellency's pleasure that you, Gentlemen of the House of Assembly, do repair to the place where the Sittings of the House of Assembly are usually held, and there choose a fit person to be your Speaker; and that you present the person who shall be so chosen to His Excellency, in this House forthwith, for his approbation."

And the House being returned—

Mr. Montgomery, a Member for the County of Restigouche, addressing himself to the Clerk, proposed John M. Johnson, Esquire, a Member for the County of Northumberland, to fill the Office of Speaker, and moved that he do take the Chair; which motion was seconded by Mr. Farris, a Member for the County of Queen's County.

There being no other Member placed in nomination—

Mr. Johnson was taken from his Seat by Mr. Montgomery and Mr. Farris, and conducted by them to the Chair; and when standing on the steps, addressed himself to the House as followeth:—

"Gentlemen,

"I thank you for the high honor you have unanimously conferred upon me. As your Speaker I shall enter upon my duties with increased confidence, from the knowledge that I have been nominated and chosen independent of politics or party; and I feel assured of your co-operation and support in aid of my endeavours to preserve order and expedite the business of the House."

Mr. Johnson then took the Chair; when

A Message was received from His Excellency the Lieutenant Governor, by the Gentleman Usher of the Black Rod, requiring the immediate attendance of the House in the Council Chamber.

Accordingly, Mr. Speaker elect, with the House, went up to the Council Chamber.

And being returned—

The Honorable L. A. Wilmot, one of the Commissioners named in the Commission for the duly qualifying the Members of this House returned at the last Election, attended at the Clerk's Table, and administered the oath to John Costigan, Esquire, a Member for the County of Victoria, who subscribed his name thereto, and took his Seat.

Mr. Speaker then reported, that when in the Council Chamber, he had addressed His Excellency to the effect following:—

"May it please Your Excellency,

"Your Excellency having communicated your pleasure to the Assembly, they returned to the place where they usually deliberate, and immediately proceeded to choose a Speaker; they have elected me to that important and honorable position, and I am now presented for Your Excellency's approval."

The Honorable Mr. Saunders, sitting as President of the Legislative Council, then spoke as follows:—

“ Mr. Johnson,

“ I am commanded by His Excellency the Lieutenant Governor to assure you, that he is fully sensible of your zeal for the public service, and of your sufficiency to execute the duties of the office to which you have been elected by the House of Assembly, and that he doth most readily approve of their choice, and allow and confirm you to be their Speaker.”

That he, Mr. Speaker, then addressed His Excellency in the following words:—

“ May it please your Excellency,

“ Your Excellency having been pleased to approve the choice of the House of Assembly in electing me to be their Speaker, it now becomes my duty, in the name and on behalf of the Assembly, to claim and demand that they have all their ancient and accustomed rights and privileges; especially freedom from arrest—freedom of speech in debate—access to Your Excellency when they may think the public service requires it; and that the most favourable construction be put upon all their proceedings: And on my own behalf I have to request that any error of mine may not be imputed to the House of Assembly.”

To which the Honorable Mr. Saunders, sitting as President of the Legislative Council replied—

“ Mr. Speaker,

“ His Excellency hath the utmost confidence in the loyalty and attachment of this House of Assembly to Her Majesty's Person and Government, and in the wisdom, temper and prudence which will accompany all their proceedings; and he doth most readily and willingly grant and allow them all their privileges in as full and ample a manner as they have at any time heretofore been granted and allowed.

“ With respect to yourself, Sir, though His Excellency is sensible that you do not stand in need of such assurance, His Excellency will ever put the most favourable construction on your words and actions.”

Mr. Fisher moved for leave to bring in—A Bill relating to Corporations.
Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Montgomery,

Resolved, That the Reverend Charles G. Coster, A. M., be the Chaplain to this House.

Mr. Speaker then further reported—That when in attendance on His Excellency the Lieutenant Governor in the Council Chamber, His Excellency had been pleased to make a Speech to both Houses, of which Mr. Speaker said he had, for greater accuracy, obtained a copy, which he read to the House, and is as follows:—

“ Mr. President, and Honorable Gentlemen of the Legislative Council,

“ Mr. Speaker, and Gentlemen of the House of Assembly,

“ YOU are already aware of the great calamity which has befallen the Royal Family and the Nation. I feel confident that all hearts in this loyal Province have shared the grief which has been so deeply felt and so loudly expressed throughout the Empire on the occasion of the death of His Royal Highness the Prince Consort: and whilst in common with all classes of Her Majesty's Subjects you deplore the irreparable loss which the Queen has sustained, a sentiment of a yet more personal nature will lead you to mourn the bereavement of the young Princes who have so lately visited this Province.

“ You will have learnt with satisfaction that the Government of the United States has acquiesced in the just demands of Great Britain for the surrender of certain individuals forcibly taken from under the protection of the British Flag. You will gratefully appreciate the promptitude and energy with which Troops were dispatched from England for the defence of this Province at a time when it appeared likely to become the scene of active hostilities.

“ It is with the liveliest pleasure that I have witnessed the manner in which Her Majesty's Forces have been welcomed by all classes of the population. The readiness which has been shown to contribute to their comfort and convenience demands my warmest acknowledgments; nor can I omit to notice in a special manner the loyal and generous spirit manifested by the Corporation and Citizens of Saint John, in providing accommodation for the Troops on their landing; although I entertain no doubt that similar exertions and sacrifices would have been as cheerfully made in other parts of the Province had a similar need for them existed. The services thus willingly rendered are I know fully appreciated by the Major General Commanding Her Majesty's Forces in this Province, and by the Troops under his orders.

“ I desire to call your attention to the present condition of the Provincial Militia. Some years have passed since that Force has been embodied or enrolled, and a confident belief has prevailed that the peace of this Province would not again be disturbed by Foreign aggression. Recent events have shewn that such expectations cannot rashly be indulged with security; and whilst large bodies of men are under arms in the neighbouring States, it is inexpedient to permit this Province to remain in a wholly defenceless condition. Two distinguished Officers have been dispatched from England to assist me in the reorganization of the Militia Force. I have directed the Report, which in conformity with my desire they have prepared, to be communicated to you, and I entertain no doubt that its recommendations will receive your most attentive consideration.

“ The condition of the Province is on the whole satisfactory—the Harvest was abundant—the Fisheries have been productive—and the export of Lumber has exceeded that of the previous year. I regret however to add, that the Civil War in the United States has most injuriously affected the general Commercial Interests of the Province; nor can I venture to entertain a hope that the depression under which they now labour can be materially alleviated, whilst the causes which have produced it continue to exist.

“ You will learn with satisfaction that the Imperial Government has agreed to sanction any well considered arrangement for facilitating the Commercial Intercourse between the different Provinces of British North America. I have no doubt this liberal concession will be thankfully received, and that the measures which may be found necessary to secure to New Brunswick the

full advantages to be derived therefrom, will accordingly be adopted by you. I am of opinion that such measures, if wisely framed and judiciously carried into execution, will be attended with great and lasting benefit to the Province. I have directed the Correspondence which has passed on this subject to be laid before you.

"It was deemed expedient, after conference with the Governments of Canada and Nova Scotia, to dispatch a Member of my Executive Council to England to co-operate with Delegates from these Provinces in urging upon the Imperial Government the consideration of proposals for the completion of an Inter-Colonial Railway. I regard the proposal made as one, the adoption of which is likely to be attended with the utmost advantage to British North America, and to prove of no small utility to the Empire at large.—When the Correspondence still pending on this subject is terminated, the whole of the papers will immediately be laid before you.

"I have directed Papers to be laid before you from which you will perceive that the new Copper Coinage for this Province has been completed, and will shortly be put in circulation. The Silver Coinage is also in a forward state, and will, I hope, be available for use at a very early period.

"The returns of the Census taken in the last year are now almost completed. You will be gratified to learn that the increase in the Population of the Province considerably exceeds previous anticipations. During the past year there has been a considerable increase in the number of Immigrants. The disturbed condition of the United States has induced a very large number of persons from that country alone to settle in this Province. A Commissioner was appointed last Summer to proceed to Great Britain for the purpose of pointing out the many advantages offered by this Province to those intending to emigrate. The accounts which reach me lead me to hope that this mission will be attended with successful results.

"I recommend to your consideration the existing state of the Law with respect to Joint Stock Banks. If you should be of opinion that the Acts by which they are at present regulated, fail to afford a sufficient security for that due amount of public inspection and control over those Institutions which has in all countries been deemed essential, you will doubtless proceed to apply a fitting remedy for an evil calculated so seriously to endanger the interests of the community at large.

"During the past year extensive discoveries of Gold have been made in the adjoining Province of Nova Scotia. The Geological formation of this country not unreasonably induces a belief that similar discoveries may at no distant time be made in New Brunswick. I recommend you to consider what amendment may be needed in the existing Laws relative to Mining operations, in order to meet the requirements of such a contingency.

"Since the close of the last Session several extensive Tracts of Land have been surveyed, through which Roads have been partially opened, and portions of which have in many cases been purchased and occupied. The particulars of these transactions will be found in the Report of the Surveyor General, which will be immediately laid before you.

"I regret to inform you that the Receipts of the Provincial Railway fall short of their estimated amount. Indeed the calamitous contest in the United States, may be said to have deranged all financial calculations throughout North America.

"I am informed that the Exhibition of the natural products and industrial manufactures of New Brunswick, which took place at Sussex Vale previous to my arrival in this Province, was one highly gratifying in its character. Four thousand dollars have been placed at the disposal of Commissioners

appointed to procure articles illustrative of the industry and capabilities of this Province, for transmission to the International Exhibition to be held in London during the approaching Summer. The articles so procured, together with others furnished by numerous private contributors, are now being forwarded.

“ Mr. Speaker, and Gentlemen of the House of Assembly,

“ The Accounts of the Receipts and Expenditures of the past year will be laid before you. The depression under which the Commerce of this Province has laboured, has caused the Revenue to fall considerably short of the sum originally estimated. I am happy, however, to state that all demands upon the Treasury have been promptly met. The causes which led to the diminution of the anticipated income of the past year, unhappily still continue in active operation. The Estimates which will be laid before you, have accordingly been framed with as rigid an attention to economy as is consistent with a due regard to the exigencies of the public service.

“ Mr. President, and Honorable Gentlemen of the Legislative Council,

“ Mr. Speaker, and Gentlemen of the House of Assembly,

“ I am grateful for the cordiality with which I have been received on arriving to assume the Government; nor can I for the first time meet you assembled without the expression of my earnest desire to promote the welfare and prosperity of this noble Province.

“ With great natural resources—peopled by a hardy and industrious race—in the enjoyment of good Laws ably administered, I rejoice to believe that New Brunswick is happy and contented. An ample measure of self-government has wisely been conceded to her people by the Sovereign and Imperial Parliament. Into your hands the destinies of the Province have been committed, and on the wisdom and prudence of your deliberations depends its future welfare or decay.

“ Secure in the strength of that Empire of which New Brunswick forms a part, you can look with pity and regret, but without alarm, upon the convulsions which distract and desolate the neighbouring Republic. The future is full of cause for grave anxiety—but, if laying aside all party animosities, all selfish aims, all personal jealousies, you apply yourselves in the spirit, which I doubt not will animate your counsels, to the consideration of the public good, I rest assured that with the support of a patriotic and united Legislature, and a loyal and gallant people, whatever trials may be yet impending will, under God's blessing, manfully be met and successfully be overcome.”

The Honorable Mr. Speaker informed the House, that the Clerk had nominated, subject to the approbation of the House, George Johnston Bliss, Esquire, to the office of Clerk Assistant, which nomination being approved of by the House, Mr. Bliss took his seat.

On motion of Mr. Fisher,

Resolved, That a Committee be appointed on the part of this House, to unite with the Committee of the Honorable the Legislative Council, in the management of the Legislative Library.

Ordered, That Mr. Fisher, Mr. Kerr, and Mr. Gillmor, do compose the said Committee; and further

Ordered, That Mr. Fisher communicate the same to the Council.

On motion of the Honorable Mr. Watters,

Resolved, That a standing Committee be appointed, to whom may be referred all matters affecting the privileges of this House.

Ordered, That the Honorable Mr. Watters, Mr. Fisher, Mr. Allen, Mr. Williston, and Mr. Stevens, do compose the said Committee.

On motion of Mr. Williston,

Resolved, That a Committee be appointed to take into consideration all matters relative to the Fisheries of the Province.

Ordered, That Mr. Williston, Mr. Boyd, Mr. M'Clelan, Mr. Young, and Mr. Jordan, be the Committee for that purpose.

On motion of Mr. S. H. Gilbert,

Ordered, That four hundred copies of His Excellency's Speech be forthwith printed for the use of the Legislature.

On motion of Mr. M'Clelan,

Resolved, That a Committee be appointed to whom shall be referred all matters relating to the Mining interests of the Province.

Ordered, That Mr. M'Clelan, Mr. S. H. Gilbert, Mr. Landry, Mr. Lindsay, and Dr. Dow, do compose the said Committee.

On motion of Mr. M'Clelan,

Resolved, That the Rules, in force during the existence of the late House, for the government of the Assembly, shall govern the proceedings of this House until altered, amended or repealed.

On motion of the Honorable Mr. Watters,

Resolved, That a Committee be appointed to revise the Rules and Regulations for the government of this House, and submit the same for the consideration of the House.

Ordered, That the Honorable Mr. Watters, Mr. Grimmer, and Mr. Kerr, be the Committee for that purpose.

On motion of Mr. Kerr,

Resolved, That a Committee be appointed to whom shall be referred all matters connected with the Public Accounts; with power to bring before them persons and papers.

Ordered, That Mr. Kerr, Mr. Anglin, Mr. Gillmor, Mr. Stevens, and Mr. Skinner, do compose the said Committee.

Mr. Stevens, a Member for the County of Charlotte, then proposed the Address to His Excellency the Lieutenant Governor, in answer to the Speech at the opening of the Session, which he read; and the same being seconded by Mr. Jordan, a Member for the County of Saint John, it was handed into the Chair, where it was again read, and is as followeth:—

To His Excellency The Honorable ARTHUR HAMILTON GORDON, C. M. G., Lieutenant Governor and Commander in Chief of the Province of New Brunswick, &c. &c. &c.

The Humble Address of the House of Assembly.

MAY IT PLEASE YOUR EXCELLENCY,

We, Her Majesty's Faithful Subjects, the Commons of New Brunswick, thank Your Excellency for your Speech at the opening of the present Session.

1. We heard with deep regret of the great calamity which has recently befallen Her Most Gracious Majesty and the Nation, and we unite with Your Excellency and the Loyal People of the British Empire in the expression of our sympathy and condolence with Her Majesty and Her Royal Family in the irreparable loss they have sustained in the death of His Royal Highness the Prince Consort.

2. It is satisfactory to know that the Government of the United States has acquiesced in the just demand of the Imperial Government, requiring the surrender of the persons forcibly taken from under the protection of the British Flag: The promptitude and energy with which Troops were dispatched for the defence of this Province at a time when appearances indicated that our Soil would become the scene of active hostilities, demand the expression of our warmest gratitude and appreciation.

3. We are pleased to learn that the warm reception given by all classes of our population to Her Majesty's Forces on their arrival in this Province, and the generous spirit manifested by the Corporation and Citizens of Saint John in providing them with accommodation, are fully appreciated by Your Excellency and the Major General Commanding Her Majesty's Forces in this Province; and we can assure Your Excellency that the people in other parts of the Province would have acted in a similar spirit if an opportunity had been afforded them.

4. We agree with Your Excellency, that a confident belief has prevailed in the Province that peace would not be disturbed by Foreign aggression; but recent events indicate the imprudence of relying upon this conviction, and have shewn the propriety of a re-organization of our Militia Force. The Report of the distinguished Officers sent from England, when laid before us, will receive our attentive consideration.

5. We agree with Your Excellency that the condition of the Province is on the whole satisfactory. The Harvest has been abundant and the Fisheries productive, and we are pleased to learn that the export of our Lumber has exceeded that of the preceding year. We agree with Your Excellency that the Civil War in the United States has affected most injuriously the commercial interests of the Province, and we concur in the opinion that this depression cannot be materially alleviated until the causes which have produced it cease to exist.

6. It is with great satisfaction we learn that the Imperial Government has agreed to sanction any well considered arrangement for facilitating the commercial intercourse between the different Provinces of British North America; this liberal concession is gratefully recognised, and any measure wisely framed, having for its object the extension of our International Trade, will receive our careful consideration. We thank Your Excellency for having directed the correspondence on this subject to be laid before us.

7. Impressed with the importance of an Inter-Colonial Railway, both to British North America and the Empire at large, we approve of the course adopted by Your Excellency in sending to England a Member of Your Government to co-operate with Delegates from Canada and Nova Scotia, in urging the subject upon the attention of the Imperial Government, and we trust that the expectations expressed by Your Excellency of the advantages likely to result from the adoption of the proposal made will be realized; and we thank Your Excellency for the assurance that when the correspondence, still pending, is terminated, the whole of the papers will be laid before us.

8. We are pleased to learn that the new Copper Coinage for the Province has been completed, and will shortly be put in circulation, and that the Silver Coinage will be available at an early period.

9. We are glad to hear that the Census Returns are nearly completed, and that they exhibit a large increase in our population.

10. We are happy to hear that during the last year our population has been considerably increased by the arrival of Emigrants, and that the labors of the Commissioner appointed last Summer to proceed to Great Britain to induce Emigration, are likely to be attended with successful results.

11. We will direct our attention to the Law relating to Joint Stock Banks, and should it be found to be inefficient to guard the public interests, we will be prepared to give due consideration to any measure calculated to remedy such an evil.

12. We agree with Your Excellency that in view of the probable discovery of Gold in this Province, it will be desirable to consider what amendments may be required in the existing Laws relative to Mines and Minerals.

13. We are gratified to learn that portions of the large tracts of Land which have been surveyed and through which Roads have been partially made, have been taken up for actual settlement and occupied.

14. We regret that the Receipts of the Provincial Railway have fallen short of the Estimate, and agree with Your Excellency that the present calamitous contest in the United States has had the effect of deranging all financial calculations throughout North America.

15. It is gratifying to know that articles, illustrative of the industry and capabilities of this Province, have been selected and contributed, and are now being forwarded to the International Exhibition, to be held in London during the approaching Summer; and that the Exhibition of the natural products and industrial manufactures of New Brunswick, which took place at Sussex Vale in October last, is considered highly creditable to the Province.

16. We thank Your Excellency for having directed the Accounts of the Receipts and Expenditure of the past year, and the Estimates for the current year, to be laid before us. We regret that the Revenue of the past year has fallen short of the Estimate, arising doubtless from the depression under which the Commerce of the Province has labored, but are gratified with the information that all demands upon the Treasury have been promptly met. The causes which contributed to such diminution still unhappily exist, and we are pleased with Your Excellency's assurance that the Estimates have been framed with as much regard to economy as is consistent with the requirements of the Public Service.

17. We are pleased to learn that Your Excellency was gratified with the reception given to you on your arrival in this Province; and we are convinced of Your Excellency's earnest desire to promote the welfare and prosperity of New Brunswick. Enjoying as we do so many blessings, we ought not to be other than a happy and contented people; and we agree with Your Excellency that our future success much depends upon the wisdom and prudence of our deliberations.

On motion of Mr. Stevens,

Ordered, That the House do on Monday the 17th day of February instant, go into consideration of the Address now proposed in answer to the Speech of His Excellency the Lieutenant Governor.

On motion of the Honorable Mr. Tilley,

Ordered, That two hundred copies of the proposed Address in answer to His Excellency's Speech, be forthwith printed for the use of the Legislature.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Lindsay, by leave, presented a Petition from Charles Emmery, Samuel Walton, and G. B. Estey, resident Land owners on the Road leading from the Court House at Woodstock, in the County of Carleton, through the Jacksontown and Williamstown Settlements, and thence on to the River de Chute, praying that the said Road may be placed on the Great Road establishment; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Skinner moved for leave to bring in—A Bill to place the Main Road or Street leading from the City of Saint John to Indian Town, in the Parish of Portland, in the City and County of Saint John, on the Great Road establishment.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Munro,

Resolved, That a Committee be appointed to take into consideration all matters relating to the Lumbering Interests of the Province.

Ordered, That Mr. Munro, Mr. Meahan, Mr. Gillmor, Mr. Montgomery, and Mr. Anglin, be the Committee for that purpose.

On motion of Mr. Williston,

Resolved, That the Rule of the House, requiring the payment of the sum of seven pounds ten shillings on Bills of a private or personal nature, be suspended, to enable him to introduce "A Bill to continue and amend the Act to incorporate the South West Boom Company."

To which Mr. Gillmor moved as an amendment—To expunge the whole thereof, after the word "Resolved," and substitute as follows:—

"That the Rule of the House requiring seven pounds ten shillings to be paid on the introduction of Bills of a private or personal nature, be rescinded."

Upon the question for adopting the amendment, the House divided as follows:—

YEAS.

NAYS.

Hon. Mr. Hatheway,	Mr. W. J. Gilbert,	Hon. Mr. Tilley,	Mr. Skinner,
Mr. Williston,	Fisher,	Hon. Mr. Watters,	Montgomery,
Young,	Ryan,	Hon. Mr. M'Millan,	Dr. Dow,
Stiles,	Jordan,	Hon. Mr. Steadman,	Farris,
Glasier,	Gillmor,	Hon. Mr. Perley,	Lindsay,
Scovil,	Raymond.	Mr. Kerr,	Munro,
		Stevens,	Anglin,
		Meahan,	Grimmer,
		Landry,	Boyd.
		M'Clelan,	

Whereupon it was decided in the negative; and

The question being then taken upon the original Resolution, when the House again divided as follows:—

YEAS.

NAYS.

Mr. Williston,	Mr. Munro,	Hon. Mr. Tilley,	Mr. Montgomery,
Kerr,	Anglin,	Hon. Mr. Watters,	Dr. Dow,
Meahan,	W. J. Gilbert,	Hon. Mr. Steadman,	Fisher,
Young,	Scovil,	Hon. Mr. Perley,	Ryan,
M'Clelan,	Jordan,	Mr. Stevens,	Boyd,
Glasier,	Raymond.	Landry,	Grimmer,
Lindsay,		Skinner,	Gillmor,
		M'Phelim,	Stiles.

And so this was also decided in the negative.

The Honorable Mr. Hatheway, by leave, presented a Petition from David Pugh, Henry Cowperthwaite, and sixty others, inhabitants of the Parish of Douglas, in the County of York, praying for a division thereof into two separate and distinct Parishes; which he read.

Ordered, That the said Petition be received and lie on the Table.

The Honorable Mr. Hatheway, also by leave, presented a Petition from Moses Lawrence, Stephen G. Brewer, and one hundred and fifty others, inhabitants of the Parish of Douglas, praying that a division of the said Parish may not be made; which he read.

Ordered, That this Petition be received and lie on the Table.

Mr. S. H. Gilbert moved for leave to bring in—A Bill to change the present Polling place in the Parish of Cambridge, in Queen's County, and to establish another Polling place in said Parish in lieu thereof.

Leave granted.

The said Bill being brought in was read a first time.

Leave granted.

The said Bill being brought in was read a first time.

The House adjourned until to-morrow morning at 10 o'clock.

Friday, 14th February, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill to regulate the Registering of Deeds and other Instruments made and executed by marksmen or illiterate persons:

A Bill in amendment of and in addition to certain Chapters of Title viii, of the Revised Statutes, "Of the local government of Counties, Towns, and Parishes:"

A Bill for abolishing the punishment of Death in certain cases:

A Bill relating to the admission of Evidence in certain cases:

A Bill to establish an additional Polling place in the Parish of Grand Manan, in the County of Charlotte:

A Bill for establishing and maintaining a Police Force in the Town of Newcastle, in the County of Northumberland:

A Bill to place the Main Road or Street leading from the City of Saint John to Indian Town, in the Parish of Portland, in the City and County of Saint John, on the Great Road establishment:

A Bill to change the present Polling place in the Parish of Cambridge, in Queen's County, and to establish another Polling place in said Parish in lieu thereof: and

A Bill to alter the Division Line of the Parishes of Dundas and Wellington.

Mr. Munro moved for leave to bring in—A Bill to afford greater facilities for obtaining Licences to cut and carry away Lumber from Crown Lands:

Leave granted.

The said Bill being brought in was read a first time.

Mr. Williston moved for leave to bring in—A Bill for the establishment and regulation of Booms for securing Logs and Lumber in the several Rivers in the County of Northumberland.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Williston, by leave, presented a Petition from James Fowler, Daniel Mahoney, B. N. T. Underhill, William O'Brien, Peter Harris, Robert Swim, James Porter, and ninety one others, inhabitants on Cain's River, in the County of Northumberland, and other persons carrying on Lumbering operations on the Stream, praying that an Act may pass incorporating the Cain's River Boom Company; which he read.

Ordered, That the said Petition be received and lie on the Table.

The Honorable Mr. Watters moved for leave to bring in—A Bill respecting Mortgages and Sales of Personal property.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Griumer, by leave, presented a Petition from Robert Thomson, Thomas Barry, James Bolton, and one hundred and seventy five others,

inhabitants of the County of Charlotte, praying that measures may be had for the protection of the Herring and Spawning Grounds at the Southern Head of Grand Manan; which he read.

Ordered, That the said Petition be received and referred to the Committee on the subject of the Fisheries, to report thereon.

Mr. Grimmer, also by leave, presented a Petition from Archibald M'Diarmid, Niel M'Nichol, Angus M'Vicar, and fifty others, inhabitants of the County of Charlotte, praying for an amendment in the Law regulating the erection of Weirs; which he read.

Ordered, That this Petition be received and referred to the same Committee to report thereon.

The Honorable Mr. Watters moved for leave to bring in—A Bill to amend the Law relating to the unlawful administering of Poison.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Lindsay moved for leave to bring in—A Bill to place the Road leading from the Court House in Woodstock, in the County of Carleton, to the River de Chute, on the Great Road establishment.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Grimmer moved for leave to bring in—A Bill to authorize the Justices of the Peace for the County of Charlotte to sell certain Lands in the Parish of Saint Stephen.

Leave granted.

The said Bill being brought in was read a first time.

On motion of the Honorable Mr. Perley,

Ordered, That Mr. Glasier be added to the Committee appointed yesterday to take into consideration all matters relating to the Lumbering Interests of the Province.

Mr. Grimmer moved for leave to bring in—A Bill to alter the time of holding the Circuit Court in the County of Charlotte.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Stevens, from the Committee to whom was referred the subject of the Contingent Expenses of this House, submitted a Report; and he having read the same, it was handed in at the Clerk's Table, and there again read, and is as follows:—

“The Committee appointed to take into consideration the Contingencies of the House, beg leave to submit their first Report.

“The Committee recommend that the sum of Eight Dollars should be allowed to each Member of the House to pay for his necessary Stationery, and that no allowance beyond said sum should be entertained; and that the Clerk obtain only such Stationery as he shall require for his own use and that of his Assistants, and that no Stationery be paid for except furnished on the written order of the Clerk.

“That the sum of Twenty Dollars be paid to each Reporter in lieu of Stationery during the Session.

Respectfully submitted.

JAS. G. STEVENS, *Chairman*.

Committee Room, 14th February, 1862.”

Ordered, That the Report be accepted, and the Committee continued.

Mr. S. H. Gilbert moved for leave to bring in—A Bill in amendment of and in addition to Chapter 61, Title viii, of the Revised Statutes, "Of Fences, Trespasses, and Pounds."

Leave granted.

The House adjourned until to-morrow morning at 10 o'clock.

Saturday, 15th February, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill to afford greater facilities for obtaining Licences to cut and carry away Lumber from Crown Lands :

A Bill for the establishment and regulation of Booms for securing Logs and Lumber in the several Rivers in the County of Northumberland :

A Bill respecting Mortgages and Sales of Personal Property :

A Bill to amend the Law relating to the unlawful administering of Poison :

A Bill to place the Road leading from the Court House in Woodstock, in the County of Carleton, to the River de Chute, on the Great Road establishment :

A Bill to authorize the Justices of the Peace for the County of Charlotte to sell certain Lands in the Parish of Saint Stephen : and

A Bill to alter the time of holding the Circuit Court in the County of Charlotte.

On motion of Mr. Munro,

Ordered, That the Bill before the House—"To afford greater facilities for obtaining Licences to cut and carry away Lumber from Crown Lands,"—and which was read a second time this day, be forthwith printed, and one hundred copies thereof furnished for the use of the Legislature ; and

On like motion of Mr. Munro,

Ordered, That the said Bill be referred to the Committee appointed on the 13th instant to take into consideration all matters relating to the Lumbering Interests of the Province, to report thereon ; and

On motion of Mr. S. H. Gilbert,

Ordered, That Mr. Farris be added to the said Committee.

Mr. Williston, by leave, presented a Petition from Messieurs Gilmour, Rankin and Company, J. H. and J. Harding, William J. Fraser and Company, M'Laggan and Park, John Haws, and seventeen others, Merchants and persons engaged in the Lumber Trade on the River Miramichi, praying that an Act may pass incorporating a Company for the erection of Booms across the North West Branch of the said River ; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Stevens moved for leave to bring in—A Bill for the consolidation of the Laws relating to Highways.

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Watters moved for leave to bring in—A Bill to continue an Act intituled "An Act to prevent the spread of a Disorder now existing in certain parts of the Counties of Gloucester and Northumberland."

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Watters also moved for leave to bring in—A Bill to continue an Act intituled “An Act to encourage the destruction of Wolves in this Province.”

Leave granted.

The said Bill being brought in was read a first time.

Mr. W. J. Gilbert moved for leave to bring in—A Bill making void all Notes and other securities given to Attorneys for untaxed Bills of Costs and Charges.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Boyd moved for leave to bring in—A Bill to prevent the use of abusive language within this Province.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Young moved for leave to bring in—A Bill to establish the Road leading from the Way Office in the Parish of Caraquet, in the County of Gloucester, to the Saint Simon Ferry in said Parish, and from thence to Shipegan, in the said County, as one of the Great Roads of communication.

Leave granted.

The said Bill being brought in was read a first time.

Dr. Dow, by leave, presented a Petition from Bernard Elliott, Samuel Wilkinson, and one hundred others, of the Parish of Stanley, in the County of York, praying that the Road leading from William Plant's at the mouth of the Tay Creek, and passing through the Stanley Settlement, may be placed upon the Great Road establishment; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. S. H. Gilbert, pursuant to leave granted, brought in—A Bill in amendment of and in addition to Chapter 61, Title viii, of the Revised Statutes, “Of Fences, Trespasses, and Pounds;” which was read a first time.

Mr. Williston moved for leave to bring in—A Bill to continue and amend the Act to incorporate the South West Boom Company.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Williston also moved for leave to bring in—A Bill to incorporate the North West Boom Company.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Williston also moved for leave to bring in—A Bill to incorporate the Cain's River Boom Company.

Leave granted.

The said Bill being brought in was read a first time.

The House adjourned until Monday morning next at 10 o'clock.

Monday, 17th February, 1862.*Prayers.*

Read a second time the following Bills, viz:—

A Bill for the consolidation of the Laws relating to Highways :

A Bill to continue an Act intituled "An Act to prevent the spread of a Disorder now existing in certain parts of the Counties of Gloucester and Northumberland :"

A Bill to continue an Act intituled "An Act to encourage the destruction of Wolves in this Province :"

A Bill making void all Notes and other securities given to Attorneys for untaxed Bills of Costs and Charges :

A Bill to prevent the use of abusive language within this Province :

A Bill to establish the Road leading from the Way Office in the Parish of Caraquet, in the County of Gloucester, to the Saint Simon Ferry, in the said Parish, and from thence to Shipegan, in the said County, as one of the Great Roads of communication :

A Bill in amendment of and in addition to Chapter 61, Title viii, of the Revised Statutes, "Of Fences, Trespasses, and Pounds :"

A Bill to continue and amend the Act to incorporate the South West Boom Company :

A Bill to incorporate the North West Boom Company : and

A Bill to incorporate the Cain's River Boom Company.

The Honorable Mr. Watters moved for leave to bring in—A Bill to continue certain Acts of Assembly relating to the destruction of Bears in this Province.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Ryan, from the Committee to whom was referred the subject of Reporting the Debates of this House, submitted the following Report:—

"The Committee appointed on the 12th February instant, to make arrangements for Reporting and Publishing the Debates of the present Session, report—

"That they are unable to agree upon any recommendation on the subject, and therefore request to be discharged.

"Respectfully submitted.

JOHN C. ALLEN,
GEORGE RYAN,
A. R. McCLELAN.

Committee Room, 17th February, 1862."

Ordered, That the Report be accepted, and the request of the Committee as expressed in their Report adopted, and the Committee discharged ; and

On motion of Mr. Munro,

Ordered, That a Committee be appointed to make arrangements for Reporting and Publishing the Debates of this House.

Ordered, That Mr. Munro, Mr. Gillmor, and Mr. Young, do compose the said Committee.

Mr. Anglin, by leave, presented a Petition from Samuel Strange, William Olive, James Olive, 3rd, Charles Ketchum, John C. Littlehale, W. E. Dunham, Joseph Coram, Joseph Beateay, James Quinton, and Josiah Adams, Esquires, together with G. J. Harding, Esquire, M.D., William Beateay, and four hundred and fifty two others, Magistrates, Freeman, and Inhabitants of Carleton, in the City of Saint John, praying that no Act may pass

to deprive them of the Fisheries, or appropriate the proceeds of the same for any other purpose than for the sole use and benefit of the Freemen and Inhabitants of the west side of the Harbour, as was originally granted; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Stevens,

That the House proceed to the Order of the Day of the 12th day of February instant, to go into consideration of the proposed Address to His Excellency the Lieutenant Governor, in answer to the Speech at the opening of the Session.

The Order of the Day being read, the House according thereto went into consideration of the said Address, when it was read from the Chair throughout, and the House took the same up Paragraph by Paragraph, and proceeded therein to the fourteenth Paragraph thereof, and which is as followeth:—

“14. We regret that the Receipts of the Provincial Railway have fallen short of the Estimate, and agree with Your Excellency that the present calamitous contest in the United States has had the effect of deranging all financial calculations throughout North America.”

To which Mr. Anglin moved as an amendment—To expunge all that part thereof after the word “Estimate.”

The question being taken upon the proposed amendment, the House divided—

YEAS 8.

NAYS 26.

Whereupon it was decided in the negative.

Upon the question being then taken on the original Paragraph, the House again divided—

YEAS 22.

NAYS 13.

And so it was carried in the affirmative, and the Paragraph adopted.

The House then having gone through the remaining Paragraphs, agreed to the Address without amendment.

On motion of Mr. Stevens,

Ordered, That the Address be engrossed, signed by the Speaker, and presented to His Excellency by the whole House; and

On like motion of Mr. Stevens,

Resolved, That a Committee be appointed to wait upon His Excellency, to be informed when he will be pleased to receive the House therewith; and

Ordered, That Mr. Stevens, Mr. Kerr, and Mr. Skinner, be a Committee for that purpose.

The Honorable Mr. Watters, from the Committee to whom was referred the subject of a revision of the Rules for the government of this Assembly, submitted their Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

“The Committee appointed on the first day of the present Session, to revise the Rules and Regulations for the government of the House, have attended to that duty, and beg leave to submit the following Rules.

“Respectfully submitted.

CHARLES WATTERS,
GEORGE KERR,
G. S. GRIMMER.

Rules for the government of the House of Assembly.

1. That Prayers be read every day by the Chaplain, at the first opening thereof.
2. That the Journal of the preceding day be always read before any other business is taken up.
3. That the Sergeant at Arms do not permit any person to come within the House while it is sitting, except the officers attending.
4. That the Speaker shall not take the Chair for the purpose of proceeding with the business of the House, except to receive the Usher of the Black Rod, or Message from the Legislative Council, or to enforce the attendance of Members, or for the purpose of adjournment, unless at least fourteen Members, including the Speaker, be present.
5. No Member shall come into the House, or move from place to place, with his hat on.
6. While the House is sitting, and any Member is speaking, no Member shall speak or whisper so as to interrupt him, unless it be to speak to order.
7. When any Member intends to speak, he must stand up in his place and address the Speaker; and if more than one rises, the Speaker shall determine who is up first, and the Member named by him may speak.
8. No Member shall stand while another is speaking.
9. When any subject is being debated, if any Member rises to speak to another subject, any Member may, but the Speaker should call him to order.
10. When any Member or the Speaker speaks to order, the question of order must be decided previously to the subject under discussion being proceeded in.
11. When any question is called for, and a decision demanded, the Members voting in the affirmative will rise.
12. When a motion is made and seconded, it must be determined by the question, unless it is withdrawn by the mover, or the previous question or adjournment be moved and carried.
13. When any motion is put from the Chair, and an amendment is moved thereto, no amendment to such amendment shall be put.
14. When a motion is made and seconded, the Member's name who made the motion must be inserted in the Journal.
15. After a question is propounded, no Member shall speak more than once to the matter, except the mover, who shall be allowed the general reply; and no Member shall speak more than half an hour on any subject, unless by express permission of the House.
16. When a question is decided by vote, the number of both the affirmative and negative shall be inserted in the Journal, and also the Members names if insisted upon by two or more Members.
17. That all persons questioning the return of any Member or Members to serve in General Assembly, shall do so by presenting or causing to be presented a Petition setting forth the grounds of objection, on or before the fourteenth day after the first day of the next meeting of the Legislature, including the day of meeting; and in the event of any future Election to fill any vacancy or vacancies that may from time to time occur during the existence of the present House, any person or persons questioning the return of any Member or Members to fill such vacancy or vacancies, shall do so in like manner within fourteen days after the return of the Writ of Election, or within fourteen days after the first day of the then next meeting of this House after such return, including the day of meeting.

18. That the House will not enter into any Scrutiny, unless a Scrutiny was duly demanded of the Sheriff.

19. That any Member presenting a Petition shall, in his place, acquaint the House with the general purport of the Petition, and ask leave for it to be read, which must be seconded before it is read.

20. No Member shall be allowed to act as Attorney or Counsel in any matter pending before the House.

21. That every Member be heard in his place touching any charge brought against him on any matter respecting his Election, Return, or Privilege, or whenever his private interest is affected, but shall withdraw before the House proceed therein.

22. That in case of any offensive matter occurring in debate, the same may be immediately taken down in writing by any Member, and noticed in the House the same day, otherwise it shall not afterwards be considered by the House.

23. That all Orders of the Day, which by reason of any other business or adjournment shall not have been proceeded in, shall be considered only as postponed till the next day on which the House shall sit, and so on from day to day.

24. That no Member of the House shall, upon any pretence whatever, either go to the Legislative Council, or answer in writing, or appear by Counsel to answer any accusation there, upon the penalty of being committed to the Sergeant at Arms, or to Prison, during the pleasure of the House.

25. That no Bill of a private or local nature shall be received by the House, unless, such Bill shall have been previously read at the Assizes, or at some General Sessions of the Peace for the County or City and County interested in such Bill, in the presence of the Grand Jury, and a certificate be endorsed thereon by the Clerk of the Court, that the same was so read; or unless such Bill in incorporated Counties has been previously read before the County Council, and a certificate thereof endorsed thereon by the Secretary Treasurer; or unless such Bill has been previously published four times in some of the Newspapers published in the County interested in such Bill; when no Newspaper is published in such County, in some Newspaper published in the nearest adjoining County, or in the Royal Gazette.

26. That no Bill of a private nature shall be received by the House after the fourteenth day from the opening of the Session, both inclusive, and that the Clerk of this House do, one month previous to the Meeting of the Legislature, cause fifty copies of this Rule to be sent to each of the Clerks of the Peace in the several Counties for distribution, and cause the same to be inserted in the Royal Gazette, and two Newspapers in such County where Newspapers are published.

27. That no Bill of a private or personal nature shall be received, unless it shall be certified that the sum of seven pounds ten shillings has been paid into the hands of the Deputy Receiver General towards defraying the printing and other contingent expenses of the House; but where such sum has been paid, and the Bill shall have passed the House, but shall not have become Law, the parties interested shall not be required to pay again upon the Bill being introduced a second time.

28. That there be at least two days notice of going into Committee in consideration of Supplies to be granted for the Public Service; and a like notice when again going into Committee after every report of progress, when leave to sit again on a particular day is not asked.

29. When the House adjourns, and no particular day is named for the House to be adjourned to, it shall be considered as adjourned to the hour of ten o'clock, A. M. of the next day.

30. That no Petition for any money or supply, or for relief from debts or claims due to the Crown, be received or considered by the House, unless recommended by the Government.

31. That no motion for an Address to the Lieutenant Governor, praying for the issue of money, or directly or indirectly involving any charge on the Treasury, shall be entertained, unless the same shall have been considered and recommended by the House in Committee of the whole.

32. All notices of moving the House into consideration of any public Bill, Address, or Resolution, shall be entered in a Book to be kept by the Clerk for that purpose, with the name of the Member intending to move the same, the date of entry, and the day on which the same is intended to be moved, and shall be at least two days from the day of entering such notice.

33. That the Rules of proceedings in the House shall be observed in Committee of the whole House, so far as they may be applicable; and no Member shall speak twice on any question, until every Member choosing to speak shall have spoken.

Ordered, That the Report be accepted; and

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole in consideration of the same.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having before them the Rules prepared by the Select Committee, had agreed to the same; and further, that in the Committee the following additional Rule was moved and agreed to, and to stand as the thirty fourth Rule:—

34. Whenever the House shall be informed of the unavoidable absence of Mr. Speaker, the Chairman of Supply is to take the Chair for that day only; and in the event of Mr. Speaker's absence continuing for more than one day, is, if the House shall think fit, to take the Chair in like manner on any subsequent day during such absence.

Ordered, That the Report be accepted; and further

Ordered, That the Rules submitted by the Select Committee, together with the additional Rule, No. 34, now reported from the Committee of the whole House, be adopted, and that they stand as the Rules and Regulations for the government of this House.

The House adjourned until to-morrow morning at 10 o'clock.

Tuesday, 18th February, 1862.

Prayers.

The Honorable William J. Ritchie, one of the Commissioners named in Commission for the duly qualifying the Members of this House returned at the last Election, attended at the Clerk's Table, and administered the oath to Edwin Arnold Vail, Esquire, a Member for the County of King's County, who subscribed his name thereto, and took his Seat.

Read a second time—

A Bill to continue certain Acts of Assembly relating to the destruction of Bears in this Province.

Mr. Williston moved for leave to bring in—A Bill to authorize the Trustees of Saint Andrews Church, Chatham, in connexion with the Church of Scotland, to sell and dispose of certain Real Estate in the County of Northumberland, devised in trust by the last Will of William Kirkpatrick, deceased, and to reinvest the proceeds for the purposes in such Will mentioned.

Leave granted.

The said Bill being brought in was read a first time.

Mr. S. H. Gilbert moved for leave to bring in—A Bill to establish the Road leading from Burpe's Mill, in the County of Sunbury, via Swan Creek, to the Village of Gagetown, as one of the Great Roads of communication in this Province.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. M'Phelim,

Whereas the employment of a Law Clerk by the House, whose duty it shall be to prepare and examine all Bills before they are introduced, would be of paramount advantage, save much time, besides being a guard against hasty legislation; therefore

Resolved, As the opinion of this House, that a Law Clerk be employed.

Upon the question for sustaining this Resolution, the House divided as follows:—

YEAS.

Hon. Mr. Watters,	Mr. M'Phelim,
Hon. Mr. M'Millan,	Glasier,
Hon. Mr. Hatheway,	Farris,
Hon. Mr. Perley,	Lindsay,
Mr. Meahan,	Montgomery,
Vail,	Dr. Dow,
Young,	Jordan,
M'Clelan,	Gillmor,
Stiles,	Boyd.

NAYS.

Mr. Stevens,	Mr. Munro,
Kerr,	Anglin,
Williston,	S. H. Gilbert,
Raymond,	W. J. Gilbert,
Costigan,	Scovil,
Landry,	Ryan,
Skinner,	Grimmer.
Allen,	

And so it was carried in the affirmative.

On motion of Mr. W. J. Gilbert,

Resolved, That the Resolution of the House of the 13th day of February instant, which authorized the Committee appointed on the previous day to make arrangements for the printing and publishing the Debates of this House, to arrange for the printing and publishing of a portion thereof in the French language, be referred to the Committee of yesterday for making such arrangements.

Mr. Lindsay moved for leave to bring in—A Bill relating to Sales of Lands for non-payment of Taxes.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Stevens, from the Committee appointed to wait upon His Excellency the Lieutenant Governor, to ascertain at what time His Excellency would be pleased to receive the House with their Address in answer to the Speech at the opening of the Session, reported—That they had attended to that duty, and His Excellency was pleased to say, that he would receive the House therewith at the hour of half past two o'clock to-morrow, at Government House.

On motion of Mr. M'Phelim,
Resolved, That William End, Esquire, be appointed Law Clerk to this House.

Upon the question for sustaining this Resolution, the House divided as follows:—

YEAS.		NAYS.	
Hon. Mr. Tilley,	Mr. Glasier,	Mr. Stevens,	Mr. Anglin,
Hon. Mr. Watters,	Farris,	Williston,	W. J. Gilbert,
Hon. Mr. Steadman,	Lindsay,	Raymond,	Seovil,
Hon. Mr. Hatheway,	Munro,	Costigan,	Vail,
Hon. Mr. Perley,	Montgomery,	Landry,	Ryan.
Mr. Kerr,	Dr. Dow,	Skinner,	
Meahan,	S. H. Gilbert,		
Young,	Jordan,		
M'Clelan,	Grimmer,		
Allen,	Gillmor,		
Stiles,	Boyd.		
M'Phelim,			

And so it was carried in the affirmative.

Mr. W. J. Gilbert moved for leave to bring in—A Bill to cheapen and simplify the Practice of the Law, and to abolish Special Bail.

Leave granted.

The said Bill being brought in was read a first time; when

Mr. W. J. Gilbert moved the following:—

Ordered, That one hundred copies of the said Bill be forthwith printed for the use of the Legislature; and

Upon the question for adopting the same the House divided—

YEAS 19.

NAYS 8.

And it was thereupon carried in the affirmative.

Mr. Farris moved for leave to bring in—A Bill in addition to Chapter 93, Title xvii, of the Revised Statutes “Of the Measurement of Firewood and Bark.”

Leave granted.

The said Bill being brought in was read a first time.

Mr. Munro, from the Committee appointed yesterday with instructions to make arrangements for Reporting and Publishing the Debates of the House, reported—

“That the Committee having met, had entered into an agreement with Thomas M'Henry, of the City of Saint John, to perform the work for the sum of one thousand and sixty dollars; the same to be printed on imperial quarto paper, with three columns on each page, the type, workmanship, and paper to be in all respects equal to the published Debates of 1861, to be furnished in parcels of fifty copies, and delivered to such person or persons, and at such places as the Committee may direct, and the sheets to be properly cut previous to delivery; the days for the delivery to be on Tuesdays, Thursdays, and Saturdays of each week, and the whole work to be completed within eight days after the prorogation of the Assembly”—And he submitted the agreement entered into with Mr. M'Henry, which is ordered to be placed on the files of the House; and

The Chairman further reported, that he was directed to request that the powers of the Committee be continued.

Ordered, That the Report be accepted and adopted, and the Committee continued to enable them to report further upon the matters referred for their consideration.

Mr. M'Phelim moved for leave to bring in—A Bill to amend the Act to regulate the Election of Members to serve in the General Assembly.

Leave granted.

The said Bill being brought in was read a first time.

The House adjourned until to-morrow morning at 10 o'clock.

Wednesday, 19th February, 1862.

Prayers.

The Honorable William J. Ritchie, one of the Commissioners named in the Commission for the duly qualifying the Members of this House returned at the last Election, attended at the Clerk's Table, and administered the oath to John W. Cudlip, Esquire, a Member for the County of Saint John, who subscribed his name thereto, and took his Seat.

Read a second time the following Bills, viz :—

A Bill to authorize the Trustees of Saint Andrews Church, Chatham, in connexion with the Church of Scotland, to sell and dispose of certain Real Estate in the County of Northumberland, divided in Trust by the last Will of William Kirkpatrick, deceased, and to reinvest the proceeds for the purposes in such Will mentioned :

A Bill to establish the Road leading from Burpe's Mill, in the County of Sunbury, via Swan Creek, to the Village of Gagetown, as one of the Great Roads of communication in this Province :

A Bill relating to Sales of Lands for non-payment of Taxes :

A Bill to cheapen and simplify the Practice of the Law, and to abolish Special Bail :

A Bill in addition to Chapter 93, Title xvii, of the Revised Statutes, "Of the Measurement of Firewood and Bark:" and

A Bill to amend the Act to regulate the Election of Members to serve in the General Assembly.

On motion of Mr. Lindsay,

Ordered, That the Bill before the House "relating to Sales of Lands for non-payment of Taxes," be forthwith printed, and one hundred copies thereof furnished for the use of the Legislature.

Mr. Munro moved for leave to bring in—A Bill to alter the Division Line between the Parishes of Northampton and Brighton, in the County of Carleton.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Williston, by leave, presented a Petition from Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and eleven others, Electors of the County of Carleton, against the Election and Return of William Lindsay, Esquire, as a Member for the said County; which he read.

Ordered, That the said Petition be received and lie on the Table; and

On motion of Mr. Williston,

Ordered, That the House do on Tuesday the 25th day of February instant, at the hour of ten o'clock in the forenoon of the same day, take into con-

sideration the several matters contained in the Petition of Peter R. McMonagle, George T. Hartley, Gilbert Spurr, and eleven others, which was presented to the House on this day, against the Election and Return of William Lindsay, Esquire, as a Member for the County of Carleton.

It being the time appointed by His Excellency the Lieutenant Governor to receive the House with their Address, in answer to His Excellency's Speech at the opening of the Session, the House attended upon His Excellency at Government House, and presented the same, which is as followeth:—

To His Excellency The Honorable ARTHUR HAMILTON GORDON, C. M. G., Lieutenant Governor and Commander in Chief of the Province of New Brunswick, &c. &c. &c.

The Humble Address of the House of Assembly.

MAY IT PLEASE YOUR EXCELLENCY,

We, Her Majesty's Faithful Subjects, the Commons of New Brunswick, thank Your Excellency for your Speech at the opening of the present Session.

We heard with deep regret of the great calamity which has recently befallen Her Most Gracious Majesty and the Nation, and we unite with Your Excellency and the Loyal People of the British Empire in the expression of our sympathy and condolence with Her Majesty and Her Royal Family in the irreparable loss they have sustained in the death of His Royal Highness the Prince Consort.

It is satisfactory to know that the Government of the United States has acquiesced in the just demand of the Imperial Government, requiring the surrender of the persons forcibly taken from under the protection of the British Flag: The promptitude and energy with which Troops were dispatched for the defence of this Province at a time when appearances indicated that our Soil would become the scene of active hostilities, demand the expression of our warmest gratitude and appreciation.

We are pleased to learn that the warm reception given by all classes of our population to Her Majesty's Forces on their arrival in this Province, and the generous spirit manifested by the Corporation and Citizens of Saint John in providing them with accommodation, are fully appreciated by Your Excellency and the Major General Commanding Her Majesty's Forces in this Province; and we can assure Your Excellency that the people in other parts of the Province would have acted in a similar spirit if an opportunity had been afforded them.

We agree with Your Excellency, that a confident belief has prevailed in the Province that peace would not be disturbed by Foreign aggression; but recent events indicate the imprudence of relying upon this conviction, and have shewn the propriety of a re-organization of our Militia Force. The Report of the distinguished Officers sent from England, when laid before us, will receive our attentive consideration.

We agree with Your Excellency that the condition of the Province is on the whole satisfactory. The Harvest has been abundant and the Fisheries productive, and we are pleased to learn that the export of our Lumber has exceeded that of the preceding year. We agree with Your Excellency that the Civil War in the United States has affected most injuriously the commercial interests of the Province, and we concur in the opinion that this depression cannot be materially alleviated until the causes which have produced it cease to exist.

It is with great satisfaction we learn that the Imperial Government has agreed to sanction any well considered arrangement for facilitating the commercial intercourse between the different Provinces of British North America; this liberal concession is gratefully recognised, and any measure wisely framed, having for its object the extension of our International Trade, will receive our careful consideration. We thank Your Excellency for having directed the correspondence on this subject to be laid before us.

Impressed with the importance of an Inter-Colonial Railway, both to British North America and the Empire at large, we approve of the course adopted by Your Excellency in sending to England a Member of Your Government to co-operate with Delegates from Canada and Nova Scotia, in urging the subject upon the attention of the Imperial Government, and we trust that the expectations expressed by Your Excellency of the advantages likely to result from the adoption of the proposal made will be realized; and we thank Your Excellency for the assurance that when the correspondence, still pending, is terminated, the whole of the papers will be laid before us.

We are pleased to learn that the new Copper Coinage for the Province has been completed, and will shortly be put in circulation, and that the Silver Coinage will be available at an early period.

We are glad to hear that the Census Returns are nearly completed, and that they exhibit a large increase in our population.

We are happy to hear that during the last year our population has been considerably increased by the arrival of Emigrants, and that the labors of the Commissioner appointed last Summer to proceed to Great Britain to induce Emigration, are likely to be attended with successful results.

We will direct our attention to the Law relating to Joint Stock Banks, and should it be found to be inefficient to guard the public interests, we will be prepared to give due consideration to any measure calculated to remedy such an evil.

We agree with Your Excellency that in view of the probable discovery of Gold in this Province, it will be desirable to consider what amendments may be required in the existing Laws relative to Mines and Minerals.

We are gratified to learn that portions of the large tracts of Land which have been surveyed and through which Roads have been partially made, have been taken up for actual settlement and occupied.

We regret that the Receipts of the Provincial Railway have fallen short of the Estimate, and agree with Your Excellency that the present calamitous contest in the United States has had the effect of deranging all financial calculations throughout North America.

It is gratifying to know that articles, illustrative of the industry and capabilities of this Province, have been selected and contributed, and are now being forwarded to the International Exhibition, to be held in London during the approaching Summer; and that the Exhibition of the natural products and industrial manufactures of New Brunswick, which took place at Sussex Vale in October last, is considered highly creditable to the Province.

We thank Your Excellency for having directed the Accounts of the Receipts and Expenditure of the past year, and the Estimates for the current year, to be laid before us. We regret that the Revenue of the past year has fallen short of the Estimate, arising doubtless from the depression under which the Commerce of the Province has labored, but are gratified with the information that all demands upon the Treasury have been promptly met. The causes which contributed to such diminution still unhappily exist, and we are pleased with Your Excellency's assurance that the Estimates have

been framed with as much regard to economy as is consistent with the requirements of the Public Service.

We are pleased to learn that Your Excellency was gratified with the reception given to you on your arrival in this Province; and we are convinced of Your Excellency's earnest desire to promote the welfare and prosperity of New Brunswick. Enjoying as we do so many blessings, we ought not to be other than a happy and contented people; and we agree with Your Excellency that our future success much depends upon the wisdom and prudence of our deliberations.

J. M. JOHNSON, *Speaker*.

And being returned—

The Honorable Mr. Speaker reported—That His Excellency had been pleased to make the following Reply:—

“*Mr. Speaker, and Gentlemen of the House of Assembly,*

“I thank you for your loyal Address, and entertain no doubt of your desire to promote the welfare of the Province by your deliberations.”

Mr. Munro, from the Committee appointed on the 17th day of February instant, with instructions to make arrangements for Reporting and Publishing the Debates of the House, and to which Committee was referred the subject of the publication of a portion thereof in the French Language, reported—“That the Committee had again met, and, in view of the vote of the House sanctioning such expenditure, had accepted the proposal of Mr. James Hogg, to translate, print, publish, and deliver, as directed by the Committee, Five hundred copies of the Debates in the French Language, to the extent of one third the matter contained in the English copies of the Debates, for the sum of seven hundred dollars, being one hundred dollars less than the sum heretofore granted for a similar service, which the Committee recommend should be adopted,”—And submits the proposition of Mr. Hogg, as accepted by the Committee, and which is ordered to be placed on the files of the House.

And he further reported, that he was directed to request that the powers of the Committee be continued.

Ordered, That the Report be accepted, and the Committee continued to enable them to report further upon the matters referred for their consideration; and

On motion of the Honorable Mr. Hatheway,

The House went into Committee of the whole in consideration of the said Report.

The Honorable Mr. Watters in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the matter referred to them under their consideration, the following Resolution was moved:—

“*Resolved,* As the opinion of this Committee, that the Report of the Committee relative to the reporting, printing, and publishing the Debates in the French language, be adopted.”

And upon the question for adopting the Resolution, the Committee divided as follows:—

YEAS.

Hon. Mr. Speaker,	Mr. Glasier,
Mr. Meahan,	Munro,
Williston,	Dr. Dow,
Raymond,	Anglin,
Landry,	S. H. Gilbert,
Young,	W. J. Gilbert,
M'Phelim,	Gillmor.
Stiles,	

NAYS.

Hon. Mr. Tilley,	Mr. Farris,
Hon. Mr. M'Millan,	Lindsay,
Hon. Mr. Hatheway,	Montgomery,
Mr. Kerr,	Fisher,
Stevens,	Ryan,
Vail,	Cudlip,
Costigan,	Jordan,
M'Clelan,	Grimmer,
Skinner,	Boyd.
Scovil,	

Whereupon it was decided in the negative.

Ordered, That the Report be accepted.

The House adjourned until to-morrow morning at 10 o'clock.

Thursday, 20th February, 1862.

Prayers.

Read a second time—

A Bill to alter the Division line between the Parishes of Northampton and Brighton, in the County of Carleton.

On motion of the Honorable Mr. Watters,

Resolved That copies of all Bills and Petitions now before the House, or which may hereafter be introduced or presented during the present Session, having for their object the placing of certain Roads on the Great Road establishment, be furnished to the Chief Commissioner of the Board of Works, to report thereon.

Mr. Ferris, by leave, presented a Petition from Thomas Harrison, Esquire, together with Asa Smith, John H. Brown, and one hundred others, inhabitants of the Parish of Hampstead, in Queen's County, praying for an amendment in the existing law regulating the measurement of Firewood and Bark, as may apply to the City of Saint John; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Grimmer moved for leave to bring in—A Bill to authorize the Justices of the Peace for the County of Charlotte to assess the inhabitants of the Parish of Saint Stephens for the erection of a Town Hall in and for the said Parish.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Williston,

The House went into committee of the whole on—A Bill for establishing a Police Force in the Town of Newcastle, in the County of Northumberland.

Mr. Allen in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. S. H. Gilbert,

The House went into Committee of the whole on—A Bill to change the present Polling place in the Parish of Cambridge, in Queen's County, and to establish another Polling place in lieu thereof.

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Kerr,

The House went into Committee of the whole on—A Bill relating to the settlement and support of the Poor of this Province.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Stevens,

The House went into Committee of the whole on—A Bill to establish an additional Polling place in the Parish of Grand Manan, in the County of Charlotte.

Mr. S. H. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

Mr. Grimmer, by leave, presented a Petition from Charles Brown, Esquire, together with James Hamilton, James E. Simmons, and nineteen others, Electors of the County of Sunbury, against the Election and Return of John Glasier, Esquire, as a Member for the said County; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Grimmer,

Ordered, That the House do on Saturday the 1st day of March next, at the hour of eleven o'clock in the forenoon of the same day, take into consideration the several matters contained in the Petition of Charles Brown, Esquire, James Hamilton, James E. Simmons, and others, which was presented to the House on this day, complaining of the undue Election and Return of John Glasier, Esquire, as a Member for the County of Sunbury.

On motion of Mr. Stevens,

The House went into Committee of the whole on—A Bill relating to the admission of Evidence in certain cases.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Grimmer,

The House went into Committee of the whole on—A Bill to authorize the Justices of the Peace for the County of Charlotte to sell certain Lands in the Parish of Saint Stephens.

Mr. Williston in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted; and

On motion of Mr. Grimmer,

Resolved, That the said Bill be referred to a Select Committee to examine and report thereon; and

Ordered, That Mr. Grimmer, the Honorable Mr. Watters, Mr. Kerr, Mr. Williston, and Mr. Stevens, do compose the said Committee; and

On motion of Mr. Williston,

Ordered, That the Bill "to authorize the Trustees of Saint Andrews Church, Chatham, in connexion with the Church of Scotland, to sell and dispose of certain Real Estate in the County of Northumberland, devised in Trust by the last Will of William Kirkpatrick, deceased, and to re-invest the proceeds for the purposes in such Will mentioned;" be referred to the same Committee to report thereon.

Mr. Costigan moved for leave to bring in—A Bill to set off parts of the Parishes of Saint Leonard, Grand Falls, and Perth, in the County of Victoria, into a new or separate Parish.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Costigan also moved for leave to bring in—A Bill to alter the Boundary Line between the Parishes of Grand Falls and Saint Leonard, in the County of Victoria.

Leave granted.

The said Bill being brought in was read a first time.

Mr. McPhelim moved for leave to bring in—A Bill to increase the Representation of certain Counties.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Young,

Whereas the House has been informed by the Report of a Committee appointed by this House for publishing a Translation of the Debates in the French Language, that a Tender has been received from Mr. James Hogg, to prepare and publish such translation for the sum of seven hundred dollars; therefore

Resolved, That the Tender of Mr. James Hogg be accepted.

Upon the question for adopting this Resolution, the House divided as follows:—

YEAS.

Hon. Mr. Watters,	Mr. M'Phelim,
Hon. Mr. Steadman,	Glazier,
Mr. Meahan,	Munro,
Williston,	Dr. Dow,
Raymond,	Anglin,
Landry,	S. H. Gilbert,
Young,	W. J. Gilbert.

NAYS.

Hon. Mr. Tilley,	Mr. Stiles,
Hon. Mr. Perley,	Farris,
Mr. Kerr,	Lindsay,
Stevens,	Fisher,
Costigan,	Ryan,
M'Clelan,	Jordan,
Skinner,	Grimmer.

And the division being equal, the Honorable Mr. Speaker decided in the negative.

Mr. M'Phelim moved for leave to bring in—A Bill to change the Constitution of the Legislative Council by rendering the same Elective.

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Watters moved for leave to bring in—A Bill to continue Chapters 26, 27, 28, and 29, Title iii, of the Revised Statutes, "Of the Public Revenue."

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Watters also moved for leave to bring in—A Bill for the better preventing the fraudulent use of false Invoices for Customs purposes.

Leave granted.

The said Bill being brought in was read a first time.

A Message from His Excellency the Lieutenant Governor.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, by command of His Excellency, delivered the following Message:—

"New Brunswick.

"Message to the House of Assembly, 20th February, 1862.

"ARTHUR H. GORDON.

"His Excellency the Lieutenant Governor lays before the House of Assembly, copies of Correspondence relative to the Defence of this Province, and the arrival of Troops, viz:—

1. Despatch from the Secretary of State to the Lieutenant Governor, dated 7th December, 1861:
2. Despatch from the Lieutenant Governor to the Secretary of State, dated 23rd December, 1861:
3. Despatch from the Lieutenant Governor to the Secretary of State, dated 31st December, 1861, (with enclosures):
4. Despatch from the Secretary of State to the Lieutenant Governor, dated 24th January 1862:
5. Despatch from the Lieutenant Governor to the Secretary of State, dated 4th January 1862:
6. Despatch from the Secretary of State to the Lieutenant Governor, dated 25th January 1862.

"Also, Copies of a Correspondence relative to the adoption of a Decimal System of Coinage, viz:—

1. Despatch from the Lieutenant Governor to the Secretary of State, dated 10th December, 1859, (with enclosure):

2. Despatch from the Lieutenant Governor to the Secretary of State, dated 25th June, 1860, (with Enclosure) :

3. Despatch from the Secretary of State to the Lieutenant Governor, dated 16th October, 1860 :

4. Despatch from the Lieutenant Governor to the Secretary of State, dated 10th November, 1860, (with Enclosure) :

5. Despatch from the Lieutenant Governor to the Secretary of State, dated 19th January 1861, (with two Enclosures) :

6. Despatch from the Secretary of State to the Lieutenant Governor, dated 13th February, 1861 :

7. Despatch from the Secretary of State to the Lieutenant Governor, dated 28th December, 1861, (with Enclosure.) -

“ Also, Copies of Correspondence relative to the promotion of Commercial Intercourse between the Provinces of British North America, viz :—

1. Despatch from the Lieutenant Governor to the Secretary of State, dated 3rd December, 1859, (with Enclosure) :

2. Despatch from the Secretary of State to the Lieutenant Governor, dated 8th April 1860, (with Enclosure) :

3. Despatch from the Lieutenant Governor to the Secretary of State, dated 27th September, 1861, (with Enclosure) :

4. Despatch from the Secretary of State to the Lieutenant Governor, dated 5th November, 1861.

A. H. G.

The Documents communicated by this Message were read at the Clerk's Table, and are as follow :—

DEFENCE OF PROVINCE AND ARRIVAL OF TROOPS.

Downing Street, 7th December, 1861.

SIR,—You have already learned from other sources the events which place in jeopardy the friendly relations that have so long subsisted between this Country and the United States. Prompt measures have been taken to send reinforcements and large additional supplies of arms and military stores into British North America, in order to be prepared for all contingencies. My object in this Despatch is to assure you that Her Majesty's Government will neglect no exertions to provide for the protection (should the need arise) of the loyal and important Province of New Brunswick, whilst on the other hand they rely with confidence on the well known patriotism and public spirit of the inhabitants to spare no effort on their part for the defence of their country.

2. I leave it to you, in concert with your constitutional advisers, to take every step which is open to you in this emergency for assuring the safety of the Province, and lending an effective co-operation to the Commander of the Queen's Forces in the measures adopted by him for that purpose.

I have, &c.

(Signed)

NEWCASTLE.

Lieut. Governor The Hon. Arthur H. Gordon, &c. &c. &c.

Fredericton, December 23, 1861.

MY LORD DUKE,—I have the honor to acknowledge the receipt of Your Grace's Despatch of the 7th instant, which was delivered to me by special messenger.

2. The people of this Province will learn with the liveliest satisfaction that in case of need Her Majesty's Government will neglect no exertions to provide for their protection and defence, and Your Grace may rely with confidence upon the loyal and gallant spirit which will nerve every arm in New Brunswick to repel hostile aggression.

3. It will be my duty, in concert with my advisers, to provide as far as possible for the safety of the Province, and to lend effective co-operation to the Commander of Her Majesty's Forces in New Brunswick, and I venture to assure Your Grace, that in the

discharge of these duties I shall be encouraged by their zealous and hearty support, as well as by that of the whole population of the Province.

I have, &c. (Signed)

A. H. GORDON.

To His Grace the Duke of Newcastle, K. G., &c. &c. &c.

Saint John, New Brunswick, Dec. 31st, 1861.

MY LORD DUKE,—I have the honor to enclose for Your Grace's information, Copies of a letter addressed by me to the Mayor of this City, and of His Worship's reply, transmitting to me a Resolution agreed upon by the City Council.

2. In transmitting these Documents to Your Grace, I am confident that it is needless for me to suggest to Your Grace the propriety of acknowledging in suitable terms the liberal and public-spirited conduct of the Corporation of Saint John upon the present occasion, as I am certain that such acknowledgment will at once be felt by Your Grace to be their due. It is therefore only necessary for me to assure Your Grace, that any expression of the approbation of the Home Government will be highly valued in this City.

I have the honor to be, my Lord Duke,

Your Grace's most obedient, humble servant,

(Signed)

A. H. GORDON.

His Grace the Duke of Newcastle, K. G., &c. &c. &c.

Saint John, December 30, 1861.

SIR,—I deem it my duty to inform your Worship that from two to three thousand Troops, including a Battalion of Her Majesty's Guards, will be disembarked here in the course of the next few days, and I have to request that you will communicate this intelligence to the Gentlemen of the Municipal Council.

I have no doubt that the Magistracy and people of Saint John will fully appreciate the prompt and energetic action of the Home Government for the defence of the Province, and this great Commercial City, and that they will receive the Troops sent for their protection in such a manner as may seem to them best calculated to evince the sentiments they entertain.

I have the honor to be, Sir, your obedient servant,

A. H. GORDON, *Lieut. Governor.*

The Worshipful the Mayor of Saint John.

Mayor's Office, Saint John, 30th December, 1861.

SIR,—I have the honor to acknowledge the receipt of Your Excellency's communication of this day's date, informing me of the expected arrival in this City of a considerable body of Her Majesty's Troops, which I took an early opportunity to lay before the Common Council, and I have much pleasure in transmitting to Your Excellency the accompanying Resolution of that body to provide accommodation for a part of the Force.

I have the honor to be Your Excellency's humble servant,

(Signed)

THOMAS M'AVITY, *Mayor.*

His Excellency The Lieutenant Governor.

At a Common Council holden at the Mayor's Office on the 30th day of December, A. D. 1861,—

Read a Communication from His Excellency the Lieutenant Governor, informing the Common Council of the expected arrival of a large body of Troops in this City within a few days.

Whereupon, on motion of Alderman Foster, seconded by Alderman Read, it was

Resolved, unanimously, That this Corporation, being desirous of testifying their grateful appreciation of the prompt and energetic action of Her Majesty's Government in providing for the defence of this Province, will most cheerfully undertake to provide lodging, stoves, fuel, and straw, for five hundred men of Her Majesty's Forces.

Extract from the Minutes.

(Signed)

W. R. M. BURTIS, *Common Clerk.*

Downing Street, 24th January, 1862.

SIR,—I have had the honor to receive your Despatch, No. 19, of the 31st of December, accompanied by copies of the Correspondence which passed between you and the Mayor and City of Saint John, on the subject of the large number of Troops then about to disembark at that City.

The Mayor of Saint John transmitted to you a proceeding of the Common Council, conveying their Resolution to undertake, as a mark of their good will, to provide lodgings, stoves, fuel, and straw for 500 men of Her Majesty's Forces.

Nothing can be more gratifying than the manner in which this determination has been announced to you, and I beg that you will convey to the Corporation of Saint John, the sense entertained by Her Majesty's Government of their liberality and public spirit. Her Majesty's Government are satisfied that their efforts to provide for the defence of the Provinces, could not be better supported than by such displays of the desire of important resident authorities to afford the benefit of their Corporation.

I have the honor to be, Sir, your obedient servant,

(Signed)

NEWCASTLE.

The Hon. Arthur H. Gordon, &c. &c. &c.

Fredericton, January 4, 1862.

MY LORD DUKE,—I have the honor to enclose, for Your Grace's information, a copy of Resolutions passed at a Public Meeting held in this City on the 3rd instant, from which Your Grace will perceive that the same loyal and generous spirit which has induced the citizens of Saint John to accord so hearty a welcome to the Troops on their arrival, also animates the inhabitants of this City and district. I believe I may safely add that a similar sentiment exists in every County and Parish throughout the Province.

I have the honor to be, my Lord Duke,

Your Grace's most obedient humble servant,

(Signed)

ARTHUR H. GORDON.

His Grace the Duke of Newcastle, K. G., &c. &c. &c.

Downing Street, 25th January, 1862.

SIR,—I have received with much satisfaction your Despatch No. 4, of the 4th of January, accompanied by a copy of Resolutions passed at a Public Meeting held in the City of Fredericton on the previous day. It is a subject of congratulation to Her Majesty's Government to perceive from the Resolutions of this meeting, which I doubt not may be taken as a fair sample of public opinion in other parts also of the Province, the loyalty and patriotic sentiments which are entertained in New Brunswick, and the generous welcome which the inhabitants are prepared to offer to Her Majesty's Troops who have been sent to unite with them in the defence of their Country.

I have the honor to be, Sir, your obedient servant,

(Signed)

NEWCASTLE.

DECIMAL SYSTEM OF COINAGE.

Government House, Fredericton, Dec. 10, 1859.

MY LORD DUKE,—My Council have had under their consideration the expediency of adopting in this Province a decimal system of computation, which system has, as Your Grace is aware, been recently adopted both in Canada and in Nova Scotia, and I have the honor to forward to Your Grace a copy, herein enclosed, of the Memorandum on this subject which has been this day submitted to me.

2. I should state that it is not proposed to alter the value in current money of the Pound Sterling, which will continue to be a legal tender of £1 4 4 Currency.

3. But the Copper Coins recently struck for this Province, of the current value respectively of one Penny currency and one Halfpenny currency, would not, if their present value were retained, be available as component parts of a Provincial Decimal Coinage.

4. It has therefore been proposed to alter the value of the Provincial Penny piece from 1 2-3 cents (its present current value,) to two Cents, and that of the Provincial Halfpenny piece from 5-6 Cents to one Cent, which alteration would bring both Coins into conformity with the Decimal system. I should add that by the Act (Vic. 15, c. 85,) which Act with the (Vic. 16, c. 33,) (*vide* Prov. Stat. Vol. II, pp. 119 to 124.) regulate the Currency of this Province, it is provided that Copper Coins shall not be a legal tender to any amount of more than one Shilling currency, or 20 Cents, and I concur in the opinion that the proposed change in the current value of the Penny and Halfpenny coins would not cause any practical inconvenience.

5. As the Law now stands, the Silver Coins of England are the only Silver Coins (no Provincial Coin has as yet been struck) which can be legally tendered here in any payment, and the supply of these Coins has been generally sufficient for the wants of the Province so far as legal tenders are concerned. The Silver Coinage, (especially the Quarter Dollar) of the United States, also circulates freely here for ordinary purposes; but, as I have before stated, these Coins are not a legal tender, and the adoption by the Provincial Legislature of a system of decimal computation, would therefore, in the opinion of my Council, (in which I concur) render it advisable that Provincial Silver Coins, in accordance with this system of computation, of the current value of 5, 10, and 20 Cents respectively, (the intrinsic value of the Coins being left, of course, for the decision of Her Majesty's Government) should be struck.

6. The practical adoption of the scheme thus brought under Your Grace's notice, or of any part of it, is, of course, dependant on the sanction of the Legislature; but it is thought desirable that the new coins, if Her Majesty should see fit to direct them to be struck, should be ready for issue at the time when the system of decimal computation will (if adopted by the Legislature) come into operation; and Your Grace will observe that the end of the current fiscal year (*viz.* the 1st November 1860) is the time appointed by my Council.

7. I have, therefore, thought it right, both with the view of preventing unnecessary delay in the event of Her Majesty approving of the proposed new coinage, and also of affording to Your Grace the earliest possible information with respect to the character of the proposed change, to forward to Your Grace a copy of the Memorandum submitted to me by my Council, together with these explanatory observations.

8. I should, however, explain to Your Grace that, pending the consideration of the matter by the Legislature, my Council are not prepared to undertake the responsibility of advising me to incur any expense, whether preliminary or otherwise, for providing the new Provincial Coins, which would not be required if the decimal system of computation should not be adopted.

9. And in connection with this subject, I wish to state that in the course of last year (1858) a Bill was introduced into and passed the House of Assembly, having for its object the establishment, as a legal tender, of certain Foreign silver coins. This Bill, however, (of which a copy is enclosed) did not pass the Legislative Council, and was not therefore presented to me for my assent.

10. But it is not impossible that the proposals embodied in the Bill of 1858, or some parts at least of these proposals, may be again mooted next year; and as I am led to believe from the Correspondence which has passed in former years between Her Majesty's Government and the Governments of these Provinces, (I refer especially to Earl Gray's Despatch Nos. 301-2, December 1851, to Sir Edmund Head,) that there may be grave objections to the recognition as a legal tender of some of, if not of all, the Foreign coins mentioned in the Bill, I think it right to submit this question also to Your Grace for such instructions as Your Grace may deem requisite.

I have, &c.

(Signed)

J. H. T. MANNERS-SUTTON.

To His Grace The Duke of Newcastle, K. G., &c. &c. &c.

To His Excellency the Honorable J. H. T. Manners-Sutton, Lieutenant Governor of the Province of New Brunswick, &c. &c. &c.

The Legislatures of the neighbouring Provinces of Canada and Nova Scotia having passed Laws establishing a Decimal Currency, the Committee of Council advise the preparation of a Law establishing a like Currency in New Brunswick, in most respects similar

to the Canadian Act, to be submitted to the Legislature at the approaching Session, and to come into force on the first day of November next, the close of the current fiscal year; the Committee also advise that a silver and copper coin should be struck for the use of this Province, to be put into circulation when the proposed Act comes into operation, and to correspond in value with the coin recently imported by the Canadian Government.

2. For the purpose of facilitating the necessary arrangements, they request that Your Excellency will take such steps as will secure the permission to strike such coin.

(Signed) CHARLES FISHER, W. H. STEEVES,
S. L. TILLEY, DAVID WARK,
CHARLES CONNELL, PETER MITCHELL.
JAMES BROWN,

December 10, 1859.

Fredericton, N. B., June 25, 1860.

MY LORD DUKE,—With reference to the subject matter of my Despatch of the 23rd instant, I have the honor to inform Your Grace that my Council have recommended that certain Decimal Coins (both silver and bronze) should be struck and issued for the Province. I enclose a copy of the Memorandum submitted to me on the 23rd instant, by my Council on this subject, which has been approved by me.

2. I wish to be permitted to state that the last Section of the Act (23 Victoria, Cap. 48) passed last Session, which enacts that all Public Accounts shall be made up and rendered in dollars and cents, provides that that Act should come into operation on the first November next; and it is therefore desirable that the decimal coins should, if possible, be ready for circulation by that time. It is proposed to defray the cost of the coin through Messrs. Baring & Co. in London.

I have, &c. (Signed) J. H. T. MANNERS-SUTTON.

To His Grace the Duke of Newcastle, K. G., &c. &c. &c.

To His Excellency The Honorable John Henry Thomas Manners-Sutton, Lieutenant Governor of the Province of New Brunswick, &c. &c. &c.

We advise Your Excellency to move Her Majesty's Government to have the following Coins struck for the use of this Province, viz:—

Ten thousand dollars in value, in cents, of bronze.

Thirty thousand dollars in value, in twenty cent pieces, of silver.

Fifteen thousand dollars in value, in ten cent pieces, of silver.

Five thousand dollars in value, in five cent pieces, of silver.

The whole to be of the same description as the Canadian Coins struck for the like denominations, only that the Motto impressed thereon shall be "New Brunswick," instead of "Canada."

(Signed) CHARLES FISHER, P. MITCHELL,
W. H. STEEVES, S. L. TILLEY.
JAMES BROWN,

Downing Street, 18th October, 1860.

SIR,—I am directed by the Secretary of State to acknowledge your Despatches named in the margin,* on the subject of an Act passed by the Provincial Legislature of New Brunswick, and entitled "An Act relating to the mode of Accounting and Currency," which is submitted for Her Majesty's pleasure, and of a requisition for certain decimal coins, silver and bronze, which your Government wish to be struck and issued for the Province, of a similar character to those already introduced into Canada. I hope to be able, very shortly, to convey to you Her Majesty's decision on the Currency Act.

2. With regard to the proposed coinage, Her Majesty's Government think it right to acquaint your Government, before the requisition for silver pieces of 20 cents and ten cents, which extends to a heavy amount, is actually executed, that they have reason to believe, from enquiries which have been made, (though this information is not as yet before them in an official shape,) that the silver pieces of 20 cents and 10 cents, coined a year or two since for Canada, have not proved acceptable to the public in that Province; a large stock of them consequently being left on the hands of the Canadian Government. As your Despatches do not advert to any such circumstances as those just mentioned, of which possibly

you may not have been informed, it appears best to postpone incurring the very considerable expense which the requisition of the Council contemplates, on account of the same description of coin as those which are stated to have been unsuccessful in Canada, until you have had an opportunity of communicating on the subject with the Governor General of Canada, who has been requested by this Department to forward to you the latest authentic information in regard to it. The Canadian Government if possessing, as is understood, a stock of coins which they are unable to circulate, would no doubt be glad to transfer any portion of them to New Brunswick, but Her Majesty's Government leave you to judge whether this course would suit the views of your Government or the purposes of the Act which you submit.

3. The Secretary of State hopes that the delay caused by this reference may not prove inconvenient to your Government, but he thinks it on the whole safest to await your reply before any considerable expense is incurred for the coinage of the 20 cent and 10 cent pieces, in case your Government may think fit to countermand or modify the requisition for them. In the meantime, the Lords of the Treasury have been requested, subject to Her Majesty's decision on the Currency Act, to prepare for the speedy execution of that requisition, in the event of its being adhered to, and to proceed with the coinage of the other pieces applied for.

I have, &c. (Signed) C. FORTESCUE.

Lieut. Gov. The Hon. J. H. T. Manners-Sutton, &c. &c. &c.

* 10th December, 1859; 23rd June, 1860; 25th June, 1860.

Government House, Fredericton, November 10, 1860.

MY LORD DUKE,—I have the honor to acknowledge the receipt of the Despatch marked in the margin,* and to inform Your Grace that I lost no time in communicating the contents of that Despatch to my Council. The enclosed copy of a Memorandum which they have submitted to me will place Your Grace in possession of the grounds on which they adhere to the recommendation expressed in their Memorandum of the 23rd June, 1860.

2. I have also the honor to inform Your Grace, that the necessary instructions have been given to Messrs. Baring, to defray the cost, and to provide for the transmission here of the Coins, silver and bronze, which may be struck for this Province; and to state that my Council have expressed to me their opinion that as the Act 23 Victoria, Chapter 48, (which enforces in all Public Offices the adoption of the Decimal system of computation,) is now in operation, inconvenience may be apprehended if any long period should elapse before an adequate amount of Decimal Coins is available for circulation here.

I have, &c. (Signed) J. H. T. MANNERS-SUTTON.

To His Grace the Duke of Newcastle, K. G. &c. &c. &c.

* October 16, 1860.

To His Excellency the Honorable J. H. T. Manners-Sutton, Lieutenant Governor of the Province of New Brunswick, &c. &c. &c.

The Council have had under consideration the Despatch of 16th October, 1860, No. 28, relative to the Order forwarded by Your Excellency for Silver and Bronze Coin for this Province.

2. We have had no reason for supposing that the Canadian Government have experienced any difficulty in putting the Silver Coin imported by them into circulation, and admitting the supposition stated in the Despatch referred to, to be correct, it cannot affect our position.

3. The whole quantity of Silver and Bronze Coin ordered for New Brunswick, amounts to only sixty thousand dollars, and, when received, will be put into immediate circulation.

4. In the opinion of the Council, there are several reasons why the surplus Silver Coins of Canada cannot be advantageously used for New Brunswick; one of the most important is, that our Law does not make the Canadian Coin a legal tender in this Province.

(Signed) CHARLES FISHER, JAMES BROWN,
S. L. TILLEY, JAMES STEADMAN.
W. H. STEEVES,

10th November, 1860.

Government House, Fredericton, January 19, 1861.

MY LORD DUKE,—I have the honor to inform Your Grace, (with reference to the Correspondence marked in the margin,)* that I received a few days ago the Communication from the Administrator of the Government of Canada, of which a Copy is enclosed. This Communication was submitted by me to my Council for their information and consideration, and they have this day laid before me a Memorandum, of which also I have the honor to transmit a Copy to Your Grace.

I have, &c.

(Signed)

J. H. T. MANNERS-SUTTON.

His Grace the Duke of Newcastle, K. G., &c. &c. &c.

* October 16, 1860, from Mr. Fortescue; November 10, 1860, to Duke of Newcastle; December 28, 1860, Inclosure No. 1; January 19, 1861, Inclosure No. 2.

Montreal, December 28, 1860.

SIR,—I have the honor, by direction of the Secretary of State for the Colonies, to transmit for Your Excellency's information the enclosed Copy of a Minute of the Executive Council of Canada, approved by myself, relative to the circulation of the Decimal Coinage in this Province.

I have, &c.

(Signed)

W. F. WILLIAMS,

Lieut. Gen. Administering the Government.

To His Excellency the Lieutenant Governor, &c. &c. New Brunswick.

Copy of a Report of a Committee of the Honorable the Executive Council, approved by His Excellency the Administrator of the Government in Council, on the _____

The Committee have given their consideration to a Report, dated 19th December, 1860, from the Honorable the Minister of Finance, upon a Despatch from the Under Secretary of State for the Colonies, dated 16th October, 1860, requesting Your Excellency to give the Lieutenant Governor of New Brunswick the latest authentic information as to the circulation of the new coinage in Canada.

2. The Minister of Finance reports that the new coinage obtained for Canada, consisted of the following denominations:—

Coins of 20 cents,	\$146,078 40
Do. 10 cents,	121,640 20
Do. 5 cents,	73,019 45
					Total Silver,
	\$340,738 05
Bronze Coins, 1 cent,	96,903 88
					Total,
	\$437,641 93

3. That of this amount there has been put in circulation \$346,978 40, and there remains \$90,759 65, the coinage on hand consisting principally of cent pieces.

4. That the total cost of the coin was \$358,279 06, and its nominal value \$437,641 93, showing an apparent profit of \$79,362 87.

5. That the Silver coinage yielded no gain, the profit arising out of the Bronze cent pieces.

6. That the coinage was received in the winter of 1858–9. Two years having therefore elapsed, and up to this time the whole amount obtained has not been placed in circulation.

7. That the Silver coinage consisted of pieces of 20, 10, and 5 cents. That it will be observed that the two former coins represented the shilling and six pence in Halifax currency, and it was no doubt supposed that they would be found acceptable from this cause. But in the case of the 20 cent coin, sufficient regard was apparently not given to the circumstances that no coin representing a similar sub-division, either of the Halifax pound, (which is not itself represented by any coin,) nor of the American dollar, had previously circulated either in Canada or in the adjoining States. That it was consequently not required in the ordinary retail transactions of the country, and very considerable difficulty has been experienced in placing it in circulation. That another objection raised to it has been its near approach in size and weight to the English shilling and American quarter dollar, requiring inspection of the coin. That this coin cannot be said to be in favour

with the public, and it is not probable that the Government will attempt any further issue of this denomination.

8. That the same objections do not strictly apply to the 10 cent and 5 cent pieces, which correspond with similar coins in the United States, and that a limited issue will no doubt be acceptable to the public, and facilitate retail trade.

9. That no further demand has as yet been made for a supply of these denominations.

10. That the bronze coin of one cent may be considered merely as a "token," possessing no real value at all approaching its denomination. That the same remark, however, applies to all copper coins, though in less degree, and as the bronze is lighter, handsomer, and much less bulky, it might reasonably have been expected to make its way into early circulation. That this it has certainly not done, which may probably arise from the loss which the holders of the former copper coin would necessarily sustain in being compelled (in withdrawing it from circulation.) to accept only the intrinsic value of what they now hold, having taken it at its nominal value.

11. That this cause could be removed by the Government authorizing the exchange of the bronze for the copper coins, each at their nominal value, by which no serious loss to the Exchequer, or the public, would arise, as the old copper coinage is probably intrinsically worth as much as the bronze, including the expense of coinage. That it has not, however, yet been decided by the Canadian Government that this step should be taken.

12. That in reviewing the whole question, he, the Minister of Finance, is of opinion that the coinage of 20 cent pieces has not met the public necessities or convenience; and that it would be much more desirable to adopt a coin of 25 cents or a quarter dollar.

13. That as regards the lower denominations, a question of preference arises between the American $12\frac{1}{2}$ cent, and the 10 cent. That for many purposes the $12\frac{1}{2}$ cent, being one-half the quarter dollar, is to be preferred, but it is objectionable as containing fractions of a cent, and it is probably better in Canada, where the 10 cent coin has been introduced, to adhere to it, rather than to issue another coin so nearly equal in value. That, were the point entirely new, the public would, it is believed, rather have coins of $12\frac{1}{2}$ than of 10 cents.

14. That the coin of 5 cents is very useful as a substitute for the heavier and baser metals, and may be as usefully employed in New Brunswick as in Canada.

15. The Minister of Finance submits, that in view of the similarity of condition in the British American possessions of the Crown, it would be very desirable that a mutual understanding should exist among the several Provinces for the issue of an uniform coinage, and that in the case of Canada the circumstances connected with the recent issue need form no difficulty in the consideration of the denominations of the coins to be issued.

16. That should the Government of New Brunswick desire a supply of the Canadian bronze cent coins, he would recommend that one half of the quantity now on hand should be transferred at its cost.

17. The Committee concur in the views expressed by the Minister of Finance, and submit the same for Your Excellency's approval.

Certified.

(Signed)

WM. H. LEE, C. E. C.

To His Excellency The Honorable J. H. T. Manners-Sutton, Lieutenant Governor of the Province of New Brunswick, &c. &c. &c.

The Committee of Council have had under consideration the Despatch of His Excellency the Administrator of the Government of Canada, and the Inclosure relative to the circulation of the Decimal Coin in that Province, and they see no reason for changing the opinion expressed to Your Excellency by them in the Memorandum of 10th of November 1860, relative to the Silver and Bronze Coin ordered to be struck for circulation in this Province.

2. Should the bronze one cent pieces ordered in England not arrive before the opening of the communication with Canada via Portland, we would advise Your Excellency to obtain a portion of their surplus bronze Coins upon the terms named in the Report of the Minister of Finance.

(Signed)

CHARLES FISHER,
S. L. TILLEY,
JAMES STEADMAN,

JAMES BROWN,
W. H. STEEVES.

January 19, 1861.

Downing Street, 13th February, 1861.

SIR,—I have the honor to acknowledge your Despatches No. 37, dated the 10th November 1860, and No. 2, dated the 19th January 1861, enclosing Copies of Memoranda submitted to you by your Executive Council, on the subject of a preparation of a new Coinage for New Brunswick. I have to inform you that Copies of these Despatches and Inclosures have been forwarded, as received, to the Lords Commissioners of Her Majesty's Treasury, with a request that they will give effect to the wishes of the Colonial Government in every respect, and with as little delay as possible.

I have, &c.

(Signed)

NEWCASTLE.

The Hon. J. H. T. Manners-Sutton, Lieut. Governor, &c.

Downing Street, 28th December, 1861.

SIR,—With reference to former Correspondence, I have the honor to transmit to you a copy of a Letter from the Master of the Mint on the subject of the new Coinage required for the Provinces of New Brunswick and Nova Scotia.

I have, &c.

(Signed)

NEWCASTLE.

The Hon. Arthur Gordon, &c. &c. &c.

Mr. Graham to Mr. Hamilton.

Royal Mint, 16th December, 1861.

SIR,—With reference to the new coinage for Nova Scotia and New Brunswick, referred to in your letter of the 13th instant, in which a copy of Mr. Elliot's letter of 5th December is enclosed, and information required respecting the time when these coins will be ready, I am glad to be able to inform you, that the Copper coinage for both Provinces is now completed, and will immediately be delivered to Messrs. Baring, the Agents for the Colonies. The Copper coinages referred to were taken in hand as soon as the Mint was relieved from large Gold and Silver coinages required by the Bank and the public, which have occupied the coining department from this time last year till November last. The Bank have again imported Gold into the Mint to the amount of £2,000,000, which will occupy the department about two months, and precludes during that time any other coinage. It is expected that the Silver coinage for New Brunswick will immediately follow, and that the coin still required by the Provinces will be ready for delivery on March next.

I have, &c.

(Signed)

THOMAS GRAHAM.

George A. Hamilton, Esquire, &c. &c. &c.

COMMERCIAL INTERCOURSE BETWEEN COLONIES.

Government House, Fredericton, N. B. December 3, 1859.

MY LORD DUKE.—I have this day received from the Governor General of Canada a Despatch, a Copy of which (and its enclosure,) I have the honor to transmit to Your Grace.

2. So far as regards the proposed assimilation of the Tariff of this Province to those of Canada and the other British North American Provinces, (in conformity, of course, with the general principles which my instructions require me to observe in dealing with this subject,) there is no necessity for requesting any new instructions from Your Grace.

3. But it is clear that the adoption of a system of Free Trade with all or any of the other British North American Colonies, or of any new fiscal regulations which would confer upon the Trade of all or any of the other British North American Provinces (whether Export or Import,) with this Province, advantages not conferred upon the trade in similar articles of other Colonies or Countries, would be to effect an imposition of discriminating Duties against the Trade of those other Countries or Colonies.

4. The terms, therefore, of Lord J. Russell's Circular Despatch of July 12, 1855, to which my attention was recently recalled by Your Grace, absolutely preclude me from taking any step whatever to carry into effect, either by Proclamation (under the provisions of the 7th Section of the Act 22 Vic. (1) or otherwise, the suggestion, so far as the

adoption of Free Trade between the different North American Provinces is concerned, of the Canadian Government.

5. It is true, that in Your Grace's Despatch of the 17th September, 1859, No. 12, a passage occurs which might lead to the inference that Her Majesty's Government might, perhaps, be disposed to acquiesce in arrangements not consistent with the principles which regulate the general trade of the Empire, provided that the deviation from these principles were confined to the commercial relations between the several British North American Colonies. But I cannot regard the inference which may be probably drawn from this passage of Your Grace's Despatch, (which passage, moreover, refers only to cases in which a strict adherence to sound principles cannot be reconciled with the raising the necessary local Revenue,) as relieving me from the duty of observing the positive instructions of the Secretary of State, as conveyed to me in Lord J. Russell's Circular Despatch of the 12th July 1855.

6. I have felt, therefore, that it was incumbent on me in the first instance and without delay, to submit to Your Grace the proposal of the Canadian Government, and to request Your Grace's instructions as to the course which I am to pursue respecting it.

7. Meanwhile I have simply acknowledged the receipt of the Governor General's Despatch, the contents of which I shall communicate to my Council, informing them, however, at the same time, that I have transmitted copies of the documents to Your Grace.

I have, &c.

(Signed)

J. H. T. MANNERS-SUTTON.

To His Grace the Duke of Newcastle, K. G., &c. &c. &c.

Spence Wood, Quebec, 24th November, 1859.

SIR,—On the recommendation of my Executive Council, I have the honor to enclose for Your Excellency's consideration, a copy of a Report of a Committee of Council approved by myself.

I have, &c.

(Signed)

EDMUND HEAD.

His Excellency The Honorable J. H. T. Manners-Sutton, &c. &c. &c.

Copy of a Report of a Committee of the Executive Council, dated 22nd November, 1859, approved by His Excellency the Governor General.

On a Communication, dated 21st instant, of the Honorable the Minister of Finance, stating that it was desirable to extend the arrangements whereby certain productions of the several British North American Provinces are reciprocally admitted free, so as to include all articles either produced or manufactured within the said Provinces.

2. That it would also be important to ascertain how far it might be practicable to assimilate the Tariffs of the several Provinces, so as to permit entire Free Trade between them, and he recommends that Your Excellency be requested to communicate with the Lieutenant Governors of New Brunswick, Nova Scotia, Newfoundland, and Prince Edward's Island, for the purpose of ascertaining whether the Governments of those Provinces are prepared to unite with Canada in recommending Legislation for the purpose of establishing the reciprocal free interchange of all productions and manufactures of the respective Provinces, and further to enquire how far it might be practicable to assimilate the Tariffs of the several Provinces so as to permit entire Free Trade between them.

3. The Committee concur in the recommendation of the Minister of Finance, and submit the same for Your Excellency's approval.

Certified.

WM. H. LEE, C. E. C.

Downing Street, 8th April, 1860.

SIR,—I have to acknowledge the receipt of your Despatch of the 3rd of December last, forwarding the Copy of a Despatch from the Governor General of Canada, with a Minute of a Committee of his Executive Council, recommending, firstly, the extension of existing arrangements by which certain productions of the British North American Provinces are reciprocally admitted duty free, so as to include all articles the produce or manufacture of such Provinces.

Secondly—The assimilation of their respective Tariffs so as to permit complete freedom of trade between them.

I have referred the subject of these proposals from the Executive Council of Canada for the consideration of the Lords of the Committee of Privy Council for Trade, and I transmit to you herewith a Copy of their Lordships' Report upon them.

I have, &c. (Signed)

*Office of Committee of Privy Council for Trade,
Whitehall, 14th March, 1860.*

SIR,—The Lords of the Committee of Privy Council for Trade, have had under their consideration your Letter of the 23rd December last, transmitting for their opinion, by direction of the Duke of Newcastle, a Copy of a Despatch from the Governor of Canada, enclosing a Report by a Committee of the Executive Council of the Province, recommending, firstly—

The extension of existing arrangements by which certain productions of the British North American Provinces are reciprocally admitted duty free, so as to include all articles, the produce or manufacture of such Provinces.

Secondly—The assimilation of their respective Tariffs so as to permit complete freedom of trade between them.

I am now to request that you will submit to His Grace the following observations on the subject of these propositions.

My Lords have on several occasions expressed their objections to the policy of the arrangements which the first of these recommendations proposes to extend. They more especially desire to refer the Duke of Newcastle to their Letter to the Colonial Office, of the 26th June, 1855, which was communicated by Sir William Molesworth in a Circular Despatch of the 11th August of that year, to the Governors of the several West Indian Colonies.

To the opinions expressed in that letter, and in the Circular Despatch of Sir William Molesworth, My Lords still adhere.

The distinct and formal nature, however, of the proposal now under consideration, and the strong disposition which has been repeatedly evinced by several of the North American Provinces, and West India Islands, to enter upon a course of Legislation to which Her Majesty's Government on that occasion thought it necessary to object, has led My Lords to consider whether it may be possible in any degree to meet the views of the Executive Council of Canada, without seriously compromising the rules of Commercial policy, which, in their opinion, it is of the highest importance to maintain.

The fundamental principle of the policy of free trade is that no duty of Customs shall be imposed, except for the purpose of Revenue. To give effect to this principle, it is necessary either to levy duties on those articles *alone* which are not produced in the importing country, or to place our Excise or Internal duty, equal in its amount to the Import duty, upon those articles which are produced both at home and abroad.

In accordance with these rules it will be found that nearly the whole Customs Revenue of the United Kingdom is derived from articles to which one or other of them is applicable.

In the year 1858, the net Revenue received from the Duties of Customs upon each of the following articles, was—

Coffee,	£440,000
Currants and Raisins,	432,000
Sugar and Molasses,	5,842,000
Tea,	5,186,000
Tobacco,	5,432,000
Wine,	1,703,000
Spirits,	2,264,000
Total,	£21,299,000

The total net Revenue derived from Customs in that year having been only about £23,830,000.

The changes in the Tariff of the United Kingdom at present under the consideration of Parliament, will, when completed, effect a large further reduction in the revenue derived from articles other than those enumerated above.

If similar conditions of production and financial requirement existed in all the portions of the British Empire, there would be nothing in the strictest principles of Economical law to prevent them from forming one vast commercial union with a common Tariff and complete freedom of trade between them.

So far, however, from such similarity existing, the British Crown embraces in its rule countries exhibiting almost every conceivable variety of soil, climate, population, and wealth, rendering the conditions both of production and consumption so diverse, as to preclude the possibility of any common commercial system.

Any general assimilation of Tariff, therefore, or freedom of trade between all the different portions of the British Empire, is altogether impracticable so long as it is found necessary or expedient to make external trade a medium of taxation.

It remains to consider how far it is possible to admit this policy in the case of the particular portions of the possessions of Her Majesty, such as the group of the North American Provinces, the Australian Colonies, or the West Indian Islands.

It is easily conceivable that there may exist in two or more distinct possessions of the Crown, such an identity of character, both as regards their industrial and their financial conditions, as to render their commercial union compatible with the maintenance of the rules of Imperial policy which have been indicated above; and wherever such identity is found there appears to My Lords to be no reason, so far as commercial principle is concerned, to deter Her Majesty's Government from giving their assent to any such union, if it be desired by the several communities concerned.

The advantages of such an arrangement between Colonies so contiguous as the North American Provinces, divided as some of them are only by a land or river frontier, are sufficiently apparent.

The maintenance of different Tariffs and of Inland Custom Houses, is obviously both expensive and inconvenient, and must very seriously interfere with the natural operations of trade.

In the case of the Australian group of British Colonies, the expediency of their adopting a common Tariff has on former occasions been considered by Her Majesty's Government, and although this measure has never been carried into effect, it is probable that if practicable, it might be attended with similar advantages.

The group of West Indian possessions do not possess altogether similar conditions, nor do the motives of their commercial union appear so decided.

At the present time, however, it is only necessary to consider the case of the North American Provinces, but in sanctioning any measure of the nature of that under discussion, it must be recollected that a precedent will be established which will make it more difficult to resist future extensions of the principle which it would involve.

It cannot be denied that the commercial conditions of the five Provinces in question, present a great similarity in general characteristics.

In all of them, the principal industries are in connection with the field, the forest, or the sea.

Their Exports are, with some varieties, principally Flour, Grain, Butter and Cheese, Potatoes, Timber and Lumber, Coal, Cattle, Fish, Furs and Skins. Their Imports chiefly manufactured Goods and Colonial produce, Sugar, Tea, Coffee, Tobacco, Spirits and Wine.

Their financial wants and resources must, of course, vary with circumstances, but there seems to be no essential obstacle of an insuperable kind to their commercial union.

In the abstract, therefore, it seems probable that such a measure as that under consideration might be adopted with regard to these Provinces, without in any way infringing the principles of taxation which her Majesty's Government desire to observe.

For such a purpose it would only be necessary for them to raise the whole of their Customs Revenues from articles which none of them produce,—such as Tea, Coffee, Tobacco, Sugar, Wine,—or from articles of their own produce upon which they could place corresponding Internal duties, such as Spirits.

In all of them, however, an important part of their Customs Duties are levied upon articles which they themselves produce, and upon which it would be very inexpedient to place such internal duties as should countervail the duties upon importations.

So long as this is the case, and by the experience afforded by the recent Canadian Tariff, there seems no immediate prospect of a change in this respect. My Lords are unable to perceive how an exclusive exemption from Import Duties, applicable to their respective produce, can be sanctioned without giving a serious extension to the protective system in Her Majesty's Colonial possessions, to the partial adoption of which My Lords have on several occasions expressed their strong objection.

They are, therefore, of opinion, that the assent of Her Majesty's Government to the first proposition of the Executive Council of Canada, should not be given except under the following condition, viz :—

That any exemption from Import duty applied to the produce and manufactures of these Provinces respectively, shall be equally extended to all similar produce and manufactures of all countries.

This condition appears to My Lords to supply a selfacting rule, under the operation of which two or more British Possessions may at any time avail themselves of the advantages which must result from complete freedom of trade between them, whenever, and whenever only, they can do so consistently with their own well understood interests and with those of the Empire at large.

More than this, My Lords do not think such Colonies could themselves desire, except from a wish to afford protection to each other's productions, an object which Her Majesty's Government cannot be expected to promote.

The second proposition of the Committee of Executive Council, viz. the assimilation of the Tariff of all the North American Provinces, is probably considered by that Body as in a great measure dependent on the adoption of their first recommendation.

So far as this is the case, My Lords can, of course, only approve of it subject to the qualifications which they desire to enforce, with respect to that recommendation.

It is not, however, necessarily dependent upon the former arrangement, and regarding it as a distinct proposal, My Lords can only say that on abstract grounds there can be no possible objection either of principle or policy to its adoption by the common consent of all the Legislatures concerned.

In practice, however, the effect of such an assimilation upon the commercial interests of the Empire in general, and the Colonies in question in particular, must depend entirely upon the mode in which it is carried into effect, and it cannot be denied that the recent policy of Canada, as exhibited in the Tariff of 1859, presents a serious obstacle to the proximate realization of such a project.

The Tariffs of all the other North American Provinces are more favourable to the principal exports of the United Kingdom than that of Canada, which, if not protective in its intention, is certainly so in its effect.

Their common adoption, therefore, of the Canadian duties, or of any nearer approximation to them than exists already, would, in the opinion of this Board, be open to decided objection, unless it could be shewn that the financial condition of each of the Provinces in question afforded a justification for such a measure similar to that which was admitted in the case of Canada.

I have, &c.

(Signed)

JAMES BOOTH.

The Under Secretary of State, Colonial Office.

Government House, Fredericton, N. B., Sept. 27th, 1861.

MY LORD DUKE,—I have the honor to forward, and to request Your Grace's favourable consideration of the enclosed copy of a Memorandum, wherein my Council have explained the grounds on which they have arrived at the conclusion that such an alteration of the Customs arrangements of Nova Scotia, Prince Edward Island, and this Province, as would sanction the admission, duty free, into each of these Provinces of articles, (with the exception of Spirituous Liquors,) the growth, produce, or manufacture of each of the other two Provinces, would conduce to the social and commercial interests of all.

This subject is not new to Your Grace. It is true that in one point of view, the manner recommended by my Council is not strictly in accordance with the general principles which regulate the Commerce of the Empire. But the contiguity of the three Provinces of Nova Scotia, Prince Edward Island, and New Brunswick, the social and commercial sympathy which exists among their inhabitants, and the fact that they are fellow-subjects of Her

Majesty. renders, as it appears to me, the question now submitted to Your Grace, one of an exceptional character.

I have only further to state, that in my opinion Your Grace will be justified in regarding this proposal, for the establishment of more intimate commercial relations with Nova Scotia and Prince Edward Island, as evidence that there is a strong and growing opinion here in favour of the Legislative union of the three Lower Provinces of British North America.

I have the honor to be, &c.

(Signed)

J. H. T. MANNERS-SUTTON.

To His Excellency the Honorable J. H. T. Manners-Sutton, Lieutenant Governor of the Province of New Brunswick.

Your Excellency is aware that, on former occasions, the expediency of still further promoting the commercial inter-communication and the interchange of articles of trade between the several Provinces of British North America, and especially between the three Lower Provinces, by the admission, duty free, into each of these Provinces, of articles the growth, produce, and manufacture of the Province from which they might be exported, has formed a subject of consideration by the Government of New Brunswick; and provision has been made by the Provincial Legislature for carrying into full effect this relaxation of our Fiscal Laws by Proclamation, and without further Legislation. But we were informed by Your Excellency, when you communicated to us the Despatch of the Secretary of State of the 17th September 1859, No. 12, that the instructions contained in that and other Despatches, precluded you from exercising the power thus vested in you without previous communication with the Secretary of State.

In the Despatch, however, specially referred to above, a distinction was drawn between the admission, duty free, into this or any other of the British North American Provinces, of articles the growth, produce, and manufacture of the West Indies, or of the United States, and the admission, duty free, of articles the growth, produce, and manufacture of any of the British North American Provinces, into another British North American Province; and in the last Session of the Provincial Legislature an Act was passed giving effect to this distinction, and revoking that part of the then existing Statute which enabled Your Excellency by Proclamation to admit, duty free, into New Brunswick, articles the growth, produce, and manufacture of the West Indies or United States; but the power of issuing a Proclamation for the admission, duty free, into this Province, of articles the growth, produce, and manufacture of the other British North American Provinces, still remain vested in Your Excellency.

The close contiguity of the three Lower Provinces, viz. of Nova Scotia, Prince Edward Island, and this Province, their identity of feeling and interests, the fact that their laws and political constitution are, if not identical, similar to each other, and that their social and commercial intercourse is rapidly extending, to the benefit of all, render it, in our opinion, highly expedient that the remaining obstacles still presented by the Fiscal Laws of the three Provinces, to the full development of this commercial and social sympathy between them, should be removed.

It is possible that in effecting this alteration, each of the three Provinces might be called upon to relinquish some Revenue; but we are confident that, even if this should occur, it would be but temporary, and that it would be more than counterbalanced by the general, commercial, and social advantages of the measure; and we have reason to believe that the Governments of Nova Scotia and Prince Edward Island view the matter in the same light.

To the admission, however, duty free, into our Province, of excisable articles, the manufacture of another Province, special objections, the character of which is obvious, and which are we believe recognized by the other Provinces, present themselves; but we are prepared to recommend and be responsible for such steps as may be necessary to relieve from duty on import into this Province, all articles, with the sole exception of spirituous liquors, the growth, produce, or manufacture of Nova Scotia and Prince Edward's Island, or either of them, upon receiving from them, or either of them, a similar abrogation of the import thither of articles the growth, produce, and manufacture of New Brunswick.

We request Your Excellency to bring these opinions before the Secretary of State, with the view of taking such steps, with the concurrence of Her Majesty's Government, as may be necessary to carry them into effect.

(Signed) S. L. TILLEY,
W. H. STEEVES,
A. J. SMITH,
CHARLES WATTERS,

P. MITCHELL,
JAMES STEADMAN,
GEORGE L. HATHEWAY,
JOHN M'MILLAN.

Downing Street, 5th November, 1861.

SIR,—I have the honor to acknowledge the receipt of your predecessor's Despatch of the 27th September, accompanied by a Report of the Executive Council on the promotion of commercial intercourse between New Brunswick, Nova Scotia, and Prince Edward Island, by the reciprocal admission, duty free, of articles (with the exception of spirituous liquors,) the growth, produce, or manufacture of each of these Provinces.

I have to inform you that Her Majesty's Government will offer no opposition to any well advised measure which the several Governments may think proper to adopt for promoting a free commercial intercourse between the different Provinces.

I have, &c. (Signed) NEWCASTLE.
Lieut. Governor the Honorable Arthur H. Gordon, &c. &c. &c.

On motion of Mr. Williston,

The House went into Committee of the whole on—A Bill for the establishment and regulation of Booms for securing Logs and Lumber in the several Rivers in the County of Northumberland.

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The House adjourned until to-morrow morning at 10 o'clock.

Friday, 21st February, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill to authorize the Justices of the Peace for the County of Charlotte to assess the Inhabitants of the Parish of Saint Stephen for the erection of Town Hall in and for the said Parish :

A Bill to set off parts of the Parishes of Saint Leonard, Grand Falls, and Perth, in the County of Victoria, into a new or separate Parish :

A Bill to alter the Boundary Line between the Parishes of Grand Falls and Saint Leonard, in the County of Victoria :

A Bill to increase the Representation in certain Counties :

A Bill to change the Constitution of the Legislative Council :

A Bill to continue Chapters 26, 27, 28, and 29, Title iii, of the Revised Statutes, "Of the Public Revenue:" and

A Bill for the better preventing the fraudulent use of false Invoices for Customs purposes.

Read a third time as engrossed,

A Bill for establishing and maintaining a Police Force in the Town of Newcastle, in the County of Northumberland.

Resolved, That the Bill do pass.

Ordered, That Mr. Williston take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to establish an additional Polling place in the Parish of Grand Manan, in the County of Charlotte.

Resolved, That the Bill do pass.

Ordered, That Mr. Stevens take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to change the present Polling place in the Parish of Cambridge, in Queen's County, and to establish another Polling place in said Parish in lieu thereof.

Resolved, That the Bill do pass.

Ordered. That Mr. S. H. Gilbert take the said Bill to the Council, and desire their concurrence thereto.

On motion of Mr. Munro,

The House went into Committee of the whole on—A Bill to alter the Division Line between the Parishes of Northampton and Brighton, in the County of Carleton.

Mr. Stevens in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

The Honorable Mr. Watters, by leave, presented a Petition from the Governor and Trustees of the Madras School in New Brunswick, praying that an Act may pass authorizing them to raise money upon Mortgage; which he read.

Ordered, That the said Petition be received and lie on the Table.

The Honorable Mr. Watters moved for leave to bring in—A Bill to authorize the Governor and Trustees of the Madras School in New Brunswick to raise money upon Mortgage of certain Lands.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Williston,

The House went into Committee of the whole on—A Bill to continue and amend an Act to incorporate the South West Boom Company.

The Honorable Mr. Stadman in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House—

Second Annual Report of the Board of Agriculture of the Province, being for the year 1861.

[See Appendix.]

Mr. Ryan, by leave, presented a Petition from Gilford Flewwelling, Edmund A. Warneford, J. B. Belyea, S. Hewlett, George Otty, Justus Earle, Silas Lockhart, and twenty four others, inhabitants of King's County, praying that the Road leading from Hampton Ferry to Groom's Bridge, via the Ossekeag Railway Station, may be placed on the Great Road establishment; which he read.

Ordered, That the said Petition be received and referred to the Chief Commissioner of the Board of Works, to report thereon.

Mr. Stevens moved for leave to bring in—A Bill to regulate the putting up of Beef and Pork within the Province for exportation.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. W. J. Gilbert,

The House went into Committee of the whole on—A Bill to regulate the Registering of Deeds and other Instruments made and executed by marksmen or illiterate persons.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. Fisher, by leave, presented a Petition from Darius Burt, Cornelius Brewer, Senior, William Lawrence, Senior, and 143 others, inhabitants of the Parish of Douglas, in the County of York, accompanied by a recommendation of the County Council of the said County, praying for an amendment in the Law relative to the Gaol Limits, by authorizing the extension thereof throughout the whole County; which he read.

Ordered, That the said Petition be received and lie on the Table.

The Honorable Mr. Smith moved for leave to bring in—A Bill to revive and continue an Act intituled "An Act to provide for the expenses of the Legislature."

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Stevens,

The House went into Committee of the whole on—A Bill for the consolidation of the Laws relating to Highways.

Mr. M'Clelan in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted; and

On motion of the Honorable Mr. Hatheway,

Resolved, That the said Bill be referred to a Select Committee to examine and report thereon; and

Ordered, That Mr. Fisher, Mr. Allen, Mr. Stevens, the Honorable Mr. Smith, and Mr. Gillmor, do compose the said Committee.

The Honorable Mr. M'Millan, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House—

First Annual Report of the Crown Land Department for the year ending 31st October 1861 : also

Detailed Accounts of the Department for the same period.

[See Appendix.]

On motion of Mr. Boyd,

Ordered, That Mr. Young be added to the Committee appointed on the twelfth day of February instant, to take into consideration all matters affecting the Trade of the Province; and

On motion of Mr. Jordan,

Ordered, That Mr. Cudlip be added to the same Committee.

On like motion of Mr. Jordan,

Ordered, That Mr. Cudlip be also added to the Committee appointed on the 12th day of February instant, on matters connected with the Public Accounts.

Mr. Stevens moved for leave to bring in—A Bill for the encouragement of Agriculture.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Ryan,

Resolved, That the Debates published by this House for distribution, be distributed to the several Counties according to population.

To which Mr. Young moved as an amendment—To expunge the whole thereof, after the word “Resolved,” and substitute as follows:—

“That the Journals and Debates be distributed as formerly.”

Upon the question for adopting the amendment, the House divided as follows:—

YEAS.

Hon. Mr. Smith,	Mr. Stiles,
Hon. Mr. M'Millan,	Allen,
Hon. Mr. Hatheway,	Glasier,
Hon. Mr. Perley,	Farris,
Mr. Kerr,	Munro,
Meahan,	Montgomery,
Williston,	Dr. Dow,
Raymond,	Anglin,
Costigan,	Fisher,
Landry,	Cudlip,
Young,	Gillmor.

NAYS.

Hon. Mr. Steadman,	Mr. Scovil,
Mr. Stevens,	Lindsay,
Vail,	Ryan,
M'Clelan,	Jordan,
M'Phelim,	Boyd.

And it was thereupon carried in the affirmative.

The House adjourned until to-morrow morning at 10 o'clock.

Saturday, 22nd February, 1862.
Prayers.

Read a second time the following Bills, viz:—

A Bill to authorize the Governor and Trustees of the Madras School in New Brunswick to raise money upon Mortgage of certain Lands :

A Bill to regulate the putting up of Beef and Pork within the Province for exportation :

A Bill to revive and continue an Act intituled "An Act to provide for the expenses of the Legislature : " and

A Bill for the encouragement of Agriculture.

Read a third time as engrossed,

A Bill to alter the Division Line between the Parishes of Northampton and Brighton, in the County of Carleton.

Resolved, That the Bill do pass.

Ordered, That Mr. Munro take the said Bill to the Council, and desire their concurrence thereto.

Mr. McClelan, by leave, presented a Petition from Stephen Wilband, William Tingley, Solomon Pearson, and fourteen others, proprietors of Lands in the Lake District, in the Parish of Harvey, in the County of Albert, praying that the Act authorizing the draining of German Town Lake may be amended ; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. McClelan moved for leave to bring in—A Bill in amendment of the Law relating to the draining of German Town Lake.

The twenty fifth Rule of the House, which requires Bills of a private or local nature to be read in presence of the Grand Jury, or published in some Newspaper, being in this instance dispensed with, leave was granted ; and

The said Bill brought in and read a first time.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill to continue Chapters 26, 27, 28, and 29, Title iii, of the Revised Statutes, "Of the Public Revenue."

Mr. Young in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Williston,

The House went into Committee of the whole on—A Bill to incorporate the North West Boom Company.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The Honorable Mr. Hatheway, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House—

Report from Chief Commissioner of the Board of Works for the year 1861.

See Appendix.

Mr. Vail, by leave, presented a Petition from Henry Fowler and J. A. Dodge, Esquires, together with Andrew Sherwood, and fifty one others, inhabitants of the Parishes of Hammond and Upham, in King's County, praying that the Road leading from R. C. Sherwood's, in the said Parish of Upham, to Quaco, in the County of Saint John, be placed on the Great Road establishment; which he read.

Ordered, That the said Petition be received and referred to the Chief Commissioner of the Board of Works, to report thereon.

Mr. Vail moved for leave to bring in—A Bill relating to the Road from the Parish of Upham, in King's County, to Quaco, in the County of Saint John.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Lindsay,

The House went into Committee of the whole on—A Bill relating to Sales of Lands for non-payment of Taxes.

Mr. W. J. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House the following documents, viz :—

Report from the Auditor General on the Public Accounts for the Fiscal Year ending 31st October 1861 : and

Report of the Railway Commissioners, shewing the operations of the European and North American Railway for the Year ending 31st October 1861.

See Appendix.

On motion of Mr. Boyd,

The House went into Committee of the whole on—A Bill to prevent the use of abusive language within this Province.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill to continue an Act intituled "An Act to encourage the destruction of Wolves in this Province."

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill before them,

The question was taken thereon, when the Committee divided—

YEAS 20.

NAYS 8.

And it was thereupon carried in the affirmative, and the Bill agreed to.

Ordered, That the Report be accepted and the Bill engrossed.

Mr. Allen moved for leave to bring in—A Bill to establish additional Polling places in the County of York.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Williston moved for leave to bring in—A Bill to authorize investigation in cases of Fires in the several Counties of this Province.

Leave granted.

The said Bill being brought in was read a first time.

The House adjourned until Monday morning next at 10 o'clock.

Monday, 24th February, 1862.

Prayers.

Read a second time the following Bills, viz :—

A Bill in amendment of the Law relating to the draining of German Town Lake, in the County of Albert :

A Bill relating to the Road from the Parish of Upham, in King's County, to Quaco, in the County of Saint John :

A Bill to establish additional Polling places in the County of York : and

A Bill to authorize investigation in cases of Fires in the several Counties of this Province.

Read a third time as engrossed,

A Bill to continue Chapters 26, 27, 28, and 29, Title iii, of the Revised Statutes, "Of the Public Revenue."

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Watters take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to continue an Act intituled "An Act to encourage the destruction of Wolves in this Province."

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Watters also take this Bill to the Council, and desire their concurrence thereto.

On motion of Mr. Williston,

Resolved, That a Bill before the House "to authorize investigation in cases of Fires in the several Counties in this Province," be referred to a Select Committee to examine and report thereon ; and

Ordered, That Mr. Williston, the Honorable Mr. Smith, and Mr. Allen, do compose the said Committee.

On motion of Mr. Costigan,

The House went into Committee of the whole on—A Bill to alter the Boundary Line between the Parishes of Grand Falls and Saint Leonard, in the County of Victoria.

Mr. Anglin in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On like motion of Mr. Costigan,

The House went into Committee of the whole on—A Bill to set off parts of the Parishes of Saint Leonard, Grand Falls, and Perth, in the County of Victoria, into a new or separate Parish.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The Honorable Mr. Watters, by leave, presented a Petition of the Right Reverend John Sweeny, Roman Catholic Bishop of Saint John, praying that an Act may pass incorporating the Petitioner and his Successors for the purpose of acquiring and holding Property for the Religious and other purposes of the Diocese of Saint John; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill to authorize the Governor and Trustees of the Madras School in New Brunswick, to raise money upon Mortgage of certain Lands.

Mr. Grimmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill before them, the following Resolution was moved:—

“*Resolved*, That the further consideration of the said Bill be postponed for three months.”

Upon the question for sustaining the same, the Committee divided as follows:—

YEAS.

Hon. Mr. Speaker,	Mr. M'Clelan,
Hon. Mr. Smith,	M'Phelim,
Hon. Mr. M'Millan,	Stiles,
Hon. Mr. Hatheway,	Glasier,
Mr. Kerr,	Montgomery,
Raymond,	W. J. Gilbert,
Costigan,	Ryan,
Landry,	Gillmor,
Young,	Boyd.

NAYS.

Hon. Mr. Tilley,	Mr. Lindsay,
Hon. Mr. Watters,	Munro,
Hon. Mr. Steadman,	Dr. Dow,
Mr. Meahan,	Anglin,
Stevens,	S. H. Gilbert,
Williston,	Fisher,
Vail,	Cudlip,
Allen,	Jordan.
Seovil,	

And it was thereupon carried in the affirmative.

Ordered, That the Report be accepted, and the further consideration of the said Bill accordingly postponed.

Mr. Cudlip moved for leave to bring in—A Bill to explain and amend an Act intituled “An Act to regulate proceedings against Members of the General Assembly,” and for other purposes therein mentioned.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Cudlip, by leave, presented a Petition from the Chamber of Commerce of the City of Saint John, praying that an Act may pass for the appointment of Commissioners to devise and prepare Plans for the preservation and improvement of the Harbour at that place, and embracing other enactments for the efficiently carrying out said Plans; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Boyd,

Whereas the practice of granting money for the support of Denominational and Private Schools, has caused great dissatisfaction throughout the Province, and the moneys so voted are those of the whole People, and not of any Sectarian or Denominational portion of them; therefore

Resolved, That in future this House will not make any further provision in aid or in support of any Denominational or Private School, Academy, or College.

To which Mr. Williston moved as an amendment—To expunge the whole of the said Resolution, as well as the Preamble thereto, and substitute as followeth:—

“Whereas the granting of money for the support of Denominational and Private Schools has been, for a number of years past, in operation in this Province; and whereas the subject involves a question of vast importance to the People of this Province, and should be dealt with by the Government; thereupon

“*Resolved*, That it is inexpedient for this House, at the present time, to adopt the Resolution;” when

On motion of Mr. Grimmer,

Ordered, That the consideration of the foregoing Resolution, as well as the amendment moved thereto, be adjourned over until the hour of two o'clock P. M. to-morrow, when the House will proceed to debate the same.

On motion of Mr. W. J. Gilbert,

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to cause to be laid before this House, a copy of the Petition of Alexander M'Bean, praying for a return of Duties paid by him on a Steam Excavator or Dredging Machine, together with all papers connected therewith.

Ordered, That Mr. W. J. Gilbert, Mr. Gillmor, and Mr. Skinner, be a Committee to wait upon His Excellency with the Address.

On motion of Mr. Stevens,

Ordered, That the time for taking into consideration the several matters contained in the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and eleven others, Electors of the County of Carleton, against the election and return of William Lindsay, Esquire, as a Member for the said County, and which was ordered for to-morrow, being Tuesday the 25th day of February, be now enlarged to Thursday the 27th day of February instant, and that the House do at the hour of twelve o'clock at noon of that day, proceed thereon.

The Honorable Mr. Watters moved for leave to bring in—A Bill to amend the Law relating to offences against the Person.

Leave granted.

The said Bill being brought in was read a first time.

The House adjourned until to-morrow morning at 10 o'clock.

Tuesday, 25th February, 1862.

Prayers.

Read a second time—

A Bill to explain and amend an Act intituled "An Act to regulate proceedings against Members of the General Assembly," and for other purposes therein mentioned: and

A Bill to amend the Law relating to offences against the Person.

Read a third time as engrossed,

A Bill to alter the Boundary Line between the Parishes of Grand Falls and Saint Leonard, in the County of Victoria.

Resolved, That the Bill do pass.

Ordered, That Mr. Costigan take the said Bill to the Council, and desire their concurrence thereto.

Mr. Williston moved for leave to bring in—A Bill to explain Chapter 54, Title viii, of the Revised Statutes, "Of Buildings, Offices, and School Reserves."

Leave granted.

The said Bill being brought in was read a first time.

Mr. Kerr, by leave, presented a Petition from the Right Reverend James Rogers, Roman Catholic Bishop of Chatham, praying that an Act may pass to incorporate the Petitioner and his Successors, for the purpose of acquiring and holding Lands and other property for Religious and other purposes connected with his Diocese; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Williston,

The House went into Committee of the whole on—A Bill to incorporate the Cain's River Boom Company.

The Honorable Mr. Hatheway in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Lindsay,

The House again went into Committee of the whole on—A Bill relating to sales of Lands for non-payment of Taxes.

Mr. W. J. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted; and

On motion of Mr. Lindsay,

Resolved, That the said Bill be referred to a Select Committee to examine and report thereon; and

Ordered, That Mr. Lindsay, Mr. Kerr, Mr. Allen, Mr. Gillmor, and Mr. Cudlip, do compose the said Committee.

The Honorable Mr. Steadman moved for leave to bring in—A Bill to divide the Parish of Shediac, in the County of Westmorland, and to erect a separate Parish for Ecclesiastical purposes; and

The question being put—That the twenty fifth Rule of the House, which requires Bills of a private or local nature to be read in presence of the Grand Jury, or published in some Newspaper, be in this instance dispensed with, and leave granted to introduce the Bill—

Whereupon the House divided—

YEAS 20.

NAYS 12.

And it being thereupon carried in the affirmative, leave was granted; and The said Bill brought in and read a first time.

On motion of Mr. M'Phelim,

The House went into Committee of the whole on—A Bill to alter the Division Line of the Parishes of Dundas and Wellington, in the County of Kent.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Costigan,

The House again went into Committee of the whole on—A Bill to set off parts of the Parishes of Saint Leonard, Grand Falls, and Perth, in the County of Victoria, into a new or separate Parish.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, had made amendments thereto, and then agreed to the same under the Title of—

A Bill to set off parts of the Parishes of Perth and Grand Falls, in the County of Victoria, into a separate Town or Parish.

Ordered, That the Report be accepted, and the Bill engrossed as amended, under the amended Title.

Mr. Grimmer moved for leave to bring in—A Bill for establishing and maintaining a Police Force in the Town of Saint Stephen, in the County of Charlotte, and for lighting the Streets of the said Town; and

The twenty fifth Rule of the House, which requires Bills of a private or local nature to be read in presence of the Grand Jury, or published in some Newspaper, being in this instance dispensed with, leave was granted; and

The said Bill brought in and read a first time.

Mr. Scovil moved for leave to bring in—A Bill to alter the Division Line between the Parishes of Springfield and Studholm, in King's County; and

The like Rule of the House, relative to Bills of a private or local nature, being in this instance dispensed with, leave was granted; and

The Bill brought in and read a first time.

Mr. Kerr moved for leave to bring in—A Bill relating to Railways.

Leave granted.

The said Bill being brought in was read a first time.

Mr. W. J. Gilbert moved for leave to bring in—A Bill to divide the Parish of Dorchester, in the County of Westmorland, and to establish therein an additional Polling place.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Boyd,

That the House proceed to the Order of yesterday, and resume the consideration of—The Resolution relative to the withholding of provision for the future, in aid of any Denominational or private School, Academy, or College,—as well as the amendment moved thereto, declaring—

“It inexpedient for this House, at the present time, to adopt the Resolution, inasmuch as the subject involves a question of vast importance to the people of this Province, and should be dealt with by the Government.”

The Order of the Day being read, the House had the Resolution, as well as the amendment again before them; and

The question being put upon the amended motion, when the House divided as follows:—

YEAS.		NAYS.	
Hon. Mr. Tilley,	Mr. M'Phelim,	Mr. Stevens,	Mr. Grimmer,
Hon. Mr. Smith,	Stiles,	Lindsay,	Gillmor,
Hon. Mr. Watters,	Allen,	S. H. Gilbert,	Boyd,
Hon. Mr. Steadman,	Munro,	Cudlip,	Ryan.
Hon. Mr. Hatheway,	Montgomery,		
Mr. Kerr,	Dr. Dow,		
Meahan,	Anglin,		
Williston,	W. J. Gilbert,		
Young,	Jordan.		
M'Clelan.			

And so it was carried in the affirmative.

On motion of Mr. Boyd,

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to cause to be laid before this House, copy of a Petition of Thomas Crowley, a licensed School Teacher, praying for the usual allowance for his services, and which was presented to His Excellency in 1861; together with all other papers connected therewith.

Ordered, That Mr. Boyd, Mr. Ryan, and Mr. M'Clelan, be a Committee to wait upon His Excellency with the Address.

On like motion of Mr. Boyd,

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to cause to be laid before this House, a copy of the Petition presented to His Excellency in 1861, on the subject of the removal of the Office of Deputy Treasurer from Welch Pool, on the Island of Campo Bello, in the County of Charlotte, to Indian Island, in the Parish of West Isles, in the said County; together with the correspondence connected therewith.

Ordered, That Mr. Boyd, Mr. W. J. Gilbert, and Mr. Williston, be a Committee to wait upon His Excellency with this Address.

On motion of the Honorable Mr. Smith,

The House went into Committee of the whole on—A Bill to revive and continue an Act intituled “An Act to provide for the expenses of the Legislature.”

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

Mr. Cudlip moved for leave to bring in—A Bill to provide for the erection of a City Hall in the City of Saint John.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Grimmer, by leave, presented a Petition from Robert Watson, Z. Chipman, James A. Grant, and twenty two others, Rate-payers and Inhabitants of the Town of Saint Stephen, in the County of Charlotte, praying that an Act may pass authorizing the establishment of a Police Force at that place, and for imposing a Tax for lighting the said Town with Gas; which he read.

Ordered, That the said Petition be received and lie on the Table.

The Honorable Mr. Watters moved for leave to bring in—A Bill to incorporate the Roman Catholic Bishop of Saint John.

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Tilley, by leave, presented a Petition from the Mayor, Aldermen and Commonalty of the City of Saint John, praying that a Bill now before the House, to provide for the erection of a City Hall in the said City, may not become a Law; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Stevens,

The House went into Committee of the whole on—A Bill to regulate the putting up of Beef and Pork within the Province for exportation.

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The House adjourned until to-morrow morning at 10 o'clock.

Wednesday, 26th February, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill to explain Chapter 54, Title viii, of the Revised Statutes, "Of Buildings, Offices, and School Reserves:"

A Bill to divide the Parish of Shediac, in the County of Westmorland, and to erect a separate Parish for Ecclesiastical purposes:

A Bill for establishing and maintaining a Police Force in the Town of Saint Stephen, in the County of Charlotte, and for lighting the Streets of said Town:

A Bill to alter the Division Line between the Parishes of Springfield and Studholm, in King's County:

A Bill relating to Railways:

A Bill to divide the Parish of Dorchester, in the County of Westmorland, and to establish therein an additional Polling place:

A Bill to provide for the erection of a City Hall in the City of Saint John: and

A Bill to incorporate the Roman Catholic Bishop of Saint John.

Read a third time as engrossed,

A Bill to alter the Division Line of the Parishes of Dundas and Wellington, in the County of Kent.

Resolved, That the Bill do pass.

Ordered, That Mr. M'Phelim take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to set off parts of the Parishes of Perth and Grand Falls, in the County of Victoria, into a separate Town or Parish.

Resolved, That the Bill do pass.

Ordered. That Mr. Costigan take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to revive and continue an Act intituled "An Act to provide for the expenses of the Legislature."

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Smith take the said Bill to the Council, and desire their concurrence thereto.

On motion of Mr. Williston,

Ordered. That a Bill before the House "to explain Chapter 54, Title viii, of the Revised Statutes, 'Of Buildings, Offices, and School Reserves,'" be referred to the Committee appointed on the 20th day of February instant, to examine into the provisions of a Bill to authorize the Justices of the County of Charlotte to sell certain Lands in the Parish of Saint Stephen, to report thereon.

Mr. Skinner, by leave, presented a Petition from William Lindsay, Esquire, a Member returned for the County of Carleton, and whose return is petitioned against, praying to be heard by Counsel at the Bar of the House; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill for abolishing the punishment of Death in certain cases.

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to—

The Bill for establishing and maintaining a Police Force in the Town of Newcastle, in the County of Northumberland,

With certain amendments, to which they desire the concurrence of the Assembly.

The amendments made by the Council to this Bill were then severally read a first and second times, and are as follow :—

At A, Section 5, expunge the remainder of the Section.

At B, Section 7, insert the following words :—

“ Which limits, for the purposes of this Act, shall be deemed the Town of Newcastle.”

And in the Table of Fees to be charged and taken under the Act, the several sums thereby allowed, altered to the decimal currency of “ cents.”

Mr. W. J. Gilbert, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with the Address of the 24th day of February instant, praying that His Excellency would be pleased to cause to be laid before the House, the Petition of Alexander M. Bean, relative to the return of Duties paid by him on an Excavator or Dredging Machine, together with all papers connected therewith, reported—That they had attended thereto, and His Excellency was pleased to say—That the wishes of the House should be complied with.

Mr. Kerr moved for leave to bring in—A Bill to incorporate the Roman Catholic Bishop of Chatham.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Grimmer,

Ordered, That the time for taking into consideration the Petition of Charles Brown, Esquire, James Hamilton, James E. Simmons, and others, Electors of the County of Sunbury, against the Election and Return of John Glasier, Esquire, as a Member for the said County, and which was ordered for Saturday the first day of March next at the hour of eleven o'clock in the forenoon of that day, be enlarged to the hour of twelve o'clock at noon of the same day, when the House will proceed thereon.

Mr. Costigan moved for leave to bring in—A Bill to explain and amend an Act intituled “ An Act to disqualify persons holding certain Offices under Government from being elected or capable to hold Seats in the Assembly.”

Leave granted.

The said Bill being brought in was read a first time.

The House adjourned until to-morrow morning at 10 o'clock.

Thursday, 27th February, 1862.

Prayers.

Read a second time—

A Bill to incorporate the Roman Catholic Bishop of Chatham: and

A Bill to explain and amend an Act intituled “ An Act to disqualify persons holding certain Offices under Government from being elected or capable to hold Seats in the Assembly.”

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House—

Report from Lieutenant Colonel Hayne, Adjutant General of Militia, dated 31st December 1861.

See Appendix.

The Honorable Mr. Tilley, also by command of His Excellency, laid before the House, in pursuance of an Address of the 24th day of February instant—

Copy of a Petition from Alexander M'Bean, praying for a return of Duties paid on an Excavator or Dredging Machine imported into this Province.

Mr. Stevens moved for leave to bring in—A Bill to incorporate the Congregational Union of Nova Scotia and New Brunswick.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Raymond moved for leave to bring in—A Bill relating to the Road from the Tobique to the Grand Falls Bridge, in the County of Victoria.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Costigan,

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to cause to be laid before this House, a copy of the Correspondence with the Government or the Postmaster General, relative to a charge preferred by Registe Martin, of Madawaska, against the Postmaster at Edmundston, for opening a Letter in the Post Office at that place, addressed to the said Registe Martin.

Ordered, That Mr. Costigan, the Honourable Mr. Watters, and Mr. Young, be a Committee to wait upon His Excellency with the Address.

It being the time appointed for taking into consideration the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and others, against the Election and Return of William Lindsay, Esquire, as a Member for the County of Carleton, and praying that an investigation be had in the premises—

The Sergeant at Arms was directed to call the Members to their places, and being returned, the House was counted, when it appeared that there were thirty six Members present, exclusive of William Lindsay, Esquire, the sitting Member, and whose return is petitioned against.

Ordered, thereupon, That the parties be heard at the Bar; when

Peter R. M'Monagle, one of the Petitioners named. with John A. Street, Esquire, as Counsel for the Petitioners; as also William Lindsay, Esquire, the sitting Member, with William H. Needham, Esquire, as his Counsel, appeared at the Bar of the House; the doors being then locked—and

The Order of the Day for the consideration of the allegations set forth in the said Petition, as well as the adjourned Order, were severally read; and the Tickets, with the names of the several Members of the House written thereon were counted by the Speaker, and deposited in the Ballot Boxes preparatory to the drawing of the Committee; when

Mr. Skinner moved—

That Mr. Lindsay, the sitting Member, be heard by his Counsel at the Bar of the House, previous to the drawing of the said Committee being proceeded with.

Upon the question for sustaining this motion, the House divided (Mr. Fisher, a Member for the County of York, being excused from voting) as follows:—

YEAS.

Hon. Mr. Tilley,	Mr. Skinner,
Hon. Mr. Smith,	Stiles,
Hon. Mr. Watters,	Glasier,
Hon. Mr. M'Millan,	Munro,
Hon. Mr. Steadman,	Dr. Dow,
Hon. Mr. Hatheway,	W. J. Gilbert,
Hon. Mr. Perley,	Ryan,
Mr. Landry,	Grimmer.
M'Clelan,	

NAYS.

Mr. Kerr,	Mr. Allen,
Meahan,	Scovil,
Stevens,	Montgomery,
Williston,	Anglin,
Vail,	S. H. Gilbert,
Raymond,	Cudlip,
Costigan,	Jordan,
Young,	Gillmor,
M'Phelim,	Boyd.

And it being decided in the negative—

The drawing of the Committee, and appointment of the Nominees to try the matters set forth in the said Petition, was proceeded in and perfected as directed by Chapter 98, Title xix, of the Revised Statutes, "Of Controverted Elections."

The Doors being then opened, the Lists as drawn were delivered to the Counsel for the respective parties; and the same being struck, reduced Lists of the Members so drawn, with the Nominees added thereto, signed by the Counsel, were handed in, by which the following appears as the Members of the Committee:—

Robert Young,	} Esquires.
Francis M'Phelim,	
Abner R. M'Clelan,	
Timothy W. Anglin,	
John W. Cudlip,	

Nominees :

Edward Williston, Esquire, for the Petitioners :
Charles N. Skinner, Esquire, for the Sitting Member.

The several Members of the Committee thus constituted were called to the Clerk's Table, and there duly sworn well and truly to try the several matters set forth in the said Petition referred to them, and a true judgment to give thereon, according to the evidence.

The Counsel and parties were then ordered to withdraw; and

On motion of Mr. Williston,

Ordered, That the Committee do forthwith meet in one of the Committee Rooms, and proceed to the investigation of the several matters alleged in the Petition; and that Lists of the Committee sworn, together with copies of this Order, be delivered to the respective parties.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill to incorporate the Roman Catholic Bishop of Saint John.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

The Honorable Mr. Steadman, by leave, presented a Petition from Daniel Hanington, E. C. Scovil, and sixty six others, Church Wardens and Vestrymen of Saint Martin's Church, and other Inhabitants of the Parish of Shediac,

in the County of Westmorland, praying that an Act may pass authorizing a division of the said Parish for Ecclesiastical purposes; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. W. J. Gilbert, by leave, presented a Petition from the Reverend George S. Jarvis, D. D., Rector of the Parish of Shediac, in the County of Westmorland, Robert Sowerby, one of the Vestry, together with James Welling and twenty four others, Members of the Church of England in that Parish, against any alteration being made in the application of the proceeds arising from the Glebe and Vestry Lands from their original intention; and further praying that no division of the Parish may take place for Ecclesiastical purposes; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Boyd, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with the Address of the 25th day of February instant, praying that His Excellency would cause to be laid before the House, copy of a Petition for the removal of the Office of Deputy Treasurer from Welch Pool, in the Island of Campo Bello, to Indian Island, in the Parish of West Isles, together with the Correspondence had upon the subject, reported—That they had attended thereto, and His Excellency was pleased to say—That the wishes of the House should be complied with.

Mr. Boyd, also from the Committee appointed to wait upon His Excellency the Lieutenant Governor with an Address of the 25th day of February instant, praying that His Excellency would cause to be laid before the House, copy of a Petition from Thomas Crowley, a licensed Teacher, for the payment of the accustomed allowance for his services as such, reported—That they had attended thereto, and His Excellency was pleased to say—That he would comply with the wishes of the House.

Mr. McClelan, by leave, presented a Petition from James Horsman and John Barchard, Esquires, together with Frederick W. Steves, and two hundred and fifty one others, Inhabitants of the Parish of Elgin, in the County of Albert, praying that the Road leading from the Railroad, via Elgin Corner, thence up the Pollet River, to Benjamin Dowling's, and thence by way of Thomas Leeman's, to New Ireland Road at R. O'Connor's, be established as one of the Great Roads of communication; which he read.

Ordered, That the said Petition be received and referred to the Chief Commissioner of the Board of Works, to report thereon.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill to amend the Law relating to offences against the Person.

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

The House adjourned until to-morrow morning at 10 o'clock.

Friday, 28th February, 1862.

Prayers.

Read a second time—

A Bill to incorporate the Congregational Union of Nova Scotia and New Brunswick: and

A Bill relating to the Road from the Tobique to the Grand Falls Bridge, in the County of Victoria.

Read a third time as engrossed,

A Bill to incorporate the Roman Catholic Bishop of Saint John.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Watters take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to amend the Law relating to offences against the Person.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Watters also take this Bill to the Council, and desire their concurrence thereto.

The Honorable Mr. Watters moved for leave to bring in—A Bill to provide for the drainage and protection of the Great Marsh in the City of Saint John, and in the Parishes of Portland and Simonds, in the City and County of Saint John, and the maintenance of a Highway over the Aboideau across the Marsh Creek near the City of Saint John.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Grimmer, by leave, presented a Petition from the Reverend Skeffington Thomson, Daniel Sullivan, Esquire, Nehemiah Marks, and seventy six others, Freeholders and Rate-payers of the Town of Saint Stephen, in the County of Charlotte, against the passing of an Act to establish a Police at that place, and to authorize the lighting of the said Town with Gas; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Kerr,

The House went into Committee of the whole on—A Bill to incorporate the Roman Catholic Bishop of Chatham.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

A Message from His Excellency the Lieutenant Governor.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, by command of His Excellency, delivered the following Message:—

“ New Brunswick.

“ Message to the House of Assembly, 28th February, 1862.

“ ARTHUR H. GORDON.

“ His Excellency the Lieutenant Governor lays before the House of Assembly, Papers relative to the proposed re-organization of the Militia.

A. H. G.

The Documents communicated by this Message, being read at the Clerk's Table, are as follow :—

ORGANIZATION OF MILITIA.

Captain Moody to Colonel Fordyce, C. B., and Lieut. Colonel Crealock.

Government House, Fredericton, 31st January, 1862.

SIR,—The services of yourself and Lieutenant Colonel Crealock having been placed at the disposal of the Lieutenant Governor by Her Majesty's Government, for the purpose of assisting him in the re-organization of the Militia of this Province, I am directed by His Excellency to request that you will, in concert with that Officer, report to him as to the means which in your opinion will be most advisable to adopt to promote the efficiency of that Force.

I am to request that this Report may be laid before His Excellency at as early a date as possible; it being His Excellency's intention that the subject of the re-organization of the Militia should be brought under the notice of the Legislature at an early period of the approaching Session.

I have the honor to be, Sir,

Your obedient servant,

HARRY MOODY, A. D. C.

Colonel Fordyce, C. B., &c. &c. &c.

Colonel Fordyce, C. B. and Lieut. Colonel Crealock, to the Lieut. Governor.

Fredericton, 12th February, 1862.

SIR,—We have the honor herewith to enclose a Memorandum on the re-organization of the Militia of New Brunswick, which we have compiled in accordance with Your Excellency's instructions.

We would respectfully solicit Your Excellency's indulgence for any oversights which may have occurred in the drawing up of this document, begging you to remember that we have only had a few days to prepare our Report, and but little information to enable us to arrive at a just estimation of the necessities and resources of the Province.

The organization detailed in the enclosed Memorandum, has suggested itself to us on the following grounds :—

It will naturally be the wish of the Legislature of New Brunswick to form a Militia Force on as economical a footing as possible, consistent with efficiency.

In a country such as this, where time is of more value than money, men occupied in their daily agricultural or commercial pursuits, can not be expected to sacrifice more time for other purposes than is absolutely required. But unless a certain amount of time and painstaking is devoted to drill, &c. it is hopeless to expect that an efficient active Force can be obtained for the defence of the country. If there are only a few Drill Instructors scattered over a large extent of country, it is evident that the men composing the active Force must travel many miles in the rural districts to receive instruction. Thus is time lost. Men come on to parade tired and disgusted, with the prospect of a long way to return; and a distaste for the Militia service in the commencement, will greatly tend to prevent its proper and efficient development. By the expenditure of a certain sum of money annually, a sufficient Staff of Non-commissioned Officer Instructors may be kept up, who can instruct the men of the Militia in detail, by making tours within certain limits, and drilling the men of each division in succession, either individually or collectively, in houses or in the open air, as the nature of the instruction or the state of the weather may permit.

As no Military organization can ever be efficiently carried out without good supervision, we cannot too strongly impress upon Your Excellency the importance we attach to the selection of competent officers and men to fill the permanently paid appointments of Adjutant General, and of Adjutants and Non-commissioned Officer Instructors of Regiments.

We have proposed to attach a Company of Pioneers to each Battalion when called out on active service, composed of Lumberers, as we conceive no class would be more useful

in case of war than those active, intelligent men, who, with their axes, could rapidly build block-houses, temporary hut camps, bridges and stockades, and when necessary, clear a road through the forest.

In the event of Your Excellency considering it expedient to call out and embody only a portion of the Militia Force, we have divided it into different branches, and given an approximate estimate of the cost of each.

We have presumed that the Imperial Government would furnish the requisite number of arms and accoutrements.

Should arms and accoutrements for the non-drilled portions of the Active and Sedentary Militia be sent to this country, it will be necessary to prepare suitable buildings at various central points to store them in, and individuals must be hired to take proper care of them.

We further have the honor to submit to Your Excellency a plan for the enrolment of an Unpaid Volunteer Force, by which means the effective strength of the drilled and paid Militia might be greatly increased at little expense to the Province, or it might be made to take the place of the paid Militia altogether.

Our recommendations for the Uniform of the Militia, are founded on practical observation in the field, and with reference to economy and efficiency. We beg to annex coloured drawings of these Uniforms, Schedules I and K.

By the last Census it would appear that there are about 40,000 men between the ages of 18 and 45, who would come under the head of Active Militia. This number might be appropriated as follows:—

10 Regiments of Cavalry, 300 men each,	3,000 men.
20 Batteries of Field Artillery, 71 men each,	1,420 "
12 Batteries of Garrison Artillery, 50 men each,	600 "
10 Regiments of Infantry composed of 3 Battalions, each Battalion composed of 1,050 men,	31,500 "

The balance to be enrolled as Transport, and in the event of service, to be used as such.

We have the honor to be

Your Excellency's very obedient humble servants,

(Signed)

C. F. FORDYCE, *Colonel,*

H. HOPE CREALOCK, *Lieut. Col.*

To His Excellency the Hon. A. H. GORDON, C. M. G. &c.
Lieut. Governor of New Brunswick.

[Enclosure No. 1.]

Memorandum on the re-organization of the Militia of the Province of New Brunswick.

In a country so extensive, at the same time so thinly populated as the Province of New Brunswick, it is evident that a large Militia Force cannot be expected to remain permanently under arms in time of peace; and in a country where time and labour are so invaluable, it is equally evident that men can not be expected to travel long distances for drill. But it must be borne in mind that without a nucleus of trained men, it is impossible, when the moment of action arrives, to form an efficient Force for active service. The skeleton should always be kept perfect in all its parts, so that the body can be completed at any given moment. Without this, the paralysis of some vital part must be expected when it comes to be roughly handled by practice.

To form this nucleus, it will be necessary to have good instruction, to obtain which is *impossible* without a certain outlay of money annually.

In consequence of the Militia Act of New Brunswick having been in abeyance since 1850 and 1851, the Force which, up to that time had had at all events a semblance of organization on paper, exists no longer, except in isolated fragments in the shape of half formed Volunteer Companies, which have sprung into life by the exertions and patriotism of individuals.

As then it may be assumed that the Militia of New Brunswick is at the present moment little more than a tradition, it would seem advisable to re-organize it from the roots.

To effect this, it will be in the first place necessary to disband the only existing portion of the old Militia, viz. the Companies of Volunteers.

The following detail of organization is submitted to His Excellency the Lieutenant Governor, as apparently likely to meet the difficulties of an extensive Province, broken by mountain and wood, with circuitous internal communications, and a widely scattered population.

As the question of the re-organization of the Militia of this Province is not strategical, but one to convert an agricultural and commercial community into a Military body of elastic nature, and of the most efficient kind possible, consistent with the demands of the country, an eye should be kept to population, rather than to County or geographical limits in telling off of Districts and Divisions.

The Province of New Brunswick might be divided into two Military Districts.

The East District would comprise the following Counties,—Restigouche, Gloucester, Northumberland, Kent, Westmorland, Albert.

The West District would comprise the following Counties,—Victoria, Carleton, York, Sunbury, Queen's, King's, Saint John, Charlotte.

Each District should be divided into Regimental Divisions.

Each Regimental Division should be sub-divided into Battalion Divisions.

Each Battalion Division should be sub-divided into Company Divisions.

Each Company Division should be sub-divided into Section Divisions.

The whole of the Militia of the two Districts should be divided into two parts, viz:—Active, Sedentary.

The Active Militia should be composed of all the men of the Province physically capable of bearing arms from the age of 18 years to 45 years, exempts excepted.

The Active Militia should be divided into three classes,—A, B, C.

Class A should comprise Volunteers.

Class B should be composed of single men, and widowers without children.

Class C, of married men, or widowers with children.

Class A should be always kept in an efficient state for active service. It should be regularly drilled and practised in the use of fire arms, clothed, equipped, and disciplined.

Class B would be the next body of men to be embodied, drilled, and equipped, if required, and then Class C.

The Sedentary Militia of the Province would be composed of all men not exempt by law, or not physically unfit, between the ages of 45 and 60.

The Sedentary Militia would only be called out in the event of war, but the Officers should be called upon to qualify themselves for their respective positions, and be sufficiently instructed in their duties, to enable them to drill their men, should the emergency arise: the men should be encouraged to avail themselves of opportunities of instruction in drill, and the use of the rifle.

Should the Sedentary Militia be called out for service, it should be classified and organized in three classes, A, B, C, in the same manner as the Active Militia.

Class A of the Active Militia should be obliged to assemble for the purposes of muster, drill and discipline, at least ten days in each year, during which period they would receive pay. These periods should be as consecutive as possible, and be appropriated as follows:

Company Drill and Skeleton Battalion Drill, 7 days; Battalion Drill, 3 days.

These days of compulsory exercise should have no reference to the Instruction Drills for individuals and Sections, which must be voluntary on the part of the men composing the Volunteer Force.

Every Volunteer should bind himself on joining the Company, to devote a certain number of hours in every week to learning his Drill, &c. until he has been pronounced an effective man, and dismissed Drill.

Every Volunteer should engage to serve for one year certain, under the provisions of Class A of the Active Militia.

If at the expiration of that time he should decline to continue his engagement, or should he do so at any subsequent period, he would lapse into Class B or C, according to which Class he belonged.

Should enough Volunteers not come forward to supply the requisite number of men for the Active Embodied Militia, under the provisions of Class A, the deficiency would be provided by Class B. These men would be selected by ballot.

Should it become necessary at any time to call out a portion either of the Active or of the Sedentary Militia of the Province, in addition to that embodied under Class A, of the Active Militia, the number of men required should be selected by ballot, either from each Class in succession, or a certain number from each Class, as may be ordered by the Commander in Chief.

Those portions of the Active Militia not embodied for permanent service, as in Class A, should be required to assemble for muster at the Head Quarters of their respective Company Divisions for one day in each year, and at the Head Quarters of their respective Battalion Divisions for a second day in each year. These days might be either consecutive or separate. These men would receive no pay for such muster Parades.

The Sedentary Militia, should assemble one day in each year for muster at the Head Quarters of their respective Battalion Divisions, the day for the assembly of each Battalion to be duly notified in the usual manner.

The Regimental and Battalion Divisions of the Province should embrace both Sedentary and Active Militia.

The Company and Section Divisions should apply to the Active Militia only.

To ensure proper detailed supervision and instruction it would be absolutely necessary to have a permanent and efficient Staff of Officers and Non-commissioned Officer Instructors, until such time as careful training and practice should have produced their natural result.

These Supervisors and Instructors should be military men, perfectly cognizant of the details of the regular service.

The Military Districts should be under the charge of one or more Inspecting Field Officers.

Should the Commander in Chief deem one sufficient, the Adjutant General of the Militia of the Province should *ex officio* hold that appointment.

Every Regiment of Militia should have an Adjutant and a due proportion of Non-commissioned Officer Instructors.

The duty of an Adjutant of a Regiment would be confined to the divisional limits of his corps.

He would receive all reports and forward them through the Senior Officer of the Active Battalion of his Regiment, to the Adjutant General or Inspecting Field Officer of the District. He would personally inspect the progress made by the various officers and men of the Company and sections of Companies of the Active Militia embodied. To ensure the efficient discharge of these duties he should make continual tours of inspection through the divisions of his Battalion, the result of which he should report to Head Quarters. Once in every year he should put the Officers of the embodied portion of his Regiment through a course of drill, beginning from the commencement of the drill book, a system which is rigidly enforced in all Regiments of Her Majesty's service at the commencement of every drill season.

The Adjutant of the Regiment would also perform the duties of Quartermaster and Paymaster.

Officers to fill these posts should be recommended by competent military authority, as on their fitness for their position will depend in great measure the efficiency of the Regiments to which they belong.

The most efficient Non-commissioned Officer Instructor of each Regiment should, on the assembly of the Battalion for drill, be appointed to act as Sergeant-Major. This nomination should rest with the Adjutant, subject to the approval of the Adjutant General.

The Non-commissioned Officer Instructor should be told off to the Section Divisions of Companies, having reference to the number of Non-commissioned Officers available, and the extent of country embraced by each Section.

Each Instructor should commence drilling the first Section of his charge, and having put it through a certain course of instruction, should proceed to the Head Quarters of the second Section and instruct the men of that Division in the same manner, and so on, until each Section of the Company or Companies under his charge has been duly instructed. He should then commence a second course of instruction with the first Section, and so on, until the men of the Active Force embodied have become efficient Militia men.

[N. B.—These arrangements more particularly apply to a general embodiment of the Active Militia in country Districts, and would, probably, not be necessary in Towns.]

The Sections having been all drilled, should then be assembled at the Head Quarters of the Company, and drilled as a Company, under its Officers.

When sufficiently instructed in the movements of a Company, as many Companies as can be got together, should assemble for Battalion Drill as before proposed, viz. for three days in the year, consecutive if possible. But as these movements on a great scale would evidently more particularly belong to occasions when it might become necessary to embody a larger Force than that capable of being furnished by the Active Militia, it need not be so much attended to in the first instance, as the Company movements. The greatest care and attention however should be paid to the drilling and instruction of the Company, as with a few efficient Companies for a nucleus, an excellent Battalion could be formed at very short notice.

Armories.

Too much care cannot be taken with a weapon so delicate and valuable as the Enfield Rifle. It would therefore appear advisable to establish an Armory at the Head Quarters of every Company Division, in which to store all Arms, Ammunition, Accoutrements and Clothing of the Company, when not actually in use.

The Captain of each Company should be held strictly responsible for all articles of public property issued to him for the use of his Company, and he should receive a contingent allowance, as in Her Majesty's Regiments, to cover all expenses incident to this service.—*Vide* Schedule II.

In places where a public building can be utilised as a Store House, the allowance should merely have reference to the proper preservation of the Arms and Accoutrements.

Men should not on any account be permitted to retain possession of their own arms, ammunition, or accoutrements.

When Non-commissioned Officers are going their tours of instruction, they should be authorized by the Captain of the Company to take charge of a sufficient number of arms for that service. The Non-commissioned Officer should be held responsible for the preservation of the weapons placed under his charge, which should remain in his own possession, and be only issued to the men for purposes of exercise.

Great care should be taken in instructing the men in the proper method of cleaning the Rifle, as on this the efficiency of the weapon entirely depends.

Rifle Practice.

As soon as the Militia man has been sufficiently instructed in his preliminary drills, a Rifle should be placed in his hands, and he should be taught how to use it.

In a thickly wooded and broken country like New Brunswick, a man could seldom take aim at an object beyond three hundred yards; therefore all practical ends would be attained by instructing the men in the ranges of the Rifle up to that distance. Added to this, the long ranges are the points of the greatest difficulty, and take the longest time to learn.—When all practical drills have been gone through, and the soldier knows the use of his Rifle at three hundred yards, there could of course be no reason why he should not be instructed in the longer ranges of the weapon, if thought desirable; but it is submitted that 300 or 400 yards is an ample range for all practical purposes of war.

As practice alone can make an efficient Rifeman, the men should be greatly encouraged to meet for purposes of ball practice at a mark.

An ample supply of ball ammunition should be furnished annually for this purpose, but it should invariably be used under proper direction and supervision.

It will be necessary for Rifle ranges to be established at the various Head Quarters of Regiments to carry out this service properly.

When sufficiently instructed, the men should be divided into classes, according to their merit in shooting.

In shooting for the handsome medal which has been authorized in this Province, no man should be permitted to enter as a competitor for the prize unless he is in one of the classes and has gone through his regular course of preliminary drill.

The prize should not be awarded to the man who may chance to be the best of a number of very bad shots, as recent returns of Rifle shooting of certain Companies in this Province show to have been the practice heretofore, but because he surpasses his comrades, all of whom have attained to a certain proficiency in the use of the Rifle.

The Medal should never be awarded unless the winner has gained a certain number of points, as it should not only mark the best shot in the Company, but should also be a proof that the winner has arrived at a certain degree of perfection as a marksman.

The Medal should not be shot for, unless a fair proportion of the men of the Company enrol themselves as candidates.

The best shot in the Company might wear a distinguishing badge on his arm, as in the regular army.

Officers of the Militia.

No person should be nominated to a Commission in the Militia under the age of 18 years.

Every Officer should be obliged to pass an examination in the following subjects before nomination:—Reading, Writing and Spelling English fluently and correctly, and the ordinary Rules of Arithmetic.

No nomination should be confirmed for six months, at the expiration of which period the Officer should be obliged to pass an examination in part I. of Her Majesty's Field Exercises. Should he be unable to pass at the expiration of six months, he might be permitted a second period of three months, when, if he be again disqualified, the nomination should be cancelled, and he should not be allowed to become a candidate for a Commission again under two years. This second period should only be granted in cases where the Officer can satisfy the Commander in Chief that his failure was the result of unavoidable causes.

No Ensign should be promoted to the rank of Lieutenant, until he has passed a further examination in the Manual and Platoon Exercises.

No Lieutenant should be promoted to the rank of Captain, until he has passed an examination in Parts I. and II. of the Field Exercises, the Manual and Platoon, and such portions of part VI. as refer to the Rifle and Firing.

No Captain should be promoted to the rank of a Field Officer, until he has passed an examination in Parts I. II. III. and IV. of the Drill Book.

These examinations of Officers should be conducted by a Board of competent Officers to be nominated by the Commander in Chief, and presided over by a Field Officer of the Regular Army.

No Officer should be retained in actual command of any Battalion or Regiment of Active or Sedentary Militia after he has passed the age of 65 years.

No Officer of the rank of a Subaltern or a Captain should be allowed to remain in the active portion of the Militia after he has reached his 50th year.

The Commander in Chief would of course use his discretionary power to make special exceptions to these rules.

As it cannot be expected that there are many Officers of the Militia at present capable of passing the above examinations for the various grades, it would appear advisable to select individuals duly qualified to hold the position of Officers, and nominate them to the various Regiments and Battalions when formed, which nominations might be confirmed at the expiration of a year from the date of nomination, by which time it may be assumed that these gentlemen will have had opportunity of fitting themselves for their positions.

But it is submitted that the first educational examination should in every case be insisted upon before a candidate is nominated.

As there may be Districts in New Brunswick where the population being French do not speak or understand English, as in the neighbourhood of Little Falls, the examination of Officers might be in their own language.

A list of retired Officers might be formed, into which superannuated Officers should be drafted.

Every Officer on being drafted into the retired list should receive a step of honorary rank.

Discipline.

In order to insure discipline in Companies and Battalions of Militia, no meeting should ever be allowed to take place without the permission of the Commanding Officer.

On no occasion and under no circumstances should any question of discipline or the selection of Officers be discussed at such meetings.

Captains of Troops, Batteries, or Companies, should correspond with the Commanding Officers of their Regiments through the Adjutant.

Subaltern Officers not in command of troops, &c. should correspond through the Officers in command of their Troop, Battery, or Company.

Head Quarters Staff of the Militia of New Brunswick.

Adjutant General, *ex officio* Inspector General of Militia, to be paid.

Deputy Adjutant General to be paid when called out as such.

Quarter Master General, Deputy Quarter Master General, to be paid when called out as such.

These departments would be increased whenever necessary, in proportion to the service required, and care should be taken in the careful selection of Officers to fill the Staff appointments of the Force.

District Staff.

A Colonel Commanding in each District, *ex officio* Assistant Adjutant General of his District, to be paid when called out to act as such.

Assistant Quarter Master General, to be paid when called out to act as such.

It would seem advisable that this Officer should be an Engineer, who would by profession be competent to report on roads and country, and he should be called upon to acquire all necessary information on the subject, in case of active service calling upon him to fulfil the duties of his appointment.

Regimental Division Staff.

For each Regimental Division, one Adjutant, to be paid permanently. One Drill Instructor, to be paid permanently.—*Vide* Schedule C.

Battalion Division Staff.

When Battalions of Active Militia are called out for drill and exercise, one Drill Instructor per Company.

Detail of Regiments.

Every Regiment should be named, and should be divided into Battalions of 1000 men each.

Detail of Battalions.

Every Battalion of each Regiment should be numbered, and be divided into 10 Companies; with a Company of Pioneers in addition, when called out for active service.

Detail of Companies.

Every Company of each Battalion should be lettered and known by the name of its Captain, and should be divided into Sections of equal strength.

Detail of a Regiment.

1 Colonel Commandant, (honorary); 1 Adjutant; 1 Non-commissioned Officer Instructor.

Detail of a Battalion.

1 Lieutenant Colonel; 2 Majors; 10 Captains; 10 Lieutenants; 10 Ensigns.

In the event of active service, 1 Surgeon; 1 Assistant Surgeon; 1 Acting Adjutant; 1 Acting Quarter Master.

Detail of a Company of Four Sections.

Officers.—1 Captain; 1 Lieutenant; 1 Ensign.

4 Sergeants; 4 Corporals; 2 Buglers; 90 Privates—100 men.

10 Companies of 100 men per Company—total, 1,000 men.

Add a Pioneer Company when on active service, composed of Lumberers—2 Sergeants; 2 Corporals; 46 Privates—total, 50 men. Grand total, 1,050 men.

Detail of a Regiment of Cavalry.

Regimental Staff.—1 Colonel, (honorary) unpaid; 1 Adjutant, 1 Drill Instructor, paid. 1 Major; 6 Captains; 6 Lieutenants; 6 Cornets.

If on service—1 Assistant Surgeon, and 1 Acting Quarter Master.

Detail of each Troop.

Officers.—1 Captain; 1 Lieutenant; 1 Cornet.

3 Sergeants; 3 Corporals; 1 Trumpeter; 43 privates.—Total 50 men.

N. B.—This Detail includes two Farriers.

6 Troops of 50 men in each.—Total, 300 men.

Detail of a Battery of Field Artillery.

Officers.—1 Captain; 2 First Lieutenants; 1 Second Lieutenant.

1 Sergeant Major; 3 Sergeants; 3 Corporals; 3 Bombardiers; 1 Trumpeter; 1 Farrier; 59 Gunners and Drivers, including Wheeler, Collar maker, and Shoeing Smith; 56 Horses, exclusive of Officers' horses, and of 4 spare horses when on active service.—Total 71 men.

Armament.—Two 6 pounder guns, or two 9 pounder; Two 12 pounder, or two 24 pounder howitzers; to be supplied from the Royal Arsenal.

Detail of Foot or Garrison Batteries of Artillery.

1 Drill Instructor per District, to go his tour of Inspection.

Officers.—1 Captain; 1 First Lieutenant; 1 Second Lieutenant.

3 Sergeants; 3 Corporals; 1 Trumpeter; 43 Privates.—50 men.

Uniform of the Active Militia of New Brunswick.

The Uniform of the Militia of New Brunswick should be decided with reference to economy, efficiency, and capability of being used by the men both in Summer and Winter, where the difference of temperature is so great.

To obtain a suitable Uniform at as small a cost to the Government as possible, consistent with efficiency, it should be furnished by contract, and of the same colour and pattern, great saving having been made by the Imperial Government in the Clothing of the Royal Army by the adoption of this system.

The difference between Regiments should be marked by the colour of the facing; and the difference between Battalions by the number on the shoulder strap.

Cavalry.—The Cavalry should be clothed in a loose blue grey jacket known as a patrol jacket, coming as low as the fork but just clear of it.

The sword belt to be worn below the jacket: thus, play is given to the arm, and while a cool dress for Summer, its looseness permits any amount of warm clothing being worn beneath in Winter.

The 7th Hussars found this dress peculiarly adapted for Cavalry during the Mutiny.

Cavalry cloak, buff gauntlets, yellow cow hide knee boots, buckle hunting spurs; forage cap with black band in Summer; soft fur cap shaped like that issued to the regular troops; yellow leather pouch belt and sword belt.

The Cavalry should be armed with a Cavalry sword and a revolver pistol.

Ordinary Light Dragoons.—Equipment for the Horse—Facings black.

The Officer's jacket might be braided across with black braid, and in review order a shabrack of grey bound with black might be used.

Field Artillery Uniform.—Same as Cavalry, with one broad seam down the pantaloons; gloves instead of gauntlets; grenade on shoulder strap; facings dark blue; Cavalry sword.

Proportion of Cavalry carbines, about 8 per Battery of 4 guns.

Foot or Garrison Artillery.—As Foot Artillery, knickerbockers instead of pantaloons; cow hide gaiters from the ankle to the knee, laced up the side; ordinary boots, (laced recommended;) great coat; yellow leather accoutrements as Infantry; waist belt outside jacket; short Enfield rifle and sword bayonet; small knapsack containing change.

(Rifle) Infantry.—Same pattern patrol jacket, with waist belt worn outside; knickerbockers, yellow leather gaiters laced up the side; ordinary boots, (laced recommended;) forage cap in Summer; fur cap in Winter; great coat; small knapsack containing change; yellow leather accoutrements; Enfield rifle and bayonet.

Dress of Officers on Parade.—Officers of Regiments of Cavalry, Artillery, and Infantry, should be obliged to adhere strictly to the Uniform ordered for their respective Corps, and should on no account be permitted to appear on Parade in any dress not regulation.

Pioneer Company.—The Company of Pioneers, composed of Lumberers, should only be called out in case of actual War, though they should be duly enrolled, and required to attend Muster in each year.

They should be allowed to dress themselves in their own way, receiving an allowance of £2 per man for the purpose, and should be armed with a revolver pistol and waist belt, and a felling axe.

[Enclosure, No. 2.]

UNPAID VOLUNTEERS.

As the Militia Force actually enrolled and drilled in the Province of New Brunswick must of necessity be very small owing to financial reasons, it would seem advisable to authorize the formation of unpaid Volunteer Troops, Batteries, or Companies, under certain regulations. Thus a considerable force of drilled and armed men might be kept constantly in an efficient state for the defence of the Province without any additional expense.

The Volunteer Force as apart from the paid Volunteer Militia comprised under Class A, should receive no pay and should clothe themselves, but would be armed and equipped by Government.

A Troop of Volunteer Cavalry, a Battery or Company of Field or Garrison Artillery, a Company of Rifles, might be permitted to be formed, when it has raised 50 members.

This number might be allowed to be raised to 80 men, but no Troop, Battery, or Company, should be formed until 50 members have enrolled themselves under the requisite regulations, except in places where the population will not admit of the formation of a Company of 50 men.

In such places a subdivision might have authority to be raised under one Officer only, but no two subdivisions of different Companies should be allowed to form themselves in the same place or within five miles of each other.

Every unpaid Volunteer should be obliged to enrol himself for one year certain, subject to the rules of the Service.

Any Volunteer who can produce the certificate of his Commanding Officer that he has regularly performed the duty required of him as a Volunteer during a consecutive period of seven years, should be exempt from service in the Active Militia and from Statute labour for the rest of his life, and should only be liable for service in the Sedentary Militia in case of active service.

Should, however, a Volunteer resign at the end of the first year, or at any subsequent period short of seven years, he should become liable to be drawn by ballot as a Militiaman in either the Active or Sedentary Militia, according to whichever section the individual might belong.

Each Troop or Company of Volunteers amounting to 50 men might be allowed to elect two Officers.

Each subdivision of 25 men might elect one Officer.

These officers' names should be submitted to the Commander in Chief for his approval, and the Officers should be subjected to the same examinations as the Officers of the Militia.

Officers of unpaid Volunteer Companies, when once appointed, should only be removed by the authority of the Commander in Chief.

No meetings of any of the members of the unpaid Volunteers should ever be permitted for the discussion of questions of discipline or the removal of Officers.

The power of raising or disbanding Troops, Batteries, or Companies of Volunteers, should belong absolutely to the Commander in Chief, and they should be subject to all such rules and regulations as he may consider necessary to make for the efficiency of the Volunteer service from time to time.

Officers in command of bodies of unpaid Volunteers should be held strictly responsible for all articles of public property issued to them for the use of their men, and they should receive a contingent allowance for storing and preserving their arms and accoutrements, as laid down for the Officers commanding Companies in the Militia.—*Vide* Schedule H.

No man of the unpaid Volunteer Force should under any circumstances be allowed to retain his arms or accoutrements in his own possession.

(Signed)

C. F. FORDYCE, *Colonel*,

H. HOPE CREALOCK, *Lieut. Colonel*.

The Honorable Mr. Tilley, by leave, presented a Petition from the Mayor, Aldermen and Commonalty of the City of Saint John, praying that an Act may pass authorizing an assessment for the payment of the expenses incurred by the Corporation of the said City in providing shelter for the Troops; which he read.

Ordered, That the said Petition be received and lie on the Table.

The Honorable Mr. Tilley also, by leave, presented a Petition from the Mayor, Aldermen and Commonalty of the City of Saint John, praying that an Act may pass authorizing an assessment to defray the expenses of laying down a Sewer near the Hay Market Lot in the said City; which he read.

Ordered, That the said Petition be received and lie on the Table.

The Honorable Mr. Tilley, also by leave, presented a Petition from the Mayor, Aldermen and Commonalty of the City of Saint John, praying that an Act may pass authorizing an assessment to meet the expenses incurred for the Prince of Wales' celebration, and repair of the City Court Room; which he read.

Ordered, That the said Petition be received and lie on the Table.

The Honorable Mr. Tilley moved for leave to bring in—A Bill to provide for payment for a Sewer laid down near the Hay Market Lot in the City of Saint John.

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Tilley also moved for leave to bring in—A Bill to provide for payment of the expenses incurred by the Corporation of the City of Saint John, in providing shelter for the Troops.

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Tilley also moved for leave for leave to bring in—A Bill to authorize an assessment in the City of Saint John to meet the expenses incurred by the Corporation for the Prince of Wales' celebration, and for repairing the City Court Room.

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Tilley, by leave, presented a Petition from the Mayor, Aldermen and Commonalty of the City of Saint John, praying that an Act may pass in amendment of the Act to provide for an improved system of Sewerage and Water Supply of part of the said City and Parish of Portland; which he read.

Ordered, That the said Petition be received and lie on the Table.

The Honorable Mr. Tilley moved for leave to bring in—A Bill to amend Act 18th Victoria, Chapter 38, intituled "An Act to provide for an improved system of Sewerage and Water Supply of part of the City of Saint John, and Parish of Portland in the County of Saint John."

Leave granted.

The said Bill being brought in was read a first time.

Mr. Lindsay, by leave, presented a Petition from James N. Farley, Archibald Scott, and seventy six others, inhabitants of Glassville, Knowlesville, and Ketchum Settlements, in the County of Carleton, praying that those Settlements may be set off from the Parishes to which they now form parts, and erected into a separate and distinct Town or Parish; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of the Honorable Mr. Watters,

The House again went into Committee of the whole on—A Bill for abolishing the punishment of Death in certain cases.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. Allen, by leave, presented a Petition from John Glasier, Esquire, a Member of this House for the County of Sunbury, praying that Counsel may be heard on his behalf at the Bar of the House, upon objections to the alleged Petition against his election and return, and that the Order of the Day for considering the allegations set forth in the said Petition may be discharged; which he read.

Ordered, That the said Petition be received and lie on the Table; when

On motion of Mr. Allen,

Resolved, That Counsel be heard at the Bar of this House on — at — o'clock in the forenoon, on behalf of John Glasier, Esquire, in accordance with his Petition.

Upon the question for sustaining this Resolution, the House divided—

YEAS 10.

NAYS 13.

And it was thereupon decided in the negative.

On motion of the Honorable Mr. Tilley,

Resolved, That a Committee be appointed to prepare an Address of Condolence to Her Most Gracious Majesty the Queen, expressive of our deep sympathy for the irreparable loss sustained by Her Majesty and the Nation in the death of His Royal Highness the Prince Consort; and

Ordered, That the Honorable Mr. Tilley, Mr. Kerr, and Mr. Fisher, do compose the Committee.

The Honorable Mr. Smith, by leave, presented a Petition from Rufus Cole, Gersham Maxwell, and thirty five others, inhabitants of Sackville, in the County of Westmorland, praying for an alteration in the present School Law; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Boyd moved for leave to bring in—A Bill to amend an Act intituled “An Act to amend Chapter 19, Title iii, of the Revised Statutes, Of Buoy and Beacons,” so far as the same relates to the County of Charlotte.

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Steadman, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House—

Report from the Postmaster General on the Post Office Department, with Returns and Accounts connected therewith, for the year 1861.

See Appendix.

Mr. Munro, from the Committee on the Lumbering Interests of the Province, submitted a Report; and he having read the same, it was handed in at the Clerk's Table, and there again read, and is as follows:—

“The Committee appointed to take into consideration all matters relating to the Lumbering Interests of the Province, beg leave to report—That they have had before them—‘A Bill to afford greater facilities for obtaining Licences to cut and carry away Lumber from Crown Lands,’—and refer the said Bill to the consideration of the House; and ask leave to make a further Report.

DAV. MUNRO,
J. MEAHAN,
A. H. GILLMOR, JUN.
JOHN GLASIER,
J. MONTGOMERY,
T. W. ANGLIN.

Committee Room, 28th February, 1862.”

Ordered, That the Report be accepted, and the Committee continued to enable them to report further upon matters for their consideration.

On motion of Mr. Williston,

The House went into Committee of the whole on—The Bill, with the amendments, sent down from the Legislative Council thereto—For establishing and maintaining a Police Force in the Town of Newcastle, in the County of Northumberland.

Mr. McClelan in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the same under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House—

Returns from the following Banks and other Incorporated Companies, viz:—

New Brunswick Bank, made up to 1st January, 1862:

Saint Stephen's Bank, for periods ending 1st July, 1861, and 6th January, 1862:

Westmorland Bank, for periods ending 1st July, 1861, and 6th January, 1862:

South Bay Boom Company; statement of their affairs on 30th April, 1861:

Saint John Fire Insurance Company; statement of their affairs on 2nd January, 1862.

See Appendix.

The Honorable Mr. Tilley, also by command of His Excellency the Lieutenant Governor, laid before the House, in pursuance of Addresses of the 25th day of February instant—

Copy of Correspondence had relative to the removal of the office of Deputy Treasurer from Welch Pool, on the Island of Campo Bello, to Indian Island, in the Parish of West Isles: also

Copy of a Petition from Thomas Crowley, a licenced Teacher, praying payment of the usual allowance for his services in that capacity.

Mr. Cudlip moved for leave to bring in—A Bill to provide for the construction of a Wet Dock in the City of Saint John.

Leave granted; when

Mr. Boyd moved—That the question for granting leave to introduce the Bill be reconsidered.

And upon this question, the House divided as follows:—

YEAS.

NAYS.

Hon. Mr. Smith,
Mr. Meahan,
Williston,
Landry,
Stiles,
Scovil,
Lindsay,

Mr. Munro,
W. J. Gilbert,
Ryan,
Grimmer,
Gillnor,
Boyd.

Hon. Mr. Tilley,
Hon. Mr. Watters,
Hon. Mr. Perley,
Mr. Kerr,
Stevens,
Vail,

Mr. Young,
Skinner,
Allen,
Anglin,
S. H. Gilbert,
Jordan.

Whereupon it was carried in the affirmative, and the question for leave to bring in the Bill again before the House—when

The Honorable Mr. Watters moved—That the House do now adjourn, to meet to-morrow morning at 10 o'clock.

Upon the question the House divided—

YEAS 13.

NAYS 14.

And it was thereupon decided in the negative.

After some time in Debate—

Mr. Skinner moved—That the House do adjourn over until the hour of 10 o'clock to-morrow.

Upon this question, the House again divided—

YEAS 13.

NAYS 15.

And this was also decided in the negative; and

After some further time occupied in Debate—

The Honorable Mr. Watters moved—That the House do adjourn until to-morrow morning, and then to meet at the hour of 10 o'clock A. M.; and upon this question being carried in the affirmative—

The House adjourned accordingly.

Saturday, 1st March, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill to provide for the drainage and protection of the Great Marsh in the City of Saint John, and in the Parishes of Portland and Simonds, in the City and County of Saint John, and the maintenance of a Highway over the Aboideau across the Marsh Creek, near the City of Saint John :

A Bill to provide for payment for a Sewer laid down near the Hay Market in the City of Saint John :

A Bill to provide for payment of the expenses incurred by the Corporation of the City of Saint John in providing shelter for the Troops :

A Bill to authorize an assessment in the City of Saint John to meet the expenses incurred by the Corporation for the Prince of Wales' celebration, and for repairing the City Court Room :

A Bill to amend Act 18 Victoria, Chapter 38, intituled "An Act to provide for an improved system of Sewerage and Water Supply of part of the City of Saint John, and Parish of Portland in the County of Saint John:" and

A Bill to amend an Act intituled "An Act to amend Chapter 19, Title iii, of the Revised Statutes, "Of Buoys and Beacons," so far as the same relates to the County of Charlotte.

Read a third time as engrossed,

A Bill to incorporate the Roman Catholic Bishop of Chatham.

Resolved, That the Bill do pass.

Ordered, That Mr. Kerr take the said Bill to the Council, and desire their concurrence thereto.

On motion of Mr. Kerr,

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to cause to be laid before this House;—A Statement of all balances due to the Provincial Revenues by the late Honorable Thomas H. Peters, late Deputy Treasurer at Miramichi; Patrick McNaughton, late Deputy Treasurer at Caraquet; the late Amasa Weldon, late Deputy Treasurer at Moncton; William A. MacLauchlan, late Deputy Treasurer at Grand Falls; Andrew C. Hammond, late Indian Commissioner at Tobique; the Honorable John W. Weldon, late Deputy Treasurer and Treasurer for Savings Bank at Richibucto:—Also Statement of all balances due by all other Fiscal Officers to the Province, prior to the 1st day of July last, which should be paid into the Provincial Treasury; with a full Statement of the steps adopted by the Government to compel such officers to pay into the Public Treasury the sums received by them respectively, and the present state of all such proceedings.

Ordered, That Mr. Kerr, Mr. Vail, and Mr. Gillmor, be a Committee to wait upon His Excellency with the Address.

On like motion of Mr. Kerr,

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to cause to be laid before this House—A Detailed Statement of all expenses incurred, and all sums of money paid from the Public Funds of this Province, for Delegations of public men to Great Britain, Canada, or the United States, on public business, from the 1st January 1855 to 1st January 1862, specifying to whom and for what services paid.

Ordered, That Mr. Kerr, Mr. Vail, and Mr. Gillmor, be a Committee to wait upon His Excellency with this Address.

Mr. W. J. Gilbert moved for leave to bring in—A Bill relating to French Paupers in the Parish of Moncton, in the County of Westmorland.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Cudlip, Chairman of the Committee sworn to try the matters set forth in the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and others, against the Election and Return of William Lindsay, Esquire, as a Member for the County of Carleton, reports—

“That the Committee met this day at the hour of their adjournment, and upon hearing the parties, it appears that testimony is required from the said County on the part of the Petitioners, before they can proceed further in the investigation; he is directed to ask permission of the House to adjourn over until Friday the 7th day of March instant, at the hour of half-past 9 o'clock in the forenoon of that day;”

Ordered, thereupon, That the Committee have leave to adjourn over until Friday the 7th day of March instant, and that they do meet on that day at the hour of half-past 9 o'clock A. M., in the Committee Room where they hold their sittings, and proceed in the investigation of the matters referred for their consideration.

Mr. Skinner moved for leave to bring in—A Bill further to amend an Act to regulate the qualifications of Practitioners in Medicine and Surgery, and to provide a Medical Council of Health in the Province of New Brunswick.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Cudlip moved for leave to bring in—A Bill to provide for the construction of a Wet Dock in the City of Saint John.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Williston,

The House again went into Committee of the whole on—The Bill, with the amendments sent down by the Legislative Council thereto—for establishing and maintaining a Police Force in the Town of Newcastle, in the County of Northumberland.

Mr. M'Clelan in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the amendments proposed to the Bill by the Legislative Council before them, the first amendment was under their consideration, which goes to expunge from the Bill—

At A at the end of the 5th Section, the following words—“residing within the limits of the said Town of Newcastle;”—when

It was moved—To concur in this amendment, by leaving out the words proposed to be expunged by the Legislative Council; and this being agreed to—

A motion was made—To add at the close of the said Section, as follows:—

“Provided that all offences punishable under this Act, shall be tried, heard and determined within the limits of the said Town of Newcastle.”

And upon the question for adopting this amendment, it was carried in the affirmative.

That the Committee then took under consideration the remaining amendments, as proposed by the Legislative Council, which were also agreed to.

Ordered, That the Report be accepted.

The amendment reported from the Committee was then read a first and second times; and

Ordered, To be engrossed, and that the Bill as now amended, be read a third time on Monday next.

Mr. Young, by leave, presented a Petition from the Reverend Joseph M. Paquet, Reverend Ferdinand Gauvreau, Reverend John A. Mooney, Messieurs Charles Robin and Company, together with six hundred and sixty six others, inhabitants of the County of Gloucester, praying for a division thereof into two separate and distinct Counties; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Young moved for leave to bring in—A Bill to divide the County of Gloucester.

Leave granted.

The said Bill being brought in was read a first time.

It being the time appointed for taking into consideration the Petition of Charles Brown, Esquire, James Hamilton, James E. Simmons, and others, against the Election and Return of John Glasier, Esquire, as a Member for the County of Sunbury, and praying that an investigation be had in the premises—

The Sergeant at Arms was directed to call the Members to their places, and being returned, the House was counted, when it appeared that there were thirty five Members present, exclusive of John Glasier, Esquire, the sitting Member, whose return is petitioned against.

Ordered, thereupon, That the parties be heard at the Bar; when

James Hamilton, one of the Petitioners named, with John A. Street, Esquire, as Counsel for the Petitioners; as also John Glasier, Esquire, the sitting Member, with Samuel R. Thomson and John J. Fraser, Esquires, as his Counsel, appeared at the Bar of the House; the doors being then locked—and

The Order of the Day for the consideration of the allegations set forth in the said Petition, as well as the adjourned Order, were severally read; and the Tickets, with the names of the several Members of the House written thereon, were counted by the Speaker, and deposited in the Ballot Boxes; and

The drawing of the Committee, and appointment of the Nominees to try the matters set forth in the said Petition, was then proceeded with and perfected as directed by Chapter 98, Title xix, of the Revised Statutes, "Of Controverted Elections."

The Doors being then opened, the Lists as drawn were delivered to the Counsel for the respective parties; and the same being struck, reduced Lists of the Members so drawn, with the Nominees added thereto, signed by the Counsel, were handed in, by which the following appears as the Members of the Committee:—

Hiram Dow,	} Esquires.
George Kerr,	
Arthur Hill Gillmor,	
Edmund Arnold Vail,	
David Munro.	

Nominees :

George S. Grimmer, Esquire, for the Petitioners :
John C. Allen, Esquire, for the Sitting Member.

The several Members of the Committee thus constituted were called to the Clerk's Table, and there duly sworn well and truly to try the several matters set forth in the said Petition referred to them, and a true judgment to give thereon, according to the evidence.

The Counsel and parties were then ordered to withdraw ; and

On motion of Mr. Grimmer,

Ordered, That the Committee do forthwith meet in one of the Committee Rooms, and proceed to the investigation of the several matters alleged in the Petition referred to them ; and that copies of the Lists of the Committee sworn, together with copies of this Order, be delivered to the respective parties.

The Honorable Mr. Perley moved for leave to bring in—A Bill relating to the Polling place in the Parish of Maugerville, in the County of Sunbury.
Leave granted.

The said Bill being brought in was read a first time.

Mr. Allen moved for leave to bring in—A Bill to amend the Law relating to Municipalities.

Leave granted.

The said Bill being brought in was read a first time.

The House adjourned until Monday morning next at 10 o'clock.

Monday, 3rd March, 1862.

Prayers.

Read a second time the following Bills, viz :—

A Bill relating to French Paupers in the Parish of Moncton, in the County of Westmorland :

A Bill further to amend an Act to regulate the qualifications of Practitioners in Medicine and Surgery, and to provide a Medical Council of Health in the Province of New Brunswick :

A Bill to provide for the construction of a Wet Dock in the City of Saint John :

A Bill to divide the County of Gloucester :

A Bill relating to the Polling place in the Parish of Maugerville, in the County of Sunbury : and

A Bill to amend the Law relating to Municipalities.

According to the Order of Saturday last—"The Bill for establishing and maintaining a Police Force in the Town of Newcastle, in the County of Northumberland," returned from the Legislative Council with certain amendments, was read a third time as amended by the Council and this House.

Resolved, That the House do concur in the amendments proposed by the Council ; as also in the amendment to the 5th Section of the Bill, as reported from a Committee of the whole House ; and

Ordered, That Mr. Williston return the Bill, with the amendments, to the Council, and acquaint them therewith, and request their concurrence in the amendment proposed by this House.

On motion of Mr. Boyd,

Ordered, That the House do on Thursday next the 6th day of March instant, go into Committee of the whole on the several Documents and Correspondence laid before the House on the 28th day of February last, relative to the removal of the Treasury Office from Welch Pool, on the Island of Campo Bello, to Indian Island, in the Parish of West Isles.

Mr. W. J. Gilbert, by leave, presented a Petition from Robert B. Chapman, Jonas Taylor, William M'Farlane, John Landric, Dennice E. Cornea, and sixty four others, residents at Memramcook, in the Parish of Dorchester, County of Westmorland, praying for a division of the said Parish; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of the Honorable Mr. Watters,

The House again went into Committee of the whole on—A Bill for abolishing Punishment of Death in certain cases.

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Fisher,

Ordered, That—A Bill, before the House, relating to Corporations—be forthwith printed, and one hundred copies thereof furnished for the use of the Legislature.

On motion of the Honorable Mr. Tilley,

The House went into Committee of the whole on—A Bill to authorize an assessment in the City of Saint John, to meet the expenses incurred by the Corporation for the Prince of Wales' celebration, and for repairing the City Court Room.

The Honorable Mr. Hatheway in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made amendments thereto, and then agreed to the same, under the Title of—

A Bill to authorize an assessment in the City of Saint John to meet the expenses incurred by the Corporation for the Prince of Wales' celebration.

Ordered, That the Report be accepted, and the Bill engrossed as amended, under the amended Title.

The Honorable Mr. Smith, by leave, presented a Petition from Robert B. Chapman, Jonas Taylor, and one hundred and fifty others, Inhabitants of the Parish of Dorchester, in the County of Westmorland, praying that no alteration may be made in the Law for the Election of Parish Officers, so far as relates to the said Parish of Dorchester; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Costigan,

The House went into Committee of the whole on—A Bill to explain and amend an Act intituled "An Act to disqualify persons holding certain offices under Government from being elected or capable to hold Seats in the Assembly."

Mr. S. H. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The Honorable Mr. Tilley, from the Committee appointed on the 28th day of February last, to prepare an Address of Condolence to Her Most Gracious Majesty the Queen, expressive of the deep sympathy for the irreparable loss sustained by Her Majesty and the Nation, in the death of His Royal Highness the Prince Consort, reported—That they had prepared a Draft of such Address, which he was directed by the Committee to submit to the House; and he having read the same in his place, it was handed in and again read at the Clerk's Table.

Ordered, That the Report be accepted; and

On motion of the Honorable Mr. Tilley,

The House proceeded to take the said Draft Address into consideration; and the same being read from the Chair, it was unanimously agreed to, and ordered to be engrossed, and signed by the Speaker.

Mr. Costigan moved for leave to bring in—A Bill to repeal all the Acts now in force for the preservation of Moose, and to make other provisions in lieu thereof.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Lindsay moved for leave to bring in—A Bill to erect a new Parish in the County of Carleton; and

The twenty fifth Rule of the House, which requires Bills of a private or local nature to be read in the presence of the Grand Jury, or in incorporated Counties before the County Council, or published in some Newspaper, being in this instance dispensed with, leave was granted; and

The Bill brought in and read a first time.

On motion of the Honorable Mr. Tilley,

The House went into Committee of the whole on—A Bill to provide for payment of the expenses incurred by the Corporation of the City of Saint John, in providing shelter for the Troops.

Mr. Stevens in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made an amendment thereto, and then agreed to the same, under the Title of—

A Bill to provide for the payment of the expenses incurred by the Corporation of the City of Saint John, in providing shelter for the Troops; and for the repairing of the City Court Room.

Ordered, That the Report be accepted, and the Bill engrossed as amended, under the amended Title.

On motion of Mr. M'Phelim,

Ordered, That the House do on Wednesday next, the 5th day of March instant, resolve itself into Committee of the whole on—A claim of George Wallace, of Kingston, in the County of Kent, to be reimbursed the sum of twenty pounds, by reason of the loss of a Letter containing money, mailed at the Way Office at that place, on the 16th day of August 1854, and duly Registered; and which claim was recognized and recommended to be paid,

by Resolution on the 21st day of March last, the House being then in Session; and an Address predicated thereon was presented to His Excellency, relative to the payment thereof.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill in amendment of and in addition to certain Chapters of Title viii, of the Revised Statutes, “Of the local government of Counties, Towns, and Parishes.”

The Honorable Mr. Hatheway in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. W. J. Gilbert,

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to cause to be laid before this House, copies of all Minutes of Council, Despatches, Letters or Documents which in any wise touch or have reference to the removal of the Honorable Edward B. Chandler in January last, from the Office of Clerk of the Peace for the County of Westmorland.

Upon the question for adopting the Resolution for this Address, the House divided—

YEAS 19.

NAYS 7.

Whereupon it was carried in the affirmative; and

Ordered, That Mr. W. J. Gilbert, Mr. S. H. Gilbert, and Mr. Anglin, be a Committee to wait upon His Excellency with the Address.

Mr. Skinner, a Member for the County of Saint John, applies for leave of absence until Friday next, important business requiring his attention; which was granted.

Mr. Lindsay, a Member for the County of Carleton, also applies for leave of absence until Friday next, important business requiring his attention; which was granted.

Mr. Stevens moved for leave to bring in—A Bill in amendment of the Law relating to Judgments, Executions, and proceedings thereon.

Leave granted.

The said Bill being brought in was read a first time.

The House adjourned until to-morrow morning at 10 o'clock.

Tuesday, 4th March, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill to repeal all the Acts now in force for the preservation of Moose, and to make other provisions in lieu thereof:

A Bill to erect a new Parish in the County of Carleton: and

A Bill in amendment of the Law relating to Judgments, Executions, and proceedings thereon.

Read a third time as engrossed,

A Bill to authorize an assessment in the City of Saint John to meet the expenses incurred by the Corporation for the Prince of Wales' celebration.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Tilley take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to provide for the payment of the expenses incurred by the Corporation of the City of Saint John, in providing shelter for the Troops; and for the repairing of the City Court Room.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Tilley also take this Bill to the Council, and desire their concurrence thereto.

Mr. Costigan moved for leave to bring in—A Bill to change the Polling place in the Parish of Saint Leonard, in the County of Victoria.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Boyd moved for leave to bring in—A Bill relating to the Polling places in the Parishes of West Isles and Campo Bello, in the County of Charlotte.

Leave granted.

The said Bill being brought in was read a first time.

The Address of Condolence to Her Majesty, expressive of the sympathy for the irreparable loss sustained by Her Majesty and the Nation, in the death of His Royal Highness the Prince Consort, was read as engrossed, and is as followeth:—

To the Queen's Most Excellent Majesty.

The Humble and Dutiful Address of the House of Assembly of the Province of New Brunswick.

MAY IT PLEASE YOUR MAJESTY,

We, Your Majesty's faithful and loyal Subjects, in humbly tendering to Your Majesty our renewed expressions of loyalty and devotion, desire to express our sympathy and condolence with Your Majesty in the recent calamity with which Divine Providence has been pleased to afflict Your Majesty, the Royal Family, and the whole people of the Empire.

His Royal Highness the Prince Consort, by his many virtues, had endeared himself to the Nation; and in no part of Your Majesty's widely extended Dominion, did the intelligence of his death produce more heartfelt sorrow for the loss of so beloved and estimable a Prince, and deeper feelings of sympathy for Your Majesty, than in New Brunswick.

Your Majesty will ever have the remembrance of his useful and virtuous life to console you in your bereavement, and the support of that genuine faith which sustained His Royal Highness in the hour of his dissolution.

Confident in Your Majesty's humble trust in the watchful care of Him who is the Father of the Fatherless, and the Friend of the Widow, we fervently pray that Your Majesty may long be preserved to your Illustrious family and to the Nation.

J. M. JOHNSON, *Speaker of Assembly.*

On motion of the Honorable Mr. Smith,

Resolved, That a Committee be appointed to wait upon His Excellency the Lieutenant Governor with the said Address, and request that His Excellency

will be pleased to transmit the same to be laid at the Foot of the Throne; and
Ordered, That the Honorable Mr. Smith, Mr. Montgomery, and Mr. Boyd be the Committee for that purpose.

On motion of the Honorable Mr. Watters,

The House again went into Committee of the whole on—A Bill for abolishing the punishment of Death in certain cases.

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee proceeding in the Bill before them, and having the second Section thereof under their consideration, which among other things enacts—

“ That whoever should carnally know and abuse any woman against her will and by force, or whilst she was insensible, should not be subject to any sentence, judgment, or punishment of death ;” when

It was moved—To expunge so much of the said Section as applies to this offence.

And upon the question, it was decided in the negative; and

The question being then taken upon the Section, it was agreed to; and

That the Committee then having gone through the remaining Sections of the Bill, had agreed to the same with amendments, under the Title of—

“ A Bill for taking away the punishment of Death in certain cases, and substituting other punishments in lieu thereof.”

Ordered, That the Report be accepted and the Bill engrossed, as amended, under the amended Title.

The Honorable Mr. Tilley moved for leave to bring in—A Bill to incorporate the Williams' Mining Company.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Vail,

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to cause to be laid before this House, copies of Correspondence between the Postmaster at Sussex Vale, King's County, and the Government, relative to his resignation previous to the late Election for Representatives to serve in General Assembly for said County.

Ordered, That Mr. Vail, Mr. Kerr, and Mr. Gillmor, be a Committee to wait upon His Excellency with the Address.

Mr. Cudlip, by leave, presented a Petition from Robert Keltie, George E. Snider, Joseph Fairweather, W. H. Adams, T. W. Daniel, and George Carvill, Esquires, together with one hundred and fifty others, Justices of the Peace, Merchants, and Citizens of Saint John, praying that an Act may pass, placing the Harbour at that place, and the contemplated improvements to be made therein, in the hands of Commissioners to be appointed by the Lieutenant Governor in Council; which he read.

Ordered, That the said Petition be received and lie on the Table.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House—

Report from John Bennet, Esquire, Chief Superintendent of Schools, for the year 1861.

See Appendix.

On motion of Mr. Scovil,
The House went into Committee of the whole on—A Bill to alter the Division Line between the Parishes of Springfield and Studholm, in King's County.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made an amendment thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

Mr. Mc'Clelan moved for leave to bring in—A Bill to increase the jurisdiction of Justices of the Peace in Civil Suits.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Ryan moved for leave to bring in—A Bill to place the Road from Penobsquis Railway Station, through Mechanics' Settlement, via Moore's Mills, passing Bennett's, to Salmon River, on the Great Road establishment.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Munro,

The House went into Committee of the whole on—A Bill to afford greater facilities for obtaining Licenses to cut and carry away Lumber from Crown Lands.

Mr. S. H. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The House adjourned until to-morrow morning at 10 o'clock.

Wednesday, 5th March, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill to change the Polling place in the Parish of Saint Leonard, in the County of Victoria:

A Bill relating to the Polling places in the Parishes of West Isles and Campo Bello, in the County of Charlotte:

A Bill to incorporate the Williams' Mining Company:

A Bill to increase the jurisdiction of Justices of the Peace in Civil Suits:

and
A Bill to place the Road from Penobsquis Railway Station, through Mechanics' Settlement, via Moore's Mills, passing Bennett's, to Salmon River, on the Great Road establishment.

Read a third time as engrossed,

A Bill for taking away the punishment of Death in certain cases, and substituting other punishments in lieu thereof.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Watters take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to alter the Division Line between the Parishes of Springfield and Studholm, in King's County.

Resolved, That the Bill do pass.

Ordered, That Mr. Scovil take the said Bill to the Council, and desire their concurrence thereto.

The Honorable Mr. Hatheway, a Member of Her Majesty's Executive Council, laid before the House in pursuance of notices of motion for Address by Mr. Ryan, of yesterday—

Report from George Burnett, relative to the examination of a Line of Road leading from the said George Burnett's, in Norton, King's County, and passing through the Passekeag and Salt Spring Settlements, by way of William Barnes', to Alexander Kilpatrick's, in Upham, in the said County; and

Report from George A. Morton, relative to the examination of a Line of Road leading from Penobsquis Railway Station to the mouth of Upper Salmon River, in Alma, in the County of Albert;

The Honorable Mr. Smith, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with the Address of Condolence to Her Majesty the Queen, on the death of His Royal Highness the Prince Consort, and request that His Excellency would transmit the same to be laid at the Foot of the Throne, reported—That they had attended thereto, and His Excellency was pleased to say—That he would comply with the wishes of the Assembly.

On motion of Mr. Young,

Resolved, That a Bill before the House—"to divide the County of Gloucester,"—be referred to a Select Committee to examine and report thereon; and

Ordered, That Mr. Young, the Honorable Mr. Watters, and Mr. Gillmor, do compose the said Committee.

On motion of Mr. M'Clelan,

Resolved, That a Bill before the House—"in amendment of the Law relating to the draining of German Town Lake in the County of Albert,"—be referred to a Select Committee to examine and report thereon; and

Ordered, That the Honorable Mr. Watters, Mr. Young, and Mr. Gillmor, do compose the said Committee.

On motion of Mr. M'Phelim,

That the House proceed to the Order of the Day of the 3rd day of March instant, to go into Committee of the whole on—A claim of George Wallace to be reimbursed the sum of twenty pounds, by reason of the loss of a Letter containing money mailed at the Way Office in Kingston, in the County of Kent, in August 1854.

The Order of the Day being read, the House according thereto resolved itself into said Committee.

Mr. W. J. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the matter referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted ; and further

Ordered, That the House do to-morrow, at the hour of 11 o'clock A. M., again go into Committee of the whole, and resume the consideration of the subject.

On motion of the Honorable Mr. Tilley,

Ordered, That the House do on Monday next, the 10th day of March instant, go into consideration of the Speech of His Excellency the Lieutenant Governor at the opening of the Session.

The House adjourned until to-morrow morning at 10 o'clock.

Thursday, 6th March, 1862.

Prayers.

The Honorable L. A. Wilmot, one of the Commissioners named in the Commission for the duly qualifying the Members of this House returned at the last General Election, attended at the Clerk's Table, and administered the oath to Robinson Crocker, Esquire, a Member for the County of Northumberland, who subscribed his name thereto, and then took his Seat.

Mr. Grimmer, by leave, presented a Petition from George M. Porter, Stewart Busby, Henry F. Eaton, and one hundred and thirty others, Inhabitants of the Parish of Saint Stephen, in the County of Charlotte, praying that no Act may pass authorizing a Tax to be imposed on the said Parish for the erection of a Town Hall ; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. S. H. Gilbert, by leave, presented a Petition from Thomas Harrison, Esquire, and one hundred and twenty three others, Inhabitants of the Parishes of Petersville and Hampstead, in Queen's County, praying that the Road from Jones' Creek, in King's County, through Jerusalem and Clones' Settlements, in Queen's County, to John Perry's, in the County of Sunbury, may be established as one of the Great Roads of communication ; which he read.

Ordered, That the said Petition be received and referred to the Chief Commissioner of the Board of Works to report thereon.

Mr. Grimmer, from the Select Committee appointed on the 20th day of February last, to examine into the provisions of—A Bill to authorize the sale of Lands in Saint Stephen—and to which Committee was referred—A Bill authorizing the Trustees of Saint Andrews Church, Chatham, to sell certain Lands devised in Trust by the late William Kirkpatrick, and to reinvest the proceeds—submitted a Report ; and he having read the same, it was handed in at the Clerk's Table, where it was again read, and is as follows :—

“The Committee to whom were referred—A “Bill to authorize the Justices of the Peace for the County of Charlotte, to sell certain Lands in the Parish of Saint Stephen ;” also—A “Bill to authorize the Trustees of Saint Andrews Church, Chatham, in connexion with the Church of Scotland, to sell and dispose of certain Real Estate in the County of Northumberland, devised in trust by the last Will of William Kirkpatrick, deceased, and to reinvest the proceeds for the purposes in such Will mentioned,”—submits the following Report :—

“The Committee, upon consideration of the Bill,—to enable the Justices Charlotte County, to sell certain lands, have carefully investigated the titles of of the said lands, the trusts upon which they were severally held by the said parties, and have been satisfactorily informed as to their present condition ; and the better to maintain and carry out the said several trusts, the Committee would respectfully submit a new Bill, on principles identical with that on the files of the House, but more specific in its direction and more guarded in the management of the said trusts ; and your Committee believe that adoption of the Bill, herewith submitted, would promote the objects contemplated, and be for the interests of all parties interested.

“Upon consideration of the Bill,—to authorize the Trustees of Saint Andrews Church, Chatham, to sell and dispose of certain lands as therein proposed, your Committee have carefully considered the circumstances which have occasioned the said Bill ; and have had before them the Will of the Testator, with evidence of the circumstances under which the said Will was made, and that the devisee named in the Will died before the Testator, and they are led to believe that the sale of the property would very much benefit the parties interested in the trust, as the Bill is so guarded as to prevent the trust being at any future period directed from the will and intention of the Testator, and therefore recommend the Bill to the favourable consideration of the Legislature.

“All of which is respectfully submitted.

G. S. GRIMMER, *Chairman.*
EDWARD WILLISTON,
GEORGE KERR,
JAMES G. STEVENS,
CHARLES WATTERS.

Committee Room, 5th March, 1862.”

And the Chairman further reported, that he was directed to request that the powers of the Committee be continued, to enable them to report upon other matters referred for their consideration.

Ordered, That the Report be accepted and the Committee continued.

The Bill reported by the Committee, under the Title of—“A Bill to enable the Justices of the Peace for the County of Charlotte to sell certain Lands, and invest the proceeds in other securities,”—was then handed in and read a first time.

On motion of Mr. Williston,

The House went into Committee of the whole on—A Bill to authorize the Trustees of Saint Andrews Church, Chatham, in connexion with the Church of Scotland, to sell and dispose of certain Real Estate in the County of Northumberland, devised in trust by the last Will of William Kirkpatrick, deceased, and to reinvest the proceeds for the purposes in such Will mentioned.

The Honorable Mr. Hatheway in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Costigan,

The House went into Committee of the whole on—A Bill to repeal all the Acts now in force for the preservation of Moose, and to make other provisions in lieu thereof.

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Costigan,

Resolved, That the said Bill be referred to a Select Committee to examine and report thereon; and

Ordered, That Mr. Costigan, Mr. Allen, and Mr. Crocker, do compose the said Committee.

On motion of Mr. Williston,

Ordered, That Mr. Crocker be added to the Committee appointed on the 12th day of February last, to take into consideration all matters affecting the Trade of the Province.

Mr. Ryan moved for leave to bring in—A Bill to explain an Act intituled “An Act to authorize and empower the Justices of the Peace in and for King’s County, to sell and convey certain School Lands in the Parish of Springfield, and invest the proceeds in other Lands or other valuable securities more advantageous to the inhabitants of the said Parish.

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Watters moved for leave to bring in—A Bill to enable the Governor and Trustees of the Madras School in New Brunswick, to raise money upon Mortgage of certain Lots of Land situate on the north side of King’s Square, in the City of Saint John.

The twenty fifth Rule of the House, which requires Bills of a private or local nature to be read in presence of the Grand Jury, or published in some Newspaper, being in this instance dispensed with, leave was granted; and

The Bill brought in and read a first time; and

On motion of the Honorable Mr. Watters,

Resolved, That the said Bill be referred to a Select Committee to examine and report thereon; and

Ordered, That the Honorable Mr. Watters, the Honorable Mr. Smith, and Mr. Kerr, do compose the said Committee.

On motion of Mr. Boyd,

That the House proceed to the Order of the Day of the 3rd day of March instant, to go into Committee of the whole on—The Correspondence relative to the removal of the Treasury Office from Welch Pool, on the Island of Campo Bello, to Indian Island, in the Parish of West Isles, laid before the House the 28th day of February last, by command of His Excellency the Lieutenant Governor.

The Order of the Day being read, the House according thereto resolved itself into said Committee.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the matter referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to the following Bills, viz :—

The Bill to revive and continue an Act intituled “ An Act to provide for the expenses of the Legislature :”

The Bill to continue an Act intituled “ An Act to encourage the destruction of Wolves in this Province :”

The Bill to establish an additional Polling place in the Parish of Grand Manan, in the County of Charlotte : and

The Bill to change the present Polling place in the Parish of Cambridge, in Queen’s County, and to establish another Polling place in said Parish in lieu thereof ;

Without making any amendments thereto.

And that the Council had also agreed to—

The further amendment sent up from the Assembly to the amendments sent down from the Council to—

The Bill for establishing and maintaining a Police Force in the Town of Newcastle, in the County of Northumberland.

And he further informed the House, that the Council had agreed to—

The Bill to amend the Law relating to offences against the person,

With certain amendments, to which they desire the concurrence of the Assembly.

The amendments made by the Council to this Bill were then severally read a first and second times, and are as followeth :—

At A, Section 2, expunge the words “ in the Barrel.”

At B, Section 6, expunge the word “ claimed.”

At C in the same Section, expunge the words “ have claimed to.”

Ordered, That this Bill, as amended by the Legislative Council, stand for a third reading to-morrow.

The Honorable Mr. Tilley, a Member of Her Majesty’s Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House the following documents, viz :—

Report from W. Brydone Jack, Esquire, D. C. L., President of “ The University of New Brunswick,” on the state thereof, and the Collegiate School, for the year 1861 : also

Detailed Account of the Registrar of the University, shewing the Income and Expenditures during the same period.

See Appendix.

List of Warrants drawn on the Provincial Treasurer from 1st November 1861 to 28th February 1862 : also

List of Warrants drawn on the Receiver General during the same period.

See Appendix.

The Honorable Mr. Tilley also laid before the House, in pursuance of notice of motion for an Address by Mr. Costigan—

Copy of a Correspondence relative to the resignation by Vital Hebert of the office of Deputy Treasurer at Edmundston, in the County of Victoria.

On motion of Mr. M'Phelim,

The House again went into Committee of the whole on, and resumed the consideration of—A claim of George Wallace to be reimbursed the sum of twenty pounds, being a loss sustained by reason of a missing Letter containing money mailed at the Way Office in Kingston, in the County of Kent, in August 1854.

Mr. W. J. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the matter referred to them again under their consideration, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted; and further

Ordered, That the House do to-morrow at the hour of 11 o'clock, A. M., again go into Committee of the whole, and resume the consideration of the subject.

The House adjourned until to-morrow morning at 10 o'clock.

Friday, 7th March, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill to enable the Justices of the Peace for the County of Charlotte to sell certain Lands, and invest the proceeds in other securities:

A Bill to explain an Act intituled "An act to authorize and empower the Justices of the Peace in and for King's County to sell and convey certain School Lands in the Parish of Springfield, and invest the proceeds in other lands, or other valuable securities more advantageous to the inhabitants of the said Parish:" and

A Bill to enable the Governor and Trustees of the Madras School in New Brunswick, to raise money upon Mortgage of certain Lots of Land situate on the north side of King Square, in the City of Saint John.

According to the Order of yesterday, the amendments made by the Legislative Council to—the Bill to amend the Law relating to offences against the person—were severally read a third time.

Resolved, That the House do concur therein.

Ordered, That the Honorable Mr. Watters return the Bill with the amendments to the Council, and acquaint them therewith.

Mr. Fisher, from the Committee on the part of this House, to join a Committee of the Honorable the Legislative Council, for the management of the Legislative Library, submitted a Report; and he having read the same, it was handed in at the Clerk's Table, where it was again read, and is as follows:—

"The Joint Committee of the Legislative Library have revised the Rules for its government, and submit them to the Legislative Council and House of Assembly for their consideration.

"A. E. BOTSFORD,
W. B. KINNEAR,
CHARLES FISHER,
A. H. GILLMOR, JR
GEORGE KERR.

Committee Room, March 4, 1862."

Ordered, That the Report be accepted.

The Rules for the regulation and government of the Joint Library of the Legislature are as follow :—

1st.—The Library shall be under the immediate care and control of a Committee of Six Members of the Legislature, each House to appoint three.

2nd.—The Committee may, if they deem it expedient, appoint a Secretary, who shall have the general care and supervision of the Library, but who shall receive no compensation for his services, except the privilege of access to the Library, and of taking Books therefrom.

3rd.—The Committee shall appoint a Librarian, who shall at all times be under the direction of the Standing Committee and of their Secretary. It shall be his duty to attend in the Library daily during the Sitting of the Legislature, from the hour of ten o'clock in the forenoon until six o'clock in the afternoon; and he shall also be ready at any other time to open the Library at the request of a Member of the Legislature.

4th.—The Librarian shall be held accountable for all the Books in the Library; he shall keep a Register, in which he shall enter the number of every Book issued out of the Library, and the name of the person to whom it has been issued; and no Book shall on any pretext be taken out of the Library until the Librarian shall have so entered the same; and it shall be his duty also to see that all Books taken out be returned.

5th.—No person shall be allowed to take any Book from the Shelves but through the Librarian.

6th.—No person shall be admitted into the Library for the purpose of reading while it is open, except upon the introduction (personally or by letter) of a Member of the Legislature; the name, &c. of the person so introduced shall be recorded by the Member or by the Librarian, in a Book to be kept for that purpose in the Library; such introduction shall not continue in force longer than one week, and it shall not entitle the person so introduced to receive Books from the Library.

7th.—No Books shall be issued from the Library except to the following persons, and no more than two Volumes shall be issued to each of them at any one time, which may be kept out one week during the Sitting of the Legislature, or two weeks during the recess :—

- Members of the Legislature;
- Judges of the Supreme Court;
- Province Treasurer, Auditor General;
- Officers of the Legislative Council and House of Assembly;
- Clerk and ex-Clerks of the Executive Council;
- Governor's Private Secretary and Staff Officers;
- Commandant and Officers of the Garrison in Fredericton;
- Former Members of the Councils and Assembly;
- Clergymen stationed in the City of Fredericton;
- Professors of the University of New Brunswick;
- Principal Master of the Collegiate School, and of the Baptist Seminary;
- Chief Superintendent of Schools;
- Queen's Printer, and the High Sheriff of York.

8th.—The Librarian shall issue to each Member of the Legislature who may wish it, not more than four Volumes, or any one Work, from the Library, to be taken from the Town during the recess by such Member. Before taking the Books, the Member to give a written memorandum to the Librarian of the Books so taken; on such Books being returned and others taken, a new receipt to be given.

9th.—No Books shall be taken from the Library but those marked in the Catalogue with an asterisk.

10th.—An Apartment called the “Members’ Room,” having been appropriated for the reception of Laws, Journals, Parliamentary Debates, and other works necessary for a Legislative Library, it is ordered that no Book, &c. belonging to that Room be issued to any person except for occasional reference during the Session of the Legislature; and the Committee request that Members do not occupy the said Room for Committees or private consultations, to the exclusion of other Members who desire access to the Works contained in it.

11th.—Persons residing in Fredericton and its vicinity, not further than five miles distant therefrom, may have the privilege of taking Books from the Library upon the following conditions, viz:—

1st.—The individual must be recommended in writing by a Member of the Joint Committee, or other Member of the Legislature:

2nd.—The annual payment for such privilege shall be ten shillings currency, payable in advance to the Secretary of the Library:

3rd.—The day for issuing and receiving the Books during the recess, shall be every Wednesday, between the hours of 10 A. M. and 4 P. M.:

4th.—No Book shall be issued to any such person until it shall have been upwards of three months in the Library:

5th.—The retention of a Book beyond the proper time for its return, (*vide* Rule 7,) shall cause the forfeiture of such privilege; and if a Book be lost or injured, it must be replaced by a similar one of equal quality and value, or the cost of replacing it paid to the Secretary: If it be one or more Volumes of a Sett, the whole Sett must be replaced or paid for as above.

Mr. W. J. Gilbert, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with an Address of the House of the 3rd day of March instant, requesting that His Excellency would cause to be laid before the House—Copies of all Minutes of Council and other Documents relative to the removal of the Honorable Edward B. Chandler from the office of Clerk of the Peace for the County of Westmorland, reported—That they had attended thereto, and His Excellency was pleased to say—That he would comply with the wishes of the House.

On motion of Mr. Costigan,

The House went into Committee of the whole on—A Bill to change the Polling place in the Parish of Saint Leonard, in the County of Victoria.

Mr. Williston in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

Mr. Vail, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with an Address of the House of the 5th day of March instant, requesting that His Excellency would cause to be laid before the House—Copies of the Correspondence relating to the resignation of the Postmaster at Sussex Vale, reported—That they had attended thereto, and His Excellency was pleased to say—That he would comply with the wishes of the House.

On motion of Mr. W. J. Gilbert,

The House went into Committee of the whole on—A Bill relating to French Paupers in the Parish of Moncton, in the County of Westmorland.

Mr. Scovil in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, the following Resolution was moved:—

“*Resolved*, That the further consideration of this Bill be postponed for three months.”

And upon the question, it was carried in the affirmative.

Ordered, That the Report be accepted, and the further consideration of the said Bill accordingly postponed.

Mr. Kerr, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with an Address of the House of the 1st day of March instant, praying that His Excellency would cause to be laid before the House—A Statement shewing all Balances due to the Provincial Revenues by late Deputy Treasurers and other public Officers; shewing what steps had been adopted to compel the payment thereof, reported—That they had attended thereto, and His Excellency was pleased to say—That the wishes of the House would be complied with.

Mr. Kerr, also from the Committee appointed to wait upon His Excellency the Lieutenant Governor with an Address of the House of the 1st day of March instant, praying that His Excellency would cause to be laid before the House—A Statement of all Expenses paid from the public Funds for Delegations of public men to Great Britain, Canada, or the United States, on public business, reported—That they had attended thereto, and His Excellency was pleased to say—That the wishes of the House would be complied with.

On motion of Mr. M'Phelim,

The House again went into Committee of the whole on, and resumed the further consideration of—A claim of George Wallace to be reimbursed the sum of twenty pounds, by reason of the loss of a Letter containing money, mailed by him at the Post Office in Kingston, in the County of Kent, in August 1854.

Mr. W. J. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that when in consideration of the matter referred to them, the following was moved:—

Whereas the House of Assembly, in Committee of the whole, on the 21st day of March last, did resolve—“That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency would be pleased to direct that the sum of twenty pounds be paid to George Wallace, of the Parish of Kingston, in the County of Kent, to reimburse him that amount, by the loss of a Letter containing money, mailed at the Way Office in Kingston, in the said County, on the 16th day of August 1854, and duly registered”; which Resolution was reported from the Committee, and adopted by the House: And whereas on the 28th day of the said month of March, it was resolved by the House of Assembly—“That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency would be pleased to carry into effect the Resolution passed in

Committee of the whole House on the said 21st day of March, and adopted by the House, in reference to the payment of the claim of George Wallace, of Kingston, in the County of Kent, for the loss of a sum of money enclosed in a Letter mailed at the Post Office at that place, and duly registered"; and it was further ordered by the House, on the same day—"That a copy of the Resolution be communicated to His Excellency with the said Address": And whereas the Committee appointed on the same day by the House of Assembly, to wait upon His Excellency, and present the said Address, and copy of the Resolution, did on the 1st day of April last report to the House that the said Committee had attended to that duty, and that His Excellency was pleased to reply—"That he would consult his Council with respect to the Address": And whereas no part of the said sum of money hath as yet been paid to the said George Wallace; therefore

Resolved, As the opinion of this Committee, that the said George Wallace was and still is justly entitled to the said sum of twenty pounds, and that the same ought to be paid to him with as little delay as possible.

To which it was moved as an amendment—To expunge the whole of the Resolution, and substitute as followeth:—

"*Resolved*, as the opinion of this Committee, that the Executive Government should pay George Wallace the sum of twenty pounds, in accordance with the Address of the House at the last Session."

And upon the question for adopting the amendment, the Committee divided as follows:—

YEAS.

Hon. Mr. Watters,	Mr. Glasier,
Mr. Kerr,	Farris,
Meahan,	Munro,
Williston,	Montgomery,
Vail,	Anglin,
Costigan,	S. H. Gilbert,
Young,	Fisher,
M. Phelim,	Gillmor,
Crocker,	Boyd,
Stiles,	Grimmer.
Scovil,	

NAYS.

Hon. Mr. Speaker,	Mr. Raymond,
Hon. Mr. Smith,	Landry,
Hon. Mr. M. Millan,	Dr. Dow,
Hon. Mr. Steadman,	Jordan.

Whereupon it was carried in the affirmative, and the Resolution agreed to as amended.

Ordered, That the Report be accepted and adopted by the House.

The Honorable Mr. Steadman, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House, in pursuance of an Address of the 27th day of February last—

Copy of a Correspondence in reference to the opening of a Letter by the Postmaster at Edmundston, in the County of Victoria, addressed to one Registe Martin, together with Copy of a Report from the Postmaster General upon the subject.

Mr. Anglin, by leave, presented a Petition from the Mayor, Aldermen and Commonalty of the City of Saint John, praying that no Act may pass taking from the Corporation of the said City the control and management of the Harbour at that place, as is now vested in them; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Cudlip, Chairman of the Committee to try the matters set forth in the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and others, Electors of the County of Carleton, against the election and return of William Lindsay, Esquire, as a Member for the said County, reports—

“That the Committee met this day at half-past nine o'clock, A. M., pursuant to their hour of adjournment; that they continued together for the space of one hour thereafter, that Charles N. Skinner, Esquire, one of the said Committee, was absent by leave of this House, which leave expired this morning, and they are informed that he is attending the Circuit Court of Queen's County, from which he has not yet returned;” thereupon

Resolved, That the said Charles N. Skinner, Esquire, be excused until the hour of half-past nine o'clock to-morrow morning, to which hour the Committee have adjourned.

The House adjourned until to-morrow morning at 10 o'clock.

Saturday, 8th March, 1862.

Prayers.

Read a third time as engrossed,

A Bill to change the Polling place in the Parish of Saint Leonard, in the County of Victoria.

Resolved, That the Bill do pass.

Ordered, That Mr. Costigan take the said Bill to the Council, and desire their concurrence thereto.

On motion of Mr. Williston,

The House again went into Committee of the whole on—A Bill to authorize the Trustees of Saint Andrews Church, Chatham, in connexion with the Church of Scotland, to sell and dispose of certain Real Estate in the County of Northumberland, devised in Trust by the last Will of William Kirkpatrick, deceased, and to reinvest the proceeds for the purposes in such Will mentioned.

The Honorable Mr. Hatheway in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their further consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

The Honorable Mr. Tilley, by leave, presented a Petition from the Mayor, Aldermen and Commonalty of the City of Saint John, against the passing of an Act in further amendment of the Charter of the said City, and Acts relating to the Local Government thereof, as will change the present mode of electing Aldermen, Councillors and Constables; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill to continue an Act intituled “An Act to prevent the spread of a Disorder now existing in certain parts of the Counties of Gloucester and Northumberland.”

Mr. M'Phelim in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Grimmer,

The House went into Committee of the whole on—A Bill to enable the Justices of the Peace for the County of Charlotte to sell certain Lands, and invest the proceeds in other securities.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

Mr. Ryan moved for leave to bring in—A Bill to place the Road leading from George Burnett's, in Norton, to Alexander Kilpatrick's, on the Great Road establishment.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Ryan also moved for leave to bring in—A Bill to place the Road leading from Hampton Village to Groom's Bridge, on the Great Road establishment.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Vail moved for leave to bring in—A Bill relating to the Road from the Bridge at New Canaan, in King's County, to Petiteodiac Station, in the County of Westmorland.

Leave granted.

The said Bill being brought in was read a first time.

Mr. McClelan, by leave, presented a Petition from John R. Lawrence, Charles Gifford, Charles A. Peck, and Solomon Pearson, praying that an Act may pass incorporating the Caledonia Coal and Mining Company; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Farris moved for leave to bring in—A Bill to alter the time of holding the Circuit Court in and for Queen's County.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Cudlip, Chairman of the Committee to try the matters set forth in the Petition of Peter R. McMonagle, George T. Hartley, Gilbert Spurr, and others, Electors of the County of Carleton, against the election and return of William Lindsay, Esquire, as a Member for the said County, again reports to the House—

“That the Committee having yesterday adjourned over until the hour of half-past nine o'clock this morning, certain Members thereof then met and continued their sitting until the hour of half-past ten o'clock; that Charles N. Skinner, Esquire, one of the Members of the said Committee, was still absent attending the Circuit Court of Queen's County;” thereupon

Resolved, That the said Charles N. Skinner, Esquire, be again excused until the hour of half-past nine o'clock, A. M., on Monday next the 10th day of March instant, to which time the said Committee have adjourned.

The House adjourned until Monday morning next at 10 o'clock.

Monday, 10th March, 1862.*Prayers.*

Read a second time the following Bills, viz :—

A Bill to place the Road leading from George Burnett's, in Norton, to Alexander Kilpatrick's, on the Great Road establishment :

A Bill to place the Road leading from Hampton Village to Groom's Bridge, on the Great Road establishment :

A Bill relating to the Road from the Bridge at New Canaan, in King's County, to Petitediac Station, in the County of Westmorland : and

A Bill to alter the time of holding the Circuit Court in and for Queen's County.

Read a third time as engrossed,

A Bill to enable the Justices of the Peace for the County of Charlotte to sell certain Lands, and invest the proceeds in other securities.

Resolved, That the Bill do pass.

Ordered, That Mr. Grimmer take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to authorize the Trustees of Saint Andrews Church, Chatham, in connexion with the Church of Scotland, to sell and dispose of certain Real Estate in the County of Northumberland, devised in Trust by the last Will of William Kirkpatrick, deceased, and to reinvest the proceeds for the purposes in such Will mentioned.

Resolved, That the Bill do pass.

Ordered, That Mr. Williston take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to continue an Act intitled "An Act to prevent the spread of a Disorder now existing in certain parts of the Counties of Gloucester and Northumberland."

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Watters take the said Bill to the Council, and desire their concurrence thereto.

On motion of Mr. Jordan,

The leave of absence allowed to Mr. Skinner, a Member for the County of Saint John, on Monday last, was extended until to-morrow morning.

The Honorable Mr. Watters, by leave, presented a Petition from Samuel Clark, William Olive, Samuel Strange, John Littlehale, Robert Salter, and John M-Lachlan, Esquires, together with J. D. White, M. D., John C. Stackhouse, and three hundred and twenty others, Freemen and Inhabitants at Carleton, in the City of Saint John, praying that an Act may pass to authorize the annual sale of the Fisheries on the west side of the Harbour of Saint John, and for applying the proceeds thereof towards the erection of a City Hall in Carleton, and the payment of the Interest on the Carleton Water Debentures ; which he read.

Ordered, That the said Petition be received and lie on the Table.

The Honorable Mr. Watters moved for leave to bring in—A Bill to abolish the Fishery Draft on the western side of the Harbour in the City of Saint John, and to make other provisions for the disposal of the said Fisheries,

and to apply the annual proceeds thereof towards the erection of a City Hall in Carleton, and in payment of Interest on the Carleton Water Debentures; and

The twenty fifth Rule of the House, which requires Bills of a private or local nature to be read in presence of the Grand Jury, or published in some Newspaper, being in this instance dispensed with, leave was granted; and

The Bill brought in and read a first time.

On motion of Mr. Williston,

The House again went into Committee of the whole on—A Bill for the establishment and regulation of Booms for securing Logs and Lumber in the several Rivers in the County of Northumberland.

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to the following Bills, viz:—

The Bill to continue Chapters 26, 27, 28, and 29, Title iii, of the Revised Statutes, "Of the Public Revenue:"

The Bill to provide for the payment of the expenses incurred by the Corporation of the City of Saint John in providing shelter for the Troops, and for the repairing of the City Court Room: and

The Bill to authorize an assessment in the City of Saint John to meet the expenses incurred by the Corporation for the Prince of Wales' celebration;

Without making any amendments thereto.

And that the Council had also agreed to—

The Bill to incorporate the Roman Catholic Bishop of Chatham: and

The Bill to incorporate the Roman Catholic Bishop of Saint John;

With amendments, to which they desire the concurrence of the Assembly.

The amendment made by the Council to—The Bill to incorporate the Roman Catholic Bishop of Chatham—was read a first and second times.

The amendment made by the Council to—The Bill to incorporate the Roman Catholic Bishop of Saint John—was also read a first and second times.

Mr. Kerr, from the Committee to try the matters set forth in the Petition of Charles Brown, James Hamilton, James E. Simmons and others, Electors of the County of Sunbury, against the election and return of John Glasier, Esquire, as a Member for the County of Sunbury, made their final Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

"The Select Committee appointed on the first day of March instant, to take into consideration the Petition of Charles Brown, James Hamilton, James E. Simmons, and others, Electors of the County of Sunbury, complaining of the undue election and return of John Glasier, Esquire, as a Member for the said County, Report—That having met on that day, and adjourned till Monday the third day of March, they again met, and the Petitioners and their Counsel, and the said John Glasier and his Counsel,

appeared before them; that certain preliminary objections were made by the Counsel of the said John Glasier, against the Committee proceeding further in the matter of the said Petition, and evidence having been given thereon, the Committee adjourned and met from day to day, from the said third day of March, till the present day; and having duly considered the said objections so made, and the arguments of the respective Counsel, adjudged and determined that such preliminary objections were sufficient in Law to preclude the Committee from further proceeding in the matters of the said Petition.

“And the Committee do further Report, that the said Petition is not frivolous or vexatious.

GEORGE KERR, *Chairman.*

Committee Room, 10th March, 1862.”

The Honorable Mr. Watters moved for leave to bring in—A Bill to facilitate the collection of Harbour Dues in the City of Saint John.

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Smith moved for leave to bring in—A Bill relating to Banks.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Munro,

The House again went into Committee of the whole on—A Bill to afford greater facilities for obtaining Licenses to cut and carry away Lumber from Crown Lands.

Mr. S. H. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. Cudlip, Chairman of the Committee to try the matters set forth in the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and others, Electors of the County of Carleton, against the election and return of William Lindsay, Esquire, as a Member for the said County, reports again to the House:—

“That the Committee having on Saturday the 8th instant, adjourned over until the hour of half-past 9 o'clock this morning, certain Members thereof then met, and continued their sitting until the hour of half-past 10 o'clock; that Charles N. Skinner, Esquire, one of the Members of the said Committee, was still absent attending the Circuit Court of Queen's County; thereupon

Resolved, That the said Charles N. Skinner, Esquire, be again excused until the hour of half-past 9 o'clock, A. M. to-morrow, to which time the said Committee have adjourned.

On motion of Mr. Cudlip,

Resolved, That the Petition of Alexander M'Bean, relative to return of Duties paid on an Excavator or Dredging Machine, and which was laid before the House on the 27th day of February last by command of His Excellency the Lieutenant Governor, be referred to the Committee on Trade to examine and report thereon.

The Honorable Mr. Tilley moved for leave to bring in—A Bill in addition to and in amendment of an Act intituled “An Act establishing and maintaining a General Public Hospital in the City or County of Saint John.”

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House the following documents relative to the Financial affairs of the Province, viz:—

Estimate of Revenue and Expenditure for Fiscal Year ending 31st October, 1862: and

Estimate of Revenue and Expenditure of Railway for the Fiscal Year ending 31st October, 1862.

The foregoing Documents now laid before the House, are as follow:—

ESTIMATES OF REVENUE AND EXPENDITURE.

ABSTRACT of the Total Expenditure of the Fiscal Year ending 31st October 1861, for the services named, as compared with the Estimate; and of Warrants and Charges on Account of the same, and Warrants drawn on Account of the Expenditure of previous years.

Secretary's Office, Fredericton, 10th March, 1862.

S. L. TILLEY.

On motion of the Honorable Mr. Tilley,
Ordered, That the Estimates of Revenue and Expenditure now laid before the House be forthwith printed, and five hundred copies thereof furnished for the use of the Legislature.

On like motion of the Honorable Mr. Tilley,
 That the House proceed to the Order of the Day of the 5th day of March instant, to go into consideration of the Speech of His Excellency the Lieutenant Governor at the opening of the Session.

The Order of the Day being read, the House according thereto went into consideration thereof; when

On motion of the Honorable Mr. Tilley,
Resolved, That a Supply be granted to Her Majesty; and

On like motion of the Honorable Mr. Tilley,
Ordered, That the House do on Thursday the 13th day of March instant, resolve itself into Committee of the whole to consider of a Supply to be granted to Her Majesty.

The Honorable Mr. Tilley moved for leave to bring in—A Bill in addition to and in amendment of the Acts imposing Duties for raising a Revenue.
 Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Tilley also moved for leave to bring in—A Bill in addition to an Act relating to the Savings Banks and other Provincial Liabilities.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Ryan moved for leave to bring in—A Bill in addition to and in amendment of an Act intituled “An Act relating to Lands required for Railway purposes.”

Leave granted.

The said Bill being brought in was read a first time.

The House adjourned until to-morrow morning at 10 o'clock.

Tuesday, 11th March, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill to abolish the Fishery Draft on the Western side of the Harbour in the City of Saint John, and to make other provision for the disposal of the said Fisheries, and to apply the annual proceeds thereof towards the erection of a City Hall in Carleton, and in payment of Interest on the Carleton Water Debentures:

A Bill to facilitate the collection of Harbour Dues in the City of Saint John:

A Bill relating to Banks:

A Bill in addition to and in amendment of an Act intituled “An Act establishing and maintaining a General Public Hospital in the City or County of Saint John:”

A Bill in addition to and in amendment of the Acts imposing Duties for raising a Revenue:

A Bill in addition to an Act relating to the Savings Banks and other Provincial Liabilities: and

A Bill in addition to and in amendment of an Act intituled “An Act relating to Lands required for Railway purposes.”

Mr. Farris, by leave, presented a Petition from Robert S. McDonald, Isaac H. Deveber, and others, Members of the Grand Jury at the Circuit Court holden for Queen's County in this present month of March, praying that an Act may pass authorizing the payment of Grand Jurors in said County for their services; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Crocker moved for leave to bring in—A Bill to amend Chapter 96 of the Revised Statutes, “Of the Survey and Exportation of Lumber.”

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Watters, by leave, presented a Petition from John McLachlan, Robert Keltie, George V. Nowlin, William Leavitt, George A. Lockhart, George E. Fenety, Frederick A. Wiggins, George Carvell, John Wishart, and James Dunn, Esquires, together with three hundred and forty others, Magistrates, Citizens, and Inhabitants of the City of Saint John,

praying that an Act may pass in further amendment of the Charter of the said City and other Acts relating to the local government thereof; which he read.

Ordered, That the said Petition be received and lie on the Table.

The Honorable Mr. Watters moved for leave to bring in—A Bill further to amend the Charter of the City of Saint John, and certain Acts of Assembly relating to the local government of the said City.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Munro,

The House again went into Committee of the whole on—A Bill to afford greater facilities for obtaining Licenses to cut and carry away Lumber from Crown Lands.

Mr. S. H. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them, from time to time under their consideration, had agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House the following Documents, viz :—

Returns from the following Banking Institutions, viz :—

Central Bank for the periods ending 3rd June 1861, and 6th January and 3rd March 1862 : and

Commercial Bank made up to 1st March 1862.

See Appendix.

Copy of a Letter from Hugh M'Monagle, Esquire, resigning his office of Postmaster at Sussex Vale; this being furnished under an Address of the 4th day of March instant.

The Honorable Mr. Tilley also laid before the House, in pursuance of notice of motion for an Address to His Excellency, the following Documents, viz :—

Statement shewing the present state of the Account of the Province with the Commercial Bank, and also with the Bank of New Brunswick, and which is as followeth :—

Statement shewing the present state of the Account of the Province with the Commercial Bank, and also with the Bank of New Brunswick.

On motion of Mr. Boyd,

The House went into Committee of the whole on—A Bill to amend an Act intituled "An Act to amend Chapter 19, Title iii, of the Revised Statutes, Of Buoys and Beacons," so far as the same relates to the County of Charlotte.

Mr. Young in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made an amendment thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

The Honorable Mr. Smith moved for leave to bring in—A Bill to explain an Act intituled "An Act to impose a Tax on unimproved Granted Lands, to provide a Fund for opening of Roads and building Bridges in the Parishes in which the Lands lie."

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Smith also moved for leave to bring in—A Bill to explain and amend Chapter 67, Title x, of the Revised Statutes, 'Of Sewers.'

Leave granted.

The said Bill being brought in was read a first time.

Mr. Cudlip, Chairman of the Committee appointed to try the matters set forth in the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr and others, Electors of the County of Carleton, against the election and return of William Lindsay, Esquire, as a Member for the said County, reports again to the House—

"That the Committee having on Monday the 10th instant, adjourned over until the hour of half-past 9 o'clock this morning, certain Members thereof then met and continued their sitting until the hour of half-past 10 o'clock; that Charles N. Skinner, Esquire, one of the Members of the said Committee was still absent, attending the Circuit Court of Queen's County;" whereupon

Resolved, That the said Charles N. Skinner, Esquire, be again excused until the hour of half-past 9 o'clock A. M. to-morrow, to which time the said Committee have adjourned.

The Honorable Mr. Steadman, a Member of Her Majesty's Executive Council, laid before the House, in pursuance of notices of motions for Addresses to His Excellency the Lieutenant Governor, copies of the following Petitions, viz:—

Edward Cogswell, of Sackville, County of Westmorland;

John E. O'Brien, of Bathurst, County of Gloucester;

Thomas Miller, do. do.

Augustus S. Sutherland, do. do. and

Martin Cranney, of Chatham, in the County of Northumberland;

severally praying to be reimbursed loss sustained in the transmission of Letters containing moneys, forwarded through the Post Office Department.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—The Bill sent down from the Legislative Council, as amended by that House—To incorporate the Roman Catholic Bishop of Saint John.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill as amended before them, the amendment made thereto by the Council was under their consideration, and which is as followeth:—

At A, Section 1, at the close thereof, add the words—"Provided always, that the lands and premises so to be holden by the said Corporation shall not at any time exceed the annual profits (exclusive of pew rents,) one thousand pounds in the City of Saint John, and five hundred pounds in any one Parish in said Diocese;" when

It was moved to amend the said proposed amendment as follows, viz:—

At C, after the words "provided always that," insert the words "the annual profits of;" and

At D after the words "at any time exceed," expunge the words "the annual profits."

And the question being put upon the said amendments, it was carried in the affirmative, and the amendment by the Council then agreed to as further amended.

Ordered, That the Report be accepted, and the Bill, as now further amended, read a third time to-morrow.

On motion of Mr. Kerr,

The House went into Committee of the whole on—The Bill sent down from the Legislative Council, as amended by that House—To incorporate the Roman Catholic Bishop of Chatham.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill as amended before them, the amendment made thereto by the Council was under their consideration, and which is as followeth:—

At A, Section 1, at the close thereof, add the words—"Provided always, that the lands and premises so to be holden by the said Corporation, shall

not at any time exceed the annual profits (exclusive of pew rents,) one thousand pounds in the Parish of Chatham, and five hundred pounds in any other Parish of said Diocese;" when

It was moved to amend the said proposed amendment as follows, viz:—

At C, after the words "Provided always that," insert the words "the annual profits of;" and

At D, after the words "at any time exceed," expunge the words "the annual profits."

And the question being put upon the said amendments, it was carried in the affirmative, and the amendment by the Council then agreed to as further amended.

Ordered, That the Report be accepted, and the Bill, as now further amended, read a third time to-morrow.

On motion of the Honorable Mr. Tilley,

The House went into Committee of the whole on—A Bill to provide for payment for a Sewer laid down near the Hay Market Lot, in the City of Saint John.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Ryan,

The House went into Committee of the whole on—A Bill to explain an Act intituled "An Act to authorize and empower the Justices of the Peace in and for King's County, to sell and convey certain School Lands in the Parish of Springfield, and invest the proceeds in other lands or other valuable securities more advantageous to the inhabitants of the said Parish."

Mr. Grimmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The Honorable Mr. Watters moved for leave to bring in—A Bill to revive and make perpetual an Act intituled "An Act to extend the jurisdiction of the Corporation of the City of Saint John, for the regulation of the rates of Pilotage, beyond the limits now prescribed by Charter;" and

The twenty fifth Rule of the House, which requires Bills of a private or local nature to be read in the presence of the Grand Jury, or published in some Newspaper, being in this instance dispensed with, leave was granted; and

The Bill brought in and read a first time.

The Honorable Mr. Watters also moved for leave to bring in—A Bill to revive and make perpetual certain Acts of the Assembly for the better extinguishment of Fires which may happen in the City of Saint John; and

The like Rule of the House, requiring Bills of a private or local nature to be read in presence of the Grand Jury, being in this instance dispensed with, leave was granted; and

The said Bill brought in and read a first time.

On motion of Mr. Lindsay,
The House went into Committee of the whole on—A Bill to erect a new Parish in the County of Carleton.

Mr. M'Phelim in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. M'Phelim,

The House went into Committee of the whole on—A Bill to increase the Representation of certain Counties.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The Honorable Mr. Watters, from the Select Committee appointed on the 6th day of March instant, to examine into the provisions of—A Bill to authorize the Madras School Board to raise money by Mortgage—submitted their Report; and he having read the same, it was handed in at the Clerk's Table, where it was again read, and is as follows:—

“The Committee to whom was referred ‘A Bill to enable the Governor and Trustees of the Madras School in New Brunswick, to raise money upon Mortgage of certain lots of Land situate on the north side of King Square, in the City of Saint John,’ have duly considered the same, and having heard a Committee of the said Trustees, beg to report—

“That they recommend the passing of the above named Bill, with an additional clause providing that out of the moneys to be borrowed under the provisions of said Act, the Governor and Trustees shall refund to the several special Funds all moneys borrowed therefrom, with Interest.

CHARLES WATTERS, *Chairman*.

Committee Room, 11th March, 1862.”

Ordered, That the Report be accepted.

On motion of Mr. Williston,

The House again went into Committee of the whole on—A Bill for the establishment and regulation of Booms for securing Logs and Lumber in the several Rivers in the County of Northumberland.

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their further consideration, had made amendments thereto, and then agreed to the same under the Title of—

A Bill to authorize the Justices of the Peace for the County of Northumberland, to make rules and regulations for the protection and management of Booms for Lumber.

Ordered, That the Report be accepted, and the Bill engrossed as amended, under the amended Title.

Mr. Lindsay moved for leave to bring in—A Bill relating to the sale of certain reserved Lands in the Parish of Simonds, in the County of Carleton ; and

The twenty fifth Rule of the House, which requires Bills of a private or local nature to be read in the presence of the Grand Jury, or in incorporated Counties before the County Council, or published in some Newspaper, being in this instance dispensed with, leave was granted ; and

The Bill brought in and read a first time.

On motion of Mr. Kerr,

The House again went into Committee of the whole on—A Bill relating to the settlement and support of the Poor of this Province.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The House adjourned until to-morrow morning at 10 o'clock.

Wednesday, 12th March, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill to amend Chapter 96 of the Revised Statutes, 'Of the Survey and Exportation of Lumber:'

A Bill further to amend the Charter of the City of Saint John, and certain Acts of Assembly relating to the local government of the said City :

A Bill to explain an Act intituled "An Act to impose a Tax on unimproved granted Lands, to provide a Fund for opening of Roads and building Bridges in the Parishes in which the Lands lie: "

A Bill to explain and amend Chapter 67, Title x, of the Revised Statutes, 'Of Sewers:'

A Bill to revive and make perpetual an Act intituled "An Act to extend the jurisdiction of the Corporation of the City of Saint John, for the regulation of the rates of Pilotage, beyond the limits now prescribed by Charter: "

A Bill to revive and make perpetual certain Acts of the Assembly for the better extinguishment of Fires which may happen in the City of Saint John : and

A Bill relating to the sale of certain reserved Lands in the Parish of Simonds, in the County of Carleton.

Read a third time as engrossed,

A Bill to provide for payment for a Sewer laid down near the Hay Market Lot in the City of Saint John.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Tilley take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to authorize the Justices of the Peace for the County of Northumberland to make rules and regulations for the protection and management of Booms for Lumber,

Resolved, That the Bill do pass.

Ordered, That Mr. Williston take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to amend an Act, intituled "An Act to amend Chapter 19, Title iii, of the Revised Statutes, Of Buoys and Beacons," so far as the same relates to the County of Charlotte.

Resolved, That the Bill do pass.

Ordered, That Mr. Boyd take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to afford greater facilities for obtaining Licenses to cut and carry away Lumber from Crown Lands.

Resolved, That the Bill do pass.

Ordered, That Mr. Munro take the said Bill to the Council, and desire their concurrence thereto.

According to the Order of yesterday—"The Bill to incorporate the Roman Catholic Bishop of Saint John," returned from the Legislative Council with an amendment, was read a third time as further amended in Committee of the whole House.

Resolved, That the House do concur in the amendment as further amended; and

Ordered, That the Honorable Mr. Watters return the Bill with the amendment to the Council, and request their concurrence in the further amendments proposed by this House.

According to the Order of yesterday—"The Bill to incorporate the Roman Catholic Bishop of Chatham," returned from the Legislative Council with an amendment, was read a third time as further amended in Committee of the whole House.

Resolved, That the House do concur in the amendment as further amended; and

Ordered, That Mr. Kerr return the Bill with the amendment to the Council, and request their concurrence in the further amendments proposed by this House.

The Honorable Mr. Perley, by leave, presented a Petition from George H. N. Harding, Charles M. Bridges, Archibald Harrison, and thirty eight others, of the Parish of Maugerville, in the County of Sunbury, praying that the present Polling place in the said Parish may be changed to the Grammar School House; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. W. J. Gilbert, by leave, presented a Petition from Hugh M'Monagle, William A. Stockton, and Abraham Jones, Esquires, together with seventy four others, inhabitants of King's County and the County of Westmorland, praying that the Road from the Petitcodiac Railway Station to the Bridge at New Canaan, in King's County, may be placed on the Great Road establishment; which he read.

Ordered, That the said Petition be received and referred to the Chief Commissioner of the Board of Works to report thereon.

Mr. Stevens, by leave, presented a Petition from George A. Boardman, Charles F. Todd, Joseph E. Eaton, and twenty six others, inhabitants of the County of Charlotte, praying for a repeal of Act 24th Victoria, Chapter 19, imposing a Tax on unimproved Granted Lands; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Boyd,

The House went into Committee of the whole on—A Bill relating to the Polling places in the Parishes of West Isles and Campo Bello, in the County of Charlotte.

The Honorable Mr. Watters in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Stevens,

The House went into Committee of the whole on—A Bill in amendment of the Law relating to Judgments, Executions, and proceedings thereon.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Meahan,

The House went into Committee of the whole on—A Petition from John E. O'Brien, of Bathurst, in the County of Gloucester, laid before the House yesterday, under notice of motion for an Address to His Excellency, praying to be reimbursed loss sustained by reason of the loss of a letter containing money mailed at that place in September last.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the matter of the Petition referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of the Honorable Mr. Steadman,

The House went into Committee of the whole on—A Bill to divide the Parish of Shediac, in the County of Westmorland, and to erect a separate Parish for Ecclesiastical purposes.

Mr. Stevens in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill before them, had proceeded therein to the second Section thereof, which among other things, enacts—

“2. That Edward J. Smith and Thomas B. Hanington shall be and are hereby declared to be the Church Wardens; and Peter Schurman, John Elliott, Thomas W. Carritt, William Hamilton, J. Howsham, William Jackson, George Harshman, Richard C. Scovil, George Atkinson, Anthony Simpson, and Charles S. Theal, the Vestrymen of the said Parish,” &c.

To which it was moved as an amendment—To expunge so much of the said Section, and substitute as follows:—

“That within — days after the passing of this Act, it shall be the duty of the present Rector of the Parish of Shediac, or in case of his death, neglect, or refusal, then any three persons who are subscribers towards the erection of the Church as aforesaid in an amount not less than — dollars, to call a public meeting of persons who have become subscribers towards the erection of such Church in an amount not less than — dollars, to be holden within said Parish, by publishing a notice in one of the Newspapers published in said County at least — days prior to the day of such meeting; and such subscribers shall, at such public meeting, elect by ballot by plurality of votes, two persons being subscribers as aforesaid and Members of the Church of England, as Church Wardens, and twelve persons, subscribers and Churchmen as aforesaid, as Vestrymen of said Parish, who shall continue in office until the first Easter Monday then next succeeding.”

Upon the question being put for adopting the same, the Committee divided—

YEAS 3.

NAYS 26.

Whereupon it was decided in the negative; and

The question was then taken upon the original Section, and it was carried in the affirmative.

That the Committee then had the third Section of the Bill under their consideration, and which is as followeth:—

“3. The Church Wardens and Vestrymen before named, shall continue in office until they have erected a Parish Church as aforesaid, and until others shall be elected in their stead as herein provided—two Church Wardens and not more than twelve Vestrymen shall be elected and chosen by ballot on the first Easter Monday, after the erection and consecration of said Church, and on the same period in each and every year thereafter, who shall continue in office until others are elected in their stead.”

To this Section an amendment was moved—To expunge the whole thereof, and substitute as follows:—

“3. The Church Wardens and Vestrymen of such Parish shall be elected by ballot at each and every succeeding Easter Monday after the election aforesaid, by the subscribers aforesaid, until a Rector is duly inducted into said Parish; then upon the first Easter Monday after such induction the said Church Wardens and Vestrymen shall be elected or appointed in accordance with the provisions of Chapter 107, Title xxviii, of the Revised Statutes.”

Upon the question for adopting this amendment, it was decided in the negative; and

The question being then taken on the original Section, it was agreed to.

That the Committee then went through the remaining Sections of the Bill, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

Mr. Cudlip, from the Select Committee appointed to try and determine the merits of the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and others, against the election and return of William Lindsay, Esquire, as a Member for the County of Carleton, acquaints the House—

“That by reason of an application to the Committee on behalf of the Petitioners, that a Message might be sent to the Legislative Council, to request their Honors to give permission to the Honorable Charles Perley, a Member of that Body, to give evidence before the said Committee; he was directed by the Committee to move the House, that a Message be sent to the Legislative Council, to request that their Honors will grant leave to the Honorable Charles Perley to attend and give evidence before the said Committee, on Thursday next the 13th day of March instant, at the hour of 12 o'clock at noon;” thereupon

Resolved, That a Message be sent to the Legislative Council, requesting that their Honors will give leave to the Honorable Charles Perley, a Member of that House, to attend and give evidence before the said Committee, on Thursday the 13th day of March instant, at the hour of 12 o'clock at noon; and

Ordered, That Mr. Cudlip communicate this Resolution to the Council.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House—

Return from the Central Fire Insurance Company, shewing state of that Institution on 4th March, 1862.

See Appendix.

The Honorable Mr. Tilley also laid before the House, in pursuance of notice of motion for Address to His Excellency—

Statement made up by the Province Treasurer relative to the issue and sale of Debentures, and which is as followeth:—

STATEMENT shewing the amount of Debentures issued under the Laws passed in 1856, authorizing the Government to borrow Funds for the construction of Railways, up to 1st March 1862; specifying the amount issued in each Fiscal Year; also the amount issued between 1st November last and 1st March 1862; the amount of Debentures issued and remaining unsold or undisposed of under the said Laws, or under the 19th Vic. Cap. 20, on the 1st March 1862.

£10,000 Debentures of the last issue were sent to Messrs. Baring Brothers & Co. on 9th December 1861, the sales of which have not yet been advised; all others sold.

There are £30,000 Debentures dated 1st Nov. 1857, issued under the Act 19th Vic. Cap. 20, lodged with Messrs. Baring Bros. & Co. to meet Savings Bank calls, if necessary.

Treasury, Saint John, 6th March 1862.

B. ROBINSON, *Prov. Treasurer.*

The Honorable Mr. Tilley also laid before the House, in pursuance of a notice of motion for an Address to His Excellency, the following Documents in reference to the claim of Dillon P. Myers against the European and North American Railway, viz:—

1. Duplicate of Petition presented in 1860:
2. Copy of Letter from Mr. Myers, withdrawing from the Legislature his renewed Petition in 1861, and leaving his claims to the decision of the Executive Government:
3. Provincial Secretary's Letter, announcing decision of Governor in Council on his claims:
4. Assistant Secretary's Letter, announcing decision of the Governor in Council on his renewed application:
5. Railway Commissioners' Report on Mr. Myers' renewed Statement:
6. Provincial Secretary's answer to Mr. Myers' Note of 14th February 1862:
7. Mr. D. P. Myers' Petition, 1862, for balances alleged to be due to him as a Railway Contractor.

Mr. Allen then moved the following Resolution:—

Resolved, That the claim of Dillon P. Myers for extra work performed on the European and North American Railway, be referred to a Select Committee to report thereon.

The matter being debated, the further consideration thereof was adjourned over until to-morrow, when the House will resume the same.

The Honorable Mr. McMillan moved for leave to bring in—A Bill in addition to Chapter 64 of the Revised Statutes, 'Of Rules and Regulations.'

Leave granted.

The said Bill being brought in was read a first time.

The House adjourned until to-morrow morning at 10 o'clock.

Thursday, 13th March, 1862.

Prayers.

The Honorable Sir James Carter, one of the Commissioners named in the Commission for duly qualifying the Members of this House returned at the last General Election, attended at the Clerk's Table, and administered the oath to L. P. W. DesBrisay, Esquire, a Member for the County of Kent, who subscribed his name thereto, and then took his Seat.

Read a second time—

A Bill in addition to Chapter 64 of the Revised Statutes, 'Of Rules and Regulations.'

Read a third time as engrossed,

A Bill to divide the Parish of Shediack, in the County of Westmorland, and to erect a separate Parish for Ecclesiastical purposes.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Steadman take the said Bill to the Council, and desire their concurrence thereto.

On motion of Mr. Crocker,

Ordered, That Mr. DesBrisay be added to the Committee appointed on the 12th day of February last, to take into consideration all matters affecting the Trade of the Province.

Mr. W. J. Gilbert, by leave, presented a Petition from Elisha P. Turner, of the Parish of Harvey, in the County of Albert, praying that a Bill before the House to amend the Law for Draining German Town Lake, may not pass into a Law without a clause being inserted therein, excepting the Lands of the Petitioner from the operations thereof; which he read.

Ordered, That the said Petition be received and referred to the Select Committee appointed on the 5th day of March instant, to examine and Report on the said Bill.

The Honorable Mr. Tilley, by leave, presented a Petition from John M'Grath, William O. Smith, Joseph Mercer, and John Sears, Esquires, together with one thousand one hundred and twenty eight others, Freemen of the City of Saint John, praying that a Bill before the House which provides that the proceeds of the Fisheries shall be appropriated to the erection of a City Hall on the Eastern side of the Harbour, may not become a Law; and further, that the Petition of the Chamber of Commerce praying that the proceeds of the said Fisheries may be appropriated to the improvement of the Harbour, may not meet with the favourable consideration of the House; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Gillmor, by leave, presented a Petition from Levi W. Young, and Charles F. Clinch, of the County of Charlotte, praying that Lumber cut from Granted Lands, and manufactured on the Digdeguash River, may not be subject to the Export Duty; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Gillmor moved for leave to bring in—A Bill to exempt Lumber manufactured on the Digdeguash River, in the County of Charlotte, from payment of Export Duty.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Kerr, by leave, presented a Petition from Miles M'Millan, William M'Kay, James L. Price, Justus Fairley, and thirty one others, Lumberers and Inhabitants on the South West Branch of the River Miramichi, praying that the Bill before the House for amending the Act incorporating the South West Boom Company, may not pass into a Law without certain amendments, for the reasons set forth; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Allen again moved the Resolution which was before the House yesterday and debated, in reference to the claim of Dillon P. Myers, viz:—

Resolved, That the claim of Dillon P. Myers, for extra work performed on the European and North American Railway, be referred to a Select Committee to report thereon.

To which Mr. Munro moved as an amendment—To expunge the whole thereof, and substitute as follows:—

“Whereas it appears to this House, that in the matter of the Petition of Mr. Myers for claims under his Railway Contract, said Mr. Myers, pending

the investigation of his claims before a Committee of the preceding House of Assembly, did voluntarily decide on withdrawing the further consideration of such claims from before said Committee, and did refer said claims to the consideration of the Government for their final determination: And whereas the Government, on consideration, have awarded a certain amount of compensation to Mr. Myers, and state their willingness to investigate any further claim of Mr. Myers, not already adjudicated upon; therefore

Resolved, That until the Government refuse the consideration of Mr. Myers' claims, it is not expedient for this House to appoint a Committee to consider said claims."

The question being put upon the said amendment, the House divided as follows:—

YEAS.		NAYS.	
Hon. Mr. Tilley,	Mr. Landry,	Mr. Kerr,	Mr. DesBrisay,
Hon. Mr. Smith,	M'Clelau,	Williston,	Anglin,
Hon. Mr. Watters,	Skinner,	Vail,	S. H. Gilbert,
Hon. Mr. M'Millan,	Crocker,	Young,	W. J. Gilbert,
Hon. Mr. Steadman,	Farris,	M'Phelim,	Ryan,
Hon. Mr. Hatheway,	Lindsay,	Stiles,	Gillmor,
Hon. Mr. Perley,	Munro,	Allen,	Boyd.
Mr. Meahan,	Montgomery,	Scovil,	
Stevens,	Dr. Dow,		
Raymond,	Jordan,		
Costigan,	Grimmer.		

And so it was carried in the affirmative.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, laid before the House, in pursuance of a notice of motion for an Address to His Excellency—

Regulations under which Free Tickets are granted to Passengers on the European and North American Railway Line: also

Returns from the several Conductors, shewing Free Passengers passed over the Line, for the year ending the 31st December 1861.

On motion of the Honorable Mr. Tilley,

That the House proceed to the Order of the Day of the 10th day of March instant, to go into Committee of the whole in consideration of a Supply to be granted to Her Majesty; and

On like motion of the Honorable Mr. Tilley,

Resolved, That the Speech of His Excellency the Lieutenant Governor be referred to the Committee.

The Order of the Day being then read—The House according thereto resolved itself into Committee of Supply.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the matter referred to them under their consideration, had passed the following Resolution:—

Resolved, That a Supply be granted to Her Majesty.

Ordered, That the Report be accepted.

The Resolution reported from the Committee being then read a first and second times at the Clerk's Table—

On motion of the Honorable Mr. Tilley,
Resolved, That this House doth agree with the Committee in the said Resolution—That a Supply be granted to Her Majesty; and

On like motion of the Honorable Mr. Tilley,
Ordered, That the House do on Wednesday next, the 19th day of March instant, resolve itself into a Committee to consider of the Supply granted to Her Majesty.

Mr. Stiles, by leave, presented a Petition from Elisha P. Turner. John W. H. Turner, Samuel J. Calhoun, and eight others, proprietors of Lands at German Town Lake, and the Bog Lands adjacent thereto, in the County of Albert, praying that no Act may pass in amendment of the existing Law for the draining of the said Lake, for the reasons therein set forth; which he read.

Ordered, That the said Petition be received and referred to a Select Committee appointed on the 5th day of March instant, to examine into a Bill before the House relating to the draining of the said Lake, to report thereon.

Mr. McPhelim moved for leave to bring in—A Bill in amendment of Chapter 22 of the Revised Statutes, 'Of Sick and Disabled Seamen,'
 Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Hatheway, a Member for the County of York, applies for leave of absence for a few days, important business requiring his attention; which was granted.

On motion of Mr. Fisher,
 The House went into Committee of the whole on—A Bill relating to Corporations.

Mr. Grimmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Munro,
 The House again went into Committee of the whole on—A Bill to erect a new Parish in the County of Carleton.

Mr. Stevens in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their further consideration, had agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Stevens,
 The House again went into Committee of the whole on—A Bill in amendment of the Law relating to Judgments, Executions, and proceedings thereon.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their further consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

On motion of the Honorable Mr. Tilley,
The House went into Committee of the whole on—A Bill in addition to and in amendment of an Act intituled “An Act establishing and maintaining a general Public Hospital in the City or County of Saint John.”

Mr. S. H. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. Skinner from the Committee appointed on the 12th day of February last, to take into consideration all matters affecting the Trade of the Province; and to which Committee was referred a Petition from Alexander M'Bean, for Return Duties on an Excavator or Dredging Machine, submitted a Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

“The Committee of Trade having taken into consideration the Petition of Alexander M'Bean, for return of Duties paid by him on certain Machinery imported into this Province, beg leave to Report—

“That they have considered the matters referred to them as above, and that they cannot recommend a compliance with the prayer of said Petition.

C. N. SKINNER, *Chairman*.

Committee Room, 12th March 1862.”

Ordered, That the Report be accepted, and the Committee continued to enable them to Report upon other matters referred for their consideration.

Mr. M'Clelan, by leave, presented a Petition from the Reverend Humphrey Pickard, D. D., Reverend John Allison, A. M., Reverend James England, Joseph F. Allison, Esquire, and others, on behalf of the Conference of the Wesleyan Methodist Church of Eastern British America, and of the Trustees of the Mount Allison Wesleyan Academy, praying for the immediate establishment of a Provincial University, distinct from all teaching Institutions, and upon the plan of the London University in England, and the Queen's University in Ireland; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Williston,

The House again went into Committee of the whole on—A Bill to incorporate the North West Boom Company.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their further consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

Mr. Young moved for leave to bring in—A Bill in addition to Chapter 101 of the Revised Statutes, ‘Of the Sea and River Fisheries.’

Leave granted.

The said Bill being brought in was read a first time,

On motion of the Honorable Mr. Smith,
Ordered, That the House do on Saturday next, the 15th day of March instant, go into Committee of the whole on—A Bill relating to Banks.

The House adjourned until to-morrow morning at 10 o'clock.

Friday, 14th March, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill to exempt Lumber manufactured on the Digleguash River, in the County of Charlotte, from payment of Export Duty.

A Bill in amendment of Chapter 22 of the Revised Statutes, 'Of Sick and Disabled Seamen:' and

A Bill in addition to Chapter 101 of the Revised Statutes, 'Of the Sea and River Fisheries.'

Read a third time as engrossed,

A Bill to erect a new Parish in the County of Carleton,

Resolved, That the Bill do pass.

Ordered, That Mr. Lindsay take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill in amendment of the Law relating to Judgments, Executions, and proceedings thereon.

Resolved, That the Bill do pass.

Ordered, That Mr. Stevens take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to incorporate the North West Boom Company.

Resolved, That the Bill do pass.

Ordered, That Mr. Williston take the said Bill to the Council, and desire their concurrence thereto.

The Honorable Mr. Watters moved for leave to bring in—A Bill relating to the Militia.

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House—

Census Returns, compiled under the Act passed in 1860.

See Appendix.

On motion of Mr. Williston,

The House again went into Committee of the whole on—A Bill to continue and amend the Act to incorporate the South West Boom Company.

The Honorable Mr. Steadman in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

On motion of Mr. Kerr,
The House went into Committee of the whole on—A Bill relating to Railways.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted; and further

Ordered, That the House do on Monday next, the 17th day of March instant, again go into Committee of the whole, and resume the consideration of the said Bill.

A Message from the Legislative Council.

Mr. Dibblee communicated the following:—

“Legislative Council Chamber, Friday, 14th March, 1862.

“Ordered, That Mr. Dibblee do go down to the Assembly and acquaint that House, that the Legislative Council do give leave to the Honorable Mr. Perley, a Member of their House, to attend and give evidence before the Select Committee appointed to try and determine the merits of the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and others, against the election and return of William Lindsay, Esquire, as a Member for the County of Carleton, as desired by that House, if he think fit.

GEO. BOTSFORD, *Clerk.*”

On motion of Mr. Stevens,

The House went into Committee of the whole on—A Bill for the encouragement of Agriculture.

Mr. Allen in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, proceeded therein to the fifteenth Section thereof, which among other things provides—

“That a sum not exceeding — shall be allowed annually to defray the expenses of such Board.”

And it having been determined by the Committee to fix the amount at £350; when

It was moved—That the question on the said sum of £350 be reconsidered; and

Upon the question for the reconsideration, the Committee divided as follows:—

YEAS.

Hon. Mr. Smith,	Mr. M'Phelim,
Mr. Meahan,	Stiles,
Williston,	Farris,
Young,	Lindsay,
Skinner,	Anglin.

NAYS.

Hon. Mr. Speaker,	Mr. Crocker,
Hon. Mr. Tilley,	Seovil,
Hon. Mr. Watters,	Munro,
Hon. Mr. M'Millan,	Montgomery,
Hon. Mr. Steadman,	DesBrisay,
Mr. Kerr,	W. J. Gilbert,
Stevens,	Fisher,
Vail,	Ryan,
Landry,	Grimmer,
M'Clelan,	Gillmor.

Whereupon it was decided in the negative, and this Section then agreed to.

That the Committee then having gone through the remaining Sections of the Bill, had agreed to the same with amendments.

Ordered, That the Report be accepted and the Bill engrossed as amended.

On motion of Mr. Williston,

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to cause to be laid before this House—Copies of all Minutes of Council, and Correspondence between the Government of this Province and the Secretary of State for the Colonies, relative to obtaining the Royal assent to an Act passed in the twenty third year of Her Majesty's Reign, intituled "An Act to authorize the appointment of Commissioners in the United Kingdom and other parts of Her Majesty's Dominions, and in the United States of America, to take Affidavits and acknowledgments of Deeds and other Instruments relating to matters in this Province."

Ordered, That Mr. Williston, Mr. Vail, and Mr. Stevens, be a Committee to wait upon His Excellency with the Address.

The House adjourned until to-morrow morning at 10 o'clock.

Saturday, 15th March, 1862.

Prayers.

Read a second time—

A Bill relating to the Militia.

Read a third time as engrossed.

A Bill to continue and amend the Act to incorporate the South West Boom Company.

Resolved, That the Bill do pass.

Ordered, That Mr. Williston take the said Bill to the Council, and desire their concurrence thereto.

Mr. Boyd acquaints the House, that Mr. Stevens, a Member for the County of Charlotte, requests leave of absence until Wednesday next, important business requiring his attention; which was granted.

The Honorable Mr. Speaker also acquainted the House, that Mr. Costigan, a Member for the County of Victoria; as also Mr. Munro, a Member for the County of Carleton, severally requested leave of absence until Wednesday next; which was granted.

Mr. Grimmer, from the Committee appointed on the 20th day of February last, to examine into the provisions of—A Bill to authorize the Justices of the County of Charlotte, to sell certain Lands in Saint Stephen,—and to which Committee was referred—A Bill relating to Buildings, Offices, and School Reserves, submitted a Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

"The Committee to whom was referred the consideration of "A Bill to explain Chapter 54, Title viii, of the Revised Statutes, 'Of Buildings, Offices, and School Reserves,' report—

"That having had the said Bill under consideration, they have, the better to effect the objects thereof, prepared a new Bill under the Title of—"A Bill

relating to lands, tenements and hereditaments held for public uses by the Justices of the Peace of the several Counties in this Province,"—which they herewith submit, and recommend to the favorable consideration of this Honorable House.

"All which is respectfully submitted.

G. S. GRIMMER, *Chairman*.
EDW. WILLISTON,
JAS. G. STEVENS,
CHARLES WATTERS,
GEORGE KERR.

Committee Room, 14th March 1862."

Ordered, That the Report be accepted.

The Bill reported by the Committee was then handed in, and read a first time.

On motion of the Honorable Mr. Smith,

The House went into Committee of the whole on—A Bill to explain an Act intituled "An Act to impose a Tax on unimproved granted Lands, to provide a fund for opening of Roads and building Bridges in the Parishes in which the Lands lie."

Mr. Grimmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. W. J. Gilbert,

Resolved, That a Committee consisting of — Members be appointed, to whom shall be referred all matters connected with the working and management of the European and North American Railway, with full power to summon and send for witnesses and papers relating thereto; and

Upon the question for sustaining this Resolution, the House divided—

YEAS 2.

NAYS 19.

Whereupon it was decided in the negative.

Mr. Farris, by leave, presented a Petition from John Cole, John A. Starkey, John Farmer, and forty one others, owners of certain lots of Land on the Northwest side of the Washademoac Lake, in Queen's County, praying that an Act may pass authorizing the division in severalty of a tract of Marsh or Low Lands now held and enjoyed by them in common; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Ryan, by leave, presented a Petition from William Perry and thirty six others, Freeholders and Inhabitants of the Parish of Johnston, in Queen's County, against the passing of an Act to authorize the division of Marsh or Low Lands on the Northwest side of Washademoac Lake; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Farris,

The House went into Committee of the whole on—A Bill in addition to Chapter 96, Title xvii, of the Revised Statutes, 'Of the measurement of Firewood and Bark.'

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Williston,

The House again went into Committee of the whole on—A Bill to incorporate the Cain's River Boom Company.

Mr. Skinner in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their further consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

Mr. Scovil, by leave, presented a Petition from Philo M. Raymond and Joseph D. Baxter, Esquires, together with William M. Case and one hundred and twenty others, inhabitants of King's County, praying that the Road leading from the Finger Board Road near Blair's Mills, by way of the Case Settlement and Isaac Crawford's, as far as Colina Corner, and thence to Cole's Island, may be established as a Great Road; which he read.

Ordered, That the said Petition be received and referred to the Chief Commissioner of the Board of Works, to report thereon.

Mr. Scovil moved for leave to bring in—A Bill to place the Road commencing at the Great Road leading from Fredericton to the Finger Board, at the new Bridge near Robert Blair's, to the Case Settlement, by Hickson's, thence by George Fairweather's and Isaac Crawford's and Colina Corner to Cole's Island, in Queen's County, on the Great Road establishment.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Young,

Resolved, That a Bill before the House in addition to Chapter 101 of the Revised Statutes 'Of the Sea and River Fisheries,' be referred to the Committee appointed on the 12th day of February last, to take into consideration all matters relating to the Fisheries, to examine and report thereon.

On motion of Mr. Allen,

The House went into Committee of the whole on—A Bill to establish additional Polling places in the County of York.

The Honorable Mr. Smith in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Cudlip,

The House went into Committee of the whole on—A Bill to amend Act 18th Victoria, Chapter 38, intituled "An Act to provide for an improved system of Sewerage and Water Supply of part of the City of Saint John, and Parish of Portland in the County of Saint John."

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. Vail moved for leave to bring in—A Bill in addition to an Act intituled "An Act to disqualify persons holding certain offices under Government from being elected or capable to hold Seats in the Assembly."

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Farris,

The House went Committee of the whole on—A Bill to alter the time of holding the Circuit Court in and for Queen's County.

Mr. M'Clelan in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. Cudlip, Chairman of the Committee appointed to try the matters set forth in the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and others, Electors of the County of Carleton, against the election and return of William Lindsay, Esquire, as a Member for the said County, reports to the House—

“ That the Committee met this day at the hour of their adjournment, and after hearing testimony on the part of the Petitioners, and requiring further testimony, he was directed to ask permission of the House to adjourn over until Wednesday next, the 19th day of March instant, at the hour of half past 9 o'clock in the forenoon of that day.”

Resolved, That the Committee have leave to adjourn over until Wednesday, the 19th day of March instant, and that they do meet on that day at the hour of half past 9 o'clock, A. M., in the Committee Room where they hold their sittings, and then proceed in the investigation of the matters referred for their consideration.

Mr. Anglin, a Member for the County of Saint John, applies for leave of absence until Wednesday morning next, important business requiring his attention; which was granted.

On motion of Mr. Fisher,

The House again went into Committee of the whole on—A Bill relating to Corporations.

Mr. Grimmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, That the Committee having the Bill again before them, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The House adjourned until Monday morning next at 10 o'clock.

Monday, 17th March, 1862.

Prayers.

Read a second time the following Bills, viz :—

A Bill relating to lands, tenements and hereditaments held for public uses by the Justices of the Peace of the several Counties in this Province :

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Tilley moved for leave to bring in—A Bill to repeal an Act to authorize the extension of King Street in that part of the City of Saint John called Carleton.

The twenty fifth Rule of the House, which requires Bills of a private or local nature to be read in the presence of the Grand Jury, or published in some Newspaper, being in this instance dispensed with, leave was granted; and

The said Bill brought in and read a first time.

On motion of Mr. Fisher,

The House again went into Committee of the whole on—A Bill relating to Corporations.

Mr. Grimmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, and agreed to several Sections thereof, had the tenth Section under their consideration, and which is as followeth:—

“10. The joint stock and property of the Corporation shall be alone responsible for the debts and engagements of the same.”

To which an amendment was moved—To expunge the whole thereof, and substitute as follows:—

“The stockholders of the said Company shall be chargeable in their private and individual capacity, and shall be holden for the payment of all debts at any time due from the said Corporation, or damages sustained by the default or neglect of the said Corporation, or their agents or servants, in proportion to the stock they respectively hold: Provided however, that in no case shall any stockholder be liable to pay a sum exceeding the amount of stock actually then held by such stockholder, in addition to the stock then held by such stockholder: Provided nevertheless, that nothing herein contained shall be construed to exempt the joint stock of the said Corporation from being also liable for and chargeable with the debts and engagements of the same.”

Upon the question for adopting the amendment, the Committee divided—

YEAS.

NAYS.

Hon. Mr. Speaker,	Mr. Farris,	Hon. Mr. M'Millan,	Mr. Stiles,
Hon. Mr. Tilley,	Lindsay,	Hon. Mr. Steadman,	Scovil,
Hon. Mr. Smith,	Montgomery,	Hon. Mr. Hatheway,	DesBrisay,
Hon. Mr. Perley,	S. H. Gilbert,	Mr. Meahan,	Dr. Dow,
Mr. Young,	W. J. Gilbert,	Williston,	Fisher,
Skinner,	Ryan,	Vail,	Gillmor.
Crocker,	Cudlip,	M'Clelan,	
Glasier,	Boyd.		

Whereupon it was carried in the affirmative, and the amended Section agreed to.

The following was then moved—

“Resolved, That the further consideration of the Bill be postponed for three months.”

And upon the question for sustaining this Resolution, it was decided in the negative.

That the Committee then having made further progress in the Bill, he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House, in pursuance of an Address to His Excellency of the 1st day of March instant—

Return made up at the Office of the Provincial Secretary, in reference to Balances due to the Provincial Revenues by late Deputy Treasurers; as also by Andrew C. Hammond, late Indian Commissioner at Tobique; together with

Letter from Honorable Charles Watters, Solicitor General, relative to the claim against Deputy Amasa Weldon; and

Correspondence had with A. C. Hammond, relative to Balance claimed from him as Indian Commissioner; also

Statement made up by Province Treasurer, shewing Balances remaining in hands of Deputy Treasurers on the 24th day of February last.

These Documents are as follow :—

Return to Address of the House of Assembly for Statement of Balances due from Deputy Treasurers, &c. moved by Mr. Kerr on the 1st March 1862.

HON. THOMAS H. PETERS.

The Auditor General reports as follows :—

“ In the case of the Hon. T. H. Peters, late Deputy Treasurer at Miramichi, there was a nominal balance due by his Estate in 1836 of £433 8 10½, particulars respecting which will be found at page 42 of Auditor's Report of that year.”

PATRICK M'NAUGHTON, Esquire.

Upon this case the Provincial Treasurer reports as follows :—

“ Mr. Read, Deputy Treasurer at Bathurst, reported in June 1859 on the Accounts of Mr. Patrick M'Naughton, shewing a balance due from him of £43 2 1, besides £56 5s. charged as remitted by Mail, but of which there was no entry in any of Mr M'Naughton's books, nor any record in the Post Office, and no such letter ever came into my hands.” No Account rendered by M'Naughton. Mr. M'Naughton was superseded on 16th April 1859.

Mr. AMASA WELDON.

The Account of the late Amasa Weldon, Deputy Treasurer at Moncton, will be found on page 117 of Auditor General's Report of this year, balance due by his Estate being \$2,202 41. See Solicitor General's Letter respecting this balance, which Letter accompanies this Return. \$1,037 55, not acknowledged by Mr. Weldon, have been sworn to and will be sued for. Solicitor General's statement includes these.

J. W. WELDON, Esquire.

The balance due from Mr. Weldon, as Deputy Treasurer at Richibucto, is £197 16 3. See Auditor General's Report of 1860, page 195. As Treasurer of the Savings' Bank, Richibucto, Mr. Weldon owes \$525 50. See Auditor General's Report of this year, page 82.

No proceedings have as yet been taken against Mr. Weldon, as Deputy Treasurer, he having been prosecuted as surety for Mr. P. M'Phelim, late Deputy Treasurer at Buctouche. The following is an Extract from a Letter dated the 14th instant, received from Charles Fisher, Esquire, late Attorney General :—

“ I have to state that I obtained Judgment long since against Mr. J. W. Weldon, the Surety (of Deputy Treasurer at Buctouche,) and he paid £350 to the Treasurer and £50 to me, which I remitted to the Treasurer. I deferred issuing the Execution, as he positively pledged the payment of the balance long since, with enough of the costs to cover money actually paid out, which is all I required. I this day received £50 with an assurance that the balance of £50 will be paid immediately. I have remitted the sum to the Treasurer.

(Signed)

CHARLES FISHER.”

WILLIAM M. MACLAUCHLAN, Esquire.

Mr. Maclauchlan, as Deputy Treasurer at Grand Falls, rendered no regular Accounts, so that it is impossible to ascertain accurately the balance due from him. All that is known of his transactions in the Auditor General's Office will be found in the Report of that Office 1859, page 225, and page 195, Report of 1860.

Mr. Maclauchlan was superseded on 2nd July 1860.

Mr. A. C. HAMMOND, Indian Commissioner.

See Auditor General's Report of this year, page 233. Also Provincial Secretary's Letters of 24th June and 22nd August 1861, with Mr. A. C. Hammond's reply, dated 23rd July 1861, which letters and reply accompany this Return.

Balances due by Fiscal Officers prior to 1st July 1862.

The Auditor General remarks on this head that "Fiscal Officers do not render Accounts on the 1st July, so as to enable a Statement of their Balances to be made at that date; but all the Balances due the Province, so far as known at this Office on 31st October, are embodied in Report."

See also Provincial Treasurer's "Statement of Balances in the hands of Deputy Treasurers" up to 24th February 1862, which accompanies this Return.

Secretary's Office, 17th March, 1862.

Fredericton, March 1862.

SIR,—In the matter of the late Deputy Treasurer, Amasa Weldon, I beg to state, that the Provincial Treasurer has made up and sent to me a statement of the indebtedness of the late Deputy Treasurer Weldon to the Province, amounting to the sum of \$3,239.96, and that proceedings are about being taken to collect the same from the Estate of Mr. Weldon.

I am, &c. yours,

CHARLES WATTERS, *Solicitor General.*

Hon. S. L. TILLEY, &c. &c. &c.

(Copy)

Secretary's Office, 24th June 1861.

SIR,—By the Report of the Auditor General, it would appear that in 1858 you had in your hands a balance of £45 17 6, due to the Indian Reserve Fund, and in 1859 a balance of £12 16 3, making the amount £58 13 9.

No credit is given to you by the Provincial Treasurer for any payment towards this Fund in 1860, and he gives you credit for £2 only for the year 1859.

I have therefore to call upon you for an explanation, for His Excellency the Lieutenant Governor's information.

I have, &c.

(Signed)

S. L. TILLEY.

A. C. HAMMOND, Indian Commissioner, Tobique.

(Copy)

Andover, July 23rd, 1861.

SIR,—Your Letter of the 24th ultimo was duly received, and hope the Accounts and explanations herewith presented, will be satisfactory to His Excellency the Lieutenant Governor.

I beg to say the Accounts are made up from 1858 to 1860, inclusive, and shew a balance in my hands of £31 6 3, not including G. W. Murphy and J. & A. Topham's Notes given in 1859; these Notes will be paid in the course of the Summer, I think. The dishonored Drafts in favor of B. Beveridge, Esquire, I have taken up, amounting to £35, and beg His Excellency the Lieutenant Governor will order the amount to be placed to my credit at the Treasury as money received from me. There was a Suit against L. Lovely & ——— commenced by the late Attorney General, likewise one against Larly & Topham; the Attorney General claims costs of me, likewise Larly claims a return of £15 stampage for 1858, for logs cut on the Reserve, on the plea that Lovely & ———'s trial has not come off, and Government have abandoned the claim. He thinks to bring action against me, to recover back the stampage.

I beg His Excellency the Lieutenant Governor will allow me to retain the balance of £31 6 3, until all these matters are fully adjusted. Any further explanations or information will meet with all attention.

I have, &c.

(Signed)

A. C. HAMMOND.

The Hon. Provincial Secretary.

P. S.—I beg to refer you to B. Beveridge, Esquire, for any information he may be in possession of, relative to the manner I have conducted the Reserve matter, or present Accounts.

(Signed)

A. C. HAMMOND.

Secretary's Office, 22nd August 1861.

SIR,—A Report of the Auditor General upon your Accounts as Indian Commissioner and Commissioner for the Indian Reserve, Tobique, was laid before His Excellency the Lieutenant Governor at the last meeting of Council, and I am ordered to call upon you to pay over the balance to the Treasurer. But before doing so, I think it well to transmit to you a copy of the Auditor's Report, in order that you may ascertain whether the statement is correct in all particulars, and to afford you an opportunity of explanation should you find it necessary.

I have, &c.

(Signed)

S. L. TILLEY.

A. C. HAMMOND, Indian Commissioner, Tobique.

(Signed)

B. ROBINSON, *Provincial Treasurer.*

Treasury, Saint John, 24th February 1862.

The Honorable Mr. Tilley also laid before the House, in pursuance of notices of motions for Addresses, the following Documents, viz:—

Copies of various Documents from the Office of Board of Works, relative to the claim of Alexander Fraser, for expenditures on Ferry Slip at Newcastle, in the County of Northumberland:

Petition from Isaac Foshay, praying further remuneration for extra work as Contractor for the erection of a Bridge at Hampton Ferry; accompanied by various documents in reference to the alleged claim.

The House adjourned until to-morrow morning at 10 o'clock.

Wednesday, 19th March, 1862.*Prayers.*

Read a second time—

A Bill to repeal an Act to authorize the extension of King Street, in that part of the City of Saint John called Carleton: and

A Bill to amend the Revised Statutes, Title xxxvii, Chapter 137, 'Of the jurisdiction of Justices in Civil Suits.'

Mr. Farris moved for leave to bring in—A Bill to establish the Road from Grand Lake to that part of the Great Road from Fredericton to Richibucto which runs through Queen's County, as one of the Great Roads of communication.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Lindsay moved for leave to bring in—A Bill to establish the Road from Richmond Corner to Eel River, as one of the Great Roads of communication.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Allen moved for leave to bring in—A Bill in further amendment of the Law.

Leave granted.

The said Bill being brought in was read a first time.

On motion of the Honorable Mr. Steadman,

Ordered, That Mr. Cudlip be added to the Committee on Trade in place of Mr. Jordan, who is excused from serving on said Committee by reason of indisposition.

Mr. DesBrisay moved for leave to bring in—A Bill relating to the Election of Members to serve in the General Assembly.

Leave granted.

The said Bill being brought in was read a first time.

On motion of the Honorable Mr. Perley,

The House went into Committee of the whole on—A Bill relating to the Polling place in the Parish of Maugeville, in the County of Sunbury.

Mr. DesBrisay in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of the Honorable Mr. Smith,

That the House proceed to the Order of the Day of the 13th day of March instant, to go into Committee of the whole on—A Bill relating to Banks—which Order was adjourned over to this day by operation of the 23rd Rule of the House.

The Order of the Day being read, the House according thereto resolved itself into said Committee.

Mr. S. H. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. DesBrisay,

Ordered, That the House do on Saturday next the 22nd day of March instant, go into Committee of the whole on—The Report and Detailed Accounts from the Crown Land Department—laid before the House on the 21st day of February last.

Mr. Lindsay moved for leave to bring in—A Bill to amend Chapter 45, Title vi, of the Revised Statutes, 'Of Municipalities,' as relates to the Council and its Officers.

Leave granted.

The said Bill being brought in was read a first time.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to—

The Bill to change the Polling place in the Parish of Saint Leonard, in the County of Victoria: and

The Bill to amend an Act intituled "An Act to amend Chapter 19, Title iii, of the Revised Statutes, Of Buoys and Beacons," so far as the same relates to the County of Charlotte;

Without making any amendments thereto.

Mr. Cudlip moved for leave to bring in—A Bill to repeal part of Chapter 163 of the Revised Statutes, 'Of Fees,' so far as the same relates to Fees on Patents, and to make other provisions in lieu thereof.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Cudlip, Chairman of the Committee to try the matters set forth in the Petition of Peter R. McMonagle, George T. Hartley, Gilbert Spurr, and others, Electors of the County of Carleton, against the election and return of William Lindsay, Esquire, as a Member for the said County, reports—

"That the Committee met this day at half past 9 o'clock, A. M., pursuant to their hour of adjournment; that they continued together for the space of one hour thereafter; that Timothy W. Anglin, Esquire, one of the said Committee, was absent by leave of the House, and the Committee understand that he will return this evening;" whereupon

Resolved, That the said Timothy W. Anglin, Esquire, be excused until the hour of half past 9 o'clock to-morrow morning, to which hour the Committee have adjourned.

The House adjourned until to-morrow morning at 10 o'clock.

Thursday, 20th March, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill to establish the Road from Grand Lake to that part of the Great Road from Fredericton to Richibucto which runs through Queen's County, as one of the Great Roads of communication;

A Bill to establish the Road from Richmond Corner to Eel River, as one of the Great Roads of communication :

A Bill in further amendment of the Law :

A Bill relating to the Election of Members to serve in the General Assembly :

A Bill to amend Chapter 45, Title vi, of the Revised Statutes, 'Of Municipalities,' as relates to the Council and its Officers : and

A Bill to repeal part of Chapter 163 of the Revised Statutes, 'Of Fees,' so far as the same relates to Fees on Patents, and to make other provisions in lieu thereof.

Read a third time as engrossed,

A Bill relating to the Polling place in the Parish of Maugerville, in the County of Sunbury.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Perley take the said Bill to the Council, and desire their concurrence thereto.

On motion of Mr. Ryan,

Resolved, That the Petition of Isaac Foshay, Contractor for building a Bridge at Hampton Ferry, praying to be further remunerated for extra work performed in the construction thereof, with the Documents connected therewith, and which was laid before the House on the 18th day of March instant, be referred to a Select Committee to report thereon ; and

Ordered, That Mr. Ryan, Mr. Crocker, and Mr. Grimmer, do compose the said Committee.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill to revive and make perpetual an Act intituled " An Act to extend the jurisdiction of the Corporation of the City of Saint John, for the regulation of the rates of Pilotage, beyond the limits now prescribed by Charter."

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill to enable the Governor and Trustees of the Madras School in New Brunswick, to raise money upon Mortgage of certain Lots of Land situate on the north side of King Square, in the City of Saint John.

Mr. W. J. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

Mr. Williston, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with the Address of the 14th day of March instant, requesting that His Excellency would cause to be laid before the House—Copies of all Minutes of Council and Correspondence between the Government of this Province and the Secretary of State for the Colonies, relative

to the obtaining of the Royal assent to—An Act authorizing the appointment of Commissioners in the United Kingdom and other parts of Her Majesty's Dominions, and in the United States of America, to take Affidavits and acknowledgments of Deeds and other Instruments, relating to matters in this Province—reported that they had attended thereto, and His Excellency was pleased to say—That he would answer by Message.

Mr. Skinner moved for leave to bring in—A Bill in addition to and amendment of an Act intituled “ An Act to amend an Act intituled ‘ An Act to authorize that part of the City of Saint John called Carleton, to obtain Water from Spruce and other Lakes, and the Mayor, Aldermen and Commonalty of the said City, to issue Scrip to defray the expenses of so doing.’ ”

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Meahan,

The House again went into Committee of the whole on—A Petition from John E. O'Brien, of Bathurst, in the County of Gloucester, praying to be reimbursed an amount lost by reason of the loss of a Letter containing money, mailed at that place in September last.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the matter again before them, the following Resolution was moved :—

Resolved, As the opinion of this Committee, that an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency may be pleased to direct that the sum of — be paid to John E. O'Brien, of Bathurst, in the County of Gloucester, to reimburse him that amount by the loss of a Letter containing money, mailed at the Post Office in Bathurst on the 2nd day of September 1861, and duly registered ; and

Upon the question for sustaining the said Resolution, the Committee divided as followeth :—

YEAS.

Hon. Mr. Watters,	Mr. Scovil,
Mr. Meahan,	Glasier,
Williston,	DesBrisay,
Young,	W. J. Gilbert,
M'Phelim,	Boyd.
Stiles,	

NAYS.

Hon. Mr. Speaker,	Mr. Skinner,
Hon. Mr. Tilley,	Crocker,
Hon. Mr. Smith,	Allen,
Hon. Mr. M'Millan,	Munro,
Hon. Mr. Steadman,	Montgomery,
Hon. Mr. Hatheway,	Dr. Dow,
Hon. Mr. Perley,	Anglin,
Mr. Kerr,	Fisher,
Stevens,	Ryan,
Landry,	Cudlip,
M'Clelan,	Grimmer.

Whereupon it was decided in the negative.

The Honorable Mr. Tilley moved for leave to bring in—A Bill to provide for the collection of Duties imposed by certain Acts of Assembly relating to Sick and Disabled Seamen,—the regulation of Light Houses, and to Buoys and Beacons, in Dollars and Cents, in lieu of the mode prescribed by the said Acts.

Leave granted.

The said Bill being brought in was read a first time.

The House adjourned until to-morrow morning at 10 o'clock.

Friday, 21st March, 1862.

Prayers.

Read a second time—

A Bill in addition to and amendment of an Act intituled “An Act to amend an Act intituled ‘An Act to authorize that part of the City of Saint John called Carleton, to obtain Water from Spruce and other Lakes, and the Mayor, Aldermen and Commonalty of the said City, to issue Scrip to defray the expenses of so doing:’” and

A Bill to provide for the collection of Duties imposed by certain Acts of Assembly relating to Sick and Disabled Seamen,—the regulation of Light Houses, and to Buoys and Beacons, in Dollars and Cents, in lieu of the mode prescribed by the said Acts.

Read a third time as engrossed,

A Bill to revive and make perpetual an Act intituled “An Act to extend the jurisdiction of the Corporation of the City of Saint John, for the regulation of the rates of Pilotage, beyond the limits now prescribed by Charter.”

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Watters take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to enable the Governor and Trustees of the Madras School in New Brunswick, to raise money upon Mortgage of certain Lots of Land situate on the north side of King Square, in the City of Saint John.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Watters also take this Bill to the Council, and desire their concurrence thereto.

The Honorable Mr. Tilley, by leave, presented a Petition from the Mayor, Aldermen and Commonalty of the City of Saint John, praying that a Bill before the House—In addition to and in amendment of an Act for establishing and maintaining a General Public Hospital in Saint John, may be so altered and amended as to make it incumbent upon the Commissioners to furnish yearly Accounts in detail to the Common Council, to be audited by Auditors appointed by them, and that the property of non-residents may be made subject to assessment for the purposes of the said Bill, as also of the Act of 23rd Victoria, Chapter 61, relating to the said Hospital; which he read.

Ordered, That the said Petition be received and lie on the Table.

A Message from His Excellency the Lieutenant Governor.

The Honorable Mr. Tilley, a Member of Her Majesty’s Executive Council, by command of His Excellency, delivered the following Message:—

“New Brunswick.

“Message to the House of Assembly, March 20th, 1862.

“ARTHUR H. GORDON.

“His Excellency the Lieutenant Governor, in compliance with the Address of the House of Assembly of 14th March, lays before the House, Copies of the following Despatches:—

No. 1. Minute of His Excellency the Lieutenant Governor for the Executive Council, dated November 31st, 1860, with Enclosures:

No. 2. Despatch from His Excellency the Lieutenant Governor to the Duke of Newcastle, dated February 18th, 1861, with Enclosures:

No. 3. Despatch from the Duke of Newcastle to His Excellency the Lieutenant Governor, dated April 10th, 1861, with Enclosure.

A. H. G.

The Documents communicated by this Message, being read at the Clerk's Table, are as follow:—

Act for appointing Commissioners for taking Affidavits, &c. in the United Kingdom and United States.

No. 1.

Minute of the Lieutenant Governor to His Executive Council.

His Excellency the Lieutenant Governor lays before his Council, a copy of Despatch of November 6, 1860, which he has received this day from the Secretary of State, together with a copy of a Report (enclosed in the Despatch) of the Attorney and Solicitor General respecting the Act 23 Vic. cap. 26, intituled "An Act to authorize the appointment of Commissioners in the United Kingdom and other parts of Her Majesty's Dominions, and in the United States of America, to take Affidavits and acknowledgments of Deeds and other Instruments relating to matters in this Province."

(Signed)

J. H. T. MANNERS-SUTTON.

November 31, 1860.

Despatch from the Secretary of State for the Colonial Department.

[Enclosure No. 1.]

Downing Street, 6th November 1860.

SIR,—I submitted for the consideration of the Attorney and Solicitor General, the Act passed by the Legislature of New Brunswick, intituled 23 Victoria, Chapter 26, "An Act to authorize the appointment of Commissioners in the United Kingdom and other parts of Her Majesty's Dominions, and in the United States of America, to take Affidavits and acknowledgments of Deeds and other Instruments relating to matters in this Province," which was enclosed in your Despatch of the 21st of August.

You will learn from the opinion of the Law Officers, of which I annex a copy, the reasons which render it impossible to advise Her Majesty to give Her sanction to this Act, and I am to request that you will bring the matter under the notice of your responsible advisers, and will suggest that steps should be taken for the amendment of the Act in the manner indicated by the Law Officers' opinion.

I have, &c.

(Signed)

G. C. LEWIS.

Lieut. Governor The Hon. J. H. T. Manners-Sutton, &c. &c. &c.

[Enclosure No. 2.]

The Law Officers to the Duke of Newcastle.

Lincoln's Inn, 30th October 1860.

MY LORD DUKE.—We are honored with Your Grace's commands, signified in Sir F. Rogers' letter of the 17th October instant, in which he stated that he was directed by Your Grace to request our consideration of an Act passed by the Legislature of New Brunswick, intituled 23 Vic. cap. 26. No. 2734, "An Act to authorize the appointment of Commissioners in the United Kingdom and other parts of Her Majesty's Dominions, and in the United States of America, to take Affidavits and acknowledgments of Deeds and other Instruments relating to matters in this Province;" which Act authorizes the Lieutenant Governor in Council to appoint Commissioners to administer oaths and take affidavits in the United Kingdom, and other places, to be used in the Courts of Justice in New Brunswick.

Sir Frederic Rogers was also pleased to state that he was directed to request that you would favor Your Grace with our opinion—whether this provision can properly be made by an enactment of the Colonial Legislature?

In obedience to Your Grace's commands we have taken these papers into our consideration, and have the honor to Report—

That we are of opinion that the Act in question is framed in excess of the authority possessed by the Legislature of New Brunswick.

They might well have passed an Act declaring that Affidavits taken, and Deeds acknowledged before certain persons in Great Britain and Ireland, or the rest of the United Kingdom, should be received in the Courts of Justice in the Colony, and be deemed valid as if they had been duly made within the precincts of the Colony; but they had no power to enact that the Governor of New Brunswick should appoint Commissioners within the United Kingdom, who should be clothed with all the powers and authorities of the Judges of the Courts of Westminster Hall, the Lords of Session in Scotland, and Masters in Chancery in England and Ireland, and finally with all the powers and authorities given to a Judge of any Court of Justice in the United Kingdom, or in any Foreign State, or in any British Colony, by the 7th section of the 19th Victoria, intituled "An Act in further amendment of the Law."

A Statute so universal, taking effect *per orbem terrarum*, would hardly be within the power of the Imperial Parliament, but certainly very widely transcends the limits of that authority which belongs to the Legislature of New Brunswick.

We think it would be desirable to bring a Bill into Parliament next Session for the purpose of enacting that all persons duly authorized to take Affidavits in the United Kingdom, or the acknowledgments of Deeds by married women, should be empowered to take Affidavits and acknowledgments to be used in the Courts of Justice in any Colony, provided such Affidavits and Deeds be made admissible in the Courts of Justice of such Colony by any Act of the Colonial Legislature or other authority.

We have, &c. (Signed)

RICHARD BETTRELL,
WM. ATHERTON.

No. 2.

Despatch from the Lieutenant Governor to the Secretary of State for the Colonial Department.

Government House, Fredericton, February 18, 1861.

MY LORD DUKE,—With reference to the subject matter of the Despatch, marked in the margin,* I have the honor to forward to Your Grace, for Your Grace's consideration, the enclosed Copy of a Memorandum, submitted to me this day by my Council, together with a Copy of the Report of the Attorney General referred to in that Memorandum.

I have, &c. (Signed) J. H. T. MANNERS-SUTTON.

His Grace the Duke of Newcastle, K. G., &c. &c. &c.

*November 6, 1860.

[Enclosure No. 1.]

Memorandum of the Executive Council in Committee.

To His Excellency the Honorable John Henry Thomas Manners-Sutton, Lieutenant Governor of the Province of New Brunswick, &c. &c. &c.

The Committee of the Executive Council having had under their consideration the Despatch of Sir George C. Lewis, relative to the Act 23 Vic. cap. 26, together with the opinion of the Attorney and Solicitor General laid before the Council by Your Excellency, respectfully request Your Excellency to transmit to the Right Honorable the Secretary of State for the Colonies, the accompanying Report of the Attorney General upon the subject of this Act, in which they fully concur, and also submit to His Grace the reconsideration of this question.

Report of the Attorney General, enclosed in Minute of Executive Council.

[Enclosure No. 2.]

Fredericton, February 11, 1861.

Having had under consideration the Despatch of Sir G. C. Lewis, dated fifth day of November last, enclosing the opinion of the Attorney and Solicitor General of England, upon the Act of 23 Vic. cap. 26, I have to report as follows:—

The Act provides for the taking in other parts of the Empire, and in the United States, Affidavits to be read in the several Courts of Justice in this Province, and for taking the acknowledgment of Deeds and other Instruments affecting real or personal property in the Province. Both these objects can be attained by Acts passed by the Legislature at different times; but the difficulties and inconveniences attendant upon the performance of the duties required by such Laws, when discharged by persons, many of whom only hold their offices temporarily, and are consequently very inexperienced, have rendered the enactment of the present Law necessary.

From the opinion of the Attorney and Solicitor General of England accompanying the Despatch, I cannot ascertain the precise constitutional objection to the passing of the Act. It is stated generally to be in excess of the authority of the Legislature of New Brunswick. It may be that the Attorney and Solicitor General have not fully considered the nature of the Constitution of New Brunswick, and the power at present possessed, or certainly supposed to be possessed by the Legislature and people of the Province; they imagine they possess self-government, that they have a right to manage their local affairs in the way that appears to them best; to regulate the administration of justice, and the transfer and transmission of property, are both matters of an essentially local character, and without which any self-government or power of local control would be utterly delusive. Suppose the Act in question to receive the assent of Her Majesty, no Imperial interest will be affected, it only provides additional means for taking Affidavits to be used in the local Courts, and for the acknowledgment of Deeds, Conveyances or Instruments affecting property in the Province. It gives to Commissioners, to be appointed by the Governor in Council, all the powers conferred by the 112th Chapter of the Revised Statutes, upon the Judges of the Courts in Westminster Hall, the Lords of Session, and a Master in Chancery in England and Ireland, to take acknowledgments; in other words, to enable parties in Great Britain or Ireland to go before such Commissioners to acknowledge the execution of a Deed in the same manner that they can do before any of the aforesaid Judges or Masters in Chancery. By the same Chapter of the Revised Statutes, Deeds or Instruments affecting lands may likewise be acknowledged before the Mayor of a City or Town corporate. It also enables these Commissioners to take Affidavits to be used in the Courts of the Province in the same manner as Affidavits made before a Judge of any Court in the United Kingdom, or in any Foreign State or British Colony. The fact of its effect *per orbem terrarum* can be of no more constitutional consequence than if extended to a neighbouring Province. The Legislature has frequently passed Acts which would be open to the same objection as this Act, and their power to do so has not been questioned for the reason that, after all, the passing of such Acts only facilitated transmission of property within the limits of the Province.

In 1835, an Act was passed, 5 W. IV., cap. 14, to facilitate the examination of witnesses before trial in the Supreme Court. By the first Section of this Act, a Judge of the Supreme Court is authorized by Commission, under the Seal of the said Court, to appoint persons out of the Province to take the examination of witnesses, and to administer oaths to such witnesses for that purpose. By this Act a single Judge is authorized to appoint persons to administer oaths and take the examination of witnesses in any part of the world, and Commissions have issued to take testimony in Great Britain, in remote Colonies of the Empire, and in Foreign Countries, or, in the language of the Attorney and Solicitor General, *per orbem terrarum*. It is objected to confer upon the Governor and Council a power which has been exercised by a single Judge of the Supreme Court for twenty five years. The constitutional difficulty and inconvenience in the exercise of such power is not stated. We had supposed that when an Act of the local Legislature passed and received Her Majesty's assent, there was no power known to the Constitution that could enquire into it or set it aside, and the Courts of the Province were bound by its provisions. If this constitutional principle is questioned, then indeed it is advisable for the Imperial

Legislature, by a declaratory Act, to affirm its correctness; but the declaratory Act suggested by the Attorney and Solicitor General is altogether unnecessary, so far as New Brunswick is concerned, for the power proposed to be conferred has long been exercised by the Legislature of this Province, without ever being disputed.

The Constitution of this Province is very different from that of most other Colonies, which are defined by Act of Parliament, and which Act limits and regulates the power of the Legislature; and the Attorney and Solicitor General must have overlooked that fact when they made their Report. They appear to have misconceived the true meaning of the language employed in the Act under consideration. They state it as if the Act authorized the Governor in Council to appoint Commissioners in England who should be clothed with all the power and authority of the Judges of the Courts of Westminster Hall, the Lords of Session in Scotland, and Masters in Chancery in England and Ireland, and with all the power and authority given to a Judge of any Court of Justice in the United States or any British Colony, by the 7th Section of the 19th Victoria, intituled "An Act in further amendment of the Law."

Now the Act 23 Vic. merely authorizes the Governor in Council to appoint Commissioners to take acknowledgments of Deeds, Conveyances and other Instruments affecting real property in this Province, and who for that purpose shall be clothed with all the power and authority conferred upon a Judge of the Court of Queen's Bench or Common Pleas, or Baron of the Exchequer, or Lord of Session in Scotland, or Master in Chancery in England and Ireland, by the 112th Chapter of the Revised Statutes; but the power and authority conferred by the Revised Statutes is nothing more than the authority for any of these Judges or Masters in Chancery to take the acknowledgment of a party to a Deed, or to administer an oath to a subscribing witness to a Deed, to the effect that he was present and saw the Grantor execute it, and to certify that fact, and which, when so certified, is recognized by the Courts in this Province. It is simply a ministerial act, and authorizes the recognition within the Province, of the certificate of such Commissioners, that the Deed or Instrument to which the certificate relates, had been duly executed. This is all the power and authority conferred upon a Judge of the Court of Queen's Bench or Common Pleas, and it is all the power given to the Commissioners. The Judges and Officers referred to have no original power in themselves to do any of the acts contemplated by the 112th Chapter of the Revised Statutes. Their sole authority in this respect is derived from the Provincial Statutes, and the present Act only extends it to the person to be appointed specifically for that purpose. The power and authority given to a Judge of any Court of Justice of the United Kingdom or in any British Colony, by the 7th Section 19th Victoria, is an authority to administer an Affidavit to be used in the Courts of this Province; this power the present Act authorizes to be given to Commissioners to be appointed by the Governor in Council.

These are all purely local matters, which simplify the transmission of property in a country where land is cheap, or facilitate the administration of justice.

The Attorney and Solicitor General state that the Legislature might well have passed an Act which authorized the taking of Affidavits and acknowledgments of Deeds before certain persons in Great Britain and Ireland, for the purpose of being used in the Courts of the Province.

Such an Act is in existence in the Province, but inconveniences resulting from it necessitated the passing of the present Act, for the purpose of giving additional facilities and avoiding difficulties in conveying property. This is the very thing the Act under consideration does; it authorized the Governor in Council to appoint certain persons to take the Affidavits and Acknowledgments, and conferred no further or other power upon them.

If the Legislature have not the power to pass an Act to regulate every local matter, then indeed should the Imperial Legislature be invoked to pass an Act conferring it or declaring its existence.

(Signed)

CHARLES FISHER.

No. 3.

Despatch from the Secretary of State for the Colonies, to the Lieutenant Governor.

Downing Street, 10th April 1861.

SIR,—I have received and communicated to the Law advisers of Her Majesty, your Despatch of the 18th February, in which you enclose a Memorandum from the Attorney General of New Brunswick, respecting certain objections to the Colonial Act, 23 Victoria, Chapter 26, and a Minute of your Executive Council, in which they signify their concurrence in Mr. Fisher's views.

As Mr. Fisher states that he has been unable to ascertain the precise constitutional objection to the Act, which was entertained by the Attorney and Solicitor General in this country, you will not be surprised to learn that his explanation has failed to remove it.

I understand their objection to be this,—that although the Colonial Legislature have full powers of legislation, in regard to New Brunswick, no power at all has been conferred upon them of legislating for the United Kingdom or for Foreign Countries; and consequently, that while they are competent to declare what Affidavits or other Documents shall be receivable in evidence in New Brunswick, they are not competent to clothe any Commissioner or other person with the power of administering oaths in Great Britain and the United States, (without any reference to the laws of those countries,) still less to confer on them the powers (exercisable beyond the limits of New Brunswick,) equivalent to those which are conferred on certain Judges by the 7th Section of the Imperial Act of 19th Victoria, "in amendment of the Law."

I annex a copy of the 35th Section of the Canada Act of 1860, 23 Victoria, Chapter 57, Section 35, framed with a full appreciation of the limits of Colonial and Imperial jurisdiction, and therefore not open to any objection.

You will observe that its effect is merely to authorize the reception in Canada of Affidavits taken in England by persons selected, indeed, by the Governor, but authorized by English (not Canadian) Law to administer oaths. By comparing this clause with that contained in the New Brunswick Act, you will see clearly what alteration is required in the latter. Till that alteration is made, it will not be in my power to recommend that the Act should be left to its operation.

I have, &c.

(Signed)

NEWCASTLE.

Lieut. Governor The Hon. J. H. T. Manners-Sutton, &c. &c. &c.

[Enclosure.]

Extract of "An Act concerning the administration of Justice in Lower Canada," assented to 19th May 1860, Chapter 57.

" 35. It shall be lawful for the Governor, from time to time, to nominate and appoint fit and proper persons resident in any part of Great Britain or Ireland, as Commissioners to administer Oaths and take Affidavits to be used in any Court of Civil jurisdiction in Lower Canada; and all Affidavits taken by any such Commissioner, shall be of the same value and effect, and the same credence shall be given thereto in all Courts of Civil jurisdiction in Lower Canada, as is now given to Affidavits taken before a Commissioner appointed by the Superior Court for Lower Canada, or by any Judge thereof: Provided that no person but an Attorney or Solicitor practising in one of the Superior Courts of Great Britain or Ireland, and qualified by Law to act as Commissioner for similar purposes in Great Britain and Ireland, shall be appointed."

On motion of Mr. Stevens,

The House again went into Committee of the whole on—A Bill relating to the admission of Evidence in certain cases.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Allen,

The House went into Committee of the whole on—A Bill to amend the Revised Statutes, Title xxxvii, Chapter 137, “Of the jurisdiction of Justices in Civil Suits.”

The Honorable Mr. Steadman in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. DesBrisay,

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to cause to be laid before this House—A detailed statement of the Crown Land Instalments, amounting to \$120,201 76-100ths, as shewn in the Financial Statement,—shewing the names of the parties indebted, and in what County they reside, and the nature of their indebtedness, and whether any part of the amount and what, is secured by Bond, with the names of the Obligors and their sureties, if any, with the amount secured thereby,—and all other information connected therewith, as will give full and particular statement of the said amount; also a statement of all Bonds given as sureties for the performance of the duties of any Deputy Surveyor, which Bonds have in any way become forfeited, and what proceedings, if any, have been taken thereon, or for the enforcement thereof.

Ordered, That Mr. DesBrisay, Mr. W. J. Gilbert, and Mr. Anglin, be a Committee to wait upon His Excellency with the Address.

On motion of Mr. Skinner,

The House went into Committee of the whole on—A Bill further to amend an Act to regulate the qualifications of practitioners in Medicine and Surgery, and to provide a Medical Council of Health in the Province of New Brunswick.

Mr. Stevens in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Kerr,

That the House proceed to the Order of the Day of the 14th day of March instant, to go into Committee of the whole in further consideration of—A Bill relating to Railways; which Order was adjourned over to this day by operation of the 23rd Rule of the House.

The Order of the Day being read, the House according thereto resolved itself into said Committee.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted ; and further

Ordered, That the House do to-morrow at the hour of 12 o'clock at noon, again go into Committee of the whole, and resume the consideration of the said Bill.

The House adjourned until to-morrow morning at 10 o'clock.

Saturday, 22nd March, 1862.

Prayers.

Mr. Williston, from the Committee on Fisheries, submits a Report; and he having read the same, it was handed in at the Clerk's Table, where it was again read, and is as follows:—

“The Committee appointed on the 12th ultimo, to take into consideration all matters relating to the Fisheries of the Province, having had before them several matters connected therewith, and having examined the same, beg to make the following Report, viz:—

“Your Committee have had before them—A Bill in addition to Chapter 101, Title xxii, of the Revised Statutes, ‘Of the Sea and River Fisheries.’ This Bill gives the Governor in Council additional power in making Rules and Regulations for the protection and management of the Fisheries on the Sea coast of this Province, and around any Island of the said coast. The present Law only imposes a fine and imprisonment for any breach of the Rules and Regulations, which in many cases is wholly inadequate to effect the purpose and prevent the injuries complained of.

“The Herring Fisheries of the Coast of Carraquette and Shippegan, in the County of Gloucester, are in a great extent unprotected, and cannot be reached by the operation of the present enactments: It has been proved to your Committee, that non-residents not unfrequently resort to those Fishing Grounds, set their nets, and leave them for a time without being fished; the fish are by these means allowed to decay, which has an injurious effect upon the Fisheries, by driving them from their usual haunts, and which your Committee fear may ultimately destroy the Fishery, which is of such vast importance to the inhabitants of that locality: The Law now before your Committee will enable the Governor in Council to make regulations, authorizing the Warden of the Fisheries to seize, forfeit, and sell all nets thus found illegally set, and will remedy the evil complained of.

“Your Committee have had before them the Petition of Robert Thomson, Thomas Barry, James Bolton, and one hundred and seventy five others, praying for the protection of the Herring Spawning Grounds at Southern Head of Grand Manan: This Petition prays that an armed Vessel or Cutter should be stationed on the Grounds for the purpose of protecting the Fisheries in that locality; however much your Committee are disposed to propose a measure to preserve these Fisheries from apparent destruction, still they cannot at present recommend that so expensive a mode should be adopted. Your Committee have received information, that if the bounds of the Spawning Grounds at the Southern Head of Grand Manan were enlarged, and an energetic resident Warden established in the immediate locality, the violations complained of could be to a very great extent corrected, and the

complaints now existing would cease; in this view of the matter, your Committee concur; and as the appointment of a resident Warden would be attended with much less expense than an armed Cutter, and your Committee viewing the protection of these Fisheries as of great importance to the country, recommend that the Executive Government should appoint a Warden in that locality to carry out the wishes of the Petitioners, and protect the Fisheries.—They recommend that a Section be added to the Bill, enlarging the Spawning Grounds as required.

“Your Committee have also had before them the Petition of Archibald M'Diarmid, Neil M'Nichol, and Angus M'Vicar, and fifty others, inhabitants of the County of Charlotte, praying for an amendment of the Law regulating Weirs, &c. The Petitioners complain that the proprietors of Weirs now in operation are in the habit of keeping the gates of their Weirs closed, whereby a description of small fish, not fit for home consumption or exportation, are taken, and to a great extent by foreigners, and by some process the oil is extracted and the refuse used for manure; this wholesale destruction of the small fish not only lessens the usual annual catch of Herring, but withdraw from the larger fish their usual food: It must therefore be apparent, that unless this subject be dealt with promptly, and stringent regulations be made as to the making and establishing of Weirs, and the mode of keeping the same open for legal fishing, that this Fishery, your Committee fear, will be completely destroyed; but your Committee are not called upon to recommend a Bill on the subject, as the Sessions have ample power to regulate all the Fisheries within the Rivers; and the Governor in Council, on the Coasts of this Province, and around the Islands of the same;—to which tribunals your Committee would recommend the Petitioners to apply as soon as convenient.

“All which is respectfully submitted.

EDWARD WILLISTON, *Chairman.*
JOHN W. CUDLIP,
ABNER R. M'CLELAN,
ROBERT YOUNG,
JAMES BOYD.

Committee Room, 21st March, 1862.”

Ordered, That the Report be accepted, and the Committee continued to enable them to report further upon matters referred for their consideration.

Mr. Stevens moved for leave to bring in—A Bill to prevent the spread of Disease among Neat Cattle and Horses.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Allen,

The House again went into Committee of the whole on—A Bill to amend the Revised Statutes, Title xxxvii, Chapter 137, “Of the jurisdiction of Justices in Civil Suits.”

The Honorable Mr. Steadman in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their further consideration, had agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to the following Bills, viz:—

The Bill to continue an Act intituled "An Act to prevent the spread of a Disorder now existing in certain parts of the Counties of Gloucester and Northumberland:"

The Bill to authorize investigation in cases of Fires in the several Counties of this Province: and

The Bill to establish additional Polling places in the County of York;

Without making any amendments thereto.

And that the Council had also agreed to—

The Bill to alter the Boundary Line between the Parishes of Grand Falls and Saint Leonard, in the County of Victoria: and

The Bill to enable the Justices of the Peace for the County of Charlotte to sell certain Lands, and invest the proceeds in other securities,

With amendments, to which they desire the concurrence of the Assembly.

The amendment made by the Council to—The Bill to alter the Boundary Line between the Parishes of Grand Falls and Saint Leonard, in the County of Victoria—was read a first and second times, and is as followeth:—

At A, Section 1, expunge the remainder of the Section.

Ordered, That this Bill, as amended by the Legislative Council, stand for a third reading on Monday next.

The amendment made by the Council to—The Bill to enable the Justices of the Peace for the County of Charlotte to sell certain Lands, and invest the proceeds in other securities—was read a first and second times, and is as followeth:—

At A, Section 1, add the following words:—"Provided that nothing herein contained shall in any wise interfere with or affect the legal or equitable rights of any Lessees of the within described Lands."

Ordered, That this Bill, as amended by the Legislative Council, stand for a third reading on Monday next.

The Honorable Mr. Smith, by leave, presented a Petition from the Mayor and Council of the Town of Moncton, in the County of Westmorland, praying for a repeal of the Act incorporating the said Town; which he read.

Ordered, That the said Petition be received and lie on the Table.

The Honorable Mr. Smith moved for leave to bring in—A Bill to repeal an Act to incorporate the Town of Moncton; and

The question being put—That the twenty fifth Rule of the House, which requires Bills of a private or local nature to be read in the presence of the Grand Jury, or published in some Newspaper, be in this instance dispensed with, and leave granted to introduce the Bill;

Whereupon the House divided—

YEAS 15.

NAYS 7.

And it being thereupon carried in the affirmative, leave was granted; and The said Bill brought in and read a first time.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House, in pursuance of an Address to His Excellency of the 1st day of March instant—

Statement of Expenses incurred for Delegations to Great Britain, Canada, or the United States, and which is as followeth:—

A Detailed Statement of all sums of Money paid from the Public Funds of the Province, for Delegations of Public Men to Great Britain, Canada, or the United States, on Public Service, from the 1st January 1855 to 1st January 1862.

Date of Warr't.	No. of Warr't.	To whom paid.	Service.	Amount.

J. R. PARTELOW, A. G.

Auditor General's Office, 22nd March 1862.

The Honorable Mr. Tilley also laid before the House, in pursuance of notice of motion for an Address to His Excellency—

Copy of a Petition from Robert Caldwell, and others, together with that of the Correspondence and other Documents, relative to the claim of the said R. Caldwell for teaching a Superior School at Grand Falls, in the County of Victoria.

Mr. Cudlip, by leave, presented a Petition from the Rector, Church Wardens and Vestry of Trinity Church, in the City of Saint John, praying that an Act may pass authorizing the sale of part of the Real Estate belonging to the Corporation; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Cudlip moved for leave to bring in—A Bill to authorize the Rector, Church Wardens and Vestry of Trinity Church, in the Parish of Saint John, in the City and County of Saint John, to sell part of their Real Estate in the City and County of Saint John.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Anglin, by leave, presented a Petition from James Robinson, Esquire, John Monaghan, William Flewelling, John T. Lord, B. Lingley, Alexander Barnhill, Michael Dalton, Dennis Morris, and seventy three others, inhabitants of the Parish of Lancaster, in the County of Saint John, praying for a division of the said Parish; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Anglin moved for leave to bring in—A Bill to erect part of the Parish of Lancaster, in the County of Saint John, into a separate Parish.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Kerr,

The House, in pursuance of the Order of yesterday, again went into Committee of the whole on—A Bill relating to Railways,—and resumed the consideration thereof.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. Crocker, a Member for the County of Northumberland, applies for leave of absence until Tuesday next, important business requiring his attention; which was granted.

Mr. Lindsay, a Member for the County of Carleton, also applied for leave of absence for a few days, important matters requiring his attention; which was granted.

On motion of Mr. Stevens,
Read a third time as engrossed,

A Bill for the encouragement of Agriculture.

Upon the question for the final passing thereof, the House divided as follows:—

YEAS.

Hon. Mr. Tilley,	Mr. Crocker,
Hon. Mr. Watters,	Allen,
Hon. Mr. M'Millan,	Scovil,
Hon. Mr. Steadman,	DesBrisay,
Hon. Mr. Hatheway,	S. H. Gilbert,
Hon. Mr. Perley,	W. J. Gilbert,
Mr. Kerr,	Fisher,
Stevens,	Ryan,
Williston,	Grimmer,
Vail,	Gillmor,
Young,	Boyd.
M'Clelan,	

NAYS.

Hon. Mr. Smith,	Mr. Skinner,
Mr. Meahan,	M'Phelim,
Costigan,	Stiles,
Landry,	Cudlip.

And so it was carried in the affirmative.

Resolved, Thereupon, that the Bill do pass; and

Ordered, That Mr. Stevens take the same to the Council, and desire their concurrence thereto.

The House adjourned until Monday morning next at 10 o'clock.

Monday, 24th March, 1862.*Prayers.*

Read a second time the following Bills, viz :—

A Bill to prevent the spread of Disease among Neat Cattle and Horses :

A Bill to repeal an Act to incorporate the Town of Moncton :

A Bill to authorize the Rector, Church Wardens and Vestry of Trinity Church, in the Parish of Saint John, in the City and County of Saint John, to sell part of their Real Estate in the City and County of Saint John: and

A Bill to erect part of the Parish of Lancaster, in the County of Saint John, into a separate Parish.

Read a third time as engrossed,

A Bill to amend the Revised Statutes, Title xxxvii, Chapter 137, "Of the jurisdiction of Justice in Civil Suits."

Resolved, That the Bill do pass.

Ordered, That Mr. Allen take the said Bill to the Council, and desire their concurrence thereto.

According to the Order of Saturday last, the amendment made by the Legislative Council to—The Bill to alter the Boundary Line between the Parishes of Grand Falls and Saint Leonard—was read a third time.

Resolved, That the House do concur therein.

Ordered, That Mr. Costigan return the Bill, with the amendment, to the Council, and acquaint them therewith.

According to the Order of Saturday last, the amendment made by the Legislative Council to—The Bill to enable the Justices of the Peace for the County of Charlotte to sell certain Lands, and invest the proceeds in other securities—was read a third time.

Resolved, That the House do concur therein.

Ordered, That Mr. Grimmer return the Bill, with the amendment, to the Council, and acquaint them therewith.

On motion of Mr. Boyd,

The House again went into Committee of the whole on—A Bill relating to the Polling places in the Parishes of West Isles and Campo Bello, in the County of Charlotte.

Mr. Scovil in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their further consideration, had agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

Mr. Costigan moved for leave to bring in—A Bill to repeal part of Chapter 62 of the Revised Statutes, "Of Sheep and Moose," and to make further provisions for the protection of Sheep.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Costigan also moved for leave to bring in—A Bill to amend an Act intituled "An Act to disqualify persons holding certain Offices under Government, from being elected or capable to hold Seats in the Assembly."

Leave granted.

The said Bill being brought in was read a first time.

Mr. Allen moved for leave to bring in—A Bill to authorize the Estates of Mortgagees to be taken in Execution.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Costigan,

Resolved, That the Petition and other Documents, laid before the House on Saturday last, relative to the claim of Robert Caldwell for teaching a Superior School at Grand Falls, be referred to a Select Committee to report thereon; and

Ordered, That Mr. Costigan, Mr. Gillmor, and Mr. Stevens, do compose the said Committee.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House—

Report from William M. Smith, Esquire, Steam Boat Inspector at the Port of Saint John, for the year 1861.

See Appendix.

On motion of Mr. Skinner,

The House went into Committee of the whole on—A Bill in addition to and amendment of an Act intituled "An Act to amend an Act intituled 'An Act to authorize that part of the City of Saint John called Carleton, to obtain Water from Spruce and other Lakes, and the Mayor, Aldermen and Commonalty of the said City, to issue scrip to defray the expenses of so doing.'"

Mr. Grimmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. McClelan moved for leave to bring in—A Bill to incorporate the Caledonia Coal and Mining Company.

Leave granted.

The said Bill being brought in was read a first time.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill to provide for the drainage and protection of the Great Marsh in the City of Saint John, and in the Parishes of Portland and Simonds in the City and County of Saint John, and the maintenance of a Highway over the Aboideau across the Marsh Creek near the City of Saint John.

The Honorable Mr. Steadman in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

A Message from the Legislative Council.

Mr. Dibble informed the House that the Council had agreed to—

The Bill relating to the Polling places in the Parish of Maugerville, in the County of Sunbury: and

The Bill to alter the Division Line between the Parishes of Northampton and Brighton, in the County of Carleton,
Without making any amendments thereto.

On motion of Mr. DesBrisay,

That the House proceed to the Order of the Day of the 19th day of March instant, to go into Committee of the whole on—The Report and Accounts from the Crown Land Department; and which Order was adjourned over to this day by operation of the twenty third Rule of the House.

The Order of the Day being read, the House according thereto resolved itself into said Committee.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the matter referred to them under their consideration, had made progress thereon, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. Cudlip moved for leave to bring in—A Bill to explain and amend an Act intituled “An Act to authorize the extension of King Street, in that part of the City of Saint John called Carleton.”

Leave granted.

The said Bill being brought in was read a first time.

Mr. Cudlip also moved for leave to bring in—A Bill to vest the appointment of the Chief of Police and Police Clerk of the City of Saint John, in the Common Council, and for other purposes relating to the Police of the said City.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Cudlip, Chairman of the Committee appointed to try the matters set forth in the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and others, Electors of the County of Carleton, against the election and return of William Lindsay, Esquire, as a Member for the said County, reports to the House—

“That the Committee met on Wednesday, 19th March instant, pursuant to leave granted by this House on the 15th instant; that they have continued their sittings from day to day until this day, hearing testimony on the case;—That on the application of the Petitioners, a Summons was issued for the attendance of George Stickney as a Witness, to give evidence before the Committee;—That it has been proved to the satisfaction of the Committee, that the Summons was duly served on the said George Stickney, and that sufficient money had been paid to him for his travelling expenses, and subsistence while attending at Fredericton;—That the said George Stickney was in attendance for several days, and that upon being called this day to give evidence he did not appear, and the Committee are informed that he has returned to his home in the County of Carleton, without the knowledge or permission of this Committee;” whereupon

On motion of Mr. Cudlip,

Resolved, That the Speaker do issue an Order for the attendance of the said George Stickney, on Friday next the 28th day of March instant, at the hour of ten o'clock, A. M.

Mr. Kerr, by leave, presented a Petition from Alexander M. Muir, Henry Vye, Joseph Bateman, and thirty five others, inhabitants of the County of Northumberland, praying that the time limited by Law for the catching of Gasperean in the River Miramichi, may be extended; which he read.

Ordered, That the said Petition be received and referred to the Committee on Fisheries, to report thereon.

Mr. Young, from the Committee appointed to examine into the Petition from the inhabitants of the County of Gloucester, praying for a Division of the said County, as well as the Bill before the House predicated thereon, submitted their Report; and he having read the same, it was handed in at the Clerk's Table, where it was again read, and is as follows:—

“The Committee to whom was referred, on the fifth day of March instant, a Bill “to divide the County of Gloucester,” have had under their consideration the said Bill, as also the Petition from the Very Reverend Joseph M. Paquet, the Reverend F. Gauvreau, the Reverend John A. Mooney, Charles Robin & Co., and six hundred and sixty six others, inhabitants of the proposed new County, praying for the said Division, beg leave to Report:—

“That for the reasons set forth in the said Petition, your Committee recommend that a Bill pass for establishing the Parishes of Caraquet, Inkerman, Shippegan, and Saumarez, of the County of Gloucester, into a new County, to be represented in the Assembly by one Member.

ROBERT YOUNG, }
CHARLES WATTERS, } *Committee.*

Committee Room, 24th March, 1862.”

Ordered, That the Report be accepted.

The House adjourned until to-morrow morning at 10 o'clock.

Tuesday, 25th March, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill to repeal part of Chapter 62 of the Revised Statutes, “Of Sheep and Moose,” and to make further provisions for the protection of Sheep:

A Bill to amend an Act intituled “An Act to disqualify persons holding certain Offices under Government from being elected or capable to hold Seats in the Assembly:”

A Bill to authorize the Estates of Mortgagees to be taken in Execution:

A Bill to incorporate the Caledonia Coal and Mining Company:

A Bill to explain and amend an Act intituled “An Act to authorize the extension of King Street, in that part of the City of Saint John called Carleton:” and

A Bill to vest the appointment of the Chief of Police and Police Clerk of the City of Saint John, in the Common Council, and for other purposes relating to the Police of the said City.

Read a third time as engrossed,

A Bill relating to the Polling places in the Parishes of West Isles and Campo Bello, in the County of Charlotte.

Resolved, That the Bill do pass.

Ordered, That Mr. Boyd take the said Bill to the Council, and desire their concurrence thereto.

Mr. DesBrisay, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with an Address of the 21st day of March instant, praying that His Excellency would cause to be laid before the House—A detailed statement of the Crown Land Instalments, amounting to \$120,201 76-100ths, as shewn in the Financial Statement, as also other information relative to the Crown Land Department, reported—That they had attended thereto, and His Excellency was pleased to say—That he would comply with the wishes of the House.

On motion of Mr. Cudlip,

The House again went into Committee of the whole on—A Bill to amend Act 18 Victoria, Chapter 38, intituled “An Act to provide for an improved system of Sewerage and Water Supply of part of the City of Saint John, and Parish of Portland in the County of Saint John.”

Mr. Grimmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their further consideration, had made amendments thereto, and then agreed to the same, under the Title of—A Bill to authorize an Assessment in the City of Saint John for the repairs of Sewers.

Ordered, That the Report be accepted, and the Bill, as amended, engrossed under the amended Title.

On motion of Mr. Gillmor,

The House went into Committee of the whole on—A Bill to exempt Lumber manufactured on the Digdeguash River, in the County of Charlotte, from payment of Export Duty.

Mr. Williston in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill before them, the following Resolution was moved:—

“*Resolved*, That the further consideration of this Bill be postponed for three months.”

And upon the question for sustaining this Resolution, the Committee divided as follows:—

YEAS.

Hon. Mr. Speaker,	Mr. Skinner,
Hon. Mr. Tilley,	M ^c Phelim,
Hon. Mr. Smith,	Stiles,
Hon. Mr. Watters,	Montgomery,
Hon. Mr. Steadman,	DesBrisay,
Mr. Meahan,	Anglin,
Raymond,	Ryan,
Costigan,	Cudlip,
Young,	Jordan.

NAYS.

Hon. Mr. M ^c Millan,	Mr. Glasier,
Mr. Stevens,	W. J. Gilbert,
Vail,	Grimmer,
M ^c Clelan,	Gillmor,
Scovil,	Boyd.

Whereupon it was carried in the affirmative.

Ordered, That the Report be accepted, and the further consideration of the said Bill accordingly postponed.

On motion of Mr. W. J. Gilbert,

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to cause to be laid before this House—Copies of Tenders which were received by R.

C. Scovil, Esquire, Commissioner for the European and North American Railway, at Shediac, about the month of March or April 1861, for the covering of the Railroad Wharf at Point du Chene with three inch plank or deals, and for the repairing of the same;—also copy of a Contract with copy of Specification entered into at that time between said Commissioner and one William Stevens, for said covering or repairs;—also a Statement in detail shewing the sums expended therefor, with copies of all accounts, vouchers, and papers relating thereto.

Ordered, That Mr. W. J. Gilbert, Mr. Stevens, and Mr. DesBrisay, be a Committee to wait upon His Excellency with the Address.

On motion of Mr. Williston,

Resolved, That the various Documents relative to the claim of Alexander Fraser, for expenditures by him on the Ferry Slip at Newcastle, in the County of Northumberland, and which were laid before the House on the 18th day of March instant, be referred to a Select Committee to report thereon; and

Ordered, That Mr. Williston, Mr. Vail, and Mr. Gillmor, do compose the said Committee.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill to abolish the Fishery Draft on the Western side of the Harbour in the City of Saint John, and to make other provision for the disposal of the said Fisheries, and to apply the annual proceeds thereof towards the erection of a Public Hall in Carleton, and in payment of Interest on the Carleton Water Debentures.

Mr. McClelan in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made an amendment thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

Read a third time as engrossed,

A Bill to authorize an assessment in the City of Saint John for the repairs of Sewers.

Resolved, That the Bill do pass.

Ordered, That Mr. Cudlip take the said Bill to the Council, and desire their concurrence thereto.

Mr. Skinner moved for leave to bring in—A Bill for the alteration and amendment of the local government of the Parish of Portland, in the County of Saint John.

Leave granted.

The said Bill being brought in was read a first time.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to the following Bills, viz:—

The Bill to revive and make perpetual certain Acts of the Assembly for the better extinguishment of Fires which may happen in the City of Saint John:

The Bill to provide for payment for a Sewer laid down near the Hay Market Lot in the City of Saint John: and

The Bill to revive and make perpetual an Act intituled "An Act to extend the jurisdiction of the Corporation of the City of Saint John, for the regulation of Rates of Pilotage, beyond the limits now prescribed by Charter,"

Without making any amendments thereto.

On motion of Mr. Kerr,

The House again went into Committee of the whole on—A Bill relating to Railways.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill from time to time before them, the first Section thereof was under their consideration, and which is as followeth:—

"1. That the power to contract a Loan on the pledge of the Revenues of the Province, and to issue certificates of Debt or Debentures, authorized by the provisions of the Act made and passed in the nineteenth year of Her Majesty's Reign, intituled 'An Act to provide Funds for the construction of Railways,' shall be limited and restrained to the Contracts and Loans already made under the provisions of the said Act."

To which an amendment was first moved—To insert at the commencement of the Section after the word "That," the following words, "during the operation of this Act."

Upon the question for adopting the same, the Committee divided,—

YEAS 19.

NAYS 11.

Whereupon it was carried in the affirmative, and those words inserted.

That the following words were then moved to be added to the said Section, at the close thereof:—

"For that part of the European and North American Railway lying between Shediac and Saint John."

And upon the question for adopting this amendment, it was decided in the negative.

The question was then taken for adopting the Section under consideration, as amended, when the Committee divided as follows:—

YEAS.

NAYS.

Mr. Kerr,	Mr. Scovil,	Hon. Mr. Speaker,	Mr. Landry,
Williston,	Glasier,	Hon. Mr. Tilley,	Skinner,
Costigan,	Montgomery,	Hon. Mr. Smith,	Munro,
Young,	DesBrisay,	Hon. Mr. Watters,	Fisher,
M'Clelan,	Anglin,	Hon. Mr. M'Millan,	Ryan,
M'Phelim,	S. H. Gilbert,	Hon. Mr. Steadman,	Cudlip,
Stiles,	W. J. Gilbert,	Hon. Mr. Perley,	Jordan,
Allen,	Boyd.	Mr. Meahan,	Grimmer,
		Stevens,	Gillmor.
		Raymond,	

And this being decided in the negative; when

The following was moved—

"Resolved, That the further consideration of the said Bill be postponed for three months."

Upon this question, the Committee again divided as follows:—

YEAS.

Hon. Mr. Speaker,	Mr. Raymond,
Hon. Mr. Tilley,	Landry,
Hon. Mr. Smith,	Skinner,
Hon. Mr. Watters,	Munro,
Hon. Mr. M'Millan,	Ryan,
Hon. Mr. Steadman,	Cudlip,
Hon. Mr. Perley,	Jordan,
Mr. Meahan,	Gillmor.
Stevens,	

NAYS.

Mr. Kerr,	Mr. Glasier,
Williston,	Montgomery,
Costigan,	DesBrisay,
Young,	Anglin,
M'Clelan,	S. H. Gilbert,
M'Phelim,	W. J. Gilbert,
Stiles,	Fisher,
Allen,	Grimmer,
Scovil,	Boyd.

And so this was also decided in the negative.

That the Committee then made further progress in the Bill, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The Honorable Mr. Smith moved for leave to bring in—A Bill to amend an Act intituled “An Act to authorize the appointment of Commissioners in the United Kingdom and other parts of Her Majesty’s Dominions, and in the United States of America, to take Affidavits and acknowledgments of Deeds and other Instruments relating to matters in this Province.”

Leave granted.

The said Bill being brought in was read a first time.

Mr. Cudlip, Chairman of the Committee appointed to try the matters set forth in the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and others, against the election and return of William Lindsay, Esquire, as a Member for the County of Carleton, reports to the House—

“That the Committee met this day at nine o'clock, A. M., pursuant to their hour of adjournment; that they continued together for the space of one hour thereafter; that Timothy W. Anglin and Francis M'Phelim, Esquires, two Members of the said Committee being absent, they had adjourned over until the hour of half-past nine o'clock to-morrow morning; and he was directed to report the same to the House.”

The said Timothy W. Anglin and Francis M'Phelim, having assigned satisfactory reasons for being absent from the Committee at the time of their meeting; whereupon

Resolved, That they be excused for such non-attendance until the hour of half-past nine o'clock to-morrow morning, to which time the said Committee had adjourned.

The House adjourned until to-morrow morning at 10 o'clock.

Wednesday, 26th March, 1862.

Prayers.

Read a second time—

A Bill for the alteration and amendment of the local government of the Parish of Portland, in the County of Saint John: and

A Bill to amend an Act intituled “An Act to authorize the appointment of Commissioners in the United Kingdom and other parts of Her Majesty’s Dominions, and in the United States of America, to take Affidavits and acknowledgments of Deeds and other Instruments relating to matters in this Province.”

Read a third time as engrossed,

A Bill to abolish the Fishery Draft on the Western side of the Harbour in the City of Saint John, and to make other provision for the disposal of the

said Fisheries, and to apply the annual proceeds thereof towards the erection of a Public Hall in Carleton, and in payment of Interest on the Carleton Water Debentures

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Watters take the said Bill to the Council, and desire their concurrence thereto.

The Honorable Mr. Watters, by leave, presented a Petition from Samuel Strange, John C. Littlehale, and Samuel Clark, Esquires, together with Joseph Stackhouse, Barnabas Tilton, and 134 others, inhabitants of Carleton, in the City of Saint John, praying that a Bill before the House—To explain and amend an Act intituled “An Act to authorize the extension of King Street, in that part of the City of Saint John called Carleton,” may not become a Law; which he read.

Ordered, That the said Petition be received and lie on the Table.

The Honorable Mr. Watters, from the Select Committee appointed on the 5th day of March instant, to examine into the provisions of a Bill before the House, relating to the draining of German Town Lake, submitted their Report; and he having read the same, it was handed in at the Clerk’s Table, where it was again read, and is as follows:—

“The Committee to whom was referred ‘A Bill in amendment of the Law relating to the draining of German Town Lake, in the County of Albert;’ also the Petition of Elisha P. Turner; and the Petition of E. P. Turner, John W. H. Turner, Samuel L. Calhoun, and others, presented to this House the 13th day of March instant, against the passing of the said Bill, beg leave to report:—

“That they have duly considered the said Bill and Petitions, and have also heard one of the Petitioners, Elisha P. Turner, in opposition to the said Bill, and would recommend that the said Bill now before the House do pass, with an additional clause providing that the power and authority of the Commissioners to take additional land under the said Bill, for the purpose of the said Canal, shall not extend to any portion of the land lying to the west of the prolongation of the easterly side line of the lands of Edward Godfrey.

CHARLES WATTERS,
A. H. GILLMOR, Jr.
ROBERT YOUNG.

Committee Room, 26th March 1862.”

Ordered, That the Report be accepted.

Mr. S. H. Gilbert, by leave, presented a Petition from Lewis M’Donald, and Benjamin H. Boall, Esquires, together with forty two others, Freeholders and Inhabitants of Queen’s County, praying that the time for holding the Circuit Court in and for the said County, may not be changed; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of the Honorable Mr. Watters,

The House again went into Committee of the whole on—A Bill in amendment of and in addition to certain Chapters of Title viii, of the Revised Statutes, “Of the local government of Counties, Towns, and Parishes.”

Mr. S. H. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The Honorable Mr. Watters moved for leave to bring in—A Bill to incorporate the Union Iron Works Company.

Leave granted.

The said Bill being brought in was read a first time.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to—

The Bill to authorize the Trustees of Saint Andrews Church, Chatham, in connexion with the Church of Scotland, to sell and dispose of certain Real Estate in the County of Northumberland, devised in Trust by the last Will of William Kirkpatrick, deceased, and to reinvest the proceeds for the purposes in such Will mentioned: and

The Bill to authorize the Justices of the Peace for the County of Northumberland to make rules and regulations for the protection and management of Booms for Lumber,

Without making any amendments thereto.

And he further informed the House, that the Council had passed—

A Bill intituled “An Act in amendment of an Act intituled ‘An Act for the incorporation of the Saint John Rural Cemetery Company;’”

To which they request the concurrence of the Assembly.

The Bill sent down from the Legislative Council was then read a first time.

Mr. Stevens, by leave, presented a Petition from the New Brunswick and Canada Railway and Land Company, praying to be relieved from the operation of the Act imposing a Tax on unimproved granted Lands; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Stevens moved for leave to bring in—A Bill to repeal Act 24th Victoria, Chapter 19, imposing a Tax on unimproved granted Lands.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Stevens also moved for leave to bring—A Bill relating to certain exemptions from Duty.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Costigan, from the Committee appointed on the 24th day of March instant, to examine into the various Documents in reference to the claim of Robert Caldwell, for teaching a Superior School at Grand Falls, in the County of Victoria, submitted their Report; and he having read the same, it was handed in at the Clerk's Table, and there again read, and is as follows:—

“The Committee to whom were referred the adverse claims of Robert Caldwell and Owen McLauchlan, beg leave to report:—

“That the regulations made under the School Law, requiring a Certificate from the Inspector of Schools before a Teacher is entitled to the grant for

having taught a Superior School, not having been complied with, we cannot consistently recommend the allowance to either party, but consider if such Certificate was obtained, that the claim of Mr. Robert Caldwell has the preference, and suggest that, as Mr. Robert Caldwell did actually perform the requisite labour as a Teacher of a Superior School, with the consent of the Trustees, his claim should be favourably considered.

“ Respectfully submitted.

JOHN COSTIGAN,
JAS. G. STEVENS,
A. H. GILLMOR, JR.

Committee Room, March 26, 1862.”

Ordered, That the Report be accepted.

On motion of the Honorable Mr. Tilley,
That the House do now go into Committee of the whole on—A Bill in addition to and in amendment of the Acts imposing Duties for raising a Revenue.

To which Mr. Fisher moved as an amendment the following Resolution :—

“ *Resolved,* That the further consideration of this Bill be postponed for — days, and if in the meantime it appears that the necessity for imposing additional Taxes cannot be avoided by a reduction of the Estimate or greater economy in the expenditure of some branch of the Public Service, such new Taxes should be levied upon articles either of luxury or which are only partially taxed, rather than Sugar and Molasses, articles which so largely enter into the consumption of all classes, and affect all the industrial interests of the Country.”

And the original motion, as well as the Resolution moved in amendment thereto, being discussed,—

Ordered, That the Debate thereon be adjourned over, and that the House do resume the same at the hour of 12 o'clock, to-morrow.

On motion of Mr. Skinner,

The House again went into Committee of the whole on—A Bill in addition to and in amendment of an Act intituled “An Act to amend an Act intituled ‘An Act to authorize that part of the City of Saint John called Carleton to obtain Water from Spruce and other Lakes, and the Mayor, Aldermen and Commonalty of the said City to issue Scrip to defray the expenses of so doing.’”

Mr. Williston in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their further consideration, had agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

The Honorable Mr. Tilley, a Member of Her Majesty’s Executive Council, laid before the House, in pursuance of a notice of motion for an Address—

Copy of a Petition from the Newcastle Gas Company, praying for a return of the Duties paid on their Machinery imported from Great Britain.

On motion of Mr. Allen,

The House went into Committee of the whole on—A Bill in further amendment of the Law.

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The Honorable Mr. M'Millan, by leave, presented a Petition from the Reverend Thomas Nicholson, the Reverend William Murray, the Reverend P. J. Souscier, and the Reverend Alexander Farquharson, together with George Gordon, Patrick Doyle, John Cook, John L. Barberie, and Hugh Montgomery, Esquires, and one hundred and fifty seven others, Clegynien, Magistrates, and other Inhabitants of the County of Restigouche, praying that Section 10, Chapter 101, Title xxii, of the Revised Statutes, "Of the Sea and River Fisheries," may be so altered or amended with regard to the taking of Salmon and Herrings, as will prevent the desecration of the Sabbath Day; which he read.

Ordered, That the said Petition be received and referred to the Committee on Fisheries to report thereon.

The House adjourned until to-morrow morning at 10 o'clock.

Thursday, 27th March, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill to incorporate the Union Iron Works Company:

A Bill to repeal Act 24th Victoria, Chapter 19, imposing a Tax on unimproved granted Lands: and

A Bill relating to certain Exemptions from Duty: also

A Bill sent down from the Legislative Council intituled "An Act in amendment of an Act intituled 'An Act for the incorporation of the Saint John Rural Cemetery Company.'"

Read a third time as engrossed,

A Bill in addition to and in amendment of an Act intituled "An Act to amend an Act intituled 'An Act to authorize that part of the City of Saint John called Carleton, to obtain Water from Spruce and other Lakes, and the Mayor, Aldermen and Commonalty of the said City to issue Scrip to defray the expenses of so doing.'"

Resolved, That the Bill do pass.

Ordered. That Mr. Skinner take the said Bill to the Council, and desire their concurrence thereto.

On motion of Mr. Cudlip,

The House went into Committee of the whole on—A Bill to authorize the Rector, Church Wardens and Vestry of Trinity Church, in the Parish of Saint John, in the City of Saint John, to sell part of their Real Estate in the City and County of Saint John.

Mr. M'Clelan in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, the following Resolution was moved:—

"*Resolved,* That the further consideration of this Bill be postponed for three months."

And upon the question for adopting the same, it was carried in the affirmative.

Ordered, That the Report be accepted and the further consideration of the said Bill accordingly postponed.

Mr. M'Phelim, by leave, presented a Petition from Elisha P. Turner, of the Parish of Harvey, in the County of Albert, owner of land at German Town Lake, praying that a Bill before the House—To explain and amend Chapter 67 of the Revised Statutes "Of Sewers"—may not pass into a Law, without a clause being inserted excluding the Lake District from its operation; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. M. Clelan,

The House went into Committee of the whole on—A Bill in amendment of the Law relating to the Draining of German Town Lake, in the County of Albert.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. M'Phelim,

Whereas it appears on page 35 of the Annual Report of the Post Office Department, laid before the Legislature at the present Session by command of His Excellency the Lieutenant Governor, that the sum of sixty five pounds, (or two hundred and sixty five dollars,) has been by that Department "reimbursed to Elijah Clarke, Esquire, of Fredericton, for money lost in a Letter in 1856;"

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency may be pleased to cause to be laid before this House, all Documents, Correspondence, Minutes of Council, and paper writings in any way connected with the above alleged loss and payment.

Ordered, That Mr. M'Phelim, Mr. Allen, and Mr. S. H. Gilbert, be a Committee to wait upon His Excellency with the Address.

On motion of Mr. Stevens,

The House went into Committee of the whole on—A Bill to incorporate the Congregational Union of Nova Scotia and New Brunswick.

Mr. W. J. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Lindsay,

The House went into Committee of the whole on—A Bill to amend Chapter 45, Title vi, of the Revised Statutes, "Of Municipalities," as relates to the Council and its Officers.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

The Honorable Mr. McMillan, by leave, presented a Petition from Chipman Botsford and Charles Murray, Esquires, together with William Mott, John McBeath, Neil McLeod, A. McKendrick, Peter Adams, David Ritchie, Alexander R. Chamberlain, Daniel O'Keffe, James S. Morse, Peter Adams, and forty others, inhabitants of the County of Restigouche, praying that Section 10, Chapter 101, Title xxii, of the Revised Statutes, "Of the Sea and River Fisheries," may be so amended as regards the taking of Salmon and Herrings, so as to prevent the desecration of the Sabbath Day; which he read.

Ordered, That the said Petition be received and referred to the Committee on Fisheries to report thereon.

On motion of Mr. Young,

The House went into Committee of the whole on—A Bill in addition to Chapter 101 of the Revised Statutes, "Of the Sea and River Fisheries."

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made amendments thereto, and then agreed to the same, under the Title of—

A Bill in addition to Chapter 101, Title xxii, of the Revised Statutes, "Of the Sea and River Fisheries."

Ordered, That the Report be accepted, and the Bill, as amended, engrossed under the amended Title.

On motion of the Honorable Mr. Smith,

The House again went into Committee of the whole on—A Bill relating to Banks.

Mr. S. H. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. McClellan,

The House went into Committee of the whole on the following Resolution:—

"Whereas it is expedient and necessary that an adequate supply of the Provincial Statutes be published for the use of the Public; therefore

Resolved, That in the opinion of this Committee, it is desirable that — copies of the Laws enacted since the preparation of the Revised Statutes be printed to meet Public requirement by sale or otherwise."

The Honorable Mr. Watters in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had proceeded in the consideration of the Resolution submitted to them, and made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. Skinner, by leave, presented a Petition from the Justices of the Peace for the City and County of Saint John, against the passing of a Bill before the House for a division of the Parish of Lancaster; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Stevens,

The House again went into Committee of the whole on—A Bill for the consolidation of the Laws relating to Highways.

Mr. Scovil in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Williston,

Resolved, That the Petition from the Newcastle Gas Company, praying for a return of Duties paid on Machinery imported from Great Britain, and which was laid before the House yesterday, be referred to the Committee on Trade to report thereon.

A Message from His Excellency the Lieutenant Governor.

The Honorable Mr. Smith, a Member of Her Majesty's Executive Council, by command of His Excellency, delivered the following Message:—

“ New Brunswick.

“ Message to the House of Assembly, March 27th, 1862.

“ ARTHUR H. GORDON.

“ His Excellency the Lieutenant Governor, in compliance with the Address of the House of Assembly of the 3rd instant, lays before the House, Copies of the following Documents, viz:—

1. Minute of Executive Council in Committee, dated 17th January, 1862:
2. Order addressed to Provincial Secretary, dated 17th January, 1862:
3. Despatch from Lieutenant Governor to Duke of Newcastle, dated 20th January, 1862, (with two Enclosures:)
4. Minute for the Executive Council, dated 20th January, 1862:
5. Letter from Honorable E. B. Chandler to the Lieutenant Governor, dated 28th January, 1862:
6. Letter from the Lieutenant Governor to Honorable E. B. Chandler, dated 4th February, 1862:
7. Despatch from the Duke of Newcastle to the Lieutenant Governor, dated 22nd February, 1862:
8. Minute of Executive Council in Committee, dated 13th March, 1862:
9. Minute for Executive Council, dated March 15th, 1862:
10. Minute of Executive Council in Committee, dated March 25th, 1862:
11. Minute of Lieutenant Governor for Executive Council, dated March 26th, 1862.

A. H. G.

The Documents communicated by this Message were read at the Clerk's Table, and are as follow:—

Removal of Honorable E. B. Chandler from Office of Clerk of Peace.

No. 1.

Minute of Executive Council in Committee.

To His Excellency the Honorable Arthur H. Gordon, Lieutenant Governor and Commander in Chief for the Province of New Brunswick. &c. &c. &c.

We advise Your Excellency to remove the Honorable Edward B. Chandler from the offices of Clerk of the Peace and Clerk of the Inferior Court of Common Pleas for the County of Westmorland, and appoint Charles E. Knapp to the said offices.

We also advise Your Excellency to remove the said Edward B. Chandler from the office of Issuer of Marriage Licences for the said County, and appoint Daniel L. Hanington to the said office.

JAS. STEADMAN,
W. E. PERLEY,
W. H. STEEVES,

A. J. SMITH,
CHARLES WATERS,
P. MITCHELL,
JOHN M' MILLAN.

17th January 1862.

No. 2.

Order addressed to Provincial Secretary.

17th January, 1862.

MR. SECRETARY,—Appoint Mr. Charles E. Knapp to the offices of Clerk of the Peace and Clerk of the Inferior Court of Common Pleas, for the County of Westmorland, in place of the Honorable Edward B. Chandler.

Also appoint Mr. Daniel L. Hanington to the office of Issuer of Marriage Licences for the said County, in place of the Honorable Edward B. Chandler.

(Signed)

ARTHUR H. GORDON.

The Honorable the Provincial Secretary.

No. 3.

Despatch from Lieutenant Governor to Duke of Newcastle.

Government House, Fredericton, 20th January, 1862.

MY LORD DUKE,—I have the honor to enclose for Your Grace's information, the copy of a Memorandum of my Executive Council, recommending the removal of the Honorable E. B. Chandler from certain offices held by him, together with a copy of the answer which I propose to return to that Memorandum.

I have, &c. &c.

(Signed)

ARTHUR H. GORDON.

His Grace the Duke of Newcastle, K. G., &c. &c. &c. &c.

[Enclosure No. 1.]

Minute of Executive Council in Committee—dated 17th January, 1862.

(See above, No. 1.)

[Enclosure No. 2.]

The Lieutenant Governor has received a Memorandum from his Executive Council in Committee, recommending him to remove the Honorable E. B. Chandler from the offices of Clerk of the Peace, Clerk of the Inferior Court of Common Pleas, and Issuer of Marriage Licences, for the County of Westmorland.

The Lieutenant Governor does not hesitate, at once, to act upon the recommendation of his responsible advisers, and has accordingly directed the removal of the Honorable E. B. Chandler from the above mentioned offices. His Excellency however, observes, that no reasons are assigned for this recommendation, and in complying with the advice of his Council, desires to express his opinion, that when the removal of any person from an office,

the duties of which are not of a political nature, is recommended, the grounds upon which such advice is tendered should be stated to His Excellency.

The Lieutenant Governor takes the opportunity of expressing his own deep conviction of the impropriety and impolicy of removing any person filling such offices, especially those connected with the administration of the Law, except for incompetency or misconduct in the discharge of his official duties.

No. 4.

Minute for the Executive Council, dated 20th January, 1862.

(See Enclosure No. 2, in Copy of preceding Despatch.)

No. 5.

Letter from Honorable E. B. Chandler to Lieutenant Governor.

Dorchester, 28th January, 1862.

MAY IT PLEASE YOUR EXCELLENCY,

Observing by the last Gazette that I have been superseded in the office of Clerk of the Peace and Inferior Court of Common Pleas for the County of Westmorland, and not being aware of any charge or complaint against me of official misconduct, or that the duties of the office have not been efficiently performed during the long period I have held the office, I have to ask that Your Excellency will be pleased to have me informed of the grounds or reasons of my removal.

I have the honor to be

Your Excellency's most obedient servant,

ED. B. CHANDLER.

His Excellency The Hon. Arthur H. Gordon, &c. &c. &c.

No. 6.

Letter from the Lieutenant Governor to Honorable E. B. Chandler.

Government House, Fredericton, 4th February, 1862.

SIR,—I have to acknowledge the receipt of your letter of the 28th ultimo.

In reply to your request to be informed of the grounds or reasons for your removal from the offices lately, and for a long time past held by you, I have to state that I directed your removal from those offices in consequence of the recommendation of my Executive Council that I should do so.

Whatever may be my personal opinion as to the justice or expediency of removing persons from offices, the duties of which are not of a political nature, except for incompetence or misconduct in the discharge of their functions, I conceive that in matters of so purely local a nature, the Lieutenant Governor would scarcely be justified, except in cases of a very exceptional character, in disregarding the recommendations of his responsible advisers.

I have, &c.

(Signed)

ARTHUR H. GORDON.

The Honorable E. B. Chandler.

No. 7.

Despatch from the Duke of Newcastle to the Lieutenant Governor.

Downing Street, 22nd February, 1862.

SIR,—I have received your Despatch of the 20th January, accompanied by a copy of a Memorandum of your Executive Council, recommending the removal of the Honorable E. B. Chandler, and by a copy of the answer which you propose to return to that Document.

As the question is one of internal administration, on which you have made up your mind to accede to the advice of your Ministers, I do not view it as a subject for positive instructions. I cannot however, but express my cordial concurrence in the principle you have laid down in your Minute, that in the case of offices not of a political nature, it is highly inexpedient and improper to remove their holders except for incompetency or misconduct.

Should removals from such offices be made from political motives, the obvious consequence would be that opposite political parties, on succeeding to power, would retaliate, so as to produce a repetition of vindictive and extensive changes amongst the holders of government offices, and thus to prevent the growth of experience and destroy the efficiency of public administration.

This is an evil which is so notorious in a neighbouring country that it may serve as a warning to the public men of the British Provinces of North America, where happily greater moderation has prevailed in political affairs, and a greater stability in the machinery of Government.

I have the honor to be, Sir,

Your obedient servant,

(Signed)

NEWCASTLE

Lieutenant Governor Honorable Arthur H. Gordon, &c. &c.

No. 8.

Minute of Executive Council in Committee.

To His Excellency The Honorable Arthur Hamilton Gordon, C. M. G., Lieutenant Governor and Commander in Chief of the Province of New Brunswick, &c. &c. &c.

The Committee of Council have had under consideration the Despatch of His Grace the Duke of Newcastle, dated the 22nd February last, relative to the removal of the Honorable E. B. Chandler from certain offices, as also Your Excellency's Memorandum upon the same subject, and in reply thereto beg respectfully to say, that they do not assent to the proposition therein stated, viz:—"That persons holding offices not of a political nature, should not be removed, except for incompetency or misconduct."

The Council do not hesitate to express their conviction, that frequent changes of such offices are not desirable; they are nevertheless of opinion, that the incumbent of such offices should not take an active part in political contests: If they do, and become political partizans, they should be prepared to take the consequences reasonably resulting from such a course, viz. removal from office.

The question involved is one of local administration, and falls within the principles of responsible and self government now fully recognized and understood, and for the administration of which, the Executive Council are alone responsible to the Legislature and the people of this Province.

(Signed)

S. L. TILLEY,

JOHN M'MILLAN,

A. J. SMITH,

WILLIAM E. PERLEY,

JAS. STEADMAN,

W. H. STEEVES,

P. MITCHELL,

CHARLES WATTERS.

Council Chamber, 13th March, 1862.

No. 9.

Minute of the Lieutenant Governor to the Executive Council in Committee.

His Excellency the Lieutenant Governor has received the Minute of the Executive Council in Committee of this day's date, and regrets to perceive that they do not concur in the opinions expressed by His Grace the Duke of Newcastle and by the Lieutenant Governor on the subject of removals from non-political offices,—opinions which are universally accepted and acted upon in Great Britain.

The Lieutenant Governor agrees with his Council in considering that political partizanship may be carried to such an extent as to merit dismissal, but in such a case His Excellency conceives the offending party may fairly be deemed guilty of official misconduct.

The question of principle involved is, in His Excellency's opinion, not one of solely local interest, for it cannot be a matter of entire indifference to the Mother Country whether her Colonies adopt principles of Government which her wisest Statesmen have condemned, and the fatal effects of which have recently been so forcibly evidenced, or retain those juster maxims of policy which have exercised so beneficial an influence over the conduct of public affairs in England.

At the same time, whilst His Excellency conceives that the principles of action by which the local Government is regulated, are matter of interest beyond the bounds of the Colony

itself, it is for the Legislature and people of the Province to determine whether they will accept or reject the warnings offered by history and experience, and the Lieutenant Governor has no thought or desire of opposing their deliberate wish in matters of local administration, even when he questions the expediency of their decision.

His Excellency is not about to enter into a discussion of the principles of what is termed Responsible Government. He has already recorded his opinion that, except in cases of a very exceptional nature, he would not be justified in disregarding the advice of his Executive Council, and he believes it will be found that his interpretation of the term referred to, is one as broad and liberal as has ever yet been accepted by authority; but the concluding paragraph of the Minute now before him compels him to remark that, although it is perfectly true that his Executive Council are responsible to the Legislature and people of this Province, for the acts performed by him in accordance with their advice, they do not share and cannot diminish his own personal responsibility to the Sovereign and Her Majesty's Government.

(Signed)

ARTHUR H. GORDON.

March 15, 1862.

No. 10.

Minute of the Executive Council in Committee.

To His Excellency the Honorable Arthur Hamilton Gordon, C. M. G., Lieutenant Governor and Commander in Chief of the Province of New Brunswick, &c. &c. &c.

The Committee of the Executive Council beg to acknowledge the receipt of Your Excellency's Memorandum of the 15th inst.

The Council desire again to express their opinion, that active interference in politics, of non-political office-holders, will in all cases justify dismissal from office; they have no wish, however, to discuss the question, as to whether such interference constitutes official misconduct or not.

The removal from office which has led to this lengthy correspondence is, in the opinion of the Council, a matter of purely internal administration, in which they are constitutionally responsible to the Legislature and people of this Province only.

The Council beg to remind Your Excellency of the views stated by them in their former Memorandum upon this subject in regard to official changes, and to express their opinion that those views are not at variance with the principles entertained and promulgated by many of the leading Statesmen of England.

While the Council are at all times willing to regard with great respect the opinions of the Statesmen of the Mother Country, and while they hope that the principles of government found so salutary there will influence the conduct of the Government here, they are nevertheless unwilling to surrender rights and privileges which appertain to the people of this Province, under the system of government recognized and acted upon for many years past.

The Mother Country doubtless feels an interest in the successful administration of the Government of this Province, as she does in that of all her Colonies; this fact, however, in no way diminishes or impairs the right of local self government.

JOHN M'ILLAN.

March 25, 1862.

No. 11.

Minute of the Lieut. Governor for the Executive Council in Committee.

The Lieutenant Governor has received the Minute of the Executive Council in Committee of yesterday's date.

Although His Excellency regrets that any difference of opinion should exist between himself and his Council on the subject to which that Minute refers, he is glad to believe that the difference is not of such a character as to lead to any practical divergence of action.

The Lieutenant Governor has already recorded his opinion that the removal which has caused the present discussion was a matter of local administration, and that it is only in very exceptional cases that he would be justified in disregarding the recommendation of his responsible advisers on such subjects.

(Signed)

ARTHUR H. GORDON.

March 26, 1862.

On motion of Mr. Lindsay,

The House went into Committee of the whole on—A Bill relating to the sale of certain Reserved Lands in the Parish of Simonds, in the County of Carleton.

Mr. Skinner in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The House adjourned until to-morrow morning at 10 o'clock.

Friday, 28th March, 1862.

Prayers.

Read a third time as engrossed,

A Bill to incorporate the Congregational Union of Nova Scotia and New Brunswick.

Resolved, That the Bill do pass.

Ordered, That Mr. Stevens take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill in addition to Chapter 101, Title xxii, of the Revised Statutes, "Of the Sea and River Fisheries."

Resolved, That the Bill do pass.

Ordered, That Mr. Young take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to amend Chapter 45, Title vi, of the Revised Statutes, "Of Municipalities," as relates to the Council and its Officers.

Resolved, That the Bill do pass.

Ordered, That Mr. Lindsay take the said Bill to the Council, and desire their concurrence thereto.

The Honorable Mr. Watters, by leave, presented a Petition from Thomas M'Avity, Mayor of the City of Saint John, together with Messieurs Fraser and Ray, S. K. Foster, Thomas M. Reed, Henry M'Cullough, J. Armstrong and Company, and two hundred and ten others, Freemen of the said City, praying that such additional Duties may be imposed upon ready made Clothing as will tend to prevent the importation of such Goods; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Costigan,

The House went into Committee of the whole on—The Report from the Select Committee, in reference to the claim of Robert Caldwell for teaching a Superior School at Grand Falls, in the County of Victoria.

Mr. S. H. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the matter referred to them under their consideration, the following Resolution was moved:—

“Resolved, As the opinion of this Committee, that the Report of the Select Committee on the claim of Robert Caldwell, submitted to the House on the 26th day of March instant, should be adopted; and that in the opinion of this Committee an humble Address should be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to give effect to the said Report and the recommendations therein set forth.”

Upon the question for sustaining the same, the Committee divided as follows:—

YEAS.

Mr. Meahan, Stevens, Vail, Raymond, Costigan, Landry,	Mr. Stiles, Dr. Dow, Munro, W. J. Gilbert, Boyd.
--	--

NAYS.

Hon. Mr. Speaker, Hon. Mr. Steadman, Hon. Mr. Perley, Mr. Kerr, Crocker,	Mr. Farris, Montgomery, Ryan, Jordan.
--	--

And it was thereupon carried in the affirmative.

Ordered, That the Report be accepted.

On motion of Mr. Stevens,

The House went into Committee of the whole on—A Bill to repeal Act 24th Victoria, Chapter 19, imposing a Tax on uninproved granted Lands.

The Honorable Mr. Watters in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to—

The Bill for the encouragement of Agriculture: and

The Bill to incorporate the North West Boom Company;

Without making any amendments thereto.

And that the Council had also agreed to—

The Bill to divide the Parish of Shediac, in the County of Westmorland, and to erect a separate Parish for Ecclesiastical purposes,

With an amendment, to which they desire the concurrence of the Assembly.

The amendment made by the Council to this Bill was then read a first and second times, and is as followeth:—

At A in Section 4, expunge the words “as by Law established.”

Ordered, That this Bill, as amended by the Legislative Council, stand for a third reading to-morrow.

On motion of Mr. W. J. Gilbert,

The House went into Committee of the whole on—A Petition from Edward Cogswell, laid before the House on the 11th day of March instant,

praying to be reimbursed an amount lost by reason of the loss of a letter containing money, mailed at the Post Office in Sackville in 1861.

Mr. Young in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the matter referred to them under their consideration, the following Resolution was moved:—

“*Resolved*, As the opinion of this Committee, that an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency may be pleased to direct that the sum of — be paid to Edward Cogswell, of Sackville, in the County of Westmorland, to reimburse him that amount, by the loss of a letter containing money mailed at the Post Office in Sackville on the 8th day of January 1861, and duly registered.”

And upon the question for sustaining the said Resolution, the Committee divided as follows:—

YEAS.

Mr. Meahan,	Mr. Scovil,
Williston,	Glazier,
Costigan,	Munro,
M'Phelim,	W. J. Gilbert,
Stiles,	Boyd.

NAYS.

Hon. Mr. Speaker,	Mr. Crocker,
Hon. Mr. Smith,	Farris,
Hon. Mr. Watters,	Montgomery,
Hon. Mr. Steadman,	Dr. Dow,
Hon. Mr. Perley,	Fisher,
Mr. Kerr,	Ryan,
Raymond,	Jordan,
Landry,	Gillmor.
Skinner,	

Whereupon it was decided in the negative.

On motion of Mr. Fisher,

The House again went into Committee of the whole on—A Bill relating to Corporations.

Mr. Stevens in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. Skinner, Chairman of the Committee on Trade, brought under the notice of the House, the subject of the charges for Pilotage on Coasting Vessels owned in this Province, and trading at the Canadian Ports, with a view to their amelioration; and by direction of the Committee, laid on the Table a Resolution for an Address to His Excellency the Lieutenant Governor upon the subject, and gave notice that he should move the House thereon on Monday next.

On motion of Mr. Cudlip,

The House went into Committee of the whole on—A Bill to repeal part of Chapter 163 of the Revised Statutes, “Of Fees,” so far as the same relates to Fees on Patents, and to make other provisions in lieu thereof.

Mr. Williston in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

On motion of the Honorable Mr. Smith,

The House went into Committee of the whole on—A Bill to amend an Act intituled “An Act to authorize the appointment of Commissioners in the United Kingdom and other parts of Her Majesty’s Dominions, and in the United States of America, to take Affidavits and acknowledgments of Deeds and other Instruments relating to matters in this Province.”

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. W. J. Gilbert, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with an Address of the 25th day of March instant, praying that His Excellency would direct to be laid before the House, certain information relative to the deal or plank covering of the Railway Wharf at Point du Chene, reported—That they had attended thereto, and His Excellency was pleased to say—That the wishes of the House should be complied with.

Mr. Allen moved for leave to bring in—A Bill relating to the levying, assessing and collecting of Rates in the City of Fredericton.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Allen also moved for leave to bring in—A Bill in addition to and in amendment of an Act to incorporate the City of Fredericton.

Leave granted.

The said Bill being brought in was read a first time.

The House adjourned until to-morrow morning at 10 o’clock.

Saturday, 29th March, 1862.

Prayers.

Read a second time—

A Bill relating to the levying, assessing and collecting of Rates in the City of Fredericton: and

A Bill in addition to and in amendment of an Act to incorporate the City of Fredericton.

Read a third time as engrossed,

A Bill to repeal part of Chapter 163 of the Revised Statutes, “Of Fees,” so far as the same relates to Fees on Patents, and to make other provisions in lieu thereof.

Resolved, That the Bill do pass.

Ordered, That Mr. Cudlip take the said Bill to the Council, and desire their concurrence thereto.

According to the Order of yesterday, the amendment made by the Legislative Council to—The Bill to divide the Parish of Shediac, in the County of Westmorland, and to erect a separate Parish for Ecclesiastical purposes—was read a third time.

Resolved, That the House do concur therein.

Ordered, That the Honorable Mr. Steadman return the Bill, with the amendment, to the Council, and acquaint them therewith.

The Honorable Mr. Perley moved for leave to bring in—A Bill to establish the Road leading from the Geary Settlement, in the County of Sunbury, to the Saint Stephen and Fredericton Road, as one of the Great Roads of communication in this Province.

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Speaker informed the House, that George Stickney was in attendance, in pursuance of his, Mr. Speaker's Order, of the 25th day of March instant.

Ordered, thereupon, That the said George Stickney do appear at the Bar; when

Mr. Speaker stated to him, that the Order had issued for his attendance, by reason of its being reported to the House by the Chairman of the Committee to try the matters set forth in a Petition of Peter R. M-Monagle and others, against the election and return of William Lindsay, Esquire, as a Member of this House; that he, the said George Stickney, had been duly summoned to attend before the Committee as a Witness, and when called before the said Committee to give his evidence, he did not appear, but made default; whereupon the said George Stickney admitted that he had been duly summoned to appear before the said Election Committee as stated, and that he was in attendance before them on the day required by the said Summons; that the said Summons did not require him to be in attendance from day to day, still he was in attendance before the Committee for several days, but not being called to give his evidence, he was, for reasons which he assigned to the House, obliged to return home to his family in the Parish of Brighton, in the County of Carleton; whereupon

On motion of the Honorable Mr. Smith,

Whereas Mr. Stickney has, at the Bar of this House, made it appear that the Summons requiring his attendance before the Committee, only required him to attend one particular day, and not from day to day; and it appearing that he attended according to the exigency of the said Summons; therefore

Resolved, That his explanation is satisfactory to this House.

On motion of the Honorable Mr. Watters,

The House again went into Committee of the whole on—A Bill in amendment of and in addition to certain Chapters of Title viii, of the Revised Statutes, "Of the Local Government of Counties, Towns, and Parishes."

Mr. W. J. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their further consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

On motion of Mr. Stevens,

The House again went into Committee of the whole on—A Bill for the consolidation of the Laws relating to Highways.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. Skinner, by leave, presented a Petition from Thomas Hilyard, Francis Ruddock, James Travis, James Flewelling, Moses Tuck, and Hugh Sharkey, Esquires, together with Alexander Rankin, John Coleman, and one hundred and forty others, inhabitants of the Parish of Portland, in the County of Saint John, praying that a Bill before the House for the alteration and amendment of the local government of the said Parish, may become a Law; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill relating to the Militia.

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. M'Clelan,

The House went into Committee of the whole on—A Bill to incorporate the Caledonia Coal and Mining Company.

Mr. Skinner in the Chair of the Committee.

Mr. Speaker resumed the Chair; when

A Message was received from His Excellency the Lieutenant Governor, by the Gentleman Usher of the Black Rod, requiring the immediate attendance of the House in the Council Chamber.

The House attended, and being returned—

The Honorable Mr. Speaker informed the House, that in pursuance of His Excellency's pleasure, signified by the Gentleman Usher of the Black Rod, the House attended His Excellency in the Council Chamber, when he addressed His Excellency as followeth:—

" May it please Your Excellency,

" The House of Assembly, proceeding with the business of the country, have, among other measures, passed

" A Bill to revive and continue an Act intituled ' An Act to provide for the expenses of the Legislature ;'

" Which Bill, in the name and on behalf of the Loyal Commons of New Brunswick, I now present to Your Excellency, and request Your Excellency's assent thereto."

That His Excellency was then pleased to give his assent to the Bill thus presented by the Assembly, as also to the following, intituled—

An Act to continue Chapters 26, 27, 28, and 29, Title iii, of the Revised Statutes, " Of the Public Revenue :"

An Act to provide for payment of the expenses incurred by the Corporation of the City of Saint John in providing shelter for the Troops, and for the repairing the City Court Room :

An Act to authorize an assessment in the City of Saint John to meet the expenses incurred by the Corporation for the Prince of Wales' Celebration :

An Act to revive and make perpetual certain Acts of the Assembly for the better extinguishment of Fires which may happen in the City of Saint John :

An Act to provide for the payment for a Sewer laid down near the Hay Market Lot in the City of Saint John :

An Act to revive and make perpetual an Act intituled " An Act to extend the jurisdiction of the Corporation of the City of Saint John, for the regulation of Rates of Pilotage, beyond the limits now prescribed by Charter : " and

An Act to divide the Parish of Shediac, in the County of Westmorland, and to erect a separate Parish for Ecclesiastical purposes.

The House then again went into Committee of the whole and resumed the consideration of—A Bill to incorporate the Caledonia Coal and Mining Company.

Mr. Skinner in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. M'Phelim, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with an Address of the 27th day of March instant, praying that His Excellency would cause to be laid before the House—Copies of all Documents, Correspondence, Minutes of Council, and paper writings relating to the payment of the sum of £65 to Elijah Clark, of Fredericton, to reimburse him money lost in a Letter forwarded through the Post Office, reported—That they had attended thereto, and His Excellency was pleased to say—That the wishes of the House should be complied with.

Mr. Costigan, from the Select Committee appointed on the 6th day of March instant, to examine into a Bill before the House making other provisions for the preservation of Moose, submitted their Report; and he having read the same, it was handed in at the Clerk's Table, where it was again read, and is as follows :—

" The Committee to whom was referred the ' Bill to repeal all the Acts now in force for the preservation of Moose, and to make other provisions in lieu thereof, ' report—That they have attended to that duty, and recommend the Bill with certain amendments.

Respectfully submitted.

Committee Room, 27th March 1862."

JOHN COSTIGAN, }
ROBINSON CROCKER, } *Committee.*

Ordered, That the Report be accepted.

On motion of Mr. Stevens,

The House went into Committee of the whole on—A Bill to prevent the spread of disease among Neat Cattle and Horses.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of the Honorable Mr. Smith,

The House again went into Committee of the whole on—A Bill to amend an Act intituled “An Act to authorize the appointment of Commissioners in the United Kingdom and other parts of Her Majesty’s Dominions, and in the United States of America, to take Affidavits and acknowledgments of Deeds and other Instruments relating to matters in this Province.”

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to—

The Bill in amendment of the Law relating to Judgments, Executions, and proceedings thereon,

Without making any amendment thereto.

And that the Council had also agreed to—

The Bill to incorporate the Cain’s River Boom Company,

With certain amendments, to which they desire the concurrence of the Assembly.

The amendments made by the Council to this Bill were then severally read a first and second times, and are as follow :—

At A, Section 5, expunge the word “open.”

At B, Section 6, expunge the following words—“one penny per ton for each and every ton of square or sided timber or other lumber, and two pence halfpenny per thousand for each and every superficial feet of logs or other lumber, actually driven or floated down into the said Boom, and secured by the said Corporation, when the owner or owners take charge of the said timber, logs, or other lumber, and pass the same through the said Boom or Booms for the purpose of rafting below and.”

At C, Section 6, expunge the word “above,” and insert the words “at or near.”

At D in the same Section, expunge the word “thereon,” and insert the word “thereby.”

At E expunge the whole of the ninth Section, and insert the following :—

“That when the owner or owners of any timber, logs, or other lumber, driven or floated down the said River, may desire to pass the same through the said Boom, for the purpose of rafting the same in the tideway, or for other purposes, and shall give notice to the said Corporation, their agents or servants in charge of the said Boom, then such timber, logs or other lumber shall be allowed to pass through the said Boom free of charge, and shall be exempted from the operations of the other Sections of this Act.”

At F, Section 10, add the words “and rafted thereat.”

At G, Section 12, add the words “if three fourths of the parties having lumber on the said River shall in writing approve of such a course.”

At H, Section 18, expunge the word “to.”

On motion of Mr. Allen,
The House again went into Committee of the whole on—A Bill in further amendment of the Law.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Fisher,

Resolved unanimously, That in expression of sympathy with the Honorable the Provincial Secretary, a Member of this House, in his recent melancholy bereavement, the House do now adjourn to Tuesday next.

The House accordingly adjourned until Tuesday morning next at 10 o'clock.

Tuesday, 1st April, 1862.

Prayers.

Read a second time—

A Bill to establish the Road leading from the Geary Settlement, in the County of Sunbury, to the Saint Stephen and Fredericton Road, as one of the Great Roads of communication in this Province.

Read a third time as engrossed,

A Bill to amend an Act intituled “An Act to authorize the appointment of Commissioners in the United Kingdom and other parts of Her Majesty’s Dominions, and in the United States of America, to take Affidavits and acknowledgments of Deeds and other Instruments relating to matters in this Province.”

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Smith take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill in amendment of and in addition to certain Chapters of Title viii, of the Revised Statutes, “Of the local government of Counties, Towns, and Parishes.”

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Watters take the said Bill to the Council, and desire their concurrence thereto.

Mr. Grimmer, by leave, presented a Petition from Thomas Robinson, Patrick Curran, Andrew Mann, and eighty five others, Rate-payers in the County of Charlotte, praying that no Act may pass to repeal the existing Tax on Non-Residents and Railway Lands; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Costigan,

The House again went into Committee of the whole on—A Bill to repeal all the Acts now in force for the preservation of Moose, and to make other provisions in lieu thereof.

Mr. Stevens in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

The Honorable Mr. Smith, by leave, presented a Petition from James George, William Fawcett, and sixty others, inhabitants of the Parishes of Sackville and Westmorland, in the County of Westmorland, proprietors of Marsh Lands in District No. 6, praying that an Act may pass authorizing a division of the said District; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Grimmer,

The House again went into Committee of the whole on—A Bill relating to lands, tenements and hereditaments held for public uses by the Justices of the Peace of the several Counties in this Province.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

On motion of Mr. Grimmer,

Whereas it is necessary that the business yet before this House at its present Session, should be disposed of as rapidly as consists with full discussion and calm deliberation, in order that the expenses of the Legislature may be thereby curtailed;—

Resolved, That to promote that desirable end, it is expedient that this House should henceforth assemble and hold evening sittings until its prorogation.

Upon the question for sustaining this Resolution, the House divided as follows:—

YEAS.

Hon. Mr. Perley,
Mr. Stevens,
Costigan,
Crocker,
Scovil,

Mr. Munro,
W. J. Gilbert,
Grimmer,
Gillmor.

NAYS.

Hon. Mr. Smith,
Hon. Mr. Watters,
Hon. Mr. Steadman,
Mr. Meahan,
Raymond,
Landry,
Stiles,

Mr. DesBrisay,
Dr. Dow,
S. H. Gilbert,
Fisher,
Jordan,
Boyd.

And it was thereupon decided in the negative.

On motion of Mr. Costigan,

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to carry into effect the Resolution passed in Committee of the whole House on the 28th day of March last, and adopted by the House, in reference to the recommendation set forth in the Report of the Committee on the claim of Robert Caldwell, submitted to the House on the 26th day of the same month.

Ordered, That Mr. Costigan, Mr. Vail, and Mr. Stevens, be a Committee to wait upon His Excellency with the Address.

On motion of Mr. Stevens,

The House again went into Committee of the whole on—A Bill for the consolidation of the Laws relating to Highways.

Mr. Scovil in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill from time to time before them, had made amendments thereto, and then agreed to the same under the Title of—A Bill to consolidate and amend the Laws relating to Highways.

Ordered, That the Report be accepted, and the Bill, as amended, engrossed under the amended Title.

On motion of Mr. Stevens,

The House again went into Committee of the whole on—A Bill to prevent the spread of disease among Neat Cattle and Horses.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their further consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

Mr. M'Clelan, by leave, presented a Petition from William Tingley, Gideon Pearson, James M'Gorman, and twenty three others, Commissioners of Sewers and proprietors of Land in the German Town Lake District, in the County of Albert, praying that a Bill before the House relating to the draining of the said Lake may pass into a Law; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Scovil, by leave, presented a Petition from Isaac Haviland, William B. M'Keel, and William M'Leod, Esquires, together with William Nutten and fifty nine others, inhabitants of the Parish of Greenwich, in King's County, praying that an Act may pass to change the present Polling place in the said Parish from where it is now appointed, to or near the residence of William M'Leod, Esquire: which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Costigan,

The House went into Committee of the whole on—A Bill to repeal part of Chapter 62 of the Revised Statutes, "Of Sheep and Moose," and to make further provision for the protection of Sheep.

Mr. W. J. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, the following was moved:—

Resolved, That the further consideration of this Bill be postponed for three months."

Upon the question for sustaining this Resolution, the Committee divided as follows:—

YEAS.

Hon. Mr. Speaker,	Mr. Allen,
Hon. Mr. Watters,	Glasier,
Mr. Meahan,	Farris,
Raymond,	Montgomery,
Landry,	Dr. Dow,
Young,	Anglin,
Skinner,	Jordan.
Stiles,	

NAYS.

Hon. Mr. Smith,	Mr. Lindsay,
Hon. Mr. Perley,	Munro,
Mr. Stevens,	DesBrisay,
Williston,	S. H. Gilbert,
Costigan,	Cudlip,
Scovil,	Boyd.

And it was thereupon carried in the affirmative.

Ordered, That the Report be accepted, and the further consideration of the said Bill accordingly postponed.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to—
The Bill to incorporate the Congregational Union of Nova Scotia and New Brunswick,

Without making any amendment thereto.

And that the Council had also agreed to—

The Bill relating to the Polling places in the Parishes of West Isles and Campo Bello, in the County of Charlotte: and

The Bill to continue and amend the Act to incorporate the South West Boom Company,

With amendments, to which they desire the concurrence of the Assembly.

The amendments made by the Council to—The Bill relating to the Polling places in the Parishes of West Isles and Campo Bello, in the County of Charlotte—were severally read a first and second times, and are as follow:—

At A in Section 2, insert the words “the School House in.”

At B in same Section, insert the words “the School House in.”

Ordered, That this Bill, as amended by the Legislative Council, stand for a third reading to-morrow.

The amendments made by the Council to—The Bill to continue and amend the Act to incorporate the South West Boom Company—were severally read a first and second times, and are as follow:—

At A expunge Section 2, and alter the numbers of the remaining Sections accordingly.

At B, Section 5, add the following words—“or their lessee or lessees, in case the said Boom should be under lease.”

At C in the same Section, add the following words—“or in case the said Boom shall be under lease, then the lessee or lessees thereof.”

At D, at end of Section 5, add the following words—“The Corporation are hereby authorized, should they see fit, to conduct the business of the said Boom by leasing the same; and in any such case, the lessee or lessees thereof, under any agreement already made or hereafter to be made, shall be liable to the owner or owners of lumber, or the parties interested therein, for the due performance of all duties imposed on the said Corporation in saving and securing lumber, as contemplated by this Act, and for any neglect or default in the performance of the duties so imposed, either in putting up or maintaining an efficient Boom, or in picking up, securing and rafting the said lumber.”

Mr. Cudlip, Chairman of the Committee appointed to try the matters set forth in the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and others, against the election and return of William Lindsay, Esquire, as a Member for the County of Carleton, reports to the House—

“That the Committee met this day at half past 9 o'clock A. M., pursuant to their hour of adjournment, and proceeded with the business before them; that on Saturday the 29th March last, a Summons was issued for the attendance of the Honorable Charles Perley, a Member of the Legislative Council,

as a witness to give evidence before the Committee this day; that it has been proved to the satisfaction of the Committee, that the Summons was duly served in this City, upon the said Honorable Charles Perley, and who is still present in the said City: and that upon being called this day to give evidence before the Committee, the said Honorable Charles Perley did not appear;" when

On motion of the Honorable Mr. Smith,

Resolved, That the Report of the Chairman of the Controverted Election Committee, just submitted to the House, be referred to the Committee on Privileges to report thereon.

On motion of Mr. Ryan,

The House again went into Committee of the whole on—A Bill to explain an Act intitled "An Act to authorize and empower the Justices of the Peace in and for King's County to sell and convey certain School Lands in the Parish of Springfield, and invest the proceeds in other Lands, or other valuable securities more advantageous to the inhabitants of the said Parish."

Mr. Williston in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

The Honorable Mr. Smith moved for leave to bring in—A Bill to amend Chapter 69, Title x, of the Revised Statutes, "Of the Commissioners of the Parish of Sackville," by dividing Marsh District No. 6, into two Districts; and

The twenty-fifth Rule of the House, which requires Bills of a private or local nature to be read in the presence of the Grand Jury, or published in some Newspaper, being in this instance dispensed with, leave was granted; and

The said Bill brought in and read a first time.

On motion of Mr. McClelan,

The House again went into Committee of the whole on—A Bill to incorporate the Caledonia Coal and Mining Company.

Mr. Skinner in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, proceeded therein to the fifth Section thereof, and which is as followeth:—

"5. That the joint stock and property alone of the said Corporation shall be liable for the debts and engagements of the same."

To which it was moved as an amendment—To expunge the whole of the said Section, and substitute as follows:—

"That the joint stock and property of the said Company shall alone in the first instance be responsible for the debts and engagements of the same, and that no creditor or person or persons having any demands against the said Company, for or on account of any dealings with the said Company, shall have recourse against the separate property of any stockholder in the same, except in case of deficiency, or where the joint stock of the said Company shall fall short, or not be equal to the payment of any debt, due or demand against the same, or upon *nulla bona* being returned upon any execution against the goods and chattels of the said Company; that then and

in either of such cases, the goods and chattels, lands and tenements of each shareholder shall and may be levied upon and seized respectively, to satisfy such debt or demand, to the extent of the amount of the share or shares or interest of such shareholders in the joint stock of the said Company, in addition to his stock, but no more; and that such amount, or so much as may be necessary to satisfy such debt, due, or demand, shall or may be levied and seized by the process of execution, in the same suit in which such debt, due or demand may be recovered against the said Company;” and

Upon the question being put for adopting the amendment, the Committee divided as follows:—

YEAS.

Hon. Mr. Speaker,	Mr. Allen,
Hon. Mr. Smith,	Glasier,
Hon. Mr. Perley,	Farris,
Mr. Kerr,	Lindsay,
Landry,	Montgomery,
Young,	Ryan,
M'Phelim,	Cudlip,
Crocker,	Boyd.

NAYS.

Hon. Mr. Watters,	Mr. Stiles,
Hon. Mr. M'Millan,	Scovil,
Hon. Mr. Steadman,	Munro,
Mr. Meahan,	Dr. Dow,
Stevens,	Anglin,
Williston,	W. J. Gilbert,
Raymond,	Fisher,
Costigan,	Jordan,
M'Clelan,	Gillmor.

Whereupon it was decided in the negative; and the question being then taken upon the original Section, it was agreed to.

That the Committee then having gone through the remaining Sections of the Bill, and after making an amendment thereto, had agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

On motion of Mr. Cudlip,

The House went into Committee of the whole on—A Bill sent down from the Legislative Council, intituled “An Act in amendment of an Act intituled ‘An Act for the incorporation of the Saint John Rural Cemetery Company.’”

Mr. M'Clelan in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill read a third time to-morrow.

On motion of Mr. M'Phelim,

The House went into Committee of the whole on—A Bill in amendment of Chapter 22, of the Revised Statutes, “Of Sick and Disabled Seamen.”

Mr. Grimmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made an amendment thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill to incorporate the Union Iron Works Company.

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made an amendment thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

On motion of Mr. Skinner,

The House again went into Committee of the whole on—A Bill further to amend an Act to regulate the qualifications of Practitioners in Medicine and Surgery, and to provide a Medical Council of Health in the Province of New Brunswick.

Mr. Stevens in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Skinner,

Whereas Coasting Vessels not owned in Canada, and entering the Ports of Canada, have by the Laws of that Province been made subject to heavy Pilotage, which Pilotage is charged in all cases whether the Pilot is wanted or not, while all Coasting Vessels owned in Canada are allowed to enter those Ports without paying Pilotage, unless the Master of a Vessel actually requires a Pilot; which Pilotage so made payable by Coasting Vessels owned in this Province trading with Canada, presses very heavily upon our Coasting Vessels, and which depresses the Coasting Trade with Canada in Vessels owned in New Brunswick: And whereas the Laws of Pilotage in this Province makes no discrimination between Coasting Vessels owned in New Brunswick and those owned in Canada: And whereas it is desirable that Canada should not tax the Coasting Vessels owned in New Brunswick more heavily than those owned in that Province; therefore

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that the Executive Government will be pleased to correspond with the Government of Canada, with a view to make such arrangements as shall place the Coasting Vessels of New Brunswick trading in and with Canada, on equal terms, as regards Pilotage and other Dues, with Coasting Vessels owned in the place last mentioned.

Ordered, That Mr. Skinner, Mr. Kerr, and Mr. Young, be a Committee to wait upon His Excellency with the Address.

The House adjourned until to-morrow morning at 10 o'clock.

Wednesday, 2nd April, 1862.

Prayers.

Read a second time—

A Bill to amend Chapter 69, Title x, of the Revised Statutes, "Of the Commissioners for the Parish of Sackville," by dividing Marsh District No. 6, into two Districts.

Read a third time as engrossed,

A Bill to repeal all the Acts now in force for the preservation of Moose, and to make other provisions in lieu thereof.

Resolved, That the Bill do pass.

Ordered, That Mr. Costigan take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill relating to lands, tenements and hereditaments held for public uses by the Justices of the Peace of the several Counties in this Province.

Resolved, That the Bill do pass.

Ordered, That Mr. Williston take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to prevent the spread of disease among Neat Cattle and Horses.

Resolved, That the Bill do pass.

Ordered, That Mr. Stevens take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to explain an Act intituled "An act to authorize and empower the Justices of the Peace in and for King's County to sell and convey certain School Lands in the Parish of Springfield, and invest the proceeds in other lands or other valuable securities more advantageous to the inhabitants of the said Parish."

Resolved, That the Bill do pass.

Ordered, That Mr. Ryan take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill in amendment of Chapter 22 of the Revised Statutes, "Of Sick and Disabled Seamen."

Resolved, That the Bill do pass.

Ordered, That Mr. M'Phelim take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to incorporate the Caledonia Coal and Mining Company.

Resolved, That the Bill do pass.

Ordered, That Mr. M'Clelan take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to incorporate the Union Iron Works Company.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Watters take the said Bill to the Council, and desire their concurrence thereto.

According to the Order of yesterday, the Bill sent down from the Legislative Council, intituled "An Act in amendment of an Act intituled 'An Act for the incorporation of the Saint John Rural Cemetery Company,'" was read a third time.

Resolved, That the House do agree thereto.

Ordered, That Mr. Cudlip return the Bill to the Council, and acquaint them therewith.

According to the Order of yesterday, the amendments made by the Legislative Council to—The Bill relating to the Polling places in the Parishes of West Isles and Campo Bello, in the County of Charlotte—were severally read a third time.

Resolved, That the House do concur therein.

Ordered, That Mr. Boyd return the Bill, with the amendments, to the Council, and acquaint them therewith.

Mr. Skinner, by leave, presented a Petition from the Mayor, Aldermen and Commonalty of the City of Saint John, praying that a Bill before the House to amend the Charter of the said City, and certain Acts of Assembly relating to the local government of the same; may not pass into a Law; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Costigan moved for leave to bring in—A Bill respecting incumbrances on ungranted Lands.

Leave granted.

The said Bill being brought in was read a first time.

The amendments made by the Legislative Council to—The Bill to continue and amend the Act to incorporate the South West Boom Company,—were severally read a third time; and

Upon the question that the House do concur therein, it was decided in the negative.

Mr. Williston moved for leave to bring in—A Bill to continue the several Acts relating to the South West Boom Company.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Stevens,

The House went into Committee of the whole on—A Bill relating to certain exemptions from Duty.

Mr. S. H. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill further to amend the Charter of the City of Saint John, and certain Acts of Assembly relating to the local government of the said City.

Mr. Young in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to—

The Bill to enable the Governor and Trustees of the Madras School in New Brunswick, to raise money upon Mortgage of certain Lots of Land situate on the north side of King Square, in the City of Saint John,

Without making any amendment thereto.

And that the Council had also agreed to—

The Bill in addition to and in amendment of an Act intituled “An Act to amend an Act intituled ‘An Act to authorize that part of the City of Saint

John called Carleton, to obtain Water from Spruce and other Lakes, and the Mayor, Aldermen and Commonalty of the said City to issue Scrip to defray the expenses of so doing;”

With an amendment, to which they desire the concurrence of the Assembly.

The amendment made by the Council to this Bill was then read a first and second times, and is as follows:—

At A in the Title of the Bill, expunge the remainder of the Title, and substitute the following words—“relating to the supply of Carleton, in the City of Saint John, with Water.”

Ordered, That the Bill, as amended by the Legislative Council, stand for a third reading to-morrow.

On motion of the Honorable Mr. Tilley,

The House resumed the Debate on the motion before them on the 26th day of March last, and which was then adjourned over, viz:—

“That the House do now go into Committee of the whole on—A Bill in addition to and in amendment of the Acts imposing Duties for raising a Revenue;” and

To which Mr. Fisher had moved as an amendment, the following Resolution:—

“*Resolved*, That the further consideration of this Bill be postponed for — days, and if in the meantime it appears that the necessity for imposing additional Taxes cannot be avoided by a reduction of the Estimate, or greater economy in the expenditure of some branch of the public service, such new Taxes should be levied upon articles either of luxury or which are only partially taxed, rather than Sugar and Molasses, articles which so largely enter into the consumption of all classes, and affect all the industrial interests of the country.”

The Debate thereon being concluded, the question was taken on the amended motion, when the House divided as follows:—

YEAS.

Mr. Kerr	Mr. DesBrisay,
Williston,	Anglin,
Vail,	S. H. Gilbert,
M'Phelim,	W. J. Gilbert,
Stiles,	Fisher,
Scovil,	Costigan,
Glazier,	Ryan.

NAYS.

Hon. Mr. Tilley,	Mr. Skinner,
Hon. Mr. Smith,	Allen,
Hon. Mr. Watters,	Farris,
Hon. Mr. M'Millan,	Munro,
Hon. Mr. Perley,	Dr. Dow,
Hon. Mr. Steadman,	Cudlip,
Mr. Meahan,	Jordan,
Stevens,	Grimmer,
Raymond,	Gillmor,
Landry,	Boyd,
Young,	Crocker.

Whereupon it was decided in the negative; and.

The question was then put upon the original motion, and it being carried in the affirmative—

The House went into Committee of the whole on the said Bill for imposing Duties for raising a Revenue.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported; that the Committee having the Bill before them, and agreed to the first and second Sections thereof, had “The Table of

Duties" under their consideration, and proceeded therein to the item of "Wines," and upon which a duty was to be imposed upon certain enumerated articles, and all other Wines costing \$2 and upwards per gallon, — cents;" when

It was moved to expunge therefrom the following descriptions, viz:— "Hock, Constantia, Malmsey, Tokay, Champagne, Burgundy, Hermitage, Sautern, and Claret."

And upon the question, the Committee divided as follows:—

YEAS.		NAYS.	
Mr. Kerr,	Mr. Allen,	Hon. Mr. Speaker,	Mr. Crocker,
Williston,	Scovil,	Hon. Mr. Tilley,	Glasier,
Costigan,	Montgomery,	Hon. Mr. Smith,	Farris,
M'Phelim,	DesBrisay,	Hon. Mr. Watters,	Lindsay,
Stiles,	Anglin.	Hon. Mr. M'Millan,	Munro,
		Hon. Mr. Steadman,	Dr. Dow,
		Hon. Mr. Perley,	W. J. Gilbert,
		Mr. Meahan,	Fisher,
		Stevens,	Cudlip,
		Raymond,	Jordan,
		Landry,	Grimmer,
		Young,	Gillmor,
		M'Clelan,	Boyd.
		Skinner,	

Whereupon it was decided in the negative; and the item of "Wines," as proposed, was agreed to, and the Duty fixed at 90 cents per gallon.

That the Committee then proceeding in the said Table of Duties, had the following item before them:—

"Sugar, Brown or Muscavado, or Clayed, and any other kind of Sugar not refined;" when

It was moved—To fix the Duty thereon at 1½ cents per pound.

Upon this question, the Committee again divided as follows:—

YEAS		NAYS	
Hon. Mr. Speaker,	Mr. M'Clelan,	Mr. Kerr,	Mr. Glasier,

Hon. Mr. M'Millan,	Lindsay,	Stiles,	S. H. Gilbert,
Hon. Mr. Steadman,	Munro,	Allen,	W. J. Gilbert,
Hon. Mr. Perley,	Dr. Dow,	Scovil,	Fisher.
Mr. Meahan,	Cudlip,		
Stevens,	Jordan,		
Raymond,	Grimmer,		
Landry,	Gillmor,		
Young,	Boyd.		

And it was thereupon carried in the affirmative, and the Duty fixed at that rate.

That the Committee then made progress in the Bill, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The House adjourned until to-morrow morning at 10 o'clock.

Thursday, 3rd April, 1862.*Prayers.*

Read a second time—

A Bill respecting encumbrances on ungranted Lands: and

A Bill to continue the several Acts relating to the South West Boom Company.

Read a third time as engrossed,

A Bill to consolidate and amend the Laws relating to Highways.

Resolved, That the Bill do pass.

Ordered, That Mr. Stevens take the said Bill to the Council, and desire their concurrence thereto.

According to the Order of yesterday, the amendment made by the Legislative Council to—The Bill in addition to and in amendment of an Act intituled “An Act to amend an Act intituled ‘An Act to authorize that part of the City of Saint John called Carleton, to obtain Water from Spruce and other Lakes, and the Mayor, Aldermen and Commonalty of the said City to issue Scrip to defray the expenses of so doing,’” was read a third time.

Resolved, That the House do concur therein.

Ordered, That Mr. Skinner return the Bill, with the amendment, to the Council and acquaint them therewith.

Dr. Dow, by leave, presented a Petition from the Mayor and Corporation of the City of Fredericton, praying that a Bill before the House for levying, assessing and collecting Rates in the said City, may become a Law; which he read.

Ordered, That the said Petition be received and lie on the Table.

Dr. Dow, also by leave, presented a Petition from the Mayor and Corporation of the City of Fredericton, praying that a Bill before the House in addition to and in amendment of the Act to incorporate the said City, may become a Law; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of the Honorable Mr. Smith,

The House went into Committee of the whole on—A Bill to repeal an Act to incorporate the Town of Moncton.

Mr. Boyd in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Vail,

The House went into Committee of the whole on—A Bill in addition to an Act intituled “An Act to disqualify persons holding certain Offices under Government, from being elected or capable to hold Seats in the Assembly.”

Mr. W. J. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The Honorable Mr. Smith moved for leave to bring in—A Bill relating to the office of Commander in Chief.

Leave granted.

The said Bill being brought in was read a first time.

On motion of the Honorable Mr. Tilley,

The House went into Committee of the whole on—A Bill to incorporate the Williams Mining Company.

The Honorable Mr. Steadman in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made an amendment thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

On motion of Mr. Farris,

The House again went into Committee of the whole on—A Bill to alter the time of holding the Circuit Court in and for Queen's County.

Mr. Grimmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. Williston, by leave, presented a Petition from Michael Hackett, William Walls, Robert Davidson, John Fearn, George Cliff, and thirty five others, inhabitants of the Parishes of Derby and Nelson, in the County of Northumberland, praying that such measures may be adopted as will compel the South West Boom Company to collect and raft their Lumber within a certain period, so as not to interfere with the Fisheries; which he read.

Ordered, That the said Petition be received and referred to the Committee on Fisheries, to report thereon.

Mr. Skinner, from the Committee appointed to wait upon His Excellency the Lieutenant Governor, with an Address of the House of the 1st day of April instant, relative to communicating with the Government of Canada with a view to have arrangements made as will place the Coasting Vessels of this Province trading with that Colony on an equal footing, as regards the charges for Pilotage and other dues, reported—That they had attended thereto, and His Excellency was pleased to make the following reply:—"I will communicate with the Governor General of Canada upon the subject to which your Address relates, and will convey to him the opinions expressed by the House of Assembly."

On motion of the Honorable Mr. Tilley,

The House again went into Committee of the whole on—A Bill in addition to and in amendment of the Acts imposing Duties for raising a Revenue.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. Kerr moved for leave to bring in—A Bill to amend Chapter 40, Title iv, of the Revised Statutes, “Of the Post Office.”

Leave granted.

The said Bill being brought in was read a first time.

Mr. Williston moved for leave to bring in—A Bill further to amend Chapter 133, Title xxxiv, of the Revised Statutes, “Of Trespasses on Lands, Private Property, and Lumber.”

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. DesBrisay,

Ordered, That the House do on Monday next, the 7th day of April instant, again go into Committee of the whole and resume the consideration of—The Report and Accounts from the Crown Land Department—laid before the House on the 21st day of February last.

Mr. Cudlip, Chairman of the Committee appointed to try the matters set forth in the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and others, against the election and return of William Lindsay, Esquire, as a Member for the County of Carleton, reports to the House—

“That the Committee met this day at the hour of their adjournment, and after hearing testimony on the part of the Petitioners, and requiring further testimony, he was directed to ask permission of the House to adjourn over until Tuesday next the 8th day of April instant, at the hour of two o'clock in the afternoon of that day.”

Ordered thereupon, That the Committee have leave to adjourn over until the 8th day of April instant, and that they do meet at the hour of two o'clock in the afternoon of that day, in the Committee Room where they hold their Sittings, and then proceed in the investigation of the matters referred to their consideration.

Mr. Costigan, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with an Address of the 1st day of April instant, praying that His Excellency would carry into effect the Resolution adopted by the House on the 28th day of March last, in reference to the claim of Robert Caldwell, for having taught a Superior School at Madawaska, in the County of Victoria, reported—That they had attended thereto, and His Excellency was pleased to say—That he would consult his Council upon the subject of the Address.

The House adjourned until to-morrow morning at 10 o'clock.

Friday, 4th April, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill relating to the Office of Commander in Chief:

A Bill to amend Chapter 40, Title iv, of the Revised Statutes, “Of the Post Office:” and

A Bill to amend Chapter 133, Title xxxiv, of the Revised Statutes, “Of Trespasses on Lands, Private Property, and Lumber.”

Read a third time as engrossed,

A Bill to repeal an Act to incorporate the Town of Moncton.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Smith take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to incorporate the Williams Mining Company.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Smith also take this Bill to the Council, and desire their concurrence thereto.

The Honorable Mr. Smith, by leave, presented a Petition from Reuben Chase, William Fawcett, and Charles Cahill, Esquires, together with William Humphrey, and forty one others, proprietors of Marsh Lands in the Parish of Sackville, in the County of Westmorland, praying that a Bill before the House to amend Chapter 67, Title x, of the Revised Statutes, "Of Sewers," may become a Law; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Grimmer,

Ordered, That—The Bill relating to the Militia—be forthwith printed, and 200 copies thereof furnished for the use of the Legislature.

Mr. Skinner, from the Committee on Trade, and to whom was referred, under Resolution of the House of the 27th day of March last, a Petition from the Newcastle Gas Company, for return Duties on Machinery, submitted a Report in reference to the said Petition; and he having read the same, it was handed in at the Clerk's Table, where it was again read, and is as follows:—

"The Committee of Trade have had in consideration the Petition of the Newcastle Gas Company for return of £135 5 5, amount of Duties paid by them on certain machinery imported into this Province for the Gas Works at the Town of Newcastle, beg leave to report:—

"That, in their opinion, the present state of the Provincial Finances does not warrant them in recommending the prayer of the Petition, but they think the application may be again heard at the next Session of the Legislature.

C. N. SKINNER.

Committee Room, 4th April 1862."

Ordered, That the Report be accepted.

Mr. Stevens moved for leave to bring in—A Bill for the further protection of Sheep from Dogs.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Skinner,

The House went into Committee of the whole on—A Bill for the alteration and amendment of the local government of the Parish of Portland, in the County of Saint John.

Mr. McClelan in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. Stiles, by leave, presented a Petition from Elisha P. Turner, of the Parish of Harvey, in the County of Albert, praying that a Bill before the House in amendment of the Act for the draining of German Town Lake, may not pass into a Law; which he read.

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. M'Clelan,

The House again went into Committee of the whole on—A Bill in amendment of the Law relating to the draining of German Town Lake, in the County of Albert.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their further consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

Mr. Williston, from the Committee appointed on the 25th day of March last, to examine into the various Documents in reference to the claim of Alexander Fraser, for expenditures on the Ferry Slip, at Newcastle, in the County of Northumberland, laid before the House on the 18th day of the same month, submitted their Report; and he having read the same, it was handed in at the Clerk's Table, where it was again read, and is as follows:—

“The Committee to whom was referred the papers of Alexander Fraser, relative to his expenditure on the Slips at Newcastle, on the Great Road of communication between that Town and Chatham, beg leave to make the following Report:—

“Your Committee have had before them the papers connected with Mr. Fraser's expenditure, and have carefully examined the same; they have also examined the Honorable W. H. Steeves, late Chief Commissioner of the Board of Works, in reference to this claim; and have heard and examined the Members of the County; and have concluded that the said Alexander Fraser is entitled to the sum of fifty pounds; that the expenditure was made by said Fraser on the Public Slips, being a part of the Great Roads, and was necessary for the public accommodation; that at the instance of the present Chief Commissioner of Works, two Members of the County last Autumn examined the works and the nature of the claim, and reported on such examination a balance to be due the said Alexander Fraser of fifty pounds, and recommended the Chief Commissioner to pay the same, which it appears has not been done according to their recommendation.

“Your Committee therefore recommend that an appropriation be made for that sum in favour of the said Alexander Fraser, out of the Great Road appropriation for the present year.

“Respectfully submitted.

E. WILLISTON,
A. H. GILLMOR, JR.
E. A. VAIL.

Committee Room, 4th April 1862.”

Ordered, That the Report be accepted.

On motion of Mr. Cudlip,

The House went into Committee of the whole on—A Bill to explain and amend an Act intituled “An Act to authorize the extension of King Street, in that part of the City of Saint John called Carleton.”

Mr. Grimmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to the following Bills, viz :—

The Bill to explain an Act intituled “An Act to impose a Tax on unimproved granted Lands, to provide a Fund for opening of Roads and building Bridges in the Parishes in which the Lands lie :”

The Bill to abolish the Fishery Draft on the Western side of the Harbour in the City of Saint John, and to make other provision for the disposal of the said Fisheries, and to apply the annual proceeds thereof towards the erection of a Public Hall in Carleton, and in payment of Interest on the Carleton Water Debentures : and

The Bill in addition to Chapter 93; Title xvii, of the Revised Statutes, “Of the measurement of Firewood and Bark ;”

Without making any amendments thereto.

And that they had also agreed to—

The Bill to amend the Revised Statutes, Title xxxvii, Chapter 137, “Of the jurisdiction of Justices in Civil Suits,”

With an amendment, to which they desire the concurrence of the Assembly.

And he further informed the House, that the Council had passed the following Bills, viz :—

A Bill intituled “An Act to incorporate the Alma Copper Mining Company :” and

A Bill intituled “An Act to incorporate the Elgin Gold Quartz Mining Company ;”

To which they also desire the concurrence of the Assembly.

The amendment made by the Council to—The Bill to amend the Revised Statutes, Title xxxvii, Chapter 137, “Of the jurisdiction of Justices in Civil Suits,”—was read a first and second times, and is as followeth :—

At A at the end of Section 4, insert a new Section as follows, and alter the number of the remaining Section :—

“5. No process (except a Subpœna,) issued by a Justice of the Peace shall run into or be served within any City or Town in which a local Court for the trial of causes under ten pounds is established.”

Ordered, That this Bill, as amended by the Legislative Council, stand for a third reading to-morrow.

Read a first time the following Bills sent down from the Council, viz :—

A Bill intituled “An Act to incorporate the Alma Copper Mining Company ;” and

A Bill intituled “An Act to incorporate the Elgin Gold Quartz Mining Company :”

On motion of the Honorable Mr. Tilley,

The House again again went into Committee of the whole on—A Bill in addition to and in amendment of the Acts imposing Duties for raising a Revenue.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The House adjourned until to-morrow morning at 10 o'clock.

Saturday, 5th April, 1862.

Prayers.

Read a second time—

A Bill for the further protection of Sheep from Dogs: also

The following sent down from the Legislative Council, viz:—

A Bill intituled "An Act to incorporate the Alma Copper Mining Company:" and

A Bill intituled "An Act to incorporate the Elgin Gold Quartz Mining Company."

Read a third time as engrossed,

A Bill in amendment of the Law relating to the draining of German Town Lake, in the County of Albert.

Resolved, That the Bill do pass.

Ordered, That Mr. M'Clelan take the said Bill to the Council and desire their concurrence thereto.

According to the Order of yesterday, the amendment made by the Legislative Council to—The Bill to amend the Revised Statutes, Title xxxvii, Chapter 137, "Of the jurisdiction of Justices in Civil Suits," was read a third time.

Resolved, That the House do concur therein.

Ordered, That Mr. Allen return the Bill, with the amendment, to the Council, and acquaint them therewith.

On motion of Mr. Cudlip,

The House again went into Committee of the whole on—A Bill to explain and amend an Act intituled "An Act to authorize the extension of King Street, in that part of the City of Saint John called Carleton."

Mr. Grimmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made further progress therein, and he was directed to ask for leave to sit again:

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Young,

The House went into Committee of the whole on—A Bill to divide the County of Gloucester.

Mr. Skinner in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, and proceeding therein—

It was moved—That he report that the Committee had made progress in the Bill, and to ask leave to sit again.

Upon the question for sustaining this motion, the Committee divided—

YEAS 16.

NAYS 19.

And it being thereupon decided in the negative—

That the Committee then had before them the first Section thereof, and which is as followeth :—

“1. That all that part of the present County of Gloucester which is included in the Parishes of Caraquet, Shippegan, Inkerman, and Saumarez, be and the same is hereby erected into a County separate and distinct from the said County of Gloucester.”

And upon the question being put for adopting the same, the Committee divided as follows :—

YEAS.

NAYS.

Hon. Mr. Speaker,	Mr. M'Phelim,	Hon. Mr. Tilley,	Mr. Munro,
Hon. Mr. Smith,	Crocker,	Hon. Mr. Steadman,	Dr. Dow,
Hon. Mr. Watters,	Stiles,	Hon. Mr. Perley,	S. H. Gilbert,
Hon. Mr. M'Millan,	Scovil,	Mr. Stevens,	Fisher,
Mr. Kerr,	Montgomery,	Vail,	Ryan,
Meahan,	DesBrisay,	M'Clelan,	Cudlip,
Williston,	Anglin,	Allen,	Jordan,
Costigan,	W. J. Gilbert,	Farris,	Grimmer,
Landry,	Boyd.	Lindsay,	Gillmor.
Young,			

Whereupon it was carried in the affirmative.

That the Committee then went through the remaining Sections of the Bill, and after making amendments thereto, had agreed to the same under the Title of—“A Bill to erect part of the County of Gloucester into a separate and distinct County.”

Ordered, That the Report be accepted, and the Bill, as amended, engrossed under the amended Title.

On motion of the Honorable Mr. Tilley,

The House again went into Committee of the whole on—A Bill in addition to and in amendment of the Acts imposing Duties for raising a Revenue.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

A Message from His Excellency the Lieutenant Governor.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, by command of His Excellency, delivered the following Messages :—

“New Brunswick.

“*Message to the House of Assembly, 5th April, 1862.*”

“ARTHUR H. GORDON,

“His Excellency the Lieutenant Governor lays before the House of Assembly, a Copy of a Despatch which he has lately received from Her Majesty's Minister Plenipotentiary and Envoy Extraordinary at Washington.”

A. H. G.

The Despatch communicated by this Message, being read at the Clerk's Table, is as followeth :—

Passports to and from the United States.

Copy of a Despatch from Lord Lyons to the Lieutenant Governor.

Washington, March 7, 1862.

SIR,—I am officially informed by the Secretary of State of the United States, that the regulation sometime since established by the State Department, under the direction of the President, requiring all persons departing from or arriving in the United States, to provide themselves with passports, has been rescinded.

I am, however, at the same time informed that, until further notice, arrests will be made under the direction of the Secretary of War, of any persons who may reasonably be suspected of treason against the United States.

I have, &c.

(Signed)

LYONS.

“ New Brunswick.

“ Message to the House of Assembly, 5th April, 1862.

“ ARTHUR H. GORDON.

“ His Excellency the Lieutenant Governor informs the House of Assembly, in reply to their Address presented to him on the 3rd instant, relative to the claim of Robert Caldwell, that the wishes of the House, therein expressed, will be complied with.”

A. H. G.

The Honorable Mr. Tilley, also by command of His Excellency the Lieutenant Governor, laid before the House, in pursuance of Addresses to His Excellency of the 25th and 27th of March last respectively, the following documents :—

Copies of Contracts and Tenders for planking Railroad Wharf at Point du Chene, Shediac, together with other information as asked for by the Address: and

Copies of various Documents relative to the sum of sixty five pounds reimbursed to Elijah Clarke, of Fredericton, by the Post Office Department, for the loss of a Letter containing money, mailed at the Post Office at that place in the year 1856.

The House adjourned until Monday morning next at 10 o'clock.

Monday, 7th April, 1862.

Prayers.

On motion of Mr. Williston,

The House went into Committee of the whole on—The Report from the Select Committee, submitted to the House on the 4th day of April instant, relative to the claim of Alexander Fraser for expenditures on the Ferry Slip at Newcastle, in the County of Northumberland.

Mr. M'Phelim in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the matter referred to them under their consideration, the following Resolution was moved :—

“ *Resolved*, as the opinion of this Committee, that the Report of the Select Committee on the claim of Alexander Fraser, submitted to the House on the

4th day of April instant, should be adopted; and that in the opinion of this Committee, an humble Address should be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to give effect to the said Report, and the recommendations therein set forth."

And upon the question for sustaining this Resolution, the Committee divided as follows:—

YEAS.

Hon. Mr. Speaker,	Mr. Allen,
Mr. Kerr,	Scovil,
Williston,	Glasier,
Vail,	Montgomery,
Costigan,	DesBrisay,
Young,	Anglin,
Crocker,	Cudlip,
Stiles,	Gillmor.

NAYS.

Hon. Mr. Tilley,	Mr. Farris,
Hon. Mr. Smith,	Lindsay,
Hon. Mr. M'Millan,	Munro,
Hon. Mr. Steadman,	Dr. Dow,
Hon. Mr. Perley,	S. H. Gilbert,
Mr. Meahan,	W. J. Gilbert,
Raymond,	Ryan,
Landry,	Jordan,
M'Clelan,	Grimmer.
Skinner,	

Whereupon it was decided in the negative.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to—

The Bill in amendment of and in addition to certain Chapters of Title viii. of the Revised Statutes, "Of the local government of Counties, Towns, and Parishes,"

Without making any amendment thereto.

And that the Council had also agreed to—

The Bill to alter the Division Line of the Parishes of Dundas and Wellington, in the County of Kent,

With an amendment, to which they desire the concurrence of the Assembly.

The amendment made by the Council to this Bill, was then read a first and second times, and is as follows:—

At A in the body of the Bill, expunge the remaining part of the Bill, and substitute as follows:—

"Line beginning at the sea shore at the northeastern angle of lot number one, granted to Joseph Richard; thence running by the magnetic needle south seventy two degrees and thirty minutes west 750 chains, or until it meets the westerly line of lot number eighty six, located to Alexander Robicheau, Junior, or the northern prolongation thereof; thence along the said prolongation and western line of said lot in a southerly direction, to meet the southern line of lot number eighty four, granted to Beloni Robicheau; thence along the said southern line of the last mentioned Grant and its prolongation, to the southwestern angle of lot number seventy two, located to Ezra Gesner; thence in a westerly direction to the eastern angle of lot number sixty eight, in Trafalgar; thence south eighty degrees west, as surveyed by Deputy Munro in one thousand eight hundred and sixty two, to the eastern side of the Maclauchlan Road."

Ordered, That this Bill, as amended by the Legislative Council, stand for a third reading to-morrow.

The Honorable Mr. Watters, from the Committee on Privileges, submits a Report in reference to the matter referred to them on 1st day of April instant, relative to the non-attendance of the Honorable Charles Perley, a

Member of the Legislative Council, as a witness summoned to give evidence before the Committee now sitting to try the allegations set forth in a Petition of George T. Hartley and others, against the election and return of William Lindsay, Esquire; and he having read the same, it was handed in at the Clerk's Table, where it was again read, and is as follows:—

“The Committee of Privileges, to whom was referred the Report of the Committee appointed to try the matters set forth in the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and others, against the election and return of William Lindsay, Esquire, as a Member of the County of Carleton, setting forth that the said Election Committee had on 25th March last, issued a Summons for the attendance of the Honorable Charles Perley, a Member of the Legislative Council, as a witness to give evidence before the said Committee, to which Summons the said Honorable Charles Perley did not appear, Report—

“That entertaining great doubts of the power of this House to compel the attendance of a Member of the Legislative Council to be examined as a witness before the said Election Committee, they cannot recommend the House to take any action against the said Honorable Charles Perley for not having obeyed the said Summons.

“CHARLES WATTERS,
JOHN C. ALLEN,
JAS. G. STEVENS.

Committee Room, 7th April 1862.”

Ordered, That the Report be accepted.

The Honorable Mr. M'Millan, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House, in pursuance of an Address to His Excellency of the 21st day of March last—

A Detailed Statement, shewing amounts of Instalments due on Crown Land Sales, made up to the 31st October 1861.

See Appendix.

On motion of the Honorable Mr. Tilley,
The House again went into Committee of the whole on—A Bill in addition to and in amendment of the Acts imposing Duties for raising a Revenue.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, and the “Table of Duties” under their further consideration, they proceeded therein to the item of “Molasses and Treacle per gallon —;” when

A motion was made to fill the blank with *two cents*; and

It was then moved—That the said blank be filled up with the sum of *one cent*.

And the question being debated, the following was moved:—

“Resolved, That the question of making Molasses the subject of Duty be first put.”

Upon the question for sustaining this Resolution, the Committee divided as follows:—

YEAS.

NAYS.

Mr. Kerr,
Williston,
Costigan,
M'Clelan,
Skinner,
M'Phelim,
Stiles,
Allen,
Scovil,
Glasier,

M'Phelim,	W. J. Gilbert,
Stiles,	Fisher,
Allen,	Ryan,
Scovil,	Grimmer,
Glasier,	Boyd.
Farris,	

And so this was carried in the affirmative, and the blank filled up with that sum.

That the Committee then proceeded to the third Section, and having agreed thereto, he was directed to report that they had made further progress in the Bill, and to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The House adjourned until to-morrow morning at 10 o'clock.

Tuesday, 8th April, 1862.
Prayers.

According to the Order of yesterday, the amendment made by the Legislative Council to—The Bill to alter the Division Line of the Parishes of Dundas and Wellington, in the County of Kent—was read a third time.

Resolved, That the House do concur therein.

Ordered, That Mr. M'Phelim return the Bill, with the amendment, to the Council, and acquaint them therewith.

On motion of the Honorable Mr. Watters,

The House again went into Committee of the whole on—A Bill further to amend the Charter of the City of Saint John, and certain Acts of Assembly relating to the local government of the said City.

Mr. Young in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, the following Resolution was moved:—

“*Resolved,* That the further consideration of the Bill be postponed for three months;” and

Upon the question for sustaining the said Resolution, the Committee divided as follows:—

YEAS.

Hon. Mr. Tilley,	Mr. Lindsay,
Hon. Mr. Smith,	Munro,
Hon. Mr. M'Millan,	Montgomery,
Hon. Mr. Steadman,	S. H. Gilbert,
Mr. M'Clelan,	Ryan,
Crocker,	Jordan,
Farris,	Grimmer.

NAYS.

Hon. Mr. Watters,	Mr. Stiles,
Mr. Kerr,	Allen,
Meahan,	Anglin,
Williston,	W. J. Gilbert,
Vail,	Fisher,
Costigan,	Cudlip,
Skinner,	Boyd.
M'Phelim,	

And it was thereupon decided in the negative.

That the Committee then proceeded to the consideration of the 1st Section of the Bill, and which is as followeth :—

“ 1. So much of the Charter of the City of Saint John, and so much also of an Act of Assembly made and passed in the sixteenth year of the Reign of Her present Majesty Queen Victoria, intituled ‘ An Act to amend the Charter of the City of Saint John, and certain Acts of Assembly relating to the local government of the said City,’ as is or are repugnant to or inconsistent with the provisions of this Act, are hereby repealed.”

And upon the question being put for adopting the same, the Committee again divided as follows :—

YEAS.

Hon. Mr. Watters,	Mr. M'Phelim,
Mr. Kerr,	Scovil,
Meahan,	Anglin,
Williston,	W. J. Gilbert,
Vail,	Cudlip,
Landry,	Boyd.

NAYS.

Hon. Mr. Tilley,	Mr. Farris,
Hon. Mr. Smith,	Lindsay,
Hon. Mr. Steadman,	Munro,
Hon. Mr. Perley,	Montgomery,
Mr. M'Clelan,	S. H. Gilbert,
Skinner,	Fisher,
Crocker,	Ryan,
Stiles,	Jordan,

Whereupon this was decided in the negative.

That he was then directed to report that the Committee had made further progress in the Bill, and to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. M'Phelim,

The House again went into Committee of the whole on—A Bill to increase the Representation of certain Counties.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of the Honorable Mr. Tilley,

The House again went into Committee of the whole on—A Bill in addition to and in amendment of the Acts imposing Duties for raising a Revenue.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, the following was moved as an additional Section thereto, viz :—

“ 4. That the amount to be paid under the provisions of the first Section of an Act passed in the 19th year of the Reign of Her present Majesty, intituled ‘ An Act to levy an Impost for Railway purposes,’ shall be three dollars on every one hundred dollars, instead of two pounds ten shillings on every hundred pounds as therein provided.”

Upon the question for adopting the same, the Committee divided as follows :—

YEAS.

Hon. Mr. Speaker,	Mr. Landry,
Hon. Mr. Tilley,	Skinner,
Hon. Mr. Smith,	Crocker,
Hon. Mr. Watters,	Farris,
Hon. Mr. M'Millan,	Munro,
Hon. Mr. Steadman,	Montgomery,
Hon. Mr. Hatheway,	Cudlip,
Hon. Mr. Perley,	Jordan,
Mr. Meahan,	Grimmer,
Stevens,	Gillmor.
Raymond,	

NAYS.

Mr. Kerr,	Mr. DesBrisay,
Williston,	Anglin,
Costigan,	S. H. Gilbert,
Young,	W. J. Gilbert,
M'Phelim,	Fisher,
Stiles,	Boyd,
Allen,	M'Clelan.
Scovil,	

And it was thereupon carried in the affirmative, and the Section agreed to.

It was then moved—That the following proviso be added to the said Section, just passed, viz:—

“ Provided always, that as relates to Agricultural Implements, and all parts thereof, Duties shall be collected as if this Act had not passed.”

Upon the question for adopting this amendment, the Committee again divided as follows:—

YEAS.

Hon. Mr. Speaker,	Mr. Allen,
Mr. Kerr,	Scovil,
Stevens,	Munro,
Williston,	DesBrisay,
Costigan,	S. H. Gilbert,
Young,	W. J. Gilbert,
M'Phelim,	Cudlip,
Crocker,	Grimmer,
Stiles,	Boyd.

NAYS.

Hon. Mr. Tilley,	Mr. Raymond,
Hon. Mr. Smith,	Landry,
Hon. Mr. Watters,	Skinner,
Hon. Mr. M'Millan,	Farris,
Hon. Mr. Steadman,	Montgomery,
Hon. Mr. Hatheway,	Fisher,
Hon. Mr. Perley,	Jordan,
Mr. Meahan,	Gillmor.

And this being also carried in the affirmative, was added, and formed part of the said Section.

It was then moved—That “Salt” be inserted as an article of exemption from Duty under the said proviso just passed.

And upon this question, the Committee again divided as follows:

YEAS.

Mr. Kerr,	Mr. Anglin,
Williston,	S. H. Gilbert,
Costigan,	W. J. Gilbert,
Young,	Fisher,
M'Phelim,	Grimmer,
Stiles,	Gillmor,
Scovil,	Boyd,
Glasier,	Cudlip.
DesBrisay,	

NAYS.

Hon. Mr. Speaker,	Mr. Raymond,
Hon. Mr. Tilley,	Landry,
Hon. Mr. Smith,	Allen,
Hon. Mr. Watters,	Farris,
Hon. Mr. M'Millan,	Lindsay,
Hon. Mr. Steadman,	Munro,
Hon. Mr. Hatheway,	Montgomery,
Hon. Mr. Perley,	Jordan,
Mr. Meahan,	Crocker.
Stevens,	

Whereupon it was decided in the negative; when

A motion was made—That “Hemp and Manilla” be inserted as articles of exemption from Duty.

And upon this question being put, it was also decided in the negative.

That the Committee then having gone through the Bill, after making amendments thereto, had agreed to the same under the Title of—

A Bill in addition to and in amendment of the Acts imposing Duties for raising a Revenue, and in amendment of an Act passed in the 19th year of Her present Majesty's Reign, intituled "An Act to levy an Impost for Railway purposes."

Ordered, That the Report be accepted, and the Bill, as amended, engrossed under the amended Title.

The Honorable Mr. Watters, by leave, presented a Petition from J. W. M. Irish, Alexander Balloch, Edward B. Peters, Robert Keltie, George Carvill, George V. Nowlin, and George A. Lockhart, Esquires, together with two hundred and sixty others, Magistrates, Merchants, and Ratepayers of the City of Saint John and Parish of Portland in the County of Saint John, praying that an Act may pass in further amendment of the Law relating to Water Supply and Sewerage in the said City and part of the said Parish of Portland; which he read.

Ordered, That the said Petition be received and lie on the Table.

The Honorable Mr. Watters moved for leave to bring in—A Bill in further amendment of the Law relating to Water Supply and Sewerage in the City of Saint John, and part of the Parish of Portland in the County of Saint John.

Leave granted.

The said Bill being brought in was read a first time.

On motion of the Honorable Mr. Smith,

The House went into Committee of the whole on—A Bill to amend Chapter 69, Title x, of the Revised Statutes, "Of the Commissioners for the Parish of Sackville," by dividing Marsh District No. 6 into two Districts.

Mr. Stevens in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Costigan,

The House went into Committee of the whole on—A Bill respecting incumbrances on ungranted Lands.

Mr. W. J. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Kerr,

The House went into Committee of the whole on—A Bill to amend Chapter 40, Title iv, of the Revised Statutes, "Of the Post Office."

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, laid before the House, in pursuance of a notice of motion for an Address to His Excellency the Lieutenant Governor—

Copy of a Petition from Stephen Tracy, of Woodstock, in the County of Carleton, praying payment of an amount alleged to be due him from the Canada Disputed Territory Fund, for Timber cut in 1844; accompanied by a Minute of Council relative to the claim.

On motion of the Honorable Mr. Tilley,

The House went into Committee of the whole on—A Bill in addition to an Act relating to the Savings Banks, and other Provincial Liabilities.

Mr. Grimmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

On motion of Mr. Ryan,

The House went into Committee of the whole on—A Bill in addition to and in amendment of An Act intituled "An Act relating to Lands for Railway purposes."

Mr. S. H. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The House adjourned until to-morrow morning at 10 o'clock.

Wednesday, 9th April, 1862.

Prayers.

Read a second time—

A Bill in further amendment of the Law relating to Water Supply and Sewerage in the City of Saint John, and part of the Parish of Portland in the County of Saint John.

Read a third time as engrossed,

A Bill to amend Chapter 69, Title x, of the Revised Statutes, "Of the Commissioners for the Parish of Sackville," by dividing Marsh District No. 6 into two Districts.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Smith take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to amend Chapter 40, Title iv, of the Revised Statutes, "Of the Post Office."

Resolved, That the Bill do pass.

Ordered, That Mr. Kerr take the said Bill to the Council, and desire their concurrence thereto.

Mr. Munro moved for leave to bring in—A Bill to amend Chapter 5, of Title iii, of the Revised Statutes, “Of the Territorial and Casual Revenue.”
And upon the question, the House divided—

YEAS 17.

NAYS 7.

Whereupon it was carried in the affirmative; and
The Bill brought in and read a first time.

Mr. Munro then moved—That the said Bill be now read a second time.
Upon this question, the House again divided—

YEAS 15.

NAYS 11.

And this being also carried in the affirmative—
The said Bill was accordingly read a second time.

Mr. Fisher moved for leave to bring in—A Bill relating to the University of New Brunswick.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Williston,

The House went into Committee of the whole on—A Bill to continue the several Acts relating to the South West Boom Company.

Mr. Grimmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. W. J. Gilbert,

The House went into Committee of the whole on—A Bill making void all Notes and other Securities given to Attorneys for untaxed Costs and Charges.

Mr. Scovil in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Read a third time as engrossed,

A Bill in addition to and in amendment of the Acts imposing Duties for raising a Revenue and in amendment of an Act passed in the nineteenth year of Her present Majesty's Reign, intituled “An Act to levy an Impost for Railway purposes.”

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Tilley take the said Bill to the Council, and desire their concurrence thereto.

On motion of Mr. Allen,

Resolved, That the Petition of Stephen Tracy, of Woodstock, relative to a claim of £49 4s. on the Canada Disputed Territory Fund, laid before the House yesterday by the Honorable the Provincial Secretary, be referred to a Select Committee to report thereon; and

Ordered, That Mr. Allen, Mr. Gillmor, and Mr. Kerr, do compose the said Committee.

The Honorable Mr. Smith moved for leave to bring in—A Bill relating to Gold Mines.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. DesBrisay,

That the House proceed to the Order of the Day of the 3rd day of April instant, to go into Committee of the whole, and resume the consideration of—The Report and Accounts from the Crown Land Department; and which was adjourned over to this day, by operation of the twenty third Rule of the House.

The Order of the Day being read, the House according thereto resolved itself into said Committee.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the matter referred to them again under their consideration, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. Allen moved for leave to bring in—A Bill to explain the Revised Statutes, Title xix, "Of Controverted Elections."

Leave granted.

The said Bill being brought in was read a first time.

The House adjourned until to-morrow morning at 10 o'clock.

Thursday, 10th April, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill relating to the University of New Brunswick:

A Bill relating to Gold Mines: and

A Bill to explain the Revised Statutes, Title xix, "Of Controverted Elections."

Read a third time as engrossed,

A Bill to continue the several Acts relating to the South West Boom Company.

Resolved, That the Bill do pass.

Ordered, That Mr. Williston take the said Bill to the Council, and desire their concurrence thereto.

On motion of the Honorable Mr. Tilley,

The House again went into Committee of the whole on—A Bill in addition to an Act relating to the Savings Banks, and other Provincial Liabilities.

Mr. Grimmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, the first Section thereof was under their consideration, and which is as followeth:—

"1. The amount for which a Loan is authorized to be affected by the Governor in Council, in and by the first Section of the said recited Act, is hereby increased to the sum of Five hundred thousand dollars."

Upon the question being put for adopting the same, the Committee divided as follows:—

YEAS.		NAYS.	
Hon. Mr. Speaker,	Mr. Landry,	Mr. Kerr,	Mr. Glasier,
Hon. Mr. Tilley,	Young,	Williston,	DesBrisay,
Hon. Mr. Smith,	McClelan,	Vail,	Anglin,
Hon. Mr. Watters,	Skinner,	Costigan,	S. H. Gilbert,
Hon. Mr. McMillan,	Crocker,	McPhelim,	W. J. Gilbert,
Hon. Mr. Steadman,	Farris,	Stiles,	Fisher,
Hon. Mr. Hatheway,	Lindsay,	Allen,	Boyd.
Hon. Mr. Perley,	Munro,	Seovil,	
Mr. Meahan,	Cudlip,		
Stevens,	Jordan,		
Raymond,	Gillmor.		

And it was thereupon carried in the affirmative.

That the Committee then went through the remaining Sections of the Bill, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to—

The Bill to explain an Act intituled “An act to authorize and empower the Justices of the Peace in and for King’s County to sell and convey certain School Lands in the Parish of Springfield, and invest the proceeds in other lands or other valuable securities more advantageous to the inhabitants of the said Parish:” and

The Bill to repeal an Act to incorporate the Town of Moncton ;
Without making any amendments thereto.

And that the Council had also agreed to—

The Bill for taking away the punishment of Death in certain cases, and substituting other punishments in lieu thereof: and

The Bill in addition to Chapter 101, Title xxii, of the Revised Statutes, “Of the Sea and River Fisheries;”

With certain amendments, to which they desire the concurrence of the Assembly.

The amendments made by the Council to—The Bill for taking away the punishment of Death in certain cases, and substituting other punishments in lieu thereof,—were severally read a first and second times, and are as follow:—

At A, Section 1, expunge the word “two,” and insert the word “ten.”

At B, Section 2, expunge the words “at the discretion of the Court.”

At C, in the same Section, expunge the words “or for any term not less than seven years.”

At D, Section 4, expunge the word “three,” and insert the word “ten.”

At E, Section 5, expunge the word “three,” and insert the word “ten.”

At F, Section 6, expunge the word “three,” and insert the word “seven.”

At G, Section 7, expunge the word “two,” and insert the word “seven.”

Ordered, That this Bill, as amended by the Legislative Council, stand for a third reading to-morrow.

The amendment made by the Council to—The Bill in addition to Chapter 101, Title xxii, of the Revised Statutes, “Of the Sea and River Fisheries,”—was read a first and second times, and is as follows:—

At A, Section 2, expunge the word "northern," and substitute the word "southern."

Ordered, That this Bill, as amended by the Legislative Council, stand for a third reading to-morrow.

On motion of the Honorable Mr. Tilley,

Ordered, That the House do, on Monday next the 14th day of April instant, resolve itself into Committee of the whole to consider of the Supply granted to Her Majesty.

On motion of Mr. Cudlip,

The House went into Committee of the whole on—A Bill to provide for the drainage and protection of the Great Marsh in the City of Saint John, and in the Parishes of Portland and Simonds, in the City and County of Saint John, and the maintenance of a Highway over the Aboideau across the Marsh Creek, near the City of Saint John.

The Honorable Mr. Steadman in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. Skinner moved for leave to bring in—A Bill relating to Judgments in Actions not Summary.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Cudlip, by leave, presented a Petition from James D. Lewin, James Olive, and James Quinton, Esquires, together with James Thompson, and fifty five others, Freeholders and Inhabitants of the Parish of Lancaster, in the County of Saint John, praying that a Bill before the House for dividing the said Parish, may not pass into a Law; which he read.

Ordered, That the said Petition be received and lie on the Table.

Mr. Cudlip, also by leave, presented the following Petitions, viz:—

From Denison Cox, John H. Robertson, and others; and

From John Jones, Samuel W. Belyea, and others;

Inhabitants of Carleton, in the City of Saint John, severally praying that a Bill before the House in amendment of the Law for the extension of King Street at that place, may pass into a Law; which he read.

Ordered, That the said Petitions be received and lie on the Table.

On motion of Mr. Skinner,

The House again went into Committee of the whole on—A Bill for the alteration and amendment of the local government of the Parish of Portland, in the County of Saint John.

The Honorable Mr. Smith in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their further consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

The House adjourned until to-morrow morning at 10 o'clock.

Friday, 11th April, 1862.

Prayers.

Read a second time—

A Bill relating to Judgments in Actions not Summary.

Read a third time as engrossed,

A Bill in addition to an Act relating to the Savings Banks, and other Provincial Liabilities.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Tilley take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill for the alteration and amendment of the local government of the Parish of Portland, in the County of Saint John.

Resolved, That the Bill do pass.

Ordered, That Mr. Skinner take the said Bill to the Council, and desire their concurrence thereto.

According to the Order of yesterday, the amendments made by the Legislative Council to—The Bill for taking away the punishment of Death in certain cases, and substituting other punishments in lieu thereof,—were severally read a third time.

Resolved, That the House do concur therein.

Ordered, That the Honorable Mr. Watters return the Bill, with the amendments, to the Council, and acquaint them therewith.

According to the Order of yesterday, the amendment made by the Legislative Council to—The Bill in addition to Chapter 101, Title xxii, of the Revised Statutes, “Of the Sea and River Fisheries,”—was read a third time.

Resolved, That the House do concur therein.

Ordered, That Mr. Young return the Bill, with the amendment, to the Council, and acquaint them therewith.

On motion of Mr. M'Phelim,

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency may be pleased to cause to be laid before this House—Copies of all Correspondence between the Government and the Deputy Treasurer at Newcastle, in the County of Northumberland, previous to the last General Election, and in any way connected with the resignation or contemplated resignation of that officer, or his re-appointment to the said office.

Ordered, That Mr. M'Phelim, Mr. Williston, and Mr. Vail, be a Committee to wait upon His Excellency with the Address.

On motion of Mr. Skinner,

Resolved, That the House do now go into Committee of the whole, and resume the consideration of—A Bill further to amend an Act to regulate the qualifications of Practitioners of Medicine and Surgery, and to provide a Medical Council of Health in the Province of New Brunswick.

To which Mr. Cudlip moved as an amendment—To expunge the word “now,” and substitute the words “this day three months.”

Upon the question for the amended motion, it was decided in the negative; and

The question being then put upon the original Resolution, it was carried in the affirmative; and

The House again went into Committee of the whole on the said Bill.

Mr. Stevens in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to—

The Bill in addition to and in amendment of the Acts imposing Duties for raising a Revenue; and in amendment of an Act passed in the nineteenth year of Her present Majesty's Reign, intituled "An Act to levy an Impost for Railway purposes."

On motion of Mr. Costigan,

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to cause to be laid before this House—Copies of all Papers and Correspondence between Florent Fournier, and John Costello, Esquires, and the Chief Commissioner of the Board of Works, relative to the claim of Nazaie Marcure, for building a Bridge at Trout River, in the County of Victoria.

Ordered, That Mr. Costigan, Mr. Stevens, and Mr. Young, be a Committee to wait upon His Excellency with the Address.

A Message from His Excellency the Lieutenant Governor, by the Gentleman Usher of the Black Rod, requiring the immediate attendance of the House in the Council Chamber.

The House attended, and being returned—

The Honorable Mr. Speaker informed the House, that in pursuance of His Excellency's pleasure, signified by the Gentleman Usher of the Black Rod, the House attended His Excellency in the Council Chamber, when he addressed His Excellency as followeth:—

"May it please Your Excellency,

"The House of Assembly have passed—

"A Bill in addition to and in amendment of the Acts imposing Duties for raising a Revenue; and in amendment of an Act passed in the nineteenth year of Her present Majesty's Reign, intituled 'An Act to levy an Impost for Railway purposes.'"

"Which Bill, in the name and on behalf of the Loyal Commons of New Brunswick, I now present to Your Excellency, and request Your Excellency's assent thereto;" and

That His Excellency was then pleased to give his assent to the Bill thus presented.

On motion of Mr. Grimmer,

Whereas the practice at present adopted by the Crown Land Department, of inserting advertisements and other notices in many of the public papers, is unnecessarily expensive; and whereas the Royal Gazette, being largely circulated in all the Counties of the Province, is a sufficient medium for such advertising; therefore

Resolved, That in the opinion of this House, it is advisable that the newspaper advertising of the said Department shall henceforth be confined to the Royal Gazette.

To which Mr. Allen moved as an amendment—

To expunge therefrom all after the word “Resolved,” and substitute as follows:—

“That in the opinion of this House, it is advisable that the newspaper advertising of the said Department shall henceforth be confined to the Royal Gazette; and further that the printing of the Blank Forms and Reports of the Public Departments shall be confined to the Royal Gazette, or be done by public Tender and Contract.”

And the question being put upon the proposed amendment, it was carried in the affirmative, and the Resolution, as amended, agreed to.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to—

The Bill to amend Chapter 45, Title vi, of the Revised Statutes, “Of Municipalities,” as relates to the Council and its Officers,

Without making any amendment thereto.

And that the Council had also agreed to—

The Bill to consolidate and amend the Laws relating to Highways,

With certain amendments, to which they desire the concurrence of the Assembly.

The amendments made by the Council to this Bill were then severally read a first time.

On motion of Mr. Young,

That a Bill to erect part of the County of Gloucester into a separate and distinct County, be now read a third time.

And upon the question, the House divided as follows:—

YEAS.

Hon. Mr. Smith,	Mr. Landry,
Hon. Mr. Watters,	Young,
Hon. Mr. McMillan,	Crocker,
Mr. Meahan,	Montgomery,
Raymond,	Anglin.
Costigan,	

NAYS.

Hon. Mr. Tilley,	Mr. Munro,
Hon. Mr. Perley,	S. H. Gilbert,
Mr. Stevens,	W. J. Gilbert,
Vail,	Fisher,
McClelan,	Ryan,
Stiles,	Jordan,
Allen,	Grimmer,
Glasier,	Gillmor,
Farris,	Boyd.

Whereupon it was decided in the negative.

On motion of the Honorable Mr. Smith,

The House again went into Committee of the whole on—A Bill relating to Banks.

Mr. S. H. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Mr. M'Clelan moved for leave to bring in—A Bill to provide for the recovery of Debts by Foreign attachment or Trustee process.

Leave granted.

The said Bill being brought in was read a first time.

The House adjourned until to-morrow morning at 10 o'clock.

Saturday, 12th April, 1862.

Prayers.

Read a second time—

A Bill for the recovery of Debts by Foreign attachment or Trustee process.

On motion of Mr. Stevens,

That—The Bill to consolidate and amend the Laws relating to Highways— as amended by the Legislative Council, be now read a second time.

And upon the question, it was decided in the negative.

Mr. Cudlip, Chairman of the Committee appointed to try the matters set forth in the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and others, against the election and return of William Lindsay, Esquire, as a Member for the County of Carleton, reports to the House—

“That the Committee met yesterday the 11th day of April instant, at the hour of 7 o'clock, P. M., pursuant to the hour of their adjournment; that Charles N. Skinner, Esquire, a Member of the said Committee, being absent from sickness, they continued together for the space of one hour thereafter, and then adjourned over until the hour of 11 o'clock, A. M., this (Saturday) morning, and that he was directed to report the same to the House;” whereupon

Resolved, That the said Charles N. Skinner, Esquire, be excused for such non-attendance until the hour of 11 o'clock this morning, to which time the Committee have adjourned.

On motion of the Honorable Mr. Steadman,

The House went into Committee of the whole on—A Bill sent down from the Legislative Council, intituled “An Act to incorporate the Elgin Gold Quartz Mining Company.”

The Honorable Mr. Watters in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill read a third time on Monday next.

On motion of Mr. Fisher,

The House again went into Committee of the whole on—A Bill relating to Corporations.

Mr. Grimmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them—

It was moved—That the tenth Section thereof, adopted by the House when in Committee of the whole on the Bill on the 18th day of March instant, and which provides that—

“The stockholders of the said Company shall be chargeable in their private

and individual capacity, and shall be holden for the payment of all debts at any time due from the said Corporation, or damages sustained by default or neglect of the said Corporation, or their agents or servants, in proportion to the stock they respectively hold," &c. be reconsidered.

Upon the question, it was carried in the affirmative;

And the said Section being then again under their consideration—

It was moved—To expunge the same, and adopt the Section as it originally stood in the Bill, viz:—

“10. The joint stock and property of the Corporation shall be alone responsible for the debts and engagements of the Company.”

Upon the question, the Committee divided as follows:—

YEAS.		NAYS.	
Hon. Mr. Watters,	Mr. Glasier,	Hon. Mr. Speaker,	Mr. Montgomery,
Hon. Mr. Steadman,	Lindsay,	Hon. Mr. Tilley,	S. H. Gilbert,
Mr. Meahan,	Munro,	Hon. Mr. Perley,	W. J. Gilbert,
Williston,	DesBrisay,	Mr. Kerr,	Ryan,
Landry,	Dr. Dow,	Young,	Boyd.
M ^c Clelan,	Cudlip,	Farris,	
Stiles,	Fisher,		
Scovil,	Gillmor.		

And it was thereupon carried in the affirmative, and this Section now adopted.

That the Committee then having gone through the Bill, after making amendments thereto, had agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

On motion of the Honorable Mr. Tilley,

The House again went into Committee of the whole on—A Bill in addition to and in amendment of an Act intituled “An Act establishing and maintaining a General Public Hospital in the City and County of Saint John.”

Mr. S. H. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

Mr. Stevens moved for leave to bring in—A Bill in amendment and consolidation of the Laws relating to Highways.

Leave granted.

The said Bill being brought in was read a first and second times.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to—

The Bill to incorporate the Williams Mining Company: and
The Bill to incorporate the Caledonia Coal and Mining Company;

With certain amendments, to which they desire the concurrence of the Assembly.

And he further informed the House that the Council had passed—

A Bill intituled “An Act to incorporate the New Brunswick Land, Mining, Emigration, and Agency Company;”

To which they also desire the concurrence of the Assembly.

This Bill sent down from the Council, was then read a first time.

The amendment made by the Council to—The Bill to incorporate the Williams Mining Company—was read a third time, and is as follows:—

At A, Section 6, insert the following words—“and a certificate thereof verified by oath of the President or Treasurer of the Company, shall be filed in the Office of the Register of Deeds for the County.”

Ordered, That this Bill, as amended by the Legislative Council, stand for a third reading on Monday next.

The amendments made by the Council to—The Bill to incorporate the Caledonia Coal and Mining Company—were severally read a first and second times, and are as follow:—

At A, Section 1, expunge the word “Caledonia,” and insert the word “Baltimore.”

At B, Section 6, add the following words—“and five per cent. of the capital stock shall be actually paid up, and a certificate thereof verified by oath of the President or Treasurer of the Company, shall be filed in the Office of the Register of Deeds for the County.”

At C, in the Title of the Bill, expunge the word “Caledonia,” and insert the word “Baltimore.”

Ordered, That this Bill, as amended by the Legislative Council, stand for a third reading on Monday next.

On motion of Mr. M'Phelim,

The House again went into Committee of the whole on—A Bill to increase the representation of certain Counties.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, the following Resolution was moved:—

“*Resolved*, That the further consideration of this Bill be postponed for three months.”

And upon the question for adopting the same, the Committee divided as follows:—

YEAS.

Hon. Mr. Speaker,	Skinner,
Hon. Mr. Tilley,	Crocker,
Hon. Mr. Smith,	Allen,
Hon. Mr. Watters,	Montgomery,
Hon. Mr. M'Millan,	DesBrisay,
Mr. Kerr,	Dr. Dow,
Stevens,	Jordan,
Landry,	Grimmer,
Young,	Gillmor,
M'Clelan,	Boyd.

NAYS.

Hon. Mr. Steadman,	Mr. Glasier,
Hon. Mr. Perley,	Farris,
Mr. Meahan,	Lindsay,
Williston,	Munro,
Costigan,	Anglin,
M'Phelim,	S. H. Gilbert,
Stiles,	W. J. Gilbert,
Seovil,	Ryan.

Whereupon it was carried in the affirmative.

Ordered, That the Report be accepted, and the further consideration of the said Bill accordingly postponed.

On motion of the Honorable Mr. Tilley,

The House went into Committee of the whole on—A Bill to repeal an Act to authorize the extension of King Street, in that part of the City of Saint John called Carleton.

Mr. Williston in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill before them, had passed the following Resolution:—

“*Resolved*, That the further consideration of this Bill be postponed for three months.”

Ordered, That the Report be accepted, and the further consideration of the said Bill accordingly postponed.

On motion of Mr. Cudlip,

Resolved, That the House do now go into Committee of the whole in further consideration of—A Bill to explain and amend an Act intituled “An Act to authorize the extension of King Street, in that part of the City of Saint John called Carleton.”

To which Mr. Anglin moved as an amendment—To expunge the word “now,” and substitute those “this day three months.”

And upon the question for the amendment, it was carried in the affirmative, and the consideration of the said Bill accordingly postponed.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill to vest the appointment of the Chief of Police and Police Clerk of the City of Saint John, in the Common Council, and for other purposes relating to the Police of the said City.

The Honorable Mr. Steadman in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made amendments thereto, and then agreed to the same, under the Title of—

A Bill relating to the Police Office in the City of Saint John.

Ordered, That the Report be accepted, and the Bill, as amended, engrossed under the amended Title.

Mr. Lindsay, from the Committee appointed on the 25th day of February last, to examine into the provisions of a Bill relating to the Sales of Lands for non-payment of Taxes, submitted their Report; and he having read the same, it was handed in at the Clerk's Table, and there again read, and is as follows:—

“The Committee to whom was referred the Bill relating to Sales of Lands for non-payment of Taxes, report—That they have had the matter under their consideration, and recommend certain amendments to the Bill, with an amended Title as follows:—A Bill to amend the Revised Statutes, Chapter 53, ‘Of Rates and Taxes.’”

Respectfully submitted.

WILLIAM LINDSAY,
GEORGE KERR,
JOHN C. ALLEN,
A. H. GILLMOR, JR.
JOHN W. CUDLIP.

Committee Room, 12th April 1862.”

Ordered, That the Report be accepted.

Mr. Williston, from the Committee on Fisheries, submits a further Report on matters referred for their consideration ; and he having read the same, it was handed in at the Clerk's Table, where it was again read, and is as follows :—

“ The Committee appointed on the 12th ultimo, to take into consideration all matters relating to the Fisheries of the Province, having had before them several matters connected therewith, and having examined the same, beg to make the following Report, viz :—

“ Your Committee have had before them the Petition of Alexander M' Muir, Henry Vye, Joseph Bateman, and thirty five others, inhabitants of Northumberland, praying that the time limited by Law for catching Gaspereau in the River Miramichi, may be extended : The Gaspereau fishery is carried on in the County of Northumberland to a very great extent, and yield an important article of export, and employ a number of men in its prosecution.

“ The Gaspereau come into the River in the latter part of May and remain until July, when they pass up the River to the Lakes on the head waters thereof, where they deposit their spawn ; that the longer the fish remain in the River before passing up to the Spawning Grounds, they become inferior in quality, and less valuable as an article of export. In some years, these fish enter the River much later than at others, and it would appear only reasonable that in such years the time of fishing should be extended ; the time now limited for the fishing expires on the first July in each year, and is regulated by the General Sessions under the existing Law, and is under the control of the Warden of the County under such regulations : The Committee cannot recommend Legislation on the subject, and thereby take the matter out of the hands of the local authorities, at the same time they would recommend the Sessions to give the Warden discretionary authority to permit the fishing to be prosecuted at such seasons as the fish arrive late in the River, not however later than the 10th July in such years.

“ Your Committee have also had before them the Petition of Michael Hackett, William Walls, Robert Davidson, John Fearon, George Cliff, and others, inhabitants of Derby and Nelson, in the County of Northumberland, praying that such measures may be adopted as will compel the Boom Company to collect and raft their lumber within a certain time, so as not to interfere with the Fisheries : This Petition raises a very important question between the Lumbering and Fishing interests of the County, and if carried out to the extent contemplated, a conflict between these interests must be the result : However anxious your Committee are to encourage and protect the Fisheries, still the lumbering interest cannot be ignored, both should be prosecuted with as little injury to each other as possible : The Boom Company have power to make Bye Laws for the management of the Boom, and the Sessions of the County have power to regulate the Fisheries. Your Committee feel confident that these two bodies will so regulate the prosecution of their respective operations as will not lead to injury to either. Your Committee, under the circumstances, recommend the Petitioners to the Sessions of the County, who have power to deal fairly with their Petition.

“ Your Committee have also had before them the Petition of C. Botsford, Charles Murray, William Mott, J. M'Beath, Neil M'Leod, Alexander M'Kendrick, Peter Adams, D. Ritchie, Alexander Chamberlain, David O'Keefe, J. S. Morse, and forty others, of Restigouche, praying for amendment of Section 10, Chapter 101, Title xxii, of the Revised Statutes, ' Of the Sea and River Fisheries,' as will prevent a desecration of the Sabbath : Also of the Reverend Thomas Nicholson, Reverend William Murray, Reverend

P. J. Lousier, Reverend Alexander Farquharson, George Gordon, P. Doyle, John Cook, John L. Barberie, H. Montgomery, Esquire, and one hundred and fifty seven others, of Restigouche, praying that Section 10, Chapter 101, Title xxii, of the Revised Statutes, 'Of Sea and River Fisheries,' may be so amended as regards the taking of Salmon and Herrings, as will prevent the desecration of the Sabbath day. Your Committee have carefully examined the said Petition, and also the Section of the Act alluded to, and they agree with the Petitioners that the Fisheries on the Restigouche should be so regulated as to prevent the desecration of the Sabbath.

"It is quite clear to your Committee that all fishing should be suspended on the Sabbath day, by which means a moral wrong would be avoided and the fish be enabled without any impediment to find their way to their Spawning Grounds: Your Committee would refer the Petitioners to an Act passed in 1860, intituled "An Act relating to the Fisheries in the County of Restigouche," which will enable them to apply to the General or Special Sessions of the County, who are clothed with ample power to manage, preserve, and protect the Fisheries and prevent a continuation of fishing on the Sabbath day.

"Your Committee have learned with regret that the mode of taking Codfish by the bultow, cod seines, and jiggers, introduced by the French at Newfoundland, and by them carried on in that locality to a great extent, should have been introduced into this Province: Your Committee are informed that in the Bay of Fundy and Passamaquoddy, this mode of fishing is becoming very generally in use in those localities: Your Committee regret that this destructive practice has been adopted, as it will, if prosecuted to any great extent, gradually destroy the valuable Cod Fisheries of this Province. The destructive consequences of the system has been proved beyond a doubt in the Newfoundland Fisheries, and the subject is now occupying the serious attention of the Legislature of that Island. It is well known in Nova Scotia, that this mode of fishing has already partially injured the Fishery, and in some instances entirely destroyed them; that the practice of throwing overboard the offal of the fish on the fishing grounds, and the use of the bultow or set line, by which the fish are caught during the spawning season, are the primary causes which have produced the above effects. So alive are the American Government to this subject, that a Bill for a Joint Commission for the preservation of the Atlantic Fisheries, has been reported to the United States Senate, which authorizes the President to appoint a Commissioner to meet such Commissioners as Great Britain and France may appoint, to form a Joint Commission, to frame measures to protect the Fisheries on the coast of Newfoundland and North America, against deterioration and destruction by means of set lines on the Spawning Banks, and other destructive practices, and the sum of three thousand dollars has been appropriated for that purpose; and your Committee are led to believe that the British and French Governments have already or are about to appoint, a Joint Commission to supervise the working of the Fishery Treaties between the British and French Governments, and adopt measures to preserve this valuable branch of industry and traffic from total destruction; and that if the French Government could be induced to abandon the use of "bultows," it would be conferring an immense benefit on the Fisheries and the trade of Newfoundland.

"With these facts before our eyes, it would be well for those engaged in the valuable Cod Fisheries of this Province, to cease from using this engine of destruction, which your Committee fear will ultimately lead to an annihilation of them; and your Committee are most desirous that such measures

may be adopted through the joint efforts of the Commission, as will preserve and protect the Deep Sea Fisheries of this Province.

All of which is respectfully submitted.

EDWARD WILLISTON,
A. R. McCLELAN,
ROBERT YOUNG,
JOHN W. CUDLIP,
JAMES BOYD.

“ Committee Room, 9th April, 1862.”

Ordered, That the Report be accepted.

On motion of Mr. Stevens,

Resolved, That the House do now go into Committee of the whole in further consideration of—A Bill to repeal Act 24th Victoria, Chapter 19, imposing a Tax on unimproved granted Lands.

To which Mr. Crocker moved as an amendment—

To expunge the word “now,” and substitute those “this day three months.”

Upon the question for adopting the amendment, the House divided as follows:—

YEAS.

Hon. Mr. Smith,	Mr. Farris,
Hon. Mr. Watters,	Lindsay,
Mr. Kerr,	Munro,
Meahan,	Montgomery,
Williston,	DesBrisay,
Raymond,	Dr. Dow,
Costigan,	Anglin,
Landry,	S. H. Gilbert,
Young,	Ryan,
Skinner,	Cudlip,
M·Phelim,	Jordan,
Crocker,	Grimmer.
Scovil,	

NAYS.

Hon. Mr. Perley,	Mr. W. J. Gilbert,
Mr. Stevens,	Fisher,
Stiles,	Gillmor,
Allen,	Boyd.
Glasier,	

And so it was carried in the affirmative, and the consideration of the said Bill accordingly postponed.

On motion of Mr. DesBrisay,

Resolved, That the Statement shewing amounts of Instalments due on Crown Land Sales up to the 31st day of October last, be printed in the Daily Journals.

And upon the question for sustaining the said Resolution, the House divided as follows:—

YEAS.

Mr. DesBrisay,	Mr. Crocker.
----------------	--------------

NAYS.

Hon. Mr. Tilley,	Mr. Allen,
Hon. Mr. Smith,	Farris,
Hon. Mr. Perley,	Montgomery,
Mr. Kerr,	Anglin,
Stevens,	S. H. Gilbert,
Raymond,	W. J. Gilbert,
Costigan,	Ryan,
Young,	Cudlip,
Skinner,	Jordan,
Stiles,	Grimmer.

Whereupon it was decided in the negative.

Mr. Ryan moved for leave to bring in—A Bill to increase the representation of King's County.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Allen moved for leave to bring in—A Bill relating to Insolvent Debtors.

Leave granted.

The said Bill being brought in was read a first time.

The House adjourned until to-morrow morning at 10 o'clock.

Monday, 14th April, 1862.

Prayers.

Read a second time—

A Bill to increase the representation of King's County: and

A Bill relating to Insolvent Debtors: also

A Bill sent down from the Legislative Council, intituled "An Act to incorporate the New Brunswick Land, Mining, Emigration, and Agency Company."

Read a third time as engrossed.

A Bill relating to the Police Office of the City of Saint John.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Watters take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill in addition to and in amendment of an Act intituled "An Act establishing and maintaining a General Public Hospital in the City or County of Saint John."

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Tilley take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill relating to Corporations.

Resolved, That the Bill do pass.

Ordered, That Mr. Fisher take the said Bill to the Council, and desire their concurrence thereto.

According to the Order of Saturday last,—a Bill sent down from the Legislative Council, intituled "An Act to incorporate the Elgin Gold Quartz Mining Company," was read a third time.

Resolved, That the House do agree thereto.

Ordered, That Mr. M'Clelan return the Bill to the Council, and acquaint them therewith.

According to the Order of Saturday last, the amendment made by the Legislative Council to—The Bill to incorporate the Williams Mining Company,—was read a third time.

Resolved, That the House do concur therein.

Ordered, That the Honorable Mr. Tilley return the Bill, with the amendment, to the Council, and acquaint them therewith.

According to the Order of Saturday last, the amendments made by the Legislative Council to—The Bill to incorporate the Caledonia Coal and Mining Company,—were severally read a third time.

Resolved, That the House do concur therein.

Ordered, That Mr. M'Clelan return the Bill, with the amendments, to the Council, and acquaint them therewith.

On motion of Mr. Williston,

The amendments made by the Legislative Council to—The Bill to incorporate the Cain's River Boom Company,—were severally read a third time.

Resolved, That the House do concur therein.

Ordered, That Mr. Williston return the Bill, with the amendments, to the Council, and acquaint them therewith.

Mr. Lindsay moved for leave to bring in—A Bill to increase the representation of the County of Carleton.

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Cudlip,

The House went into Committee of the whole on—A Bill to provide for the erection of a City Hall in the City of Saint John.

Mr. Allen in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

On motion of Mr. Allen,

The House went into Committee of the whole on—A Bill relating to levying, assessing and collecting of Rates in the City of Fredericton.

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill before them, and agreed to several Sections, proceeded to the twelfth Section thereof, and which is as followeth :—

“ 12. If any person assessed under and by virtue of this or any other Act of Assembly made or to be made, shall not pay the amount for which he is liable *either on his own account or in a representative capacity, or of the personal or legal representative of any person assessed, in case of the death of such person,* under such assessment at the expiration of the time mentioned in the said demand of the Rates or Taxes, the City Treasurer may issue Execution (A) against the person so assessed, *or the person or legal representative, as the case may be,* which Execution may be executed by any of the City Constables, according to the terms thereof; provided always, that proof of the service of the notice of demand of the Rates or Taxes, shall be first verified by the person who served such notice before the Mayor, or in his absence, any Justice of the Peace for the City of Fredericton.”

When it was moved to expunge therefrom the words—

“ Either on his own account or in a representative capacity, or of the personal or legal representative of any person assessed, in case of the death of such person,” as also the words “ or the personal or legal representative, as the case may be.”

And upon the question for adopting the amendment, the Committee divided—
YEAS 11. NAYS 9.

Whereupon it was carried in the affirmative, and those words expunged, and the Section, as amended, agreed to.

That the Committee then went through the remaining Sections of the Bill, and after making an amendment thereto, had agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to—

The Bill relating to lands, tenements and hereditaments held for public uses by the Justices of the Peace of the several Counties in this Province: and

The Bill to incorporate the Union Iron Works Company ;

Without making any amendments thereto.

On motion of the Honorable Mr. Tilley,

That the House proceed to the Order of the Day of the 10th day of April instant, to go into Committee of the whole in consideration of the Supply granted to Her Majesty.

The Order of the Day being read, the House according thereto, resolved itself into said Committee.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee proceeding in the business referred to them, had passed the following Resolutions:—

1. *Resolved*, That a sum not exceeding Twenty three thousand eight hundred and thirty dollars be granted to His Excellency the Lieutenant Governor, to provide for the Officers and Contingent Expenses of the Legislature, including Legislative Library and Printing.

2. *Resolved*, That a sum not exceeding Five hundred and forty dollars be granted to His Excellency the Lieutenant Governor, to provide for the Clerk of the Crown, Usher of the Supreme Court and Court of Equity, and Chambers.

3. *Resolved*, That a sum not exceeding Twenty nine thousand two hundred and five dollars be granted to His Excellency the Lieutenant Governor, to defray the expenses of the Collection and Protection of the Revenue, and of the Controller and Customs Department.

4. *Resolved*, That a sum not exceeding Twenty four thousand dollars be granted to His Excellency the Lieutenant Governor, to meet any deficiency of Revenue in the Post Office Department.

5. *Resolved*, That a sum not exceeding Sixty thousand dollars be granted to His Excellency the Lieutenant Governor, to provide for the repairs of the Great Roads of the Province, and Bridges thereon.

And the Chairman then further reported, that he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted ; and

On motion of the Honorable Mr. Tilley ; further

Ordered, That the House do to-morrow, at the hour of 12 o'clock at noon, again go into Committee of the whole, and resume the consideration of the Supply granted to Her Majesty.

Mr. Costigan, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with an Address of the 11th day of April instant, for Copies of Papers and Correspondence to be laid before the House relative to the claim of Nazaie Marcure for building a Bridge at Trout River, in the County of Victoria, reported—That they had attended thereto, and His Excellency was pleased to say—That the wishes of the House should be complied with.

Mr. Cudlip moved for leave to bring in—A Bill to vest the management of the Harbour of Saint John in Commissioners.

Leave granted.

The said Bill being brought in was read a first time.

Mr. Cudlip, Chairman of the Committee appointed to try the matters set forth in the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and others, against the election and return of William Lindsay, Esquire, as a Member for the County of Carleton, reports—

“That the Committee met this day at 9 o'clock, A. M. pursuant to their hour of adjournment; that Robert Young, Esquire, a Member of the said Committee, being absent from sickness, they continued together for the space of one hour thereafter, and then adjourned over until the hour of 9 o'clock, A. M. to-morrow, Tuesday, 15th April instant; and that he was directed to report the same to the House.”

Resolved, That the said Robert Young, Esquire, be excused until the hour of 9 o'clock, A. M. to-morrow, to which hour the Committee have adjourned.

The House adjourned until to-morrow morning at 10 o'clock.

Tuesday, 15th April, 1862.

Prayers.

Read a second time—

A Bill to increase the representation of the County of Carleton: and

A Bill to vest the management of the Harbour of Saint John in Commissioners.

Read a third time as engrossed,

A Bill relating to the levying, assessing and collecting of Rates in the City of Fredericton.

Resolved, That the Bill do pass.

Ordered, That Mr. Allen take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to provide for the erection of a City Hall in the City of Saint John.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Watters take the said Bill to the Council, and desire their concurrence thereto.

On motion of Mr. M'Phelim,

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to cause to be laid before this House—Copies of all Petitions, Correspondence and

Reports of the District Inspector, in any way relating to a claim of Melam Chace, for remuneration for having taught a School in the Parish of Wellington, in the County of Kent, in the years 1860 and 1861.

Ordered, That Mr. M'Phelim, Mr. Scovil, and Mr. Williston, be a Committee to wait upon His Excellency with the Address.

On motion of Mr. Munro,

The House went into Committee of the whole on—A Bill to amend Chapter 5, Title iii, of the Revised Statutes, "Of the Territorial and Casual Revenue."

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, the following was moved:—

"*Resolved*, That the further consideration of the Bill be postponed for three months."

And upon the question for sustaining the said Resolution, the Committee divided—

YEAS 11.

NAYS 11.

And the division being equal, the Chairman had decided it in the negative.

That the Committee then had the first Section of the Bill before them, and which is as followeth:—

"1. That so much of Section 6, Chapter 5, Title iii, of the Revised Statutes, as relates to the sale of Lumber Licenses wholly by Public Auction, be and the same is hereby repealed."

Upon the question for adopting the same, the Committee again divided—

YEAS 14.

NAYS 13.

And it was thereupon carried in the affirmative; and the same being agreed to—

The Committee proceeded to the second Section of the Bill, and which is as followeth:—

"2. That from and after the first day of May 1863, all applications for License to cut and carry away Lumber from Crown Lands in this Province, received at the Crown Land Office between the first day of May and the week appointed for the General Annual Sale of Lumber Berths in the month of July in each and every year, such applications being for Lands not under License the previous year, shall be granted to the first applicant on the payment of — dollars mileage, provided there be only one application for the same ground the same day, and that no one application be for less than two, or more than six square miles."

And upon the question for adopting the same, the Committee divided as follows:—

YEAS.

NAYS.

Hon. Mr. Watters,	Mr. Lindsay,
Hon. Mr. Steadman,	Munro,
Hon. Mr. Hatheway,	Dr. Dow,
Hon. Mr. Perley,	Ryan,
Mr. Meahan,	Jordan,
Raymond,	Grimmer,
Costigan,	Gillmor,
Young,	Boyd.
Stiles,	

Mr. Kerr,	Mr. Glasier,
Williston,	Farris,
Vail,	Montgomery,
Landry,	DesBrisay,
M'Phelim,	Anglin,
Crocker,	S. H. Gilbert,
Scovil,	W. J. Gilbert.

Whereupon it was carried in the affirmative; and the Section being agreed to—

It was first moved—That the blank be filled up with the sum of *eight dollars*; when

A motion was made—That the same be filled up with the sum of *four dollars*.

And the question being put upon the amount last named, the Committee divided as follows:—

YEAS.

Mr. Kerr,	Mr. Crocker,
Meahan,	Scovil,
Williston,	Glazier,
Vail,	Farris,
Raymond,	DesBrisay,
Costigan,	S. H. Gilbert,
Landry,	W. J. Gilbert,
Young,	Gillmor.

NAYS.

Hon. Mr. Tilley,	Mr. Munro,
Hon. Mr. Watters,	Montgomery,
Hon. Mr. Steadman,	Dr. Dow,
Hon. Mr. Hatheway,	Anglin,
Hon. Mr. Perley,	Jordan,
Mr. Stiles,	Boyd.
Lindsay,	

Whereupon it was carried in the affirmative; and the said blank filled up with that sum.

That the Committee then proceeded to the seventh Section, and which is as followeth:—

“7. That when the occupier of a Licensed Lumber Berth, not less than three square miles, on any of the Streams of this Province, shall incur heavy expenditure in rendering such Stream navigable, for the purpose of driving Logs or Lumber to Market, and shall prove such expenditure and the amount thereof, to the satisfaction of the Surveyor General, either by the Certificate of the Local Deputy of the District in which such Lumber Berth is situated, or by the affidavit of two disinterested persons cognizant of the facts, before a Justice of the Peace of the County containing such Lumber Berth, then it shall be lawful for the Surveyor General to continue to such Licensee the occupation of such Lumber Berth from one to three years, in proportion to the amount expended in rendering such Stream navigable, in manner following, that is to say:—For an expenditure of over one hundred dollars, an occupation of one year longer than the term for which the License was granted; for an expenditure of over three hundred dollars, an occupation of two years longer than the term for which the License was granted; and for an expenditure of five hundred dollars and upwards, an occupation of three years more than the time for which the License was granted; such extended occupation of Licensed Lumber Berths to be subject to such annual mileage, and such Rules and Regulations as the Governor in Council may from time to time appoint.”

And upon the question for adopting this Section, the Committee again divided as follows:—

YEAS.

Hon. Mr. Tilley,	Mr. Stiles,
Hon. Mr. Steadman,	Lindsay,
Hon. Mr. Hatheway,	Munro,
Hon. Mr. Perley,	Dr. Dow,
Mr. Meahan,	Ryan,
Raymond,	Jordan,
Costigan,	Boyd.
Young,	

NAYS.

Mr. Kerr,	Mr. Montgomery,
Williston,	DesBrisay,
Vail,	Anglin,
Landry,	S. H. Gilbert,
Scovil,	W. J. Gilbert,
Farris,	Gillmor.

Whereupon it was carried in the affirmative, and this Section agreed to.

That the Committee then having gone through the remaining Sections of the Bill, had agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of the Honorable Mr. Tilley,

That the House proceed to the Order of yesterday, to go into Committee of the whole and resume the consideration of the Supply granted to Her Majesty.

The Order of the Day being read, the House according thereto resolved itself into said Committee.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee proceeding further in the business referred to them, had passed the following Resolutions:—

6. *Resolved,* That a sum not exceeding Forty thousand dollars be granted to His Excellency the Lieutenant Governor, for the construction and repairs of the Bye Roads of the Province.

7. *Resolved,* That a sum not exceeding Sixteen thousand dollars be granted to His Excellency the Lieutenant Governor, to provide for the completion of the Provincial Lunatic Asylum, repairs of the Public Buildings, and Steam Navigation.

8. *Resolved,* That a sum not exceeding — be granted to His Excellency the Lieutenant Governor, to provide for certain Educational purposes.

This Resolution being sustained—

A motion was made—To fill up the blank with the sum of \$12,390 ; when

It was moved—To reduce that amount by the sum of \$5,595, being for aid towards Denominational Schools, and that the said blank be filled up with the sum of \$6,795.

And the question being taken for filling up the blank with this sum, it was decided in the negative ; when

The question was put for filling up the blank with the said sum of \$12,390, and it was carried in the affirmative, and the said blank to be filled up with that sum.

9. *Resolved,* That a sum not exceeding Three hundred and twenty dollars be granted to His Excellency the Lieutenant Governor, for the protection of the Fisheries.

10. *Resolved,* That a sum not exceeding Six thousand dollars be granted to His Excellency the Lieutenant Governor, for the expenses of the Provincial Penitentiary.

11. *Resolved,* That a sum not exceeding Sixteen thousand dollars be granted to His Excellency the Lieutenant Governor, to provide for the expenses of the Lunatic Asylum.

12. *Resolved,* That a sum not exceeding Six hundred dollars be granted to His Excellency the Lieutenant Governor, to provide the usual allowance to certain Old Soldiers of the Revolutionary War, their Widows, and others.

13. *Resolved,* That a sum not exceeding Twelve hundred dollars be granted to His Excellency the Lieutenant Governor, for the relief of Indians.

14. *Resolved*, That a sum not exceeding Ten thousand dollars be granted to His Excellency the Lieutenant Governor, to meet the expenses of the Militia and Military.

15. *Resolved*, That a sum not exceeding six thousand dollars be granted to His Excellency the Lieutenant Governor, to meet unforeseen expenses during the current year.

Ordered, That the Report be accepted, and the Resolutions passed from time to time in Supply, adopted by the House.

Mr. Cudlip, Chairman of the Committee appointed to try the matters set forth in the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and others, against the election and return of William Lindsay, Esquire, as a Member for the County of Carleton, reports—

“That the Committee met this day, Tuesday, at the hour of 9 o'clock, A. M., pursuant to their hour of adjournment; that Charles N. Skinner, Esquire, a Member of the said Committee, being absent from illness, they continued together for the space of one hour thereafter, and then adjourned over until the hour of half-past 8 o'clock A. M., to-morrow, Wednesday; and that he was directed to report the same to the House.”

Resolved, That the said Charles N. Skinner, Esquire, be excused until the hour of half-past 8 o'clock A. M., to-morrow, to which hour the Committee have adjourned.

The House adjourned until to-morrow morning at 10 o'clock.

Wednesday, 16th April, 1862.

Prayers.

Read a third time as engrossed,

A Bill to amend Chapter 5, of Title iii, of the Revised Statutes, “Of the Territorial and Casual Revenue.”

Resolved, That the Bill do pass.

Ordered, That Mr. Munro take the said Bill to the Council and desire their concurrence thereto.

On motion of Mr. Stevens,

The House went into Committee of the whole on—A Bill in amendment and consolidation of the Laws relating to Highways.

The Honorable Mr. Steadman in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Vail,

The House again went into Committee of the whole on—A Bill in addition to an Act intituled “An Act to disqualify persons holding certain offices under Government from being elected or capable to hold Seats in the Assembly.”

Mr. W. J. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, and agreed to the first Section thereof—

The following was moved to be added as a second Section thereto, viz:—

“2. That any thing in the first Section of the said Act to the contrary notwithstanding, nothing therein contained shall prevent or be construed to prevent any of the officers in the said Section mentioned, from being a candidate, or from being elected or returned as a Member to serve in the Assembly of this Province, or sitting or voting therein, unless the whole emoluments of his office shall amount to the sum of one hundred pounds or upwards annually.”

And upon the question for adopting the same, it was decided in the negative.

That the Committee then proceeded in the Bill, and after making amendments thereto, had agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

On motion of the Honorable Mr. Smith,

The House went into Committee of the whole on—A Bill relating to Gold Mines.

Mr. Stevens in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

The Honorable Mr. Tilley, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House the following Documents, viz:—

Returns from the Mount Allison Wesleyan Academy for the year ending 31st October, 1861.

See Appendix.

Report of the Madras School, with Accounts of the Treasurer of the Madras Board for the year 1861.

See Appendix.

Report from Honorable James Davidson, relative to the Lazaretto at Tracadie, for the year 1861.

See Appendix.

Report from Medical Superintendent of Lunatic Asylum, for the year 1861.

See Appendix.

Statement of Receipts and Expenditures of the General Public Hospital Commissioners at St. John, for the year ending 31st December 1861.

See Appendix.

Return from Baptist Education Society, for the year 1861.

On motion of Mr. Fisher,

The House went into Committee of the whole on—A Bill relating to the University of New Brunswick.

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made an amendment thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

Read a third time as engrossed,

A Bill in amendment and consolidation of the Laws relating to Highways.

Resolved, That the Bill do pass.

Ordered, That Mr. Stevens take the said Bill to the Council, and desire their concurrence thereto.

On motion of the Honorable Mr. Steadman,

The House went into Committee of the whole on—A Bill sent down from the Legislative Council, intituled “An Act to incorporate the Alma Copper Mining Company.”

The Honorable Mr. Hatheway in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made an amendment thereto, and then agreed to the same.

Ordered, That the Report be accepted.

The amendment being then handed in at the Clerk’s Table, was there read a first time, and is as followeth :—

At A in Section 8, expunge the word “five,” and insert “ten.”

The said amendment was then read a second time.

Ordered, That the same be engrossed, and the Bill, as amended, read a third time to-morrow.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to the following Bills, viz :—

The Bill to amend an Act intituled “An Act to authorize the appointment of Commissioners in the United Kingdom and other parts of Her Majesty’s Dominions, and in the United States of America, to take Affidavits and acknowledgments of Deeds and other Instruments relating to matters in this Province :”

The Bill to continue the several Acts relating to the South West Boom Company :

The Bill in addition to an Act relating to the Savings Banks and other Provincial Liabilities : and

The Bill to provide for the erection of a City Hall in the City of Saint John ;

Without making any amendments thereto.

And that the Council had also agreed to—

The Bill for the alteration and amendment of the local government of the Parish of Portland, in the County of Saint John,

With certain amendments, to which they desire the concurrence of the Assembly.

The amendments made by the Council to this Bill were then severally read a first and second times, and are as follow :—

At A, Section 1, insert the words “for the Parish of Portland, in the City and County of Saint John.”

At B in the same Section, expunge the word "Parish," and insert the word "Town."

At C in the same Section, insert the words "three Commissioners for expending public grants for Bye Roads."

At D, Section 2, expunge the word "Parish," and insert the word "Town."

At E, Section 3, expunge the word "Parish," and insert the word "Town."

At F, Section 9, add the words "for the time being."

Ordered, That this Bill, as amended by the Legislative Council, stand for a third reading to-morrow.

On motion of the Honorable Mr. Watters,

The House again went into Committee of the whole on—A Bill relating to the Militia.

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

On motion of the Honorable Mr. Smith,

The House again went into Committee of the whole on—A Bill relating to Banks.

Mr. S. H. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them again under their consideration, had made further progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

The Honorable Mr. Tilley moved for leave to bring in—A Bill to provide for the repair and improvement of Roads and Bridges, and other Public Works and Services.

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Tilley also moved for leave to bring in—A Bill to provide for defraying certain expenses of the Civil Government of the Province.

Leave granted.

The said Bill being brought in was read a first time.

The Honorable Mr. Tilley also moved for leave to bring in—A Bill to explain an Act passed at the present Session, intituled "An Act in addition to and in amendment of the Acts imposing Duties for raising a Revenue; and in amendment of an Act passed in the nineteenth year of Her Majesty's Reign, intituled, 'An Act to levy an Impost for Railway purposes.'"

Leave granted.

The said Bill being brought in was read a first time.

On motion of Mr. Lindsay,

The House again went into Committee of the whole on—A Bill relating to sales of Lands for non-payment of Taxes.

Mr. Williston in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their further consideration, had made amendments thereto, and then agreed to the same, under the Title of—

A Bill to amend the Revised Statutes, Chapter 53, "Of Rates and Taxes."

Ordered, That the Report be accepted, and the Bill, as amended, engrossed under the amended Title.

The House adjourned until to-morrow morning at 9 o'clock.

Thursday, 17th April, 1862.

Prayers.

Read a second time the following Bills, viz:—

A Bill to provide for the repair and improvement of Roads and Bridges, and other Public Works and Services :

A Bill to provide for defraying certain expenses of the Civil Government of the Province : and

A Bill to explain an Act passed at the present Session, intituled "An Act in addition to and in amendment of the Acts imposing Duties for raising a Revenue, and in amendment of an Act passed in the nineteenth year of Her Majesty's Reign, intituled 'An Act to levy an Impost for Railway purposes.'"

Read a third time as engrossed,

A Bill in addition to an Act intituled "An Act to disqualify persons holding certain offices under Government from being elected or capable to hold Seats in the Assembly."

Resolved, That the Bill do pass.

Ordered, That Mr. Vail take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill relating to Gold Mines.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Smith take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill relating to the University of New Brunswick.

Resolved, That the Bill do pass.

Ordered, That Mr. Fisher take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to amend the Revised Statutes, Chapter 53, "Of Rates and Taxes."

Resolved, That the Bill do pass.

Ordered, That Mr. Lindsay take the said Bill to the Council, and desire their concurrence thereto.

According to the Order of yesterday—The Bill sent down from the Legislative Council, intituled "An Act to incorporate the Alma Copper Mining Company,"—as amended by this House, was read a third time.

Resolved, That the House do agree to the said Bill as amended ; and

Ordered, That the Honorable Mr. Steadman return the Bill to the Council, and acquaint them that this House had made an amendment thereto, and then agreed to the same, and request the concurrence of the Council to the said amendment.

According to the Order of yesterday, the amendments made by the Legislative Council to—The Bill for the alteration and amendment of the local government of the Parish of Portland, in the County of Saint John,—were severally read a third time.

Resolved, That the House do concur therein.

Ordered, That the Honorable Mr. Watters return the Bill, with the amendments, to the Council, and acquaint them therewith.

Read a third time as engrossed,
A Bill relating to the Militia.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Watters also take this Bill to the Council, and desire their concurrence thereto.

On motion of Mr. Skinner,

The House went into Committee of the whole on—A Bill relating to Judgments in Actions not Summary.

The Honorable Mr. Watters in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, the following was moved:—

“*Resolved*, That the further consideration of this Bill be postponed for three months.”

Upon the question for adopting the same, the Committee divided as follows:—

YEAS.

Hon. Mr. Speaker,	Mr. Glasier,
Hon. Mr. Perley,	DesBrisay,
Mr. Stevens,	W. J. Gilbert,
Williston,	Fisher,
Young,	Ryan,
Crocker,	Gillmor.
Scovil,	

NAYS.

Hon. Mr. Tilley,	Mr. Stiles,
Hon. Mr. Smith,	Allen,
Mr. Kerr,	Farris,
Vail,	Dr. Dow,
Costigan,	Anglin,
M'Clelan,	S. H. Gilbert,
Skinner,	Cudlip,
M'Phelim,	Jordan.

And it being thereupon decided in the negative ;

The Committee then proceeded in the Bill, and after making an amendment thereto, had agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

Mr. M'Clelan, by leave, presented the following Petitions, viz:—

From John C. Smith, Allan West, Barnaby H. Newcomb, and six others, Commissioners of Sewers for the Parish of Harvey, in the County of Albert ; and

From Edward Bulmer, John E. Peck, Reuben Calhoun, and four others, Proprietors of Marsh Lands at that place ;

Severally praying that a Bill to explain and amend Chapter 67, Title x, of Revised Statutes, “Of Sewers,” may pass into a Law ; which he severally read.

Ordered, That the said Petitions be received and lie on the Table.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to—

The Bill in addition to and in amendment of an Act intituled "An Act establishing and maintaining a General Public Hospital in the City or County of Saint John,"

Without making any amendment thereto.

And he further informed the House that the Council had passed—

A Bill intituled "An Act to continue an Act to incorporate the Courtney Bay Bridge Company ;"

To which they desire the concurrence of the Assembly.

This Bill sent down from the Legislative Council, was then read a first time.

On motion of Mr. Skinner,
Read a third time as engrossed,

A Bill further to amend an Act to regulate the qualifications of Practitioners in Medicine and Surgery, and to provide a Medical Council of Health in the Province of New Brunswick.

Upon the question for the final passing thereof, the House divided as follows :—

YEAS.

NAYS.

Mr. Kerr,
Stevens,
Williston,
Vail,
Costigan,
M'Clelan,
Skinner,
M'Phelim,
Stiles,
Allen,

Mr. Scovil,
Glasier,
DesBrisay,
Anglin,
S. H. Gilbert,
W. J. Gilbert,
Fisher,
Grimmer,
Boyd.

Hon. Mr. Smith,
Hon. Mr. Watters,
Hon. Mr. Steadman,
Hon. Mr. Hatheway,
Hon. Mr. Perley,
Mr. Meahan,

Mr. Young,
Crocker,
Lindsay,
Dr. Dow,
Jordan.

And so it was carried in the affirmative.

Resolved, thereupon, That the Bill do pass ; and

Ordered, That Mr. Skinner take the said Bill to the Council, and desire their concurrence thereto.

Mr. Allen, from the Committee appointed on the 9th day of April instant, to examine into a claim of Stephen Tracy, for Timber cut on the Canada Disputed Territory, submitted their Report ; and he having read the same, it was handed in at the Clerk's Table, where it was again read, and is as follows :—

"The Committee to whom was referred the Petition of Stephen Tracy, relative to a claim on the Canada Disputed Territory Fund, beg leave to report :—

"That having heard the Petitioner, and referred to the Report of the Commissioners appointed to enquire into the said Disputed Territory Fund, as published in the Appendix to the Legislative Council Journals for the year 1857, they find that the Petitioner cut on the Disputed Territory, under the authority of William Connell the licencee, and brought to Saint John in 1844, five hundred and eighty eight tons of timber, which was seized by the Crown, and released to the Petitioner on payment of a duty of three shillings a ton, amounting to £88 4s. ; that the Petitioner also paid in Canada on account of the timber the sum of £10, amounting in all to £98 4s. ; that

the stumpage or duty on timber cut on the Disputed Territory having been fixed at one shilling and eight pence per ton, there would be an excess of payment on the said timber by the Petitioner the sum of £49 4s. which he claimed before the Commissioners, and still claims.

“That the Commissioners in deciding upon the claims on the Fund, entertained the claims of such persons only as were recognized by either Province as licence holders, and therefore rejected the claim of the Petitioner.

“That in the year 1847, Messrs. W. & J. Connell brought to Saint John, three thousand and seventy three tons of timber, cut on the Disputed Territory, for the duty on which, at one shilling and eight pence per ton, a bond was given by Michael Fisher, Moses Tuck, and Harvey Garcelon, dated the 27th November 1848, and that the Commissioners have applied the excess of £49 4s., paid by the Petitioner on the timber cut by him in 1844, towards paying the bond given for the duties on the timber cut by W. & J. Connell three years afterwards.

“Your Committee are of opinion, that the said sum of £49 4s. should not have been applied towards the payment of the bond, and that the Petitioner is justly entitled to that amount.

“Respectfully submitted.

JOHN C. ALLEN,
GEORGE KERR,
A. H. GILLMOR, JR.

“Committee Room, 17th April, 1862.”

Ordered, That the Report be accepted.

On motion of the Honorable Mr. Smith,
The House again went into Committee of the whole on—A Bill relating to Banks.

Mr. S. H. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, the first Section thereof was under their consideration, and which is as followeth :—

“1. If any Bank or Branch of any Bank doing business in this Province, unless when authorized so to do under the provisions of this Act, shall at any time neglect or refuse to pay any of its Bank Bills on due presentation for payment of the same at its Banking House, or Branch Banking House, during their usual hours of business, or on due demand made during such hours of business, by some person legally authorized to make such demand, shall neglect or refuse to pay any deposit, and for the space of — days shall neglect to pay, or tender payment of such Bank Bills or deposits, after having had due notice of the name and place of residence of the person to whom such tender may be made, the holder of such Bank Bills, or the person entitled to receive such deposits, by Petition under oath setting forth the facts, may apply to a Judge of the Supreme Court of Judicature of this Province for a Summons, as hereinafter provided.”

To which it was moved as an amendment—To expunge the whole thereof, and substitute as follows :—

“That all incorporated Banks and Branch Banks in this Province, shall be subject to a periodical inspection by Commissioners to be appointed by the Lieutenant Governor in Council, under such rules and regulations as are hereinafter contained.”

And upon the question for adopting the same, the Committee divided as follows :—

YEAS.

Mr. Kerr, Williston, Vail, Costigan, M'Phelim, Crocker, Stiles,	Mr. Allen, Scovil, Glasier, DesBrisay, Anglin, W. J. Gilbert, Fisher.
---	---

NAYS.

Hon. Mr. Speaker, Hon. Mr. Tilley, Hon. Mr. Smith, Hon. Mr. Watters, Hon. Mr. M'Millan, Hon. Mr. Steadman, Hon. Mr. Hatheway, Hon. Mr. Perley, Mr. Landry, Young,	Mr. Skinner, Farris, Munro, Dr. Dow, Cudlip, Jordan, Grimmer, Gillmor, Boyd.
--	--

Whereupon it was decided in the negative; and

The question being then put upon the original Section; when
The Committee again divided as follows:—

YEAS.

Hon. Mr. Speaker, Hon. Mr. Tilley, Hon. Mr. Smith, Hon. Mr. Watters, Hon. Mr. M'Millan, Hon. Mr. Steadman, Hon. Mr. Hatheway, Hon. Mr. Perley, Mr. Landry, Young,	Mr. Skinner, Farris, Munro, Dr. Dow, Cudlip, Jordan, Grimmer, Gillmor, Boyd.
--	--

NAYS.

Mr. Kerr, Williston, Vail, Costigan, M'Phelim, Crocker, Stiles,	Mr. Allen, Scovil, Glasier, DesBrisay, Anglin, W. J. Gilbert, Fisher.
---	---

Whereupon it was carried in the affirmative, and the Section agreed to.

That the Committee then proceeding in the Bill, the following was moved as an additional Section thereto, viz:—

“15. Weekly balances made up to the Saturday evening in each week, by the Cashier of such Bank, or Branch thereof, on oath, to the Governor in Council, exhibiting the amount of Specie on hand, the amount of Bills in circulation, and the deposits.”

And upon the question for adopting this amendment, the Committee again divided as follows:—

YEAS.

Mr. Kerr, Meahan, Costigan, Skinner, M'Phelim, Stiles,	Mr. Allen, Glasier, Anglin, Fisher, Cudlip.
---	---

NAYS.

Hon. Mr. Speaker, Hon. Mr. Tilley, Hon. Mr. Smith, Hon. Mr. M'Millan, Hon. Mr. Steadman, Hon. Mr. Hatheway, Hon. Mr. Perley, Mr. Stevens, Williston,	Mr. Landry, Young, M'Clelan, Lindsay, Munro, W. J. Gilbert, Jordan, Boyd.
--	--

Whereupon it was decided in the negative.

That the Committee then having gone through the several Sections of the Bill, after making amendments thereto, had agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to—

The amendment sent up from the Assembly to—The Bill intituled “An Act to incorporate the Alma Mining Company.”

And that they had also agreed to—

The Bill relating to the Police Office of the City of Saint John, With an amendment, to which they desire the concurrence of the Assembly.

The amendment made by the Council to this Bill was read a first and second times, and is as followeth:—

At A, at the end of the Bill, add the following Section:—

“3. The Police of the said City shall prevent all trespassing on the Public Squares therein; and any goats or geese found at large on the Public Squares, or in any street within the said City on the eastern side of the Harbour, may be destroyed.”

Ordered, That this Bill, as amended by the Legislative Council, stand for a third reading on Saturday next.

On motion of Mr. Williston,

The House went into Committee of the whole on—A Bill further to amend Chapter 133, Title xxxiv, of the Revised Statutes, “Of Trespasses on lands, private property and lumber.”

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

The Honorable Mr. Hatheway, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House, in pursuance of an Address to His Excellency of the 11th day of April instant—

Copies of Correspondence and other Documents relative to the claim of Nazaie Marcure, for building a Bridge at Trout River, in the County of Victoria.

On motion of the Honorable Mr. Watters,

The House went into Committee of the whole on—A Bill in further amendment of the Law relating to Water Supply and Sewerage in the City of Saint John, and part of the Parish of Portland in the County of Saint John.

Mr. Williston in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made amendments thereto, and then agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

Mr. Ryan, from the Select Committee to examine into the claim of Isaac Foshay, for further remuneration for building a Bridge at Hampton Ferry, submitted their Report; and he having read the same, it was handed in at the Clerk's Table, where it was again read, and is as follows:—

“The Committee appointed on the 20th March last, and to whom was referred the Petition of Isaac Foshay, Contractor for building a Bridge at Hampton Ferry, praying to be further remunerated for extras, &c. &c., submit the following Report:—

“Your Committee having had the said claim under consideration, obtained all the testimony both oral and documentary, which the nature and position of the case admitted of at present; having had before them and consulted

the Honorable W. H. Steeves, late Chief Commissioner of Public Works, with whom the contract respecting the building of the said Bridge was first entered into and afterwards completed; having also the certificate and verbal declaration of George A. Morton, of King's County, the foreman employed in the erection and completion of the said Bridge; and having examined various other persons and papers, have at length concluded that, although they are satisfied from the said testimony, that the losses and damages (occasioned by delays and difficulties for which the said Isaac Foshay should not be held responsible,) exceed the amount hereinafter specified as justly due to the said Isaac Foshay; but inasmuch as any given data upon which the same could be ascertained have not been submitted to your Committee, they, in view of the fact, and confining their estimate to what they believe to be a reliable and just calculation, think that a sum not less than £350 should be paid to the said claimant, in satisfaction of the said application for losses and damages caused by delay.

"The only item in the account of said claimant for extras furnished to the said Bridge, not already satisfied, of which satisfactory evidence has been furnished, is a charge for riprapping 3750 square yards of embankment, for which he has received 1s. per square yard, and for which he seeks to receive 1s. per square yard additional.

"From the statement of Mr. Morton, this service cannot be done for less than 2s. 6d. or 3s. per square yard, and that 7s. 6d. has sometimes been paid; and although the embankment is not in accordance with the specification, yet as the diminished surface has lessened the number of yards, whereby a saving has been effected to the Government, and the work, from the evidence, stands and is likely to stand well, your Committee further recommend the additional sum of 1s. per square yard for the riprapping, amounting in the whole to £187 10s.; which sums, or \$2,150, your Committee consider justly due the said claimant, and recommend the appropriation of that amount, for the reasons and purposes aforesaid.

"All of which is respectfully submitted.

GEORGE RYAN, *Chairman.*

"Committee Room, 17th April, 1862."

Ordered, That the Report be accepted.

Mr. M'Phelim, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with an Address of the 15th day of April instant, for copies of all Petitions and other Documents relative to a claim of Melam Chace for remuneration for having taught a School in the Parish of Wellington, in the County of Kent, in the years 1860 and 1861, reported—That they had attended thereto, and His Excellency was pleased to say—That the wishes of the House would be attended to.

The House adjourned until Saturday morning next at 10 o'clock.

Saturday, 19th April, 1862.

Prayers.

Read a second time—

A Bill sent down from the Legislative Council, intituled "An Act to continue an Act to incorporate the Courtney Bay Bridge Company."

Read a third time as engrossed,
A Bill relating to Judgments in Actions not Summary.

Resolved, That the Bill do pass.

Ordered, That Mr. Skinner take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill further to amend Chapter 133, Title xxxiv, of the Revised Statutes,
"Of Trespasses on lands, private property, and lumber."

Resolved, That the Bill do pass.

Ordered, That Mr. Williston take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill in further amendment of the Law relating to Water Supply and Sewerage in the City of Saint John, and part of the Parish of Portland in the County of Saint John.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Watters take the said Bill to the Council, and desire their concurrence thereto.

According to the Order of Thursday last, the amendment made by the Legislative Council to—The Bill relating to the Police Office of the City of Saint John,—was read a third time.

Resolved, That the House do concur therein.

Ordered, That the Honorable Mr. Watters return this Bill, with the amendment, to the Council, and acquaint them therewith.

Mr. Cudlip, Chairman of the Committee appointed to try the matters set forth in the Petition of Peter R. M-Monagle, George T. Hartley, Gilbert Spurr, and others, against the election and return of William Lindsay, Esquire, as a Member for the County of Carleton, reports—

"That the Committee met on Thursday the 17th day of April instant, at the hour of 8 o'clock, p. m. pursuant to the hour of their adjournment; that Robert Young, Esquire, a Member of the said Committee, being absent, they continued together for the space of one hour thereafter, and then adjourned over until the hour of 11 o'clock, a. m. this day Saturday the 19th instant; and that he was directed to report the same to the House."

Resolved, That the said Robert Young, Esquire, be excused for such non-attendance until the hour of 11 o'clock, a. m. this day, to which hour the Committee had adjourned.

On motion of the Honorable Mr. Tilley,

The House went into Committee of the whole on—A Bill to explain an Act passed at the present Session, intituled "An Act in addition to and in amendment of the Acts imposing Duties for raising a Revenue; and in amendment of an Act passed in the nineteenth year of Her Majesty's Reign, intituled 'An Act to levy an Impost for Railway purposes.'"

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On like motion of the Honorable Mr. Tilley,

The House went into Committee of the whole on—A Bill to provide for the repair and improvement of Roads and Bridges, and other Public Works and Services.

Mr. W. J. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On like motion of the Honorable Mr. Tilley,

The House went into Committee of the whole on—A Bill to provide for defraying certain expenses of the Civil Government of the Province.

Mr. Cudlip in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Crocker,

The House went into Committee of the whole on—A Bill to amend Chapter 96 of the Revised Statutes, "Of the Survey and Exportation of Lumber."

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Costigan,

The House went into Committee of the whole on—The Report from the Chief Commissioner of the Board of Works,—laid before the House on the 22nd day of February last.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Report before them, that part thereof which refers to the erection of a Bridge over the River Tobique, was under their consideration, when the following Resolution was moved:—

"Whereas in the Estimates of the year 1860, provision was made for the erection of a Bridge across Tobique River, in the County of Victoria, to the extent of £900, which sum has not been expended towards the erection of the said Bridge, but has been devoted to other purposes; therefore

Resolved, As the opinion of this Committee that, an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to cause the said Bridge to be erected without further delay, and the amount so appropriated be paid so soon as the said Bridge is erected; and should any amount be required beyond the appropriation, that the amount of such increase be paid the next succeeding year after such erection."

To which it was moved as an amendment—To expunge the whole of the said Resolution, and substitute the following:—

Resolved, That the Bridge across the River Tobique, the erection of which was promised in the year 1860, should be constructed so soon as the state of the Provincial Finances will warrant the expenditure on that work, of the amount necessary for its completion."

And upon the question for adopting the amendment, the Committee divided as follows:—

YEAS.

Mr. Meahan, Williston, Raymond, Costigan, Stiles, Scovil, Glasier,	Mr. Munro, DesBrisay, Dr. Dow, Anglin, S. H. Gilbert, Fisher, Boyd.
--	---

NAYS.

Hon. Mr. Speaker, Hon. Mr. Tilley, Hon. Mr. Smith, Hon. Mr. Watters, Hon. Mr. M'Millan, Hon. Mr. Steadman, Hon. Mr. Hatheway, Hon. Mr. Perley, Mr. Kerr,	Mr. McClelan, Skinner, Farris, Montgomery, W. J. Gilbert, Ryan, Cudlip, Jordan.
--	--

Whereupon it was decided in the negative; and

The question being then put upon the original Resolution, and it was also decided in the negative.

On motion of the Honorable Mr. Smith,
Read a third time as engrossed,
A Bill relating to Banks; when

Mr. Fisher moved the following engrossed amendment, as an 18th Section, to be added thereto by way of Ryder:—

“18. The Cashier of every Bank or Branch Bank doing business in this Province shall, on the first Monday of every month, make up a Return on oath, of the state of the said Bank or Branch Bank, and forthwith transmit the same to the Provincial Secretary; which Return shall state the amount of the Gold and Silver Coins in the vaults of such Bank or Branch Bank; the amount of the Bills or Notes in circulation, and the deposits, either upon Interest or otherwise.”

The said amendment having had three several readings, and the question put thereon, it was agreed to by the House.

Resolved, That the Bill with the Ryder do pass.

Ordered, That the Honorable Mr. Smith take the same to the Council and desire their concurrence thereto.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to the following Bills, viz:—

The Bill in amendment and consolidation of the Laws relating to Highways:

The Bill to repeal part of Chapter 163 of the Revised Statutes, “Of Fees,” so far as the same relates to Fees on Patents, and to make other provisions in lieu thereof: and

The Bill relating to the Militia;

Without making any amendments thereto.

And that the Council had also agreed to—

The Bill relating to Corporations; and

The Bill further to amend an Act to regulate the qualifications of Practitioners in Medicine and Surgery, and to provide a Medical Council of Health in the Province of New Brunswick;

With certain amendments, to which they desire the concurrence of the Assembly.

The amendment made by the Council to—The Bill relating to Corporations,—was read a first and second times, and is as follows:—

At A, Section 9, add the following words:—“The Capital Stock held by any Shareholder in any such Company, at the time of making any call or assessment thereon, shall be liable to the payment thereof; and in case of non-payment of such call or assessment at the time when the same shall be made payable, the Directors are authorized to order a sale to be made of so many of the said shares as they may think necessary for the payment thereof, with interest and expenses: Such sale shall be made at auction, upon not less than thirty days' notice by the President, in some Newspaper published in the County of the place of business of such Corporation, and in case no Newspaper be published in such County, then in the Royal Gazette, and the Stock shall be transferred by the President and Secretary to the purchaser, who shall thereupon be entitled to a new certificate thereof; and the proceeds of such sale shall be applied towards paying the amount of such call or assessment with interest, and the costs, charges, and expenses of such notice, sale, and transfer, and the residue, if any, to the former owner.”

Ordered, That this Bill, as amended by the Legislative Council, stand for a third reading on Monday next.

The amendment made by the Council to—The Bill further to amend an Act to regulate the qualifications of Practitioners in Medicine and Surgery, and to provide a Medical Council of Health in the Province of New Brunswick,—was read a first and second times, and is as follows:—

At A, Section 2, strike out the remainder of the Bill.

Ordered, That this Bill, as amended by the Legislative Council, stand for a third reading on Monday next.

Mr. Cudlip, Chairman of the Committee appointed to try the matters set forth in the Petition of Peter R. M'Monagle, George T. Hartley, Gilbert Spurr, and others, against the election and return of William Lindsay, Esquire, as a Member for the County of Carleton, reports—

“That the Committee are unable to complete the investigation of the matters referred to them, and to make a final report during the present Session; and he was directed by the Committee to report the same to the House, and to make application for leave to adjourn over until the first Monday after the first day of the next Session of the General Assembly.”

Ordered, That the said Committee have permission to adjourn over until that period, then to meet and proceed in the investigation of the matters referred to their consideration.

Mr. Stiles, by leave, presented a Petition from Edward Stevens, D. H. Calhoun, Elias Bennett, Thomas Dobson, Winthrop Robinson, and eighty three others, proprietors of Dyke Marsh Lands and Lake and Bog Lands, in the County of Albert, against the passing of any Act relating to Sewers as will increase the powers now vested in the Commissioners; which he read.

Ordered, That the said Petition be received and lie on the Table.

The Honorable Mr. Smith moved for leave to bring in—A Bill to explain an Act intituled “An Act relating to the Boundary Line between the Provinces of New Brunswick and Nova Scotia.”

Leave granted.

The said Bill being brought in was read a first and second times.

On motion of Mr. Boyd,

Whereas it is the opinion of this House that the continuation of Grants to Denominational and Private Schools and Academies has had the effect of creating and encouraging sectarian jealousies, and has not been attended with that amount of benefit which should be commensurate with the amounts annually granted for such purposes ; therefore

Resolved, That the sums so granted to Denominational and Private Schools and Academies be reduced by twenty five per cent. of such annual grants, and that such reduction be continued to be made for the space of four years, commencing in the year 1862, and continue until the whole amount of said grants be cleared off.

To which Mr. M'Clelan moved as an amendment—To expunge the whole thereof, and substitute as followeth :—

“Whereas the liberal expenditure of the Provincial Revenue annually made for the Educational improvement of the people, has not been productive of a corresponding benefit : And whereas the present arrangements for Collegiate or University education, and the Laws relating to the Common Schools, are susceptible of very considerable alteration and improvement : And whereas it is the duty of the Government and the Legislature, irrespective of party or political views, to give constant and careful attention to this momentous subject, with the view of improving the condition, and diffusing in an equitable way the benefits, of every department of education ; therefore

“*Resolved*, As the opinion of this House, that the Executive Government should, during the recess, prepare, to be submitted to this Legislature at its next Session, a statement of such proposed improvements and modification as may meet the requirements of the country and the expectations of the people.”

Upon the question for adopting the amendment, the House divided as follows :—

YEAS.		NAYS.	
Mr. Kerr,	Mr. Scovil,	Hon. Mr. Tilley,	Mr. Montgomery,
Meahan,	Lindsay,	Hon. Mr. Smith,	Dr. Dow,
Williston,	Munro,	Hon. Mr. Steadman,	Cudlip,
Vail,	DesBrissay,	Hon. Mr. Perley,	Jordan,
Costigan,	Anglin,	Mr. Landry,	Gillmor,
Young,	S. H. Gilbert,	Skinner,	Boyd.
M'Clelan,	W. J. Gilbert,	Farris,	
Stiles,	Ryan,		
Allen,	Grimmer.		

And so it was carried in the affirmative, and the amendment agreed to.

On motion of Mr. Kerr,

Resolved, As the opinion of this House, that all Educational Institutions in this Province receiving grants of public money, should make an annual return, to be laid before the Legislature, of the income and expenditure of such institutions respectively, with the details of such expenditure, and the number of pupils attending such institution, shewing the number who receive a free education, or who are educated at a reduced rate of tuition ; and that all such institutions should be required to make such returns by the end of January in each year.

On motion of the Honorable Mr. Smith,

The House went into Committee of the whole on—A Bill to explain and amend Chapter 67. Title x. of the Revised Statutes, “Of Sewers.”

The Honorable Mr. Hatheway in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, and proceeding therein, the following was moved as a ninth Section thereto, viz:—

“9. This Act shall not extend or apply to the County of Albert.”

Upon the question for adopting the same, the Committee divided as follows:—

YEAS.		NAYS.	
Mr. Kerr,	Mr. Glasier,	Hon. Mr. Tilley,	Mr. Lindsay,
Meahan,	Munro,	Hon. Mr. Smith,	Cudlip,
Williston,	Anglin,	Hon. Mr. Steadman,	Jordan.
Vail,	S. H. Gilbert,	Mr. McClelan,	
Costigan,	W. J. Gilbert,		
Young,	Fisher,		
Stiles,	Boyd.		
Allen,			

And it was thereupon carried in the affirmative, and the Section added.

That the Committee having then gone through the several Sections of the Bill, after making amendments thereto, had agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed as amended.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to the following Bills, viz:—

The Bill to amend the Revised Statutes, Chapter 53, “Of Rates and Taxes:”

The Bill relating to the University of New Brunswick:

The Bill relating to Judgments in Actions not Summary: and

The Bill relating to Gold Mines:

Without making any amendments thereto.

The House adjourned until Monday morning next at 10 o'clock.

Monday, 21st April, 1862.

Prayers.

Read a third time as engrossed,

A Bill to explain an Act passed the present Session, intituled “An Act in addition to and in amendment of the Acts imposing Duties for raising a Revenue; and in amendment of an Act passed in the nineteenth year of Her Majesty’s Reign, intituled ‘An Act to levy an Impost for Railway purposes.’”

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Tilley take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to provide for the repair and improvement of Roads and Bridges, and other Public Works and Services.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Tilley also take this Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to provide for defraying certain expenses of the Civil Government of the Province.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Tilley also take this Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to amend Chapter 96 of the Revised Statutes, "Of the Survey and Exportation of Lumber."

Resolved, That the Bill do pass.

Ordered, That Mr. Crocker take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to explain and amend Chapter 67, Title x, of the Revised Statutes, "Of Sewers."

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Smith take the said Bill to the Council, and desire their concurrence thereto.

According to the Order of Saturday last, the amendment made by the Legislative Council to—The Bill relating to Corporations,—was read a third time.

Resolved, That the House do concur therein.

Ordered, That Mr. Fisher return the Bill, with the amendment, to the Council, and acquaint them therewith.

According to the Order of Saturday last, the amendment made by the Legislative Council to—The Bill further to amend an Act to regulate the qualifications of Practitioners in Medicine and Surgery, and to provide a Medical Council of Health in the Province of New Brunswick,—was read a third time.

Resolved, That the House do concur therein.

Ordered, That Mr. Skinner return the Bill, with the amendment, to the Council, and acquaint them therewith.

On motion of the Honorable Mr. Smith,

The House went into Committee of the whole on—A Bill to explain an Act intituled "An Act relating to the Boundary Line between the Provinces of New Brunswick and Nova Scotia."

Mr. Vail in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Skinner,

The House again went into Committee of the whole on—A Bill to provide for the drainage and protection of the Great Marsh in the City of Saint John, and the Parishes of Portland and Simonds, in the City and County of Saint John, and the maintenance of a Highway over the Aboideau across the Marsh Creek, near the City of Saint John.

The Honorable Mr. Steadman in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their further consideration, had made amendments thereto, and then agreed to the same under the Title of—

A Bill to provide for the drainage and protection of the Great Marsh in the City of Saint John, and the Parishes of Portland and Simonds, in the City and County of Saint John, and the maintenance of an Aboideau across the Marsh Creek, near the City of Saint John.

Ordered, That the Report be accepted, and the Bill, as amended, engrossed under the amended Title.

Read a third time as engrossed,

A Bill to explain an Act intituled "An Act relating to the Boundary Line between the Provinces of New Brunswick and Nova Scotia."

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Smith take the said Bill to the Council, and desire their concurrence thereto.

On motion of Mr. Kerr,

Resolved, As the opinion of this House, that it is the duty of the Government to lay before this House within ten days after the opening of the Session—A Statement in detail of all appropriations undrawn at the close of the Fiscal Year—A Statement of all sums drawn or paid in excess of the appropriations made, shewing the objects for which such excess was required or paid—A Statement of all Sums paid for Unforeseen Expenses—and a detailed Statement of all Sums drawn or paid without authority of Law.

On motion of the Honorable Mr. Smith,

The House went into Committee of the whole on—A Bill relating to the office of Commander in Chief.

Mr. Gillmor in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Allen,

The House went into Committee of the whole on—The Report from the Select Committee, relative to the claim of Stephen Tracy for Lumber cut on the Canada Disputed Territory, and which was submitted to the House on the 17th day of April instant.

Mr. Williston in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the matter referred to them under their consideration, the following Resolution was moved:—

Resolved, As the opinion of this Committee, that an humble Address should be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to direct that the sum of £49 4s. be paid to Stephen Tracy, being excess of stumpage paid by him on five hundred and eighty eight tons of Lumber cut by him on the Canada Disputed Territory in the year 1844, and seized by the Crown, on the Government being satisfied that the said sum, or any part thereof, has not been arranged or paid to him, or accorded to him by William Connell, of Woodstock, under whose License the said Timber was cut."

To which it was moved as an amendment—To expunge the whole thereof, and substitute as follows:—

“Whereas the Messieurs Connell and Mr. Tuck, parties whose interests may be affected by the decision of the matter under consideration, have not been heard before the Committee to whom Mr. Tracy's claim has been referred; therefore

“*Resolved*, That the further consideration of this Report be postponed for three months.”

Upon the question for adopting the amendment, the Committee divided as follows:—

YEAS.		NAYS.	
Hon. Mr. Speaker,	Mr. Landry,	Mr. Kerr,	Mr. Glasier,
Hon. Mr. Tilley,	M'Clelan,	Vail,	Farris,
Hon. Mr. Smith,	Dr. Dow,	Raymond,	Munro,
Hon. Mr. M'Millan,	W. J. Gilbert,	Costigan,	Anglin,
Hon. Mr. Steadman,	Cudlip.	M'Phelim,	Ryan,
Hon. Mr. Perley,		Stiles,	Gillmor,
		Allen,	Boyd.
		Scovil,	

Whereupon it was decided in the negative; and

The question being then put upon the original Resolution; when The House again divided as follows:—

YEAS.		NAYS.	
Mr. Kerr,	Mr. Glasier,	Hon. Mr. Speaker,	Mr. Landry,
Vail,	Farris,	Hon. Mr. Tilley,	M'Clelan,
Raymond,	Munro,	Hon. Mr. Smith,	Dr. Dow,
Costigan,	Anglin,	Hon. Mr. M'Millan,	W. J. Gilbert,
M'Phelim,	Ryan,	Hon. Mr. Steadman,	Cudlip.
Stiles,	Gillmor,	Hon. Mr. Perley,	
Allen,	Boyd.		
Scovil,			

And it was thereupon carried in the affirmative.

Ordered, That the Report be accepted, and the Resolution passed in Committee adopted by the House; and

The thirty second Rule of the House, requiring notices of motion for an Address to be entered in the Notice Book at least two days previous to the House being moved thereon, being suspended; when

On motion of Mr. Allen,

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to carry into effect the Resolution passed in Committee of the whole House this day, and adopted by the House, in reference to the claim of Stephen Tracy for £49 4s. on the Canada Disputed Territory Fund.

Ordered, That Mr. Allen, Mr. Vail, and Mr. Glasier, be a Committee to wait upon His Excellency with the Address.

A Message from the Legislative Council.

Mr. Dibblee informed the House that the Council had agreed to the following Bills, viz:—

The Bill to explain an Act intituled “An Act relating to the Boundary Line between the Provinces of New Brunswick and Nova Scotia:”

The Bill to explain an Act passed at the present Session, intituled "An Act in addition to and in amendment of the Acts imposing Duties for raising a Revenue, and in amendment of an Act passed in the nineteenth year of Her Majesty's Reign, intituled 'An Act to levy an Impost for Railway purposes:'"

The Bill to amend Chapter 96, of the Revised Statutes, "Of the Survey and Exportation of Lumber:"

The Bill further to amend Chapter 133, Title xxxiv, of the Revised Statutes, "Of Trespasses on lands, private property, and lumber:"

The Bill in further amendment of the Law relating to Water Supply and Sewerage in the City of Saint John, and part of the Parish of Portland in the County of Saint John :

The Bill to provide for the repair and improvement of Roads and Bridges, and other Public Works and Services : and

The Bill to provide for defraying certain expenses of the Civil Government of the Province ;

Without making any amendments thereto.

And that the Council had also agreed to—

The Bill to explain and amend Chapter 67, Title x, of the Revised Statutes, "Of Sewers,"

With certain amendments, to which they desire the concurrence of the Assembly.

The amendments made by the Council to this Bill, were then severally read a first and second times, and are as follow :—

At A, Section 1, insert the words "the proprietors of."

At D, Section 8, expunge the words "County of Albert," and insert the words "drainage of German Town Lake, or any act or proceeding relating thereto."

Ordered, That this Bill, as amended by the Legislative Council, stand for a third reading to-morrow.

Read a third time as engrossed,

A Bill relating to the office of Commander in Chief.

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Smith take the said Bill to the Council, and desire their concurrence thereto.

Read a third time as engrossed,

A Bill to provide for the drainage and protection of the Great Marsh in the City of Saint John, and in the Parishes of Portland and Simonds in the City and County of Saint John, and the maintenance of an Aboideau across the Marsh Creek, near the City of Saint John.

Resolved, That the Bill do pass.

Ordered, That Mr. Cudlip take the said Bill to the Council, and desire their concurrence thereto.

On motion of Mr. Stevens,

Ordered, That Mr. Munro be added to the Committee appointed on the 13th day of February last to examine and report upon the Contingent Expenses of the House.

On motion of Mr. Stevens,

Ordered, That—The Bill intituled “An Act in amendment and consolidation of the Laws relating to Highways,”—be forthwith printed, and two hundred and fifty copies thereof furnished for distribution.

The thirty second Rule, requiring notices of moving the House into consideration of any Resolution to be entered in the Notice Book two days previous to the same being moved, being suspended; when

On motion of Mr. Cudlip,

Whereas it is a matter of great public interest, as well Provincial as local, that all proper means should be taken to preserve the Harbour of Saint John, and to make such further improvements therein as may be deemed necessary on careful investigation; therefore

Resolved, As the opinion of this House, that the Government (on the necessary arrangements being made providing for the expense, without charge on the public Revenue,) appoint five Commissioners, one of whom shall be the Mayor of the said City, which Commissioners shall, during the current year, prepare plans, specifications, and estimates for the necessary improvements in the Harbour, and the mode by which the same may be made; the Report of such Commissioners to be laid before this House at the next Session of the Legislature.

On motion of Mr. Ryan,

The House went into Committee of the whole on—The Report from the Select Committee on the claim of Isaac Foshay to be further compensated for extra work on the Bridge at Hampton Ferry, and which was submitted to the House on the 17th day of April instant.

Mr. Williston in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the matter referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted; and

On motion of Mr. Ryan; further

Ordered, That the House do to-morrow, at the hour of two o'clock p. m., again go into Committee of the whole and resume the consideration of the said Report.

The Honorable Mr. Smith moved for leave to bring in—A Bill in further amendment of the Law, “Of Letters Patent for useful Inventions.”

Leave granted.

The said Bill being brought in was read a first and second times.

The House adjourned until to-morrow morning at 10 o'clock.

Tuesday, 22nd April, 1862.

Prayers.

According to the Order of yesterday, the amendments made by the Legislative Council to—The Bill to explain and amend Chapter 67, Title x, of the Revised Statutes, “Of Sewers,”—were severally read a third time.

Resolved, That the House do concur therein.

Ordered, That the Honorable Mr. Smith take the said Bill to the Council, and desire their concurrence thereto.

Mr. Vail moved for leave to bring in—A Bill to repeal all the Laws regulating the Practice of Medicine and Surgery.

Leave granted.

The said Bill being brought in was read a first and second times.

Mr. Vail also moved for leave to bring in—A Bill to abolish the examination of persons desirous of being admitted to practice as Barristers-at-Law or Attorneys, in this Province.

Leave granted.

The said Bill being brought in was read a first and second times.

On motion of the Honorable Mr. Smith,

The House went into Committee of the whole on—A Bill in further amendment of the Law, “Of Letters Patent for useful Inventions.”

The Honorable Mr. Hatheway in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had the Bill referred to them under their consideration, and agreed to the same.

Ordered, That the Report be accepted and the Bill engrossed.

On motion of Mr. Cudlip,

The House went into Committee of the whole on—A Bill to explain and amend an Act intituled “An Act to regulate proceedings against Members of the General Assembly, and for other purposes therein mentioned.”

Mr. M’Clelan in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask for leave to sit again.

Ordered, That the Report be accepted and leave granted.

Read a third time as engrossed,

A Bill in further amendment of the Law, “Of Letters Patent for useful Inventions.”

Resolved, That the Bill do pass.

Ordered, That the Honorable Mr. Smith take the said Bill to the Council, and desire their concurrence thereto.

Mr. Stevens, from the Committee to whom was referred the subject of the Contingencies of this House, submitted their Report upon the general Contingencies of the Session; and he having read the same, handed it in at the Clerk’s Table, where it was again read, and is as follows:—

CONTINGENCIES OF HOUSE OF ASSEMBLY, SESSION 1862.

“The Committee appointed to take into consideration the Contingent Expenses of the present Session, beg leave to submit the following Report.

“The Committee have examined the various claims laid before them, and recommend the following amounts to be paid:—

No. 1. John M’Donald, Account Hats for Speaker,	\$10 00	
Less, allowed in 1861,	5 00	
	<hr/>	\$5 00
2. J. S. Hay, Saint Croix Herald, Session 1862, ...	\$0 50	
Do. Advertising for Debates, “ ...	2 00	
	<hr/>	2 50

No. 3.	Till Brothers, New Brunswicker, three months, tri-weekly,	\$1 00
4.	Edward Bowes, Borderer, Session 1861 and 1862, ...	1 00
5.	Ellis & Armstrong, three months' subscription Daily Globe, Session 1862,	1 25
6.	H. W. Blackadar, Acadian Recorder. Allowed for this paper to 15th April 1861, when the same was directed to be discontinued.	
7.	James G. Forbes, Colonial Presbyterian, during Session 1862,	0 75
8.	Samuel Watts, Carleton Sentinel during Session 1862,	0 50
9.	D. P. Howe, Colonial Times, during Session 1861 and 1862,	1 00
10.	A. M. Stewart, Scottish American, 2 years, \$5 50. This Paper not ordered by Committee.	
11.	James Edgar, Woodstock Journal, during Session, ...	0 50
12.	Chubb & Co., Saint John Courier, for Session,	0 50
13.	A. W. Smith, Saint Andrews Standard, do.	0 50
14.	T. W. Anglin, Freeman, during Session,	0 50
15.	G. R. Atherton & Son, 5 Sleighs to Government House, ...	20 00
	1 do. W. Russell,	4 00
16.	Harvey Strickland, 1 do. to Government House, ...	4 00
17.	Robert Orr, Sleigh to Government House with Clerk, during recess,	3 00
18.	S. R. Miller, Stationery for Reporters,	60 00
	J. H. Stewart, allowance for Stationery as Reporter, ...	20 00
19.	C. F. Wetmore, Account for monies expended about his Office, &c. \$8.60. The Committee refer this claim to the Board of Works.	
20.	Daniel O'Brien, 73 days' work, during Session and before,	73 00
21.	Thomas Rutter, repairs, &c. for House, \$34.45. A former Committee refused to pay a similar claim, and referred it to the Board of Works, as they conceived all such work should be done under the directions of the Board, and not otherwise.	
22.	Francis Beverly, Daily Journal and Debate Covers, ...	17 00
23.	Thomas Aitkin, Sticks for Journals and Debates,	7 80
24.	George C. Hunt, Jr., Account for Brushes, Combs, &c. \$7.25. As the Committee know nothing about the authority under which this Account was contracted, they refer it to the Board of Works.	
25.	Alex. M'Pherson, cleaning and attendance on Clock, and repairs,	9 00
26.	Hatheway & Small, freight of Stationery imported from Britain in 1853, \$11. At the time this was incurred, the Clerk had the importation of the Stationery in his hands, and it is presumed, as a large allowance was made him that year for sums paid, that this was included.	
27.	William Grosvenor, 6 pairs white kid Gloves in 1861, and 3 pairs colored. In the Contingent Account of 1861, Mr. Grosvenor's Account was passed for \$3.20.	
28.	George Pattison & Company, Account for 6 pairs Gloves in 1862, for Speaker,	9 00
29.	John Mischal, repairing Gowns of Speaker and Chaplain, &c.	1 50

No. 30. Ann Williams, washing, &c.	\$14 00
31. Edward L. Wetmore, for engrossing during Session, by order of Clerk. The Committee cannot entertain this claim.	
32. Lemont & Son—Lamps, Tumblers, Pitchers, &c.	\$13.62
33. John Neill—Combs, Scissors, Soap, &c.	\$6.02
34. G. A. Perley—Baskets, Towelling, Candles, Cotton, &c.	\$6.60
35. Spafford Barker—Fluid, Soap, Lamps, &c.	\$17.73
The Committee are not satisfied that all the articles charged were necessary for the use of the House; and as they consider it desirable that all necessary disbursements should be made through the Board of Works, they refer these Accounts to the Chief Commissioner.	
36. Gas Company, Account for Gas and Meter,	33 60
37. William End, paid Harvey Strickland for Coach hire in 1861 and costs, \$12.85. This claim was before Committee in 1861 and disallowed, and cannot now be entertained.	
38. S. R. Miller, Binding 175 sets of Journals,	\$241 25
Stationery during recess to Clerk,	27 32
Stationery, &c. furnished by order of Clerk during the Session,	771 71
	1,040 28

The Committee have for many years endeavoured to control the expenditure for Stationery, and have tried various ways of keeping the amount within what is really required. Every effort having failed, the Committee on the 14th February last, recommended that Eight dollars should be allowed each Member to pay for his necessary Stationery, and that the Clerk should obtain only what was necessary for himself and assistants. The Committee feel perfectly satisfied that one hundred pounds would provide profusely for every article of Stationery necessary for the use of the Clerk and his assistants for the year; and they cannot but express their surprise and regret that the Clerk, in the face of the numerous complaints made from time to time on the subject, has continued to allow the expenditure, during the present Session, so far to exceed what is believed to be necessary: And the Committee, in order that an effectual check may be put to this extravagant expense, recommend that in future the Stationery for the use of the Clerk be furnished through the Board of Works.

The above Account the Committee refer to the Board of Works for a thorough investigation before the same be paid.

To His Honor Judge Wilmot, towards the education of William Yeamans a poor lad, who brought before the Committee the model of a Steam Engine, which evinced very considerable genius and mechanical skill,	20 00
Thomas M'Henry, 300 copies of Debates, ordered by Chairman of Committee,	78 00
John Turner, Stage Driver, extra services,	20 00
Do. do.	20 00

Burtis Brannen,	\$10 00
George Parker,	10 00
Thomas Paisley,	20 00
Thomas Williams,	40 00
39. Telegraph Office—For copy of daily news reports during the Session,	20 00
George C. Hunt, Senior, Assistant Librarian,	50 00

“ The Committee have not made any allowance to the Reporters, and they leave this matter to be dealt with by the House.

“ The Committee have had under their consideration the staff of attendants in the employ of the House, and they recommend that in future only two Engrossing Clerks be employed; and as much of the work formerly performed by Messengers has now been discontinued, they consider that three Messengers will be sufficient for all the purposes required, one of whom can perform the duties of Door Keeper.

“ Respectfully submitted.

“ JAMES. G. STEVENS,
ROBERT YOUNG,
GEORGE KERR,
WILLIAM J. GILBERT,
DAVID MUNRO.

“ *Committee Room, 22nd April, 1862.*”

Ordered, That the Report be accepted; and

On motion of Mr. Kerr,

The House went into Committee of the whole on the said Report.

Mr. Scovil in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having agreed to the several matters set forth in the said Report; when

The following was moved—

Resolved, As the opinion of this Committee, that there be granted to each of the four Reporters attending and Reporting the Debates during the present Session, the sum of — dollars out of the Contingent expenses, with the express understanding on the part of the House, that no grant of a similar nature be entertained during the continuance of this House, unless authorized by the House.

To which it was moved as an amendment—To expunge the whole of the said Resolution after the words “ opinion of this Committee,” and substitute as follows:—

“ That a sum of — be granted to Davis P. Howe, and a like sum to John V. Ellis, for their labours in Reporting during the present Session.”

And upon the question being put upon the amendment, it was carried in the affirmative; and the Resolution, as amended, being sustained;

It was moved—That the blank be filled up with the sum of *eighty dollars*.

And this being also carried in the affirmative, the blank was to be filled up with that sum.

The following Resolution was then moved:

Resolved, That the sum of — be allowed to J. H. Stewart and G. H. Beardsley, two official Reporters, for like services.

Upon the question for sustaining this Resolution, the Committee divided as follows:—

YEAS.

NAYS.

Hon. Mr. Smith,	Mr. Glasier,
Hon. Mr. Watters,	Lindsay,
Hon. Mr. Perley,	Munro,
Mr. Stevens,	Dr. Dow,
Vail,	W. J. Gilbert,
Raymond,	Ryan,
Young,	Jordan,
Crocker,	Gillmor.
Stiles,	

Hon. Mr. Tilley,	Mr. M'Clelan,
Hon. Mr. Steadman,	Allen,
Mr. Kerr,	Montgomery.
Costigan,	

And it being thereupon carried in the affirmative—

It was moved—That the blank be filled up with the sum of *Forty dollars*.

And upon this question, the Committee again divided as follows:—

YEAS.

NAYS.

Hon. Mr. Smith,	Mr. Stiles,
Hon. Mr. M'Millan,	Munro,
Hon. Mr. Perley,	Dr. Dow,
Mr. Stevens,	Jordan,
Young,	Gillmor,
Crocker,	Boyd.

Hon. Mr. Tilley,	Mr. M'Clelan,
Hon. Mr. Steadman,	Allen,
Mr. Kerr,	Montgomery,
Costigan,	W. J. Gilbert.

Whereupon it was carried in the affirmative; and the blank to be filled with that sum.

Ordered, That the Report be accepted.

A Message from the Legislative Council.

Mr. Dibble informed the House that the Council had agreed to—

The Bill relating to the office of Commander in Chief: and

The Bill to provide for the drainage and protection of the Great Marsh in the City of Saint John, and the Parishes of Portland and Simonds in the City and County of Saint John, and the maintenance of an Aboideau across the Marsh Creek near the City of Saint John.

Without making any amendments thereto.

On motion of Mr. Cudlip,

Whereas the affairs of the Central Bank, a chartered Banking Corporation in this Province, have been, according to public report, for some time past in an unsatisfactory position, and the holders of the Notes thereof have, in many cases, been obliged to dispose thereof at a heavy loss; therefore

Resolved, That a Joint Committee be appointed by the Honorable the Legislative Council and the House of Assembly to examine into the proceedings of the said Corporation.

To which Mr. Fisher moved as an amendment—To expunge the whole of the said Resolution, as well as the Preamble thereto, and substitute as followeth:—

“*Resolved*, That a Joint Committee be appointed by the Honorable the Legislative Council and the House of Assembly to examine the proceedings of the different Incorporated Banks in this Province.”

And upon the question for adopting the amendment, the House divided as follows:—

YEAS.

Mr. Kerr, Crocker, Scovil, Glasier,	Mr. Munro, DesBrisay, Fisher.
--	-------------------------------------

NAYS.

Hon. Mr. Tilley, Hon. Mr. Smith, Mr. Young, M'Clelan,	Mr. Stiles, Anglin, W. J. Gilbert, Cudlip.
--	---

Whereupon it was decided in the negative; and

The question being then put upon the original motion; when
The House again divided as follows:—

YEAS.

Hon. Mr. Tilley, Hon. Mr. Smith, Mr. Kerr, Young, M'Clelan,	Mr. Stiles, Anglin, W. J. Gilbert, Cudlip.
---	---

NAYS.

Mr. Crocker, Munro, DesBrisay,	Mr. Fisher, M'Phelim.
--------------------------------------	--------------------------

And so it was carried in the affirmative; and the original Resolution being agreed to—

Ordered, That Mr. Cudlip communicate the same to the Council.

Mr. Allen, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with an Address of the House of yesterday, relative to the claim of Stephen Tracy to £49 4s. for excess of duty paid by him on Timber cut on the Canada Disputed Territory in the year 1844, reported—That they had attended thereto, and His Excellency was pleased to say—That he would consult his Council on the subject of the Address.

The House adjourned until to-morrow morning at 9 o'clock.

Wednesday, 23rd April, 1862.
Prayers.

On motion of the Honorable Mr. Smith,

Resolved, That a Committee be appointed to make arrangements for the reporting and publishing the Debates of this House at the next Session of the Legislature.

Upon the question for sustaining this Resolution, the House divided as follows:—

YEAS.

Hon. Mr. Smith, Hon. Mr. M'Millan, Hon. Mr. Steadman, Mr. Landry, Young,	Mr. Allen, Munro, W. J. Gilbert, Gillmor.
--	--

NAYS.

Hon. Mr. Tilley, Hon. Mr. Hatheway, Hon. Mr. Perley, Mr. Kerr, Vail, Costigan, M'Clelan, M'Phelim, Crocker, Stiles, Scovil,	Mr. Glasier, Farris, Montgomery, DesBrisay, Dr. Dow, Anglin, Fisher, Ryan, Cudlip, Jordan.
---	---

Whereupon it was decided in the negative.

On motion of Mr. M'Phelim,

Resolved, As the opinion of this House, that any Steamer receiving pecuniary aid from the Government, and plying between Shediac and Richibucto,

or Shediac and Miramichi, should, if practicable, be required to call at least once in each fortnight during the season of open water, at some Wharf or some place in the Harbour of Buctouche, convenient for taking in and discharging Freight and Passengers.

A Message from His Excellency the Lieutenant Governor, by the Gentleman Usher of the Black Rod, requiring the immediate attendance of the House in the Council Chamber.

The House attended, and being returned—

The Honorable Mr. Speaker informed the House, that in pursuance of His Excellency's pleasure, signified by the Gentleman Usher of the Black Rod, the House attended His Excellency in the Council Chamber, when he addressed His Excellency as followeth:—

“ May it please Your Excellency,

“ The House of Assembly having given full consideration to the matters referred to in Your Excellency's Speech at the opening of the Session, and earnest attention to the general business of the country, have among other measures passed—

“ A Bill in addition to an Act relating to the Savings Banks and other Provincial Liabilities:

“ A Bill to provide for the repair and improvement of Roads and Bridges, and other Public Works and Services: and

“ A Bill to provide for defraying certain expenses of the Civil Government of the Province.

“ Which Bills, in the name and on behalf of the Loyal Commons of New Brunswick, I now present to Your Excellency, and request Your Excellency's assent thereto.”

That His Excellency was then pleased to give his assent to the Bills presented by the Assembly, as also to the following, intituled—

An Act relating to the Militia:

An Act relating to the University of New Brunswick:

An Act for the encouragement of Agriculture:

An Act for taking away the punishment of Death in certain cases, and substituting other punishments in lieu thereof:

An Act to enable the Justices of the Peace for the County of Charlotte to sell certain Lands, and invest the proceeds in other securities:

An Act to authorize the Trustees of Saint Andrews Church, Chatham, in connexion with the Church of Scotland, to sell and dispose of certain Real Estate in the County of Northumberland, devised in Trust by the last Will of William Kirkpatrick, deceased, and to reinvest the proceeds for the purposes in such Will mentioned:

An Act to amend the Law relating to offences against the person:

An Act to authorize investigation in cases of Fire in the several Counties of this Province:

An Act to amend an Act intituled “ An Act to amend Chapter 19, Title iii, of the Revised Statutes, ‘ Of Buoys and Beacons,’ ” so far as the same relates to the County of Charlotte:

An Act in amendment and consolidation of the Laws relating to Highways:

An Act further to amend Chapter 133, Title xxxiv, of the Revised Statutes, "Of Trespasses on lands, private property, and lumber:"

An Act to amend Chapter 96 of the Revised Statutes, "Of the Survey and Exportation of Lumber:"

An Act to explain an Act passed at the present Session, intituled "An Act in addition to and in amendment of the Acts imposing Duties for raising a Revenue; and in amendment of an Act passed in the nineteenth year of Her Majesty's Reign, intituled 'An Act to levy an Impost for Railway purposes:'"

An Act to explain an Act intituled "An Act relating to the Boundary Line between the Provinces of New Brunswick and Nova Scotia:"

An Act relating to Judgments in Actions not Summary:

An Act to amend the Revised Statutes, Chapter 53, "Of Rates and Taxes:"

An Act relating to the Police Office in the City of Saint John:

An Act to incorporate the Cain's River Boom Company:

An Act to incorporate the Roman Catholic Bishop of Saint John:

An Act to incorporate the Roman Catholic Bishop of Chatham:

An Act to incorporate the Congregational Union of Nova Scotia and New Brunswick:

An Act in amendment of an Act intituled "An Act for the incorporation of the Saint John Rural Cemetery Company:"

An Act to incorporate the North West Boom Company:

An Act to incorporate the Alma Copper Mining Company:

An Act to incorporate the Union Iron Works Company:

An Act to continue the several Acts relating to the South West Boom Company:

An Act to incorporate the Williams Mining Company:

An Act to incorporate the Elgin Gold Quartz Mining Company:

An Act to incorporate the Baltimore Coal and Mining Company:

An Act relating to the Polling place in the Parish of Manguerville, in the County of Sunbury:

An Act in amendment of and in addition to certain Chapters of Title viii, of the Revised Statutes, "Of the local government of Counties, Towns, and Parishes:"

An Act to abolish the Fishery Draft on the Western side of the Harbour in the City of Saint John, and to make other provision for the disposal of the said Fisheries, and to apply the annual proceeds thereof towards the erection of a Public Hall in Carleton, and in payment of Interest on the Carleton Water Debentures:

An Act to enable the Governor and Trustees of the Madras School in New Brunswick to raise money upon Mortgage of certain Lots of Land situate on the north side of King Square, in the City of Saint John:

An Act relating to the supply of Carleton, in the City of Saint John, with Water:

An Act to authorize the Justices of the Peace for the County of Northumberland to make rules and regulations for the protection and management of Booms for Lumber:

An Act in amendment of the Law relating to Judgments, Executions, and proceedings thereon:

An Act to explain an Act intituled "An act to authorize and empower the Justices of the Peace in and for King's County to sell and convey certain School Lands in the Parish of Springfield, and invest the proceeds in other lands or other valuable securities more advantageous to the inhabitants of the said Parish:"

An Act to explain an Act intituled "An Act to impose a Tax on unimproved granted Lands, to provide a Fund for opening of Roads and building Bridges in the Parishes in which the Lands lie :"

An Act in addition to Chapter 93, Title xvii, of the Revised Statutes, "Of the measurement of Firewood and Bark :"

An Act to continue an Act intituled "An Act to prevent the spread of a Disorder now existing in certain parts of the Counties of Gloucester and Northumberland :"

An Act in addition to Chapter 101, Title xxii, of the Revised Statutes, "Of the Sea and River Fisheries :"

An Act to amend Chapter 45, Title vi, of the Revised Statutes, "Of Municipalities," as relates to the Council and its Officers :

An Act relating to lands, tenements and hereditaments held for public uses by the Justices of the Peace of the several Counties in this Province :

An Act to continue an Act intituled "An Act to encourage the destruction of Wolves in this Province :"

An Act to alter the Boundary Line between the Parishes of Grand Falls and Saint Leonard, in the County of Victoria :

An Act to alter the Division Line of the Parishes of Dundas and Wellington, in the County of Kent :

An Act to alter the Division Line between the Parishes of Northampton and Brighton, in the County of Carleton :

An Act to change the present Polling place in the Parish of Cambridge, in Queen's County, and to establish another Polling place in said Parish in lieu thereof :

An Act to establish an additional Polling place in the Parish of Grand Manan, in the County of Charlotte :

An Act for establishing and maintaining a Police Force in the Town of Newcastle, in the County of Northumberland :

An Act to amend an Act intituled "An Act to authorize the appointment of Commissioners in the United Kingdom and other parts of Her Majesty's Dominions, and in the United States of America, to take Affidavits and acknowledgments of Deeds and other Instruments relating to matters in this Province :"

An Act to repeal part of Chapter 163 of the Revised Statutes, "Of Fees," so far as the same relates to Fees on Patents, and to make other provisions in lieu thereof :

An Act for the alteration and amendment of the local government of the Parish of Portland, in the County of Saint John :

An Act in addition to and in amendment of an Act establishing and maintaining a General Public Hospital in the City or County of Saint John :

An Act to provide for the erection of a City Hall in the City of Saint John :

An Act to amend the Revised Statutes, Title xxxvii, Chapter 137, "Of the jurisdiction of Justices in Civil Suits :"

An Act relating to the Polling places in the Parishes of West Isles and Campo Bello, in the County of Charlotte :

An Act to establish additional Polling places in the County of York :

An Act to change the Polling place in the Parish of Saint Leonard, in the County of Victoria :

An Act to repeal an Act to incorporate the Town of Moncton :

An Act in further amendment of the Law relating to Water Supply and Sewerage in the City of Saint John, and part of the Parish of Portland in the County of Saint John :

An Act further to amend an Act to regulate the qualifications of Practitioners in Medicine and Surgery, and to provide a Medical Council of Health in the Province of New Brunswick :

An Act to continue an Act to incorporate the Courtney Bay Bridge Company :

An Act to explain and amend Chapter 67, Title x, of the Revised Statutes, "Of Sewers :"

An Act to provide for the drainage and protection of the Great Marsh in the City of Saint John, and the Parishes of Portland and Simonds, in the City and County of Saint John, and the maintenance of an Aboideau across the Marsh Creek, near the City of Saint John :

An Act relating to Gold Mines :

An Act relating to Corporations :

An Act relating to the Office of Commander in Chief: (*with a suspending clause.*)

And that His Excellency was then further pleased to make the following Speech to both Houses :—

" Mr. President, and Honorable Gentlemen of the Legislative Council,

" Mr. Speaker, and Gentlemen of the House of Assembly,

" THE state of the Public business enables me to release you for the present from further attendance to your Legislative duties.

"Your Addresses of Condolence upon the occasion of the Death of His late Royal Highness the PRINCE CONSORT, have reached Great Britain, but had not been laid before the Queen at the date of the last Despatches which I have received. The expression of your sympathy cannot fail to be appreciated, as it deserves, by Her Majesty.

"Your attention has been chiefly occupied by the consideration of measures rendered necessary by a diminution of some of the ordinary sources of Revenue, arising mainly from the disturbed state of Commercial transactions consequent upon the unhappy War which rages on this Continent. I trust the measures which you have adopted will prove sufficient for the attainment of the desired object, without pressing unduly upon any portion of the community.

"The Bill for the re-organization of the Militia has received my ready assent. I rejoice to perceive that you do not shrink from the practical acknowledgment of those duties which are inseparable from the enjoyment of the political privileges you now possess. Should a need for the active services of the Militia unhappily arise, the advantage of having paid some previous attention to its efficiency in time of peace will immediately be recognized. You may rely upon such an application of the Funds granted for this purpose, as shall most effectually contribute to the promotion of the object contemplated by you. The gallant spirit of the Province has been manifested by the readiness of its youth to volunteer their active services; and to the existing Volunteer Companies of Militia I look for that cheerful and ready support, without which the construction of a new organization, or the re-construction of one long disused, becomes a work of so much difficulty and discouragement.

"The Correspondence with the Imperial Government, on the subject of an Inter-Colonial Railway, is not yet closed; and I regret that I am therefore unable to lay it before you, as I had hoped to do, previous to the close of the Session.

“ Mr. Speaker, and Gentlemen of the House of Assembly,

“ I thank you for the Supplies which you have granted for the service of the year.

“ Mr. President, and Honorable Gentlemen of the Legislative Council,

“ Mr. Speaker, and Gentlemen of the House of Assembly,

“ You are about to return to your respective Counties, there to resume your ordinary avocations, different indeed in character, but not less honorable or important than those which you have here discharged. It is on the spirit in which the Institutions of a State are cherished and revered, as much as on their letter, that its well-being depends; and so long as license and turbulence are feared by the people, and law and order dear to them, we need not apprehend that any temporary check will seriously impede the social and material progress of the Province.

“ Your influence and example will, I doubt not, be employed in fostering and maintaining that spirit of content and satisfaction which, I rejoice to believe, animates a Province proud of its own local privileges, and equally proud of forming a portion of the vast dominions of the Queen.”

That the Honorable John S. Saunders, sitting as President of the Legislative Council, then said—

“ Honorable Gentlemen of the Legislative Council,

“ Mr. Speaker, and Gentlemen of the House of Assembly,

“ It is His Excellency the Lieutenant Governor's will and pleasure that this General Assembly be prorogued until the second Tuesday in June next; and this General Assembly is accordingly prorogued until the second Tuesday in June next.”

CHAS. P. WETMORE, *Clerk.*

APPENDIX N^o. 1.

REPORT

OF THE

AUDITOR GENERAL

ON

THE PUBLIC ACCOUNTS

FOR THE YEAR 1861.

FREDERICTON :

J. SIMPSON, PRINTER TO THE QUEEN'S MOST EXCELLENT MAJESTY,

DEPUTY TREASURERS ACCOUNTS.*

No. 57.

Report upon the Accounts of Joseph Read, Deputy Treasurer, Bathurst, for three Quarters ending 31st July 1861.

Collections for 3 Quarters to 31st July:—

Import Duties,	\$7,055	83	
Export do.	663	90	
			\$7,718 73
Railway Impost,			1,562 07
Light Duties,			286 80
Sick and Disabled Seamen's Fund,			106 94
Cape Race Light,			7 06
Buoy and Beacon Fund,			4 12
			\$9,685 72
Balance due the Province 31st Oct. 1860,			4,689 26
			\$14,374 98

To which should be added amount of duties collected in the Quarter ending 31st October 1861.

The Province Treasurer acknowledges undistributed remittances to 31st October last, \$14,726 25. The Buoy and Beacon Fund as stated above, is the amount collected in Quarter ended 31st January. Mr. Read having furnished no Account of that Fund for the two subsequent Quarters. Mr. Read accounts for not furnishing his Returns for Quarter ending 31st October, and the required annual statements, on the ground of a severe attack of sickness.

J. R. PARTELOW.

No. 60.

Report upon Accounts of Deputy Treasurer Chipman Botsford, Campbellton,
from 1st November 1860 to 30th April 1861.

Duties collected during the above term,—

Import Duties, Ordinary Revenue,				\$596 74
Railway Impost,				137 54
Light Duties,				13 20
Sick and Disabled Seaman's Fund,				3 25
Buoy and Beacon Fund,				3 25
				<u>\$753 98</u>

Balance in hands of Dep. Treas. 1st Nov. 1860,—

Ordinary Revenue,	\$2,299 98		
Sick and Disabled Seamen's Fund,	5 70—	2,305 68	

Deduct—

Commission on \$753 98,	\$75 39		
Remittances to Prov. Treas. per Account B, p. 65,	2,174 17—	2,249 56	

Balance due by Dep. Treasurer after giving him credit for all
remittances for the year,

\$810 10

Mr. Botsford has made no Returns to this Office for the Quarters ending 31st July and 31st October 1861, and consequently the state of his Account at the latter period cannot be stated.

The amount collected for all Duties at the Port of Campbellton for the Quarters ending 31st July and 31st October 1860, was \$2,159 85.

The difference reported in Mr. Botsford's balance in Reports of 1860 and 1861, has been satisfactorily explained.

J. R. PARTELOW.

Railway Impost,	39 95
Bay of Fundy Lights,	166 37
Sick and Disabled Seamen's Duties,	35 05—
			<u>360 00</u>
<i>Carried forward,</i>	<u>\$395 18</u>

	<i>Brought forward,</i>	\$395 18
Account for Gauging & Weighing, and Postage,		3 70
		<u>\$398 88</u>
Balance due by Estate of the late Dep. Treas. T. Moses,		49 18
		<u>\$448 06</u>

Cr.

By Balance per Account 1st November 1860, viz:—

Ordinary Revenue,		\$96 06
Import Duties for the year,	\$72 96	
Export do. do.	10 87	
		83 83
Railway Impost for the year,	\$44 38	
Light Duties, do.	184 85	
Sick and Disabled Seamen's do. do.	38 94	
		<u>268 17</u>
		<u>\$448 06</u>

The statements received are compiled by the Widow of the late Deputy Treasurer, and are so informal that great difficulty has arisen in arriving at a correct Account. The foregoing is the nearest possible approximation to the exact result. Mrs. Moses makes a balance due the estate, of \$81.40, but she charges a whole year's Salary instead of 3 Quarters, and seems to have omitted on the other side all the Specific Duties.

J. R. PARTELOW.

Recapitulation of Import Duties collected at the Port of Campo Bello, West Isles, for three Quarters ending 31st July 1861.

None of this Deputy's Accounts for any part of the year were received at this Office until the 25th January, and what is published has been hastily compiled from the Quarterly statements. The amount credited the Deputy for remittances, is that stated in the Provincial Treasurer's Account B. page 65. He makes a charge in October Quarter for Warehouse Rent, \$54.00, which is not at present allowed, but the whole Account is reserved for further audit.

HENRY LIVINGSTON, *Dep. Treas.**Deputy Treasurer's Office, Richibucto, 1st Nov. 1861.*

* The Province Treasurer credits Mr. Livingston in Kent Savings' Bank Account, \$2,694 53. The difference is caused by Mr. Livingston charging only the nett remittance, while the Province Treasurer has given him credit for the gross sum, and charged him with amount withdrawn, the result being the same. Mr. Livingston's Accounts are rendered Quarterly with great punctuality.

Expenditure—		
On the Road from Boiestown to Newcastle, No. 12,	\$1,202 59	
Commission on \$1,180,	118 00	
		<u>1,320 29</u>
Balance due Supervisor,		<u>\$38 33</u>

Mr. Crocker claims a balance of \$180 40, the difference chiefly arises from the following deductions by the Auditor General in former Accounts:—

Personal services charged by Mr. Crocker in 1857,	\$30 00
Commission on Boiestown Bridge do. 1859,	120 00
	<u>\$150 00</u>
Less—	
Commission allowed by Auditor in addition to Mr. Crocker's charge in 1859,	10 11
	<u>\$139 89</u>

Mr. Crocker has not credited these deductions, although disallowed by the Board of Works as well as this Office.

Commission on \$240,	24 00	311 60
Balance due John Welling,					\$71 60
Mr. Welling's Account as Supervisor, shews a balance due Board of Works,					\$76 71
From which deduct the above balance,					71 60
Net Balance in hands of Mr. Welling,					\$5 11

No. 5—STEPHEN GLASIER.

Advance by Board of Works 1861,	\$646 32
Expenditure—					
Balance due Mr. Glasier 1860,	\$25 80	
Improving Bear Island Bar, River St. John, 1861,	600 62	
Personal services superintending, &c.	30 00	
					\$656 42
Deduct—					
Camp furniture sold Mr. Glasier,	10 10	\$646 32

No. 6—THOMAS C. ATHERTON.

Advance by Board of Works 1861,	\$921 73
Expenditure—					
Balance due T. C. Atherton 1860,	\$121 73	
Improving the navigation of the River St. John at Meductic Falls 1861,	832 93	
Expense of wintering Boats,	8 00	
Personal services, 25 days, at \$3,	75 00	1,037 66
Balance due T. C. Atherton,					\$115 93

No. 7—ROBERT SWIM.

Balance in hands of R. Swim 1860,	\$113 10	
Advance by Board of Works 1861,	500 00	\$613 10
Expenditure—					
Improving Miramichi River 1861,	\$689 41	
Commission on \$500,	50 00	739 41
Balance due Robert Swim,					\$126 31

Mr. Swim includes in his Account a statement of sums due sundry persons, \$47 75, and charges Commission on the whole amount, claiming a balance of \$196 37. The Account as above stated is correct and vouched.

No. 8—JOHN WILKINSON.

Amount of order in favor of William Muirhead, Esquire, and cash per Board of Works,		\$269 94
Expenditure—		
Survey of Horse Shoe Bar, Miramichi, and other services,—		
Personal expenses travelling, and incidentals, ...	\$31 49	
Use of Tug Boat "Transit," 4 days, ...	160 00	
Wages paid sundry persons assisting in Survey, Blacksmith's work, carpentering, &c. ...	78 45	
		<u>\$269 94</u>

The Account is correct, and accompanied with satisfactory vouchers.

No. 9—M. CRANNY and G. J. PARKER,
Commissioners Buoys and Beacons, Miramichi.

The Account of the expenditure of the advance of \$629 by the Board of Works will be found in Report on Buoys and Beacons Accounts in another part of this Report.

Advances in aid to A. Ramsay and J. Fraser toward erecting Wharf at Dalhousie, \$1,200, and the Mayor of St. John towards building Carleton Ferry Landing, \$1000, are certified by the receipts of the respective parties in connection with the general Account of the Board of Works.

The expenditure of the grant of \$120 to Geo. Whitney remains to be accounted for.

	<u>116,225 40</u>	<u>130,678 15</u>	<u>28,268 45</u>	<u>13,815 70</u>
Total Receipts, 1861,	\$130,678 15	Total Increase, 1861,		\$28,268 45
Do. 1860,	116,225 40	Deduct Decrease, "		13,815 70
Increase 1861,	\$14,452 75	Net Increase 1861,		\$14,452 75

Comparative Statement—Continued.

Expenditure.	1860.	1861.	Increase.	Decrease.
Locomotive Power,	\$32,786 95	\$36,415 39	\$3,628 44	
Merchandise and Passenger Cars, ...	16,822 25	18,774 61	1,952 36	
Maintenance of Way and Buildings,	9,160 95	19,464 60	7,503 65	
General Charges,	15,469 85	19,590 92	4,123 07	
	\$74,240 00	\$94,245 52	\$20,005 52	
Net earnings, 1860,	\$41,985 40	Increase of Expenditure, '61,	\$20,005 52	
Do. 1861,	36,432 63	Do. Receipts,	14,452 75	
Decrease, 1861,	\$5,552 77	Increase of Expenditure over increase of Receipts,	\$5,552 77	

By the foregoing Tables it will be seen, that the Traffic Receipts have not increased in proportion to the working expenses, the net increase in income being \$5,552 77 less than that of working expenses. It appears however, that the regular traffic in Passengers and Freight shows an increase of \$28,268 45 over the same items of 1860, while a large proportion of the increased expenditure in running Engines and Cars, resulted from unforeseen contingencies arising from the unusually heavy snow storms and other severities of the Winter of 1860-61. These Tables in their comparative sense must also be modified by the consideration, that the Traffic of 1860 was only carried over the through line for the Quarter ended 31st Oct. of that year.

Copies of the Journal and Ledger Entries have been furnished quarterly, with other Statements and Vouchers, and the Traffic Receipts have been examined by my Chief Clerk at the Railway Station, Saint John. The Accounts have been found uniformly systematic and precise.

By order of the Board,

G. W. SMITH, Accountant.

Saint John, N. B., 31st Oct. 1861.

The Accounts as presented in this Report, give the results of the year's transactions at the two different periods, viz: 31st July, when the present Commissioners and Officers entered upon their duties, and on reference to Account No. 1, it will be seen that the Expenditure for all purposes for the preceding 3 Quarters, amounted to \$16,183 97

And the balance due at 1st Nov. 1860 being added, 5,079 37

Shews the total claim of the remaining Commissioners as \$21,263 34

On Account of which Mr. Berton had received from Treasury, Sales of Manufactures and other sources, \$14,319 14

Leaving the balance due 31st July, \$6,944 20

Mr. Berton has since received prior to 31st Oct. 2 Warrants for 6,600 00

Balance due him 31st October 1861, \$344 20

The Expenditure under the new Commissioners, with R. W. Crookshank, Jr. Esq., Secretary & Treasurer, as presented in Account No. 2, for the Quarter ended 31st Oct. amounts to \$3,634 69

On Account of which Mr. Crookshank has received from Sales of Manufactures, 2,607 37

1,027 32

Total balance due on the year's transactions $\text{\textcircled{P}}$ Gen. Acc't. No. 3, \$1,371 52

Account No. 4, giving the result of Prison Labour, shews a loss on the year's labours of \$1,992 69 against \$1,113 72 the previous year. The increase is caused mainly by a depreciation in the value of manufactured articles, and by present arrangements it is expected that the Department will become more remunerative.

Nos. 5 & 6 are Tables shewing the Stock on hand 1st November 1860, 1st August and 1st November 1861, with the quantity received from the Prison and sold during 9 months by Mr. Berton, and during the remaining 3 months of the year by Mr. Crookshank.

No. 7 is an Account of stock, shewing the value of manufacturing stock and manufactured articles on hand 31st October 1861, \$3,599 39.

No. 8 is a Tabular Statement of the number and employment of Prisoners in the Prison on the 1st November 1860, and admitted and discharged during the year. This is a Summary of the Monthly Reports of Mr. Quinton, the Keeper of the Penitentiary. The number of Prisoners at the beginning and close of the year was—

1st November 1860, Male,	65
Female,	21
				— Total, 86
31st October 1861, Male,	68
Female,	18
				— Total, 86

All the Accounts of Expenditure are rendered in detail, and properly vouched.

J. R. PARTELOW.

THE VICE-CHAIRMAN OF THE BOARD,	J. D. M. KEATOR, Esquire,
HUGH M-MONAGLE, Esquire,	WILLIAM NAPIER, Esquire.
H. P. BRIDGES, Esquire,	

SECOND ANNUAL REPORT
OF THE
PROVINCIAL BOARD OF AGRICULTURE,
NEW BRUNSWICK.

To His Excellency The Honorable Arthur Hamilton Gordon, C. M. G., Lieutenant Governor and
Commander in Chief of the Province of New Brunswick, &c. &c. &c.

MAY IT PLEASE YOUR EXCELLENCY,

I have the honor to present to Your Excellency the second Annual Report of the Provincial Board of Agriculture, published in accordance with the requirements of Act of Assembly.

This volume will be found to contain a statement of the doings of the Board during the years 1860 and 1861; Essays on Agricultural subjects; a brief digest of the Returns made by the several Agricultural Societies throughout the Province; Reports of Committees, together with such general suggestions, recommendations, and hints on Agricultural subjects, as have been thought necessary and practicable, as also the Accounts of Expenditure.

It is submitted with much diffidence, partly on account of the novel position which the Secretary has been called to fill,—his comparative unacquaintance with much that relates to scientific and practical Agriculture, and the necessarily hurried manner in which it has been prepared, and also as being the successor of one, whose scientific attainments so eminently qualified him for the most important position of Secretary to the Board—only equalled by the generosity of a most unassuming nature—urbanity of conduct—readiness of communication—and that simplicity of heart—the most attractive qualities of a great mind, for all which he was alike distinguished, causing his sudden decease to be mourned over, in the blank made in the intellectual and social society in which he was so greatly valued.

The collecting, preserving, and again distributing useful knowledge, connected with the science of Agriculture, together with the approved practice of individual farmers, must ever form a part of the proper duties of the Board.

On the diffusion of useful knowledge, depends in great measure the power and prosperity of a country and there is no art in which a variety of knowledge is more needed than in that of Agriculture in its widest signification.

The beneficial changes, which often in new countries are so sudden and progressive, are not alone traceable to the qualities of the hardy and enterprising race that may have settled in them.

Agriculture among the Britons of old was slow in its progress, and not until the discoveries which, by the aid of chemistry and mechanical knowledge, have been made, were embraced by the settler, did the rude forest and the wild marsh give place to the golden fields and rich pastures.

The appliances of modern art, and the results of scientific experiments, are our heritage; and by well directed efforts, the accumulated experience of ages may be made available for general use.

What does not Scotland owe to the exertions of the Highland Agricultural Society? What does not England and Ireland owe to the establishment of similar Institutions?

Appended to this Report, is that of the first Provincial Exhibition held under the superintendence of the Board.

From this latter Report, we may infer that great progress has been made in Agriculture, Manufactures, and Arts, whilst it is not too much to assert, that in all the departments of domestic industry, the Province of New Brunswick is unsurpassed,—considering her means,—in excellence and variety of workmanship; and when we reflect on the extensiveness of our forests, and the mineral wealth daily being revealed, together with the associated efforts towards solid advancement in all industrial pursuits,—we are led to entertain sanguine expectations of the future.

What can be done to build up our cities and villages, is a most important enquiry. We look to the Legislature to enact laws, to foster and encourage commerce, and every industrial pursuit, and doubtless much is accomplished through this instrumentality, but for our local prosperity, we claim a home patronage for home labour.

Many who emigrate from the Mother Country, seeking homes on this side of the Atlantic, are skilful artisans and workmen, but owing to the encouragement given to foreign labour over that of our own, they leave the Province shores, to enrich and prosper, with the wealth of their skill and workmanship, the manufactures of other countries.

For Commerce, our Province is favorably situated—for Manufactures, her water power everywhere abundant, presents peculiar facilities—for Agricultural capabilities, she bears favorable comparison with other countries—her wealth in River and deep sea fisheries has been but partly drawn upon—for educational advantages, she holds an increasingly proud position—for facilities of travel, her Great and Bye Roads numerous intersect the most distant localities,—whilst Railroads, admirable in their construction, are being extended in her central parts—her water connection is abundant,—whilst in her free government, she partakes in all the advantages of the time honored Constitution of the glorious Empire of which it is her pride and boast to form an integral part.

Our destiny would seem to be most promising, but to accomplish any great national benefit—to rightly encourage our industrial departments, and to inspire our workmen with courage and hopefulness—to retain our emigrants, as well as to induce them to visit our shores, there must be more awakening of public spirit—more of Provincial pride and patriotism—more confidence in our own resources, and a development of same, by a corresponding spirit of enterprise.

To Agricultural interests, the Board of Agriculture is peculiarly pledged; the field is extensive, the duties most responsible.

The existence of such an Institution depends on the prudent and faithful discharge of the duties devolving on its several members, and the liberal patronage of the Legislature.

To those whose more immediate vocation is the care of Manufactures, Fisheries, Arts, and Commerce, the Board look for suggestions and co-operation, in endeavours to promote the industrial interests of the country.

The prosperity of cities and villages, is the prosperity of the farming community, what is done to promote the welfare of the one, vitally affects the other.

The Board of Agriculture hopefully trust that the effects of the late Exhibition—notwithstanding the many disadvantages and difficulties experienced in its conduct—may be productive of its intended benefit.

By an examination of the analysis of Counties exhibiting, and of articles exhibited, it will be seen, that whilst from several Counties, numerous and varied entries were made, the Mechanical and Manufacturing departments were in great part from the City of Saint John; the few Counties that entered into competition with the City in such departments, did so, in some cases, with marked success.

It is hoped that the following Report will meet the approbation of Your Excellency and the Legislature; and whilst craving all allowance for its many imperfections, that it may form a Record whereby may be ascertained the progress and comparative condition of the industrial interests of our rising Province, and that in her representations of Mineral wealth and Agricultural capabilities, her Mechanisms and Manufactures, Fisheries, Arts, and various works, she may occupy that position at the forthcoming great International Exhibition which she is entitled to possess, and which her own loyal people will be proud to see her hold among the countries of the world.

I have the honor to be

Your Excellency's most obedient servant,

JAMES G. STEVENS,

Secretary Provincial Board of Agriculture.

Saint Stephen, December, 1861.

-

REPORT.

PRELIMINARY REMARKS.

The necessity of this Province possessing a General Association or Board of Agriculture, having been pressed upon the notice of the Legislature,—the establishment of the Provincial Board has marked an era in the history of New Brunswick.

The operations of that Board, during its two years existence, have now been before the public.

As Local Agricultural Societies increase, the need of a central and controlling organization becomes more apparent, and the several Members of the Board have felt that, through its influence, uniformity in great principles and consistency in general rules may be had; and by a wise experience, inconsistencies and errors in local Societies may be avoided, and our Agricultural interests placed on a surer road to advancement.

In the operations of the Board during its short working, the sanguine expectations of some may not have been realized as to its good effect, whilst a large number may regard its institution with hesitation and doubt.

The Members of the Board of Agriculture will not hesitate to admit, that time and experience are requisite, as in all similar cases, ere their labours can become so beneficial as they would desire; and they will ever be ready to receive, with all consideration, any suggestions which may tend to advance the interests of Agriculture, or that may assist in accomplishing their desired end.

The functions of the Board are especially two-fold; first, in exercising a sound and proper supervision and control over local Agricultural Societies; and secondly, in making it the means of diffusing sound views upon the general principles of Agriculture among the farming population, by collecting together the local experience of practical men, and digesting and collating the same, thus make it more available for general use.

Agriculture cannot be learned by theory alone,—nor is it safe to apply the theory or practice of any one country to another country which may be different in soil, climate, and other circumstances.

Hence, in part, has arisen with some reason the objection to Book farming, as it is styled.

The necessity therefore of an intelligent discrimination is apparent, between the place, soil and circumstances which have given rise to a well promulgated theory, perhaps well authenticated, and proved by ample experiments, and adapted to the locality which originated it,—and its adaptation to other places differing in particulars of soil and climate.

Any general rule to be effectual must have circumstances nearly similar, otherwise that which is successful practice in one country, may prove a ruinous failure in another.

The Agricultural resources of a country once being known, any means which will tend to produce a concentration of Agricultural science and knowledge, adapted to its condition, must give rise to a vast amount of practical good; and if the Provincial Board of Agriculture can disseminate such information, either through the agency of its several members, Agricultural publications, or through its Annual Report, it will certainly be worthy of support.

It must not be expected that the Board are to devise any new schemes of Agriculture; nor are the farmers to expect that by any original light in the science, sources of prosperity are to be opened up. Upon the proper application and husbandry of the knowledge and resources already in our possession, their chief benefit will arise; for it may be safely alleged, that our farmers in general lose more by the neglect of the means and knowledge within their power, than they could ever hope to obtain by the reading or hearing of any new or improved system of husbandry.

A development of the Agricultural resources of the country, by improvement in the Agricultural practice, is what the Board will aim to attain.

Towards this end, the attention of farmers will be from time to time directed to the use of improved implements,—to the obtaining suitable breeds of cattle and sheep, and the providing suitable food and shelter for them,—to the procuring of the best grain and grass seeds,—to the more frequent practice of draining,—to the making and preserving of manures,—to the increased practice of growing green crops, and such like matters.

The future of New Brunswick is hopeful in the extreme, and did her own people make the most of their present position as farmers, and appreciate the country as strangers visiting her shores are apt and ready to do, we would hear less of the querulous tones of the always discontented ones; less also of the spirit of depreciation of our fair Province would be indulged in, which sometimes is wantonly manifested even by those who from penury and want have risen to affluence and wealth from her rich products, and the facilities towards that position which are within the grasp of every sober and industrious settler.

The attention of the Board will continue to be primarily given to the Agricultural interest; but every assistance that can through its instrumentality be afforded to the encouragement of the mechanic and manufacturer will be also readily given.

Nations have flourished often just in proportion as Agriculture has been encouraged and fostered, and the time has certainly arrived with us, when in the decline of the great lumber resources of our country, another means of subsistence may be relied on; and it will be considered as one of the leading duties devolving upon the Board "as having in charge the Agricultural interests of the Province, to devise means whereby the produce of our farms may be so increased as to supply our wants,"—and that we no longer should, from want of proper endeavors, be compelled to pay so large a tribute to other countries for such articles as we are well able to produce ourselves.

The Legislature and Executive Government of our Province, have ever evinced a praiseworthy readiness to advance the interests of the Agricultural class, and it may reasonably be expected that the character and labours of the Board of Agriculture will tend to increase their zeal in this respect; whilst, likewise, confidence will be sought to be inspired in the Executive Government, in their communications with a body so constituted, that its Members are representatives of the farming interests of their respective Counties by the voice of an intelligent people; whilst, also, the interests of the Government of our country are peculiarly guarded, in the appointment of its own Members at the Board.

The Act, establishing a Provincial Board of Agriculture, requires that the Provincial Board shall annually report a statement of their doings; and make a digest of the returns of the several Agricultural Societies, with such Statistics as they may be able to collect, accompanied with such suggestions and recommendations as the interests of Agriculture may appear to require; together with a detailed Account of the Expenditure, for the purpose of being laid before the Legislature.

In conformity to this Law I proceed, on behalf of the Board, to offer its second Annual Report.

The several Members of the Board having been duly notified to meet at Fredericton, on the first day of March 1861, they accordingly met in the Supreme Court Room, (Dr. Robb in the Chair,) and were occupied chiefly, on that day, in making up the Roll of Members duly qualified to sit at the Board for the current year; when, after consideration, the following persons were declared the Members constituting the Board, viz:—

Andrew Barberie, Esq.	Delegate for	Restigouche	County.
Hon. A. E. Botsford,	“	Westmorland	“
Henry P. Bridges, Esq.	“	Sunbury	“
Robert Jardine, Esq.	“	St. John	“
William Napier, Esq.	“	Gloucester	“
Levite Therriault, Esq.	“	Victoria	“
James A. Pierce, Esq.	“	Northumberland	“
Hon. David Wark,	“	Kent	“
Henry E. Dibblee, Esq.	“	Carleton	“
John H. Reid, Esq.	“	York	“
Jas. G. Stevens, Esq.	“	Charlotte	“
J. D. M. Keator, Esq.	“	King's	“
John Ferris, Esq. M. P. P.	“	Queen's	“
John Lewis, Esq. M. P. P.	“	Albert	“

And Charles Perley, Esq. M. P. P., Hugh M'Monagle, Esq., and Jas. Robb, Esq. M. D., appointed Members by the Government, and George Kerr, Esq. M. P. P. appointed Member by the Board.

2nd March, 1861.

The Board met at 11 o'clock, A. M. in one of the Committee Rooms of the House of Assembly.

Dr. Robb took the Chair—When the Members present proceeded to elect a Chairman; which election was determined by Ballot, and by a majority of all the Members present.

Hon. A. E. Botsford was declared to be duly elected Chairman of the Board.

Dr. Robb was re-appointed Secretary to the Board.

On motion of Dr. Robb, it was resolved to elect a Vice-Chairman, and on ballot, Robert Jardine, Esq. was elected to the office.

On motion of Mr. Stevens, it was resolved to appoint a Committee to whom shall be referred all matters connected with the Laws relating to Agriculture, viz:—Messrs. Stevens, Reid, Keator, Barberie, and Bridges.

Also resolved, that a Committee be appointed to Audit the Accounts of Societies, viz:—Messrs. Jardine, Napier, and Keator.

On motion of Mr. Reid, it was resolved that a Committee of Finance be appointed, viz:—Dr. Robb, and Messrs. Kerr, Ferris, Lewis, Stevens, and M'Monagle.

On motion of Mr. Stevens, it was resolved that a Committee be appointed to enquire into the practicability of publishing an Agricultural Periodical, under the auspices of the Board, viz:—Messrs. Stevens, Keator, and Jardine.

On motion of Mr. Jardine, it was resolved that a Committee be appointed to enquire into the practicability and expense of having a Reporter present occasionally, viz:—Messrs. Stevens, Keator, and Jardine.

On motion of Mr. Stevens, it was resolved to appoint a Committee to report on the conditions upon which the annual Grants shall hereafter be made to Societies, viz:—Messrs. Napier, Stevens, Bridges, Therriault, and M'Monagle.

On motion of Mr. Stevens, resolved, that a Committee be appointed to report upon the better protection of Sheep from dogs. Also resolved, that the subject be referred to the Law Committee.

On motion of Dr. Robb, resolved, that it be remitted to the Law Committee to report, as to whether any and what enactment is required to meet the possible case of any epidemic disease appearing among cattle in New Brunswick, or in places from which cattle may be brought into the Province.

On motion, it was resolved that the subject of the Provincial Exhibition stand as the order of the day for Tuesday the 5th March, at 10 o'clock.

4th March, 1861.

The Chairman announced that he had received a telegram from Mr. Pierce, signifying that he had resigned his office as Member of the Board, and that the Provincial Secretary had been notified of the same.

Mr. Stevens, as Chairman of the Committee on the subject of an Agricultural Periodical and a Reporter, presented a Report, which was received and adopted.

The Report is as follows:—

Report of the Committee appointed to take into consideration the subject of the establishment of an Agricultural Journal, under the auspices of the Provincial Board of Agriculture, and also as to the providing a Reporter for the said Board.

Your Committee to whom were referred the above subjects for their consideration, beg leave to Report—

That your Committee are fully impressed with the importance of a full dissemination of a diversified agricultural information throughout the Province, and that one of the imperative duties of this Board is to use all practicable means towards the accomplishment of such an object.

To sustain creditably an Agricultural Journal, is an experiment which we feel is unnecessary to be recommended at the present time, inasmuch as the most valuable and practical information may be circulated through the appropriate and necessary medium of the Annual Report of this Board; and in order to obtain this end, we would recommend the reading before the Board such Essays as may be thought proper, on such varied subjects, which have already been, or may hereafter be treated of, and that a full discussion may be solicited on the same respectively; which Essays or some portion of same, and the discussion thereof, as well as the debates on the more important subjects before this Board, should be published and form part of the Annual Report; and that such number of copies should be struck off as would ensure a full circulation.

Your Committee are necessarily led to the second subject for their consideration, viz. the procuring a Reporter for above purposes.

We recommend that one should be had forthwith; and your Committee would say that the services of a competent individual can at once be obtained at the reasonable compensation of two dollars per day.

Respectfully submitted.

March 4, 1861.

JAS. G. STEVENS, *Chairman of Committee.*

On motion of Mr. Keator, resolved, that the Delegates from the different County Societies be requested to state what benefits have resulted to the Agriculture of their respective neighbourhoods from the said Societies, and whether any alteration could be made, which might result in the greater usefulness of said Societies.

On motion of Mr. Keator, resolved, that the Schedule of questions on page sixty of the first Annual Report be circulated among the different Agricultural Societies, as well as among the farmers generally.

On motion of Mr. Keator, resolved, that the subject of the benefits of Agricultural Societies be taken up and disposed of by the Board on Wednesday next, and also the reading of Essays and discussions on same.

On motion of Mr. M'Monagle, resolved, that a Committee be appointed to report on the best means of promoting Agricultural Education, viz:—Dr. Robb, Hon. Mr. Wark, and Mr. M'Monagle.

On motion of Mr. Reid, it was resolved that a Committee be appointed to enquire during the recess of the Board, concerning the probable expense of publishing an Agricultural Paper, and the support such paper would probably receive from the several Counties, and report at the next meeting of the Board, viz:—Messrs. Jardine, Keator, and Stevens.

On motion of Mr. Dibblee, it was resolved that the subject of the amendment and consolidation of the Laws relating to Agriculture, be referred to the Law Committee.

On motion of Mr. Reid, it was resolved that a Committee of three members be appointed to consider all matters connected with the improvement of Agricultural Implements. To this an amendment was moved by Mr. Napier, and carried, viz :—That the Secretary be requested to apply to the Government with a view to having a pipe tile machine imported and placed in the Provincial Penitentiary, for the use of the Province.

On motion of Mr. Keator, it was resolved that a Committee be appointed to enquire and report, in time for introduction into the next Annual Report, the improvements effected on any Farms in this Province by the operation of thorough drainage, viz :—Messrs. Jardine, Keator, and Bridges.

On motion, resolved, that the subject of the recent importation of Stock by the Board, stand for discussion in the afternoon of this day.

Same was discussed, and a full examination of all particulars having been previously entered into, and everything being found satisfactory, no resolution was passed at this time.

5th March, 1861.

Mr. Lewis presented a Report from the Albert County Society, praying for a grant in aid of local subscriptions. The Report was, on motion, referred to the Audit Committee.

Mr. Reid moved that the Provincial Exhibition be held at —— instead of Sussex Vale, as determined by the Board of last year. To which Mr. Stevens moved the following amendment, which was carried, viz :—That no question in regard to the determination of last year's Board, as to the location of the Provincial Exhibition, be entertained by the members of this Board.

The Secretary read a letter from the Provincial Secretary, signifying that the Government cannot appoint any one in lieu of Mr. Pierce, unless the Board can certify that no person has been elected to represent the County of Northumberland for the present year.

On motion of Mr. Napier, resolved, that the gross amount payable for premiums at the Exhibition do not exceed seven hundred and fifty pounds.

On motion of Mr. M'Monagle, a Committee was appointed to consider and report on the Premium List for the Exhibition, viz :—The Secretary, Messrs. Jardine, M'Monagle, Napier, and Bridges.

On motion, the Chairman and Secretary were appointed a Committee to prepare an estimate of the value of the articles that might be available for the London Exhibition, with a view to laying the same before the Executive Government.

On motion of Mr. Jardine, resolved, that a Committee be appointed to view and decide upon the site of the Exhibition Grounds and Buildings; and that the said Committee do consist of Messrs. Jardine, Keator, M'Monagle, Reid, and Bridges.

6th March, 1861.

The Chairman read a note from Mr. Kerr, stating, that owing to continuous occupation in the Legislature, it would be impossible for him to act as member of the Board, and that he felt obliged to tender his resignation.

The Chairman presented a Report from the Committee charged with the duty of preparing an estimate of the charges connected with the preparation of materials to illustrate the resources, arts and manufactures of the Province, at the great Exhibition in London, in 1862, for the information of the Executive Government,—which was received, adopted, and ordered to be transmitted to the Provincial Secretary.

Mr. Stevens presents a Report from the Committee on Revision of Laws relating to Agriculture,—which was received and adopted.

The Report is as follows:—

The Committee to whom were referred the consideration of the consolidation and revision of the Laws relating to Agriculture, and other matters connected therewith, beg leave to Report:—

We recommend the consolidation of all Acts relating to Agriculture, viz:—Cap. 38, Vol. 1, Revised Statutes; 17 Victoria, 2nd Vol. Revised Statutes, Cap. 7; 18 Victoria, Cap. 33; 22 Victoria, Cap. 10; and 23 Victoria, Cap. 46; and expunging those parts or sections of Acts that have previously been altered or amended.

We recommend that the Law relating to the election of Members of this Board be amended, and that in future it shall be optional with Societies and Counties to elect annually; and that those Members of the Board at present, who have in first instance been duly elected, shall remain Members until others shall be elected in their stead.

We recommend that provision should be made for the appointment of Members in cases of resignation, death, or refusal to serve.

We recommend, in regard to the lung murrain disease, that a general law be framed, applicable to this or any other contagious disease, so as to prevent the introduction or spread of same in this Province.

In regard to the better protection of Sheep from dogs, we recommend that the Act Cap. 62, Vol. 1, Revised Statutes, be amended; that in Section 1 of said Act, the words "*chase in any enclosed field or common unenclosed,*" be inserted.

In Section 2, the words "*so chased,*" be inserted.

That Section 5 be amended, so that any person be justified in killing a dog running at large, after it has been known to chase as aforesaid, maim or kill any sheep or lamb.

That every dog should be provided with a collar, on which shall be inscribed the owner's name, which shall be prima facie evidence of the ownership of dog, by the person whose name is so inscribed, and that it shall be lawful for any person to kill any dog running at large not having such collar.

Respectfully submitted.

March 6th, 1861.

JAS. G. STEVENS, *Chairman, &c.*

Mr. Stevens presents a Report from the Committee charged with the duty of revising the conditions upon which Grants will be made to the Agricultural Societies,—which was received and adopted.

The Report is as follows:—

The Committee to whom were referred the consideration of the further conditions on which Grants to Societies should be made, beg leave to Report—

That in addition to the recommendations contained in the Report of last year on this subject, we recommend that each Society should be required to prepare a written, and if possible, a printed Report, of all their respective doings, containing an account of their Fair held, character of products, stock exhibited, what improvements made, and all other particulars respecting premiums awarded, weight of articles, and such like;—which Report should be forwarded to the Secretary on or before the 15th day of November in each year.

Respectfully submitted.

JAS. G. STEVENS, *Chairman, &c.*

On motion of Mr. Jardine, resolved, that Messrs. Wark and Stevens submit the Report on the revision of Laws relating to Agriculture to the Executive Government, with a view to having a Bill drawn up in conformity with the recommendations contained in the same.

7th March, 1861.

The Secretary laid on the table copies of the printed Report of the Board.

On motion of Mr. Keator, resolved, to appoint a Committee to arrange about the distribution of same, viz:—Messrs. Keator, Stevens, and Lewis.

The distribution recommended, and which was subsequently carried out, was as follows:—

The Committee, on the distribution of copies of the Annual Report, would beg to say, that in their distribution they would recommend that, to the Members of the Legislature should be given 200 copies; the Executive Government 100 copies; the Members of Board 108 copies. That there be given to the Delegates for circulation, at the rate of four copies for every one thousand inhabitants; computing our population at 230,000, this would be 920 copies for appropriation in this way. That it be left discretionary with the Secretary what Provincial Newspapers should receive copies. That a copy be sent respectively to the

Editor of the Quebec Morning Chronicle,
 “ Montreal Herald,
 “ Toronto Globe,
 “ “ Leader,
 “ Canadian Agriculturalist, Toronto,
 “ Ross' Weekly, Charlottetown, P. E. Island,
 “ Islander, “ “
 “ Nova Scotian, Halifax,
 “ Acadian Recorder, Halifax,
 “ Instructor, Bay Verte,
 “ Eastern Chronicle, Pictou; and
 To S. L. Goodale, Esq., Saco, Maine,
 J. F. Anderson, Esq., South Windham, Cumberland County, Maine,
 Dr. Holmes, Editor Maine Farmer, Augusta,
 New England Farmer, Boston,
 Boston Cultivator, Boston,
 Country Gentleman, Albany,
 Genesec Farmer, Rochester.

The balance, which would be considerably less than one hundred and fifty, might be left with the Secretary for distribution as occasions offer.

All which is respectfully submitted.

J. D. M. KEATOR.

P. S.—We would suggest that the appropriation made to Saint John County, should be in proportion to population of the County.

On motion of Mr. Stevens, it was resolved to appoint a Committee to prepare an Address on behalf of the Board, to be presented to His Excellency the Lieutenant Governor, by the Board, with the Annual Report of the Board.

Ordered, that the said Committee do consist of the Chairman, Dr. Robb, and Mr. Stevens.

The Secretary submitted a communication from Hon. Mr. Odell, on the subject of a Model Farm, and offering his own farm to rent for a time on very reasonable terms for the purposes of the same.

Ordered, that the same be received and read.

Mr. Perley submits on behalf of J. H. Gray, Esq. M. P. P., an Essay on Inducements to Immigration to New Brunswick, written by Mr. J. Robertson, of Portland, Saint John.

Ordered, that the same be received by the Board.

On motion of Mr. Perley, resolved unanimously, that Mr. Kerr should be requested to withdraw his resignation, and continue a Member of the Board.

The Board then proceeded to the order of the day, viz :—A statement by Members of the results of the operation of Agricultural Societies in their respective Districts. *

The Secretary gave notice that he would move—

1st.—That the Board do procure medals or diplomas, to supplement the money prizes at the Exhibition; which was passed.

2nd.—That a Committee be appointed to consider how Manufacturers of Agricultural or other implements, not in the Province, may be invited to contribute to the Exhibition; which was referred to the Executive Committee.

3rd.—That the Board do nominate local Agents and Committees for the Exhibition, in the different Counties, who shall keep the attention of the public directed to the subject, stimulate and encourage intending exhibitors, fix places of storage, collect objects, make entries, report and forward same to the Secretary.

8th March, 1861.

The Board proceeded to the order of the day, which was—The reading of the Essays written by the Members of the Board.

Mr. Stevens read his Essay—On the Renovation of Exhausted Soils.

On motion, resolved, that the Essay just read, be published in the next Annual Report, together with a digest of the remarks made upon the same.

* The Reporter having mislaid his Notes, the remarks of Members cannot fully appear, but each Member represented in very favorable terms the good results from their respective local Societies. Much improvement in stock breeding, and in general Agricultural progress, were stated to have arisen from the influence of such Societies; and the increased benefits that were likely to accrue from a more uniform course of action through the operations of the Provincial Board of Agriculture, were dwelt upon in hopeful terms.

The Essay is as follows :—

ON THE RENOVATION OF EXHAUSTED SOILS.

This subject is one which embraces the whole system of good agriculture, for “*an exhausted soil*,” presupposes a previous bad process of farming.

What have been the causes that have led to the exhaustion of soils? They will be mainly found in the want of system in farming or cultivating the soil; improvidence; and the occupation of too much land; and these causes arising often from the poverty or deficiency of means of the farmer, and also from a want or neglect of scientific agricultural knowledge.

The first settler on new land is, frequently, one who has no capital beyond his own labour; he purchases a tract of land, encumbers it with a mortgage for payment of same, clears a few acres, sows same in oats, and is able perhaps the first year to make both ends meet.

The second year a similar course is pursued, more land is cleared, and further returns are received; thus for years the only system that is pursued is that of clearing more land and obtaining a fresh burning, until the owner has some thirty acres, the greater portion of which has had its virgin productiveness exhausted by continued cropping, and no manuring; the poverty of the settler, it may be, has not enabled him to restore fertilizers to the land; he has not been able to purchase or keep stock; and what the land has yielded him, has been speedily converted into cash to supply his immediate wants, or to meet the dreaded payment that may be due on his mortgage.

Whilst in such a case we must make allowance for the *poor settler*, we yet perceive frequently a similar result of exhaustion of soil in the land of those who are not so ill off, but who possessing sufficient means—either from want of agricultural knowledge, or negligence in putting it to good account—pursue no system in their farming; never seem to gain much ahead, and are constantly complaining that farming wont pay; that their land is poor, and easily *runs out*. The land has been exhausted by a continual successive cropping of same crops, without any nourishing return to the land; whilst the same principle of bad management is observable in the turning out of the cattle in Spring and Fall to the ill cared for mowing fields,—the product of the land sold off the farm, instead of being converted into food for the land, and into beef and the product of the dairy for the market.

Closely connected with this want of system is *improvidence*, and perhaps no where is this so apparent as in the neglected and insufficient buildings for the housing of cattle, and the proper preserving of manure, the neglect of yarding of cattle, and the collecting of materials for the making of manure. Much has already been said and written on this all-important subject, but it has not received the practical attention its importance demands.

Again, the occupation of too much land, or rather the disproportionate size of the farm, to the means towards the proper cultivation of same, is another cause that leads to an exhausted soil; better to do well what is done, than by a diffusive but scanty supply of manure, and inefficient cultivation, to endeavour to accomplish what we have not the means to overtake; the more land a man has, the greater return he will receive, is a fatal but common mistake.

We may here also refer to another fruitful source that leads to the exhaustion of soil, in the divided attention between farming and other business, inasmuch as generally in such case the farm is improperly and only half cared for.

The important question however, is how best to renovate an exhausted soil?

The answer to this question would be easily given, if abundant means were at command for the purpose; in such a case the *nature and properties of the soil* would first be ascertained, in order to know in what ingredients it had become deficient, and by a liberal supply of the necessary fertilizers of which the land had been deprived, together with the thorough

stirring of the soil, and draining, where necessary, the land would in a short time be restored to its original fertility; but abundance of capital would thus be requisite if there was much extent of land, in order to the procuring of manures and artificial fertilizers, the application of same, and the proper working of the soil.

But how is the poor settler to manage the renovation of his land?

If he has no means at his command but his axe and hands, and is unable to keep any stock, we see no way in which he can, to much purpose, alter his course at first described, of cutting and burning, unless he can obtain a breed of animals that will increase his manure hill, eat nothing and yet thrive well; which, by the way, are apparently very much desired by many farmers, who, to judge by the treatment of their stock, would seem to be endeavoring to discover whether they do not in fact possess so valuable a description of cattle.

But in the case in which the settler may have some pecuniary means at his command, and be the possessor of some stock, what had he best do?

By patience, energy, and perseverance, he will be enabled to accomplish very much towards restoring his worn out lands. Let him in the first place look well to the making and saving of manure; let him exert himself to collect together all rubbish, dirt, scrapings from the roads and ditches, bog earth, and every material within his reach fit for manure; let him fence in a small yard and let his pig do his share in turning over the pile; let him yard his cattle there also; thus by attention to the collecting of materials, and frequent stirring, he will soon have a pile of manure, that in its effects on his land will amply repay his diligence. Next let him apply the manure to some one field, giving a thorough good dose, and especially, now, let him keep a good look out to *system*, and adopt a rotation of crops; for example, the first year on his manured field he will take a crop of roots; next year on same field he may seed in grain and grass; and third and fourth years he will have his grass crops, and fifth year in pasture; in this way he will each year have a portion of land brought to fertility, whilst it will not deprive him of as much as he can get from his other lands which may not be overtaken in the rotation.

We might here allude to the practice of ploughing in green crops as a means of enriching the land; but this method is at best very temporary in result, and the poor man can not afford to be deprived of a crop in this way, and on the other hand, the man of means can have a better restorer in rich manure.

I cannot, I consider, do better than incorporate into this Essay, a portion of an excellent tract—written originally for the benefit of the farmers in Canada, but equally applicable to this Province,—on the general management of a farm, shewing how an exhausted soil may be rendered fertile without the aid of Capital; a paper which was published under the superintendance of the New Brunswick Society for the encouragement of Agriculture, &c. &c., and which ought to be more largely circulated, read and acted upon by the farmers of this Province, to whom it was presented by said Society.

The author of the tract referred to, alludes to the rotation of crops as the basis of all improvement; he makes the correct assertion as an evidence in favor of the system of rotation of crops, that “different plants draw from the soil different sorts of food, so that one plant will grow freely in a soil which is worn out as regards another.” Again, “because the crops being various, the occasional failure of one is not so much felt, seeing that the others furnish subsistence sufficiently without it.”

The author, speaking from his own practice and beneficial experience, thus explains his system of Rotation, which, with slight alteration, as circumstances may require, can easily be adopted in whole or in part:—

“ Divide the arable portion of the farm, whatever may be its size, into six parts, as equal as possible, with a direct communication from the barn yard to each field, and from one field to the other, so that the cattle may pass from one to the other when required. This division into six fields may require on most farms new fencing, and it will be proper beforehand to see how this can be done with the least possible expense. I shall now suppose the farm prepared to receive the application of this system, and that is the one which I have found the best for even the poorest settler.

“ 1st.—Root crop, such as potatoes, carrots, beets, parsnips, &c.; and in cases where the land is not sufficiently open for a crop of this kind, the field must be kept in fallow.

2nd.—Crop of wheat or barley.

3rd.—Crop of hay.

4th.—Pasture.

5th.—Pasture.

6th.—Crop of oats or peas.

“ In beginning the application of this system, that field of the series which is in best condition for a root crop should be called Field A.

The best for wheat or barley, B.

That which is actually in hay, C.

The pasture fields, D. & E.

That which is best for oats or peas, F.

“ Each field for the first year ought to be appropriated to the crops above mentioned, and after the fashion now in use among the farmers of Lower Canada, except in the case of field A. By this plan they will at all events still get as much from their five fields as they get at present.

“ The culture of field A and of crop No. 1, comes up together for the first year, and ought to be the object of special attention, as this is in fact the key to the whole system; for the good culture of this field has for its object, and ought to have for its effect, not only a good crop the first year, but also the improvement of the land for the other five years of this rotation of crops.

“ In the following year the cultivation of the different crops will be according to the following order:—

Crop No. 2 in the field A,	Crop No. 3 in the field B,
“ 4 “ C,	“ 5 “ D,
“ 6 “ E,	“ 1 “ F,

and so on, changing each year until the seventh, when crop No. 1 comes back to field A. The whole will then be in a good state of fertility, and free from weeds. The above system has been proved to be capable of restoring old land, and extirpating all weeds.”

The writer, from whom we have quoted, advocates the cultivation of the carrot, as a useful root applicable to all living things on a farm, and recommends, in the preparation of the ground for root crops, that all the dung and manure that can be collected and scraped together, should be placed on the field A in September or early in October, spread with care as far as it will go, and covered up in a shallow furrow. If the land is too heavy (he remarks) for root crops, beans and peas will suit for No. 1, taking care to sow them in drills, the land being prepared as before described.

In reference to *ploughing*, he says—“ If it be thought absolutely necessary to Summer fallow, that is, to plough without sowing—which only happens when the soil is so hard and heavy that it cannot be pulverized in any other way—you ought not to spread the manure on the land in the preceding Fall, but plough the land and ridge and furrow it with as much

care as for a crop. You need not touch it again before the month of June, when you must plough it again and harrow it, so as to render it even and destroy the roots of the weeds; you may then draw the furrows in a straight line, giving them a uniform breadth, so as to facilitate drainage. About the middle of July you must plough it again and sow it with plenty of Buckwheat. At the end of September plough it again, having previously spread it with dung. In this case, the Buckwheat is ploughed under with the manure, and serves greatly to increase the latter. The land, thus prepared, ought to be sown with wheat in the ensuing Spring, (any other grain would answer) and you may add a little Timothy and clover.

“By following the method above described, you will have in the year 1851 quadrupled or more than quadrupled the fertility of the soil.

“I have now done all that I can for field A; I have weeded and manured it as well as I can; and after having taken the crop of roots and the crop of wheat or barley, next year I leave this field to rest, until the other fields have been improved in the same way and according to the method above described. When this shall have been effected, that is to say, in the space of six years, or in the year 1856, the worst will be over, and the battle may be considered as gained. The fields will then be in a clean and fertile condition, and their value will consequently be greatly increased. The farm of 70 or 80 acres, which in 1849 only sustained three or four miserable cows, and perhaps no more than an equal number of sickly sheep, will be capable in less than ten years, of furnishing an abundant subsistence for ten or twelve cattle and other stock in the same proportion.

“One of the great advantages of this system of rotation of crops is, that the pastures which in Summer furnish summer feed for the stock, are in due proportion to the quantity of roots and hay destined to winter feed them, and in due proportion to the straw which the grain crops yield for their bedding. I will observe here, that farmers—except those who live near towns where they can easily procure manures—ought never to sell a single load of their hay, straw, or roots, since the whole ought to be consumed on the farm with a view of procuring a sufficiency of manure therefrom, whereby the fertility of the soil is to be sustained. But if the farmer is not to sell hay or straw, or roots, what is he to sell? I answer, the third of the land being under this system appropriated to grain crops, he will always be able to sell a large part of them; the half of the farm, being in hay and pasture, will allow it to produce a large quantity of butter, cheese, butcher's meat, and wool, and him to sell a considerable part of these after having supplied the wants of the family. It may be said, that six years is a long time to wait for the renovation of the whole farm; but I will reply, that I know of no other means by which it may be done in less time from its own resources, and it is worthy of observation that the land is improving every year. The produce is larger, even for the first year, under this system, than it is under the present method of culture, and from year to year the land is improving, field by field, and is producing more and more so as to pay the farmer better than it does at present, and to recompense him doubly afterwards when the whole shall have been improved under a system of rotation.”

I feel that I cannot add much to the practical advice above quoted, and would recommend it to the favorable consideration of every farmer in this Province, as a simple and practicable method of renovating an exhausted soil without the aid of a money capital.

Respectfully submitted.

St. Stephen, July, 1860.

JAS. G. STEVENS.

The remarks made by Members of the Board, on the subject of the several Essays, not being preserved, cannot here be given.

Mr. Keator read his Essay—On the Importation of Stock.

On motion, resolved, that Mr. Keator's Essay be published in the Annual Report, together with the comments on the subject made by the Members of the Board.

The Essay is as follows:—

To the Secretary of the Provincial Board of Agriculture.

SIR,—You wish me to furnish you with my views relative to “Stock Importations.” If I am to understand by this, whether or not importation of Stock shall take place by the recommendation and under the direction of the Board of Agriculture, I must say that my opinions are unfavorable to the Board undertaking this business.

In the first place, I think the annual appropriation by the Legislature, in aid of Agriculture, is quite large enough. If each Agricultural Society fulfils the conditions imposed on it, which are very easy, the Agricultural body is entitled to a direct annual grant of £2,800, to which add £400, the annual cost of maintaining the Provincial Board, and you have a yearly expenditure of £3,000; to which may be added this year £700, which sum is to be drawn triennially to aid the Provincial Exhibition.

This, I conceive, to be quite sufficient encouragement towards the development of the Agricultural industry of New Brunswick; and I believe, for other reasons, much the most judicious course for the Board to pursue, is to leave the matter of Stock improvement, or Stock importation, with the Societies. These Societies, as at present constituted, ramify throughout the entire Province, and the Directors are the best judges, or ought to be, of what will suit their interest, and of the kind of Stock best adapted to their localities or their wants; and whether the condition of Agriculture in their Districts, will be better advanced, or an impetus to the farming interest be more directly given, by the introduction of pure bred Stock; by procuring good seed and more improved implements; or by higher premiums. Facts speak louder than words, and there are facts to prove, beyond a doubt, that the County and Local Societies have imported Stock, both from the United States and England, equally as good, and at a much cheaper rate, as respects incidental expenses, than has ever been done by either the Government or the Board. The Society of which I am a member, imported two Devon bulls last Spring, from Mr. Anderson of the State of Maine. The Society paid the travelling expenses of their agents, but allowed them nothing for their time; indeed, the young men were well satisfied to take a pleasant trip, without requiring any remuneration for their services. Our Society, on other similar occasions, have pursued the same course. There have been several extensive and costly importations of Stock, by other Societies, from Britain. Judgment was exercised in the selection, and care and prudence in forwarding, and the result has been satisfactory. A number of these animals are, at the present time, in the Province, and are good specimens of their respective breeds. In some of these instances, parties have subscribed liberally—far beyond the amount prescribed by law. This is the method I approve of. Self-interest, here, was the motive power, and success has attended the effort. If an Agricultural Society is willing to appropriate its surplus funds in importing Stock, let it do so. If there is any misapplication of the money, the Board can withhold its recommendation, or give its censure, as seems best.

The Government has already expended large sums, in addition to the regular Agricultural Grant, in importing stallions, bulls, and even rams. These have been spread broadcast over the Province; and still, we have very many persons who believe the general wretchedness (?) of the Stock is such, as to excite in their minds the belief, that our flocks and herds can only improve by still continuing these occasional governmental grants for the purpose of importation.

To my mind there occurs another reason why the stock of the country does not come up to the ideas of some of our zealous advocates for improvement. The remoteness, I may also say the absence, of markets, the paucity of population, the want of means, and the little or no emulation among farmers, combined with the high price of grain, potatoes, and English hay, as compared with the prices of beef, mutton, and even pork, are such as not to induce that extra feeding and attention to well-bred stock (when it is obtained) which is necessary to develop the growth and maintain the qualities at a standard point.

"Farming may be called *high* or *low*, according as the farmer strives by dint of labour and capital to keep the land in the most fertile condition, and draw the highest income from it; or, as he tries with smaller means to arrive more gradually at the same result."*

The kind of farming first named, is induced where markets are quickly accessible. It, of course, requires capital for its more favorable prosecution: but industry, energy, and intelligence, will accomplish wonders, when there is a demand which always gives quick money returns. This activity first manifests itself in the increased productiveness of the land, and the latter furnishes the *foundation* for improvement in Stock of all kinds. When we compare New Brunswick with the State of Maine, we find the farmers of our Province labour under a great disadvantage, contrasted with those of that State. Maine has some ten towns having each a population of over 5,000. New Brunswick has but *one!* Fredericton scarcely having that number. Here, we see, without going more into details, the reason why the Stock of New Brunswick is inferior, and her Agriculture languishing. We have really but one steady cash market in all the Province; and our farming must, of consequence, be that styled *low*, until we can create centres of industrial activity on our streams and along our seaboard.

To me, living in the country, deriving my impressions of farming life by daily associations with the sights and sounds of rural life, and familiarized with the wants and thoughts of farmers by interviews with my neighbours, I cannot bring my mind to any other conclusion. However much our farmers and their Stock may be considered as behind the times, it must not be forgotten that the farmer in a country like ours, has serious obstacles to encounter. Capital, as yet, is confined to the more immediate remunerative branches of trade; and our experience teaches us that industry generally follows those channels that furnish the quickest returns. To foster a business by bounties will not meet with success, unless the contingent circumstances are such as to turn men's minds towards it without them; or, which I cannot approve of, to give such extensive aid as would be unjust to other important branches of home industry.

J. D. M. KEATOR.

9th March, 1861.

Mr. M. Monagle read his Essay—On the Training and Breaking of Horses.

Resolved, that the same be published, with the comments of the Members of the Board upon the subject of the same.

The Essay is as follows:—

The breaking and training of horses is a subject on which few good horsemen can agree, all feeling partial and confident in his own mode of practice. In this Province, where we have not had professional horsemen to guide and direct us in the breaking and training of horses to the saddle and harness, it must be expected that New Brunswickers have yet much to learn on that subject. For my own part, I do not pretend to possess a scientific

*Agricultural Progress, by Dr. Robb.

knowledge of the manner in which the breaking and training of horses should be conducted; but having been an ardent admirer of that beautiful and useful animal from my youth up to the present time, and having had much to do with them in a practical way, I feel quite willing to lay my opinions before the public; and if any thing that I can say on the subject should be the means of improving the general management of that much abused and most valuable servant of man, my object will have been attained.

The colt, while following the dam, should be handled kindly but firmly, but never played with, as that is a frequent cause of vice. Some breeders halter-break him during his first Summer, and it is wise to do so, where the farmer finds it necessary to work the dam. He can be taught to lead by the side of her, by first teaching him to lead by the hand; then after being so used, tie a halter-strap to the shaft of the waggon or some part of the harness, so that he cannot run around in front of his dam, and with a check-strap from the nose-piece of his halter to his dam's halter-ring, to prevent him from dropping back too far. Being so secured, and the dam driven carefully, he will soon learn to travel alongside with much greater ease and safety than by following after. But breeding mares should not be taken off the farm if it can possibly be avoided; in fact, they should not be compelled to work while giving suck, as it is quite enough for them to nurse their colts; and, presuming the colt has not been handled up to the time of weaning, his education should then commence.

Having caught the dam, she should be led quietly to the stable, and if possible a box stall should be selected, first being provided with about four inches bedding,—sawdust, tanbark, or short straw, will answer. The box being ready, the dam should be led in, (the assistance of a steady careful man is here necessary,) the colt will follow, and if not of his own accord, the assistant should drive him in, taking care not to frighten him. Having got him in the box, the dam should be led out, and the colt remaining, the dam should be immediately removed out of hearing; then take his halter in the left hand, and with your assistant go in the box, close the door tight, and fasten it. Place your assistant at the end where the manger or rack is; your colt will of course occupy the opposite end. Step quickly as near to him as he will allow you, look him in the eye firmly, and speak soothingly to him, calling him by his name, (for they should always be named before handling); if he is uneasy, step gently to and fro with him, to keep him in position. In a short time he will lose all fear, and you can advance gradually to his left shoulder, clasping your right arm over his neck and at the same time taking hold of his nose with the left. Let that hold be as light and gentle as the nature of his actions will admit. He will jump and struggle for a time, and you must move with him until he stops, which he will soon do, and when quiet, pet him a little, and rub the front part of his head very lightly, and as soon as convenient, slip the halter up over his nose. Taking hold of the top strap with your right hand, draw it gently over his neck and buckle it. Having the halter now on him, get your assistant to hand you the leading strap or rope; buckle or tie it in, and take care that it is long enough, so that you can let him walk the length of the stable without letting go the strap, or without making him pull on the halter. Now allow your assistant to leave the box, as you will do much better alone. As you must not let him feel the weight of your hand on the halter, give him rope when he runs from you, and he will never rear, pull, or throw himself, if you use sufficient caution; yet, you will be holding him all the time, and doing more to make him gentle, than if you had the power to stop him at once and hold him to the spot, because he does not know any thing about his strength, and if you don't do any thing to make him pull, he will never know that he can. In a short time you can control him with the halter, then shorten the distance between you and him, and take up the strap in your hand.

As soon as he will allow you to hold him by a tolerably short strap, and to step up to him without fear, you may begin to give him some idea about leading, and commence by pulling him very quietly to one side. He has nothing to brace either side of his neck, and will soon yield to a steady, gradual pull of the halter. As soon as you have pulled him a step or two to one side, step up to him and pet him, and then pull him again, repeating this operation until you can pull him around in any direction in a few minutes; for he will soon think when you have made him step to the right and left a few times, that he is compelled to follow the pull of the halter, not knowing that he has the power to resist your pulling; besides, you have handled him so gently that he is not afraid of you, and you always caress him when he comes up to you, and he likes that, and would just as lief follow you as not. After he has had a few lessons of that kind, except he be of a very fearful turn, he will come up to you every opportunity he gets. Having now given him his first lesson, unbuckle your strap and tie in a rope to the halter, long enough to admit of his stepping on it with his fore feet, his head being in proper position. Rub him about the neck and head, leave him in as kind a manner as possible, and bring him some food; then shut him up. He will now move about his box with caution, because his stepping on the rope will snub him occasionally, and make him feel that he is not his own master. You should make a point to handle him in the same way, once a day, for a week, always taking care not to frighten him. You may now take him out and lead him, taking hold of the rope close up to his jaw with your left hand, while the right is resting on the top of the neck, (well back,) holding to his mane. After you are out with him a little while, you can lead him about at pleasure. Don't let any second person come up to you when you are out; a stranger taking hold of the halter, or coming near, would frighten him and make him run. There should not even be any one standing near him, to attract his attention or scare him. If you are alone and manage him rightly, it will not require any more force to lead him than it would a broken in horse. (His stepping on the rope in his box will do much towards making him handy.) Continue this practice until he is kind and handy, both in and out of stable. Having him now handy, he may then be tied about two hours every day, until he is thoroughly broken to stand tied in box or stall. It is a good plan to put a bar across the box or stall, to prevent him from pulling back on the halter: after a few days it may be dispensed with. He should be tied to the centre of the manger or rack, and at some time during the day, when you can, look in at him and see that all is right. This is the commencement of the horse's breaking; and the manner in which it is done has more influence on his future usefulness, than most men are aware of.

He should be treated in like manner the second winter, and the third, if the owner can afford to wait; and here I will remark, that it would be good economy to wait until the Fall after he is three years old, before giving further breaking. The treatment generally given to colts between two and a half and three and a half years old, lays the foundation of many diseases both of the limbs and lungs, and shortens the life of the horse by about five years; thereby losing four years of his labour, and causing him to labour in pain while he lives. But provided you cannot wait, you now have him handy both to lead and stand tied; and presuming he has had no other handling than before directed, you can commence by putting the harness on him in as gentle a manner as possible, allowing it to remain on him, while in his stall, three or four hours; then take it off with care, and after it is removed, rub him down gently, calling him at all times by his proper name. After which he should be led out about a mile or more; and after returning to his stable, remove all dirt from his feet with a picker, then carefully groom him down, taking up his feet occasionally and showing him the utmost kindness. This practice should be continued three days

or more, according to the disposition of the colt, or until he shows no fear of the harness. Should he be of a vicious disposition, it would be wise to strap up his nigh fore leg before putting harness on, but that will seldom be found necessary, if proper caution and kindness be used. When he has become sufficiently accustomed to the harness, so as not to feel alarmed by its motion on him when he moves, he should then be led out a few times with it on, then hitch him in by the side of a kind, steady, active horse, and put before the waggon or sled. If he shows he is kind, drive off very slowly; if vicious, strap up one fore leg, and make him move on three until he is subdued, (which will be soon). Drive about a mile or two; in turning, give him a large circle, avoiding all objects that may frighten him; the most private road is the best, provided it is smooth. Prepare yourself with a good whip, but be careful how you use it, as many a fine colt has been spoiled in receiving his first lesson in harness, by too frequent use of the whip. Should he show a disposition to hang back, have your whiffletrees so secured with check-chains, (or rope), that your broken in horse takes all the weight, and allow him to go as slow as he pleases, providing he moves at all. If he rears and plunges, as colts will sometimes, stir the broken in horse up, and let him go ahead, keeping a steady pull on them, taking care not to check the colt suddenly; he will soon tire of that, and come in gently—for the more spirit, the easier broken. Having returned to the stable, remove the harness, clean the feet out, and rub the colt well down with a good straw wisp. Repeat the same treatment for one week, adding a little length to his drives every day, bathing his shoulders where the collar rests, immediately after the harness is removed, with alcohol or strong pickle, until they become toughened by use.

By this time he is ready for lessons in single harness, which should be given on the same principle as before described, using a two-wheeled carriage, if at hand, and let it be as light as possible; and should he show vice, strap his fore leg up until he is subdued; driving him out as before directed, and increase the distance according to his condition, taking care not to tire him, as he should always be taught to enjoy his labour. Regulate his drives so that he feels pleased while out in harness, and his breaking in is easily accomplished. Continue this course of exercise for ten days, and your colt is broken in, so that any fair horse-teamster can take him and do any ordinary work on the farm with him; but he must not be left to rude hands for a long time, (never, if possible to avoid it), as it is one thing to break a colt, and another to keep him broken, as the horse is a spirited animal; for while he is willing to serve his master faithfully and pleasantly so long as he is kindly treated, and loaded within his powers, he is ready at any moment, if overloaded and ill treated, to resist such treatment in a very determined manner. And it is not without long practice under kind, patient, and skilful teamsters, that the horse can be taught to exert his utmost power in harness; and while it is necessary to teach him so to exert his power, it is not wise on the part of the teamster or owner to tax him to that extent, until he has matured his full strength. Six years old is as soon as horses should be put to heavy draught; but they should be worked on the farm up to that time, where they can be quite as useful to the farmer as older ones, in performing all his labour, and their increase of value will be one of his profits. When I say the colt is broken in, I do not mean that he is broken in fit to sell to a gentleman for his family carriage horse, but is so far broken in as to be made useful on the farm, and may be set to work thereon; and if set to work before the plough, he should be hitched in alongside of a kind horse that understands his work, and he should be a good ploughman who holds the reins; (and unto such I offer no advice, only let them be patient.)

As by far the greater number of those who own and have the charge of horses, know but little about the proper mode of treatment for them either in harness or in the stable, it may not be amiss here to offer a few observations on teaching the colt to plough. Having

hitched him in alongside of his mate, (which we will presume to be kind and spirited,) the ploughman should select a stubble-field, as light soil as there is to be ploughed on the farm. Having put check-straps, from bridle to tug-buckle, on each horse, and a coupling rein from bit to bit, for level land, say about two and a half feet long, (varying of course according to the size of your horses and the nature of the ground), the reins should be open, so that one can be held in each hand, and held snug, so as to keep a gentle pull, which, with the check-straps, will keep your horses even. The lands should be long, so that the turns will not be so frequent; and having all things ready, go ahead. If your colt is not inclined to move steadily, keep him going back and forth in as straight lines as possible, without putting in your plough for at least half an hour; then begin to put your plough in very lightly, and if he is willing to pull his share at that time, keep him going one hour; if otherwise, keep him going with the plough out for a time longer, until he shows a disposition to draw his share at one fourth depth. Having then kept him going until he is tame, take out your team, clean their feet, groom, bathe his shoulders, and pet as before; and so keep on, taking him out twice a day, and at each succeeding lesson keep him out longer, until you get him up to the usual working hours, taking care to stop him often and raise the collar from his shoulder, talking to him, and gently calling him by his proper name always. By this means, in a few days you will have him fit to do his share of work before the plough on any level land, providing his shoulders will bear it; but you must not tax him in heavy land until his shoulders are thoroughly toughened, and when they are, he can have no better exercise than constant moderate work before the plough, during six hours of the day. There is in my opinion no work the young horse can be set at, that will teach him to be handy and mind the word of command more readily, than ploughing, providing he is in the hands of a good tempered man and a skilful ploughman. A hasty tempered man may be a good teamster, but he will always be unnecessarily severe, and I should be loth to place a valuable colt in his hands.

Now, that he is kind and willing before the plough, his finishing up for the road requires a great deal of time, and, if well done, much taste on the part of his breaker. He who undertakes it, should first know how to drive in a scientific manner; and for such I am not writing, as they must know more about it than I pretend to do; but as there are many who, I presume, know less, a few hints on the subject may be useful. First, fit the harness carefully on your horse, hitch him to a light waggon or gig, and there keep him standing a few moments, without holding by the head or reins if possible; stand near his head, so that should he start, you are within reach to stop him, and to place him gently where he started from. When you have kept him there long enough to satisfy him that you wish him to stand patiently, walk quickly up to your carriage and step in, taking care not to touch the reins; make him stand one or two minutes, then take up the reins quietly, and as you draw them taut, speak to him, calling on him in your usual way to move off, allowing him to walk, and keep him on that gait about two miles; then call on him to trot, and keep him on that gait about a mile. Returning, walk and trot alternately about half a mile, keeping a steady pull on him when trotting, but allowing him the free use of his head when walking, taking care that he goes straight and steady by the usual stopping places. So continue for a time, until his muscles are firm enough to stand a trot of two or three miles at a steady pace; then, drive him in a prompt manner, (but always walk him going out). Returning to stable, strip him; and after walking him about five or ten minutes—with or without clothing, according to the state of the weather—take him in, and set to work rubbing him off (first cleaning his feet) with good straw wisps, until he is comfortable, then clothe his body and rub his legs until all dirt is removed, and they look clean and bright. That will take an hour if properly done; then he may have four quarts

of water and a little hay. Continue this practice ten days, by which time he will be in condition to stand a drive. Always while out, either in walk or trot, he must be kept going until you arrive at your place of destination. In driving up to the door of the hotel, store, or smithy, stop him with his head in such position as not to tempt him to move, drop your reins over the dashboard, and step out. Always put your hand on him after coming out, and speak kindly to him, calling on him in your usual way to stand, that he may know you are out of the carriage; there make him stand, keeping an eye to him, stepping about as though you were not noticing him. When he has stood a few minutes, walk up to his head, rub his face down, and speak approvingly to him; then step into your carriage, making him stand a moment as before, take up your reins, and call on him to go off with some spirit, but not fast. All those things of course, must be done according to the taste and judgment of the driver, and on that depends his success and the future usefulness of the horse. It is very difficult to lay down a defined plan of action, as much depends on the disposition and physical powers of the animal under training; for while one would require an exercise of twelve miles a day, another might not be able to stand, without high feed, more than six, without feeling fatigue. This is presuming your horse is in ordinary condition; but as you increase his exercise, which in training for a driving horse should not any day exceed twelve miles, he should always be kept within his powers, so that he will feel like going when he gets a hint. While you are out, nothing should induce you to stop on the road when meeting teams, but drive straight and steady by all who do not go fast enough to suit you; and on meeting carriages, horsemen in saddle, or footmen, keep a steady pull, and by no means allow your horse to swerve more than is actually necessary to make the passage. Should he show a disposition to halt in the slightest while passing, he should be informed of his error by a sharp cut with the whip.

By persevering in this treatment, and by improving the condition of your animal, until he comes up to the standard of condition, you may make any horse a fair driver, even if he is a "lunkhead." But nature is better than art. First study how to select a horse of such form and action, as will enable him to go with ease to himself and with pleasure to his driver; in other words, a roadster. Then his breaking will be an easy task, yet patience is necessary to give him desirable habits. Those are, firstly, that he shall stand patiently until the driver is seated and takes up his reins; secondly, that he goes straight and steady in walk and trot, while on the road; and thirdly, that he can be left where you wish without tying, so as you will be sure to find him on your return;—all of which can be taught by a uniform course of kind treatment.

HUGH M'ONAGLE.

Sussex Vale, November 29th, 1860.

Mr. J. H. Reid read an Essay on Sheep Husbandry in New Brunswick, which was ordered to be received.

Mr. Keator read an Essay on Domestic Manufactures.

The Chairman submitted an Essay by Mr. J. G. Layton, upon Practical Agriculture.

Resolved, that the thanks of the Board be given to Mr. Layton, and that the Essay be received for further consideration.

Ordered, that the Secretary do communicate the same to Mr. Layton. A Committee was appointed to Report upon the said Essay.

On motion of Mr. Jardine, resolved, that an Executive Committee be appointed, who shall be authorized and empowered to superintend and take charge of the Provincial Exhibition, and such other matters as may arise during the recess, in connection therewith, or any other matters relating to the business of the Board.

On motion of Mr. Stevens, resolved, that the several Agricultural Societies be authorized to appropriate such sum of money, as in their discretion they may respectively deem necessary, towards defraying the expense of transit of Stock and articles from their respective localities to and from the Provincial Exhibition; and that a correct statement of such expenditure be furnished to the Board at its next Annual Meeting; and that the propriety of allocating a portion of their funds to the purposes of the said Exhibition, be brought under the notice of the Societies by the Secretary.

The Chairman read a draft of an Address to His Excellency the Lieutenant Governor, which had been prepared by the Committee; whereupon, ordered that the same be received and adopted, and that the Chairman be a Committee to wait upon His Excellency, with a view to ascertain when he would be pleased to receive it.

The Secretary submitted Answers to Queries published by the Board, which had been sent in by Mr. Mathew Stevenson, of Saint Patrick; whereupon, on motion, the Secretary was directed to offer the thanks of the Board to Mr. Stevenson for the same.

On motion of Mr. McMonagle, resolved, that the subject of a Model Farm do stand over till next Annual Meeting, and that the Secretary be instructed to notify Hon. William Odell of the same.

11th March, 1861.

Mr. Jardine announced that Mr. Kerr had consented to withdraw his resignation.

The Secretary submits a copy of a Bond, to be executed by the Treasurers of Local Societies, according to the Report of last year of the Law Committee; whereupon, ordered that the same be adopted and issued to the Treasurers, and to be returnable annually, with other papers, to the Secretary of the Board.

On motion of Mr. Stevens, it was resolved that the Chairman of the Board shall be a Member of the Executive Committee, and that he be empowered to fill up the remainder of the said Committee.

On motion of Hon. Mr. Wark, the total number of said Executive Committee was determined to be nine; but which, on reconsideration, was resolved to consist of seven, four of whom should constitute a quorum.

The following persons were nominated the Members of the Executive Committee, viz:—the Vice-Chairman, the Secretary, Messrs. Keator, McMonagle, Stevens, and Napier, together with the Chairman of the Board.

On motion, it was resolved to nominate Local Committees, to have charge of the Exhibition arrangements within their respective Counties, and that

the Delegates to the Board be the Chairmen of said Committees, and that they have power to add to their number, and to form Local Sub-Committees.

The Committees so named were as follow:—

ALBERT.—J. Lewis, M. P. P., Chairman, A. R. M'Lelan, J. Wallace, W. Gowland, W. Hallett, T. Colpitts.

CARLETON.—C. Perley, M. P. P., Chairman, H. E. Dibblee, John Harper, James Grover, R. Kerr, J. D. Ketchum, K. A. Hay, Ant. Carney, S. G. Burpee, G. W. Bowyer, James Edgar, J. Stoddart, W. Dangstatt.

CHARLOTTE.—James G. Stevens, Chairman, John Bolton, R. M. Todd, Dr. Todd, George A. Lowell, John M'Adam, M. P. P., A. H. Gillmor, M. P. P., Robert Stevenson, A. T. Paul, John Mann, Jr., Matthew Stevenson, John Gray.

GLOUCESTER.—W. Napier, Chairman, S. L. Bishop, J. Ferguson, J. Chalmers, W. Mallory.

KENT.—Hon. D. Wark, Chairman, William S. Caie, William Raymond, John Brait, J. Carruthers.

KING'S.—H. M'Monagle, Chairman, J. D. M. Keator, W. B. Nichol, Silas Raymond, Isaac Dodge, Wm. Langstrath, J. Cashern, W. P. Flewelling, Edwin Crawford, O. R. Arnold.

NORTHUMBERLAND.—G. Kerr, M. P. P., Chairman, J. A. Pierce, R. Sutton, W. G. Fraser, George Johnson, A. Jessamine, B. Stapleton, M. Falconer, W. Parker, James Johnson.

QUEEN'S.—J. Ferris, M. P. P., Chairman, James Slip, John Robertson, Andrew Barter, Mr. Bonnell, George Elkin.

RESTIGOUCHE.—A. Barberie, Chairman, D. Stewart, A. Ferguson, W. S. Smith, A. C. Desbrisay, A. Dickie, Pat. Doyle, D. Ritchie, John Duncan, Rufus Pipes.

SAINTE JOHN.—R. Jardine, Chairman, Thos. Davidson, R. Bowes, James Barber, D. S. Kerr.

SUNBURY.—H. P. Bridges, Chairman, W. E. Perley, M. P. P., Sheriff White, J. S. Covert, C. Burpee, D. Tapley, M. P. P.

VICTORIA.—Levite Therriault, Chairman, Hon. Mr. Rice, Regie Therriault, J. Emerson, Rev. R. M'Guirk, L. R. Coombes, John Hart, B. Beveridge.

WESTMORLAND.—Hon. A. E. Botsford, Chairman, George Oulton, James F. Allison, Stephen Binney, L. Wilmot, R. Atkinson, R. W. Abercromby, J. Hickman, Blair Botsford, Alexander Munro, James C. Harper.

On motion of Mr. Jardine, resolved, that the Members of the Legislative Council and House of Assembly, be specially requested to co-operate with this Board, and lend their individual aid in promoting the object of the Provincial Exhibition in their respective localities.

The Secretary, from the Committee on Premium List for Exhibition, presents a list of Premiums, which was received and read over item by item, and progress reported.

12th March, 1861.

The Premium List was again taken up. When the Premiums for Sheep were under discussion, it was, on motion of Mr. Napier, resolved, that the class in the Premium List—Long Woolled and Short Woolled Sheep—should not be limited to pure breeds. Mr. Reid dissenting.

At four o'clock, P. M. the several Members of the Board went to Government House, when the Chairman presented an Address on the part of the Board, together with a copy of the Annual Report, to His Excellency the Lieutenant Governor.

The Address was as follows :—

To His Excellency the Honorable John Henry Thomas Manners-Sutton, Lieutenant Governor and Commander in Chief of the Province of New Brunswick.

MAY IT PLEASE YOUR EXCELLENCY,—

From a deep sense of the respect due to Your Excellency, as Her Majesty's Representative in this Province, as well as from your known interest, public and private, in all that relates to Agriculture, we, the Members of the Provincial Board of Agriculture, gladly avail ourselves of the opportunity of presenting to Your Excellency, the First Annual Report of the proceedings of the Board.

The operations of the Board for the past season have, from unavoidable causes, been somewhat less fruitful than was anticipated, but that much good has been accomplished, we think will not be questioned.

The subject of the Provincial Exhibition to be held next Autumn, has of late occupied much of the attention of the Board, and it is hoped that its efforts will be successful in securing such an Exhibition of the material resources and Agricultural capabilities of the country, and also of its arts and industry, as will satisfy the expectations, while it stimulates the energies, of the people.

The Board will cheerfully give every assistance, in carrying out Your Excellency's recommendation to the Legislature, to take advantage of the Provincial Exhibition, by making such arrangements and selecting such articles, as will ensure a creditable representation, of the produce and manufactures of the Country at the Great Exhibition in London in 1862.

We beg to thank Your Excellency for the interest which you have already shewn in the proceedings of the Board, and we sincerely hope that the cause of Agriculture in New Brunswick may long continue to profit by the encouragement which Your Excellency is so well qualified to give it.

There are no doubt some lands more favored by nature than this Province of New Brunswick; but there are few which can surpass it in salubrity of climate, fertility of soil, and a fitness for producing the staple elements of the food of man, or for pleasing diversity of scenery.

The political constitution of the country is free; and its inhabitants, secure in the protection of Great Britain, are rapidly developing its great natural resources, and establishing a name in many important branches of manufacturing industry.

As a field for the surplus labour of the Mother Country, New Brunswick offers many advantages; and the application of such labour, continued for a few years, under the guidance of sound principles, will secure the permanent independence and comfort of such Immigrants as may make their home with us, while it will contribute to render New Brunswick one of the most valuable appendages of the British Empire.

A. E. BOTSFORD, *Chairman.*

His Excellency was graciously pleased to reply to the Address as follows :—

Mr. Chairman and Gentlemen,—

You have, I fear, exaggerated the aid which I have given to the cause of Agricultural improvement, but you have not overrated my desire to assist in the attainment of that great object.

<i>Expenditure for 1860.</i>							
Premiums,	\$153 55
Stock imported,	34 00
Implements,	62 95
Charges of management,	14 40
Other charges,	25 59
Balance,	165 75
							<u>\$456 15</u>

We recommend a grant of \$180 to the Society. We observe charges for expenses repairing and attending on a thrashing machine; we think those charges ought to be paid by those who used it.

No. 2.—ELGIN SOCIETY, ALBERT COUNTY—JOHN BURCHARD, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

<i>Income for Year 1860.</i>							
Subscriptions paid,	\$63 00
Provincial Grant,	189 00
Other assets,	96 27
							<u>\$348 27</u>
<i>Expenditure for 1860.</i>							
Premiums,	\$46 33
Seeds imported,	61 17
Stock do.	160 40
Charges of management,	6 10
Other charges,	2 50
Balance,	71 87
							<u>\$348 37</u>

We recommend a Grant of \$189 to this Society.

ALBERT COUNTY SOCIETY.

A return made of subscriptions, but no affidavit; we cannot therefore recommend a Grant.

CARLETON COUNTY SOCIETY—J. GROVER, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

Other assets,	57 05
							<u>\$996 30</u>
<i>Expenditure for 1860.</i>							
Premiums,	\$179 50
Seeds imported,	228 66
Stock do.	120 00
Charges of management,	64 05
Other charges,	304 00
Balance,	100 09
							<u>\$996 30</u>

It appears by the Accounts of this Society, that there was a balance in the hands of the Treasurer of £98, and yet, we observe that the first charge is a sum of £76 to the Treasurer for an alleged balance due him on transactions of 1857-8, for which no Accounts had been furnished or submitted to an Audit. It is true, as is alleged, that these Accounts were burned at the fire last Spring, but they should have been rendered long before. Under the circumstances the Committee cannot recommend a Grant.

CHARLOTTE COUNTY SOCIETY—F. W. BRADFORD, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

							<i>Income for Year 1860.</i>	
Balance from last year,	\$230	60
Subscriptions paid,	70	00
Provincial Grant,	183	00
Other assets, †	578	23
							<u>\$1,061 83</u>	
							<i>Expenditure for 1860.</i>	
Premiums,	\$141	00
Seeds imported,	561	68
Implements,	10	10
Charges of management,	60	53
Other charges,	69	55
Balance,	218	97
							<u>\$1,061 83</u>	

A Grant of \$210 recommended.

SAINT CROIX SOCIETY, CHARLOTTE COUNTY—R. WATSON, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

							<i>Income for Year 1860.</i>	
Balance from last year,	\$301	95
Subscriptions paid,	76	00
Provincial Grant,	189	00
Other assets,	18	00
							<u>\$584 95</u>	
							<i>Expenditure for 1860.</i>	
Premiums,	\$193	00
Stock imported,	90	94
Charges of management,	36	60
Balance,	264	41
							<u>\$584 95</u>	

A Grant of \$180 recommended. The subscription list gives names of persons paying \$60 only; and although \$16 are stated as having been received for entrance fees, no names are given. \$90.94 are charged for a sheep and a pig, and expenses; no credit however is given for proceeds of sale of these animals.

SAINT GEORGE & PENNFIELD SOCIETY—RICHARD MAGEE, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

Income for Year 1860.

Balance from last year,	\$435 73

Charges of management,	46 20
Other charges,	284 70
Balance,	103 05
							<u>\$1,067 46</u>

A Grant of \$210 recommended.

CENTRAL SOCIETY, KING'S COUNTY—SAMUEL HALLET, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

Income for Year 1860.

Balance from last year,	\$172 26
Subscriptions paid,	62 00
Provincial Grant,	198 00
Other assets,	151 59
							\$583 85

Expenditure for 1860.

Premiums,	\$143 76
Stock imported,	340 23
Charges of management,	73 48
Other charges,	1 50
Balance,	24 88
							\$583 85

A Grant of \$186 recommended.

SUSSEX & STUDHOLM SOCIETY—GEORGE RYAN, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

Income for Year 1860.

Balance from last year,	\$115 24
Subscriptions paid,	72 00
Provincial Grant,	189 00
Other assets,	105 42
							\$481 66

Expenditure for 1860.

Premiums,	\$275 40
Charges of management,	16 00
Other charges,	169 55
Balance,	20 71
							\$481 66

A Grant of \$216 recommended.

UNION SOCIETY, KING'S COUNTY—SETH ERB, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

Income for Year 1860.

Balance from last year,	\$214 97
Subscriptions paid,	69 50
Provincial Grant,	198 00
Other assets,	38 85
							\$521 32

Expenditure for 1860.

Premiums,	\$147 25
Stock imported,	101 39
Charges of management,	14 00
Other charges,	44 05
Balance,	214 63
							\$521 32

A Grant of \$208.50 recommended.

As the Accounts are all for subscriptions of 1860, this Society can only receive a Grant on the subscriptions for that year.

BLISSFIELD, LUDLOW & BLACKVILLE SOCIETY, NORTHUMBERLAND COUNTY—WILLIAM SWIM, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

Income for Year 1860.

Balance from last year,	\$133 85
Subscriptions paid,	96 00
Provincial Grant,	219 00
Other assets,	147 43
							\$596 28

Expenditure for 1860.

Premiums,	\$168 43
Seeds imported,	49 95
Implements,	122 75
Charges of management,	42 00
Other charges,	2 00
Balance,	211 15
							\$596 28

A Grant of \$172.46 recommended.

GRAND LAKE SOCIETY, QUEEN'S COUNTY—ANDREW BARTON, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

Income for Year 1860.

Balance from last year,	\$11 12
Subscriptions paid,	102 15
Provincial Grant,	306 45
Other assets,	289 97
							\$709 69

Expenditure for 1860.

Premiums,	\$37 50
Stock imported,	82 30
Implements,	267 77
Charges of management,	11 12
Other charges,	208 30
Balance,	102 70
							\$709 69

The Accounts furnished by this Society are not satisfactory. Nearly all the funds of the Society appear to have been expended for Implements and Seeds, and there is no satisfactory statement of the sales. There is an item charged for double subscriptions, £51 1 6, which requires explanation. No Grant is recommended.

The Committee would observe, that although no Grant was recommended last year, a Grant appears to have been made in June.

SAINT JOHN & GOLDEN GROVE SOCIETY—J. DUNCAN, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

Income for Year 1860.

Balance from last year,	\$419 12
Subscriptions paid,	181 00
Provincial Grant,	512 00
Other assets,	85 60
							\$1,197 72

Expenditure for 1860.

Premiums,	\$324 00
Seeds imported,	47 23
Stock do.	333 61
Other charges,	274 40
Balance,	218 48
							\$1,197 72

A Grant of \$451.59 recommended.

VICTORIA CENTRAL SOCIETY—J. G. HODGSON, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

Income for Year 1860.

Balance from last year,	\$177 25
Subscriptions paid,	103 00
Provincial Grant,	342 00
Other assets,	190 44
							\$812 69

Expenditure for 1860.

Premiums,	\$118 00
Seeds imported,	171 63
Implements,	349 94
Charges of management,	22 25
Other charges,	22 95
Balance,	127 92
							\$812 69

A Grant of \$306 recommended.

In the Accounts of this Society, it is mentioned that \$325.73 are in the hands of V. Hebert, the Society's Salesman, in cash, and that there are Implements worth \$288.40, and Debts amounting to \$18.9. The Committee disapprove of any moneys being allowed to remain in the hands of any other than the Treasurer.

SAINT LEONARD'S SOCIETY, VICTORIA COUNTY.

A Grant of \$210 recommended.

BOTSFORD & WESTMORLAND SOCIETY—J. C. HARPER, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

Income for Year 1860.

Balance from last year,	\$00 00
Subscriptions paid,	72 00
Provincial Grant,	219 00
Other assets,	327 85
							\$518 85

<i>Expenditure for 1860.</i>							
Premiums,	\$153 75
Seeds imported,	211 75
Charges of management,	40 00
Other charges,	83 28
Balance,	30 07
							\$518 85

A Grant of \$160 recommended, on a list of Subscribers being furnished.

DORCHESTER SOCIETY, WESTMORLAND COUNTY—D. CHAPMAN, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

<i>Income for Year 1860.</i>							
Balance from last year,	\$166 27
Subscriptions paid,	61 00
Provincial Grant,	180 00
Other assets,	334 62
							\$741 90
<i>Expenditure for 1860.</i>							
Premiums,	\$108 00
Seeds imported,	381 95
Stock do.	91 50
Charges of management,	20 10
Other charges,	23 50
Balance,	116 95
							\$741 90

A Grant of \$135.56 recommended. The Pigs bought for the Society have not been sold.

SACKVILLE & WESTMORLAND—WESTMORLAND COUNTY.

J. F. ALLISON, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

<i>Income for Year 1860.</i>							
Balance from last year,	\$670 45
Subscriptions paid,	164 00
Provincial Grant,	409 00
Other assets,	244 40
							\$1,487 85
<i>Expenditure for 1860.</i>							
Premiums,	\$245 25
Seeds imported,	285 27
Stock do.	111 80
Charges of management,	38 75
Other charges,	154 50
Balance,	652 28
							\$1,487 85

A Grant of \$364.44 recommended.

SUNBURY COUNTY—WILLIAM BURPEE, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

<i>Income for Year 1860.</i>							
Balance from last year,	\$91 00
Subscriptions paid,	199 00
Provincial Grant,	180 00
Other assets,	59 86
							<u>\$529 86</u>
<i>Expenditure for 1860.</i>							
Premiums,	\$167 22
Stock,	367 50
Management,	6 00
Other charges,	20 00
Balance,	13 46
							<u>\$529 86</u>

It appears that \$100 of the above subscriptions were subscribed to the York County Society, and merely a list of the names handed over to the Sunbury Society, with a Promissory Note from J. A. Beckwith, Esq. for the amount.

The Committee think this proceeding quite irregular, and can only recommend a Grant for \$297, which is however three times the amount of the actual subscriptions to the Sunbury Society.

YORK COUNTY SOCIETY—J. A. BECKWITH, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

<i>Income for Year 1860.</i>							
Balance from last year,	\$25 58
Subscriptions paid,	346 85
Provincial Grant,	676 00
Other assets,	401 95
Balance,	354 95
							<u>\$1,805 33</u>
<i>Expenditure for 1860.</i>							
Premiums,	\$205 50
Seeds imported,	42 20
Stock do.	681 00
Implements,	21 80
Charges of management,	56 80
Other charges,	798 02
							<u>\$1,805 33</u>

The Committee have ascertained that a certain number of the names of Subscribers to the York Society have been handed over to the Sunbury Society, to enable the latter to draw a larger Grant. They find that £13 16 2 of the amount credited as subscriptions, was taken, as entrance money, at the gate of the Show, and for dinner tickets.

They also find, that a large portion of the expenditure has been made by the President, Mr. J. H. Reid, without any other vouchers than his own Account.

In view of these facts, the Committee cannot recommend a Grant, but remit the case to the Board.

SHEDIAC SOCIETY, WESTMORLAND—R. W. ABERCROMBY, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

Income for Year 1860.

Balance on hand,	\$41 15
Subscriptions paid,	63 00
Provincial Grant, past year,	00 00
Other assets,	132 41
Balance,	13 05
							\$249 61

Expenditure for 1860.

Premiums, none,	\$00 00
Seeds imported,	146 55
Stock do.	35 25
Implements,	31 20
Charges of management,	16 11
Other charges,	20 50
							\$249 61

A Grant of \$140 recommended.

WAKEFIELD & BRIGHTON, CARLETON.

The Audit Committee of last year reported that it was not explained why the large balance of £280 had been allowed to accumulate, and that as no subscription list had been furnished, they could not recommend a Grant.

An Account, Subscription list, and several letters have been placed before this Committee, from which it appears that the Officers of the Society have for several years been in the habit of crediting, as subscriptions, notes of hand from individuals, which notes were returned as soon as the grant was received. Grants were thus obtained from the Province much larger in amount than the actual subscriptions warranted; and as their nominal subscriptions had been credited in the Accounts as cash, while the notes were returned, it cannot be ascertained what the real balance is.

These Accounts were sworn to as correct, and it will be for the Board to determine whether the Government should not be requested to institute proceedings against the Officers of the Society.

In the circumstances the Committee cannot recommend that any Grant should issue.

SIMONDS SOCIETY, SAINT JOHN—JOHN JORDAN, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

Income for Year 1860.

Balance,	\$6 00
Subscriptions,	139 65
Grants,	288 00
Balance,	32 43
							\$466 08

Expenditure for 1860.

Premiums,	\$350 00
Stock,	75 33
Other charges,	40 75
							\$466 08

A Grant of \$348.41 recommended.

RESTIGOUCHE SOCIETY—W. S. SMITH, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

Income for Year 1860.

Balance from last year,	\$00 00
Subscriptions paid,	200 00
Provincial Grant,	440 00
Other assets,	52 05
Balance,	230 40
								\$922 45

Expenditure for 1860.

Premiums,	\$350 25
Seeds,	57 60
Charges of management,	50 00
Other charges,	463 60
								\$922 45

The Committee observe that the balance due the late Treasurer in last year's Account, was \$234.30. In this year's Account, the amount charged as paid to him, is \$432.85. On this being satisfactorily accounted for, a Grant of \$600 is recommended.

The above has been satisfactorily explained.

KING'S COUNTY, UPHAM—N. P. WANNAMAKER, Treasurer.

ABSTRACT OF AUDITED ACCOUNT.

Income for Year 1860.

Balance,	\$199 02
Subscriptions,	60 00
Provincial Grant,	180 00
Assets,	21 25
								\$460 27

Expenditure for 1860.

Premiums,	\$121 07
Stock imported,	145 18
Charges of management,	2 00
Other charges,	12 32
Balance,	179 66
								\$460 23

We recommend a Grant of \$180.

The Audit Committee have observed that a custom generally prevails, of selling Seeds and Implements on credit. They recommend that the Board should require all sales to be made for cash.

They would recommend that all Stock imported or purchased by Societies, be immediately sold at Auction for cash, to the highest bidder, and in no case kept at the expense of the Society, as they have found, in auditing the Accounts, that the most unsatisfactory results have followed the usual practice.

They have noticed that, in one County, a Threshing Machine has been sent round the Parish, without charge for its use, while the cost of repairs and attendance upon it have been charged to the funds of the Society.

We recommend that all Audit of the Accounts of the County Societies close with the sitting of the Board at the Session, as by Law all the Returns and Accounts are required to be made up and sent to the Secretary, quite in time to be audited at these Meetings.

Respectfully submitted.

R. JARDINE,	} Committee of Audit.
J. D. M. KEATOR,	
WILLIAM NAPIER,	

By the above Report, the amounts of Grants to Societies, as passed by the Board, were as follow:—

Albert—Elgin Society,	\$189 00
Harvey do.	180 00
Carleton County Society,	441 75
Charlotte County Society,	210 00
Saint Croix,	180 00
Saint George and Pennfield,	237 00
Gloucester County Society,	204 00
Kent—Carleton Society,	201 00
Kingston,	210 00
King's Central Society,	201 00
Sussex and Studholm,	216 00
Union,	208 50
Upham and Hammond,	180 00
Northumberland County Society,	274 83
Alnwick,	158 08
Blackville and Derby,	202 10
Blissville and Ludlow,	172 46
Restigouche—Restigouche Society,	600 00
Saint John—Saint John and Golden Grove,	451 59
Simonds,	348 51
Sunbury—Sunbury Society,	297 00
Victoria Central Society,	306 00
Saint Leonard's,	210 00
Westmorland—Botsford and Westmorland,	160 00
Sackville and Westmorland,	364 44
Dorchester,	135 56
Shediac,	140 00
York Central Society,	800 00

14th March, 1861.

The Secretary, on the part of the Finance Committee, reported that a sum of \$4000 had been placed at the disposal of the Board, for the purpose of securing a proper illustration of the resources of the Province for the Great London Exhibition of 1862.

The Committee to whom the Essay on Practical Agriculture had been referred, report favourably of the same, but for reasons given, it was not deemed advisable that the Board should assume the responsibility of publishing it.

Ordered, that the said Essay be returned to Mr. Layton, with the thanks of the Board.

Mr. M'Monagle, from the Committee on Agricultural Education, submits the following Resolution, viz :—“ That the Board do recommend the Government to take such means as they think proper, to have at all times a supply of Standard Works on Agriculture, at the lowest prices, available for the supply of School District Libraries.”

This Resolution passed unanimously, and the Secretary was instructed to notify the Government of the same.

On motion of Mr. M'Monagle, resolved, that the pedigrees of the Horses and other Stock, imported last year, be printed in the Report of the Board.

The draft of the Rules and Regulations for the preservation of order at the Provincial Exhibition, was read,—the same was adopted, and the Secretary was ordered to communicate the Rules and Regulations so adopted, to His Excellency the Lieutenant Governor in Council, for approval, under provisions of Act of Assembly 23 V. cap. 46. These Rules and Regulations, as approved, are as follow :—

Rules and Regulations for preserving order at the Provincial Exhibition to be held in Sussex Vale in October 1861, under provisions of Act of Assembly 23 V. cap. 46.

No. 1. Any person trespassing within the limits of the grounds prescribed by the Provincial Board of Agriculture, or breaking or climbing over any fence or gate enclosing the said grounds, or any portion thereof, may be expelled from the same, and be liable to a fine not exceeding eight dollars.

No. 2. Any person found guilty of defacing or in any way injuring any article being exhibited within the grounds or buildings appropriated to the Provincial Exhibition, shall be subject to a penalty not exceeding (twenty) 20 dollars, or to imprisonment not exceeding (twenty) 20 days.

No. 3. Any person being drunk, disorderly, or in any way interfering with, or refusing to obey the directions of the persons in charge of the Exhibition within the prescribed limits of two miles from the Railway Station Buildings at Sussex, may be apprehended, and shall be subject to a penalty not exceeding eight dollars or more than ten days imprisonment.

No. 4. No person shall be permitted to sell or offer for sale any spirituous liquors within the precincts of the Buildings or prescribed limits aforesaid :—Any person guilty of such offence may be apprehended, and removed from such limits by the officers of the Board, and shall be subject to a penalty of eight dollars, or to imprisonment for a term not exceeding ten days.

No. 5. Any person removing or taking away any articles from the Buildings appropriated to the Provincial Exhibition, or from within the prescribed limits aforesaid, not being the owner, or person in charge of the same, shall, on conviction, be subject to a penalty of twenty dollars, or be imprisoned for a term not exceeding twenty days.

No. 6. Any person wilfully injuring any animal within the prescribed limits of the Exhibition shall be liable to a penalty not exceeding twenty dollars, or be imprisoned for a term not exceeding twenty days.

No. 7. Whoever shall eat or take away any fruit offered for competition at the Exhibition, without the consent of the owner or person in charge of the same, shall be subject to a fine of two dollars, or be imprisoned for the term of two days.

No. 8. Whoever shall remove or change any ticket, label, or distinctive mark from any article or animal, on which the same had been placed by the persons in charge of the Exhibition, or by their officers, shall, upon conviction, be fined four dollars, or be imprisoned for a term not exceeding four days.

The Secretary submitted a letter from the Hon. the Provincial Secretary, concerning an appropriation of \$4000 to the Board for the purposes of the London Exhibition.

On motion of Mr. Jardine, resolved, that the Exhibition be opened on Tuesday, 1st October, and continue open till the Friday following.

After the thanks of the Board were given to the Chairman, Vice-Chairman, and Secretary of same, who severally replied, the Board adjourned until Tuesday the 26th day of March, 1861.

26th March, 1861.

Board met pursuant to adjournment. Hon. Mr. Botsford in the Chair. Present, also, Messrs. Kerr, C. Perley, Lewis, and Ferris.

No business being brought before the Board, and the Secretary being absent, the Board adjourned until Friday the 29th day of March, at 3 o'clock, P. M.

29th March, 1861.

Board met pursuant to adjournment. Hon. Mr. Botsford in the Chair. Present, also, Messrs. Kerr, Reid, Lewis, and Jardine.

The consolidation of the Laws relating to Agriculture was under consideration. A Bill was drawn up respecting the same, but owing to the lateness of its presentation, was not passed in the Legislature.

Board adjourned *sine die*.

FREDERICTON, April 9th, 1861.

A Special Meeting of the Board having been duly called by the Chairman, Hon. Mr. Botsford, for the purpose of appointing a Secretary to the Board, that office having become vacant by the sudden decease of Dr. Robb, the Board met at Fredericton, in the Committee Room of the House of Assembly, on Tuesday the 9th day of April, instant.

Hon. Mr. Botsford in the Chair. Present, Messrs. Kerr, Therriault, H. E. Dibblee, Ferris, Bridges, Lewis, Jardine, Stevens, Keator, Reid, Perley, and Hon. D. Wark.—Mr. Kerr was requested to act as Secretary, *pro tem*.

Before proceeding to the appointment of a Secretary, Mr. Stevens moved the following Resolution, which was unanimously passed:—

“Resolved, That this Board record their heartfelt sorrow at the decease of their late Secretary, Dr. James Robb, and consider that in the removal, by the hand of Providence, of one possessing so eminently the qualifications of learning and ability, so peculiarly valuable in the important situations which he filled,—that not only has there been a severe loss sustained by the Board, but by the Province generally; whilst among his most immediate friends, a sad breach has been suffered in those social relations, in which he was so much esteemed and beloved; and further they record their unfeigned sympathy with the bereaved widow and family.”

The Board next proceeded to the election of a Secretary, when after ballot, and a majority of the whole Board present, James G. Stevens was declared duly elected Secretary to the Board, and commenced his duties as such.

On motion of Mr. Jardine, it was resolved that Mr. H. P. Bridges be appointed one of the Members of the Executive Committee.

On motion of Honorable Mr. Wark, it was resolved that a premium of \$4 be given for Salt, and be entered in the premium list for next Exhibition.

The Board next proceeded to consider the Rules and Regulations for the guidance of Exhibitors and Judges at the next Provincial Show, when the following were adopted and ordered to be printed with the premium list.

Five thousand copies of the premium lists were ordered to be struck off,—4000 of which to be distributed generally throughout the Province,—copies to be sent to Local Committees, Clergymen, Magistrates, Officers, Agricultural Societies, Members of the Legislature, and Members of the Board, and others, and that one thousand copies be retained by the Secretary for use. The Rules, together with those in addition which were inserted in the programme, are as follow:—

Rules and Instructions for Judges and Competitors.

I. All Articles and live Stock, intended for competition, shall be entered with the Secretary of the Provincial Board of Agriculture, or with the Chairman of the respective County Local Committees, for immediate transmission to the Secretary of the Board, on or before the 21st day of September next, and delivered to the Executive Committee at Sussex Vale, as follows, viz:—All articles to be delivered between Wednesday 25th September, and Saturday the 28th September, inclusive, at the risk of the Exhibitor. Horses and Cattle to be at Sussex Vale on Evening of Tuesday, 1st October, and to be placed on Show Grounds by 8 o'clock on Wednesday, 2nd October. Cattle and all live stock must remain in charge and at the risk of their owners, but they may be fed at the Vale at expense of the Board; owners must provide sufficient halters.

The names of intending competitors in the Ploughing Match, should also be entered as above.

II. Articles, the produce or manufacture of other Countries, may be exhibited or sold, but cannot take Prizes, except as specially excepted. Works of Art and Curiosities of all kinds are solicited, and every care will be given to their safe keeping.

III. Exhibitors must be prepared to prove that the articles are the produce or manufacture of New Brunswick, and must send with the articles a label, stating the exhibitor's name and address, the designation, description, and object of the articles, where produced

or manufactured, the lowest price, and the quantity available for the market, and the prize for which they are entered. Portions of manufactured articles must necessarily, in some cases, be the produce of other countries—such as the ivory and wires of Pianos, the woods of Cabinet Maker's work, and the mountings of Saddlery; a certificate of such fact, with an account of the state in which such articles were imported, to be verified if required, must be furnished in all such cases.

IV. Notice will be given hereafter of the appointment of Judges in the several departments, for the purpose of awarding the premiums. Articles only known to the Judges by their number in the Secretary's Book—exhibitors will have card with corresponding number.

V. No article shall be entitled to more than one prize, and premiums in any department may be withheld if the Judges do not consider that the article or articles exhibited are entitled to them; strict compliance with the above rules will, in all cases, be required.

VI. In the case of Grain or Roots, not less than half a bushel (unless so specified) is to be exhibited for competition; and in every case a report in writing at the time of exhibition, is required of the kind of seed, the mode of preparing the same, the quality of soil, the system of culture, with the time of sowing and reaping.

The Judges shall be guided in their awards—1st, by the purity of the Seed; 2nd, by its freedom from extraneous Seeds; and 3rd, by its weight.

VII. In the case of imported or thorough bred stock, the importer or owner must furnish in writing a particular account of the breed, pedigree, and prime cost of the animals when imported—age of cattle to be taken from 1st January each year; sheep and swine shall be excepted from the requirements of this rule. All stock (except sheep and swine) entered for competition, must have been owned and kept in the Province not less than three months prior to the exhibition.

VIII. Competitors in fatted cattle and sheep must furnish a verified statement in writing at the time of the exhibition, of the mode of feeding, the size and weight of the animals when put up to fatten, and their progressive increase as far as can be ascertained.

IX. All premiums not claimed within six months from the last day of exhibition, will be considered forfeited.

X. In the case of manufactured articles generally the Judges shall be guided in their awards by a reference to their excellence, cheapness, and fitness for the country.

XI. The Judges will assume, unless otherwise stated, that ages and pedigrees in the Live Stock Departments are correct, and will proceed to decide without further enquiry; unless some doubt shall present itself, in which case direct communication is to be made to the Secretary.

XII. The Judges on animals will have regard to the symmetry, early maturity, size, and general qualities characteristic of the breeds for which they judge. They will make due allowance for age, feeding, and other circumstances in the character and condition of the animals. They are expressly required not to give encouragement to over-fed animals. They will not award premiums for bulls, cows, or heifers, which shall appear to have been fattened for the butcher; the object being to have superior animals of this description for breeding purposes.

XIII. The Judges will be expected, in making their Reports, to *give the reasons of their decision*, embracing the valuable and desirable qualities of the animals to which premiums are awarded.

XIV. In examining non-enumerated Stock or Articles, the Judges will state the amount of the prize which they would in each case recommend.

XV. The Judges will report not only the animals or articles entitled to Premiums, but also those *next in merit* in each class; marking them "COMMENDED," or "HIGHLY COMMENDED," as the case may be.

XVI. In all cases the Society's *Diploma* is to be considered the evidence of superior merit.

XVII. Under no pretext shall Competitors, or those acting for them, hold communication, written or verbal, with the Judges, excepting in reply to questions which the Judges may find it needful to put; parties infringing this rule will forfeit all right to premiums.

XVIII. Should Competitors consider themselves aggrieved, or desire to offer explanations, they must refer to the Secretary, who will arrange a meeting with the Judges; and should difficulties then continue, they shall be submitted to the Executive Committee of Board. Complaints must be made *in writing*, and lodged with the Secretary, *at latest*, on the evening previous to the announcement of awards.

XIX. Judges are respectfully requested to sign and send in to the Secretary their Books as soon as completed,—by *Thursday, 2 o'clock, p. m. at the latest*.

N. B.—All Articles and Animals brought for Exhibition, must have cards attached with the number as entered at the Secretary's office; and Exhibitors shall in all cases obtain their cards of the Secretary or Entry Clerk previous to placing their Articles or Animals on the Show Ground.

The *Cattle Show* will be on Wednesday 2nd October, and Thursday 3rd October. The *Prize Animals must remain until Friday*, when a procession of the same shall be had.

As the Provincial Board of Agriculture are entrusted with the purchasing and procuring of articles, from New Brunswick, for the Exhibition to be held in London next year, the attention of Exhibitors is directed to this fact, that they may be prepared to offer the best specimens, which, if worthy, may be purchased by the Executive Committee for the London Exhibition.

Objects not enumerated in the Premium List, may be entered and exhibited for competition under the general class of "*Non-enumerated articles.*"

The Board will take every care of articles and stock on exhibition, but will only be responsible for such loss or damage as may occur through any neglect of theirs, during the time of the Exhibition, and no longer. Exhibitors will therefore give attention to their articles, and at the close of the Fair, attend to their removal.

The Chairman submitted a bill of five pounds, which appeared to be an outlay by the late Secretary, for cash paid Mr. Beckwith for copying papers on business of the Board, and which amount did not appear to have been charged by the late Secretary against the Board, or allowed him in any way. Ordered, that the same be paid to the Executrix of the deceased, by the Chairman.

Also, the allowance of the sum of fifty pounds was approved of, as being due and unpaid to the late Dr. Robb, for services as Secretary during present year. The Chairman was instructed to pay over same to the Executrix of Dr. Robb.

On motion of Mr. Keator, resolved, that the several Members of the Board be requested to furnish an Essay or Essays on any or all of the following subjects, viz:—

I. What Crop, if any, in our Climate and under our system of Husbandry, can be made to yield similar advantages to those derived from the Turnip Crop of England?

II. What Books may we best recommend to Agricultural Societies, to be given in Premiums?

III. Potatoes, and their culture.

IV. Climate and Soil of New Brunswick, in connection with Agriculture.

V. The planting of Orchards, their subsequent management, as producing best results, with instances of success in our Province.

Notice of the first meeting of the Executive Committee at Saint John, on second Wednesday in May next, at the Railway Rooms, at 10 o'clock, was given.

Adjourned, *sine die*.

Pedigree of Horses imported by the Provincial Board of Agriculture in 1860; the same having been purchased by Hugh M'Monagle, Esquire, as Agent of the Board, for that purpose.

No. 1.—MESSENGER HORSE.

Grey— $\frac{1}{2}$ years old— $15\frac{1}{2}$ hands high—weight, 1136 lbs. (when purchased.)

CERTIFICATE OF PEDIGREE.

"Dexter Messenger," now in the hands of Hottell Proctor, of Dexter, was raised by me, until sold to the said Hottell Proctor in February 1858, and was dropped in May 1856. He was got by the Crocket horse, now called "Maine Messenger"—he by "Bush Messenger." His Dam was got by the French "Tiger."

(Signed)

ENOS DUNHAM.

Penobscot, S.S.—April 12, 1860.

Personally appeared Enos Dunham, and made oath that the above Certificate by him is true.

Before me,

(Signed)

GEO. HAMILTON, J. P.

Hottell Proctor sold to Hugh M'Monagle,

One grey Colt—"Dexter Messenger,"—at \$500.

Received pay,

Bangor, April 28, 1860.

(Signed)

HOTTELL PROCTOR.

No. 2.—VERMONT "MORGAN HAWK" HORSE.

Bay—7 years old— $15\frac{1}{2}$ hands high—weight, 1086 lbs.

CERTIFICATE OF PEDIGREE.

"Morgan Hawk," sold to Hugh M'Monagle for \$600, will be seven years old in June next; was bred by me, and got by the "Peck" horse; he by David Hill's old Vermont "Black Hawk." He was out of "Jenny Lind," now in my possession; she by a Morgan horse of the Woodbury branch; her Dam was a black Mare, bred and kept on my farm until she was twenty three years old; her weight was eleven hundred, her form and action were very superior. She was got by a Morgan horse of the Sherman branch. The above Horse is dapple bay, with a white star in the forehead; mane, tail, and legs, black.

Berlin, Vt., April 23, 1860.

(Signed)

A. R. WARREN.

This may certify that the Horse "Morgan Hawk," sold by A. R. Warren to Hugh M'Monagle, has been managed by me for Mr. Warren, during the last two Seasons. He is a nice, handy horse to manage, having no vice; is a good coverer, and sure foal-getter. I saw many of his colts last season, which were very promising—the prevailing colour, bay.

(Signed)

JOHN D. ADAMS.

Montpelier, April 23, 1860.

No. 3.—DREW HORSE.

Brown—5 years old—15½ hands high—weight, 1156 lbs.

CERTIFICATE OF PEDIGREE.

The bay or brown Colt sold to Hugh M'Monagle, was bred by me, and was got by the "Kenney" horse, which was sold for eight hundred dollars to go to Portland; he by the old "Drew" horse. His Dam was sired by the old French 'Tiger'; she is now in my possession, and can in my opinion, hit a mile in three minutes. His colour is bay or brown, with a large star on his forehead, and a strip of white on his nose, also a little white on his near hind foot.

(Signed)

OLIVER HAISAAR.

Exeter, April 10, 1860.

This may certify that the bay Horse bred by Oliver Hodgden of Exeter, Maine, now five years old, was got by the Horse owned by me, called "Comet," more particularly known as the "Canney" horse; he by the "Drew" horse, out of a very superior dark bay Mare, of the Morgan and Messenger blood. I have just been informed by H. M'Monagle, he has purchased the Hodgden horse.

(Signed)

E. S. CANNEY.

Boston, April 25, 1860.

No. 4.—CANADIAN HORSE.

Bay—eight years old—weight, 1036 lbs.

The bay Horse "Charley," sold this day to Hugh M'Monagle, at one hundred and fifty pounds, was purchased by me from Mr. Antoin Volley, of Somerset, at one hundred and twenty five pounds, in the Fall of 1858, and is this Spring eight years old. Pedigree—"Charley" was got by "Duroch," an American trotting horse, out of a Canadian mare.

(Signed)

NORBT. GERMAIN.

Witness—GEO. W. ELLISON.

BRIEF DIGEST

OF THE RETURNS OF AGRICULTURAL SOCIETIES.

In endeavouring to comply with the requirements of the Act, in submitting a brief digest of the Returns of the several Agricultural Societies, I may mention that the information is based, in many cases, on very vague and unreliable statistics; it is to be hoped however, that ere another Report shall appear, the Provincial Census Returns will form a correct basis, from which the various Societies may work, with some reliable certainty.

Several Societies have made but very imperfect Returns, whilst some have entirely omitted making any. It is expected hereafter, that the several County and District Societies will regard the positive requirement of the Board, that a Report of their doings, printed when practicable, shall form part of their annual Returns, before any Society shall be entitled to share in the Legislative Grant.

DIGEST OF RETURNS FOR 1860.

ALBERT COUNTY.

HARVEY AGRICULTURAL SOCIETY.

President, William Tingley, Esq; Secretary and Treasurer, J. M. Stevens, Esq; other Officers, M. Kewer, George Stiles, Thomas M'Clellan, W. H. A. Casey, Josiah Lingley, Thomas Bishop, Esquires.

It appears by the returns from this Society for 1860, that 30,000 bushels of wheat were raised on 1,600 acres of land, the price obtained being 7s. per bushel; the practice is to sow early;—that 150,000 bushels of oats were raised on 5,000 acres, the price obtained being 2s. per bushel; the variety considered best being the black;—that 3,000 bushels of barley were raised on 100 acres of land, realizing 4s. per bushel; the practice being to sow it about the first of June. Of buckwheat, 40,000 bushels were raised, valued at 2s. 6d. per bushel, there being 1,500 acres cultivated, the same being sowed late, and on new land; very little cultivation of Indian corn; 200 bushels of peas were raised, valued at 7s. 6d. per bushel, on ten acres.—Grass seed to the extent of 100 bushels was raised; some 20,000 tons of hay on 14,000 acres of land, was cut, valued at 45s. per ton; 200,000 bushels of potatoes were raised on 1000 acres of land, valued at 2s. per bushel; and turnips were raised to the extent of some 6,000 bushels, on 15 acres of land, valued at 1s. 3d. per bushel.

Attention is being paid to grafting of fruit trees.

The favorite breeds of cattle in the District, are the Durham and Ayrshire; of horses, the Britons and Morgans; of sheep, the South Down and Native breeds. Poultry is kept in large numbers. A very large quantity of pork was manufactured.

Greater attention was given to the making and saving of manures; and several threshing machines have of late been imported. During the season five hundred acres had been cleared; and the usual rotation there pursued was oats, potatoes, wheat or barley, then seeded. Plough after four years.

There are no returns from the Elgin Society in same County, from which a digest can be made.

CARLETON COUNTY.

As the returns of Schedule C, of the Carleton County Society, were printed in advance in last year's Report, the same are here omitted.

It may not be out of place however, here, to mention, that this Society is in a most promising condition, and through the increased zeal and effort of its intelligent office-bearers, will doubtless accomplish much practical good to the County.

The Secretary's Report for 1860 is well worthy of perusal, and may form, along with the admirable return of estimate of crops, a model for other Societies.

CHARLOTTE COUNTY.

CHARLOTTE COUNTY AGRICULTURAL SOCIETY.

The Returns from this Society are full and explicit, and much attention has been paid by the very competent Secretary of the same, to the interests of this locality.

Within the last two years new vigour has been instilled into this Society, and its several officers are much interested in its complete success.

A suitable locality has been secured for holding its annual Show, and arrangements have been made for obtaining a permanent building for their Exhibition.

At the Show of 1860, it was estimated that not less than five hundred persons were present; fourteen teams were entered for competition in ploughing; and on the Show grounds there were gathered for competition ninety head of cattle, forty horses, one hundred and twenty samples of grain and roots, twenty of butter, fifty of potatoes, together with a variety of cloths, homespun, &c. &c.

DIGEST OF RETURN A.

President, Robert Stevenson; Secretary, Alexander T. Paul; Treasurer, Frederick W. Bradford; Vice-Presidents, R. D. James and James Russell, Jr.; Committee, J. H. Whitlock, H. O'Neil, H. Hitchings, J. M'Farlane, Jr., John Curry, William Craig, James Dinsmore, Hugh Faloon, John M'Mullan.

ESTIMATE OF CROPS FOR 1860.

CROPS.	BUSHELS.	PRICE.	Acres cultivated.	Best Varieties.	Remarks and Suggestions concerning Culture, Diseases, Remedies, &c.
Wheat,	600	\$2.00	30	Java & Black Sea.	Will never be extensively cultivated here ; weevil injurious.
Oats,	22,000	50	750	Hopetoun, Black, and Potatoo.	Will always be largely grown, and safe crop.
Barley,	6,000	90	200	Chevalier.	Will always pay for cultivation. Cultivation increasing.
Rye,	—	—	—	—	None raised in this District.
Buckwheat,	1,000	80	25	Smooth, but rough grown here.	Easily raised ; found profitable ; and on the increase.
Corn,	—	—	—	—	None raised by field culture.
Peas,	—	—	—	—	Do.
Grass Seed,	—	—	—	—	None raised, the land being principally old.
Other Seeds,	—	—	—	—	—
Hay, (Tons,)	1,000	14.00 to 20.00	1200	Timothy and Red Clover.	Season entirely too dry for grass ; crop very light.
Potatoes,	2,000	50	40	Bluenose and Victoria.	Rot still prevails ; appears decreasing gradually.
Turnips,	30,000	20	1500	Purple topped Swedes.	Fly very destructive, almost fatally so this season.
Other Roots,	—	—	—	—	A few carrots and parsnips, with mangolds. None sold.
Apples,	100	none sold.	2	Baldwins and Northern Spy.	None raised for sale of good quality ; grafting just commencing.

ESTIMATE OF STOCK, CULTURE, &c.

REMARKS, SUGGESTIONS, &c.

STOCK, &c.

Cattle, favourite breeds, &c.

Horses, do.

Sheep, do.

Pigs, do.

Poultry, do.

Bee Hives, number,

Maple Sugar, quantity made,

Wool and Cloth, do.

Pork, do.

Manure and Compost, do.

Farm Buildings, condition of,

Implements and Machinery,

Past season, character of

Land cleared during year,

Usual rotation,

Ayrshire and Alderney; the former principally; and Stock is much improved.

Morgan is preferred to all others. Some partly bred from Clydesdale are found.

New-Oxfordshire, of which two Rams have just been imported by the Society.

Essex—best suited to this country—hardly—easily kept, and makes flush fast.

Not generally attended to, and but few superior fowls are to be found.

Probably 20 Hives, and 800 lbs. may be made,—10 lbs. to a hive.

None made in this District.

There may be 500 yards made for home consumption,—very little sold.

Pork is all sold by the carcase. None salted or packed before selling. No estimate can be made.

No reliable estimate can be given, as farmers are careless about calculations.

Much improved within a few years. Still room for advancing in this respect.

Wilkie's iron plough still a favorite. Other labor-saving machines gradually coming into use.

One of the most adverse to the farmer for many years past.

Not over ten acres probably. There is very little uncleared land in this District.

Oats from sod; 2nd year, roots; 3rd, grain and grass seed; 4th, 5th, 6th, and 7th, hay; then plough again.

SAINT CROIX AGRICULTURAL SOCIETY.

President, James G. Stevens, Esq.; Secretary, George S. Grimmer, Esq.; Treasurer, Robert Watson, Esq.; other Officers, J. H. Maxwell, J. W. Buchanan, Jacob Young, John Bolton, Samuel Almond, C. C. Murchie, Charles D. Grant, Thomas Tool, Calvin Hall, James Maxwell, Esquires.

By the returns from this Society, it appears that spring wheat is cultivated to a considerable extent, as also the other grains.

The favorite breeds of cattle are the Alderney and Ayrshire, and Ayrshire and Durham. Although not so much attention as should be has been paid to the rearing of pure bred stock in this district, a good breed of pigs has been obtained; Cotswold and Leicester sheep prevail most; and the Morgan and Messenger breed of horses are most preferred. Large tracts of land are being annually cleared. Some 150 acres were cleared in this district during the season; the usual rotation is, oats from sod; potatoes or other green crop; grain and grass three or four years; pasture. Greater attention is being given to manure compost, and some labor-saving machines are coming into use.

The annual Fair of this Society was held on the 28th September 1860. The exhibition of roots was peculiarly good; also peas, beans, and Indian corn, were shewn in great abundance. The average weight of the oats was 45lbs per bushel, wheat 60lbs, barley 55lbs. Some very fine colts were shewn; likewise some good swine and sheep; the horned cattle were rather inferior.

This Society is progressing in usefulness.

SAINT GEORGE AND PENNFIELD SOCIETY.

President, John Mann, Jr., Esq.; Treasurer, Richard M'Gee, Esquire; Secretary, John Gray, Esquire; other Officers, George R. Knight and Hugh Ludgate, Esquires.

By the returns from this Society, it appears that the usual crops in the district are grass, oats, buckwheat, wheat, potatoes, and turnips.

A considerable quantity of land has been cleared within the year. The usual rotation is—first, oats on sod, then potatoes, then wheat or oats with grass seed, then hay for six or seven years.

A small quantity of wheat is raised; the average yield of oats is 20 to 25 bushels per acre, price from 2s. 6d. to 3s. 6d. per bushel. Neither corn nor rye is raised. A large quantity of buckwheat is raised. Green crops more general. Potatoes are a fair crop, as also turnips. The favorite breeds of cattle are the Durhams and Ayrshires, and their crosses. Breed of horned cattle improving. Dairy products increasing.

The best approved agricultural implements are being used, and more attention is being paid to sheds and shelter for cattle.

This Society has a very zealous President and active Officers, and is accomplishing much good in its locality. At its annual Fair on 16th October 1860, a manifestly increased interest was shewn, and double the usual numbers attended. Show was much larger than on previous occasions; the weight of some of the white oats was 46lbs per bushel, and black oats 44lbs.

SAINT PATRICK AGRICULTURAL SOCIETY.

President, Matthew Stevenson, Esquire; Secretary, George M'Kay, Esq.; Treasurer, Richard Dyer, Esquire; other Officers, Robert Cockburn and Richard Turner, Esquires.

By the returns from this Society, it appears that what wheat was sown was destroyed by weevil, and that oats is the favorite crop. Barley is also raised, and buckwheat; root crops are cultivated to considerable extent.

The favorite breeds of cattle are the Ayrshire and Devon; among horses the Morgan and Clydesdale are preferred; an improvement in sheep was much required.

A considerable quantity of homespun made.

Some improvement in making and preserving manures was beginning to be made.

This District being an old one not much new cleared land during the year.

This Society held its annual Fair on 9th October 1860. The samples of roots and grains were able to compete favorably with any ever exhibited at any Show.

Horned cattle superior, especially young cattle; much improvement in this department. Draught horses and oxen were very good. Some samples of wheat weighed 63lbs, oats 50lbs, and barley 56lbs per bushel; peas and beans were of the best sort. The swine were inferior.

The Society has not been long established, but its stimulating efforts are beginning to be seen, and its officers are much interested in its success.

GLOUCESTER COUNTY AGRICULTURAL SOCIETY.

President, Samuel L. Bishop, Esq.; Secretary and Treasurer, William Napier, Esq.; other Officers, John Chalmers, William Malloy, and John Ferguson, Esquires.

The returns from this Society are very full and particular, and would form an exemplary model for other Societies. They are prepared with care, and with an evident desire to fulfil with profit the requirements of the Act, in seeking for an estimate of crops, &c.

As it may be useful to exhibit this Schedule in full, no digest is made of it, but the Return is as follows:—

ESTIMATE OF CROPS FOR 1860.

CROPS.	BUSHEL8.	PRICE.	Acres cultivated.	Best Varieties.	Remarks and Suggestions concerning Culture, Diseases, Remedies, &c.
Wheat,		6s. 6d.		Canada Red Spring Wheat.	The Canada Red Spring Wheat is most free from rust and weevil, and the crop more to be depended on. We renew by occasional importations.
Oats,		2s.		Common Black, & White Potatoes.	The produce of the White Oat imported from Scotland weighs and mills better, but the crop is not so certain on lands of poor or moderate fertility.
Barley,		2s. 6d.		Two rowed Barley is preferred.	The produce of the two rowed Barley imported from Scotland continued long to carry off the Prizes at the Society's Shows.
Rye,		none.		None.	No Rye cultivated here.
Buckwheat,		very little.		Very little grown.	The season is rather short to encourage extensive cultivation.
Corn,		do.		Dwarf description.	Except a dwarf and early description by the French, very little cultivated.
Peas,		Ss.		Green.	The Peas the last two years were clean and free of worms,—not so before.
Grass Seed,	No data.	little sold.	No data.	Red Clover and Timothy.	Clover and Timothy only cultivated. The Rye Grass tried some years ago was not successful. The frost killed the perennials, and the season was too short for the annual.
Other Seeds,					
Hay, (Tons.)		80s. per ton.		Clover & Timothy.	The bleak weather in the early part of the season injured this crop and the pasture lands greatly. Hay could in former years be had at 50s. per ton.
Potatoes,		1s. 6d. per bush.		Cups & Long Blues	In the majority of cellars the disease has been destructive,—more so than any year since its first attack.
Turnips,		1s. do.		Swedish Red Top, (East Lothians.)	Turnip is now effectually introduced, and is cultivated to a considerable extent throughout the District. Purple top Swedes are the kind chiefly grown. Carrots are also coming rapidly into cultivation.
Other Koots,		Carrots, 1s. 8d.			
Apples,		none for sale.			Not much cultivated in the County.

ESTIMATE OF STOCK, CULTURE, &c.

STOCK, &c.	REMARKS, SUGGESTIONS, &c.
Cattle, favorite breeds, &c.	Alderney, Durham, and Ayrshire. The last named, although good milkers, are not liked as butter producers.
Horses,	No class of animals indicate more improvement than horses in this County. The progeny of the imported Stallion exceeds. It is a cross between the Clydesdale and the Canada.
Sheep,	Leicester and Cheviot. The latter have proved the most suitable to our climate.
Pigs,	Berkshire, large and small. These are preferred above all others. New blood is wanted.
Poultry,	The Dorking are preferred for size. The Shanghai are not sufficiently hardy.
Bee Hives, number,	Only a very few in the County.
Maple Sugar, quantity made,	The manufacture of this article has greatly fallen off. Not a fourth of the quantity now made.
Wool and Cloth	do.
Pork,	do.
Manure and Composts, do.	do.
Farm Buildings, condition of,	do.
Implements and Machinery,	do.
Past Season, character of,	do.
Land cleared during year,	do.
Usual rotation,	do.

KENT COUNTY.

CARLETON AGRICULTURAL SOCIETY.

President, William S. Caie, Esq.; Secretary, P. Fayh, Esq.; Treasurer, William Raymond, Esq.; other Officers, William B. Weldon, A. M'Marry, Esquires.

In this district some 350 acres of wheat are sown, yielding an average of 19 bushels per acre,—red and white predominate. 500 acres of oats were sown, yielding an average of 25 bushels per acre. No grain of other kind is raised to any amount. Some 400 acres in hay, yielding an average of 1 ton per acre; 350 acres of potatoes, yielding an average of 150 bushels per acre; 30 acres of turnips were raised, yielding 200 bushels per acre. Not much of other roots are raised.

Of Stock, the Durham bull and Ayrshire cows are preferred. Of horses, the "Young Hawk" is most prevalent. Of sheep, the Leicester and various crosses are general. The Berkshire swine are in most use. The manure made is from the barn yard and bog earth.

The farm buildings are in good condition. Implements of husbandry are good. About 100 acres of land were cleared during season. Usual rotation is oats, potatoes, wheat, grass and pasture.

KING'S COUNTY.

KINGSTON AGRICULTURAL SOCIETY.

President, John Carruthers, Esq.; Secretary and Treasurer, John Brait, Esquire; other Officers, James Girvan, A. Dixon, Esquires, and twelve Directors.

The returns from this Society are very full and attentively prepared. They state that from improvement in farming generally the wheat crop is becoming an important one—1,100 acres were sowed during season, the average yield is given as about 15 bushels per acre. The disease in wheat is rapidly disappearing. Soil well adapted for its growth. 2,800 acres were sown in oats—season rather unfavorable for them. 150 acres of Chevalier barley were sown; this is not considered a profitable crop, as the return states that there is no inducement to cultivate largely.

Buckwheat promises to be extensively cultivated, being both certain and productive.

Varieties of grasses are called for. The hay crop is stated as decreasing in yield, causes ascribed to want of top dressing and partly from frost killing.

Potatoes did not succeed well.

Increased attention is being given to turnip raising, the average yield during season is stated as 220 bushels per acre.

Orchards are being planted.

In regard to cattle the returns state that the Ayrshire breed has disappointed expectation, and the disposition is prevalent to fall back on the old breed of the district. Pasture poor and fodder scarce.

Horses are suited to the requirements of the district. Room for improvement in sheep. The breed of swine much improved. Some of the imported stock were purchased by this Society.

A Fulling Mill has been erected in the district, and a desire to grow wool exists.

Not enough of pork raised for consumption.

Much greater attention is being given to manure composts; its necessity much felt. Lime would be used if it could be procured at moderate cost. Some guano used, chiefly for turnip crop.

Farm buildings are improving.

Agricultural implements good.

Usual rotation is oats from sod, potatoes or turnips with manure, wheat with grass seed, hay two years, pasture two years.

KING'S COUNTY CENTRAL SOCIETY.

By the Report from this Society, it appears that for years back it has had to contend with many obstacles to its advancement, but is now prospering and has suitable show grounds for its annual fair.

The grain and vegetables exhibited in 1860 were of a very superior kind. Horned cattle rather inferior. The show of horses, sheep, and swine, was good. The Morgan breed of horses most prevalent. The improvement in stock is attributable to the exertions of the Society.

The returns, as required, of estimate of crops and Officers of Society, &c., being either misplaced or not received, a full digest cannot be given.

SUSSEX AND STUDHOLM WITH CAMPBELTON AND NORTON SOCIETY.

No abstract being on file from this Society, no digest can be made.

UNION AGRICULTURAL SOCIETY.

President, William P. Flewelling, Esq.; Secretary, James Cookson, Esq.; Treasurer, Seth Earle, Esq.; other Officers, James Peters and Samuel Foster, Esquires.

In this district 1000 bushels of wheat were raised, 100 acres cultivated for same; weevil stated to be troublesome. 1000 acres of oats, yielding 25 bushels to acre. 2,000 bushels of barley grown; yield stated at 60 bushels per acre. 30,000 bushels of buckwheat raised. Hay averaging two tons per acre; 2000 tons grown. Potatoes badly affected by rot. Turnips 4000 bushels grown on 100 acres.

The favorite breed of cattle is stated to be the Devon; it being the most easily kept, and suitable to the hills.

Of horses, the French Canadian is preferred for similar reasons.

Not much improvement in farm buildings. About 500 acres of land cleared during season.

Usual rotation is buckwheat from sod,—potatoes,—wheat or grain with grass seed.

NORTHUMBERLAND COUNTY.
AGRICULTURAL SOCIETY OF NORTHUMBERLAND.

President, Richard Sutton, Esq. ; Secretary, James Caie, Esq. ; Treasurer, George Kerr, Esq. ; other Officers, thirteen Directors.

The returns from this Society are well prepared.

The cultivation of wheat is comparatively extensive ; 80,000 bushels raised during season ; 5,300 acres under cultivation for same ; good crops usually obtained where land is not too much impoverished. Oats are raised to the amount of 300,000 bushels, there being 10,000 acres devoted to same during season,—a sure and abundant crop. Not a large amount of barley or buckwheat raised. More attention is being paid to the raising of peas. More root crops are being raised, whilst turnips are receiving more consideration. Of roots, including turnips, 5,600 bushels were raised.

Of cattle the Native and Ayrshires are preferred. A variety of breeds of horses are in this district—the Suffolk Punch, Cleveland Bay, Morgan, and Tweedsdale. The South Down and Cheviot breeds of sheep prevail. Of swine, the Berkshire and Yorkshire breeds.

6,500 lbs. of maple sugar made during season. 16,000 barrels of pork manufactured.

Attention is being awakened to the making and preserving of manures,—value of same being felt. Some improvement in farm buildings. Better agricultural implements desired. During season, from two to three thousand acres of land cleared.

Usual rotation—oats after hay,—potatoes or other roots,—wheat,—two or three years of grass.

ALNWICK AGRICULTURAL SOCIETY.

President, Roderick M'Leod, Esq. ; Secretary, John M'Leod, Esq. ; Treasurer, James Johnson, Esq. ; other Officers, Alexander Goodfellow, Robert Young, William Morrison, Esquires, Vice-Presidents ; and twelve Directors.

The returns of estimate of crops, &c., from this Society are very imperfect.

5000 bushels of wheat are stated to have been raised during season on 350 acres ; 150,000 bushels of oats on 750 acres ; about 60 acres are sown in barley, yielding some 19 bushels per acre ; 750 bushels of peas were raised ; 100 bushels of grass seed ; 50,000 bushels of potatoes on 250 acres. Of turnips and other roots, 5000 bushels were raised on 18 acres.

No return is made of cattle, &c. &c.

BLACKVILLE, BLISSVILLE, AND LUDLOW AGRICULTURAL SOCIETY.

President, Hiram Freeze, Esq. ; Secretary, James L. Price, Esq. ; Treasurer, William Swim, Esq.

The average produce of wheat is 6,500 bushels, 15 to an acre. No disease during season. Oats average 17 bushels per acre ; estimated yield during season 15,000, being less than one-half usual quantity ; best kinds thought to be the black oat and potatoe oat. Buckwheat, average quantity 600 bushels.

Barley not much cultivated. The yield of hay is $1\frac{1}{2}$ to $1\frac{1}{4}$ per acre: estimated quantity 3,500 tons; short crop this season; varieties sown—Timothy, red top, white clover, red clover, and wild meadow; prospects of this crop are good if top-dressing is more resorted to. 40,000 bushels of potatoes raised, poor quality, 120 bushels per acre; varieties used—Miranichi white, early white, black potatoe, and Christie; blight not so destructive as formerly. Turnips, 4,000 bushels raised in District,—300 bushels to acre; becoming more generally cultivated. Other roots not much cultivated.

Durham and Ayrshire breeds of cattle are much preferred. Sheep farming found very profitable. Excellent homespun manufactured. Improvement in swine. Horses small sized, desire to improve the size of them.

Agricultural implements good; three stumping machines in use, and one mowing machine.

Manures carelessly prepared, and great neglect in making and preserving. Much improvement in shelter for stock and in farm buildings.

BLACKVILLE AND DERBY AGRICULTURAL SOCIETY.

President, Thomas W. Underhill, Esq.; Secretary, James L. Price, Esq.; Treasurer, Alexander McLaggan, Esq.; Robert Jardine and William O'Brien, Esquires, Vice-Presidents.

No returns of estimate of crops, at hand, from this Society.

QUEEN'S COUNTY.

GRAND LAKE AGRICULTURAL SOCIETY.

President, Arthur Branscomb, Esq.; Treasurer, Andrew Barton, Esquire; Secretary, Duncan McLean, Esq.; Vice-President, Allan McLean, Esquire.

No abstract of returns of estimate of crops from this Society.

RESTIGOUCHE COUNTY AGRICULTURAL SOCIETY.

President, Andrew Barberie, Esq.; Secretary and Treasurer, W. S. Smith, Esq.; Vice-Presidents, H. Montgomery and Adam Ferguson, Esquires; five Committee members.

The returns of estimate of crops in this County, are full and particular. By them, it appears that 8000 bushels of wheat were raised during season, on 350 acres; that the crop was successful, and is generally so; the best varieties are considered to be the white bald and Russian beard. Oats were an abundant yield; 80,000 bushels were raised on 2,500 acres; best varieties, the early Angus, and black. Barley also raised, and stated to be a sure crop, and well adapted to soil and climate. Peas—1000 bushels were raised; but the drought, grubs and worms were detrimental. The raising of grass seed is increasing,—4000 tons of hay cut on 1,500 acres. Potatoes gave a good yield,—80,000 bushels on 200 acres. Turnips, 15,000 bushels on 30 acres. Other roots, about 1000 bushels.

Orchards have been lately planted.

There is a variety of good stock in this County—Short Horns, Ayrshires, Devons, and West Highland; the Ayrshires are preferred. Short Horns best suited for interval lands, or marsh, where there is abundant pasture; Ayrshires best for uplands. The West Highland will thrive anywhere, make excellent beef, and are fair milkers.

Horses—Canadian pure, and crossed with English blood horse and Suffolk Punch; Sheep, Leicester, Cheviot, South Down, and Highland, or Blackface; Swine, Berkshire and Yorkshire.

Maple Sugar—8000 lbs.; facilities for making the same are great, and might be extensively manufactured.

Wool and Cloth—extensively manufactured for all domestic purposes.

Pork—2,500 barrels; production is annually increasing.

Old lands are manured; new lands rich in marls and lime.

Settlements increasing—land being cleared up. Rotation of crops—grain, green crop, grain, sow down hay, pasture.

SAINT JOHN COUNTY AND GOLDEN GROVE SOCIETY.

President, Thomas Davidson, Esq.; Secretary, R. Sands Armstrong, Esq.; Treasurer, John Duncan, Esq.; two Vice-Presidents, and a Committee of twelve.

By the returns from this Society, it appears that wheat is not raised to any extent in the district. Oats—45,000 bushels, on 1,600 acres; barley—1,400 bushels, on 45 acres; buckwheat—7000 bushels, on 220 acres; varieties considered best, old gray, and yellow; turnips—20,000 bushels, on 80 acres; other roots raised to some considerable extent; Hay—8000 tons.

The favorite breeds of cattle are the Durham and Ayrshire.

The horses around this district have come in great part from Nova Scotia and Prince Edward Island; Sheep, Leicester; Swine, Berkshire and Native, crossed.

A thriving woollen and cloth Factory at Mispec, lately established.

About 650 acres of land cleared during season. Rotation of crops not usually attended to.

VICTORIA COUNTY CENTRAL SOCIETY.

President, L. R. Coombes, Esquire; Treasurer, Cyule Potras, Esquire; Secretary, P. O. Byram, Esquire; Vice-Presidents, Samuel Crann, A. L. Coombes, Marcil Cyr, Esquires; and twelve Directors.

This Society has been but lately established, no returns as yet received of estimate of crops, &c.

SUNBURY COUNTY AGRICULTURAL SOCIETY.

President, J. S. Covert, Esquire; Secretary, H. P. Bridges, Esquire; Treasurer, William Burpee, Esquire.

The returns of estimate of crops for this County are not given with any degree of certainty.

Wheat 1,800 bushels, oats 40,000 bushels, barley 1,500 bushels, turnips 15,000 bushels, other roots the same quantity; apples 4000 bushels.

Cattle—favorite breeds, Durham and Ayrshire, and crosses of Durham and Devon.

Large quantities of wool sheep, Leicester and Cotswold; Natives largely preponderating. Usual rotation of crops—grain, roots, grain, grass.

WESTMORLAND COUNTY.

BOTSFORD AND WESTMORLAND AGRICULTURAL SOCIETY.

President, Alexander Munro, Esquire; Treasurer and Secretary, Joseph C. Harper, Esquire; Vice-President, Jos. Irvine, Esquire; and nine Directors.

The crops principally grown in this district are wheat, oats, barley, buckwheat, hay, potatoes, turnips, and Timothy grass seed.

During the season 300 acres were cleared, 200 of which were done through the stimulus of premiums offered by the Society.

No rotation with any system is pursued.

This Society has very wisely adopted the plan of offering premiums for the best manures made, and for quality, the result has been highly beneficial. This district raises its own grass seed.

This Society has been of immense advantage to the district.

DORCHESTER AGRICULTURAL SOCIETY.

President, Hon. A. J. Smith; Secretary, John Hickman, Esquire; Treasurer, David Chapman, Esquire, with Committee of management.

Not much wheat sown in this district; 1000 bushels raised. Oats 50,000 bushels—varieties, black on upland, and early white on marsh. Barley, 5000 bushels; buckwheat, 7000; grass seed, 150 bushels; hay, 14,000 tons; potatoes 50,000 bushels; turnips, 10,000; apples, 2000.

The favorite breeds of cattle are the Ayrshire and Durham, mixed with Native. Horses, Clydesdale; Sheep, Leicester; Swine, Berkshire. New importation of others not yet tried. Wool and cloth, 25,000 yards. Pork, 60 tons. Improvement in manures. General improvement in farm buildings. 1000 acres of land cleared during the season. Rotation—oats, green crops, grain with grass seed.

SACKVILLE AND WESTMORLAND AGRICULTURAL SOCIETY.

President, Hon. A. E. Botsford; Secretary, Harman Humphrey, Esquire; Treasurer, Jos. F. Allison, Esquire; Vice-President, Jos. Chapman, Esq.

7,200 bushels of wheat were raised in this district during season; 400 acres cultivated for same. Fall ploughing and early sowing is pursued; the weevil and rust attack it.

Oats, 105,000 bushels on 3000 acres—variety, small white; barley, 18,000 bushels on 600 acres; rye, 1,500 bushels, 50 acres; buckwheat, 20,000 bushels, 1000 acres, gray variety; grass seed, 200 bushels, 50 acres; hay, 40,000 tons, 30,000 acres—varieties, Timothy and clover; potatoes, 150,000 bushels, 1000

acres,—varieties, calico and early blue; turnips, 80,000 bushels, 200 acres; other roots, 15,000 bushels, 50 acres; apples, 1000 bushels.

The favorite breeds of cattle are the short horn Durham, and Hereford, these being found to be best adapted to this locality.

Horses, English Hunter and Clydesdale; Sheep, Leicester; Swine, Berkshire and Yorkshire.

Wool 24,000 lbs; 24,000 yards cloth. Pork, 360,000 lbs.

Farm buildings improving. Manures, 45,000 loads made.

200 acres cleared during season. Rotation—oats, potatoes, wheat with grass seed, hay two years, pasture.

AGRICULTURAL SOCIETY OF SHEDIAC.

This Society is in a hopeful condition, but being lately established, no returns for the season are at hand.

YORK COUNTY AGRICULTURAL SOCIETY.

President, John H. Reid, Esq.; Secretary and Treasurer, J. A. Beckwith, Esq.; other Members of Executive Committee, J. L. Inches, J. W. Brayley, Samuel Fleming, Esquires.

No returns of estimate of crops are at hand from this Society, but the report of its transactions for the year 1860 is full and comprehensive.

This Society is in a very flourishing condition, and has through the energy and perseverance of its President and other officers, secured a tract of land for holding its annual shows, which is substantially fenced, having also covered stalls for horses and cattle, and pens for sheep and swine. Within this ground are two good large buildings, one of which is for agricultural produce and manufacture; the other, chiefly of glass, is for the horticultural department, domestic manufactures, and miscellaneous articles.

Every convenience, and all necessaries for the cattle, are appended to the buildings. The whole ground and buildings are in most suitable and first rate style, and speak well for the officers and members of this Society, and the state of agriculture in York County.

The information obtained from the Returns of Societies may not be strictly correct in all particulars, but we are forcibly struck with the very general statement, relating to the neglect in the making and preparation of manures, and to the want of attention to the proper arrangement and condition of farm buildings.

The subject of the making and preserving of manure is one which cannot be too much dwelt upon, and its importance cannot be too often forced upon the attention of the farmer. But of what use is all the information on this subject, unless it leads to practical effects? Why need the farmers complain of poor crops, if they have not used the means within their reach to secure better ones?

Enough has already been written within our own Province on manures, which, if the suggestions were practised, would have proved the simple, but most effective, means of bettering the circumstances of many a farmer who frets at the poverty of his exhausted land, unfed for many a year, or receiving, instead of manure, such materials as bleached straw, and clean-washed droppings of cattle.

A wise husbandry consists in making, increasing, and judiciously applying to the land, the various elements which may be found in the mineral, animal, and vegetable kingdoms.

The barn yard may be made the place where the manure pile may grow daily. Absorbents of the nature of peat, bog earth, diggings from drains, earth, weeds, coarse growth of marshes, and such like materials, mixed with the cleanings from the pig sty and stable, all help to swell the mass, and acting as absorbents and fixing agents of the volatile gases and liquid excrements, become themselves valuable manures.

The proper construction of farm buildings has very much to do with the facility for saving the urine of animals, the value of which is not sufficiently appreciated. Among all progressive farmers this liquid is carefully saved, either by the simple use of absorbents, such as saw dust, or plentiful litter, or by means of tanks where it may be used in liquid form, or by the construction of cellars underneath the barn to receive the urine among absorbent materials. The urine of one cow during the year is estimated as worth eight dollars. How many eight dollars during the year do the farmers of New Brunswick lose in not saving the liquid?

The farmer must ever bear in mind that, to *maintain* the fertility of the soil, it will be necessary to restore those needful ingredients for the growth of crops, which have been carried off by the crops previously taken from the land; and that, if we wish to *increase* the fertility of the soil, more of such ingredients must be added than have been taken from it.

Both objects are attained by the application of manures.

We have before stated that the various elements for enriching the soil are to be found in the mineral, animal, and vegetable kingdoms.

Of the mineral—gypsum or plaster may be mentioned, the effect of which on dry soils is very marked. Lime also is among the most prominent of this class.

Prof. Johnston states the properties of lime, which may form a guide in its application to land:—

1. That lime has little or no effect upon soils in which organic—that is, animal and vegetable—matter has no general distribution.

2. That its apparent effect is inconsiderable during the first year of its application, compared with that which it produces the second and third years.

3. That its effect is the most sensible when kept near the surface of the soil, and gradually diminishes when it sinks near the subsoil.

4. That under the influence of lime, the organic matter of the soil disappears more rapidly than it otherwise would do; and as it becomes less in quantity, fresh additions of lime produce less effect.

The action of lime is most beneficial, as it combines with insoluble ingredients, such as oxides of iron, &c. and forming a compound, makes that which was otherwise hurtful to the soil, beneficial to it; whilst likewise, by its combination with the acids of the land, it sweetens them and destroys their injurious effect.

Animal manures, such as bones, blood, flesh, wool, hair, and solid and liquid excrements, are the most efficient and powerful of all. We would here recommend the farmer not to drag off to the river or to the sea, the carcass of the animal which, by accident or natural causes, may have died; but to make from it a pile of the most valuable fertilizing matter, by covering it over with sufficiency of earth—lime being used if accessible—and leaving the mass to decompose.

Bone manure is becoming a very general and most valuable fertilizer. It is but of recent date that the value of bones has been fully appreciated, and we may here mention, that we hope a manufactory for the crushing and grinding them may be encouraged in our Province. The supply from all parts of the Province would be abundant, and prove a valuable aid to the operations of the farmer, as well as opening up a new source of trade.

Guano is becoming more extensively used. It is applied in various ways, sometimes as a top dressing to grass crops, sometimes incorporated with the soil; used in the sowing of turnips, it gives them a fine start.

Vegetable manures are more generally available to the farmer, as being within his reach more than the mineral manures. Of this kind are the green crops used for ploughing in, straw, stalks, leaves, weeds, saw dust, and such like materials.

In the long abandoned and much neglected swamp land and bogs may be found the largest acquisition to our agricultural wealth, as from them may be obtained the most valuable material for incorporating with the soil.

In all cases in which this muck or bog earth is used, it is advisable, and sometimes necessary, to throw it into small piles and let it remain for a season, thus freeing it from acrid, sour, and insoluble properties, and rendering it also more valuable as an absorbent in the cattle yard, to which, when seasoned, it should be taken, and when well saturated from the droppings of the cattle, again carted to the field.

These muck or swamp lands are becoming more valuable, as their properties are better understood; they make the most productive and enduring grass ground when once cleared and drained, and there are few instances in which they will not abundantly repay all outlay in their improvement.

Closely connected with the making of manures, is their application to the soil. Manures are unlike in their qualities. The excrements of neat cattle are cool and moist, and do not ferment quickly, whilst those of the horse or sheep are hot and dry, and ferment quickly. These facts may guide the

farmer in determining the appropriateness of the different kinds of manures to the various soils, and their adaptation to different crops. To light and warm soils, hog and cattle dung should be applied, whilst on cold and moist lands, that of the horse or sheep would prove most beneficial. Composted manures may be applied with benefit to any land.

Much difference of opinion is expressed in reference to the best mode of applying the manure to the ground, whether in a green or a fermented state, or ploughed under or used on the surface.

An article on the management of farm-yard manure, which lately appeared in the North British Agriculturalist, may appropriately find a place here.—The writer says:—

“The supplies of farm-yard manure being on most farms inadequate to maintain the fertility of the soil, it is an important question with every farmer how the supply is to be increased. But it is even more important to preserve the fertilizing elements which the manure contains previous to its application to the land, than to augment the quantity. The majority of farmers, however, do not bestow sufficient care on the conservation of the fertilizing elements before the manure is spread on the fields to be fertilized. The preservation of these constituents is not simply a question of economical expenditure in the purchase of manures, but is one with which the profit or loss of the occupancy is intimately connected. Waste arises from several causes, the most common being a washing out of the soluble constituents from exposure, and the loss of the gaseous elements from fermentation, induced by placing the manure in heaps previous to applying it to the land.

“Farm-yard manure varies considerably in composition, the variations depending upon the animals kept, the manner they are housed, the amount and character of the food consumed by them, the kind or quantity of straw used as litter, the period of the year the manure is made, and whether it is made and kept under cover or exposed. The amount of water in half decomposed manure is seldom less than 80 per cent. Some chemists have estimated it as low as 75 per cent., but this is below the quantity of moisture present in ordinary farm-yard manure. The moisture is derived partly from the vegetable substances, a portion is derived from the urine of the stock, and under ordinary conditions a part is due to the rain water absorbed.

“On many farms the manure is not only exposed to the direct rain-fall, but the water which collects on the roofs of the buildings is allowed to saturate it. The consequence generally is, that a considerable portion of the soluble elements are washed out of the manure, which liquid stream is usually allowed to escape to the nearest ditch, from a belief that it contains little fertilizing matter. The urine of animals generally contains nearly as much fertilizing matter as the excrement, and any liquid from the dung heap contains a portion of the urine. Apart from the urine present in the liquid, there is also present, in a soluble state, a portion of the fertilizing elements which were in the excrements, and a portion which was in the straw used as litter. When it is considered that the liquid from byres, cattle courts, and manure heaps, is generally nearly all lost, and that this liquid from the heap is not all rain water and melted snow, it should be evident that a considerable waste of the fertilizing elements in the farm-yard manure arises from the manner in which it is produced, collected and kept previous to its being applied to the soil. Under ordinary circumstances, as to cultivation and climate, it is not requisite to form a tank to collect the liquid, but it is generally advisable to prevent the saturation of the manure in a court by placing roans along the eaves of the roofs. With such a provision to carry of the rain

water, any direct fall of rain seldom washes out any of the fertilizing elements, the water being absorbed, and part of it afterwards being removed by evaporation. During certain periods of the year, the amount of moisture removed by evaporation is very considerable. It has been frequently observed, where cattle were kept in open courts, with sheds attached, that in Spring the quantity of straw required to keep them comfortable was less than that required for the same number of cattle fed in covered boxes.

“ During the process of fermentation, a considerable portion of the constituents of farm-yard manure is driven off. When the manure is compressed by the treading of stock, fermentation proceeds much more slowly than when the manure has been thrown loosely together. When the fermentation proceeds slowly, moisture is the principal constituent which escapes; but when fermentation is active, with considerable heat, a portion of the nitrogenous element escapes generally in the form of ammonia. Beyond hastening the action of manure and destroying the vitality of the seeds of some weeds, there is nothing gained by fermenting manure in a heap. On the contrary, the organic fertilizing constituents are diminished in part, and the mechanical action of the manure necessarily impaired. It is advantageous to all soils, more particularly to argillaceous ones, to apply manures in a green state at certain seasons. The cultivator of the potato finds it advantageous to manure the land in autumn with farm-yard manure preparatory to the growing of the crop. So also the cultivator of the Swedish turnip and of the legumes. Experiments are much required to elucidate the action of fresh farm-yard manure in and on the soil during the winter. Some suppose that the constituents of plant life in the soil are rendered more accessible to plants by being made soluble by the presence of this manure in or spread on the surface of the soil, while others believe that by the presence of the slowly-decomposing manure, ammonia is attracted from the atmosphere and retained in the soil ready to be taken up by the crop. The researches of Professor Thomas Way showed that ordinary soils have the power of retaining the constituents of plant life, although these are in a soluble state, until the growing plants assimilate these constituents during their growth.

“ Those who are familiar with the beneficial effects which arise from the spreading of farm-yard manure on the surface and allowing it to be exposed to the atmosphere for some months, know that the fertilizing action of the manure is more marked in the succeeding crop than if it had been applied during winter or spring after being fermented. The action may be partly mechanical, but it is now ascertained by the researches of chemists, that during the period of exposure the nitrogenous elements are increased in amount, being generally in the form of nitrates; the increase being regulated in part by the temperature of the atmosphere, the constituents of the manure, and perhaps also by the constituents of the soil.

“ By spreading fresh manure on pastures and meadows, and after exposure for some months, collecting by horse-rakes the manure not decomposed, a striking difference in the character of the herbage is the result. Doubtless, this is mainly owing to the constituents of the manures which have been washed into the soil during the period the manure was exposed. Still, there is some mechanical action arising from a covering of manure, for upon inspection, the soil is found to be more open, and the roots of the plants more vigorous. The same mechanical action can be observed in stubble lands, particularly where the soil is argillaceous. The soil is not only more friable, and therefore more porous, but the color is partly changed, showing that the action of the atmosphere has been increased by the manurial covering.

“ Those who entertain opinions strongly in favor of fermenting manure in dunghills, previous to its being applied to the land, should undertake experiments by manuring portions of fields intended for green crops during the next two months—the same quantities of

manure applied to the portions of the fields being placed in heaps for spring application to the same extent of land manured in autumn. The results will probably surprise the cultivator who has hitherto only applied fermented manure to the soil.

“During the spring months, it is generally found to be advantageous to apply manure in a state of advanced decomposition, particularly where it is being applied to land intended to be immediately sown with the seed of the turnip; but during summer, autumn, and winter, it will generally be found profitable to apply manure direct from the cattle courts and dunghill, without any previous turning to induce fermentation.”

The restoration of the grass and pasture lands, and the sustaining them in fertility, must ever form a most important enquiry to the farmer.

The practice of too many has been to take what crops they could from their land with as little manure as possible, having in view the laying of same down in grass and pasture. The land is thus left, under the supposition that by *resting*, it will recover its fertility, but it must ever be borne in mind, that land will degenerate without constant skill and attention, and if left to itself, the thorns and thistles of the curse will take the place of useful herbage, to be succeeded again by the trees of the forest.

We learn by the returns from the several Agricultural Societies, that the average quantity of hay, in many cases, is but one ton to the acre. In a country and climate so peculiarly excellent for the growth of grass, we at once are led to the conclusion that the land in such cases is not receiving that attention which it requires. With proper ordinary care two tons to the acre can easily be had.

The application of manure to grass land is worthy of a place in this Report, that the farmer may enquire into the best means of improving his land with least cost, and make it doubly productive. It is not always desirable or convenient to break up grass or pasture lands; and where the raising of hay is the chief end, the practice of rotation of crops may not be expedient. How then is the land in grass to be restored to, or maintained in fertility, without being broken up and manured for green crops, and a rotation system pursued?

The opinion is now very prevalent among scientific and practical farmers, that the most economical and efficient mode of increasing the fertility of grass land is by means of *top-dressing*.

We are aware that there is a diversity of opinion on this method; some supposing that manure, so used, loses its virtue in the winds and rains. Experiments have, however, shewn that manure applied as a top-dressing is more beneficial for grain and grass crops, than when ploughed under; some judgment must, of course, be exercised as to time of applying the manure, such as the state of the ground and weather. We would consider that when the ground is hard bound by frost or excessive drought, that not so much advantage would be obtained as if applied at a different time.

On this subject, the Journal of Agriculture of the Highland and Agricultural Society of Scotland thus writes:—

“There being a difference of opinion among scientific persons regarding the advantage of spreading dung on the surface, and leaving it exposed for some time before covering it in, Professor Legnitz, of Eldena, (Prussian Agricultural School,) had recourse to experi-

ment for the solving of the question. For this purpose, he selected 2½ rods, which he divided into four equal parts. To No. 1 no manure was given : No. 2 received about two tons of farm-yard dung, which was spread immediately, and covered in by means of a plough : No. 3 was treated in the same manner, with this difference, that the hoe was used instead of the plough : The same quantity of dung was carried to No. 4, and allowed to remain spread for three weeks on the soil, before being covered in by the hoe. On the 10th of October, the four lots were subject to experiment, and were sown with about 95 pints of rye seed each. The following are the total results of the crop from each lot, grain and straw included :—

No. 1 produced 583 lbs. ; No. 2, 770 lbs. ; No. 3, 818 lbs. ; No. 4, 935 lbs.

“ We do not by any means consider this experiment conclusive, as there are several particulars not mentioned, such as the state of the weather when the dung was lying exposed, and the kind of soil, but which we would like to have seen stated. Still it is striking enough to warrant the repetition of it on a larger scale.”

We quote again from the *American Farmer* of July 1859 :—

“ *Top-dressing with Putrescent Manures.*—The subject of manuring generally is one of especial interest to the farmer, and it is of the utmost consequence that right principles should be established and promulgated. Several years ago we began to call attention to this subject of surface manuring, not as a new thing, not as claiming any originality with respect to it, but because an old *theory* almost universally received, and constantly maintained by writers claiming to be scientific, stood in its way. It was the theory that the waste of ammonia by the exposure of putrescent manure upon the surface was a loss of its whole value, and that to leave it so exposed was to throw it away. It required some courage in the face of every thing almost that was considered authority, and the very general sentiment of the farming community, to set forth the opinion which we expressed in the May No. of the *Farmer*, 1856. Nor is there any occasion for accumulating manures in stables and barn-yards, to be carried out carefully at the busiest season, and spread before the plough, and turned under immediately “or sooner,” according to the stereotyped directions for such cases made and provided. They may be and should be taken away from time to time, before they accumulate, and spread out upon grass land or corn land, or wherever there is occasion for them. We know that teachers of science will shake their heads over the wanton waste of *ammonia*, but we cannot help it. We *know* that these suggestions will stand the test of trial, and practical men must stand by their facts. If the doctors do not understand how it is, let them bide their time. When science becomes more familiar, she will explain it to them.

“ Whether the famous experiments of Professor Voelker, of the Agricultural College of Cirencester, were instituted on this hint, we do not know ; but it was a coincidence, at least, that during the Summer following they were made, and our own editorial commenting upon, and further supporting with facts, the deduction of that learned gentleman, was copied at large into the *Farmer's Magazine*, the leading agricultural monthly of Great Britain. These experiments established beyond question the error of the old theory ; and sustained by the very numerous facts which the discussion has brought out, and the observation and judgment of practical men in that country and this, the community is not likely to be further misled on the subject to very great extent. We wish, however, from time to time, to keep the matter in mind, and to furnish any new facts which may come under our notice. After harvest, it is desirable to clear the yards of every thing that may have been left over from winter, and accumulated since. Under the prevalence of the common notion:

great fear is entertained that the strength of the manure will be lost unless immediately ploughed under, and to do this may not be possible. Let the principle established by Professor Voelker be then kept in view, viz: that fresh manure contains a very inappreciable quantity of volatile ammonia. That the odor arising from fresh manure does not indicate the waste of any valuable quality. That volatile ammonia is formed only as the manure rots; and in spreading on the surface, the nitrogen, which is not volatile, is washed down by the first shower, and preserved by the roots or the litter, or the surface soil, from waste. There need therefore be no fear of waste from evaporation.

"Within a few days we have learned some facts bearing upon this point. Dr. C. M. Jones, of St. Mary's County, was decidedly satisfied of the necessity of ploughing under fresh manure immediately. Having a piece of tobacco ground in course of preparation, he was covering such land with manure, and ploughing under at once. It happened that the manure could not be got upon the ground toward the close without keeping the ploughs waiting; so that the land was ploughed first, the manure thrown on the surface and worked in, in the preparation for planting. This last piece showed its superiority throughout the growth of the crop. Just the same thing occurred in his cornfield. His manure was taken to the field and applied heavily along the furrow, bedding the earth over it. But a portion of the land was prepared first, and a lighter manuring on this, shewed much superior results. A similar experience occurred with his wheat cultivation. Manure was hauled upon the ground early in August to be ploughed under; but a portion, owing to the dry weather, was spread, but left unploughed for weeks, and the effect was as striking as in the other cases.

"At Mr. Hewlett's we had the opportunity of remarking recently the effect of Peruvian guano as a top-dressing during three successive years. It was applied two years ago to a hill-side when in wheat, and the effect in that crop was very apparent. This spring, two years after, it is equally apparent in the heavy growth of orchard grass. On another piece of land the Timothy had entirely run out, except upon a strip which, owing to its being thinner than the rest, was top-dressed with Peruvian guano. On this the Timothy is still vigorous and well set."

It is worthy of note, likewise, that by constant dressing, not only is the produce of the grasses increased, but their character is changed, the better sort supplanting the coarser and inferior kinds.

If space had permitted, we might have given the results of careful experiments with different kinds of manures, shewing the nature of different herbage brought into growth according to the character of manures used, but our main object is at present to draw attention to the more frequent practice of top-dressing. In order that the experience of practical farmers might be had, as to the effect of surface manuring, and manure ploughed under, Circulars were issued during the season, to several of the Agricultural Societies and farmers throughout the Province, similar to those issued by the able Secretary of the Maine Board of Agriculture, proposing the following experiment, and from attention to which, the writer hopes some information may be obtained of practical benefit:—

AN EXPERIMENT PROPOSED.

"Select a level piece of land of any convenient size and form, from an eighth of an acre, to a whole acre or more, the soil and sub-soil and condition of which is as nearly uniform throughout as possible. Divide it into four equal plots, numbering them 1, 2, 3, and 4.

Upon No. 1 spread manure evenly (broad-cast) of such as you have, and enough in your opinion to secure a fair or good crop, and plough *the whole piece* to an equal depth of eight inches. Next, upon No. 2, apply in the same manner exactly the same quantity and quality of manure as was put upon No. 1, and cross-plough the whole piece to half the depth of the first ploughing. Next, apply manure to No. 3, exactly as upon No. 1 or 2, and harrow or cultivate the whole piece. Lastly, apply manure to No. 4, as upon the others, and leave it upon the surface.

“If these directions be accurately fulfilled, you will observe that the whole receives exactly the same degree of cultivation and the same amount and quality of manure; the only difference being in the depth at which the manure was applied; and any variation in the product may safely be ascribed to *the mode of application*, which is the only point intended to be illustrated by the experiment. Upon the first we shall see the effect of covering the manure 8 inches deep; upon No. 2, the effect when covered half as deeply; upon No. 3, the effect of a slight covering; and upon No. 4, the effect of strictly surface manuring. Let the after cultivation be the same upon all the plots, and the harvesting be done at the same time.

“In reporting the result of your experiment, please state the exact amount of product upon each plot, ascertained by weighing the whole product, (not by estimate based upon the weight or measure of a part.) If there be a double product, as grain and straw, or corn and fodder, give the weight of each separately. Please state in your report the character of the soil, whether light or heavy, dry or moist, leachy or retentive of manure; also any perceptible differences in the crop at different stages of growth, as whether one portion advances more rapidly, or ripens earlier than another; and carefully note from month to month any peculiarities of the season, as whether wet or dry, warm or cold, &c., together with any other items of interest.

“It is very desirable that you also notice the effects upon subsequent crops, particularly upon that of next year; regarding which, I trust you may be prepared to report a year later.

“Unless you prefer some other, I will suggest that the crop be either Indian corn or potatoes, and be followed next season by grass seeds, either with or without grain.”

Any information on the result of the above experiment, will be gladly received from any one who may favor the Secretary of the Board with the same; stating also the character of the soil and sub-soil, the previous condition of the land, the character of the season, &c. &c.

The quality of manure depends very greatly on the nature of the food consumed by the animal, be that animal a horse or a hen.

The following Table, prepared from estimates by the celebrated J. B. Lawes, F. R. S., a scientific experimenter on all such subjects, shews the estimated value of manure obtained from the consumption of one ton of different articles of food, each supposed to be of good quality of its kind:—

1. Decorticated cotton seed cake, - \$27.86	10. Locust beans, - - - - \$4.81
2. Rape cake, - - - - 21.01	11. Oats, - - - - 7.40
3. Linseed cake, - - - - 19.72	12. Wheat, - - - - 7.08
4. Malt dust, - - - - 18.21	13. Indian corn, - - - - 6.65
5. Lentils, - - - - 16.51	14. Malt, - - - - 6.65
6. Linseed, - - - - 15.65	15. Barley, - - - - 6.32
7. Tares, - - - - 15.75	16. Clover hay, - - - - 9.64
8. Beans, - - - - 15.75	17. Meadow hay, (upland,) - - 6.43
9. Peas, - - - - 13.38	18. Oat straw, - - - - 2.90

19. Wheat straw, - - -	\$2.68	23. Swedish turnips, - - -	\$0.91
20. Barley straw, - - -	2.25	24. Common turnips, - - -	0.86
21. Potatoes, - - -	1.50	25. Carrots, - - -	0.86
22. Mangolds, - - -	1.07		

By the above Table it will appear that it pays the farmer in more ways than one to feed his stock on the richest food.

To those who have never had their attention directed to such an estimate as the above, it will somewhat surprise them to see that one ton of clover is equal to one ton and a half of Timothy in production of quality of manure.

The above Table appears in the first Report of this Board, but may well occupy a place here.

The following Table from Johnson will aid the farmer in evenly applying manure to land:—

DISTANCE OF THE HEAPS.				Number of heaps in a load.									
				1	2	3	4	5	6	7	8	9	10
3	yards,	538	269	179	134	108	90	77	67	60	54
3½	"	395	168	132	99	79	66	56	49	44	39
4	"	303	151	101	75	60	50	43	37	33	30
4½	"	239	120	79	60	47	39	34	30	26	24
5	"	194	97	64	48½	38	32	27	24	21	19
5½	"	160	80	53	40	32	26	22	20	17	16
6	"	131	67	45	33	27	22	19	17	15	13
6½	"	115	57	38	28	23	19	16	14	12	11
7	"	99	49	33	24	19	16	14	12	11	10
7½	"	86	43	28	21	17	14	12	10	9	8
8	"	75	37	25	19	15	12	10	9	8	7
8½	"	67	33	22	16	13	11	9	8	7	6
9	"	60	30	20	15	12	10	8	7	6	5
9½	"	53	26	18	13	11	9	8	7	6	5
10	"	48	24	16	12	10	8	7	6	5½	4½

Example 1.—Required, the number of loads necessary to manure an acre of ground, dividing each load into six heaps, and placing three at a distance of 4½ yards from each other? The answer by the table is 39.

Example 2.—A farmer has a field containing 5½ acres, over which he wishes to spread 82 loads of manure. Now 82 divided by 5½ gives 15 loads per acre, and by referring to the table it will be seen that the desired object will be accomplished by making 4 heaps of a load, and placing them 9 yards apart, or by 9 heaps 6 yards apart, as may be most convenient.

“All vegetable substances consist of two parts, one called the organic part, which burns away in the fire and forms ninety to ninety nine from out of every one hundred pounds, and one called the inorganic part, which does not burn away. The organic part of plants consists of four elementary bodies, known by the names of carbon, hydrogen, oxygen, and nitrogen. For the nature of which and confirmation of statements relating to agricultural chemistry, see Johnston’s Catechism of Agricultural Chemistry, with an Introduction by John P. Norton. The inorganic part of plants contains from eight to ten different substances, viz. potash, soda, lime, magnesia, oxide of iron, oxide of manganese, silica, chlorine, sulphuric acid or oil of vitriol, and phosphoric acid, which for convenience may be divided into three classes, alkalis, acids, and neutrals. All plants require constant supplies of food in order that they may live and grow, which supplies they obtain partly

from the air and partly from the soil: organic food to support their organic part, which they take by their leaves from the air and by their roots from the soil. "Some leaves have as many as one hundred and seventy openings or mouths in a square inch." The leaf of a plant seems to have three offices, power of absorption, that of assisting in the chemical preparation of the sap or life of the plants, and that of evaporating its water. Hence we find that plants that are well exposed to the sun's rays make the most rapid growth.

"They obtain their inorganic food from the soil alone. A soil in which plants will grow consists also of an organic or combustible, and of an inorganic or incombustible part. The organic is derived from the roots and stems of decayed plants, and from the dung and remains of animals and insects of various kinds. A rich soil contains about one-twentieth of its weight in organic matter. This organic matter supplies the organic food which plants draw from the soil through their roots. It necessarily diminishes when the land is frequently ploughed and cropped and not *properly manured*. To keep up the supply of organic matter in the soil, see Johnston's Catechism of Agricultural Chemistry. The inorganic or earthy parts of the soil serve two purposes: First, "as a medium in which the roots can fix themselves so as to keep the plants in an upright position." Second, it supplies the plants with inorganic food. The inorganic part of the soil consists chiefly of sand, clay and lime; but contains small quantities of the *same substances* which exist in the ash or inorganic part of the plants. These substances are dissolved by the rain and spring waters and sucked up by the roots of the plants. (See Johnston's Catechism of Agricultural Chemistry.) The vegetable fixed to one spot has the mechanical impulse to seek the supply of food requisite for its development. Unless the food is found in the soil, or artificially supplied by us, the crop will be a failure; for, as plants are intended as food for animals, nature *has provided that they shall not obtain* their perfection without taking up a supply of the ingredients which serve as food for man and beast."

Composition of soils of different degrees of fertility, (Johnson's.)

	Fertility with- out Manure.	Fertility with Manure.	Barren.
Organic matter,	97	50	40
Silica, (in the sand and clay,)	648	833	78
Alumina in the clay,	57	51	91
Lime,	59	18	4

Loss,	14	—	4½
	1,000	1,000	1,000

"Says Johnson—The soil of which the composition is given in the first column, has produced crops for sixty years without manure, and still contained a sensible quantity of all the substances required by plants. That in the second column produced good crops when regularly manured; it was in want of three or four substances only, which

were given to it by the manure. The third was hopelessly barren; it was in want of many substances which ordinary manuring could not supply.

‘The materials which enter into the formation of roots, as before stated, must be found in the soil or artificially supplied; for it is also a fixed law of nature that the leaves and the roots shall perform their functions simultaneously—and it is also believed (the experiments hitherto made go to prove this declaration) that if one of the important ingredients of the plant be absent, the others, although they may be present in sufficient quantities, will not be used. As in animals, where the food taken into the stomach is digested and formed into bone, muscle, fat, hair, &c., so in the plant, the nutritive portions must be found in the earth (and the air) to be resolved into wood, bark, grain, or some other necessary part.’”

The practice of feeding sheep on pasture land cannot be too much encouraged.

Among the many circulars issued by various Agricultural Societies, desiring answer to the question “Do sheep improve pasture land?” there is an invariable affirmative returned, especially relating to such pastures where the coarser grasses, briars and bushes were beginning to cover the surface.

“The reasons for this are obvious to any one, who has observed the habits of sheep. They are more indiscriminate feeders than cattle; they nip the shoots of almost every shrub as well as weed, extirpating many kinds in the course of two or three years. They make room in this way for the grasses to come in, where they have been shadowed out, or otherwise displaced. The white weed, the broom, or wood-waxen, as it is commonly termed, the golden rod, the blackberry vine, the blueberry, with many similar plants, disappear before them, and the finer grasses and white clover take their place.

“This, however, is only one of the many advantages which sheep possess over cattle, upon pastures which are impoverished. They scatter their manure in the way to produce the largest benefit, besides which, it possesses in the highest degree the requisites essential to restoring to the land the phosphates, which it loses from long depasturing with cattle. The manure, too, of sheep, suffers no waste, being in a highly concentrated form, and at the same time, it is minutely divided and evenly distributed over the surface of the ground. So good and so economical a distributor of manure is the sheep, that experienced farmers are feeding them, when in pasture, upon oil-cake, for the additional benefit of the manure. Mr. Hamilton, a distinguished agriculturalist in Ireland, in a communication to the *Farmers’ Magazine* for February, 1859, says:—

“The experience of the practical farmer has, long ago, convinced him, that bought food does not pay for itself in the increase of beef and mutton, but that a manifest improvement takes place in pastures, where sheep have been fed with oil-cake.’ He then goes on to show, from a series of careful experiments, the gain which the oil-cake gives to the sheep, and the gain to the pasture in the form of increased ammonia and phosphate of lime in the manure. We give his conclusion in his own words:—‘I am not chemist enough to do more than to point out the general bearings of Dr. Apjohn’s analysis, but I think I have sufficiently opened the question for others more qualified to take it up, and shown the practical farmer that where he gives artificial food to his sheep, out of every £10 expended, at least £8 15s. goes to the improvement of the land.’—If this be an approximation to the truth, sheep are better manure distributors than any machine which has yet been invented.

“What the person, desirous of commencing sheep-husbandry, wants to know, is, what food is wholesome for sheep, the relative value of each kind of food, and the amount re-

quired to keep sheep in a fair thriving condition. With these facts before him, he can select those most available in his locality, and he will be able to form a correct judgment as to the profit he can derive from sheep husbandry. We have seen it frequently stated, that in the climate of New England and New York ten sheep require for their winter's keep a ton of hay, or, in other words, that to carry ten sheep through the year, it will be necessary to give them in addition to their pasturage one ton of good English hay. This is, however, too small an allowance for any sheep that it is profitable for a farmer to keep, besides, it is too indefinite as a rule for any one safely to act upon it. Hay should be taken as the standard only, and in speaking of it, we must understand it in that light, viz:—hay, or some other suitable food for sheep, which is equivalent to it in nutritive value. It is therefore necessary to ascertain, in the first place, what is the proper allowance for sheep, taking hay as the standard, and then to find out what are the equivalents in other articles, which may be fed to sheep with equal advantage in the place of it. Keit, a high authority upon this subject, lays down the rule, that $2\frac{1}{2}$ lbs. of hay, of the best quality, is necessary for every 100 lbs. of live weight, daily, to keep a sheep in good condition; while Spooner, one of the latest writers on the subject, says that $3\frac{1}{2}$ lbs. is necessary for the purpose. We are inclined to adopt, as the rule, a mean nearly between the two,—to take 3 lbs. of the average quality of hay to every 100 lbs. of live weight, as the quantity required to winter sheep, so as to get the most profit from their wool and flesh.

“ We now give the table of food for sheep, with its relative value, taking the best quality of hay as the standard, and selecting those articles which are likely to be within the reach of every farmer:—

“ 100 lbs. of good hay is equal to	90 lbs. of clover.
“ “ “	102 “ aftermath.
“ “ “	374 “ wheat straw.
“ “ “	442 “ rye straw.
“ “ “	195 “ oat straw.
“ “ “	153 “ pea straw.
“ “ “	140 “ bean straw.
“ “ “	339 “ mangold wurtzel.
“ “ “	504 “ common turnips.
“ “ “	276 “ carrots.
“ “ “	308 “ Swedish turnips.
“ “ “	45 “ clean wheat.
“ “ “	54 “ barley.
“ “ “	59 “ oats.
“ “ “	50 “ Indian corn.
“ “ “	45 “ peas.
“ “ “	45 “ beans.
“ “ “	105 “ wheat bran.
“ “ “	167 “ wheat and oat chaff.
“ “ “	45 “ linseed oil-cake.
“ “ “	45 “ cotton seed oil-cake.

“ It will be understood by every reader that these values or their equivalents, are only an approximation to the truth. Each of them, as well as the standard hay, vary in value on different soils and in different situations, but they are known, from long experience and observation, to be sufficiently correct to guide one safely in the practical operations of feeding, and they are also accurate enough to enable one to calculate the cost of feeding, where either or all of these are used. The great advantage to be derived from a table like this is, that it enables the sheep grower to take advantage of the cheapness of any article of food which he finds there, in order to replace some other which is more costly.

For example, if hay should be unusually high in price, and some other articles should be unusually low, the sheep feeder, knowing the relative nutritive value of them, can effect a material economy by the use of those, in part at least, which are the cheapest, taking care always to vary the food as much as possible, and to use a due proportion of the bulky with the more concentrated kinds.

“In estimating the cost of wintering sheep, with a view of ascertaining the profitableness of the pursuit, the value of the manure left in the sheepfold must be taken into the account, which is, as it will be seen, a very important element to be considered in arriving at a correct conclusion.”

The above extracts, taken from the Report of the transactions of the Massachusetts Society for promoting Agriculture, may be of service to many.

The keeping of sheep is one of the most profitable departments of husbandry. Great attention is needed to keep the flock well up, as sheep are prone to deteriorate. A change of ram is necessary whenever the flock increases; but when we get good breeds either of sheep or other animals, the grand secret for raising the greatest amount of produce, whether in beef or mutton, is mainly this—“*that you ought never to allow the animal to be so pinched or starved, that it retrogrades in the least.*” You should keep it progressing from the first month of its birth, and never let it lose the flesh it has acquired; because if you have an animal losing for one month, it requires another month to make it up, and then a month more to bring it into regular healthy condition.

The various breeds of sheep throughout our Province, are susceptible of great improvement. There is no reason why our sheep should not yield their eight to ten pounds of wool to the fleece, instead of the farmer being content with less than half that amount. We are aware that in some localities, dogs are most destructive to the sheep; but we hope that such a stringent law may soon be passed, as may at least in some measure protect the farmer from loss in this way.

To return to our object in mentioning sheep husbandry; let us remember that sheep are said to be the animals with the golden hoof,—they enrich where they go; they not only enrich the master, but the soil. Their manure has a peculiarly efficacious quality, and it is distributed throughout the land in a way very different from that which is left in patches by horned cattle; but there is this also, that while you have the mutton, probably as valuable per pound at the end of the sheep’s life as beef, it has given you year after year the fleece, which is of itself so important.

We may here certainly make the keeping of sheep one of the prominent recommendations which the interests of Agriculture in this Province seem to require.

It was expected that an Essay or Report on the benefits of Draining, as practised on some one particular farm, would have been rendered in time for insertion in this Report; but as we are disappointed in this, we here make a few remarks on the subject of *Drains*.

It may be safely asserted, that there is no expenditure in the improvement of a farm, which yields so surely an immediate return, as that which is incurred in the construction of drains. There are few farms in our Province, but what would be much benefited by draining; whereas also, there are the most valuable tracts of land lying useless, which, by a judicious system of draining, might be converted into smiling fields. Of such are many of our cedar and alder swamps, possessing in their rich muck the elements of the greatest fertility, and which, when drained, form our best and most enduring grass lands.

The great object of all modern tillage is to get the most yield from the least space of land; the converse of this is the too frequent practice, getting the least yield from the largest space of ground.

One great means of making our land more productive is *draining*. Some knowledge of the principles of drainage is necessary to an intelligent husbandry; our success depends in this, as in all like particulars in agriculture, on the faithful practice of well ascertained principles. Draining is an old art; and from the days of the Egyptians, and the ancient Roman writers, it has been found a necessary and successful one in practice.

Like all other great and well established principles in agriculture, there can be now no question as to the beneficial effects of draining. The mode of doing so, the circumstances under which it would pay, the cost of materials, and such like considerations, may admit of question as to expediency in practice; but there are few farms so situated, in which draining, when needed, will not amply remunerate all expense.

The earth when dug from the drains, when put into the compost heap or carted to the farm-yard, will help greatly to repay the outlay.

The entire character of the soil in some cases is, by draining, entirely changed, becoming modified and ameliorated.

The necessity of draining can be easily determined by the character of the sub-soil; wherever this is of a clayey or impervious kind, so that the water is checked in its sinking, so as to become stagnant, then draining is much needed and proves most effective; in such land, if in grass, thick moss or coarse herbage covers the surface; wherever the land is springy, there draining will do good.

When we wish to drain swamps or low grounds, the ditch should be placed where the ground is most depressed, and sometimes in such places open drains or ditches are very efficient, and the only kind practicable; in such cases they serve to carry off all surface water, and the writer has known swamps, which before such drains were cut through them, were quite impassable, become by that means firm ground, and cutting three tons of hay, of the best kind, to the acre. The water in many of the swamps and muck fields will be found to proceed from springs, and if we can get at the source or cut the water off, that which was saturated with water becomes dry, and makes the best yielding land.

Open drains or ditches may be made with ease on any farm, and where draining is necessary, it is better to have such than none.

The most approved kind of draining, however, is by means of tiles, which are used to an immense extent wherever procurable; and it is hoped that our Province will possess a tile manufactory forthwith, where they may be obtained at a reasonable cost.

A very efficient drain may be formed with stones; when the descent is considerable, stones thrown loosely in will operate well. If it is desired to cover these with the soil, it would be well to put on the top of the stones some brush, or even straw, or any material which will prevent the loose earth from washing through before the surface becomes sufficiently compact.

If the descent is not very steep, it will be necessary to pipe the stones; this is easily done, by a little care in the placing of them on the bottom, so as to leave an opening for the passage of the water; this is best done with larger stones, above which we may place smaller ones, and cover over with soil.

Draining is comparatively of recent date, its extensive operation having commenced but fifteen years ago; and so successful has it proved, that nearly all England, Scotland and Ireland, will be soon thoroughly drained at the present rate of progress. No better surety of the benefit of draining is found than from the fact, that capitalists in England are willing to advance money to drain lands needing it, on no other security than the increased value of the land; the mortgage taken upon it does not take effect on the value of the land before being drained, but on the increase in its value arising from draining.

The distance at which drains should be placed depends entirely on the nature of the land, and the springs on it. In some instances sixty feet apart will answer all purposes, in other cases ten feet would be necessary.

The depth of drains also must be regulated by the facility of descent; the depth of from 3 to 4 feet, is in all cases desirable; but from 15 to 36 inches, in many cases, will effect great good.

It is not our intention here to enter into the well ascertained fact and theory of draining, but it will be well to mention some of the many advantages obtained from its practice.

Thorough drainage enables the roots of all plants to extend downwards—in other words, it deepens the soil. How often do we observe the stunted growth of carrot or beet roots, with their off-shoots of many fibres? Now what is the cause of this? Simply, the root comes soon to the water stagnant beneath the surface, or the earth is so saturated with wet that the root cannot or will not descend; for no plant, other than aquatic ones, will grow in water or thrive in wet land. To grow roots successfully, the line of stagnant water should be lowered by draining, at least a sufficient depth that a root of ordinary length may not come in contact with it.

Land also that is drained becomes more easily worked; it will not bake or cake if properly drained, or at least the most tenacious clay soil will become much more easily pulverized. The working of our clay lands without drain-

ing is rather laborious and oftentimes discouraging, but the effect of draining such land, (the very last that is workable) is, it may be tilled as early as any.

Another great benefit from thorough drainage is the most important fact, that it prevents the freezing and winter killing of grass. No wet remaining on the surface, or to the depth of the roots, the frost cannot by its influence on water throw up the roots,—the land is not “hove up.”

By draining, the land is better enabled to stand severe drought, the pores and particles of the earth are open to receive what moisture in form of dew may descend, whereas the compact clay lumps have no room for it. Ample facts prove that well-drained land is seldom injured from drought. For a like reason, draining warms the soil; the heat has room, so to speak, to enter down, nor is it obstructed by the presence of water, nor is the heat in the ground evaporated with the ascending vapour. Land therefore which is drained becomes speedily warm when the spring sun comes round. The earth being more porous, air is admitted downwards to the plant, and the fertilizing substances are more easily absorbed.

These are a few of the many advantages to be obtained from thorough draining.

The farmer will readily perceive that if his land is drained, he requires not to wait in impatience for the weather becoming dry; whenever the spring returns and the frost has left the ground, which it will do very early in drained ground, he can go on to his land and work in comfort and to good purpose; in this way some two or even four weeks are gained to him in the length of the season.

If draining was therefore more practiced, we would hear less of tones of complaint about the shortness of our seasons; for with proper precaution there has never been a season in our Province but what was long enough for securing the most abundant crops. The value of even a week in spring-time the farmer can well know.

We trust therefore, in view of the many advantages of draining, that the returns hereafter from our Agricultural Societies will shew its general adoption.

The growing of root crops deserves mention here, inasmuch as the returns from Agricultural Societies shew much neglect in their cultivation.

To what is this neglect owing? Is it because it takes more labour to grow root crops than other ones? Is it because manure is needed to grow them with success?

It is true that he who successfully grows root crops is a good farmer. And there was much wisdom in the reply of the late Daniel Webster, who, when asked by a farmer whose land was nigh “run out,” how best it could be renovated, replied “grow turnips;” for in order to do so with success, we must plough deep, manure well, and generally work the land and keep it free from weeds, and thus prepare for future crops.

By the estimated value of different foods for feeding purposes, and assuming that an acre will yield 600 bushels of turnips, a low estimate, if they are equal to one third of their weight in best of hay, we have in them the value of six tons of hay for feeding purposes; this is the immediate benefit—whilst in manure, preparation of soil, and general cultivation of the root field, the fertility of the soil is greatly increased.

The failure of the turnip crop in England would probably cause more disaster than the failure of the Bank of England, so much do the farmers there depend on this invaluable root, and so extensively is it cultivated.

The mode of feeding out the turnips in England is somewhat different from what is usually practiced with us; there it is sliced up thin and mixed with straw often, and forms a palatable meal for cattle; and indeed we may here observe, that one of the advantages in feeding out roots of any kind to cattle or horses, is the assistance to the digestion of other food which is thereby obtained.

We observed this season a field of roots in Saint John belonging to R. Jardine, Esquire, which was as luxuriant of their kind as could be desired; the field was about two acres, and planted in alternate rows of carrots, turnips, and mangolds. Some advantage is said to be obtained by this method of growing crops, but the secret of the luxuriance of the field was in liberal manuring, deep ploughing, and ordinary after care. It is not intended here to enlarge on this subject, but merely to draw attention to the importance of the root crops for feeding purposes, and as forming a part of prudent husbandry as a rotation crop. Every farmer should lay out to raise some hundreds of bushels of root crops. Especially useful is the turnip for the feeding of sheep in the spring of the year.

The practice of all good farmers in raising root crops is to plough deep, work fine, and manure well. In after culture thin, to ten inches apart, the plants as soon as they get too large for the fly, using, when the second leaves are well formed, the hoe and cultivator frequently. It is a successful practice in raising turnips, to start them with a little guano mixed with the soil, or guano mixed with plaster in equal proportions.

Appended hereto is a useful Table, showing the comparative value of the following crops as food for animals:—

Comparative value of the following crops as food for animals, elaborated from the Tables of analysis by Boussingault and Fresenius, and of practical values, as obtained by experiments in feeding, according to Block, Petri, Meyer, Thær, Pabst, Schwertzer, Schweitzer, and John Brooks, of Princeton.

BY ANALYSIS IN 2,000 POUNDS.	Water in 2000 lbs.	Nutritive equivalent by analysis, Hay considered as the standard.	Nutritive equivalent by average result in seven experiments in feeding, English hay as standard.	Money value by computations, made from the results before stated in feeding.			Experiment in feeding for a product in milk, by John Brooks. Hay valued at \$10 per ton.
				Hay \$10 per ton.	Hay \$15 per ton.	Hay \$20 per ton.

By the returns from Societies, we are glad to perceive that there exists a growing desire to obtain the best breeds of stock for their respective purposes.

In many parts of our Province there are good breeds of cattle, and we cannot but observe that in all those localities where the best stock exists, they have originally come by the enterprise of private individuals, or through the well directed exertions of Agricultural Societies. All intelligent observers know that the different breeds of neat stock, intended—one kind for fattening, another for draught, another for dairy purposes—possess their respective qualities not as the result of accident.

Such also is the case with the sheep,—one is preferred for the fineness or the coarseness of wool, another for its quality of mutton. So also in swine; one matures early, fattens easily, consumes less; another grows to great size, takes longer to fatten, but weighs well. We choose, for the purposes intended, the peculiar breed, and with certainty we gain the result.

One breed of cattle is hardy and is easily kept—suited for the poor pastures, and getting their own living; whilst another breed requires rich pasture and superior feed, repaying the owner if he attends to its wants. How important then to discover which breeds are best fitted for our locality and our means.

But here we would take occasion to draw especial attention to the woeful inconsistency with which too many of our farmers are chargeable,—that while we expend money and labour in getting better stock, they do not at the same time use all means to obtain better food, in form of root crops, clover,

and better hay; without attention to this latter essential, the improvement in stock will be but nominal.

Better far keep our native cows, often inured to starvation, pinching cold, and every unkind and most cruel usage, than practice the same treatment on breeds which cannot long stand it.

But what we would say to the farmer is,—use such breeds as you have, if you cannot get better, as they ought to be used; give them better food, provide sufficient shelter for them, and whatever breed you have will pay you for your care.

There is a class of farmers—we trust there are few belonging to it in this Province—who give no heed to the housing or protection of their cattle, especially their calves, even in the most inclement weather, and this they say is to *harden* them. It is true they live under such treatment; the snow bank gives them a cold shelter, the straw from the meagre manure-pile affords them a cud, but the hairy covering with which nature kindly protects them would better become the man who permits such treatment, that his connection with the human species might not be a matter of doubt. The righteous man is ever merciful to his beast.

There appears to be a very unanimous return made, as to the Ayrshire cow being preferred for dairy purposes. The Durhams or Short Horns are preferable for beef.

The North Devons are bred chiefly for work, and fatten well also. They are hardy, and of beautiful symmetry; often do we find good milkers among them,—the milk generally very rich.

The Herefords are much hardier than either of the above breeds, and will thrive on scantier fare; they are used for both milk and work.

The Jersey breed is coming into favour; when well fed and cared for, these cows are found to be rich milkers.

The West Highland breed is peculiarly hardy, thriving on the barest hills and pastures. One return states in regard to the West Highland breed, that “it will thrive any where, and make excellent beef.”

The returns also show that in many Counties good breeds of horses prevail, especially for agricultural purposes.

The cultivation of the grain crops is much below what is required by our Province. A more thorough and extended agriculture must be had, if we ever hope to consolidate our wealth.

On looking at the statistics, as compiled in the most admirable Report of William Smith, Esq., Controller of Customs, Saint John, for the year 1860, we are forcibly struck with the statement as to the amount and kind of articles for which we pay tribute to other countries.

By these statistics it appears that in one year, 1860, we imported of grain as follows—Wheat 12,479 bushels, oats 168,470 bushels, barley 10,401 bushels, hay 111 tons; whilst of lard we imported 16,692 lbs.; sheep skins, 2,754, calf skins, 1,747; of meats salted, cured or smoked, 176,042 lbs.; of fresh meats, including poultry, 70,401 lbs.

The amount in value of some of these articles, we here give from the same Report:—

Wheat grain, value in sterling,	£4,004	11	0
Indian corn,	6,916	17	0
Oats,	14,112	12	0
Barley,	1,640	3	0
Hay,	253	5	0
Buckwheat,	176	2	0
Eggs,	2,215	10	0
Beans and peas,	1,239	17	0
Butter and cheese,	11,445	13	0
Lard,	414	16	0
Meats salted, cured or smoked,	31,602	17	0
do. fresh, including poultry,	1,056	0	0
Potatoes,	11,693	19	0
Turnips,	572	15	0
Oatmeal, peameal,	2,340	16	0
Wheat flour,	230,864	0	0

Making the sum of upwards of £320,000 sterling sent out of our Province for articles which we do raise and make ourselves, but not in sufficient quantities.

There may be a question as to the reliability of the wheat crop being in every year a paying one, or whether the farmer may not in some cases buy his flour cheaper than he can raise it; but that we should have to purchase for home consumption the amount of \$70,000 worth of oats—money paid to other countries—is somewhat startling. The same remark may be made as to the other grains; whilst the enormous sum of £230,864 stg., for wheat flour, is no small drain on our specie.

In salted meats, we see that £31,602 sterling was expended for the year, in imports, whilst we exported but £203 stg. worth.

We give here a Table of the Imports and Exports for the last 33 years, in which it will be borne in mind that agricultural imports form the largest item. This table is taken from the Report of Custom House Returns before referred to; but it must be borne in mind also, that the full returns of the respective articles do not always appear, but only such as are entered at the Custom House:—

A Return shewing the value in Sterling of the Imports and Exports of the Province of New Brunswick from and to all Countries during the last 33 years, viz. between the years 1828 and 1860, both years inclusive.

Year.	Value Sterling.		Year.	Value Sterling.	
	Imports.	Exports.		Imports.	Exports.
1828	£643,581	£457,855	1845	£1,105,998	£787,624
1829	638,076	514,219	1846	1,036,016	886,763
1830	693,561	570,307	1847	1,125,328	696,399
1831	603,870	427,318	1848	629,408	639,199
1832	704,059	541,800	1849	693,927	601,462
1833	694,599	558,527	1850	815,531	658,018
1834	781,167	578,907	1851	980,300	772,024
1835	969,860	652,154	1852	1,110,601	796,335
1836	1,249,537	652,645	1853	1,716,108	1,072,491
1837	1,058,050	650,615	1854	2,068,773	1,104,215
1838	1,204,629	792,119	1855	1,431,330	826,331
1839	1,513,204	819,291	1856	1,521,178	1,073,351
1840	1,336,317	753,036	1857	1,418,943	917,775
1841	1,291,611	700,699	1858	1,162,771	810,779
1842	540,307	487,479	1859	1,416,034	1,073,422
1843	639,686	538,592	1860	1,446,740	916,372
1844	850,099	598,837			

Attention is drawn to the above facts, in order that some remedy may be found by which in some measure more than at present, we shall be less dependent on foreign countries for the necessaries of life.

This is not the place to discuss questions of political economy in reference to Exports and Imports, Free Trade or Protection; but we would rather have the balance of our exports somewhat altered, and the amount of our imports diminished.

An extended and better agriculture may help to stay the evil.

The large imports of salted meats may well suggest to some enterprising merchant, the sure road to a lucrative business. A knowledge of the proper salting and packing of beef is what is necessary, and the putting it up in such barrels that it will remain good during the longest voyage. The attention of the people of the Province was called to this subject by the New Brunswick Society for the encouragement of Agriculture, &c. &c., and a very full and reliable report drawn up on the subject of the best market for beef and pork.

That Report says—"The great, the profitable, and for many years the inexhaustible cash market for the New Brunswick farmers' beef and pork is our home market, for the supply of our ship owners, fishermen, lumberers, manufacturers, labourers, and nearly all classes in New Brunswick."

The same Report says—"The amount of beef and pork yearly imported into this Province cannot be ascertained with exactness; but upon the best calculation that can be made, the quantity of beef and pork annually imported into the various parts of this Province cannot be less than 100,000 barrels, or to the amount of nearly £300,000. The quantity stated in the Treasury Returns affords no guide, as it is only a part of the beef and pork

imported, or the amount which might be supplied by the New Brunswick farmer; for independent of a large amount which escapes duty, the Colonial shipping alone is supposed to require about 30,000 barrels annually; and this being bonded in the warehouse and paying no duty, does not appear in the Treasury Returns. So the British and Foreign shipping coming to the different ports of this Province, which on the return voyage would be supplied by our farmers, (were these articles attended to in New Brunswick) is furnished by foreign markets; and the extensive coasting trade carried on in different parts of the Province is subject to the same remark.

A reason generally urged why the lumbering interest is less profitable than it might be, is, the meat required for the extensive milling and lumbering operations is chiefly imported from a foreign market. Hence the articles in question, used in almost all departments, are passed into the Province by every avenue, land or water, from the Restigouche round to the Saint Francis, at remunerative prices, and the money goes out for them while our farmers are thinking themselves without markets."

There can be no doubt that a ready market would be found by the farmer, provided the beef could be put up fit to command such a market. If you ask the New Brunswick farmer why he does not raise more beef and pork for sale, his answer is, "no market for it." If you ask the New Brunswick ship owner or merchant of this, he answers, "there is a good market, but it is not produced by the farmer;"—and each answer is true in the existing state of affairs, for the farmer has no market for the article in the state in which he would furnish it to the merchant. Perhaps for old worn out cows or oxen, *grass fed*, or half fattened, (the meat calculated to become hard, shrunken, and wasted, without the knowledge of the proper mode of curing, with no fit barrel and proper putting up to preserve it from spoiling, or any inspection or brand to give it character) *there is "no market."*

These evils may be remedied, and we may hope that our farmers will give attention to this important matter.

Some combined action between the country and the sea-ports and chief places of our Province seems necessary, that the farmer and the merchant may be mutually benefited; nor would the establishment of a general store for the reception of grain from the country, to be sold by a general agent for the farmers, be a chimerical idea.

It is much to be desired that the labours of the Board of Agriculture may tend to some practical benefit in these respects.

The returns from the several Agricultural Societies are unanimous in their statements, as to the facilities with which oats and barley are raised, and the deficiency in these grains is therefore the more striking.

There are two ways in which we can, in a great measure, reduce the steady drain upon our resources, viz. by being more economical in our habits and style of living, and in striving to make the labour of the farmer more productive.

If wheat is not raised in sufficient quantity to supply our bread, let us be more careful to convert the other grains to useful and wholesome food for our own tables, nor allow the celebrated Dr. Johnson's definition of oats, viz. "food for horses in England, and men in Scotland," deter us from making that useful grain, when ground into fine meal, a more general article of diet. So likewise may we remark about the Indian corn, barley, and buckwheat; finer meals cannot be obtained from any other grain than from these.

As to the other means of remedy, viz. making the labour of the farmer more productive, this embraces the whole system of an intelligent husbandry. Practical recommendations and suggestions are what the farmer needs, where so much of practice has to be amended; nor need we fear that the valuable time of the hard working farmers of our land will be expended in following speculative theories or theoretical but untried systems. The scientific researches of the chemist, the mineralogist, the geologist, the physiologist, and the entomologist, have given us the result of their valuable labours in their several departments; the principles of agriculture are to a certain—and to us a sufficient extent—ascertained; their adaptation to our soil and climate is for us to discover and practice. To arrive at greater success in our farming operations, we have first to consider the evils and drawbacks that exist in our practice; a wrong move at first leads us astray, and we stray further the more the wrong direction is pursued.

It is time for the farmers to pause and consider their errors, and the first step towards improvement is a consciousness that a change for the better may be made in agricultural practice. What their fathers did, is with many a law and testimony from which they must not deviate; hence the system of farming pursued by the first settlers, occupying the virgin ground with all its native fertility, is followed by their descendents upon the same land, but deprived of its original richness; the old buildings that did well enough in bye-gone days, when no better could be procured, still remain, and are considered to do well enough yet. Neglect of system in rotation of crops and saving of manure, the want of farm yards, insufficient fences, mismanagement of stock, and resistance to progress and change, characterize too many of our farming population.

One "dull and senseless round" is by many pursued on their farms from year to year; the old barn door creaks on its hinges with old familiar sound; the pinching winter winds find their same accustomed circuit through the many openings of the ancient barn; the stones of the field have never yielded their ancient possession; the muck holes still serve their purpose, to mire the half starved animal; the gaunt cattle around, as they chew their bitter cud, tell by their sour and miserable look, upon what herbage they are fed; the crops are so miserably light, that they will not repay their cultivation.

To such farmers we do not look for an increase of our exports; from such we expect to hear the mutterings of discontent, and the depreciation of our Province.

What then are some of the errors or defects in Agriculture which need to be avoided, and how are the farmers generally to get into the right track, and advance with sure and steady progress?

First.—The farmer must have faith in his business, and pursue it with system.

If he has faith in his business, if he believes that farming will pay, he will follow out his work with heart; he will love to labour where labour is necessary; he will vest his means in his land, and loan his money to it, nor will he mourn at the departure of a dollar, for fear that he will never get it back again; and further, he will borrow when he can, and when necessary, to carry on with advantage his operations.

This faith in farming being a profitable business, when carried on in a proper manner, will lead the farmer to consider what that proper manner is. Hence *system* is at once adopted; for no man can carry on any branch of business with success, until he adopts system in its management.

The farmer then having faith in his occupation, must resolve to *carry it on as a business, and his business*. In doing so, he will immediately discover that it requires constant and undivided attention. First he will settle in his mind what kind of farming will pay best, taking into consideration his locality, facility for markets, means at command, and such like matters.

In Scotland, there are five distinct kinds of farming separately pursued, and each forming a distinct business; one farmer follows the grazing or feeding of cattle and sheep, or sheep only; another, the carse farmers, as they are styled, follow the raising of wheat and beans; others confine their attention to the raising of green crops, and to the sale of green grasses, vetches, &c.; another, to dairy purposes; whilst a very large class pursue the unproved system of mixed husbandry.

Now the thoughtful farmer will consider, if he can pursue with more profit a separate branch of farming, or whether, as is usually the case, he will pursue a mixed husbandry. And having once settled in his mind what he will do, he sets to work to do it well.

And how is that to be done well?

We answer, by pursuing the same course in the first instance, which every merchant or manufacturer does, viz:—By taking an account of his lands, buildings, improvements, &c. &c., and making the proper entries to debit and credit; this is the first step to a good system; in this way the farmer will know what department of his business will be the most profitable, for he can never know the relative cost of any produce, until he first ascertains what it has actually cost him to produce it. Again, in this way, he ascertains whether tillage or grazing will pay him best, raising hay or grain, or roots, taking into account all the expenses of transportation, nearness to market, and demand for the article.

The keeping of farm accounts must be followed and constantly practised, if the farmer would make farming a business; every item of expenditure—his incomings and outgoings—will be examined, with a view to the returns which are expected to be received.

The rearing and fattening of cattle,—the proportion of stock to the size of the farm,—the manure requisite to enrich the soil thoroughly,—the comparative value of different crops,—what can be produced at the least cost,—all such things will be considered and well weighed.

The business farmer will charge to debit the value of the land and buildings, labour, manure, his animals, implements, and all expenses incurred in the operations of the season; he will credit the value of all his crops and products, his hay, grain, roots, increase of stock, dairy products, and the increased value in his farm by all the improvements in manuring, fencing, and draining the same, or in whatever way he may have made it better and increased its value. The results in this way will not be matter of conjecture. The question—“Is farming profitable?” will, so far as he is concerned, be at once solved by a reference to his ledger; the question—“What department, all things considered, pays best?” will be at once answered. How much he has made by farming during the year, will thus not be a matter of guess work.

The very first elements of ascertaining the profit and loss on a farm are to be found in keeping farm accounts.

The practice of keeping accounts will, of itself, tend much to induce habits of business and of thrift.

No great knowledge of book-keeping is requisite to the keeping of farm accounts.

The results from the daily, weekly, or monthly entries, may appear as in the following Tables, which may form models for the respective departments of husbandry; they have been compiled from a very excellent work arranged by Franklin B. Hough, Esq., called “The Comprehensive Farm Record,”* a book which every farmer should possess, and arranged for immediate use, and sold at the low price of three dollars, being prepared for a series of twenty five years.

* Sold by C. M. Saxton, 25 Park Row, New York.

COMPARISON WITH THE RESULTS OF THE PRECEDING YEAR.										
Gain.										
Loss.										

We give here illustrations of keeping an account of the profit and loss in clearing land, taken from the Report of the Massachusetts Board of Agriculture. The same are valuable as models of keeping accounts as well as for the suggestive information they contain.

We also give an account of oat and barley crop.

IMPROVING PASTURE AND WASTE LANDS.

ESSEX.

Statement of Jonas Holt.

"The piece of land which I present for premium contains about three acres within its walls; about one acre and three-fourths was ploughed in 1813, not having had much done to it since, it was almost covered with brakes and bushes.

"The other acre and one-fourth was partly run and partly swale land, the run and swale were both very wet, the part that had been ploughed was partly a gravelly soil and partly a stiff loam resting upon a hard pan. My first object was to get rid of the water; for this purpose I cut a ditch through the centre of the run twenty one rods, three feet wide, and two feet six inches deep; there was so much water at the time that it was very slow digging. This ditch cost me forty cents per rod. In the bottom of this ditch I laid a good stone drain, and then filled the ditch with small stones. I then dug five short ditches on the sides of this main ditch to drain the land on the east and west sides, running nearly at right angles with and emptying into the main ditch. In these short ditches I laid stone drains and covered them deep enough to plough over; the result was, the land is all dry enough to plough; the short drains however were not dug until after the land was ploughed. As this piece of land was considered of little value, I determined to try what deep ploughing and thorough cultivation would do; the land was not considered worth more than twenty dollars per acre when I commenced on it, and now I think it is worth sixty or seventy dollars per acre, and will pay the interest on it, and more too.

A statement of the cost and the amount of crop, with its value, is herewith annexed.

1858—Nov.—Twenty one rods of ditch at forty cents per rod,	\$8 40
To laying drain and filling the same,	5 00
To ploughing, one day, with eight oxen and four hands,	12 00
Use of plough,	00 75
	<hr/>
	\$26 15
1859—May.—2 days' ploughing with six oxen and three hands,	\$8 00
Use of plough,	1 00
Harrowing,	2 00
Thirty loads of manure,	15 00
Planting and seed,	12 00
Hoing once,	6 00
Harvesting,	4 00
Sept.—20 rods of underdrain, at forty cents per rod,	8 00
	<hr/>
	\$56 00
	<hr/>
Credit by 80 bushels of potatoes, at fifty cents,	\$40 00

		<hr/> \$60 75

" I then have a clear gain of \$60.75, besides the extra value of the land. You will see that I have charged nothing for harvesting the corn; I thought the butts worth enough to pay for harvesting, so I gave no credit for the corn fodder and charged nothing for the harvesting. I ploughed this piece of ground ten inches deep, and turned up so much of the cold subsoil that I think my first crop was not as good as it would have been had I ploughed shallower, but I am satisfied the land for after crops will amply pay for the meagre crop I got at first.—You will see that I have charged but half the worth of the manure, as I calculate one half of the value of the manure should be charged to the land and one half to the crop.

Andover, Nov. 8, 1860."

Statement of Paul T. Winkley.

"The piece of waste land which I offer for the inspection and consideration of the Committee, contains about fifteen acres. It was worthless before I commenced improving it, because it did not produce any thing of any value. It was covered with bushes and moss, such as wild rose bushes, iron bushes, bayberry bushes, &c. Some of the bushes we cut and burned on the ground and some we ploughed in. The soil is a clay loam. We ploughed about eight acres of it in the summer of 1857, in wet weather, when we could not do any thing else to advantage. Thus ploughing in all that was green to decompose previous to ploughing in the following spring, when it was cross-ploughed, and about six acres of it manured with as much manure as could be ploughed in. The remainder was ploughed and harrowed, and not planted, as I do not think that it pays to plant and hoe without manure. All that was manured was planted to corn, but on account of the wet and cold weather it was not planted until the 5th and 6th of June, hence it was not very sound corn. In 1859 that which had been planted to corn was sowed to barley and grass seed, and it was a good crop. This year we have cut two large crops of clover and Timothy.

"In the summer of 1858 the remainder was ploughed, and last year (1859) it was manured, ploughed, and planted to corn and ruta-baga. The corn did not get ripe and not a very good crop. The ruta-bagas were a fair crop. This year five acres of it were sown with six bushels of wheat and grass seed, and four acres to barley and grass seed. The wheat produced ninety bushels, the barley one hundred bushels.

"I have put on the whole piece one thousand loads of stable and barnyard manure, half a cord to the load, which I charge to the land, \$2000. The crops which I have received I calculate will pay the expense of cultivating and applying the manure, so that the land is now indebted to me \$2000.

"This I expect to receive back again, principal and interest, in five years in hay and fall feed, so that I shall gain by the operation at the end of eight years the value of the land, which will be at least one hundred dollars per acre.

Newburyport, November 1, 1860."

NORFOLK.

Statement of A. L. Smith.

"The piece of pasture land which I offer for premium, contains four acres; the soil is a gravelly loam. It had been used for a pasture for nearly a hundred years, and a great part of it was covered with whortle and blueberry bushes, ground savin, and a small piece with alders. In August 1858, I mowed the bushes and burned them upon the ground. The following month I ploughed two acres of the piece with four oxen, then harrowed thoroughly and sowed with rye. In April 1859, I ploughed the remaining two acres, one and three quarters of it with four oxen, the other quarter where the alders grew, with six oxen. Then harrowed, furrowed, and applied three cords per acre of coarse, strawy manure in the hill, and planted the piece with potatoes, hoed them once, and produced a fair crop of good sound potatoes. The rye on a part of the field was quite good, and the remainder very slim. In April 1860, I ploughed the part on which the rye grew last season, across the old furrows, then harrowed it well. In May I ploughed the other two acres, and harrowed the parts on which bushes had grown; then raked up several loads of roots, burned them, and spread the ashes upon the ground. The last part of the month I planted three acres of the piece with corn, applying three cords of good compost manure per acre in the hill. The remaining acre was planted with potatoes, manured with about three cords of strawy manure in the hill. As there were but few weeds to contend with, I hoed the corn and potatoes but once. In each alternate row I planted pumpkin seeds,

and where the crows pulled up some hills of corn at one corner of the field, planted pickle seeds. The corn was very good, with but little soft corn. To ascertain the amount of fodder upon the piece, I weighed an average rod of the husks and stalks, after they were well dried. The cost of husking the corn was of small amount, as I had a husking bee to husk part of it, and the remainder was all husked evenings, except one stormy day.

"The expenses were as follows:—

1858.							
To mowing bushes,	\$5 00
ploughing, 3 days,	11 25
harrowing, 2 days,	4 00
4 bushels rye, and sowing,	4 50
1859.							
To ploughing 1½ acres with 4 oxen,	\$6 56
ploughing ¼ acre with 6 oxen, ½ day,	2 87
boy and oxen 1½ days, harrowing,	2 18
furrowing, \$1; 20 bushels seed potatoes, \$10,	11 00
6 cords manure, applying manure and planting,	32 00
ploughing and hoeing, \$7; harvesting potatoes, \$6,	13 00
cradling rye and binding, \$3; threshing, \$2,	5 00
carting straw,	2 50
1860.							
To ploughing 4 acres, \$9; harrowing 3 acres, \$4,	\$13 00
raking and burning roots, \$1; furrowing \$2,	3 00
nine cords compost manure, \$45; 3 cords straw manure, \$10.50,	55 50
applying manure and planting, \$20.25; seed corn, \$1.08;	21 33
10 bushels potatoes, \$5; pumpkin and pickle seeds, 25 cts.	5 25
cultivating and hoeing,	11 37
cutting stalks and harvesting corn,	10 95
harvesting potatoes,	4 25
Total amount of expense,	<u>\$224 31</u>

The value of the crops is as follows:—

1859.							
By 19 bushels rye,	\$19 00
1,550 pounds straw, sold at 80 cts. per hundred,	12 40
144 bushels large potatoes, at 50 cts.,	72 00
18 bushels small potatoes, at 25 cts.,	4 50
1860.							
By 120 bushels corn,	\$120 00
12 bushels pig corn,	2 40
4 tons husks and butts,	28 00
4,800 pounds stalks,	24 00
83 bushels large potatoes, at 40 cts.,	33 20
10 bushels small potatoes, at 20 cts.,	2 00
2 loads pumpkins,	3 00
pickles,	1 25
Total,	<u>\$321 75</u>
Deduct expenses,	<u>224 31</u>
Leaves a profit of	<u>\$97 44</u>

Dover, November 14, 1860."

OATS.

NORFOLK.

Statement of A. L. Smith.

"The field of oats entered by me for premium, contains one and a half acres. Planted with corn last year, and manured with a shovelful of compost in the hill. Soil, a moist gravelly loam. Ploughed and sowed the first week in May last, with four and a half bushels of Australian oats. Before harrowing them in, I spread ten bushels of leached ashes on about one fourth of the piece, but did not perceive that the crop of oats was much benefited by it, although I have no doubt the future crop of grass will be. Owing to the press of haying, the oats were not cut until over ripe, and a storm coming on soon after, many of them were scattered in gathering the crop; as many, I should think, as were sown. The oats are quite heavy, weighing thirty four pounds per bushel. Crop, seventy one bushels. Straw weighed two and a half tons.

EXPENSE OF CROP.

Ploughing,	\$3 00
Seed, 4½ bushels, at 60 cents,	2 70
Sowing, 50 cents, harrowing, \$1.50,	2 00
Ten bushels of ashes, 80 cents, spreading, 20 cents,	1 00
Cutting, raking and binding,	4 50
Threshing and cleaning,	8 00
Interest on land, and taxes,	6 80
	<hr/>
	\$28 00

VALUE OF CROP.

Seventy one bushels of oats, at 60 cents,	\$42 06
Two and a half tons of straw at \$10,	25 00
	<hr/>
	67 60
	<hr/>
	\$39 60

*

Dover, October 15, 1860."

*The increased value of the land by cultivation ought here to be taken into account.

BARLEY.

NANTUCKET.

Statement of Allen Smith.

"Having entered as a competitor for the best experiment in raising barley, I will state that the land on which it grew was a good, strong, sandy loam, containing four acres; but, owing to a part of it lodging, I mowed three fourths of an acre, leaving three and one quarter acres, which produced one hundred and fifty and one half bushels of barley. The land had been planted to corn two years, and produced a good crop. This year, in March, I spread twenty four one horse loads of barn manure to the acre, and ploughed about the 20th of March; and the 29th, two bushels of common two rowed barley were sown to the acre, and well harrowed. It came up even, and considering the dry weather, looked well through the season. There was not rain enough to wet the ground through from the time it was sowed until it was harvested.

"It was cut July 20th, and threshed the 1st of August, and measured one hundred and fifty and a half bushels, or forty six and four thirteenth bushels per acre.

		VALUE OF CROP.

* Add increased value of land by cultivation.

In order to pursue a proper system of keeping of farm accounts, the farm itself must be under some system of proper division and arrangement, a matter this of no small consequence in itself. A division of the farm as recommended in page 20 of this Report, should at once be adopted, and the rotation system put in practice. In this way the yearly gain of fertility in the land, and consequent increased value of it will be got at, and become a source of increasing interest to the farmer, to mark the results which so nearly concern his prosperity. In his desire to make each tested field, year by year, more productive, he will cultivate less land, if need be, and what he does cultivate will be better done; in this way one great drawback to the success of the farmer will be avoided, viz. the *occupation of too much land*.

Unless farming has been pursued as a business, and with system,—unless the well ascertained principles of a scientific agriculture have been put in practice,—unless all means which are within our reach have been used to make it profitable, the assertion that it will not pay, ought to have no weight; want of success and prosperity not more surely follows the negligent and improvident tradesman or merchant, than it does the farmer who is not attentive to his business; and not more surely does success attend the careful labourer in the one, than it does in that of the other. It is true the husbandman may have to bemoan the failures of his crop; the fowls of the air, and the countless insects, may destroy the labor of his hands, but his misfortunes are not so common as are attendant on every other branch of business.

By industry, perseverance, sobriety, and economy,—by the adoption of a rational, systematic, and enlightened course of husbandry, success and ultimate independence is the unfailing reward of the farmer.

We have before remarked, that in order to success in agriculture, an enlightened course of husbandry must be pursued. During late years, natural science has been turned to the great field of agriculture. It has shewn us the composition of plants, and what food they require for their growth; it has disclosed to us the elements of fertility which, in their growth, they take from the soil; we have learned from its investigations, the properties of

different manures, and their adaptation to different soils; it shows us how soils naturally unproductive, may be fitted for the raising of any grain; how exhausted soils may be renovated, and how the ground may be preserved in perpetual fertility.

Science has also extended its researches to the food of animals; it has shewn us the properties of different kinds of food, in relation to fattening, bone making, muscle formation, and milk giving; it has disclosed to us the rationale of saving food, by increased shelter and warmth to the animal. A neglect of these, with the many other revelations which it has made, may slowly, but most surely, lead to impoverishment in the soil, and poverty to the farmer.

He who does not give back to the soil what by the crop he has taken from it, is selling the richness of his farm, with his crop; the man who gets but thirty bushels of grain from his field, when, by proper attention, he might obtain sixty, is selling his labour at half its worth. The penalties of wastefulness and culpable extravagance, in reference to the fertilizing ingredients within the reach of every farmer, will assuredly bring their legitimate fruits, in diminished crops, and lighter grains, until the land will be condemned by its owner as not worth cultivating.

The loss to this Province in the waste of manures and abuse of the soil may be estimated at millions of dollars; the proper cultivation of one acre by each farmer in it, would result in the gain of tens of thousands of pounds.

In the States of New York and Ohio, the average yield of crop is but fifty per cent of what it was a quarter of a century ago; in some of the Southern States it is still less; in parts of Canada the same effect may be seen; and a similar process of exhaustion is going on in the rich prairies of Illinois, Wisconsin, and Iowa.

In some portions of our Province where the best farming land is, there do we witness the most careless husbandry, and if the cause is enquired into, we are told that the land is so rich, that if manure were used, the crops of grain would lodge. A few years more of such husbandry will tell its own tale.

In one part of the most fertile regions of our Province, the writer was informed by the owner of the land, that for the period of twenty years he had not applied manure to a particular field, and that for a consecutive number of years buckwheat had been grown upon it; he believed still in its inexhaustible fertility, although every meagre weed beneath his feet was then pining in sterility. The great leading precept in our land husbandry should be, to give back to the earth as much, at least, as we have taken from it, in fertilizing ingredients.

Compensation is one of the universal laws of nature; what is taken from the earth must be restored again. The process of transformation is going on unceasingly, no atom is annihilated, it may be converted to other forms, sometimes appearing in the flesh of animals,—in the organization of plants,—in the offal and refuse of the barn yard, and other materials; these, or similar, the land must have returned to it.

Whether the Province of New Brunswick shall become a farming country, capable of raising its own bread, and much of its own clothing, or whether our lands shall become in great portions exhausted, depends upon ourselves.

Causes of complaint may be found here, as in all other places, but the business and systematic farmer will skilfully meet and turn to best advantage the existing state of things; by a prudent forelaying of labour, and preparation of his ground, he will guard against the hurry of the spring work, his crops be got in in time, and the hand of the diligent will make rich.

The nature of our climate for farming may be gathered from the following Tables, as compiled by Professor Johnston, in his Report on the capabilities of the Province.

Tables showing the number of Clear Days, &c. in the years 1857, 1858, and 1849.

No. 1.

1847.	Clear and very cold.	Clear.	Snow.	Rain.	Overcast and mild.	
January,	13	4	5	2	7	18 inches of snow fell this month: 22d, coldest day, Ther. 24° below 0.
February,	9	6	4	1	6	5 inches of snow fell this month: 3 feet deep in the woods.
March,	15	5	4	3	4	2½ feet snow on the ground; ice in the river three feet thick.
April,	9	8	6	2	5	
May,	..	16	..	4	11	2nd May river opened; 60° 3 P. M.; 6th, 75°.
June,	..	12	..	6	10	26th, Ther. 93°; potatoes in blossom; apple trees in bloom.
July,	..	18	..	6	7	6th, haying commenced—Ther. 90° 3 P. M. in shade; 7th, 90°; 5th, 95°; 10th, 91°; 14th, 88°; 20th, 92°; 21st, 95°.
August,	..	17	..	5	9	11th, harvesting commenced—Ther. 11th, 92°; 13th, 78°; 17th, 81°; 19th, 83°.
September,	..	11	..	5	14	23rd, first frost.
October,	3	13	..	6	9	26th, first fall of snow.
November,	2	11	3	5	10	17th, ice in the river; 21st, river frozen over; 26th, ice run; 28th, steamer up.
December,	11	..	7	7	6	15th, steamer New Brunswick came up; 22nd, river frozen over.
	52	121	28	54	100	

No. 2.

1848.	Clear & cold.	Clear & mild.	Snow.	Rain	Overcast.	FLOWERING OF TREES.	RIPE.
January,	15	6	1	4	5	Red Plum, May 30,	Sept. 1.

No. 3.

1819.	Clear and cold.	Clear.	Snow.	Rain.	Overcast.	FLOWERING OF TREES,	Red Plum, May 30, Dainson, June 2, Wild Cherry, " 2, Apple, " 6, Cherry, " 6.	RIFE.	Sept. 1. " 20. Aug. 5. Sept. 28. " "
January,	23	..	2	1	5	Hay, \$6 per ton—Potatoes, 4s.—Oats, 1s. 6d. ;			2nd Jan. 2 feet snow.
February,	15	3	3	..	7	4th, 4 inches snow fell this month—very cold.			
March,	10	3	3	7	5	10th, 2 feet snow in the woods.			
April,	7	8	3	1	8	4th, Ther. 65° shade ; ice moved the 6th ; 12th, steamer up.			
May,	..	18	..	5	8	1st, sowed peas and oats ; 17th, oats up ; 18th, peas up ; 20th, Ther. 75° ; 30th, 84° in shade.			
June,	..	24	..	3	3	7th, light frost.			
July,	..	23	..	4	4	2nd, early grass cut ; 7th, Ther. 87—barley in head ; 10th, Ther. 89° ; 11th, 96°.			
August,	..	19	..	4	8	9th, oats cut ; 14th, barley cut ; 26th, Ther. 94°.			
September,	..	22	..	4	4	16th, frost ; largest potatoe, 7½ oz. ; mangel wurtzel, 10lb. ; apple, 6 oz. ; oats, 40lb. ; peas, 66lb. ; beans, 63lb. ; wheat, 65lb. ; squash. (raised by Watts) 177lb.			

We have endeavoured in the foregoing remarks, to deal with the farmer and his occupation in a practical manner, but neither space nor leisure will permit our further enlarging on the subject. By following the suggestions where practicable, we feel assured success would follow in a greater measure than at present, and we would here again mention some of the particulars to which especial attention is required.

1st. Attention to the making, collecting and saving of manures, liquid and solid, and an intelligent application of them to the soil, as it stands in need of mineral, animal, or vegetable constituents.

2nd. Drainage of lands, thorough where it can be done, and open drains where they are the only kind practicable.

3rd. Attention to the proper shelter and comfortable condition of cattle, the housing of them early in the season, with a more plentiful supply of green food ; and the procuring of the best respective breeds.

4th. A more general practice of top-dressing grass lands, where it is inconvenient or impracticable to plough them.

5th. The keeping of farm accounts, and the pursuance of a regular system in all operations, rotation of crops, &c.

6th. A general acquaintance with the approved systems and practice of a scientific agriculture.

7th. The more general keeping of sheep, and the procuring of the best breeds for the respective purposes of wool or mutton, and a more liberal feeding.

8th. Devotion to farming as a business, followed out as such, and working in Fall for the Spring operations.

9th. Returning to the soil what we take from it, to maintain its fertility ; and increasing its fertility by the application of more fertilizing materials than are taken from it.

10th. Attention to the proper fattening and stall feeding of animals intended for the butcher.

11th. The cultivation of no more land than what we are well able to keep in proper fertility.

12th. Thorough working of the soil; pulverizing it; deeper ploughing, and rich manuring.

13th. The more general use of grains, other than wheat, as an article for domestic consumption.

The above are some of the points to which the attention of individual farmers is called, by the adoption of which, they may be placed on a surer road to increasing prosperity.

In order that those particulars may be more likely to be attended to, and that Agricultural Societies may come up to their measure of usefulness, some recommendations to them may not be out of place.

1st. The awarding of premiums in their respective districts for the greatest amount of manure saved during the season; the facilities for making and gathering it to be taken into consideration.

2nd. For the best constructed farm buildings, especial reference being had to facility for saving liquid manure.

3rd. For draining of land, reference being had to locality.

4th. For experiments in application of manure; a statement of results to be intelligently given.

5th. For the clearing of swamp or muck lands, and detailing the expenditure upon them.

6th. For the greatest improvements in a series of years on a farm, detailing in what the improvements consist.

7th. For the keeping of farm accounts.

8th. For the most approved system of farm husbandry as practised by individuals.

9th. For the best samples of meal or flour, other than from wheat.

10th. For statements in reference to the difference between animals fed on dry food, and green and dry food mixed, and the comparative profit of spare and liberal feeding.

11th. For the comparative results of the profits of cattle housed and fed in warm and well ventilated stables, and when otherwise; stating the saving in the consumption of food.

12th. For the best cured beef and pork, stating the previous feeding of the animal, and method of curing.

13th. For the comparative results between native and pure bred animals under the same treatment, stating what food has been given them, with the mode of feeding, and general management.

14th. For the comparative results where labour has been performed in Fall for Spring work, and where not.

15th. For the comparative results of similar crops on similar lands, with the use of different manures, with the statement of debit and credit.

16th. For the largest yield from any acre of land, of any crop designated, with full statement of quantity and quality of manure used, the nature of soil, and other particulars.

17th. For improved implements of husbandry.

The above are a few of the topics to which the attention of Agricultural Societies may, with immense advantage, be turned; a record of the experiments and statements made, would be most conducive to attaining practical results; the money of the Societies would thus be most profitably expended, and a stimulus offered to the farmers in their respective districts; and it would be well that some day should be set apart, on which the farmers might meet and openly converse upon such subjects, and give the result of their experience to be embodied in the Annual Report of the Society; in this way, the spirit of agriculture would be increased, errors in practice would be detected, defects discovered, and preparation made for obtaining information where it was needed.

We feel persuaded, that if the farmers would occupy less land and cultivate it better, they would have, in many instances, one half their farm to dispose of. It would be well then for every Society to make provision for keeping a register of all lands, stating their condition, for the information of all parties concerned. Many an emigrant possessed of small capital, (and such are desired by the Province,) who would be disinclined to enter the wilderness and cut and burn, might be tempted by the offer of a farm partly cleared, obtainable at a moderate price, and in a settled neighbourhood. The farmer would be better without one half, if, without it, he would be led to cultivate the remainder aright, and the cash for the sale would better enable him to do so. A public register of such lands for sale, made conspicuous through the exertions of the Board of Agriculture, or otherwise, might be a successful method of obtaining new settlers in our Province.

One main reliance for our progressing in agricultural pursuits, and keeping pace with the intelligence of other countries in the practice of agriculture, is in the rising generation; and we hail with much pleasure the introduction into our common schools of the excellent elementary Catechism of Professor Johnston on Agricultural Chemistry. The study of this useful work will do much towards benefiting those who intend to become farmers, in their practice of husbandry; and if the practice could be adopted here that is pursued in the Mother country, of sending the pupil for a year or two to some practical agriculturist, and so complete his education, by learning the mechanical and field operations necessary on a farm, the next race of farmers would speedily change the aspect of our Province. In the introduction to our schools of the class book before referred to, a move has been taken in the right direction; it may be the day of small things, but it will lead to further innovations, and the Board of Agriculture will be ever ready to lend all needful assistance in suggestions or otherwise, to the Board of Education, whose able Superintendent has evinced already so much zeal in and appreciation of this needful work.

Popular lectures on agricultural subjects throughout the Province, having a reference to the youth of our country who intend to adopt farming as their business, would do much to raise the profession of agriculture, and inspire a feeling of confidence in the vocation; it would be well for Societies to

provide for the adoption of this course in their several Counties; the effect of a stirring Address is great and beneficial in the extreme, and might be made likewise the opportunity of diffusing much sound information on agricultural matters.

The holding up before the farmer his particular defects in farming, tends somewhat to cause him to alter his ways.

The subject of a Model Farm received the attention of the Board of Agriculture during its several sittings. However desirable such an institution may be, it was not thought proper, all things considered, to entertain the idea for the present. A Breeding Farm is a more feasible undertaking; nor may it be out of place here, to bring under the notice of those having control of such things, the practicability of using a portion of the grounds of the Lunatic Asylum for the purposes of a Stock farm. The expense for the necessary buildings would be inconsiderable; the situation is central and eligible; and under the superintendence of a competent person, might be made more than self-sustaining. At our late Exhibition were breeds of swine from that locality that reflected much credit on the efficient Superintendent of the institution referred to, and there seems no reason with the facilities there at control, that the stock might not further be varied and increased. A saving of expenditure in this way would be obtained, and the wants of localities in a short time be better supplied.

The labor of the inmates of the Provincial Penitentiary might likewise be turned to the advancement of agriculture, in the making of tiles for draining; all that is needed is the importation of a tile machine, the materials for making of drain tile being abundant; in this manner the labors of the inmates would be turned to a similarly beneficial account as at present is the case in other ways, under its now judicious management.

It is not unworthy of consideration, how far means should be provided to assist the poorer farmers in draining their lands. A sum placed at the disposal of the Board of Agriculture, to be loaned on security of the land, is worthy of consideration. This method of loaning money was adopted in Ireland, where hundreds of waste acres have, by such assistance, been reclaimed and rendered most productive.

Bonuses to assist the poorer but industrious and struggling farmers, or facilities for the obtaining loans of money to give means for more successful operations on the farm, are likewise worthy of consideration. Under proper management and judicious appropriation, a great boon might be conferred on many a neighbourhood, without risk of loss to the lender.

Appended to this Report is the account of the Provincial Exhibition held at Sussex in October last, being the first of the series of triennial exhibitions under the auspices of the Provincial Board of Agriculture. Exhibitions of this kind are the test of improvement in every thing that relates to agriculture and manufactures, and tell the story of our material wealth and substantial progress. Our comparative condition with other countries is discovered, — our defects made manifest, — our excellence made apparent, —

our advantages disclosed,—and our disadvantages felt. And as some experience has been gained in reference to the expenditures necessarily incurred in erecting buildings for purposes of the Exhibition, we are strongly convinced of the propriety of the course adopted in Canada and other places, of having permanent erections in central places in the Province; by this method the outlay may be greater at first, but what is expended is saved or invested for future use, and in time is a saving of money. It is well, thus early, to direct attention to this consideration.

From the various specimens in the geological and mineralogical department in the late Exhibition, and from the daily unfolding of new discoveries in our mineral wealth, we are forcibly led to the conclusion that our Province is rich in mines and minerals, and that the time has arrived when a scientific survey is required, in order to the obtaining a more full and accurate knowledge of our own resources in this department of our industrial pursuits.

In close connection with a knowledge of the capacity of our soils for agricultural purposes, is an intimate acquaintance with our geological and mineralogical resources, apart from the weighty consideration of the untold wealth which such an investigation may reveal.

Much valuable aid may be rendered through our Agricultural Societies to whoever may be appointed to the important task of making a scientific survey, in communicating information in reference to quarries, mines, and beds of useful substances, such as lime, marl, peat, cement, coal, quartz, copper, iron, &c. &c.; also statistics of the operation of these mines already in operation, together with the yearly products, and the amounts of sales, would much abridge the labor of survey.

Besides the obtaining a knowledge of the characteristics and value of our rocks and minerals, a similar knowledge of our plants, including grasses and ferns, and also of our animals, including quadrupeds, birds, fishes, insects, and reptiles, is most desirable.

The knowledge of our climatic peculiarities, by which the growth of our crops is promoted or retarded, is likewise worthy of consideration; and attention may here be called to the expediency of keeping meteorological records in the different Counties, to be collated, and the general result ascertained. The instruments necessary for such a work are trifling in cost.

The Census Returns, so far as at present revealed, shew an immense increase in our population. The exertions and means used to make our Province more favourably known all around us, are calculated to induce public and private enterprise.

It is to science in a great measure that we are indebted for all those discoveries, inventions and appliances which have so enriched the world, and ministered to our many necessities and high civilization; the same results as have been rendered through its aid to other localities, may be eminently expected here, where the field for its exercise is so promising; its light is peculiarly called for at the present time, to make our resources of wealth, hidden in the earth, known and accessible to us.

In conclusion, we would desire to make an appeal to the inhabitants of our fair Province, to think more highly of the advantages which by them are possessed. Owners of their own broad acres—not subject in their tenure to the caprice of any landlord—every improvement, whether of utility or taste, being effected for their own benefit or that of their children—the invidious distinctions of rank and wealth little known—the highest posts of honor, renown and usefulness open to all, and industry and integrity the passports to high places.

We desire to see a more patriotic spirit pervade all classes of society. This spirit is what causes nations to rise to eminence; and far nobler is it in its essence than that of the merely utilitarian or wealth-amassing age. Animated with love of country, our soldier scales the heights of Alma, or rushes to the sanguinary struggle of Inkerman. The possessor of such a feeling will manifest it in the encouraging of home manufactures,—in the employment of home labour, &c.,—in the investments of capital,—in enterprises beneficial to his own locality.

We call upon our leading farmers, and men of influence, to rally around our Agricultural Societies, and by every practicable means within their power to stimulate every effort for scientific, agricultural, and mental improvement.

With soundness of heart and principle pervading our Province,—with other objects than the mere attainment of wealth possessing our leading and influential men,—to what heights of eminence may we not attain? As subjects of the British Empire—all glorious as she is in acts of noblest virtue and heroic daring—let each one cherish a spirit of nationality and loyalty, and appreciate our position, as being the possessors of one of her most promising dependencies.

The future of our Province is committed to the care of her sons;—let all be true to their trust. Much indeed of improvement remains to be effected in agriculture, as well as in other departments of industry; but let it be remembered that these reforms are not to be perfected in a day or year. Like the husbandman, we must wait the recurrence of the proper seasons; and it will be for the Members of the Provincial Board of Agriculture, who may from time to time be elected to represent their respective districts, by wise, cautious and prudent measures, to put in a state of preparation all available resources and appliances, to accomplish a solid improvement in that which is the basis of a country's prosperity.

Respectfully submitted,

JAMES G. STEVENS,

Secretary to Provincial Board of Agriculture.

REPORT

OF THE

PROVINCIAL EXHIBITION

AT SUSSEX VALE.

HELD UNDER THE SUPERINTENDENCE OF THE

PROVINCIAL BOARD OF AGRICULTURE,

OCTOBER, 1861.

REPORT.

PROVINCIAL EXHIBITION.

The Act establishing a Board of Agriculture requires that "The Provincial Board of Agriculture shall, at such time as they shall appoint, and once in every third year thereafter, provide for the holding of an Exhibition of Agricultural products and manufactures,"—and the Act subsequently passed, provided that in addition to such, the Exhibition should include Horticultural products, the Natural resources of the Province, and the Fine Arts.

By the foregoing Report, it will be seen that this subject engrossed a considerable portion of the time and anxious attention of the Board during its annual sitting; whilst also, from the time of its regular adjournment to that of opening the Exhibition, the Executive Committee were more or less engaged in working out its details.

The endeavours of the members of the Board to secure a perfect representation of our Province in all its important departments, were greatly intensified,—not only that our own people might have confidence in our resources and capabilities, and the Exhibition be made to accomplish its intended purpose, but also that the best specimens being prepared, an opportunity might be afforded of selecting from such, to represent our Province at the Great Industrial Exhibition in London in 1862.

The time for holding the first Provincial Exhibition having been appointed for the first day in October, Circulars were freely and duly disseminated, and Addresses on the subject were delivered throughout the Province, to awaken the people generally to the importance of the undertaking,—the local Committees also greatly aiding in this work.

The locality for holding the Exhibition was, after much discussion, and conflicting opinions expressed, finally fixed at Sussex Vale, and a contract entered into with A. C. Evanson, Esquire, for the use and occupation of a portion of his beautiful grounds, (forming a parcel of the loveliest scenery in the far famed Valley,) who, for a moderate rent, placed the requisite area at the disposal of the Committee.

A plan and specification of the Exhibition building was prepared at the solicitation of the Executive Committee of the Board, by M. Stead, Esquire, Architect, Saint John, whose acknowledged taste and great reputation in such matters, need no further mention.

A contract for the erection of such building, according to plan and specification aforesaid, was on the fourth day of July concluded, after advertisement for tenders had been duly issued.

Contracts were also entered into for the erection of suitable sheds, fences, stalls, for the digging of wells, and other requisite matters.

The Committee were unfortunate in their acceptance of the lowest tender for the erection of the Exhibition building. By the terms of the contract, it was to have been finished and ready to be delivered up by the twentieth day of September then following; full provisions being made in case of failure in proceeding with the work, that Mr. Stead should take charge of the building, and finish it at the original contractor's expense.

The covering of the roof of the building and the necessary decorations, were apart and distinct from the above contract.

The Committee on the twenty eighth day of August, upon inspecting the progress of the work, were fully satisfied that the building would not be completed in time, at the rate at which the work was progressing, and with the number of hands then employed. They accordingly at once consulted with Mr. Stead, who, after many interviews with the contractor, was compelled to take the building into his own management, as provided for in the contract.

In this state of things the work was carried on at much disadvantage, and at a greatly increased expenditure; and much credit is due to M. Stead, Esq. and Mr. Wilson his foreman, for the energy and perseverance evinced under most pressing and embarrassing circumstances, in overcoming the many difficulties of their position, and in having the building ready, so as to lead to no disappointment in opening the Exhibition at the appointed day; although the labours of the Executive Committee were much enhanced in not having the building ready at the time first agreed upon.

This in a great measure will account for the increased expense of the building, &c. over the first estimate of \$2000.

It was at first contemplated to place the building within the enclosed cattle grounds, but upon after consideration, the site occupied was selected: previously however to such alteration having been determined upon, the entrance tickets at some considerable expense had been struck off, having on them '*Admit to the grounds,*' which were intended to have admitted holders to both building and grounds, at the same charge as was demanded for both places. No other tickets, however, having been struck off applicable to the altered state, some dissatisfaction was expressed by those who, according to the charges in the programme issued, paid their twenty five cents—the price of admission to the building,—yet obtaining a ticket marked as above, thought they were unfairly dealt with, when an additional fifteen cents was exacted for entrance to the cattle grounds.

The programme was distinct enough as to prices, and no doubt but that the holder of a ticket marked "*Admit to the grounds,*" would have felt more aggrieved had the admission been to the grounds only in terms of the ticket, and had he been excluded from the building.

Every convenience for the conveyance of stock and articles along the line of railroad was afforded; although from the scarcity of help to assist in arranging the various articles that, on the Saturday and Monday preceding the opening of the Exhibition, began to accumulate, the Committee were

put to much annoyance and vexation. The volunteer assistants, as well as those receiving wages, with few exceptions, were obliged to leave at six o'clock, by the latest train, for want of accommodation at Sussex, and could not return till after ten on the following morning.

The almost utter impossibility of having articles arranged with that regard to proper system and taste, which the Committee desired, will be readily appreciated. The names of Stephen Binney, of Moncton, and G. W. Smith, of Saint John, are deserving of special notice, for their unwearied exertions during Exhibition week, and indeed for days previously.

The Committee were also much embarrassed in their appointment of Judges, as many who had been previously selected, and who anticipated remaining during the Exhibition week at Sussex, but who for want of accommodation were unable to do so, could not be present at a time when they might with satisfaction and comparative ease, have surveyed their various departments; consequently others had to be appointed as they arrived, and they speedily and sometimes imperfectly performed their work, in their necessarily limited time.

It would be vain to enumerate the many difficulties, drawbacks and emergencies with which the Committee had to contend; and the Committee thankfully appreciate the remarks of those members of the Press who, with understanding, have properly made allowance for the many admitted imperfections in arrangement, and other duties, whilst a discriminating public have fully appreciated the temper of those who, desiring a short lived notoriety, have freely exercised the common-place ability of exclusive fault finding.

It was a source of much congratulation however, that whilst thousands thronged the scene of the Exhibition, very little immorality or intemperance was witnessed; this may be partly attributable to the precautions taken by the Committee, in the free circulation of their Rules for preserving order, and also to the vigilance of William Scoullar, Esquire, and his staff of subordinates, keeping a strict watch on all offenders. But whilst assigning the above as causes for the absence of much vice, it would be unjust not to acknowledge that the good behaviour observed at Sussex during Exhibition week, owes its existence greatly to the character of an order loving and law observing people.

The expenditures incurred, arising partly from causes before mentioned, were much greater than the Committee anticipated; and considering the Provincial allowance of three thousand dollars, being the allotted sum towards defraying the expense of holding an Exhibition, it may be thought that the Committee were unwarranted in exceeding that sum; but on reflection it will be seen that the sum of \$3000 is barely sufficient to allot in premiums in the first instance; that other expenditures must necessarily be made in anticipation of the receipts; and that to erect a suitable building consistent with the beauty of the surrounding scenery, and of such substantial workmanship as to insure public safety, no small outlay was needed; and doubtless the fame of the attractive structure of the building at Sussex helped greatly to induce immense crowds to witness it.

By an examination of the accounts however, taking into consideration the Railway receipts during the four days of Exhibition, no loss has occurred to the public chest, whilst, also, the money expended has been kept within our own Province; and judging from the favourable criticisms from neighbouring countries, it may be safely concluded that our Province has had a favourable advertisement, and been greatly raised in general estimation, and that the Exhibition was a complete success.

Much experience has been learned in the conducting of such an undertaking. Regard has been had to the persistent call of the farmers, to hold an Exhibition in a country place, and the result is now known; and although it may not necessarily follow that a similar Exhibition, if held in or contiguous to a city or town, must be more successful, it may yet be surely hoped that in so doing, those who shall have the management of such an undertaking, will be freed from those numerous annoyances and embarrassments by which the Executive Committee of the Provincial Board of Agriculture were so beset in the first Exhibition held under their auspices.

To comment at present on the immense advantages obtained by the Exhibition, would perhaps be premature.

It is evident however, that a new and fresh impetus has been given to all departments of industry. Able mechanics and manufacturers, hitherto working in comparative obscurity, have become prominent. A laudable emulation has been instilled; whilst those who were unacquainted with what could be done in our own Province, by our own workmen, are beginning to see that our own people can supply in equal, if not superior degree, those articles which it was thought could only be procured from other countries. Fresh courage inspires our labourers generally, from the consideration that their interests are looked after by a regularly organized association; and if we are allowed to judge of the success of another Exhibition, by the favourable and hearty remarks of the Exhibitors—who assert that only a part of their skill had been exercised in their respective displays—we may surely assert that our next Exhibition will far surpass the one just held.

Of those parties who did exhibit, many of them entered into the competition with a half roused and doubtful spirit. The able mechanics of Saint John only awoke to their interest in the matter a few weeks before the opening of the Exhibition; thus shewing the policy of having stated and certain times for the return of Industrial shows, and not allowing so long a space to intervene that lethargy and indifference may possess our men. And it will not be too much to hope that the same good effect which in other countries have attended such shows, will be peculiarly experienced in the Province of New Brunswick, where fresh energies are ready to be called forth, and where one workman is ready to encourage another. And we may here be allowed to express the hope, that the ungenerous—and to our workmen most unfair—practice of encouraging foreign importations, will cease, and the death blow be thus given to one of the fertile causes of discouragement and complaint.

Before proceeding to details in reference to the Exhibition, a word may be said relative to the locality at Sussex.

If beauty of scenery were the matter most to be considered in the selection of a site, certainly Sussex might prefer strong claims. The fine park like appearance of the grounds, studded with the stately elm trees; the sparkling waters of its limpid stream flowing through its midst; the splendid frame work of hills girding it around, crowned with the variegated foliage of their ancient trees; render it a most attractive spot, causing the thousands who visited the Exhibition, as they cast their eyes for the first time on the scenery, to exclaim, that had they not seen it with the eye, its true description would have been fabulous, so far as finding such a landscape in this Province. The disclosure of such a country to mere public gaze may be certainly considered not the least beneficial effects of the Exhibition.

Those, who within the building had feasted their eyes on the agricultural productions of the earth, and the many inventions of mechanical skill, had again, on their exit, their vision arrested by the sight of the far off hills, that seemed to unfold their matchless beauty to refresh the wearied sight, and fill the soul with admiration at the workmanship of Him who excelleth in all things; whilst also the attention of the gazer was once and again attracted by the cheering whistle of the locomotive, that harbinger of busy activity and industrial progress, giving vitality to the most sequestered spot, and speaking forth amidst the exciting evidences of a higher civilization, *the rapid progress of our Province.*

We proceed now to give a description of the building; the ceremony of the opening; the cattle show; the number of articles entered, under their respective heads, with the number each County respectively exhibited, together with the decisions of the Judges on them; the premium list, and such other particulars and remarks as opportunity has enabled us to make, together with a statement of the expenditures and receipts.

THE BUILDING.

The account as contained in the "*Freeman*," being correct, we copy from that Paper:—

"The edifice is in the Italian style of architecture. The principal front, facing towards the Railway, consists of a tetrastyle portico of the Corinthian order, containing in the centre three large entrance doorways. On the pedestals of the balustrade over the entablature of the portico, are figures representing Spring, Summer, Autumn, and Winter. The centre and main portion of the edifice is two stories high; in the second story of this, over the portico, is a large semi-circular window; the crowning entablature of the centre portico of the building is surmounted by three pedestals. On the centre one, which is raised higher than the rest, is a colossal figure of Britannia, and on each side are full sized Moose, animals elected to typify New Brunswick. On both sides of the portico are projecting wings with pilasters of the same order and height as the portico, with the entablature breaking round them. The entablature of the wings is surmounted with an attic, and over the centre of each is a circular pediment crowned with symbolical figures of Plenty, holding cornucopias in each hand. On the extreme angles of the wings are

figures of boys bearing baskets on their heads filled with choice specimens of fruit and flowers. On the centre of the side wings, under the circular pediments, are deep recesses in which are figures representing Agriculture and Commerce, and in the niches underneath the same are figures emblematical of Arts and Science.

“The plan of the Building is rectangular, 170 feet long and 72 feet wide. There are three large spacious doorways in the centre, on each side of which are the Committee Room, Juries Room, Lamp Room, and three Ticket Offices. In the centre of the building is the large Saloon, arranged with numerous tables for the Exhibitors. At the end opposite to the entrance is a raised platform or dais for receiving the Governor and his Suite at the ceremony of opening the Exhibition. At the extreme end of the building are the Refreshment Rooms. The large Central Saloon is divided into three divisions by rows of columns on each side, which support the gallery floor, arcades, and roof. The side divisions are 18 feet wide and 14 feet high, with galleries over of the same width; the centre division or portion of the Saloon, is 36 feet wide and open to the roof, which is 45 feet high.

“At the four angles of the building are staircases five feet wide, affording immediate communication with the gallery floor. On this floor, over the entrance arcade, is the Ladies' gallery, with Ladies' waiting rooms on each side. At the opposite end to the entrance is the orchestra on the gallery floor, and in the rear of which is the Fine Arts and Picture gallery, entered by large doorways from each side gallery. The roof over the centre portion of the Saloon is supported by 11 ornamental semi-circular arched ribs, springing from the capital of the columns on each side; arches also spring from these capitals over the openings of the side galleries. The front of the side and end galleries is protected by an ornamental balustrade, which runs all round the galleries of the Saloon. At the front of the Ladies' gallery are coupled pilasters supporting the entablature, over which is a large semi-circular arch, so that the view and light of the large front window is not obstructed from the interior of the Saloon. At the opposite end of the gallery, in front of the orchestra, are four female caryatides, about nine feet high, supporting the entablature on which are three figures, the one in the centre being symbolical of the Genius of the Exhibition crowning with wreaths the successful competitors.

“The interior of the building receives light principally from the roof and the large front window over the Ladies' gallery, assisted with windows under the side galleries, filled in with transparencies, ornamented with wreaths and the names of the different Counties.

“From the centre of the arches spanning over the Saloon are suspended three large chandeliers, in the design of which are four large bright coloured birds surrounded with lilly and sedge leaves, the birds holding from their beaks large drop lamps; winged griffins in bright colours form brackets for supporting lamps on the side of the gallery columns; numerous suspending, wall, and other lamps, are arranged throughout the building, and when lighted up produce a splendid effect—the oil used being the Albertine.”

The articles in the interior of the building were necessarily arranged in much haste, and not in so attractive a manner as the Committee would have wished.

The heavier and more bulky articles were placed on the ground floor,—such as fire engines, hollow ware, iron castings, machinery, edge tools, gas fittings and plumbers' work, carriages, iron ware, agricultural implements, wares from Provincial Penitentiary, minerals, building stones, as also the agricultural products.

The side galleries were devoted to leather and saddlery, Shoemakers' work, Tailors' work, millinery and homespun in all varieties, musical instruments and Cabinet makers' work, stained glass, and several fancy articles. The end gallery was devoted to paintings and drawings of all kinds, and fine arts generally, specimens of dentistry, book binding, and fancy work.

On the outside, around the sides and rear of the building, were ranged agricultural implements, wagons, carriages, sleighs, and some machinery.

The Exhibition was formally opened on Tuesday the first day of October, 1861, by His Excellency the Lieutenant Governor, John Henry Thomas Manners-Sutton, who was received at the entrance to the building by the Volunteer Guard of Honor, composed of the Companies of Captains Crookshank and Ray.

Mrs. Manners-Sutton was escorted to the dais at the extreme end of the building, by the Chairman of the Board, Hon. A. E. Botsford.

His Excellency, accompanied by Lieutenant Colonels Hayne and Drury, as Aides-de-camp, Lieutenant Colonel Thurgar of the Militia, Captain Gray of Engineers, Major Rynd of H. M. 62nd Regt., Professor Campbell, acting Private Secretary of His Excellency, together with the several members of the Board, marched up the avenue in the centre of the building, and on His Excellency ascending the dais, the Band struck up the heart-stirring National Anthem, and the scene became one of the most imposing nature. Well might each heart have joined in the prayer of the noble Hymn—when surrounded by the many manifestations of the labours of the husbandman, and the results of the hours and months of patient thought and toil—that every enemy to our country, with their knavish stratagems, might be confounded, and the reign of peace be preserved, with all its corresponding fruits.

When the music ceased, the Hon. A. E. Botsford, as Chairman of the Board, presented the following Address:—

To His Excellency the Honorable J. H. T. MANNERS-SUTTON, Lieut. Governor, &c.

MAY IT PLEASE YOUR EXCELLENCY,

The Provincial Board of Agriculture having decided that an Exhibition should be held this year at Sussex Vale, and having delegated to us, as its Executive Committee, the authority to superintend and manage it, we beg to announce that it is now ready for the inspection of the public; and we respectfully request that Your Excellency will be pleased to open the same.

The Act creating the Provincial Board of Agriculture having been passed with Your Excellency's sanction, we hope that its proceedings thus far have met with Your Excellency's approval; and that this Exhibition will be attended by such results as will justify the encouragement given by the Legislature, and satisfy the expectations of the country.

As that admits the holding of Exhibitions in every three years, we have made arrangements for a large attendance of exhibitors and spectators, and have felt ourselves justified in incurring considerable expense in endeavouring to make the Building and Grounds as commodious and attractive as time would permit.

As Your Excellency has always taken a deep interest in the operations of the Board, it affords us, its representatives, great satisfaction to have the advantages of your presence at the inauguration of the first Provincial Exhibition held under its auspices; and that you

should have had so favourable an opportunity before leaving the Province, of examining its various resources and productions; and we trust that the evidences of the progress made by the Colony under Your Excellency's administration, may not be the least pleasing feature of your sojourn amongst a loyal and industrious people.

On behalf of the Board of Agriculture, we take advantage of this, in all probability the last occasion that may offer, to thank Your Excellency for the valuable advice and assistance, which individually and as a Board, we have invariably received from you in the performance of our duties.

A. E. BOTSFORD, *Chairman, &c.*

To which His Excellency read the following Reply:—

Mr. Chairman and Gentlemen, Members of the Executive Committee of the Provincial Agricultural Board.

You have been called upon by the Legislature and the Provincial Board of Agriculture, of which you are on this occasion the representatives, to collect and to prepare, for the purpose of exhibiting to the people of New Brunswick and to all who may come hither to examine them, samples and specimens of all articles the growth, produce, or manufacture of the Province. These are onerous and important duties, and I can assure you that I have had the greatest satisfaction in giving to you every assistance in my power.

It is my firm belief that it is of the greatest importance to New Brunswick that she should be in a position next year to assume and maintain at the General Exhibition in London, the position which her industrial progress and natural resources entitle her. And if this Provincial Exhibition be regarded as the preparatory step to entering into competition with the world next year, not only the competitors, but every inhabitant of New Brunswick, whether he be rich or poor, and in whatever part of the Province he may reside, will, I think, recognise the fact that he has a personal interest in its success.

I hope that this Exhibition may be the successful predecessor of other Exhibitions increasingly successful; and I can assure you with heartfelt sincerity, that although absent I shall always continue to feel the deepest and warmest interest in the prosperity and progress of the Agriculture, Commerce and Manufactures of New Brunswick.

Mr. Chairman and Gentlemen—In accordance with your invitation, I declare the Exhibition to be now open.

At the conclusion of the formality of opening the Exhibition, the Band played in fine style the tune of "Old Hundred," and fain would all present have been to give vent to their emotions amidst so significant a scene, to the God of the harvest, in tones of gratitude and gladness.

Their pent up feelings however found utterance in three good hearty cheers for the Queen, nor was her honored representative, His Excellency, forgotten to be similarly treated, nor did the enthusiasm abate until his fair partner was greeted in a like way.

The Secretary now accompanied His Excellency through the various departments, whilst Mrs. Manners-Sutton and family, escorted by the Chairman, proceeded to inspect the more attractive objects of the Exhibition.

At the hour of 4 o'clock, the Exhibition was closed for the day, and reopened at 6 o'clock in the evening, when the building being brilliantly lighted, was shewn to much advantage. The attendance in the evening was very small; although this would have been otherwise, could accommodation have been found for the hundreds who wished to remain.

On Wednesday 2nd October, the Exhibition was opened from 12 to 4 o'clock, and from 6 to 9 p. m. The greatest rush took place this day; the building was filled to overflowing, and the strength of the structure was amply tested. No signs of weakness appeared in any part of it, and the soundness of the judgment of those who had raised suspicions as to its sufficiency for public safety, was significantly shewn.

On the same day, in the afternoon, the Cattle Show was opened. The trial of trotting stallions, carriage horses in harness and carriages, and other horses, also took place. This exhibition was very fine, especially of those peculiarly agricultural. Draught horses were numerous, and of a superior kind.

The show of milch cows was, perhaps, as good as could have been seen in any country.—The oxen were good, although there is room for much improvement in them.—The bulls were of the finest breeds of their various kinds.—There were exhibited Ayrshires, Durhams, and Devons; no Herefords nor Jerseys were shewn.—The sheep were not so good as might have been shewn, although there were some very fine specimens on the ground; Cotswolds, Leicesters, and South Down.—The swine could not be excelled; there were some admirable specimens of the Suffolk, Essex, Berkshire, and Yorkshire.—The poultry exhibited was not placed on the grounds until late, but there were excellent specimens of geese, Aylesford ducks, and a variety of hens.

The concourse of people on the grounds was immense; a substantial board fence was around the same, and cattle stalls and other conveniences erected, wells also were dug for the watering of the stock.

On Thursday and Friday similar scenes were witnessed, together with some well contested Scotch games, which tended to give variety and interest. The latter were under the able superintendence of John Keator, Esquire, who, together with H. M'Monagle, Esquire, took especial management of the cattle ground.

The rush of persons to the Exhibition continuing unabated up to Friday, the day announced for closing, the Committee deemed it advisable to prolong the Exhibition to the Tuesday then following, but as several of the Exhibitors were not prepared for this extension of time, and commenced the removal of their goods on Saturday, the Committee found it expedient to close the Exhibition on the Monday following, which was accordingly done.

On the previous Saturday, the Chairman, after making some well timed remarks, chiefly referring to the great allowance which ought to be made for the deficiencies in arrangement, and other causes of complaint, under the difficult position and circumstances in which the Committee were placed, called upon the Secretary to read the Prize list on the different departments, as rendered by the Judges.

HOMESPUN CLOTHS AND OTHER DOMESTIC GOODS.

ARTICLES.	Exhibitors.	County.	Award.	Amount.
Grass plait Hats,	Mrs. Kenny,	York,	1st Prize,	\$3 00
Door Mats,	David Smith,	King's,	Best,	2 00
Blankets,	C. J. Smith,	do.	1st Prize,	6 00
Do.	Ebenezer Smith,	do.	2nd Prize,	4 00
Do.	P. M'Parlane,	York,	3rd Prize,	3 00
Linen goods,	Wm. Musgrove,	King's,	1st Prize,	4 00

 LIST OF JUDGES IN THE SEVERAL DEPARTMENTS.

Minerals of New Brunswick, &c.—Bricks, Tiles, and Pottery Ware.

Dr. Jack, Professor Bailey, Rev. James Bennet.

Machinery and Engines—Stoves, Edge Tools, Iron, Brass and Copper Work.

William Falconer, Bartholomew Stapledon, Thomas C. Humbert.

Carriage and Sleigh work, &c.—Geo. Moore, W. H. Hallet, Edward Simonds.

Native Woods.—Coopers' and Turners' work.—Dr. S. T. Gove, Silas Black.

Cabinet Makers' work.—Silas Black, W. D. Milliken.

Musical Instruments.—S. K. Foster, R. S. Haliburton, A. G. Lordly.

Sewing Machines.—Rev. W. E. Scovil, Rev. James Bennet.

Dentistry.—Dr. Dow, Dr. Gove.

Bookbinding.—W. K. Crawford, Henry S. Parlee.

Ship work, Gigs, Models of Ships, &c.—Hon. J. Montgomery, Capt. Tobin, John Phillips.

Ropes, Cordage and Twine.—Henry Hutton, Capt. Tobin, John Ryder.

Domestic Manufactures.—Robert Brown, James Edgar.

Leather and Leather Manufactures.—Silas Black, W. J. Clewly.

Millinery and Fancy Work, &c.—Mrs. J. A. Harding, Mrs. Whiteside, Mr. Baird, Mr. Miller.

Hats, Furs, Tailors' and Dyers' Work, &c.—John Vassel, L. H. DeVeber, Mrs. William Thomson.

Agricultural Implements.—James Hendry, Anthony Kearney, Donald Fraser, S. H. Perley, Thomas Davidson, B. Stapledon.

Models and Designs.—Hon. J. Montgomery, John Phillips, Capt. Tobin.

Moose Horns: Stuffed Animals.—Judge Ritchie, Thomas Jones.

Fine Arts.—Hon. R. B. Dickey, J. F. Anderson, Dr. Botsford.

Grain.—John S. Beckwith, John Chalmers, Robert Douglas.

Roots.—John U. Campbell, John S. Wilson, C. W. Coats.

Farm and Garden produce—Dried Plants, Grasses, &c.—S. L. Goodall, S. F. Perley, J. A. Pierce.

Manufactures from Grain.—George F. Hill, P. M. Abbot, H. N. Hill.

Butter, Cheese, Soap, Sugar, &c.—Alexander Jardine, Robert Thomson, Dr. Waddell.

Salt Meats, Fish, &c.—George F. Hill, P. M. Abbot, H. N. Hill.

Horses.—Dan. Delaney, Jas. Johnston, Nelson Herrin, R. Rutherford, V. S.

Cattle.—George A. Sewell, Marcus Upton, John M'Adam, George Oulton, John Waterson.

Swine.—J. B. Weldon, B. Stapledon, M. Serrall.

Sheep.—Charles Burpee, Hon. Alexander Dickie, David Douglas.

Poultry.—H. N. Hill, A. P. English.

Ploughing.—Robert Moody, John C. Vail, William Hawkes.

To do justice to all the Exhibitors and their respective articles, would be a most difficult task; and in the hurry and bustle of the Exhibition, the Secretary had not the time or opportunity which was desirable, to examine more minutely many of the specimens in the various departments.

We purpose here noticing a few of the articles in the several departments, as we had occasion to observe them, and as information could be obtained concerning them.

MINERAL KINGDOM.

The specimens of Minerals as exhibited by Messrs. Payne and Foulis of Saint John, and Mr. Brait of Kent, displayed much judicious selection. Mr. Payne's collection was very full.

The Judges on the Minerals remark concerning the combustible and incombustible minerals, as collected by Mr. Foulis, that they were peculiarly good.—Mr. Brait of Kent, had also good specimens of the same.

An intelligent stranger from the State of Maine, remarks—"very noticeable to a stranger were the beautiful specimens of that peculiar bituminous substance called *Albertine*, like coal, and yet so unlike any coal before discovered, that the savans cannot yet decide whether it is coal or not. However that may be, it yields a burning oil, so good and so cheap that whales have gone greatly below par, and would go lower still, were it not that they give whalebone as well as oil."

Mineral Paints were exhibited by Mr. Charles C. Barnes, Westmorland County, Mr. Foulis, Saint John, and John S. Wilson, Kent County.

Those exhibited by Mr. Barnes were shewn in three conditions,—as raw material, as powder, and as mixed for use.

Clays and Sands were exhibited by Mr. Payne, Saint John, H. E. Dibblee, Carleton County, Henry Hayward, Milton M'Leod, George Cogle, James T. Ring, and John Freeze, of King's County,—all of good quality.

The specimens of building stone dressed, were from Saint John, Westmorland, and Carleton Counties. The granite stone was of the most durable description, and easily worked. The freestone was peculiarly good; it was of gray and buff colour.

Ores of Metals.—Specimens were shewn from the Counties of Saint John, Carleton, Westmorland, Albert, Charlotte, and Kent.

In the collection of Mr. Foulis, the Judges remark there was very great variety, comprising good collections of copper, iron, and manganese ores, also some good specimens of the fossils of the coal measure.

Copper Ore.—Some specimens of this were exhibited by Mr. James M'Kinley of Alma, Albert County.

The Exhibitor states that they were discovered by him a short time since near the Great Road, and on several other places on his farm, and on adjoining lands. He further states that the exposed portions of rocks, which are found to contain the ore, are numerous, and clearly indicate an unfailling quantity. No excavations have yet been made, further than a very few feet deep.

The copper deposits are within one mile of the Bay of Fundy, thus affording a chance of easy shipment, should the copper be found in sufficient quantity to make it remunerative. The samples exhibited were good, and evidently contained much of the pure metal.

Limestone and Plaster Stone, Lime, &c. &c.—Some excellent specimens of limestone, plaster stone, lime and plaster, were exhibited by Messrs. Joseph Armstrong & Co. and Mr. Payne, Saint John; Charles Bleakney and C. Tompkins, Albert County; Benjamin Randals, Charlotte County; and by Dennis Keith and George Pearson, King's County.

The Judges felt difficulty in deciding on the merits of these, without testing the qualities.

C. Tompkins, Agent for the Albert Manufacturing Company, had three specimens of the plaster—the lump plaster, calcined plaster, and Farmers' plaster. The appearance of each was certainly very fine; the clean whiteness of the lump and calcined plaster was striking. A pair of neat candlesticks from this plaster, shewed the purposes to which it could be turned.

Bricks and Tiles.—Good samples of each were shewn by Mr. Thomas Davidson, Saint John, together also with the clay from which they were manufactured.

Specimens were also exhibited by Mr. Thomas Heffer, King's County, and by Michael and John Ahern, Northumberland County.

Salt.—An excellent article was shewn by Mr. J. Brand, King's Co., taken from the Salt Springs at Sussex. In the present state of the works, fifty bushels a week can be produced, and much more by extending the works.

It is taken from a Spring on Corn Hill, King's County, from which a stream of water runs about three inches in diameter, on the sides of which salt grass is growing. The butter salt is sold by wholesale at three shillings per bushel.

Grindstones exhibited by Messrs. Sprague, Soule & Co., and by Seaman Brothers, Gloucester County, were much admired; the stone was of excellent grain, and the workmanship very superior; also those exhibited by John Ellis, H. E. Berrar, and J. Crandall, from Westmorland, and from Albert Quarries, Albert County.

Hone Stones exhibited by Andrew Barberie, Esq., Restigouche, were a very superior article, well cut; grain best for purposes, and bite good. These attracted much attention, as also those exhibited from Carleton Co. by H. E. Dibblee, Esq.

Stoves, Furnaces, and Hollow Ware.—The Exhibition in this department could not be surpassed in any country. Mr. Evan Evans, the firm of Thos. C. Everitt & Brother, Mr. James Harris, Mr. Adam Young, and Messrs. Lee & Co., all of Saint John, had samples in nearly all the departments; whilst Wm. Denoon & Co. of Westmorland County, and Isaac Mathewson of Kent County, shewed most creditable specimens of their work.

The Stoves exhibited were all of most solid and substantial work and materials; castings were heavy, and the prices comparatively very moderate.

The Register Grates, five of which were exhibited by Mr. Harris—two with mantles—were beautiful, and of a superior quality; one large Cooking Stove exhibited by Messrs. T. C. Everitt & Brother, was admired as being well adapted for every convenience in cooking purposes. The Cooking Stoves of Mr. Adam Young were highly commended by the Judges.

The above Manufacturers carry on a most extensive business, and in all departments of such work will compete favourably with those of any country.

Ploughs and Harrows.—An assortment of these articles was exhibited by James Harris of Saint John, and T. G. & H. Allen, Fredericton.

The assortment of Forks and Hoes, as exhibited by E. & H. Broad, of Saint John, P. M'Farlane, of York County, and Messrs. M'Carthy and Anderson, of Westmorland County, were neat, light and strong.

An Iron plough exhibited by D. & J. Millet, of Saint John, was an excellent article. All the ploughs exhibited were of the most approved style and model.

The Threshing Mills, Fanning Mills, and Horse Rakes, had all their peculiar advantages. One Stump Machine for extracting stumps, exhibited by T. G. & H. Allen, of Fredericton, attracted notice. It is very efficient, and such machines are coming into general use where clearing of land from stumps is necessary.

A very fine Mowing Machine, the manufacture of James Harris, Saint John, was on exhibition. It was simple in construction, and proved to be very efficient; its price was \$100. It is worked with two horses.

Two Ox Yokes, one exhibited by Solomon Lawson, of King's County, the other by P. M'Farlane, York County, were commended.

A Hay Elevator, exhibited by James Peters, Kingston, was recommended by the Judges as deserving of premium.

An Air Gun, the workmanship and invention of R. Forbes, of Saint John, was commended by the Judges as practicable for the purpose of throwing a rope to a vessel at considerable distance.

Axes and Edge Tools, &c.—Nothing could excel this department. The workmanship of the knives, axes of various kinds, Carpenter's slices, hammers, razors, &c. was of the finest finish and material. Mr. Samuel Spiller, William H. Adams, the firm of E. & H. Broad, John C. Edwards, Saint John County, Messrs. Smith & Emerson, Charlotte County, and M'Carthy and Anderson, Westmorland County, severally exhibited assortments of such, all all of which were highly commended by the Judges. New Brunswick has obtained a wide reputation for making Edge tools, and the axes are the admiration of all competent judges.

Saws.—Two fine assortments of these were exhibited by Charles Blacktin, of Charlotte County, and A. Richardson, Saint John. The exhibition of these was very excellent. The arrangement of those belonging to Mr. Richardson was made with much taste, occupying a large space of wall surface, where they showed to much advantage; those of Mr. Blacktin were placed on one of the side tables, and presented samples of every kind of saw in general use; some fine made knives were also exhibited by Mr. Blacktin.

Fire Safes.—Only one was exhibited of Provincial domestic manufacture, by James F. Nichols, Saint John. It was a very perfect article, and it is hoped encouragement will be given to the manufacturer. A Diploma was ordered to be granted to Mr. Nichols for same.

Pig Iron from New Brunswick Ore.—Only one specimen was exhibited by Mr. James Harris, Saint John.

Wrought Iron.—Specimens were exhibited by W. H. Scovil, Saint John, made into Taper Arms for Ship's knees; also fine bars of same.

Horse Shoes.—Various specimens of these were shown from Saint John, Westmorland, King's, Carleton, and Albert Counties.

Those exhibited by James Scrymgeour, Saint John, were most complete, shewing the formation of horses hoof, and the different modes of shoeing to adopt to formation of hoof. The specimens by William Smith, of King's County, were highly commended by the Judges.

Cut Nails.—Some fine assortments from W. H. Scovil and William H. Adams, Saint John, and G. P. Sancton, King's County; also Brads from S. K. Foster, Saint John.

Brass Castings.—Assortments of such were exhibited by Messrs. Hayward & Co. and C. Pearce, Saint John. A fine scale of graduated Bells, the manufacture of Messrs. Hayward & Co., were of excellent finish and fine tone. The workmanship of both these exhibitors was perfect of its kind. The brass castings of C. Pearce were highly commended by the Judges for fine finish, and those of Messrs. Hayward & Co. for their general utility.

Gas Fittings, exhibited by C. Pearce, Saint John, were of delicate workmanship. The Gasaliers were an attractive and beautiful specimen of the department.

Special mention ought to be made of the *Razors* and *Table Knives* manufactured and exhibited by Hanford B. Spiller, Saint John. Also a Brass Mortice Lock, exhibited by George W. M'Creedy of King's County, which was highly commended by the Judges.

A Bathing Apparatus, the manufacture of Archibald Rowan, Saint John, was ingenious and of good workmanship, the plumber work on which shewed proficiency in that department.

The *Plumber Work* of C. Pearce, Saint John, was admirably executed.

There was a good assortment of well made tin vessels, for all uses, exhibited by E. Evans, Saint John.

Steam Engine.—Two Steam Engines were exhibited by Messrs. Fleming & Humbert, Saint John, on different principles,—one small horizontal high pressure, and one small oscillating high pressure, together also with a steam boiler. The engines were in motion several times during the Exhibition week; the Judges remark that they were "well and substantially built."

Model Steam Engine exhibited by John Holland of Westmorland County, attracted much notice. The Judges on same remark—"good work, well finished, worthy of commendation, and well entitled to the prize."

Fire Engine exhibited by Messrs. William Hayward & Co. Saint John. Judges on same, remark—"good engine, well built, well finished, and substantial; although it has been in use since May 1860, it looks so well that a superficial observer might almost mistake it for new; we do not hesitate to award to the manufacturer the prize and diploma."

MODELS AND DESIGNS.

Steering Apparatus exhibited by D. J. Allan, Saint John. Judges remark, "very good invention, deserving a prize."

Also *Steering Apparatus* exhibited by James Sanders, St. John. Judges remark—"same principle, but not so complete." Commended.

Model Saw Mill—"Improved principle, deserving consideration"—exhibited by A. Cushion, Westmorland County.

Self-regulating Fog Bell, exhibited by Wm. King, Northumberland County. Judges remark—"a new invention of clock work and atmospheric pressure, most complete in all the arrangements, and well calculated for sea or on land, very ingeniously constructed, and in our candid opinion, most likely to be of great use for all marine purposes."

Drawing Six Wheel connected Freight Locomotive—Exhibited by Alexander Stronach, Westmorland County. "Highly approved of by us, and deserving a first class prize."

There were on exhibition Models of Suspension Bridge, Saint John, &c. Railway Cars, with Snow Plough and Tender, &c. of most exquisite workmanship. They were built for London Exhibition.

A Farm House—exhibited by Thomas W. Longstaff, Carleton County.—"Capital design for a gentleman farmer—deserving a prize."

A very ingenious Farm Gate was exhibited by the same person.

Dentistry.—Exhibited by Dr. T. A. D. Forster, Saint John. The specimens shewn were of teeth separate, and set in gold plates—full and partial sets. The Judges remark—"we consider the articles exhibited in this department entitled to the premium, on account of the natural appearance and artistic finish of the specimens."

Sewing Machines.—"Made in the Province, by Wm. M'Donald of Saint Stephen, Charlotte County, closely resembling the Grover & Baker, very reasonable in price—\$35, substantial, easily adjusted, and well adapted for family use."

Carriage and Sleigh work.—Carriages for two horses were exhibited by Messrs. Price & Shaw, and Samuel Crothers, Saint John. They were of best style of workmanship, and high finish.

Double Waggon exhibited by Messrs. Price & Shaw—"highly commended for a family waggon, as double or single seated."

One Horse covered Carriage, exhibited by Price & Shaw,—well finished.

Pleasure Waggons exhibited by Samuel Crothers, and Messrs. Price & Shaw, which took the premiums. Others exhibited by X. Snider, King's County, and by Silas Black, Westmorland Co.—both "highly commended."

The Double Sleigh, exhibited by Messrs. Price & Shaw, was of beautiful finish.

A Single Sleigh exhibited by X. Snider, was "highly commended." The Single Sleighs of Price & Shaw, and Samuel Crothers, were both "highly commended."

Trotting Sulky exhibited by S. Crothers; an Express Waggon by X. Snider; and an Invalid's Waggon by J. A. Murray, Westmorland County, were severally "commended."

The Farm Waggon exhibited by Owen Hayes, King's County, was of substantial work.

Native Woods, Coopers' and Turners' Work.—This department was well represented. Shingles exhibited by Mr. J. D. Baird, Carleton County—"very superior article, full width of cedar, well manufactured."

Clapboards exhibited by Messrs. Holt & Nugent, St. John. "This is a well manufactured specimen of clear pine clapboards"

Boot and Shoe Lasts—Exhibited by James Clerke, Saint John, "of superior finish and shape."

The specimens of Turners' work were excellent. The Newell Posts, the exhibitors of which took premiums, were of beautiful finish and workmanship, and showed to great advantage the purposes to which the native woods can be put.

Of Native Woods, there were several fine collections; some shewing the wood, with their twigs and leaves attached—48 varieties; others in book form, containing 70 different kinds of wood.

Cabinet Makers' Work.—A Bed Room set were exhibited by A. J. Lordly, Saint John,—most creditable work. Tables exhibited by A. Lordly & Co., Saint John, were of the best material and finish.

The Drawing Room Furniture exhibited by J. & G. Lawrence, Saint John, presented a rich appearance, being highly finished, and suitable for the best furnished house.

Musical Instruments.—Pianos were exhibited by George Anderson, Thos. W. Peters, and John R. Coleman, Saint John.

The Judges remark,—“after a most careful examination of all the Pianos on exhibition, the Committee feel great difficulty in coming to a decision, as each has its good qualities; but feeling desirous to make an award in accordance with their judgment, and as but two prizes are to be awarded, they judge No. 218 of native wood case, to be the best in tune, and therefore entitled to the highest premium,—and No. 550 also of native wood case, to be second, and entitled to the second premium, although the Committee consider the latter to be superior to the former, in the simplicity as well as the execution of its cabinet work.”

Book Binding.—Exhibited by J. & A. M'Millan, Saint John, was of the fancy and ornamental kind, and was of the most beautiful design and finish.

Mr. Wm. Avery had samples of Stationery and Blank Book Binding that would equal any of similar kind from any country.

Figure Head of Ship.—Exhibited by John Cochran, of Saint John, "well executed design, very good, deserving."

Some carved work exhibited by Messrs. Doherty & Co., Saint John, "commended."

Double and Single Blocks.—Exhibited by Messrs. M'Carthy and Anderson, Westmorland, "most excellent work and material."

Ship's Capstan, Iron.—Exhibited by James Harris, Saint John, "a first class article."

Ship's Wheel.—Exhibited by P. L. Carleton, Saint John, "a splendid piece of workmanship, good material, first class."

Model Capstan.—Exhibited by James Nelson, Northumberland County, "very ingenious, deserving consideration."

A Ship's Capstan.—Exhibited by Adam Loring, Saint John, "good workmanship."

Model Ship's Windlass and Capstan.—James Harris, Saint John, "deserving consideration."

A two oared Race Gig.—Exhibited by Robert Dalton, Saint John, "a good Model, deserving, well built."

Models of known Ships.—Models were exhibited by Mr. Lonax, and Mr. Thomas W. Jenkins, and Mr. Robert Thomson, Saint John, and William B. Flewelling, King's County, as also a Model of a Boat by John Wilmot, Saint John. All of above were very perfectly executed, and commended by the Judges as good Models.

Ropes, Cordage, and Twine.—Exhibited by Messrs. J. & R. Jarvis, Saint John. Considered worthy of a first class prize, being very superior.

The Domestic Manufactures were very numerous and varied, the Home-spuns were excellent, as also the home made carpets, blankets, rugs, &c.

Leather Manufactures.—Fine samples of Leather were exhibited from Saint John, Westmorland, Kent, King's, and Carleton Counties.

Boots and Shoes, several assortments, and all good. "One pair of high Boots, a credit to the maker," made by E. F. Murphy, King's County.

Harnesses.—Exhibited by Philips & Son, Saint John, William J. Brown, Saint John, Walter Sutherland, King's County, and John Ryder, St. Stephen, the latter of which was commended by the Judges as a very superior article.

Engine Hose.—Exhibited by Robert Finlay, Saint John, was of very superior workmanship.

Horse Collars.—Exhibited by John Haviland, of Woodstock, were considered "well worthy of notice."

The Millinery assortment of James Manson was very fine, and varied; the smaller assortments were very creditable.

A large variety of knitting in hose, lace, &c., by Miss Vail, of Sussex, "very handsome and worthy of favorable notice."

The collection of Furs manufactured, as exhibited by Mr. A. Magee, Saint John, was of the most varied and excellent workmanship, and added much to the interest of the exhibition.

The assortment of Hats by the same exhibiter was very complete.

The samples of Furs manufactured by Mr. James P. Craig, Saint John,

and Willam E. Fowler, Westmorland, were also good. The exhibition of Furriers and Hatters' work, by D. H. Hall, Saint John, was very fine.

Tailors' work by Messrs. A. & T. Gilmour, Saint John, and P. Mullin, shewed good workmanship.

Dyers' Work.—"That made of native grass of the Province, dyed and manufactured in Saint John, by Mrs. J. Knowles,—Commended."

Grain.—The entries as by the Abstracts will appear, were numerous in this department, but not so much so as would otherwise have been the case, had there not some been disappointed in the arrangement of the Steamers from the Counties of Northumberland, Kent, and Restigouche, whereby many were prevented from forwarding samples. The lateness of the season in these Counties, for grain, was also another cause why there were not so many entries from the above named places.

The weight of the Wheat ranged from 59 lbs. the lowest, to 64½ lbs. the highest weight; 63 lbs. was the average weight. Vincent white, white bald, Fife, Canada, and other varieties were exhibited.

Oats.—Of white there were fine samples, the lowest weight of same being 34½ lbs. and highest 51 lbs.; average weight 45 lbs.

Oats black.—Lowest weight, 39 lbs.; highest weight, 43 lbs.

Barley—very fine samples; lowest weight, 51 lbs.; highest, 56 lbs.

The samples of Buckwheat, both rough and smooth, were numerous and very fine; the specimens were very nearly alike.

Indian Corn was very large and well ripened.

Of Peas there was much variety. A very excellent kind was exhibited by Benjamin Dowling, of King's County. The Judges say of them—"all excellent lots."

White Beans.—Good show of them, and well ripened.

Samples of Timothy, Mangold, and Beet Seed, were good.

Roots.—The Potatoes in variety and excellence, could not be exceeded. Turnips large, smooth, and well formed. The varieties of Garden Produce shewed strikingly what the soil of New Brunswick was capable of producing under fair cultivation. "Not an inferior specimen—all finely grown."

Apples.—The assortments of Apples were numerous, and very fine varieties were shewn.

The Judges remark—"No doubt exists in the minds of the Committee, that Apples can be successfully grown in the Province of New Brunswick; but they deem special care needful to select only the hardiest varieties, and those adapted to the soil and climate, and to plant only in the most fitting localities. Such as succeed well in the adjoining State of Maine, will probably prove better here than those usually cultivated farther south or west."

"The Committee make favorable mention of ten varieties of Pears grown by B. Robinson, Esq. Saint John, under glass, without fire heat."

"They also mention fine specimens of Hamburg and other Grapes, apparently grown under glass, found on the tables with no name or number attached."

The above we believe were grown by F. P. Sharp, of Carleton County.

The Plums grown by Mr. Sharp were very fine—well ripened, and very good flavour, and unusually high coloured.”

The Onions exhibited were all “commended as finely grown specimens.”

The manufactures from Grain, viz:—wheat flour, rye flour, corn meal, oat meal, and buckwheat meal, were all fine samples. The buckwheat was especially good, and the Judges recommend that more prizes should in future be allowed for this article.

One sample of hulled Barley exhibited by Messrs. W. & J. Morrice, Westmorland County, was much commended.

Samples of Maple Sugar were very fine.

The Butter exhibited was all of such excellent quality, that the Judges had much difficulty in deciding which was best. The Judges say, “Samples very many, and really very superior, and very difficult to decide.”

The Cheeses exhibited were well made, and of various flavours.

The assortment of Biscuits exhibited by Messrs. Thomas Rankine & Sons, Saint John, was various, and neatly arranged.

The Confectionary made by Mr. Frederick Brandt, Saint John, was very superior.

The various samples of Honey in box and in glass, were much commended by Judges. “The Committee recommend several Hives exhibited by Mr. William A. Garrison, of Sheffield.”

Samples of Soap exhibited by Mr. Wm. B. Sancton, Saint John, and by the Moncton Soap Factory, were much praised.

Oil.—Two samples of Coal Oils from the Albertine Oil Works, and Caledonia Oil Works. “The Albertine appears to be the clearest oil, but the Caledonia has the greatest variety, and exhibit oil from coal wells at the Caledonia Works, and also a variety of coal or coke. Both good samples, and creditable to the Province and exhibitors.”

One barrel of Salt Beef was exhibited by Mr. Thomas Corkery, St. John. It appeared to be well cured and packed. Five samples of Marrow and Neats Foot Oils, very well clarified, were exhibited by Mr. Thos. Corkery, and by Mr. Gorbell, Saint John.

The dried Codfish were of superior curing, and the Finnan Haddocks were well prepared.

There were various samples of preserved Fish, Salmon, Mackerel, Lobster, &c. A large business is done in this department, and the cans hermetically sealed, were neatly prepared; the samples were from Miramichi and Shediac.

The collection of Dried Plants exhibited by Rev. James Fowler, containing two hundred varieties, were very full, and carefully pressed. The Judges remark—“The only collection found,—abundantly worthy the prize.”

A bunch of Dried Grasses was exhibited by Miss Emma Backhouse, Westmorland County, containing thirty separate varieties. It was very beautiful, and “worthy of high commendation.” A good collection was also exhibited by Miss E. J. Wheaton, Sackville.

Stuffed Birds.—"Collection very small, but very tastefully and naturally arranged and well preserved." Above exhibited by Mr. Andrew Otty, King's County.

The Fine Arts Gallery was well stored with the labours of many artists. The Oil Paintings—to the exhibitors of which prizes were awarded—were of a very high order; those exhibitors of Oil Paintings who did not receive premiums, were all worthy of commendation. The Water Color drawings, drawings in Crayon and Pencil, and Photographs, were most excellent. One view, taken in Photograph, of the city of Saint John, by Messrs. Bowren & Cox, was an admirable work, manifesting much skill and accuracy.

The Marble Sculpture from the manufactory of Messrs. J. & R. Milligan, Saint John, attracted much notice; the design—an infant reclining—was chaste and simple, and the cutting very delicate.

A specimen of Stone cutting from the manufactory of Mr. F. W. Clear, Saint John,—an erect tablet—was on exhibition; the cutting on same was well executed, with the exception of the face of the figure.

To comment on the numerous articles, such as Pier Glasses, Portrait Frames, Oriental Paintings, Hair Wreath work, Berlin work, Knitting and Crochet work, would require much time, that justice might be done the several exhibitors; the prize list will give the names of the successful exhibitors, but many would have received equal prizes for merit on their respective exhibitions, had there been more prizes allotted.

Among the many non-enumerated articles worthy of special note, we may mention a very good piece of workmanship made by G. W. McCreedy, King's County, viz:—a brass door Lock, simple and effectual in its construction; a steel Neck Yoke by John Wood, King's County; dykeing and ditching Spades by Owen Anderson, Albert County, and also by Messrs. McCarthy and Anderson, Westmorland County. The Railroad and Carriage Springs manufactured at the establishment of W. H. Adams, Saint John, were of most superior workmanship; they were strong and substantial, well finished, and well worthy the diploma awarded to the manufacturer. Mention should also be made in commendation of a store door Lock and Handle, exhibited by William Hillman, Saint John; also Plumber's work by Mr. Pearce, Saint John; Iron Holding Bedstead, by Mr. Adam Young, Saint John; Model Stone Pitcher, exhibited by Mr. S. H. Gilbert, York County; a Compound Eccentric Chuck for Lathe, by Thomas Gregory, Saint John; a Buck Rake by William K. Bowser, Westmorland; single horse Grubber by G. D. & J. Millet, Saint John; Railway Chairs, by Thorn & Hainsworth, Saint John; Brads and Tacks by S. K. Foster, Saint John; two pair Skates by John C. Edwards, Saint John. Intervale Spades by Joseph Killean, Westmorland County; Butchers' Knives and Mowing Machine Knives by Charles Blacktin, Charlotte County; Cart Axle with Boxes by D. J. Millet, Saint John; Drawing Knives by Smith & Emerson, Charlotte County.

In the Manufactures chiefly in wood, mention should be made of the Grained Door and wooden Blinds, exhibited by John C. Miles, Saint John;

specimens of graining and panel painting by Alfred Pendlebury, Saint John; School Desks and Chairs by T. C. Everitt & Bro., Saint John; Collegiate and Easy Chairs by A. Lordly & Co., Saint John; a very convenient Desk for Office by same; a Maple Door by Fairbanks & Co. Saint John, of beautiful workmanship, also by the same makers. Inside Venetian Blinds; two drawing room Chairs by Thomas Robinson, Saint John; an Express Waggon by Thomas McLean, Saint John, also one by X. Snider, King's County; an Invalid's Waggon by James A. Murray, Westmorland County; pair of iron bound Blocks by McCarthy & Anderson, Westmorland County; Ship's Windlass by Thorne & Hainsworth, Saint John; a Wind Mill for churning by Vincent White, King's County; a Buck Saw Frame by Oliver Barberie, Albert County; a Quilting machine by John Lander, Saint John; Spokes and Axe Handles by A. R. Stuart, Sunbury; a Hay Elevator by James Peters, King's County; a Botanical Press by Robert Sharpe, King's County; an Ox Yoke by Solomon Lawson, King's County; Ox Yoke by P. McFarlane, York County; a Stump puller by T. G. & H. Allen, York County; a Dress Stand and "What Not" by John M. Rice, Carleton County; a Chess Board and box by D. A. Cameron, Saint John; a Pine Sideing by Holt & Nugent, Saint John; Bench Planes by J. H. T. Doherty, Saint John, and by Jeremiah Gove, Saint John. an original Ship's model by William H. Black, Saint John; a Model of Boat by Mr. Wilmot; a Fishing Rod and Tackle by E. M. Frost, Saint John, a very nice piece of workmanship.

Fine varieties of Woolen Shawls were exhibited by Richard Sands, Saint John; also from King's County by Joseph S. Sharpe, Joshua Smith, Miss Taylor, William McEwen, George Oldfield, Silas L. Marvin, and Mrs. William Stewart. Fine samples of Satinet from the Saint John Manufacturing Company. Knee Boots by John Vaughan, Saint John; a Horse Collar by Robert Bustin, Saint John, and by John Haviland, Carleton County, the latter very superior; Trunks and Valises by Thomas Sime, Jun., Saint John; Blank Books by William L. Avery, Saint John.

In the Mineral Department, mention should be made of the Hydraulic Lime Stone exhibited by H. E. Dibblee, Carleton County, a valuable article, possessed in considerable quantity in Carleton County, but not as yet much worked. Specimens of Bricks cemented with Hydraulic lime, by George V. Lawes, Carleton County. Gold bearing Quartz from Albert County, exhibited by Cale G. Sherman, Westmorland. New Brunswick Pearls by Geo. W. McCreedy, King's County.

In the Fine Arts Department, mention should be made of the Mantle Glasses, Window Cornices, and Corinthian Capital, exhibited by Mr. Charles E. Roller, Saint John. The samples also of Stained Glass by George F. Thompson, Saint John; the Oriental Paintings by X. Cleaveland, Westmorland, Miss Sarah McAllister, Charlotte County, Mrs. William Spence, Francis L. Haward, Mrs. Ann L. Rethy and Miss Agnes Teakles, King's County; Mono-chromatic Pictures by James Peters, King's County; Ambrotype pictures by Robert Hallet, Westmorland County; Velvet Paintings by Miss

Lizzie Davis, King's County, Miss Mary A. Henderson, and Miss Lydia M'Williams, Saint John; Pier Glass, by Doherty & Co. Saint John; Pier and Mantle Glasses by Fairbanks & Co. Saint John; Ornamental Cornices and Centre Plaster flower by James Anderson, Saint John; a large variety of knitting in Hose Lace, &c. by Miss Vail, Sussex, was described by the Judges as "very handsome and worthy of favourable notice;" very nice Lace work by Miss Isabella Armstrong, King's County; an Ottoman worked on Hair Cloth by Miss Godfrey, Dorchester, was worthy of special notice; Crayon Drawings by Misses Fishers, Fredericton, very well executed; also by Miss Vail, King's County; Miss Louisa H. Hill, Saint Stephen; also Crayons by Miss Nichols, Albert County, Miss S. A. Frost, Saint John, M. S. Main, Saint John; Drawing in Pencil by Maria Porter, King's County, and G. P. Roberts, Saint John, very good. The Photographs exhibited by Messrs. Flood & Woodburn, G. P. Roberts, and Messrs. Bowren & Cox had their respective merits. The engraving in Metal by Thomas Gregory, Saint John, was good execution. The Architectural drawing by John A. Munroe, was well done. The designs by J. W. Gray, Saint John, of a single Sleigh; of Alexander Stronach, Westmorland County, for a six wheeled connected Locomotive, and of James Sanders, Saint John, were ingenious, and commended. A handsome fancy silk Sofa Cushion, by Mrs. John Boyd, Saint John, attracted much attention. Two Cushions, chenille work, by Misses Harris, Saint John, were very beautiful. A Toy work Cushion by Miss Smith, of Hampton, was worthy of notice.

The Oil Painting, (original,) by J. W. Gray, of the Landscape Scene near Hampton, displayed true artistic skill, and the touch of genius was very discernible in its execution; the Paintings by Charles C. Ward, Charlotte County, were also very good; also the Oil Paintings by Alexander Jardine, Junior, Saint John, displayed accuracy and good touch. Those by Miss Mary Drury, Saint John, Miss Maria Porter, King's County, Mrs. Ann L. Rettrey, King's, Miss M'Leod, Westmorland, Mr. Jonathan Swift, Saint John, James Devereaux and J. E. Nash, Saint John, had each their peculiar merit. The painting of the Prince of Wales, by James Holman, was deservedly much praised.

There was a variety of Wax Flowers and Fruit exhibited. Special mention should be made of a very fine vase of Flowers and Fruit, by Miss Drury, Saint John, which was unfortunately broken. Miss C. W. Bradley, Saint John, exhibited a very fine bunch of Wax Flowers, as also Miss Maria Porter, King's, Mrs. George Stewart, Saint John, Mrs. J. B. Calkin, King's County, Miss H. Raymond, King's County, Miss E. M'Arthur, King's County. A very pretty bunch of Satin Flowers was exhibited by Misses Fawcett, Westmorland. A very fine Leather Frame by Mrs. S. Mann, Saint John. Some very pretty Baskets, made chiefly of bones, were exhibited by Miss Backhouse, and Miss Sarah E. Wells, Westmorland; a very pretty Birch Basket, by Miss Jane Clark, Saint John. A pair Reel Stands by Matthew Wilson, Westmorland, were worthy of notice. A very handsome Indian dress was exhibited by William Lemont, Fredericton.

We also make favorable mention of the Weavers' Reeds exhibited by William Nugent, Saint John. Rackets for Ball playing, by John A. Lowry, Saint John. Blasting and Sporting Powder from the Saint George Powder Manufacturing Company, Charlotte County, to the manufacturers of which a Diploma was awarded. A pair of Horse Hames, by P. M'Farlane, York County. Mould Sinking, by Robert Sweet, Saint John. A Corn Husk Bed Mattress, by A. J. Lordly, Saint John. Special notice should be made of a Table top, composed of twelve different kinds of New Brunswick wood; there were twelve dozen screws in same, but scarcely visible, so complete was the workmanship; it was made by John Bateman, an elderly gentleman, residing in King's County. There were also two small round Tables whose outside consisted of pieces of rough wood with the bark on, one—eighteen different kinds of wood, the other, twenty seven; they were made by John Little and John King, Gloucester County.

The exhibitors of assorted collections of Native woods were well worthy the prizes awarded to them.

The large Spinning Wheels exhibited by George A. Morton, King's County, Stephen B. Trucman, Westmorland County, William Teakles, King's County, and G. Jasper D. Armstrong, were well worthy of notice. The small sized Spinning Wheels exhibited by John M'Afee, King's County, and by Mr. Armstrong, Northumberland, were also worthy of notice.

The manufactures from the Provincial Penitentiary were very numerous, and shewed to much advantage, from the suitable manner in which they were arranged. These consisted chiefly of pails of all kinds and sizes, well put together, good wood, and well hooped,—all sizes of tubs, buck saw frames, rolling pins, camp stools, boy's hand sleds, scrubbing brushes of various kinds, brooms, whisks, clothes screens, &c. &c.

The exhibition of these articles tended much to inform the public to what good account the labours of the inmates of that Institution were turned.

In the foregoing notices, there are doubtless some inaccuracies, and many omissions of notices of articles worthy of commendation; but the writer has been guided chiefly by the Judges' remarks in the several departments, and by what observation in the well remembered hurry of the Exhibition week he was enabled to make. It is hoped that allowance will be made for unintentional oversight or mistakes.

We here conclude the above notices, by an extract from a distinguished visitor from the State of Maine, who in noticing the Show of Stock in the enclosed grounds, thus writes:—

“ Upon entering the enclosed grounds, the horses claim our first attention. These were present in large numbers and great excellence. There were some good trotters. The best time made by trotting Stallions was 2.58; but although this class embraced some fine animals, the strength of the Horse Show was, in those for agricultural purposes and for draught, powerful, symmetrical beasts, the equal of which, in numbers and quality, we have seen at no Horse Show in New England. We are in advance of our Provincial

neighbours in the matter of trotters and roadsters, and they as much ahead of us in those of greater power. This is probably due to the importation of the Suffolk, Clydesdale, and others similar, and crossing them upon the heavier mares of the country. Of running horses too, they have more than we.

“Next come the horned cattle, and here we find an equally wide difference from our own. In milch cows they beat us by long odds, while their working oxen are as much inferior to ours. The Ayrshires considerably outnumbered those of any other breed, and embraced many good specimens, but we were sorry to note the absence of Mr. Gray and his stock of full bloods. A cow belonging to Mr. Cruikshank, was one of the best, and was reported to give thirty quarts per day, when in full flow. The bull “Ayrshire Lad,” bred by Hungerford & Brodie, and owned by Mr. Morrison of York County, was the best shewn, and took the first prize. This, as well as the cows ‘Ayrshire Lass’ and ‘Heather,’ were sold to Mr. Dane of Kennebunk; and two others from the same herd, ‘Thistle’ and ‘Topsy,’ were purchased by Mr. Perley of Naples, and will doubtless assist in the getting up of a good milking stock in Maine. While our neighbours can well spare us some dairy animals, it is gratifying to learn the high appreciation in which they hold our fine Devons. The best animals of this serviceable breed upon the ground, were sold thither from the herd at Maplewood Farm, J. F. Anderson, South Windham. Of these, ‘Norfolk 3d’ and ‘The General,’ elicited great admiration. Mr. Peters of King’s County, showed some fine animals both of his own importation from England, and some purchased of Mr. Anderson.

“Several fine Short-horns were on exhibition. The best were two cows imported some years ago by the York County Society, and were shewn by Mr. Inches of Fredericton. We understood Mr. Inches to say that the Short-horns were esteemed chiefly for their first crosses upon the common stock of the country.

“Not a Hereford was seen on the ground, and Jerseys were nowhere—neither in the cattle sheds nor in the premium list. This need not have been so. Doubtless Captain Robinson of Campo Bello, might have shown some of the animals we saw on his island last summer, descendants of the importations of his father-in-law, Admiral Owen, and some of his own more recent importations. Nor are these the only Jerseys within our own limited knowledge of the Province.

“The sheep failed to meet our expectations both in numbers and quality. Some excellent mutton sheep were shown, however, including Southdowns, Cotswolds, Leicesters, and some crosses and grade sheep. No fine woolled sheep present.

“The swine embraced a goodly number of Suffolk, Essex, Berkshire, and Yorkshire, together with some of larger breeds; but we saw no White Chesters, (now the favourite breed in Maine) nor any with characteristics corresponding to theirs. The New Brunswickers would do well to call on Mr. Chamberlain, of Foxcroft, or some other of our successful breeders, and get a pig to fatten at any age, or grow to any size, and do it cheaply too.”

The Ploughing Match came off on Thursday, each competitor was worthy of special commendation. In regard to the Ploughs and ploughing, an intelligent writer who was present, thus writes in the “Maine Farmer,” an Agricultural Paper, published in Augusta, Maine, and one of the most excellent of its kind:—

“Outside the Building, and in adjoining sheds, we find the larger agricultural implements, ploughs, mowers, &c. The long iron Scotch ploughs, at once arrest the attention of a Yankee, and puzzle him so, he hardly knows

what to think of them ; their long handles, short beams, long joints, short mould boards, and narrow soles, are greatly in contrast with ours. Without expressing any opinion of the comparative merits of the English and American ploughs, nor whether this style of ploughing would be best for us in all cases, we do say, that if the 77,000 farmers of Maine, could see the work done at the ploughing match on Thursday morning, they would see such as 70,000 of them never saw before—perhaps a hard saying, but a true one. It was straight, even, and perfect of its kind.”

The same writer, in commenting on the Exhibition, thus writes, “on the whole the Exhibition was a decided success and highly creditable, its effects will be widely felt, in the better knowledge of the resources of the Province, and in the acceleration of progress.”

If one thing more than another attracted notice, it was the superiority of our mechanical operations, and it would have been desirable to have laid before the public an account of our principal Manufactories. We here notice a few, with such particulars as we have been enabled to obtain. It is regretted that not more of our prominent business departments have responded to the request of the Secretary, that information would be given as to the nature and extent of business done, for the purpose of making known more generally what manufactories and works exist in our Province,—as much ignorance regarding them prevails.

Phoenix Foundry and Locomotive Works.—Pond Street, Saint John.
Messrs. Fleming & Humbert, Proprietors.

This Foundry has been established for twenty six years. The principal business during the first eight or ten years was the manufacturing of Ships' castings, stoves and ploughs, Mill machinery, &c. ; but latterly attention has been given to the making of Steam Engines, and other heavy machinery. Of Steam Engines, one hundred and twenty have been built in this establishment—one hundred and eight of which are high pressure, and are used in Saw and Grist Mills, Ferry Boats, and other manufactories of various kinds in different parts of this, and adjoining Provinces ; the other twelve are low pressure or condensing Engines ; nine of which are used for propelling Steam Boats ; two for large Saw Mills, and one for manufacturing purposes.

This Foundry has also built for the European and North American Railway, six first class Locomotives, which have been thoroughly proved, and it may be doubted if better could be furnished in any country ; and it is somewhat surprising, that comparatively few in our Province are aware, that the five Engines on that road, are the workmanship of Messrs. Fleming and Humbert, of the above Foundry, and that every article needed for the completion of such Engines are made within it.

The proprietors employ on the average, eighty workmen, and with the facilities which the Foundry possesses, they are prepared to manufacture almost every kind of machinery required in the Province, and are capable of extending their business fourfold.

On inspecting this Foundry, the writer was much surprised at its completeness and equipments.

The splendid action of their various engines and machinery, as with noiseless activity they accomplished their work; the organization in the various departments, and the scene altogether, of the most advanced mechanical operations, spoke much in favour of the enterprising Proprietors.

Brass Foundry.—26 & 28 Sydney Street, St. John.—Messrs. W. Hayward & Co.

This Foundry manufactures every description of Ships' brass and composition fittings, such as rudder braces, bolts and spikes for planking, clenched rings, hinges for doors, patent roller bushes, also brass fittings for steam, gas, or water, viz:—steam whistles, water gauges, globe and check valves, gauge cocks, copper pipes. This Foundry is also prepared to manufacture hand or steam Fire Engines of any style required; also Garden Engines, lift or forcing pumps of any capacity and of the latest styles.

The number of hands employed will average fourteen during the year, and some idea may be formed of the extent of business here done, when we state, that the amount of sales during last year was about twenty thousand dollars.

The high character which the work turned off from this establishment has attained in this and adjoining Provinces, has had the tendency to check the importation from other countries of such articles as are here prepared at a cheaper rate, and of as good a quality as can be any where obtained.

The proprietors have in this establishment seven Lathes, and other machinery of the best description, driven by steam power.

It has been in existence since 1853, being established then by the present proprietors, W. Hayward, W. Hayward, Jr. and John A. Kennedy.

The splendid Fire Engine which was on exhibition at Sussex, was the workmanship of this firm; it deservedly attracted universal admiration, and was in itself a sufficient guarantee for the high character which the firm has attained for excellence in their department.

Mr. Charles Pearce of Saint John, has likewise an extensive manufactory in Brass and Plumber work, Gas fittings, Chandeliers and Gasaliers.

An extensive business in the same department is also done by Mr. Arch. Rowan of Saint John. A specimen of his workmanship was on exhibition, the large Bathing Apparatus being from his establishment.

It was expected to have had a statement from Mr. W. H. Scovil, of Saint John, of his extensive Iron Works. In this establishment all manner of iron work is manufactured, and a large business is annually done in the making of nails, spikes, and all iron castings.

One of the most important manufactories in Saint John, is that of Messrs. J. & R. Jarvis, where all manner of ships' ropes, cordage, and twine is made. The specimens exhibited were of the best texture and workmanship; large quantities are annually sold by the proprietors.

The establishment of Messrs. Fairbanks & Co. of Saint John, is also a

most important one. By his extensive machinery, all manner of Planing and Turners' work is neatly executed.

In the workshop of Mr. Charles E. Potter, Saint John, an extensive business is done in the making of Picture and Mirror Frames. His excellence of workmanship was amply seen in the various articles exhibited by him.

The same may be remarked concerning the specimens exhibited by Messrs. Doherty & Co. and Messrs. Fairbanks & Co. of Saint John, in the same department.

The Edge Tool Manufactories of Messrs. E. & H. Broad, and Samuel Spiller, Saint John, annually turn out respectively a large assortment of all kinds of axes, adzes, slices, hatchets, chisels, &c. &c.

In the latter establishment, new Narrow Axes to the number of 6,179, were turned off in the space of less than twelve months, with a proportionate number of other edge tools.

For excellency of workmanship, the edge tool makers of our Province stand unrivalled by any country.

Paper Manufactory, Messrs. Philips Brothers, Saint John.—This Manufactory turns off weekly 4,000 lbs. of printing or news Paper, valued at \$440.

Wrapping Paper, various kinds—3,500 lbs. valued at \$260.

Sheathing Paper—2,000 lbs. valued at \$70.

When the writer visited this establishment, the proprietors were manufacturing 6,600 lbs. per week of the usual sizes of Printing Paper, employing six men and seven girls.

They are prepared to make double the above quantity of very thick paper, such as sheathing and heavy wrapping.

The material from which this paper is made consists of old rope, rags, canvas, &c., and some idea may be formed of the quantity required when it is stated that 2,000 lbs. of such material is needed to make 1,600 lbs. of paper.

This Stock is collected in all parts of the Province,—there are some sixty men employed in collecting it, who do so on their own account, and from whom the said proprietors purchase. Eleven years ago, men had to be hired and fitted out by the said firm, with horses and waggons, to travel throughout the City of Saint John and the Province generally, to keep up the requisite supply of materials. The fine samples of Paper on Exhibition at Sussex, were from this establishment.

Hat and Fur Manufactory, A. Magee, King Street, Saint John.—This establishment manufactures annually about \$10,000 worth of Hats and Caps, employing constantly the number of nine persons.

Ladies' Furs, Fur Coats, Capes, Gloves, and Boas, are manufactured by the proprietor, to the value of \$7,000 worth, employing seven persons.

Of raw fur skins, the amount of \$8,000 worth is annually purchased.

The assortment of Hatters' and Furriers' work which was exhibited by the above proprietor, could scarcely be excelled for perfect workmanship in

any country ; it was the admiration of every spectator, and a wide advertisement has already been gained by the exhibition which he made.

It would have afforded the writer much satisfaction to have been enabled with accuracy to have noticed the various Factories, such as Woollen Cloth, Leather, Soap & Candle, Shoe, Last, and others, in the different Counties of the Province, together with our Iron and Brass Foundries, and the other establishments of work, but the particulars are not at hand to enable him to do so. Those that are noticed are of parties who availed themselves of the favorable opportunity of becoming better known through means of the Exhibition.

The necessity of local Factories is being forcibly felt, and enterprise is being directed towards their establishment.

The Boot and Shoe Factory of Mr. D. H. Hall, Saint John, so recently established, is affording evidence of what well directed private enterprise may expect, in a remunerative demand for domestic workmanship.

This Factory has already by aid of machinery, turned off several thousands of pairs of Boots and Shoes, employing at present some fifty hands ; what it, with other like needed Factories for domestic purposes, may accomplish, in affording employment to thousands, and in their collateral benefit, is matter of hopeful speculation.

JAS. G. STEVENS,
Secretary Provincial Board of Agriculture.

December 1861.

APPENDIX N^o. 3.

REPORT

OF THE

CHIEF SUPERINTENDENT

OF

SCHOOLS

FOR THE YEAR 1861.

PRINTED BY ORDER OF THE LEGISLATIVE ASSEMBLY.

FREDERICTON :

J. SIMPSON, PRINTER TO THE QUEEN'S MOST EXCELLENT MAJESTY.

1862.

EDUCATION OFFICE,

Fredericton, February 12, 1862.

SIR,

I have the honor to transmit herewith, to be laid before the three Branches of the Legislature, my Report on the state of the Schools of New Brunswick, during the year 1861.

I have also given copious extracts from the Reports of the District Inspectors, and several Statistical Tables, including a Tabulated Report of the Grammar Schools.

I have the honor to be,

Sir,

Your obedient servant,

JOHN BENNET.

The Hon. S. L. TILLEY, Provincial Secretary, Fredericton.

REPORT.

TO HIS EXCELLENCY THE HONORABLE ARTHUR HAMILTON GORDON, C. M. G.

Lieutenant Governor and Commander in Chief of the Province of New Brunswick,
&c. &c. &c.

MAY IT PLEASE YOUR EXCELLENCY,

In submitting, as required by Law, the Tenth Annual Report of the Training, Model, Common, and Superior Schools, with other particulars relating to the state of public instruction in New Brunswick, including also my first Report upon the condition of the Grammar Schools now open to inspection under an Act passed at the last Session of the Legislature, I have much pleasure in being able to state generally, that, notwithstanding the severe commercial depression experienced during the year, no material symptom has been shewn of stagnation or decline in the operations of this department of the public service.

By a reference to the summaries, (Abstract Tables A and B,) at pages 10 and 26 of the Appendix, it will be seen that in the first term, the number of schools in operation was 801, and of teachers employed 810, or an increase of 2 and 4 respectively on the corresponding term of the preceding year. The same tables however shew a decrease of 17 schools and of 12 teachers in the second term, as compared with that of 1860, the numbers being respectively 824 and 834. The teachers are thus seen to be in excess of the schools, the difference being the number employed as assistants in the large schools under the Act. This diminution of schools and teachers during the last term of the year, occurring, it is believed, among those of general inferiority, is really no matter of regret, especially as the general attendance has rather increased than fallen off. There has been, however, an increase of Superior Schools. It also appears that large accessions are constantly being made to the staff of trained teachers; the mean total of that class employed and paid during the year being 517, leaving on the aggregate only 305 untrained teachers now in the school service of the Province. Of course, an increase of expense has attended this augmented number of Superior Schools, and advanced classification of teachers, the amount drawn from the public funds being \$83,491.02, or an advance of \$505.99 upon the expenditure for the same purpose in 1860. The amount thus disbursed in payment of teachers' salaries, together with the sums paid towards the Book Account, School Libraries, the Training School, and for administration, as given in detail in the Appendix, makes the total Provincial expenditure under the Parish School Act for 1861, \$97,364.96.

It is, however, worthy of notice, that the local contributions for teachers' salaries as reported, have kept pace with the disbursements from the public

funds, the former being \$108,919.99, and exceeding the latter by \$25,428.36. If we further take into account the unreported expense of building and repairing school-houses, providing them with furniture, maps, black boards, and other apparatus, together with the cost of furnishing text-books, slates, and writing materials for the pupils, we must surely admit that very satisfactory evidence is thereby afforded of the great importance which the people attach to the education of their children, and of the sacrifices they are content to make, in order to secure so desirable an object. Of such feelings and efforts, no better proof need be asked or given than is shewn in their praiseworthy liberality in providing a new and better class of

SCHOOL-HOUSES.

The interest which has, for several years past, been felt and manifested by the people in the erection of neat and commodious school-houses, forms an important element in our educational progress, and, to all appearance, continues unabated. It is certainly a matter of gratulation, and highly creditable to the educational feeling of the country, that in a year the reverse of prosperous, upwards of fifty new school-houses have been erected, and perhaps an equal number of the old ones more or less extensively repaired. In the construction of new houses, I notice also with pleasure the more than usual attention that is now paid both to the eligibility of the situation, and the style and finish of the buildings themselves. The desirability of removing the school-house to a convenient distance from the dust and distraction of the street or highway, as well as of enclosing the grounds with a suitable fence, is now, in some instances, recognized and acted on. Occasionally also a few ornamental additions to the exterior, serve to distinguish the school from the ordinary dwelling-house; and the value of paint, both for appearance and utility, is not forgotten. The furniture now coming into pretty general use is also of a superior form and description to that formerly common in our Parish Schools. Desks, of hardwood tops, with lids and shelves, and arranged in parallel rows fronting the master's platform, are gradually taking the place of the old fashioned unpainted pine desks placed round the walls. This change is a great improvement in every way, but especially valuable to the young teacher, by facilitating the organization and thereby promoting the discipline of the school. The old plain backless benches are also disappearing, and high time they did. No greater mistake was ever made than the introduction of such things into the school-room, except that of compelling children to sit upon them. Where these are the only seats, children have no chance of support for their backs, unless they are in a position to lean against the wall,—rather a doubtful advantage whenever the wall happens to be damp, or cold, or cracked. To continue sitting long in one position is not easy at any age, but is rendered nearly impossible by the buoyant spirits and restless activity of youth. The fatigue and discomfort arising from such a position are still further aggravated in school, by the pupil having a book or slate to carry in the hand. The boy thus left without support for either his book or his back, and reduced to making the best shift he can, soon

comes to rest his elbow or slate upon his double knee, elevates his shoulders, contracts his chest, arches his spine, and is altogether in a fair way of acquiring a stooping or slouching habit which may last him for life.

Such habits, which are detrimental alike to the health and carriage of the young, may easily be counteracted by the general adoption of the modern desk and chair. But these improvements in school furniture are no less to be recommended for the avoidance of the ungainly habits alluded to, than for the important and beneficial influence which they indirectly exert upon the intellectual part of education. The boy, whose personal comfort is by these means secured, not only rapidly and insensibly glides into a graceful, because natural mode of sitting and walking, but his mind, being thus withdrawn for the time from all thoughts of himself, is left free to fix its undivided powers upon the immediate subject of instruction before him.

From this intimate and wonderful connection between mind and body, it necessarily follows that matters, in themselves apparently trivial, often assume a real importance when viewed in their influence upon the practical business of teaching. I have repeatedly seen the effect of a good lesson lost, and valuable time thrown away, in the vain attempt of the teacher to get and keep the attention of a class, when the rays of a summer sun have been streaming full in their faces through an unblinded window. The same effect is often produced by an excess of cold or heat in the school-room. It is a fruitless task to attempt to teach a crowd of shivering children in whose estimation the place of honor in the class must be the place nearest the stove. Not more successful will be the teacher's effort to impart instruction to his pupils, when both their senses and his own are lulled to drowsiness by an over heated or exhausted atmosphere. Such extremes should be studiously avoided, and care taken to preserve as far as possible an equable temperature. For this purpose it is very desirable that every school should be furnished with a thermometer, which the teacher will find a far safer guide than his sensations, which, though they must vary with the varying condition of his health, are too frequently relied on as the test of temperature. Of this, there is no true test but the thermometer, and the trifling expense of the instrument cannot long operate as an obstacle to its general introduction. Let a thermometer then be suspended in the school-room, about four or five feet from the floor, at some distance from the source of heat, and kept at a uniform temperature of about 65°, and either his health or his clothes must be bad, or every individual in the room will be as comfortable as it is possible for a moderate warmth to make him.

But the matter of ventilation, no less than of temperature, is deserving of the teacher's most watchful attention. And here let me remark that, if his sensations are but imperfect guides in the matter of temperature, they are still less to be depended on, in a question of such vital importance as the purity or impurity of the atmosphere. Not the least of the dangers attending respiration in a vitiated atmosphere is, that it renders us in some measure insensible to the mischief it produces. All the more need therefore that the

teacher's attention should be constantly given to this matter, remembering his duty is no less to preserve the health than to develop the minds of his pupils. Let him bear in mind also that if he wishes his arrangements for this purpose to be effectual, he must carry them out himself, or make a point of seeing them carried out under his personal superintendence. It will not, I trust, be considered by teachers that these remarks proceed from a desire to add to duties already sufficiently onerous, but really from an assurance that attention to such minutiae will lighten, rather than increase the labors of the school-room. If no provision has been made for thorough and constant ventilation, let them have recourse to the old fashioned expedient, and throw open the windows for a time during recess, or on other fitting occasions, only taking care at these times to remove the children to such a distance as to prevent draughts of cold air from playing upon their heads.

The importance and necessity of attention to these and similar matters are now pretty generally conceded, although individuals may still be found who find it difficult to see what such things have to do with teaching boys to read and write and keep accounts. It has been my duty, however, as well as the duty of the Inspectors, to keep these matters prominently before the public, and it is probable that some success has attended our efforts in this regard. Be that as it may, one thing is certain, that good progress has been made in the above respects during the past year. For the purpose of ventilation, all or nearly all windows in the new school-houses are made to lower from the top, while in some instances the same object is sought to be accomplished by means of apertures in the flues and ceilings communicating with the outer air. But it cannot be too often repeated, that all such contrivances, imperfect as they necessarily are, will be but of little avail for the purposes of health and comfort, without the constant care of the conscientious teacher.

In addition to the improvements which are thus being gradually effected in the construction, furnishing, and ventilation of school-houses, we must not omit to notice the increasing supply of such useful apparatus as black boards, maps, globes, &c. The latest Returns shew that 553 schools are now provided with black boards, or an increase of 39 on the previous six months. Such a result is doubly satisfactory, as implying increasing liberality on the part of the people, and improving methods of instruction on the part of the teacher. The uses to which the black board may be applied, are commensurate with the whole range of school instruction. From the teaching of the alphabet upwards, it is of great value in hands that know how to use it. But for the purpose of teaching arithmetic, geography, or grammar, by facilitating the laying down and elucidation of the general principles of these sciences to classes in promiscuous schools like ours, the assistance of the black board is almost indispensable. The Inspectors still continue to report instances of ill success attending the teaching of arithmetic, when the cause of the failure, in all probability, is the teacher's ignorance or neglect of the use of the black board. For teaching grammar also, a considerable know-

ledge of which may, and at the first stages should be communicated orally and without any text-book, great assistance is to be derived from the black board, and, even when a text-book is employed, the board should be made the constant medium of interpretation between it and the class. For instruction in geography, atlases and wall maps are no doubt valuable adjuncts, the repeated additions to which we hear with great satisfaction; but to the teacher whose knowledge of the subject is extensive and accurate, little more is necessary to complete success than a good black board and a piece of chalk. No apology is required for inserting here the opinion of a distinguished living Teacher* upon this point, whose experience, extending over more than half a century, may justly lay claim to the earnest consideration of every teacher.—“The knowledge of geography will be still better secured, and the picture of the country in the learner’s mind be made more vivid, if the first lines be taught, not by presenting to the eye the confounding intricacy of an engraved and lettered map, but by means of a board, on which only the great natural features shall be delineated; and where no river, or tributary stream or town shall be inserted, except those which are to form the ground work of the instruction. The representation of the country on the board, being thus freed from all distracting details, and the names omitted, the eye and the mind of the learner are no longer perplexed by a multiplicity of objects; and if we employ a board of a jet-black unreflecting surface, and draw our skeleton map upon it with chalks of colours appropriate to the objects delineated,—green for the hills, light blue for the rivers, pink or any distinct colour for the towns, and a red cross for the scenes of battles and sieges,—it will be found greatly to delight the imagination and assist the memory. The rivers, for example, will be like silver threads, having the towns and other memorable localities strung upon them; the town will serve to recal the river, and the river the town. The information being communicated to the ear of the pupil at the same moment that his eye is fixed on the subject of it, will have a double chance of being deeply impressed and long remembered.”

The improvements which have now been noticed are very satisfactory in themselves, as well as important in their tendency to lead on to others. The increasing accommodation and attractions of the new school houses, presided over, it may be assumed, by teachers of corresponding qualifications, were certain to exert a salutary influence upon the attendance of

PUPILS.

Accordingly we find that while the schools have been diminishing, the pupils have actually been increasing. During the last term, with a decrease of 17 schools, we have had an increase of 175 scholars. This increase is not indeed large, but when it is considered that the smallness of the schools and the irregularity of attendance are not the least among our many drawbacks, any indications of improvement in these respects, however small, may well

*Professor Pillans.

be regarded as an encouraging prospect. In connection with this circumstance, it is worthy of notice that of the total number of pupils enrolled during the year, upwards of 2,500 have been over 16 years of age. It is not supposed indeed that the whole or even the greater part of these pupils have been regular attendants at school up to this time. No doubt, a considerable proportion of them are those who are usually kept from school by the labours of the farm, the woods, or the saw-mill, and who during winter, or on the occurrence of a stagnation, as now, in lumbering operations, resort to school in order to supplement deficiencies in their early education. Some also are studying with a view to entering the Training School and becoming teachers themselves. But whatever the cause or the motive, the fact is certain, and is highly creditable to the young men and young women of the Province.

Before passing from the consideration of these Tables, it may be worth while to notice for a moment the number of pupils in the different

BRANCHES OF INSTRUCTION.

It cannot perhaps be too often repeated, or too steadily kept in view by all who desire to see in the education of its children the means of promoting the real interests of the Province, that the branches which lie at the foundation of all true progress in learning, and should therefore take precedence of every other, as subjects of instruction in our common Schools, are the elements of reading, writing, and arithmetic. Regarding these as a means to an end, they may not inaptly be termed the educational powers; they are not knowledge however, any more than a pump is water, and we value the former for their educational, as we do the latter for its mechanical advantages. Other subjects of instruction may have their value, and circumstances may even confer upon some such a special importance as to lead to their being made part of the regular curriculum. But in general, whatever value other branches possess, these cannot safely be dispensed with. They are not knowledge, as has just been said, but the boy who has acquired a facility in the use of them has found the means of increasing his stock of knowledge to any extent. This distinction is important. "Teaching a pupil to read before he enters upon the active business of life, is like giving a new settler an axe as he goes to seek his new home in the forest. Teaching him a lesson in history is, on the other hand, only cutting down a tree or two for him. A knowledge of natural history is like a few bushels of grain gratuitously placed in his barn; but the art of ready reckoning is the plough which will remain by him for years, and help him to draw out from the soil a new treasure every year of his life."

It is a source of satisfaction to perceive from the returns that these views are being carried into practice, as is evident from the immense preponderance given to the strictly elementary branches over such special ones as land surveying or navigation; in the former the pupils being numbered by tens of thousands, in the latter only by tens.

It is not, however, to be inferred from the opinions now expressed, that it is sought to undervalue the importance of such subjects of study as grammar, geometry, or the like, either to the pupil or to the teacher. On the contrary, I believe, that much of the success in teaching the elementary parts will depend upon the teacher's knowledge of what are usually called the more advanced branches. Take for example the important but much neglected art of reading as a part of elocution. Nothing is hazarded by saying that, in order to give his scholars the power of reading well, a knowledge of grammar is indispensable to the teacher. If fluency constituted good reading, there is no lack of good readers in our schools. Or if our success in this art had been at all proportionate to the number of books and rules on the subject, our success would have been great indeed. With the best intentions in the world, no doubt, books are multiplied without end, giving all sorts of directions on such things as pauses, emphasis, and varied modulation of voice, but all to little purpose. Recourse has even been had, with no better effect, to such leading strings as lessons for recitation, in which the orator's art is sought to be acquired by the help of every variety of dash and accent known to the printer. I will not say that all such mechanical contrivances are wholly useless, but I am satisfied that they are not worth the time frequently devoted to them. A far more effectual method of teaching good reading will be, in the first place, to take care that the pupil, from the moment he begins to put two letters together, is made to understand every word he reads, and in the second place, when introduced to the reading of long and intricate passages, to shew him and make him feel that success will depend upon an intelligent analysis of the several parts of every sentence, upon the distinction of subject and predicate, of principal and accessory clauses, and upon a knowledge of the relation of each word, in sense and construction, to the rest. By the habit thus formed of carrying the sense along with the act of reading, the learner will gradually acquire the power even of anticipating in his own mind the scope of the passage to be read; and being able in this way to enter into the views and feelings of the writer, his reading will be marked by the natural expression seldom wanting in the reading of one's own composition.

Now that, from the University downwards, the art of reading is happily beginning to attract more than usual attention, I have ventured to throw out these few hints on the subject, as well for the guidance of the young and inexperienced teacher, as to shew that every acquisition which he makes is so much added to his teaching power. What grammar is to reading, algebra is to common arithmetic. The reason is the same in both cases. In both, we arrive by analysis at a knowledge of first principles, a point worthy of consideration by every intelligent teacher, since all his instructions will become more satisfactory, the more they are made referable to general principles, and less to empirical rules.

This higher kind of teaching is not, of course, to be expected from all or

even a majority of our common school teachers, but the people have surely a right to look for it from those who conduct the

SUPERIOR SCHOOLS.

I refer accordingly with satisfaction to the generally favourable Reports of them furnished by the Inspectors, only two having failed to meet the requirements of the Regulations. It will be seen that during the first half of the year, there were 19 such schools in operation, and 21 in the term ending 30th September. The number of pupils enrolled is large in all but two cases, both of which have ceased to be Superior Schools since the close of the last term. Of the 1162 pupils registered during the Summer, 207, or a little over 20 per cent. have been over 16 years of age. The average attendance is about 62 per cent. of the number on the registers, or better than the general average of all the schools by 6 per cent. The school-houses are excellent, with one or two exceptions, and these only require a few inexpensive repairs to make them suitable in every respect. They are all provided with black boards and maps, and six are furnished with globes.

The branches of instruction embrace all that are usually required to prepare boys for a commercial life, and in some instances, for entrance at College.

From the general character and standing of these schools therefore, I am induced to renew my former suggestion, that the pupils of Superior Schools be allowed to compete with those of the Grammar Schools for the County Scholarships in connection with the University. Indeed this right of competition should be extended to all schools however designated, which have Masters qualified to teach, and pupils willing to learn the subjects prescribed for such examinations.

THE TRAINING SCHOOL.

This Institution, all things considered, has been doing good service during the past year. The attendance of student-teachers and candidates for licence still continues large, the total number for the year being 190, of whom 60 were young men, and 130 young women.

It is gratifying to learn that candidates for admission are now coming better prepared than formerly, and I have no doubt that they will derive corresponding advantages from this circumstance. This good result is due, both to the improving character of the schools in general, and to the salutary practice of rejecting candidates whose previous acquirements would not enable them to profit by attendance.

The example now set of a few young men returning to study a second term, will, I trust, be largely followed. Such students are certain to find promotion in the school service; better still, to command it.

Some instruction in Intellectual Philosophy is now given to students, with a view to guide them to correct principles of classification and discipline.

Physiology, as relating to the general laws of health, and the easiest and most effective means of preserving it, has also been introduced during the year, and received a due share of attention.

Provision has also been made for giving instruction in Agricultural Chemistry, and the subject bids fair to become both popular and useful.

The want of more suitable premises has long been experienced, and is still severely felt. It is very desirable to have both model teaching, and a model house to teach in. It is even probable that with superior accommodations, a better educated class of students would be secured, and almost certain that more of them than now do, would return for additional training. I have strong hopes that our wishes in this respect will be gratified as soon as practicable.

The Report of the Training Master, given entire, will be found annexed.

LIBRARIES.

It will be seen on reference to Table E, that eight new Libraries have been formed during the year, and additions made to seven previously established, numbering in all 751 volumes, at an aggregate cost of \$382.

As compared with the preceding year, this is a considerable falling off, and very much to be regretted. It may, however, be accounted for from the depressed state of business and consequent scarcity of money, as well as from the circumstance that many districts are provided with Sunday School Libraries, which parents generally regard as furnishing sufficient reading for the present wants of their children. Whether the reading supplied in this way will answer the end contemplated by the District School Library, will depend very much upon the quality of the books, and upon their adaptation to the tastes and capacities of the young. It is not enough that books for the voluntary reading of children should be free from blemishes merely of a vicious or immoral character; it is not enough that there may be nothing in them calculated to "mislead the sense," if, at the same time, by their dulness or other faults, they are apt to "tire the patience." A book to be instructive, must first be interesting, to a child. A School Library selected on this principle may be made a most powerful instrument in the hands of a judicious teacher, both in the way of reward and punishment. Let pupils be taught as far as possible to regard access to the volumes as a privilege, dependent on their diligence and good behaviour, and to be forfeited by an opposite course of conduct, no subsidiary means can be devised as more effectual in giving children a taste for reading, and carrying the business of improvement in knowledge and goodness to every fireside in the country.

NEW TEXT-BOOKS.

Dictionary.—Worcester's Series of English Dictionaries has lately been authorized by the Board of Education for use in the schools, and arrangements made with the Publishers for supplying the work through the Booksellers on very advantageous terms, teachers being allowed a discount of twenty five per cent. upon the retail prices. This series is valuable for nearly all the purposes for which Dictionaries are usually consulted, and may be recommended for use in the schools of a British Province on account of its general adherence to the standard of English orthography, innovations in

which detract so much from the value of such a work as Webster's. It is hoped that the introduction of this series will meet a want long felt by many of our teachers.

History.—Munro's History of New Brunswick is recommended by the Board as a book of reference for the more advanced classes in the schools, and as suitable for School Libraries. This work, although its arrangement does not well adapt it for a text-book, will yet be found of great service to pupils and others wishing to acquire a knowledge of the early settlement and present condition of the Province.

Arithmetic.—A small work on this subject, adapted to the decimal system of computation, has been prepared and published. It was designed to meet the wants of our elementary schools, and of junior classes generally, and will, it is believed, fully accomplish the object in view. The propriety of compiling or authorizing a larger work on the same system for more advanced students will, as soon as practicable, engage the attention of the Board.

Text-Book on Agriculture.—But perhaps the most important addition to the list of text-books during the past year, has been Professor Johnston's Catechism of Agricultural Chemistry and Geology. Five thousand copies have been reprinted from the forty first English edition, and distributed for sale in suitable quantities among the several Agents of the Board throughout the Province. The book has been got up in a neat style, with appropriate illustrations,—a *fac simile*, in short, of the English edition at a greatly reduced cost. As the sanction of this book may appear to favour the idea of a *special* education, the value of which is still a debated question, it may not be improper to state one or two of the reasons which render such a course of instruction in our circumstances particularly desirable.

Whatever of force or truth there is in the saying that boys should study at school what they will have to practice in the world as men, may be appropriated as an argument in favour of an agricultural education for the youth of this country. It is true the same plea may be urged on behalf of boys whose future occupation will be some of the mechanical arts, but the force of this argument must, at best, be proportionate to the number of those in whose interests it is advanced. The numbers employed in any one of these arts, or in them all put together, bear but a small proportion to the numbers engaged in the pursuits of Agriculture. The interests of the majority, therefore, even if no other reason existed, would be sufficient to justify the preference given to agricultural instruction.

It is well known that at a period of great trial to the agricultural interests of England, the application of the knowledge derived from the study of Chemistry was one of the principal means of bringing those interests through the difficulties of that trial, not only in safety, but with renewed confidence and strength, both to those more immediately concerned, and to the whole country. If therefore such knowledge be necessary to improve the poor or renovate the exhausted lands of other countries, it is no more than ordinary prudence on our part to employ the same agency in order to preserve the

virgin freshness of our soil. Fertile as the soil of New Brunswick generally is, we have abundant proofs on every hand that it is not inexhaustible. Judging from appearances, it is probable that not a few of our farmers have yet to learn the importance and necessity of keeping as strict and accurate accounts with the lands they cultivate, as men do in their transactions with one another.

It would be wrong to say that improvements have not taken place of late years in the practice of Agriculture in this Province. We have the authority of the Agricultural Societies and of the Provincial Board of Agriculture, as well as the evidence of our own observations for saying, that our farmers have not been standing idle in the midst of the general activity. Such advances, however, have been neither so rapid nor so vigorous as could be desired, and probably the large crops we see and hear of being raised, are quite as much the result of the productive power of the soil as of any scientific mode of cultivating it. The old hap-hazard methods will do well enough, and good crops will be raised, so long as the large deposits of organic matter last. But when this matter fails, as fail it must, under the practice of incessant cropping without manuring, our farmers, unless they are prepared to abandon their old cleared fields and bury themselves again in the depths of the forest, must have recourse to some other and more scientific system of culture.

Let us then follow the example set us in this respect by the Parent State. If like causes produce like effects, we have, it is clear, the best reasons for resorting to the same expedients here that proved so successful there. We have moreover the same forces impelling us in the same direction. New Brunswick, in common with England, has to compete with the grain producing regions of Canada and the United States, and at a disadvantage too, as compared with England, in proportion to their greater proximity to this country.

Again, if the English agriculturist, with all the advantages of cheap and abundant labour on his side, has found it necessary to resort to the expediency of applying scientific knowledge to increase the productiveness of his lands, the interest of the New Brunswick farmer, who, if he employs hired labour at all, must employ it at a very dear rate, will obviously lie in the same direction. But the amount of agricultural labour that is hired in this Province is a small part when compared with what is performed by the farmers themselves, assisted by their families. This circumstance should operate with them as a powerful motive to give their children the best agricultural education to be had, with a view to render them at once skilful and contented labourers. It is difficult now for the farmer to keep his sons on the farm, and we need not wonder much that it should be so. A bright intelligent boy wants food for his mind, as well as work for his body, and will never remain satisfied with mere unintelligible routine. Let his mind be thoroughly informed as to the why and wherefore of every operation, and he will be found both a better and more willing worker.

But the argument in favour of an agricultural education is further strengthened by a consideration of the apparent practicability of the scheme. While no means exist in connection with the Schools by which practical instruction could be given in the mechanical arts, we possess in our schools and in our peculiar circumstances, the ways and means of communicating some knowledge both of the science and practice of agriculture.

To some of our older and better teachers, the subject is by no means new. Already a number more have had their attention turned to it at the Training School, where it now forms a part of the regular course of instruction.—The Inspectors are also at work, with fair prospects of success, assisting and stimulating teachers to acquire the requisite information, as well as in exciting an interest in the subject on the minds of the people. Besides, many of our teachers, being themselves the sons of farmers, may reasonably be supposed to possess some practical knowledge of agricultural operations which they may turn to good account. The circumstance also, as we have seen, of the farmers and their sons performing most of their own labour, affords the latter in their capacity of pupils, an excellent opportunity of comparing and testing experimentally the operations of the farm, with the scientific teaching of the schools. Special Agricultural Schools, with model farms, however valuable, are too expensive to be well adapted to the present circumstances of this country; but, even with the modest means and humble appliances at our disposal, if teachers and farmers will only prove true to themselves and to each other, there is reasonable room to hope that the pursuits of agriculture may yet become as profitable as they are honourable.

The last and most important consideration on this subject will be best put in the words of the little book itself.—“When examining them on these latter parts of the subject, the teacher may draw the attention of his pupils also to the beautiful chemical connection which exists between the vegetable and animal kingdoms, and especially to the marked adaptation of the *living vegetable to the wants of the living animal*, which is exhibited in the fact that the animal finds ready formed in the ripened plant, as the young animal does in the mother's milk, all the most important substances of which its own body is composed. The gluten of the food it eats is nearly identical with the fibre of its muscles; the oil is similar in character to the fat of its body; the bone earth, and other salts of the plant, supply mineral materials for its bones, blood, and flesh; while the starch and sugar afford the carbon which is required for the purposes of respiration, and for keeping the body warm. Finally, he may point out that, when the vegetable food has discharged its office in the animal body, it returns to the earth in the form of dung, only to enter into the roots of new plants, and thus to produce new supplies of sustenance for other generations of animals. The entire economy of vegetable and animal life, and all the changes experienced by dead matter, are parts of one system—express, as it were, but one idea—the offspring of ONE MIND.

“By a little reflection on the various subjects treated of, he may thus engraft a course of instruction in Natural Theology upon the pure practical principles of this little book; and may thus make it instrumental, not only in the intellectual, but also in what is much more important—the *moral* training of his pupils.”

Having now adverted in detail to the different operations of the department during the year, and noticed the progress which I believe to have been actually made, and also the means taken, with a view to promote still further improvements, I could willingly have stopped here. But duty requires that I should present the dark, as well as the bright side of the picture. It must not be disguised that, with all our staff of trained teachers, the number of those is still too large whose acquirements are not up with the times, even as times are in the back settlements, and whose retirement from teaching to some other occupation, would be no hinderance to the progress of education. There are still too many whose scholarship is on a par with those whom an Inspector with unconscious sarcasm recommends, on meeting with orthographical difficulties, to use copy-books already prepared. We must not forget, while pointing with pleasure to the many new and beautiful school-houses springing up around us in all directions, that hundreds of poor but honest men's children are still doomed to put up with school accomodation, compared with which the accomodations of our public prisons are luxurious. With many noble exceptions, as we have seen, we cannot shut our eyes to the numerous instances of another class of people carrying their penny-wise and pound-foolish principles so far, as to leave their children without concern, to be cramped in mind and stunted in body, schooled by the cheapest teacher, and confined in houses fit only for wood-sheds. And yet such parents expect their children to be educated, and, when the result disappoints their expectations, are ever ready to lay the blame which is due only to their own selfish and short sighted policy, on anybody and everybody but themselves. But of all the obstacles with which we have still to contend, the greatest to the successful education of the young, is their

IRREGULAR ATTENDANCE.

I have made a calculation, (see Table C) which places this matter in a striking point of view. This calculation is based on the Returns of the teachers who, besides being enjoined by the Law to keep their registers with accuracy, can have no disposition to make them worse than the reality. The result then of this calculation is, that of every 100 children on the school rolls for the whole year, only 56 have been in daily attendance. In other words, while professedly educating 27,500 children, we have been really giving instruction to no more than 14,000; or, the schools have been open and paid nearly the whole year for doing little more than six months work. This state of things, though very much better than in the neighbouring State,*

* In Maine, the mean average attendance to the whole number of scholars in 1860, was 46 per cent.

is yet enough to suggest the idea of apportioning the public funds for school purposes according to the average attendance of pupils, and of fixing the average somewhat higher than 56 per cent. But this result for the whole Province, deplorable as it appears, is good compared with that obtained for some Counties, King's for instance, where the average attendance is only 47 per cent. the whole year round. This result, of the proximate accuracy of which I have little doubt, displays an apathy in regard to education which I find it difficult to account for, when I consider the proportion of trained and excellent teachers in that County, as well as the general intelligence of the people. No people have lately given better proofs of educational enterprise, especially in the important matter of school-houses, than the people of that County. Half of all the new school-houses built in 1860 were built in King's. Hence the difficulty of reconciling such facts with the results of this calculation. Perhaps the mode of choosing teachers and opening schools has something to do with it. The practice is still too common, both in that and other Counties, for the teacher to choose the people, and not the people the teacher. Hearing of a vacancy, the teacher waits upon some of the parents in the district, receives the promise of a certain pay for a certain number of scholars, obtains the sanction of the Trustees, and forthwith opens the school. One almost invariable result of this practice is, that only a portion of the children ever enter the school at all. One man holds aloof because he was not consulted, some because the teacher is a woman who cannot teach certain branches thought to be necessary, others because he is a man, and costs too much. Then follow bickerings and wranglings which probably end in the opening of a second school in some other part of the district. In such circumstances, either a large school, or a good school, is out of the question. With the certain prospect of a decreasing salary before him, the teacher becomes discouraged, complaints more or less correct of carelessness begin to be heard, the school falls off, and the term which began with few scholars, will end with less.

Other circumstances are often adduced to account, or pleaded in excuse, for this great evil, the chief of which seems to be the necessity of employing the young people on the labours of the farm during the busy seasons of planting and reaping. This plea is readily admitted, but it would receive additional force, if the attendance was shewn to be very much better in winter than in summer, or worse in the rural districts than in the towns and villages. The average attendance for the whole Province is no doubt in favour of the winter over the summer term, but the difference is small, while in the case of three Counties largely agricultural, there is either no difference at all, or it is on the wrong side.

However great the evil I am now speaking of may be in the country parts of the Province, there is reason to fear it is even greater in the towns and villages. In nearly all of them the schools are too numerous. They are therefore small, and the teacher's income from tuition fees must be small in proportion. There being in general no public school-houses, necessity compels

him to huddle his young charge into a dark kitchen, a cheerless basement, or a suffocating garret. These small schools are frequently found in charge of first or second class teachers, whose Provincial pay, depending almost entirely upon their classification, is disproportionate to the work performed. It is no argument to say, that the teachers of these small schools are legally qualified. The question is no way affected by their qualification. The simple question is, are they wanted? No prudent man will employ and pay two or three persons to do the work of one. But when it can be easily shewn that the work of education will be better performed by one man, who, along with his qualifications, has "all the appliances and means to boot," than it can by two or even three teachers, under the unfavourable circumstances described, we have additional reasons for wishing to husband the public funds by limiting the number of these small schools. Two or even three of these might be advantageously thrown into one, if only a commodious school-house were ready for their reception; and such a house will be most readily built when the people shall agree to take advantage of the principle of assessment now on the Statute Book, or unite to demand a more general and comprehensive measure. Then, teachers, now spending their time so unprofitably, and the money now laid out to so little advantage, would find their way to other localities, where both of them would be welcomed and appreciated.

The evil now complained of might also be somewhat lessened by securing more generally the supervision of

SCHOOL COMMITTEES.

Considering the important nature of the duties devolving by law upon these officers, it is to be regretted that more than the half of our schools are still without the advantage of their services. I would not be thought as undervaluing the services of Trustees, whose duties when faithfully performed are frequently found to give a powerful impulse to the cause of education in their respective localities. But the Trustees, being only three in number, and having jurisdiction over a whole Parish, can have, generally speaking, only a collective interest in their schools, and cannot therefore be fairly expected to form an exception to the general rule, that unpaid labour, with little more than the labour to recommend it, is usually but ill performed. With the Committee the case is very different. They are to be residents of the district in which the school is situated, and must consequently, in nine cases out of every ten, possess an individual as well as collective interest in its prosperity. Their services have therefore the advantage of being at once cheap and valuable;—cheap from their comparative proximity to the school, and valuable from the exactness of their knowledge respecting its wants. Schools are now and again reported by the Inspectors as temporarily closed for want of a stove, or fuel, or other requisites, all of which might have been foreseen and provided, had the services of a Committee been secured. In some cases where Committees have been appointed, they

have rendered valuable assistance by furnishing the Inspectors with reliable information, the effect of which has frequently been to expose inefficiency, and to encourage merit. The law charges the Committee with the care of the school-house, furniture, apparatus, library, and grounds; and although there are still a good many districts so ill provided in these respects as to require no supervision, a school Committee might still usefully employ themselves in trying to bring about a more creditable state of things. They might also render good service when a teacher is to be engaged, by seeking information that would lead to a judicious selection, instead of the whole district waiting, as we have seen, till one comes along with a license in his pocket, and claims the privilege of conducting the school for the next six months. But, most important of all, their periodical visits to the school, their examination of the children, if needful, and their inspection of the registers, would shew them so plainly the terrible evils of tardiness and irregularity, that I am convinced a powerful effort would soon be made to put a stop to practices so replete with destruction to the moral habits and intellectual progress of the young.

But teachers will do well to remember that this reform cannot easily be effected without their steady co-operation. They now complain, and with too much reason, of the indifference of parents, committees, and trustees, as shewn by their infrequent visits to the schools. But perhaps the public are not so much to blame as might at first be imagined. If the teacher is at no trouble to make the ordinary business of his school attractive either to his visitors or to his pupils; if from inattention to cleanliness and ventilation, a failing far too common, the school-room becomes disagreeable and offensive to the senses, it is not to be wondered at, that children give preference to the pleasures and even the labours of the field, that the visits of parents are few and far between, and that none but the official Inspector can be found to spend more than a few minutes in a school, where nothing is done to please, and so little to instruct. My own observations and the reported experience of others, confirm me in the belief that teachers can, if they will, do very much to lessen the evils which my duty has thus led me to expose.

If these suggestions were only generally and faithfully carried out, I am satisfied that many of the obstacles would be removed that now oppose the improvement of our country schools; and with regard to those in the towns and villages, we risk nothing in saying that they will never reach their highest efficiency and usefulness until we can apply to them the

PRINCIPLE OF GRADATION,—

A principle which recognizes the importance of classification of schools, as well as classification *in* schools. The schools themselves should be arranged in classes, as well as the pupils in a particular school. Every teacher who knows anything of his business lays great stress upon the classification of his pupils, according to their capacities and attainments, a process which is

greatly facilitated by our uniform and excellent set of school books. But in the heterogeneous schools of our towns, where everything is taught or expected to be taught, from the alphabet to mathematics, the most skilful division possible will still leave the teacher more classes on his hands than he can manage, either with satisfaction to himself, or advantage to them. As he can only be engaged with one class at a time, the others are probably either idle or in mischief. Order in such a school is nearly impossible. Besides, there can be none of the enthusiasm and emulation that spring from the sympathy of numbers, and seldom found but in large classes pursuing the same studies. In our town schools as they are now conducted, there may be abundance of talent in the teachers, but it is not properly directed. Every teacher has a predilection for some particular branch of study which he will teach more effectively than others. One object of gradation is to adapt the teacher to the school, and the school to the teacher; for in this, as in every other department of human labour, it will be found that

“Each might his several province well command,
Would all but stoop to what they understand.”

Another advantage of Gradation is its greater economy. In a given time under this system the same teacher can instruct, say sixty scholars in three divisions, with more ease and better effect, than thirty in six classes. In this way, therefore, the number of schools in the towns may be reduced to perhaps one half, and a great saving thereby effected.

I trust, ere long, to be able to prepare a scheme by which this important principle may be reduced to practice.

GENERAL REPORT ON GRAMMAR SCHOOLS.

I have prepared and placed in the Appendix a Tabular Report of all the County Grammar Schools under the supervision of the Board, embracing such information as I was able to collect respecting them at my visits, or have obtained from the latest Returns of the teachers. To this I now propose to add a few observations, in order to give a general view of the whole.

1. *Analysis of the Schools.*—I visited within the year, and at such times as my other engagements permitted, all the 12 schools open to inspection except one, namely that of Victoria, which, although the teacher had been apprized of my coming, was not in operation at the time of my visit. Of the remaining 11, 4 are good, 3 middling, and 4 decidedly inferior, and, in point of general usefulness, far below many of the ordinary Parish Schools. I think I may be readily spared the unpleasant and invidious task of indicating the instances of failure with any greater precision; but in justice to enterprising Trustees, and especially to deserving teachers, I must not forbear to state, that the schools designated as *good*, though possessing different degrees of merit, are the schools of Carleton, Charlotte, Gloucester, and Restigouche.

In forming this estimate of the relative standing of all the schools, I have not been entirely or even mainly guided by the amount of classical knowledge found in each, but also by a consideration of the general management and discipline, the organization, the methods of teaching, the style of answering displayed by the pupils, and of mechanical arrangements, so far as singly or combined, they are calculated to affect the development of mind, or the formation of character. One of the schools which was unsatisfactory chiefly in regard to the small attendance of pupils, has been closed for the present; two others have been removed to other localities in their respective Counties, and I can only hope they will benefit by the change.

2. *Teachers.*—Although so large a proportion of the schools is thus seen failing to realize the just expectations of the country, the causes of their ill success, whatever they are, must be sought in other circumstances than in any deficiency in the extent or exactness of the teachers' attainments. Only in one instance, and in one branch, was any defect apparent, and this particular failure may possibly have been counterbalanced by general excellence in other departments. All the Masters have, I believe, been students for longer or shorter periods at some University or College, and one half at least are Graduates. An Assistant is employed in the school at Woodstock, which is large, but he receives no Provincial allowance.

3. *Pupils.*—The numbers on the rolls of all the schools taken, with one exception, from the Teachers' Returns, were 393, giving an average to each school of nearly 33.

On the days of my visits there were present in the 11 schools examined, 201 pupils, or an average to each of a fraction over 18. But if we exclude from this calculation the 2 schools with the largest attendance, the average for the others will be reduced to less than 14. The mean average daily attendance to the whole number of scholars enrolled is about 62 per cent.

4. *Instruction.*—I found more or less pupils engaged in the study of Latin in all the schools, and of Greek in 6. French was taught in 5 schools, and some branch of the Mathematics in them all. In 2 are taught the elements of Chemistry in connection with Agriculture. In addition to the above studies, there were pupils in nearly all the schools learning the usual branches of a common school education. In a few instances, children too young or of too slender attainments have been received as pupils, whose admission is likely to retard the progress of others in proportion as it is advantageous to themselves. Except, perhaps, in the case of three schools, no standard of qualification for admission that I am aware of, has yet been set up, or preliminary examination required.

5. *Teaching and Discipline.*—In the modes of teaching there is considerable variety, as might be expected in men of different tastes, possessing various degrees of attainment, and having had no professional training in common. I should say, however, from what I have seen, that no acquirements can compensate for the want of energy in the teacher. Failures were, in some

instances, very apparent from the absence of this important quality, and we would not, perhaps, be far wrong, in ascribing the smallness of nearly all the schools to the same cause. Want of energy, far more than want of knowledge, will also account for the too common method of teaching the classics without attention to history, geography, and other collateral information, without which the study is little more than learning to call things by two or three names instead of one.

As regards the discipline, I am happy to say that I neither know nor have heard of any instance in which undue severity has been employed to maintain order. On the contrary, I am inclined to believe that the government is generally of a mild and kindly character. I wish I could say that it was in every case effectual. Generally speaking, I think it is so; but in one school at least, the Master appeared to me to have lost nearly all control over the boys, who looked and acted as if quite aware of their independence. In one or two others, deficiencies in discipline were more observable in the absence of systematic organization, than in the presence of disorderly conduct among the pupils; for in these cases, what with the easy indifference of the general management, the paucity of numbers, and other depressing and chilling influences, the boys seemed to have become incapable even of the necessary energy to work mischief.

6. *School-houses and Furniture.*—Of the school-houses, not more than three, namely, those of Charlotte, King's, and Restigouche, can be classed as really good. That of Kent might come under this description, if it were only removed from its present site, at the corner of a busy thoroughfare, to some more quiet spot where the pupils could pursue their studies undisturbed by the noise of every passing vehicle. In Carleton, they were so unfortunate as to lose a good house by the late calamitous fire, and the school is temporarily kept in the basement of a church, with the prospect, however, of its being soon removed to a more suitable building. Of the school-house in Gloucester, I shall say nothing further than that it is altogether unworthy of the people and their indefatigable teacher. Of the remaining six, it is difficult to determine which is the meanest; but judging of the ability of the people, from their numbers and wealth to do better things, that of Northumberland may fairly lay claim to the distinction.

As to the furniture, a glance at the table will shew that in point of fitness and condition, it is nearly in keeping with the school-houses themselves. In six of the schools the desks are placed in parallel rows, but in one or two instances they are so rickety as to make one regret they were ever removed from their old position against the walls. I have reason to expect improvements in this particular during the current year.

7. *Books and Apparatus.*—There is, I should say, in a majority of the schools, a pretty fair supply of text-books, and of considerable uniformity, except in the classical department, where the variety was certain to be great, the selection depending chiefly upon the tastes and opinions of individual teachers.

This want of uniformity is not however observable in any particular instance, but only in one school compared with others. There may be but little inconvenience arising from this circumstance, so long as a boy's course of classical instruction is confined entirely to his own school, but should he require at any time to remove to another school, or to the University, the disadvantage of having used text-books, different from those of his fellow-students, will be found embarrassing, alike to himself, his class mates, and his teacher.

With respect to Apparatus, 9 schools are furnished with black-boards, 10 with maps more or less suitable and complete in size and number, and 4 with globes.

Having now noticed in general terms the circumstances in the condition of the Grammar Schools most worthy of attention, I beg leave most respectfully to submit the whole to the consideration of the Legislature and the country.

I have the honor to be

Your Excellency's most obedient and humble servant,

JOHN BENNET.

INSPECTORS' REPORTS.

I. COUNTIES OF KING'S, ALBERT, AND WESTMORLAND.

INSPECTOR DUVAL.

SIR,—I beg to lay before you the following Annual Report of the state of the Schools in the Eastern District, in addition to those of the individual Schools sent in from time to time.

In my first tour of inspection for the year, the number of teachers employed in the District was as follows:—

King's County.

Male Teachers, 1st Class,	11		Female Teachers, 1st Class,	23
“ 2nd “	19		“ 2nd “	9
“ 3rd “	26		“ 3rd “	14
	—		“ Unlicensed,	2
	56			—
				48
Total,				104

Albert County.

Male Teachers, 1st Class,	8		Female Teachers, 1st Class,	10
“ 2nd “	3		“ 2nd “	4
“ 3rd “	15		“ 3rd “	5
“ Unlicensed,	2			—
	—			19
	28			
Total,				47

Westmorland County.

Male Teachers, 1st Class,	7		Female Teachers, 1st Class,	17
“ 2nd “	10		“ 2nd “	9
“ 3rd “	29		“ 3rd “	13
“ Unlicensed,	2		“ Unlicensed,	1
	—			—
	48			40
Total,				88

Whole number of Male Teachers, 132; Female, 107: Total, 239.

On my second tour the numbers were so nearly the same that it is needless to give them in detail.

I am happy to report that the character of our schools is gradually improving in every respect. I could wish, however, that progress was more rapid than it is. There are still many obstacles in the way of advancement that will continue for a long time to try the patience of the friends of education; as I have had occasion to refer to them so frequently they need not be

enumerated here ; sufficient to say that they spring, for the most part, from the circumstances in which our people are placed, and can only be removed by time, and the diligent care of those whose duty it is to promote the educational advancement of this Province. One serious evil is the frequent changes of teachers, but one for which I do not see any remedy that can be supplied by the Board of Education ; an evil that will exist, until *teachers* are more deeply interested in their work, and *parents* more fully appreciate faithful teachers, and are willing to make greater sacrifices than they generally do, to secure their continued services. Though there are noble exceptions, there is still an amount of apathy among the people that goes far to counteract the intentions of the Legislature, as well as to discourage the diligent and intelligent instructor. Were the true interests of their offspring duly considered by parents, there would be, in many cases, more efforts made to secure their regular attendance at school ; and a more ready yielding on little points where a difference of opinion and feeling may arise. I have known more cases than one, where efficient teachers have had their comfort seriously impaired, and their usefulness diminished, by influential families withholding their children, simply because some difference on minor points has arisen between themselves and some others who were proprietors of the school. In such case, the general interests of the school and neighbourhood suffer, but the greatest injury is, perhaps, done to the children of those who occasion the difficulty. Under such circumstances, a sensitive teacher will retire as soon as his term is finished, and the school-house, after a lapse of time, is occupied, it may be, by some inefficient pretender ; the children that were capriciously withheld from his predecessor, are confided to his care, and make, as might be expected, but little progress ; and the self-willed man complains that the teachers we have now are of no use ; that the system is bad, and that we must have a new Law. It would be well, perhaps, if we had one, if that new Law would compel such persons to support efficient teachers when they were engaged by the consent and approbation of the proprietors generally.

I have attended eleven Educational Meetings during the past year, five of which have been those of Teachers' Institutes. Scarcely too much importance can be attached to Teachers' Institutes, and therefore it is to be regretted that they are not more fully attended. It is, no doubt, sometimes inconvenient for teachers to attend, especially for females, or those who reside at a long distance from the place of meeting, and also for others of limited means ; since, in most cases, it must be attended with some expense ; no reflections can justly be thrown upon persons so situated, but it is a matter of regret that frequently teachers residing in the immediate vicinity do not attend, and generally that class of teachers who would be most profited by so doing. It is probably not well understood by many teachers that these " Institutes " are merely " associations for mutual improvement " ; where Essays are read (followed by conversation) on subjects connected with the work of teaching ; in which every one may engage, or not, just as he may feel disposed : so that

while there is nothing to affect the most diffident, all may find something to interest and instruct them. It is pleasing, however, to report, that among the more intelligent teachers these meetings meet with growing favour. The Institute in King's County meets quarterly, and is in a healthy state; at its several meetings interesting and valuable Essays have been read, which have been sometimes followed by spirited discussions. The Albert County Institute, on account of the small number of male teachers in the County, has more difficulty in sustaining itself in vigorous operation. In Westmorland County there is not as yet an Institute formed.

Seventeen new school-houses have been erected during the year, or are in the course of erection in this district. Not quite so large a number as during the two preceding years; probably, in some measure, because the work has been in places where it was most needed; but more, perhaps, on account of the scarcity of money and the pressure of the times, which for a good part of the year has been felt in many parts of the country. Some of these new buildings are spacious, convenient, and elegant; I may mention especially those at Hillsborough and Sussex Corner. During the year, several of the old school-houses have been put into a more comfortable state of repair; in other places they have been abandoned, and other buildings have been fitted up for schools that had previously been used as stores or dwelling houses. These buildings are not generally so convenient as those which are erected purposely for schools, but are very much better than the old houses for which they have been substituted. There are still many old buildings standing that are a degradation to the localities that tolerate them, but their number is gradually diminishing.

There have been in operation during the year, 6 Superior Schools in this district. Three in King's County, at Norton, Westfield, and Upper Sussex; two in Albert County, at Harvey and Hillsborough, for a portion of the year only; and one in Westmorland County.

I have ever regarded the clause in the School Act for establishing Superior Schools, as wise and salutary; and have no doubt that it will be productive of much good in our Province. At present, with regard to these schools, we are only in a state of transition. The good that was contemplated I conceive to be two-fold; first, to encourage young men to engage as teachers who have been favoured with opportunities for obtaining advanced scholarship either at Colleges or high Seminaries of learning; and secondly, to retain the services of those who, though not so favoured as to advanced scholarship, prove to be superior teachers, but who might, without some extra inducement, leave the employment for some other that would be more remunerative. The first of these objects we have, as yet, scarcely attained; young men who have been able to devote a considerable period to study in the higher institutions of learning, have not yet presented themselves. I have no doubt that such will eventually offer themselves, and then the intention of the Law will be more fully secured, providing that they at the same time possess, in an equal degree, the *faculty* for *imparting* instruction; experience frequently shewing

that *advanced scholarship* and *aptness for teaching* do not always meet in the same person. The second object referred to, securing the continued services of tried and successful teachers, is a result to which we have already attained.

I am pleased that we have a cheap edition of Professor Johnston's Catechism of Agricultural Chemistry, for use in our schools. About twelve years ago I introduced it as a text-book into the Provincial Training School, and it continued to be used as such during the time that I stood connected with that Institution. I always found that it was a favourite study with intelligent teachers; the only difficulty was that the work could not be procured in the Province, so as to be introduced by the teachers among their pupils. This desideratum is now supplied, and finds a place in some of our schools. I shall feel great pleasure in promoting the circulation of the Catechism in all places where the teachers and pupils may be at all prepared to use it. I have seen the simple apparatus used by Mr. Mills in the Training School, and am glad that the teachers have an opportunity of seeing at how cheap a rate, and by what a simple process, the experiments may be made that will illustrate so pleasingly and satisfactorily the instructions of the Catechism.

Convinced that the work of Inspection to be useful must be of a practical character, I have endeavoured, from the first, to improve the modes of teaching in all the branches, and am pleased to see, in many places, the good results of the suggestions made from time to time. *Reading* has always appeared to require special attention. In some places a monotonous method of reading prevails; in other schools it is altogether carelessly performed without any effort on the part of the teachers to improve it, while in others there is an affected style, manifesting effort on the part of the teacher, but producing in some cases a ludicrous effect, arising simply from misconception. I have in all cases urged upon the teachers the propriety of adopting a strictly natural style of reading, modulating the voice as the nature of the subject may require. *Penmanship* has received attention, and may be reported as in a state of improvement. I have recommended to many teachers, especially to those who are poor writers, or have difficulty in spelling correctly, the use of Dunton Payson and Scribner's Copy Books; the style of writing being of a useful character. I believe they have also been recommended by one of my colleagues. I have insisted upon the copy books being kept as clean as may be possible and free from blots, and have also recommended the teachers to give their sole attention to the writing while it is going on, allowing the younger pupils in the meantime to occupy themselves with their slates or study their lessons. I found this to be necessary, as many teachers seemed to think that writing was an exercise that pupils could manage by themselves, while they were hearing classes or attending to other matters; the consequence was, that many, especially the younger of the pupils, would, after the first line or two, make mistakes by leaving out letters or running one word into another, and repeat the blunder to the foot of the page; by the continued attention of the teacher this may be entirely avoided. Similar efforts have been made to improve the method of teaching arithmetic, grammar, geography.

&c. &c., enforcing the importance in all cases, of explaining, illustrating, and simplifying the lessons, so as to make them intellectual exercises that might be perfectly understood by their pupils. I have generally found that such suggestions have been appreciated, and, what is better, acted upon. In many cases the teachers deserve great credit for supplying the school-room with black-boards and maps at their own expense,—the parents having neglected to do so.

I have laboured for the improvement of the French Schools, and I hope with some success, but as the teachers, with three or four exceptions, have not attended the Training School, they remain to some extent in *statu quo*. One great difficulty in French Schools is the endless diversity of books, which prevents the teacher from classifying his pupils, if he has the wish to do so. I visited one French School lately, where there were more than 20 pupils, and no two had the same book. I have recently introduced the French geographies, grammar, and arithmetic, into the French districts, which were procured by the Board of Education from Lower Canada, and hope that they will soon find their way into the schools.

I deem it a duty to express my thanks to those gentlemen who, as Trustees of Schools, have rendered me very efficient aid, sometimes by accompanying me to the schools, and at all times by supplying me with all the information needed, accompanied sometimes with advice on local matters which has assisted me materially in the discharge of my duties.

In conclusion, I think we may take encouragement from what has been accomplished, while the improvements still needed will call for the active and united exertions of all concerned in the educational progress; the result, I doubt not, will be satisfactory to those on whom the work devolves, beneficial to the people, and honorable to the Province.

EDMD. HILLYER DUVAL.

JOHN BENNETT, Esq. Chief Superintendent of Schools.

II. COUNTIES OF QUEEN'S, CHARLOTTE, AND SAINT JOHN.

INSPECTOR MORRISON.

SIR,—In submitting to you this my second Annual Report upon the state of the Common and Superior Schools in this District, I have much pleasure in stating that during the year ending the 30th of September, considerable progress has been made. A greater number of well qualified teachers are in the service, and a decided improvement is observable in the management of a large number of the schools.

The following Table exhibits the number and classification of the teachers employed in each County during the year:—

	Males,	11 1st Class.	16 2nd Class.	11 3rd Class.
Charlotte,				
“	Females, 29	“ 21	“ 30	“
Queen's,	Males, 12	“ 15	“ 12	“
“	Females, 16	“ 8	“ 11	“
Saint John,	Males, 22	“ 16	“ 14	“
“	Females, 49	“ 9	“ 10	“
		<hr/>	<hr/>	<hr/>
	135	“ 85	“ 88	“
Teachers employed in 1860,	118	“ 67	“ 112	“
	<hr/>	<hr/>	<hr/>	<hr/>
Increase,	17	“ 18	“ ...	24
Decrease,

But the classification of the teachers unfortunately does not indicate the character of the schools. According to merit they stand thus:—

Charlotte,	23 good.	23 average.	72 inferior.
Queen's,	15 “	10 “	49 “
Saint John,	19 “	29 “	68 “

These include 13 Denominational Schools, whose teachers receive the ordinary Provincial allowance, in addition to the special grants. According to the tests applied to the other schools, they stand thus: 4 good, 4 average, and 5 inferior.

Of the schools enumerated above, 10 had globes, 114 had maps, and 186 had black-boards, but I regret to say a large number of the latter had been but little used. I hope, however, that the lessons which I am enabled, from time to time, to give upon the black-boards, will encourage the teachers to make more frequent use of them.

During the year, I have held fifteen Public Educational Meetings; and in my Lectures, as well as in my private intercourse with the people, I have endeavoured to shew the advantages of associating scientific knowledge with the practice of Agriculture. I have endeavoured to convince heads of families, and School Committees, of the importance of employing only the best teachers to be had; of furnishing their children with a good supply of books; of providing comfortable school-houses, as well as adapting the seats and desks to the tender age of the children; and of placing within their reach the rich intellectual treasures of School Libraries. The interest which the people take in the cause of Education, was often upon these occasions manifested by animated discussions, and sometimes by the more tangible evidence of raising sums of money for school purposes.

Within the year, eighteen new school-houses have been erected, all of which are occupied except four. One, intended for a Superior school-house, has been built at Oak Hill, in the Parish of Saint James, which, when completed, will reflect immense credit upon the enterprising inhabitants of that district. Seventy five old houses have been repaired, more or less, but no amount of repairs can make many of them comfortable. In the three Counties there are 51 good school-houses, 50 average, and all the rest inferior; the first two classes include those rented buildings which are not unsuitable to the purpose.

A large majority of children who attend school in Saint John, Portland, and Saint Andrews, suffer intensely from the want of proper accommodation. In these localities, I find some schools kept in apartments too small even for comfortable sleeping rooms; some in damp basements, from which the light of the sun is almost excluded; and some in garrets, filled with noxious vapors from the rooms below.

Scientific Agriculture.—It is conceded that the permanent prosperity of any country depends chiefly upon its agricultural capabilities, and it is the experience of all intelligent farmers, that the application of chemistry to the operations of agriculture, greatly increases the fertility of the soil, while it diminishes the expense of working it, by indicating the fertilizer most suitable to the production of any particular crop; too much importance, therefore, cannot be attached to the introduction into our schools of the study of Agricultural Chemistry. I rejoice to find that Johnston's excellent Catechism of this subject, has, by order of the Board of Education, been reprinted for the use of our schools. The knowledge derivable from this little work is invaluable to the agriculturalist, and the ease with which it may be turned to account, is so obvious, that a copy of it ought to be in the hands of every farmer in our Province.

A desideratum has also been supplied by the new primary arithmetic, adapted to the decimal currency. I think it is quite worth while to enquire whether even a still greater improvement may not be made in our Readers, than has been made in the arithmetic.

I am happy to be able to state that the six Superior Schools, reported last year, still retain their usual good character. During the summer, a Superior school-house has been erected in Petersville, in which an excellent school is now in operation, under the direction of a young man admirably fitted for the situation.

I look upon these institutions with very great interest; they are accessible to the sons of our farmers, many of whom are, by their circumstances, hindered from participating in the advantages offered by the Grammar Schools and Academies. Even if young persons, seeking to obtain a good education, do not reside in the immediate vicinity of a Superior School, they will often be able to procure board in a country village in which one of these institutions may be situated, when they would never think of removing to a town or a city at a distance, to attend a Grammar School.

A thirst for the higher branches of literature is often excited by the idea that they are attainable, and the desire for them will generally be found to be in proportion to the facilities afforded for satisfying the demand. This is verified in the case of several young persons who are now attending our Superior Schools, and whom I hope to see, at no very distant day, taking honorable positions in the University of New Brunswick.

I have already said that considerable improvement is visible in many schools. This is, particularly, noticeable in the method of teaching the primary branches. The stupid, cruel practice of obliging children to spell

columns of words, of the meaning of which they are profoundly ignorant, is giving place to the more rational one of teaching reading and spelling simultaneously. Except in the lowest of those schools, classed as "Inferior," (which, I am sorry to say, are still too numerous,) a more intellectual cast is given to the school exercises, questions upon the subject matter of the lessons are put and answered, accompanied by explanations of the more difficult passages: the definition and derivation of words are more carefully attended to; spelling sentences, and writing from dictation, are becoming pretty general, and mental arithmetic is beginning to be regarded as a part of the ordinary work. You will readily perceive that, if we can keep these appliances at work for a few years, a great change will be visible in the educational aspect of our country. I have endeavoured to induce parents and teachers to supply their schools with Sullivan's "Spelling Book Superseded," and my efforts have, in this respect, been crowned with considerable success.

A Teacher's Institute is in operation in each County in my District; those in Queen's and Saint John are becoming more and more interesting. Lectures on useful and practical subjects, and particularly on such portions of chemistry as tend to elucidate Professor Johnston's Catechism of Chemistry and Geology, are occasionally delivered before the Institute of Saint John. These and kindred subjects, which constantly come before these bodies, cannot fail of benefiting the teachers themselves, as well as increasing their efficiency in their schools.

I beg to draw the attention of the Board of Education to the importance of supplying each teacher with a programme of the subjects in which the several reading classes are to be examined, specifying the minimum of knowledge expected from each. This simple arrangement would produce much good, and by it a degree of uniformity in teaching would be obtained, for which we may look in vain, under the present system.

Direct taxation for the support of schools, is a subject which, I am satisfied, will receive the most earnest consideration of the Legislature. If assessment were made compulsory, instead of voluntary, as at present, a vast improvement would immediately appear in our Common schools. Some of the most prominent evils with which we have to contend are—

- 1st. Lack of promptness in the payment of teachers.
- 2nd. Want of suitable books.
- 3rd. Irregular attendance of pupils.
- 4th. A superfluity of schools in towns and villages.
- 5th. A scarcity of schools in remote settlements.
- 6th. The wretched state of a great number of school-houses.

Taxation would, at once, sweep off all these plague spots, and render the working of the Department more satisfactory to you, and beneficial to the country.

D. MORRISON.

III. COUNTIES OF SUNBURY, YORK, CARLETON, AND VICTORIA.

INSPECTOR FREEZE.

SIR,—It becomes my duty to lay before you again, a Report of the condition of Education in the Western District.

Since forwarding my last Annual Report to your Office, I have made two circuits through the District, examining Schools, holding School Meetings, &c., all of which have been duly reported. From statistics thus obtained, and information gained, I shall now proceed to report the most interesting features.

During the winter and summer terms, respectively, there were 187 and 202 schools in operation. Of the schools taught in the winter time, 103 were taught by males, and 84 by female teachers; of whom 95 were trained, and 92 untrained; of the first, second, and third class males, there were 28, 22, and 53, respectively; of females, 30, 11, and 43. During the summer term, of males, 31, 28, and 52; of females, 36, 14, and 41, respectively.

The whole number of pupils on Register during the winter term was 5,366; summer term, 6,291.

Sixteen new school-houses have been erected during the year, and three more in course of erection. Two Parish School Libraries have been established during the present year, with some additions to a few of those previously established.

By a comparison of the Statistics of this year with those of last, the following results are obtained:—

	1860.	1861.	Increase.	Decrease.
Whole No. of pupils on Register,	5,712	6,291	579	
Average attendance,	3,038	3,527	489	
Trained Teachers,	99	117	18	
Untrained "	91	85	...	6
Male "	100	111	11	
Female "	90	91	1	
First Class Male,	27	31	4	
Second "	21	28	7	
Third "	52	52	0	
First Class Female,	33	35	2	
Second "	6	14	8	
Third "	51	42	...	9
School-houses erected,	12	16	4	

Thus it will be seen, that notwithstanding the depression in the business of the country, a gradual improvement has been made in the schools of this District. The effort made during the present year to erect new and improved school-houses in many sections of the District is truly praiseworthy.

The erection of every new house, the establishment of every *good* school, sheds an influence far beyond its own immediate locality: proprietors of neighbouring Districts are thereby awakened to a sense of their duty, and a

spirit of emulation is begotten, hence we so often find new school-houses and efficient schools in adjoining neighbourhoods.

No better evidence of the progress of education among any people need be required, than the fact that they are providing new and commodious school-rooms, and manifesting an anxious desire to engage energetic and efficient teachers. I am happy to know that this is evidently the case in many sections in this District.

You will observe by the statistics given, that in this District, sixteen new school-houses have been erected, besides three in course of erection, against that of twelve of last year. Three of these are intended for the establishment of Superior Schools. Of the new school-houses, three belong to Sunbury, four to York, six to Carleton, and three to Victoria.

Notwithstanding this pleasing effort to improve our schools, we cannot close our eyes to the fact, that there yet remain in use many school-rooms wholly unfit for school purposes. These are not always confined to the new, or poorer settlements, but on the contrary, they are often found in the most wealthy and prosperous portions of the country. So wholly unfit and out of repair were some of these buildings, that I have been constrained to recommend that the Provincial grant be withheld until a better school-house should be furnished for the use of the District, notifying the proprietors of the fact, either through the Trustees or teacher, regard being had to the ability of the proprietors to repair or build. The most satisfactory results have thus far followed the adoption of this course.

Superior Schools.—Several changes have taken place in these schools during the year.

The school taught by William W. B. Anderson, at Tobique, Victoria, and that taught by Gideon Freeman, in Dumfries, York, have been recognized as Superior Schools. Both of these schools are taught by clever and faithful men,—the latter will likely close at the end of the year, owing to the scarcity of pupils in the District.

The Superior School of Queensbury, York, has closed, on account of the death of the teacher, Mr. Robert Hallet.

The Richmond school, conducted by Mr. Kilburn, is now taught in a new and commodious house, with passable internal arrangements, and has become both efficient and popular. However, the addition of a few maps, with globes, library, &c., would increase its usefulness,—and a coat or two of paint applied externally would very much improve the appearance of the building.

The same remarks will apply to the Superior School of Kingsclear, York, taught by Mr. Smith. Although the house is not new, yet the internal arrangement is—desks with cast iron supports, and other improvements have lately been introduced. Mr. Smith has proved, by the number of pupils he has prepared for the Training School, that he is a correct, energetic and faithful teacher; indeed the same may be said of most of the teachers of Superior Schools within the District.

Of Mr. Stewart's school, in Mangerville, Sunbury, but little need be said; Mr. Stewart has long since established his character as a very superior teacher. It will be quite satisfactory to know that his school retains its former popularity. Although always successful in everything he undertakes to teach, he is pre-eminently so in teaching the very important art of reading. In this school I have found quite young children in the Second book of Lessons, reading with as much ease and correctness as the most advanced classes in many other schools. When parents and teachers understand that the progress of pupils does not depend on the *number* of books used, but on the *care* and *attention* with which they are *studied*, and *faithfulness* with which they are *explained*, we shall hear less complaint of want of books, and more satisfaction expressed with the progress of the children.

Libraries.—During the year there have been established two Libraries, and an addition has been made to some previously formed. I find but little encouragement in my labours to introduce School Libraries,—scarcity of money has much to do with their non-establishment; and the cause, which is often urged is, that children obtain a good supply of useful and instructive books through the medium of Sabbath School Libraries; there is, no doubt, much truth in this remark, yet I fear it too often arises from the indifference of parents, who have been careful to cultivate a taste for reading, and then neglect or refuse to furnish a proper source from which that taste can be gratified, and hence that love for “Light Literature,” so common among the young at the present day.

To show how much may be done by our teachers, allow me to cite as an example, the effects of the energy and zeal of a young man of Queensbury, York County. He engaged a school and began teaching about twelve months since, in a small hired house in the District, it being without a school-house. He first manifested his zeal in teaching, and convinced his proprietors that he was in earnest, and hence would succeed; he next devoted his energies to the erection of a new school-house, which was completed early in the autumn; since which time he has procured means to furnish his school with a \$30 Library. From a personal examination I found he had been equally zealous in his school. I may add that the proprietors attribute this result to the zeal and energy of the teacher. I would that this example might awaken a determination in the minds of our teachers to do likewise.

New Text Books.—Since the introduction of the new Arithmetic, which has met with the approval of teachers generally, more attention has been given to this subject than previously.

Some effort has been made to introduce “Johnston's Agricultural Chemistry,” but from the short time elapsed since its publication, little progress has been made. Classes will be formed in each of the Superior Schools during the coming winter, indeed some are already formed; and a few of the Common Schools will introduce the work as a text-book.

Teachers' Institutes.—In the Counties of York and Carleton, Institutes have been formed, as stated in my Report of last year. They hold periodical

meetings, which, however, are not attended in the greatest numbers by that class of teachers who would profit most by the exercises, and for whose benefit they are especially designed. Although these Institutes have not accomplished all that was expected, I am nevertheless hopeful that they may yet become as interesting, instructive, and useful, as similar associations have proved to be, in the United States and elsewhere.

Schools in Towns.—It is frequently remarked that schools in Towns and Cities are less efficient than those of the country. This is certainly true of the schools in Fredericton and Woodstock.

There is not a single public school-room in either town. The only ones erected for the purpose are those built by a few of our enterprising teachers, and in these are generally found large and efficient schools. It follows then, that most of these schools are taught in small rented rooms, which imperfect ventilation, insufficient light, and absence of other requisites, render totally unfit for school purposes. An attendant evil, the result of many years growth, is the undue multiplicity of schools—an evil calling loudly for a remedy.

Trustees.—With regard to Trustees, I desire to express my opinion, that the frequent change of these officers, from whatever cause, must and does injuriously affect the efficiency of their services. No sufficient time is allowed them to acquire experience, and the consequence is, that they either neglect to visit and examine their schools, or their want of experience deprives the examination of half its value.

Concluding Remarks.—In the foregoing remarks, I have endeavoured to report the most important features of the school system within the field of my labours. If in some points they seem severe, the only excuse I can plead is, that my duty to the cause in which I am engaged would not allow me to say less. While, no doubt, many improvements yet remain to be made, it is a gratifying thought that we are steadily progressing. Our anxiety for greater progress often blinds the eye to that already made; our impatience for greater perfectness prevents the sight of present attainments. If we could see the schools of past years, and contrast them with those of the present, I am satisfied less complaints would be heard. But with all our improvements, we have still the indolent and incompetent teacher, the apathetic parent, the dilapidated school-house, the wretched furniture, and the antiquated system. All these require to be uprooted, and in their stead to substitute the faithful energetic teacher, possessed with a determination to succeed; parents anxious for a thorough education for their children at any cost; school rooms at once commodious and attractive; furniture the best adapted to preserve the health and secure the convenience of the children.

During the year, much assistance and many valuable suggestions by the friends of education have been given me, for all of which I wish here to return my grateful acknowledgments.

E. C. FREEZE.

IV. COUNTIES OF KENT, NORTHUMBERLAND, GLOUCESTER, AND WESTGOUCHÉ.

INSPECTOR WOOD.

SIR,—You are aware that during the year ended 30th September last, I made two complete tours of inspection through the District assigned me; and from my private and special reports of the state in which each school was found, you have seen that in many instances very gratifying improvement was manifested. Some of the schools reported last year as inferior, now reach above average, and a few have risen from the second to the first rank.

The Superior Schools at Campbellton, Bathurst, Newcastle, and Kingston, Richibucto, I have reported to be in a very efficient state.

The Roman Catholic separate schools at Chatham and Bathurst, are also well sustained, and ably conducted.

The Presbyterian School lately established at Chatham, I have not yet had an opportunity of visiting. An Institution of this kind was very much needed, and judging from the well known character of the teachers employed, and the parties by whose exertions the building has been erected, and the school organized, I may safely venture to predict for it a proud career of usefulness.

The Building is 54 feet in length, and 27 in width, and cost, together with the site about \$3,600. It is two stories in height, each story containing a room 42 x 26 feet, with class rooms adjoining. A portico in front adds to the appearance of this fine structure.

Several school-houses were in progress of erection at the time of my last tour, but I am not prepared to state how many have been completed.

A few Libraries have been provided during the year.

Agricultural Chemistry.—Professor Johnston's Catechism on this subject is now accessible as a class book to our schools. As the population of our Province increases, and the forest retires before the settler, agriculture rises in relative importance. Leibeg says that "perfect agriculture is the true foundation of all trade and industry,—it is the foundation of the riches of States." Nor is this at variance with the doctrine that *labour* is the source of wealth, for perfect agriculture can result only from the skilful application of labour. I shall embrace opportunities of calling attention to this subject, and introducing the study into those schools in which it may be practicable.

Of our schools, 75 are furnished with black-boards, 46 with wall maps.

The following Table gives a view of the number of teachers in the different Counties, and their classification:—

		1st Class.	2nd Class.	3rd Class.	Unlicensed.	Total.	
Kent,	{ Males,	3	4	13	4	24	
	{ Females,	13	4	11	1	29	— 53
Northumberland,	{ Males,	6	8	23	1	38	
	{ Females,	8	1	16	1	26	— 64
Gloucester,	{ Males,	2	3	15	0	20	
	{ Females,	0	1	13	1	15	— 35
Restigouche,	{ Males,	1	3	14	0	18	
	{ Females,	0	2	3	1	6	— 24
Total number engaged during the year,					176

*Trained Teachers.**Untrained Teachers.*

Kent,	Males,	9	Females,	20	Males,	15	Females,	9
North'land,	"	16	"	11	"	22	"	9
Gloucester,	"	5	"	1	"	15	"	14
Restigouche,	"	5	"	2	"	13	"	14
Total Trained Teachers,		69		Total Untrained,		107		

Total Male Teachers, 100. Total Female Teachers, 76.

This Table shows that the Counties nearest the Training School are supplied with the greatest number of Trained Teachers.

In Kent 29 are trained, 24 untrained, although of the 21 French Schools in the County, only eight are in charge of Trained Teachers. Kent, too, claims the credit of having a comparatively greater number of efficient schools than her sister Counties.

While I have to report a steady advancement in the increased number of efficient schools, I cannot conceal the fact that there are still a good many inferior ones, and some so worthless that the sooner their present teachers are displaced, the better.

There are some teachers who, instead of building up and sustaining the interests of a school, carry with them wherever they go, the elements of destruction. Their commencement may be rather promising, but soon all interest in school exercises dies out, and on examination, the little that has been attempted, is found to have been so badly done, that not only has the pupils' time been wasted, but habits have been acquired which probably thwart subsequent efforts and exert a withering influence through life.

The question here occurs, "are such teachers to be tolerated?" To say nothing of the bearing of this question on *teachers* generally, there is the fraud practised upon parents and children, by the patronage of useless teachers.

Parents are not always able to judge of the merits of a teacher. The fact of his having a *license* is perhaps considered a guarantee of competency, and in those localities where children can be spared to attend school only a limited time, instances occur in which they are shut out, not from the opportunity of a school, so called, but from any useful instruction.

The service has in this District been happily relieved of some of these incumbrances during the past year; a few others, under consideration, are continued conditionally. So far as teachers of the class here referred to are subsidized, just so far is the object of Parish Schools defeated.

Other difficulties which embarrass the service and impede progress have been so often pointed out, that I shall on this occasion only refer to one which is occasionally met with, and which in one instance that came under my notice, compelled a deserving individual to give up teaching. It is the neglecting on the part of parents to supply suitable books, slates, &c., for school purposes. In some instances I have found nearly all the pupils, even in large schools, reading individually for want of class books, and perhaps three-fourths of them without slates. The invariable result of this state of things is, that the reading exercises, though engrossing so much of the teacher's time, are most inferior, and accompanied with no mental training; whilst other branches are almost entirely neglected. Parents go to the expense of providing a school-house, and employing a teacher, but through a mistaken economy, they withhold a trifling additional outlay for books and other necessaries. They give the larger amount, and then by refusing the smaller, render the former fruitless and unavailing. When so much apathy exists, I know of no remedy under the present law, but the interference of the Board of Education. Should a supply of these wants be insisted on, as a *sine qua non*, the obstacle would be removed.

Another feature in our school system deserves a passing remark. It sometimes happens that a first or second class teacher is found doing poor third rate work. I refer here not to the *branches* taught, but to the *inefficient mode* in which they are taught. Ought such a teacher to receive more than a third class allowance?

Writing from dictation.—I regard the practice of writing from dictation, so useful as a preparation for business transactions, so necessary to insure correct spelling, punctuation, use of capitals, division of syllables at the end of lines, and writing in parallel straight lines without ruling, that in the course of the past year I have been in the habit of requiring examples of this exercise from the more advanced classes, and noting the result in my private report. I shall continue urging this upon teachers, and shall not be satisfied till it is introduced as a part of the regular business in all our schools, English and French.

If it be true that "boys should learn at school what they will have to practise when they become men," it follows, that the irrational method of deferring writing during the early part of the pupil's course, and then limiting his practice to transcribing lines in a copy-book, ought to be exploded.

French Schools.—In Kent there are 21; in Northumberland 2; in Gloucester 13; total during the year 36.

It will be seen that the French Schools in this District form one fifth of the whole. Some of the teachers of these schools are very competent, and deserve well of their country; others are adopting necessary improvements, but about half of them are inferior. The *inertia* of the French population is somewhat difficult to be overcome, but the first movement in advance is already made in several localities, and subsequent steps will be comparatively easy.

The assessment principle, so necessary to our educational interests, is resorted to only in a few instances in the northern district. Nothing but a compulsory enactment can meet the emergencies of the case.

To those Trustees and other friends of education who have assisted at school examinations, and at Public Educational Meetings, I feel a deep sense of obligation. The ready co-operation of parties interested is of invaluable service to the Inspector.

THOS. W. WOOD.

JOHN BENNET, Esquire, Chief Superintendent of Schools.

REPORT

ON THE

TRAINING AND MODEL SCHOOL FOR 1861.

Saint John, December 31st, 1861.

SIR,—In submitting my Annual Report of the Training and Model Schools, for the year 1861, I have the satisfaction to be able to state, that good progress has been made during the year.

A large proportion of the students admitted this year gave proof at the entrance examinations, of a better acquaintance with the elementary branches. This indicates improved methods of instruction in many of the schools of the country, as well as more careful preparation on the part of the candidates. The benefits of better preparation were shewn at the examinations for licenses at the close of the terms, on which occasions the Examiners expressed the pleasure they experienced in witnessing the improvement which had taken place, as compared with other years. Should this improvement go on as expected, and the efficiency of the Chief Superintendent, and the valuable services of the Inspectors, render it highly probable that such will be the case, a higher standard of scholarship might be secured at entrance, and much of the time now occupied in imparting instruction in the common branches, would then be devoted to higher studies, and to the special work of the Institution—the training of teachers.

A smaller number than usual, of persons desirous of entering the school service, have received permission to attend the examinations for licenses, without attending the Training School. This permission is sought and obtained, chiefly on the ground of superior scholarship, which fails to manifest itself when the trials are made at the regular examinations with the pupil teachers of the Training School. Experience too has shewn, that the persons who profit most by the advantages afforded by the Institution, are those who are best qualified on entrance.

The Terms in 1862 commence as follows :—

The Spring Term, January 17th.
Summer “ April 11th.

The Autumn Term, August 1st.
Winter “ October 24th.

The entrance examinations, which are designed to test the qualifications of candidates for admission, are held on the above-mentioned days respectively, commencing at nine o'clock, A. M. The branches are spelling, reading, writing, grammar, geography, and arithmetic, in which each candidate is expected to pass a satisfactory examination.

The examinations for licenses are held, as usual, in the last week of each Term.

The following are the numbers of Teachers and Candidates who have attended the regular Terms of the Institution in 1861, and of those also who have attended only the examinations for licenses :—

For the Term commencing	January 17,	20	young women ;	8	young men : total	29
"	April 11,	20		12		32
"	August 1,	29		14		43
"	October 24,	27		7		34
		—		—		—
Number admitted in 1861,		96		41		137
" in attendance from 1860,		20		8		28
Attended for re-examination,		13		9		22
" examination only,		1		2		3
		—		—		—
Total number in 1861,		130		60		190

Examinations for Licenses were held on January 11th, 12th, 14th, 15th.
 " " " April 5th, 6th, 8th, 9th.
 " " " June 26th, 27th, 28th, 29th.
 " " " October 18th, 19th, 21st, 22nd, 23rd, 24th.

At these Examinations there were present,—

In January,	15	young women ;	10	young men : total,	25
April,	23		5		28
June,	21		13		34
October,	30		15		45
			—		—		—
Examined for Licenses in 1861,			89		43		132
Now present,	28		7		35
Not examined,	19		4		23
			—		—		—
Total in 1861,	136		54		190

162 candidates for admission were present at the preparatory examinations. Of these, 137 were admitted, and 25 rejected. 20 of the latter were females, and 5 males. Of the 137 admitted as students, 34 had previously taught, 28 in this Province, and 6 in other places ; 5 were pupils of the Model School.

Two young men, after teaching one year under 2nd Class Licenses, have returned to attend the present term, with a view to qualify themselves to teach 1st Class Schools. This is an example worthy of imitation by intelligent male teacher desirous of advancement in the school service. It might be some encouragement to such, to be informed that all the branches required by Law to be taught in the Superior Schools, as well as in all the other Parish Schools of the country, are thoroughly and effectively taught, as far as time permits, at the Training School.

Intellectual Philosophy has received some attention this year. The instruction imparted on this subject is chiefly derived from the excellent Treatise of Dr. Wayland.

Physiology has been added to the branches of the course, and is studied chiefly with reference to the health of teachers and scholars in the school-room. The works of Loomis and Jarvis are used.

Agricultural Chemistry has received more attention than heretofore, though not so much as its value as a branch of education in this Province deserves. The Catechism of Professor Johnston, lately reprinted in Saint John, is the text-book employed. The subject is interesting to the students, male and female, and the interest is increased by the ease and success with which the illustrations are performed, often by the students themselves, with very simple and cheap apparatus.

Many of the female students show no inferiority to the young men in the ability to acquire and communicate much useful knowledge of these subjects, as well as of many other branches of education.

The system of promotion in the school service which has been adopted within a few years, has no doubt contributed to the improvement which is generally believed to be taking place in many of the schools of the country. Apprehensions have been entertained during this year that this system, so hopeful for teachers, and so important to the service, is about to be abandoned. Such a course is most earnestly to be deprecated.

It is not to be expected that all who leave the Training School after an attendance of one short term of twelve weeks, or even after a longer attendance, were the term lengthened, should make equally good teachers, or should, according to their classification, conduct their schools with equal success.—All are not endowed with equal natural abilities, and many seek admittance after very slight preparation. It is scarcely to be hoped that a few weeks' instruction at this, or any educational Institution, could supply all the deficiencies of such persons, and fit them for the successful performance of the duties of a calling which requires much more in the way of preparation than it receives. Hence one of the principal difficulties experienced at the Training School arises from endeavouring to accomplish in a few weeks what requires if any thing like justice were done, a much longer period. In the short time allowed, defects in elementary instruction demand correction, a competent knowledge of many of the common branches is to be communicated, and skill in the art of teaching, the most difficult of all, acquired.

In addition to this we labour under disadvantages in the buildings at present occupied, and earnestly desire better accommodation and greater facilities for imparting and receiving instruction. Were a new and suitable building provided, the aid thus afforded would assist in securing higher and better results, and make our labours in the arduous employment in which we are engaged, more satisfactory.

The branches taught and the plan of study, with some additions and necessary changes, are the same as stated at length in the Report for 1859.

The attendance of the pupil teachers, male and female, at the Model School, for practice in the art of teaching, continues with favourable results.

The instructions in the Model School comprise spelling, reading, writing, arithmetic, English grammar, geography, history, book-keeping, algebra, geometry, mensuration, land surveying, and navigation.

Number of Pupils enrolled, 89; average attendance, 68, or over 77 per cent.

Statistics of the Provincial Training School, 1861.

TEACHERS AND CANDIDATES.—Males, 60; Females, 130; Total, 190.

MADRAS SCHOOL.

Forty Second Report of the state of the Madras School,

*Incorporated by the name of the Governor and Trustees of the Madras School
in New Brunswick.*

During the past year no material change or facts worthy of special notice have arisen, so that the ANNUAL REPORT can necessarily only be a general account of the state and condition of the Schools under the supervision of the Board for the last twelve months.

In the Report of 1860, the Secretary had occasion to remark on the slight decrease in the average number of scholars in attendance at the various Schools, as compared with the corresponding period of the previous year; and that in those Schools where the greatest decrease was observed, viz :— the Central School and Portland, it might justly be attributed to temporary causes, which were then being removed. It is a subject of congratulation that the returns of those Schools during the present year justify the correctness of these remarks, as the Central School has increased its number from four hundred and thirty six to five hundred and two; and Portland three hundred and eighteen to three hundred and fifty five. And it is equally gratifying that not only in these Schools, but also in the others under the control of the Board, the increase in the numbers is one hundred and fifty three, making the whole number fifteen hundred and thirty four, the largest number with the exception of one year that has been returned for the last ten years, and one School, (Chatham,) having been discontinued.

SAINT JOHN.—*Central School.*

As has already been remarked the full compliment of the scholars in attendance at this School was soon regained, the number of boys attending on the 30th June last, being two hundred and seventy, an increase of thirty in that Quarter; and of girls two hundred and thirty two, an increase in the Quarter of fifty eight.

These Schools being under the immediate supervision of the Board, it is unnecessary to make any further remark upon their state than that they, under the effective and judicious management of Mr. Rynd and Miss Vickery, still show the same efficiency and good order which has been hitherto so pleasing and satisfactory.

Since the last meeting of the Board the official resignation of Miss Vickery, as the Teacher of the Female School, has been received, to take effect on the first of October. For a number of years Miss Vickery has taught this School, training and educating the children who have attended her department, with a patient and persevering industry which shewed a conscientious and earnest conviction of her duties, and ever claimed for her the well merited confidence and commendation of the Board; and it is to be hoped that her successor in that important situation will be equally fortunate in her efforts to fulfil the arduous duties which are necessarily involved in the charge and training of so many young children.

PORTLAND.

A very favorable Report of this School by the Visiting Committee was presented by way of Appendix to the Report of 1860; and to which but little can now be added.

This School still continues under the charge of Mr. and Mrs. Middlemore, and who still successfully maintain their well earned reputation. The numbers by the last return were—boys, one hundred and eighty eight, and girls, one hundred and fifty seven; shewing an increase in the former in the year, twenty, and of the latter, seven. The number of new scholars admitted in the last Quarter were forty four males and nineteen females.

CARLETON.

This School, male and female, was also referred to in the Report of the Visiting Committee already mentioned, and in the past Winter this School was found to be in a most satisfactory condition. This was the more peculiarly gratifying from the fact that the attention of the Board has been of late more particularly called to these Schools, and a large sum expended in putting the buildings in thorough order. From the returns, and also from the Report of the Local Committee, these Schools still maintain their efficiency.

By the returns of the 30th June last, in Mr. Ritchie's department there were one hundred and eighteen, and in Miss Peters' ninety one pupils, being an increase of seventy five in both Schools, although in reality in Mr. Ritchie's School the daily attendance at the end of the Quarter was less, owing to the usual drain in the Spring for fishing operations.

Miss Peters in her Report states, "The scholars repeat the Church Catechism on Friday, are constantly exercised in mental arithmetic, and the girls do various kinds of needle and fancy work in the afternoons."

FREDERICTON.

By the latest returns the number of boys in attendance were one hundred and thirty six, not quite so large a number as in 1860, and the number in the female School one hundred and twenty two, being an increase of fifteen during the present year.

In the Report of last year the practice of the local Committee at Chatham, in sending, in addition to the formal certificate, a short Report of the state of the School, was adverted to, and the suggestion thrown out that it might be imitated with advantage by other Committees; and that this suggestion has not been attended to, is unfortunately shewn in this Report, as the formal Reports of the various Schools returned to the Treasurer are, with one exception, the only ones upon which the present Report could be formed.

No Report, as regards these Schools, as in every other instance, has been furnished, but from previous experience, as well as the increase of these Schools, leaving no doubt but that they continue their former efficacy.

SAINT GEORGE.

In the previous Report the vacancy in the School was commented on, but with the hope that before a long period it would be re-opened. This vacancy was, as anticipated, in a short time filled, but unfortunately only by rendering another School under the supervision of the Board vacant.

The services of Mr. George T. Smith, the Teacher of the Chatham School, was secured, and as hereafter stated, his place has not been supplied. Yet it is a satisfaction to find that a material improvement has taken place in

this School under his charge. The number of scholars in June, 1860, being forty five, and in June last, sixty eight, an increase of upwards of fifty per cent.

SAINT ANDREWS.

It would have been gratifying had a Report from the Rev. Mr. Ketchum been furnished, so as to occupy a place in this Report; as this School, the junior on the list, bids fair to be one of the most promising under the charge of the Board. This may be attributed to the excellent qualifications of Miss Hooper, and to the interest and earnestness that the Rev. Mr. Ketchum has shewn in the welfare of this School since its re-establishment. The numbers by the last returns were sixty one, consisting of thirty six boys and twenty five girls. An application has been made by the Local Committee for assistance to repair the building, but the Board wisely adhered to their determination in the present state of the funds, to apply them to the more legitimate purpose of providing proper tuition and the requisite books, and other modes of instruction, leaving to the inhabitants the burden, slight indeed, of providing or repairing the School houses.

CHATHAM.

As already mentioned, Mr. George T. Smith, the former Teacher, having removed to Saint George to take charge of the School at that place, this School became vacant, and although at one time the Local Committee gave encouragement that the School would soon be re-opened, it is to be regretted that their hopes have not been realized.

SHEDIAC.

The state of the building at this place was referred to in the last Report, and it would have been a matter of congratulation had this difficulty been obviated. In July last the Visiting Committee examined the building, and strongly recommended that the School should be removed to or near the Railway Station, where the population is rapidly increasing, and the School become more useful than it has been lately; and should a suitable building be provided at the latter place, it would, no doubt, be a more judicious course to apply the funds in the hands of the Board towards the support of a good and efficient School there.

By the returns of the 30th June, the number in attendance were twenty eight, but Mr. Simpson, the Teacher, has since that time resigned his situation, and the School is now closed.

GAGETOWN.

There has been no local report in reference to this School during the past year. There is nothing of importance to mention, beyond that the attendance, small as it was before, is still less so by the last return, the numbers were only twenty seven.

CLIFTON.

This School in a thriving little Village on the bank of the Kennebecasis, still merits the remarks of the Visiting Committee that it was one of the best taught and best conducted under the patronage of the Board. There has been quite an increase during the past year; the numbers for the last quarter being thirty six. The Reverend the Rector for Kingston reports, "Of the forty two pupils entered on the list of the School during the last Quarter, I found thirty three in attendance when I made a casual visit, and

examined them on the 16th of this month (May.) Their general intelligence, evident interest in the studies, and consequent progress, continue to afford a most satisfactory evidence that the master is both 'apt to teach and most diligent in teaching.'"

The average number of pupils in attendance at all the Schools for the year ending 30th June, as appears by the reported returns, is one thousand five hundred and thirty four, as follows:—

Saint George,	48	20	68
Shediac,	20	8	28
Gagetown,	12	15	27
Clifton,	20	16	36
	848	686	1534

Being one hundred and fifty three more than in the previous year, or an increase of eleven per cent., shewing an increasing confidence in the excellence and soundness of the system of education inculcated by the Board.

By order of the Board.

CHARLES W. WELDON, *Secretary.*

Saint John, N. B., September 20th, 1861.

The Appropriation Committee of the Governor and Trustees of the Madras School having attended to their duty, beg leave to recommend the following scale for the year ending July 1st, 1862:—

Saint John Central School, (Master and Mistress,)	£190	0	0
Portland, " "	90	0	0
Carleton, " "	80	0	0
Frederickton, " "	90	0	0
Saint Andrews, (Master or Mistress,)	30	0	0
Saint George, (Master,)	33	0	0
Shediac, (this grant of £20 will be suspended until the Visiting Committee report upon the fitness of the building to teach therein,)	20	0	0
Gagetown,	25	0	0
Clifton, (Kingston,)	20	0	0
Sussex Vale, (Special Grant,) on the Rector and Wardens certifying that a School House has been built and properly furnished to teach therein,	20	0	0
	£598	0	0

All of which is respectfully submitted.

W. SCOVIL,
JOHN V. THURGAR, } *Committee.*
WM. WRIGHT,

July 2nd, 1861.

WM. WRIGHT,
Treasurer Madras Board.

Saint John, N. B., 1st July, 1861.

The above Account, sworn to before me at the Annual Meeting of the Madras School Board at Saint John, N. B., this second day of July, 1861.

W. G. LAWTON, *Chairman,*
Church Warden of Trinity Church.

MOUNT ALLISON ACADEMY.

PETITION AND RETURNS FROM MOUNT ALLISON ACADEMY.

To His Excellency The Hon. Arthur Hamilton Gordon, C. M. G., Lieutenant Governor and Commander in Chief of the Province of New Brunswick, &c. &c. &c.

To The Honorable the Legislative Council; and

To The Honorable the House of Assembly;

The Petition of the Trustees of the Mount Allison Wesleyan Academy, respectfully sheweth—

That this Institution having a full Board of Instruction and a large number of Students in each of its Branches, is in a state of highly successful operation, and that it has been so during the past year, as may be more fully seen from the Returns hereunto appended.

Your Petitioners, therefore, humbly pray that the usual Grants may be made to aid in the support of the two Branches of the Institution.

And your Petitioners as in duty bound will ever pray.

HUMPHREY PICKARD, JOHN ALLISON, MARNER WOOD, JOSEPH F. ALLISON,	}	Trustees.
--	---	-----------

22. Henry L. Sturdee,	Saint John.	
23. Thomas L. Harrison,	York.	
24. William E. Scovil,	King's.	
25. William S. Neales,	Queen's,	Scholarship
26. A. Rankin Bedell,	York.	
27. J. Delancy Robinson,	York.	
28. J. Colebrooke Carter,	York.	

NON-RESIDENTS.—*Continued.*

Name.	County.	Remarks.
29. John M. Straton,	York.	
30. Alfred Atherton,	York.	
31. Charles A. O'Connor,	York.	
32. John Cadwallader,	York,	Scholarship $\frac{1}{2}$ year.
33. G. Frederick Fisher,	York,	under Section 19.
34. G. E. H. Manners-Sutton,	York.	
35. William H. Tilley,	York.	
36. Vivian W. Tippet,	York,	Scholarship $\frac{1}{2}$ year.
37. Ward C. Perrigo,	Westmorland,	Scholarship.
38. J. Frederick Hale,	York.	
39. Charles H. Paisley,	York,	under Section 19.
40. John M'Beath,	York.	
41. Edward M. Carter,	York.	
42. Charles H. Fowler,	York.	
43. Foster M'Farlane,	Queen's,	
44. James H. Robertson,	Saint John,	under Section 23.

In addition to the 44 Students above named, there have been 92 pupils attending the Collegiate School; and consequently, in the year 1861, the total number of Scholars in the whole University Establishment amounts to 136.

The Degree of Bachelor in Civil Law was conferred on—

Frederick E. Barker, A. M.

The Degree of Bachelor of Arts was conferred on—

William Walker, Henry L. Sturdee,
 Thomas L. Harrison, William S. Neales,
 A. Rankin Bedell.

The general state of the University since the commencement of the Academical Year has been satisfactory.

I have had the hearty co-operation of the Professors in charge of the Departments of Classics, Natural Science, and Modern Literature, and have pleasure in bearing testimony to their abilities, and the zeal and energy with which they have laboured in the discharge of the duties of their respective offices.

It has been considered desirable to institute a systematic course of instruction in History, and another in English Language and Literature. The first will include a series of Lectures on Ancient and Modern History and Chronology, and its object will be to trace the growth of modern civilization, and, especially, to illustrate the origin and leading features of the British Constitution. The aim of the second will be to enable the Student to write and speak his own language with correctness and elegance, to cultivate in him a literary taste, and to impart to him a knowledge of the history and literature of his native tongue. Both of these courses are now being taught in the University.

The conduct of the Students has at no time been more exemplary; and it affords me much satisfaction to be able to say that they have in general manifested a laudable degree of attention to their duties. Among them are to be found representatives of nearly all the religious denominations in the Province; and their mutual intercourse has been marked by harmony and good feeling.

COLLEGIATE SCHOOL.

Head Master,	George Roberts, Esquire, A. M.
Second Master,	Reverend Charles G. Coster, A. M.
Assistant Teacher,	Mr. Joseph Smith.

Total number of Pupils in the year 1861, 92.

Of these *all* have received instruction in Reading, Writing, Arithmetic, Grammar, Geography, and History,—19 in Greek,—74 in Latin,—28 in French,—35 in Mathematics,—and 27 in Natural Philosophy.

The average age of the pupils was upwards of 14½ years.

Three Masters are constantly engaged in the School, and the University Professor of Modern Languages gives the pupils instruction in French.—The Masters have earned a deservedly high reputation as experienced and successful teachers; and pupils from various parts of the Province resort to the School for education. The Reverend Mr. Coster boards a limited number of this class of scholars in his own house; but more ample accommodation is much needed, and the Senate will probably consider in what manner this want can best be supplied.

I have the honor to be
Your Excellency's most obedient servant,

W. BRYDONE JACK, *President.*

University of N. B., February 14, 1861.

THE FIRST
ANNUAL REPORT
OF THE
CROWN LAND DEPARTMENT,

For the Year ended 31st October, 1861.

HON. JOHN M'MILLAN,
SURVEYOR GENERAL.

LAI D BEFORE THE LEGISLATURE BY COMMAND OF HIS EXCEL-
LENCY THE LIEUTENANT GOVERNOR.

PRINTED AT THE "REPORTER" OFFICE, FREDERICTON.
1862.

FIRST REPORT

OF

THE SURVEYOR GENERAL

OF NEW BRUNSWICK.

To His Excellency The Honorable ARTHUR HAMILTON GORDON, Companion of the Most Honorable Order of Saint Michael and Saint George, Lieutenant Governor and Commander in Chief of the Province of New-Brunswick, &c. &c. &c.

MAY IT PLEASE YOUR EXCELLENCY.

I am directed by the Regulations framed by the Lieutenant Governor in Council on the 22nd day of April, 1861, to submit an ANNUAL REPORT of the transactions of this Department, during the past Fiscal Year.

By the Act of Assembly commonly known as the "Civil List Act," passed in 1837, it is directed that within fourteen days after the commencement of each Session of the Legislature, a detailed account of the Receipts and Expenditure of the Casual Revenue during the preceding year, shall be laid before the Legislature. This enactment has continued unaltered until the present time, and in conformity with its provisions there has been every year prepared in this Office, and submitted to the Legislature, a full and detailed account of the monies of every kind paid to the Receiver General during the immediately preceding year, upon transactions connected with this Department.

The clause of the Regulations of April, 1861, which directs that an Annual Report of the proceedings of this Office shall be submitted to Your Excellency, does not alter the former practice. A full and detailed account will of course appear as heretofore in the Appendix to the Journals of the House of Assembly, which with this Report will exhibit the actual transactions of my Department during the past year.

With these introductory remarks, I now proceed to submit to Your Excellency an account of what has been done in and through the Crown Land Office, between the first day of November, 1860, and the 31st day of October, 1861.

The general monetary transactions of this Department may be divided into three classes, and they are so enumerated in our Annual Returns, viz,

- 1st. Relating to Timber and Lumber.
- 2nd. Relating to Land.
- 3rd. Relating to Contingent Receipts, or those which cannot be classed under either of the former heads.

These are subdivided into four classes, viz.:

- 1st. Receipts on account of the Casual and Territorial Revenue.
- 2nd. " " " " Sinking Fund.
- 3rd. " " " " Fishery Fund.
- 4th. " " " " Labour Fund.

1st. Anterior to the Year 1837, all monies received for Sale, Lease, &c., of Crown Lands or Timber growing thereon, within the Province, were placed to account of the King's Casual and Territorial Revenue, and disposable by His Excellency the Lieutenant Governor with advice of his Council, but under Instructions from the Imperial Government.

In 1837, the Law known as the "Civil List Act" was passed, and thenceforward all receipts on account of the Casual Revenue became the property of the Province, but separate and distinct from its ordinary Revenues. From these Receipts a large portion of the Contingent Expenses of the Public Departments are paid, on Warrants issued by authority of the Lieutenant Governor, and directed to the Receiver General, the surplus only being paid over to the Provincial Treasury.

All monies received for Lands and Timber, except what are credited to the Sinking Fund and the Labour Fund, (to be hereafter explained,) are still placed to account of the *Casual Revenue*.

2nd. In the year 1856 an Act of Assembly was passed, to provide Funds for the construction of Railroads in this Province, by Loans to be procured by His Excellency the Lieut. Governor, in which Act it was directed, that after the Road shall have been completed within any County, the nett proceeds of Sales of Crown Lands and Timber within that County should thenceforward be set apart as a "Sinking Fund" to be devoted to the re-payment of such Loans.

The Road from Shediac to St. John having been completed, the receipts from Land and Timber during the past year for the Counties of Westmorland, Kings, and St. John, have consequently been placed to account of the *Sinking Fund*.

3rd. By Act of Assembly for regulating the Sea and River Fisheries in the Province, and by Orders in Council founded upon that Act, it is directed that the proceeds of Leases of Fishing Stations, and of Annual Sales of the right for the current year to cut Grass on certain Wild Meadows in the vicinity of those Stations shall be credited to the *Fishery Fund*, the expenditure of which is directed by the Executive Government for objects connected with the Provincial Fisheries.

4th. Applicants for Land under the Labour Act have permission to pay either in work upon the Roads, or in money; (but without relaxing the conditions of settlement and cultivation,) the sums of money received from such applicants are credited to the *Labour Fund*, and are designed to be expended by direction of the Executive in work upon Roads in the District where the Lands are situated.

The preceding observations will explain to your Excellency the nature of the sub-division of the Accounts kept in my Office for monies paid to the Receiver General upon operations connected with Crown Lands, Timber and contingencies, the details being fully exhibited in my Annual Account.

The transactions during the past year under the first head (Timber and Lumber,) comprise only two classes, viz: The mileage received for licenses for *Timber Berths*, and Fines exacted for Timber or Lumber cut on the Crown Lands without license, or the *net* proceeds of sales of Timber and Lumber so cut and seized and sold under the Act of Assembly.

In examining the receipts for the Casual Revenue and for the Sinking Fund for Annual Licenses, it is necessary to a just appreciation of the subject, to consider, that upon all Wood sent from this Province, a certain fixed rate of duty is exacted, known as the *Export Duty*, no part of which is credited either to the Casual Revenue or to the Sinking Fund.

As the Treasury Accounts do not show what portion of the Timber and Lumber, &c. exported, has been brought from Crown Lands, and what from Granted Lands, it is obviously impossible to arrive at an accurate conclusion as to the actual Receipts belonging to either Fund. for Timber transactions upon Crown Lands, in any one year.

The present system of granting licenses for lumbering operations, was established by Act of Assembly in 1843, by the substitution of a rate per mile for the ground comprised within a timber berth, instead of the former practice of exacting a certain rate per ton, for squared Timber, and per thousand superficial feet for Logs, cut within the limits of a Berth during its continuance.—The annual License under each system expired on the first day of May after it was issued.

The existing Rule is for an upset rate of Four Dollars currency for every square mile comprised in a Berth ; such upset rate being paid as a deposit when the application is presented. No Berth is granted containing more than ten square miles, nor can any less than eight dollars be received as deposit on a Petition, however small may be the space to be licensed, which is considered to be for two square miles.

All Berths are sold by Public Auction (after fourteen days public notice in the Royal Gazette) and awarded to the highest bidder, the depositer, if he be not the purchaser, being repaid the amount of his deposit.

The Timber transactions for Licenses during the past fiscal year, comprise 3 classes, viz :—1st. Those which were sold between the 1st day of November, 1860, and the first day of May, 1861, expiring on the first day of May, 1861. 2nd. Those which were sold between the 1st day of May, and the 31st day of October, 1861, expiring on the 1st day of May, 1862 ; and 3rd, Applications for License entered and deposit paid in October, but too late to be advertised and sold within the Fiscal Year.

In the first class, there were 144 Licenses, covering 356½ square miles, at an average rate of \$5 . 22 per mile, and amounting to \$1838 . 22.

In the second class, there were 723 Licenses, covering 2490 square miles, at an average rate of \$4 . 29 per mile, and amounting to \$10571 . 20.

The first class ranged from \$4 to \$75 per square mile ;

The second class Do. \$4 to \$50 Do.

the details of each being fully exhibited in my annual Return.

The third class consists of 30 applications for 66½ square miles, the prescribed deposit of \$4 per square mile having been paid at entry ; and the berths being sold in November 1861, the advance on mileage, (if any) will be exhibited in the next annual return.

The transactions relating to Fines, &c., upon Timber, and Timber cut without License, have been but few, and these present nothing but the ordinary features of trespasses upon the Public Domain.

By the Regulations now and for many years existing, the Seizing Officer is authorized to retain for his services, twenty-five per centum of the sum received on seizures, the balance alone being paid to the Casual Revenue.

The nett receipts from this source have been \$427 . 13.

The total receipts within the Fiscal year, on account of Timber and Lumber have been :—

For the Casual Revenue, -	-	-	\$12,836 55
“ “ Sinking Fund, -	-	-	394 00
			Total, \$13,230 55

The transactions during the past year, under the second head, also comprise two classes, viz :—Payments in full, or in part, for Land sold within the year, and Instalments of purchase money, received within the same period, upon Land sold in former years, of which a part only of the purchase money was paid at the time of Sale.

The original system of *Granting* Crown Lands in New Brunswick, was upon payment of certain Fees, varying in amount according to the number of persons included in each Grant, which Fees, (established by the Lieutenant Governor in Council, and published in an “Ordinance Fee Table”) were distributed in certain proportions amongst the chief officers of the Provinieial Government, viz :—The Lieutenant Governor, the Provincial Secretary, the Attorney General, the Surveyor General, the Auditor General, and the Receiver General.

This system, with occasional modifications, continued in force until 1827, when Grant Fees were abolished, and Lands ordered to be sold upon conditions prescribed by the Secretary of State for the Colonies, such sales to be conducted by the Commissioner of Crown Lands and Forests, which office had been but recently introduced into this Colony.

It is unnecessary to enumerate the changes made from time to time in the Conditions of Sale between 1827 and 1837, because they represent a kind of transitional period amongst a small population, when the inhabitants having an unlimited field of selection within the boundless Forests of the Province, were unwilling to pay more than a nominal sum for Lands which lay waste and uncultivated around them, while the Secretary of State, entertaining a different view of the question, believed that a moderately high price for Crown Lands would cause the purchaser to view his acquisition with greater satisfaction than if he had received it for a nominal sum.

A series of events, the examination of which is unsuited to this Report, ended in a contract between the Imperial Government and the Provincial Legislature, by which, in 1837, His Majesty surrendered to the Provincial Government the entire control and income of the Crown Lands and Revenue within the Province, in exchange for an annual Grant, sufficient only to pay to the Officers of the Provincial Government the salaries which they were then receiving. A Code of Regulations was thereupon established by the Lieutenant Governor in Council, for the disposal of Crown Lands, Timber, &c., and abolishing the office of Commissioner of Crown Lands, his duties being then assumed by the Executive.

An alteration was immediately afterwards made in these Regulations, by which every applicant for Land was required to deposit twenty shillings currency with his petition, to be credited as part of the purchase money, or forfeited to the Revenue if he did not complete the purchase ; and it is a matter worthy of the consideration of the Government whether this rule should not be resuscitated.

These Regulations continued in operation until 1842, when a new set of Rules were adopted, which, for ordinary Auction Sales, have continued almost unchanged until the present day, and are to the following effect:—

All Lands must be sold by public Auction, except Sales under the *Labor Act*.

Lands must be surveyed before they are offered for Sale.

They shall be sold to the highest bidder, who (in cases of competition) must pay the purchase money, or an instalment thereof, before another Lot is offered, and if he fail to do so within a reasonable time, (generally not exceeding ten minutes) it is again to be offered at the upset price, excluding bids from the defaulter.

No person can purchase Land, payable by Instalments, if he be already indebted to the Crown for Land; and no person can have more than one hundred acres, payable by instalments, but when the balance is paid, he again becomes eligible to purchase by Instalments.

If payment be made by Instalments, one (or a fourth part of the purchase money, must be paid at the time of sale, and one in each subsequent year, with Interest from the time of sale, until all be paid.

An Act of Assembly empowers the Government, through its agents, to recover by Action before two Justices of the Peace, each Instalment with Interest and costs, as it becomes due.

To encourage purchasers to pay in full, a discount of one-fifth (or twenty per centum) upon the price of the Land is allowed if the balance be paid at the time of sale.

The upset price (except in extraordinary cases) is sixty cents currency per acre.

The Sales are held by the Local Deputies in the several Counties, on the first Tuesday in each month, the Lands to be sold having been advertized in the *Royal Gazette* during the preceding month, by description of Locality, &c.

There have been sold within the past year, on account of the Casual Revenue:—

14,343	acres, for which payment was made in full,	\$8917 49
21,948½	“ payable by 4 equal annual Instalments,	13375 08
• 36,291½ acres.		Total Sales for Casual Revenue, \$22292 57

There have also been sold within the same period on account of the Sinking Fund:—

3961	acres, paid (less discount) at the time of sale,	\$2446 60
2531	“ payable by Instalments,	1518 60
6492 acres.		Total for the Sinking Fund, \$3965 20

Making a general total of Sales for the Casual Revenue and the Sinking Fund within the Fiscal year of 42,783 acres, at an average rate of \$0.61 15-42 currency per acre.

Certain tracts of Land had been destined for *Towns* at the first settlement of the Province, some of which,—as Parr Town, (now known as Saint John, East,) St. Andrews, and Fredericton,—were immediately surveyed, and laid off into Lots of various dimensions and forms; these were almost wholly acquired by individuals under the *Fee System*, within a few years after their Survey.

Other tracts throughout the Province were also set aside by the Government for future *Townplats*, and so described and sub-divided upon Skeleton Maps, without actual Survey, the greater number of which have been absorbed in larger Surveys and granted as parts of farms.

The commercial and social wants of an increasing population, and the subdivisions of Counties, made it necessary to survey and establish other Town Plats, the most recent of which are in the County of Victoria, one on the Peninsula of the Grand Falls, and the other at the confluence of the Rivers St. John and Madawaska. They are known by the names of “Grand Falls,” (or Colebrook, West,) and “Edmunston.”

Five Lots in these two plats have been sold within the past year at rates varying according to locality from \$60 to \$200, and amounting to \$520.

Four lots in the Town plat of Dalhousie (surveyed in 1827) at the mouth of the Restigouche River, have been sold, at the price \$4 each. The whole value of Town lots thus sold within the year being \$536.00.

All receipts except those derived from Timber or Land, are classed under the general head of contingencies, and consist of sundry items, all of which belong to the casual Revenue account.

The amounts received during the past year from miscellaneous sources are classed under the heads of Surveys of Land, Wild Grass, and Land and Timber Plans, each of which I now proceed to explain.

It has long been customary to cause surveys to be made of tracts of wilderness land ranging from one thousand to ten thousand acres each; and divided into lots of one hundred acres. The cost of those surveys vary according to circumstances from two dollars to five dollars per lot, and is paid by Government. When such lands are sold, the purchaser is required to repay to the Government the amount chargeable against his lot for the survey, which is credited in the annual account as “Surveys of Land.”

On the margins of streams and in some other places throughout the Province, there are found portions of *Meadow Lands*, which have not been granted, and which being in a wilderness or uncultivated state, produce a coarse kind of grass that is quite suitable for some purposes in farming and lumbering.

The intrinsic value of such grass is generally so insignificant that it would scarcely be expedient to view it as a source of Revenue were it not necessary

to invest some individual with a legal right to cut the grass growing upon each of those meadows during the current year, in order to prevent the collisions which would otherwise occur. The right of cutting such grass is usually sold (after due notice) in July or August of each year, by the Local Deputies, in the several Counties, and the proceeds are annually credited in the Contingent Account as "*Wild Grass or Meadows.*"

Since the first of March last, every Plan, Tracing of Plan, Maps, or other Documents of a similar nature, that may be sought from the Office by persons desiring information relative to Lands, or Timber Berths, are charged at a rate depending upon the time occupied in their preparation, which is paid to account of the Casual Revenue; and the Receipts for the past year from this source have been credited as "*Land and Timber Plans.*"

The Contingent Receipts during the year have been:—

Surveys of Land, - - - -	\$181 08
Wild Grass, - - - -	42 17
Land and Timber Plans, (1st March to 31st Oct.)	80 97
	Total, \$304 22

Receipts on account of the "Fishery Fund" have been only \$3.86, and Receipts for the Labour Fund \$242.59; the latter comprising not only payments by applicants where no previous payment had been made either by Labour or money, but also balances due on lots which had been partly paid for in former years.

Having thus submitted to Your Excellency, an explanatory abstract of the monetary transactions of my Office, during the past fiscal year, I now proceed to report the transactions that have occurred within the same period, irrespective of what is embodied in the annual accounts; these may be described as transactions relating to

- 1st. The Labour and Commutation Acts.
- 2nd. Reception of Applications for Land.
- 3rd. Orders issued to Deputies to survey such Lands.
- 4th. Returns to such orders.
- 5th. Lots offered for sale and proportions of such lots sold and unsold when offered.
- 6th. Drafts and Plans of Grants forwarded to the Secretary's Office.
- 7th. " " " " to the Attorney General.

In the year 1849, two Acts of Assembly were passed to promote the Settlement and Cultivation of Wilderness Lands, &c; these are familiarly known as the Labour Act and Commutation Act; originally distinguished as Act 12 Victoria, Chapter 4, and Act 12 Victoria, Chapter 19. Reproduced in the Revised Statutes as Title 3, Chapters 8 and 9.

The Commutation act was designed to encourage and assist poor settlers who had purchased Crown Lands, and were residing upon and improving the land so purchased—having paid one or more instalments, but being still indebted for some portion of the purchase money; a person thus situated is

permitted to do work upon the Public Roads in payment of the balance due upon his land, to the amount of twelve pounds, the debt being previously reduced to that sum by payment of money. This Act, (12 Vic. Cap 19,) contained in itself almost all the provisions necessary for its operation, and the very few Regulations in Council, which were deemed expedient to give it effect, have never been altered; but this most generous boon has been accepted only to a very limited extent.

The value of labour performed during the past year by persons indebted for Instalments on Land as reported to my Office, amounts to \$525.00

The Act 12th Victoria, Chapter 4, (Revised Statutes, Cap. 9,) although retaining its original form of enactment, has been often and materially changed by the Regulations established in Council to direct and control its operation. Liberal to excess at the commencement, the Executive discovered from time to time, such gross abuses in its administration, and such a perversion of its spirit by applicants, that they have been compelled by a sense of duty, not only to punish many of the Commissioners for maladministration, but also to adopt more stringent rules for the guidance of applicants, the last of which directs that in future, the allegations in petitions for land under the Labour Act, shall be verified by oath of the applicant, thus subjecting him to the possibility of a prosecution for wilful and corrupt perjury, if the allegations of his petition be deceptive.

There still is an impression in the minds of many that either by misrepresentation or collusion, a considerable amount of Labour has been returned which either has never been performed, or paid at rates much higher than ought to have been allowed; and it yet remains for the Executive to prepare some measure by which it may be clearly ascertained what work has been and is being done under the Labour and Commutation Act, and also for securing trustworthy certificates of residence and improvements.

The Labour Act Regulations at present existing are as follows:—

Any male British subject, not under 18 years old, and neither owning, nor at the time being interested in any other land, may purchase a lot of land, containing not more than one hundred acres.

His application for such land must state his name and place of residence; the locality, or description of the land; that he is a British subject; upwards of 18 years of age, &c.; and whether or not the Lot is improved: all this to be attested before a magistrate.

When the approval of his Petition is published in the *Royal Gazette*, (but not sooner,) the Commissioner appointed under the Labour Act for the District in which the land is situated, may assign work to him upon the Road or Roads, which are nearest to the lot so applied for, and allow such rate of payment for the work as the Commissioner may deem sufficient.

If within one year after the publication of the approval, the applicant shall not have cleared, at least two acres of his lot, and paid in labour or in money

at least one fourth part of the price of the lot, his right of possession shall expire, and the approval be cancelled.

Having made the necessary clearing and payment within the first year after approval, he is expected to pay in each of the 2nd, 3rd, and 4th years, at least one quarter of the price of the lot, but he may perform labour or pay money for the whole amount at an earlier period.

He must within five years from the date of approval, have cleared and cultivated not less than five acres of the lot approved :—must have then actually resided upon the lot for twelve months or upwards, immediately preceding the date of the certificate ; and have paid in labour (or money) and commission, the full amount charged by Government for the land ; otherwise the sale may be cancelled, and the payments already made be forfeited.

He is not permitted to remove or suffer (by his own consent) to be removed from the land any Timber, Lumber, or wood of any description, except what may be necessary for fuel for his house *upon the lot*, or for the bona fide purpose of clearing the land for cultivation, until he shall have complied with all the conditions requisite to entitle him to a Grant.

Any fraud or misrepresentation in his Petition will cause his approval to be cancelled, and his payments made, (if any) to be forfeited.

The price of land under the Labour Act is sixty cents or 3s. per acre and cost of Survey, (if already done at the cost of the Government,) one twentieth part of which, (or 5 per cent) is to be paid to the Commissioner, and the balance paid either by labour or in money.

The facilities for settlement which are afforded by the Labour Act must be apparent to all ; as the settler in performing labour to pay for his land, is at the same time opening a road for transit to or through his own property, and by such means materially increasing its value.

The number of applications that have been approved under the Labour Act between the 1st November 1860 and the 31st October 1861, were 774, representing a quantity of 74,486 acres, and distributed as follows :—

COUNTY.	APPLICATIONS	ACRES.
Restigouche,	29	2841
Gloucester,	44	3734
Northumberland,	19	1600
Kent,	48	4718
Westmorland,	28	2732
Albert,	65	6336
St. John,	14	1356
Charlotte,	37	3383
Kings,	41	3883
Queen's,	56	5323
Sunbury,	26	2530
York,	153	14978
Carleton,	148	14640
Victoria,	66	6432
	774	74486

The number of approved Petitions up to 31st October, 1860, and the number of these applicants who up to the same time have paid in full or in part for lots approved to them, are as follows :

1st. The total number of approved Petitions under the Labor Act, to the 31st October, 1860, have been	8397
The number of these applicants who up to the same time have paid in full or in part for the Lots approved to them are	3152
	<u>5245</u>

Showing that nearly 5-8ths of the applicants have either abandoned their applications, or permitted them to expire by non-compliance with the Regulations within the prescribed period.

2nd. To shew to Your Excellency what has been the practical operation of the Act, so far as relates to the annual payment by money or by labor, of a sum equal at least to one-fourth of the price in each year until the whole be paid, I submit the following statement, compiled from the Documents in my Office, the year named being in every case that in which the last payment was made, there being still a balance unpaid upon each lot here enumerated.

1850.	-	-	10 Lots,	-	-	950 Acres.
1851.	-	-	112 "	-	-	10809 "
1852.	-	-	51 "	-	-	4674 "
1853.	-	-	70 "	-	-	6768 "
1854.	-	-	39 "	-	-	3717 "
1855.	-	-	59 "	-	-	5677 "
1856.	-	-	53 "	-	-	4959 "
1857.	-	-	54 "	-	-	5276 "
1858.	-	-	75 "	-	-	7288 "
1859.	-	-	126 "	-	-	11980 "
1860.	-	-	148 "	-	-	14457 "

Total, 797 Lots, 76555 Acres.

3rd. The object of the Labor Act was to secure actual residence and improvement upon the lots approved to Petitioners, and the whole tenor of the Regulations through all their changes kept this purpose perpetually in view ; but there are 361 lots that have been paid for in full before the year 1858, and no proof has yet been exhibited that the parties either reside upon, or have improved a single acre of the lots for which they have paid, and for which no grants have issued. The details are :—

COUNTY.	Lots.	COUNTY.	Lots.
Restigouche.....	2	Charlotte.....	15
Gloucester.....	2	Kings.....	44
Northumberland.....	1	Queens.....	102
Kent.....	12	Sunbury.....	28

By the Regulations in Council of 22d April, 1861, every Commissioner for Labor performed in payment for Land, is directed to make Return of such Labor to this Office on or before the 15th day of December, in each year. I have received a number of such Returns, but no doubt there are some defaulters, and their Returns must therefore be embodied in the next Annual Report.

The Returns already received exhibit the following state of facts under the Labour Law :—

2	In the County of Restigouche,	44	persons have done work to the value of	\$670 35
2	“ “ Gloucester,	24	“ “ “ “	602 61
0	“ “ Northumberland,	—	“ “ “ “	(No return.)
0	“ “ Kent,	—	“ “ “ “	(No return.)

—		—		
27		294		\$9276 97

A Register of Applications now kept in the Office, shews that between the first day of March and thirty-first day of October, 1861, there were 657 Petitions received for Land to be sold by Auction, and 821 for Land under the Labour Act, in all 1478 Petitions.

Although the absence of a Register for the months of November, December, January, and February, does not enable me to state with absolute certainty what number were received in those months, yet I believe that the numbers do not vary to any appreciable extent, from the subsequent average numbers—the entire number of applications during the year may therefore be stated as 900 for Auction, and 1200 for Labor.

Between the first day of March and thirty-first day of October, 1861, 811 Orders to Survey Lots of Land have been issued out of my Office, a considerable number of which were renewed orders, where those originally issued had expired by the Regulations of April, 1861.

It had not been customary before the 1st of March to number the Orders issued, and I can therefore only state as an approximation to the actual number, that at least 200 had been issued in the previous four months, making a general total of say 1000, for an average quantity of 250 acres in each order—250,000 acres; many of these orders may never be executed.

The application is received; the order of survey is issued; the applicant is notified of its issue; the lot is secured to the applicant for a limited period; but as no forfeitable or other deposit has been exacted; and as the preparation of his petition cannot have cost him more than 50 cents, he has but little inducement to incur the expense of a Survey, if that can be avoided and the lot be still secured in his name. At least one half of the applications for unsurveyed Land are suffered to expire without Survey; and it too frequently happens, that when Surveys are made, *the expense remains long unpaid to the Deputy, who has no power to recover it from the applicant.* These are additional reasons why a deposit should be demanded when application is made.

There have been received in this Office during the fiscal year, 420 Returns to orders of Survey as follows:—

COUNTY.	RETURNS	PERSONS	ACRES.

I would here beg to explain to Your Excellency that the preparation of a Grant for land in this Province is somewhat laborious and complex:

In the first place a Plan or Diagram of the lot to be granted, must be prepared in my office from the Returns of Survey, but showing more clearly its connexion with adjoining lots; three copies of such Diagram are necessary—

one for retention in this office, one to be attached to the finished Grant, and one to be attached to the Registered Copy in the Secretary's Office.

A description in writing of the lot, agreeing with the Plan, and enumerating the several courses and distances, &c., of the boundaries, is then prepared,—this is the first stage. The second stage is to submit the Plans and description to the Attorney General, to be by him examined for the purpose chiefly, of ascertaining whether the interests of the Sovereign or of the Country, would be compromised by issuing the Grant. His fiat being endorsed on the Draft, it is returned to my office, where the description is copied into a Record Book, provided for that purpose.

The two Plans and description are then transmitted to the Secretary's Office, there to be engrossed; sealed with the Great Seal of the Province; signed by Your Excellency; countersigned by the Provincial Secretary; and registered in proper form; when it is at last ready for delivery to the Grantee.

Reverting to my remarks (page 10) explanatory of the Contingent receipts for "Surveys of Land," I have to state that within the past three years the Government have caused 14 tracts to be surveyed and reserved for *actual settlement* under the *conditions* of the Labour Act.

The tracts, thus surveyed, are situated as under:—

COUNTY AND TRACT.	ACRES.
In the County of Carleton, a tract called Johnville,.....	10,500
" " Sunbury, a tract on Newcastle River.....	5,000
" " Do. a tract near Hardwood Ridge,.....	6,000
" " Queens, a tract near Salmon River,.....	15,600
" " Do. a tract at Rider's Brook,.....	10,000
" " Westmorland, a tract at Never's Brook,.....	10,000
" " Carleton, a tract called Glassville,.....	10,000
" " York, a tract at the Nashwaak,.....	3,000
" " Gloucester, a tract called St. Louisa,.....	4,800
" " Kent, a tract at the Head of Richibucto River,.....	5,000
" " Albert, a tract called Lumsden,.....	5,200
" " Charlotte, a tract near South Oromocto Lake,.....	7,000
" " York, a tract on the River Nackawicac,.....	21,000
" " Carleton, a tract called Knowlesville,.....	17,008
Total,.....	131,100

Petitions in the prescribed form, have been presented by a number of applicants in Glassville, Johnville, and Knowlesville, in the St. Louisa tract;—in the tract on Newcastle River;—in the tract at Nackawickac;—in the tract at the Nashwalk; and in the tract near the South Oromocto Lake.

I have now submitted to Your Excellency every thing that occurs to me, relating to the transactions connected with my Office during the past fiscal year; and if it should be thought that I have been too prolix on some points, I would beg to state, that now for the first time, since the creation of this Province, has an Annual Report been required from the Surveyor General, and as the present must be taken as the foundation of Annual Reports hereafter; it appeared expedient (if not absolutely necessary) to explain in full detail, the nature of the several transactions which have occurred in connexion with the Crown Land Office, during the Fiscal Year which has now expired.

I have the honor to be,

Your Excellency's obedient servant,
JOHN McMILLAN.

RETURNS FROM CROWN LAND OFFICE.

CASUAL REVENUE.

Return of Timber Licences issued out of the Crown Land Office between the 1st November 1860, and the 31st October 1861, both inclusive.

Class 1.—Between 1st November 1860 and 1st May 1861.

REPORT

OF

THE CHIEF COMMISSIONER OF PUBLIC WORKS

FOR THE YEAR ENDING 31ST OCTOBER, 1861.

TO HIS EXCELLENCY THE HONORABLE ARTHUR HAMILTON GORDON, C. M. G.,
*Lieutenant Governor and Commander in Chief of the Province of
New Brunswick, &c. &c. &c.*

MAY IT PLEASE YOUR EXCELLENCY,

Agreeably to the law establishing a Board of Public Works in this Province, it becomes my duty as Chief Commissioner to submit to your Excellency a Report of all the Great Roads and other Provincial Works upon which Public money has been expended, under the supervision of the Board, during the year which ended on the 31st of October last.

The gross amount of expenditure for that period has been \$134,203.80, comprised in the following general subdivisions:—

1. The Great Roads and Bridges,	\$81,973.12
2. Internal Navigation,	14,149.49
3. Legislative Buildings, Hall and Rooms of the Supreme Court, Government Offices, and the residence of the Lieutenant Governor,	2,479.97
4. Lunatic Asylum and Penitentiary,	13,417.84
5. Inter-colonial Communication,	12,358.81
6. Light Houses, Harbours, and Landings,	2,216.94
7. Departmental Expenses,	3,437.59
8. Payments subsequent to 31 st October, 1860, of expenses arising on the occasion of the visit of H. R. H. the Prince of Wales,	4,039.54
9. Expenses connected with sundry Brick Buildings in Fredericton, held by the Government as security for loans, under the local Act, 14 Vict. chap. 17,	130.50

\$134,203.80

Under the first head are included—

The general expenditure under the management of annually appointed Supervisors of the Great Roads,	\$45,203.95
Expenditure in the erection of Bridges under special Supervision,	32,549.12
Miscellaneous special expenditures,	4,220.05

\$81,973.12

THE GREAT ROADS.

The ordinary duties of the annually appointed Supervisors chiefly demand the most judicious and economical application of the limited funds apportioned to the extent of road committed to the charge of each Supervisor; for the renewal or repair of the culverts or cross-drains, and the smaller class of bridges, the improvement of the road surface by re-forming and gravelling; the maintaining and perfecting of the drainage, and whatever other attention may be most needful to the general good order of these works, exclusive of the building or reconstruction of the larger and more important bridges, which is an object of the separate and special attention of the Board.

Under the present organization of the Great Road service, the number of Supervisors, which is acknowledged to be greater than desirable, cannot with the rapidly increasing extent of road placed by the Legislature under the management of the Board, be conveniently reduced, but must necessarily be augmented, and that from a standard of competence generally corresponding to the small remuneration afforded. That the public interest and the general efficiency of the service would be promoted by a departure from an usage which precludes the command of the best qualifications for the duties required, has been felt and acknowledged by preceding Chief Commissioners. But that a material change cannot easily or at least hastily be made, is sufficiently implied by the fact that it remains unattempted, nor could the Board wisely assume the responsibility of a sudden and entire change.

It is submitted for your Excellency's consideration that the expediency of a reorganisation, such as that heretofore suggested, by the union in one district of several lines of road under the management of one officer, possessing all the qualifications necessary to such a trust, at a rate of remuneration sufficient to command his whole attention, might be tried in an isolated instance with a view to safe guidance in a general application of the system.

The following are the details of the works performed and their cost, during the past year, on the several Great Roads, in the order of enumeration heretofore observed.

No. 1.

From Saint John to Nova Scotia Line.

132 Miles.

On the division from St. John to Hampton Ferry, 22 Miles.

Renewal of 3 culverts, or small bridges,	\$14.00
Repairing of 6 " " "	22.00
Repair of Groom's Cove Bridge,	10.00
Turnpiking 200 rods,	160.00
Gravelling 20 do.	10.00
Excavating rock near Groom's Cove Bridge, opening ditches, and water courses, and filling holes with stone and gravel,			64.50
			<hr/>
			\$280.50

The foregoing expenditure on this division is \$401.38 less than that of the preceding year; but the maintenance of the works in an efficient state will require an increase for the ensuing season. The Bridge at Groom's Cove cannot much longer be relied upon, and should be displaced as soon as practicable either by an earthen embankment with a culvert of stone, or by such form of timber structure as may with due economy be the most efficient, durable and suitable for the site. In the meantime an expense of about \$60 is estimated as requisite to the temporary repair of the present bridge.

The renewal of two small bridges, one a mile below Groom's Cove, and the other at 3 miles from St. John, has become necessary, at the estimated expense of \$40 and \$80 respectively, and the repairs of a third at the cost of \$20.

The thorough painting of the Bridge at Hammond River, should not be longer postponed, in order to prevent the premature decay of this neat, efficient and valuable work.

On the division from Hampton Ferry to Hayward's Mills, 42 miles.

Planking the piers of Hampton Ferry Bridge, with 3 inch pine,		\$21.60
New covering of Trout Creek Bridge, with 2 inch pine plank,		68.00
Repairing one abutment and part of the covering of Baxter Smith's Bridge,	8.00
2 small new bridges or culverts,	28.00
Repairing the culvert near Barbarie's Mill, with stone,	6.00
Building 17 new culverts of Hackmatack,	71.98
Turnpiking and gravelling 116 rods,	113.30
Gravelling 55 rods,	32.58
Turnpiking 184 do.	59.35
Cutting bushes, filling up holes, and other general repairs,	148.11
		<hr/>
		\$574.92

A new bridge is required at Ward's Creek, at the estimated cost of about \$300, and a small one near the former residence of the late Rev. Thomas Maghee, at a probable cost of \$50.

The road surface and the drainage of nearly the whole of this division, have

lapsed into a very inferior state, from the inadequacy of the sums apportioned for their maintenance during several years past.

On the division from Hayward's Mills to the Nova Scotia Line at Missiguash River, 68 miles.

Raising, new covering and railing of Jonathan Creek Bridge,	\$32.00
New covering Hall's Creek Bridge,	30.00
" Chartre's Creek "	10.00
" Lake's Creek "	10.00
Raising approaches of — Bridge,	20.00
Repairing the roof of Sackville Bridge,	80.00
New covering sundry small bridges and culverts,	30.00
Turnpiking 741 rods,	180.00
Gravelling 220 "	75.00
Other general repairs to the road surface and to the bridges and culverts where required,	441.08
	<u>\$908.08</u>

The several Bridges at Somer's Creek, Horseman's Creek, Robertson's Creek, Memramcook River, and Taylor's Creek, require repairs to the probable aggregate cost of \$470.

No. 2.

From Saint John to Saint Andrews.

63 Miles.

On the division from St. John to Lepreau, 24 Miles.

Repairing Hanson's Bridge,	\$16.00
" Sussex Bridge,	4.40
One small new bridge of Cedar,	6.00
Nine new Cedar culverts,	17.60
Ditching 46 rods,	8.38
Raising surface of road with stone, earth, and gravel, 81 rods,	43.00
Filling holes in road,	5.00
Repairing small bridges and culverts,	7.35
Turnpiking 461 rods,	138.54
Gravelling 91 "	22.75
	<u>\$269.02</u>

The Sussex Bridge and that over Negro Brook, require renewal, and the Bridge near Knight's Mills requires new covering, at the aggregate estimated cost of \$144.

On the division from Lepreau to St. Andrews, 39 Miles.

Covering Bocabec Bridge with spruce plank,	\$21.07
Covering Digdeguash Bridge and repairing railing,	13.50
Repairing covering of the Magaguadavic Bridge above the Falls,	5.75
	<u>\$40.32</u>

	<i>Brought forward,</i>	\$40.32
Repairing abutments, braces, and covering of the Bridge below the Falls,	180.00
Repairing abutments of Big New River Bridge,	4.00
Urgent repairs to the road in the Spring,	72.29
Repairs of road during the season, including 1 culvert,	18.00
2 new culverts,	6.54
Blacksmith's work,	2.30
Allowance to John Crowley for attending drawbridge at Digde- gnash,	40.00
Turnpiking 938 rods,	272.05
Gravelling 20 "	4.00
		\$639.50

The Bocabec Bridge is at present encumbered with a double thickness of decayed covering, which should be removed and replaced with 4 inch pine or tamarac plank, or with a not less thickness of hewn cedar. The cost in either kind of material is estimated at \$200.

A similar covering will shortly be necessary to the Digdegnash Bridge, at the same estimated cost.

The western approach of the Lepreau Bridge has been partially washed away to the extent of fifty feet, by the great rise of water accumulated by dams above during the high freshet. The estimated cost of the necessary repair and of raising the road about 6 feet in the centre, with good material, is \$120.

No. 3.

From the Bend of Petitcodiac to Shediac.

15 Miles.

And No. 4.

From Dorchester to Shediac.

16 Miles.

These two lines of road, forming two sides of a triangle, of which part of Road No. 1 is the base, are placed under one supervision. The works and their cost during the past season, have been as follows:—

Flooring of Tait's Bridge with hewn spruce, by contract,	\$8.00
Repairing culverts, clearing water courses, and filling up holes and ruts, on the extent of seven miles, by contract,	100.63
Turnpiking 60 rods,	30.00
Gravelling 340 "	204.00
Sundry repairs, by day's work,	4.00
		\$346.63

Of which \$93.03 has been expended on Road No. 3, and the remainder on No. 4.

Tait's Bridge of the length of 66 feet, and that over the Memramcook of the

length of 120 feet, require renewal at the estimated cost of \$100 and \$400 respectively. The Bridge over the west Branch of the Scadouc River requires to be raised higher, and to be new covered, at a probable cost of \$100.

No. 5.

From Shediac to Richibucto.

36 Miles.

The new Bridges over the Little Buctouche and the Cocagne Rivers were fully noticed and described in the last Annual Report. Though not completed at the time specified, both were available for public use within a short subsequent period. That over the Cocagne is finished, and that over the Buctouche nearly so.

The following were the ordinary works and their cost during the season:—

3 small new Bridges at the cost of \$22, \$8, and \$7 respectively,			\$37.00
Repairs to D. M'Almon's Bridge,	31.20
“ Richibucto “	129.98
“ Weldon's “	24.00
“ Buctouche “	20.45
“ Shediac “	20.00
Gravelling the road, filling up holes, and repairs to sundry small bridges, by contract,	162.78
The same by day's work,	12.00
Turnpiking 210 rods,	64.90
Gravelling 185 “	38.10

 \$540.41

A new Bridge over Weldon's Creek, of the length of 415 feet, and at the probable cost of \$1,400, will be required during the ensuing season, preparations for which are in progress. The substantial renewal of the whole of Richibucto Bridge above low water has become necessary, the estimated cost of which is \$2,000. Repairs are also needed to the Chockpish, Irvin's, Big Buctouche, and Shediac Bridges, at the aggregate probable cost of \$380.

No. 6.

From Richibucto to Chatham.

40 Miles.

Repairing the Ferry Slip at Chatham,	\$29.50
Rebuilding Little Northwest Bridge,	300.00
Repairing Kouchibouguasis Bridge,	31.60
“ Clarke's Cove “ (Road No. 51),	60.00
“ Tracey's “	63.50
New covering and other repairs to several Bridges, including removal and repairs of culverts,	75.30
Turnpiking 1,433 rods,	156.65

 \$716.55

<i>Brought forward,</i>	\$716.55
Gravelling 323 rods,	41.40
Skirting, draining, and miscellaneous repairs,	142.20

\$900.15

The reconstruction of about 210 feet in extent of the Kouchibouguasis Bridge, is the only work of this class expected to be required during the ensuing season.

No. 7.

From Miramichi to Pokemouche.

62 Miles.

In the last Annual Report was noticed the comparatively inexpensive, but substantial, renewal of six of the Bridges on this line, exclusively of cedar timber with gravelled roadway. During the past year have been added four new Bridges of the same material and character, which, with other works and their cost, are included in the following statement:—

Bridges built of cedar with gravelled Roadway.		
1. Goodfellow's Brook, 120 feet in length,	\$129.00
2. Indian Brook, 50 " "	19.60
3. Ross's Brook, 30 " "	16.40
4. Thibadeau's Brook, 20 " "	17.00
Total, 220 feet.		\$182.00
New Scow for Sewell's Ferry, Pokemouche,	60.00
New Rope for Big Tracadie Ferry,	26.27
Gravelling the Roadway of Trout Brook Bridge,	2.00
" " Bartibog "	1.50
" " Little Tracadie "	
including hinges, blocks, and rope for Draw,	27.30
New Covering and Gravelling other small Bridges,	43.15
Skirting the whole distance, 20 feet, on each side,	221.40
Repairing road surface, 9½ miles, by Contract,	\$39.95
" " " Day's Work,	14.00
		53.95
Drain to conduct water from the Road,	20.00
Improvement of the hills at Goodfellow's Brook, and at Burnt Church and Bartibog Rivers,	26.00
Cost of printed Hand Bills,	4.35
Turnpiking 1,200 rods,	114.50
Gravelling 323½ "	106.90

\$889.32

The renewal of six Bridges of the total length of 540 feet, besides sundry small bridges, may be necessary during the ensuing season, at the probable aggregate cost of \$600, exclusive of repairs to others at the estimated cost of \$100.

No. 8.

From Bathurst to Pokemouche.

51 Miles.

The removal of the impediment at the Ferry at Pokemouche River, so long a subject of complaint on this line, has been provided for by a contract for the erection of a substantial Bridge of cedar, to be completed in the summer of 1863.

The ordinary works and their cost have been as follows:—

New Bridge over Dempsey's Brook, built of cedar,	\$14.00
General repairs of the road surface,	231.40
Clearing out windfalls,	2.00
Repairing culverts, and clearing out drains and water courses,	20.50
Repairing Pokeshaw Bridge,	7.60
" Wagh "	6.00
" Bullumere "	6.00
Building a block in the main Channel, midway under the truss of Caraqueet Bridge, by contract,	120.00
		\$407.50

The new Bridges which have become necessary on this line are—one over the Pokeshaw River, 520 feet in length, and another over the Wagh Stream, at the probable cost of \$2,400 and \$480 respectively.

No. 9.

From Bathurst to Belledune.

23 Miles.

The Bridge over the Belledune River has been restored to an efficient state by re-adjustment of the stringers, new flooring, with close laid 4 inch cedar, trenailed down, and by repairs of the railing, at the cost of \$48.00

Other works and other cost during the season have been—

Repairing sundry Bridges,	6.30
General repairs to road by day's work,	76.95
" " " by contract, 21 miles,	100.10
Gravelling,	40.79
Making and repairing water courses,	3.50
Iron grating to water trap at Bathurst Bridge,	2.00
		\$277.64

New Bridges may shortly be necessary over Elm Tree Brook and Grant's Brook, at the estimated cost of \$160 and \$120 respectively.

No. 10.

From Belledune to Glenlivett.

53 Miles.

The decayed Bridge over Jacquet River on this line, adverted to in last

year's Report, has been displaced by a substantially constructed new one, to be described under its appropriate head.

The ordinary works and their cost have been as follows:—

Repairing Campbelton Bridge,	\$30.00
“ River Louison “	18.00
“ River Benjamin “	4.00
“ Gordon's “	2.50
“ Mondy's “	2.50—57.00
Rebuilding small Bridge eastward of Jacquet River,	40.00
Repairing drains and watercourses,	21.95
Filling holes, removing rocks, and other repairs,	128.10
Turnpiking 364 rods,	69.30
Gravelling 1480 “	264.25—523.60
				\$580.60

The only new Bridge which may be required on this line during the ensuing season is that over Benjamin River, at a probable cost of \$1000.

The gravel filling of the abutments of Campbelton Bridge is subject to continual undermining and removal by the tide. The estimated expense of repairing this injury for the present year is \$25.

The unusual wetness of the past season has been unfavorable to the condition of this road, and an outlay of \$600 is estimated to be necessary to maintain it in the same good order as heretofore, during the current year.

No. 11.

From Newcastle to Bathurst.

50 Miles.

On the division from Newcastle to Tabusintac, 23 miles.

Repairing the covering of Casey's Brook Bridge,	\$2.80
“ “ Little Bartibog “	7.50
“ “ Tabusintac “	16.00
Improving hill near James Lynch's, by contract,	18.00
Repairing 20 small culverts,	20.20
General repairs to road, by day's work,	53.00
Turnpiking 1319 rods,	135.40
Gravelling 1033 “	102.90
				\$355.60

A new bridge is necessary at Mill Cove, 50 feet in length, at the probable cost of \$200, and the maintenance of this division in a state of efficiency is estimated to require the additional sum of \$400 during the ensuing season.

On the division from Tabusintac River to Bathurst, 27 miles.

The great wear and injury sustained on the Northern portion of this line from the hauling of heavy loads of Ship Timber on large trucks, were promptly

It has become necessary to provide for the rebuilding of the Bridge over Leslie's Brook, 165 feet in length, and that over Bartholomew River, 200 feet in length, at the estimated cost of \$500 and \$400, respectively.

The flooring of the North West Bridge is so far worn as to need strengthening by a longitudinal tier of plank; and additional fenders strapped with iron are necessary to the more perfect protection of the piers against the floating ice. These repairs are estimated to require an expenditure of \$600.

The timbers injured by the ice in the "shears" of the Renous Bridge, require replacing at the probable cost of \$120.

The abutment on the East side of Doak's Truss Bridge and the "shears" on the same side, have become so much decayed as to require prompt renewal; the probable cost of both of which will be \$400.

No. 13.

From Fredericton to Saint John.

66 Miles.

On the division from Fredericton to the lower line of Sunbury County, 26 miles.

The trivial and partial repairs for many years past applied to that portion of this line extending from the foot of the Fredericton Common to Bailey's Brook, a distance of about $1\frac{1}{2}$ miles, had proved unavailing to preserve it in order under the large and increasing traffic imposed, especially by the transportation to and from the mills situated near it. A more efficient method of repair, if practicable, at a moderate expense, was therefore deemed expedient, and for this purpose the work was committed to the supervision of John T. Smith, Esq. The improvement had proceeded to the extent of 228 rods, when the rate of cost was found to be too excessive to be prudently continued. The drainage, road formation, and gravelling have so far been very thorough and permanent, but the remaining portion of the road under consideration, and especially two small bridges, continue in a defective state.

The following is a summary of the works and their cost on the whole division.

Repairs and improvements last named,	\$524.07
Raising the stonework and thoroughly renewing the roadway, railing and approaches of Bailey's Brook Bridge,	590.00
	—1114.07
Building new bridge in Lincoln,	46.00
“ “ culvert,	8.00
Repairing Snake Creek bridge,	4.00
“ “ roadway and culverts, including urgent repairs in the spring,	273.21
Turnpiking, gravelling, and skirting 435 rods,	246.85
Drainage,	20.00—598.06

\$1712.13

The Bridge at Brisley's Creek has been for some time in an unsound and dilapidated state, and should be immediately renewed. The estimated cost is about \$360.

Three other Bridges require various repairs, at a probable aggregate cost of \$95.

On the division from the lower line of Sunbury to the lower line of Queen's County, 18 miles.

Building new Bridge at Lingley's, of cedar,	\$39.00
Repairing Bridges, cutting down hills, filling holes, and taking out stone by contract, \$142.20; by day's work, \$25,	167.20
Turnpiking 140 rods,	35.00
" and gravelling 313 rods,	175.20
	<u>\$416.40</u>

One of the stone abutments of the Nerepis Bridge requires to be rebuilt, and the whole structure to be raised and supplied with new flooring and railing. Several small bridges or culverts will also be necessary. The estimated aggregate cost is \$120.

On the division extending from the lower line of Queen's County to Great Road No. 2, and the supplementary branch diverging from the latter by way of the Suspension Bridge to the Indian Town Road, the total distance being about 22 miles.

Building a new bridge,	\$32.50
" new culvert,	6.00
Repairing bridges,	7.00
Improving and repairing road by cutting down hills, filling ruts, &c., by day's work, \$54, by contract, \$78.41,	132.41
Turnpiking 318 rods,	156.18
Gravelling 146 "	40.28
	<u>\$374.37</u>

A new Bridge is required over White's Brook, at a probable cost of \$40, and the estimated expense of \$25 is necessary for a new covering to the Bridge over Brundage's Mill Brook, and \$150 for three new tiers of cedar logs, new covering and new railing to that over Vernon's Mill pond.

No. 14.

From Fredericton to Woodstock.

63 Miles.

On the division from Fredericton to Long's Creek, 17 Miles.

The new Bridge over Kelly's Creek, particularly mentioned in the last Annual Report, will be again noticed amongst those erected under special supervision.

The ordinary works and their costs on this division, were as follows:—

New bridge at Hawkins', French Village,	\$96.00
Repairing bridge near Burden Wheeler's,	6.00
	<u>\$102.00</u>

	<i>Brought forward,</i>	\$102.00
Repairing bridge at Jennings's Creek,		126.00
“ “ at McKinley's Ferry,		10.00
“ “ at Sutherland's	112.00
“ “ at Springhill,	167.25
“ “ near Capt. Hammond's,	17.00
Cost of Lumber for repairing bridges,	60.40
New culvert,	6.00
Repairing road, including culverts,	393.50

\$994.15

A new Bridge is necessary at McKinley's Creek. The length will be 160 feet, and the probable cost, substantially built of cedar, with gravelled roadway, about \$700.

An expense of about \$80 is required for replanking the Bridge at Jennings's Creek.

On the division extending from Long's Creek to Eel River, 33 Miles.

Building one new bridge,	\$54.00
Repairing bridges and culverts,	70.70
“ stone bridge near Long's Creek,	63.40
New culverts,	17.00
General repairs to road, by day's work,	92.19
“ “ by contract,	243.16
Gravelling 71 rods,	47.60
Cost of handbills,	2.00

\$590.05

The Bridges being chiefly new, are now generally in a good state. Portions of the road formation which have been long neglected, in order to afford means for the more urgent demands of the bridges, are greatly worn and deteriorated, and require renewal. About one mile, which was very rocky and worn out of form, was improved in a thorough manner during the past season. Further improvements of the same kind, as rapidly as they can be afforded, are necessary to the good order of the whole line, under the large and increasing traffic to which it is subject both as a principal post road, and as the common trunk of the numerous branches communicating with large and annually extending settlements in its vicinity.

On the division from Eel River to the Meduxnikeag Bridge, Woodstock, 13 Miles.

Repairing the flooring of Bull's Creek Bridge and strengthening the stringers by 12 intermediate spruce bents, by contract,	\$66.00
Repairing the flooring of Eel River bridge, by contract,	24.00
Repairing the road, including the renewal and repairs of culverts, by day's work,	21.00
By contract,	159.00

\$270.00

The Bridge over Bull's Creek is in a thoroughly decayed condition and sustained only by expensive temporary repairs. It should be renewed as soon as practicable. The length of the present structure is 304 feet, and the probable cost of a substantial and durable bridge on the same site will be about \$1400. An expense of about \$20 is necessary for additional repairs to the flooring of Eel River Bridge.

No. 15.

From Meduznikedg Bridge, Woodstock, to River du Chute.

40 Miles.

Building a culvert of cedar over McCane's Creek, completed to 100 feet in length and 24 feet in height, with a solid earthen embankment, by contract,	\$140.00
Rebuilding of Gallop's bridge, of cedar, stone and gravel, 125 feet in length, by contract,	42.00
Rebuilding of York's bridge, of cedar, 60 feet in length,	22.00
“ Gee's bridge, of cedar, 18 feet in length,	25.00
Repairing the flooring, railing, &c., of six bridges,	50.50
Repairing and improving the road by cutting down hills, levelling hollows, turnpiking and gravelling, including the renewal and repair of culverts, by day's work,	79.32
By contract,	396.66
Land damages for alteration at Guisiguit,	4.00
	\$759.48

The Bridge at Lane's Creek having through age and decay become untrustworthy, arrangements have been made to build a substantial new one of durable materials, on a more favorable site lower down the stream. New stringers may be necessary to the Bridge at River du Chute, and new flooring to one track of the Woodstock Bridge, at the aggregate estimated expense of \$100. The Dickinson Bridge is a slight structure, and may shortly require to be substantially rebuilt, the probable cost of which will be \$80.

The steep descent heretofore existing on the southern side of Guisiguit Ravine has been much relieved by the change made at that point, and the road has otherwise been materially improved by the work of the past season.

No. 16.

From River du Chute to Grand Falls.

33 Miles.

New flooring with hemlock the bridge near Humphrey Baird's,	\$29.50
Repairing bridge near Henry Baird's	6.00
New flooring with spruce the bridge near Thomas Smith's,	58.00
New flooring with spruce and other repairs to bridge near McNeil's Creek,	69.60
	\$173.10

<i>Brought forward,</i>	\$173.10
New flooring and other repairs to Wark's bridge,	20.00
“ “ to Clemo's bridge,	67.00
Repairs to flooring of Aroostook bridge,	23.85
General repairs and improvements to road, including turnpiking, gravelling, small repairs to bridges, and renewal and repairs of culverts, by day's work,	12.00
By contract,	200.08
			\$496.03

The Bridge over the Aroostook River, already weakened by the service of fourteen years, is unnecessarily encumbered by a heavy load of decayed plank, which should be removed and replaced by sound new tamarac, pine or spruce. The occasion should be made use of for a thorough examination of all the stringers, the several bearings of the main braces, and other points of importance, with a view to remedy any serious defect of material or workmanship, and thus to avert for a time the heavy cost of a new Bridge. Before the latter alternative be unavoidable a thorough survey of the locality should be made for safe guidance in the selection of the most judicious site. In the mean time the cost of new planking and other repairs, including those recently directed for the temporary security of the Bridge, may be estimated at \$550.

Necessary repairs to the smaller Bridges, the renewal and repairs of culverts, and other works material to the efficiency and good order of the whole line will require a large expenditure during the ensuing season.

No. 17.

From the Grand Falls to the Canadian Boundary.

50 Miles.

On the division from Grand Falls to Edmundton, 38 Miles.

The four following new Bridges have been built wholly of cedar, with gravelled roadway, by contract.

B. Sevres, 200 feet in length,	\$92.00
Thomas Martin's, 40 feet in length,	37.00
Bellon Therault's, 100 “ “	59.00

Turnpiking, gravelling, skirting, renewing and repairing culverts, and other labor distributed along the line,	392.03
	\$494.53

The Little River, Crock's and Canon Bridges, may shortly require to be renewed, the total cost of which, including partial changes of the road and approaches in connection with them, is estimated at \$1130. Their respective lengths are 256 feet, 142 feet and 160 feet. In the meantime a new temporary flooring may be necessary to Crock's Bridge, at a cost of \$60. The Albert Bridge is in a delapidated state; the cost of new flooring, railing, and other repairs to which is estimated at \$75.

No. 19.

From the Grand Falls to the Boundary of Maine.

3 Miles.

The Bridge over Peltier Gully has been repaired by one new bent, and by new longitudinal covering of spruce, 12 feet in width and 80 feet in length, by contract, for the sum of,	\$40.00
The remainder of the expense was for removing a landslip from the road, and for clearing out the ditch for the whole length of the hill leading to the lower landing; by contract,	24.00
	\$64.00

No. 20.

From Pickard's Store, Tobique Village, to the Boundary of Maine.

5 Miles.

The work on this line during the past season has been the construction of 245 rods of new road, grubbed and turnpiked, 24 feet in width, and rounded to 3 feet in height in the centre, including two new culverts of cedar and hemlock, at the total cost of \$211.03.

A further extent of about 64 rods of the new road in progress remains to be completed.

A small new bridge or culvert is required at a probable cost of \$60, and repairs are necessary to that over Tibbits' Brook, and to another near Sloat's, at the estimated cost of \$30 and \$50, respectively.

A total expense of about \$250 is estimated as necessary to place this line in a state of efficiency during the ensuing season.

No. 21.

From Florenceville to the Boundary of Maine.

9 Miles.

Building a new bridge of cedar at Buchanan's, 18 feet in length,	
by contract,	\$35.40
Repairing culverts, filling up holes and ruts, and hauling gravel,	24.80
Cutting down Parkin's hill, by contract,	24.00
Land damage paid for the new bridge over the Presquile,	18.00
Gravelling 105 rods,	35.00

 \$137.20

This road is now in a very good state, and the difficult hills have been so far reduced that further material improvement of the same can be accomplished only at heavy expense. About \$80 is estimated to be sufficient to meet all necessary expenditure during the current year.

No. 22.

From Woodstock to the Boundary of Maine at Houlton.

11 Miles.

Urgent repairs in the Spring, made by day's work,	\$16.00
Other necessary repairs, by contract,	17.50

Re-forming 2011 rods of the road surface, by contract,	\$541.00
Repairing small bridges and culverts,	138.67

 \$679.67

A new Bridge over Garden's Creek, 80 feet in length, is required. The estimated cost of a substantial structure of cedar, with gravelled roadway, is \$200.

So large a proportion of this division is unsettled, that the benefit derived from Statute labour is very limited, and a principal part of the annual appropriation becomes absorbed by repairing in the Spring the usual damage over the whole line, jointly occasioned by the Winter's frost and the succeeding thaw,

leaving too small a sum to permit other necessary repairs and improvements to keep pace with the wear and deterioration of the road. In order to be of visibly permanent benefit, a material increase of the annual expenditure is necessary.

On the division from Magaguadavic River to St. Andrews, 32 miles.

Renewal of the decayed portion of Johnstone's Cove bridge, 100 feet in length, with earthen embankment, and white pine superstructure, by contract,	\$344.00
Urgent repairs in the Spring, cutting a drain from the road, bridging four soft places on Deffin's Heath, draining the latter by a cut of 40 rods in length, 6 feet in width, and 4 feet in depth, and repairing culverts, by day's work \$30, by contract \$23.60	53.60
Repairing the Gully Bridge, and the approach to that at Jones' Brook,	9.50
Turnpiking 335 rods,	70.40
Gravelling 284 "	62.50

\$540.00

A new Bridge is required at Turner's Ridge, 42 feet in length, the estimated cost of which, for stone abutments and cedar covering, is \$100. The approach to Jones' Brook Bridge, 238 feet in length, 20 feet in width, and 4 feet in height, with a culvert, may shortly require renewal, at the probable cost of \$50. The ordinary repairs of the roadway and culverts on the whole division are estimated to require the sum of \$450 for the current year.

No. 24.

From Waweig to Saint Stephen.

9 Miles.

Turnpiking 189 rods,	\$37.83
Gravelling 367 "	70.56
2 new culverts,	7.00
2 new stone culverts \$10 and \$6,	16.00
Repairing culverts,	2.50

\$133'89

The roadway of this line is now in a good state. The small Bridge over the Meadow Stream will require to be rebuilt, and the Waweig Bridge, to be new covered longitudinally, 12 feet in width, at the probable cost of \$40 and \$160 for the respective works. The railing of some of the Bridges and embankments will also need repair.

No. 27.

From Dead Water Brook to Saint Stephen.

22 Miles.

Re-constructing with stone and gravel the westerly approach of the Upton bridge, carried away by the freshet,	\$52.00
Turnpiking 239 rods,	59.75
Gravelling 79 "	23.70
Clearing-drains, repairing culverts, &c., by day's work, \$9, by contract, \$18.55, including lumber supplied,	27.55
	<u>\$163.00</u>

In completing the yet unfinished work on this line, a Bridge over the Digdeguash River will be necessary, at the estimated cost of \$400. Repairs to the Bridge at Smith's Mill, and to that at Moore's Mill, are required, at the estimated expense of \$60 and \$5, respectively.

No. 28.

From Lower Trout Brook to the Town of Magaguadavic.

33 Miles.

Flooring and other repairs to the Bonny River Bridge, and to that at Young's, by day's work,	\$29.00
Turnpiking 1490 rods,	536.40
Grubbing 1190 rods, at 11 cents per rod,	130.90
Materials for bridges,	15.00
Miscellaneous labor by day's work,	7.48
	<u>\$718.78</u>

About ten miles of this road yet remain to be turnpiked, but have been partially grubbed and levelled so as to be available for use in winter. The estimated cost of forming this extent into good road is upwards of \$1200. In the meantime provision will be necessary for the repairs of the portion already finished and in use at all seasons. A new Bridge may shortly be required at Young's, with a water way of 305 feet, and a total length of 480 feet, at the probable cost of \$2000; but no expense is expected to be necessary for the repair of Bridges during the ensuing season.

Improving the slope of the bank and filling holes 13 rods, by contract,	4.25
Turnpiking 475 rods,	126.85
	\$189.35

New covering and other repairs at the estimated expense of \$100 may be necessary to Sherwood's Mill Bridge. The ordinary expenditure on the road for the ensuing season will be chiefly for gravelling; a moderate amount for which purpose will place the line in a good state for several years.

No. 43.

From Doak's Bridge, Southwest Miramichi, to Salmon River.

28 Miles.

The expenditure on the Southern end of this line during the past season has been for—

Cutting out, grubbing and levelling, 24 feet in width, an extent of 520 rods, by contract,	\$166.34
Labor near the Salmon River bridge,	18.25
Damages awarded by jury to James and William Connor, for land required for the road near Salmon River,	160.00
	\$344.59

On the Northern end of the line the same plan has been pursued as heretofore, and a further extent of 380 rods cut out, 20 feet in width, from which has been cleared all wood, roots and stones, and the ground levelled, at the cost of \$195.21

A bridge of 120 feet in length over Pleasant River will be required during the ensuing season, at a probable cost of \$150, constructed of cedar and pine.

A distance of about 10 miles of this road still remains to be cut out.

No. 44.

From Bailey's Brook, by way of Hartt's Mills and the Douglas Valley, to the Church on the Nerepis Road.

42 Miles.

On the division extending from Great Road, No. 13, at Bailey's Brook, to Hartt's Mills, 19 miles.

Rebuilding bridge over Baker's creek,	\$110.16
“ “ Rusiagonis (balance),	40.00
Bridging three small streams,	54.55
Clearing and levelling,	122.20
Turnpiking 42 rods,	23.43
Repairing bridges and culverts, including miscellaneous labour on the road,	175.26
	\$525.60

New covering and other repairs may be necessary during the ensuing season to Shaw's Creek and Peabody's Bridges, at probable expense of \$60.

On the division from Hartt's Mills to Great Road, No. 13, at the Church on the Nerepis, 23 miles.

Rebuilding bridge over Douglas stream, 348 feet in length, of pine and cedar, with gravelled roadway, by contract,	\$576.00
New culverts, of pine, over Duff's brook,	14.00
Longitudinal covering, 10 feet in width, of 3 inch spruce and hemlock plank, to Hartt's mill bridge, by contract,	63.00
	\$653.00

<i>Brought forward,</i>	\$653.00
New pine stringers to Quig's brook bridge,	7.00
Turnpiking 303 rods,	75.44
Gravelling 93 "	31.60
Re-forming 162 "	17.00
Renewing and repairing culverts, removing stone and filling holes,	33.10
			\$817.14

No. 45.

From Chatham, commencing at Great Road, No. 6, near Black River, to Escuminac Light House.

31 Miles.

Rebuilding the following Bridges by contract :

Cameron's, 196 feet in length, of cedar,	\$111.00
Little Branch, Black River, 570 feet in length, of pine,	1004.00
Horton's Brook, 750 feet " "	796.00
			1911.00
Rebuilding centre pier of Eel River Bridge,	196.00
Re-adjusting the lower end of Little Branch Bridge and general-repairs to the roadway, by day's work,	45.00-241.00
			\$2152.00

The large cost for Bridges on this line during the past season is explained by the casualty adverted to in the last Annual Report. The Bridge over Dennis' Creek, 350 feet in length, remains to be rebuilt at the probable cost of \$600; the material to be hemlock below and cedar above low water.

It is one object of this road to make the Light House at Point Escuminac easy of access at all times, but at present this is practicable only by travelling for the last three miles along the sea beach when the tide is out. It is desirable that the future expenditure should be directed to the early attainment of an unbroken communication.

No. 46.

From the Salisbury and Harvey Road, near Coverdale River, to the same, near McLatchey's Bridge.

26 Miles.

Rebuilding bridge over Colpitt's Brook, with stone abutments, pine superstructure, and gravelled roadway, 25 feet in length,	\$15.00
Raising and flooring McLatchey's bridge,	10.00
Cutting down hills, levelling hollows, and repairing road and culverts,	153.80
Turnpiking 1160 rods,	330.00
Gravelling 40 "	10.00
			\$518.80

A new Bridge, 132 feet in length, and 32 feet in height, is required at Smith's Creek, at the probable cost of \$600, and an estimated expense of \$40 is necessary for new covering to Mill Creek Bridge, and of \$25 for new covering and railing to that at Pearson's Brook.

No. 47.

From Robert Hopper's to Elgin Corner.

18 Miles.

The rebuilding of the Bridge over Pollet River, as recommended in the last Annual Report, has, since 21st November last, been under contract, the particulars of which will be submitted under the usual head.

The ordinary works and their cost during the past season, have been as follows:

Rebuilding three bridges of pine timber and earthwork.

1. Over Smith's Brook, 52 feet in length, including 20 feet waterway,	\$7.00
2. Over Marshall's Brook, 97 feet in length, including 33 feet waterway,	16.75
3. Over Davidson's Brook, 134 feet in length, including 70 feet waterway, ———	46.80
283 feet,	70.55

The first and third are supported on framed bents; the second is blocked with pine logs.

Repairing the stringers and covering of Davidson's bridge,	8.00
Turnpiking 465 rods,	126.68
Gravelling 69 " "	17.45
Repairing 7 culverts,	10.50
Cutting down a hill and filling adjacent hollow, including a large culvert,	12.00
Urgent repairs to the road during the Spring,	6.82
	181.45
	\$252.00

During the current year, may be necessary the renewal of the Bridge over O'Brien's Brook, 30 feet in length, and the repairing of that over Colpitt's Mill Brook, at the estimated expense of \$30 and \$40, respectively.

In addition to the ordinary repairs of the road, the extent of about three fourths of a mile towards the southern limit of the division, is in urgent need of renewal, at the cost of about \$175.

No. 48.

From Great Road No. 1, near Teakle's Mills, to Elgin Corner.

12 Miles.

Longitudinal pine plank flooring to Colpitt's Gully bridge,	\$29.60
Turnpiking 230 rods,	69.51
	\$99.11

	<i>Brought forward,</i>	\$99.11
Gravelling 32 rods,	15.25
Widening 229 " along hillside, by day's work,	17.09
	by contract,	78.46
General repairs,	42.09
				\$252.00

With the exception of new plank flooring to Barchard's and Jonah's Bridges, at a cost of about \$68, the current year's expenditure may be applied exclusively to the ordinary repairs and improvements of the road.

No. 49.

From Shediac to Cape Tormentine.

40 Miles.

Rebuilding Fox River bridge, 80 feet in length, including 18 feet waterway, by contract,	\$19.00
Repairing Little Aboushegan bridge, by contract,	43.50
" Great Aboushegan bridge, " "	22.90
" Little Shemogue Aboideau, by contract,				\$264.00
Less amount of private subscription,				\$72.00
And balance remaining unpaid				15.70—\$7.70—176.30
Turnpiking 100 rods,	7.80
Filling ruts,	0.50
				\$270.00

The constant settlement of the Great Aboushegan Bridge, occasioned by the destruction of the foundation timbers by worms, will shortly render necessary the renewal of this structure. The total length of the site is 990 feet, and the estimated cost of a new Bridge is about \$2400.

The renewal of the Bridge over Mill Creek or western branch of the Little Shemogue, 180 feet in length, and of Joyce's Bridge, 100 feet in length, will be required at the expense of about \$180 for the former, and \$40 for the latter; and also repairs to the Tedish Bridge, at the estimated cost of \$50.

The Scadouc River Bridge on this line has been re-constructed, as represented in the last Annual Report.

No. 50.

From Great Road No. 1, at Salisbury Corner, to Great Road No. 39 near New Castle River.

50 Miles.

On the division extending from Salisbury Corner to Hoar's Brook, about 11 Miles.				
Rebuilding Maloney's bridge, 12 feet in length,	\$9.00
Repairing North River bridge,	15.10
				\$24.10

	<i>Brought forward,</i>	\$24.10
Repairing Wilson's bridge,	0.80
Turnpiking 369 rods,	101.00
Gravelling 547 "	182.86
Repairing culverts, removing stone, draining and clearing away bushes,	50.52
				\$359.28

The condition of this division of the road has been improved as far as the means provided would permit; but much is still in an inferior state. The North River, Wilson's, and Hoar's Bridges, severally require new flooring, at an expense of about \$20 each.

On the remaining portion, as far as opened, including the Canaan Settlement, the works and their cost have been as follows:—

Building a bridge over Alward's brook, 90 feet in length, including 34 feet waterway, and 16 feet clear height; the material, cedar, with gravelled roadway on each approach, plank flooring over the span, and planed and painted hand railing, 3½ feet in height, bolted to the sides of the bridge; the abutments guarded on the up stream side, by two wings, also built of cedar, 30 feet each in length, floored, ballasted, and protected from undermining, the whole by contract,	\$480.00
New flooring Perry Brook bridge,	20.00
Repairing the handrailing and flooring of Hoar's Brook bridge,				7.00
" the brush and stone protection to the piers and abutments; and clearing drift stuff from the waterway of the Upper Canaan bridge, by day's work,	10.80
Repairing two culverts,	6.00
Widening the road near Hoar's Brook,	2.00
Balance unpaid last year for building bridge over Humphrey's Brook,	4.00
				\$529.80

By the last year's expenditure, all the existing Bridges on this division have been put in a good state, so that the current year's appropriation may be applied chiefly to the repairs and improvement of the roadway, including the culverts and drainage.

The course by which this road would be most judiciously continued to its intended connection with road No. 39, remains a subject of consideration.

That recommended by the shortest distance is, no doubt, approximately the same which was marked out by a careful and competent Surveyor, upwards of twenty years since, and which has heretofore been, and continues to be, indicated on the Map appended to the Annual Report; making the total distance from Salisbury Corner to Newcastle River, about 50 miles.

No. 51.

From the Town of Chatham, on the South side of the Miramichi River, to New Castle.

5 Miles.

This line has during the past year, been included under the same supervision as that of Great Road No. 36.

The Bridge over Clark's Cove, built chiefly of hemlock, is in a decayed condition, and requires early renewal, for which a survey has been made.

No. 52.

From the Great Road, in the Parish of Addington, County Restigouche, to the Quatawamkedgwick River.

38 Miles.

Building the two following Bridges, each of cedar and pine timber, with gravelled roadway:—

Over Goodwell's Brook, 129 feet in length,	\$210.00
“ McLean's “ 140 “	282.00
Removing land slides and rocks, repairing watercourses, filling ruts, &c.,	20.00
Turnpiking 24 rods,	24.00
		\$536.00

A new Bridge, 35 feet in length, is required over Clark's Brook, at the probable cost of \$60, built of cedar.

A great part of this line is yet in a wilderness state, and will require a large sum for its entire construction, exclusive of necessary annual repairs of the portion already made, and in public use.

No. 53.

From the Great Road, in the Parish of Inkerman, County of Gloucester, to Shippigan Harbour.

9 Miles.

Repairing South River bridge,	\$6.30
Turnpiking and gravelling, clearing out and improving drainage, renewing and repairing culverts, filling and levelling ruts and hollows, &c.,	151.20
		\$157.50

The bridge over South River, is so far decayed and worn, as to require attention, with a view either to its thorough repair or reconstruction, as may be found necessary. The total length of a new bridge would be about 1,000 feet; the height about 12 feet, and the probable cost, \$600.

No. 54.

*From the River Saint John, near the Mouth of the Tobique River, to
Campbellton.*

132 Miles.

On the Southwestern end of this road have been turnpiked
during the season, 403 rods, at a cost of \$247.65
And repairs made in various places, for 16.00

\$263.65

A survey, with a view to a satisfactory and final determination of the site of the proposed Bridge across the Tobique River, at the head of the Narrows, was commenced early in May last, but was interrupted by a sudden rise of water, and could not be conveniently resumed at a later period during the season. The erection of this Bridge as soon as practicable, is of acknowledged importance to the settlements now advancing along the Valley of the Tobique, as well as to the main design of a direct communication with Campbellton.

A Bridge 175 feet in total length, is required over Three Brooks, at a probable cost of \$300. From hence to the Long Island Settlement, a distance of about 7 miles, it is desirable that the road should be speedily opened, the expense of which is estimated at about \$800. In the meantime, a moderate outlay will be necessary to the maintenance of the portion of the line already in public use.

On the northeastern end of the line, the works done, and expenses incurred, have been as follows:—

Turnpiking 422 rods,	\$158.10
Repairing watercourses, removing rocks, and filling ruts,	53.30
Land damages paid to A. R. Chamberlain,	40.00

\$251.40

In addition to the ordinary repairs of the road already in use, a Bridge 40 feet in length over Smith Brook, is required, at the probable cost of \$40. The principal expenditure on this line, for a long period, will be in progressively opening it through the forest with as much dispatch as circumstances will permit.

No. 55.

*From the Mouth of the Nashwaak, opposite the City of Fredericton, along the
Eastern side of the River St. John, to Carleton County Line.*

54 Miles.

This road has, during the past year, been maintained in repair chiefly by Statute Labour.

The Bridges over Keswick River, Hoyt's Brook, and Pennington Brook, have been repaired under the direction of the Board, at an expense of \$89, \$57.20, and \$55 respectively, or \$201.20 in all.

In the early part of June last, the Pennington Brook Bridge was, to a great extent, destroyed by fire originating in the adjoining mill, which was wholly consumed. Upon examination of the remains of the Bridge, it was deemed

more economical to rebuild it in a substantial manner than to add a large amount of new work to much that already shewed signs of decay. A new Bridge was therefore during the summer built by contract, the particulars of which will be submitted under the usual head.

No. 56.

From the Upper Line of York County, along the East side of the River Saint John, to Whitehead's, in the County of Victoria.

65 Miles.

On the division within the limits of the County of Carleton.

Repairing road, including renewal and repair of culverts, by day's work,	\$11.00
By contract,	16.50—27.50
Survey of a part of road,	5.00
				\$349.43

In addition to new covering to the Trout Creek Bridge at an expense of about \$60, the ordinary repairs of the road are estimated to require about \$90 for the ensuing season. A proposed alteration of part of the line is under the consideration of the Board.

No. 58.

From Moore's Mills, in the County of Charlotte, to the Oak Bay and Eel River Road.

9 Miles.

Building bridge of cedar and stone, over Dennis Stream, Baillie Settlement, 12 feet span, with 20 feet planked roadway and 66 feet of each approach gravelled one foot in depth,				\$21.50
Repairing Sherman's bridge,	4.50
" Magee's "	1.50
Turnpiking 73 rods,	22.65
Gravelling 153 "	34.77
Removing stone and otherwise improving the road,			5.08
				\$90.00

A new Bridge may shortly be necessary over the Northwest Branch of the Digdegnash River, of the total length of 100 feet, including about 50 feet waterway, which, if built of cedar and stone, is estimated at the cost of \$150. An expense of about \$30 will be required for the repair of Sherman's Bridge; and the remaining outlay necessary on this line for the ensuing season will be for ordinary repairs only, with the exception of widening an extent of 30 rods at Sherman's Mill from 12 feet, as at present, to the full common width.

The foregoing enumeration completes the details of the works and ordinary expenditure during the past year on the Great Roads of the Province, exclusive of compensation to Supervisors. This item, together with other particulars of Account, are exhibited in the usual manner in the Report of the Auditor General, a copy of which, for more convenient reference, is hereunto appended, A. No. 8.

In this Report the Roads will be found referred to by their numbers.

ADDITIONAL ROADS.

The total lineal extent of the Great Roads already placed under the management of the Board, is about 2,203 miles. At the Legislative Session of 1860, eighteen proposed additional lines amounting to upwards of 500 miles, were referred by the House of Assembly to this Department, for the Report of my predecessor. At the last Session no fewer than thirty-seven Bills, for the establishment of as many additional lines of Great Road, were introduced, and in like manner referred to this Department.

The first mentioned eighteen roads are particularized and described under letters A to R, inclusive, at pages 31 to 49 of the last Annual Report, and in order that their relative position, extent, and importance, may be more readily understood, they are delineated in the Map hereto appended, and are distinguished by numbers which correspond to the letters referred to in the following manner:—

Letters in Report for 1860.	}	A. B. C. D. E. F. G. H. I. J. K. L. M. N. O. P. Q. R.
Numbers on the Map hereunto appended.	}	59. 60. 61. 62. 63. 64. 65. 66. 67. 68. 69. 70. 71. 72. 73. 74.

From the uncertainty of their description, the Roads distinguished by letters B and J were necessarily omitted on the Map.

The last named thirty-seven Bills received the attention of the Board as promptly as circumstances would permit, but owing to the late period of the year at which the duties of Chief Commissioner devolved upon me—duties manifestly increased in amount and pressure; it has been found impracticable to afford all the consideration to those Bills that their importance requires.

As many suitable persons as could be selected for the duties of inspecting and reporting upon the several lines of road indicated in the Bills, were appointed to undertake such duties in time to render the information acquired available for the current year.

In order to elicit with sufficient method and fullness the chief particulars of interest relative to the several roads, a circular of instruction was addressed to each Commissioner for his guidance. In this manner the desired information, more or less complete and satisfactory, has been obtained relative to sixteen of the proposed lines. It is found, however, that some of these are nearly the same as others already less fully reported upon under somewhat different titles, and the relative claims of all require to be weighed with deliberation. The subject is one not only prospectively involving a large increase of the business and responsibility of this Department, but of corresponding increase of demand on the Provincial Revenue.

Considering also that besides new Bridges, additional Light Houses and Harbour Improvements, urged upon the attention of the Government, many unfinished roads already placed by law under the charge of the Board, call for rather an increasing than a declining annual expenditure, in order that they may be

placed, within a reasonable time, in a state of usefulness and efficiency; according to their original design, it seems advisable to defer any specific course with regard to additional roads for such further period as may allow their several recommendations to be considered with an attention due to the importance of the whole subject.

BRIDGES BUILT OR IN PROGRESS UNDER SPECIAL SUPERVISION.

No. 1.

Pennington Brook Bridge.

The casualty which rendered necessary the rebuilding of this Bridge, has been already explained.

The new structure occupies the site of the old one, and is 230 feet in extreme length, consisting of an eastern abutment of 60 feet, a span of 26 feet, and a western abutment of 150 feet in length. The height from the bed of the stream to the upper side of the curb pieces, is 21 feet, and the clear width of the roadway 18 feet. The blockwork is wholly of cedar, and the curb pieces and hand railing are of pine. The latter are painted with two coats. The roadway consists of a flooring of cedar poles, upon which is a layer of brush covered with gravel in the usual manner, extending over the whole length of the Bridge. The work was contracted for on the 27th July last, by Mr. Joseph H. Dykeman of Queensbury, for the sum of \$898, and satisfactorily completed prior to the stipulated time, which expired on the 15th November following.

No. 2.

Jacquet River Bridge.

This Bridge is situated on the line of the Great Road No. 10, in the County of Restigouche. The necessity of a new Bridge on this site was explained in the Report of last year; and early in the Spring a design and Specification were prepared with a view to its immediate construction.

The total length is 300 feet, consisting of a western abutment of 170 feet, a span of 40 feet, and a pier, span, and eastern abutment each of 30 feet. The blockwork is constructed exclusively of cedar and pine; its greatest height being about 17 feet, carried up with a batter of 1 in 12 to a clear breadth of 18 feet at top, and ballasted with stone to 3½ feet in depth. The 40 feet span is bridged by seven equi-distant stringers of pine 11x14, 43 feet in length, bolted down at the ends with one inch bolts, 3 feet in length, and united at the centre by a pine swing beam 9x12, secured by a ½ inch screw bolt to each stringer.

The 30 feet span is bridged by five equi-distant stringers 11x14, and 43 feet in length, securely bolted to the bearing timbers below; each of the spans is covered with 4 inch plank. The remaining portions of the roadway are brushed and finished with gravel, rounded from a depth of 7 inches at the sides to 13 inches at the centre, and the approaches are substantially completed to correspond. The hand-railing is of pine of the usually specified construction. All the necessary cedar and pine for the blockwork, the pole-flooring and the stringers for the spans, were separately provided and delivered by contract. The contract for the construction, including the supply of the residue of the materials, was taken by Mr. Hugh King, on the 1st August last, for the sum of \$640, the work to be completed by the 1st November ensuing. His engagement has been fulfilled with the exception of the painting.

No. 3.

Bailey Brook Bridge.

This Bridge is situated on Road No. 13, about two miles below Fredericton, and consists of a 12 feet dry stone arch, with abutments and backing of the same material, the whole about 200 feet in extent, built about 37 years ago. The abutments have been strengthened laterally at a subsequent period by buttresses of stone for the whole length on each side, which have no doubt sustained the original work under symptoms of failure, which appear to be of long standing, and may continue so to sustain it for several years. The original height was too low, being sometimes submerged as much as two or three feet by high freshets, so as to render the passage of the bridge, at such times, hazardous if not impracticable. Of late years the roadway had also become much dilapidated, and the hand-railing worn out or destroyed. Under these circumstances it was deemed necessary to apply such repairs as would restore the bridge to a condition of efficiency and safety. These consisted in raising the roadway to an increased height of 3 feet on a level throughout, by repairing and adding to the stonework, to the uniform width of 22 feet, and embedding in the same at the proper height, pine cross ties 12x9 and 22 feet in length, at 10 feet intervals over the whole distance, upon the ends of which were secured substantial pine curb pieces and hand railing; the intervening space being finished and levelled with stone and gravel. The approaches to the extent of 227 feet on the western and 172 feet on the eastern end, have been raised and finished with gravel to the same uniform height.

The work was contracted for by Mr. Alexander Thompson, on the 13th Sept. last, for the sum of \$590, and completed within the specified time, which expired on the 1st November following.

No. 4.

Pollet River Bridge.

The unsafe condition of the present Bridge was noted in the last Annual Report, and the necessary arrangements for the construction of a new one have been effected. The site is upon Road No. 47, in the County of Westmorland. The total length will be 335 feet. The channel of the stream is to be bridged by a

strongly framed queen-post truss of 66 feet in length, 18 feet in clear width, and 15 feet in clear height, supporting on two swing girts 12x14 and 32 feet in length, five equi-distant lines of stringers of 10x12, strengthened by corbels and stiffened by horizontal braces, the whole to be of best white pine or tamarac, and to rest upon abutments of 19½ feet each in length at the finished height, built of hewn cedar timber, well bolted throughout and filled up with stone from the foundation. The whole of the remaining blockwork will be built of round cedar logs, with a pole flooring laid for stone ballast, to be filled in to the depth of two feet throughout. Two openings of 19 feet and 18 feet, respectively, are to be made westward of the channel. The principal span will be covered with 4 inch pine or tamarac plank. All the remaining portions of the roadway are to be formed in a workmanlike manner with 7 to 13 inches of gravel, in conformity with which the approaches also are to be substantially perfected at either end.

The hand-railing is to be of the kind usually specified, which, with the truss, curb-pieces, and all the exposed iron work, are to be satisfactorily painted.

The contract was taken by Mr. Warren W. Price of Salisbury, on the 21st November last, for the sum of \$1596, the work to be completed on or before the 1st August of the current year.

No. 5.

Lane's Creek Bridge.

The condition of the present structure has been stated in the details of Road No. 15, upon which it is situated, about two miles above the Town of Woodstock.

The new Bridge will be in extreme length about 232 feet, and consist of a span of 37 feet, supported by two abutments each 26 feet in height and 20½ feet in length, built of hewn cedar, well bolted throughout, and filled with stone from the foundation. The causeway of the western end, 53 feet 6 inches in length, will be built of round cedar logs, and that of the eastern end, 100 feet 6 inches in length, will be built of the same material, and in like manner, save that 70½ feet in extent nearest to the abutment, will be ballasted to the depth of 3 feet.

The whole of the superstructure, including the stringers of the span, and a substantial hand-railing neatly framed and planed will be of pine. The roadway will be 20 feet in clear width, finished with gravel, in conformity with which the approaches at either end are to be substantially formed and perfected. The railing and also the exposed portions of the curb pieces, stringers, corbels and wall plates, and all the exposed iron work are to be satisfactorily painted.

The contract was taken by Asa Dow, Esquire, of Canterbury, under date of 28th December last, the work to be satisfactorily completed, according to design and specification, on or before the 1st day of September ensuing.

The change of site adopted for the new Bridge will involve also a partial change of the road to the extent of about 200 feet on the eastern and 1000 feet on the western end, the construction of which will be offered for separate contract, to be finished early in the ensuing season.

No. 6.

Pokemouche Bridge.

The site of this intended work is on the line of the Great Road No. 7, in the County of Gloucester, and intersects the estuary of the Pokemouche River, where the long felt inconvenience of a ferry will be superseded by the new Bridge.

The extreme length of the structure, exclusive of the approaches, will be 1210 feet, the whole of which will consist of blockwork with the exception of three spans of 40 feet each over the Main channel.

Commencing at the northern end, the order of the work will be as follows:—

	Level causeway to low-water line,	250 feet.
	Level causeway continued,	670 "
	Causeway rising 1 in 20,	40 "
Level.	}	Abutment,	20 "
		Span,	40 "
		Pier,	20 "
		Span,	40 "
		Pier,	20 "
		Span,	40 "
		Abutment,	20 "
		Causeway,	50 "

The height above ordinary low water level to the underside of the stringers of the spans, is to be 6 feet 6 inches, being 17 feet nearly above the bed of the channel at the deepest part; and the breadth of the finished roadway between the railing is to be 18 feet.

Each span will be bridged by five equi-distant stringers 10x12, and 45 feet in length, of best white pine or tamarac, each stringer resting upon two tiers of corbels of the same material and section, the whole strongly fastened in proper adjustment by one inch screw bolts. All other portions of the work will consist of sound cedar logs, not less than 10 inches in diameter at the small end, and will be properly floored with cedar poles and otherwise prepared for the reception of ballast, varying in depth as follows. The abutments and piers will be ballasted with 2 feet in depth of stone; the extent of 710 feet intervening on the north side between low water mark and the first abutment, with one foot in depth; and the roadway over the whole from end to end, the spans excepted, will be loaded with good gravel to the depth of 12 inches at the sides, rounded to 18 inches at the centre. The permanent weight thus imposed is estimated to be more than sufficient to counterpoise any probable buoyancy or instability from the accumulation of ice. The several spans will be floored with 4 inch pine or tamarac plank. The hand-railing will be of substantial construction, consisting of pine or tamarac, neatly framed and planed, and with other portions of the superstructure is to be satisfactorily painted. The approaches are to be formed and perfected at either end and finished with gravel to correspond with the roadway of the Bridge.

The lowest tender for erecting and finishing the whole, according to design and specification, on or before the 31st day of July, 1863, being that of Mr. William Morrison, of Neguac, for the sum of \$3156, has been accepted.

The foregoing are the several bridges for the erection or repair of which special arrangements have been made subsequently to like arrangements for those described in the last and in previous Annual Reports. In the statement hereto appended, A. No. 2, is shewn the expenditure for Bridges erected or repaired under special supervision, from 1st November, 1860, to 31st October, 1861, inclusive, amounting to \$32,549.12.

INTERNAL NAVIGATION.

GRIMROSS CANAL.

The excavation and removal of the material above low water level of this work was nearly completed in the course of the winter of 1860-1. It had been agreed with the Contractor that the use of the Government Steam Dredge should be allowed him on the usual terms for the excavation and removal of the material below low water, as soon as he might be prepared for this part of the operation. In compliance with his application, therefore, the Dredge was placed on the line of the Canal for this service on the 26th of April, and continued until the 26th of June, inclusive, when the freshet had subsided to a level below which the machine could not be effectively applied to the unfinished portions of the work. During this period the greater part of the material had been removed, but so much remained as to render the Canal unavailable for navigation according to the design. Circumstances did not permit the use of the Dredge to be afforded as desired by the Contractor, during the short opportunity of prosecuting the work presented by the fall freshet, if even this had been sufficient, and the completion of his contract is necessarily delayed until the ensuing spring.

DREDGING MACHINE.

At the close of the season of 1860, the Dredge was secured in one of the slips at Carleton during the winter; and before the 2d April ensuing was repaired and refitted. On this date work was commenced at the wharf of the Hon. John Robertson, and continued there for six days; after which the deepening of the Ferry Landing was resumed, and continued for an equal period. The Dredge was then removed to the line of the Grimross Canal as already stated, where it was stationed until the 26th June. From this date to the 10th August, it was employed in continuing the excavation of a channel through the Oromocto Shoals, where 16,225 cubic yards of material were removed, making, with the

quantities removed from the same place in the years 1858 and 1860, a total of 93,175 cubic yards. From hence the Dredge was again transferred to the Harbour of St. John, and was for $4\frac{1}{2}$ days engaged on an excavation at Merritt's wharf, after which five scow loads were excavated at Turner's wharf. During the remainder of the season the Dredge was occupied at the Ballast wharf, where the material to be removed, consisting of stone and gravel, proved to be less practicable and more injurious to the machinery than the usual substances requiring this method of removal. The quantity excavated at this place was 12,400 cubic yards; and the total quantity at all places for the season, according to the Report of Capt. Barker, hereto appended—B. No. 1—is 51,060 cubic yards.

The total expenditure disbursed between the 1st November 1860, and 31st October 1861, inclusive, on account of repairing and working the Dredge, was \$6,510.28.

ST. JOHN RIVER.

The removal of boulders and rocks, impeding the navigation of the River St. John, at several points from the Nackawickak upwards to Cronk's Island, inclusive, has been prosecuted during the past season under the continued supervision of Mr. Thomas C. Atherton, whose expenditure for this service, including the improvement of the towing path for a distance of about nine miles, has amounted to \$915.93. His Report is hereto appended. B. No. 2.

The general depth of water secured at Bear Island Bar, by the improvements of the past season, is such as to render further labour at the same place unnecessary until the draft of water, at other situations on the River, be increased. These improvements have been continued under the supervision of Mr. Stephen Glasier, whose expenditure on the same has amounted to \$622.52. His Report is hereto appended. B. No. 3.

SOUTH WEST MIRIMACHI RIVER.

The improvements on this River have been continued under the charge of Mr. Robert Swim, whose Report is appended—B. No. 4; from which it appears that from Burnt Land Pond, near Boiestown, downwards, as far as Doak's Bridge, an increase of depth has been obtained of from six to eight inches over all the bars and rapids: and that from thence downwards to the vicinity of Bergen's Bar, at several places an increase of depth of about 10 inches has been obtained, whilst at others, obstacles have been removed and the course of the channel straightened. He reports all the foregoing works to have been contracted for by public competition. From Boiestown upwards, as far as Boies' Hole, the labour has been chiefly in blasting large boulders or rocks interfering with either the channel or the towing path. Similar obstacles to the navigation are represented to continue for a long distance above Boiestown.

The expenditure for the above works during the season, has amounted to \$739.41.

LIGHT HOUSES.

An abstract statement of the expenditure for the support of the Light Houses of this Province in the Bay of Fundy, presenting an analysis of the expense of each Light for the year ending on the 31st October last, has been furnished by Mr. Woodward, late Commissioner and Superintendent, and is hereto appended. C. No. 1.

This statement also presents separately the cost of completing and maintaining the Steam-whistle, recently erected on Partridge Island. After several trials in the management of this instrument to determine the most effective signal, combined with the greatest economy of steam, it has been found that a continued alarm of 10 seconds per minute, during foggy or thick weather, is in both respects the most satisfactory, and has been finally adopted.

The Report of the Commissioners of Light Houses in the Gulf of St. Lawrence for the past year, is hereto appended.—C. No. 2. The importance of additional Light Houses on the eastern coast of the Province is fully recognised, and the necessary measures for the erection of that proposed at Richibucto have been delayed only by the unremitting pressure of the ordinary business of the Department.

The Beacons, or Sea Marks, heretofore existing on the Northern end of Fox Island, at the entrance of the Mirimachi Inner Bay, have been displaced by two new ones, each adapted for the exhibition of a Light during the season of navigation; and a house in the immediate vicinity has been built and fitted for the Keeper's residence; the whole at the cost of about \$629.

PUBLIC WHARF, DALHOUSIE.

This work was sufficiently completed to be available since September last for Public use. The total sum of \$2,396, allowed by the Government in aid of the same, including a first appropriation of \$1,200, has been paid to the Commissioners.

INTER-COLONIAL COMMUNICATION.

A particular Return furnished by Mr. Heron, proprietor of the Steamer "Arabian," of the voyages made and of the number of passengers and approximate amount of freight conveyed by that vessel, running between Quebec and Shediac, during the past season, is hereto appended. D.

The aggregate presented by this return, as compared with that of the previous season, is as follows:—

	1860.		1861.	
	Down.	Up.	Down.	Up.
Number of Passengers,	456	494	436	547
Estimated number of barrels of Freight,	10,000	2,000	11,500	3,000

Mr. Heron urges upon the consideration of the Board several suggestions with the view to promote greater regularity and increased benefit of Steam communication on the Gulf Coast of this Province. His letter on this subject is also appended.

PUBLIC BUILDINGS.

LEGISLATIVE BUILDINGS, &c.

No extraordinary expenditure either on the Legislative Buildings, Government Offices, or the residence of the Lieutenant Governor, beyond that incident to the due care and preservation of the several buildings, has been incurred during the past year. An account of the several payments, amounting to \$2,479.97, is hereto appended—A. No. 5.

The expense found necessary from year to year in order, if possible, to repair in an effective and permanent manner, the defects in the roof of Government House, have proved only partially successful, and a renewal of at least a portion of the roof may shortly be unavoidable.

PROVINCIAL LUNATIC ASYLUM.

Tenders for the construction of the new wing of this building, according to drawings and specifications approved by the Board, were invited by public advertisement early in the Spring of the past year; and on the 12th of June following a contract was signed by Mr. H. B. Crosby, for the due execution of the work on or before the 1st day of November, 1862, for the sum of \$17,173.

The contractor promptly entered upon the fulfillment of his engagement, and his subsequent satisfactory progress justifies the expectation that this long needed, additional accommodation to the institution will be available within the stipulated time.

The payments on account of this work, amounted to \$11,466.16, on the 31st October last.

PROVINCIAL PENITENTIARY.

The expenditure of \$1951.68 on this building, which appears in the Account of the past year (Appendix A. No. 7,) was chiefly incurred by improvements and repairs effected near the close of the previous year, as stated in the last Annual Report.

QUARANTINE STATION, ST. ANDREWS.

The buildings at this Station are in an unsatisfactory condition, and require early attention. The expediency of relinquishing the present and of adopting a more convenient site for the purpose of those buildings has been submitted to the consideration of the Board by the Assistant Emigrant Officer in charge of the same. His communication on this subject, dated 16th November last, is hereto appended, under letter E.

All the foregoing is respectfully submitted.

GEO. L. HATHEWAY,

Chief Commissioner.

Appendix A.

No. 1.

STATEMENT shewing Payments to Supervisors for the General Expenditure on
Great Roads from 1st November 1860, to 31st October 1861.

Department of Public Works, 31st October, 1861.

No. 7.

ABSTRACT of all Receipts and Payments of the Department of Public Works,
from the 1st November 1860, to the 31st October 1861, inclusive.

RECEIPTS.

Balance brought forward, as per last year's statement,	\$177.95
From Warrants on Treasury, as per Statement No. 6,	139,649.00
Rents from Brick Houses in Fredericton, namely—	
Wetmore's House, from J. McClusky,	\$48.00
J. M. Barker,	20.00
McSorley's House, from Mrs. Levy,	14.00
P. McGarrigle,	16.00
McLoon's House, from M. Noonan,	57.70
Mrs. McGlinchy,	24.00
Martin's House, from R. Lucas,	25.00
	204.70
Remnants of Roan Skins sold to R. Sutherland,	2.66
Sale of old Furniture from Government House, by T. R. Barker,	16.00
Fine Coal from House of Assembly, sold to W. Cooper,	12.00
Rent from "Rose Hall" (temporarily held by the Government,) from Major Grey,	24.00
Overcharge by DeForest & Perkins, on Dredge Account,	50
	\$140,086.81
Less undrawn from the Treasury—	
Part of Warrant 422,	\$2,220.20
Do. 444,	9000.00
Do. 445,	2,720.00
Cash in hand,	42.81
	5,883.01
Balance due the Province, carried forward,	
	\$134,203.80

PAYMENTS.

No. 1—On Account of Great Roads and Bridges, as per Statement A. No. 1,	\$45,203.95
2,	32,549.12

			<u>1,320.59</u>	1,320.59
Balance due Supervisor,	<u>\$38.33</u>	\$38.33

Mr. Crocker claims a balance of \$180.40; the difference chiefly arises from the following deductions by the Auditor General in former Accounts:—

Personal services charged by Mr. Crocker in 1857,	\$30.00
Commission on Boiestown Bridge " in 1859,	120.00

Less—				\$150.00
Commission allowed by Auditor, in addition to Mr. Crocker's charge in 1859,				10.11
			<u>\$139.89</u>	

Mr. Crocker has not credited these deductions, although disallowed by the Board of Works as well as this Office.

No. 15—G. W. CURRY.

Appendix B.

INTERNAL NAVIGATION.

1.—DREDGING MACHINE.

Report of James M. Barker, of the work performed by the Provincial Steam Dredge, during the year 1860.

Fredericton, N. B., 31st December, 1861.

SIR—Having completed my summer's operations with the Provincial Dredge, I beg to submit herewith a detailed account of the labour performed, shewing the number of scow loads and cubic yards excavated, also the different places of operation.

I commenced my labours on the 2d April last, at the Hon. John Robertson's Wharf, in Saint John Harbour. I remained there 6 days; from thence I removed to the Ferry Landing, where I operated 6 days.

I then received orders to proceed to Grimross Canal, where I arrived, and commenced operations on the 26th day of April, and continued there until the 26th day of June, inclusive. I was then ordered to the Oromocto Shoals, and remained there from the 1st July to 10th August. I then proceeded to Saint John Harbour, and commenced an excavation at Mr. Merritt's Wharf on the 19th, remaining there $4\frac{1}{2}$ days.

On the 27th August, I excavated 5 scow loads from Mr. J. D. Turner's Wharf. I then proceeded to the Ballast Wharf, where I remained from the 28th August to the 15th November. Having completed the excavation at the Ballast Wharf, it was thought expedient to lay the vessel up for the winter, being at the time very much out of repair, in consequence of working in materials so unfavourable as the stone and gravel found at the place last mentioned.

There was much time occupied in repairing machinery and moving from one place to another, besides delay occasioned by rough weather in St. John Harbour.

The repairs required to place the Dredge in good working order, will, in my opinion, involve an outlay of at least eight hundred dollars.

Respectfully submitted.

JAMES McD. BARKER,

Master Provincial Dredge.

A detailed Statement of work performed by the Provincial Dredge during the Summer of 1861.

2.—SAINT JOHN RIVER.

Report of Thomas C. Atherton, Commissioner for improving the Navigation of the River Saint John, at the Meductic Falls and vicinity.

Southampton, December 30th, 1861.

SIR—The improvements to the navigation of the River Saint John, committed to my superintendance during the past season, in continuation of those heretofore under my charge, and explained in previous Reports, have consisted in the removal of boulders at “Calder’s Rocks,” immediately above the Nackawickak; repairing the Towing Path from thence upwards, to Cronk’s Island; removing boulders from the channel side of that Island, at Shaw’s Rocks, and at the point on the left bank, at the foot of the Meductic Falls.

The repairs of the boats and breakwaters, and other necessary preparations were made, in order to be in readiness as soon as the freshet should sufficiently subside. The water continuing too deep at the Meductic Falls to permit any labour being effectively applied there, the season’s work was commenced with a force of ten men and one horse, at Calder’s Rocks, where the channel has been improved by the removal of a great number of both large and small boulders.

Simultaneously with this work, the repairs and improvement of the Towing Path, as mentioned, were conducted, to the extent of about nine miles.

Six men, with two pairs of horses, were employed in completing the improvements on the channel side of Cronk’s Island, and at Shaw’s Rocks, as adverted to in my last year’s Report; and also in materially advancing the improvement of the channel at the point on the left bank at the foot of the Meductic Falls, where much yet remains to be accomplished.

The removal of the large boulders which interfere with the navigation at the head of the Falls, can be attempted with advantage only at the lowest stage to which the water ordinarily subsides; and it did not at any time during the past season fall sufficiently low.

There remain to be removed a number of boulders, at and near the large one known as the “Governor’s Table,” and others at Howe’s Point. The towing path will also require continued attention.

One of the boats heretofore employed during the progress of the improvements has become unsafe, and I beg to recommend that a new one be provided for the work of the ensuing season. I estimate the cost at about three hundred dollars.

I have the honor to be, Sir,

Your most obedient servant,

THOMAS C. ATHERTON.

3.—Report of Stephen Glasier, Commissioner for improving the Navigation of the River Saint John, at Bear Island Bar.

Fredericton, 1st February, 1862.

SIR—I beg leave to state that the improvements effected under my superintendance during the past summer at Bear Island Bar, are so far complete as to render unnecessary any further labour for the same purpose until a greater draft of water be obtained at other places on the River, which are chiefly Knapp's Bar, Meductic Falls, and Bellevise Bar.

The expenditure during the season for the work under my charge, has amounted to the sum of \$622.52, as per account submitted.

I have the honour to be,
Sir, your obedient servant,

STEPHEN GLASIER.

To the Hon. GEO. L. HATHWAY, Chief Commissioner.

SOUTH WEST MIRIMACHI RIVER.

4.—Report of Robert Swim, of the Improvements on the Southwest Mirimachi River, during the year 1861.

Mirimachi, 13th November, 1861.

SIR—I beg leave to submit the following statement of the manner in which I continued the improvements on the Southwest Branch of the Mirimachi River, during the past season.

In my report for 1860, I intimated that it would be advisable in any future expenditure for deepening bars, removing rocks, &c., to let the work by public competition—the character of the work, and the required depth of water, to be stated in writing. I therefore, at the most favourable period of the year, let to the lowest bidder the improvements of the following bars, and also other work, such as removing rocks, clearing impediments from the tow path, &c., commencing at Burnt Land Pond, a little below Boies Town. I there removed four large rocks; a mile further down, at Dunphy's Island, deepened two bars, one of which is rocky, the other a gravel formation; a mile and a half further down, at Pond's Rapid, removed five rocks from the channel. By reference to my report for 1860, you will observe that I cut a new channel through Duff Bar, anticipating that future ice freshets would deepen it; but judging from the action of the ice jams of the last season, and also from that of the spring freshets, I am led to believe that the desired effect will not be produced. I therefore let by public competition the building of a jetty one hundred and fifty feet in length, and nine feet in width, well loaded with stone and gravel from the channel. This will have the effect of preventing the water flowing down a back gully.

and spreading on the beach. It will turn it in the direction of the main channel, and thus increase the depth of water. In this vicinity, I let the deepening of Harris' Bar; a mile further down, the removal of four rocks from Long's Rapids; a mile below, the deepening of Wilson's Bar; two miles further down, I deepened O'Donnell's Bar, and let the removing of four rocks from McNamee's Rapid. In this place a number of large rocks had slid down from the hill, carrying trees and brushwood with them, entirely filling the tow path for the distance of a mile. I let the clearing of these obstructions, and horses can now pass safely. At the head of Souter's Pond, removed a bank of gravel, cast up by the ice; and also let the deepening of a bar at the foot of Munroe's Intervale. At the foot of Wilson's Island, I found the channel blocked up by a gravel bank, thrown up by the ice freshet, and the current turned from its former course. I improved this new channel by widening and deepening it.

The above is a statement of the work done from Boies Town to the Doak Bridge, by which an increased uniform depth of water is obtained on the bars and rapids of from six to eight inches.

Below the Doak Bridge, I let the deepening of Robinson's Bar, Bamford's Bar, Morsereau's Bar, and the Bar at the foot of Kelly's Island, to a depth of from eight to ten inches. A short distance below DeCantillon's, I let the removal of some large rocks, as well as a number of smaller ones, known as "Frank Weaver's Rocks." About two miles further down, deepened the channel of the half-way bar, and of a bar at Butternut Island, about ten inches. Between the two last named bars, cleared a tow path half a mile in length. At the foot of Donnelly's Island, I let the cutting of a new channel on the south side of the river, in consequence of a sharp turn in the channel in this vicinity, which rendered the navigation very difficult, and often occasioned loss of property. The new cut straightens the course of the current, and makes a great improvement in this part of the river. About two miles below this place, deepened Dunphy's Bar, Bergen's Bar, and another Bar in that neighbourhood.

The above statement shows the work done by contract during the past season.

I have also to report that the improvements required to be made above Boies Town, were difficult to let by contract, as they would principally consist in blasting. I therefore proceeded to Rocky Brook, about fifteen miles above Boies Town, and cleared a tow path two and a half miles further up, on the north side. At Three Mile Rapid, cleared a tow path, by blasting nine grey rocks and five blue ones; and also reduced part of a ledge, which required eight charges. The broken rocks were removed, with a number of smaller ones, and the pathway levelled off, so that horses can travel over it with safety. At Burnt Hill, about eight miles further up the river, cleared a tow path on a ledge that required eighteen charges. Three miles further up, cleared a tow path on the side hill, by removing a number of standing trees, and digging and levelling the slope. Near this place, I blasted one large rock and a smaller one—the former being known as "Spider Rock." At McMillan's Pond, ten miles further up, blasted two large grey rocks; at "Poff's Defeat," one large grey one; at Birch Island, one blue one; at Peter, three grey ones; in the

Narrows, seven large rocks, and two of smaller size; at Otter Brook, three grey rocks, known as the "Old Hen and her Chickens". At Boies' Hole, five miles above McMillan's Pond, blasted two grey rocks.

This terminated the work of the season done above Boies Town.

I would observe, that Bars which have been improved in one year, frequently present banks formed in the channel by the ice jams of the ensuing spring. Several of such banks were removed during the past year.

There are yet many places above Boies Town which stand in need of improvement, viz.: Big Rocky Pond, Rocky Brook Rapid, Three Mile Rapid, Rocky Bend, Head of Gaspereaux Island, Little Burnt Hill, Two and a Half Mile Pond, State Island, The Three Rangers, County Line Rapid, Poff's Defeat, Birch Island Rapids, Head of the Narrows, Chain of Rocks, Boies' Rocks, and Lewis' Falls.

There should not be less than \$300 expended on the above named places above Boies Town the next season, and \$400 from Boies Town to the head of the tide, which would be of great service in facilitating the navigation of the River, and a corresponding public benefit.

Respectfully submitted.

ROBERT SWIM.

To the Hon. GEO. L. HATHWAY, Chief Commissioner, &c.

2.—Report of the Commissioners of Light Houses in the Gulf of St. Lawrence.

Mirimachi, 19th December, 1861.

SIR,—We herewith beg to submit our Accounts of the expenses incurred during the current year, for the support of the Lights on Escuminac and Miscou—the former being £96 2s. 3d., the latter £86 6s., making altogether with commissions £182 8s. 3d. or \$729.65: and we trust the Accounts will be found correct and satisfactory.

We have nothing special to report respecting the working of these Establishments, beyond the fact that we believe they continue to give general satisfaction, and are conducted by the Keepers in a careful and prudent manner, and the Buildings and Lights are kept in an efficient state.

We do not anticipate anything beyond the ordinary outlay for upholding them the current year. A slight expense may be required at Miscou to improve the pedestal and Lanthorn, which have been leaking in places during the past Summer.

We do not remark on the necessity felt at Richibucto, Shediac and Cape Tormentine, for additional Lights, as we presume the parties interested have represented to you direct, their local wants. A Light on a prominent point on Cape Tormentine is loudly called for to protect the Shipping passing up and down the Straits of Northumberland. If such a Light were in operation it would be seen in going down the Straits before losing Escuminac, and Pictou Light would be in view before losing such new Light, if equal to Escuminac.

We are Sir, respectfully, &c.

GEORGE KERR,
JOHN HARLEY,
RICHARD HUTCHINSON,

Commissioners.

To the Hon. G. L. HATHEWAY,
Chief Commissioner Board of Works, Fredericton.

*Steamship "Arabian" Office,
Toronto, December 27th, 1861.*

Letter from A. Heron, Esquire, proprietor of the Steamer "Arabian," to the Chief Commissioner of the Board of Works.

Toronto, 27th December, 1861.

HON. GEO. L. HATHEWAY,

SIR—I herewith send you a Report of Trips and Passages per Steamer "Arabian" for this season, as per request of Asa Coy, Esquire, Secretary.

I would beg to remind you, that lights are much required at Dalhousie, Bathurst, Mirimachi River, and at Richibucto, as the boat has been detained over nights for want of them.

I would beg to urge the dredging a channel from the Point at Bathurst to the Town, that the boat may go up, as otherwise it will be impossible to satisfy the inhabitants of that Town.

It would be of great consequence to the Steamer "Arabian," if a passage was deepened at the Shippigan Cut. It is at low water 5 feet *on the Bar*, and 9 feet would permit the "Arabian" to pass through. This Cut would be of great advantage to all vessels and boats going up the Bay Chaleur; it would save the "Arabian" 40 miles each way, and would also allow her to call at Caraquet and Shippigan, up and down, which the inhabitants of these places are very desirous for.

I believe, with round logs on one side, the channel could be deepened to nine feet of water, for about two thousand dollars, which, if the Government put a small toll on vessels passing through, would pay the whole expense in two years.

The fishing boat people would be willing to pay a small toll towards deepening this channel.

This could be done by 1st May of next year. I hope you will see fit to have this work done in the course of this winter and spring.

Very respectfully yours,

A. HERON.

Appendix E.

QUARANTINE BUILDINGS, ST. ANDREWS.

Letter from Thomas Jones, Esquire, Immigrant Officer, Saint Andrews, to the Chief Commissioner of the Board of Works.

Emigrant Office, St. Andrews, 16th Nov., 1861.

SIR—I beg leave to call your attention to my communications of last year, to the Hon. Mr. Steeves, your predecessor in office, respecting repairs which are required at Quarantine Island, an establishment under my charge.

You are well aware that this Island is situated about six miles from the Town of St. Andrews, and is used as a Quarantine Station for the whole of Passamaquoddy Bay.

On the Island are a dwelling house, a shed, and two large buildings, used for Hospitals.

These buildings are all more or less out of repair. The best and newest building has no chimney in it, and is therefore serviceable only in mid-summer. The chimneys of the other Hospital had partly fallen, and were taken down, by direction of Mr. Steeves, on his last visit to the place. He proposed replacing those two stacks of chimneys, by stoves and pipes, and short chimneys to be built through the roof. There is a sufficient number of good bricks on hand for that purpose.

The dwelling house in which the Keeper of the Island lives, requires an immediate expenditure of twenty dollars, to replace the sashes, glass, and shingles destroyed by the violence of the weather during the last two years.

May I be allowed to suggest to you the consideration of the expediency of maintaining any longer this establishment at its present location.

This Island is without fresh water. It is so far removed from St. Andrews, as to cause the supervision of it, the Doctor's visits, when there are any sick, the freight of supplies, &c., all to be attended with an enormous expense. At some seasons it is very difficult of access, being exposed to the whole force of the storms of the Bay, which threaten to make a breach through it, a disaster which was only prevented, some time ago, by a great outlay of money.

The Keeper's salary is twenty-five pounds a year. • There is a small farm at the extreme southern end of St. Andrews Island—the one opposite to the Town of St. Andrews—which could be obtained for a small sum, and which possesses every qualification for a Quarantine Station, excepting perfect isolation. It is, however, far removed from any dwellings; it is supplied with abundance of good water; it is accessible at all hours and seasons by boats; it is within signalling distance from the Town; the soil is good, and the situation is high and dry. The use of the farm would be sufficient compensation to the Keeper, which would annually save the amount of his present salary.

I have the honour to be, Sir,

Your obedient servant,

THOS. JONES,
Assistant Emigrant Officer.

To the Hon. G. L. HATHWAY,
Chief Commissioner Board of Works, Fredericton.

ERRATA.

At page 9, 14 lines from bottom, after "side," read "and," erase "\$221.40;" and on same page, at 4 lines from bottom, for "\$889.32," read "\$657.92."

At page 13, 11 lines from bottom, instead of the sentence as printed, read "raising the stonework, and thoroughly renewing the roadway, railing, and approaches of Bailey Brook Bridge, per contract, \$590, of which paid in part prior to 31st October, \$390;" at 9 lines from bottom, for "\$1114.07," read "911.07;" at lowest line, for "\$1712.13," read "\$1512.13."

REPORT

OF THE

RAILWAY COMMISSIONERS

OF THE

PROVINCE OF NEW BRUNSWICK,

FOR THE YEAR

1861.

SAINT JOHN, N. B.:
PRINTED BY CHUBB AND COMPANY,

PRINCE WILLIAM STREET.

1862.

R E P O R T .

Railway Commissioners' Office, {
Saint John, 20th Jan., 1862. }

To the Hon.

The PROVINCIAL SECRETARY.

SIR—

I beg to submit, for the information of His Excellency the Lieutenant Governor in Council, a Report of the operations on the European and North American Railway, for the year ending 31st October, 1861.

Quarterly Accounts of all expenditures, liabilities, and receipts, have been furnished in accordance with the law.

The traffic accounts and vouchers have been audited in St. John, by a Clerk from the Auditor General's Office.

The following are the balance sheet and abstracts of accounts for the year ; also, statement of land damages paid.

RAILWAY COMMISSIONERS' REPORT.

Annexed are —

Report from the Resident Engineer.

Report from the General Superintendent.

The surplus revenue for the year is \$36,432 63. This is less than was anticipated, but the heavy snows of last winter added greatly to the running expenses, and the depressed state of business in this Province, and the troubles in the neighbouring States, prevented that increase of traffic which otherwise might reasonably have been expected.

The amount added to Capital Account for the year is \$186,839 91.

This may be classified as follows : —

Balances paid Contractors in settlement of Accounts,	71,770 27
Buildings, Fittings, and Furniture,	6,301 36
Ballasting, taking out cuttings, soiling and seeding slopes,	22,399 64
Sidings, including rails and switches,	9,675 86
Drains, Water works and Tanks,	3,055 90
Road Crossings, Fencing, Straightening Rails, &c.,	3,209 70
Locomotives, Cars, Track Scale, &c.,	32,555 08
Covering Point du Chene Wharf,	6,259 32
Engineering,	7,110 53
Dredging at Point du Chene,	3,233 75
Land Damages,	14,253 20
Miscellaneous,	7,015 30
	<u>\$186,839 91</u>

The Railway, with its present complement of Stations, Sidings, and Rolling Stock, has cost, up to 1st November last, \$4,548,564 59, or \$42,116 34 per mile; equal to £8,774 4 9 Sterling.

As the Road is well drained and ballasted, and generally in thorough good order, it is believed that it can be kept in running condition with the ordinary maintenance.

Some few Sidings and Loading Platforms will probably still be required ; and it is desirable that a connection with the water should be provided at Saint John.

The only material addition to the Capital Account, or cost of the Railway, that may be anticipated, can only arise from a largely increased traffic, requiring additional Rolling Stock, Stations, and Sidings.

Respectfully submitted,

R. JARDINE,
CHAIRMAN.

RESIDENT ENGINEER'S REPORT.

ENGINEERS' OFFICE, ST. JOHN, N. B., }
January 18, 1862. }

ROBERT JARDINE, ESQUIRE,
Chief Commissioner.

SIR,—

I have the honour to submit the following Report of the operations of the Engineering Department of the Railway, during the year that has elapsed since I was placed in charge :—

In reviewing in their order the various points along the Railway, I have taken each District by itself.

SAINT JOHN DISTRICT,

From Saint John to Ossekeag.

The number of Sidings in the Saint John Station Yard has been increased, and a "Fairbanks Patent" Track Scale put up, the latter being much required for the purpose of weighing Engines, Cars and their loads. The Ballast used in the yard has been that brought by vessels entering the harbour, and has cost less than any that could have been otherwise procured of sufficiently good quality. Throughout the District, wherever the slopes of the cuttings had slipped, they have either been trimmed flatter and supported by retaining walls, or properly drained and sodded. Most of them are now, I believe, secure. Much trouble and expense have been saved on Sections 5 and 6 of this District, owing to the slopes of the cuttings having been covered with sods as soon as they were trimmed, while, from my knowledge of the nature of these cuttings at the time they were taken out, I have no hesitation in saying, that this plan, though apparently expensive at first, has already saved more than its cost.

HAMPTON DISTRICT.

From Ossekeag to Sussex.

Two new Sidings have been laid in the District during the year. The embankments having settled in several places, I was obliged to use additional ballast to bring them

up to the proper height. With these exceptions, nothing beyond the ordinary maintenance has been necessary.

SUSSEX DISTRICT,

Sections 10 to 16, both inclusive.

In Sussex Station Yard a Shed has been built to cover the Turntable, as well to protect it from injury by the weather, as to save the expense of keeping it free from snow during the winter. The Freight Platforms have been enlarged and improved, so as to facilitate the loading of timber and other heavy freight. Water has been brought into the yard from a spring of sufficient size to ensure a constant supply, and with head enough to throw water over any of the buildings in case of fire. The Pipes used are the "Patent Cement Pipes," similar to those laid down in Carleton.

In consequence of the appearance of springs in the bottom of one of the cuttings on Section 11, I was obliged to incur considerable expense in building large French drains and putting on new ballast. One of the Cuttings on Section 13, has also been very troublesome, owing to the peculiar nature of the material through which it is made. The embankment west of Penobsquis, which, notwithstanding the judicious means adopted for its preservation by the former Engineers, was in danger of being injured by the rapid current of Stone's Brook, has been widened and further protected. A small amount has been expended in slope draining and ballasting such other parts of the District as required it. At Anagance, a large freight platform has been put up for the accommodation of the lumber traffic of that Station. At Petitcodiac, a Tank House has been built, into which water is brought from two springs distant about one-third of a mile. The pipes used are the "Patent Bituminized Pipes," which, costing less than half as much as iron, are said to be practically as strong and much more durable — they are light to handle, and can be easily and quickly laid.

SALISBURY DISTRICT,

From the end of Section 16 to Moncton.

This District, as far as regards the superstructure, has been the most expensive and troublesome on the Line. The ballast first put on, though the best that could be found on the district at the time, was originally of inferior quality, and was made worse by the slurry from the slopes. The embankments are almost all heavy and in some instances had settled considerably. These and other causes rendered it necessary to put on a large quantity of ballast, some of which had to be brought from a great distance. In addition to this, many of the cuttings proved to be very wet, making a thorough

system of slope drainage indispensable. At Steves' Lake cutting, especially, though the slopes were considered well drained, the action of the heavy snows and thaws of last winter, brought them down almost bodily. I have had more drains put in, new ditches dug, and the slopes properly trimmed, soiled and sown with grass seed. I have now great pleasure in stating that they have stood the test of the frequent rains of last Autumn, without receiving much injury. A Tank House has been built at Steves' Lake. The water for this Tank is led along the embankment nearly a mile in wooden pipes from a brook which crosses the Railway, at sufficient elevation to give the necessary head.

MONCTON AND SHEDIAC DISTRICT,

From Moncton to Point du Chene.

At Shediac, the Turntable has been covered with a shed as at Sussex. The Blacksmith's Shop has been enlarged, and a Brass-furnace added to the Machine Shop. Shediac Station is now supplied with water from a spring distant about a mile and a quarter, and there, as at Sussex and Petitcodiac, there is sufficient head to be useful in case of fire. The pipes used are the "Patent Bituminized Pipes." The Shediac Station Buildings are very much crowded together, and in consequence, the yard is constantly blocked up with snow in winter. I would, therefore, suggest that the Engine and Car Sheds should be moved to the Eastward of the Machine Shop. This could be done at a small cost, and would be a material improvement to the yard.

The Wharf at Point du Chene, which was formerly merely ballasted with stone, has been planked over the entire surface, and a second track, with the necessary points and crossings, has been laid the whole length of the wharf. A large quantity of ballast, and part of the former track, were washed away by a storm in the autumn of 1860; the efficacy of the present plan has been fully proved by the fact that the storms of last autumn, during which the sea broke completely over the wharf, did no damage. Additional fender posts have also been put on, so that there are now berths at the wharf for three steamers. The passenger and freight platforms have been enlarged, and such improvements made in the arrangement of them, as experience in the nature of the traffic showed to be necessary. The channel at the end of the wharf, which, in some places, was too shallow for steamers, has been deepened to 13 feet at low water.

I may here endorse the recommendation of Mr. Light, late Chief Engineer, that the small wooden bridges at Big Scadouc, Little Scadouc, and Cook's Brook, should be replaced by stone culverts. These bridges, having been standing about seven years,

must, in the ordinary course of things, soon require renewal ; and as sandstone, easily quarried and worked, can be procured at Scadouc River, the cost of the culverts, need not greatly exceed that of new wooden bridges. I have caused such repairs to be made on these bridges as will render them secure for the winter.

I have also to report generally, that the Railway is now well provided with Sidings, the total length being over thirteen miles, of which more than a mile has been laid during the past year ; that the water-ways have proved quite sufficient to vent all the water ; and that the Bridges, Culverts, and other structures, are all in good order.

The slopes of every cutting have been soiled, and sown with grass and clover seed ; if this is repeated, where necessary, till the slopes are completely grassed over, the expense of maintenance will be much decreased.

The following Watering Stations are now supplied with Water by gravitation, viz:— St. John, Rothsay, Quispamsis, Ossekeag, Moosehorn, Sussex, Petitcodiac, Steves' Lake, and Shediac ; the cost of pumping is thus saved at these stations, while there is the further advantage of increased protection from fire.

In conclusion, I am happy to be able to state, that the Railway, throughout its whole length, is in good running order, and that the true economy of having the work thoroughly done at first, is already making itself manifest in the extremely small cost of maintenance.

I remain, Sir,

Your obedient servant,

J. EDWARD BOYD,

RESIDENT ENGINEER.

SUPERINTENDENT'S REPORT.

GENERAL SUPERINTENDENT'S OFFICE, }
St. John, N. B., 31st Dec., 1861. }

To R. JARDINE, ESQUIRE,

Chairman of the Board of Railway Commissioners.

SIR,—

I beg leave to submit a Report of the operations of the Railway for the last fiscal year.

The following summary will show concisely the result of the transactions of the past, as compared with the previous year:—

1860.	CLASSIFICATION.	1861.
	REVENUE.	
	Passengers,	69,558 03
	Freight,	47,700 72
	Mails and Sundries,	13,419 40

The cause of the deficiency here shown is apparent. It was occasioned wholly by the unparalleled severity of the past winter, there is little doubt, had not the operations of the Line been so frequently interrupted by the long and severe storms, (often

accompanied by the most intense cold,) which rendered the transmission of freight exceedingly difficult, and materially affected the general business, the transportation, and other expenses, would have been less by from \$500 to \$1000 per month, and, it is safe to say, the Revenue would have been materially enhanced. The necessity for the increased expenses, it is well known, was the cause of the more than corresponding decrease in receipts. The demand for lumber of all kinds was such, at this time, that an extra Train would, but for this reason, have been employed during the winter months. Eventually, however, the extraordinary depth to which the snow attained, prevented, to a large extent, the lumbering operations being prosecuted.

That an analization of the traffic and expenses may be more readily attained, and the business of the Railway more clearly understood, the following statements and abstracts have been carefully prepared. They are, for the most part, comparative, and embrace :—

First—Classified Monthly Statement of Revenue.

Second—Classified Monthly Statement of Expenses.

Third—Passenger Statement.

Fourth—Freight Statement.

Fifth—Abstract of Locomotive Returns.

Sixth—Statement of Locomotives.

529,957

* The Mileage of these Engines was not kept until April, 1858. The Total Mileage cannot therefore be given.

The first and second-class Passengers carried compare :—

CLASS.	1860.	1861.
First, .	112,950	131,783
Second, .	38,050	39,508
Total, .	151,000	171,291

The number of Passengers carried one mile, the average miles travelled by each, and the average rate per mile received from each ; also, compare as follows :—

SPECIFICATION.	Principal Stations.		Way Stations and Pic Nics.		Aggregate.	
	1860.	1861.	1860.	1861.	1860.	1861.
No. Passengers one mile, . . .	2,303,998	3,408,136	506,925	488,008	2,810,923	3,896,144
Average miles travelled,	24.33	30.90	9.	8.	18.61	22.74
Average rate in cents,	2.272	1.8733	1.6576	1.1691	1.9605	1.785

It will thus be seen, that whilst the number of Passengers has increased the past over the previous year, 14.1 per cent, and the number carried one mile 38.6 per cent, the average receipts, per mile, from each, have decreased $\frac{1755}{10000}$ or about $\frac{1}{6}$ of a cent.

A comparative statement of the weight of Freight cannot be given, except for the last three months, no record having been kept until August, 1860.

For this period, however, the comparison shews thus :—

MONTH.	1860.	1861.
August, . .	3,948,496	9,157,487
September, .	2,965,246	4,480,080
October, . .	7,355,695	5,685,847
Totals in lbs.,	14,269,437	19,323,414

The Tons of Freight carried, — the average Receipts per ton, and per ton per mile, for the whole line, and between terminal Stations, for this portion of each year, are :—

SPECIFICATION.	1861.	1860.
Tons Freight carried,	9,661	7,134
Tons conveyed one mile,	372,105	266,885
Average Receipts per ton,	\$1.304	\$1.4684
Average Receipts, per ton per mile,	3.3762 cts	3.9056 cts
BETWEEN TERMINAL STATIONS.		
Tons Freight carried,	1,492	1,042
Tons conveyed one mile,	160,481	117,156
Average Receipts per ton,	\$2.4932	\$3.61
Average Receipts, per ton per mile,	2.3179 cts	3.2115 cts.

Thus, while for the quarter, the transactions in Freight shew an increase of 2527 tons, or nearly 35½ per cent. over the corresponding period of the previous year; the month of October exhibits a deficiency of 836 tons or about 29½ per cent — that also, whilst, from all Stations, the tons conveyed one mile are in excess 105,220, or a fraction short of 39½ per cent., and the portion, carried between terminal Stations, exceeds the last quarter of 1860, by 450 tons, or a shade over 43 per cent., and the tonnage transported one mile by 43,325 tons, or nearly 37 per cent., the average receipts from all Stations per ton, are less by 15.9684 cents, and per ton per mile by .5294 of a cent, and between terminal Stations per ton \$1.1168, and per ton per mile .8936 of a cent.

The small quantity of Freight transported during the month of October, may, in part, be accounted for by the fact that a very limited amount of business was done in the Province of Prince Edward Island, the past autumn, owing to the prevailing low prices for grain, and the generally depressed state of trade everywhere experienced.

The deficiency in the rates as here shown, is in part, owing to the charges having been largely reduced to favor the steamers connecting at Point du Chene, and to foster the trade of the Northern counties and Prince Edward Island with St. John, and, through St. John, with the cities of the United States.

The "Freight Statement" (see Table) gives the weight forwarded from, and received at, each Station for the year, as well as the quantity sent East and West.

It will be seen that the amount sent West exceeds that forwarded East by 8,168,502 lbs., equal to 4,084 tons, or nearly 28 per cent.

A monthly classification is also given, by which it has been ascertained that of the total freight forwarded —

5·37	per cent.	was	First Class.
6·04	"	"	Second Class.
3·89	"	"	Third Class.
23·47	"	"	Fourth Class.
61·23	"	"	Special Class.

The tonnage, and the average receipts per ton, and per ton per mile, are as follows : —

SPECIFICATION.	LOCAL.	THROUGH.	TOTAL.
Tons Freight,	28,191	5,195	33,386
Tons carried one mile,	888,515	558,021	1,446,536
Average receipts, per ton,	\$1·1885	\$2·7325	\$1·4287
Average receipts, per ton per mile,	3·7709 cts	2·5421 cts	3·2975 cts.

Had a charge been made for the Freight carried on account of the Provincial Industrial Exhibition held at Sussex in October, the average receipts, per ton, would have been \$1·4667, and per ton per mile 3·3852 cents, a fraction less than the general average for the three months ending October, 1860.

The Locomotives ran 187,510 miles, against 193,683 the previous year, as will be seen upon reference to the Table.

The cost, per mile run, for Locomotive Power, and the other divisions of the Expenses, with the Receipts, and Nett Revenue, is as follows :—

9,808 71	Drivers', Firemen's, and Cleaners' Wages,	5·23 cents.
12,100 13	Firewood,	6·45 "
2,391 48	Oil, Tallow and Waste,	1·28 "
9,043 16	Repairs,	4·82 "
2,127 92	Water, (including Pumping and Tank Repairs)	1·14 "
943 99	Small Stores and Miscellaneous,	·51 "
<hr/>		
\$36,415 39	Locomotive Power, Total,	19·43 cents.
18,774 61	Mdze. and Passenger Cars, (Transportation Charges,)	10·01 "
19,464 60	Maintenance of Way, &c.,	10·38 "
19,590 92	General Charges,	10·44 "
<hr/>		
\$94,245 52	Total Expenses per mile run,	50·26 cents.
130,678 15	" Receipts " " "	69·69 "
<hr/>		
\$36,432 63	Nett Revenue per mile run,	19·43 cents.

The total car mileage for the past year is 952,820, against 1,112,936 the year before.

The cost in cents per mile run, for—

Oil and Waste, for Packing, was	·1067
Repairs,	·625
Both,	·7317

The excess, of Engine and Car mileage, for 1860 over 1861, is in construction the former year.

The fact that the Stores for, and Repairs to, Engines and Cars, on construction, in 1860, were in part found by, or charged to, Contractors, renders a detailed comparison of the Locomotive and Car Expenses, with the past year, of no service. It is, therefore, not given.

The average gross Receipts and Expenses, with Nett Earnings per mile run, and the average miles to an hour in steam; — Cars to one mile run; — and miles to the specified quantity of Wood, Oil, and Waste used by Engines, however, compare —

SPECIFICATION.	1861.	1860.
Average receipts, per mile run,	69.69	60.00
Average expenses, per mile run,	50.26	38.33
Nett earnings, per mile run,	19.43	21.67
Average miles to one hour in steam,	7.84	6.39
“ Cars to one mile run,	5.08	5.74
“ Miles to one cord of wood,	52.07	52.54
“ Miles to one gal. oil,	118.15	97.33
“ Miles to one lb waste,	70.07	63.03

The system of giving the Receipts and Expenses, and other items, before enumerated, per mile run of the Engines, is almost universally practised.

It has, however, notwithstanding this, been suggested that in order, generally, to institute correct comparisons, and arrive at proper conclusions with regard to Locomotive performances, the actual gross *tons carried one mile* (to include cars as well as their contents,) should be given, in addition to the expenses conveniently classified, that the *cost per ton per mile*, for each item might be arrived at.

This proposition is self-evident, and so important, as an incentive to true economy in the management of the Locomotives, that I propose no time shall be lost in introducing a system, which is almost sure to be fraught with beneficial results.

If we compare the per centage which the earnings, from each, Passengers, Freight, &c., bear to the gross receipts, and that which each division of the Traffic expenses is to the whole cost of operating, it will result:—

RECEIPTS.	1860.	1861.	EXPENSES.	1860.	1861.
Passengers,	47.42	53.23	Locomotive Power, . .	44.16	38.64
Freight,	29.15	36.50	M. & Passenger Cars,	22.66	19.92
Mails, &c.,	23.43	10.27	Maintenance,	12.34	20.65
			General charges,	20.84	20.79

The expenses the past, are 72·12, and the previous year, 63·87 per cent. of the receipts.

So far, as I have been able to ascertain, a comparison of the operating expenses of this, with that of Railways generally in this country, after due allowance is made for differences in classification, would result, very nearly as follows:—

EXPENSES.	THIS LINE.	OTHERS.
Locomotives per mile run,	20 cents.	20 cents.
Maintenance,	10 “	20 “
Transportation,	10 “	20 “
General Management, including Stations,	10 “	20 “
TOTAL,	50 cents.	80 cents.

For the present year a saving may be effected in working the Engines, but I do not think a general reduction in the Locomotive expenses may be looked for.

Until renewals are extensively required, the “maintenance” will not, in all probability, exceed \$20,000 per annum, about \$185 per mile of Railway or Ten Cents per mile run, supposing the gross Engine mileage, not to exceed 200,000. For this we are mainly indebted to the excellent character of the roadway.

Should the Freighting business extensively increase, as I trust it may, and, with the return of prosperity to the general business of the country, there is very little doubt it will, the “transportation” expenses may be increased, the extent depending wholly upon the nature and character of the Traffic.

The same remarks may be made with equal force, with regard to the item of “general management,” particularly so far as is applicable to Station expenses.

Upon the whole, I may remark, there is little doubt, but, that the general business of the Road, may very materially increase without a corresponding outlay.

A Track Scale having been provided during the past season, advantage was taken thereof to weigh the Locomotives, with a view, ultimately, of arriving at their capacity for transporting Freight upon the maximum grades and curves. Nothing, however, has yet been done, beyond making the Record, which will be found on reference to the “Statement of Locomotives,” before referred to.

The entire stock of Cars have also been weighed, with the view not only of always being enabled to ascertain the weight of Freight, often transported in bulk, but, hereafter, to arrive at the actual gross tons hauled. The particulars will be found on reference to "Statement of Cars" appended.

The Rolling Stock has been increased the past year by the addition of —

2 Engines,
8 Box Freight Cars.

The Engines were built in this City, by Messrs. Fleming & Humbert, of the Phoenix Foundry, and the Cars at the Manufactory of the late Mr. Frederick James.

The entire Rolling Stock at this time consists of —

14 Engines,
12 first class Passenger Cars,
6 second class " "
4 Express, Mail and Baggage Cars,
63 Box Freight " "
105 Platform Freight " "
40 four-wheel Ballast " "
4 Snow Ploughs,
19 Hand Cars.

The Box Freight Cars were last year erroneously given as 64. The number should have been 55.

The Casualties have been as follows :—

Alex. McDonald, a Trackman, when working the Flange Cleaner, near Cook's Brook, on the 17th January last, fell from the Car. His arm and shoulder being crushed by the wheels, he died on the evening of the following day.

Wm. Bannister, a Brakeman, in attempting to get up between two Box Cars, at Salisbury on the 18th June, for the purpose of *shackling*, when the Cars were moving, fell over the rail and was instantly killed.

When shifting Cars at Sussex, about 10 o'clock, on the evening of 3rd October, one Car ran over the instep of the foot of a man named Clarke, who, as it afterwards appeared, had been lying asleep between the Tracks with one foot extended over the Rail.

Garrett Cotter, a passenger on the last evening down Train from Sussex, on the 2nd October, when about one mile west of Norton Station, in attempting to pass from a

Baggage Car to an open seated Platform, fell between, the rear Cars of the Train passing over his arm and shoulder. He died during the night.

Graham Heard, a Trackman, when turning a Hand Car, between North River and Salisbury, on the 21st October, was thrown therefrom by the action of the crank. The Car passing over him, he received such injuries as I have understood caused his death about three weeks after.

“The Staff,” as constituted at the close of the year is given in the appendix.

Mr. Henry A. Whitney has since been appointed Locomotive Foreman, in the room of Mr. Z. Lord. Mr. H. D. McLeod promoted to a Clerkship in this office, vacant by the resignation of Mr. William Forster; and Mr. C. F. Olive has been made Station Master at Sussex.

In the Appendix will also be found a synopsis of the stores on hand at the close of the year.

During the early part of the past season arrangements were entered into with the “International Steamship Company,” whose steamers ply between this City and Eastport, Portland and Boston, and the Agents of the Steamers connecting with the Railway at Point du Chene for Bedeque, Charlottetown and Pictou on the one hand, and Richibucto, Miramichi, Bathurst, Dalhousie, Paspebiac, Gaspé and Quebec on the other, by which a system of through ticketing and freightage, was established at reduced rates. This arrangement has been productive of beneficial results, and by it the traffic may, and no doubt will, be fostered and encouraged.

The steamers referred to, as connecting with the Terminus in the Gulf of St. Lawrence, have, to the extent of their capacity and accommodation, when on the route, performed the service faithfully and well, and while we are disposed to award them every credit for the manner in which they have been conducted, and the regularity with which the connections have been made, particularly in the case of the “Westmorland,” there is little use in screening the fact, that the time has arrived when steamers of much superior character are required for the purposes of this trade, and I am pleased to observe, that the Government of Prince Edward Island have taken the initiative in this most important matter, and are about to secure steamers for the route to Charlottetown and Pictou, which they propose shall be of a superior build,

and equal in internal arrangements and accommodations to the first class Steamships, which have, during the past season, been running between this City and Boston.

This their intention, I have understood, to keep up the connection with Shediac and Charlottetown three times, instead of twice per week, as hitherto.

The route between Shediac and Miramichi ought to be as well cared for. A steamer suitable in size, economical in the consumption of fuel, with light draught of water, capable of an average speed of twelve to fifteen miles per hour, and having first class internal arrangements, to run each way three times per week, is that which the importance of this connection requires, and, it is hoped, will ere long in some manner, be provided. Were there such a vessel, and were the steamers, which now leave Québec, during the summer months, alternately every week, to come no further than Miramichi, an arrangement could be made which would likely give satisfaction, promote travelling, and prove conducive to the general good.

Towards the close of the season an arrangement was made with the Agents of the Steamer "New York" similar to that entered into with the "International Company," but some time being necessarily occupied in completing the details, very little business was transacted under it.

Arrangements were also entered into with the owner of the Steamer "Westmorland," the proprietor of the line of Coaches between Pictou and Truro, and the "Nova Scotia Railway" (and up to the close of the season were awaiting the assent of the owners of the "Emperor," which will likely be given in time to give them effect, early the ensuing season) to establish a system of "*Round Trip*" Tickets at reduced rates, by which a party, for example, might for a certain fixed sum, be privileged to go by rail to Shediac, steamer to Charlottetown and Pictou, Coach to Truro, Rail to Halifax and Windsor, and thence by steamer again to St. John, stopping over at any point or points for any time within the limits of the Ticket. Tickets to be sold at any place within the circle, and obtained for either direction.

The arrangement can be extended westward, and if proper facilities are afforded, another circle may be formed in the same way to include Richibucto, Miramichi, Bay Chaleur, Quebec, Montreal, Portland and St. John. The object, as may be observed, is to promote pleasure travelling, and it is expected the plan will be carried into effect the ensuing Summer, with advantage to all concerned.

The completion of a Water Terminus at St. John is of the highest importance. It would afford additional facilities in forwarding the general business, stimulate the development of new branches of industry along the line of Railway, and be productive of a largely increased Revenue.

I have the honor to be,

Sir,

Your obedient servant,

L. CARVELL.

POST OFFICE DEPARTMENT
NEW BRUNSWICK.

THE
SIXTH ANNUAL REPORT

For Year ended 31st October, 1861.

HON. JAMES STEADMAN,
POSTMASTER GENERAL.

Laid before the Legislature by Command of His Excellency the
Lieutenant Governor.

PRINTED AT THE "REPORTER" OFFICE, FREDERICTON.
1862.

SIXTH ANNUAL REPORT
OF THE
POSTMASTER GENERAL
OF NEW BRUNSWICK.

*To His Excellency the Honorable ARTHUR HAMILTON GORDON, C. M. G.,
Lieutenant Governor and Commander-in-Chief of the Province of New Brun-
swick, &c., &c., &c.*

MAY IT PLEASE YOUR EXCELLENCY,

I have the honor to submit for the information of your Excellency, the Sixth Annual Report of the Post Office Department, together with the accompanying Returns numbered from 1 to 32, containing full particulars of the Receipts and Expenditures, and the operations in each Branch of the Department, for the Year ended 31st October, 1861.

The nett Revenue, as shown in Return No. 2, is \$46,971.77, being an increase over that of 1860 of \$2,436.42.

The cost of Mail Conveyance for the Year is \$36,636.19. Amount paid for Salaries, and Commission to Postmasters, Way Office Keepers and Post

Office Clerks was \$21,438.57½, and the Amount paid and due for other services \$13,426.76½, making the total Expenditure for the year \$71,501.53½, an increase over the year 1860 of \$1,940.43½, occasioned principally by extending the Mail accommodation and the increase of Salaries to Postmasters.

There were 46 new Way Offices and 5 new Mail Routes established, and an increase in the number of Trips per week on several others, occasioning considerable increase in the expense of this Branch of the service. Four Way Offices, viz :—Creek Road, Dumbarton, Flower's Cove, and Jacksontown, were discontinued during the year.

The length of Mail Routes in existence on the 31st October, was 2824 miles, and the actual distance travelled during the year 817,612 miles, at an average cost of nearly 4 1-29 cent per mile.

In accordance with the authority given by an Act passed at the last Session of the Legislature, an Order in Council was made by which all Letters posted after the first day of June 1861, and for delivery within the Province were made subject to a fine of two cents each unless the postage was prepaid. This order although only in force for five months of the year produced a large increase in the amount of prepaid postage. The sum derived from that source being equal to four-fifths of the whole amount of Revenue.

The Amount of Postage Stamps sold during the year, as shown in Return No. 8, is \$18,630.57½, being an increase of \$8,590.35½ over that of 1860.

The total number of Letters posted at the different Offices in the Province during the year 1861, was 1,109,202, and the number received for delivery 753,061. The number of Newspapers posted was 4,262,961, and the number received for delivery 1,947,652.

The number of Parcels posted at the different Post Offices during the year was 358, and the amount of Revenue derived from that source was \$119.10.

REGISTRATION.

An impression seems to prevail in the minds of some persons that the Post Office Department, by Registering a letter, assumed a liability to make good the contents in case of loss. This was never contemplated when the system of Registration was first established; on the contrary, notice was given to the Public that the Department would not hold itself liable in case of loss, but the risk must be entirely with either the sender of the letter or the person to whom addressed.

The number of letters Registered during the year was 12,324; the number lost *Two*, and the number from which the contents or part of the contents was alleged to have been abstracted *Three*, and the number of Non-registered letters alleged to have been lost or their contents abstracted *Six*.

It is only reasonable to suppose that some of the complaints of abstraction of portion of the contents of letters have originated in the error of either the sender or receiver in counting the money.

The number of letters Registered during the year is nearly 2,000 more than was Registered in any previous year, whilst the number lost or said to have been tampered with has not increased.

The number of Registered Money Letters transmitted through the Post is beyond any question very much greater than the number of Un-Registered, whilst the loss of Un-Registered letters exceeds that of those Registered, proving beyond doubt the greater security afforded the Public by the system of Registration.

JAMES STEADMAN.

Fredericton, Nov. 1861.

SCHEDULE.

—

Accompanying this Report are the following Returns.

	PAGE.

WM. PAISLEY,

Inspector of Dead Letters.

JAMES STEADMAN,

Postmaster General.

CENSUS

OF THE

PROVINCE OF NEW BRUNSWICK,

1861,

LAI D BEFORE THE

PROVINCIAL PARLIAMENT,

MARCH 14th, 1862,

COMPILERS' REPORT.

FREDERICTON, N. B., March 1st., 1862.

To the HON. S. L. TILLEY, *Provincial Secretary,*

SIR,—

Having discharged the duty assigned to us, we have now the honor of presenting the accompanying Abstracts of the Census Returns of the Province of New Brunswick for 1861.

We have also added Tables, shewing the comparisons between the Returns of 1851 and 1861—the progressive population of the Province since 1824—and the per centages of Increase in the Provinces of Canada, Nova Scotia, Prince Edward Island and New Brunswick, and the New England States, as shown by the latest Census Returns from those several places.

The evidence thus furnished of material progress in our own Province will, we believe, be extremely gratifying to all classes of our people.

POPULATION RETURNS.

A comparison with the Returns of 1851 shows an increase in our population of 58,247 souls, being an advance of 30.05 per cent. in ten years. The per centages of increase in the several Counties are as follows:—

Albert,	49.59	St. John,	27.15
Carleton,	47.40	Queen's,	25.63
Victoria,	42.40	Northumberland,	24.80
Westmorland,	41.72	King's,	23.56
Kent,	38.94	Charlotte,	18.68
York,	32.70	Restigouche,	17.13
Gloucester,	28.81	Sunbury,	14.26

It will be observed that the average per centage of increase largely exceeds that of the New England States, the Province of Nova Scotia and Prince Edward Island.

In 1851 the Males were in proportion to the Females as 99 to 94. The present Returns show that in twelve Counties the Males have increased more rapidly than the Females, and the proportion is now 65 Males to 61 Females. Under the age of 16 years the Males exceed the Females by 2,431; between the ages of 16 and 40, the excess of Males is only 869, while over the age of 40 there is an excess of 4,549 Males.

Out of a population of 193,800 residing in the Province in 1851, 40,432, or 20.86 per cent. of the whole, were born out of the Province. The total population is now 252,047, and it is somewhat remarkable that the number born without the Province—52,602—bears the same proportion—20.86 per cent.—to the whole, as is shown in the Returns of 1851.

Of those born without the Province there are 30,179 Irish, 5,199 Scotch, 4,909 English, 8,721 born in other British Possessions, and 3,594 Foreigners; being an increase of 1,403 Irish, 1,002 English, 344 Scotch, 7,171 from other British Possessions, and 2,250 Foreigners, over the Returns of 1851.

In 1851 there were 1,058 colored inhabitants—505 Males and 553 Females. There are now 1,581 colored persons, of whom 730 are Males and 851 Females, the increase being 49.43 per cent.

There were in 1851, 567 Male and 549 Female Indians within the Province. The present numbers are 625 Males, and 587 Females, the increase being 8.55 per cent.

There were 8,721 Births during the year in which the Census was taken, forming 3.46 per cent. of the whole population, while the Deaths—2,390—during the same period are only equal to 0.94 per cent., showing a nett gain in this comparison of 2.52 per cent. The Census Returns of Nova Scotia and Prince Edward Island recently published, give the mortality during the year 1860, in the former Province, at 1.41 per cent. and the latter at 1.16 per cent. The per centage of Births in Nova Scotia in the same year was 3.09, and in Prince Edward Island 2.86. As regards both Births and Deaths it will be observed that New Brunswick presents the most favorable results.

In 1851 the average number in each family in the Province was 6.11, in 1861 it is 6.26.

The number returned as Sick and Infirm in 1851, was 1.22 per cent. of the population. The Returns of 1861 show a considerable decrease, the per centage being 0.83.

There were no Returns made of the Blind, Deaf and Dumb, Idiots or Lunatics in the Province in 1851. Whether or not those classes are on the increase it is impossible therefore to ascertain. At present there are 172 reported Blind, being in the proportion of 1 to each 1,465 of the population. There are 166 Deaf and Dumb persons, or 1 in each 1,518. The number of Lunatic or Idiotic persons is 518, the proportion being 1 to each 490. Gathering our information from the best sources, we estimate the whole number who should *strictly* be termed "Lunatics" at 260, or 1 in each 969 of the population.

There is a marked improvement in the School attendance during the last decade. The present Returns give 31,973 youths at School, being an advance of 69.24 per cent. over the attendance in 1851.

RELIGIOUS DENOMINATIONS.

It was the desire of the Government that the numbers of all the various Denominations should be separately stated, but owing to misconception on the part of a large number of the Enumerators it became necessary in the abstract to include the Baptists and Free Christian Baptists in one body, and the adherants of the Church of Scotland, Free Presbyterian, and Presbyterian Church of New Brunswick in another Body. The religious views of the inhabitants were not given in the Returns of 1851, consequently no comparisons can be made.

OCCUPATIONS.

The total number of Male inhabitants over 16 years of age is 73,586, of whom 70,339 are returned as employed in various avocations.

The following Table exhibits the relative proportions of individuals engaged in the several classes of business in the years 1851 and 1861:—

OCCUPATION.	PER CENTAGE 1851.	PER CENTAGE 1861.
Professional,	1.15	1.85
Trade and Commerce,	3.25	4.48
Agricultural,	46.81	49.76
Mechanics and Handicrafts,	17.17	15.90
Mariners and Fishermen,	3.66	3.93
Miners,		0.23
Labourers,	23.77	21.71
Miscellaneous,	4.19	2.14
	100.00	100.00

BUILDINGS.

The Inhabited Houses have increased 27.80 per cent. since the taking of the last Census, averaging one House for 7½ persons. There are 1,537 Uninhabited Houses, being 9 less than there were in 1851. The number of Houses in course of construction exceeds those building in 1851 by 301. There is an increase of 45 per cent. in the number of Stores, Barns, &c., over the former Returns.

The places of Worship have increased 33.54 per cent. since 1851, being 3½ per cent. in advance of the increase of the population. There is now one Church for every 446 of the inhabitants.

The School-houses have increased 21.30 per cent. since 1851. The whole number now returned by the Enumerators is 968. By reference to the Comparison Table there appears to be a decrease of 46 School-houses in the County of Saint John. Probably the Enumerators in 1851 regarded all buildings in which Schools were held as School-houses. In 1861 the Enumerators were directed not to include houses in which Schools were held if such Schools occupied only a portion of the building. The Chief Superintendent of Schools in his Report for the year 1861 gives the number of School-houses in the County of Saint John as 105, being 43 more than have been returned by the Enumerators. It is altogether probable that rooms specially fitted up for School purposes in the City of Saint John, although occupying portions of buildings used for other purposes, have been regarded by him as School-houses. This will account for the larger number appearing in his Report. The Chief Superintendent reports only 824 School-houses in the Province, attended by 27,589 pupils, while the Census Enumerators return 968 houses and 31,973 children at School. Possibly there may be a number of Schools not under the superintendence of the Board of Education.

MANUFACTORIES.

Since the taking of the Census in 1851 there has been a very considerable increase in the number of buildings used for Manufacturing purposes. A large proportion of the new erections are much more extensive and of greater value than the old ones, as the introduction of Steam as a motive power has become so much more general.

In the Returns of 1851 no distinction is made between the Manufactories using Steam and Water power.

Since 1851 the Saw Mills have increased 17.97 per cent., the Grist and Oat Mills 34.10 per cent., Foundries 90.90 per cent., and Weaving and Carding Mills 51.92 per cent.

MANUFACTURES.

The total value of Manufactures, including Cloth made by Farmers, was estimated in the Returns of 1851 at \$1,269,626. In the present Returns they are valued at \$3,130,898. It may be well to state that neither the present Returns nor those of 1851 include the value of Ships built or Lumber manufactured during the year. This matter has engaged our attention, and we have striven to remedy the omission as far as possible. We shall again refer to this subject before closing our Report.

Although there appears to be but one more Tannery in existence now than there was in 1851, yet it would seem that many of the old establishments must have given way to a better and more valuable description, as the value of the Leather produced in 1861 exceeds that of 1851 by more than 60 per cent.

The introduction of Boots and Shoes from the United States seems to have materially affected our Manufacturers during the past few years. Although our population has increased 30 per cent. since the taking of the last Census, the present Returns give the value of that description of goods manufactured within the Province during the past year as only 6.85 per cent. greater than the value of those produced in 1851. It is, however, gratifying to know, that during the past year several first-rate Manufactories have been established by enterprising residents, and that there are reasonable grounds for supposing that they will be enabled to compete successfully with foreign manufacturers.

Large quantities of Cabinet work and Wooden Wares are annually imported from the

United States, yet the Returns indicate a gradually growing disposition to encourage our home manufactures. Perhaps this may, to a considerable extent, be owing to the cheapness of many articles of this description produced in the Provincial Penitentiary. Within a short period of time a considerable quantity of new Machinery has been erected in that establishment, and the prisoners are now employed in the manufacture of several descriptions of Agricultural Implements and Wooden Wares for family use, not heretofore made by them. The sales of those articles, coupled with the productions of several private establishments recently erected, will, without doubt, materially decrease the future importation of Wooden Wares. The value of goods of those descriptions manufactured within the Province during the past year exceeds the value given in 1851 by over 81 per cent.

The introduction of Steam as a motive power in the various Manufactories, and the supplying Rolling Stock for our Railways, have, probably, been the main causes for the extraordinary increase in the value of Iron Castings and Machinery produced during the past year. As compared with 1851 the returns now before us show an increased value in the productions of 1861 of over 393 per cent.

AGRICULTURE.

There can be no doubt that there is a growing disposition on the part of a very large proportion of our people, to engage in Agricultural pursuits. As evidence of this we find that the number of persons now reported as Farmers or Farm Labourers exceeds the number similarly engaged in 1851 by 88.16 per cent., and that there is now 37.44 per cent. more land cleared and improved than there was in 1851. A proportionable increase will also be observed in the quantities of Live Stock, and the products of the farms.

We would call the attention of persons engaging in Agriculture to the information contained in the Comparison Sheet.

It will be observed that the quantity of Hay out, exceeds that of 1851 by 44 per cent.; the smallest ratio of increase — 14.26 per cent. — being in Kent County, and the largest — 89.50 per cent. — in Carleton County. King's County produced the greatest quantity.

The quantity of Wheat raised exceeds that of the former Returns by 35.39 per cent., although in six Counties there was a decrease. In the County of Gloucester the increase was 141.45 per cent., and in Kent and Victoria nearly 100 per cent., while in King's and Sunbury Counties there was a decrease of over 54 per cent. Gloucester produced more than any other County.

There was 27.42 per cent. more Barley raised than in 1851, although in nine Counties the quantities did not equal the former returns. The greatest ratio of increase — 113 per cent. — is in Westmorland, and the greatest ratio of decrease — 49.95 per cent. — in King's. The largest quantity was raised in Westmorland.

There were 2,656,883 bushels of Oats raised in 1861, being an advance of 88.27 per cent. over the quantity produced in 1851. The greatest ratio of increase — 160.39 per cent. — was in Albert County, and the smallest — 58.46 per cent. — in York. The largest yield was in Carleton County.

There was an advance in the Buckwheat crop over the former Returns of 31.25 per cent. although in three Counties there was a considerable falling off. The greatest ratio of decrease — 45 per cent. — was in Gloucester, while in Westmorland there was an increase of 73.59 per cent. King's County produced the greatest quantity.

The quantity of Indian Corn raised during the past year is 73 per cent. less than the produce of 1851. The falling off has been general in every County in the Province. The largest quantity was raised in York County.

There were 57,504 bushels of Rye raised during the past year. No statement of this crop appears in the Returns of 1851. Carleton County produced the largest crop.

There was a falling off in the quantities of Turnips raised in five Counties, and an increase in nine Counties. The excess of 1861 over 1851 was 17.51 per cent. The greatest ratio of increase — 127.35 per cent. — was in Kent County, and the greatest ratio of decrease — 25.70 per cent. — in St. John. The largest crop of Turnips was raised in York County.

PROVINCE OF NEW BRUNSWICK.

The quantity of Potatoes raised last year exceeds that of 1851 by 44.72 per cent. The greatest ratio of increase — 103.79 per cent. — being in Westmorland, and the smallest — 4.73 per cent. — in Victoria. Westmorland produced the largest quantity.

There were 30,677 bushels of Peas and Beans raised in 1861. being 28 per cent. less than the produce of 1851. There was a small increase in the Counties of Gloucester, Victoria and Westmorland. The Returns show that the largest quantity was raised in Victoria.

There was an increase in the quantity of Butter made during the past year of 50.49 per cent. over the Returns of 1851, the greatest ratio of increase — 105.21 per cent. — being in Carleton, and the smallest — 14.04 per cent. — in Gloucester. King's County produced the largest quantity.

There is a large falling off in the quantity of Maple Sugar made during the past year, it being 34.46 per cent. less than the produce of 1851. The decrease is general in every County in the Province: It is to be regretted that so little care is taken of the Maple Trees, as with a little attention they prove a valuable source of income to the farmers, furnishing remunerative employment at a season when they would otherwise be disengaged. The Sugar made during the past season would readily produce in the St. John market \$3,150. The greatest quantity was manufactured in Albert County.

A comparison cannot be made between the several other descriptions of produce, as no Returns of them were made in 1851.

LIVE STOCK. As compared with 1851, there are now 60 per cent. more Horses, 36 per cent. more Milch Cows, 68 per cent. more "other Neat Cattle," 27 per cent. more Sheep, and 56 per cent. more Swine.

The following is a comparison between the quantities of some of the more important descriptions of produce raised in Nova Scotia and New Brunswick: —

PRODUCE.		NOVA SCOTIA, 1861. QUANTITIES.	NEW BRUNSWICK 1861. QUANTITIES.	NEW BRUNSWICK AVERAGE PER ACRE.
Hay,	Tons. ..	334,287	324,160	1.12
Wheat,	Bushels. ..	312,081	279,775	13.91
Barley,	" ..	269,578	94,679	18.11
Oats,	" ..	1,978,137	2,656,883	27.59
Buckwheat,	" ..	195,340	904,321	12
Indian Corn,	" ..	15,529	17,420	27.43
Rye,	" ..	59,706	57,504	14.57
Turnips,	" ..	554,318	634,364	191
Potatoes,	" ..	3,824,864	4,041,339	107
Butter,	Pounds. ..	4,532,711	4,591,477	
Cheese,	" ..	901,296	218,067	

MINERALS.

The number of persons engaged in Mining operations form but a very inconsiderable portion of our population, yet indications are not wanting that ere long their numbers will become considerably increased. Since the taking of the last Census, the County of Albert has become noted for its Mineral resources, the opening up of which has been the chief cause of the proud position which that County occupies in these Returns. The County of Westmorland has also been materially benefitted by the operations at the Quarries.

FISHERIES.

Although the value of the Fish shown in the accompanying Returns is 56.50 per cent. greater than appears in the Returns of 1851, we are led to believe that a considerable proportion of the catch of the past year has not been reported. Considerable numbers of Fish are

caught on the coasts and in the Rivers of Charlotte County, and perhaps of other parts of the Province, which are immediately sent into the United States. These, together with a large proportion of the quantities caught for family supply, or sold fresh for immediate use, probably are not included in the Returns.

VALUE OF THE PRODUCTS OF THE YEAR.

In the General Abstract will be found the value of certain descriptions of Manufactures, and the catch of Fish as furnished by the Enumerators, yet for reasons already stated it would be impossible to gather from that document anything like the real value of the whole products of the Province during the year in which the Census was taken. We have endeavoured, as far as possible, to supply this deficiency, and for that purpose we have procured from persons best qualified to judge, estimates of the average value of the several descriptions of farm produce, the value of Lumber manufactured and used within the Province during the year (not otherwise given), and the value of Minerals produced. To this statement, which we subjoin, we have added the value of Ships built and Registered during the year, and the Lumber exported, as furnished by the Comptroller of Customs. These several amounts will furnish an approximate estimate of the value of the products of the year, although perhaps it would be well to state that they do not include the value of the labour of a very considerable number of our Mechanics, such as House Joiners, Masons, Painters, &c., whose services are required in adding to the permanent value of the property of the country. Neither do we include the increased value given to the farms by the year's labour, nor the increased value of the Stock raised by the farmers.

VALUE OF THE PRODUCTS OF 1861.

Manufactures given in the General Abstract,	\$3,130,898
Ships built and Registered,	1,674,000
Lumber Exported,	2,920,000
“ for Home Consumption,	440,000
Minerals,	380,000
Fisheries,	518,530
Agricultural Produce,	7,709,382
			<u>\$16,772,810</u>

It will be observed that this amount will give an average of \$238 to each Male person employed within the Province, which average would be very materially increased, if the value of the labor to which we have alluded could be added to the statement.

VALUE OF FARMS AND STOCK.

By reference to the General Abstract it will be found that			
3,787,524 acres of Farm lands are valued at	\$31,169,946
Farm Implements and Machinery,	1,542,421
Estimated value of Live Stock,	67,943
			<u>\$32,780,310</u>

CLOSING REMARKS.

It is, without doubt, extremely difficult to devise such forms of Schedule as will tend to procure accurate accounts of the several matters which it may be considered advisable to embrace in the Census Returns, and we feel that we have reason to regret the many imperfections in the present Abstracts arising from that cause. The accompanying Tables are, in our estimation, a very considerable improvement on the Returns of 1851, as many matters of general interest have been added. We trust that the experience gained in the preparing of the present documents may lead to a better system in the collecting of similar statistics at some future period.

We think that the most casual observer who will take the trouble to compare the present Returns with those of 1851, will be convinced, that although the most important branches of our Export business have been materially depressed, there has been a marked progress during

the past decade. None of the surrounding Countries — excepting Canada — have increased their population so rapidly as this Province, and we believe that we have had comparatively a little or less poverty and distress.

We look forward with hope to the future, trusting that when new Returns will be required, they will be found to contain even more cheering results than those which we have now the honor to present.

Yours, very respectfully,

CHARLES A. EVERETT, }
JAMES S. BEEK, } COMPILES.

ANNUAL RETURNS
OF
TRADE AND NAVIGATION
FOR THE
PROVINCE OF NEW BRUNSWICK
FOR THE YEAR 1861.

FREDERICTON.

J. SIMPSON, PRINTER TO THE QUEEN'S MOST EXCELLENT MAJESTY.

1862.

CUSTOM HOUSE RETURNS.

CUSTOM HOUSE, *Saint John, N. B.*, 18th August, 1862.

To His Excellency The Honorable ARTHUR HAMILTON GORDON, C. M. G., Lieutenant Governor, Commander in Chief, Commissioner of Customs, &c. &c. &c., of the Province of New Brunswick.

MAY IT PLEASE YOUR EXCELLENCY,

I herewith have the honor to submit to Your Excellency the Annual Returns of Trade and Navigation for the Province of New Brunswick, for the Year ending 31st December 1861, which have been compiled for the Imperial Blue Book, and for the information of the Legislature.

The year 1861 was not a very prosperous one for New Brunswick, owing, no doubt, in a great measure, to the internal difficulties which prevailed during the principal portion of the year in the neighbouring Republic of the United States,—between which place and New Brunswick a considerable amount of trade has been carried on for some years past.

The prices realized in the British Market by the exporters of our staple articles of Deals and Timber, during last year, were anything but satisfactory, and in some cases heavy losses ensued on large quantities shipped.

The total value of goods imported into New Brunswick in 1861 was £1,238,133 sterling, against £1,446,740 sterling in 1860, shewing a decrease of £208,607 sterling. The Revenue arising from Import Duties, including the Railroad Impost, for the Imperial year ending 31st December 1861, was \$564,839, against \$659,256 in 1860, shewing a decrease of \$94,417.

This falling off on Imports, and Import Duties, might be accounted for in several ways:—The general depression in business on both sides of the Atlantic, was probably a leading cause: The unremunerative prices realized for Deals, and the very moderate business done in new Shipping, might also be mentioned as other reasons for this decline: The Railroad having been completed, and the borrowed money necessary for its construction having nearly altogether ceased to be expended in 1861, had no doubt a very important influence on the importations and import duties of the Province: The iron and materials used for the construction of the Government Railroad, and imported during 1857, 1858, 1859, and 1860, were entered at the Custom House and charged with duty; this having ceased in 1861, might make a slight decrease in the value of imports, and the amount of duties received, as compared with former years.

It must also be kept in mind that Manufactories are gradually springing up in New Brunswick, more particularly in Saint John and its neighbourhood, which will have some effect in reducing the value of the importations, and the revenue received from imports liable to duty.

The heavy Provincial debt incurred on account of the Railroad, requiring a much larger revenue to be raised now than was necessary in former years, has no doubt operated as a guarantee to those persons who were willing and desirous to invest their capital in local manufactories, as it is now apparent that our tariff cannot in future be much reduced, while there is such a large amount of interest on the public debt, with other expenses of the Government of the Province, to be provided for annually.

A Cotton Manufactory has been recently erected on the outskirts of Saint John, and is now completed, waiting for the opening of the Cotton Ports to procure a supply of the raw material. The proprietor feels confident, probably, that with a protection of 15½ per cent. import duty on cotton manufactures, which is not likely to become less, he will be able successfully to compete with imported cotton manufactures.

Several Boot and Shoe Manufactories have also been recently started in Saint John, which will, no doubt, do a good business, with a protection of 18 per cent. import duty on imported boots and shoes.

There are a number of other Manufactories in the City, and every year they appear to increase. Among them may be mentioned Foundries for all kinds of iron and brass work, machinery, boilers, ship knees, &c.; Manufactories for saws, files, furniture, paper, carriages, soap, candles, woollen cloths, picture frames, stained glass, leather, bread and biscuit, ale, earthenware, &c.

The value of boots and shoes imported in 1861 was \$101,967; duty, \$16,385; while in 1860 it was \$131,424; duty, \$20,832. The quantity of coffee entered for home consumption in 1861 was 112,719 lbs. against 115,709 lbs. in 1860; tea in 1861, 653,288 lbs. against 833,834 lbs. in 1860. The value of haberdashery imported in 1861 was \$1,271,180; duty, \$184,147; against \$1,616,648; duty, \$219,792, in 1860. The value of hardware imported in 1861 was \$153,912, against \$200,548 in 1860. The quantity of molasses entered for home consumption in 1861 was 889,945 gallons, against 866,659 gallons in 1860: this would be nearly 3½ gallons for each inhabitant of the Province. The quantity of sugar entered for home consumption in 1861 was 2,568,620 lbs. against 3,111,500 lbs. in 1860: the quantity consumed last year would be upwards of 10 lbs. for each person in the Province. The value of cur sugar and molasses importations in 1861 was \$309,244.

The quantity of spirits entered for home consumption in 1861 was 263,417 gallons, or upwards of a gallon for each inhabitant. In 1860 it was 270,613 gallons. Our importations of spirits, wine and cordials in 1861, amounted to \$228,643, on which \$131,677 duty was paid, equal to about 57 per cent. ad valorem. The quantity of smuggled spirits seized last year at this Port was 683 gallons.

Our importation of wheat flour last year was 210,676 barrels, against 198,323 barrels in 1860. In 1859, 205,356 barrels were imported; in 1858, 226,649 barrels; and in 1857, 153,515 barrels.

The value of importations into the Province of agricultural produce during 1861, was \$1,708,333, the description of which was as follows:—Flour and meal of all kinds, bread, beans, peas, and pot barley, \$1,204,864; grain of all kinds, bran & horse feed, \$140,785; vegetables, including potatoes, \$61,879; meats, viz. salted, cured, and fresh, including poultry, \$121,128; butter, cheese, lard, and eggs, \$57,135; animals, including horses, oxen, cows, calves, sheep, and pigs, \$33,712; apples, pears, and plums, \$35,615; malt, \$2,192; hay, \$945; hops, \$3,078: amounting altogether in currency to £427,083. The value of the agricultural produce imported in 1860 was £447,341 currency. Our importation of tobacco, snuff and cigars in 1861 amounted to \$64,919. On the importations of all these articles of general consumption, a considerable diminution is apparent in 1861, as compared with 1860.

Our importations from the United Kingdom fell from \$2,286,200 in 1860, to \$1,712,782 in 1861; our importations from Canada have increased but slightly; our importations from Nova Scotia in 1861 were \$796,570, against \$917,440 in 1860, shewing a decrease of \$120,870; this is principally owing to the reduced importations of British haberdashery via Halifax and Windsor, such goods coming by this route appearing as imports from Nova Scotia.

The imports from Prince Edward Island have also decreased, as compared with the previous year.

The imports from the United States in 1861 amounted to \$3,014,736, while in 1860 they were \$3,303,440; shewing a decrease of \$288,704 on last year.

Our exports to Great Britain in 1861 were valued at \$3,077,039, and in 1860 at \$2,626,388, shewing an increase on 1861 of \$450,651. This increase was principally owing to some of the Shippers from this Port having large stocks of deals on hand, and shipping them to Liverpool for the purpose of realizing, although the Market was over-stocked, the result being reduced prices, and loss to some of these Shippers.

The Exports to Canada, composed principally of fish from the North Shore of the Province, have increased slightly in 1861 over the previous year. Our exports to Nova Scotia in 1860 were \$306,192, and in 1861 \$286,016, shewing a slight decrease in 1861. Our exports to Prince Edward Island have fallen from \$87,716 in 1860, to \$59,879 in 1861. Our exports to the United States in 1860 amounted to \$1,192,212; while in 1861 they had fallen to \$843,141, shewing a decrease of \$349,071. The exports to the States last year appear by these Returns to be much larger than they really were, owing to 17 vessels laden with deals and other wood, clearing from this Port for Eastport, and there clearing for the United Kingdom, so as to evade the law, and carry a deck load during the prohibited months. The values of the cargoes carried by these 17 vessels, are included among the exports to the United States; whereas in reality they were exports to the United Kingdom.

During the last two years I have had considerable correspondence with the Lords of the Committee of Privy Council for Trade, and the Honorable Commissioners of Her Majesty's Customs, on this subject, on which occasion, I have urged on their Lordships' attention, the necessity for some alteration in respect of this Deck Load Law, as it cannot be advantageous to the public interests to retain a law on the Statute Book which is not respected and cannot be enforced; and accordingly the President of the Board of Trade introduced some months ago into the British Parliament, a measure for repealing entirely the 170th, 171st and 172nd Sections of the Customs' Consolidation Act, (16 and 17 Vic. cap. 107,) which prohibit vessels carrying wood cargoes from the British North American Colonies to the United Kingdom, from taking deck loads between 1st September and 1st May. Should this measure be carried, (as I presume it will,) it will leave the question of deck loads to be settled between the insurer and the insured; and will prevent this derangement of the statistical returns brought about by these evasions of the Law.

Our exports to Cuba and Porto Rico in 1860 amounted to \$39,452; while in 1861 they had risen to \$87,050. This was owing to goods being sent to Havana for the purpose of being run into Southern Ports which were then blockaded. Some of the goods cleared for Cuba were run into Southern Ports before they reached that place.

The total value of our Exports in 1861 was £947,091 sterling, while in 1860 it was £916,372 sterling; shewing an increase of £30,719 sterling in 1861 over the previous year.

The returns will show that the value of the Imports into the Province in 1861, exceeded the value of the Exports during the same period by £291,042 sterling. This is accounted for by the fact that a large portion of the materials used in the construction and fitting out of the new vessels built here for sale in the United Kingdom, appears in the Accounts as Imports, while the new ships do not appear as Exports. The estimated value of the new shipping registered last year, as will be afterwards shewn, was £344,000 sterling. A

large quantity of the lumber shipped from the British side of the Saint Croix River, is cleared from the American side so as to save the Export Duty: this also helps to make the Exports of the Province appear less than they really are.

The principal article of export from the Province is sawn lumber, which includes deals, battens, ends, boards, and scantling. In 1861, the total quantity exported was 316,657,750 feet: in 1860 it was 273,943,000 feet; in 1859, 323,927,000 feet; in 1858, 237,423,000; and in 1857, 270,470,000 feet. The principal part of the sawn lumber exported consisted of deals, which were sent to the United Kingdom for sale.

The next most important article exported was pine timber; the quantity of which exported in 1861 was 41,947 tons; in 1860, 39,291 tons; in 1859, 76,002 tons; in 1858, 71,453 tons; and in 1857, 86,926 tons.

The prices realized in Liverpool during last year for deals sent from this Province, ranged from £7 5s. to £9 12 6 sterling per Petersburg standard; the former being the price in October, and the latter in January. The year opened with deals at £9 12 6, and closed at £8 5s. The average of the year was £8 6 6. The prices were lowest in the fall of the year, and only rallied a little towards the latter part of it, when there was a probability of a war between England and the United States. As before remarked, the year has not been a favourable one for the lumbering interests of the Province, either to the practical lumberer, or to the shipper, as a large portion of the deals produced during the year was forced on the English market in excess of the demand, and consequently at a loss to the shippers.

The following were the average prices of deals in the Liverpool Market during the last five years: 1857, £7 11 7 sterling; 1858, £7 5 7; 1859, £8 2 10; 1860, £9 4 2; 1861, £8 6 6 sterling.

The amount of Export Duty received on the exportation of wood goods last year throughout the Province was \$69,635, equal to £14,507 sterling. In 1860 it was £12,344 3 7 sterling.

The prospects for the present year are very indifferent.

Our principal articles of export for 1861, the produce of New Brunswick and its fisheries, may be classed as follows:—Produce of the Forest, including furs, valued at \$3,447,910, against \$3,180,428 for the previous year; produce of the Mines and Minerals, \$332,970, against \$395,540 in 1860; produce of the Fisheries, \$269,249, against \$374,408 in 1860; new Ships, \$1,651,200. The value of the new shipping built during the previous year was about the same as in 1861.

During last season the Albert Mining Company sold 16,848 tons of their coal, nearly the whole of which was sent to the United States. This superior article has hitherto been used for the manufacture of coal oil, for which purpose it was found to be the most valuable description of coal in the world, and was formerly sold on the Company's wharf at Hillsborough, at \$15 per ton, but owing to the great production of mineral oil in the United States and Canada, the selling price has now fallen to \$10 per ton. It is used now for making gas. Both the Companies which were formed in Saint John for the purpose of manufacturing coal oil, have closed their works in consequence of their inability to compete with these mineral oils, which can now be sold at a very small price. All the capital invested by these Companies may therefore be considered as lost to the stockholders; and the supposition that this oil would turn out an extensive and profitable export from the Colony has proved erroneous, as the article has ceased to be manufactured. The large dividends declared by the Albert Mining Company, which has been for several years under admirable management, tended

probably to induce others to embark in similar enterprises. On last year's operations that Company declared 110 per cent. dividend on their paid up capital.

Other mining operations are gradually struggling into existence throughout the country, although up to the present time there have been but few instances of success.

The Revenue of the Province for the financial year ending 31st October 1861, as made up by the Provincial Treasurer, was \$699,699, shewing a decrease on the amount received from the same sources during the previous year of \$133,625. The Revenue of 1860 was the largest ever received in the Province, 1854 was the second, 1859 the third, 1853 the fourth, and 1861 the fifth largest ever received in New Brunswick.

The Revenue of 1861, viz. \$699,699, was made up of Import Duties, Railway Impost Duties, Export Duties, Casual and Territorial Revenue, Supreme Court Fees, Auction Duty, Seizures, Distilling Licences, Light House Duty, Seamen's Hospital Dues, and Buoy and Beacon Dues, but does not include the Post Office Revenue, which does not nearly meet the expenses of the Department. The Copyright Fund and Cape Race Light Fund are not included in the above, as they are remitted to England.

The Light House Fund, Seamen's Hospital Dues, and Buoy and Beacon Funds, can scarcely be called Revenue, as the amounts received on account of these funds are special and not available for other purposes.

The receipts on account of Light money, after providing for all the expenses connected with the management of the Light Houses, leave a slight balance in favor of that fund.

The Seamen's Hospital Dues, which are received and expended for the support of Sick and Disabled Seamen, are only sufficient for the purpose intended. The Hospital at Saint John is a most comfortable healthy residence, and creditable to the Province.

The Buoy and Beacon Fund is also only sufficient for the purposes of the fund.

The cost of collecting and disbursing the Revenue of New Brunswick for last year, including the salary of the Provincial Treasurer and Receiver General, the Controller's establishment, Warehouse Keepers, Clerks, Landing and Tide Surveyors, Landing Waiters, Searchers, Tide Waiters, Lockers, commissions to Deputy Treasurers, office rent, &c., amounted to \$42,934. The amount collected as before stated was \$699,699, from which should be deducted the amount of Casual and Territorial Revenue and Supreme Court Fees, which sums are paid over to the Treasurer and Receiver General, viz. \$21,703, leaving the sum of \$677,996 collected. This would be at the rate of 6½ per cent., which includes, beyond the collection of the Revenue, all the additional services of disbursing the Revenue throughout the Province, compiling voluminous statistics of trade and navigation, registration and survey of shipping, and warehousing expenses; all of which, strictly speaking, have no connection with the collection or protection of the Revenue.

At some of the smaller Ports the collection of the Revenue costs 10 per cent. which is the commission allowed to the Deputy Treasurers, until it reaches the annual amount of £200 currency.

In the United Kingdom, the Government found the expenses attending the warehousing system so heavy, that in 1860 they imposed a duty of one-eighth per cent. *ad valorem* on tobacco, and one quarter per cent. on all other goods going into the warehouse; the revenue derived from this source tending to relieve the general revenue of the country from an expense incurred entirely for the convenience of the merchant, and it had also the

beneficial effect of preventing the unnecessary deposit of goods in Warehouse to be again immediately removed, which operation frequently caused useless expense to the Department. In this country no specific charge is made by the Government for the warehousing of goods.

The compilation of the statistics of trade and navigation is a laborious duty and attended with some expense, but separate and distinct from the collection of the Revenue. In the United Kingdom, where the statistical accounts of trade and revenue are published at short intervals for general information, and are considered to be of great importance by the mercantile community, the expense is heavy, and in order specially to meet this expense, a small tax was imposed in 1860, called the Unit of Entry Charge, of one penny upon imports (with certain exceptions) for which an entry is required, and a charge of 1s. 6d. upon any Customs Bill of Lading for goods exported from the United Kingdom. This nominal tax for statistical purposes produced a considerable amount of revenue in aid of the expensive establishments required for the speedy publication, at short intervals, of correct and reliable information relative to trade, which is equally serviceable to the merchants and the Government.

In this country all these services named are provided for out of the general revenues of the Colony, and are included in the amount specified as the cost of collecting and protecting the Revenue, and tend to make the rate per cent. of collection (viz. $6\frac{1}{2}$) appear larger than it otherwise would.

In this Province the statistics of trade are comparatively of little value, owing to the length of time which elapses before they can be made up and published. The reason of this is, the dilatory manner in which the returns are furnished by some of the Deputies at the Out-ports.

In the United Kingdom the cost of collection of the Customs Revenue, including the expenses of the Warehousing Department, but not including the expense of the Coast Guard Department, is $3\frac{1}{2}$ per cent.

In Canada the cost of collecting the Customs Revenue last year, including registry of shipping, warehousing, and statistics, was \$326,929. The amount collected, \$4,768,193, being about 6 4-5ths per cent.

In Nova Scotia the amount of Customs Revenue collected last year was \$608,939, and the cost of collecting it, including registry of shipping, warehousing expenses, and statistical labour, was \$53,892, being about 8 4-5ths per cent.

The population of New Brunswick in 1861 was 252,047 souls, and the amount of Import Customs Duty collected was \$569,278, or about \$2 $\frac{1}{2}$ per head. No Excise Revenue is collected in New Brunswick.

The population of Canada in 1861 was 2,506,755 souls, and the Import Customs Revenue, \$4,768,193, or about \$1.90 per head; but as Canada manufactures a large quantity of Spirits and Malt Liquors, from which the Government received an Excise Revenue last year of \$285,947, this sum added to the Customs Revenue would make the Customs and Excise receipts amount to a little over \$2 per head.

The population of Nova Scotia in 1861 was 330,857 souls, and the amount of Customs Revenue collected, \$608,939, or about \$1.84 per head.

The public works undertaken by the Governments of these Provinces not being directly productive, have been the means of making the public burdens much heavier than they otherwise would have been if these improvements had not been carried out. The importance of Railway communication, however, although very expensive, can scarcely be over-estimated in a new country like this.

In Prince Edward Island, the population in 1861 was 80,857 souls, and the Customs Revenue collected, £26,869 currency; the Excise Revenue collected was £1,105 currency, making £27,974 currency, or about 7s. currency per head, equal to \$1.17 per head. Prince Edward Island has no Railways to support. It enjoys all the conveniences of the New Brunswick Railway, without any of the expense attending it.

The population of the United Kingdom in 1861, including Army, Navy, and Merchant Seamen, was 29,334,788 persons. The Customs Revenue collected during the year ended 30th September 1861, was £23,488,000 sterling; Excise Revenue, £18,624,000 sterling; Income Tax, £11,133,000 sterling; Stamps and Taxes, £11,556,170 sterling, making altogether £64,801,170 sterling, or about £2 4s. sterling per head, equal to about \$10.50.

The population of the United States in 1860 was 31,676,217 persons, and the Customs Revenue collected by the Central Government at Washington was \$53,187,511, or about \$1.68 per head; this was independent of the State taxes raised by the local governments.

The Railways in the United States are owned by Companies, and are not supported by Government.

These figures represent their Customs taxation in ordinary times, immediately before the breaking out of the Rebellion, but as their taxes have been enormously increased to meet the heavy expenditure which they have incurred to preserve the Union, no correct estimate could be formed at present as to the rate of taxation to which they will be liable when the present difficulties are brought to a close.

The foregoing remarks relating to taxation will tend to shew how the inhabitants of this Province are situated with reference to their public burdens as compared with the people of the United Kingdom, and of the countries in our immediate neighbourhood.

I have now to make a few remarks relating to the Out-Ports, the most important of which, in point of Import revenue received, is Fredericton; the amount collected there last year was \$27,711. There are several Saw Mills at this place, and shingles, box shooks, railway sleepers, &c. are exported from it. The direct importations and exportations at Fredericton are small, the principal part of the business being done through Saint John. The deals and other sawn lumber manufactured there for sale in the United Kingdom, are brought down the River in Woodboats, and shipped from Saint John.

At Chatham the Imports and Exports exceed in value any of the other Out-Ports, and the Import revenue last year was \$24,585. A large export business is done at this Port, consisting of deals, timber, and fish, and there are several manufactories, including foundries, tanneries, and flour mills; the crops in this part of the country were about an average last year.

At Newcastle, the Import duties received last year were \$23,646, and the value of the Imports and Exports were also large; deals were the principal articles exported.

At Richibucto the Import duties were \$15,707, and the Import and Export business done was considerable. The principal articles of export are timber, deals, boards, and fish, and the only manufactory besides the Saw Mills, is a small dying and fulling establishment.

At Bathurst the Import revenue was \$10,987, and a considerable amount of business is generally carried on at that Port. Deals and other wood, and grindstones, are the principal articles exported.

At Dalhousie the Import duties last year amounted to \$8,167. A considerable export business is done here in salted and preserved fish, lumber, and timber; the salmon and herring fisheries are principally followed, and

although the catch was a fair average last year, the prices obtained were unremunerative, owing to the difficulties in the United States.

There are a number of fishing establishments in Gloucester and Restigouche, more particularly in the neighbourhood of Shippegan and Caraquet, where fish are preserved in tin cases for exportation, and otherwise cured for foreign markets. A large number of persons are employed by these fishing establishments. Both these Counties are very favourable for agricultural pursuits, and are capable of producing excellent qualities of grain.

At Saint Andrews the Import duties collected were \$10,275, the Export business was very small. The increase of revenue which took place at that Port last year, was owing to the importation of Railway materials. The exports consist chiefly of lumber, and as the Railway from Saint Andrews to Richmond, in the neighbourhood of Woodstock, is now completed, a large increase of the exports from the Port may reasonably be expected.

At Saint Stephen the Import duty was \$8,912, but the Export duty was merely nominal. This was owing to vessels loading with deals on the British side of the Saint Croix River, and clearing from Ports on the American side, so as to evade payment of the Export duty. The Controller at Saint Stephen estimates that 33 vessels thus laden cleared from Eastport in Maine during the year for Great Britain. There are a number of Factories in Saint Stephen and its neighbourhood, where axes, saws, sewing machines, waggons, sleighs, carriages, furniture, &c. are made.

At Saint George a large quantity of deals and other lumber is exported, and there are a few manufactories established there, including one for making gunpowder.—At Buctouche a small export business in deals is carried on.

At Shediac the business has increased of late years, owing to that Port having become the terminus of the Railway, and the Prince Edward Island traffic passing through it. Considerable quantities of deals are exported from Shediac.

At Sackville a considerable amount of import business is carried on with the United States, but the trade of all the Ports in the Bay of Fundy has much declined in consequence of this unfortunate war which is now raging amongst our republican neighbours, with whom we are so closely connected in business relations.

Building stone and grindstones are usually exported from Dorchester, North Joggins, and other parts of Westmorland and Albert Counties, in considerable quantities; but last year the demand for these articles in Boston and New York was exceedingly limited, and consequently that branch of the export business was very dull. The manufacture and sale of gypsum has not been very successful last year, for the reasons already mentioned.

In Albert County there appears to be indications of copper and other minerals, but as yet they have not been successfully worked.

In the neighbourhood of Woodstock there is abundance of copper and iron ore, the working of the former, however, is suspended, and an English Company is now preparing for working the Iron works there on an extensive scale. The Company which formerly owned and worked these works lost heavily by the operation.

It will be seen by the Accounts of tonnage that 3,518 vessels, measuring 727,318 tons, entered inwards at all the Ports in the Province during 1861, while the tonnage cleared out was 744,092 tons. The outward tonnage cleared from this Province always exceeds the inward tonnage, on account of so many new vessels leaving the Province for the first time. The above figures do not include vessels entering and clearing from or to Ports within the Province, which is considered a coasting voyage.

On comparing the number of vessels entered inwards and cleared outwards, I am under the impression that many small vessels leave the Province for foreign Ports without clearing; this may probably be done without any fraudulent intention on the part of the Masters of these vessels, as there might be no Customs officer stationed near their place of loading, and it might be productive of inconvenience to them to proceed to a port of entry to clear. This difficulty is incident to a new country where the population is small, and where officers cannot be stationed at every small creek or inlet.

Of the total amount of tonnage cleared from the Province, upwards of 61 per cent. cleared from Saint John.

At Saint John the tonnage entered and cleared appears much larger than it really is, as the American boats are entered in the Accounts each time they enter and clear. The American Steamer *New Brunswick*, 804 tons, entered inwards and cleared outwards last year 46 times, representing in the Accounts 46 vessels, 36,984 tons, and 920 men. The American Steamer *Eastern City*, 616 tons, 20 men, entered and cleared 33 times, making 20,328 tons, 660 men. The Steamer *Forest City*, 866 tons, 25 men, entered and cleared twice, making 1,732 tons, and 50 men. This line of Steamers commenced running between Saint John and Boston on the 7th February and continued until the 12th December, and represent in the tonnage account 81 vessels, 59,044 tons, and 1,630 men.

The Steamer *New York*, 995 tons, 22 men, commenced running between the same places on the 15th July 1861, and left on her last trip on the 7th December 1861, making 20 round trips, representing in the Accounts 20 vessels, 19,900 tons, and 440 men.

The Boston Steamers represented altogether in the Accounts of tonnage last year 101 vessels, 78,944 tons, and 2,070 men.

The Steamer *Emperor*, 352 tons, 12 men, made 76 trips to Digby and Annapolis, and 70 trips to Windsor and Parrsboro, from Saint John, representing in the Nova Scotia tonnage 146 vessels, 51,392 tons. She commenced on the 4th March, and finished on the 21st December, and was estimated to have run 28,080 miles during these 9½ months.

The Steamer *Queen* running daily between Eastport, Saint Andrews, and Calais, also increases very much the tonnage to and from foreign countries at Saint Andrews.

At Shediac the tonnage was much increased by the Steamer *Westmorland* running twice a week between that Port and Pictou, Nova Scotia, calling at Summerside and Charlottetown, Prince Edward Island, each way. When she was laid up, the Steamer *Lord Seaforth* took her place. Between these two Steamers the regular trips were made, commencing on the 15th April, and ending on the 8th December 1861.

The Screw Boat *Lady Head*, 168 tons, made 14 trips between Quebec and Pictou, calling at Gaspé, Péré, Paspebiac, Dalhousie, Miramichi, and Shediac, with the exception of some of the first trips, when she did not call at Shediac. She left Quebec on her first trip on the 3rd May, and Pictou on her last trip on the 7th November. She receives no subsidy from this Province, and made her trips with much regularity once a fortnight, leaving Quebec and Pictou every alternate Tuesday. She is an iron Clyde built boat, of 150 horse power.

The Steamer *Arabian*, of Canada, 334 tons, made last year 13 trips between Quebec and Shediac, and back, touching at Dalhousie, Bathurst, Miramichi, and Richibucto, leaving Quebec on the 7th May on her first trip, and Shediac on the 31st October on her last trip. She receives a subsidy from the

Government of this Province, of \$7,700 per annum, or \$592 for each trip. An allowance of \$260 in addition to the above was made for 5 trips to Campbellton last year.

The tonnage cleared from the Province in 1860 was 665,595 tons, and in 1861 it was 744,092, shewing an increase in 1861 of 78,497 tons.

Our principal carrying trade is between the Province and the United Kingdom, and last year the tonnage employed in carrying cargoes of wood to Great Britain, amounted to 386,951 tons; the tonnage of the previous year was 339,468 tons, shewing an increase on 1861 of 47,483 tons.

The tonnage cleared in 1861 for the United Kingdom, along with the 17 vessels which cleared for Eastport to evade the Deck Load Law, but which were in reality bound for Great Britain, amounted to 394,815 tons, which, in carrying capacity, including deck loads, would be equal to about 700,000 tons of wood. This would probably be about the quantity in tons of all kinds of wood taken from New Brunswick to the United Kingdom last year.

The carrying trade between this Province and Great Britain was nearly equally divided last year, between British and Foreign vessels; the British tonnage was 195,122 tons, and Foreign 191,829, being about 50½ per cent. for British, and 49½ per cent. for Foreign.

In 1860, 32 per cent. was foreign. This increase of Foreign shipping in our carrying trade is accounted for by the fact that American vessels owned in the Northern States were considered at the commencement of the American difficulties to be in a safer position trading between British Ports, than sailing out of their own Ports, the risk of capture by Southern Privateers being much less; while British vessels were preferred in Southern Ports previous to the blockade, and subsequently also in Northern Ports, as it was considered by shippers that their cargoes were safer in British than in American bottoms.

Of the British vessels carrying cargoes to the United Kingdom from Saint John, a large number belonged to Yarmouth, Nova Scotia.

Of the foreign shipping, 107,939 tons belonged to the United States, and 1,218 tons to Norway.

Of foreign vessels, the Norwegians appear to have nearly monopolized the carrying trade from Ports on the North Shore to the United Kingdom. At Dalhousie the Norwegian vessels cleared amounted to 2,145 tons; at Bathurst, 275 tons; at Newcastle, 11,187 tons; at Chatham, 5,631 tons; at Richibucto, 13,568 tons; at Buctouche, 2,494 tons; at Shediac, 4,916 tons. The Norwegian tonnage cleared from the Province last year for the United Kingdom was 121 vessels, 41,434 tons. So that next to the United States, Norway secured the largest share of our carrying trade. The other foreign vessels, viz. Prussian, Russian, and Swedish, only amounted to 10 vessels, 3,598 tons.

During 1861 timber freights from New Brunswick ruled high, which was rather against the Province than otherwise, as the principal carrying trade to the United Kingdom is in the hands of shipowners who do not belong to New Brunswick, and the profits arising from the sale of deals, our principal product, depend very much on the cheapness of the freight. The rates of freight from Saint John to Liverpool during that year ranged from £3 10s. sterling, to £5 7 6 sterling, per Petersburg standard of deals. In the month of January they opened at £5 5s. and closed in December at £3 17 6 sterling. Freights to the other Ports in the United Kingdom ranged a little higher than those to Liverpool, and freights from the Out-Ports to the United Kingdom generally range also a little higher than the Saint John rates.

The following rates for the last fourteen years will shew how they have fluctuated. The rates here given are from Saint John to Liverpool, which may be taken as a criterion of the rates between this Province and the United Kingdom :—

Latter end of June 1848,	£4	0	0	sterling.

July 1861,	4	2	6	

During 1861 the shipbuilding business has remained in about the same state as in 1860, and the quantity launched has also been about the same. In 1861, 80 vessels, measuring 40,523 tons, were registered, &c. in New Brunswick, all of which were built in the Province, except 3 small vessels which were built in Nova Scotia. The quantity registered, &c. in the previous year was 100 vessels, 41,003 tons. In my annual report for 1860, I estimated the quantity of vessels which would probably be built and launched during 1861 at 41,100 tons, so that the quantity actually registered has fallen short of the estimate nearly 600 tons.

Of the total quantity built in 1861, viz. 80 vessels, 40,523 tons—64 vessels, 32,068 tons, were registered, &c. at Saint John; 13 vessels, 7,340 tons, at Miramichi; and 3 vessels, 1,115 tons, at Saint Andrews.

Of the number registered at Saint John, one was a large vessel built at Miramichi. The present Registry Law allows an owner to register a vessel at any Port he likes without reference to his place of residence. Under the late Registry Law this could not be done. At the Port of Saint John there are some vessels now registered which are wholly owned at Liverpool, so that the Account of Shipping registered in New Brunswick, which is made up on the 31st December of every year, does not give a correct idea altogether of the shipping owned in the Colony.

Of the new vessels registered, &c. in the Colony last year, 28 vessels, 25,963 tons, were built under the inspection of Lloyd's Surveyors to class 7 years A 1 at Lloyd's, nearly all of these were built under special survey; 16 vessels, 7,630 tons, were built under survey to class 4 A 1 at Lloyd's, and one vessel, 288 tons, to class 5 A 1 at Lloyd's. The balance, viz. 3 steamers, 224 tons, and 32 sailing vessels, 6,418 tons, were built without reference to Lloyd's Surveyors. Of the 32 sailing vessels, 19, measuring 5,668 tons, were upwards of 100 tons, and averaged 298 tons each; the remaining 13 were under 100 tons, and averaged nearly 58 tons each.

The value of the two decked ships of the 7 years' grade in the English market last year, ranged from £8 to £9 sterling per ton Carpenter's measurement; although the medium tonnage between Register and Carpenter's measurement was sometimes adopted as the selling tonnage. Three decked ships would be worth £9 10s. or £9 15s. when sold by the Carpenter's tonnage, which is computed without reference to the depth of the ship, or the number of decks.

There would probably be a shade of difference in the selling price between Saint John built ships, and ships built at the smaller Ports throughout the Province, of the same grade, in favor of the Saint John built ships.

The 4 and 5 years' grade of classed ships were worth last year from £5 10s. to £7 sterling per ton, and the unclassed vessels from £5 to £6 per ton, but as upwards of five eighths of the whole quantity registered were of the 7 years' grade, the value of the whole quantity registered may fairly be stated at £8 sterling per ton, old or Carpenter's measurement. The quantity registered, &c. viz. 40,523 tons, would represent about 43,000 tons Carpenter's measurement, and the value would amount to £344,000 sterling. In this country where a large proportion of the vessels are built for sale in the United Kingdom, the proceeds of the first freight home are always considered as part of the amount realized for the vessel.

Last year the value of these freights would be equal to about 15s. sterling per ton, after paying disbursements. And as nearly all the new vessels carried home freights to England, (with a few exceptions, amounting to about 1,500 tons,) the sum of £29,000 sterling might fairly be added to the value as above stated, the new vessels having earned that amount before they reached their market. This would make the value of the new shipping built, along with the freight home, amount to about £373,000 sterling. This should be considered as an article of Export from the Colony, in comparing our Imports with our Exports. A large portion of the value of a new ship is made up of imported articles.

The number of vessels which proceeded from Saint John to England without being registered, but provided with a Governor's Pass, was 11, measuring 7,362 tons, and one measuring 1,357 tons, from the Port of Richibucto. Shipbuilders who send their vessels for sale to Liverpool, or who are building contract vessels for parties in England, find this plan very convenient, as it enables the owner in England to select a name for the vessel, which he could not do if she was registered here.

The regulation recently introduced by Lloyd's, of allowing two decked vessels to be built with 25 feet depth of hold, instead of 23 feet as formerly, will alter considerably the carrying capacity of these vessels, and will do away in a great measure with the necessity of their taking heavy deck loads, the space below deck being now so much increased. The Deck Load Law having hitherto prevented vessels from carrying deck loads of timber during eight months of the year, this increased depth was of great importance to the shipowner in carrying deals. It will also be very advantageous for vessels carrying cotton cargoes when the Southern Ports are again opened.

The ships built in Saint John for the highest grade have been more expensive than those built on the North Shore of the Province, owing to the large quantity of pitch pine timber and plank required for their construction. On the North Shore the hardwood of the country, which is plentiful there, is generally used, and the ships can therefore be built cheaper. In other respects the inspection there by the resident Surveyor for Lloyd's, is as rigid as it is in this district, and the vessels from that locality now stand well in the Liverpool market.

Several quantities of pitch pine were purchased at this Port during last Summer by Agents of the United States Government, and were exported to New York to be used for building Gun Boats. And the importation of pitch pine from the Southern States having altogether ceased here, it has become an exceedingly scarce article at this Port, and the scarcity of it will interfere seriously with the building of seven years' vessels.

The shipbuilding business of New Brunswick during 1861, may be said to have been moderately remunerative, although not by any means inflated or speculative. The quantity built was not large as compared with former years, and but few, if any, of the new vessels have been forced on the market or sacrificed. I think the quantity of shipping really owned in the country, and sailing on owners' account, is rather increasing. Some of the shipbuilders seem more inclined than formerly to own small shares of the vessels built by them, which would indicate that this branch of business is not in such a depressed state as it has been sometimes in former years.

Many persons in this trade are of opinion that if they could get some of the foreign markets in which to sell their vessels, they could compete with any country in this branch of business. France has already conceded the privilege of admitting to French Registry, subject to a duty of 25 francs per ton, or about five dollars, ships built in the United Kingdom, Belgium, the United States and Canada; and some of our shipbuilders are of opinion that New Brunswick could successfully compete with any of these countries which have already secured this privilege. The duty of 25 francs per ton appears to me to be too heavy to admit of our vessels being sold there with much advantage to our builders, even if New Brunswick succeeded in being placed on the same footing as these countries. This privilege has only recently been conceded to Canada, and was the result, I believe, of certain concessions made by Canada in favour of French productions; the duty on wine having been reduced from 30 to 20 per cent. *ad valorem*, and brandy from 100 per cent. to 30 per cent. *ad valorem*.

If Canada or any of these other countries can succeed in selling vessels in France, on remunerative terms, with this heavy duty, there is no doubt that New Brunswick could also succeed, or even undersell them, as the ship timber of this Province is peculiarly suitable for the class of vessels which are required in France, measuring from 200 to 300 tons.

During the latter part of last year, the Consul General of France in Canada, Baron Boilleau, visited this Province, and made many enquiries of me relative to our trade, resources, &c., and since then I have had several communications from him on the same subject. He appears to be of opinion that France would be willing to extend the same commercial privileges to New Brunswick as have been extended to these other countries, provided New Brunswick would modify the duties on French productions, such as wines and brandy. I duly communicated the Baron's views, at his request, to the Provincial Secretary, in order that the Government might open negotiations with the proper French authorities on the subject, if they considered it of sufficient importance to our shipbuilding interests.

In the meantime the duty on light French wines, costing less than a dollar per gallon at the port of shipment, has been reduced by our Legislature at its last Session from 50 cents per gallon and 15 per cent. *ad valorem*, to 30 cents per gallon and 15½ per cent. *ad valorem*.

The reduction of nearly 20 cents per gallon on these descriptions of light wines, may probably have a beneficial effect with the French authorities, should any negotiations on the subject be opened with them by our Government.

Another very important market for our ships, if such a concession could be obtained, would be in the United States of America. Under present circumstances, with the heavy duties recently imposed in that country on certain articles which enter largely into the construction of vessels, there is no doubt our vessels could be sold in their markets at a cheaper rate than the Americans could build such vessels, provided that country conceded the

same privilege of registry to British shipping which Great Britain conceded to the vessels of all foreign nations.

With the present depression of trade, caused by the civil war now unhappily raging in the great country adjoining us, we cannot reasonably expect much improvement in our shipbuilding business during the current year, as the carrying of cotton from the Southern States was such an important branch of business for the large class of vessels built in this Province, and which trade unfortunately has been completely destroyed by the difficulties at present existing there. A settlement of these difficulties, anxiously looked forward to by all commercial men, will probably bring an increased demand for our vessels, which in reality form part of our principal staple articles of export.

The estimate I made up of new vessels building in the Province on the 1st January last, and likely to be launched this year, was 76, measuring 39,000 tons, or nearly the same as last year. When pitch pine was plentiful at moderate prices, nearly all the large vessels built at Saint John for some years back, were of the seven years' grade; but the scarcity and high price of this article, owing to the blockade of the Southern Ports, has compelled some of our shipbuilders to build vessels for the four years' grade, for which spruce and other woods of the country are suitable.

The Account of New Vessels registered in New Brunswick during each of the last 37 years, will shew the various fluctuations which have taken place in this branch of our business, and it will be found that in all shipbuilding countries the fluctuations have been very similar, as the circumstances affecting the shipowning interests appear to be felt, more or less, in all parts of the world.

The average of new shipping registered in New Brunswick during the last three years, has been nearly 40,000 tons, although the average of the last ten years, (including the great year of 1854, when we had 99,426 tons registered) amounts to 58,183 tons.

The total number of new vessels registered in New Brunswick during the last 37 years was 3,779, measuring 1,357,812 tons, which would give an average of 102 vessels, 36,724 tons. The quantity built in the years from 1825 to 1838 was comparatively small, and the class of vessels built in those times was also of a much smaller size, and less valuable than those of the present day. The inspection by Lloyd's Surveyors, while it has tended to increase the expense to the shipbuilder, has also been the means of producing a much better quality of vessels; and no builder can now successfully dispose of his vessels in the English market, unless such vessels were inspected by those Surveyors while building, if they were built at a place where Lloyd's Surveyors were stationed. The faithful and detailed report made by these Surveyors to their Committee in London, of every vessel inspected by them, shewing the size and quality of the timbers, planking, and fastening, inspires confidence in the minds of the purchasers, and in the case of really good vessels tends to ensure a sale, while in the case of vessels with doubtful characters, the effect is equally injurious to the builder, who eventually has probably to submit to a sale of his vessel at a reduced rate. Unless vessels can now go home with clean reports for their classification, it is almost useless sending them to England for sale, as the purchasers are so much guided, in the selection of their vessels, by the characters they possess at Lloyd's; and those persons who build ships in this country for sale in the English market, cannot now afford to build inferior vessels, which could not obtain the favourable recommendation of the Surveyors, as the probability is, they might not be able to dispose of them on remunerative terms. Lloyd's Sur-

veyors have been stationed in this Province about nine years, and the quantity of new shipping which has been built during that period under their inspection has been nearly 500,000 tons, all of which has been more costly, and I believe of a much superior quality than those formerly built.

In order to shew the position which New Brunswick holds as a shipbuilding country, I may state that the total quantity of new shipping registered in the United Kingdom and the Channel Islands in 1861, was 214,410 tons, and in the British North American Colonies, (including Newfoundland) 106,344 tons, while in New Brunswick alone the quantity was 40,523 tons, or about 38 per cent. of the whole quantity built in the British North American Colonies, or about 19 per cent. of the quantity built in the United Kingdom.

The quantity built in Canada in 1861 was 33,187 tons; in Nova Scotia, 23,634 tons; in Prince Edward Island, 9,000 tons; in New Brunswick, 40,523 tons.

The quantity of Shipping registered in New Brunswick on the 31st December last was 813 vessels, measuring 158,240 tons. Of this quantity, 137,873 tons were registered at Saint John, 11,029 tons at Saint Andrews, and 9,338 tons at Miramichi. The quantity registered in 1861 is in excess of 1860 by 11,157 tons, but this is no criterion as to any increase in the quantity really owned in the Province. The account of Shipping registered in New Brunswick always appears large, owing to the number of new vessels waiting a sale in the United Kingdom, and still retaining their Saint John registers; and I have already stated that there are several large vessels owned in Liverpool, still remaining on the Saint John registry, owing probably to some advantage attaching to their being registered out of England. One advantage would be, that the owner would avoid paying the duty to which all Colonial and Foreign built ships are subject, on their first registry in the United Kingdom, of one shilling sterling per ton.

At Saint Andrews and Miramichi there are a large number of small fishing crafts registered, which swells up the number of vessels registered at these Ports, while at Saint John the number is also much increased by the number of Woodboats or lighters, which are much used on the Saint John River, for the purpose of bringing the deals down the River to Saint John Harbour.

The number of Steamers registered in New Brunswick on the 31st December 1861, and included in the above mentioned tonnage was 29, measuring 2,446 tons register. The tonnage of Steamers is ascertained by deducting the space allowed for engine and boilers from the gross tonnage. Nearly all the Steamers registered in New Brunswick are employed on the Saint John River and Harbour, in carrying passengers, and towing.

The value of the tonnage registered in New Brunswick on the 31st December last, estimating it at the low rate of £5 sterling per ton, would be £791,200 sterling, and deducting £91,200 for ships registered but not owned in New Brunswick, it would leave the sum of £700,000 sterling as the value of shipping actually owned in the Province, as near as can be estimated.

With reference to emigration, it will be seen by the return of emigrants who arrived in the Province during 1861 from Europe, that the number is in excess of 1860, during which year 323 persons arrived, while in 1861, 588 persons arrived, shewing an increase in 1861 of 265 persons. Of this number, 394 were from Ireland, 142 from Scotland, and 52 from England. All of them landed at Saint John, there being no arrivals of emigrants at any of the other Ports in the Province.

No official account can be obtained of the number of persons who came into the Province during 1861 from the United States, or the neighbouring Colonies. Immigrants coming from Europe to settle in this Colony, who had first landed at any of the Ports in the United States, or the neighbouring Colonies, would not appear in our returns as immigrants, these returns only shewing the number of Immigrants who land in New Brunswick from vessels direct from Europe.

The Emigration Agent here estimated that 1,709 persons from the United States came here last year, for the purpose of settling in the country, and in the absence of any official record of such persons, this is probably as correct an estimate as could be formed under the circumstances. This supposed number of settlers from the United States, is only an estimate however founded on the fact that the Boston Steamers brought to this Province that number of persons, viz. 1,709 in excess of those taken away. It must be remembered however, that Saint John is a central point between the United States, Nova Scotia, and Prince Edward Island, and that there is a great deal of travelling between these two British Colonies and the Northern States of America, a large portion of such travellers passing through Saint John.

Halifax being also a Port of call for the Cunard Steamers, passengers during the Summer months when the weather is pleasant, and the travelling good, coming from and going to the United States and Canada, frequently prefer this route, for the purpose of seeing New Brunswick and Nova Scotia.

It would therefore be difficult to ascertain whether these 1,709 persons who arrived in the Province from the States in excess of those who left for that country, actually settled in New Brunswick, or whether many of them did not come *via* Saint John, for the purpose of taking passage in the Cunard Steamer at Halifax for England.

The Law abolishing the head money of 2s. 6d. currency formerly levied on each emigrant passenger, was repealed last Spring, so that those who arrived in 1861 came in free of duty. Certain provisions were made in the new Passenger Act now in operation, to prevent the Province being burdened with infirm paupers, idiots, or other helpless emigrants who might be sent here from other countries, for the purpose of being got rid of. That Law has been found to work remarkably well, as during the year there were very few persons of the description mentioned who came into the Province, and these were nearly all immediately disposed of without any expense to the Province.

In one case a man aged 50, named Thomas Winters, who had been moved about from one Poor House or Hospital to another in the United States, was finally shipped on here by the authorities in Boston or Portland per Steamer *Western City*. The Emigrant Agent soon ascertained that he had been for a long time labouring under bodily infirmities, which precluded him from earning a livelihood, in which case he would certainly become a public burden, and he immediately notified the Province Treasurer to that effect, when that officer called upon the Agent of the Steamer which brought him here, to give bond under the Act, but rather than do so, he immediately reshipped him back to the place from whence he came. Another man, named John Craig, landed from the *Elizabeth* from Londonderry, who was infirm in his right hand, but he had friends in the Colony who at once took care of him.

A Mrs. Ellis Grier, a native of Ireland, also landed here on the 23rd November, ex Steamer *New Brunswick*, and as she was likely to become a public burden, the agent of the boat reshipped her back to the United States, where she had resided since 1843.

William Harvie, a native of Scotland, came here in the ship *Irvine* with the Glassville Emigrants, and after being on Partridge Island some time, became insane, and will be sent back to Scotland.

Three families of German emigrants from Bohemia, who arrived here late in the fall from Hamburg, after expending all their means in clearing their land in King's County, were obliged to take temporary refuge in the Alms House until the spring opened; but there is no probability whatever of these persons becoming any permanent public burden on the country.

The repeal of the head money on emigrants will probably have a beneficial effect on emigration, as the passage money will be less by that amount, and the present law is quite sufficient to prevent the Province being flooded with incapable or infirm persons from other countries.

The prospect of a sound, steady and healthy emigration to this Province, for the future, appears to be favourable. The Emigration Commissioner, who has recently returned from the United Kingdom, was actively employed among the rural districts, explaining the advantages offered to agricultural labourers and farmers who may wish to settle in this Province; and I can bear strong testimony to the efficient manner in which the Government Emigration Agent at this Port attends to his duties, of assisting those emigrants who may come here, in giving them advice and information, either as to procuring employment, or purchasing Government lands or cleared farms. His office is open to them at all times, and if they will place themselves under his care, as a great many have done, they will be sure to find ready and respectable employment, and avoid any loss of their means, to which they are so subject on landing in a strange country, without any adviser to take care of them.

With the desire that exists on the part of the Government, and every well wisher of the Province, for a healthy emigration to the Colony, of persons who are willing to go into the interior, and who may by enduring some hardships and difficulties for the first few years, attain to a position of comfort and independence, I consider the Emigration Office, conducted as it is at present, a most important and valuable one, not only to the emigrants themselves, but to persons who may be in want of agricultural labour or general servants.

I have the honor to be, Sir,

Your Excellency's most obedient servant,

WM. SMITH, *Controller, &c.*

				588
Total for New Brunswick in 1861,	588

NOTE.—The Act of the Colonial Legislature, imposing a Duty of 2s. 6d. Currency per head on each Emigrant arriving in the Province, was repealed during the Session of 1861. No Emigrant Duty was collected therefore in this Colony in 1861.

WM. SMITH, Registrar.

EMIGRATION.

Annual Report of the Emigration Officer for 1861.

Government Emigration Office,

St. John, February 1, 1862.

SIR,—I have the honor to submit for the information of His Excellency the Lieutenant Governor, my Annual Report on the Immigration into New Brunswick, for the season of 1861.

The first passenger vessel was the Barque "Argentinus," which arrived at Saint John on the 14th of May, having sailed from Londonderry on the 11th of April. She landed one hundred and eleven passengers,—fifty one males, and sixty females. They were chiefly young persons, and all in good health; the larger portion was from the rural districts. As the Spring trade was commencing, there was a large demand for all kinds of labour, both in town and country, and all who were so disposed found immediate employment.—Five families proceeded to the eastern part of King's County, where they had friends, and settled—some on Crown Land, and others on partially improved farms.

The Brig "Joseph Hensley" sailed from Galway on the 27th of April, and arrived in Saint John on the 27th May. She landed fifty three passengers,—twenty five males, and twenty eight females, all healthy young persons. The men were chiefly farm labourers, and were forwarded to the country, where they at once obtained work; such of the women as were fitted for service, were taken up as domestic servants.

The Barque "Hiawatha" sailed from Galway on the 9th of May, and arrived on the 10th of June. The number of Immigrants landed was one hundred and fifty six,—the females numbering ninety four, the males sixty two. These were all young persons, the women had been brought up as domestic servants, milliners, and tailoresses; some forty five of the women, and about forty of the men, who were accustomed to agricultural labour, were forwarded to the country districts; the others found employment in the City. Among the passengers by this ship, were ten young women sent out by the Board of Guardians, at Galway; a small gratuity was forwarded for each of the girls from the funds of the Union, which was paid to them on their arrival. In this vessel, twelve stowaways were discovered shortly after the ship had left port.

The Barque "Irvine" sailed from Greenock on the 6th of May, and arrived on the 26th of June. She brought one hundred and thirty four passengers. The voyage was long and boisterous, and four deaths occurred at sea,—three adults and one infant,—the adults from inflammation—the infant from dysentery. Several cases of small pox occurred on the passage, but all recovered. It was deemed advisable, in order to prevent the spread of the disease, to land the passengers on Partridge Island, where they were provided with accommodation in the Quarantine Buildings, and where the best medical care was bestowed upon them by the Visiting Physician, Dr. G. J. Harding. The Board of Health forwarded supplies of fresh provisions, and clean bedding, and other necessaries. The ship having been cleansed and fumigated, proceeded up to Saint John. After a detention of ten days, the passengers were released from quarantine, and with the exception of a few who remained in Saint John, all proceeded to Glassville, in the County of Carleton, where

Tracts of Crown Land had been surveyed for them. The passengers by this ship were an intelligent and industrious body of people, and were brought out through the influence of the Rev. Mr. Glass.

The last ship of the season was the "Elizabeth," which sailed from Londonderry on the 10th of August, and arrived on the 10th of September. She brought fifty five passengers. They were mostly young persons, and came out to join their friends already settled in the Province.

By ships arrived from Liverpool, not under the restrictions of the Imperial Passengers' Act, fifty one persons were landed at Saint John.

Owing to the unfortunate aspect of affairs in the United States, many persons, chiefly natives of Great Britain, who had emigrated thither, and numbers of whom had resided there for long periods, had been induced to seek out for themselves and families a home on British soil, and came to this Province in large numbers. From a carefully prepared statement, which has been kindly furnished by the officers of the lines of Steamers conveying passengers and goods between the Ports of Saint John and Boston, it is ascertained that one thousand seven hundred and nine persons have arrived during the past season, from the United States alone. The whole number of persons by the ships arrived from Great Britain is five hundred and sixty, which, added to those from the United States, makes a total of two thousand two hundred and sixty nine; and this does not include any passengers that may have been landed at the different out-ports, of which, at present, no correct returns can be obtained.

The disposition shown for some years by those already resident in the Province, as well as by those newly arrived in it, to adopt country life, and to become proprietors and cultivators of land, is largely on the increase, and will exist so long as land is abundant and cheap. Among those who arrived the past season, a considerable number were possessed of sufficient means to enable them to go at once into the country, and procure land for the purposes of settlement; and many industrious mechanics, and others who were thrown out of employment by the general depression in trade, found by the examples of those who had tried it before them, that by adopting country life, and following farming, they would have a better chance of success, a more certain means of a livelihood, and in time, if a course of industry and sobriety be pursued, of arriving at both comfort and competence.

I have invariably pointed out to all those who have consulted me, the great advantages offered to industrious persons to become settlers on the Crown Lands, which are obtainable under the Labour Act by payment in labour, at the rate of sixty cents per acre; or by purchase, at the rate of fifty cents per acre, if the money be paid down; or, sixty cents per acre, payable one fourth part at the time of purchase, and the balance in three equal annual instalments. The moneys arising from these sales are expended in opening and improving the roads. With land so cheap, no man is so poor as to be unable to obtain it. Country life has many advantages when compared with city life. The settler has no rent to pay, has abundance of fuel, wholesome food, is owner of the soil; tithes, poor rates, and church rates, he knows nothing of; his tea and sugar are but lightly taxed, and all his household luxuries, which add so materially to his comfort, are far cheaper than in the Old Country. If the newly arrived immigrant is industrious, he can in a few years have an orchard, and make his own cider; can cultivate the hop, and make his own beer; can procure all the sugar he requires from the maple tree, at a season of the year when he cannot labour on his farm; and fruits of nearly every kind grow indigenous; the currant, raspberry, strawberry, and cranberry, are to be found in every part of the Province. To the British Immigrant, who

loves his country, and whose heart is imbued with the history and traditions of his mother land, there is no spot for which he can set out, with better chances of success, than to the favoured soil of New Brunswick. There is no need of obliterating the old nationalities or the old glories. Here he will find that sobriety and industry reap their reward. There are no gaping alms-houses to chill his warm feelings; and he may divest himself of all fear that his children will ever become a public burden. No matter how humble, he is eligible for any office that his abilities may qualify him to hold. The Laws, too, he will find closely assimilated to those of the Old Country,—the rich and poor alike receiving protection; and he will find many things to remind him that though he is separated by the wide Atlantic from the "old sod," he is still on British soil, is still a subject of Queen Victoria; and that the Flag which floats above him, while with its ample folds it shields him from the usurpation of the despot, guarantees his nationality, and affords protection and relief alike to the oppressed and suffering.

There is every reason to presume that there will be an increased immigration during the coming season. The mission of the Hon. Mr. Brown to the Mother Country has already attracted marked attention in the various districts where he has diffused information relative to the capabilities of the Province. His presence in the rural districts, as well as in the towns and cities, added to his long practical experience and intimate knowledge of our resources, as well as exemplifying in his own person the truthfulness of his statements, cannot otherwise than be attended with results which will materially advance the interests which he has been commissioned to advocate. It will therefore be a matter for consideration by the Legislature, that further surveys of eligible tracts of land should be made, and as far as possible, roads opened, so as to obtain access to them; and other facilities should be afforded to all who may come into the country with the intention of engaging in agricultural pursuits. The experience of the past few years has shewn that wherever access to land, suited for settlement, can be had by roads, the district is soon filled up by settlers, and where the wilderness so recently remained unbroken, the woodman's axe has cleared away the timber and underwood, and there are to be found the cabin of the settler, the cleared field, and all the evidences of energy and progress.

The Quarantine Buildings on Partridge Island are in good order, and all the appliances requisite for the comfort of any sick immigrants that may unfortunately require to be landed there, are at hand. These buildings have been occupied but on one occasion during the last fourteen years, which affords convincing proof that the care and attention bestowed of late years to insure health and cleanliness among passengers on ship-board, has been productive of the most beneficial results.

The number of persons in town and country entering their names as applicants for agricultural and domestic servants, during the past year, is two hundred and nineteen. A considerable number of persons likewise obtained servants and labourers direct from the ships where they had an opportunity of making choice of such descriptions of labour as they required.

The Records of persons applying at this office for Crown Lands, shows the number for the past season to be one hundred and thirty seven.

The whole number of persons who have had land approved to them for the purposes of actual settlement, is seven hundred and fifty; and as each applicant receives on an average one hundred acres, the large quantity of seventy five thousand acres has been taken up. Very many persons have purchased at the regular Monthly Sales for the purposes of settlement, but the number of acres cannot be correctly estimated.

The following Table shows the number of applicants and the quantities taken up in the different Counties:—

In the County of Restigouche,	16	applicants,	1,600	acres.
“ Gloucester,	49	“	4,900	“
“ Northumberland,	17	“	1,700	“
“ Kent,	34	“	3,400	“
“ Westmorland,	31	“	3,100	“
“ Albert,	47	“	4,700	“
“ Charlotte,	45	“	4,500	“
“ King's,	36	“	3,600	“
“ Queen's,	64	“	6,400	“
“ Sunbury,	19	“	1,900	“
“ York,	110	“	11,000	“
“ Victoria,	59	“	5,900	“
“ St. John,	9	“	900	“

A series of corrections for the “ Colonization Circular ” for 1862, have been made, and such additional notes furnished, which it is presumed will be found useful. This work is issued annually by Her Majesty's Emigration Commissioners, and contains much valuable information relative to New Brunswick, as well as Her Majesty's Colonies generally.

Taking the arrivals of the past season as an index of the growing interest felt abroad for New Brunswick as a Home for the Immigrant, there are good and substantial reasons for assuming that the future is full of hope, with the prospect, that as our resources and capabilities become more widely known, a steady and healthy stream of settlers will continue to flow towards New Brunswick, and each succeeding year add to the quantity of land brought under cultivation, and correspondingly to the advancement of the general interests of the Province.

I have the honor to be, Sir,

Your very obedient servant,

(Signed)

ROBERT SHIVES.

The Hon. S. L. Tilley, Provincial Secretary.

MILITIA.

Report of the Adjutant General of Militia for the Year 1861.

To His Excellency the Hon. ARTHUR HAMILTON GORDON, C.M.G., Lieutenant Governor and Commander in Chief of the Province of New Brunswick.

SIR,—I have the honor to lay before Your Excellency a Report of the strength of the Provincial Militia—the number of Companies belonging to that Force which have volunteered for Drill and Exercise—the charge of Military Instruction afforded to these Companies—the cost of preparing the ground for, and the outlay attendant on, the competition for the Challenge Cup presented to “The Volunteers of the Province,” by His Royal Highness the Prince of Wales,—and the expenditure of all grants made to me by the Legislature for the service of the Militia. Also, Statements shewing the Ammunition authorized to be issued for Practice, and for *firing* for “The Challenge Cup,” and the number of Field Pieces and Enfield Rifles now in the hands of the Volunteer Militia.

The inability of Officers Commanding Regiments or Battalions to furnish correct Returns of the Officers and Men under their respective commands, places it out of my power to do more than give an approximate Estimate, (grounded on Returns previously made,) of the strength of the Provincial Militia, which may be said to consist of one Regiment of Cavalry; one Regiment of Artillery; and 84 Battalions of Infantry, amounting in all, (Officers and Men,) to 32,700, making an addition to the Return of 1860, of 300 men, consequent on the known increase of population since the last Census was taken.

The Volunteer Force consists of—1 Troop of Cavalry; 9 Batteries of Artillery; and 40 Companies of Rifles; amounting in all to 2,485 men of all ranks, estimating the total strength from the number of Rifles issued to the Volunteers; although it may be assumed from the Periodical Returns furnished, that the effective strength does not reach beyond 32 Officers and Men on an average per Company; the actual strength therefore of the Volunteer Force of the Province will amount to about 1,600 drilled men.

The Report of Major Rynd, Her Majesty's 62nd Regiment, who inspected the Volunteers in the several different Districts of the Province in August and September last, will have informed Your Excellency as to the condition in which he found the Companies which appeared before him for Inspection.

In enclosing for Your Excellency's information, a Return of the names of the successful Competitors for the Medals granted by the Legislature—with a view to the encouragement of the Volunteer movement—it is my duty to state, that although the shooting of some few Companies represented a fair average, considering the small amount of practice afforded them, the majority of the shooting would appear in Your Excellency's eyes to be of a very indifferent character, scarcely worthy indeed of the *Prize* awarded; but bearing in mind that a Medal was to be given to the *best shot* in each Company, and that many of the Competitors had never fired ten shots from an Enfield Rifle, it will, I trust, induce Your Excellency to regard this first exhibition with indulgence, especially as several of the Volunteer Companies have since manifested a strong desire to perfect themselves in Drill, and the acquirement of a more practical knowledge of the use of the Rifle.

The Legislature having determined that the Agricultural Exhibition should be held at "Sussex Vale" in the first week in October, it was deemed advisable that the competition for "The Challenge Cup" presented to "*The Volunteers of New Brunswick*," by His Royal Highness the Prince of Wales, should take place at the same time, and in the immediate vicinity of the Exhibition Building.

The locality was carefully examined and reported upon, and a suitable site proposed. Your Excellency's predecessor then visited the ground, approved of the site selected, and authorized the necessary clearance of Land—the drainage—the fencing, and all arrangements for 'the shooting,' and the public safety, to be proceeded with; when these works were completed, the Honorable Mr. Manners-Sutton again inspected the ground, and approved of the arrangements made.

The competition took place in the first week in October, and after an exciting time the Prize was awarded to Private J. Elston, of Captain Gunn's Company, King's County Militia, who made 20 points in 15 shots, at ranges of 200, 300, and 400 yards, with 5 rounds at each range.

To the Prize Holder of the Challenge Cup, Your Excellency's predecessor, with a view to the further encouragement of the Volunteer Force, gave a handsome Gold Medal.

In the course of the same week, "The Silver Urn," generously offered by the Legislature for competition amongst 20 selected Volunteers from Canada, Nova Scotia, Prince Edward Island, and New Brunswick, was fired for, and eventually carried off by Private Hickey, Prince Edward Island Volunteers, who made 24 points in the same number of rounds allowed, and at the same ranges as those fired from on the previous occasion.

Nothing could more strongly mark the lively interest taken in these competitions, than the presence of a large body of Volunteers and other spectators, who daily flocked to the competition ground from the Cities, Towns, and rural Districts of the Province; and it was scarcely less gratifying to observe, that the whole of the Volunteers of Prince Edward Island, and a few of Nova Scotia, remained on the ground during the whole of the competition week.

Your Excellency's experience in Rifle Shooting by Volunteers at home, will enable you to draw a just comparison between that of our Colonial Volunteers and those of Great Britain; and it is hoped that Your Excellency will discover that, considering the small amount of practice, (not exceeding 15 rounds per man,) which the Volunteers of our Province have had the advantage and the opportunity of making, that the shooting will not compare unfavourably with that of the Volunteers of England and Scotland; and as a spirit of honest rivalry appears to have spread throughout the Volunteer Force, it is hoped that through Your Excellency's influence, an allowance of Ammunition may be gratuitously obtained from the Home Government, (corresponding to that issued on similar terms to the Volunteers at Home,) when a result more creditable to "the shooting" of our Volunteers may be confidently anticipated at the next competition for "The Challenge Cup."

Having already addressed Your Excellency on the subject of the insufficient supply of Light Guns for the Volunteer Artillery, I beg leave here to state for Your Excellency's information, that the Batteries now formed, (which are drilled both to the Rifle and Light Gun Exercise,) have only 2 Guns per Battery, and that in order to complete the equipment to 4 Guns per Battery, it would require an addition of 16 Guns, or 10 light 3 Pounders, and 6 5½-inch Howitzers, which description of Ordnance may be regarded as most suitable to the exigencies of the country; and as this arm of the

service is not surpassed in zeal by the Rifles, it is earnestly hoped Your Excellency will be pleased to consider the propriety of applying to the War Department for the supply of Ordnance above specified.

There are only 10 light 3 POUNDERS in the Province, 4 of which are useless for all purposes, except those of drill; and from personal inspection, and *special report* made to me by Your Excellency's command, I have no hesitation in pronouncing the whole of the Gun Carriages, Limbers, and Ammunition Waggon, and many of the small Stores in charge, to be totally unfit for service. Some of the wheels have been repaired at the cost of the Companies to which they belong, in order to enable them to move about with their Guns on occasion of ordinary drill. Should it be deemed advisable to put the Gun Carriages, &c. &c. &c., in a condition fit to take the field, it has been estimated that the sum of £120 would be required for this service.

Before entering into matters of detail connected with the moneys which have passed through my hands for the service of the Militia, I must beg Your Excellency's permission to say a few words with reference to the use of the same ground at Sussex Vale, for the future competition for "The Challenge Cup," and other public Shooting Exhibitions.

In the first place, the Ground was prepared at a considerable cost,—it is still available; the Butts, Fencing, &c. &c., are in a good state of preservation, the site is central, unexceptional in itself, and easy of access from all parts of the Province; and on these grounds it is submitted to Your Excellency as a fitting place for the continuance of the Annual Competitions.

It is, however, my duty to add, that Dr. Vail, to whom this land belongs, and who most liberally made it over to the Honorable Mr. Manners-Sutton for the time being, giving free permission to make it available for the purpose required, free of all charge last year, would, in future, require a compensation of £10 per annum for its use, which rental, considering the ground being situate in the centre of a thriving village, I think most reasonable; and therefore, under all the circumstances of the case, submit for Your Excellency's consideration, the propriety of agreeing to the terms proposed by Dr. Vail.

The moneys expended by me for Militia purposes since November 24th, 1860, amount to \$1,875, and the sums received on Account, to \$1,765, shewing a balance overpaid, amounting to \$109. The manner in which this amount has been expended, is as follows:—

1. For Drill Instruction, Board, &c.	\$544	74
2. Freight, cartage, cleaning, and assorting Arms, &c. &c., in Militia Store,	225	40
3. Office Rent, Furniture, Fuel, and attendance for 1½ years,	187	75
4. Travelling Expenses since November 1860,	86	90
5. Expenses of, and in connection with the competition at Sussex Vale,	830	17
					<hr/>	
Expended,	\$1,874	96
Received,	1,765	00
					<hr/>	
Balance overpaid,	\$109	00

In addition to the above balance, there are several sums due for Board and Lodging of Drill Instructors, &c. &c., amounting to about \$60. Apart from, and in addition to the sums above paid by me, several claims made by the War Department for marking Arms and Accoutrements, Military Stores furnished, &c. &c., have been discharged; and there are yet some unsettled demands which have been made by this Department for Ammunition,

&c., but as these have formed subjects of explanation and remonstrance from this Office, it is confidently hoped that the Province will be spared the outlay—proof having been already given of the desire of the War Department to make the most liberal deduction on proper representation.

The Ammunition Your Excellency's predecessor authorized to be issued to the Volunteers of the Artillery and Rifles for practice during the year 1861, was, for the Artillery, 20 rounds of blank, and a like number of rounds of Service Cartridge; and for the Rifles, 30,000 rounds of Ball, and a liberal allowance of Blank Cartridge.

Your Excellency having inspected the Militia Store at Fredericton, and noticed that the roof was not water-tight, I have to report that by estimate obtained, the roof can be fresh shingled for about £9; and as the preservation of the Cavalry Equipments (which are in good order) and Arms and Accoutrements, &c. in this Store, are of no inconsiderable importance, it is hoped that the Legislature will make provision for an outlay for this service.

In my Report for the year 1860, it was suggested that the old Militia Clothing and Boots, (which latter are extremely good of the kind,) should be sold at Public Auction, but as no favourable opportunity offered for their disposal, they still remain on hand,—the boots may not suffer from longer keeping,—but the clothing having been already injured by the moth, and as a portion of both clothing and boots, is deposited in the Store of a Merchant in this place under *warehouse charges*, I again venture to suggest that they be all sold at the earliest fitting opportunity.

I have much pleasure in assuring Your Excellency, that I continue to receive from the Captains of the several Volunteer Companies, the most favourable reports of the exemplary conduct of the Drill Instructors, who have been furnished by the 62nd and 63rd Regiments during the last year; and having visited several of the enrolled Companies in St. John and the rural Districts, it is very gratifying to me to have it in my power to report that, though the Muster was generally small, the manner in which the preliminary drills were gone through reflected as much credit on the Officers and Men present, as on their respective Drill Instructors.

Your Excellency's experience with the Volunteers of Great Britain, and the knowledge possessed by Your Excellency of the intrinsic value and the delicate construction of the Rifle which has been placed in the hands of the Volunteer Militia, appears to justify an expression of hope that Your Excellency may be pleased to move the Legislature to make some provision in aid of the erection of Armouries in the several Counties of the Province, and for payment of a competent person to take charge of the Arms and Accoutrements which may be therein deposited; for I greatly regret to inform Your Excellency that many of the Rifles issued have been seriously injured, either by the improper use of an unauthorized description of ammunition, or by extreme carelessness, owing to a general want of knowledge of the real use and value of the weapon which has been placed in the hands of the Volunteers.

With a view not only to the encouragement of our Volunteers, but to the prevention of accident amongst themselves, and to the safety of the public in general, I feel it to be my duty not to close my Report without offering for Your Excellency's consideration, the propriety of the construction of safe *Firing Butts* on some convenient ground in each County in the Province in which Volunteer Companies have been enrolled and drilled.

I have the honor to be Your Excellency's most obedient servant,

R. HAYNE, *Lieut. Col.,
Adj. Gen. of Militia.*

Fredericton, December 31, 1861.

PROVINCIAL LUNATIC ASYLUM.

Report of the Medical Superintendent for 1861.

On the 31st October 1860, the date of last Report, there were one hundred and sixty two patients on the record—ninety seven males, and sixty five females. During the year there have been admitted eighty one—forty seven males, and thirty four females. The total number under treatment has been two hundred and forty three—one hundred and forty four males, and ninety nine females; and there have been discharged, including deaths, seventy five—males forty four, females thirty one; and there remain in the Institution one hundred and sixty eight—males one hundred, females sixty eight.

Of the one hundred and sixty eight remaining on record, forty two are improved—twenty five males and seventeen females; one hundred and twenty six unimproved—seventy five males and fifty one females.

The number of patients from each County has been—St. John, one hundred and four; Charlotte, twenty seven; York, twenty three; King's and Northumberland, each nineteen; Westmorland, fourteen; Carleton, eight; Queen's, seven; Sunbury, Kent, and Albert, each five; Restigouche, two; Gloucester and Victoria, each one, and from Nova Scotia two, and the United States, one.

The average is one hundred and seventy two. The greatest number at any one time, 17th July, is one hundred and eighty one. The smallest number at any one time, 30th November, is one hundred and sixty two.

The result of treatment is, thirty one have been discharged recovered—twenty males and eleven females; three much improved—two males and one female; sixteen improved—seven males and nine females; and two unimproved—one male and one female. Twenty three have died—fourteen males and nine females.

The cause of death in fourteen was exhaustion from chronic insanity; in two from diarrhœa; two disease of lungs; in one each from chronic disease of the liver, heart, exhaustion from epilepsy, general paralysis, and dysentery.

The following Table shews the movements of Patients from 12th December 1848, the time of opening of the Institution, to this date:—

Year.	Old cases.	Received in year.	Total.	DISCHARGED				Total.	Died.	Remaining.	Average.
				Recovered.	Much improved.	Improved.	Unimproved.				
1848	...	92	92	1	91	...	
1849	91	48	139	30	...	3	3	36	11	92	94
1850	92	59	151	4	10	3	5	52	3	96	94
1851	96	67	163	31	7	8	2	48	16	99	104
1852	99	88	187	30	5	3	1	39	16	132	117
1853	132	92	224	52	5	15	3	75	22	127	129
1854	127	108	235	48	...	25	5	78	26	131	133
1855	131	101	232	47	4	16	2	69	20	143	149
1856	143	81	224	28	9	12	6	55	19	150	150
1857	150	77	227	28	6	15	5	54	24	149	151
1858	149	87	236	37	8	10	...	55	26	155	154
1859	155	79	234	29	8	18	4	59	21	154	161
1860	154	87	241	37	5	19	2	63	16	162	160
1861	162	81	243	31	3	16	2	52	23	168	172

All applicants from within this Province during the year have been admitted. By reference to the statistics it will be perceived that the numbers have been as great as in former years, and, consequently, there has been continued over-crowding. For another year, in this respect, while the new wing is being prepared for occupancy, there will be a repetition of former and present difficulties. But it is consolatory to know, that after that time the accommodation will be ample for the wants of our entire insane population.

There have been a number of applications from beyond the bounds of the Province for admission, which, owing to the crowded wards and the unfinished state of the Institution, it was deemed prudent to decline.

The number of paying patients continues small, as compared with those who do not pay, and the amounts received from those from whom any thing is exacted is little in proportion to the advantages enjoyed. But the larger the number that are provided for at the public expense, and the smaller the tax upon those who do pay, the greater the good the Institution is effecting, and the more benevolent is its spirit.

In no year of its history has the Institution been more generally useful than the one just closed; while it has in the most liberal manner provided for the requirements of the insane, its operations have, at the same time, shaded off on the one hand in the direction of any asylum for inebriates, and on the other hand to the general hospital, and as I have explained in former reports, this becomes in some measure necessary in a young country where many links in the chain of benevolent institutions are still wanting.

Last year the water from Spruce Lake was brought into the Institution. For the purposes to which it has been applied it answers every expectation. But, still, its full advantages are not realized, owing to the want of more pipe and additional hose; and I beg to submit for the consideration of the Board, the necessity of having a Fire Engine at all times on the premises.

During the Summer the north wing has been erected, and this completes the building, according to the original design, and, now, the whole forms a beautiful and imposing structure.

Valuable and important repairs have been made on the parts of the building first erected.

The improvements on the farm and ornamental grounds have kept pace with those in connexion with the building, and in a short time, at the rate of progress during the last year, the Institution with its surroundings will be worthy the admiration and the pride of the Province.

The disadvantages of the present partial, imperfect, and, I may add, dangerous mode of heating, have so often been alluded to in former Annual Reports, that, at this time, I consider it unnecessary to say more on the subject, but beg earnestly to recommend that the old mode be abandoned, and that instead of it, new and efficient apparatus be substituted now while the work of completing the new wing is in progress.

A few months ago the Board of Commissioners, to whom I presented my last Annual Report, were relieved by the action of the Government from the discharge of the onerous duties of managing the affairs of this Institution. For twelve years I have held my appointment under them, and in the discharge of my official duties have acted with them, and my recollections of our intercourse are of the most pleasing kind. In that time I have had my trials, and whether they have assumed the form of official difficulties or domestic affliction, in them all I have been cheered and sustained by their counsels, their assistance, and their sympathy; and on parting with them I desire to express my grateful acknowledgments for their uniform kindness.

The Rev. Mr. Scovil has discharged the duties as Chaplain with his accustomed zeal and faithfulness, and all other Clergymen who have been requested to visit the sick or bury the dead of their respective denominations, have invariably done so with cheerfulness and promptness.

Dr. White, of Carleton, has kindly attended to my professional duties in my absence with entire satisfaction to myself and the inmates.

"The Christian Visitor," "The Church Witness," "The Religious Intelligencer," "The Courier," "The Colonial Empire," "The Halifax Presbyterian Witness," "The Christian Messenger," and "The News of the Churches," have been furnished without charge for the benefit of the patients. To the Gentlemen through whose generosity these papers have been sent, I beg to offer grateful thanks. Many of the insane take an interest in the papers published in the locality from which they come, and it would be a great kindness, that would be highly appreciated, were the proprietors of those papers not included in our gratuitous list, to add their paper.

The Brussels Street Juvenile Missionary Society have kindly sent us a number of packages of small papers, which have been thankfully received.

To all parties engaged with me in conducting the business of the Institution, I desire to accord due commendation for faithfulness in the discharge of duty; and continuing to recognize the goodness of God in the past, would invoke His favour and protection for the future.

Respectfully submitted.

JOHN WADDELL, M. D.

Pro. L. Asylum, St. John, N. B., Oct. 31, 1861.

LAZARETTO.

Annual Report on the Lazaretto at Tracadie, for 1861.

Miramichi, November 8, 1861.

SIR,—Another year having rolled round in the management of the Board of Health for the Counties of Gloucester and Northumberland, I have again to bring under your notice the present state of the Establishment, for the information of His Excellency the Lieutenant Governor.

During the several years that the Hospital has been in existence, a great variety of reports have from time to time been forwarded to the Government, in many of which the nature of the disease, the mode of treatment adopted, and the progress and results, have been fully set forth, and the question as to the necessity of a resident Physician has been fully discussed, and opinion of the Board as well as of the present Medical Adviser have been explicitly given; to all of which the Board would respectfully refer His Excellency, should he be desirous of examining into the question. It only therefore remains for me, on the present occasion, to shew the present state of the Establishment.

During the past year seven deaths have occurred at the Hospital,—five males and two females; during the same period five new cases have been admitted,—three males and two females, and at the present time there are altogether in the Hospital, fourteen,—nine males and five females.

It had been reported to the Board that four cases existed outside the Hospital. The Board examined into the subject, and ascertained that these persons were supposed to be labouring under the disease and undergoing medical treatment at the hands of an Indian Doctor; they and their friends earnestly implored the Board to allow them to remain under the then treatment, their friends assuring the Board that they should be kept to themselves so as to prevent the possibility of the disease through them spreading. The Board would otherwise have secured them at once, but having on all occasions been most anxious that all remedies should be applied to mitigate the violence of the disease, and if possible, to eradicate it altogether, yielded to the suggestions, and allowed the parties to remain under proper restrictions; but the Board now regret to say that the efforts of the Indian Doctor has proved unavailing, and the unfortunate lepers will ere long be taken and confined within the Hospital with the other inmates, which will increase the number to eighteen.

The Accounts with Vouchers have been forwarded to the Auditor General, which shews an expenditure during the past year of \$2,304.49, including the Salary of the Medical Officer, and which shews a balance due me of \$37.42. The Hospital is at present well supplied with all necessaries for the comfort and sustenance of the unfortunate lepers, and a sum of \$2,400 will be required to keep up the establishment the present year. Should the Government determine to establish and secure the service of a resident Physician, his Salary will require to be provided for in addition.

I have, &c.

(Signed)

JAS. DAVIDSON,
Sec'y to the Board.

STEAMBOAT INSPECTION.

Report from W. M. Smith, Inspector of Steamboats.

St. John, N. B., 26th Feb. 1862.

SIR,—For the information of His Excellency the Lieutenant Governor, I beg leave to submit my Annual Report as Inspector of Steamboats, residing in St. John, N. B.

No accident involving loss of life has occurred to any Steamer inspected by me during the past year.

By direction of the Government a reliable pressure Gauge has been procured, to be used in the testings of the Boilers of Steamers, thereby ensuring uniform results.

A supply of copies of the "Steamboat Law" in sheet and pamphlet form having been furnished me, I sent copies to the Owners, Masters and Engineers of all the Steamers in the Province employed in the carriage of passengers.

The Steamer "Richmond" grounded on a bar in the upper River in June last, and was broken up, the engines, boilers and material were saved.

The Steamer "Experiment" employed as a passenger boat on the River St. John in August last without having been inspected, was reported on to the Government at the time.

The following Steamers have received Certificates of inspection during the past year; the hulls have been surveyed and approved of for the routes on which they were placed; the boilers tested by hydrostatic pressure; the lock-up valves set to the pressure allowed; and the fit out being in accordance with the requirements of the Law:—

Date of visit.	Name of Steamer.	Remarks.
1861.		
March 4.	Emperor,	Certificate granted for the Bay of Fundy and Tributaries.
August 6.	do.	Certificate renewed.
April 4.	Forest Queen,	Certificate granted for the River Saint John and Tributaries.
August 3.	do.	Certificate renewed.
May 6.	Saint John,	Certificate granted for the River Saint John and Tributaries.
August 30.	do.	Certificate renewed.
April 12.	Anna Augusta,	Certificate granted for the River Saint John and Tributaries.
August 5.	do.	Certificate renewed.
April 12.	Heather Bell,	Certificate granted for the River Saint John and Tributaries.
August 5.	do.	Certificate renewed.
April 12.	Colonel Fremont,	Certificate granted for the River Saint John and Tributaries.
August 2.	do.	Certificate renewed.
April 22.	Tobique,	Certificate granted for the River Saint John and Tributaries.
August 7.	do.	Certificate renewed.
April 12.	Antelope,	Certificate granted for the River Saint John and Tributaries.
April 27.	Richmond,	Certificate granted for the River Saint John above Fredericton.
May 1.	Bonnie Doon,	Certificate granted for the River Saint John above Fredericton.
October 11.	do.	Certificate renewed.
April 30.	Gazelle,	Certificate granted for the River Saint John above Fredericton.
May 1.	Prince of Wales,	Certificate granted for the Ferry, Harbour of Saint John.
August 2.	do.	Certificate renewed.
April 22.	Lady Colebrooke,	Certificate granted for the Ferry, Harbour of Saint John.
August 13.	do.	Certificate renewed.
Nov. 18.	do.	Certificate revoked, boiler unsafe.
April 19.	Forty Second,	Certificate granted for Ferry at Fredericton.
August 7.	do.	Certificate renewed.

I remain, Sir, yours very respectfully,

WM. M. SMITH, *Steamboat Inspector, St. John.*

Hon. S. L. Tilley, Provincial Secretary, &c. &c. &c.
